PROCLAMATION 2634

EMERGENCY BOARD, SEABOARD AIR LINE RAILWAY—EMPLOYEES

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA
A PROCLAMATION

WHEREAS, the President, having been duly notified by the National Mediation Board that a dispute between the Seaboard Air Line Railway, a carrier, and certain of its employees represented by the following labor organization:

Brotherhood of Locomotive Firemen and Enginemen

which dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, amended, now threatens substantially to interrupt interstate commerce within the States of Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida to a degree such as to deprive that section of the country of essential transportation service:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, by virtue of the power vested in me by the Constitution and laws of the United States, and by virtue of and under the authority in me vested by Section 10 of the Railway Labor Act, amended, do hereby create a board to be composed of three persons not pecuniarily or otherwise interested in any organization of railway employees or any carrier, to investigate the aforementioned dispute and report its findings to me within thirty days from this date.

The members of this board shall be compensated for and on account of such duties in the sum of seventy-five dollars (\$75.00) for every day actually employed with or upon account of travels and duties incident to such board. The members will be reimbursed for and they are hereby authorized to make expenditures for expenses for themselves and of the board, including transportation expenses, and in conformity with Public No. 373—78th Congress, approved June 28, 1944, not to exceed six dollars (\$6.00) per diem in lieu of subsistence while so employed.

All expenditures of the Board shall be allowed and paid for out of the appropriation "Arbitration and Emergency Boards, National Mediation Board, 1945" on the presentation of itemized vouchers properly approved by the chairman of the board hereby created.

IN TESTIMONY WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington this 14th day of December in the year of our Lord one thousand nine hundred and forty-four, and of the Independence of the United States of America the one hundred and sixty-ninth.

FRANKLIN D. ROOSEVELT

By the President:

E. R. STETTINUS, Jr.,
Secretary of State.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-672]

PHILLIPSBURG TEXTILE PRINT WORKS

E. V. Horvath, G. A. Horvath, A. Horvath, B. Erdos, C. Erdos, I. Horvath and D. Horvath co-partners doing business as Phillipsburg Textile Print Works at Phillipsburg, New Jersey are engaged in printing textiles used for women's and children's apparel. During the fourth quarter of 1943, the Phillipsburg Textile Print Works accepted delivery of \$19,865.59 worth of Class C dyestuffs and \$12,299.86 worth of Class D dyestuffs in excess of its quota for such dyestuffs, in violation of Conservation Order M-103. During the first quarter of 1944, the partnership accepted delivery of \$6,441.47 worth of Class C dyestuffs and \$8,828.99 worth of Class D dyestuffs in excess of its quota for such dyestuffs, in violation of Conservation Order M-103. The partners were familiar with the provisions of Conservation Order M-103 and their actions constituted violations of that order. These violations have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that,

§ 1010.672 *Suspension Order No. S-672.* (a) During each of the four successive calendar quarters beginning January 1, 1945 and ending December 31, 1945, E. V. Horvath, G. A. Horvath, A.

Horvath, B. Erdos, C. Erdos, I. Horvath and D. Horvath, doing business as Phillipsburg Textile Print Works, or otherwise, their and its successors or assigns, shall reduce their receipts of Class D and Class C dyestuffs by 25% under the amount which they would otherwise be entitled to accept delivery of during each of these quarters as specified by the provisions of Conservation Order M-103, unless otherwise specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve E. V. Horvath, G. A. Horvath, A. Horvath, B. Erdos, C. Erdos, I. Horvath and D. Horvath, doing business as Phillipsburg Textile Print Works or otherwise, their and its successors or assigns from any restriction, prohibition or provision contained in any order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 18th day of December 1944.

PART 3216—MATERIAL ENTERING INTO THE OPERATION OF TRANSPORTATION SYSTEMS

[Preference Rating Order P-142, as Amended Dec. 19, 1944]

§ 3216.1 *Preference Rating Order P-142.* This order explains how "operators" of transportation systems, as defined below, get materials to carry on their operations, and it must be used by them in place of CMP Regulation 5. With a few exceptions, this order gives preference ratings on a quarterly quota basis for each group of items specifically authorized for the operator for the first quarter of 1944. Controlled materials (except aluminum and rail and track accessories) are allotted on a similar basis. This means that, in most cases, quarterly applications on Form WPB-2585 are no longer necessary, but material may be scheduled for delivery on the new basis only three quarters in advance. Use of the ratings and allotments is explained in the order.

Definitions

(a) *Definitions.* For the purpose of this order:

(1) "Transportation system" means a steam railroad, an electric railroad, a terminal railroad, a switching railroad, a private car line company, a rapid transit system, an electric street railway system, a trolley coach system, or a common carrier passenger motor bus system.

(2) "Operator" means any person to the extent that he is engaged in the business of transporting passengers or property over a transportation system. The term does not include any person who can obtain all of his controlled material requirements at retail, or from warehouses or distributors under the provisions of CMP Regulation 4, and who has

not elected to operate under this Order P-142 pursuant to paragraph (k) (1); such person must continue to operate under the provisions of CMP Regulation 5 and all other applicable regulations.

(3) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(4) "Controlled material" means steel, copper and aluminum in the forms and shapes indicated in Schedule I of CMP Regulation 1.

(5) "Maintenance and repair" means the upkeep or restoration of any unit of the operator's property or equipment by using the minimum amount of material necessary (i) to keep the unit usable for the purpose intended in its existing design, (ii) to restore parts of the unit to their original usefulness, or (iii) to renew parts to restore the unit to its usefulness for the purpose intended in its existing design. The term also includes "heavy repair of locomotives" and "heavy repair of railroad cars," as those terms are defined in paragraphs (a) (8) and (a) (9) below.

(6) "Operating supplies" means those materials and supplies which are essential to the operations of the operator's transportation system, the rendering of services, and the collection of revenues in connection therewith.

(7) "Construction" means the use of material to provide additional facilities or to rehabilitate existing facilities for a purpose not intended in the existing design.

(8) "Heavy repair of locomotives" includes only:

(i) Such repair to boiler, machinery and tender as is necessary to put the unit in thorough order and in condition to run out a new term of assigned mileage (sometimes known as class 1, 2 and 3 repair), and also such intermediate repair thereto as is necessary to enable the unit to run out its full mileage assignment (sometimes known as class 4 and 5 repair); or

(ii) Conversion, which means any change in the general machinery or wheel arrangement of the locomotive; or

(iii) Modernization, which means the addition of accessories and/or specialties to the locomotive.

(9) "Heavy repair of railroad cars" includes only:

(i) Program repair for any group of cars, or, if the operator does not program such repairs, repair of any car requiring 50 or more man hours per car for freight cars, or 100 or more man hours per car for passenger cars; or

(ii) Conversion, which means the modification of the structure of an existing car to such an extent as to change the type of the car.

Ratings and Allotment Symbol

(b) *Preference ratings for materials other than controlled materials.* Subject to the provisions of this order, preference ratings are hereby assigned to deliveries of material to be made to an operator after March 31, 1944, as follows:

(1) *Quotas.* Each operator may use the rating assigned for the purchase of

each group of items under section E of his authorization on Form WPB-2585 (original and supplements) for the first calendar quarter of 1944, to order for delivery to him during any calendar quarter not more than his dollar value quota for that group of items. This quota is 115% of the dollar value amount authorized for him in column (k) of section E of the above form for that group. Within this quota for any group an operator may get:

(i) Items listed in the particular group in section E (except lumber and cross ties—see paragraph (b) (2) (ii) below), and

(ii) Any items formerly listed in section D of form WPB-2585 (except those specified in paragraph (b) (2) (i) below) which the operator charges to the particular section E group under his normal accounting practice. Thus, he may get any item formerly listed in section D under "Motive Power Items" within the dollar value quota for section E motive power items, or may get "rail cars" formerly listed in section D within the quota for "Way and Structures" in section E. If an operator has properly placed orders for any section D items pursuant to paragraph (b) (1) or (b) (2) as effective before December 19, 1944, and they would exceed the amounts now permitted under the 115% dollar value quota, he does not have to cut them back or change the rating.

Applications for additional amounts of section D or E items may be made as explained in paragraph (k) (2).

Note: Subparagraph (2) (i) formerly (2), redesignated, Dec. 19, 1944.

(2) *Special items and track material.*

(i) The ratings assigned above in paragraph (b) (1) may not be used to order the following items:

Note: List amended Dec. 19, 1944.

Air brakes—AB.
Hand brakes (power).
Brake beams.

Couplers and coupler bodies.
Track material of the following kinds:

Frogs.
Crossings.
Switches.
Switch stands.
Rail anchors.
Rail braces.
Guard rails.
Guard rail clamps.
Gauge rods.
Clip bolts.
Rail clips.
Nut locks.

The amounts of these items which an operator can get for permitted uses and the proper ratings will be authorized from time to time on Form WPB-2585. Application for such authorization should be made by the operator as explained under paragraph (k) (3) of this order.

(ii) Operators may use the rating assigned by paragraph (b) (1) above to get

lumber and cross ties, but the 115% quota established by that paragraph does not apply to these items. The quota during any quarter for lumber required by an operator who is a Class II consumer under Order L-335, and for cross ties, is 110% of the respective amounts authorized for him in column (k) of Form WPB-2585 (original and supplements) for the first calendar quarter of 1944. Any operator who is a Class I consumer under L-335 may order for delivery and receive lumber in any quarter only to the extent authorized on Form WPB-3640 pursuant to the provisions of that order.

(3) *Emergency repairs.* The War Production Board may also assign in writing preference ratings to deliveries of specific materials essential for emergency repairs, application for which should be made as explained in paragraph (k) (2) of this order.

(4) Use of the ratings for advance quarters is subject to paragraph (e).

(c) *Assignment of allotment symbol for controlled materials.* Each operator may use the CMP allotment symbol T-7 to order controlled material for delivery to him after March 31, 1944, for a use authorized by paragraph (f) or (g) of this order, in amounts per quarter as follows:

(1) Aluminum to the extent required for maintenance, repair and operating supplies.

(2) Steel and copper (except rail and track accessories) up to 110% per quarter of the respective amounts authorized for the operator for each item or group of items under section C of Form WPB-2585 (original and supplements) for the first calendar quarter of 1944. If this 110% quota is not enough in any quarter to provide for permitted uses under this order, application for additional amounts may be made as explained in paragraph (k) (2).

(3) Rail and track accessories (Code No. 2026) in amounts authorized for each quarter by the War Production Board upon Form WPB-2585. Application should be made by the operator only as required under paragraph (k) (3). (Note that the items of track material listed in paragraph (b) (2) are no longer controlled materials).

Use of these authorizations for advance quarters is subject to paragraph (e).

(d) *How to use the ratings and allotment symbol—(1) Certification.* An operator may use the above ratings and allotment symbol T-7 to get materials under this order by placing on his purchase orders a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7:

Preference rating—(specify rating if necessary); CMP allotment symbol T-7; P-142, serial No. _____

The undersigned operator certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller

and to the War Production Board that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order; to receive, for transportation MRO under P-142, the item(s) ordered; and to use any preference rating or allotment symbol which the undersigned has placed on this order.

However, the certifications provided in CMP Regulation 7 and Priorities Regulation 7 may be used instead of the above, if they include the following identification:

Preference rating—(specify rating if necessary); CMP allotment symbol T-7; P-142, serial No. _____

(2) An order for controlled materials which bears the above certification and allotment symbol is an authorized controlled material order, except that, when placed with a producer, the order must conform to paragraph (s) (4) of CMP Regulation 1 relating to content of the order and time for placing it. On orders for controlled materials, no preference rating should be shown.

(3) The ratings applied by operators under paragraph (d) (1) may be extended in the manner provided in Priorities Regulation 3.

(4) The ratings assigned under this order may not be used to get items shown on List A or B of Priorities Regulation 3.

(e) *Advance authorizations.* Neither the preference ratings nor the allotment symbol assigned by this order may be used by an operator to place orders for delivery farther ahead than the three calendar quarters following the quarter during which the order is placed, unless otherwise indicated with respect to any authorization issued on Form WPB-2585. For example, during the second quarter of 1944, orders may be placed for delivery during that quarter and in each of the last two quarters of 1944 and the first quarter of 1945 to the full extent authorized per quarter under the above paragraphs; during the third quarter of 1944, orders may be placed in corresponding amounts for delivery in the second quarter of 1945, and so on. Any special authorization, unless otherwise indicated, is valid only for the quarter for which issued.

Permitted Uses of Materials and Inventories

(f) *Maintenance, repair, etc.* No operator shall acquire any material under the provisions of this order, nor make withdrawals from inventory of any material acquired with priorities assistance of any kind, except for the following purposes:

(1) Maintenance, repair and operating supplies (including materials required for MRO by the operator for its own use in carrying out authorized construction projects and in manufacturing transportation equipment);

(2) Heavy repair of locomotives;

(3) Heavy repair of railroad cars;

(4) Minor items of productive capital equipment not exceeding \$500 per unit (excluding cost of labor);

(5) Replacement of rail with the weight of rail and type of fastenings conforming to the operator's standard practice;

(6) Construction to the extent permitted by paragraph (g) below; or

(7) For any other use when specifically authorized in writing by the War Production Board.

(g) *Construction.* Any operator may acquire materials under this order, or make withdrawals from inventory of materials acquired with priorities assistance, for the following kinds of construction:

(1) Laying of railroad tracks or the construction of necessary operating facilities (excluding tunnels, overpasses, underpasses, and bridges), but only to the extent that the total cost of such materials for any one project is \$10,000 or less (excluding cost of labor). The operator must apply on Form WPB-617 for specific authorization if he needs priorities assistance to get any materials over the above \$10,000 limit, or if he wants to withdraw more than this amount from his inventory of materials acquired with priorities assistance.

(2) Constructions of tunnels, overpasses, underpasses or bridges, but only to the extent that the total cost of such materials for any one project is \$2,500 or less (excluding cost of labor). If the total cost of such materials is over \$2,500, the project is covered by Conservation Order L-41, and the operator must get permission to construct under that order by applying on Form WPB-617.

Note: Subparagraph (3) formerly subparagraph (2) redesignated Dec. 19, 1944.

(3) Construction of railroad stations, warehouses, loading platforms and similar structures, where the construction is within the annual cost limits set forth in Order L-41.

With respect to any project costing over the above limits, after the operator gets specific authorization in writing from the War Production Board (under L-41 or otherwise as indicated above), he may withdraw amounts over those limits from his inventory of materials acquired with priorities assistance. However, replacement in inventory of any additional materials so withdrawn may be made only by using the ratings and allotments assigned by the specific authorization (CMP L-224, GA-1456, or other applicable form). Furthermore, with respect to any project specifically authorized by the War Production Board (under L-41 or otherwise), acquisition or withdrawal from inventory of materials by the operator is limited to those which may be permitted by the authorization.

Inventory Control; Resales

(h) *Inventory control.* Notwithstanding the provisions of any other order or regulation of the War Production Board (including CMP Regulation 2),

an operator's inventory of material for uses permitted under this order shall be subject to the following restriction only:

No operator shall receive any delivery of material which will increase his inventory of such material to an amount greater than the minimum necessary to sustain his current level of operations.

However, this does not prevent the operator from maintaining minimum stocks of material for emergency use, nor from acquiring reasonable stocks of ties and lumber for seasoning. The foregoing inventory control also does not apply to printed matter.

(i) *Permitted resale of materials.* An operator may resell material (whether or not obtained with the assistance of this order):

(1) To any other operator;

(2) To another person when such material is to be physically incorporated in repairs of equipment that is used in the maintenance, repair, or operations of the operator's own property: *Provided*, That such material could have been used by the operator itself in making its own repairs without violation of any of the provisions of this order;

(3) To the operator's own transportation system subsidiaries, or for the maintenance of track or equipment not owned but customarily maintained by the operator or its subsidiaries; or

(4) For the repair of equipment of another carrier in accordance with the Code of Rules for the Interchange of Traffic as adopted by the Association of American Railroads.

Any such sale shall be expressly permitted within the provisions of paragraph (c) (3) of Priorities Regulation 13: *Provided*, That nothing in this paragraph (i) shall be deemed to authorize receipt or use of any material by any person in violation of any inventory or use restriction imposed by this order or any other order or regulation of the War Production Board, and no operator shall make any sale of material authorized above if he knows or has reason to believe that receipt or use thereof by the buyer will be in violation of any such restriction.

(j) *Other resales.* Any other resale of materials by an operator is subject to Priorities Regulation 13.

Procedure

(k) *How to make application under this order—*(1) *Serial numbers.* No operator shall be entitled to any assistance under the provisions of this order until he has been assigned an authorized serial number, which may be obtained upon application by letter to the War Production Board, stating that the applicant will be unable to obtain all of his controlled material requirements at retail or under the provisions of CMP Regulation 4. In addition, any person who can obtain all such requirements at retail or under that regulation may elect to apply as above for an authorized serial number. When such serial number is assigned to him, he shall be deemed an "operator" under all the provisions of this Order P-142.

(2) *Application for special or additional authorizations.* In order to get

authorization or exemption under paragraph (b) (1), (b) (3), (c) (2) or (f) (7) of this order, an operator must communicate with the War Production Board, describing the nature of the emergency or the reason why specific authorization is necessary, and the amount and type of material involved. The War Production Board will thereupon notify the operator in writing whether, and to what extent, his application is approved.

Requests for additional authorizations for any quarter under paragraph (b) (1) or (c) (2) must be made by letter, giving the above information. In acting upon such a request, the War Production Board may at the same time authorize all or part of the additional amount for future quarters. For example, if it was shown that the operator's authorizations on Form WPB-2585 for the first quarter of 1944 were not a reasonable indication of his quarterly needs of any item or group of items, his "base" (against which to apply the 110% or 115% quota) might be increased. The War Production Board may also direct in writing that the "base" be reduced.

(3) *Application for special items and track material.* Application for track material under paragraph (b) (2) and for rail and track accessories under paragraph (c) (3) should be made by an operator only if called for by specific instructions of the War Production Board. Application for special items (other than track material) listed in paragraph (b) (2) should be made on Form WPB-2585 at least 45 days before the beginning of each calendar quarter, in accordance with the instructions on the form and any supplemental instructions that may be issued.

Miscellaneous Provisions

(l) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal.

(m) *Violations.* Any person who willfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Applicability of regulations.* (1) This order and all transactions affected by it are subject to all applicable regulations of the War Production Board, as amended from time to time, unless this order states otherwise.

(2) None of the provisions of CMP Regulations 5 or 5A shall apply to operators as defined in paragraph (a) (2) of this order, and no operator shall obtain any material under the provisions of either of those regulations. However, privileges under other orders and regulations of the War Production Board

granted to persons on Schedule I or II of CMP Regulation 5 shall be considered as applicable to operators under this order. For example, Order E-5-a on gauges and precision measuring hand tools classifies a person on Schedules I and II of CMP Regulation 5 as an "approved user". Operators under this order P-142 are in the same position providing that certification clauses and all other provisions of those other orders are complied with.

(o) *Communications.* All communications concerning this order, unless otherwise directed, shall be addressed to: War Production Board, Transportation Equipment Division, Washington 25, D. C., Ref.: P-142.

NOTE: The reporting requirements in this paragraph (k) have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 19th day of December 1944.

Recording Secretary.

INTERPRETATION 1: Revoked April 19, 1944.

INTERPRETATION 2

PRODUCTIVE CAPITAL EQUIPMENT

Paragraph (f) (4) of Order P-142 (§ 3216.1) permits operators to use their MRO ratings under the order to buy "minor items of productive capital equipment not exceeding \$500 per unit (excluding cost of labor)."

"Items of productive capital equipment" are not limited to rolling stock items such as locomotives and cars, but include all items which the particular operator normally charges to his capital account. Examples are adzers and spike pullers (maintenance of way equipment), and lathes and drill presses (shop equipment).

Operators needing to buy such capital items costing more than \$500 per unit (excluding cost of labor) may not do so under the provisions of P-142. The usual way to get these items is by applying on Forms WPB-541 (PD-1A) or WPB-1310, on other applicable forms (such as WPB-3131) for special items of equipment, or under Order L-41 if a construction job covered by that order is involved. (Issued July 8, 1944.)

PART 3216—MATERIAL ENTERING INTO THE OPERATION OF TRANSPORTATION SYSTEMS

[Preference Rating Order P-142, Direction 3, as Amended Dec. 19, 1944]

ADVANCE AUTHORIZATION FOR SPECIAL ITEMS OF CAR MATERIALS

The following amended direction is issued pursuant to Preference Rating Order P-142:

(a) This direction permits railroad operators to place advance orders for the following items of car materials listed in paragraph (b) (2) of Order P-142:

NOTE: Last item deleted from 11st Dec. 19, 1944.

Air Brakes—AB..... Code No. CA
Hand Brakes—Power..... Code No. CB
Brake Beams..... Code No. CH
Couplers and Coupler Bodies. Code No. MA

subject to the following conditions:

(1) Advance orders for items under this direction may be placed for delivery during each of the three calendar quarters following the quarter in which the order is placed. Thus during the second quarter of 1944, advance orders may be placed for delivery in the third and fourth quarters of 1944 and the first quarter of 1945.

(2) The operator may order for delivery in each advance quarter up to 75% of the amount of each of the above items authorized for him under Order P-142 for the first quarter of 1944. With the exception of power hand brakes (Code CB), he may use the same preference ratings, to the same extent, as were authorized for the particular item for the first quarter of 1944. For power hand brakes, he may use only a rating of AA-3 for advance quarters, regardless of the ratings authorized for that item in the first quarter of 1944.

For example, if an operator was authorized in the first quarter of 1944 to buy 100 AB Air Brakes with AA-1 rating and 200 with AA-3 rating, he may, under this direction, place orders for each advance quarter for not more than 75 with AA-1 rating and 150 with AA-3 rating. Also, if he was authorized in the first quarter of 1944 to buy 10 power hand brakes with AA-1 rating and 50 with AA-3 rating, he may, under this direction, place advance orders each quarter for 45, all with AA-3 rating.

(b) Each operator must continue to apply each quarter on Form WPB-2585 for firm authorizations in accordance with paragraph (k) (3) of Order P-142. To the extent that the firm authorization on that form differs from the advance authorization for any item under this direction, orders must be cut back, or new orders may be placed, accordingly.

(c) This direction applies to railroad and private car line operators under Order P-142 (serial numbers below 1500), but not to transit operators.

(d) If an operator has no first quarter 1944 authorization to use as a "base" (against which to apply the 75% quota for advance ordering of any item under this direction), the War Production Board may establish such a base by written authorization to the operator. It may also direct that an operator's base be increased or reduced if his first quarter 1944 authorization does not properly represent his advance quarterly needs for the particular item. If such a revised base is established for an operator, he may place advance orders against it subject to all provisions of this direction.

Issued this 19th day of December 1944.

PART 3201—PULP AND PAPER

[General Conservation Order M-241-a, as Amended Dec. 19, 1944]

CONSERVATION OF PAPER AND PAPERBOARD

§ 3281.64 *General Conservation Order M-241-a—(a) Definitions.* For the purpose of this order:

(1) A "converted product" means any article or type of converted paper resulting from the processing of pulp, paper, or paperboard which alters the original form or characteristics of the pulp, paper, or paperboard. The term includes all articles on any of the lists to this order, but shall not include:

(i) Paper or paperboard manufactured in the first instance by a paper or paperboard mill.

(ii) A "newspaper" as defined in General Limitation Order L-240.

(iii) "Wall paper" as defined in General Limitation Order L-177.

(iv) A "box" as defined in General Limitation Order L-239.

(v) A "magazine" as defined in General Limitation Order L-244.

(vi) A "book" as defined in General Limitation Order L-245.

(vii) A "greeting card" as defined in General Limitation Order L-289.

(viii) A "book match" as defined in General Limitation Order L-263.

(ix) A "paper shipping sack" as defined in General Limitation Order L-279.

(xiv) Looseleaf binders.

(xv) Specialty bags.

(xvi) A "flashlight" as defined in General Limitation Order L-71.

(2) A "converter" is any person who, regardless of the identity or nature of his business, manufactures any converted product.

(b) *Computation of quotas for a portion of a calendar quarter.* Each converter whose quota provisions for a current calendar quarter are affected by this or any subsequent amendment to this order shall compute his permitted quota on a pro rata basis from the effective date of the order for the balance of the current calendar quarter.

(c) *Unrestricted consumption of pulp, paper and paperboard in the manufacture of certain converted products.* Any converter may consume any quantity of pulp, paper and paperboard in the manufacture of any converted product shown on List A of this order.

(d) *Restriction on consumption of pulp, paper and paperboard in the manufacture of certain named converted products.* (1) No converter shall consume in the manufacture of any converted product on List B, List C or List D of this order any quantity, in tons, of pulp, paper and paperboard greater than the quantity ascertained:

For the final quarter of 1943, and for each calendar quarter thereafter, by applying the entire percentage figure for each such converted product, as shown in paragraph (d) (2) of this order, to the quantity, in tons, of pulp, paper and paperboard consumed by such person in the manufacture of such product during the corresponding calendar quarter of 1942.

(2) The following percentage figures shall be used for the calculations described in the preceding paragraph (d) (1):

	Percent
(i) List B products.....	110
(ii) List C products.....	100
(iii) List D products.....	80

(3) [Deleted Oct. 5, 1943]

(e) *Restrictions on consumption of pulp, paper and paperboard in the manufacture of converted products not specifically listed.* (1) No converter shall during the final calendar quarter of 1943 or during any calendar quarter thereafter consume in the manufacture of any converted product not named on List A, List B, List C or List D of this order, any quantity, in tons, of pulp, paper and paperboard greater than 65 percent of the tonnage consumed in the manufacture of such converted product during the corresponding calendar quarter of 1942.

(2) In the instance of any converted products not named on any of the lists of this order, the following processes and operations shall not be considered as processing:

(i) Cutting, trimming or rewinding to a different size when such is performed as part of any established finishing room procedure and provided the paper or paperboard so processed is not intended for a use which serves to defeat the purpose of the order. (Example: the cutting of plain paper to a given size for use as a tray cover, the manufacture of which is curtailed by this order).

(ii) Punching or corner cutting.

(iii) Super-calendering.

(iv) Laminating.

(v) Coating, friction calendering, flint glazing, plating and embossing.

(vi) Collating and binding.

(vii) Printing, when such contributes to the functional value of the product to such a degree that the product would be incapable of performing the use intended if not printed. (Examples: advertising streamers, posters, menus, programs, timetables, sheet music, patterns, decalcomania transfers, checks), or when such printing is an intermediate process in the manufacture of an article or type of converted paper.

(viii) Printing wrappers (excluding gift wrappings) when printing is the only conversion operation other than cutting or trimming.

(ix) Embossing, corrugating, creping and crinkling for industrial and non-decorative uses.

(f) *Alternate method of calculating quotas.* As an alternate method of calculating quarterly quotas for any converted product, any person may, after the filing of a notice in writing with the War Production Board, elect to apply

the percentages established by paragraphs (d) and (e) (1) of this order to one fourth of his total yearly consumption of pulp, paper and paperboard in such product during 1942. When such election has been made and the required notice in writing has been given to the War Production Board, the method of determining quotas may not thereafter be changed.

(g) *Converter's responsibility in determining coverage of this order.* It shall be the duty of each converter to determine in the first instance which of his products are included among the converted products referred to in this order. In case of doubt he may apply to the War Production Board in writing describing the product in question, for a specific ruling determining whether or not the same is so included. The War Production Board may of its own motion in any case, by telegram or letter, issue a specific ruling determining whether or not a particular product of a particular converter is so included.

(h) *Inventory restrictions.* No converter shall accept delivery of, and no person shall knowingly deliver to a converter, any quantity of pulp, paper or paperboard if the total inventory of pulp, paper and paperboard in the possession of the converter is, or will by virtue of such delivery become, in excess of the greater of the following: (1) thirty tons, or (2) a thirty days supply, based on the converter's average rate of consuming pulp, paper and paperboard during the latest preceding full calendar month.

(i) *Certification to paper dealer or mill.* No converter of paper, and no person on behalf of a converter of paper, may order or accept delivery, from a paper merchant, mill operator, or other supplier of any paper for use in converting paper, unless the buyer furnishes, or has previously furnished, to the person making delivery, certificate in substantially the following form, signed manually, or as provided in Priority Regulation No. 7 (§ 944.27) by an official duly authorized for such purpose:

The undersigned converter certifies, subject to the penalties of section 35 (A) of the U. S. Criminal Code, to the seller and to the War Production Board that he is familiar with Order M-241-a and that all purchases by him of items regulated by that order, as amended from time to time, will be in compliance therewith.

The above certificate must be used and the certification provided for in Priority Regulation No. 7 may not be used in its place or stead.

This is a one-time certification and need not accompany each individual order for paper.

(j) *Allocations.* The War Production Board may from time to time direct the production and delivery of specific quantities of any converted product included in this order. Such directions will be made to insure the satisfaction of war requirements both direct and indirect and essential civilian requirements and shall take precedence over any preference rating to the extent indicated by the War Production Board.

(k) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(l) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(m) *Violations.* Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(n) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Paper Division, Washington 25, D. C. Ref: M-241-a.

Issued this 19th day of December 1944.

INTERPRETATION 1—WAXED PAPER CONVERSION

"Waxed and oiled paper, all types and grades other than household packages, excluding waxed paper wrappings for direct war use as provided in List A," as that caption appears in List B of General Conservation Order M-241-a, applies to all the kinds of paper so described regardless of whether produced as a result of a separate converting operation, as is commonly the case, or produced as a result of having been oiled or waxed on the paper machine. For the purpose of this order control has been placed on the end product. The method employed in consuming paper in the manufacture of the end product is not a factor of consideration in determining the applicability of the order. (Issued Feb. 15, 1944.)

INTERPRETATION 2—RETAIL UNITS

This interpretation of General Conservation Order M-241-a applies to the consumption of paper in the manufacture of retail units of wrapping and other papers as dispensed through the variety chain stores, the department stores, the stationery stores and all other retail outlets. These retail units are regarded as within the definition of a "converted product" in Order M-241-a and therefore subject to the restrictions contained in paragraphs (d) or (e) of the order.

All grades and kinds of paper, plain or printed, when converted into retail units for wrapping purposes are subject to the order, although the percentage restriction on consumption need not be separately applied to each of the grades and kinds of paper consumed during the base period. It is permitted to calculate an aggregate quota and to consume any grade or kind of paper,

plain or printed, within the quota without regard to the maintenance of the same relationship of grade and kind that prevailed during the base period.

Any person who did not consume paper during the base period of the order in the conversion of such retail units of wrapping and other papers has no basis from which to calculate a quota and, therefore, cannot become a converter.

There is a distinction in the instance of printed wrapping paper as follows:

1. When printed wrapping paper is delivered by the printer in bulk form (not packaged) for further sale or further distribution the printer is the "converter" as defined in the order, and, therefore, subject to the restrictions of paragraph (e); but,

2. If the printer delivers the printed wrapping paper to a person for subsequent conversion into retail units, the final converter is the one subject to the restrictions of paragraph (e) and not the printer.

Since retail units are regarded as a separate and distinct type of "converted product," it is obvious that tonnage from other products cannot be included when calculating a quota for retail units.

Plain wrapping tissue purchased in quires, or flat, when subsequently folded and labeled or otherwise packaged, is deemed to be a retail unit and therefore restricted by paragraph (e).

Quota tonnage which has not been consumed at the end of a calendar quarter may not be carried over to the succeeding calendar quarter. (Issued Feb. 15, 1944.)

INTERPRETATION 3—PUNCH BOARDS, PULL BOARDS AND SIMILAR ARTICLES

This interpretation of General Conservation Order M-241-a applies to punch boards, pull boards and similar articles. Punch boards, pull boards and similar articles are not included in "Games and Toys" on List D of the order. They are to be considered as coming within the provision of paragraph (e) (1) of the order. (Issued May 26, 1944.)

Schedule C.

§ 4501.1 *Utilities Order U-2—(a) Definitions.* (1) "Operator" means any individual, partnership, association, business trust, corporation, receiver, or any form of enterprise whatsoever, whether incorporated or not, the United States, the District of Columbia, any state or territory of the United States, any political, corporate, administrative or other division or agency thereof, to the extent engaged in rendering telephone communication service within, to, or from the United States, its territories or possessions.

(2) [Revoked July 17, 1944.]
(3) [Revoked Oct. 30, 1944.]
(4) [Revoked July 17, 1944.]
(5) [Revoked July 17, 1944.]
(6) "Schedule A service" means service to the extent required for the proper discharge of duties in the direct defense, public health, welfare and security categories listed on Schedule A attached.

(7) "Interim service" includes all service installed or reconnected on and after April 15, 1943 which requires an allocation or assignment of exchange central office station terminal equipment or exchange line plant. It also includes any service installed prior to that date according to a contract specifying that the service was on an interim basis.

(b) *Conservation.* (1) Operators shall conserve scarce and critical materials by the employment of all practical methods.

(2) [Revoked Jan. 20, 1944]
(3) Operators shall discontinue the further installation of dial P. B. X. systems and dial private intercommunicating systems. This provision does not prevent the installation of systems of less than 100 lines where the equipment is already in the stock of the operator or can be obtained from the stock of another operator. Nor does it bar additions to dial systems. Nor does it bar moves for the same business service within the same exchange area, or to a contiguous exchange area of the same operator.

(c) *Availability of facilities for essential uses.* (1) Operators shall disconnect service when they learn that the present real user of service is not a user contemplated in the service agreement. Any such disconnections shall be considered "normal disconnections" within the meaning of paragraph (c) (2) below.

(2) Exchange line plant, exchange central office equipment, or telephone sets made available through normal disconnection or by new acquisition shall

be used to take care of applications for service in the following order:

(i) Schedule A service, public pay station service and service specifically authorized by the War Production Board because of essentiality or unreasonable hardship.

(ii) Changes of address of business service within the same exchange or to another exchange of the same operator within the same metropolitan area or within such other area as is defined by the operator's established practices; and, within the same area, restoration of business "interim service" disconnected to make facilities available for Schedule A service.

(iii) New business service for an enterprise which the operator finds is substantially owned and principally operated or managed by a veteran who applies for service within twelve months after being honorably separated from the armed forces of the United States provided such enterprise is expected to be the veteran's principal means of livelihood. The applicant for service must certify to these facts in substantially the form set forth in the Certification Form (WPBI-2545).

Note: Subdivisions (iv) through (ix), inclusive, formerly (iii) through (viii), redesignated Dec. 19, 1944.

(iv) Changes of address of residence service within the same exchange or to another exchange of the same operator within the same metropolitan area or within such other area as is defined by the operator's established practices; and, within the same area, restoration of residence "interim service" disconnected to make facilities available for Schedule A service.

(v) New business service and additions to existing business service.

(vi) New residence service set forth in Schedule B.

(vii) New residence service set forth in Schedule C.

(viii) New residence service other than that included in categories (i), (vi) and (vii).

(ix) Where the operator finds that immediate installation of service is essential to the protection of life, such installation may be made as an exception to the order provided in the above categories. Such service shall, however, be disconnected promptly at the termination of the emergency and the facilities used to take care of applications as otherwise specified above.

(3) Idle facilities may be reserved to the extent operators find necessary to meet promptly the known or fairly anticipated requirements for Schedule A service and to provide for essential public pay station service.

(4) To the extent necessary to meet minimum needs for Schedule A service and for essential public pay station service, operators shall make available additional exchange central office equipment or exchange line plant by regrading any service or disconnecting "interim service" under the following provisions;

(i) "Interim service" shall not be subject to disconnection so long as it continues to meet the requirements of Schedule A service or essential public pay station service.

(ii) Regrading is to be done only when current installations of central office equipment permit. Regrading of Schedule A service and of business service is to be done only if regraded service meets minimum service needs.

(iii) In so far as practical these steps shall be taken in the following order. Regrading shall precede disconnection. Residence service shall be regraded or disconnected before business service. Any regrading or disconnection shall be in the reverse order of the dates of connection at the existing locations, that is, the most recent shall be regraded or disconnected first.

(5) Subject to the provisions of (c) (4) (ii) and (c) (4) (iii) above, operators shall regrade existing service to the extent necessary to provide service authorized by the War Production Board because of unreasonable hardship.

(d) Limitations on additional telephones. (1) Main stations. Operators shall limit the number of main telephone stations, including P. B. X. trunks, connected to any central office to 105% of the number the central office was designed to serve under pre-war engineering and operating practices. This provision has the following exclusions and exceptions:

(i) Main stations do not include extensions or P. B. X. stations.

(ii) If the number of main stations connected to a central office on March 25, 1943 exceeded the 105% limit, the number need not be reduced so long as service is satisfactory.

(iii) The 105% limitation need not be applied to a single-office exchange which is designed to serve less than 1,000 main stations.

(iv) The War Production Board may approve a percentage other than 105% for any central office.

(2) Residence extension service. Operators shall not install or reconnect residence extension telephones, residence extension bells or residence P. B. X. telephones, nor as a substitute provide additional main lines or stations on party lines, nor install jacks and plugs for residence service. This provision has the following exclusions and exceptions.

(i) Jacks already in place may be reconnected provided that no more than one telephone and one bell shall be furnished with the telephone line with which the jacks are associated.

(ii) Temporary installations of one residence extension may be made when the operator finds it essential in cases of serious illness.

(iii) For practicing physicians and surgeons, the following services may be provided, but the operator shall supply the minimum which will meet professional requirements. The operator may install two jacks and make the main station telephone a portable telephone, or, as an alternative, install one extension telephone or, as an alternative, install two jacks for use with a single portable extension telephone. The operator may

also provide a connection with an answering bureau.

(iv) The installation and reconnection in residence quarters of telephones connected to private branch exchanges serving hotels, apartment houses, etc., may be made to the extent that no more than one such telephone may be provided in any residence quarters.

(e) [Revoked July 17, 1944.]

(f) Limitation on replacements. Operators shall not make replacements of P. B. X. systems with dial equipment.

(g) [Revoked Oct. 30, 1944.]

(h) Non-applicability to certain replacements and additions. (1) The terms of this order shall not prohibit wire communications projects approved by the War Production Board on form WPB-2774 or other appropriate form.

(2) Nor do they prohibit the completion of a project the physical installation of which was started at a time when the project was permitted by Order L-50 or an earlier issue of Order U-2.

(i) [Revoked July 17, 1944.]

(j) Exemption of armed forces. The restrictions of paragraphs (b) (3) and (f) shall not apply to facilities for the official use of the armed forces or the Veterans' Administration.

(k) Engineering and planning. All operators shall engineer all replacements or additions to central office equipment so as to limit the margin for expected growth of requirements to a period not in excess of one and one-half years.

(l) Reports. All operators affected by this order shall execute and file with the Office of War Utilities such reports as the Director, Office of War Utilities, shall from time to time require; subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(m) [Revoked Jan. 20, 1944]

(n) Appeals and applications. Applications for relief under this order or appeals should be filed on Form WPB-2117, except for those concerning paragraphs (b) (3), (d) (1), (f) and (k) which shall be made on Form WPB-2774.

(o) Violations. Any person who willfully violates any provision of the order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance.

(p) Communications. All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Communications Division, Office of War Utilities, War Production Board, Washington 25, D. C., Ref.: U-2.

Issued this 19th day of December 1944.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[Rev. S. O. 259]

PART 95—CAR SERVICE

PERMIT REQUIRED FOR SHIPMENT OF IRISH POTATOES

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 18th day of December, A. D. 1944.

It appearing, that Irish potatoes grown and harvested in certain sections of California, Idaho, and Oregon, described in Appendix A hereto are urgently needed to supply the Armed Services.

It further appearing, that to provide and insure an adequate supply of such potatoes, for the Armed Services, Marvin Jones, War Food Administrator, has issued December 8, 1944, Title 7—Agriculture, Chapter XI—War Food Administration, War Food Order No. 120, Part 1405—Fruits and Vegetables, Section 1405.48 effective at 12:01 a. m., e. w. t.,

December 11, 1944, which provides that "no person shall ship Irish potatoes from any area included in the territorial scope of this order * * * (described in Appendix A hereto) until he has applied to the Director for and he has received from the Director a permit to ship the particular lot * * *"

It further appearing, that the War Food Administrator has written to the Director of the Office of Defense Transportation on December 9th and 16th advising of the urgent needs of the Armed Services and that a conservative estimate is that about 5,000 carloads of these potatoes will "be shipped to western de-hydration plants and to ports of embarkation for shipment overseas", resulting in a "tremendous saving in car miles and car days", because of the diversion of shipments from commercial destinations east of the Mississippi River to such western destinations over shorter routes.

It further appearing, that the Director of the Office of Defense Transportation has requested this Commission to take such action as it deems appropriate and necessary.

It further appearing, that railroad freight cars, both box and refrigerator, are urgently needed; that the diversion of approximately 5,000 carloads of potatoes into short haul channels will save car days and contribute substantially to the short car supply; the Commission is of opinion that an emergency exists requiring immediate action in the section of the country described in Appendix A hereto; it is ordered, that:

(a) *Definition.* As used in this order the term "Irish potatoes" means any and all varieties of the edible tuber of the species *Solanum tuberosum*.

(b) *Permit required for transportation by common carrier by railroad of Irish potatoes.* No common carrier by railroad subject to the Interstate Commerce Act shall transport or move a railroad freight car or cars loaded with Irish potatoes, from any section described in Appendix A hereof, unless the shipper thereof presents to such carrier prior to the transportation or movement of such car or cars a permit authorizing the shipment of such Irish potatoes issued by the War Food Administrator pursuant to the provisions of War Food Order No. 120 or supplements thereto or successive issues thereof.

(c) *Exemptions.* The requirements of paragraph (b) of this order shall not apply to any transportation or movement of Irish potatoes for the shipment of which no permit is required by the provisions of War Food Order No. 120, or by reason of any exemption made or relief granted under that order.

(d) *Application.* (1) The provisions of this order shall apply to intrastate as well as interstate commerce.

(2) The provisions of this order shall apply only to cars loaded with Irish potatoes shipped on or after the effective date hereof.

(e) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., December 19, 1944.

(f) *Expiration date.* This order shall expire at 12:01 a. m., e. w. t., May 1, 1945, unless otherwise modified, changed, sus-

pending or annulled by order of this Commission. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, that copies of this order and direction shall be served upon the State railroad regulatory bodies of each State named in Appendix A hereof, or as same may be amended, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.
