architectural drawing (1906)
in the possession of the
Colorado Historical Society,
Denver, Colorado.
FIRST FLOOR PLAN, DETAIL

This plan appears to be a drawing of
the first floor lobby which was never
executed. The stairway between the
first and second floors is not
curved as shown in this drawing, and
lies parallel to the two elevators in
the lobby (similar to the stairway/
elevator configuration of the upper
floors). See photo CO-87-29 for a
drawing of the first floor stairway
as it was built.
