|----------|--|
| TX-122-1 | Left side elevation of tandem-rotor helicopter. Note the upward bend midway along length of fuselage.  |
| TX-122-2 | 3/4 view from front looking towards back along left side with plexiglass nose.   |
| TX-122-3 | Detail of forward section from the left side with one of two three-bladed, fully-articulated horizontal rotors. Note the Fairchild plane in the background (see HAER TX-121 for more photos of that aircraft). |
