Wendover Air Force Base,
Boiler House (Base Engineering
Maintenance Shop)
(Building No. 1807)
HABS NO. UT-125-Y
Page 1

The small, 580 square foot, structure is located behind #1800. It was built from plan WB 13-8 by H & D for \$786.70 in 1944. The type of construction is "Semi-Permanent," "Mobilization." The shop is located behind the fire station (building 1800) and is accessed off 7th Street.

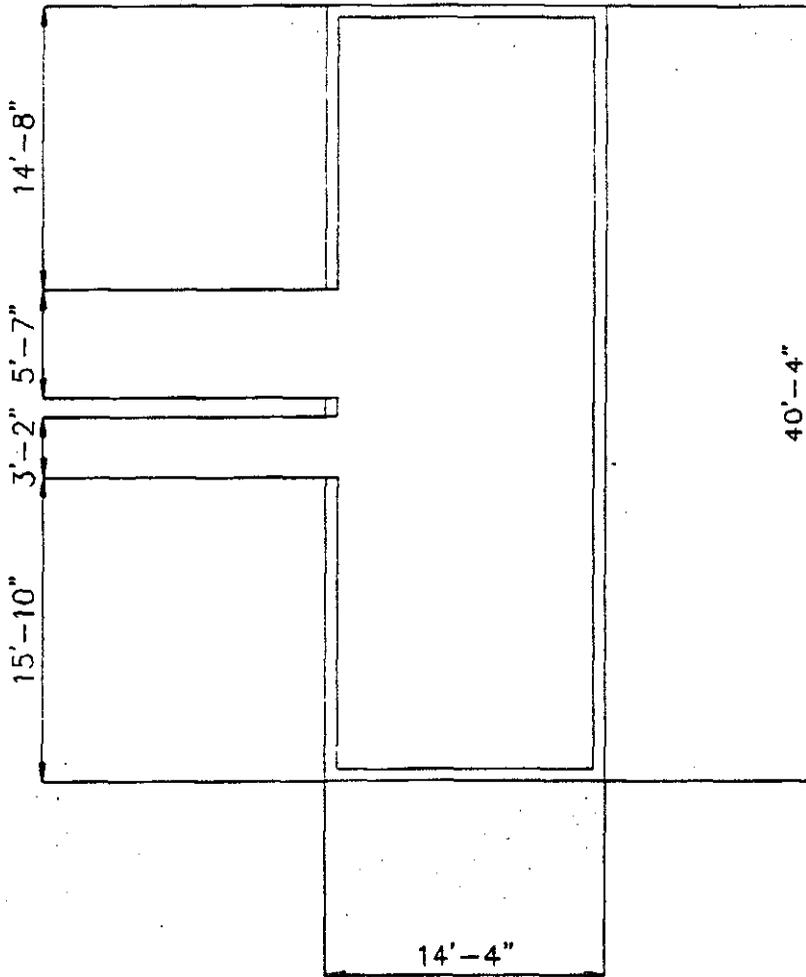

Rectangular in plan, building 1807 measures 14 feet-4 inches by 40 feet-4 inches. It has a concrete slab foundation, wood frame walls, and a gabled roof with composition rolled roofing. The exterior is clad with horizontal wood siding. The windows are 8/8 double-hung wood sashes, 3 on the east, one each on the other three walls. On the east are three narrow, wood-paneled doors. The building needs paint and some glass panes but seems to be in good structural condition. It has recently been used for storage purposes.
