Otter Creek
Middlebury
Addison County
Vermont

INDEX TO BLACK AND WHITE PHOTOGRAPHS

Martin Stupich, photographer, April 2015

- | | |
|---------|--|
| VT-31-1 | North elevation of bridge above Middlebury Lower Dam, from west bank of Otter Creek; view to south. |
| VT-31-2 | Closer view of north elevation above dam; view to south. (Note that the steel lattice beam is not part of the bridge but is a free-standing structure that carries a water pipe beneath the pedestrian walkway.) |
| VT-31-3 | View of east portal of double barrel bridge, showing pedestrian walkway at left; view to west. |
| VT-31-4 | Oblique view of bridge, showing west portal, concrete abutment and pedestrian walkway; view to northeast. |
| VT-31-5 | View of west portal; view to east. |
| VT-31-6 | Oblique view of west portal and north side of bridge; view to east. |
| VT-31-7 | Interior view showing (left to right) outer south Burr-arch truss, east bound deck, inner arches flanking center truss, westbound deck (measuring 8'), and outer north Burr-arch truss. |
| VT-31-8 | Interior westbound deck, showing inner and outer arches. 8' scale in foreground; view to west. |
| VT-31-9 | Detail of posts and diagonals of inner truss, view to south. |
