HAER AL-210

INDEX TO BLACK AND WHITE PHOTOGRAPHS

Jet Lowe, photographer, September 2012

- | | |
|-----------|---|
| AL-210-1 | General view looking southeast of northern side of freight depot, showing head house at right and twentieth-century addition in middle of photograph. |
| AL-210-2 | Western facade of original headhouse, office building, and storage rooms. Note addition at left. |
| AL-210-3 | View of southeastern wall in process of being reinforced prior to dismantling of structure. |
| AL-210-4 | Southeast facade looking west. Note filled-in openings, presumably originally for locomotives or freight cars. |
| AL-210-5 | Elevation, south facade of offices, storage end of building. |
| AL-210-6 | Perspective view, southeast corner of freight shed. |
| AL-210-7 | Interior of nineteenth-century portion of freight shed, looking northeast. |
| AL-210-8 | Interior of freight shed at eastern end, looking east. Note filled-in openings in the middle of the photograph, which are also shown in AL-210-4. |
| AL-210-9 | Interior view looking west from eastern end of shed. |
| AL-210-10 | Interior view of north wall with sliding doors. Note "index numbers" on wall. |

Page 2

- AL-210-11 Interior view from inside the twentieth-century addition (probably 1960s or 1970s), looking west from east end.
- AL-210-12 Cold storage room in brick head house on first floor. Note cast-iron Egyptian-style column.
- AL-210-13 Entrance hallway at center of head house, looking east. Historic shed through center doorway. Iron door on right for record storage.
- AL-210-14 Detail of safe door and record storage room.
