Alcovy Road Bridge  
(County Road 73 Bridge)  
(GDOT Bridge #217/00073/X/000.01W)

HAER No. GA-62

Location: Spanning Alcovy River  
Covington, Newton County, Georgia

Date of Constructon: Unknown

Present Owner: Newton County  
Newton County Courthouse  
Covington, Georgia

Present Use: Vehicular bridge

Significance: The Alcovy Road Bridge is composed of two steel bolt connected Warren pony trusses with verticals and one pin-connected Pratt through truss. The overall length of the bridge is 225 feet. The bridge is 12 feet in width and has a timber deck. This bridge is one of 73 Pratt trusses recorded in Georgia and one of 41 trusses identified as a Pratt through truss. It is one of four such bridges recorded in Newton County and the only bridge in Newton County composed of more than one truss.

Project Information: This documentation was undertaken in 1984, in accordance with the Memorandum of Agreement with the Federal Highway Administration, as a mitigative measure prior to demolition.
