ELI WHITNEY ARMORY: FUEL STORAGE SHED  
HAER CT-2C

Location: East side of Mill River, south of Lake  
Whitney Dam  
Hamden, New Haven County, Connecticut  
UTM: 18.674880.4577950

Date of construction: c.1804

Significance: Built with the forge building, this  
structure stored coal or charcoal for use  
in the forge. The structure was described  
by Whitney's contemporaries, and the accu-  
racy of the description lends credibility  
to their accounts.

It is understood that access to this material rests on the condition that should any of it be used in any form or by any means, the author or draftsman of such material and the Historic American Engineering Record of the National Park Service at all times be given proper credit.
