Water Depth

Scale: 1:4,750,000
Lambert Azimuthal Equal Area Projection, +8° 11'E

*The latest official supplements of the Spratly Islands Maritime Claims Resolution Agreement are available through the China National Map Library. The map shows the positions and contiguity of land masses subject to the dispute.

*In the South China Sea, some features are shown with water above and below the contour lines to demonstrate the complexity of the area.
