So Difficult!-?
AT THIS AGE—

But more difficult to learn as the years roll on.

The **hours** now spent while the brain is young lay the foundation of a musical training that would require **days** of study as the child grows older. The fingers respond more readily and the concentration of thought that is required of the youngster to accomplish something that Mother never learned is a training that is invaluable to the growing child.

Train the child early in life—not necessarily as a professional—but for its own amusement, as well as yours, and the pleasure received by you in the satisfaction of your child's ability will repay you a hundred fold.

The easy playing facilities of the Pease Petite Grand are an especial inducement for you to consider among the other superior qualities which make the Pease Piano the choice of many professional pianists.

We have just a few slightly used Player Pianos from $325 up. Very convenient monthly payments. Write for Player Booklet and bargain list.
