(ii) Abrasive optical powders, abrasive flours, blasting grain, reclaimed grain, refractory grain, firesand, and other manufactured abrasive and refractory grain specialties, whether or not classified as to particle size.

The term does not include unfused or levigated alumina or natural abrasives such as emery, garnet, corundum and flint.

(5) "Reclaimed grain" means:

(i) Any abrasive grain recovered from wheel stubs or other baked or fired abrasive or refractory stock including lathe room turnings and dressings. The term does not include green shavings.

(ii) Any abrasive grain recovered from coated abrasive products;

(iii) Any abrasive grain previously used in grain form or on wheels in blasting, grinding, or polishing operations.

(6) "Aluminum oxide wheel grain" means any abrasive grain manufactured from fused aluminum oxide which is basically suitable for use in vitrified or resinoid bonded grinding wheels;

(7) "Producer" means any person who is engaged in the manufacture of bonded or coated abrasive products;

(8) "Importer" means any person who imports bonded or coated abrasive products from sources outside the forty-eight states of the United States, and the District of Columbia;

(9) "Ultimate purchaser" means any person who purchases bonded or coated abrasive products for use and not for resale.

(b) *Limitation on manufacture and sale of bonded abrasive products.* (1) On and after August 1, 1943, no producer or importer shall manufacture or sell any bonded abrasive product which contains abrasive grain manufactured from fused aluminum oxide (other than reclaimed grain) of any grit size 80 or coarser, which he knows or has reason to believe is intended for use as one of the bonded abrasive products listed on Schedule A-1.

(2) Similarly, on and after August 1, 1943, no producer or importer shall manufacture or sell any bonded abrasive product containing aluminum oxide wheel grain (other than reclaimed grain) of any grit size 80 or coarser, which he knows or has reason to believe is intended for use as one of the bonded abrasive products listed on Schedule A-2.

(3) Any producer or importer may, however, sell any bonded abrasive product which he knows or has reason to believe was manufactured prior to August 1, 1943.

(c) *Limitation on manufacture and sale of rubber bonded abrasive products.* In addition to the limitations contained in paragraph (b), the following limitations shall apply to the manufacture and sale of rubber bonded abrasive products:

(1) On and after August 1, 1943, no person shall manufacture, buy, or sell rubber bonded abrasive products other

than those listed in Schedule B-1, except as provided in the following paragraph (c) (2):

(2) Any person may also manufacture, buy, or sell any rubber bonded abrasive product required to perform any of the operations listed on Schedule B-2; *Provided, however,* That no person shall fill any order from an ultimate purchaser for a rubber bonded abrasive product other than the products listed on Schedule B-1 unless such order is accompanied by a certification by the ultimate purchaser, signed manually or as provided in Priorities Regulation No. 7, substantially as follows:

The rubber bonded abrasive products specified on this purchase order are required by the undersigned to perform one or more of the operations listed on Schedule B-2 of Conservation Order M-319-a.

(3) The grade of rubber compound to be used in any rubber bonded abrasive products is governed by the provisions of List 13 of Appendix II to Rubber Order R-1.

(d) *Use of rubber cement.* The use of rubber cement as a tie gum for mounting abrasive blocks, discs, or wheels is not restricted by this order.

(e) *Limitation on manufacture and sale of coated abrasive products.* On and after August 1, 1943, no producer or importer shall coat or sell any coated abrasive product containing abrasive grain manufactured from fused aluminum oxide (other than reclaimed grain) of any grit size 80 or coarser, which he knows or has reason to believe will be used for any of the purposes listed on Schedule C. Any producer or importer may, however, sell any coated abrasive product which he knows or has reason to believe was manufactured prior to August 1, 1943.

(f) *Limitation on inventories.* No person shall accept delivery of any bonded or coated abrasive product if the delivery will give him an inventory greater than that which he will need under his current practices during a period of sixty days, or greater than a minimum practicable working inventory, whichever is smaller. However, the following types of orders shall not be subject to this provision:

(1) Purchase orders placed by the Army, Navy, or Maritime Commission for bonded or coated abrasive products required for bases or supply depots outside the forty-eight states of the United States and the District of Columbia, or for bases or supply depots within the United States which are maintained for emergency purposes, or to supply such bases or supply depots outside the United States.

(2) Any purchase order specifically excepted from this restriction by the War Production Board.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priorities control, and may be deprived of priorities assistance.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

PART 1421—IRON AND STEEL FOUNDRY PRODUCTS

[MPR 214, Amdt. 1]

HIGH ALLOY CASTINGS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 214 is amended in the following respects:

1. Section 1421.3 is amended to read as follows:

§ 1421.3 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

2. Section 1421.8 is amended to read as follows:

§ 1421.8 *Petitions for amendment and applications for adjustment.* (a) Any producer who has entered into or proposes to enter into a contract for the sale of high alloy castings, who believes that the maximum price for such high alloy casting as established by this regulation impedes or threatens to impede the production of high alloy castings which are essential to the war program and which are or will be the subject of a contract for production essential to the war program may apply for, and the Price Administrator may grant, adjustment of the maximum price. The application for adjustment pursuant to this paragraph shall be made on Form No. 314:1 set out in Appendix D, incorporated herein as § 1421.18, or on a copy of said form made by applicant, and separate forms shall be used for each high alloy casting of different design or specification. Applications for such ad-

*Copies may be obtained from the Office of Price Administration.

17 F.R. 7001, 8948.

Justment must be filed in accordance with Revised Procedural Regulation No. 1² issued by the Office of Price Administration.

(b) Any person seeking an amendment of any provision of Maximum Price Regulation No. 214 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

3. Section 1421.13 (a) (3) is amended to read as follows:

(3) "High alloy casting" means any heat-resistant casting or corrosion-resistant casting, rough or machined, which has a ferrous and/or nickel base and which contains more than 8% alloy, and also means any chrome iron abrasion-resistant casting, rough or machined, which has a ferrous base and which contains more than 8% alloy. This definition does not include wear-resistant castings containing 10% or more manganese and commonly known as "Hadfield manganese" steel castings.

4. Section 1421.13 (a) (4) is amended to read as follows:-

(4) "Heat-resistant casting" means chrome, nickel-chrome or chrome-nickel high alloy casting, which normally operates at a metal temperature of 900° Fahrenheit or higher, except castings used up to 1200° Fahrenheit operated under conditions of high pressure and corrosion.

5. Section 1421.13 (a) (5) is amended to read as follows:

(5) "Corrosion-resistant casting" means any chrome, nickel-chrome or chrome-nickel high alloy casting, which normally operates in contact with corrosive agents at temperatures less than 900° Fahrenheit, including castings used up to 1200° Fahrenheit under conditions of high pressure and corrosion.

6. Section 1421.13 (a) (9) is amended to read as follows:

(9) "Machining" means any operation beyond the normal foundry processes performed for the purpose of providing casting surfaces or dimensions to conform to specifications of the purchaser.

7. Footnote 9 of § 1421.15 (a) (1) (ii) is amended to read as follows:

Example: Assume the highest price in the base period was established by a sale of 8 25-lb. heat-resistant castings, 87% (65%-69% tolerance) nickel and 17% (15%-19% tolerance) chromium analysis, at \$1.00 per lb. An order is received after the effective date of this Maximum Price Regulation No. 214 for another 8 castings of the same design but of an analysis of 35% (34%-36% tolerance) nickel and 15% (13%-17% tolerance) chromium. This is 32% less nickel and 2% less chromium than the base period sale. The applicable per lb. differential (§ 1421.16 (b)) is .5¢ for nickel and .2¢ for chromium for each 1% difference in content. The maximum price for the rough castings on the new order is 83.6¢ per lb. computed as follows:

32 × .5¢ = 16.0¢ deduction for nickel
 2 × .2¢ = .4¢ deduction for chromium
 16.4¢ per lb. total deduction
 \$1.00 - 16.4¢ = 83.6¢ per lb.

² 7 F.R. 8961

8. Section 1421.15 (a) (2) is amended to read as follows:

(2) *Extras.* There may be added to the maximum price of the rough casting an amount for extras, other than machining, not in excess of the amount customarily charged by such producer on similar sales during the base period, but only where such extras are furnished and have not already been included in the maximum price for the rough casting. Where a producer had no customary base period extra where castings were subject to rejection by non-destructive examination, the maximum extra which may be charged shall be such charge as may be approved by the Office of Price Administration, Washington, D. C. upon submission by the producer of a proposed charge together with data substantiating the fairness and equity of such charge.

9. In the headings of the tables in § 1421.16 (a) (1) and (2) and in § 1421.16 (b) the words "number of castings per pattern" are amended to read "Number of castings per pattern per order."

10. Section 1421.16 (a) (3) (i) is amended to read as follows:

(i) *Nickel and/or chromium:*
 Nickel, 0.8¢ per lb. for each 1% difference.
 Chromium, 0.6¢ per lb. for each 1% difference.

Provided, That on chrome, or chrome-nickel alloys where the chromium content is in excess of 8% and the nickel content, if any, is less than 3% and no other alloying elements are present, no deductions need be made from the base price in the schedules in subparagraphs (1) and (2) above on account of nickel difference from the basic analysis.

11. The alloy designation "GG-7MC" in footnote 10 to § 1421.16 (a) (3) is amended to read "GG-7MC".

12. Footnote 11 to § 1421.16 (b) is amended to read as follows:

Example:

Alloy designation	Chromium	Nickel
HS-----	Percent 8-12	Percent 2-32
Chromium, deduct.....		Cents 3.0
Nickel, add.....		0.6
Add to base price.....		6.5

13. The list of price differentials for nickel-chromium alloy content differences in § 1421.16 (b) is amended to read as follows:

Nickel and/or chromium:
 Nickel, 0.5¢ per lb. for each 1% difference.
 Chromium, 0.2¢ per lb. for each 1% difference.

Provided, That on chrome, or chrome-nickel alloys where the chromium content is in excess of 8% and the nickel content, if any, is less than 3% and no other alloying elements are present, no deductions need be made from the base price in the schedules in paragraphs (a) (1) and (a) (2) above on account of nickel difference from the basic analysis.

14. Section 1421.17 (a) (2) is amended to read as follows:

(2) *Special specification extras.* An extra charge of 5¢ per pound may be added to the pound price for castings that are subject to United States Navy specifications 46-S-27A or 46-S-27 (INT).

15. A new subparagraph (5) is added to § 1421.17 (a) to read as follows:

(5) *Non-destructive examination.* When castings are subject to rejection by non-destructive examination there may be added an amount not in excess of the selling producer's customary base period extra on similar sales. Where the selling producer had no customary base period extra, the maximum extra which may be charged shall be such charge as may be approved by the Office of Price Administration, Washington, D. C., upon submission by the producer of a proposed charge together with data substantiating the fairness and equity of such charge.

16. Section 1421.17 (b) is amended to read as follows:

(b) The following are the maximum charges for machining where furnished and applicable:

(1) *Where performed by an independent machine shop.* (i) Where machining of high alloy castings is let out to independent machine shops by a producer who customarily let out such machining on March 31, 1942, the machining charge which may be added shall not exceed the price paid or payable by such producer to the independent machine shop for the machining plus such additional charge, if any, as would have been customarily made by such producer on March 31, 1942; *Provided,* That each producer who customarily let out machining on high alloy castings to independent machine shops on March 31, 1942 shall file with the Iron and Steel Branch, Office of Price Administration, Washington, D. C., on or before August 17, 1943 a statement of his customary method on March 31, 1942 of computing charges for such machining. This filing need not be made if his customary method on March 31, 1942 was the same as between October 1 and October 15, 1941 and he has already filed with the Office of Price Administration his method on the latter date. (ii) Where a producer did not customarily let out machining of high alloy castings to independent machine shops on March 31, 1942 and, at any time on or after August 17, 1943, does let out such machining, to an independent machine shop, his charge for such machining may not exceed the price paid or payable by him to the independent machine shop for such machining; *Provided,* That if the Office of Price Administration has approved for such producer an additional charge for machining let out to independent machine shops, such charge may be added. In order to obtain approval of an additional charge the producer must submit to the Iron and Steel Branch of the Office of Price Administration, Washington, D. C. a proposed ad-

ditional charge together with data substantiating the fairness of the proposed charge. Where such proposed additional charge and the substantiating data have been submitted, the Office of Price Administration shall, in writing, approve or disapprove such charge, or may approve such charge as it may deem fair and equitable, within thirty days from the time the proposed additional charge is received by said Iron and Steel Branch. If no action is taken within these thirty days, the proposed charge shall be deemed approved. Pending approval or disapproval as above, the producer may use the proposed charge subject to adjustment in accordance with the determination of the Office of Price Administration.

(2) *Where performed by the producer.*

(i) If a producer had machine-hour rates in effect on March 31, 1942 for the machining of high alloy castings sold by him, the maximum charge which may be added shall not exceed the net charge, computed by use of said machine-hour rates, which the producer customarily would have made on March 31, 1942 to the purchaser. (ii) Where a producer had no machine-hour rates in effect on March 31, 1942 the maximum charge which may be added for machining of high alloy castings sold by him shall be determined by application of the methods of estimating costs and prices, labor rates, overhead rates, material and other costs and profit margins in effect for such producer on March 31, 1942. "Labor rates in effect on March 31, 1942" are the labor rates prevailing on that date in the producer's machine shop for each classification of labor: *Provided*, That where such producer employs labor of a classification not employed on March 31, 1942, he shall apply the rate prevailing on that date for such classification in the locality in which the machining is to be performed or, if such classification was not used in that locality on March 31, 1942, he shall apply the rate prevailing on that date for the nearest skill in his locality as accurately as he is able to determine the same with reasonably diligent inquiry. (iii) Where a producer did not customarily on March 31, 1942 machine high alloy castings sold by him, or where he has acquired new machines since March 31, 1942 for which maximum charges are not established by (i) or (ii) above, the maximum charge which may be added in such cases for machining shall be not in excess of such charge as is determined in accordance with a price determining method approved for such producer by the Office of Price Administration. Where such producer wishes to add a charge for machining in such cases he must submit to the Iron and Steel Branch of the Office of Price Administration, a proposed price determining method for ascertaining such a charge together with data substantiating it. The Office of Price Administration shall, in writing, approve or disapprove such price determining method or may approve such price determining method as it may deem fair and equitable within

thirty days from the date such proposed price determining method is received by said Iron and Steel Branch. If no action is taken within these thirty days the proposed price determining method shall be deemed approved. Pending approval or disapproval as above, the producer may use the proposed price determining method subject to adjustment in accordance with the determination of the Office of Price Administration.

17. Footnote 2 of § 1421.19 is amended to read as follows:

² If the practice of your foundry is to allocate shop overhead to departments, report overhead by departments. If, however, "General Shop Overhead" is not broken down by departments, report only as "General Shop Overhead". If shop overhead by departments is used as well as "General Shop Overhead" not directly applicable to departments, report both by departments and also by "General Shop Overhead".

18. The verification in Form 314:2 in § 1421.19 is revoked and a certification is added to Form 314:2 to read as follows:

Name of Applicant Officer Signing Title
I certify that the statements contained herein are true and complete, and, to the best of my knowledge and belief, the estimates contained herein are correct.

¾ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES D-1944

JULY 22, 1943.

I. OFFERING OF CERTIFICATES

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par and accrued interest, from the people of the United States for certificates of indebtedness of the United States, designated ¾ percent Treasury Certificates of Indebtedness of Series D-1944, in exchange for Treasury Certificates of Indebtedness of Series B-1943, maturing August 1, 1943. In addition, \$900,000,000, or thereabouts, of the new certificates are offered for subscription for their own account by commercial banks, which are defined for this purpose as banks accepting demand deposits.

II. DESCRIPTION OF CERTIFICATES

1. The certificates will be dated August 2, 1943, and will bear interest from that date at the rate of ¾ percent per annum, payable on a semiannual basis on February 1 and August 1, 1944. They will mature August 1, 1944, and will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all Federal taxes, now or hereafter imposed. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates with interest coupons attached will be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. SUBSCRIPTION AND ALLOTMENT

1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Subscribers must agree not to sell or otherwise dispose of their subscriptions, or of the securities which may be allotted thereon, prior to the closing of the subscription books. Banking institutions generally may submit exchange

subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies. Others than banking institutions will not be permitted to enter subscriptions except for their own account. Cash subscriptions from commercial banks for their own account will be received without deposit but will be restricted in each case to an amount not exceeding the combined capital, surplus and undivided profits, or 5 percent of the total deposits, whichever is greater, of the subscribing bank.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, subscriptions in payment of which Treasury Certificates of Indebtedness of Series B-1943 are tendered will be allotted in full. All cash subscriptions will be allotted on an equal percentage basis, to be publicly announced. Allotment notices will be sent out promptly upon allotment.

IV. PAYMENT

1. Payment at par and accrued interest, if any, for certificates allotted on cash subscriptions hereunder must be made or completed on or before August 2, 1943, or on later allotment. Any qualified depository will be permitted to make payment by credit for certificates allotted to it up to any amount for which it shall be qualified in excess of existing deposits, when so notified by the Federal Reserve Bank of its District. Treasury Certificates of Indebtedness of Series B-1943, maturing August 1, 1943, will be accepted at par in payment for any certificates subscribed for and allotted, and should accompany the subscription.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[Docket No. A-1956]

DISTRICT BOARD 11

MEMORANDUM OPINION AND ORDER MODIFYING TEMPORARY RELIEF HERETOFORE GRANTED AND TERMINATING TEMPORARY RELIEF

In the matter of the petition of District Board No. 11 for the establishment of temporary price classifications and minimum prices for Mine Index No. 1390.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was filed with the Division on April 21, 1943 by the above-named party which requested the temporary establishment of price classifications and minimum prices for the coals of the Minnehaha Seventh Vein Mine, Mine Index No. 1390. The petition recited that Mine Index No. 1390 is a new mine being developed in the seventh vein seam which would not be operating on a full schedule for three or four months from the date of the petition because of undelivered equipment, and requested permission to mix temporarily the production of the Minnehaha Seventh Vein Mine in average proportions of 25 percent seventh vein coal with 75 percent sixth vein coal produced by the Minnehaha Sixth Vein Mine in order to dispose of the current production of the coals produced by Mine Index No. 1390.

By order issued April 27, 1943 in the above-entitled matter temporary relief was granted as requested, except that no limitation was imposed upon the proportions in which the coals of the two

mines were to be mixed, because of the indefiniteness of the limitation proposed by the petition and because it did not appear that any person would be prejudiced by the absence of such limitation.

Subsequent to the date of the order granting temporary relief in the above-entitled matter, the Bituminous Coal Consumers' Counsel filed a motion requesting that the temporary relief granted by the Order dated April 27, 1943 be modified to provide that the minimum prices established therein be applicable only when the coals of the two mines are mixed in average proportions of 25 percent seventh vein and 75 percent sixth vein; that when such mixtures are sold the invoices properly identify the component coals comprising the mixture; and that the temporary relief terminate four months from the date of filing of the original petition, unless extended by the Director for a further limited period of time.

In support of this motion the Bituminous Coal Consumers' Counsel states, among other matters, that the failure of the said Order to provide a limitation in average proportions of 25 percent seventh vein coal produced by the Minnehaha Seventh Vein Mine mixed with 75 percent sixth vein coal produced by the Minnehaha Sixth Vein Mine, results in the granting of more relief than requested in the original petition, to the prejudice of consumers and that the invoices for the coals of said mixture should properly identify the component coals comprising the mixture, in order that the consumer may have notice of the kind of coal purchased.

Thereafter, petitioner filed a request that the motion of the Bituminous Coal Consumers' Counsel be denied. In support of this request petitioner set forth that the production of coal by the Minnehaha Seventh Vein Mine and the Minnehaha Sixth Vein Mine varies from day to day and that it would be impossible to determine more than by an approximation the amount of the mixture of seventh vein coal and sixth vein coal in any one car, and that since no accurate determination can be made of the percentage of seventh vein coal and sixth vein coal when mixed the invoices for such mixtures could not properly identify the proportions of the component coals. Petitioner further set forth that the code member is diligent in its efforts to secure the equipment necessary to place its Minnehaha Seventh Vein Mine in complete operation, and that a termination of the temporary relief heretofore granted four months from the date of filing of the original petition would merely require repeated extensions of temporary relief until the necessary equipment is installed at said mine.

Thereafter, petitioner filed a request that the motion of the Bituminous Coal Consumers' Counsel be denied. In support of this request petitioner set forth that the production of coal by the Minnehaha Seventh Vein Mine and the Minnehaha Sixth Vein Mine varies from day to day and that it would be impossible to determine more than by an approximation the amount of the mixture of

seventh vein coal and sixth vein coal in any one car, and that since no accurate determination can be made of the percentage of seventh vein coal and sixth vein coal when mixed the invoices for such mixtures could not properly identify the proportions of the component coals. Petitioner further set forth that the code member is diligent in its efforts to secure the equipment necessary to place its Minnehaha Seventh Vein Mine in complete operation, and that a termination of the temporary relief heretofore granted four months from the date of filing of the original petition would merely require repeated extensions of the temporary relief until the necessary equipment is installed at said mine.

It appears that the motion of the Bituminous Coal Consumers' Counsel to limit the mixture of the coals produced by the Minnehaha Seventh Vein Mine with Minnehaha Sixth Vein Mine in average proportions of 25 percent seventh vein and 75 percent sixth vein, respectively, and to terminate the temporary relief heretofore granted four months from the date of filing the original petition should be denied, for the reasons that it would be difficult if not impossible to determine as to each car the proportions of the mixture, and that the termination of the temporary relief on a specific date has been rendered moot in view of the fact that the Bituminous Coal Act of 1937 will cease to be in effect on August 24, 1943.

It appears, however, that even though it may be impracticable to ascertain the proportions of the mixture shipped in each carload, it is feasible for invoices covering mixtures of the coals involved to indicate that the shipment includes both Minnehaha Seventh Vein Mine and Minnehaha Sixth Vein Mine coals.

Now, therefore, it is ordered, That "Supplement R" attached to and made a part of the Order Granting Temporary Relief, issued April 27, 1943, in the above-entitled matter be, and it hereby is, amended by adding thereto the following language: "When coals produced at Mine Index No. 1390 are mixed with the coals produced at Mine Index No. 60 the invoices for such mixture of coal shall indicate the identity and source of the coal."

It is further ordered, That the said order issued in the above-entitled matter on April 27, 1943, shall terminate as of 12:01 a. m., August 24, 1943.

Dated: July 20, 1943.

[Region III Order G-12 Under 18 (c)]

FLUID MILK IN INDIANA

Order No. G-12 under § 1499.18 (c), as amended, of the General Maximum Price Regulation (formerly No. III-1499.18 (c)-15)—Order Adjusting the Maximum Prices of Fluid Whole Milk Sold at Retail and Wholesale in the State of Indiana.

For the reasons set forth in the opinion attached hereto and made a part hereof, and pursuant to the authority vested in the Regional Administrator of Region III under the provisions of § 1499.18 (c) of the General Maximum Price Regulation, and notwithstanding the provisions of § 1499.2 thereof, *It is hereby ordered*, That:

I. *Sales of fluid whole milk.* Except as to such sales and deliveries of fluid whole milk as are specifically described in section II hereof, any person making sales or deliveries of fluid whole milk at retail or wholesale in the State of Indiana may add to the maximum prices established for him under the provisions of § 1499.2 of the General Maximum Price Regulation, the increases provided in Schedule A hereof.

II. *Exceptions.* A. Notwithstanding the provisions of paragraph I and Schedule A hereof, any person making sales or deliveries of fluid whole milk at retail or wholesale in the County of Marshall, Indiana, may, in addition to the increases provided for in said Schedule A, add one-half cent per quart on all sales and deliveries of fluid whole milk in quart containers.

B. Notwithstanding the provisions of paragraph I hereof, there shall be no increase in the price of fluid whole milk sold at retail or wholesale in the Counties of Grant, Allen, Floyd, Clarke, St. Joseph, LaPorte, Lake, Steuben, Putnam, Clinton, and Dearborn.

C. Notwithstanding the provisions of paragraph I hereof, any person making sales or deliveries of fluid whole milk at

retail or wholesale in the Counties of Vigo, Clay, Owen, Monroe, Brown, Bartholomew, Decatur, and Franklin and in all counties in the State of Indiana lying north of the aforementioned belt of counties, whose adjusted maximum price per quart as established under this order is less than 13¢ at retail and/or 11¢ at wholesale, is hereby granted an adjusted maximum retail price of 13¢ per quart and/or an adjusted maximum wholesale price of 11¢ per quart.

D. Notwithstanding the provisions of paragraph I hereof, any person making sales or deliveries of fluid whole milk at retail or wholesale in all counties in the State of Indiana lying south of the belt of counties consisting of Vigo, Clay, Owen, Monroe, Brown, Bartholomew, Decatur, and Franklin, whose adjusted maximum price per quart as established under this order is less than 12¢ per quart at retail and/or 10¢ per quart at wholesale is hereby granted an adjusted maximum retail price of 12¢ per quart and/or an adjusted maximum wholesale price of 10¢ per quart.

E. For each full cent increase permitted in the price of quarts under the preceding paragraphs C and D hereof, the price of pints sold or delivered at retail and wholesale may be increased by one-half cent, and the price of one-half pints sold or delivered at wholesale may be increased by one-quarter cent.

F. Notwithstanding the provisions of paragraph No. I hereof, no increase shall be permitted in the price of quarts, pints, one-third quarts, or half-pints of fluid whole milk sold or delivered at retail, or pints, one-third quarts or half-pints of fluid whole milk sold or delivered at wholesale in the County of Marion, Indiana. However, any person making sales or deliveries of fluid whole milk in quart containers at wholesale in said County, may add one-half cent per quart to the maximum price established for him under the provisions of § 1499.2 of the General Maximum Price Regulation.

G. In no event shall the adjusted maximum price for half-pints at wholesale as established under any provision of this order exceed three and one-half cents per half-pint.

III. *Fractional sales.* A. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at retail, may adjust the unit price therefor to the next highest full cent. For the sale of two or more such units, such seller shall, however, multiply such fractional unit figure by the number of units in such sale; for example, a maximum price of 13½¢ per unit may be adjusted to 14¢ for the sale of one unit, but must be 27¢ for the sale of two units, etc.

B. Whenever the seller's maximum price, as established under this order, results in a unit figure containing a fraction of a cent, the seller, if the sale be at wholesale, shall multiply such fractional unit figure by the number of units in such sale; for example, the maximum price for 24 pints of fluid milk at a per unit cost of 6½¢ would be \$1.56.

IV. *Reports.* Each person, other than a retail store, adjusting his maximum

prices pursuant to the provisions of this order, shall, within five days after such action, notify the State Office of the Office of Price Administration, 510 North New Jersey Street, Indianapolis, Indiana, by letter, of his maximum prices established pursuant to this order, together with a statement of his previous maximum prices.

Each person shall, in addition to the above, file with the Regional Office of the Office of Price Administration, Union Commerce Building, Cleveland, Ohio, such reports as may hereafter be required by said Regional Office.

V. Notification of retail stores. Each distributor selling fluid milk at wholesale to a retail store or stores shall notify each store to whom he sells, by letter, of the adjustment permitted in this order, and each retailer shall be required to post in his place of business the adjusted prices permitted in this order, in accordance with the requirements of the General Maximum Price Regulation as to the posting of prices of cost-of-living commodities.

VI. Discounts. Except as to sales or deliveries in the County of Marion, Indiana, each seller of fluid whole milk at retail or wholesale shall maintain all of his customary allowances, discounts, and other price differentials.

VIII. (f) *Prohibition against sales above maximum prices.* On and after the effective date of this order, regardless of any contract or other obligation, no person shall sell or deliver and no person in the course of trade or business shall buy or receive any of the "listed commodities" at prices higher than the maximum prices established by this order and no person shall agree, offer, solicit or attempt to do any of the foregoing. Lower prices than the maximum price may be charged and paid.

(g) *Definitions.* When used in this order, the term:

(1) "Person" includes individuals, corporations, partnerships, associations or any legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of any of the foregoing.

(4) "Carlot or trucklot distributor" means a person other than a country shipper who purchases the "listed commodities" in straight or mixed carlots or in straight or mixed trucklots and resells the same in unbroken carlots or unbroken trucklots in a terminal market or other wholesale receiving point.

(5) "Primary distributor" means a person who maintains an established place of business at a terminal or whole-

sale market and who either by himself or jointly with other primary distributors, purchases the "listed commodities" in straight or mixed carlots or straight or mixed trucklots and breaks the shipment and resells in smaller lots without materially changing the form, to intermediate sellers or to retailers. A truck or a truck stand shall not be deemed to be an "established place of business" within the meaning of this order; but a stall in a public market shall be deemed to be such place of business.

(6) "Intermediate seller" means any person (other than a country shipper or retailer) who purchases from a primary distributor any one or more of the "listed commodities" in less than carlots or trucklots for the purpose of reselling and who takes title and makes sales to any person who is not an ultimate consumer. The term "ultimate consumer" shall not include industrial, commercial, or institutional users (including procurement agencies of the United States or of any State).

(7) "Retailer" means a person who makes sales to ultimate consumers.

(9) "Country shipping point" means the first place in or near the producing area in the Boise, Idaho District where any one or more of the "listed commodities" is made ready for shipment to any person.

(10) "Cost of transportation" means freight by common, contract or private carrier not to exceed the lowest common or contract carrier rate for available transportation a distance of 15 miles or more and includes charges incurred for pre-cooling, initial icing and other protective services.

(12) Unless the context otherwise requires, the definitions set forth in section 13 of Maximum Price Regulation No. 376 shall apply to other terms used herein.

(h) *Maximum Prices for country shippers.* Maximum prices for all sales made at a country shipping point shall be the prices specified in the tables set forth in paragraph (p) hereof.

(i) *Maximum Prices for carlot or trucklot distributors.* If any person, (1) purchases any one or more of the "listed commodities" in straight or mixed carlots at a country shipping point in the Boise, Idaho District and resells the same in straight or mixed carlots in a terminal market or other wholesale receiving point in the Boise, Idaho District; or (2) purchases any one or more of the "listed commodities" in straight or mixed trucklots at a country shipping point in the Boise, Idaho District and resells the same in straight or mixed trucklots (without breaking the original trucklots) at a terminal market or other wholesale receiving point in the Boise, Idaho District, the maximum price shall be the maximum

price at the country shipping point plus the cost of transportation from the country shipping point to the terminal market or other wholesale receiving point plus a brokerage charge, if actually incurred, not to exceed the broker's maximum service charge as established under § 1499.101 (c) (17) of Maximum Price Regulation No. 165 and duly filed with the proper War Price and Rationing Board.

(j) *Classes of primary distributors and intermediate sellers.* For the purposes of this order, primary distributors and intermediate sellers shall be divided into the following classes:

Class I: Retailer-owned cooperative seller. A retailer-owned cooperative primary distributor or intermediate seller is either a non-profit organization or a corporation, 51% or more of the stock of which is owned by its retailer customers and which purchases and resells the "listed commodities" without materially changing their form.

Class II: Cash-and-carry seller. A cash-and-carry seller is a seller not in Class I who customarily buys and resells the "listed commodities" to intermediate sellers, retail stores, or to commercial, industrial or institutional users without materially changing their form and who does not customarily deliver or extend credit to customers.

Class III: Service seller. A service seller is a seller not in Class I who customarily purchases and resells the "listed commodities" to chain stores, independent retail stores or to commercial, industrial or institutional users without materially changing their form and who customarily delivers and extends credit to customers.

(k) *Maximum prices for primary distributors.* (1) A primary distributor's "base price" shall be the country shipping point price when the "listed commodities" are grown in the Boise, Idaho District, plus cost of transportation, plus a brokerage charge, if actually incurred, not to exceed the broker's maximum service charge as established under § 1499.101 (c) (17) of Maximum Price Regulation No. 165 and duly filed with the proper War Price and Rationing Board; and when the "listed commodities" are grown outside the Boise, Idaho District, the "base price" of a primary distributor whose place of business is in the Boise, Idaho District shall be the net cost to him delivered at his customary receiving point when purchased from a customary supplier in straight or mixed carlots or in straight or mixed trucklots, not, however, to exceed the maximum price of his supplier plus cost of transportation, and plus a brokerage charge as hereinabove specified in this paragraph.

(2) The maximum price for any one of the "listed commodities", when sold by a Class I or Class II primary distributor, shall be such primary distributor's "base price" multiplied by 1.175; and the maximum price for any one of the "listed commodities", when sold by a Class III primary distributor, shall be such primary distributor's "base price" multiplied by 1.25.

(1) *Maximum prices for intermediate sellers.* (1) An intermediate seller's "base price" for any one of the "listed commodities", when purchased from a primary distributor, shall be the "base price" of his supplier. In all such transactions it shall be the duty of the seller to furnish the buyer a statement either upon the face of the invoice or by separate instrument, showing the seller's "base price" and how it was arrived at.

(2) The maximum price for any one of the "listed commodities" when sold by a Class I or Class II intermediate seller shall be such intermediate seller's "base price" multiplied by 1.20 plus cost of transportation and the maximum price for any one of the "listed commodities" when sold by a Class III intermediate seller shall be such intermediate seller's "base price" multiplied by 1.29. *Provided, however,* That an intermediate seller who purchases from another intermediate seller shall have for his maximum price the maximum price of the intermediate seller from whom he purchased.

(m) *Maximum prices for sales at retail by a grower or a wayside market stand.* The maximum prices for a grower or a wayside market stand on sales made to an ultimate consumer shall be the country shipping point price multiplied by 1.40.

(n) *Notification by intermediate seller.* Every sale of a "listed commodity" by an intermediate seller to another intermediate seller shall be accompanied by a notification in writing showing the seller's maximum price for such sale.

(o) *What specified markups include.* The maximum markups provide herein for primary distributors and intermediate sellers include all commissions and brokerage charges, if any, and all other items of cost involved in making local deliveries within a seller's customary free delivery zone. Any primary distributor or intermediate seller delivering the "listed commodities" to institutions or retail stores outside his free delivery zone may charge different delivered prices in such other areas or zones in which deliveries are made as follows:

(1) He first determines his delivered price for each area or zone by adding to his prices established by this order an amount not exceeding the average cost of delivery to the institutions or retailers in the area or zone.

(2) In determining the average cost of delivery to the retailers in the area or zone no rate shall be used which is in excess of the lowest common or contract carrier rate for available transportation.

(3) If such a delivery charge is made, the amount thereof shall be included as part of the maximum price established by this order. Before using such area or zone differential, the primary distributor or intermediate seller shall report it in writing to the Boise, Idaho District Office of the Office of Price Administration having jurisdiction over the seller.

Applications - declarations are now pending before this Commission with respect to a program for the acquisition by Pennsylvania Electric Company of the assets and the assumption of the liabilities of (1) Keystone Public Service Company, a subsidiary of NY PA NJ Utilities Company, a registered holding company (File No. 70-563), (2) Bradford Electric Company, likewise a subsidiary of NY PA NJ Utilities Company (File No. 70-602), and (3) Erie County Electric Company, a subsidiary of The United Gas Improvement Company, a registered holding company (File No. 70-707). If the necessary approvals are obtained and the proposed transactions are consummated, Pennsylvania Electric Company

will assume, among other liabilities, \$4,000,000 principal amount of First Mortgage 5% Series Bonds, due November 1, 1978, of Keystone Public Service Company, and will issue and sell, at competitive sale, 35,000 shares of its cumulative preferred stock.

The present application proposes that, simultaneously with the issue and sale of 35,000 shares of its cumulative preferred stock, Pennsylvania Electric Company will call for redemption the entire issue of the First Mortgage 5% Series Bonds, due November 1, 1978, of Keystone Public Service Company, and, in order to provide funds for such redemption, Pennsylvania Electric Company proposes to issue and sell, at competitive sale, \$4,000,000 principal amount of its First Mortgage Bonds % Series, to be dated September 1, 1943, and to become due September 1, 1973. Such bonds will be identical with the presently outstanding \$32,500,000 principal amount of First Mortgage Bonds of Pennsylvania Electric Company, except with respect to the issue date, maturity date, interest dates, interest rate and the redemption price. The price to the Pennsylvania Electric Company of the additional bonds will be fixed at not less than 104% of the principal amount thereof and the interest rate will be fixed at not more than 3% per annum.

The estimated proceeds to be derived from the sale of the additional Pennsylvania Electric Company bonds will be applied approximately as follows:

To redeem at 104% of the principal amount thereof \$4,000,000 principal amount of First Mortgage 5% Series Bonds, due November 1, 1978, of Keystone Public Service Company.....	\$4,160,000.00
To pay estimated interest on the First Mortgage 5% Series Bonds due November 1, 1978, from the date of delivery of the additional Pennsylvania Electric Company bonds to the date of redemption of the Keystone Public Service Company bonds.....	16,666.67
To pay estimated expenses.....	22,000.00
Total.....	4,198,666.67

The application indicates that Pennsylvania Electric Company proposes to offer the bonds for competitive bidding pursuant to Rule U-50 promulgated under the Public Utility Holding Company Act of 1935. The applicant considers section 5 (b) of the Act as being applicable to the proposed transaction, and that the redemption of the Keystone bonds is exempt from the requirements of section 12 (c) of the Act by virtue of Rule U-42 (b) (2) of the General Rules and Regulations.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that a hearing be held with respect to such matters and that the application shall not be granted except pursuant to further order of the Commission;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and rules of the Commission thereunder be held on August 5, 1943, at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as the hearing room clerk in room 318 will at that time advise. 1. Whether it is in the public interest and the interest of investors and consumers and in conformity with the applicable provisions of the Act to grant the application.

2. Whether all fees in connection with the proposed transactions are fair and reasonable.

3. Whether the proposed accounting entries to be made in connection with the application are proper.

4. Whether and to what extent it is appropriate in the public interest or for the protection of investors or consumers that terms and conditions be imposed with respect to the proposed transactions.

5. Generally, whether the proposed transactions meet the appropriate provisions of the Act and Rules and Regulations promulgated thereunder.

EARL PORTER BECKWITH

FINDINGS AND ORDER REVOKING REGISTRATION AND DISMISSING PROCEEDINGS ON THE QUESTION OF WITHDRAWAL OR TERMS AND CONDITIONS THEREON

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania on the 19th day of July, 1943.

In the matter of Earl Porter Beckwith, 107½ South Barry Street, Olean, New York.

1. Earl Porter Beckwith (the "registrant") is registered as a broker and dealer pursuant to section 15 of the Securities Exchange Act of 1934.

2. The registrant filed with the Commission a written notice requesting withdrawal of his registration. Thereafter the Commission, pursuant to section 15 (b) of the Securities Exchange Act of 1934, ordered a hearing to determine (1) whether or not registrant is permanently enjoined by a decree of the Supreme Court of the State of New York from engaging in and continuing certain conduct and practices in connection with the sale of securities as reported to the Commission by its staff, (2) whether or not said registration should be revoked, and (3) whether or not registrant should be permitted to withdraw his registration and, if so, whether it is necessary in the public interest or for the protection of investors to impose terms and conditions thereon.

3. The registrant has acknowledged service of adequate notice, has waived hearings, admitted the facts alleged, and filed a written consent to revocation of his registration.

4. The Commission finds (a) that the registrant is permanently enjoined by a decree of the Supreme Court of the State of New York, (b) that it is in the public interest to revoke said registration, and (c) that it is not necessary or appropriate, in the light of the injunction decree and the registrant's consent to revocation, to consider the question of withdrawal or the imposition of terms and conditions upon withdrawal. On the basis of the foregoing, and pursuant to section 15 (b) of the Securities Exchange Act of 1934, *It is ordered*, That the registration of Earl Porter Beckwith as a broker and dealer be and it hereby is revoked, and that the proceeding on the question of withdrawal or terms and conditions thereon be, and it hereby is, dismissed.

By the Commission.
