3 Kinds of Refrigerators

Take Your Choice!

There are three distinct classes of Refrigerators. Beginning at the bottom, they are:

1. **Low Grade**—the "bargain sale" kind. Cost little—worth less. Ice consumption enormous, efficiency almost nothing.
2. **Medium Grade**—pretty to look at—many of them really well built—but all of them lacking the two vital essentials of perfect refrigeration—(see 3.)
3. **Bohn Syphon**—the queen of all Refrigerators, and so acknowledged all over the world. No other Refrigerator is licensed to use the Bohn Syphon System of rapidly circulating pure, cold, *dry* air. No other Refrigerator is insulated with "Flaxlinum," the greatest heat-resisting insulation ever made. Ice consumption small—efficiency 100% — absolutely sanitary.

This illustration shows but little of the real merit of the Bohn—does not show its genine porcelain-fused-into-steel lining—does not show how it keeps everything cold, clean, and *dry*.

The car-builders know — practically all the refrigerator cars, fresh meat and fruit express cars, dining cars, etc., in this country today are equipped with the Bohn Syphon. The Refrigerators for home use are constructed on exactly the same principle.

Call and see our large line, in both wood and white porcelain casings. Some of the best styles, including the one illustrated above, are now marked at attractive prices.

We can sell you a Bohn from $16 up. If you cannot call, write for our handsome catalog. We are the mfrs., not middlemen.
