FINANCIAL AND COMMERCIAL.

Good News and Bad—Stocks Variable, Prices Little Changed.

SHORTS TWISTED IN LACKAWANNA

A Lively Movement to Cover in Sugar Trust Certificates.

WALL STREET, THURSDAY, Jan. 8, 6 P. M.

Good news and bad to-day caused a variable speculation, and prices ended within a small fraction of last evening's figures, the advances being more numerous than the declines.

The reduction of the Bank of England's discount rate from five per cent to four was the first incident. This action, together with the favorable statement made by the bank, reassured traders who had begun to fear that Berlin would find it difficult to obtain the gold needed at that centre.

Little effect was produced by the meeting of the Advisory Board of the new railway association. The street is waiting to see what it will do to-morrow after the committee appointed to-day to draft rules and bylaws shall have reported. So far as could be learned, all the representatives assembled were in an amicable and confident mood.

Favorable statements touching the condition of the coal and iron trades stimulated the party that has been marking up Lackawanna, and the bears had to "climb" for it. As against 4,000 shares yesterday transactions in that stock to-day ran above 31,000. It advanced 3¾ and closed at the highest. Among the conspicuous buyers were Messrs. Van Emburgh, John Wallace, G. W. Fuller and W. B. Wheeler.

The last named gentleman was also a buyer of Louisville, of Rock Island and of Sugar Refineries certificates, which were marked up 2¾ and closed at the top on the postponement of the hearing in the Cameron suit until the 16th inst. Missouri Pacific was strong in the early trade on buying by F. T. Adams & Co. and N. S. Jones, but fell off in the afternoon, when the whole market weakened a trifle.

The setback was due to several causes—"realizing" traders selling for a reaction, the lack of definite news, the railway meeting and, more than all, to a report that the free coinage Congressmen were talking more confidently and that President Harrison was beginning to lean in their direction. Bullion certificates, however, were dull and virtually unchanged. Pacific Mail was strong on moderate trading because of a belief that the House would reach a vote on the Shipping bill to-day. The Villards were notably buoyant, as was also Reading on the anticipated payment of interest on the income bonds.

Although the speculation was variable and narrow, the general temper is bullish. There is a steady absorption of bonds and the money market is growing better all the time. City banks to-day cancelled another $1,000,000 of Clearing House certificates, reducing the amount outstanding to less than $9,000,000. The declaration of a dividend of 2½ per cent on Denver and Rio Grande for the latter half of 1890 caused quite a flutter in that usually inactive property, and several of the specialties made sharp advances.

American Cotton Oil preferred rose 3½, presumably on the concern beginning suit against Mr. P. D. Armour for about $350,000 for breach of contract. Tennessee Coal and Iron preferred advanced 4 per cent, and Chicago and Eastern Illinois preferred made a further gain of 1½ on buying by insiders, who seem to be in possession of some favorable information. On the other hand 200 shares of Omaha preferred were sold at 80, a decline of 2½ from the last transaction made on Change in that stock, and 100 Chicago and Alton sold at 128, a decline of 1¾ from the last previous sale.

Sales at the Board amounted to 213,903 shares (silver bullion certificates not included), against 203,117 yesterday and 220,686 on Tuesday. Following is a summary of to-day's market:—
