PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Regulation 19, as Amended August 9, 1943]

FARM SUPPLIES

§ 944.40 *Priorities Regulation No. 19—(a) What this regulation does.* This regulation tells how a farmer gets a priority to buy farm supplies from a dealer and how a dealer gets a priority to maintain his stock of farm supplies. The kinds of farm supplies which are covered by this regulation are only those listed in paragraph (j) of this regulation.

(b) How a farmer gets farm supplies from his dealer. Whenever a farmer orders farm supplies on the list from a dealer who has them in stock, the dealer must fill the order if the farmer gives him a signed certificate as follows:

I certify to the War Production Board that I am a farmer and that the supplies covered by this order are needed now and will be used for the operation of a farm.

The dealer may sell the supplies to the farmer without a certificate, but the dealer must get a certificate at the time he sells if he wants to use it to get a priority for replacing the supplies in his inventory, as explained in paragraph (d) below. A farmer may also use this certificate at a repair shop to get a priority on the use of its equipment in repairing his farm equipment. A farmer's order supported by a certificate is the same as an order rated AA-5.

(c) Farmers' certificates must be approved by rationing committees in the case of large purchases. If a farmer wants to use a certificate to buy more than \$25 worth at one time of any item on the list, he must first get his certificate approved in writing by the County Farm Rationing Committee.

(d) How the dealer gets his stock of farm supplies. (1) A dealer can use the farmers' certificates which he has received to get priority on his own orders for listed farm supplies. For each dollar's worth of supplies sold against certificates at retail prices, the dealer can

get a priority on 75 cents' worth of replacement supplies ordered by him at wholesale prices. He does not have to use the certificates to get the same kind of supplies as those he has sold, but can use them to get any kind of farm supplies on the list, except the special items mentioned in paragraph (e) below.

(2) To get the priority, the dealer signs the following statement on the purchase order which he places with his supplier:

I certify, subject to criminal penalties for misrepresentation, that the dollar amount

of this order is not more than 75% of the sales price of farm supplies which I have sold under Priorities Regulation No. 19 against farmers' certificates now in my possession, and that I have not used the same certificates as the basis for getting a priority on any other order.

(3) In the special case of a dealer, such as a farmers' cooperative, all of whose sales of listed farm supplies are made at cost or at a mark-up not exceeding 3% of cost, the provisions of paragraph (d) (1) apply except that such a dealer can get priority on replacement supplies on a dollar-for-dollar basis using the following certificate in place of that provided in paragraph (d) (2):

I certify, subject to criminal penalties for misrepresentation, that the dollar amount of this order is not more than the sales price of farm supplies which I have sold at cost or within 3% of cost under Priorities Regulation No. 19 against farmers' certificates now in my possession and that I have not used the same certificates as the basis for getting a priority on any other order.

(4) Each dealer must keep for at least two years all farmers' certificates which he receives, and whenever he uses a certificate as a basis for a priority he must mark the certificate to show which of his own orders he has used it for.

(5) [Paragraph (5) expired July 17, 1943.]

(6) Orders placed by dealers bearing one of the above certifications are rated AA-5, and the suppliers with whom they are placed must fill them accordingly.

(e) Dealers use different methods in getting certain items. (1) A dealer may not use the method explained in paragraph (d) above to get the steel or wire mill items which are marked with an asterisk on the list in paragraph (j). He will get his supply of these items on the basis of farmers' certificates under other War Production Board regulations or orders, which his supplier should explain to him.

NOTE: In paragraph (e) (1) the third and fourth sentences revoked August 9, 1943.

(2) The War Production Board may issue orders or regulations making priorities inapplicable to certain items. If any items on the list become subject to these special rules, the dealer's supplier cannot recognize the dealer's certificate as giving him a priority on them. Farmers' certificates can still be used to buy such items from the dealer and the dealer can use the certificates as a basis for a priority for buying other items on the list under paragraph (d) above. For example, Priorities Regulation No. 3 restricts the use of ratings for items on List A of that regulation, but the restrictions of List B (regarding maintenance, repair and operating supplies) do not apply to orders for farm supplies under this regulation.

(f) Penalty for violations. Any person who makes a false statement in a certificate to get a priority on farm supplies is guilty of a crime and may be punished by a fine or imprisonment.

(g) *What is meant by "farmer".* As used in this regulation, "farmer" means a person who engages in farming as a business, by raising crops, livestock, bees or poultry. It also includes a custom operator who uses farm supplies in performing services for farmers. It does not include a person who just has a "victory garden" or raises food or other agricultural products entirely for his own use.

(h) *What is meant by "dealer".* "Dealer" means any person engaged in the business of selling farm supplies directly to farmers, including a mail order house.

(i) *Effective date.* This regulation becomes effective June 7, 1943. It does not apply to purchases and sales made before that date.

PART 1369—METAL ORES

[MPR 356¹, Amdt. 1]

ROYALTIES ON COPPER, LEAD AND ZINC

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 356 is amended in the following respects:

1. The following is added at the end of section 1:

This regulation shall not apply to any payment made for work, labor or services even though such payment is stated as a part or percentage of the proceeds from a mining operation. Nor shall it apply to any payment made under any lease, contract or agreement between the principal operator of a mining property and another person, who is mining a part of the same property, if, and for such time as, no separate quotas have been established under the Premium Price Plan for the mining operation carried on pursuant to such lease, contract or agreement.

2. A new section 2a is added as follows:

Sec. 2a. *Provision in special cases for a royalty higher than is provided in section 2—(a) Overriding royalties.* When a sublease is given on all or any part of a property or working which was under lease on December 31, 1942, or a lease on such property or working is assigned or released, an overriding royalty may be paid to and received by the party giving such sublease, assignment, or release. Subject to approval, this royalty may be paid in addition to the maximum royalty determined according to the terms of the lease which was in effect on December 31, 1942, and may be similarly paid on the basis of premium or bonus money not in excess of 5¢ per pound of copper and 2¼¢ per pound each of lead and zinc if the leases in effect on December 31, 1942, provided for the payment of royalty on such premium money.

A new overriding royalty need not be submitted for approval if the total royalty to be paid by the sublessee does not exceed the maximum royalty as determined by the lease in effect on the property or working on December 31, 1942. In any case, however, in which the payment of an overriding royalty shall cause the total royalty to exceed that determined by the lease in effect on December 31, 1942, the provision for the payment of such overriding royalty must be approved by the Administrator. Request for approval shall be made within 30 days after the sublease or agreement providing for payment of the overriding royalty has been signed or executed and shall be made by letter addressed to the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C. The overriding royalty submitted for approval may be approved or disapproved by a letter signed by the Price Executive of the Non-Ferrous Metals Branch. In approving or disapproving an overriding royalty, the Office of Price Administra-

tion will take into consideration the level of overriding royalties in effect under similar circumstances in the mining district in which the property is situated as well as the information submitted with the request for approval. Pending such approval or disapproval, overriding royalty calculated according to the terms submitted for approval may be paid and received. Where an overriding royalty is disapproved by letter, the Administrator will issue a formal order to the same effect if within 30 days any party requests him to do so.

A person making a request for approval of overriding royalty terms should give (1) the name and address of the parties to pay and to receive the overriding royalty (called the sublessee and sublessor), (2) a description of the property as to name and location, (3) the maximum royalty as determined by the lease in effect on December 31, 1942, (4) the base royalty to be paid, (5) the overriding royalty terms submitted for approval, (6) a statement of development work done or improvements made upon the property by the sublessor, (7) a list of the major items of equipment, if any, owned by the sublessor to be used by the sublessee, (8) a statement as to the sublessee's plans for putting the property into production, and (9) any other facts which the person requesting approval considers to be relevant to his request.

(b) *Amendment of leases to provide for minimum royalty.* Where, because of decline in grade or other cause, the royalty payable according to the terms of a lease in effect on December 31, 1942, is extinguished or is reduced in an amount disproportionate to the decline in grade or other change in circumstances, the lessee or lessor may ask the Administrator for permission to pay or to receive a royalty which shall be at the least, or minimum, a certain amount for each ton of ore mined or each pound of metal contained in ores or concentrates. This request shall be in the form of a request for approval of a supplementary provision of an existing lease or agreement, or a modified provision of a new lease or agreement, which provision calls for such a minimum royalty payment; and, when such a provision has been approved, royalty may be paid and received pursuant to it even though such royalty is higher than that which would otherwise be the maximum royalty under section 2.

Requests for approval of a minimum royalty provision shall be made by letter addressed to the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C., and permission may be given by a letter signed by the Price Executive of the Non-Ferrous Metals Branch. In approving or disapproving a minimum royalty provision, the Office of Price Administration will consider the reasonableness and fairness to all parties, under the circumstances, of the provision of such a minimum royalty. Where such a provision is disapproved by letter, the Administrator will issue a formal order to the same effect if within 30 days any party requests him to do so.

A person making a request for approval of a provision for a minimum royalty should give (1) the name and ad-

dress of the lessee and lessor, (2) a description of the property as to name and location, (3) the royalty terms of the lease in effect on December 31, 1942, (4) the royalty payable according to these terms during the last three months of operation, if available, (5) an estimate of the royalty which would be payable in the future if determined according to the terms of the lease in effect on December 31, 1942, (6) the minimum royalty provision submitted for approval, (7) an estimate as to ore reserves and grade, and (8) any other facts which the person requesting approval considers to be relevant to his request.

3. The following is added at the end of section 3:

No report is required of the royalty provided by the terms of a lease made prior to January 1, 1941, under which no work was done during 1941 and 1942, until work is done under such lease which will give rise to an obligation to pay royalty. However, from the time such work is begun under the lease, or from the date when any extension or amendment of such lease is made, it shall be considered as a new lease and the royalty to be paid under it shall be reported for approval.

If any person proposes, either as lessee or lessor, to enter into a number of leases covering similar properties or workings (not under lease on December 31, 1942) and containing identical royalty terms, he may request approval of such royalty terms in advance. Request for approval of such proposed royalty terms shall be made by letter addressed to the Non-Ferrous Metals Branch, Office of Price Administration, Washington, D. C. This letter shall set out the proposed royalty terms and shall identify and give a general description of the properties or workings to which they would apply. In approving or disapproving the proposed royalty terms for such a group of similar properties or workings, the Office of Price Administration will take account of the royalty provisions generally in effect for similar properties in the mining district in which the properties are situated. Requests for advance approval may be granted or denied by a letter signed by the Price Executive of the Non-Ferrous Metals Branch. The denial of advance approval shall not prevent any party from thereafter entering into new leases and requesting approval of the royalties provided therein as is otherwise provided in this section 3.

This amendment shall become effective August 17, 1943.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(2) 26¼ cents per hundred weight of seed cotton for ginning picked cotton and 28⅞ cents per hundred weight of seed cotton for ginning bollies or snapped cotton for which prices the ginner shall render such other cotton ginning services (or services substantially similar thereto) as he sold or supplied to purchasers of the same general class during the base period; or

(3) In the event that a ginner is unable to determine his maximum price for ginning in accordance with subparagraph (2), 68¼ cents per hundred weight of lint cotton, gross weight bale, for ginning picked cotton and 75 cents per hundred weight of lint cotton, gross weight bale, for ginning bollies or snapped cotton, for which prices the ginner shall render such other cotton ginning services (or services substantially similar thereto) as he sold or supplied to purchasers of the same general class during the base period.

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 300, Amdt. 10]

MANUFACTURERS' MAXIMUM PRICES FOR RUBBER DRUG SUNDRIES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation 300 is amended in the following respects:

1. Section 1315.1753 (b) is amended by amending the head-note and the text preceding subparagraph (1) thereof to read as follows:

(b) *Maximum prices for all rubber drug sundries except those made in whole or in part of synthetic or substitute rubber.* This paragraph is applicable to all rubber drug sundries covered by this section except those made in whole or in part of synthetic or substitute rubber. The maximum price for a sale by a manufacturer of any rubber drug sundry covered by

this paragraph shall be the first applicable of the following prices, less the deduction required by paragraph (d) of this section, wherever applicable, and less all discounts, allowances and other deductions which the manufacturer had in effect to a purchaser of the same class on December 1, 1941:

2. Section 1315.1753 (c) is amended to read as follows:

(c) *Maximum prices for rubber drug sundries made in whole or in part of synthetic or substitute rubber.* This paragraph is applicable to rubber drug sundries covered by this section which are made in whole or in part of synthetic or substitute rubber. The maximum price for the sale by a manufacturer of any rubber drug sundry covered by this paragraph shall be determined as follows:

(1) The manufacturer shall first determine the December 1, 1941, price of the rubber drug sundry to that class of wholesalers to which he sold the largest volume of rubber drug sundries during the calendar year 1942. This price shall be determined in accordance with paragraph (b) of this section. If the manufacturer did not sell that rubber drug sundry to wholesalers during the calendar year 1942, the manufacturer shall first determine the December 1, 1941, price of the rubber drug sundry being priced to that class of retailers to which he sold the largest volume of rubber drug sundries during the calendar year 1942. This price shall be determined in accordance with paragraph (b) of this section.

(2) The manufacturer shall then deduct a differential from the price determined in accordance with subparagraph (1). This differential shall be determined by multiplying the number of pounds of each type of synthetic or substitute rubber required to produce the rubber drug sundry by the difference between the price for the synthetic or substitute rubber in effect on December 1, 1941, and the price for the synthetic or substitute rubber in effect on August 1, 1943. If the manufacturer on December 1, 1941, sold several sizes or styles of rubber drug sundries at the same price to the same class of purchasers, he shall use the same differential for all the sizes or styles that he sold on December 1, 1941, at the same price to the same class of purchasers. This differential shall be calculated by the method set forth in this subparagraph except that in applying that method the manufacturer shall use the procedure he customarily used on December 1, 1941, to arrive at a uniform price for the different sizes or styles. If the manufacturer used no such customary procedure on December 1, 1941, he shall use as the basis for calculating the differential the size or style of which he sold the largest quantity during the period January 1, 1943, to June 30, 1943, inclusive.

(3) The price calculated in the manner just set forth is the manufacturer's maximum price to that class of purchasers for which he must calculate a price under subparagraph (1). The manufacturer shall determine his maximum price for sales of the rubber drug

sundry to other classes of purchasers by adjusting this price to reflect the differentials that the manufacturer had in effect to other classes of purchasers on December 1, 1941.

3. Section 1315.1754 (a) is amended to read as follows:

(a) *Applicability of this section—(1) Persons.* This section is applicable to all manufacturers of rubber drug sundries, except distributors of rubber drug sundries.

(2) *Commodities.* This section is applicable to all rubber drug sundries, other than victory line, that are not covered by §§ 1315.1753 or 1315.1755c.

4. Section 1315.1754 (b) is amended to read as follows:

(b) *How the manufacturer calculates the maximum price.* The maximum price for the sale of any rubber drug sundry covered by this section shall be determined as follows:

(1) The manufacturer shall first select the rubber drug sundry he must use in determining the maximum price of the rubber drug sundry being priced. The method for selecting this rubber drug sundry is explained in paragraph (c) of this section.

(2) The manufacturer shall then determine his maximum price for the sale of that rubber drug sundry to the class of wholesalers to which he sold the largest volume of rubber drug sundries during the calendar year 1942. This maximum price shall be determined in accordance with § 1315.1753. If the manufacturer did not sell that rubber drug sundry to wholesalers during the calendar year 1942, he shall determine the maximum price for the sale of the rubber drug sundry to that class of retailers to which he sold the largest volume of rubber drug sundries during the calendar year 1942. This price shall be determined in accordance with § 1315.1753.

(3) The manufacturer shall then add to or subtract from the price determined in accordance with subparagraph (2), the amount by which the "factory costs" of the rubber drug sundry being priced are greater or less than the "factory costs" of the rubber drug sundry used as a basis for pricing. "Factory costs" of both rubber drug sundries shall be determined in accordance with paragraph (d) of this section.

(4) The resultant price is the manufacturer's maximum price for the sale of the rubber drug sundry being priced to that class of purchasers for which he must determine a maximum price under subparagraph (2). The manufacturer shall then determine his maximum price for sales of the rubber drug sundry being priced to other classes of purchasers by adjusting this price to reflect the differentials that the manufacturer had in effect to other classes of purchasers on December 1, 1941.

(5) Once the manufacturer has determined his maximum price for a rubber drug sundry under this section, that price is his maximum thereafter so long as the article is not modified sufficiently to result in a change of more than 5 percent in its factory costs. If the article

5. Section 1315.1754 (e) (2) is amended by amending the first two sentences thereof to read as follows: "The price of synthetic or substitute rubber used in any rubber drug sundry shall be the price in effect on August 1, 1943. 6. Section 1315.1755c (a) (2) is amended to read as follows:

(2) *Maximum prices.* The maximum price of neoprene bulbs and bulb goods covered by this paragraph shall be determined as follows:

(i) The manufacturer shall first determine the maximum price for the sale of natural rubber bulbs or bulb goods of the same type and size to that class of wholesalers to which he sold the largest volume of rubber drug sundries during the calendar year 1942. If the manufacturer did not sell that rubber drug sundry to wholesalers during 1942, he shall determine the maximum price for the sale of natural rubber bulbs or bulb goods of the same type and size to that class of retailers to which he sold the largest volume of rubber drug sundries during the calendar year 1942. The maximum price for the natural rubber bulbs or bulb goods shall be determined in accordance with the applicable provisions of §§ 1315.1753 to 1315.1755b, inclusive.

(ii) The manufacturer shall then add a differential to the price determined in accordance with subdivision (i). That differential shall be \$0.05 for ear and ulcer syringes, double-end bulbs and breast pump bulbs, and for bulb goods containing one of the types of bulbs just enumerated. For other neoprene bulbs and bulb goods containing neoprene bulbs, the differential shall be determined by reference to the following table:

(iii) The price determined in the manner just set forth is the manufacturer's maximum price to that class of purchasers for which he must calculate a maximum price for the natural rubber bulb or bulb goods under subdivision (i). The manufacturer shall determine his maximum price for sales of the neoprene bulb or bulb goods to other classes of purchasers by adjusting this price to reflect the differentials that the manufacturer had in effect to other classes of purchasers on December 1, 1941.

7. Section 1315.1765 (a) is amended to read as follows:

(a) *Victory line rubber drug sundries sold to any person, except a mail order house.* Victory line rubber drug sundries sold to any person, except a mail order house, shall be marked with the maximum retail price thereof set forth in Maximum Price Regulation No. 301. [Docket No. 469-FD]

CARBON FUEL COMPANY

REPORT OF EXAMINER

In the Matter of the Application of the Carbon Fuel Company for exemption under the second paragraph of Section 4-A of the Bituminous Coal Act of 1937.

This proceeding was instituted upon an application for exemption filed on March 10, 1938, with the National Bituminous Coal Commission, and an amended application filed on January 23, 1940, with the Bituminous Coal Division, successor to the Commission, by the Carbon Fuel Company (hereafter sometimes referred to as Carbon), a code member operating mines located in Kanawha County, West Virginia, in District 8. The application, pursuant to the provisions of the second paragraph of section 4-A of the Bituminous Coal Act of 1937, seeks exemption of certain transactions in coal from the provisions of section 4 and the first paragraph of section 4-A of the Act.¹

Pursuant to appropriate orders and after due notice to interested persons, a hearing in this matter was held on May 20-30, 1940, before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room of the Division in Charleston, West Virginia. The matter was jointly heard with eight other applications in accordance with a ruling of the Examiner pursuant to a stipulation entered into by counsel for the Division, for Carbon, and for eight other applicants for exemption on similar grounds.²

¹Section 4 of the Act, promulgated as the Bituminous Coal Code, is intended to regulate interstate commerce in bituminous coal and is "applicable only to matters and transactions in or directly affecting interstate commerce in bituminous coal."

²The matters thus consolidated are as follows:

- Docket No. 465-FD---- Wyatt Coal Company (hereinafter called Wyatt).
- Docket No. 468-FD---- Winifrede Collieries (hereinafter called Winifrede).
- Docket No. 469-FD---- Carbon Fuel Company.
- Docket No. 470-FD---- Truax-Frazer Coal Company (hereinafter called Truax).
- Docket No. 897-FD---- Cedar Grove Collieries, Inc. (hereinafter called Cedar) and Richvein Coal Company (hereinafter called Richvein).
- Docket No. 964-FD---- Winifrede Collieries.

Interested persons were afforded an opportunity to be present and to participate fully in the hearing. Appearances were entered by all applicants and the Consumers' Counsel Division (herein called Consumers' Counsel), the predecessor of the Bituminous Coal Consumers' Counsel.

In accordance with stipulations entered into between counsel for the Division and for several of the applicants separately, excerpts from the transcript in Docket No. 64-FD were introduced in evidence by the Division as a part of the record in this proceeding, to be of the same effect as depositions taken herein.

On July 3, 1940, Carbon and Winifrede filed a joint brief. On the same date a brief was also filed by Consumers' Counsel.

Having considered the record in this proceeding, I hereby make the following:

Note: Here follows proposed findings of fact and conclusions of law.³

Recommendation

After the above report was prepared it became apparent that the Bituminous Coal Act of 1937 will terminate August 24, 1943. After this date the minimum price provisions of the Act and the price schedule will become inoperative. An administrative determination that certain coals are or are not entitled to exemption from the general price provisions by reason of such expiry of the Act will, in such circumstances, be fruitless and ineffectual. Although I should normally recommend an order denying the exemptions requested in the application of the Carbon Fuel Company, in view of these considerations I recommend, rather, that the entire proceeding be terminated, effective at 12:01 a. m. August 24, 1943.

Respectfully submitted.
Dated: July 31, 1943.

Examiner.

Recommendation approved and proceeding dismissed.

- Docket No. 1167-FD---- Riverton Coal Company (hereinafter called Riverton).
- Docket No. 1169-FD---- Kanawha & New River Barge & Rail Coal Mincs, Inc. (hereinafter called K&NR).

³Filed as part of the original document.

These several proceedings were instituted by applications filed with the Bituminous Coal Division by sales agents or registered distributors seeking permission to accept sales agents' commissions or distributors' discounts, or both, on sales of coal made by the applicants to affiliated companies or business organizations, pursuant to appropriate sections of the marketing rules and regulations or the rules and regulations for the registration of distributors. After appropriate notices, separate hearings were held in those matters before duly-designated examiners, interested parties being afforded an opportunity to participate fully therein.

In Docket No. D-21 involving an application by Walter Bledsoe & Company, the preparation or submission of a report by the examiner was waived by interested parties, and the matter is presently pending before me.

In the following dockets, reports of the examiners have been issued recommending that the applications be granted; so that these matters are likewise pending before me for ultimate disposition:

- Docket No.: Name
- D-11. Associated Producers Coal Company.
- D-18. Kevill Coal and Supply Company.

In the dockets listed below, no reports have been filed by the examiners:

- Docket No.: Name
- D-2. St. George Coal Corporation.
- D-3. Alron Coal Company.
- D-4. Alabama Fuel and Iron Company.
- D-6. St. Bernard Coal Company.

- D-20. Peabody Coal Company.
- D-23. New England Coal and Coke Company.
- D-24. William C. Atwater & Company, Inc.
- 1870-FD. Nashville Coal Company, Inc.

The Bituminous Coal Act of 1937, as amended, except as provided in section 19 thereof, will terminate at 12:01 a. m. on August 24, 1943. At that time, the scheme of minimum price regulation established by the Division, as well as the marketing rules and regulations and distributors' rules will become inoperative. Any relief previously granted pursuant to Rule 10 of section II of the marketing rules, §§ 317.12 (b) 8 and 317.19 (c) [formerly §§ 304.12 (b) 8 and 314.19 (c), respectively] of the distributors' rules, or other provisions of these rules and regulations, will be ineffective after that date.

Accordingly, I find that the applications in dockets Nos. D-2, D-3, D-4, D-6, D-7, D-9, D-11, D-12, D-16, D-18, D-20, D-21, D-23, D-24, and 1870-FD, should be dismissed, effective 12:01 a. m. on August 24, 1943.

It is so ordered.

RANDALL FUEL COMPANY, INC.

MEMORANDUM OPINION AND ORDER OF DIRECTOR

In the matter of the application of Randall Fuel Company, Inc., to receive sales agent's commission and distributor's discounts on coal sold to Randall Brothers, Inc.

On July 17, 1943, after notice and hearing, W. A. Cuff, a duly designated examiner of the Division, submitted a report in which he found that the acceptance or retention of sales agent commissions or distributor discounts by the Randall Fuel Company, Inc., a registered distributor (Registration No. 7554), petitioner, on coal sold or purchased for sale to Randall Brothers, Inc., is not prohibited by Rule 10 of section II of the marketing rules and regulations, by § 317.19 (c) (formerly § 304.19 (c)) of the rules and regulations for the registration of distributors, by applicable provisions of the Act, or by other rules and regulations thereunder. The examiner recommended that an order be entered granting the relief prayed for in the petition herein. Interested persons were afforded an opportunity to file exceptions to the report of the examiner. As of the date hereof, no such exceptions have been filed.

I have considered the entire record in this proceeding and the examiner's report, and I find that the report adequately and accurately reflects the facts disclosed in the record. I believe that the proposed findings of fact and proposed conclusions of law should be approved and adopted as the findings of fact and conclusions of law of the Director.

It is hereby ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director.

It is further ordered, That the relief prayed in the petition is granted.

[Docket No. 1833-FD]

RYAN & BENSON FUEL CORP.

ORDER OF THE DIRECTOR

In the matter of Ryan & Benson Fuel Corporation, registered distributor, Registration No. 7951, respondent.

This proceeding was instituted by the Bituminous Coal Division pursuant to section 4 II, (h) of the Bituminous Coal Act of 1937 and § 304.14 of the rules and regulations for the registration of distributors, in order to investigate and determine whether respondent Ryan & Benson Fuel Corporation, a registered distributor (Registration No. 7951), 2701 Falls Road, Baltimore, Maryland, has violated certain provisions of the Act, the marketing rules and regulations in-

cidental to the sale and distribution of coal, the rules and regulations for the registration of distributors and the agreement by registered distributor.

Pursuant to appropriate orders of the Director and after due notice to interested persons, a hearing in this matter was held on November 17-19, '21, and 24-27, 1941, before Edward J. Hayes, a duly designated examiner of the Division, at a hearing room thereof in Washington, D. C. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Appearances were entered by respondent and by the Office of the General Counsel of the Division. No report has been filed by the trial examiner.

In view of the fact that the Bituminous Coal Act, as amended, will expire at 12:01 a. m. August 24, 1943 (except as provided in section 19 thereof), any order which might be issued suspending or revoking the registration of respondent as a distributor will become inoperative after that date. Proceedings not finally decided at that time will become moot. Accordingly, as it seems inadvisable to determine the issues on the merits, the proceeding should be dismissed forthwith.

It is so ordered.

BUCKEYE COAL AND COKE COMPANY

EXAMINER'S REPORT

This proceeding was instituted upon a notice of and order for hearing filed pursuant to § 304.14 (now 317.14) of the rules and regulations for the registration of distributors, to determine whether respondent, Buckeye Coal and Coke Company, a registered distributor (Registration No. 1203), of Columbus, Ohio, has violated the provisions of the Act, the Code and orders of the Division, including the marketing rules and regulations, the distributors' rules, and the distributor's agreement dated April 12, 1939 and filed with the Division.

Pursuant to an Order of the Director dated December 11, 1942, and after due notice to interested parties, a hearing in this matter was held on January 18, 1943, before the undersigned W. A. Cuff, a duly designated examiner of the Division, at a hearing room thereof in Columbus, Ohio. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Appearances were entered on behalf of the General Counsel of the Division and respondent.

On February 26, 1943, respondent filed a "Petition to Reopen Proceedings" praying for a reopening of this proceeding in order to be afforded the opportunity of introducing newly discovered evidence.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire

at 12:01 a. m., August 24, 1943 (except as provided in section 19 thereof), no order suspending or revoking the registration of respondent as a distributor will have any operative effect after that date. Any report which I might make in the proceeding could be acted upon only after the parties have been afforded an opportunity to file exceptions and after the Director has had an opportunity to consider the entire record. Interested parties might also petition for rehearing or reconsideration of the Director's order. It is extremely unlikely that this matter could be disposed of by the Director prior to the expiration of the Act. Accordingly, I recommend that this proceeding be dismissed forthwith.

JAMES R. FOLEY

ORDER OF DIRECTOR

This proceeding was instituted upon a complaint and amended complaint, duly filed with the Bituminous Coal Division pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 by the Bituminous Coal Producers Board for District No. 8, against James R. Foley, code member producer, operating the Foley Mine (Mine Index No. 3487), in District 8, Knox County, Kentucky. The complaint as amended alleged that code member had wilfully violated the Code and rules and regulations thereunder, particularly the order of the Director in General Docket No. 19, dated October 9, 1940, and prayed appropriate relief.

Pursuant to appropriate orders, and after due notice to interested persons, a hearing was held in this matter on September 18, 1942, before Edward J. Hayes, a duly designated examiner of the Division, at a hearing room thereof in Middlesboro, Kentucky. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. District Board 8 and code member appeared. No report has been filed by the trial examiner.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire at 12:01 a. m. August 24, 1943 (except as provided in section 19 thereof), any order which might be issued revoking code membership or requiring code member to cease and desist from further violations will become inoperative after that date. Proceedings not finally decided at that time will become moot. Accordingly, as it seems inadvisable to determine the issues on the

merits, the proceeding should be dismissed forthwith.

It is so ordered.

ARTHUR L. PETTY & LEMAR DENISON

ORDER OF DIRECTOR

This proceeding was instituted by the Bituminous Coal Division pursuant to sections 5 (b), 6 (a) and other pertinent provisions of the Bituminous Coal Act of 1937 to investigate and determine whether Arthur L. Petty and LeMar Denison, individually and as copartners, code member producer, operating the Browning Mine, Mine Index No. 125, in Emery County, Utah, in District 20, had wilfully violated the provisions of the Act, the Bituminous Coal Code, and the rules and regulations thereunder, including Order of the Director No. 312, dated February 24, 1941. Appropriate relief was prayed.

Pursuant to appropriate orders, and after due notice to interested persons, a public hearing in this matter was held on November 6, 1942, before Charles O. Fowler, a duly designated examiner of the Division, at a hearing room thereof in Price, Carbon County, Utah. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Both members of code member partnership appeared personally, and an appearance was entered by a representative of the Office of the General Counsel.

No report has been filed by said trial examiner.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire at 12:01 a. m. August 24, 1943 (except as provided in section 19 thereof), any order which might be issued required code member to cease and desist from further violations of the Act and Code or any order revoking code membership will become inoperative after that date. Proceedings not finally decided at that time will become moot.

Accordingly, it appears that it is unnecessary that a report of the trial examiner be filed as it would seem inadvisable to determine the issues on the merits. The proceeding should be dismissed.

It is so ordered.

BLAKE MINING COMPANY

REPORT OF EXAMINER

In the matter of Jasper Blake, Wendell Blake, and George Blake, individually

and as copartners, doing business under the name and style of Blake Mining Company.

This proceeding was instituted upon a complaint duly filed October 15, 1942, with the Bituminous Coal Division, pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by the Bituminous Coal Producers Board for District No. 4, against code members, alleging that they violated certain provisions of the Act, the Code, and orders of the Division, and praying for appropriate relief.

Pursuant to appropriate orders of the Director and after due notice to interested persons, a hearing was held before the undersigned W. A. Cuff, a duly designated examiner of the Division, at a hearing room thereof in Coshocton, Ohio, on January 22, 1943. All interested parties were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. District Board 4 and code members appeared.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire at 12:01 a. m. August 24, 1943 (except as provided in section 19 thereof), no order revoking code membership or requiring code member to cease and desist from further violations will have any operative effect after that date. EAST KENTUCKY COAL SALES, INC.

ORDER OF THE DIRECTOR

This proceeding was instituted by the Bituminous Coal Division pursuant to the provisions of the Bituminous Coal Act of 1937 in order to investigate and determine whether or not the East Kentucky Coal Sales, Inc. (hereinafter called East Kentucky), a registered distributor (Registration No. 2612), whose address is 2408 Union Central Building, Cincinnati, Ohio, has violated certain provisions of the rules and regulations for the registration of distributors promulgated pursuant to section 4 II (h) of the Act, and whether or not its registration as a

distributor should be revoked or suspended or other appropriate penalties imposed.

Personal service of the order was made on East Kentucky on March 16, 1942. An answer was filed on March 21, 1942. On April 10, 1942, District Board 8 filed a notice of desire to be heard.

Pursuant to a notice of and order for hearing dated March 11, 1942, and an amended Notice dated March 28, 1942, a hearing in this matter was held before Edward J. Hayes, a duly designated examiner of the Division, at a hearing room thereof, in Cincinnati, Ohio, on April 15-18, 1942. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. East Kentucky appeared and actively participated in the hearing. No report has been filed by the Trial Examiner.

In view of the fact that the Bituminous Coal Act, as amended, will expire at 12:01 a. m. August 24, 1943 (except as provided in section 19 thereof), any order which might be issued suspending or revoking the registration of respondent as a distributor will become inoperative after that date. Proceedings not finally decided at that time will become moot. Accordingly, as it seems inadvisable to determine the issues on the merits, the proceeding should be dismissed forthwith.

It is so ordered.

BURKHARDT CONSOLIDATED COMPANY

EXAMINER'S REPORT

This proceeding was instituted by a notice of and order for hearing filed pursuant to § 304.14 (now 317.14) of the rules and regulations for the registration of distributors, to determine whether respondent, Burkhardt Consolidated Company, a registered distributor (Registration No. 1265) of Akron, Ohio, has violated any provisions of the Act, the Code and orders of the Division, including the marketing rules and regulations, the rules and regulations for the registration of distributors, and its distributor agreement, dated July 18, 1940, and filed with the Division.

Pursuant to an Order of the Director dated November 23, 1942, and after due notice to interested parties, a hearing in this matter was held on January 12, 1943, before the undersigned W. A. Cuff, a duly designated examiner of the Division at a hearing room thereof in Akron, Ohio. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Appearances were entered by a representative of the Office of the General Counsel of the Division, and by respondent.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will

expire at 12:01 a. m., August 24, 1943 (except as provided in section 19 thereof), no order suspending or revoking the registration of respondent as a distributor will have any operative effect after that date. Any report which I might make in the proceeding could be acted upon only after the parties have been afforded an opportunity to file exceptions and after the Director has had an opportunity to consider the entire record. Interested parties might also petition for rehearing or reconsideration of the Director's Order. It is extremely unlikely that this matter could be disposed of by the Director prior to the expiration of the Act. Accordingly, I recommend that this proceeding be dismissed forthwith.

Respectfully submitted.

Dated: August 9, 1943.

W. A. CUFF,
Examiner.

Recommendation approved and proceeding dismissed.

Dated: August 10, 1943.

VENTO COAL COMPANY

MEMORANDUM OPINION AND ORDER DISMISSING PROCEEDING

In the matter of Tony Vento, an individual doing business under the name and style of Vento Coal Company, code member, District No. 17.

On March 5, 1943, after Notice and Hearing, Charles O. Fowler, a duly designated Examiner of the Division submitted a report in which he found that code member wilfully violated sections 4 II (e), (g) and (i) 8 of the Act, the corresponding sections of the Code and the rules and regulations thereunder and recommended that his code membership be revoked and that the tax to be paid by him as a condition precedent to restoration of code membership is \$1,624.43.

Opportunity was afforded to all parties to file exceptions to the Examiner's Report. Code member filed exceptions and a brief in support thereof.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire at 12:01 a. m. on August 24, 1943 (except as provided in section 19 thereof), any order which might be issued requiring code member to cease and desist from further violations of the Act and Code or any order revoking code membership, will become inoperative upon that date. Accordingly, as it is deemed inadvisable to determine the issues on the merits, this proceeding should be dismissed forthwith.

It is so ordered.

Dated: August 10, 1943.

JOHN FODERARO

MEMORANDUM OPINION AND ORDER DISMISSING PROCEEDING

In the matter of John Foderaro, Code Member, District 17.

On April 29, 1943, after notice and hearing, Charles O. Fowler, a duly designated Examiner of the Division submitted a report in which he found that code member wilfully violated the Act, the Code and Orders of the Division by selling coal below the effective minimum prices and by failing and refusing to file reports of sales of coal with the Statistical Bureau for District 17. The Examiner recommended that code membership of code member be revoked and that the tax to be paid by him as a condition precedent to restoration of code membership is \$909.77.

Opportunity was afforded to all parties to file exceptions to the Examiner's report. No exceptions have been filed.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire on August 23, 1943, (except as provided in section 19 thereof), it appears advisable to dismiss this proceeding.

[Docket No. B-354]

HOMER MICHAEL

ORDER OF DIRECTOR

In the matter of Homer Michael, code member, District No. 1.

This proceeding was instituted upon a complaint duly filed with the Bituminous Coal Division on December 22, 1942, pur-

suant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 by the Bituminous Coal Producers Board for District No. 1 against Homer Michael, code member, operating the Michael Mine (Mine Index No. 1763) located in Clearfield County, Pennsylvania, in Sub-district 18 of District 1. The complaint alleged that code member had wilfully violated sections 4 II (e) and (g) of the Act and the corresponding sections of the Code, Orders of the Division Nos. 296, dated September 23, 1940 and 308 dated January 14, 1941, and prayed that appropriate relief be granted.

Pursuant to appropriate orders of the Director dated February 6, 1943 and March 5, 1943, and after notice to interested persons, a hearing in this matter was held on March 18, 1943 before Edward J. Hayes, a duly designated Examiner of the Division, at a hearing room thereof in Altoona, Pennsylvania. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. District Board 1, a representative of the General Counsel of the Division, and code member appeared. No report has been filed by the Trial Examiner.

In view of the fact that the Bituminous Coal Act of 1937, as amended, will expire at 12:01 a. m. August 24, 1943 (except as provided in section 19 thereof), any order which might be issued revoking code membership or requiring code member to cease and desist from further violations will become inoperative after that date. Proceedings not finally decided at that time will become moot. Accordingly, as it seems inadvisable to determine the issues on the merits, the proceeding should be dismissed forthwith.

It is so ordered.

[Docket Nos. 2-FD, et al.]

ALABAMA COALS, INC., ET AL.

ORDER OF DIRECTOR

In the matter of applications for provisional approval as marketing agencies. Dockets Nos. 2-FD, 3-FD, 4-FD, 5-FD, 7-FD, 52-FD, 361-FD, 362-FD, 497-FD, 498-FD, 504-FD, 603-FD, 619-FD, 662-FD, 821-FD, 896-FD, 1508-FD, 85-ID, and 86-ID.

Upon applications made in proceedings which are continuing in nature, appropriate orders have been issued by the National Bituminous Coal Commission or its successor, the Bituminous Coal Division, pursuant to the provisions of section 12 of the Bituminous Coal Act of 1937, as amended, granting the following applicants provisional approval as marketing agencies:¹

¹The orders issued in the 10 dockets first mentioned were issued by the Commission and those in the remaining four dockets by the Division.

Docket No. and Name:	Date of orders
2-FD, Alabama Coals, Inc.	September 22, 1937
3-FD, Appalachian Coals, Inc.	September 22, 1937
4-FD, Smokeless Coal Corporation	September 22, 1937
361-FD, Middle States Fuels, Inc.	October 17, 1938
362-FD, Southern Illinois Coals, Inc.	November 29, 1938
497-FD, Fairmont Coals, Inc.	January 5, 1939
498-FD, Western Pennsylvania Coal Corporation	December 21, 1938
504-FD, Kentucky Coal Agency, Inc.	November 29, 1938
603-FD, Arkansas-Oklahoma Smokeless Coals, Inc.	May 1, 1939
619-FD, Southwest Coal Company	June 28, 1939
662-FD, Upper Buchanan Smokeless Coals, Inc.	September 20, 1939
821-FD, Belleville Fuels, Inc.	January 9, 1940
896-FD, Brazil Block Fuels, Inc.	June 10, 1940
1508-FD, Indiana Coals Corporation	May 27, 1941

Subsequent orders have modified some of these original orders in certain respects. In addition, there is now pending, on orders to show cause issued by the Division, in all of the dockets hereinbefore mentioned except Docket No. 1508-FD, the matter of the further modification and amendment of the orders granting the applicants involved provisional approval as marketing agencies by incorporating therein various proposed provisions. In Dockets Nos. 504-FD and 603-FD, respectively, there are also pending petitions of Kentucky Coal Agency, Inc., and Arkansas-Oklahoma Coals, Inc., respectively, for provisional approval of modifications of their marketing agency contracts. In Dockets Nos. 662-FD and 821-FD, respectively, there is pending the question of renewal of the orders granting provisional approval as marketing agencies to Upper Buchanan Smokeless Coals, Inc., and Belleville Fuels, Inc., respectively. After separate notices and hearings in these several matters, the various Examiners issued their Reports in all dockets except Docket No. 603-FD, in which the right to have a Report of the Examiner prepared and submitted was waived by interested parties. The Reports of the Examiners, except in Docket No. 497-FD, recommended that the orders granting the applicants provisional approval as marketing agencies be modified to incorporate various provisions concerning, inter alia, commissions, discounts, prices, contracts, membership, and filing of reports. Exceptions were filed by the Bituminous Coal Consumers' Council to each of these Reports except that in Docket No. 497-FD, and, by the respective applicants, to the Reports of the Examiners in the respective dockets except that in Docket No. 504-FD. At the requests of the respective applicants, oral arguments before the Director were held in Dockets Nos. 3-FD, 4-FD, 361-FD, 362-FD, 497-FD, 619-FD, 821-FD and 896-FD. In Docket No. 497-FD, the Examiner recommended that, in view of the fact that the

applicant had never functioned as a marketing agency and that there was little likelihood that it would do so in the near future, the order granting Fairmont Coals, Inc., provisional approval as a marketing agency should be modified to provide that the applicant should not commence operations until it should first notify the Division of its intentions to do so and obtain permission from the Division.

In Docket No. 1503-FD an order has been issued by the Director suspending the operation of certain conditions of the order of provisional approval, as amended, until further order of the Director. Therefore, the matters in all of the dockets aforementioned, except Docket No. 1508-FD, are now pending before the Director.

The Bituminous Coal Act of 1937, as amended, will terminate at 12:01 a. m. on August 24, 1943 (except as provided in section 19 thereof). Determination of all of the pending proceedings involving marketing agencies could not be made before the Act expires. It would be inappropriate to issue final orders affecting some agencies while leaving the status of other agencies unaffected. Moreover, the provisions of section 12 of the Act will become inoperative with the Act's expiration, so that it would be futile to continue provisional approval of any marketing agency after that date. To avoid any confusion as to the status of such agencies upon the expiration of the Act, I believe it is advisable to revoke all orders which heretofore granted provisional approval to the agencies, and to dismiss all of the above enumerated proceedings effective 12:01 a. m. on August 24, 1943.

In addition to the proceedings considered hereinbefore, applications for provisional approval have likewise been filed in the following proceedings:

Docket No. and Name:
5-FD, J. H. Weaver & Company.
7-FD, Iowa Coals, Inc.
52-FD, Empire Coal Company.
85-ID, Operators Coal Mining Company.
86-ID, Bluefield Coal and Coke Company.

In the three dockets first named, after notices, separate hearings were held before three Examiners, one of whom, Charles O. Fowler, was authorized to submit a report in each of the dockets. No report has been filed by this Examiner. The undersigned has given consideration to the records made at the hearings in these dockets. In view of the expiration of the Act on August 24, 1943, any order which might be issued in these proceedings would become inoperative after that date. Proceedings not finally disposed of at that time will become moot. Accordingly, it appears to the undersigned, after a consideration of the record, that it is unnecessary for reports to be filed by the Examiner or for orders to be issued by the Director in these proceedings since it seems inadvisable to determine the issues on the merits. For these reasons, these three proceedings should be dismissed.

After applications were filed with the Commission in Dockets Nos. 85-ID and 86-ID, the applicants were advised that these applications failed to conform to

the Rules of Practice and Procedure and Order No. 6. Operators Coal Mining Company also was advised that if, as investigation indicated, the applicant was sales distributor for only one producer, there was not a "combination" within the terms of section 12 of the Act. The applicants were requested promptly to communicate their decisions as to whether they would pursue the matters further. Although considerable time has elapsed since then, no replies have been received. These applications should be dismissed.

It is therefore ordered, That, effective midnight August 23, 1943, the orders granting provisional approval to applicants as marketing agencies in Dockets Nos. 2-FD, 3-FD, 4-FD, 361-FD, 362-FD, 497-FD, 498-FD, 504-FD, 603-FD, 619-FD, 662-FD, 821-FD, 896-FD and 1508-FD are revoked, and the proceedings in these dockets are dismissed.

It is further ordered, That, effective midnight August 23, 1943, the applications for provisional approval as marketing agencies in Dockets Nos. 5-FD, 7-FD, 52-FD, 85-ID and 86-ID are dismissed.

Dated: August 11, 1943.

CONTINENTAL COAL COMPANY

MEMORANDUM OPINION AND ORDER OF DIRECTOR

In the matter of the application of Continental Coal Company for permission to receive and retain sales agents' commissions and distributors' discounts on coal sold to certain retail yards in which it is financially or otherwise interested.

On June 29, 1943, after notice and hearing, Joseph A. Huston, a duly designated Examiner of the Division, submitted a Report in which he found that the acceptance or retention of sales agents' commissions or distributors' discounts by Continental Coal Company, a registered distributor (Registration No. 1812) and sales agent, petitioner herein, on coal sold or purchased for resale to Kellogg Lumber Company or Colonial Fuel Company, is not prohibited by Rule 10 of section II of the Marketing Rules and Regulations, section 317.19 (c) (formerly 304.19 (c)) of the Rules and Regulations for the Registration of Distributors, or by the provisions of the Act or other rules and regulations thereunder. The Examiner recommended that an order be entered granting the relief requested in the petition herein.

An opportunity to file exceptions to the Report of the Examiner was afforded all interested parties, and as of the date hereof, no such exceptions have been filed.

I have considered the entire record in this proceeding and the Examiner's Report and upon the basis thereof I find that the Report adequately and accurately reflects the facts as disclosed by the record. Accordingly, I have concluded that the findings and conclusions

therein contained should be approved and adopted as the findings of fact and conclusions of law of the Director.

Upon the basis of the entire record in this proceeding, and pursuant to Rule 10 of section II of the Marketing Rules and Regulations, section 317.19 (c) of the Rules and Regulations for the Registration of Distributors and applicable provisions of the Act,

It is hereby ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director; and

It is further ordered, That the relief prayed for in the petition herein be, and the same hereby is, granted in all respects.

Dated: August 10, 1943.

[Docket No. 600-FD]

UNION RAILROAD COMPANY

ORDER OF DIRECTOR

In the matter of the application of Union Railroad Company, for determination of status under section 4 II (1) of the Act.

This proceeding was instituted upon an application of Union Railroad Company (Union), for exemption of certain coal in Patton Township, Allegheny County, Pennsylvania, from the provisions of section 4 of the Bituminous Coal Act of 1937, pursuant to section 4 II (1) thereof, as being consumed by the producer.

Union, lessee of the coal lands, engaged Tri-Boro Supply Company (Tri-Boro), an independent contractor, to mine the coal for the exclusive use of Union for locomotive fuel. After notice and hearing before Examiner Travis Williams, the Examiner issued his report in which he recommended that the application be dismissed. This recommendation was based on his finding that Tri-Boro—not Union—was the producer of the coal and that Tri-Boro disposed of the coal to Union.

Union filed exceptions to the Report of the Examiner and requested oral argument thereon before me. However, the Bituminous Coal Act (except as provided in section 19 thereof) will cease to be in effect at 12:01 a. m., August 24, 1943. Therefore, in view of the approaching elapse of the statute, it is hardly feasible to schedule oral argument. Before this could be done, the filing of appropriate briefs permitted, and the issues raised finally determined, the Act would no longer be in effect. For these reasons, I find it advisable to dismiss the application, effective 12:01 a. m., August 24, 1943.

It is so ordered.

Dated: August 10, 1943.

CENTRAL COOPERATED WHOLESALE

ORDER DISMISSING PROCEEDING

In the matter of the application of the Central Cooperative Wholesale to be designated as a registered distributor.

This proceeding was instituted upon an application and a supplemental application filed with the Bituminous Coal Division by Central Cooperative Wholesale, pursuant to the order of the Division in General Docket No. 12 and the provisions of the Bituminous Coal Act of 1937, requesting registration as a distributor. Notices of appearance were thereafter filed by District Board 1, Consumers' Counsel Division (now the Bituminous Coal Consumers' Counsel), and the American Coal Distributors Association.

Pursuant to appropriate orders, and after due notice to interested persons, a hearing in this matter was held before W. A. Shipman, a duly designated Examiner of the Division, on January 8 and 28, and March 3 and 22, 1941. On January 8, 1941, the applicant, Consumers' Counsel Division, the American Coal Distributors Association and representatives of the Office of the General Counsel appeared. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard.

On March 3, 1941 counsel for the applicant requested that the hearing herein be continued pending disposition by the Division of the application of Midland Cooperative Wholesale, Docket No. 1501-FD.

The record discloses that no hearing has been held in this matter and that no further action has been taken in connection therewith.

In view of the determination of the Director in Docket No. 1501-FD¹ and in view also of the expiration of the Bituminous Coal Act on August 24, 1943 at 12:01 a. m., it is deemed appropriate that the proceeding herein be dismissed.

It is therefore ordered, That effective August 24, 1943 at 12:01 a. m., the proceeding herein for the registration of the Central Cooperative Wholesale as a distributor, be and the same hereby is dismissed.

Dated: August 10, 1943.

FEDERAL POWER COMMISSION.

[Docket No. G-495]

UNITED GAS PIPE LINE COMPANY

NOTICE OF APPLICATION

AUGUST 9, 1943.

On July 19, 1943, United Gas Pipe Line Company filed with the Federal Power Commission an application seeking authority under section 7 (b) of the Natural Gas Act to remove approximately 8 miles of 12-inch pipe line extending in a southwesterly direction from what is known as the Waskom Area, located in Harrison County, Texas, and Caddo Parish, Louisiana, to United's Latex compressor station. The application states that there are now five lines which traverse the same general route as that of the facilities to be removed; that the line to be removed is no longer useful in transporting gas from the Waskom Area because of the decline in gas available from that source; and that the proposed removal of facilities will not affect service now rendered or which will be required to be rendered in the future. It is further stated that United has need in other parts of its system for the facilities sought to be removed.

Any person desiring to be heard with respect to this matter or to protest thereto should communicate with the Federal Power Commission, 1800 Pennsylvania Avenue, Washington, D. C., on or before August 25, 1943.

[Docket No. G-486]

UNITED GAS PIPE LINE COMPANY

NOTICE OF APPLICATION

AUGUST 9, 1943.

On July 19, 1943, United Gas Pipe Line Company, a Delaware Corporation having its principal place of business at Shreveport, Louisiana, filed with the Federal Power Commission an application seeking authority under section 7 (b) of the Natural Gas Act, to remove approximately 30.6 miles of 18-inch pipe line,

extending in a southerly direction from an interconnection with the pipe line of Southern Natural Gas Company at a point near the town of Benton, Mississippi, to a point near Tougoulo College, Madison County, Mississippi. The line proposed to be removed forms the northern part of United Gas Pipe Line Company's transmission line, extending from Benton, Mississippi, to Mobile, Alabama. The applicant states that it has need in other parts of its system for the facilities to be removed.

The applicant states that there are contracts in effect between it and Southern Natural Gas Company for the sale of gas by the respective parties to one another through the facilities proposed to be removed. Applicant believes that it is extremely doubtful if Southern Natural Gas company will ever, in the future, require deliveries of gas through the facilities proposed to be removed as the latter is said to have an ample supply of gas available from other sources. It is further stated that applicant will not require deliveries of gas in the future through the interconnection with Southern Natural Gas Company's lines, except for sale to Mississippi Power and Light Company for resale in the town of Benton, as it has ample supplies of natural gas available for its Jackson district through its Monroe-Jackson-Mobile line, and its Lirette-Mobile line.

If the removal of the facilities is permitted, applicant proposes to furnish service to Benton by the construction of approximately 2,295 feet of 2-inch line from the point of the present interconnection with Southern Natural Gas Company's line to the existing 2-inch tap line serving Benton, and by the purchase of the gas requirements of Benton from Southern Natural Gas Company.

In the event that the Commission denies authorization for the removal of the facilities, applicant requests that the Commission determine a reasonable price to be paid applicant for gas sold to Southern Natural Gas Company, and, in addition, to provide for annual payments to be made by the latter to applicant to provide a reasonable return on the investment on the properties proposed to be removed.

Anyone desiring to be heard with respect to this application or to protest thereto shall communicate with the Federal Power Commission, 1800 Pennsylvania Avenue, Washington (25), D. C., on or before August 25, 1943.

FEDERAL SECURITY AGENCY.

Food and Drug Administration.

[Docket No. FDC-7-D-1]

SWEETENED CONDENSED MILK: USE OF CORN SYRUP

PROPOSED ORDER

It is proposed that, by virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701; 52 Stat. 1046, 1055; 21 U. S. C. 341, 371, 1940 ed.); the Reorganization Act of 1939 (53 Stat. 561 ff.; 5 U.S.C. 133-133v (Supp. V, 1939)); and Reorganization Plans No. I (53 Stat. 1423) and No. IV (54 Stat. 1234); and upon the basis of evidence of record herein, the following order be made:

FINDINGS OF FACT¹

1. When sugar in condensed milk products is replaced in whole or in any substantial part with the solids of medium or high conversion corn sirup (see finding 9) the products when first prepared have physical properties similar to those of sweetened condensed milk prepared with sugar alone. However, unless the products are stored at relatively low temperatures (less than 50° F.) they soon become noticeably thicker; this is followed by gradual darkening and further thickening, so that in a few months they are unmarketable. When held below 50° F. these products remain usable after several months storage. Although some thickening and discoloration occurs when sweetened condensed milk prepared with sugar alone is held under ordinary temperatures over long periods of time, such deterioration is much less rapid than when corn sirup is used to replace sugar in whole or in any substantial part. In general, when corn sirup is so used to replace sugar, the rate and extent of deterioration are directly proportional to the degree of replacement of sugar by corn sirup. (R. pp. 30-31, 34-35, 61, 74-78, 99, 109-111, 182, 232, 233-240, 252-260, 289, 481-494, 505-522; O. P. Ex. 7; Govt. Ex. 3)

2. There is no evidence that corn sirup was used in preparing any kind of condensed milk product or condensed skim milk product prior to about February 1939. About March 1939, experiments were begun under a university fellowship established by a manufacturer of corn sirup, to determine whether corn sirup could be used to replace sugar, wholly or in part, in sweetened condensed skim milk. In these experiments high conversion corn sirup (see finding 9) was used, and batches were run with replacement of sugar by 25, 50, 75, and 100 percent corn sirup solids. Most of the work was done with skim milk, but one experimental batch was made with milk. In 1941 and 1942, under another university fellowship established by a different corn sirup manufacturer, small

scale experiments, mostly with skim milk, were made, in which about one-third and one-half of the sugar was replaced with medium conversion corn sirup. In 1942 and 1943, somewhat similar experiments were made in the laboratories of the Bureau of Dairy Industry of the United States Department of Agriculture, with milk and various combinations of medium and high conversion corn sirups or dried corn sirups with sugar. All these experiments gave substantially the same results as those described in finding 1. (R. pp. 30-31, 34-35, 61, 74-78, 99, 100-111, 182, 232, 233-240, 252-260, 289, 481-494, 505-522; O. P. Ex. 7; Govt. Ex. 3)

3. The results of replacing sugar wholly or partly with corn sirup when milk is used are substantially the same as when skim milk is used. (R. pp. 37-38, 245, 481-494, 505-522)

4. Following publicity given to the results of the first experiments referred to in finding 2, a few manufacturers of milk products began to prepare and sell small amounts of sweetened condensed skim milk in which corn sirups in varying proportions are used along with sugar. These products are purchased by candy makers, bakers, and ice cream manufacturers, who are usually informed of the composition, generally by a statement of the percent by weight of sugar and corn sirup solids in the finished products. When proper allowances are made by the purchaser for the different quantities and characteristics of the sweetening ingredients, these products are acceptable. Occasionally small amounts of condensed products are made from corn sirup, sugar, and milk or a partially skimmed milk, the fat content of which approaches that of low-fat milk. These products, in general, show the same characteristic differences from those sweetened with sugar alone as are shown by the corresponding skim milk products. (R. pp. 37-38, 94-95, 192-196, 303-304, 328, 330, 365-366, 376-378; Govt. Ex. 6)

5. Although experience with the use of corn sirup in condensed milk products has been quite limited, the evidence shows that products suitable for use as ingredients in the manufacture of certain other foods can be made by condensing milk with corn sirup or a mixture of sugar and corn sirup. However, such products, because of their relatively rapid deterioration when unrefrigerated, cannot be satisfactorily marketed for household use, since the usual method of retail distribution of sweetened condensed milk does not involve refrigeration. Sweetened condensed milk for household use has always been prepared with sugar alone. (R. pp. 31, 39-41, 64-65, 195-196, 236, 250, 304, 328, 357, 522-524, 543-545; Govt. Ex. 3)

6. The cost of corn sirup, on the basis of its solids content, and of dried corn sirup, is less than that of sugar, and condensed milk prepared with corn sirup or dried corn sirup can be produced at a cost less than that of sweetened condensed milk, the difference depending on the extent of replacement of sugar. Differing percentages of corn sirup solids and of sugar in condensed milks also result in differing properties and charac-

teristics in such condensed milks and necessitate allowances or adjustments in the formulas of the foods in which such condensed milks are used as ingredients. (R. pp. 69, 229, 338-339, 360-361, 388, 524-526; O. P. Ex. 7, 8; Govt. Ex. 3, 7, 10, 11, 12)

7. The only users of condensed milks containing corn sirup solids so far known are manufacturers of candy, ice cream, and bakery products. Most such articles are prepared in accordance with formulas specifying the quantities of corn sirup solids and sugar to be used. Changes in these quantities cause differences in the properties and characteristics of the finished foods. In order to use in such foods condensed milks containing corn sirup solids and sugar without risk of changing such finished products it is necessary for the users to know the quantities of corn sirup solids and sugar in the condensed milk. Label declaration of the percentages by weight of corn sirup solids and of sugar in such condensed milks furnishes this necessary information. (R. pp. 35, 66, 169, 199-200, 283, 310, 328, 336, 345, 367, 374, 381-385, 387-388, 460-462, 550-554; O. P. Ex. 8; Govt. Ex. 7, 9, 12, 13, 14, 15)

8. Condensed milks in which all or part of the sugar has been replaced with corn sirup solids have not acquired common or usual names. Designations for such products which are accurate and informative and which will differentiate them from sweetened condensed milk and from each other are "corn sirup condensed milk", when corn sirup or dried corn sirup is used alone; and when mixtures of corn sirup or dried corn sirup and sugar are used, such names as "10% corn sirup solids 30% sugar condensed milk", "21% corn sirup solids 21% sugar condensed milk", the percentages stated being the whole numbers nearest the actual percentages. (R. pp. 378, 462-463, 467-468, 478, 551-552, 554-555; O. P. Ex. 1, 8; Govt. Ex. 6, 7, 8, 12, 13)

9. All corn sirups are clarified and concentrated aqueous solutions of the products obtained by the incomplete hydrolysis of cornstarch. Corn sirups are sometimes dried and used in the dried state. At first only the high conversion corn sirup was used in condensed skim milk products but more recent experiments with medium conversion corn sirup show that it is also suitable for such use. No experiments have been made with low conversion corn sirup, and trade opinion indicates that it is unsuitable for such use. The differences between the low, medium, and high conversion sirups are due to differences in the quantity of certain saccharine substances in comparison with the quantity of dextrans. In common commercial practice the degree of conversion is expressed as the percent by weight (in the dry matter) of reducing sugars, calculated as anhydrous dextrose. Corn sirups and dried corn sirup showing on this basis not less than 40 percent reducing sugars, which is about the lower limit for medium conversion corn sirup, are suitable for use in condensed milks. (R. pp. 30, 120, 242, 393-406, 420-440; O. P. Ex. 7; Govt. Ex. 3)

On the basis of the foregoing findings of fact it is concluded that:

(1) It would not promote honesty and fair dealing in the interest of consumers to provide for the use of corn sirup as an ingredient of sweetened condensed milk.

(2) The following regulation fixing and establishing definitions and standards of identity for condensed milks with corn sirup will promote honesty and fair dealing in the interest of consumers:

§ 18.535 *Condensed milks with corn sirup; identity.* (a) Condensed milks with corn sirup are the foods each of which conforms to the definition and standard of identity prescribed for sweetened condensed milk by § 18.530 except that corn sirup or a mixture of corn sirup and sugar is used instead of sugar or a mixture of sugar and dextrose. For the purposes of this section the term "corn sirup" means a clarified and concentrated aqueous solution of the products obtained by the incomplete hydrolysis of cornstarch, and includes dried corn sirup; the solids of such corn sirup contain not less than 40 percent by weight of reducing sugars, calculated as anhydrous dextrose.

(b) The name of each such food is:

(1) "Corn sirup condensed milk," if corn sirup alone is used; or

(2) "-----% Corn sirup solids -----% sugar condensed milk," if a mixture of corn sirup and sugar is used, the blanks being filled in with the whole numbers nearest the actual percentages of corn sirup solids and sugar in such food.

Filing of Exceptions

Any interested person whose appearance was filed at the hearing may, within 20 days from the date of publication of this proposed order in the FEDERAL REGISTER, file with the Hearing Clerk of the Federal Security Agency, Office of the Assistant General Counsel, Room 2242, South Building, 14th Street and Independence Avenue, Southwest, Washington, D. C., written exceptions thereto. Exceptions shall point out with particularity the alleged errors in the proposed order, and shall contain specific references to the pages of the transcript of the testimony or to the exhibits on which each exception is based. Such exceptions may be accompanied with a memorandum or brief in support thereof.

OFFICE OF PRICE ADMINISTRATION.

[Order 13 Under MPR 127]

GRANTING EXCEPTION TO PETITIONERS

Order No. 13 under Maximum Price Regulation No. 127—Finished Piece Goods.

Separate petitions listed in paragraph (f) of this Order No. 13 were filed pursuant to § 1400.82 (i) (3) of Maximum Price Regulation No. 127. Inasmuch as the petitions listed therein were filed pursuant to the same provision and request the same type of relief, the Price Administrator deems it appropriate to consolidate the said petitions for the purpose of their determination.

Consideration has been given to the petitions and an opinion in support of this Order No. 13 has been issued and filed with the Division of the Federal Register. For the reasons set forth in the opinion, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, and in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration, *It is hereby ordered:*

(a) Each of the Petitioners named in paragraph (f), below, is granted an exception from the provisions of § 1400.82 (i) (2), (v) of Maximum Price Regulation No. 127 and may insofar as it purchases finished piece goods and acts as a jobber thereof, charge a markup on such jobbing sales not in excess of that provided for wholesalers and jobbers under § 1400.82 (i) (1) of the said regulation.

(b) The permission granted to the Petitioners is subject to the following conditions:

(1) During the periods between July 1, 1942 and November 30, 1943, December 1, 1943 and June 30, 1944, and each 12 month period thereafter beginning July 1, 1944, the proportion of goods sold at a markup above cost by each of such Petitioners as a jobber, to its total sales of finished piece goods subject to Maximum Price Regulation No. 127 shall not exceed the percentage directly opposite the name of the Petitioner as listed in paragraph (f) below: *Provided*, That if any Petitioner acts as a converter-jobber for less than any of the periods stated above, the proportion of such jobbing sales to its total sales of finished piece goods, from the beginning of any one period to the time when it ceases to act as a converter-jobber shall not exceed the applicable percentage appearing in paragraph (f).

(2) In the event that at the expiration of any period designated in subparagraph (1) a petitioner has exceeded the percentage of jobbing permitted in paragraph (f), the excess sales upon which a jobber's markup was charged by such petitioner shall be determined in the following manner: (i) Multiply the total dollar volume of sales of finished piece goods during the period by the percentage appearing opposite the petitioner's name in paragraph (f); (ii) Subtract the amount determined pursuant to (i) from the total dollar volume of finished piece goods sold by the petitioner as a jobber;

(iii) Those sales of finished piece goods sold by the petitioner as a jobber or any portion of such sales which were last made during that period and which are equal to the difference obtained pursuant to (i) shall be excess sales in violation of this Order No. 13.

(3) For the purpose of this Order No. 13, sales of jobbed goods by a petitioner at a price not in excess of the established maximum price which a converter of such goods is permitted to charge shall not be considered a sale by such petitioner as a jobber nor shall such sales be included in determining the volume of finished piece goods sold by a converter-jobber.

(4) The restrictions imposed by § 1400.82 (i) (2) (ii) and (i) (2) (iv) of Maximum Price Regulation No. 127 are specifically made applicable to the jobbing sales made by each Petitioner under

the permission granted by this Order No. 13.

(5) Said Petitioners may not charge such jobber's markup with respect to finished piece goods purchased from a person controlling, controlled by or under common control with such Petitioner.

(c) All prayers of the petitions not granted herein are denied.

(d) This Order No. 13 may be revoked or amended by the Price Administrator at any time.

(e) Unless the context otherwise requires, the definitions set forth in § 1400.81 of Maximum Price Regulation No. 127 shall apply to the terms used herein.

(3) For carlot receivers and commission sellers receiving listed commodities in carload or truckload lots at points outside of the Chicago Metropolitan area from country shippers and selling to retailers other than chain store warehouses, the prices for the listed commodities set forth in Appendix A multiplied by 1.175.

(4) For carlot receivers and commission sellers receiving listed commodities in carload or truckload lots at points within the Chicago Metropolitan area from country shippers, warehousing such commodities, and selling them in less than carload lots from warehouses to wholesalers, retailers, chain store warehouses or any other purchaser, the prices for the listed commodities set forth in Appendix A multiplied by 1.08.

(b) *Maximum prices for sales at wholesale.* The maximum price for a sale of a listed commodity by a wholesaler shall be a price determined before making any sales on Wednesday of each week in whichever of the following ways is applicable:

(1) For retailer owned co-operative wholesaler or cash and carry wholesaler buying from an auction, carlot receiver or commission seller, multiply the "net cost" (as defined in section (d) (5)) by 1.08.

(2) For retailer owned co-operative wholesaler or cash and carry wholesaler buying from another wholesaler (other than an auction, carlot receiver, or commission seller), multiply the "net cost" to the other wholesaler of that lot by 1.17: *Provided*, That in no event shall the price so determined be more than 1.17 times the "net cost" of that lot to the first purchaser thereof from an auction, carlot receiver or commission seller.

(3) For a service wholesaler buying from an auction, carlot receiver or commission seller and selling to a retailer or to commercial, industrial, institutional

or governmental users, multiply the "net cost" by 1.175. As used in this order the term "users" shall not include wholesalers.

(4) For a service wholesaler buying from another wholesaler (other than an auction, carlot receiver, or commission seller) and selling to a retailer or to commercial, industrial, institutional or governmental users, multiply the "net cost" to the other seller of that lot by 1.27: *Provided*, That in no event shall the price so determined be more than 1.27 times the "net cost" of that lot to the first purchaser thereof from an auction, broker, carlot receiver, or commission seller.

To the price as above computed a wholesaler may add the amount of freight, if any, paid by him, and if buying from another wholesaler, the freight, if any, paid by such other wholesaler.

(c) *Invoice information.* Any seller shall state on his invoice the net weight, quantity, and grade of any listed commodity sold. Any wholesaler selling to another wholesaler shall state on his invoice his own net cost and the amount of freight paid by him. No wholesaler shall buy from another wholesaler any listed commodity until he has secured information as to his supplier's net cost and freight.

(d) *Definitions.* As used herein: (1) "A retailer owned co-operative" wholesaler shall mean a non-profit organization or co-operative of, which 51% or more of the stock is owned by its retailer customers and which distributes listed commodities at wholesale.

(2) "A cash and carry wholesaler" shall mean a person other than a carlot receiver or commission seller who distributes listed commodities for resale, or to commercial, industrial, institutional, or governmental users and who did not prior to March 15, 1943, customarily deliver to purchasers.

(3) "A service wholesaler" shall mean a person, other than a carlot receiver, commission seller, or retailer owned co-operative, who distributes listed commodities for resale or to commercial, industrial, institutional, or governmental users and who prior to March 15, 1943 customarily delivered to such purchasers.

(4) "Freight" shall mean actual charges made by a common carrier or contract carrier (including icing or refrigeration) and transportation tax. In the event that a listed commodity is transported by other means, freight shall be computed at the lowest available common or contract carrier rate. Freight shall not include any express charges or charges for unloading or local trucking. Where purchases are made by the United States Government or any subdivision thereof at a delivered price, such delivered price may include an amount not to exceed 14¢ a cwt. to compensate shippers for risks during transit.

(5) "Net Cost" of each size and grade of each listed commodity shall be the price excluding freight paid by each wholesaler of the largest single lot of the particular size and grade of the commodity received during the seven-day period prior to each Wednesday: *Provided*, That in no case shall a wholesaler use a net cost higher than the maximum price, whether on a dollars and

cents or formula basis, specified in Appendix A multiplied by 1.08. In the event that there shall be no "largest single lot" the wholesaler shall use the average price for the two or more largest lots received during such seven-day period. In the event that a seller shall have received no deliveries during the week prior to any Wednesday, his net cost shall be the net cost established during the previous seven-day period. In the event that no net cost can be arrived at by the foregoing methods, a seller's net cost shall be the price for the lot of the listed commodity being priced, but in no event higher than the maximum price specified in Appendix A multiplied by 1.08. Net cost shall be applied to the actual net weight or quantity purchased and not to the usable quantity contained in any lots, the intention being that losses through shrinkage and spoilage shall be absorbed out of the mark-ups provided and shall not affect the "net cost."

(6) "Formula price" means a price arrived at by multiplying the actual country shipping point price paid any country shipper by 1.035 and adding freight from country shipping point to point of sale; but in no event shall the shipping point price exceed the lawful maximum country shipping point price established by any regional order of the Office of Price Administration. The maximum dollars and cents country shipping point prices for various listed commodities established by certain regional offices are set forth in Appendix B—Maximum Country Shipping Point Prices. Where a country shipping point is located in a state for which no dollars and cents maximum country shipping point price has been established by a regional order, no country shipping point price may be used in computing a "formula price" higher than the lowest dollars and cents maximum country shipping point price for the listed commodity then in effect under any regional order. With respect to lettuce no country shipping point price higher than the lowest maximum country shipping point price listed in Appendix B may be used, irrespective of the location of the actual country shipping point from which shipment is made.

(7) "Warehouse" and "warehousing" refers to the storage of listed commodities in public or private warehouses, in-

cluding wholesalers' stores. Storage in railroad cars is not "warehousing", and delivery direct from railroad cars in less than carload lots shall not entitle sellers to more than car-lot prices.

(8) Unless the context otherwise requires, the definitions set forth in Maximum Price Regulation 376 shall apply to any terms used herein not specifically defined.

(e) *Repacked tomatoes:* Any wholesaler who repacks tomatoes other than hot-house tomatoes, may add to his maximum price established hereunder 2½¢ per pound; and this amount, if not already included in net cost, may be added by any subsequent wholesaler buying repacked tomatoes from the repacker.

(f) *Tying agreements:* No seller shall as a condition of sale of any listed commodity impose upon any buyer the requirement that he purchase any other commodity.

(g) *Geographical applicability:* This order applies to all sales pursuant to which the buyer receives physical delivery within Illinois, Wisconsin, South Dakota, North Dakota, Iowa, Minnesota, Nebraska and within the County of Lake, Indiana, including sales made f. o. b. shipping points outside of said states for delivery within said states. Where sales are made on such f. o. b. basis from shipping points outside the above named states the f. o. b. maximum price shall be the lower of the following amounts:

(1) The maximum price established for sales at such shipping point under any applicable regional order.

(2) Any maximum dollars and cents price established for a listed commodity in Appendix A of this order less freight from shipping point to point of destination.

(h) *Relationship to other orders:* Revised Regional Order 52 as amended, and Order No. G-1 under Maximum Price Regulation 376 are hereby revoked and replaced by this order. Except as herein specifically modified, the provisions of Maximum Price Regulation 376 shall remain in full force and effect.

(i) *Effective date:* This order shall become effective May 24, 1943 and shall remain in effect so long as Maximum Price Regulation 376 shall remain in effect or until revoked, amended, modified or superseded.

Issued this 21st day of May, 1943.

RAYMOND S. McKEOUGH,
Regional Administrator.

NATIONAL POWER AND LIGHT CO. ET AL.

NOTICE OF FILING AND ORDER RECONVENING
HEARING, CONSOLIDATING PROCEEDINGS AND
BROADENING SCOPE OF ISSUES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of August, A. D. 1943.

In the matter of National Power & Light Company, File No. 54-51; Carolina

Power & Light Company, National Power & Light Company, and Electric Bond and Share Company, File No. 59-67.

Notice of filing and order reconvening hearing and order consolidating proceedings and broadening scope of issues. (Application No. 4.)

The Commission, by order dated April 10, 1943, having instituted a proceeding under sections 11 (b) (2), 12 (c), 12 (f), 15 (f) and 20 (a) of the Public Utility Holding Company Act of 1935, against Carolina Power & Light Company ("Carolina"), its corporate parent, National Power & Light Company ("National"), a registered holding company, and Electric Bond and Share Company, the corporate parent of National and also a registered holding company (File No. 59-67), and having consolidated said proceeding with a proceeding on an application (designated as "Application No. 3") and amendments thereto filed by National for authority to consummate certain transactions as further steps in compliance with an order of the Commission dated August 23, 1941, issued pursuant to the provisions of section 11 (b) (2) of the Act, directing the dissolution of National (File No. 54-51); and

Hearings having been held and concluded with respect to certain of the issues in said consolidated proceeding, and the Commission having made and issued its findings, opinion and orders with respect thereto, and the hearing as to the remaining issues in said consolidated proceeding having been continued subject to call of the Trial Examiner or the Commission;

Notice is hereby given that an application (designated as "Application No. 4") has been filed with the Commission by National pursuant to the provisions of the Public Utility Holding Company Act of 1935 amending and expanding the proposals contained in said Application No. 3 and seeking authority to consummate certain transactions as further steps in compliance with said order of the Commission dated August 23, 1941, directing the dissolution of National, and that an answer has been filed by Carolina purporting to meet such of the issues raised in said consolidated proceeding as relate to Carolina. All interested persons are referred to said application and answer, which are filed in the office of the Commission, for a statement of the transactions proposed in said application and of the allegations contained in said answer, which are summarized as follows:

National states that it has developed a program to provide cash funds for the retirement of its outstanding \$6 preferred stock consisting of 12,000 shares, without the use of proceeds from the sale of its holdings of \$7 preferred stock of Carolina as was proposed in its Application No. 3 and, subject to and conditioned upon the approval by the Commission of such program, National proposes the following transactions as further steps to effectuate its dissolution and to meet the issues raised in said consolidated proceeding.

(a) National proposes to surrender to Carolina for cancellation, as a contribution to the capital of Carolina, its holdings of

\$7 preferred stock of Carolina consisting of 16,806 shares without par value; and, subject to all necessary approvals by stockholders and regulatory authorities, Carolina proposes to reduce its preferred stock capital in the amount of \$1,680,600 and to create a capital reserve for adjustments of plant account in the same amount.

(b) Subject to the prior solution of relevant tax problems and all necessary approvals by stockholders and regulatory authorities, Carolina proposed to amend its charter to provide, in substance, that, if at the time of any annual meeting of stockholders for the election of directors dividends payable on the \$17 preferred stock or \$6 preferred stock shall be in default in an amount equivalent to four full quarter-yearly dividends on all such shares then outstanding, then at such annual meeting of stockholders, and at each annual meeting of stockholders held thereafter, the holders of all shares of the \$7 preferred stock and \$6 preferred stock, voting as a single class separately from the common stock, shall be entitled to elect the smallest number of directors necessary to constitute a majority of the then authorized number of directors, the remaining directors to be elected by the stockholders without distinction as to class. If and when all dividends then in default on the then outstanding shares of said \$7 preferred stock and \$6 preferred stock shall be paid or declared and set apart for payment, or there shall be accumulated earnings legally available for the payment in full of such dividends, then the preferred stock shall thereupon be divested of such special right with respect to the election of directors subject, however, to the same provisions for vesting such special voting rights in the \$7 preferred stock and \$6 preferred stock in case of further like default or defaults in dividends thereon.

(c) National proposes to surrender to Carolina for cancellation, as a contribution to the capital of Carolina, a specified number of shares (the number thereof to be supplied by amendment) of the common stock of Carolina owned by National in order to facilitate the distribution of the common stock of Carolina to the common stockholders of National.

(d) National proposes to transfer to Carolina without consideration its interests in Roanoke River Power Company (a wholly-owned subsidiary of National), consisting of 5 shares of capital stock with a par value of \$100 per share and an Income Note dated November 30, 1938 due November 30, 1940, payable to the order of National in the principal amount of \$1,575,500 and bearing interest before and after maturity if, as and when earned at the rate of 6% per annum. Carolina proposes to record such acquisition of securities in its investment account at the sum of \$1,575,500 and to create a special reserve therefor in the same amount.

(e) Subject to the approval of the Commission, and upon consummation of the transactions hereinabove summarized, National, as a further step in its liquidation, proposes to distribute its holdings of common stock of Carolina pro rata to its own common stockholders.

It appearing appropriate to the Commission that the hearing should be reconvened in said consolidated proceeding with respect to certain of the issues remaining undetermined therein; and it further appearing to the Commission that the proceeding in respect of said Application No. 4 involves questions of law and fact common to the issues remaining undetermined in said consolidated proceeding, and that said proceeding should be joined and heard with the aforesaid consolidated proceeding; and it appearing appropriate to the Commis-

sion that the scope of the issues set forth in its Order dated April 10, 1943 should be broadened;

It is ordered, That the proceeding with respect to Application No. 4 filed by National for authority to consummate the transactions hereinabove summarized, be and the same hereby is, consolidated with the aforesaid consolidated proceeding.

It is further ordered, That the hearing in said consolidated proceeding shall be reconvened on August 18, 1943 at 10:30 a. m., e. v. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in such room as may be designated on such date by the hearing room clerk.

It is further ordered, That William W. Swift or any other officer or officers of the Commission designated by it for that purpose shall preside at the reconvened hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the Act and to a Trial Examiner under the Commission's Rules of Practice.

It is further ordered, That any person desiring to be heard at said reconvened hearing or proposing to intervene herein shall file with the Secretary of the Commission on or before August 16, 1943 his request or application therefor as provided by Rule XVII of the Rules of Practice of the Commission.

It is further ordered, That the scope of the issues in said consolidated proceeding be broadened and that, in addition to the matters set forth in paragraphs 3 to 6, both inclusive, of ordering clause 5 of said Order dated April 10, 1943, as the matters to be considered at the reconvened hearing, there be added the following matters and questions:

(a) Whether the proposed surrender by National of said 16,806 shares of \$7 preferred stock of Carolina, and the proposed acquisition and cancellation of said shares by Carolina are in conformity with the provisions of sections 12 (e) and 12 (f) of the Act and the Rules and Regulations promulgated thereunder.

(b) Whether the accounting entries in connection with the proposed transactions are in conformity with the standards of the Act and all Rules and Regulations promulgated thereunder.

(c) Whether the proposed transactions constitute steps in compliance with the Order of the Commission dated August 23, 1941, issued pursuant to section 11 (b) (2) of the Act directing the dissolution of National, and whether such transactions are fair and equitable to all classes of security holders affected thereby.

(d) Whether, upon consummation of the proposed transactions, it is appropriate in the public interest to rescind or modify any or all orders of the Commission prohibiting or restricting the declaration or payment by Carolina and the receipt by National of dividends on the common stock of Carolina.

(e) Whether, upon consummation of the proposed transactions, it is appropriate to terminate the proceeding instituted by said Order of the Commission dated April 10, 1943 against Carolina, National and Electric Bond and Share Company (File No. 59-67).

It is further ordered, That the Secretary of the Commission shall serve notice of the entry of this order by mailing a copy thereof by registered mail to Carolina Power & Light Company, National

Power & Light Company and Electric Bond and Share Company and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

AMERICAN METAL MINING COMPANY

ORDER FOR HEARING AND DESIGNATING OFFICER TO TAKE TESTIMONY

At a regular session of the Securities and Exchange Commission, held at its offices in the City of Philadelphia, Pa., on the 11th day of August, A. D. 1943.

In the matter of proceeding under section 19 (a) (2) of the Securities Exchange Act of 1934, as amended, to determine whether the registration of American Metal Mining Company assessable common stock, par value 10¢, should be suspended or withdrawn.

I

It appearing to the Commission:

That American Metal Mining Company, a corporation organized under the laws of the State of Utah, is the issuer of Assessable Common Stock, 10¢ Par Value; and

That said American Metal Mining Company registered such security on the Salt Lake Stock Exchange, a national securities exchange, by filing with the Exchange and with the Commission on or about May 9, 1935 an application on Form 10, pursuant to section 12 (b) and (c) of the Securities Exchange Act of 1934, as amended, and Rule X-12B-1, as amended, promulgated by the Commission thereunder, registration pursuant to such application having become effective on July 16, 1935, and remaining in effect to and including the date hereof; and

That pursuant to section 13 (a) and (b) of said Securities Exchange Act of 1934, as amended, and Rules X-13A-1, X-13A-2, and X-13A-6, promulgated by the Commission thereunder, said American Metal Mining Company filed on or about September 12, 1942 a current report on Form 8-K for the calendar month ended August 31, 1942 and on or about May 4, 1943 said Company filed an annual report on Form 10-K for the fiscal year ended December 31, 1942, both being signed for said Company by Charles S. Woodward as president; and

II

The Commission having reasonable cause to believe:

That said American Metal Mining Company has failed to comply with the provisions of said section 13 (a) and (b), as amended, and Rules X-13A-1, X-13A-2, and X-13A-6, promulgated thereunder in that

(1) The current report filed by said Company on Form 8-K for the calendar month of August 1942 contains in Item 4 thereof false and misleading statements with respect to the sale of its stock between July 1, 1942 and September 5, 1942 to Index Mining Company and to F. O. Taylor, to wit: that "All sales were isolated transactions made to individuals and stockholders of record" and that "It is understood that such stock was bought as an investment, but whether any purchaser acquired the securities with a view to a subsequent distribution is not known"; that these statements were, at the time and in the light of the circumstances under which they were made, false and misleading with respect to material facts, in that:

(a) American Metal Mining Company knew that the sale of said stock to Index Mining Company was part of a plan to distribute the stock of American Metal Mining Company to the stockholders of Index Mining Company through the sale to American Metal Mining Company of the assets of Index Mining Company and the liquidation of the latter company, and that, in fact, such distribution has been made; and

(b) American Metal Mining Company knew that the sale of the stock to F. O. Taylor was made with a view to the distribution of said stock by him and that, in fact, C. S. Woodward, president of American Metal Mining Company, participated with F. O. Taylor in the distribution of said stock; and

(2) the annual report filed by said Company on Form 10-K for the fiscal year ended December 31, 1942 contains in Item 12 thereof false and misleading statements with respect to the sale of the securities referred to above, to wit: that "F. O. Taylor of Townsend, Delaware, a stockholder of record, who obtained an option on, and sold 300,000 shares of the treasury stock of the company, may be an underwriter within the meaning of the act, although the company does not consider him as such for the reason that the stock was bought outright, and paid for upon delivery. There were no underwriter's commissions paid, or involved"; and that the securities sold to F. O. Taylor were not registered under the Securities Act of 1933 for the reason that "the stock sold for cash was an isolated transaction"; and that the securities sold to the Index Mining Company were not registered under the Securities Act of 1933 for the reason that "the stock sold for a consideration of other than cash, consisted of 145,000 shares; given in exchange for Mining property"; that these statements were, at the time and in the light of the circumstances under which they were made, false and misleading with respect to material facts, in that:

(a) American Metal Mining Company knew that the sale of said stock to Index Mining Company was part of a plan to distribute the stock of American Metal Mining Company to the stockholders of Index Mining Company through the sale to American Metal Mining Company of the assets of Index Mining Company and the liquidation of the latter company, and that, in fact, such distribution has been made; and

(b) American Metal Mining Company knew that the sale of the stock to F. O. Taylor was made with a view to the distribution of said stock by him and that, in fact, C. S. Woodward, president of American Metal Mining Company, participated with F. O. Taylor in the distribution of said stock; and

That said American Metal Mining Company has failed to comply with the provisions of said section 13 (a) and (b), as amended, and Rules X-13A-1 and X-13A-2, promulgated thereunder in that said Company has failed to submit with the annual report filed by it on Form 10-K for the fiscal year ended December 31, 1942 financial statements certified by "an independent public or independent certified public accountant or accountants" as required by Item 8 thereof and by the instructions for the use of Form 10-K and the rules and regulations of the Commission supplementary thereto in that J. W. Orton, who certified, as independent public accountant, the financial statements contained in the annual report filed by it on Form 10-K for the fiscal year ended December 31, 1942, was not and is not independent within the meaning of the requirements of said Form 10-K and the instructions and rules and regulations of the Commission supplementary thereto because of the relationship between J. W. Orton and Louise M. Orton, the secretary and treasurer of American Metal Mining Company, i. e., that of husband and wife.

In the matter of Standard Oil Company (Incorporated in New Jersey), File No. 31-130.

The Commission on February 5, 1942 having issued its Findings, Opinion and Order denying the application of Standard Oil Company (Incorporated in New Jersey) pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935, for an exemption from any provision or provisions of said Act, but having "in view of the peculiar problems present by reason of applicant's interests in its other business . . . and in view of applicant's expressed willingness to cooperate in the solution of the problems arising from its public utility business" suspended the operation of said order for a period of six months until August 4, 1942, which has by subsequent orders been extended from time to time to August 12, 1943; and

Standard Oil Company having caused Consolidated Natural Gas (1) to be organized and to file on July 31, 1942, pursuant to section 5 (a) of the Act, a notification of registration as a person purposing to become a holding company; and (2) to file applications and declarations regarding the proposed acquisition from Standard Oil Company of all the voting securities of certain natural gas utility companies, concerning which hearings have been held and the record substantially completed; and

Standard Oil Company having informed the Commission that it contemplates distributing, pro rata, among its stockholders all of the shares of Consolidated Natural Gas Company (excluding fractions) which it will receive in exchange for shares of its present subsidiaries to be acquired by Consolidated Natural Gas Company in the event such acquisition is approved; and

In that connection, Standard Oil having indicated its desire to register pursuant to section 5 of the Act and to file a plan pursuant to section 11 (e) of said Act, which plan "it is hoped may be combined with the said plan heretofore filed by Consolidated so that the two may be approved in a single order . . . and consummated as a combined plan . . . prior to January 1, 1944"; and

Commission's Findings and Opinion, as amended, and any order or orders entered thereon, insofar as is applicable to sections 4, 5, and 11 and having consented to said order being made immediately applicable to said sections 4, 5, and 11 but having reserved any right it may have to request a rehearing or seek judicial review of said Findings and Opinion, as amended, and any orders entered thereon, as applicable to all provisions of the Act other than sections 4, 5, and 11;

Now, therefore, it is ordered, That the effective date of the Commission's Order of February 5, 1942 (as extended to August 12, 1943) denying the application of Standard Oil Company, pursuant to section 3 (a) (3) of the Public Utility Holding Company Act of 1935, be, and hereby is, extended to February 1, 1944 as applied to all provisions of the Act, other than sections 4, 5, and 11 thereof: *Provided, however*, That this order is without prejudice to any and all rights which Standard Oil Company may have now to request a rehearing or seek judicial review of this Commission's Findings and Opinion, as amended, and of any order or orders entered thereon other than in respect of sections 4, 5, and 11 of the Act, and that neither this Order, nor the filing by Standard Oil Company of a notification of registration pursuant thereto shall be deemed to terminate as applied to sections of the Act other than sections 4, 5, and 11, the temporary exemption available to Standard upon the filing of said application for exemption as provided in section 3 (c) of the Act.
