(i) *Quota exclusions and exemptions.* Deliveries of milk, milk byproducts, or cream (1) to other handlers, except for such deliveries to sub-handlers, (2) to plants engaged in the handling or processing of milk, milk byproducts, or cream from which no milk, milk byproducts, or cream is delivered in the sales area, and (3) to the agencies or groups specified in (d) of FDO 79, shall be excluded from the computation of deliveries in the base period, and exempt from charges to quotas.

(j) *Transfers and apportionment of quotas.* The market agent is empowered to deduct an amount of base period deliveries to purchasers from the total of deliveries made by a handler or other person in the base period upon the application and a showing of unreasonable hardship by the handler making deliveries to such purchasers on the effective date of this order, and to add the amount of such deliveries to the total base period deliveries of the applicant handler. Denials of transfers or transfers granted by the market agent shall be reviewed by the Director upon application.

(k) *Petition for relief from hardships.* (1) Any person affected by FDO 79 or the provisions hereof who considers that compliance therewith would work an exceptional and unreasonable hardship on him, may file with the market agent a petition addressed to the Director. The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition, the market agent shall immediately investigate the representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition, or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall be reviewed by the Director and may be affirmed, modified, or reversed by the Director.

(1) *Reports.* Each handler shall transmit to the market agent on forms

prescribed by the market agent the following reports:

(1) Within 20 days following the effective date of this order, reports which show the information required by the market agent to establish such handlers' quotas;

(2) Within 20 days following the close of each quota period, the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts during the preceding quota period; and

(3) Handlers exempt from quotas pursuant to (h) hereof shall, upon the request of the market agent, submit the information required by the market agent to establish volumes of deliveries of milk, cream, and milk byproducts.

(m) *Records.* Handlers shall keep and shall make available to the market agent such records of receipts, sales, deliveries, and production as the market agent shall require for the purpose of obtaining information which the Director may require for the establishment of quotas as prescribed in (b) of FDO 79.

(n) *Distribution schedules.* The distribution schedules, if any, to be followed by the handlers in making deliveries shall be made effective in the terms of approval by the Director of such schedules.

(o) *Expense of administration.* Each handler shall pay to the market agent, within 20 days after the close of each calendar month an assessment of \$0.01 per hundredweight of each of milk, cream, skim milk, buttermilk, flavored milk drinks, beverages containing more than 85 percent of skim milk, and skim milk equivalent of cottage, pot, or baker's cheese delivered during the preceding quota period and subject to quota regulations under the provisions hereof.

(p) *Violations.* The market agent shall report all violations to the Director together with the information required for the prosecution of such violations, except in a case where a handler has made deliveries in a quota period in excess of a quota in an amount not to exceed 5 percent of such quota, and in the succeeding quota period makes deliveries below that quota by at least the same percent.

(q) *Bureau of the Budget approval.* The record keeping and reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subsequent record keeping or reporting requirements will be subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(r) This order shall take effect at 12:01 a. m., e. w. t., November 1, 1943.

Issued this 19th day of October 1943.

PART 1401—DAIRY PRODUCTS

FLUID MILK AND CREAM IN TULSA, OKLA.,  
METROPOLITAN SALES AREA

Pursuant to the authority vested in me  
by Food Distribution Order No. 79 (8

F.R. 12426) issued on September 7, 1943, as amended, and to effectuate the purposes of such order, it is hereby ordered as follows:

§ 1401.113 *Quota restrictions*—(a) *Definitions.* When used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof:

(1) Each term defined in Food Distribution Order No. 79, as amended, shall, when used herein, have the same meaning as is set forth for such term in Food Distribution Order No. 79, as amended.

(2) The term "FDO 79" means Food Distribution Order No. 79, issued on September 7, 1943, as amended.

(3) The term "sub-handler" means any handler, such as a peddler, vendor, sub-dealer, or secondary dealer, who purchases in a previously packaged and processed form milk, milk byproducts, or cream for delivery.

(b) *Milk sales area.* The following area is hereby designated as a "milk sales area" to be known as the Tulsa, Oklahoma, metropolitan sales area, and is referred to hereinafter as the "sales area":

The cities of Tulsa and Sand Springs; the townships of Dawson, Lynn Lane, Red Fork, and Wekiva, and the towns of Dawson and Garden City in Tulsa County, Oklahoma; the city of Sapulpa and the township of Sapulpa in Creek County, Oklahoma; and that part of Black Dog Township in township 20 N. ranges 10, 11, and 12 E, in Osage County, Oklahoma.

(c) *Base period.* The calendar month of June 1943 is hereby designated as the base period for the sales area.

(d) *Quota period.* The remainder of the calendar month in which the provisions hereof become effective and each subsequent calendar month, respectively, is hereby designated as a quota period for the sales area.

(e) *Handler quotas.* Quotas for each handler in the sales area in each quota period shall be calculated in terms of pounds of each of the items for which percentages are specified in (3) below and shall be determined as follows:

(1) Divide the total deliveries of each such item made in the sales area by such handler during the base period, after excluding the quota-exempt deliveries described in (1) hereof, by the number of days in the base period;

(2) Multiply the result of the foregoing calculation by the number of days in the quota period;

(3) Multiply the aforesaid resulting amount by the following applicable percentage: (i) milk: 100 percent; (ii) butterfat in milk: 100 percent; (iii) cream: 75 percent; (iv) butterfat in cream: 75 percent; (v) milk byproducts other than cottage, pot, or baker's cheese: 75 percent; and (vi) cottage, pot, or baker's cheese: 75 percent of skim milk equivalent. (For the purpose of this order, one pound of cottage, pot, or baker's cheese shall be considered as the equivalent of 7 pounds of skim milk.)

(f) *Quota limitations.* No handler shall, during any quota period, make deliveries in the sales area in excess of his respective quotas, except as set out in (1) hereof: *Provided*, That a handler may,

after application to and approval by the market agent, secure an increase in milk quotas through an equivalent reduction as determined by the market agent, in cream and milk byproducts quotas, and an increase in milk byproducts quota through an equivalent reduction as determined by the market agent, in cream quotas.

(g) *Quotas for handlers who are also producers.* Quotas for handlers who are also producers and who purchase no milk shall be 100 percent of the total production of such handlers in the base period.

(j) *Transfers and apportionment of quotas.* The market agent is empowered to deduct an amount of base period deliveries to purchasers from the total of deliveries made by a handler or other person in the base period upon the application and a showing of unreasonable hardship by the handler making deliveries to such purchasers on the effective date of this order, and to add the amount of such deliveries to the total base period deliveries of the applicant handler. Denials of transfers or transfers granted by the market agent shall be reviewed by the Director upon application.

(k) *Petition for relief from hardships.*

(1) Any person affected by FDO 79 or the provisions hereof who considers that compliance therewith would work an exceptional and unreasonable hardship on him, may file with the market agent a petition addressed to the Director. The petition shall contain the correct name, address and principal place of business of the petitioner, a full statement of the facts upon which the petition is based, and the hardship involved and the nature of the relief desired.

(2) Upon receiving such petition, the market agent shall immediately investigate the representations and facts stated therein.

(3) After investigation, the petition shall be certified to the Director, but prior to certification the market agent may (i) deny the petition, or (ii) grant temporary relief for a total period not to exceed 60 days.

(4) Denials or grants of relief by the market agent shall be reviewed by the

Director and may be affirmed, modified, or reversed by the Director.

## TITLE 21—FOOD AND DRUGS

### Chapter I—Food and Drug Administration

[Docket No. FDC-7-D-1]

#### PART 18—CONDENSED MILKS WHICH CONTAIN CORN SIRUP

##### DEFINITION AND STANDARD OF IDENTITY

By virtue of the authority vested in the Federal Security Administrator by provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055; 21 U.S.C. 341, 371, 1940 ed.) the Reorganization Act of 1939 (53 Stat. 561 ff., 5 U.S.C. 133-133v (Supp. V 1939)) and Reorganization Plans No. I (53 Stat. 1423) and No. IV (54 Stat. 1234), upon the basis of evidence of record herein; and upon consideration of exceptions filed to the proposed order issued by the Acting Federal Security Administrator on August 10, 1943 (8 F.R. 11260) the following order is hereby promulgated:

##### Findings of Fact

1. When sugar in condensed milk products is replaced in whole or in any substantial part with the solids of medium or high conversion corn sirup (see finding 9) the products when first prepared have physical properties similar to those of sweetened condensed milk prepared with sugar alone. However, unless the products are stored at relatively low temperatures (less than 50° F.) they soon become noticeably thicker; this is followed by gradual darkening and further thickening, so that in a few months they are unmarketable. When held below 50° F these products remain usable after several months storage. Although some thickening and discoloration occurs when sweetened condensed milk prepared with sugar alone is held under ordinary temperatures over long periods of time, such deterioration is much less rapid than when corn sirup is used to replace sugar in whole or in any substantial part. In general, when corn sirup is so used to replace sugar, the rate and extent of deterioration are directly proportional to the degree of replacement of sugar by corn sirup.

2. There is no evidence that corn sirup was used in preparing any kind of condensed milk product or condensed skim milk product prior to about February 1939. About March 1939, experiments were begun under a university fellowship established by a manufacturer of corn sirup, to determine whether corn sirup could be used to replace sugar, wholly or in part, in sweetened condensed skim milk. In these experiments high conversion corn sirup (see finding 9) was used, and batches were run with replacement of sugar by 25, 50, 75, and 100 percent corn sirup solids. Most of the work was done with skim milk, but one experimental batch was made with milk. In 1941 and 1942, under another university fellowship established by a different corn sirup manufacturer, small scale experiments, mostly with skim milk, were made, in which about one-third and one-half of the sugar was replaced with medium conversion corn sirup. In 1942 and 1943, somewhat similar experiments were made in the laboratories of the Bureau of Dairy Industry of the

United States Department of Agriculture, with milk and various combinations of medium and high conversion corn sirups or dried corn sirups with sugar. All these experiments gave substantially the same results as those described in finding 1.

3. The results of replacing sugar wholly or partly with corn sirup when milk is used are substantially the same as when skim milk is used.

4. Following publicity given to the results of the first experiments referred to in finding 2, a few manufacturers of milk products began to prepare and sell small amounts of sweetened condensed skim milk in which corn sirups in varying proportions are used along with sugar. These products are purchased by candy makers, bakers, and ice cream manufacturers, who are usually informed of the composition, generally by a statement of the percent by weight of sugar and corn sirup solids in the finished products. When proper allowances are made by the purchaser for the different quantities and characteristics of the sweetening ingredients, these products are acceptable. Occasionally small amounts of condensed products are made from corn sirup, sugar, and milk or a partially skimmed milk, the fat content of which approaches that of low-fat milk. These products, in general, show the same characteristic differences from those sweetened with sugar alone as are shown by the corresponding skim milk products.

5. Although experience with the use of corn sirup in condensed milk products has been quite limited, the evidence shows that products suitable for use as ingredients in the manufacture of certain other foods can be made by condensing milk with corn sirup or a mixture of sugar and corn sirup. However, such products, because of their relatively rapid deterioration when unrefrigerated, cannot be satisfactorily marketed for household use, since the usual method of retail distribution of sweetened condensed milk does not involve refrigeration. Sweetened condensed milk for household use has always been prepared with sugar alone.

6. The cost of corn sirup, on the basis of its solids content, and of dried corn sirup, is less than that of sugar, and condensed milk prepared with corn sirup or dried corn sirup can be produced at a cost less than that of sweetened condensed milk, the difference depending on the extent of replacement of sugar. Differing percentages of corn sirup solids and of sugar in condensed milks also result in differing properties and characteristics in such condensed milks and necessitate allowances or adjustments in the formulas of the foods in which such condensed milks are used as ingredients.

7. The only users of condensed milks containing corn sirup solids so far known are manufacturers of candy, ice cream, and bakery products. Most such articles are prepared in accordance with formulas specifying the quantities of corn sirup solids and sugar to be used. Changes in these quantities cause differences in the properties and characteristics of the finished foods. In order to use in such foods condensed milks containing corn sirup solids and sugar with

out risk of changing such finished products it is necessary for the user to know the quantities of corn sirup solids and sugar in the condensed milk. Label declaration of the percentages by weight of corn sirup solids and of sugar in such condensed milks furnishes this necessary information.

8. Condensed milks in which all or part of the sugar has been replaced with corn sirup solids have not acquired common or usual names. Designations for such products which are accurate and informative and which will differentiate them from sweetened condensed milk and from each other are "corn sirup condensed milk" "condensed milk with corn sirup" or "condensed milk prepared with corn sirup" when corn sirup or dried corn sirup is used alone; and when mixtures of corn sirup or dried corn sirup and sugar are used, such names as "10% corn sirup solids 32% sugar condensed milk" "condensed milk with 12% corn sirup solids 30% sugar" or "condensed milk prepared with 22% sugar 20% corn sirup solids" the percentages stated being the whole numbers nearest the actual percentages.

9. All corn sirups are clarified and concentrated aqueous solutions of the products obtained by the incomplete hydrolysis of cornstarch. Corn sirups are sometimes dried and used in the dried state. At first only the high conversion corn sirup was used in condensed skim milk products but more recent experiments with medium conversion corn sirup show that it is also suitable for such use. No experiments have been made with low conversion corn sirup, and trade opinion indicates that it is unsuitable for such use. The differences between the low, medium, and high conversion sirups are due to differences in the quantity of certain saccharine substances in comparison with the quantity of dextrans. In common commercial practice the degree of conversion is expressed as the percent by weight (in the dry matter) of reducing sugars, calculated as anhydrous dextrose. Corn sirups and dried corn sirup showing on this basis not less than 40 percent reducing sugars, which is about the lower limit for medium conversion corn sirup, are suitable for use in condensed milk.

On the basis of the foregoing findings of fact it is concluded that:

(1) It would not promote honesty and fair dealing in the interest of consumers to provide for the use of corn sirup as an ingredient of sweetened condensed milk.

(2) The following regulation fixing and establishing definitions and standards of identity for condensed milks which contain corn sirup will promote honesty and fair dealing in the interest of consumers:

§ 18.535 *Condensed milks which contain corn sirup; identity.* (a) Condensed milks which contain corn sirup are the foods each of which conforms to the definition and standard of identity prescribed for sweetened condensed milk by § 18.530 except that corn sirup or a mixture of corn sirup and sugar is used instead of sugar or a mixture of sugar and dextrose. For the purpose of this section the term "corn sirup" means a clarified and concentrated aqueous solution of the products obtained by the incomplete

hydrolysis of cornstarch, and includes dried corn sirup; the solids of such corn sirup contain not less than 40 percent by weight of reducing sugars, calculated as anhydrous dextrose.

(b) The name of each such food is:

(1) "Corn sirup condensed milk" "condensed milk with corn sirup" or "condensed milk prepared with corn sirup" if corn sirup alone is used; or

(2) "\_\_\_% Corn sirup solids \_\_\_% sugar condensed milk" "condensed milk with \_\_\_% corn sirup solids \_\_\_% sugar" or "condensed milk prepared with \_\_\_% corn sirup solids \_\_\_% sugar" if a mixture of corn sirup and sugar is used, the blanks being filled in with the whole numbers nearest the actual percentages of corn sirup solids and sugar in such food; alternately "\_\_\_% sugar" may precede "\_\_\_% corn sirup solids" in such names.

(Secs. 401, 701, 52 Stat. 1046, 1055; 21 U.S.C. 341, 371, 1940 ed., the Reorganization Act of 1939, 53 Stat. 561 ff., and Reorganization Plans Nos. I, 53 Stat. 1423, and IV, 54 Stat. 1234.)

The regulation hereby promulgated shall become effective on the ninetieth day following the date of publication of this order in the FEDERAL REGISTER.

Dated: September 28, 1943.

Acting Administrator.

After filing this statement manufacturer may determine his maximum price under paragraph (b) of this Appendix D for all direct sales covered by the statement, unless and until he is advised by the Office of Price Administration in writing that all or part of such sales must be priced under Appendices A, B, or C. This paragraph is not applicable to sales which have been determined by the Office of Price Administration to be merchant sales, after the filing of an application for a ruling upon this question in the manner specified in section 16 (b) of Maximum Price Regulation No. 400.<sup>2</sup>

(b) The maximum price for direct sales by a manufacturer who has complied with the requirements of paragraph (a) of this Appendix D shall be determined as follows: The manufacturer shall determine the highest base price charged by him during the period October 1, 1941, through March 31, 1942, upon a sale of the same or a similar grade to the same purchaser or to a purchaser to whom manufacturer would customarily sell at the same price. The term "similar grade" has the meaning stated in Appendix C. The "maximum base price" is arrived at by taking the highest price charged and adjusting that price upward or downward, as the case may be, in accordance with the differentials, charges, discounts, allowances and other printing elements that entered into the manufacturer's calculation of his selling price upon such direct sales during the period October 1, 1941, through March 31, 1942. To the maximum base price thus determined there shall be added or subtracted, as the case may be, any applicable differentials, discounts, charges, allowances, or other pricing elements as set forth in section 15 of this regulation. The price arrived at after the addition or subtraction of these pricing elements is the permissible maximum price for such direct sales; *Provided, however*, That upon sales of rag content bond, chemical woodpulp bond, opaque circular, and any grades related to the foregoing as specified in Appendices A and B, in basis weights of 16 pounds and lighter, there may be added an amount equal to 7½% of the maximum price permitted under this Appendix D upon sales of such paper in basis weight of 20 pounds, which amount shall be rounded out to the nearest 5¢ per cwt.

This amendment shall become effective October 25, 1943.

##### MANUFACTURERS' MAXIMUM PRICES FOR PAPER SHIPPING SACKS

In the judgment of the Price Administrator, it is necessary and proper to establish manufacturers' maximum prices for paper shipping sacks by a separate maximum price regulation. The Price Administrator has ascertained and given due consideration to manufacturers' prices for paper shipping sacks prevail-

ing between October 1 and October 15, 1941, inclusive, and has made adjustments for such relevant factors as he determined and deemed to be of general applicability. So far as practical, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended; and Executive Orders Nos. 9250 and 9328. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.\*

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing: *Provided*, That the provisions of this Maximum Price Regulation No. 480 shall not apply to sales or deliveries of paper shipping sacks to a purchaser if prior to October 25, 1943, such paper shipping sacks have been received by a carrier other than a carrier owned or controlled by the seller for shipment to such purchaser.

SEC. 2. *Less than maximum prices.* Lower prices than those established by this Maximum Price Regulation No. 480 may be charged, demanded, paid or offered.

SEC. 3. *Export sales.* The maximum prices at which a person may export paper shipping sacks covered by this Maximum Price Regulation No. 480, shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation, issued by the Office of Price Administration.

SEC. 4. *Federal and state taxes.* Any tax upon, or incident to, the sale or delivery of paper shipping sacks covered by this Maximum Price Regulation No. 480, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto: If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however* That the tax on the transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall for purposes of determining the applicable maximum price of any product covered by this Maximum Price Regulation No. 480 be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the maximum price.

SEC. 5. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the

Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order or letter.

SEC. 6. *Transfers of business or stock in trade.* If the business, assets or stock in trade of any business are sold or otherwise transferred after October 24, 1943, and the transferee carries on the business, or continues to deal in the same type of commodities or services in an establishment separate from any other establishment previously owned or operated by him, the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place, and his obligation to keep records in accordance with section 10 of this Maximum Price Regulation No. 480 shall be the same. The transferor shall either preserve and make available, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record and report provisions of this Maximum Price Regulation No. 480.

SEC. 7. *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 480 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

SEC. 8. *Evasion.* Price limitations set forth in this Maximum Price Regulation No. 480 shall not be evaded whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to paper shipping sacks, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charges, or discount, premium, or other privilege, or other trade understanding, or by modifying, discontinuing or altering any customary trade practice of the seller, or by increasing terms for the extension of credit, or by splitting orders, or by reducing the size of the sale, or by refusing to accept a large order, or by any other means.

(b) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 10. *Records and reports.* Every manufacturer selling paper shipping sacks covered by this Maximum Price Regulation No. 480 shall:

(a) Within 21 days after October 25, 1943, file with the Office of Price Administration, Washington, 25, D. C., the price lists and/or price formulae (as defined in Sec. 11 of this regulation) employed in determining selling prices on paper shipping sacks.

(b) On and after October 25, 1943, preserve for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, accurate records of each sale, showing the date thereof, the name and address of the buyer, the price contracted for or received and the quantity of each type and grade of such paper shipping sacks sold. He shall also preserve all records kept in accordance with the General Maximum Price Regulation.

(c) Submit such reports to the Office of Price Administration and shall keep such other records in addition to or in place of the records required in paragraphs (a) and (b) of this section as the Office of Price Administration may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

**SEC. 11. Definitions.** (a) When used in this Maximum Price Regulation No. 480, the terms:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

Each manufacturer's place of business set up basically to process, partially or completely, and sells any of the commodities covered by this Maximum Price Regulation No. 480, shall be deemed to be a separate seller.

(3) "Paper shipping sack" means any single-wall, duplex, or multi-wall paper sack designed for use as: (i) A primary container for packing a particular commodity for storage or shipment; (ii) A container shipping sack for combining a number of packages of a particular commodity into a single shipping unit; (iii) An overslip shipping sack for containing a single package of a particular commodity. It does not include those paper bags defined in Maximum Price Regulation No. 182 (Kraft Wrapping Papers and Certain Bag Papers and Certain Bags) and in Maximum Price Regulation No. 463 (Specialty Paper Bags and Specialty Paper Envelopes)

(5) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer and deliver, and contracts and offers to do any of the foregoing. The terms "sale,"

"selling," "sold," "seller," "buy," "purchase" and "purchaser" shall be construed accordingly, except that nothing in this Maximum Price Regulation No. 480 shall be construed to prohibit the making of a contract to sell a commodity included in this Maximum Price Regulation No. 480 at a price not to exceed the maximum price at the time of delivery.

(6) "Commodities" includes commodities, articles, products and materials.

(7) "Comparable commodity" as used in this Maximum Price Regulation No. 480, means a commodity which is made by the same seller, is recognized in the trade or industry as having the same general use and serviceability, and is most closely comparable by grade, cost and quantities of raw materials for a unit of the commodity, and is most nearly alike for the converting operations required. If more than one commodity can be regarded as comparable, the one whose current direct cost is closest to the current direct cost of the commodity being priced shall be regarded as the "comparable commodity." (Printing shall have no effect on the comparability of the commodity.)

(8) "Direct cost" means the sum of direct labor and direct material costs. Direct labor costs shall in no event be computed on wage rates higher than those permitted by law, and direct material costs shall in no event be computed on prices higher than the maximum prices established by the applicable maximum price regulations.

(9) "Price lists and price formulae" mean either published and circulated price lists or a published means of calculation by which prices may be determined, or similar sheets for use by salesmen, agents, etc. and in effect during the period October 1 to November 30, 1941, inclusive, or such price lists or price formulae as specifically approved by letter to the manufacturer from the Office of Price Administration, Washington, D. C., prior to the effective date of this regulation.

(10) "Services" include any service rendered or supplied otherwise than as an employee, in connection with the manufacture and processing of any of the products covered by this Maximum Price Regulation No. 480, and generally without limiting the foregoing, all services, including printing, which preserve or add to the value or utility of such products.

(b) Unless the context otherwise requires, the definitions set forth in Section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

**SEC. 12. Applicability of the General Maximum Price Regulation.** The provisions of this Maximum Price Regulation No. 480 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries by manufacturers of paper shipping sacks for which maximum manufacturers' prices are established by this Maximum Price Regulation No. 480.

**SEC. 13. Applicability of this Maximum Price Regulation No. 480.** The provisions of this Maximum Price Regulation No.

480 shall be applicable to the continental limits of the United States.

**Appendix A. Manufacturers' maximum prices for paper shipping sacks.** (a) The manufacturers' maximum delivered price for any shipping sack shall be established by the following:

(1) The price for such commodity as set forth in the price lists or computed in accordance with the price formulae (as defined in section 11 of this regulation).

(2) If the manufacturer is unable to determine a maximum delivered price for a commodity under paragraph (a) (1) above, the manufacturer shall:

(i) Select the most comparable commodity (as defined in section 11 of this regulation) for which a maximum price has been established under paragraph (a) (1) above;

(ii) Divide his maximum price for the most comparable commodity by its current direct cost (as defined in section 11 of this regulation)

(iii) Multiply the percentage so obtained by the current direct cost of the commodity being priced.

(3) If the manufacturer is unable to determine a maximum delivered price for a commodity under paragraph (a) (1) or (a) (2) above, he shall file an application for approval of a maximum price with the Office of Price Administration, Washington, D. C. The application shall set forth:

(i) A description of the commodity for which a maximum price is sought;

(ii) The reason why such commodity cannot be priced under paragraphs (a) (1) or (a) (2) above;

(iii) The maximum price proposed by the manufacturer, together with a detailed explanation of the method by which the manufacturer calculated such price;

(iv) The reasons why the manufacturer believes the proposed price to be in line with the level of maximum prices established by this regulation; and

(v) The manufacturer shall also submit such additional pertinent information as this Office may require.

Unless the Office of Price Administration or a duly authorized representative thereof shall, by letter mailed to the applicant within 21 days from the filing of such application approve, disapprove, adjust, amend, or extend the time within which to do any of the foregoing, such application shall be deemed to have been approved, subject to non-retroactive written disapproval or adjustment at any later time by the Office of Price Administration.

(b) No manufacturer shall change his customary allowances, discounts or other price differentials in effect during the period October 1 to November 30, 1941, inclusive, unless such change results in a lower price.

This Maximum Price Regulation No. 480 shall become effective October 25, 1943.

**NOTE:** All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

ARTICLE I—PERSONS AND TRANSACTIONS SUBJECT TO THE REVISED REGULATION: ITS RELATIONSHIP TO OTHER REGULATIONS

SECTION 1.1 *Persons subject to this revised regulation.* Any person who makes the type or kind of sale or purchase covered by this regulation is subject to the regulation.

"Persons" means any individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other Government or any of its political subdivisions, or any agency of any of the foregoing.

SEC. 1.2 *Transactions covered by this revised regulation.* This regulation covers only sales of vitrified clay sewer pipe and allied products where the shipment originates at the factory rather than at a distribution yard. The regulation shall be applicable to all of the 48 states of the United States and the District of Columbia which are divided for the purpose of this revised regulation into seven geographical areas.

"Vitrified clay sewer pipe and allied products" means any sewer pipe, sewer pipe fittings, flue linings, including chimney pipe and fittings, and wall coping of the types listed in Articles I to XI made from surface clay, fire clay, or shale or combinations of these materials.

The term "sewer pipe products" will be used hereafter in this revised regulation instead of the term "vitrified clay sewer pipe and allied products" and is to be understood in all cases except where specifically defined otherwise as meaning "vitrified clay sewer pipe and allied products"

SEC. 1.3 *Form of regulation and matters to which each article in this revised maximum price regulation relates.* This regulation consists of eleven articles. The first four articles are applicable in general to all sewer pipe products enumerated herein. The next seven articles

establish maximum prices for the several geographical areas as follows:

- Article V—Eastern Area
- Article VI—Southern Area
- Article VII—East Central Area
- Article VIII—West Central Area
- Article IX—South Central Area
- Article X—Rocky Mountain Area
- Article XI—Pacific Area

SEC. 1.4 *Relationship of this Revised Maximum Price Regulation No. 206 to other regulations—(a) Export.* The maximum price at which a person may export sewer pipe shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation issued by the Office of Price Administration.

(b) *Import.* This regulation is not applicable to sales of sewer pipe if they originate outside of and are imported into the continental United States. Such sales and deliveries are governed by the Maximum Import Price Regulation.<sup>4</sup>

(c) *Maximum Price Regulation 188, as amended.* The provisions of this revised regulation supersede Maximum Price Regulation No. 188, as amended, with respect to all sales and deliveries made by manufacturers where the shipment originates at the factory. New products falling within the definition of sewer pipe products, but which cannot be priced under the provisions of this Revised Maximum Price Regulation No. 206, shall be priced in accordance with the pricing provisions of Maximum Price Regulation No. 188. In all other sales of sewer pipe products where shipment does not originate at the factory, the General Maximum Price Regulation shall apply.

ARTICLE II—PROHIBITIONS AND PENALTIES

SEC. 2.1 *Prohibitions against dealing in sewer pipe products at prices above the maximum price.* (a) On and after the 25th day of October 1943, the effective date of this regulation:

(1) No person shall sell or deliver or contract to sell or deliver any sewer pipe products at prices higher than the maximum prices established by this regulation.

(2) No person, in the course of trade or business, shall buy or receive any sewer pipe products at a price higher than that permitted by this regulation.

(3) No person shall agree, offer, solicit, or attempt to do any of the acts prohibited in subparagraphs (1) and (2) of this paragraph.

(b) *Less than maximum prices.* Lower prices than those provided for in this regulation may, of course, be charged or paid.

SEC. 2.2 *Prohibited practices—(a) General.* Any practice which is a device to secure the effect of a higher-than-ceiling price without actually raising the dollar-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings, and the like.

<sup>4</sup> 8 F.R. 4132, 5987, 7662.

<sup>5</sup> 8 F.R. 11631, 12237.

(b) *Specific prohibited practices.* The following are among the specific practices prohibited by this regulation:

(1) Securing the effect of higher prices by changing credit practices or cash discounts from what they were during the period October 1 to 15, 1941. This includes reducing the cash discount periods, decreasing credit period, or making greater charges for extension of credit.

(2) Making terms or conditions of sale more onerous to the purchaser than those in effect or available to the purchaser during the period October 1 to 15, 1941.

(3) Falsely or wrongly grading, classifying, or invoicing sewer pipe products.

(4) Charging commissions, or charging for services that are not specified in this Revised Maximum Price Regulation No. 206.

(5) Lowering or decreasing the grade or quality of any sewer pipe products, except as permitted by this regulation, without a corresponding reduction in price.

SEC. 2.3 *Penalties.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

(b) No War Procurement Agency or any contracting or paying finance officer thereof shall be subject to any liability, civil or criminal, imposed by this regulation or by the Emergency Price Control Act of 1942, as amended. "War Procurement Agency" as used in this paragraph includes the War Department, the Navy Department, United States Maritime Commission, and the Lend-Lease section of the Procurement Division of the Treasury Department, or any agency of any of the foregoing.

ARTICLE III—MISCELLANEOUS PROVISIONS

SEC. 3.1 *Petitions for amendment. Application for adjustment—(a) Petitions for amendment.* Any person seeking a modification of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.<sup>6</sup> A petition for amendment must propose a change of general applicability in the regulation for the industry as a whole or a substantial portion thereof or a change affecting all sellers in a given area, as distinguished from an application which seeks an individual price adjustment.

(b) *Applications for adjustment—(1) Government contracts.* Any person who has made or intends to make a government contract or subcontract thereunder, who believes that a maximum price under this regulation impedes or threatens to impede the production, manufacture, or distribution of a commodity or the supply of a service which is essential to the war program and which is or will be the subject of the contract or subcontract may file an application for adjustment of that maximum price in accordance with Procedural Regulation No.

<sup>6</sup> 7 F.R. 8961, 8 F.R. 3313, 3533, 6173, 11806.

6, issued by the Office of Price Administration.

(2) *Existing or threatened shortage.* The Office of Price Administration, or any duly authorized representative thereof, may adjust any maximum price established by this regulation for any seller subject to this regulation who is unable to maintain or expand his production under the maximum prices established by this regulation whenever there is a shortage in the essential supply of sewer pipe products. The extent of relief to be granted under this provision is as follows:

(i) Whenever it appears that a shortage exists or threatens to exist in the essential supply of sewer pipe products, and that the seller of such commodity is unable to maintain or expand his production at his maximum price or prices, the Office of Price Administration may, either on application for adjustment in accordance with the provisions of Revised Procedural Regulation No. 1, or on its own motion, by order, adjust his maximum price or prices by an amount necessary to permit the maintenance or expansion of such production upon a basis which will cover not more than total cost.

In determining the amount of adjustment which may be granted, consideration will be given to such factors as:

(a) Revenue from sales of such commodity and from all other sources; and

(b) Production; mining, development, processing, and transportation costs; administrative and sales expenses; depreciation and depletion charges; taxes excluding Federal and State income taxes) and capital investment.

SEC. 3.2 *Licensing.* The provisions of Licensing Order No. 1,<sup>7</sup> licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more maximum price regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 3.3 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office

of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 3.4 *Federal and State taxes.* (a) There may be added to the maximum prices established by this regulation the amount of tax levied by any Federal excise tax statute or any State or municipal sales, gross receipts, gross proceeds, or compensating use tax statute or ordinance under which the tax is measured by gross proceeds or units of sale, if, but only if: (1) such statute or ordinance requires the vendor to state the tax separately from the purchase price paid by the purchaser, consumer, or user, on the bill, sales check, or evidence of sale at the time of the transaction; or (2) such statute or ordinance requires such tax to be separately paid by the purchaser, consumer, or user with tokens or other media of State or municipal tax payments; or (3) such statute or ordinance permits the vendor to state such tax separately, and such tax is in fact stated separately by the vendor. The amount of tax permitted to be added by this paragraph shall in no event exceed that paid by the purchaser, consumer, or user.

(b) *Application of Supplementary Order No. 31, Federal Excise Tax on Transportation.* Sales and deliveries of sewer pipe products, the maximum prices for which are established by this regulation, are controlled by Supplementary Order No. 31, issued by the Office of Price Administration. For the purpose of determining the applicable maximum price of any sewer pipe products, the tax on the transportation of property imposed by the Revenue Act of 1942 shall be treated as though it were an increase in the amount charged by every person engaged in the business of transporting property for hire. To the extent that a seller must bear transportation charges, he shall also bear the tax thereon. To the extent that a buyer must bear transportation charges, he shall also be required to pay the tax thereon. In no event shall the tax upon transportation of property, imposed by the Revenue Act of 1942, be considered as a tax within the meaning of the preceding paragraph (a) of this section.

SEC. 3.5 *Records and reports.* (a) *Records.* Every person making purchases or sales subject to this revised regulation in the amount of \$200 or more in any one calendar month must keep records containing a description of each purchase, sale, or delivery, showing the date thereof, the name and address of the buyer and the seller, the point of origin, and the point of delivery of the shipment, the price paid or received, and the quantity of each grade and classification of the product purchased, sold or

delivered. All such records must be available for inspection by representatives of the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

(b) *Reports.* Persons subject to this regulation shall submit such reports to the Office of Price Administration as it may from time to time require, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SEC. 3.6 *Other definitions.* (a) When used in this Revised Maximum Price Regulation No. 206 the term: (1) "Carload shipment" means a shipment or quantity of vitrified clay sewer pipe and allied products which totals at least the minimum weight, as set forth in the tariffs of railroad carriers, upon which the railroad carload rate from the point of shipment to the point of destination is based: *Provided, however,* That where a smaller quantity is shipped which would move at the railroad carload rate rather than at the railroad less-than-carload rate because a lower transportation charge is produced thereby, such smaller quantity shall be considered a carload shipment; except that the seller may charge the buyer with the amount which represents the difference in cost between the applicable minimum carload freight charge and the applicable freight cost for the quantity shipped. This means that the purchaser shall pay the freight on the missing weight.

(2) "Distribution yard" means a place of business at which vitrified clay sewer pipe and allied products are received for purposes of storing and resale.

(3) "Factory" means a place where vitrified clay sewer pipe and allied products are made.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used herein.

ARTICLE IV—PROVISIONS APPLICABLE TO ALL AREAS, PRICES, DELIVERY OBLIGATIONS, AND QUALITY

SEC. 4.1 *Maximum prices for "pick-up basis" and for "less than carload shipments by rail"* (a) Maximum prices for the sale of sewer pipe products sold f. o. b. factory on a "pick-up basis" except the St. Louis Metropolitan Area, and for "less than carload shipments by rail" shall be a price not in excess of the highest price charged for delivery on a "pick-up basis", and for "less than a carload shipment by rail" during the month of March 1942 for the same quality, kind, and quantity of sewer pipe products delivered to purchasers of the same class.

(b) Maximum prices for the sale of sewer pipe products sold f. o. b. factory on a "pick-up basis" and/or "delivered" for the St. Louis Metropolitan Area are established in section 3.4 (e) of this article.

<sup>7</sup> 7 F.R. 6087, 5664; 8 F.R. 6173, 6174.

<sup>8</sup> 8 F.R. 13240.

<sup>9</sup> 7 F.R. 9894, 8 F.R. 1312, 3762.

The term "pick-up basis" when used in reference to a sale means a transaction in which a purchaser takes delivery of sewer pipe products at the factory and removes the sewer pipe products from the factory in a conveyance provided by the purchaser.

The term "less than carload shipment" means a shipment or quantity of vitrified clay sewer pipe and allied products which totals less than the minimum weight as set forth in the tariffs of railroad carriers upon which the railroad carload rate from the point of shipment to the point of destination is based.

Sec. 4.2 *Delivery obligations.* For purposes of this revised regulation the delivery obligation on all sales (except those on a "pick-up basis") shall be considered as completed when, as in the case of rail shipment, the shipment arrives at the rail siding nearest the location designated by the purchaser; or when, in the case of shipment by motor carrier, the shipment arrives at the site designated by the purchaser.

Sec. 4.3 *Requirement for maintenance of standard quality in sewer pipe products.* If the quality of any seller's vitrified clay sewer pipe and allied products is reduced below the standards or quality in effect during the year 1941, the product must be considered to be a new product within the meaning of this regulation, and a maximum price for such products must be determined in accordance with the provisions of § 1499.154 and sections therein referred to, of Maximum Price Regulation No. 188 (Manufacturers' Maximum Prices for Specified Building Materials and Consumers' Goods Other Than Apparel)

ARTICLE V—MAXIMUM PRICES FOR SEWER PIPE PRODUCTS WHEN DELIVERY TO THE PURCHASER IS WITHIN THE EASTERN AREA

Sec. 5.1 *Application.* The provisions of this article shall apply to sales of sewer pipe products when delivery to the purchaser is within the Eastern Area which is hereby defined as the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, lower peninsula of Michigan, and that part of Kentucky described as follows: All points in Campbell and Kenton Counties and points located on the Chesapeake and Ohio Railway from Covington to Catlettsburg, inclusive, and all points on the Big Sandy Division of the Chesapeake and Ohio Railway.

Sec. 5.2 *List prices.* The list prices of sewer pipe products when delivery to the purchaser is within the Eastern Area shall be as shown in the following tables numbered 1 to 19, inclusive. Each item shown in the tables of list prices carries a discount number which is shown op-

posite such item in the right-hand column and/or columns of each table.

Sec. 10.3 Percentage discounts. The percentage discounts set forth in Charts I, II, III, and IV below are so arranged that the applicable percentage discounts for any item, for various methods of distribution, in any of the geographical zones in the Rocky Mountain Area can be determined by the following procedure: Select the discount number shown on the list price tables for the desired item. An identical number appears in the left-hand column of the charts below. After determining the proper geographical zone within which the destination point occurs, and the character of the shipment (that is, whether (1) delivered at destination or delivered at factory; (2) carload lots or less than carload lots; and (3) rail or motor carrier) the applicable percentage discount will be found at the junction of the vertical geographical zone column in the proper chart and the horizontal line at which the predetermined discount number appears.

However, the amount by which any cost of war risk insurance exceeds the rates charged by the War Shipping Administration shall not be included.

The purpose of this paragraph is to prevent the addition of more than one full wholesale markup to a commodity, regardless of the number of wholesalers or jobbers purchasing and reselling the commodity.

(ii) No part of the wholesale markup may be taken by a wholesaler-retailer on any article listed and described in paragraph (a) of this section that is sold by any retail outlet owned, controlled by, under the control of, controlling, or in any other way affiliated with respect to ownership or control, with the wholesaler.

(6) *Manufacturing-wholesalers and manufacturing-retailers.* The maximum price for any article which the retailer purchases from a local manufacturing-wholesaler or manufacturing-retailer, or which he makes or has made for him, shall be the amount determined by multiplying the wholesale price as determined under paragraph (b) (6) by the figure given in the third column (3) of the table below for the classification of goods to be priced.

(d) *Maximum prices for nationally advertised articles.* Application may be made for approval of a price for an article listed in paragraph (a) which is nationally advertised by the manufacturer thereof, and who requires that such

article be sold at the prices established by such manufacturer. The applicant must set forth:

Such application of course need not be made where such nationally advertised price is not in excess of the maximum price as calculated under this section.

(e) *Maximum prices for assorted job lot merchandise.* In cases where a wholesaler or retailer purchases an assorted job lot of merchandise invoiced to him for a single or blanket price, he may make application to the Office of Price Administration for approval of his own allocation of the cost of such merchandise to the different articles involved. Such application shall show the allocation made by the wholesaler or retailer and shall show the resulting maximum wholesale or retail prices determined on the basis of such allocated costs.

(f) *Maximum prices for certain merchandise purchased at lower than manufacturer's maximum prices.* In cases where a retailer or wholesaler purchases from a manufacturer or wholesaler located outside the Territory of Hawaii any article listed and described in paragraph (a) of this section, at a price lower than the manufacturer's maximum price and lower than a price which the purchaser previously paid to such manufacturer or wholesaler for the same or similar merchandise, and where such lesser price was paid by reason of the size of the purchase or the seasonal nature of the goods, application may be made to the Office of Price Administration for a maximum price for resale of the merchandise, which maximum price is based upon the higher price previously paid to such manufacturer, and the appropriate multiple provided by the section. Any such application must be accompanied by the invoice for the goods in question and the invoice establishing the former higher price, or other evidence of a similar nature.

(g) *Records and reports.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, the provisions of section 52 (h) shall be applicable to this section 53.

(h) *Posting and marking of prices.* Notwithstanding the provisions of section 10 of this Maximum Price Regulation 373, the provisions of section 52 (i) shall be applicable to this section 53, except that in section 52 (i) (1) the words "women's and girls'" shall be changed to "men's and boys'" for the purposes of this section 53.

(1) "Manufacturer's selling price" means the price at which the manufacturer of the article sold and invoiced it, before the deduction of any discounts or allowances, and shall not include any

transportation costs, marine or war risk insurance, storage charges, or any other charge.

(2) "Sale at wholesale" means a sale by a person who receives delivery of a commodity and resells it without changing its form, to any person other than an ultimate consumer, and includes sales to retailers by manufacturing-wholesalers, but does not include any sale by a producer, manufacturer, or fabricator of any wearing apparel or accessory produced, manufactured, or fabricated by him, or on his behalf by an agent or a contractor.

(b) As to section 48 as of September 25, 1943.

(c) As to section 52 as of September 27, 1943.

(d) As to section 53 as of October 6, 1943, except as follows with respect to sales at retail of articles in inventory as of October 6, 1943: Such articles need not be priced under this section until December 6, 1943: *Provided*, That any such article which as the same or similar to an article received in inventory after October 6, 1943 shall not be sold at a price higher than the maximum price established by this section for such new article. **PART 1439—UNPROCESSED AGRICULTURAL COMMODITIES**

[MPR 468, Amdt. 1]

**BROOM CORN**

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.\*

Maximum Price Regulation 468 is amended in the following respects:

1. Section 1 (a) is amended to read as follows:

(a) On and after October 19, 1943, regardless of any contract or other obligation, no person shall sell or deliver and no person, in the course of trade or business, shall buy or receive for his own account or for the account of another any broom corn at prices higher than the maximum prices established by this regulation, and no person shall agree, offer, solicit or attempt to do any of these things.

2. Section 2 (a) is amended to read as follows:

(a) *What products and transactions are covered by this regulation.* This regulation applies to all purchases and sales of broom corn, except that the provisions of this regulation do not apply to the purchase, sale or delivery of broom corn produced outside of the continental United States.

3. Section 3 is amended to read as follows:

**SEC. 3. Producer's maximum prices.**

(a) Subject to the provisions of paragraph (b) of this section, the following are the maximum prices applicable to sales and deliveries of broom corn by the producer thereof:

Type of broom corn:	Price per ton
Shed cured broom corn.....	\$300.00
All other broom corn.....	250.00

The above maximum prices are net cash, f. o. b. shipping point. The term "shipping point" means the producer's farm, warehouse or other point at which the broom corn is loaded on any conveyance for shipment from the producer to the purchaser.

The term "producer" means a person who grows or raises broom corn. It shall include a landlord or landowner with respect to sales of broom corn received by him as rental for the land upon which the broom corn was produced.

*Sales on a delivered basis.* If the producer sells broom corn on a delivered basis, a delivered price in excess of the applicable maximum price f. o. b. shipping point specified in this paragraph (a) may be charged, consisting of such maximum price plus: (1) if the shipment is made in a vehicle owned or controlled by the producer, an amount not to exceed the lowest available commercial carrier rate for an identical shipment; or (2) if the shipment is made by a common or contract carrier, the amount actually paid to the carrier for the shipment: *Provided*, That an invoice or other memo-

randum shall be furnished to the purchaser, or his agent or representative, by the producer, separately stating: (1) the quantity of broom corn delivered; (2) whether or not the broom corn is shed cured; (3) the shipping point and the point of delivery; (4) the price charged; and (5) a statement of the amount paid to the carrier if the shipment is made by a common or contract carrier, or, if shipment is made in a conveyance owned or controlled by the producer, the freight charges for an identical shipment at the lowest available commercial carrier rate.

(b) *Brokers' commissions.* In the event that a buyer of broom corn employs a broker to purchase broom corn from the producer thereof for the account of the buyer and to receive and ship such broom corn on his behalf, a brokerage commission of not to exceed \$15.00 per ton of broom corn may be charged for such service. The buyer may pay this commission for such service in addition to the maximum price for the broom corn established by this section 3. In no event may any person charge or receive a brokerage commission on broom corn sold for his own account or on broom corn purchased at a price in excess of the permissible maximum price. The broker making such charge to the purchaser may employ the services of another broker or agent in making the purchase and divide the brokerage fee with the latter: *Provided*, That, regardless of the number of brokers involved in the purchase, the total commission charged to the purchaser with respect to any lot of broom corn shall not exceed \$15.00 per ton.

No additional service charge or other charge shall be added by the broker except in accordance with the following: If the broker performs the service of hauling the broom corn from the producer's shipping point to some other point at the request of the buyer, using a conveyance owned or controlled by the broker, an amount may be added for such service not to exceed the lowest available commercial carrier rate for an identical shipment. If the broker secures a common or contract carrier to haul the broom corn, and pays for such service, the amount actually paid to the carrier for hauling the broom corn may be added; *Provided*, That, every broker making delivery to the purchaser of the broom corn shall furnish the purchaser with an invoice or other memorandum stating: (1) the quantity of broom corn purchased; (2) the name and address of the producer; (3) whether or not the broom corn is shed cured; (4) the purchase price; (5) the brokerage commission charged; (6) the hauling charges, if any, added; and (7) the amount advanced, if any, by the broker, in payment for the broom corn.

4. Section 9 is added to read as follows:

**Sec. 9. Maximum prices for sales by persons other than producers of broom corn.** Maximum prices for all sales and deliveries of broom corn by persons other than the producer of the broom corn are established by this section.

(a) *Sales for shipment direct from point of origin.* The maximum prices

applicable to sales of broom corn shipped direct from point of origin to the purchaser shall be:

Type of broom corn:	Price per ton
Shed cured broom corn.....	\$322.50
All other broom corn.....	272.50

The above prices are net cash, f. o. b. point of origin, loaded on railroad car, truck or other conveyance. The term "point of origin" means, in case shipment to the purchaser is made by rail, the point at which the broom corn is loaded on the railroad car, or, in case shipment is made by truck or other conveyance, the railroad shipping point nearest to the farm on which the broom corn was produced.

Any sale by a person other than the producer of broom corn shall, for the purpose of this regulation, be considered a sale for shipment direct from point of origin if the broom corn is shipped direct from the area of production without having entered a warehouse for the purpose of storage for the account of the seller.

*Sales on a delivered basis.* If broom corn is sold on a delivered basis for shipment direct from point of origin, a delivered price in excess of the applicable maximum price f. o. b. point of origin specified above may be charged, consisting of such maximum price plus the amount actually paid to the carrier, if shipment is made by a common or contract carrier, or, if shipment is made in a conveyance owned or controlled by the seller, an amount not to exceed the lowest available commercial carrier rate for an identical shipment; *Provided*, That, the invoice or other memorandum delivered to the purchaser shall state, in addition to the information required by paragraph (c) of this section, the amount paid to the carrier if shipment is made by common or contract carrier, or, if shipment is made by a conveyance owned or controlled by the seller, the freight charges for an identical shipment at the lowest available commercial carrier rate.

(b) *Other sales.* The maximum prices applicable to all sales of broom corn other than the sales provided for in section 3 and in paragraph (a) of this section 9 shall be:

Quantity shipped or delivered at one time	Shed cured broom corn	All other broom corn
	(Price per ton)	(Price per ton)
14,000 lbs. and over.....	\$337.50	\$287.50
3,000 lbs. to 13,999 lbs.....	247.50	257.50
Under 3,000 lbs.....	250.00	310.00

The above maximum prices are net cash, f. o. b., point of delivery of the broom corn to a carrier for shipment to the purchaser, loaded on railroad car, truck or other conveyance. Freight from the producing district to this point of delivery to a carrier may be added to these prices in accordance with the following:

(1) In the case of sales for delivery in carload quantities, freight from the actual point of origin of the broom corn at the carload rail rate: *Provided*, That, if the seller makes use of a storage-in-transit privilege in shipping the broom corn to the purchaser, the seller shall give the purchaser the benefit of the

storage-in-transit rate from the point of origin of the broom corn.

(2) In the case of sales for delivery in less-than-carload quantities, freight at the less-than-carload rail rate from the point specified below may be added:

(i) For broom corn produced in State of Colorado, Springfield, Colorado.

(ii) For broom corn produced in the State of Illinois, Mattoon, Illinois.

(iii) For broom corn produced in the State of Kansas, Hugoton, Kansas.

(iv) For broom corn produced in the State of New Mexico, Melrose, New Mexico.

(v) For broom corn produced in the Lindsay District of Oklahoma, Lindsay, Oklahoma.

(vi) For broom corn produced in the Western Oklahoma District, Woodward, Oklahoma.

(vii) For broom corn produced in the North Texas District, Texline, Texas.

(viii) For broom corn produced in the South Texas District, Devine, Texas.

(ix) For broom corn produced in any other state the actual point of origin of the broom corn.

*Sales on a delivered basis.* If broom corn is sold on a delivered basis, a delivered price in excess of the applicable maximum price f. o. b. point of delivery to a carrier set forth above may be charged, consisting of such maximum price plus the amount actually paid to the carrier, if delivery is made by common or contract carrier, or, if delivery is made by a vehicle owned or controlled by the seller, an amount not to exceed the lowest available commercial carrier rate for an identical shipment: *Provided*, That, the invoice or other memorandum delivered to the purchaser shall state, in addition to the information required by paragraph (c) of this section, the amount paid to the carrier if shipment is made by a common or contract carrier, or, if shipment is made by a conveyance owned or controlled by the seller, the freight charges for an identical shipment at the lowest available commercial carrier rate.

(c) *Invoices.* Every seller shall, with respect to every delivery of broom corn for which a maximum price is established by this section 9, deliver to the purchaser thereof an invoice or other memorandum stating: (1) the quantity of broom corn delivered; (2) whether or not the broom corn is shed cured; (3) the district of origin of the broom corn; and (4) the price charged.

This amendment shall become effective October 19, 1943.

port rate (exclusive of the federal tax on transportation) chargeable for an identical shipment from the purchaser's normal port of entry to the city or town in which the purchaser's plant is located.

Terms of sale shall be net cash and the prices include all charges for duty, ocean freight and marine and war risk insurance.

The term "purchaser's normal port of entry" means the burlap port of entry having the lowest carload import rail rate to the city or town in which the purchaser's plant is located.

As used in this regulation the term "warehouseman" is one who maintains an established storage or distribution place, located and operated independently of a producing mill or factory and from which shipments of cooperage stock are made.

(c) *Sales by dealers or merchants.* In sales by dealers or merchants of purchased stock the maximum prices for

knife-cut slack staves and/or slack headings shall be the maximum f. o. b. producing factory price for a similar sale plus the following mark-ups:

	Per M
Staves.....	\$0.50
Heading:	
15" and less in diameter.....	\$0.25
Over 15" to 17½" in diameter.....	.35
17½" and over in diameter.....	.50

As used in this regulation the term "dealer or merchant" is one who, although he does not take actual physical possession, buys, takes title to, resells, and assumes credit risks and responsibility for grade and count. No producer may qualify as a dealer or merchant under this regulation of products which he has produced.

SEC. 5. *Maximum prices for slack cooperage*—(a) *Factory or mill sales.* The maximum f. o. b. factory price of any slack barrel covered by this regulation shall be the producer's f. o. b. factory price as established by the General Maximum Price Regulation for the same barrel plus actual increase in the cost of the materials used in the barrel, plus 5 cents per barrel.

(b) *Warehouse sales.* In warehouse sales the maximum prices for slack cooperage covered by this regulation shall be the maximum f. o. b. producing factory price plus the warehouseman's average percentage mark-up in March 1942 plus average inbound freight actually paid or incurred by the warehouseman (computed in accordance with section 4 (b)). A warehouse sale is defined in section 4 (b).

(c) *Sales by dealers or merchants.* In sales by dealers or merchants the maximum prices for slack cooperage covered by this regulation shall be the maximum f. o. b. producing factory price plus the seller's average percentage mark-up on such sales in March 1942. Dealers or merchants are defined in section 4 (c)

SEC. 6. *Products not specifically priced.* Any person desiring to sell on the domestic market any product covered but not specifically priced by the regulation and for which he cannot determine an f. o. b. mill price under the regulation, shall make application to the Lumber Branch, Office of Price Administration, Washington, D. C., for a price. The application must contain a complete description of the product to be priced, the applicant's March 1942 selling price of the product if he sold such product at that time, his requested selling price and his method of arriving at this price. Products may be sold and delivered at the requested selling price, pending approval of a price by this Office subject, however, to adjustment to the price finally approved. Prices not disapproved within 20 days from the receipt of application are approved until specifically revoked.

SEC. 7. *Delivered prices.* If delivery is by common carrier the actual trans-

portation costs paid or incurred by the seller may be added to the basic maximum prices. If shipment is by truck, owned or controlled by the seller, actual transportation costs may be added to the basic maximum prices. Such transportation cost may not exceed 80% of the common carrier charge for the same shipment.

Sec. 8. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in discount practices, devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings, changes in discount practices and the like.

#### ARTICLE III—MISCELLANEOUS

Sec. 9. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

Sec. 10. *Applications for adjustment or petition for amendment—(a) Government contracts.* The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States." It also includes any subcontract under this kind of contract. Any person who has made or intends to make a "government contract" and who thinks that a maximum price established in this regulation is impeding or threatening production of products which are essential to the war program and which are or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6,<sup>1</sup> issued by the Office of Price Administration.

(b) *Petitions for amendment.* Any person seeking an amendment of any provisions of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,<sup>2</sup> issued by the Office of Price Administration.

Sec. 11. *Records.* All persons making sales covered by this regulation must keep records for each sale amounting to \$15.00 or more which will show a complete description of the products sold, the name and address of the buyer, the date of the transaction, and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for two years for inspection by the Office of Price Administration.

Sec. 12. *Licenses.* The provisions of Licensing Order No. 1,<sup>3</sup> licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more maximum price regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

Sec. 13. *Registration.* Persons desiring to sell as dealers, merchants or warehousemen, any of the products covered by this regulation must register with the Lumber Branch, Office of Price Administration, Washington, D. C., on or before November 30, 1943, or within 5 days after becoming subject to the regulation. The registration shall be accomplished by filing with the Office of Price Administration a statement of the applicant's qualifications. Every person owning, operating or maintaining more than one place of business shall file a separate registration statement for each place of business. In case a new, additional or different place of business is later established or acquired by a dealer, warehouseman or merchant, such dealer, warehouseman, or merchant shall, within 5 days after establishing or acquiring it, file a registration statement with respect to such new, additional or different place of business.

The Office of Price Administration will issue to each dealer, warehouseman, or merchant registering in accordance with this section a registration certificate which shall be posted at all times in a conspicuous place in the registrant's place of business.

Sec. 14. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942.

Sec. 15. *Relation to other regulations—(a) General Maximum Price Regulation.*<sup>4</sup> Any sale or delivery covered by this Maximum Price Regulation is not subject to the General Maximum Price Regulation.

The effective date of this regulation shall be April 10, 1943.

### Chapter XIII—Petroleum Administration for War

#### PART 1570—MATERIAL CONSERVATION— PIPE LINES, TERMINALS AND REFINING

[PAO 15]

The fulfillment of the requirements for the defense of the United States has created a shortage of materials necessary for the transportation and refining of petroleum for defense, for private account, and for export; and the following order is deemed necessary in the public interest, to promote the national defense, and to provide adequate supplies of petroleum for military and other essential purposes.

§ 1570.1 *Petroleum Administrative Order No. 15—(a) Scope of this order.* The provisions of this order shall be applicable to the use of material in petroleum gathering, movement and refining operations in the United States, its territories or possessions. This order does not apply to tank cars, tank trucks or railroad rolling stock, to tankers, barges or other mobile marine equipment, or to material to be used for "residential construction" or "multiple residential construction" as defined in Limitation Order L-41, issued by the War Production Board.

(b) *Definitions.* (1) "Petroleum gathering and movement" (defined as "transportation" in Preference Rating Order P-98-b) means any operation directly incident to the transportation movement, loading or unloading of petroleum other than natural gas.

(2) "Refining" means any operation directly incident to the processing, reprocessing, or alteration of petroleum, including but not limited to compounding or blending, but not including the extraction or recovery of natural gasoline or associated hydrocarbons.

(3) "Maintenance and repair" means (without regard to accounting practice)

(i) The upkeep of any structure, equipment, or material in a sound working condition or the restoration or fixing of any structure, equipment, or material which has broken down or is worn out, damaged or destroyed.

(ii) Any other use of material not exceeding in material cost \$500 for any one complete operation which has not been subdivided for the purpose of coming within this definition.

(4) "Operating supplies" means any material other than material used for maintenance and repair which is essential to and consumed in petroleum gathering and movement or refining and which is normally carried by an operator as operating supplies or which is normally chargeable to operating expense.

(5) "Laboratory equipment" means material or equipment used exclusively for the purpose of controlling, or investigating more effective methods of conducting, petroleum industry operations by means of research, technical, or control laboratories. This material or equipment shall not, however, include material for use in the construction of laboratory buildings or other structures.

(6) "Material" means any commodity, equipment, accessory part, assembly, or product of any kind.

(c) *Restrictions on use of material.* No material may be used in petroleum gathering and movement or in refining unless permission to use material is granted by provisions of this order which follow below.

(d) *Permitted uses of material.* Material may be used in petroleum gathering and movement or in refining:

(1) For maintenance and repair purposes, as operating supplies or for laboratory equipment or its installation, notwithstanding any other provision of this paragraph (d)

(2) For the construction, installation, or extension of (or any other similar use of material in connection with) a crude oil gathering line from the first valve on the discharge side of the lease or field shipping tank or battery where petroleum is first gauged to any other petroleum gathering and movement facility or any refining facility, if:

(i) The material cost of any one complete operation is \$3,000 or less; and

(ii) The cost of material originally obtained for maintenance and repair purposes through the use of priorities assistance, used in any single operation, does not exceed \$500; and

(iii) The line does not duplicate in whole or in part the transportation functions of any existing line or lines.

(3) For any construction, expansion, extension, improvement, installation, reconstruction, remodeling or other similar operation in petroleum gathering and movement or in refining, if:

(i) The material cost for any one complete operation is \$3,000 or less; and

(ii) The cost of material originally obtained for maintenance and repair purposes through the use of priorities assistance, used in any single operation, does not exceed \$500; and

(iii) The operation does not include any use of material in connection with a crude oil gathering line.

Where priorities assistance is necessary to obtain more than \$500 worth of material for any single operation mentioned in subparagraphs (d) (2) and (d) (3) above, all priorities assistance must be obtained by filing PAW Form 30 or Form WPB-541 as set forth below.

(e) *Application for authorization to use material.* Where a person wants to

use material in connection with petroleum gathering and movement or refining but cannot do so because of the preceding provisions of this order, he may make an application for authorization to use material by filing PAW Form 30. Form WPB-541 may be used instead of PAW Form 30 to obtain any single item of machinery or equipment, regardless of cost, if that single item of machinery or equipment can be installed with the use of no more than \$500 worth of additional material. The additional material (no more than \$500 worth) may be purchased through the MRO procedure of P-98-b.

If authority to use material requested on PAW Form 30 is approved or if priorities assistance is made available either through PAW Form 30 or Form WPB-541, no further permission will be necessary to use material in the particular operation for which application for authority was made.

(f) *Filing instructions and communications.* Six copies of PAW Form 30 should be prepared. One copy should be retained by the applicant and the original and three copies together with supporting attachments should be sent to the Petroleum Administration for War, Interior Building, Washington 25, D. C. The other copy with attachments should be sent to the District Office of the Petroleum Administration for War for the District in which the work will be done (see Schedule A)

Form WPB-541, used instead of PAW Form 30, should be prepared in triplicate. One copy should be retained by the applicant and the original and the second copy should be sent to the Petroleum Administration for War, Interior Building, Washington 25, D. C.

All communications in connection with PAW Form 30 or Form WPB-541 for petroleum gathering and movement or for refining should be addressed to the Petroleum Administration for War in Washington, Ref: PAO-15.

(g) *Violations.* Any person who willfully violates any provision of this order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who willfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or such other action may be taken as is deemed appropriate.

## PART 207—NAVIGATION REGULATIONS

### WATERS OF THE GULF OF MEXICO

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) § 207.180 is hereby amended as follows:

§ 207.180 *All waterways tributary to the Gulf of Mexico (except the Mississippi River and its tributaries) from St. Marks, Fla., to the Rio Grande; use, administration, and navigation.* \* \* \*

Locks and Floodgates: All Government owned or operated locks and appurtenant structures in any of the above-described waterways, and the floodgates in the Intra-coastal Waterway at the Brazos River Crossing and the Colorado River Crossing, Texas, at miles 410 and 450.5 respectively, west of Harvey Lock, Louisiana.

(a) *Authority of district engineers.* The use, administration, and navigation of the above-described waterways, Federal locks, and floodgates shall be under the direction of the officers of the Corps of Engineers, United States Army, detailed in charge of the respective sections, and their authorized assistants. The cities in which the U. S. District Engineers are located and the limits of their jurisdiction, are as follows:

(b) *Commercial statistics.* \* \* \*

(3) Reports may be submitted on forms furnished free of charge by the district engineer. They shall be presented to the lockmaster at any of the Federally operated locks, the gate tender at either of the Federally operated floodgates, or the bridge tender at any of the bridges operated by the War Department, for each trip made. Where no Federally operated locks, floodgates, or bridges are passed, they shall be mailed promptly to the district engineer. On written request, persons or corporations making frequent use of these waterways may be granted permission to submit monthly statements in lieu of reports by trips.

(d) *Locks and floodgates—(1) Authority.* The locking of all vessels and rafts and their movements while in a lock, or in the approaches thereto, shall be under the direction of the lockmaster. The term "lockmaster" as used in these regulations, shall mean the lock official present who is in charge of the operation of the lock. Passage through floodgates shall be under the direction of the gate tender.

(2) *Sound signals.* Vessels desiring lockage in either direction shall give notice to the lockmaster, at not more than three-quarters of a mile nor less than one-quarter of a mile from the lock, by three distinct blasts of a horn or whistle each of five seconds' duration, with intervals of five seconds. When the lock is ready for entrance, the lockmaster will indicate permission to enter by one short blast of a horn or whistle. Permission to leave the locks will be indicated by one long blast.

When the floodgates are in operation, vessels desiring to pass through the floodgates in either direction shall sound three distinct blasts of a horn or whistle when

within reasonable hearing distance of the gates. When the gate is open or can be opened immediately the gate tender shall reply by one short blast of a horn or whistle. When the gates cannot be opened immediately or when the gates are open and are to be closed immediately the gate tender shall reply by two long blasts of a horn or whistle.

(3) *Visual signals—(1) Signal lights.* Signal lights will be displayed from sunset to sunrise as follows:

One green light to indicate that the lock or floodgate is in operation and open to approaching navigation.

One red light to indicate that the lock or floodgate is in operation but not open to approaching navigation.

Two green lights to indicate that both lock gates are open and the lock is open for through navigation, or that the floodgate is not in operation but is open to through navigation in either direction.

Two red lights to indicate that the lock or floodgate is not in operation and is not open to navigation.

(ii) *Signal balls.* During daylight hours large balls, of color and number similar to the light signals prescribed for use after dark, will be displayed from a mast on the lock wall or other convenient location and at the site of the floodgates.

(4) *Precedence at locks and floodgates.* Ordinarily, vessels or rafts arriving at the lock or floodgates shall take precedence in order of their arrival, but in all cases vessels belonging to the United States or employed on public work shall have precedence over all others, passenger vessels shall have precedence over freight vessels, and individual vessels over tows or rafts. Small vessels will not be granted separate lockage when larger vessels are awaiting lockage, and they will be required to lock through with other vessels. When two vessels approach the lock from opposite directions at approximately the same time, preference will ordinarily be given to the one for which the lock is prepared. When two vessels approach the floodgates from opposite directions at approximately the same time, the vessel approaching the gates from the river side thereof will ordinarily have the right of way. In all cases, the order of actual entry shall be determined by the lockmaster or gate tender.

(5) *Entrance to and exit from locks and passage through floodgates.* No vessel or raft shall enter or leave the locks or, while the floodgates are in operation, attempt to pass through the floodgates before being signalled to do so. While waiting their turn, vessels or rafts must not obstruct navigation and must remain at a safe distance from the lock or flood gates. Before entering a lock they shall take position in the rear of any vessels or rafts that may precede them, and there arrange the tow for locking in sections if necessary. Masters and pilots of vessels or in charge of rafts shall cause no undue delay in entering or leaving the lock or passing through floodgates upon receiving the proper signal, and will be held to a strict accountability that the approaches are

not at any time unnecessarily obstructed by parts of a tow awaiting lockage or already passed through. They shall provide sufficient men to move through the lock or floodgates promptly without damage to the structures. Vessels or tows that fail to enter the locks or pass through the floodgates with reasonable promptness after being signalled to do so will lose their turn.

(6) *Lockage and passage of vessels.* Vessels shall enter and leave the locks and pass through the floodgates carefully at reduced speed sufficient to prevent any damage to the locks, floodgates, gate walls, or fenders, shall be provided with suitable lines and fenders, shall always use fenders to protect the walls and gates, and when locking at night shall be provided with suitable lights and use them as directed. Vessels shall not meet or pass each other anywhere between the gate walls or fender system at the approaches to the floodgates.

Vessels which do not have a draft of at least three inches less than the depth over sills or breast walls, or which have projections or sharp corners liable to damage gates, walls, or fenders, shall not enter a lock or approaches or pass through floodgates.

No vessel having chains, lines, or drags either hanging over the sides or ends, or dragging on the bottom, for steering or other purposes, will be permitted to pass locks or dams or through floodgates.

Power vessels shall accompany tows through the locks when so directed by the lockmaster.

No vessel whose cargo projects beyond its sides will be admitted to lockage.

Vessels in a sinking condition shall not enter locks, floodgates, or approaches.

The passing of coal from flats or barges to steamers while in the locks is prohibited.

The lockmaster or gate tender may refuse to lock or pass vessels which, in his judgment, fail to comply with these rules.

(h) *Damage.* Masters and owners of vessels using the waterways are responsible for any damage caused by operations in violation of the provisions of these regulations to canal revetments, lock piers and walls, floodgates, bridge fenders, and for displacing or damaging of buoys, stakes, spars, range lights or other aids to navigation. Should any part of a revetment, lock, floodgate, or bridge be damaged, they shall report the fact, and furnish a clear statement of how the damage occurred, to the nearest Government lockmaster, gate tender, or bridge tender, and by mail to the district engineer, U. S. Engineer Office, in local charge of the section of the waterway in which the damage occurred. Should any aid to navigation be damaged, they shall report that fact immediately to the District Coast Guard Officer, New Orleans, Louisiana.

(i) *Trespass on property of the United States.* Trespass on waterway property or injury to the banks, locks, floodgates, bridges, piers, fences, trees, houses, shops,

or any other property of the United States pertaining to the waterway is strictly prohibited. No business, trading or landing of freight or baggage will be allowed on or over Government piers, lock walls, floodgates, or bridges. (Sec. 7, 40 Stat. 266; 33 U.S.C. 1) (Regs. 20 April 1933 (E.D. 7241 (Mexico, Gulf of, Tributaries) 3/1) as amended by Regs. 8 October 1943 (CE 800.215—SPEKH))

#### Regional and District Office Orders.

[Region II Rev. Order G-14 Under 18 (c)]

#### FIREWOOD IN BUFFALO DISTRICT, N. Y.

Revised Order No. G-14 under § 1493.18 (c) of the General Maximum Price Regulation.

It is the judgment of the Regional Administrator that there exists or threatens to exist in the State of New York exclusive of the counties of Chautauqua, Cattaraugus, Allegany, Erie

Wyoming, Genesee, Orleans, and Niagara comprising the Buffalo District, a shortage in the supply of firewood, a commodity essential to a standard of living consistent with the prosecution of the war; that such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of sellers of such fuel within such area; and that such adjustment will not create or tend to create a shortage; or a need for increase in prices in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Accordingly, pursuant to the Emergency Price Control Act of 1942, as amended, § 1499.18 (c) of the General Maximum Price Regulation as amended, and Revised Procedural Regulation No. 1, and for the reasons set forth in an opinion issued simultaneously herewith, *It is ordered, That:*

(a) On and after October 20, 1943, the maximum prices for the sale and delivery of hardwood cordwood at the roadside, to the consumer at the dealer's yard, and to the consumer's premises in the units and sizes and in the areas set forth in Appendix A hereof, shall be the applicable adjusted maximum prices specified in the appropriate schedule thereof.

(b) The seller is permitted to add to the applicable maximum price set forth in Appendix A hereof a charge for stacking, subject to the following limitations: (1) The maximum charge which may thus be added for such stacking shall be \$1.00 per cord, 50¢ per half cord, and 25¢ per quarter cord. (2) The additional charge made for stacking must in all cases be separately shown and separately stated on the invoices. (3) The additional charge for stacking may be made only in those cases wherein the purchaser voluntarily requests a performance of that service. It is not permissible for the seller to require, as a condition of any sale and/or delivery, that the purchaser use such seller's stacking services.

(c) The seller may not charge for any service for which a charge is not specifically authorized by this order, and may not add to the maximum prices above established any charge which is not expressly permitted in this order.

(d) No person shall evade any of the maximum prices established herein directly or indirectly, whether by commission, service, transportation or other charge; by tying agreement or other trade understanding, or in any other way. However, prices lower than these maximum prices may be charged and paid.

(e) Order No. G-14 under § 1499.18 (c) of the General Maximum Price Regulation issued by the Regional Office, Region II, on March 3, 1943 (formerly designated Order No. 16) is hereby revoked as of the effective date of this order. This revocation shall not operate to release or extinguish any penalty or liability incurred under such order and such order shall remain in force for the purpose of allowing or sustaining any proper suit, action, prosecution, or proceeding with respect to such penalty or liability.

(f) The Regional Administrator or Price Administrator may amend, revoke or rescind this order at any time.

Pursuant to the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122 and for reasons stated in the opinion issued herewith, it is ordered:

(2) This order contains a price schedule applicable to sales of high volatile bituminous coal from District No. 7 and District No. 8.

(b) *What this order prohibits.* Regardless of any obligation, no person shall

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this Order No. G-9 but less than maximum prices may at any time be charged, paid or offered,

(2) Obtain a higher than maximum price by

(i) Charging for a service which is not expressly requested by the buyer and

which is not specifically authorized by this order.

(ii) Using any tying agreement or making any requirement that anything other than the fuel requested by the buyer be purchased by him, or

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(c) *Price schedule; sales on a "direct delivery or domestic" basis.*—(1) *Consumer sales.* This price schedule sets forth maximum prices for sales of specified solid fuels when the delivery is made to any point within the corporate limits of Danville, Virginia and the area lying within twenty miles thereof by the most direct highway route.

(d) *Ex Parte 148 freight rate increase; transportation tax.*—(1) *The freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, the dealer's freight rates are the same as those of December 1941. Therefore, no dealer may increase any schedule price on account of freight rates.

(2) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order provided the dealer states it separately from the price on the statement given to the buyer under paragraph (n) (2) (This tax need not be stated separately on sales to the United States or any agency thereof. See Amendment 12 to Revised Maximum Price Regulation 122.) No part of this tax may be collected in addition to the maximum prices on sales of quarter-ton or lesser quantities or on sales of any quantity of bagged coal.

(e) *Addition of increase in supplier's prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Administrator.

(f) *Power to amend or revoke.* The Price Administrator or Regional Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(g) *Petitions for amendment.* Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(1) *Applicability of other regulations.* Every dealer subject to this order is governed by the licensing and registration provisions of sections 15 and 16 of

the General Maximum Price Regulation. Sections 15 and 16 provide, in brief, that a license is required of all persons selling at retail commodities for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license, but a dealer may later be required to register. The license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(h) *Records and reports.* Every dealer subject to this order shall preserve, keep and make available for examination by the Office of Price Administration, the same records he was required to preserve and keep under § 1340.262 (a) and (b) of Regulation No. 122.

It is not necessary that these maximum prices be filed with the War Price and Rationing Boards.

(i) *Posting of maximum prices; sales slips and receipts.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size and quantity of the solid fuel sold, the price charged and separately stating, any item which is required to be separately stated by this order. This paragraph (n) (2) shall not apply to sales of quantities of less than quarter-ton or to sales of bagged coal unless the dealer customarily gave such a statement on such sales.

(3) In the case of all other sales, every dealer who during December 1941 customarily gave buyers sales slips or receipts shall continue to do so. If a buyer requests of a seller a receipt showing the name and address of the dealer, the kind, size and quantity of the solid fuel sold to him or the price charged, the dealer shall comply with the buyer's request as made by him.

(j) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Roanoke, Virginia, District Office of the Office of Price Administration.
