(c) In approving purchase orders for farm machinery and equipment pursuant to this supplementary order, the Farm Rationing Committees for Hawaii and Puerto Rico shall act in accordance with such instructions and within such limitations as may be issued from time to time by the Director.

§ 1202.354 *Quotas for Hawaii, Puerto Rico and the Virgin Islands.* Quotas for Hawaii, Puerto Rico and the Virgin Islands with respect to items of equipment are hereby established as shown on Schedule I. The Farm Rationing Committees shall approve no orders for any item of equipment in excess of the quota shown on Schedule I, unless authorized to do so by the Director. It shall be the responsibility of the Farm Rationing Committees to charge against the quotas items of equipment shipped by a manufacturer in the continental United States to Hawaii, Puerto Rico or the Virgin Islands pursuant to a purchase order accepted on or after July 1, 1943. (Manufacturers are not charged with any responsibility in carrying out the quota provisions of this supplementary order.)

§ 1202.355 *Action by dealers and other persons in Hawaii, Puerto Rico or the Virgin Islands.* A dealer or other person in Hawaii, Puerto Rico or the Virgin Islands desiring to obtain in the continental United States any farm machinery and equipment produced for farm use under War Production Board Order L-257, as amended, shall submit his proposed purchase order to his Farm Rationing Committee for approval. If such dealer or other person places an order for shipment to the Virgin Islands, he shall indicate the shipping weight of the equipment covered by his proposed order.

§ 1202.356 *Reports of manufacturers in the continental United States.* Each manufacturer in the continental United States who, on or after July 1, 1943, and before January 1, 1944, accepts or has accepted orders for any items of farm machinery and equipment designated with an asterisk (*) on Schedule I for

shipment to Hawaii, Puerto Rico or the Virgin Islands, shall, on or before January 10, 1944, report to the Director the item numbers and quantity of such equipment shipped or to be shipped pursuant to such order and the territory or possession to which shipment was or is to be made. Thereafter on or before the 10th of each month, each manufacturer in the continental United States who, during the preceding month, accepts an order for any such farm machinery and equipment to be shipped to any such territory or possession shall make a similar report to the Director with respect to the equipment covered by such order. (This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.)

§ 1202.357 *Distribution and rationing procedure in Hawaii, Puerto Rico and the Virgin Islands.* Notwithstanding any provision of Food Production Order No. 14, the Farm Rationing Committees for Hawaii, Puerto Rico and the Virgin Islands are hereby authorized, in their discretion, to direct the distribution of any type of farm machinery and equipment produced for farm use under War Production Board Order L-257, as amended, and to provide for the transfer for use of such equipment. The Farm Rationing Committees shall at all times serve the objectives sought by the rationing program and allocate such farm machinery and equipment in such manner as will afford the maximum contribution to agricultural production. In so doing, the Farm Rationing Committees may prohibit transfers for agricultural use, except pursuant to purchase certificates issued under their authority, and may prescribe the form of such certificates. Control over such transfers may be exercised by the Farm Rationing Committees under such regulations as they may deem appropriate to carry out the purposes of this supplementary order.

§ 1202.358 *Alaska.* Any manufacturer in the continental United States may transfer and ship to Alaska any farm machinery and equipment produced for farm use under War Production Board Order L-257, as amended. If a manufacturer transfers and ships to Alaska any farm machinery and equipment which is also listed on any of the schedules attached to Supplementary Order No. 1 to Food Production Order No. 14, such equipment shall be supplied out of the reserve established by Supplementary Order No. 1, and such manufacturer shall, on or before the 10th day of the month following the acceptance of the purchase order, report to the Director the item numbers and quantity of such equipment. Notwithstanding any provision of Supplementary Order No. 1, a manufacturer is hereby authorized to transfer such equipment from the reserve pursuant to this supplementary order. If a manufacturer declines to accept an order from Alaska for farm machinery and equipment produced for farm use under War Production Board Order

L-257, as amended, he shall promptly notify the Director accordingly, stating the reasons for his action. (The reporting requirement contained in this paragraph has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.)

§ 1202.359 *Appeals.* (a) Any person affected by this supplementary order, who resides in Hawaii, Puerto Rico or the Virgin Islands and who believes that compliance herewith will work an exceptional and unreasonable hardship on him, may appeal to his Farm Rationing Committee for relief. Such appeal may be made by filing a written statement of the relief sought showing the reasons why such person believes he is entitled to relief. The Farm Rationing Committee may grant relief if it would not impair the effectiveness of the rationing program established by or pursuant to this supplementary order and if the granting of similar relief to all persons in like circumstances would not hinder such program. The decision of the Farm Rationing Committee shall be in writing and shall be communicated to the person appealing. If such person is not satisfied with the decision of the Farm Rationing Committee, he may appeal to the Director pursuant to § 1202.278 of Food Production Order No. 14, but in such case the appeal shall be submitted to the Farm Rationing Committee and such committee shall promptly transmit it to the Director, together with its recommendation. Nothing herein shall be construed to authorize the Farm Rationing Committee to increase or establish a quota for any item of equipment. If an appeal involves an increase in or the establishment of a quota, the Farm Rationing Committee shall consider and transmit such appeal to the Director with its recommendation.

(b) Any person affected by this order, who resides in the continental United States and who believes that compliance herewith would work an exceptional and unreasonable hardship on him, may appeal to the Director pursuant to § 1202.278 of Food Production Order No. 14.

§ 1202.360 *Directives.* The Director is hereby authorized to issue such directives to manufacturers in the continental United States and to other persons as he deems necessary or appropriate to carry out the purposes of this supplementary order.

§ 1202.361 *Incorporation into Food Production Order No. 14.* This Supplementary Order No. 2 shall be added to, and become a part of, Food Production Order No. 14, and any violation of this Supplementary Order No. 2 shall be deemed to be a violation of Food Production Order No. 14.

§ 1202.362 *Communications.* All communications concerning this order, unless instructions to the contrary are issued, shall be addressed as follows:

(a) Persons residing in Hawaii should address such communications to the Farm Rationing Committee, in care of the Officer in Charge, Agricultural Ad-

justment Agency, 418 Dillingham Building, Honolulu, Hawaii, Ref. FPO 14, Supp. 2.

(b) Persons residing in Puerto Rico or the Virgin Islands should address such communications to the Farm Rationing Committee, in care of the Officer in Charge, Agricultural Adjustment Agency, P. O. Box 4349, San Juan, Puerto Rico, Ref. FPO 14, Supp. 2.

(c) Persons residing in the continental United States may address such communications either to the Director of the Office of Materials and Facilities, War Food Administration, Washington 25, D. C., Ref. FPO 14, Supp. 2, or to the appropriate Farm Rationing Committee for a territory or possession.

§ 1202.363 *Food Production Order No. 1 superseded.* Food Production Order No. 1, as amended, is hereby superseded: *Provided, however,* That Food Production Order No. 1 shall continue to remain in full force and effect in any territory or possession for the purpose of allowing or sustaining any suit, action, prosecution, or administrative or other proceedings heretofore or hereafter commenced with respect to any violation committed or right or liability incurred under or pursuant to the terms of such order.

Issued this 16th day of February 1944.

Assistant War Food Administrator.

1. Amend § 622.25 to read as follows:

§ 622.25 Class II—C: Reopening present classifications. The classifications of

1 Form filed as part of the original document.

all registrants now in Class II-C shall be immediately reopened in sequence of order numbers. Upon such reopening the local board shall first determine whether such registrants shall be continued in Class II-C. If it is determined that such registrants qualify for classification in Class II-C, they shall be continued in that class.

2. Amend the regulations by adding a new section to be known as § 622.25-1 to read as follows:

§ 622.25-1 *Class II-C: Man deferred by reason of his agricultural occupation or endeavor.* (a) In Class II-C shall be placed any registrant who is found to be necessary to and regularly engaged in an agricultural occupation or an agricultural endeavor essential to the war effort.

(b) Class II-C deferments shall be for a period of 6 months or less. At the expiration of the period of the registrant's deferment in Class II-C, his classification shall be reopened. So long as the registrant is necessary to and regularly engaged in an agricultural occupation or an agricultural endeavor essential to the war effort and until a satisfactory replacement in such agricultural occupation or agricultural endeavor can be obtained, the registrant shall be continued in Class II-C at the end of each successive period for which he has been deferred in such class.

In classifying such registrants anew, it shall first be determined whether such registrants shall be classified in Class II-C. If it is determined that such registrants qualify for classification in Class II-C, they shall be so classified.

PART 1010—SUSPENSION ORDER

[Suspension Order S-487]

SUGARMAN-MOORE COMPANY, INC.

Sugarman-Moore Company, Inc. is an Illinois corporation with offices at 936 North Michigan Avenue, Chicago, Illinois. Its business is that of a contractor and builder. In the months of February and March 1943 the corporation performed construction work on the premises located at 20-22 South Michigan Avenue, Chicago, Illinois, without authorization from the War Production Board, and at a total estimated cost in excess of \$1,000.00. This construction by the corporation was a violation of Conservation Order L-41. The corporation was familiar with Conservation Order L-41 and its violation was based on such gross negligence and carelessness as to amount to wilfulness.

This violation of Conservation Order L-41 has hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered, That:*

§ 1010.487 *Suspension Order No. S-487.*

(a) Deliveries of material, directly or indirectly, to Sugarman-Moore Company, Inc., its successors or assigns, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation shall be made to Sugarman-Moore Company, Inc., its successors or assigns, of any material the supply or distribution of which is governed by any order of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Sugarman-Moore Company, Inc., its successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on February 17, 1944 and shall expire on May 17, 1944.

Issued this 10th day of February 1944.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[PR 3, Direction 5 as Amended Feb. 18, 1944]

RATINGS FOR LISTED CHEMICALS AND OTHER MATERIALS

Direction 5 to Priorities Regulation No. 3 is hereby amended to read as follows:

(a) *Purpose.* Owing to the fact that the supply of certain materials is controlled by peculiar factors including their interchangeability and their use both as production materials and for MRO (maintenance, repair and operating supplies), it is necessary to provide special rules for the use of ratings in getting these materials. The purpose of this Direction is to prohibit the use of AA-1 and AA-2 blanket MRO ratings for the materials on the attached list, and to substitute in the place of these ratings, the use of production materials ratings. Where no production materials ratings are available, this direction assigns ratings which may be used in place of AA-1 and AA-2 blanket MRO ratings.

(b) *Restriction on use of certain blanket MRO ratings.* Blanket MRO ratings of AA-1 and AA-2 may not be used to get any of the materials on the attached list for any purpose. An exception to this prohibition, however, is a rating assigned under P-98-b when the rating is applied with the allotment symbol, MRO-P-3, and a rating assigned under P-68 where the rating is applied with the allotment symbol S-8. "Blanket MRO ratings" are defined in paragraph (c) (2) of Priorities Regulation No. 3.

(c) *What ratings may be used instead.* You may use any of the following ratings which may be applicable to your situation for the materials listed in this direction:

(1) *Production materials ratings.* If you have a rating for production materials to be physically incorporated in your product, you may use that rating to get the materials on the attached list as MRO. You may not use the MRO symbol in this case, but your allotment number and symbol, if any, assigned to your production schedule should be used. "Production materials" are defined in paragraph (b) (2) of Priorities Regulation No. 11B and Interpretation No. 1 of that regulation issued June 16, 1943, and also paragraph (b) (1) of CMP Regulation No. 3. For the purpose of this Direction, any rating assigned under Orders P-65 and P-135 are production materials ratings. The amount of these materials which are bought as MRO with any production materials rating must be deducted from your MRO quota under CMP Regulation No. 5, or any other regulation or order which places limits on your purchase of MRO.

(2) *Blanket MRO rating of AA-1 lowered to AA-2X.* If you have a blanket MRO rating of AA-1, you may use an AA-2X rating to get the materials listed in this direction for MRO. If a purchase order bearing a blanket MRO rating of AA-1 is served upon a seller for a product which does not appear on the attached list but which contains any materials listed under "Chemicals" on the attached list, the seller may not extend that AA-1 rating to get the necessary production materials (appearing on the attached list) to make that product. The seller may use a rating of AA-2X instead to get the necessary production materials.

(3) *Blanket MRO rating of AA-2 lowered to AA-3.* If you have a blanket MRO rating of AA-2, you may use an AA-3 rating to get the materials listed in this direction for MRO. If a purchase order bearing a blanket MRO rating of AA-2 is served upon a seller for a product which does not appear on the attached list but which contains any materials listed under "Chemicals" on the at-

tached list, the seller may not extend that AA-2 rating to get the necessary production materials (appearing on the attached list) to make that product. The seller may use a rating of AA-3 instead to get the necessary production materials.

(4) *Rating for construction projects.* If you have a rating for materials to be physically incorporated in a construction project, you may use that rating to get materials on the attached list for MRO for use in that construction project.

(5) *Specific ratings.* You may use any rating assigned by a preference rating certificate which specifically names the kinds and quantities of material rated to get the materials on the attached list.

(d) *Persons engaged in several activities.* If a person is engaged in several business activities to which different ratings are assigned and it is impracticable to apportion his needs for any material on the attached list between those activities, he must use the rating assigned to the activity in which he is principally engaged. For example, if a person has 75 per cent of his production devoted to filling orders bearing AA-1 production materials ratings, and 25 per cent of his production devoted to filling orders bearing other production materials ratings and it is impracticable to apportion his MRO needs between these, he may use his AA-1 production materials rating to procure items on the attached list to satisfy his entire MRO needs. Also if a person produces only one product but has more than one production rating for the materials going into that product, he must use the rating applicable to the greater portion of his production.

(e) *Applications for special assistance.* Any person who needs any material listed in this direction either as production material or for MRO, and is unable to get it with the rating which he has, may apply on Form WPB-541 (formerly PD-1A) to the nearest local office of the War Production Board for a higher rating.

Issued this 18th day of February 1944.

[General Limitation Order L-215, as Amended
 Feb. 18, 1944]

TEXTILE, CLOTHING AND LEATHER MACHINERY

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of textile, clothing and leather machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

(b) *Restrictions on purchases of textile, clothing and leather machinery.* No person (including dealers) shall, in any transaction of purchase, lease or rent, accept delivery of any machinery of the kinds on List A at the end of this order without obtaining the approval of the War Production Board on Form WPB-1319 or Form WPB-617 (formerly PD-200). Application for such approval must be filed whether the machinery in question is new, used or rebuilt, unless exempted in paragraph (d) below.

In determining whether to grant or deny applications on Form WPB-1319, the War Production Board will give consideration to the following: availability of the type of machinery in question; the essentiality of the output of activity for which such machinery is to be used; the productive capacity and condition of the machinery to be replaced or supplemented; the labor supply in the area where the machinery is proposed to be used, and any other factors peculiar to the particular application.

(c) *Production and sales schedules of machinery manufacturers.* Each person constructing or assembling for sale or lease any machinery on List A, or reconditioning or rebuilding any textile machinery or equipment for sale or lease, shall file a schedule for the purpose of obtaining approval of his production and deliveries and shall keep his production and deliveries within the limits authorized on these schedules after they have been approved. No person whose operations are covered by this paragraph shall conduct such operations except in accordance with an approved schedule.

The schedule filed by manufacturers of textile machinery and cotton ginning and delinting machinery shall be on Form WPB-1805 (formerly PD-746), and shall be filed on or before the 15th day of each month. Schedules of manufacturers of other types of machinery on List A shall be filed on Form WPB-1806 (formerly WPB-745) not later than 15 days from the end of each calendar quarter.

(d) *Exceptions.* It shall not be necessary to file applications or schedules under paragraph (b) or (c) with respect to the following:

(1) Used or rebuilt textile machinery.
 (2) The following tanning, shoe, shoe repairing and other leather working machinery:

(i) Used or rebuilt tanning machinery, whether sold, leased or rented;

(ii) Used or rebuilt shoe manufacturing machinery, whether sold, leased or rented, except eyeletting, clicking, dinking and skiving machinery;

(iv) All other leather working machinery sold for less than \$200, except clicking, dinking and skiving machinery, and power driven eyeletting machines.

(3) Used or rebuilt industrial sewing machines, whether sold, leased or rented.

(4) [Deleted, Feb. 5, 1944.]
 (5) Used or rebuilt cotton-ginning and delinting machinery.

(6) Parts purchased for repair, maintenance or operating supplies, as defined in Preference Rating Order P-139.

(7) Parts and attachments to industrial sewing, clothing, shoe and leather working machinery, where such attachments are purchased only for conversion purposes.

(8) The delivery of machinery or attachments as a part of a transaction involving the transfer of all or substantially all of the assets of an enterprise, where no liquidation or dismemberment of assets is contemplated and where the enterprise is to be continued and the products to be made are to be substantially the same in quantity and type.

It is not necessary to file any application or schedule under this order with respect to any type of machinery covered by General Limitation Order L-91.

(e) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(f) *Communications to the War Production Board.* All reports required to

be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C.

(g) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

FEDERAL POWER COMMISSION.

[Docket No. G-525]

KANSAS-NEBRASKA NATURAL GAS COMPANY,
INC.

NOTICE OF APPLICATION

FEBRUARY 17, 1944.

Notice is hereby given that on February 10, 1944, the Kansas-Nebraska Natural Gas Company, Inc., a Kansas corporation having its principal places of business in Phillipsburg, Kansas, and Hastings, Nebraska, filed with the Federal Power Commission an application

for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, to authorize the construction and operation of the facilities hereinafter described, and to effect an interconnection between the proposed pipe line and the line of the Central Gas Utilities Company at a point near Wakeeney in Trego County, Kansas.

Applicant proposes to construct and operate an 18-inch natural-gas pipe line approximately 44 miles in length to be constructed from a point in Section 5, Township 25 South, Range 35 West, in Kearny County, Kansas, thence in a generally northeasterly direction to the compressor station of Applicant located in the southwest ¼ of Section 16, Township 18 South, Range 33 West, being approximately four miles west of Scott City, in Scott County, Kansas; a 12¾-inch natural-gas pipe line approximately 115 miles in length to be constructed from said compressor station, thence in a generally northeasterly direction to the present compressor station of Applicant west of Stockton in Rocks County, Kansas; an 8¾-inch natural-gas pipe line approximately 15 miles in length to be constructed from its Stockton compressor station, in a northerly direction; and appurtenant facilities including the installation of four additional 500-horsepower compressor units in certain of its compressor stations, together with additions to its dehydrating plant situated at its Scott City compressor station. The proposed natural-gas pipe lines after leaving Scott City compressor station will continue through Scott County and into and through the Counties of Lane, Gove, Trego, Graham, Rocks, and into Phillips County, Kansas.

Applicant states that due to the decline of the natural gas reserves in the Otis Field in the State of Kansas, it is necessary to augment its present supply of natural gas by making available reserves in the Hugoton Field in the State of Kansas, by construction of the proposed facilities, in order to assure continuity of adequate service for war, defense and essential civilian requirements in the areas in the States of Kansas and Nebraska now served by Applicant, which embraces 95 communities with an aggregate population of approximately 150,000.

Applicant asserts it does not have any present plan to sell and deliver, through the facilities above described, natural gas to any communities or customers now served with natural gas by any other natural gas company.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 4th day of March, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

ORDER FIXING PLACE OF HEARING AND PROVIDING FOR COOPERATIVE PROCEDURE

FEBRUARY 16, 1944.

(a) The Federal Power Commission, having heretofore by orders of December 28, 1943, and January 18, 1944, provided that a hearing in the above-entitled matter should be held commencing March 13, 1944, at 9:45 a. m., M. W. T., in the State of Montana, and having provided that the Public Service Commission of the State of Montana might participate in the hearing as provided in Part 39 of the Federal Power Commission's rules of practice and regulations which embodies the procedure agreed upon with the National Association of Railroad and Utilities Commissioners;

(b) The Public Service Commission of the State of Montana, by its orders of January 6, 1944, and January 18, 1944, in the Matter of the Reclassification of Accounts of The Montana Power Company, having set a hearing therein for February 28, 1944, at its offices at Helena, Montana; and

(c) On February 7 and 8, 1944, a majority of the members of the Public Service Commission of Montana having conferred, as contemplated by the above-mentioned agreement, with the Federal Power Commission and having expressed their purpose to have the Montana Commission participate with the Federal Power Commission in a joint hearing as hereinafter provided;

The Commission orders that:

(A) The hearing in the above-referred-to proceedings shall be conducted as a joint hearing, commencing March 13, 1944, at 9:45 a. m., M. W. T., in the Court Room of the District Court of the United States for the District of Montana, Federal Building, Butte, Montana.

(B) The joint hearing shall be presided over by a representative of the Federal Power Commission, designated in the usual manner, and the Chairman of the Montana Commission (together hereinafter referred to as "presiding officers"), but any member of either Commission may sit with them at any time.

(C) The presiding officers may by joint announcement provide that rulings announced by one shall be deemed concurrent rulings of both except where divergent rulings shall separately be announced. The record of the proceedings shall show the joint hearing as constituting the hearing of each Commission except that, if divergent rulings are made, the record shall be so reported as to separate and distinguish clearly the proceedings of the respective Commissions in accordance with the rulings of their respective presiding officers. In case the ruling of one presiding officer has the effect of admitting any voluminous exhibit or extensive testimony, excluded by ruling of the other presiding officer, the taking of such evidence will be deferred until after the completion of all proceedings which can be conducted

under concurrent rulings. In all other respects the hearing shall be conducted upon behalf of the Federal Power Commission as provided for in the Federal Power Act and the rules of practice and procedure prescribed thereunder, it being intended that each Commission shall control its own record and adopt its own separate final order thereon. Before either Commission enters any such order, opportunity will be afforded for conference between the Federal Power Commission and the Public Service Commission of Montana.

(D) All provisions of this order shall apply to the incorporation of the portion of the testimony of C. F. Kelley and W. D. Thornton heretofore taken on deposition and the cross-examination of said C. F. Kelley and W. D. Thornton, which shall be completed at said hearing.

(E) The hearing may be adjourned from time to time and place to place by the presiding officers.

By the Commission.

Secretary.
