Boston Elevated Railway Company:  
Elevated Mainline Structure  
(MBTA - Orange Line)

HAER No. MA-14

Boston  
Suffolk County  
Massachusetts

Note: These photographs are government material and not subject to copyright. However the courtesy of a credit line identifying the Historic American Engineering Record and the photographer would be appreciated. All photographs were taken by Richard Cheek, Architectural Photographer, Belmont, MA, in 1982.

- MA-14-1 View of the Concrete Incline linking the elevated Mainline structure to the South Portal of the Washington Street Tunnel - looking North.
- MA-14-2 View of Mainline elevated structure, parallel to Washington Street, crossing over the Massachusetts Turnpike and the B&A R.R. tracks - looking North.
- MA-14-3 View underneath Mainline elevated structure - looking North at Herald Street (formerly Castle Street) and Washington Street. This is the former location of Tower "D" and the Castle Street Wye.
- MA-14-4 View of remnants of former Tower "D" - looking East along Herald Street (formerly Castle Street at Washington Street).
- MA-14-5 View of former Castle Street Wye - looking East along Herald Street (formerly Castle Street). To the right is the Massachusetts Turnpike and the tracks of the former B&A R.R.

- MA-14-6 View underneath the elevated Mainline Structure - looking North - along Washington Street near the corner of former Cobb and Asylum Streets.
- MA-14-7 Washington Street - looking North - under Mainline elevated structure near the corner of former Cobb Street.
- MA-14-8 West Elevation of Dover Street station - looking East along East Berkeley Street (formerly Dover Street).
- MA-14-9 East Elevation of Dover Street Station - looking West along East Berkeley Street (formerly Dover Street).
- MA-14-10 Dover Street station platform - looking North along the Mainline.
- MA-14-11 Dover Street station platform - looking South along the Mainline at the Cathedral.
- MA-14-12 View underneath Dover Street station along Washington Street - looking South.
- MA-14-13 View underneath elevated Mainline structure - looking North - along Washington Street, near the corner of former Hawthorne Street at Bent #1172.
- MA-14-14 View of elevated Mainline structure - looking North - along Washington Street at Bent #1154 and #1155 near Waltham Street.

- MA-14-15 View of elevated Mainline structure - looking North - along Washington Street at Bent #1162 near former Wilkes Street.
- MA-14-16 View of elevated Mainline structure - looking South along Washington Street toward the Cathedral at Bent #1170 near the corner of former Groton Street at right and the former Laconia Street at left.
- MA-14-17 View of elevated Mainline structure - looking South - along Washington Street near former Laconia Street and Bent #1168.
- MA-14-18 View underneath elevated Mainline structure - looking North - along Washington Street near Arnold Street at the left.
- MA-14-19 View of elevated Mainline structure - looking Southeast - across Franklin Square park with the Franklin Square House in the background.
- MA-14-20 View of elevated Mainline structure - looking South - along Washington Street and across Blackstone Park.
- MA-14-21 Northampton Street station - looking North along the Mainline.
- MA-14-22 Northampton Street station - Detail of Column Cap supporting canopy framing.
- MA-14-23 Northampton Street station - looking North - along platform underneath canopy at intersection of Washington Street and Massachusetts Avenue (formerly Chester Park).

- MA-14-24 View of elevated Mainline structure and Northampton Street Station  
- looking Northeast - along Washington Street at the corner of  
Northampton Street.
- MA-14-25 West Elevation of elevated Mainline structure and Northampton Street  
station looking Northeast.
- MA-14-26 View underneath elevated Mainline structure - looking North - along  
Washington Street at Junction of Sections F-3 and F-4 at Bent #1066  
near former Arnold Street.
- MA-14-27 East Elevation of elevated Mainline structure - looking West - at the  
intersection of Washington Street and the Melnea Cass Boulevard.  
View shows a contemporary flat box girder that replaced portion of  
older structure to allow wider new roadway to pass underneath (near  
the location of the former Sterling Street).
- MA-14-28 Dudley Street station - looking West - Northbound loop and Tower "F".
- MA-14-29 View of East Loop of Dudley station - looking West - from Warren  
Street showing 1908 reconstruction of this portion.
- MA-14-30 Interior view of Dudley Street station surface level - looking  
Southwest - at Ziegler Street. Both levels have been converted from  
streetcar tracks to busways.
- MA-14-31 Interior view of Dudley Street station surface level - looking  
Northeast under East Loop.

- MA-14-32 Interior view of Dudley Street upper level - looking West toward the Northbound Mainline platform.
- MA-14-33 Interior view of Dudley Street station upper level - looking South toward the South toward incline and bus turnaround.
- MA-14-34 Interior view of Dudley Street station Northbound platform - looking West toward the former waiting room.
- MA-14-35 Interior view of Dudley Street station showing column support for canopy at the South end of the Northbound platform.
- MA-14-36 Interior view of Dudley Street station Mainline Northbound platform - looking North.
- MA-14-37 Interior view of Dudley Street station Mainline Northbound platform - looking South.
- MA-14-38 View of Dudley Street station - looking North from Tower "F" at the Mainline Southbound Platform and Pedestrian Bridge.
- MA-14-39 West elevation of Mainline elevated structure and the Southbound platform at Dudley Street station.
- MA-14-40 Dudley Street station - close-up view of scene in MA-14-39 - looking East - at Bent and location of former West Loop.
- MA-14-41 West Elevation of Dudley Street station - looking East at location of former West Loop and West Elevation of Terminal housing Northbound

platform. Ziegler Street passes underneath structure at right.

- MA-14-42 View underneath elevated Mainline structure - looking North - along Washington Street at Northerly junction of tracks at Dudley Street station.
- MA-14-43 South Elevation of Dudley Street station - looking North. Location of former West Loop is at left. Entrance to Northbound Platform of Terminal is at center, and East Loop is at right.
- MA-14-44 Dudley Street station. View from Tower "F" - looking South - toward Bartlett Street Garage site of the former Guild Street elevated storage yard. The Bartlett Building (burned June 27, 1982) is on the right.
- MA-14-45 Former Guild Street Yard - looking East from Washington Street at remains of Repair Shop Foundation.
- MA-14-46 View underneath elevated Mainline Structure - looking North - along Washington Street at the corner of Guild Street. This is the junction of Section F-4 and F-5 and is the beginning of the Forest Hills extension of the Mainline.
- MA-14-47 View underneath elevated Mainline (Section F-5) structure - looking North - along Washington Street toward Guild Street. At the right is the approximate location of the former Cedar Street.

- MA-14-48 View underneath elevated Mainline (Section F-5) structure - looking North - along Washington Street towards Guild Street near the former Cedar Street.
- MA-14-49 East elevation of elevated Mainline Structure (Section F-5) - looking West - toward Washington Street near Marcella Street. Highland Park and the Water Tower are in the background.
- MA-14-50 View underneath elevated Mainline structure (Section F-5) - looking South - near Townsend Street.
- MA-14-51 View underneath elevated Mainline structure (Section F-5) - looking South - near former Kingbury Street. This view shows lattice truss cross bracing.
- MA-14-52 View underneath elevated Mainline structure (Section F-5) - looking South - along Washington Street towards Bragdon Street and showing lattice truss cross bracing.
- MA-14-53 View underneath elevated Mainline structure (Section F-5) - looking North - along Washington Street toward Bray Street. Former New England Hospital is in the background.
- MA-14-54 West elevation of portion of elevated Mainline structure (Section F-5) over Washington Street - looking East - at the corner of Bray Street.

- MA-14-55 View underneath elevated Mainline structure (Section F-5) - looking Northwest toward Bray Street and the Egleston Square Power sub-station. Lattice work joist and crossbracing dominate structure.
- MA-14-56 East Elevation of the Egleston Square Power sub-station showing brick and stucco exterior.
- MA-14-57 Egleston Square Station - West Elevation - looking East across Washington Street from Columbus Avenue.
- MA-14-58 Egleston Square Station - East Elevation - looking Northwest across Washington Street and along Columbus Avenue.
- MA-14-59 View underneath Egleston Square station - looking North - along Washington Street showing cantilevered members supporting platform.
- MA-14-60 Egleston Square station Mainline platform - looking North - underneath canopy.
- MA-14-61 Egleston Square station Mainline platform - looking South - underneath canopy.
- MA-14-62 West elevation Mainline structure (Section F-5) - looking East across Washington Street. Arched girder crosses over intersection at School Street.
- MA-14-63 View underneath elevated Mainline structure (Section F-5) - looking North - along Washington Street near the corner of Green Street.

- MA-14-64 East elevation Green Street Station - looking West - across Washington Street and along Green Street.
- MA-14-65 Green Street station - looking North along platform of Mainline.
- MA-14-66 View underneath Green Street station - looking North - along Washington Street at corner of Green Street.
- MA-14-67 West elevation Green Street station - looking East across Washington Street along Green Street. In foreground is the reconstructed version of the intermediate level passenger platform which was originally suspended from the elevated structure.
- MA-14-68 Interior view of the reconstructed intermediate level passenger platform showing turnstiles and change booths.
- MA-14-69 View underneath elevated Mainline structure (Section F-5) - looking North - along Washington Street near the corner of the former Lotus Place. Arborway Yards and garage are at the right.
- MA-14-70 View underneath elevated Mainline structure (Section F-5) - looking North along Washington Street - from the corner of Brookley Road.
- MA-14-71 View underneath elevated Mainline structure (Section F-5) looking South - along Washington Street toward Forest Hills at Burnet Street. Arborway Yard is at right.

- MA-14-72 View of elevated Mainline structure - looking North - along Washington Street at juncture of Section F-5 and Section F-6 (the concrete enclosed portion of structure). Remaining stub of the former incline that led down to the Arborway storage yards is at the right.
- MA-14-73 View of concrete covered portion of elevated Mainline Structure (Section F-6) - looking Northeast along Washington Street at intersection of Arborway. Arborway overpass crosses overhead at left. In the background is the start of Section F-5. Arborway yard is at the center in the background.
- MA-14-74 East elevation of elevated Mainline structure (Section F-6) - looking West - along the Arborway toward the masonry bridge carrying the former New Haven R.R. tracks over the Arborway. Arborway overpass is at upper right.
- MA-14-75 Southeast elevation of Forest Hills station - looking Northwest - from junction of Washington and Walk Hill Streets. At left is the beginning of Section F-7 the exposed steel portion of elevated structure leading to the Forest Hills storage yard (demolished in 1985).
- MA-14-76 Bird's eye view of Forest Hills station - looking Southeast - from the Arborway overpass. Storage yards are in the background at the left.

- MA-14-77 Interior view Forest Hills station showing the intermediate level stair platform which is suspended from the main structure.
- MA-14-78 View underneath Forest Hill station along the surface platform looking North.
- MA-14-79 View of upper level platform at Forest Hills station - looking North.
- MA-14-80 West elevation Forest Hills station - looking East across site of former New Haven Railroad station.
- MA-14-81 Interior view of the Forest Hills repair shop - looking North.
- MA-14-82 View of Forest Hills storage yards - looking North - from roof of Tower "H". This portion is designated as Section F-7.
- MA-14-83 Interior view of Tower "H" located on the roof of the Forest Hills repair shop - looking West - over storage yards.
- MA-14-84 View of upper level platform at Eagleston Square Station - looking South.
- MA-14-85 Interior view of Dudley Street Station surface level - looking West underneath former location of the West Loop. Overhead passageway connecting Southbound platform to the main station is at the left.
