Regulations

TITLE 7—AGRICULTURE

Chapter XI—War Food Distribution Orders

[WFO 42, Amdt. 18]

PART 1460—FATS AND OILS

EMERGENCY QUOTAS

War Food Order No. 42, as amended (9 F.R. 12075; 10 F.R. 2679, 3315, 5060, 7961, 8685), is further amended by adding immediately after paragraph (b) (3) the following new paragraphs:

(4) In addition to the quota established under paragraph (b) (1) hereof, any manufacturer may, during the calendar quarter July 1 to September 30, 1945, use fats and oils in the manufacture of edible fat or oil products other than margarine in an amount not exceeding 2 percent of the average amount of fats and oils used in such class of products during the corresponding calendar quarters of the base period. Such additional usage shall constitute an emergency quota and may be used only under the following conditions:

(i) Any manufacturer who has facilities for the manufacture of shortening shall use such emergency quota only for the manufacture of shortening which shall be packaged in containers of not over 4 pounds;

(ii) Any manufacturer who does not have facilities for the manufacture of shortening may use such emergency quota for the manufacture of liquid oil which shall be packaged in containers of not over one gallon;

(iii) Shortening or liquid oil produced as a result of such emergency quota shall be distributed, during the calendar quarter July 1 to September 30, 1945, in those areas designated as "emergency areas" by the Office of Price Administration, Washington, D. C.;

(iv) Normal or usual deliveries, into such "emergency areas", of shortening or liquid oil chargeable to regular quota usage under paragraph (b) (1) hereof shall not be reduced;

(v) Such emergency quota shall not be considered as part of the regular quota established under paragraph (b) (1) hereof, and any unused portion of such emergency quota shall not be carried over to the fourth calendar quarter of 1945.

The delivery of shortening or liquid oil by any manufacturer in violation of any condition set forth in this paragraph shall be charged against the regular quota established under paragraph (b) (1) hereof.

This order shall become effective at 12:01 a. m., e. w. t., July 1, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 42, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

(E.O. 9280, 7 F.R. 10179; E.O. 9577, 10 F.R. 8087)

Issued this 21st day of August 1945.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

[F. R. Doc. 45-15511; Filed, Aug. 21, 1945; 3:31 p. m.]

[War Food Orders, Amdts.]

AMENDMENTS TO WAR FOOD ORDERS

This order amends the following War Food Orders and all orders issued under

(Continued on p. 10421)

This issue is in two parts, the second of which consists of the War Department Procurement Regulations together with the War and Navy Department Joint Termination Regulation, as amended by Change 50, August 10, 1945. Because of its unusual size, Part II will be distributed during the week of August 26.

or pursuant thereto: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 13, 14, 15, 16, 17, 18, 19, 21, 22, 25, 29, 30, 35, 41, 42, 42a, 42b, 43, 44, 45, 47, 50, 51, 53, 54, 62, 63; 66, 67, 69, 71, 72, 73, 74, 75, 76, 78, 79, 81, 82, 87, 92, 93, 95, 100, 101, 105, 106, 110, 111, 112, 114, 116, 117, 118, 119, 120, 122, 124, 125, 128, 129, 130, 131, 133, 134, 135, 136, 137, 139, 140, 141, and 142. The above enumerated War Food Orders, together with all orders issued under or pursuant thereto, are hereby amended as follows:

1. By deleting the definition of "Director" or "Chief of AAA" wherever the same appears and substituting in lieu thereof the following: "'Assistant Administrator' means the Assistant Administrator, in charge of regulatory matters, Production and Marketing Administration, United States Department of Agriculture."

2. By deleting the phrase "Director," "Director of Marketing Services," "Director of Supply," "Director of Basic Commodities, Commodity Credit Corporation," "Director of the Office of Materials and Facilities," "Director of Transportation," "Chief" or "Chief, Agricultural Adjustment Agency" wherever the same appears and substituting in lieu thereof the following: "Assistant Administrator."

All orders and delegations heretofore issued by the Director or Acting Director of Marketing Services, the Director or Acting Director of Supply, the Director or Acting Director of Basic Commodities, Commodity Credit Corporation, the Director or Acting Director of the Office of Materials and Facilities, the Director or Acting Director of Transportation, or the Chief or Acting Chief of the Agricultural Adjustment Agency, pursuant to authority contained in the above enumerated orders shall remain in full force and effect until expressly modified, amended, suspended, superseded, or terminated.

This order shall become effective at 12:01 a. m., E. w. t., August 20, 1945.

(E.O. 9280, 7 F.R. 10179; E.O. 9577, 10 F.R. 8087)

Issued this 23d day of August 1945.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

[F. R. Doc. 45-15739; Filed, Aug. 23, 1945; 3:13 p. m.]

[WFO 22-8, Amdt. 5]

PART 1425—CANNED AND PROCESSED FOODS

CANNED FRUITS, AND CANNED FRUIT JUICES, REQUIRED TO BE SET ASIDE DURING 1945

War Food Order No. 22-8, as amended (10 F.R. 1257, 7522, 7608, 8198, 9705), is hereby further amended by deleting Table 1 attached thereto and inserting, in lieu thereof, Table 1 attached hereto.

The provisions of this amendment shall become effective at 12:01 a. m., e. w. t., August 24, 1945. With respect to violations, rights accrued, liabilities incurred, or appeals taken under said War Food Order No. 22-8, as amended, prior to the effective time of the provisions hereof, the provisions of the said War Food Order No. 22-8, as amended, in effect prior to the effective time of the provisions hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with regard to any such violation, right, liability, or appeal.

(E.O. 9280, 7 F.R. 10179; E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423; E.O. 9392, 8 F.R. 14783; E.O. 9577, 10 F.R. 8087; WFO No. 22, as amended, 8 F.R. 2243, 6397; 9 F.R. 4321, 4319, 9584; 10 F.R. 103, 126)

Issued this 23d day of August 1945.

[SEAL] C. W. KITCHEN,
Assistant Administrator, Production and Marketing Administration.

TABLE I—CANNED FRUITS AND CANNED FRUIT JUICES

A	B	C	D	E	F	G
Product	Percentage of base pack	Type, style, variety (sequence does not denote preference)	Grade preference: First	Second	Third	Can size

TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 803—GENERAL ORDERS

MISCELLANEOUS REVOCATIONS

The National War Labor Board hereby repeals the following general orders:

General Orders Nos. 1, 1A, 2, 3, 11, 26 and 31 (§§ 803.1, 803.1a, 803.2, 803.11, 803.26 and 803.31).

Approved: August 20, 1945.

(Act of October 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250 Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15755; Filed, Aug. 23, 1945; 5:04 p.m.]

PART 803—GENERAL ORDERS

ADJUSTMENTS IN WAGE RATES OF INDIVIDUAL EMPLOYEES

The National War Labor Board hereby amends the first paragraph of General Order No. 5 to read as follows:

§ 803.5 *Adjustments in wage rates of individual employees.* Wage adjustments may be made in wage rates of individual employees without approval of the National War Labor Board, if they are incident to the application of the terms of a wage agreement, or incident to an established wage rate schedule covering the work assignments of employees and are made as a result of:

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15756; Filed, Aug. 23, 1945; 5:04 p.m.]

PART 803—GENERAL ORDERS

APPROVAL OF INCREASES IN COMPLIANCE WITH FAIR LABOR STANDARDS ACT

The National War Labor Board hereby amends General Order No. 7 to read as follows:

§ 803.7 *Approval of increases in compliance with Fair Labor Standards Act.* Since Title VI, section 1 of Executive Order No. 9250, dated October 3, 1942 states that "nothing in this order shall be construed as affecting the present operation of the Fair Labor Standards Act," and since statutes and orders of the duly constituted authorities of the several states fixing minimum rates for certain types of workers carry out the true purposes and intent of the Fair Labor Standards Act and are designed and intended to eliminate substandards of living within the meaning of section 2 of Title II of Executive Order No. 9250, the National War Labor Board hereby approves increases in wage and salary rates made in compliance with such statutes and orders: *Provided, however,* That if any changes in such statutes and orders are made or promulgated after April 8, 1943, increases directed thereby which would result in a wage or salary rate in excess of the rate which the War Labor Board establishes as a minimum wage rate by § 803.30, may not be made without the approval of the Board except as provided in § 803.40.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E. O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15757; Filed, Aug. 23, 1945; 5:05 p. m.]

PART 803—GENERAL ORDERS

JURISDICTION OF BOARD OVER CERTAIN SALARIES

The National War Labor Board hereby amends the first paragraph of Title III of General Order No. 9 to read as follows:

§ 803.9 *Jurisdiction of Board over salaries not in excess of $5,000 per annum.* Salary adjustments may be made in salary rates of individual employees over which the Board has jurisdiction without approval of the Board, if they are incident to the application of the terms of a salary agreement or incident to an established salary rate schedule and are made as a result of:

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15758; Filed, Aug. 23, 1945; 5:04 p. m.]

PART 803—GENERAL ORDERS

BONUS PAYMENTS NOT SUBJECT TO APPROVAL BY BOARD

The National War Labor Board hereby amends General Order No. 10 to read as follows:

§ 803.10 *Bonus payments not subject to approval by Board.* The payment to employees, whose wage or salary adjustments are subject to the jurisdiction of the National War Labor Board, of a bonus or gift may be made without the approval of the National War Labor Board, *Provided,* That such payments will not be used in whole or in part as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15759; Filed, Aug. 23, 1945; 5:04 p. m.]

PART 803—GENERAL ORDERS

BONUS PAYMENTS TO EMPLOYEES ENTERING ARMED FORCES

The National War Labor Board hereby amends General Order No. 10-A to read as follows:

§ 803.10a *Bonus payments to employees entering armed forces.* A bonus payment made by an employer to an employee severing his employment for the immediate purpose of entering the armed forces of the United States does not require the approval of the National War Labor Board; *Provided,* That such payments will not be used in whole or in part as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15760; Filed, Aug. 23, 1945; 5:05 p. m.]

PART 803—GENERAL ORDERS

ADJUSTMENTS EQUALIZING WAGES OF MALES AND FEMALES; APPROVAL NOT REQUIRED

The National War Labor Board hereby amends General Order No. 16 to read as follows:

§ 803.16 *Adjustments equalizing wages of males and females; approval not required.* Increases which equalize the wage or salary rates paid to females with the rates paid to males for comparable quality and quantity of work on the same or similar operations, and increases in accordance with this policy which recognize or are based on differences in quality or quantity of work performed, may be made without approval of the National War Labor Board: *Provided,* That such increases will not be used in whole or in part as the basis for seeking an increase in price ceilings, or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15761; Filed, Aug. 23, 1945; 5:05 p. m.]

PART 803—GENERAL ORDERS

ESCALATOR CLAUSE

The National War Labor Board hereby repeals the General Order No. 22 adopted December 8, 1942, and substitutes the following General Order No. 22 to read as follows:

§ 803.22 *Escalator clause.* No clause contained in any labor agreement, commonly known as an "escalator clause", relating to wages or salaries subject to the jurisdiction of the National War Labor Board, regardless of when the agreement was made, which provides for an increase in wage or salary rates, shall be enforced without the approval of the National War Labor Board if such increase will be used, in whole or in part, as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will increase the cost to the United States.

(Act of Oct. 2, 1942, C. 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted by Board, August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15762; Filed, Aug. 23, 1945; 5:05 p. m.]

PART 803—GENERAL ORDERS

TERRITORIAL WAR LABOR BOARD FOR HAWAII

The National War Labor Board hereby amends section (a) (4) of General Order No. 36 to read as follows:

§ 803.36 *Territorial War Labor Board for Hawaii.* (a) * * *

(4) In acting hereunder on wage or salary adjustments, the Territorial War Labor Board for Hawaii shall comply with the terms of Executive Order 9250, dated October 3, 1942, Executive Order 9328, dated April 8, 1943, the Supplementary Directive of May 12, 1943, Executive Order 9599 of August 18, 1945, and all other Executive orders and regulations issued thereunder. The Territorial War Labor Board may make such recommendations as to appropriate policies to govern wage and salary adjustments as are adopted to the special circumstances obtaining in the Territory. Such recommendations shall be consistent with the act of October 2, 1942. They shall be submitted for consideration of the National War Labor Board which will transmit to the Director of Economic Stabilization those recommendations deemed by it advisable and necessary.

(Act of Oct. 2, 1942, C 578, 56 Stat, 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15763; Filed, Aug. 23, 1945; 5:04 p. m.]

PART 803—GENERAL ORDERS

AUTHORIZATION TO WAR DEPARTMENT TO PASS ON WAGE AND SALARY ADJUSTMENTS OF CIVILIAN EMPLOYEES IN HAWAII

The National War Labor Board hereby amends the first paragraph of General Order No. 37 to read as follows:

§ 803.37 *Authorization to the War Department to pass on wage and salary adjustments of civilian employees in Hawaii.* The National War Labor Board hereby supplements General Order No. 36 by delegating to the Secretary of War, or to such agency as he may designate, subject to final review by the National War Labor Board, the authority to establish wage or salary schedules for civilian employees of the War Department in the various government-owned, government-operated installations located in the Territory of Hawaii, in accordance with the provisions of the act of Congress of October 2, 1942, Executive Order 9250 dated October 3, 1942, Executive Order 9328 dated April 8, 1943, the Supplementary Directive of May 12, 1943, Executive Order 9599 of August 18, 1945 and all other Executive orders and regulations issued thereunder, subject to the following limitations:

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15764; Filed, Aug. 23, 1945; 5:05 p. m.]

PART 803—GENERAL ORDERS

WAGE INCREASES NOT INVOLVING PRICE CEILINGS OR PRODUCTION COSTS

The National War Labor Board has adopted the following general order:

§ 803.40 *Wage increases not involving price ceilings or production costs.* (a) Employers may, through collective bargaining with duly certified or recognized representatives of the employees involved, or, if there is no such representative, by voluntary action, make wage or salary increases without the necessity of obtaining approval therefor, upon the condition that such increases will not be used in whole or in part as the basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings, or, in the case of products or services being furnished under contract with a Federal procurement agency, will not increase the cost to the United States.

(b) The provisions of paragraph (a) above shall be effective as of August 18, 1945, but this shall not preclude the selection by the party or parties of any earlier date as the effective date of the wage or salary increase. The provisions of this general order shall not, however, operate as an approval of any wage or salary increase put into effect before August 18, 1945, and prior to receipt of any approval required by the Stabilization Act of October 2, 1942, or the orders or regulations issued thereunder.

(c) Wage or salary increases referred to in paragraph (a) above may be made notwithstanding any previous denial or modification of an application for approval thereof by the National War Labor Board or its agencies.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765, Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871, as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted: August 20, 1945.

FRED E. DESMOND,
Acting Executive Director.

[F. R. Doc. 45-15765; Filed, Aug. 23, 1945; 5:05 p. m.]

PART 803—GENERAL ORDERS

WAGE PROCEDURES FOR BUILDING AND CONSTRUCTION INDUSTRY

The National War Labor Board has adopted the following general order:

§ 803.41 *Wage procedures for building and construction industry.* The provisions of General Order No. 41 shall not apply to employers and employees in the building and construction industry who are, subject to the jurisdiction of the Wage Adjustment Board as provided for in General Order No. 13.

Applications for the increase or decrease of wage rates in the building and construction industry, whether resulting from collective bargaining or otherwise, shall continue to be submitted to the Wage Adjustment Board for approval, as heretofore required, regardless of whether any increase will be used in whole or in part as a basis for seeking an increase in price ceilings or for resisting otherwise justifiable reductions in price ceilings or for increasing the costs to the United States.

The Wage Adjustment Board for the building and construction industry, in addition to authority vested in it by General Order No. 13, is authorized pursuant to Executive Order 9599 to approve such increase as may be necessary to correct maladjustments or inequities which would interfere with the effective transition to a peacetime economy.

This general order shall be effective as of August 18, 1945 and shall remain in effect for a period of 90 days thereafter or until further notice.

(Act of Oct. 2, 1942, C 578, 56 Stat. 765 Pub. Law 729, 77th Cong.; E.O. 9250, Oct. 2, 1942, 7 F.R. 7871; as amended by E.O. 9381, Sept. 25, 1943, 8 F.R. 13083; E.O. 9599, Aug. 18, 1945)

Adopted by Board Aug. 22, 1945.

FRED E. DESMOND,
Acting Executive Director.

Chapter IX—Agriculture Department (Agricultural Labor)

[Supp. 69]

PART 1102—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF CALIFORNIA

WORKERS ENGAGED IN PICKING PRUNES IN SANTA CLARA AND SAN BENITO COUNTIES, STATE OF CALIFORNIA.

§ 1102.28 *Workers engaged in picking of prunes in Santa Clara and San Benito Counties, State of California.* Pursuant to 4001.7 of the regulations of the Economic Stabilization Director relating to salaries and wages issued August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628) and to the regulations of the War Food Administrator issued March 23, 1945 (10 F.R. 3177) entitled "Specific Wage Ceiling Regulations" and based upon a certification of the California USDA Wage Board that a majority of the producers of prunes in the area affected participating in hearings conducted for such purposes have requested the intervention of the Secretary of Agriculture, and based upon relevant facts submitted by the California USDA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops and classes of workers.* Persons engaged in picking of prunes in Santa Clara and San Benito Counties, State of California, are agricultural labor as defined in § 4001.1 (1) of the regulations of the Economic Stabilization Director issued on August 28, 1943, as amended (8 F.R. 11960, 12139, 16702; 9 F.R. 6035, 14547; 10 F.R. 9478, 9628).

(b) *Definitions.* When used in this section:

(1) The term "picking" means picking prunes from the ground including the shaking of the prune trees.

(2) The term "Area I" means all that area in Santa Clara County north of the town of Coyote.

(3) The term "Area II" means all that area in Santa Clara County south of the town of Coyote and all of San Benito County.

(c) *Maximum wage rates for picking prunes.* (1) For picking prunes in Area I—$10 per ton.

(2) For picking prunes in Area II—$9 per ton.

(d) *Administration.* The California USDA Wage Board, located at 2181 Bancroft Way, Berkeley 4, California, will have charge of the administration of this section in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177).

(e) *Applicability of specific wage ceiling regulations.* This section shall be deemed to be a part of the specific wage ceiling regulations issued by the War Food Administrator on March 23, 1945 (10 F.R. 3177) and the provisions of such regulations shall be applicable to this section and any violation of this section shall constitute a violation of such specific wage ceiling regulations.

Effective date. This section shall become effective at 12:01 a. m., Pacific war time, August 25, 1945.

(56 Stat. 765 (1942), 50 U.S.C. App. 961 et seq., (Supp. IV); 57 Stat. 63 (1943); 50 U.S.C. 964 (Supp. IV); 58 Stat. 632 (1944); Pub. Law 108, 79th Cong., E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9577, 10 F.R. 8087; regulations of the Economic Stabilization Director, 8 F.R. 11960, 12139, 16702, 9 F.R. 6035, 14547, 10 F.R. 9478, 9628; regulations of the War Food Administrator, 9 F.R. 655, 12117, 12611, 10 F.R. 7609, 9581; 9 F.R. 831, 12807, 14206, 10 F.R. 3177)

Issued this 23d day of August 1945.

WILSON R. BUIE,
Director of Labor,
U. S. Department of Agriculture.

Shipments of any of the above commodities removed from general license or whose GLV dollar value limits have been reduced, which were on dock, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to an actual order for export prior to the effective date of this amendment may be exported under the previous general license provisions. Shipments of such commodities moving to a vessel subsequent to the effective date of this amendment pursuant to Office of Defense Transportation permits issued prior to such date may also be exported under the previous general license provisions. Shipments of any of the above commodities whose G-Post dollar value limits have been reduced and which were mailed prior to the effective date of this amendment may also be exported under the G-Post general license provisions previously in effect.

This amendment shall become effective immediately upon publication except that with respect to commodities removed from general license or whose GLV or G-Post dollar value limits have been reduced, it shall become effective on August 30, 1945.

[Amdt. 83]

PART 809—BLANKET LICENSE "BLT"

Part 809 *Blanket License "BLT"* is hereby amended to read as follows:

Sec.
809.1 Definitions.
809.2 General provisions.
809.3 Clearance for export.
809.4 Records.

AUTHORITY: §§ 809.1 to 809.4, inclusive, issued under sec. 6, 54 Stat. 714; Pub. Law 75, 77th Cong.; Pub. Law 638, 77th Cong.; Pub. Law 397, 78th Cong.; Pub. Law 99, 79th Cong.; E.O. 8900, 6 F.R. 4795; E.O. 9361, 8 F.R. 9861; Order No. 1, 8 F.R. 9938; E.O. 9380, 8 F.R. 13081; Delegation of Authority No. 20, 8 F.R. 16235; Delegation of Authority No. 21, 8 F.R. 16320.

§ 809.1 *Definitions.* When used in this part:

(a) "Blanket license" shall mean a document issued by the Foreign Economic Administration authorizing the exportation by the licensee of the commodities described in such document to two or more consignees or purchasers in a single country.

§ 809.2 *General provisions.* (a) Applications for blanket licenses shall be made on the form or forms and in the manner and only for such commodities prescribed by the Foreign Economic Administration.

(b) When an application for blanket license is submitted, permission to export to one or more of the consignees and purchasers named may be refused by blocking out the name of the consignee and purchaser with respect to whom the application has been denied. In such case the license shall be valid only for shipments to the remaining approved consignees and purchasers.

(c) When duly validated or approved by the Foreign Economic Administration, a blanket license authorizes the exportation to any of the consignees and purchasers named therein, or in a list attached and made a part thereof, the commodity or commodities therein described, provided that the aggregate quantity of all exports under such license to the consignees and purchasers named therein, or in a list made a part thereof, does not exceed the total quantity for which the license has been granted. Such exportation shall be permitted notwithstanding any conflicting provisions in the terms, conditions or provisions of the form on which the application for a blanket license has been made. In any case where an Import Recommendation issued by a designated government agency of the country of destination is required as a condition to the issuance of an export license for a particular commodity to a designated consignee, such commodity may not be exported to such consignee under a blanket license in quantities in excess of the amount approved for such consignee in said Import Recommendation.

(d) Insofar as consistent with the provisions of this part, all of the provisions of Part 804 of this subchapter shall apply equally to applications filed for blanket licenses and blanket licenses issued under the provisions of this Part.

(e) In determining whether any commodity is included within the blanket license procedure, the description of the commodity and not the applicable Schedule B number shall govern.

(f) The blanket license procedure shall apply only to exportations to destinations in general license country Group V or country Group K, as set forth in § 802.3 (a) of this subchapter.

§ 809.3 *Clearance for export.* (a) The provisions of § 801.7 of this subchapter requiring the presentation of an original license or other document when presenting commodities for export, shall not apply to shipments authorized for export pursuant to a blanket license, except that exportation of the following commodities may be cleared for exportation only upon presentation to collectors of customs and postmasters of the original blanket license:

Commodity and Schedule B No.

Cotton semimanufactures and cotton manufactures: 301110 thru 301500, 301600, 301800,

302300 thru 312900, 314000, 316000, 317100 thru 318100, 318700 thru 318900.

Wool and manufactures: 360903 thru 368998.

Rayon, nylon and other synthetic textiles: 383007, 384008 thru 384015, 384200 thru 385770.

All commodities classified under the processing code "FOOD" in a current issue of the Comprehensive Export Schedule issued by the Foreign Economic Administration.

(b) In lieu of the presentation of an original blanket license for clearance of the exportation with the United States Collector of Customs or the United States Postmaster, except for commodities listed in paragraph (a) of this section, the exporter may present a Shipper's Export Declaration bearing the following certification:

The undersigned certifies that the commodities described herein are being exported under the provisions of BLT (Blanket) License No. _____, approved by FEA _____ _____ (date of validation).

_____
(Signed)

(c) A person exporting any commodity pursuant to a blanket license shall enter the symbol "BLT" and the number of the license on each Shipper's Export Declaration filed with the United States Collector of Customs at the port of exit or with the United States Postmaster at the place of mailing at the time of each exportation under each license.

§ 809.4 *Records.* When clearance of a shipment, other than one containing any of the commodities listed in 809.3 (a), has been made in accordance with the provisions of § 809.3 (b), the holder of the license authorizing such shipment shall endorse on the back of the license in the space reserved for entries by Collectors of Customs and Postmasters the following information:

1. Quantity _____
2. Description _____
3. Value _____
4. Consignee (this shall be placed in the space labeled "name of vessel if export is made by water").
5. Port of exit or post office of mailing.
6. Date (this date shall be the date of filing of the Shipper's Export Declaration).
7. Initials of the endorsing official.

Such license shall be held available for inspection at any time by the Foreign Economic Administration. Upon completion of shipment against such blanket license, or upon the expiration of the validity of the license, such license with the endorsements thereon as provided in this paragraph and with attachments, if any, shall be returned to the Foreign Economic Administration.

This amendment shall become effective immediately upon publication.

Dated: August 18, 1945.

S. H. LEBENSBURGER,
Director,
Requirements and Supply Branch,
Bureau of Supplies.

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter, unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 58 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[PR 3, Interpretation 12, as Amended Aug. 24, 1945]

RECORDS OF EXPORTERS

The following amended interpretation is issued with respect to Priorities Regulation 3:

Paragraph (g) (5) of Priorities Regulation No. 3 requires each person who applies or extends a rating to keep all documents including preference rating orders and certificates which authorize him to apply or extend the rating at his regular place of business. The Foreign Economic Administration and its predecessors, the Board of Economic Warfare and the Office of Economic Warfare, have assigned preference ratings to exporters for export by endorsing appropriate legends upon export licenses. The original of every export license, however, is required by other government regulations to be surrendered to export officials at the time of shipment. Consequently, persons who receive their assignments of preference ratings on export licenses are not in a position to retain the original of the export licence and thus are not required to do so by paragraph (g) (5) except only in those cases where other government regulations do not require the surrender to the government of the documents referred to. However, such persons must keep any copies of the export licences which are returned to them for their files.

Issued the 24th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 25, Revocation]

SPOT AUTHORIZATIONS FOR PRODUCTION

Section 944.46 *Priorities Regulation 25* is hereby revoked. This revocation does not affect any liabilities incurred for violation of the regulation or of actions taken by the War Production Board under the regulation. All production restrictions in orders listed in Direction 1 to Priorities Regulation 25 have been revoked. Any person may produce products formerly subject to this regulation without restriction in amount.

Issued this 24th day of August 1945.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-328B, Schedule E as Amended Aug. 24, 1945]

SPECIAL PROGRAMS FOR KNITTED FABRICS FOR CIVILIAN ITEMS

§ 3290.120e *Schedule E to Order M-328B*—(a) *Explanation.* This schedule states the special rules in addition to those set forth in Order M-328B for manufacturers of civilian knitted items manufactured from or incorporating knitted fabric to get an AA-3 preference rating for knitted fabric to make the items listed in this schedule.

(b) *Definitions.* For the purpose of this schedule:

(1) "Knitted fabric" means a fabric produced by a machine knitting process.

(2) "Woolen knitted fabric" means any knitted fabric incorporating 25% or more by weight of new, reprocessed or reused wool fiber, the wool content yarns of which are spun on the woolen system.

(c) *Special requirements for obtaining priorities assistance.* (1) Four copies of Form WPB-3732 (revised) should be filed in accordance with the rules stated in paragraph (c) of Order M-328B.

(2) A base period manufacturer who files form WPB-3732 (revised) for the third calendar quarter of 1945 by July 21, 1945, may, as soon as he files his application, apply an AA-3 rating for the purchase of knitted fabric for delivery in that quarter for incorporation into the items for which application is made. He may do so only for an item he made in the base period and only for 20% of the yardage of knitted fabric applied for with respect to any item. Knitted fabric purchased under this provision shall be deducted by the manufacturer from the total quantity for which priorities assistance is ultimately granted on Form WPB-3732 (revised). If the applicant does not ultimately receive a grant of the entire quantity thus rated, he shall, upon notification of his grant by the War Production Board, immediately cancel orders for any undelivered quantities which are in excess of his grant.

(3) In making application on Form WPB-3732 (revised), each base period manufacturer must apply with respect to each item for which application is made, as follows:

(i) He must apply for fabric for each price of the item at which he produced it in the base period, unless the facilities utilized for the production of the item at a particular price in the base period are devoted to production on orders received from Government Procurement Agencies or have been sold or otherwise disposed of. When such facilities are no longer available, the applicant must explain it in the "Remarks" section of Form WPB-3732 (revised).

(ii) The quantity of an item for which application is made at each price shall be in the same proportion to the total quantity of the item applied for as the quantity produced at each similar price in the base period was to his total production of the item in the base period. For example, if an applicant made in the base period 300 dozen girls' coats, of which 100 dozen (or ⅓) were priced at $10.50 each, 100 dozen (or ⅓) at $12.75 each, and 100 dozen (or ⅓) at $15.75 each, and he wishes to apply for girls' coats under this Program, ⅓ of whatever total quantity he applies for must be at each of these base period prices. To base period prices may be added any increase subsequently granted by the Office of Price Administration.

(iii) The whole or any part of an application for an item may be shifted from a higher to a lower price than required under the above rule, but not from a lower to a higher price, unless the weighted average price of the total number of units applied for is at or below the weighted average price of the total number of units of that item delivered in the base period.

(iv) In reporting production by price on Form WPB-3732 (revised), items sold as seconds or as close-outs shall be reported under the prices it was intended they would be sold when produced.

(v) Items in this schedule not included in the category of Office of Price Administration Supplementary Order 108 are exempt from the provisions of this paragraph (c) (3).

(4) Persons applying for priorities assistance on Form WPB-3732 (revised) under this schedule may apply on Form WPB-2842 for cotton fabrics needed for incorporation into linings, facings, stays, tapes and sewing thread, and on Form WPB-541 for rayon and wool components of the items listed in this schedule. The applications should be filed with the Textile, Clothing and Leather Bureau, War Production Board, Washington 25, D. C. Applications may not be for any quantity greater than the amounts required to be incorporated into the quantity of items for which priorities assistance is requested.

(5) Manufacturers who did not produce in the base period the items applied for on Form WPB-3732 (revised) may not use any preference ratings under this schedule until the War Production Board has assigned them a quota on that form.

(d) *General Provisions.* (1) The rating assigned under this schedule may be used only to get the particular knitted fabrics shown in the knitted fabric column of the preference rating schedule to make the item specified. In addition the producer of the knitted fabric may extend the rating for the purchase of the quantities of yarn required to be incorporated into the knitted fabric sold by him on rated orders authorized by this schedule. Such ratings shall be extended as provided in Priorities Regulation 3 and Order M-328.

(2) A person other than a base period manufacturer must show, in the "Remarks" section of Form WPB-3732 (revised) for each size range of each item for which application is made, the size assortments per dozen which he proposes to produce. If his application is granted, he shall produce the item in the assortment of sizes stated on his application unless the War Production Board specifies a different assortment.

(3) No manufacturer shall purchase or accept delivery of knitted fabric to make any item for which a rating for that fabric is assigned to him under this schedule, unless he uses that rating. The provisions of this paragraph do not apply to purchases for direct or ultimate delivery to or for incorporation into any product for ultimate delivery to the United States Army or Navy, the Maritime Commission or the War Shipping Administration.

(e) *This schedule expires September 30, 1945.* Schedule E to Order M-328B shall expire on September 30, 1945, as it has been superseded for the fourth quarter of 1945 by Schedule K to Order M-328B. Any person who has filed an application on Form WPB-3732 under Schedule E for that quarter should refile again under Schedule K in accordance with the instructions for filing Form WPB-3732 under that schedule.

Issued this 24th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PREFERENCE RATING SCHEDULE NO. 1—PRODUCTION OF ITEMS MADE OF OR INCORPORATING KNITTED FABRICS

Item No.	Item column	Size (or equivalent trade designation)	Knitted fabric column
1	Coats, women's, misses' and juniors.	9 to 17.... 10 to 20. 36 to 44. 46 and up.	Woolen knitted fabric.
2	Coats, teen age, girls'.	10 to 16...	Woolen knitted fabric.
3	Coats, girls'.....	7 to 14....	Woolen knitted fabric.
4	Coats, children's.....	3 to 6x....	Woolen knitted fabric.
5	Coats, toddlers'.....	1 to 4.....	Woolen knitted fabric.
6	Coats, infants'.....	.....	Woolen knitted fabric.
7	Coats, boys' finger-tip.	10 to 20... 12 to 24.	Woolen knitted fabric.
8	Men's overcoats, ulster and double breasted.	34 and up.	Woolen knitted fabric.
9	Overcoats, men's basic model.	34 and up.	Woolen knitted fabric.

PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT

[General Limitation Order L-2-g, as Amended Aug. 24, 1945]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials entering into the production of passenger automobiles for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3292.36 *General Limitation Order L-2-g*—(a) *Definitions.* As used in this order.

(1) "Automobile" means any self-propelled vehicle designed for the purpose of carrying passengers, or the chassis therefor, with a seating capacity of not more than ten. The term "automobile" includes station wagons, taxicabs, ambulances and hearses.

(2) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(3) "Producer" means any person regularly established in the business of manufacturing automobiles.

NOTE: Paragraphs (b), (c), (d), (e) and (f), formerly (c) (1), (g), (h), (i) and (j), redesignated Aug. 24, 1945.

(b) *Prohibition on spare tires for new automobiles.* No producer shall equip any automobile with more than four new tires, nor shall any producer or any other person sell, ship or deliver any automobile equipped with more than four new tires.

(c) *Applicability of War Production Board regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(d) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(e) *Reports.* Producers shall file such reports as may be required from time to time by the War Production Board.

(f) *Communications.* All reports required to be filed under this order, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Automotive Division, War Production Board, Washington 25, D. C., Ref: Order L-2-g.

(g) *Duration of this order.* This order, L-2-g as amended will remain in effect until the Office of Price Administration amends Ration Order 1-A, to control the equipment of new automobiles with spare tires, at which time a revocation of this order will be issued.

Issued this 24th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 3292—AUTOMOTIVE VEHICLES, PARTS AND EQUIPMENT

[L-2-g, Revocation of Interpretation 1]

Interpretation 1 of L-2-g is hereby revoked.

Issued this 24th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

[F. R. Doc. 45-15780; Filed, Aug. 24, 1945; 11:32 a. m.]

PART 3294—IRON AND STEEL PRODUCTION

[General Preference Order M-21, as Amended Aug. 24, 1945]

IRON AND STEEL INCLUDING FERRO ALLOYS AND ASSOCIATED MATERIALS

§ 3294.71 *General Preference Order M-21*—(a) *Purpose and scope.* This is the basic order covering the production and distribution of steel and iron products (including alloy iron and alloy steel) listed in the attached Schedule I, pig iron, iron and steel scrap, ferro-alloys and metallic and non-metallic materials (including coke) used in the metallurgy of iron and steel, and non-ferrous products of the elements listed in the attached Schedule II. Schedule II lists the metallic and non-metallic elements, the ores and chemical compounds thereof, including scrap and secondary materials, and the ferro-alloys which are covered by this order.

(b) *Definitions.* For the purpose of this order: (1) "Steel" means carbon steel (including wrought iron), and alloy steel in the forms and shapes listed in Schedule I of this order. The term includes material sorted or salvaged from steel scrap and sold for other than remelting purposes except those uses specified in the definition of scrap. The term also includes all types of rejected or second-quality material and shearings, except:

(i) When sold as scrap for remelting; or,

(ii) When sold as scrap to a scrap dealer for sorting, processing, or, salvaging, or for resale for remelting or other permitted uses of scrap.

(2) "Alloy steel" means any steel (including stainless steel) containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%
Silicon, maximum of range in excess of 0.60%
Copper, maximum of range in excess of 0.60%
Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying elements in any amount specified or known to have been added to obtain a desired alloying effect.

(3) "Alloy iron" means any iron containing any one or more of the following elements in the following amounts:

Manganese, maximum of range in excess of 1.65%
Silicon, maximum of range in excess of 5.00%
Copper, maximum of range in excess of 0.60%
Aluminum, chromium, cobalt, columbium, molybdenum, nickel, titanium, tungsten, vanadium, zirconium, or any other alloying element in any amount specified or known to have been added to obtain a desired alloying effect.

(4) "Stainless steel" means heat and corrosion resisting steel containing 4% or more of chromium either with or without nickel, molybdenum, or other elements.

(5) "Iron products" means all gray and malleable iron castings (rough as cast) except pipe and pipe fittings.

The material terms defined above do not include material which has been in use or service.

(6) "Pig iron" means iron produced by smelting iron ore in a blast furnace, and containing less than 6% of silicon.

(7) "Ferro alloys" means the metallic elements, their ores and the chemical compounds thereof, usually introduced into the melt of iron and steel for the purpose of obtaining definite properties. The term includes the elements, the ores, and the chemical compounds listed in Schedule II of this order.

(8) "Scrap" means all ferrous materials, either alloyed or unalloyed, of which iron or steel is a principal component, which are the waste of industrial fabrication or objects that have been discarded on account of obsolescence, failure or other reasons, and which are not otherwise defined in this order. The principal use of scrap is remelting. Scrap obtained from used materials may be utilized for remelting, rerolling or forging. Scrap may also be used for copper precipitation, lead burning, gas cleaning, or other chemical processes. Any material which has not been in use or service and which is salvaged from sorting or processing shall not be considered scrap if sold or used for other than the above mentioned purposes. "Alloy scrap" means scrap generated from or composed of any of the alloy irons or alloy steels defined in paragraphs (b) (2), (b) (3), and (b) (4).

"Producer" (in the case of iron and steel scrap) means any person who produces scrap in the conduct of a business or other enterprise.

"Dealer" and/or "broker" (in the case of iron and steel scrap) means any person who, as principal or as agent, buys and sells scrap in the regular course of his business.

"Consumer" (in the case of iron and steel scrap) means any person who melts or uses scrap for any of the purposes mentioned above in this paragraph (b).

(9) "Producer" (in the case of iron or steel) means any person who produces iron products or steel as defined herein.

(10) "Distributor" means any person (including a warehouse, jobber, dealer, retailer, or scrap dealer) who is engaged in the business of receiving steel into one or more warehouse stocks regularly maintained by him for sale or resale in the form received, or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly, shall not be deemed a distributor with respect to such sale.

(11) "Delivery" includes deliveries received on consignment.

(c) [Deleted Aug. 24, 1945.]

(d) *Special provisions pertaining to iron and steel scrap.* Delivery of scrap to, or acceptance of such delivery by a consumer is hereby authorized without regard to the restrictions set forth in Section 944.14 of Priorities Regulation No. 1.

(e) *Appeals.* Any appeals from this order must be made by letter referring to the particular provisions appealed from and stating fully the grounds for the appeal. In emergency cases, appeals may be made by telegraph.

(f) *Special directions.* (1) The War Production Board may from time to time issue directions to any person or persons as to the type, description, amount, source, or destination of steel, alloy iron, or iron products, coke, pig iron, or scrap (including segregation of scrap) to be produced, processed, delivered, distributed, or acquired by such person or persons.

(2) The War Production Board may from time to time issue directions as to facilities and materials to be used in production, and as to any alloying element, issue directions specifying the quantities and proportions which may be used in alloy iron and alloy steel (including stainless steel), and whether and in what proportion any such element is to be an ore, a metal, a ferro-alloy, reclaimed metal, scrap, a chemical compound, or any other material containing such element.

(3) The War Production Board may make such changes in any melting schedule as it may deem appropriate, and may from time to time issue supplementary directions with regard to melting of alloy iron or alloy steel (including stainless steel).

(4) The War Production Board may from time to time issue directions to any person or persons as to the type, description, amount, source, or destination of any of the items listed in Schedule II, to be produced, processed, delivered, distributed, or acquired by such person or persons.

(g) *Reports.* All persons covered by this order shall file with the War Production Board, Washington, D. C., Reference: M-21, reports at such times and on such forms as may from time to time be prescribed, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(h) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

(i) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to Steel Division, War Production Board, Washington 25, D. C., Reference: M-21.

Issued this 24th day of August 1945.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE I

Steel:
Bars, Cold-Finished.
Bars, Hot-Rolled or Forged.
Ingots, Billets, Blooms, Slabs, Die Blocks, Tube Rounds, Sheet Bars, Tin Bar, and Skelp.
Pipe, including Threaded Couplings of the type normally supplied for Threaded Pipe.
Plates, all Plates (including Rolled Armored Plate in the form and shape to which it is rolled by the Steel Mill and prior to any subsequent fabrication), and including Nickel Clad and Stainless Clad.
Rail and Track Accessories.
Sheet and Strip.
Steel Castings (rough as cast).
Steel Forgings (rough as forged).
Structural Shapes and Piling.
Tinplate, Terneplate, and Tin Mill Black Plate.
Tubing.
Wheels, Tires, and Axles.
Wire Rods, Wire and Wire Products.
Iron products:
Gray Iron Castings (rough as cast).
Malleable Iron Castings (rough as cast).

SCHEDULE II—ALLOYING ELEMENTS AND COMPOUNDS THEREOF, FERRO-ALLOYS AND NON-FERROUS METAL ALLOYS

Chromium—In any of the following forms:
Chemical combinations containing chromium as an essential and recognizable component.
Chrome briquettes.
Chromium in combination with other elements in semi-manufactured or manufactured form, commercially suitable for use in the manufacture of steel or for other metallurgical purposes.
Chromium in elemental form.
Chromium ores and concentrates.
Chromium refractory materials.
Chromium refractories.
Chromium scrap and secondary material.
Chrom-X.
Ferro-Chromium.
Cobalt—In any of the following forms:
Belgian Congo Crudes.
Cobalt Alloys.
Cobalt concentrates.
Cobalt, metal.
Cobalt oxide, commercial.
Cobalt salts.
Cobalt scrap and secondary material.
Ferro-Cobalt.
Ferro-Alloys—Not included in other groups listed herein:
Ferro-boron.
Ferro-carbo.
Ferro-carbon-titanium.
Ferro-columbium.
Ferro-phosphorus.
Ferro-titanium.
Ferro-zirconium.
Titanium carbide.
Manganese—In any of the following forms:
Ferro-Manganese.
Ferro-Manganese-Silicon.
Manganese, metal.
Manganese ores and concentrates.
Silico-Manganese.

Molybdenum—In any of the following forms:
Calcium Molybdate.
Ferro-Molybdenum.
Molybdenum, metal.
Molybdenum ores and concentrates.
Molybdenum oxide.
Molybdenum scrap and secondary material.
Molybdenum silicide.
Molybdenum sulphide.
Nickel—In any of the following forms:
Ferro-Nickels.
Monel metals.
Nickel alloys.
Nickel carbonates.
Nickel concentrates (commercially recoverable).
Nickel matte of any description.
Nickel oxides.
Nickel residues (commercially recoverable).
Nickel salts.
Nickel solutions (commercially recoverable).
Primary metallic nickel, either alloyed or unalloyed.
Speiss (commercially recoverable).
"Secondary nickel" including any nickel or alloy containing nickel prepared by any process of melting or otherwise treating nickel scrap for reuse as a raw material.
"Nickel scrap" including all materials, ferrous and non-ferrous containing 1% or more of nickel by weight, which are the by-product or waste of industrial operations, or which have been discarded on account of obsolescence, failure, or other reason, excluding scrap consisting of any alloy, the principal ingredient of which, by either weight or volume, is metallic aluminum or consisting of any alloy in which the percentage of copper metal by weight equals or exceeds 40% of all the metals and scrap of iron and steel alloys defined in this order.
Silicon—In any of the following forms:
Ferro-Silicon.
Ferro-Silicon-Aluminum.
Ferro-Silicon-Zirconium.
Silicon, metal.
Silicon-Zirconium.
Silvery pig iron.
Sil-X.
Tungsten—In any of the following forms:
Ferro-Tungsten.
Tungsten metal.
Tungsten ores and concentrates.
Tungsten oxide.
Tungsten powder.
Vanadium—In any of the following forms:
Commercial Vanadium pentoxide.
Ferro-Vanadium.
Vanadium ores and concentrates.

Chapter XI—Office of Price Administration

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[RO 2A,[1] Revocation]

PASSENGER AUTOMOBILE RATIONING REGULATIONS FOR TERRITORIES AND POSSESSIONS OF U. S.

A rationale accompanying this revocation order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Ration Order 2A (§§ 1360.310 to 1360.442, inclusive) is hereby revoked, except that any violations which occurred or rights or liabilities which arose before the effective date of this order of revocation shall be governed by the order in effect at the time the violation occurred or the rights or liabilities arose.

This order of revocation shall become effective August 23, 1945.

Issued this 23d day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45-15746; Filed, Aug. 23, 1945; 4:51 p. m.]

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[MPR 132, Amdt. 10]

RUBBER FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 132 is amended in the following respects:

1. The title of the regulation is amended to read as follows: "Rubber footwear."

2. Section 1315.61 is amended to read as follows:

§ 1315.61 *Explanation of and coverage of the regulation*—(a) *Commodities and sales covered.* This regulation establishes maximum prices for all sales in the United States of rubber footwear by the manufacturer thereof. When used in this regulation, rubber footwear means footwear containing rubber and made with a vulcanized construction.

(b) *Relationship to other regulations.* This regulation supersedes the General Maximum Price Regulation and any other regulation issued by the Office of Price Administration as to transactions covered by this regulation.

(c) *War orders.* This regulation does not apply to sales of rubber footwear pursuant to contracts with any war procurement agency of the United States government, or with any person who contracts to sell the purchased rubber footwear to any war procurement agency of the United States government.

(d) *Sales for export.* The maximum price at which a manufacturer may make any export sales of any rubber footwear subject to this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation or any revisions thereto. When used in this section the phrase "export sales" has the meaning given to it by section 11 (a) of the Second Revised Maximum Export Price Regulation.

3. Section 1315.61b is amended to read as follows:

§ 1315.61b *Prohibition against dealing in rubber footwear above maximum prices.* Regardless of any contract, agreement, lease or other obligation, no manufacturer shall sell or deliver rubber footwear subject to this regulation and no person shall, in the course of trade or business, buy or receive rubber footwear subject to this regulation from the manufacturer thereof at prices higher than the maximum prices established under this regulation, and no person shall agree or solicit or attempt to do any of the foregoing.

4. Section 1315.65a is amended to read as follows:

§ 1315.65a *Maximum prices for rubber footwear that cannot be priced under any other section of the regulation*—(a) *Maximum prices.* The manufacturer's maximum price for sales of any rubber footwear covered by this regulation which cannot be priced under any other section of the regulation shall be a price in line with the level of maximum prices established by this regulation specifically authorized by order of the Office of Price Administration.

(b) *Method of establishing maximum prices.* A manufacturer seeking to establish a maximum price for any footwear to be priced under this section shall file an application with the Office of Price Administration, Washington, D. C., before offering to sell such footwear. This application shall contain: (1) a description in detail of the rubber footwear to be priced; (2) detailed data as to physical properties of the footwear; (3) samples of the footwear; (4) a statement of the reasons why the footwear must be priced under this section of the regulation; (5) a unit cost analysis of the footwear including direct labor costs, direct material costs, factory overhead costs and selling and administrative costs; (6) the proposed maximum price for each class of purchaser and the terms of sale including cash discount terms, quantity discounts and freight allowances; (7) the method by which that price was determined; (8) a statement of the reasons why he believes that the proposed maximum price is in line with the level of prices established by the regulation.

(c) *Authorization of maximum prices.* After receipt of this application, the Office of Price Administration will establish by order a maximum price or a method of determining the maximum price for the rubber footwear for which application is made. The applicant shall not receive payment for any footwear priced under this section until an order establishing its maximum price has been issued by the Office of Price Administration establishing its maximum price. The Office of Price Administration may at any time adjust a maximum price (not to apply retroactively) authorized under this section so as to make it consistent with the level of maximum prices otherwise established by this regulation.

5. Section 1315.68 (a) (7) is amended to read as follows:

(7) "Rubber footwear" means footwear containing rubber and made with a vulcanized construction.

6. In § 1315.70 (a) (1) a new subdivision designated (iv) is added to read as follows:

(iv) *Maximum prices for government rejected rubber footwear.* Rubber foot-

[1] 7 F.R. 1542, 1647, 1756, 2103, 2242, 2305, 2903, 3097, 3482, 4343, 5484, 6049, 6082, 6424, 6601, 6775, 6964, 7149, 8808, 8895, 9316, 10228; 8 F.R. 28, 363, 1138, 1365.

wear that has been produced for the use of the United States or any agency thereof and that has been rejected as not meeting the purchaser's standards and that otherwise meets the requirements for pricing under one of the subdivisions (i), (ii) or (iii) above, shall be priced under the appropriate subdivision.

7. Paragraph (b) of § 1315.70 is amended to read as follows:

(b) *Manufacturers' maximum prices for waterproof rubber footwear produced after February 10, 1942, which is not covered by paragraph (a).* Manufacturers' maximum prices for waterproof rubber footwear produced after February 10, 1942, which is not covered by paragraph (a) or by § 1315.74 shall be established under § 1315.65a of this regulation.

8. Subparagraph (1) of § 1315.73 (a) is amended to read as follows:

(1) This paragraph is applicable to canvas rubber footwear named in Table II but only if such footwear is produced after December 14, 1943, and if it does not fall below the manufacturer's specifications filed with the Rubber Price Branch of the Office of Price Administration before December 31, 1943. Canvas rubber footwear that has been produced for the use of the United States Government or any agency thereof and that has been rejected as not meeting the purchaser's standards shall be priced under this paragraph if it otherwise meets the requirements for pricing under this paragraph.

9. Paragraph (b) of § 1315.73 is amended to read as follows:

(b) *Manufacturers' maximum prices for canvas rubber footwear that is not covered by paragraph (a).* Manufacturers' maximum prices for canvas rubber footwear that is not covered by paragraph (a) above or by § 1315.74 shall be established under § 1315.65a of this regulation.

10. A new section designated 1315.74 is added to read as follows:

§ 1315.74 *Manufacturers' maximum prices for rubber footwear seconds*—(a) *Applicability.* This section applies to rubber footwear which is of the same type as the firsts and the government rejected footwear that are priced under any other section of this regulation (including firsts priced by specific authorization of the Office of Price Administration under § 1315.65a), but which does not equal the requirements of the footwear thus priced.

(b) *Maximum prices for seconds.* The manufacturer's maximum prices for any of the footwear described in paragraph (a) above shall be the maximum prices for the firsts for each class of purchaser as established under this regulation less all discounts, allowances, and differentials for each class of purchaser that the manufacturer had in effect in pricing similar seconds on December 3, 1941. If these discounts, allowances and differentials are such that the manufacturer on December 3, 1941, sold similar seconds at prices that exceeded 90 percent of the net selling price of the firsts (excluding cash discounts) or if the manufacturer had no discounts, allowances, or differentials in effect for seconds on that date, the maximum prices for seconds shall be 90 percent of the maximum prices of the firsts (excluding cash discounts).

11. A new section designated § 1315.75 is added to read as follows:

§ 1315.75 *Notifications of price charged.* Every manufacturer shall give each person purchasing rubber footwear an invoice showing the date of the transaction and the price charged for each type and brand and grade of rubber footwear sold that has been priced under this regulation. The invoice shall bear the notation "seconds" in addition to the other identifying information in all cases where "seconds" are sold. If the commodity sold is one which is priced under § 1315.65a, the invoice shall identify the item by using the same designation for it that appears in the order under which it is priced.

This amendment shall become effective August 29, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45-15790; Filed, Aug. 24, 1945; 11:49 a. m.]

PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RMPR 229, Amdt. 2]

RETAIL AND WHOLESALE PRICES FOR RUBBER FOOTWEAR

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 229 is amended in the following respects:

1. The title of the regulation is changed to read as follows: "Retail and wholesale prices for rubber footwear."

2. The introductory paragraph of section 1 is amended to read as follows:

SECTION 1. *What this regulation does.* This regulation establishes maximum prices for all sales at retail and at wholesale of rubber footwear. However, this regulation does not apply to sales or deliveries of rubber footwear on war orders which must be priced under Maximum Price Regulation 403. When used in this regulation, the term:

3. Paragraph (a) of section 1 is amended to read as follows:

(a) "Rubber footwear" means footwear containing rubber and made with a vulcanized construction.

4. Section 5 is amended to read as follows:

SEC. 5. *Maximum prices for sales at retail of rubber footwear*—(a) *Maximum prices for sales at retail of domestically produced rubber footwear listed in Appendices A and B*—(1) *Applicability.* This paragraph applies to rubber footwear listed in Appendices A and B that is produced in the continental United States.

(2) *Method of determining the maximum retail price for each type and brand of rubber footwear listed in Appendices A and B.* The seller's maximum price for sales of each type and brand of domestically produced rubber footwear of a type that is described in Appendix A or Appendix B, shall be the maximum price set forth in Appendix A or Appendix B for that type of rubber footwear for the appropriate price class determined under subparagraph (3).

(3) *How the seller determines and redetermines the appropriate price class.* The seller shall determine and redetermine the appropriate price class for each type and brand of such rubber footwear he sells, as follows:

(i) If the seller sold the type and brand of rubber footwear being priced between September 29, 1942, and February 23, 1944, inclusive, that type and brand of footwear shall be placed in the same price class as it was under section 1315.1703 of Maximum Price Regulation 229 on February 23, 1944. The seller shall redetermine the appropriate price class where such redetermination is required by subdivision (iii) below.

(ii) If the seller did not sell the type and brand of rubber footwear being priced between September 29, 1942, and February 23, 1944, inclusive, the appropriate price class shall be determined by reference to the tables set forth in Appendix A for waterproof rubber footwear, and Appendix B for canvas rubber footwear. The seller shall compare the net price at which he purchased the rubber footwear he is pricing after February 23, 1944, with the range of net prices set forth in those tables for that type and brand of footwear. The range of net prices into which the net price which he paid falls, shall determine the appropriate price class.

(iii) The retailer must redetermine the appropriate price class by reference to the tables set forth in Appendix A or Appendix B if at any time subsequent to February 23, 1944, he purchases a type and brand of footwear in sufficiently large quantities so that the net price he pays is (a) lower than the net purchase price set forth for it in the appropriate Appendix (Appendix A or Appendix B) for the class in which it has been placed under subdivision (i) above, or (b) lower than the net purchase price used in determining the appropriate price class under subdivision (ii) above for that type and brand of rubber footwear, or (c) lower than the net purchase price used in redetermining its maximum price under this subdivision (iii).

(iv) A type and brand of rubber footwear whose price class has at any time been determined or redetermined under subdivision (i), (ii), or (iii) above, may not at any time thereafter be reclassified into a higher retail price class.

(v) *Meaning of the "net price" at which the seller purchased the rubber*

footwear he is pricing. The "net price" at which the seller purchased the type and brand of rubber footwear he is pricing, means the lowest price, without cash discount, at which he purchased that type and brand after February 23, 1944 (or the list price, less all discounts, except cash discounts). Manufacturers' "seconds" clearly marked as such, shall not be considered as establishing the net price for a type and brand of rubber footwear "firsts".

(b) *Maximum prices for sales at retail of rubber footwear imported into the United States that is of a type listed in Appendix A or Appendix B and that at least equals the quality of the domestically produced footwear listed in Appendices A and B*—(1) *Maximum prices for sales at retail of such footwear that is imported into the United States by the retailer.* A retailer who wishes to establish his maximum prices for sales at retail for any rubber footwear produced outside of the continental United States and imported into the continental United States by the retailer, which is of a type listed in Appendix A or Appendix B and which at least equals the quality of the domestically produced rubber footwear listed in Appendices A and B, shall apply to the tables set forth in Appendix A for waterproof rubber footwear and Appendix B for canvas rubber footwear, the net purchase price of the footwear he is pricing in the manner provided by section 5 (a) (3) (ii). The net purchase price that shall be applied to the tables shall be the retailer's total landed costs. The range of net prices into which the net price he has paid falls, shall determine the proposed maximum price class for the footwear being priced. The retailer shall file a report with the Office of Price Administration, Washington, D. C., giving all of the information required for a report filed under section 6a (a). If, within fifteen days after the mailing of the report, the Office of Price Administration does not request further information or does not issue an order establishing a different maximum price than that proposed by the retailer, or does not object to the proposed maximum price, then (fifteen days after the mailing of the report) the retailer's proposed maximum price shall be his maximum price. The Office of Price Administration may at any time, by order, revise any maximum price established under this section so as to make it consistent with the level of maximum prices otherwise established under the regulation. The redetermination of maximum price provisions of section 5 shall be applicable to any footwear prices established under this subparagraph except that the net price that shall be used in redetermining the maximum price for the imported footwear shall be the total landed costs.

(2) *Maximum prices for sales at retail of such footwear that is imported into the United States by a wholesaler.* The maximum prices for sales at retail of imported rubber footwear which is purchased by the retailer from a wholesaler who has imported the footwear into the United States, and which is of a type listed in Appendix A or Appendix B, and which at least equals the quality of the domestically produced rubber footwear listed in Appendix A or Appendix B shall be determined (and redetermined) in the manner and in accordance with the method of pricing set forth in section 5 for sales at retail of domestically produced rubber footwear. The retailer's net purchase price that shall be applied to the tables set forth in Appendix A or Appendix B in determining the retailer's maximum price shall not exceed the wholesaler's net maximum price (excluding cash discounts) for sales to the retailer.

(c) *Maximum retail prices for seconds.* The maximum price for sales at retail of rubber footwear seconds, shall be the price derived by dividing the retailer's "net purchase price" (not exceeding the maximum price for sales to the retailer) by .65. A retailer's maximum price for "seconds" may not equal or exceed his maximum price for the "firsts". "Net price" shall have the meaning given it in section 5 (a) (3) (v).

(d) *Discounts.* The seller shall deduct from his maximum prices, as found under paragraphs (a), (b), and (c), all discounts, allowances, and other deductions that he had in effect to different classes of purchasers during the period July 1 and October 25, 1941.

5. Section 5a is deleted.

6. Section 6 is amended to read as follows:

SEC. 6. *Maximum prices for sales at wholesale of rubber footwear*—(a) *Maximum prices for sales at wholesale of domestically produced rubber footwear listed in Appendix A or Appendix B*—(1) *Maximum prices for sales of such footwear by wholesalers who sold rubber footwear between April 1 and October 25, 1941.* The maximum prices for sales of domestically produced rubber footwear wear listed in Appendix A or Appendix B by wholesalers who sold rubber footwear between April 1 and October 25, 1941, shall be the price stated in Appendix A or Appendix B for sales at wholesale, less all discounts, allowances, and other deductions that the wholesaler had in effect to different classes of purchasers during the period April 1 and October 25, 1941.

(2) *Maximum prices for sales of such footwear by wholesalers who did not sell rubber footwear between April 1 and October 25, 1941.* The maximum prices for sales of such rubber footwear by a seller who did not sell rubber footwear at wholesale during the period April 1 and October 25, 1941, shall be the prices stated in Appendix A or Appendix B for sales at wholesale, less the discounts, allowances, and other deductions consistent with those otherwise established under the regulation that shall be established for a wholesaler by written authorization of the Office of Price Administration. A wholesaler whose discounts, allowances, and other deductions must be determined under this paragraph shall file an application with the Office of Price Administration, Washington, D. C., giving the following information: (i) a detailed description of his proposed cash discounts, freight, quantity and other allowances, and other deductions; and (ii) the reasons why he believes the proposed discounts, allowances and other deductions are consistent with those otherwise established under the regulation.

After receipt of the application, the Office of Price Administration shall by written authorization establish the discounts, allowances, and other deductions that shall be applicable to the applicant's sales at wholesale of rubber footwear. The wholesaler shall not sell or deliver or receive payment for any rubber footwear until he has applied for and received from the Office of Price Administration, a written authorization establishing his discounts, allowances, and other deductions.

(b) *Maximum prices for sales at wholesale of imported rubber footwear that is of a type listed in Appendix A or Appendix B and that at least equals the quality of the domestically produced rubber footwear listed in Appendix A or Appendix B*—(1) *Maximum prices for sales by a wholesaler who imports such footwear into the United States*—(i) *Proposed maximum prices.* A wholesaler who wishes to establish maximum prices for his sales at wholesale of rubber footwear which is manufactured outside of the continental United States and imported into the United States by the wholesaler and which is of a type listed in Appendix A or Appendix B and which at least equals the quality of the domestically produced rubber footwear listed in those Appendices shall determine his proposed maximum price as follows:

The proposed maximum price shall be the price listed in Appendix A or Appendix B for sales at wholesale for the type of domestically produced footwear he is pricing, less the discounts, allowance, and other deductions that are applicable to the wholesaler's sales of the domestically produced footwear listed in these Appendices.

(ii) *Reports.* The wholesaler shall file a report with the Office of Price Administration, Washington, D. C., giving all of the information required for a report filed under section 6a (a). If, within fifteen days after the mailing of the report, the Office of Price Administration does not request further information, or does not issue an order establishing a different maximum price than that proposed by the wholesaler, or does not object to the proposed maximum price, then (fifteen days after the mailing of the report) the wholesaler's proposed maximum price shall be his maximum price.

(iii) *Revision of maximum prices.* The Office of Price Administration may at any time, by order, revise any proposed maximum price or any maximum price established under this section so as to make it consistent with the level of maximum prices otherwise established under the regulation. The Office of Price Administration may, by written order, adjust the maximum price of any footwear established under this section after application by the wholesaler giving the information required for reports under section 6a (a) if, in the opinion of the Administrator, it is necessary and desirable to do so to secure importation of needed rubber footwear and if such

adjusted maximum price will not result in higher prices for sales to the consumer than the general level of maximum prices for such sales otherwise established under the regulation.

(2) *Maximum prices for sales of such footwear by the wholesaler who does not import it into the continental United States but purchases it from a wholesaler-importer whose maximum prices for sales at wholesale are established by subparagraph (1).* The maximum prices for the footwear described in subparagraph (1) (i) by a wholesaler who does not import it into the United States but who purchases it from a wholesaler-importer who has established maximum prices for his (wholesaler-importer's) sales to wholesalers under subparagraph (1) above, shall be determined in the manner and in accordance with the method of pricing set forth in section 6 (a) for sales at wholesale of domestically produced rubber footwear, unless an order issued under subparagraph (1) (iii) above establishes maximum prices for such resales by the wholesaler who purchases from the wholesaler-importer.

(c) *Maximum prices for sales at wholesale of rubber footwear seconds.* The maximum prices for sales at wholesale of rubber footwear seconds shall be the wholesaler's maximum prices for the firsts, less all discounts, allowances, and differentials for each class of purchaser that the wholesaler had in effect in pricing seconds during the period April 1 and October 25, 1941. If these discounts, allowances, and differentials are such that the wholesaler during this period sold or offered for sale seconds at prices that exceeded 90 percent of the net selling price of the firsts (excluding cash discounts) to a class of purchaser, or if the wholesaler had no discounts, allowances, or differentials in effect for seconds on that date, the maximum prices for seconds shall be 90 percent of the maximum prices for the firsts (excluding cash discounts). The invoices covering sales of seconds shall bear the notation "seconds" in all cases where seconds are sold.

7. Section 6a is amended to read as follows:

SEC. 6a. *Maximum prices for sales at wholesale and at retail of rubber footwear that cannot be priced under other sections of this regulation.* The maximum prices for sales at wholesale or at retail of rubber footwear that cannot be priced under any other section of this regulation shall be a price in line with the level of maximum prices established by this regulation specifically authorized by written order of the Office of Price Administration.

(a) *Method of establishing maximum prices.* A seller seeking to establish a maximum price for any footwear to be priced under this section shall file an application with the Office of Price Administration, Washington, D. C., before offering to sell such footwear. This application shall contain: (1), a description in detail of the rubber footwear to be priced; (2), a sample of the footwear; (3), a statement of the reasons why the footwear must be priced under this section of the regulation; (4), a statement as to whether applicant sold rubber footwear at wholesale during the period April 1 and October 25, 1941; (5), the cost of the footwear to be priced, and the name and address of the supplier (for imported rubber footwear, the name and address of his supplier and an itemized breakdown of total landed costs should also be given); (6), the proposed maximum price for each class of purchaser and the cash discount, freight, and quantity allowance, and other discounts and allowances applicable to each class of purchaser; (7), the method by which that price was determined; and (8), a statement of the reasons why he believes the proposed maximum price is in line with the level of prices established by the regulation.

(b) *Approval of maximum prices.* After receipt of the application, the Office of Price Administration will establish in writing a maximum price or a method of determining the maximum prices for the footwear for which application is made. Applicant shall not sell or offer for sale any footwear to be priced under this section until an order establishing his maximum price has been issued by the Office of Price Administration. The Office of Price Administration may at any time revise any maximum price (not to apply retroactively) established under this section so as to make it consistent with the level of maximum prices otherwise established by this regulation.

8. Section 18 (a) is amended by adding thereto the following: "The continental United States" means the forty-eight states of the United States and the District of Columbia. "Domestically produced footwear" means footwear manufactured in any of the forty-eight states of the United States or in the District of Columbia.

9. The heading of Appendix A is amended to read as follows: "APPENDIX A: *Table of maximum prices per pair of certain waterproof footwear.*[1 2 3]"

10. Footnote 1 of Appendix A is amended to read as follows:

[1] The domestically produced rubber footwear priced at the wholesale and retail levels is the footwear that is priced at the manufacturer's level by §§ 1315.70 (a) and 1315.71 of Maximum Price Regulation 132 and that meets the requirements for pricing under one of those sections.

11. Two new footnotes designated 2 and 3 are added to Appendix A to read as follows:

[2] The maximum prices for sales at wholesale and retail of imported waterproof rubber footwear are established under sections 5 (b) and 6 (b) of this regulation and by specific authorization of the Office of Price Administration under section 6a.

[3] Customary allowances and discounts must be deducted from these wholesale and retail prices.

12. The heading of Appendix B is amended to read as follows: "APPENDIX B: *Table of maximum prices per pair of certain canvas-topped rubber-soled footwear of vulcanized construction.*[1 2 3]"

13. Footnote 1 of Appendix B is amended to read as follows:

[1] The domestically produced rubber footwear priced at the wholesale and retail levels is the footwear that is priced at the manufacturer's level by § 1315.73 (a) of Maximum Price Regulation 132 and that meets the requirements for pricing under that section.

14. Footnote 2 of Appendix B is amended to read as follows:

[2] The maximum prices for sales at wholesale and retail of imported waterproof rubber footwear are established under sections 5 (b) and 6 (b) of this regulation and by specific authorization of the Office of Price Administration under section 6a.

15. Footnote 3 is added to read as follows:

[3] Customary allowances and discounts must be deducted from these wholesale and retail prices.

This amendment shall become effective August 29, 1945.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45-15792; Filed, Aug. 24, 1945; 11:49 a. m.]

PART 1340—FUEL

[MPR 88, Amdt. 31]

FUEL OIL, GASOLINE AND LIQUEFIED PETROLEUM GAS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 88 is amended in the following respects:

1. Section 2.2 (a) is added to read as follows:

(a) *In certain tank wagon areas—Maximum tank wagon prices of P. S. 100 and P. S. 200 fuel oil.* Within the reference seller's free delivery limits in the tank wagon areas (Arizona) listed below maximum tank wagon prices (in cents per gallon) for P. S. 100 and P. S. 200 fuel oil, also known as stove oil, shall be as follows:

Tank wagon area	For deliveries of less than 40 gallons		For deliveries of 40 gallons or more	
	P. S. 100	P. S. 200	P. S. 100	P. S. 200
Douglas	---	9.25	---	8.25
Fairbanks	10.5	---	10	---
Ft. Huachuca	10.5	---	10	---
Ray	12	12	10	10
Tombstone	10.5	---	10	---

In any of the above tank wagon areas at any point outside the free delivery limits a seller may add the increase for the particular point specified in the reference seller's pamphlet of its October 14, 1941, posted tank wagon prices.

2. Section 2.4 (b) (1) is amended to read as follows:

(b) *Los Angeles and San Francisco Bay Areas*—(1) *On sales to the United States Armed Forces, Foreign Economic Administration and Federal agencies making purchases under T. P. S. contracts.*[1] (i) *F. o. b. tanker terminals in the Los Angeles Area.* In the Los Angeles Area[2] maximum prices for the products listed below shall be as follows:

Products	Loaded into tankers[3]	Loaded into barges[3]	Loaded into tank cars and tank truck and trailers	Loaded into buyer's drums[3]
Kerosene[4]	5.50	5.625	5.75	6.50
Diesel fuel (U. S. specification 2-102-C Grade C)	4.45	------	------	------

[1] When a purchaser of the class specified herein buys loaded into tankers and the seller must use trucks, truck and trailers or cars to move the product from his refinery or terminal to the loading point at which the sale is made, his maximum price shall be the sum of his truck and trailer f. o. b. refinery or terminal price, whichever is applicable, plus the actual transportation cost from his refinery or terminal to the loading point.
[2] For single lot deliveries under 6,500 gallons add ½ of a cent per gallon.
[3] Prices cover only the product and the unloading, filling, stencilling and reloading of drums into transportation facilities.
[4] Includes all grades of solvent extracted or acid-treated kerosene.

(ii) *F. o. b. tanker terminals in the San Francisco Bay Area.* In the San Francisco Bay Area maximum prices for the products listed below shall be as follows:

Products	Loaded into tankers[1]	Loaded into barges[2]	Loaded into tank cars and tank truck and trailers	Loaded into buyer's drums[3]
Kerosene[4]	5.625	5.75	5.875	6.625
Diesel fuel, U. S. Specification (2-102-C Grade C)	4.575	------	------	------

[1] When a purchaser of the class specified herein buys loaded into tankers and the seller must use trucks, truck and trailers or cars to move the product from his refinery or terminal to the loading point at which the sale is made, his maximum price shall be the sum of his truck and trailer f. o. b. refinery or terminal price, whichever is applicable, plus the actual transportation cost from his refinery or terminal to the loading point.
[2] For single lot deliveries under 6,500 gallons add ½ of a cent per gallon.
[3] Prices cover only the product and the unloading, filling, stencilling and reloading of drums into transportation facilities.
[4] Includes all grades of solvent extracted or acid-treated kerosene.

3. Section 2.4 (c) is amended as follows:

In the table of prices the following tank wagon area is added to the list of tank wagon areas, and the following prices applicable as indicated to the added tank wagon area are added in the order indicated to the respective columns of prices.

Tank wagon area	For deliveries of less than 75 gallons	For deliveries of 75 gallons or more
	Cents	*Cents*
La Jolla	8	7

4. Section 2.4 (e) is added to read as follows:

(e) *In certain tank wagon areas—Maximum tank wagon prices of P. S. 100 and P. S. 200 fuel oil.* Within the reference seller's free delivery limits in the tank wagon areas listed below maximum tank wagon prices (in cents per gallon) for P. S. 100 and P. S. 200 fuel oil, shall be as follows:

Tank wagon area	For deliveries of less than 75 gallons		For deliveries of 75 gallons or more	
	P. S. 100	P. S. 200	P. S. 100	P. S. 200
Alder Point	------	10.75	------	8.75
Blocksburg	------	10.25	------	8.25
Bolinas	9.5	------	7.5	------
Colfax	10.0	9.0	8.0	7.0
Dutch Flat	10.0	9.0	8.0	7.0
Ft. Seward	------	10.25	------	8.25
Olema	9.5	------	7.5	------
Pt. Reyes	9.5	------	7.5	------
Raisin City	9.0	9.0	7.0	7.0
Ruth	------	12.25	------	10.25
San Rafael	9.0	8.5	8.0	7.5
South Fork	------	9.75	------	7.75
Trona	10.0	------	9.0	------
Zenia	------	12.25	------	10.25

5. Section 2.4 (f) is added to read as follows:

(f) *Jamesburg and Tassajara Hot Springs Circuit Points.* In that part of the Monterey tank wagon area designated as Jamesburg and Tassajara Hot Springs (California), the maximum tank wagon prices for P. S. 100 fuel oil, also known as stove oil, and P. S. 200 fuel oil also known as diesel oil shall be as follows:

Tank wagon area	P. S. 100	P. S. 200
Jamesburg	8.75	7.75
Tassajara Hot Springs	10.75	9.75

6. Section 2.35 (a) is added to read as follows:

(a) *Portland Area.* In the Portland Area[5] maximum prices for the products listed below shall be as follows:

(1) *F. o. b. tanker terminals*—(i) *On sales to the United States Armed Forces, Foreign Economic Administration and Federal Agencies making purchases under T. P. S. contracts.*[6]

Products	Loaded into tankers[1]	Loaded into barges[2]	Loaded into tank cars and tank truck and trailers (cents per gallon)	Loaded into buyer's drums[3]
Kerosene[4]	6.50	6.625	6.75	7.50
Diesel fuel (U. S. Specification 2-102-C Grade C)	5.05	------	------	------

[1] When a purchaser of the class specified herein buys loaded into tankers and the seller must use trucks, truck and trailers or cars to move the product from his refinery or terminal to the loading point at which the sale is made, his maximum price shall be the sum of his truck and trailer f. o. b. refinery or terminal price, whichever is applicable, plus the actual transportation cost from his refinery or terminal to the loading point.
[2] For single lot deliveries under 6,500 gallons add ½ of a cent per gallon.
[3] Prices cover only the product and the unloading, filling, stencilling and reloading of drums into transportation facilities.
[4] Includes all grades of solvent extracted or acid-treated kerosene.

7. Section 2.45 (b) is added to read as follows:

(b) *Seattle Area.* In the Seattle Area[5] maximum prices for the products listed below shall be as follows:

(1) *F. o. b. tanker terminals*—(i) *On sales to the United States Armed Forces, Foreign Economic Administration and Federal Agencies making purchases under T. P. S. contracts.*[6]

Products	Loaded into tankers[1]	Loaded into barges[2]	Loaded into tank cars and tank truck and trailers (cents per gallon)	Loaded into buyer's drums[3]
Kerosene[4]	6.50	6.625	6.75	7.50
Diesel fuel (U. S. Specification 2-102-C Grade C)	5.05	------	------	------

[1] When a purchaser of the class specified herein buys loaded into tankers and the seller must use trucks, truck and trailers or cars to move the product from his refinery or terminal to the loading point at which the sale is made, his maximum price shall be the sum of his truck and trailer f. o. b. refinery or terminal price, whichever is applicable, plus the actual transportation cost from his refinery or terminal to the loading point.
[2] For single lot deliveries under 6,500 gallons add ½ of a cent per gallon.
[3] Prices cover only the product and the unloading, filling, stencilling and reloading of drums into transportation facilities.
[4] Includes all grades of solvent extracted or acid-treated kerosene.

8. Section 3.4 (b) is amended as follows:

a. Footnote 1 to section 3.4 (b) is amended by adding the following sentence:

Where an owner or operator of a refinery has established a maximum price pursuant to this footnote such maximum price may be used by other sellers and shall be subject to the special price provisions for certain sellers set forth in sections 3.2 and 3.3.

b. Footnote 4 to section 3.4 (b) is amended by adding the following paragraph:

[1] Maximum prices to other Federal agencies shall be established by application under section 8.3.
[2] Los Angeles Area comprises Orange and Los Angeles Counties.
[5] Tanker terminals at Linnton, Willbridge, Portland, Oregon, and Vancouver, Washington, are within the Portland Area.
[6] Maximum prices to other Federal agencies shall be established by application under section 8.3.
[5] Tanker terminals at Point Wells, Edmonds, Seattle, and Tacoma, Washington, are within the Seattle Area.

The Administrator may establish by order in writing for a refiner located in Price Area K a different maximum price at his refinery than that set forth above, and such maximum price may be used by other sellers on shipments from the same shipping point and shall be subject to the special pricing provisions of certain sellers set forth in sections 3.2 and 3.3.

9. Section 4.35 (a) is amended by adding a footnote reference number 8 following the words "Portland Area" and by adding a footnote number 8 to read as follows:

[8] Tanker terminals at Linnton, Willbridge, Portland, Oregon and Vancouver, Washington are within the Portland Area.

10. Section 4.45 (a) is amended by adding a footnote reference number 8 following the words "Seattle Area" and by adding a footnote number 8 to read as follows:

[8] Tanker terminals at Point Wells, Edmonds, Seattle, and Tacoma, Washington are within the Seattle Area.

11. Section 5.1 (e) (6) is added to read as follows:

(6) *Aviation gasoline*—(i) *Delivered-at-destination tank car prices.* The maximum delivered-at-destination tank car prices [6] (exclusive of any applicable taxes incident to the sale but not the transportation of such product) to the classes of purchasers named below, for aviation gasoline of a particular grade delivered in tank cars or transport trucks, shall be the amount set forth below for the particular class of purchaser and grade of product, plus the applicable rail rate of transportation as of October 1, 1941 from Tulsa, Oklahoma, to the particular destination: *Provided*, That the maximum price of an eligible marketer shall be .125¢ per gallon higher than the ceilings established for other sellers.

Aviation gasoline: grade—	To Class 1[1] purchasers	To Class 2[2] purchasers (cents per gallon)	To Class 3[3] purchasers
62–65 octane ASTM (unleaded)	7.375	7.50	7.75
73 octane ASTM (leaded)	7.625	7.75	8.00
80 octane ASTM (leaded)	7.875	8.25	8.50

[1] Class 1 purchasers are refiners, the United States Government or any agency thereof.
[2] Class 2 purchasers are resellers (except airport dealers) not included in Class 1.
[3] Class 3 purchasers are airport dealers and consumers not included in Class 1.

(ii) *Maximum tank wagon prices and related drum prices.* The maximum tank wagon price to dealers in a particular tank wagon area for Grade [7] 73 aviation gasoline, shall be the reference tank wagon seller's normal dealer price for regular grade automotive gasoline for such tank wagon area on October 1, 1941, plus 3.3¢ [8] per gallon. This maximum price is also designated as the "key price" and the maximum tank wagon or related drum [9] prices in a particular tank wagon area for the grades of aviation gasoline by classes of purchaser and levels of sale listed below, shall be the "key price" for the same tank wagon area plus or minus the applicable cents per gallon differential set forth in the following table:

Class of purchaser	Grade 62 or 65		Grade 73		Grade 80	
	Tank wagon	Drum	Tank wagon	Drum	Tank wagon	Drum
Dealer	−1	+2	(1)	+3	+1	+4
Consumer [2]	+1	+4	+2	+5	+3	+6

[1] Key price.
[2] *Discount Provision.* A consumer purchasing a total of 1000 gallons or over at the tank wagon level of aviation gasolines of these grades within a calendar month shall receive a discount below the applicable maximum price of 2¢ per gallon. The full price may be charged during the calendar month in which the deliveries are made, but if the purchaser becomes eligible for the discount, it shall be paid to him within 30 days after the end of the calendar month in which the deliveries were made.

(iii) *Maximum drum prices at certain levels of sale.* The maximum drum prices either delivered-at-destination or f. o. b. shipping point, for the aviation gasolines listed in (i) above, for carload deliveries by rail (or substitutes therefor) on sales to consumers; and for either carload or less carload deliveries by rail (or substitutes therefor) on sales to resellers other than dealers, shall be a maximum price established pursuant to section 8.3.

(iv) *Upon written authorization.* Upon application in writing and for good cause shown a seller at the tank wagon level, other than a refiner, may be authorized by order in writing of the Price Administrator or his duly authorized representative, to determine his maximum tank wagon or drum prices on the basis of prices his records show he charged in the base period.

12. Section 7.2 is amended by adding "Territory of Hawaii" at the bottom of the column entitled "For any point in the State of" and by adding "Standard Oil Company of California" to the Column entitled "reference tank wagon sellers."

13. Section 7.5 (a) is amended by deleting the word "and" between the states "Oregon and Washington", inserting a comma in lieu thereof and adding "and the territory of Hawaii" immediately following "Washington."

14. Section 7.5 (c) is revoked.

This amendment shall become effective August 29, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45–15789; Filed, Aug. 24, 1945; 11:50 a. m.]

[6] In the lower peninsula of the State of Michigan the maximum delivered-at-destination tank car prices to Class 2 purchasers shall be the lower of the following: The price determined above for a particular grade, or for 62–65 octane, the dealer tank wagon ceiling for grade 62 or 65 less 2.75¢ per gallon; for 73 octane, the dealer tank wagon ceiling for grade 73, less 3.5¢ per gallon; for 80 octane, the dealer tank wagon ceiling; for grade 80 less 4.0¢ per gallon.

[7] Grade refers to a gasoline meeting the prevailing industry and consumer specifications for aviation gasoline which is sold for use in aircraft engines or for special testing purposes and which has an ASTM octane number not lower than the designated grade number under which the particular grade is sold.

[8] Except that 3.8¢ per gallon shall be added in lieu of 3.3¢ per gallon in the Chicago area where the reference tank wagon seller's normal dealer tank wagon price for regular grade automotive gasoline was 9.9¢ per gallon on October 1, 1941; and except in the lower peninsula of the State of Michigan where 4.8¢ per gallon shall be added in lieu of 3.3¢ per gallon; and except in the State of Indiana where 3.7¢ per gallon shall be added in lieu of 3.3¢ per gallon.

[9] Applies to all drum sales except those for which ceilings shall be established as directed in (iii) below.

PART 1390—MACHINERY AND TRANSPORTATION EQUIPMENT

[RMPR 136, Amdt. 10]

MACHINES, PARTS AND INDUSTRIAL EQUIPMENT

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.

Revised Maximum Price Regulation 136 is amended in the following respects:

1. Section 2 (a) (17) is added to read as follows:

(17) Porcelain covered steel table tops.

2. In section 9 (a) the last sentence is amended by inserting, after the first word, the phrase: ". . , until, but not after October 23, 1945, . ."

3. Section 9 (d) is amended to read as follows:

(d) *"In-line" limitations.* The OPA may disapprove any maximum price determined under this section because it is not in line with the maximum prices fixed by this regulation for comparable products. The following tests shall apply in determining whether a price is "in line," or a product is comparable:

(1) Whether the price is "in line" with prices charged by the applicant for similar commodities in his own line of products;

(2) Whether standards of construction; design or performance have been promulgated by a Government Agency authorized thereto (e. g.: Bureau of Standards, Interstate Commerce Commission, etc.), or agencies representative of the industry (e. g.: National Board of Fire Underwriters, American Society of Mechanical Engineers, etc.), or have otherwise been established or accepted by the industry;

(3) Whether the industry, irrespective of (2), produces commodities which are similar or identical, to the extent that in the absence of a brand name or mark the product of one maker could not be distinguished from another's;

(4) Without reference to (2) or (3), whether the standards of performance claimed by the applicant conform sub-

stantially with performance claims of other manufacturers;

(5) Whether the commodity is basically the same as commodities produced by other manufacturers, but differs only in minor respects; in this event, consideration may be given to the variation in cost represented by the difference in design of the commodity to be priced and the nearest comparable commodity.

4. In section 10 (b) (3), the last sentence is amended by inserting, after the first word, the phrase: ". . ., until, but not after October 23, 1945, . . ."

5. Section 9 (e) is added to read as follows:

(e) *"In-line pricing."* Notwithstanding any other provision of this section, the manufacturer who does not have the information required by Form OPA No. 694–2167 may propose a maximum price for a product which is in line with the maximum prices established under this regulation for similar or comparable products. In such case, the manufacturer may submit to the Office of Price Administration, Washington 25, D. C. evidence pursuant to the criteria set forth in paragraph (d) above, instead of the report on Form OPA No. 694–2167. After receipt of the report, the Office of Price Administration may (1) approve the proposed maximum price, (2) disapprove the maximum price, (3) establish a different maximum price determined under this section, or (4) establish or give temporary approval to a maximum price and require the filing of the information required in Form OPA No. 694–2167 by order. If the Office of Price Administration fails to act within thirty days after the receipt of the report (or any verification of the facts stated in the report that may be requested), the proposed maximum price shall be deemed to be approved.

6. In section 12 (b), in the second sentence of subparagraph (1), the word "lessor" is amended to read "lessee".

7. The second sentence of section 10 (c) (3) is amended to read as follows:

"The manufacturer may add the amount of overtime premium which he expects to pay to the maximum price, except where he is figuring a maximum list price."

This amendment shall become effective August 24, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45–15791; Filed, Aug. 24, 1945; 11:50 a. m.]

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 373,[1] Amdt 23]

FRUITS AND VEGETABLES IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 21 is amended in the following respects:

1. The table under paragraph (c) (1) is amended by changing the prices of three items to read as follows:

	Wholesale maximum prices	Retail maximum prices
		Per lb.
Garlic	$9.33 per lb.	$9.45
Onions, dry, red and yellow, (new crop).	$3.65 per 50 lb. bag	.10
Potatoes, white, size A, large.	$5.30 per 100 lb. bag	.07½

2. The table under paragraph (d) (1) is amended by changing the wholesale price of "Lemons: all sizes" from $7.85 per box to $7.60 per box and the retail price from $0.15 per lb. to $0.14½ per lb.

This amendment shall become effective as of August 3, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45–15793; Filed, Aug. 24, 1945; 11:50 a. m.]

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 395,[1] Corr. to Amdt. 6]

SOUPS IN VIRGIN ISLANDS

Amendment 6 to Revised Maximum Price Regulation 373 is corrected as follows:

Section 49 (b) Table XXXIX is corrected by changing the "Unit" size of all "Campbell Soup" items from 10½ oz. tins to 10½ or 11 oz. tins.

This correction shall be effective August 13, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45–15794; Filed, Aug. 24, 1945; 11:50 a. m.]

Chapter XVIII—Office of Economic Stabilization

[Directive 76]

PART 4003—SUPPORT PRICES; SUBSIDIES

1945 CROP RICE

The Secretary of Agriculture has, by letter dated August 10, 1945, recommended my approval of a loan and purchase program with respect to rice of the 1945 crop to be carried out by Commodity Credit Corporation. Loans are to be made available on rough rice under the program at 90 per centum of the parity price as of July 1, 1945. An offer is to be made to purchase rough rice at the loan rate, and milled rice at comparable rates. The loan and purchase program is more fully described in the copy of the memorandum from the Director, Office of Basic Commodities, enclosed with the Secretary of Agriculture's letter.

Pursuant to the authority vested in me as Economic Stabilization Director, I hereby authorize and direct the Secretary of Agriculture to carry out the 1945 rice loan and purchase program described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

(E. O. 9250 and E.O. 9328, 3 CFR, Cum. Supp. pp. 1213, 1267; E.O. 9599, 10 F.R. 10155)

Issued and effective this 23d day of August, 1945.

WILLIAM H. DAVIS,
Economic Stabilization Director.

[F. R. Doc. 45–15763; Filed, Aug. 24, 1945; 10:18 a. m.]

[Directive 77]

PART 4003—SUPPORT PRICES; SUBSIDIES

PURCHASE OF 1945 LOAN WHEAT BY COMMODITY CREDIT CORPORATION

The Secretary of Agriculture having submitted certain information and, by his letter and enclosure of July 26, 1945 having recommended adoption of a program pursuant to which Commodity Credit Corporation would purchase wheat upon which Commodity Credit Corporation loans are outstanding on April 1, 1946, for farm-stored wheat in all areas and for warehouse-stored wheat in the Southwest, and on May 1, 1946 for warehouse-stored wheat in other areas, such purchases to be made at a price equal to the loan value of wheat plus 15 cents per bushel but not more than the ceiling price;

I hereby find that this program, more fully set out in the Secretary of Agriculture's letter and enclosure, is necessary to accomplish, with respect to wheat, the objective of section 3 of the Stabilization Act of 1942, as amended by the Stabilization Act of 1944, and extended by the Act of June 30, 1945 (Public Law 103, 79th Congress).

Accordingly, pursuant to the authority vested in me as Economic Stabilization Director, I hereby approve and direct the Department of Agriculture to carry out, through the Commodity Credit Corporation, the program described in the Secretary of Agriculture's letter and the memorandum enclosed therewith.

(E.O. 9250 and E.O. 9328, 3 CFR, Cum. Supp. pp. 1213, 1267; E.O. 9599, 10 F.R. 10155)

Issued and effective this 23d day of August, 1945.

WILLIAM H. DAVIS,
Economic Stabilization Director.

PART 25—CONTRACT SETTLEMENT ACT

AMENDMENT OF JOINT TERMINATION REGULATION

CROSS REFERENCE: For amendments and additions to the Joint Termination Regulation issued by the Secretary of War and Secretary of the Navy and filed with the Division of the Federal Register, November 4, 1944 (9 F. R. 13316), as amended (10 F. R. 5171), see Title 10, Chapter VIII, Subchapter C—Termination of Contracts, appearing in Part II of this issue.

TITLE 36—PARKS AND FORESTS

Chapter I—National Park Service

PART 20—SPECIAL REGULATIONS

BIG BEND NATIONAL PARK; FISHING

Part 20, Chapter I, Title 36, Code of Federal Regulations, is amended by adding a new § 20.52 to read as follows:

§ 20.52 *Big Bend National Park*—(a) *Fishing; closed waters.* All springs and ponds, and all waters within Santa Elena, Mariscal, and Boquillas Canyons, are closed to fishing.

(b) *Fishing; method.* (1) Fishing with rod and line, or with set lines, is permitted. Each person fishing may use two set lines with not more than two hooks attached to each such line.

(2) Fishing with trot lines is prohibited.

(3) Fishing from boats is prohibited.

(c) *Fishing; limit of catch.* The limit of catch per person per day shall be 20 pounds of fish and 1 fish.

(39 Stat. 535; 16 U.S.C. 3)

Issued this 20th day of August 1945.

[SEAL] OSCAR L. CHAPMAN,
Assistant Secretary of the Interior.

TITLE 41—PUBLIC CONTRACTS

Chapter II—Division of Public Contracts

PART 201—PROCEDURE FOR STIPULATION OF CONDITIONS IN GOVERNMENT PURCHASE CONTRACTS

EMPLOYMENT OF FEMALE PERSONS UNDER 18 YEARS OF AGE

Revocation of exemption from provisions of the Walsh-Healey Public Contracts Act to permit the employment of female persons under 18 years of age in any industry.

Whereas, an exemption dated April 21, 1942 (7 F.R. 3003), and amended November 11, 1942 (7 F.R. 9399), was granted under section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036, 41 U.S.C. Supp. III, 35), permitting, until further ordered, the award of contracts to contractors in any industry without inclusion in such contracts as required by section 1 (d) of the act the representation and stipulation:

That no * * * female person under 18 years of age * * * will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in such contract;

Provided however, That employment conditions enumerated in each order are complied with by any contractor seeking to come within the exemption; and

Whereas, the Secretary of Labor, by order dated June 30, 1945 (10 F.R. 8866) revoked said exemption orders of April 21, 1942, and November 11, 1942, but permitted the continued employment after October 1, 1945, of female persons under 18 years of age who on October 1, 1945, were employed in performance of a contract subject to the Walsh-Healey Public Contracts Act; and

Whereas, modifications to the above-named exemption order were granted from time to time to individual plants upon a showing of need therefor; and

Whereas, it appears that justice and the public interest no longer will be served by the continued employment of female persons under 18 years of age in performance of contracts subject to the Walsh-Healey Public Contracts Act.

Now, therefore, pursuant to the powers vested in me by section 6 of the Walsh-Healey Public Contracts Act (49 Stat. 2036; 41 U.S.C. 35), I do hereby amend the order of the Secretary of Labor dated June 30, 1945, and order that the exemptions dated April 21, 1942, and November 11, 1942, permitting the award of contracts to contractors in any industry without the inclusion in such contracts of the representations and stipulations of section 1 (d) of the act with respect to the employment of girls between the ages of 16 and 18 years are hereby revoked, and after the effective date of this order female persons under 18 years of age may not be employed in performance of contracts subject to the act and; *It is further ordered,* That all modifications of the aforesaid exemptions are hereby revoked, except as hereinafter provided; *Provided, however,* That this supplemental revocation order shall not apply to the employment of 16 and 17-year old girls in the performance of contracts awarded on or prior to the effective date of this order; *Provided, further,* That where 16 and 17-year old girls are employed in the performance of contracts awarded on or prior to the effective date of this order, such authorized employment shall be subject to all of the conditions of the Exemption Order of April 21, 1942 (7 F.R. 3003), as amended November 11, 1942 (7 F.R. 9399), except where a modification of such order has been granted.

This order shall become effective 10 days after publication in the FEDERAL REGISTER.

Dated: August 24, 1945.

L. B. SCHWELLENBACH,
Secretary of Labor.

TRADING WITH THE ENEMY ACT; COMMUNICATIONS

AMENDMENT OF ADMINISTRATION PROCEDURE

AUGUST 17, 1945.

Amendment of procedure for administering the duties imposed upon the Secretary of the Treasury by articles XI and XIII of the Executive Order 2729-A, dated October 12, 1917, under the Trading with the Enemy Act of October 6, 1917.

The President having directed that the Office of Censorship cease the censorship of international communications as of August 15, 1945, and the Director of Censorship, by reason of such direction, hav-

ing notified the Secretary of the Treasury that that office on and after August 15, 1945, will be unable to exercise the functions in accordance with the designation prescribed by Treasury Decision 50536 of December 24, 1941, pursuant to notice given by the Secretary of the Treasury to the Office of Censorship by letter dated August 17, 1945, the designation of the Office of Censorship to act as the agency of the Secretary of the Treasury relative to licensing of communications intended for or to be delivered to an enemy or an ally of an enemy under Treasury Decision 50536 is revoked. Such functions, heretofore exercised by the Office of Censorship, shall be exercised by the Treasury Department.

DEPARTMENT OF LABOR.

Wage and Hour Division.

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rate applicable under section 6 of the act have been issued to the firms hereinafter mentioned under section 14 of the act, Part 522 of the regulations issued thereunder (August 16, 1940, 5 F.R. 2862, and as amended June 25, 1942, 7 F.R. 4725), and the determinations, orders and/or regulations hereinafter mentioned. The names and addresses of the firms to which certificates were issued, industry, products, number of learners, and effective and expiration dates of the certificates are as follows:

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry, Learner Regulations, July 20, 1942 (7 F.R. 4724), as amended by Administrative Order March 13, 1943 (8 F.R. 3079), and Administrative Order, June 7, 1943 (8 F.R. 7890).

Assembly Dress Company, 247 South Main Street, Pittston, Pennsylvania; ladies' and children's dresses; 10 percent (T); effective August 10, 1945, expiring August 9, 1946.

A. Oestreicher, New Grove and Gilligan Streets, Wilkes-Barre, Pennsylvania; infant and children's wear; 10 percent (T); effective August 14, 1945, expiring August 13, 1946.

Onyx Blouse Co., Inc., 474 North Centre Street, Pottsville, Pennsylvania; dress shirts, collars, etc., boys' and men's shirts and blouses; 10 learners (T); effective August 19, 1945, expiring August 18, 1946.

Onyx Blouse Co., Inc., Long Avenue, Orwigsburg, Pennsylvania; dress shirts, collars, etc., boys' shirts and blouses; 10 learners (T); effective August 19, 1945, expiring August 18, 1946.

Onyx Blouse Co., Inc., Valley Street, New Philadelphia, Pennsylvania; dress shirts, collars, etc., boys' shirts and blouses; 10 learners (T); effective August 19, 1945, expiring August 18, 1946.

Knitted Wear Learner Regulations, October 10, 1940 (5 F.R. 3982), as amended by Administrative Order, March 13, 1943 (8 F.R. 3079).

Francis Fabrics, Valdese, North Carolina; polo and basque shirts; 10 learners (E); effective August 14, 1945, expiring March 13, 1946.

Hosiery Learner Regulations, September 4, 1940 (5 F.R. 3530), as amended by Administrative Order March 13, 1943 (8 F.R. 3079).

Terry Hosiery Company, 600 S. Hamilton Street, High Point, North Carolina; seamless hosiery; 5 learners (T); effective August 14, 1945, expiring August 13, 1946.

Independent Telephone Learner Regulations, July 17, 1944 (9 F.R. 7125).

Commerce Telephone Company, Commerce, Georgia (T); effective August 11, 1945, expiring August 10, 1946.

Consolidated Telephone Company, Moultrie, Georgia (T); effective August 19, 1945, expiring August 18, 1946.

Ellinwood Telephone Exchange, Ellinwood, Kansas (AT); effective August 21, 1945, expiring February 20, 1946.

Gulf States Telephone Company, Commerce, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Gulf States Telephone Company, Cooper, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Gulf States Telephone Company, Gatesville, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Gulf States Telephone Company, Kaufman, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Gulf States Telephone Company, Overton, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Gulf States Telephone Company, Stephenville, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Gulf States Telephone Company, Athens, Texas (T); effective August 18, 1945, expiring August 17, 1946.

Primghar Telephone Company, Primghar, Iowa (T); effective August 13, 1945, expiring August 12, 1946.

Siloam Springs Telephone Company, Siloam Springs, Arkansas (T); effective August 15, 1945, expiring August 14, 1946.

United Telephone Company, Butler, Missouri (T); effective August 15, 1945, expiring August 14, 1946.

United Telephone Company, California, Missouri (T); effective August 15, 1945, expiring August 14, 1946.

United Telephone Company, Cole Camp, Missouri (T); effective August 15, 1945, expiring August 14, 1946.

United Telephone Company, Fairfax, Missouri (T); effective August 15, 1945, expiring August 14, 1946.

United Telephone Company, Hermann, Missouri (T); effective August 15, 1945, expiring August 14, 1946.

Textile Learner Regulations, May 16, 1941 (6 F.R. 2446) as amended by Administrative Order March 13, 1943 (8 F.R. 3079).

Indiana Cotton Mills, Cannelton, Indiana; sheetings, drill and duck (cotton); 3 percent (T); effective August 18, 1945, expiring August 17, 1946.

Cigar Industry Learner Regulations, April 22, 1944 (9 F.R. 4330)

General Cigar Company, Inc., 5th and Hickory Streets, Mt. Carmel, Pennsylvania; cigars; 21 learners (AT); hand cigar making for a learning period of 960 hours at 30 cents per hour for the first 480 hours, and 35 cents per hour for remaining 480 hours; effective August 14, 1945, expiring February 13, 1946.

General Cigar Company, Inc., 7th and Poplar Streets, Benton, Kentucky; cigars; 10 percent (T); cigar machine operating for a learning period of 320 hours at 30 cents per hour; cigar packing for a learning period of 320 hours at 30 cents per hour; machine stripping for a learning period of 100 hours at 30 cents per hour; effective August 22, 1945, expiring February 21, 1946.

Regulations, Part 522—Regulations Applicable to the Employment of Learners (supra).

Caribe Diamond Works, Santurce, Puerto Rico; Scouring; 2 learners; scouring not less than 20 cents an hour for the first 520 hours; not less than 27 cents an hour for the second 520 hours; and for every hour thereafter not less than the minimum established by any applicable wage order that may be in effect at the time of the termination of the learning period; effective July 21, 1945, expiring six months from July 21, 1945.

The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of the applicable determinations, orders and/or regulations cited above. These certificates have been issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of regulations, Part 522.

Signed at New York, New York, this 20th day of August 1945.

ISABEL FERGUSON,
Authorized Representative of the Administrator.

[Docket No. G-588]

UNITED FUEL GAS CO. ET AL.

ORDER FIXING DATE OF HEARING

AUGUST 21, 1945.

In the Matter of United Fuel Gas Company, Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company and Warfield Natural Gas Company.

Upon consideration of the application, as amended, filed on March 1, 1945, by United Fuel Gas Company ("Applicant") for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, as amended, to authorize United Fuel Gas Company to acquire and operate all of the facilities, subject to the jurisdiction of the Commission, of the following companies: Central Kentucky Natural Gas Company, Cincinnati Gas Transportation Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company, and Warfield Natural Gas Company.

The Commission orders that:

(A) A public hearing be held commencing on September 19, 1945, at 10:00 a. m. (e. w. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters involved and the issues presented in this proceeding.

(B) Interested State commissions may participate in said hearing as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 45-15725; Filed, Aug. 23, 1945; 1:04 p. m.]

[Docket No. IT-5519]

BONNEVILLE PROJECT, COLUMBIA RIVER, OREG.-WASH.

ORDER CANCELLING HEARING

AUGUST 22, 1945.

It appears that:

(a) The Administrator of the Bonneville Power Project filed with the Commission for confirmation and approval, pursuant to the provisions of the Bonneville Act (50 Stat. 731), as amended, certain proposed rate schedules, proposed modifications of the general rate schedule provisions, and proposed revised Administrative interpretations entitled "Principles and Procedures To Be Followed in the Calculation of Computed Demand." Pacific Power & Light Company, Northwestern Electric Company, The Washington Water Power Company, Mountain States Power Company and Puget Sound Power & Light Company filed protests and complaints with respect to these filings by the Administrator of the Bonneville Project.

(b) On July 6, 1945, the Commission ordered a hearing be held in Spokane, Washington, on July 24, 1945, subsequently postponed to August 27, 1945, for the purpose of affording the above-named complainants, the Bonneville Power Administrator, and other interested parties an opportunity to present testimony and information relevant to the Commission's consideration of the proposed rate schedules to the extent that they modify existing schedules; the proposed modifications of the general rate schedule provisions, and the proposed revised Administrative interpretation entitled "Principles and Procedures To Be Followed in the Calculation of Computed Demand."

(c) On August 2, 1945, Pacific Power & Light Company, Northwestern Electric Company and The Washington Water Power Company by telegram notified the Commission that they would not attend the hearing. Puget Sound Power & Light Company and Mountain States Power Company on August 3 and August 7, 1945, respectively, by telegrams, advised the Commission that they would present no evidence at the hearing. On August 8, 1945, William A. Dittmer, Acting Bonneville Power Administrator, advised the Commission by telegram that inasmuch as all of the complainants have indicated that they will present no evidence at the hearing scheduled to be heard in Spokane, the hearing appears unnecessary.

(d) No other persons have requested an opportunity to present testimony or information at the hearing.

The Commission finds that: It is appropriate that the hearing be cancelled.

The Commission orders that: The hearing in this matter set for August 27, 1945, at 10:00 a. m. (P. w. t.) in Room 338, Federal Power Office Building, Spokane, Washington, be and it is hereby cancelled.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 45-15726; Filed, Aug. 23, 1945; 1:04 p. m.]

[Docket No. G-652]

TENNESSEE GAS AND TRANSMISSION CO.

NOTICE OF APPLICATION

AUGUST 23, 1945.

Notice is hereby given that on August 17, 1945, Tennessee Gas and Transmission Company (Applicant) a Tennessee Corporation having its principal place of business at Houston, Texas, filed with the Federal Power Commission an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the construction and operation of approximately 2,380 feet of 8-inch O. D. pipeline extending in a southerly direction from Applicant's main line valve No. 20 located in Section 80, A. D. Boyd Survey, Harris County, Texas, to a point of connection with the 10-inch Katy-Satsuma pipeline of United Gas Pipe Line Company.

The application recites the filing with the Commission of letters dated July 19 and July 23, 1945, respectively, requesting temporary authorization to construct and operate the above-described facilities for the purpose of obtaining up to 50,000 mcf of natural gas per day from the Katy field by means of the facilities of United Gas Pipe Line Company. Arrangements for the supply of such gas were made between The Chicago Corporation, Applicant's supplier, and United Gas Pipe Line Company.

Applicant claims that the proposed facilities are required by reason of an order of the Railroad Commission of Texas dated July 16, 1945, which order, it is asserted, seriously interferes with the continuance of deliveries of gas to Applicant from the Stratton-Agua Dulce field, which at the present time is Applicant's sole source of gas supply.

The Commission by letter of July 27, 1945, granted Applicant temporary authorization to construct and operate the proposed facilities, pending the filing of the within application, which authorization was granted without prejudice to further Commission action and upon the condition that Applicant file with the Commission weekly statements showing the daily quantities of gas delivered to Applicant through the proposed facilities.

Applicant does not propose to render any additional services by reason of the construction and operation of the facilities. Such facilities will also provide an emergency connection in order to assure maintenance of adequate service to existing customers.

The estimated total over-all capital cost of the facilities is $7,290.00.

According to the application, no additional revenue will be received by applicant and no change in its rates is contemplated.

The War Production Board supported Applicant's application for temporary authorization in order to assure the continuance of adequate service of natural gas in the Appalachian area.

While it is not the purpose of Applicant to obtain gas from the Katy field through the proposed facilities on a continuous basis, it is claimed that the facilities provide a connection for future use in the event it should again become necessary to utilize the Katy field for emergency purposes.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 10th day of September, 1945, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[2d Rev. S. O. 300, Special Permit 41]

REFRIGERATION OF POTATOES FROM GREENPORT, LONG ISLAND, N. Y.

Pursuant to the authority vested in me by paragraph (e) of the first ordering paragraph of Second Revised Service Order No. 300 (10 F.R. 6802), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard the provisions of Second Revised Service Order No. 300 insofar as it applies to the furnishing of standard refrigeration on car FGE 44591, potatoes, shipped August 18, 1945, by F. H. Vahlsing, Inc., from Greenport, L. I., N. Y., consigned to Margaret Ann Stores, Tampa, Florida. (LI-PRR-RF&P-SAL).

The waybill shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 20th day of August 1945.

V. C. CLINGER,
Director,
Bureau of Service.

[Rev. S. O. 345, Special Permit 5]

REFRIGERATION OF POTATOES FROM CHICAGO, ILL., AND GIBBON, NEBR.

Pursuant to the authority vested in me by paragraph (g) of the first ordering paragraph of Revised Service Order No 345 (10 F.R. 10034), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard the provisions of Revised Service Order No. 345 insofar as it applies to the furnishing of standard refrigeration on car FGE 51325 from Chicago, Illinois, August 20, 1945, (I. C.-N. C. & St. L.), on car ART 18652 from Gibbon, Nebraska, August 18, 1945 (U. P.-C. B. & Q.-I. C.), and on PFE 92131 from Gibbon, Nebraska, August 18, 1945, (U. P.-I. C.-N. C. & St. L.), all potatoes consigned to Plowaty Bergart Company, Atlanta, Georgia, to be reconsigned there to Roger McVeigh, Port Everglades, Florida. (AB & C-ACL-FEC), for export.

The waybills shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 20th day of August 1945.

V. C. CLINGER,
Director,
Bureau of Service.

[Rev. S. O. 346, 2d Amended Gen. Permit]

ICING OR REICING OF GREEN CORN OR PEAS

Pursuant to the authority vested in me by paragraph (f) of the first ordering paragraph of Service Order No. 346 (10 F.R. 10035), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard the provisions of paragraph (b) of Revised Service Order No. 346 insofar as it applies to the initial bunker icing or reicing in transit in bunkers of cars loaded with green corn or peas.

This general permit shall become effective at 12:01 a. m., August 21, 1945, and shall apply only to cars billed on or after that time. This general permit shall expire at 11:59 p. m., September 20, 1945.

The waybills shall show reference to this general permit.

A copy of this general permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 20th day of August 1945.

OFFICE OF PRICE ADMINISTRATION.

[Rev. Supp. Order 99,[1] Order 13]

UTICA KNITTING CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to Revised Supplementary Order 99 and § 1372.101 (c) of Maximum Price Regulation 210, it is ordered:

(a) *Ceiling prices for sales by Utica Knitting Company.* (1) On and after August 22, 1945, Utica Knitting Company, Utica, New York, may sell and deliver, and any person may buy and receive from it, the following designated fall and winter knitted underwear manufactured by Utica Knitting Company, at prices not in excess of the following adjusted ceiling prices:

Style No.	Description	Adjusted ceiling price (per dozen)
P12	Men's peeler union suit made of 14/1 carded cotton yarn, rib knit, net weight 12 pounds per dozen (based on size 42 LSA), regular sizes 36-46	Net
	LSA: Long sleeve, ankle length	$9.85
	SSA: Short sleeve, ankle length	9.24
E12	Men's ecru union suit made of 14/1 carded cotton yarn, rib knit, dyed, net weight 12 pounds per dozen (based on size 42 LSA), regular sizes 36-46 in white and random:	
	LSA: Long sleeve, ankle length	10.14
	SSA: Short sleeve, ankle length	9.62
E14	Men's union suit made of 12/1 carded cotton yarn, rib knit, dyed, net weight 14 pounds per dozen (based on size 42 LSA), regular sizes 36-46, also white and random.	
	LSA: Long sleeve, ankle length	11.65
	SSA: Short sleeve, ankle length	10.44
E16	Men's union suit made of 10/1 carded cotton yarn, rib knit, dyed, net weight 16 pounds per dozen (based on size 42 LSA), regular sizes 36-46, also in white and random.	
	LSA: Long sleeve, ankle length	11.93
	SSA: Short sleeve, ankle length	11.23
AM	Boy's ecru union suit, made of 16/1 carded cotton yarn, rib knit, dyed, net weight 8½ pounds per dozen (based on size 24 LSA), sizes 24-34, also in white and ecru:	
	LSA: Long sleeve, ankle length	7.20
	SSK: Short sleeve, knee length	6.45
AL/1	Boy's union suit made of 16/1 carded cotton yarn, rib knit, dyed, net weight 7 pounds per dozen (based on size 24 LSA), sizes 24-34, also in white and random:	
	LSA: Long sleeve, ankle length	6.47
	SSK: Short sleeve, knee length	5.83
9LBU	Boy's ecru union suit made of 14/1 carded cotton yarn, rib knit, dyed, net weight 10 pounds per dozen (based on size 24 LSA), sizes 24-34:	
	LSA: Long sleeve, ankle length	7.82
	SSK: Short sleeve, knee length	6.93¼
2/1 shirt	Men's ecru shirt made of 14/1 carded cotton yarn, rib knit, dyed, net weight 8 pounds per dozen (based on size 42), regular sizes 34-46, also white and random.	6.70
2/1 drawer	Men's ecru drawers made of 14/1 carded cotton yarn, net weight 8 pounds per dozen (based on size 42), rib knit, dyed, regular sizes 30-44 extra sizes 46-50.	6.12
3/1 shirt	Men's ecru shirt made of 10/1 carded cotton yarn, net weight 10 pounds per dozen (based on size 42), rib knit, dyed, regular sizes 34-46, also in white and random.	7.41
3/1 drawers	Men's ecru drawers made of 10/1 carded cotton yarn, rib knit, dyed, net weight 8 pounds per dozen (based on size 42), regular sizes 30-44.	6.63
C07U LSA	Men's random fleece union suit made of 1½ pounds 10/1, 7 pounds 20/1, 7½ pounds 12 GR/1 carded cotton yarn, net weight 14 pounds per dozen (based on size 42), long sleeve, ankle length, sizes 30-46.	[1] 11.73
6UG LSA	Men's random union suit, made of 3/14 carded cotton yarn, net weight 14 pounds per dozen (based on size 42 LSA), sizes 36-46.	
	LSA: long sleeve, ankle length	[1] 11.70
	SSA: short sleeve, ankle length	[1] 10.87
5BU/G LSA	Boys' union suit made of 16/1 carded cotton yarn, net weight 10 pounds per dozen (based on size 24), sizes 24-34, long sleeve, ankle length, rib knit.	[1] 8.25

[1] Less 2 percent 30 days or net 60 days.

[1] 10 F.R. 6796, 8657.

(2) The adjusted ceiling prices set forth in paragraph (1) above are subject to all allowances, price differentials and other trade practices, including practices related to shipping and the payment of shipping charges and premiums for extra sizes, customarily used by Utica Knitting Company during the period from July 15, 1941 to February 10, 1942, both inclusive, on deliveries of comparable types of fall and winter knitted underwear.

(b) *Ceiling prices for sales at wholesale.* (1) On and after August 22, 1945, the ceiling price for a sale at wholesale of any of the garments enumerated in paragraph (a) of this order, shipped to the seller by Utica Knitting Company on and after that date, shall be determined in the following manner:

(i) The wholesaler shall first find his cost base for the garment being priced from the following table:

Style No.	Cost base (per dozen)	
	Regular sizes	Extra sizes
P12 LSA	$9.00	$10.25
P12 SSA	8.87½	10.12½
E12 LSA	8.50	9.75
E12 SSA	8.37½	9.62½
E14 LSA	9.37½	10.37½
E14 SSA	9.25	10.50
E16 LSA	10.00	11.25
E16 SSA	9.87½	11.12½
AM LSA	5.87½	
AM SSK	5.62½	
AL/1 LSA	5.25	
AL/1 SSK	5.00	
91BU LSA	6.25	
91BU SSK	6.00	
2/1 shirt	5.65	6.40
2/1 drawer	5.65	6.40
3/1 shirt	6.30	7.05
3/1 drawer	6.30	7.05
607U LSA	10.75	12.25
6U/G LSA	10.25	11.75
6U/G SSA	10.00	11.50
5BU/GLSA	7.50	

(ii) The wholesaler will then apply to the "cost base" for the garment being priced his "initial percentage markup" determined in accordance with the appropriate rule set forth in subparagraph (3) of § 1372.102 (b) of Maximum Price Regulation 210.

(iii) The wholesaler will then add to the amount found in (ii) immediately above the sum specified below for the style of garment being priced. The resulting figure is the wholesaler's new ceiling price per dozen for the style of garment being priced.

Style number:	*Amount of adjustment (per dozen)*
P12 LSA	$0.64½
P12 SSA	.35
E12 LSA	1.23
E12 SSA	.93
E14 LSA	1.26
E14 SSA	.89
E16 LSA	1.45
E16 SSA	1.05
AM LSA	1.01
AM SSK	.63
AL/1 LSA	.91½
AL/1 SSK	.62
91BU LSA	1.18
91BU SSK	.74
2/1 shirt	.79
2/1 drawer	.35
3/1 shirt	.83
3/1 drawer	.28½
607U LSA	.73½
6U/G LSA	.94
6U/G SSA	.65
5BU/G LSA	.58½

(2) The ceiling prices established for sales at wholesale in this paragraph (b) are subject to all discounts, allowances, price differentials and other trade practices customarily used by the wholesaler during 1942 on deliveries of comparable types of fall and winter knitted underwear.

(c) *Statement which Utica Knitting Company must send to wholesalers.* (1) On and after August 22, 1945, Utica Knitting Company shall transmit to each wholesaler to whom it makes delivery, on and after that date, of any of the garments listed in paragraph (a) of this order, the following statement:

STATEMENT TO WHOLESALERS OF ADJUSTED CEILING PRICES

The OPA has adjusted our ceiling prices on certain knitted underwear garments pursuant to the provisions of Order No. 13, issued under Revised Supplementary Order 99. In Column A below you will find our adjusted ceiling prices for these garments.

Under this order the OPA has established the method by which you, as a wholesaler, are to determine your ceiling prices for these garments.

You are required by the OPA to determine your ceiling prices for the specified styles by the following method: You first find the "cost base" for the garment being priced from Column B of the following table. You then apply to this "cost base" your "initial percentage markup" (determined in accordance with the appropriate rule set forth in subparagraph (3) of § 1372.102 (b) of Maximum Price Regulation 210). You then find your new ceiling price by adding to the amount thus determined, the amount specified in Column C below for the particular style of garment being priced.

Style No.	Column A	Column B		Column C
	Utica's adjusted ceiling price (regular sizes) (per dozen)	"Cost base" to which wholesaler applies "initial percentage markups" (per dozen)		Amount of adjustment which wholesaler may add (per dozen)
		Regular sizes	Extra sizes	
P12 LSA	$9.86	$9.00	$10.25	$0.64½
P12 SSA	9.34	8.87½	10.12½	.35
E12 LSA	10.14	8.50	9.75	1.23
E12 SSA	9.62	8.37½	9.62½	.93
E14 LSA	11.05	9.37½	10.37½	1.26
E14 SSA	10.44	9.25	10.50	.89
E16 LSA	11.93	10.00	11.25	1.45
E16 SSA	11.28	9.87½	11.12½	1.05
AM LSA	7.20	5.87½		1.01
AM SSK	6.46	5.62½		.63
AL/1 LSA	6.47	5.25		.91½
AL/1 SSK	5.83	5.00		.62
91BU LSA	7.82	6.25		1.18
91BU SSK	6.98½	6.00		.74
2/1 shirt	6.70	5.65	6.40	.79
2/1 drawer	6.12	5.65	6.40	.35
3/1 shirt	7.41	6.30	7.05	.83
3/1 drawer	6.68	6.30	7.05	.28½
607U LSA	11.73	10.75	12.25	.73½
6U/G LSA	11.50	10.25	11.75	.94
6U/G SSA	10.87	10.00	11.50	.65
5BU/G LSA	8.28	7.50		.58½

Please note that, as a wholesaler, you are required by the OPA to transmit to each retailer to whom you deliver any of the garments listed above on or after August 22, 1945, a "Wholesaler's Statement to Retailers of OPA Adjustment Charge" in the following form, properly filled in by you with the information applicable to the particular garments being delivered by you to the retailer. You are required to complete this statement as follows: In Column A you shall list the ceiling prices of the particular styles being shipped which were in effect for you under MPR 210 prior to the date of this order. In Column B you shall list the new ceiling prices which you determine in accordance with the method indicated in this statement to you. In Column C you shall list the difference between the amounts in Column A and Column B below for the respective styles. This notice, when properly completed by you is to be transmitted with, or annexed to, the invoice, billing or other statement of price accompanying every shipment made by you to your retail customers of the styles shipped to you by us.

WHOLESALER'S STATEMENT TO RETAILERS OF OPA ADJUSTMENT CHARGES

The OPA, pursuant to Order No. 13 issued under Revised Supplementary Order 99, has permitted us to adjust our ceiling prices on the following garments sold and delivered by us to you on or after August 22, 1945.

Style No.	Column A		Column B		Column C	
	Our old ceiling price (per dozen)		Our new ceiling price (per dozen)		Our OPA adjustment (difference between old and new ceiling price) (per dozen)	
	Regular sizes	Extra sizes	Regular sizes	Extra sizes	Regular sizes	Extra sizes

5BU/G LSA						

Please note that the OPA has ruled that you must price these garments in accordance with Maximum Price Regulation 580 or Maximum Price Regulation 210 (whichever regulation governs your sales of the garments listed above). In determining your ceiling prices for these garments OPA has ruled that you must use as your "net cost" under MPR 580, or your "cost base" under MPR 210, the amount set forth in Column A above. You may not, in any case, include the amount of the OPA adjustment charge set forth in Column C above in determining your ceiling prices for these garments under either of those regulations.

(2) The statement required to be sent by Utica Knitting Company to its wholesalers, as provided in this paragraph (c) and containing the information applicable to the styles of garments included in the particular shipment shall be transmitted with, or annexed to, the invoice, billing or other statement of price accompanying every shipment made by Utica Knitting Company of any of the garments listed in paragraph (a) of this order. This statement, with respect to any garment for which Utica Knitting Company is permitted an adjustment of its ceiling price under this order shall be sent by Utica Knitting Company in lieu of the statement required under § 1389.304 (as amended) of Maximum Price Regulation 221.

(d) *Statement which wholesalers must send to their retailers.* Any seller at wholesale, purchasing any of the garments listed in paragraph (a) of this order from Utica Knitting Company on or after August 22, 1945, shall transmit to each of its own customers, at the time of the delivery by it of any of these garments on or after August 22, 1945, the form of "Wholesaler's Statement to Retailers of OPA Adjustment Charge" contained in the "Statement to Wholesalers of OPA Adjustment Charge" required to be sent to its wholesalers by Utica Knitting Company under paragraph (c) above. This "Wholesaler's Statement to Retailers of OPA Adjustment Charge" shall contain the information applicable to the styles of garments included in the particular shipment and shall be transmitted with, or annexed to the invoice, billing or other statement of price accompanying every shipment made by the wholesaler after August 22, 1945 of any of the garments covered by this order. Each seller at wholesale shall complete this "Wholesaler's Statement to Retailers of OPA Adjustment Charge" as follows: In Column A he shall list the ceiling prices in effect for sales by him under Maximum Price Regulation 210 prior to this order. In Column B he shall list his new ceiling prices for the garments, determined in accordange with paragraph (b) of this order. In Column C he shall list the differences between the amounts in Column A and Column B for the respective styles.

(e) *Statement which Utica Knitting Company must send to retailers.* (1) On and after August 22, 1945, Utica Knitting Company shall transmit to each retailer to whom it makes delivery of any of the garments listed in paragraph (a) of this order, the following statement:

STATEMENT TO RETAILERS OF OPA ADJUSTMENT CHARGES

The Office of Price Administration has permitted us to add the adjustment charges set forth below to our ceiling prices on the following garments:

Style	Column A: Old ceiling price (per dozen)		Column B: OPA adjustment charges under MPR 221 and RSO 3 (per dozen)	Column C: Amount of adjustment which retailer may add to his ceiling price (per garment)
	Regular sizes	Extra sizes

6U/G SSA	10.00	11.50	.87	
5BU/G LSA	7.50		.78	

Please note that the OPA requires you to price these garments in accordance with Maximum Price Regulation 580 or Maximum Price Regulation 210 (whichever regulation governs your sales of the garments listed in this notice). In determining your ceiling prices for these garments OPA has ruled that you must use as your "net cost" under MPR 580, or your "cost base" under MPR 210, the "old ceiling price" stated in Column A above for the garment being priced and you may not include the OPA adjustment charges set forth in Column B above in computing your ceiling prices for these garments under either of these regulations.

The OPA has ruled, however, that after you have properly determined your ceiling price under MPR 580 or MPR 210 in the foregoing manner, you may then add to your ceiling price so computed the amount of the adjustment set forth for the garment in Column C of the above table.

(2) The statement required to be sent to its retailers by Utica Knitting Company, as provided in this paragraph (e), and containing the information applicable to the styles of garments included in the particular shipment, shall be transmitted with, or annexed to the invoice, billing or other statement of price accompanying every shipment made by Utica Knitting Company of any of the garments listed in paragraph (a) of this order. This statement, with respect to any garment for which Utica Knitting Company is permitted an adjustment of its ceiling price under this order shall be sent by Utica Knitting Company in lieu of the statement required under § 1389.304 (as amended) of Maximum Price Regulation 221.

(f) *Garments to which the provisions of this order shall apply.* This order shall apply only to those garments of the styles enumerated in paragraph (a) which are shipped by Utica Knitting Company on or after August 22, 1945, and before November 1, 1945.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective August 22, 1945.

Issued this 22d day of August 1945.

CHESTER BOWLES,
Administrator.

[Supp. Order 94, Rev. Order 67]

UNITED STATES DEPARTMENT OF COMMERCE, ET AL.

SPECIAL MAXIMUM PRICES FOR CERTAIN VITRIFIED CHINAWARE

Order 67 under Supplementary Order 94 is redesignated Revised Order 67 and is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with Section 11 of Supplementary Order 94 it is ordered:

(a) *What this order does.* This order establishes maximum prices at which new and used vitrified chinaware hereinafter described may be sold and delivered by the United States Department of Commerce and by any subsequent reseller.

(b) *Maximum prices.* (1) Maximum prices per unit for the new vitrified chinaware, with or without insignia or decoration in heavy (thickware), medium and hotel weights more particularly described herein shall be:

(i) For sales by the Department of Commerce to dealers, the prices set forth in Column I.

(ii) For sales by the Department of Commerce to a State, municipality, county and township, for use but not for resale by the purchaser, the prices set forth in Column I.

(iii) For sales by the Department of Commerce to retailers, the prices set forth in Column II.

(iv) For sales by all persons other than the Department of Commerce to industrial or institutional users and retailers, the prices set forth in Column III.

(v) For all sales by retailers, the prices set forth in Column IV.

(2) Maximum prices for used vitrified chinaware described herein, if the article is not chipped and has the serviceability of a new article, shall be 75% of the above maximum prices.

(3) Maximum prices for new and used vitrified chinaware, if the article is chipped or does not have the serviceability of a new article, shall be 25% of the above maximum prices.

(4) All the aforesaid maximum prices, except in the case of sales at retail, are f. o. b. shipping point.

(c) *Discounts.* Every seller shall continue to maintain his customary discounts for cash.

(d) *Notification.* Any person who sells the chinaware described in paragraph (b) to a retailer shall furnish the retailer with an invoice of sale setting forth the maximum prices for sales at retail, and stating that the retailer is required by this order to conspicuously display at the place where the chinaware is offered for sale a suitable sign which plainly states the retail ceiling prices.

(e) *Tagging.* Any person who sells the chinaware described in paragraph (b) at retail shall conspicuously display at the place where it is offered for sale a suitable sign which plainly states the retail ceiling prices.

(f) *Relation to other regulations and orders.* This order with respect to the commodities it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(g) *Definitions.* (1) "Retailer" means any person who sells to a user or ultimate consumer, except industrial or institutional users.

(2) "Dealer" means any person who sells to purchasers for resale and to industrial and institutional users.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective August 25, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45-15821; Filed, Aug. 24, 1945; 11:57 a. m.]

[Supp. Order 94, Order 76]

UNITED STATES DEPARTMENT OF COMMERCE, ET AL.

SPECIAL MAXIMUM PRICES FOR SADDLES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, it is ordered:

(a) *What this order does.* This order establishes special maximum prices at which new and used Army McClellan saddles may be sold and delivered by the United States Department of Commerce and by any subsequent reseller.

(b) *Maximum prices*—(1) *New saddles.* Maximum prices per new Army McClellan saddle shall be:

(i) Commerce's price to manufacturer, f. o. b. shipping point: $7.10.

(ii) Commerce's price to wholesaler, f. o. b. shipping point: $8.00.

(iii) Commerce's price to retailer, f. o. b. shipping point: $12.00.

(iv) Wholesaler's price to retailer, f. o. b. shipping point: $12.00 plus actual freight paid by the wholesaler from Commerce's point of shipment.

(v) Price for all sales at retail—$20.00 plus actual freight paid by the retailer from his supplier's point of shipment.

(2) *New shop or shelf worn saddles.* The maximum price for a new shop or shelf worn Army McClellan saddle, which is a saddle that has never been used on an animal, shall be 75% of the appropriate maximum price set forth in paragraph (b) (1) herein, *Provided,* That

(i) No part is missing which is necessary to make it fully useful for its intended purpose without further repair.

(ii) The saddle is free from rips and tears, and in all respects has the serviceability equal to but not the appearance of a new saddle.

(3) *Used saddles and new shop or shelf worn saddles not covered by paragraph (b) (2).* The maximum price for a used Army McClellan saddle, which is a saddle that has been used on an animal, and for a new shop or shelf worn saddle not covered by paragraph (b) (2) herein shall be 50% of the appropriate maximum price set forth in paragraph (b) (1) herein.

(c) *Discounts.* Every seller shall continue to maintain his customary discounts for cash.

(d) *Notification.* Any person who sells the aforesaid Army McClellan saddles to a retailer shall furnish the retailer with an invoice of sale setting forth the retailer's maximum price for each saddle, and stating that the retailer is required by this order to attach to each saddle before sale a tag or label stating the appropriate retail ceiling price.

(e) *Tagging.* Any person who sells the aforesaid Army McClellan saddles at retail shall attach to each saddle before sale a tag or label which plainly states the appropriate retail ceiling price.

(f) *Relation to other regulations and orders.* This order with respect to the commodity it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(g) *Definitions.* (1) "Retailer" means any person who normally sells to ultimate consumers.

(2) "Wholesaler" means any person who normally sells to resellers.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective August 25, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

[F. R. Doc. 45-15822; Filed, Aug. 24, 1945; 11:57 a. m.]

[RMPR 436, Amdt. 6 to Order 37]

CRUDE PETROLEUM AND NATURAL AND PETROLEUM GAS

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Paragraph (a) of Order No. 37 to Revised Maximum Price Regulation No. 436 is amended in the following respects:

1. The following pools with the designated increases are hereby added thereto:

Pool, County, and State	*Amount of increase per 42-gallon barrel*
Nick Springs (Travis Peak), Union, Arkansas	$0.24
Maunie South, White, Illinois	.20
Graber, McPherson, Kansas	.25
Russell North, Russell, Kansas	.35
Wherry, Rice, Kansas	.25
Temple, Clare, Michigan	.02
Benson, Eddy, New Mexico	.09
Dora, Seminole, Oklahoma	.35
Loco, Stephens, Oklahoma	.25
Macomb South, Pottawatomie, Oklahoma	.35
Palacine, Stephens, Oklahoma	.20
Wellston North, Lincoln, Oklahoma	.35
Hull-Silk-Sikes-Caddo, Archer, Texas	.25
Iatan-North, Howard, Texas	.15
Loving, Stephens, Texas	.25
Olson, Crockett, Texas	.17
Smyer, Hockley, Texas	.20
Vincent (4000'–5500'), Howard, Texas	.25
Half-Moon, Park, Wyoming	.35
Maverick Springs, Fremont, Wyoming	.28
Pitchfork, Park, Wyoming	.34
Shoshone, Park, Wyoming	.35

2. The Allen (Shallow) Pool Pontotoc County, Oklahoma, is hereby redesignated to read "Allen (0'–2,000') Pontotoc County, Oklahoma.

This amendment shall become effective as of August 1, 1945.

Issued this 24th day of August 1945.

CHESTER BOWLES,
Administrator.

THE NORTH AMERICAN CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 21st day of August 1945.

The North American Company, a registered holding company, has filed a declaration pursuant to the applicable provisions of the Public Utility Holding Company Act of 1935 and the General Rules and Regulations promulgated thereunder, regarding a proposal to pay on October 1, 1945, a dividend to its holders of common stock of record on September 4, 1945, payable in the common stock of Pacific Gas and Electric Company having a par value of $25 per share owned by The North American Company, at a rate of one share of such stock of Pacific Gas and Electric Company on each one hundred shares of the outstanding common stock of The North American Company. In lieu of certificates for fractions of shares of stock of Pacific Gas and Electric Company, cash will be paid at the rate of 41 cents for each 1/100th of a share of such stock of Pacific Gas and Electric Company, this rate being based on the approximate market price of $41.00 per share as of August 2, 1945, the date the proposed dividend was declared.

Said declaration having been filed on the 3d day of August 1945, and notice of filing having been duly given in the manner and form prescribed by Rule U-23 under said act and the Commission not having received a request for a hearing with respect to said declaration within the period specified in such notice, or otherwise, and not having ordered a hearing thereon; and

The North American Company having requested that the Commission issue its order on or before August 25, 1945; and

The Commission finding that the requirements of section 12 (d) and Rules U-43 and U-44 are satisfied, that no adverse findings are necessary thereunder, and that action upon said declaration should be accelerated, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective;

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said declaration be and the same is hereby permitted to become effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 45–15712; Filed, Aug. 23, 1945; 12:21 p. m.]

PART II

FEDERAL REGISTER

VOLUME 10 NUMBER 168

Washington, Saturday, August 25, 1945

Regulations

TITLE 10—ARMY: WAR DEPARTMENT

Chapter VIII—Supplies and Equipment

PROCUREMENT REGULATIONS AND JOINT TERMINATION REGULATION

The following regulations in Parts 801 to 849 of this chapter comprise the complete War Department Procurement Regulations, 5 September 1942, together with the War and Navy Department Joint Termination Regulation, 20 April 1945, as amended by changes subsequent to those dates, including Change 50 dated 10 August 1945.

In Subchapters A and C the numbers to the right of the decimal point correspond to the paragraph numbers in the original regulations. In Subchapter B the first portion of the paragraph numbers in the original regulations—"7–"—has been omitted. With this exception the numbers to the right of the decimal point correspond to the paragraph numbers in the original regulations.

[SEAL] EDWARD F. WITSELL,
Brigadier General,
Acting The Adjutant General,
War Department.

W. JOHN KENNEY,
Vice Chief,
Office of Procurement and Material,
Navy Department.

AUTHORITY: Parts 801 to 849, inclusive, issued under sec. 5a, National Defense Act, as amended, 41 Stat. 764, 54 Stat. 1225, 10 U.S.C. 1193–1195; the First War Powers Act, 1941, 55 Stat. 838, 50 U.S.C. Supp., 601–622; and the Contract Settlement Act of 1944, 58 Stat. 649.

Subchapter A—Procurement

[Procurement Reg. 1]

PART 801—GENERAL INSTRUCTIONS

SUBPART A—INTRODUCTION

Sec.
801.101 Publication of Procurement Regulations.
801.102 Rescission of Army Regulations.
801.103 Rescission of other regulations, instructions and directives.

SUBPART B—DISTRIBUTION OF PROCUREMENT REGULATIONS

801.106 Distribution of Procurement Regulations.

SUBPART C—APPLICABILITY OF REGULATIONS

801.107 Authority with respect to procurement.
801.108 Applicability of these Procurement Regulations.

SUBPART D—MISCELLANEOUS PROHIBITIONS

801.109 Prohibition against voluntary service.
801.110 Prohibition against use of troop labor.
801.111 Conflicts between outside interests of officers or civilian employees and their official duties.

SUBPART E—PROPOSALS FOR LEGISLATIVE ACTION AND FOR EXECUTIVE ORDERS AFFECTING PROCUREMENT

801.113 General.
801.114 Legislation includes Executive orders.
801.115 Legislative Division, Office of the Under Secretary of War.
801.116 Proposals for legislative action affecting procurement.
801.117 Action of Legislative Division.
801.118 Congressional hearings.
801.119 Reports on legislative proposals.

SUBPART A—INTRODUCTION

§ 801.101 *Publication of procurement regulations.* Prior to July 1, 1942, it was the practice of the War Department to publish procurement regulations in the form of Army Regulations, War Department Procurement Circulars, and otherwise. As of July 1, 1942, the present numbered series of procurement regulations was issued to replace all other procurement regulations in effect as of that date. As changes in or additions to these regulations become necessary, they are currently effected by the publication of revisions.

§ 801.102 *Rescission of Army Regulations.* The following Army Regulations have been rescinded:

AR 5-50	AR 5-160	AR 5-240	AR 5-320
AR 5-100	AR 5-200	AR 5-260	AR 5-340
AR 5-140	AR 5-220	AR 5-300	AR 5-360

§ 801.103 *Rescission of other regulations, instructions and directives.* (a) Effective July 1, 1942, all War Department Procurement Circulars not theretofore rescinded, and the temporary series of procurement regulations with numbers followed by "T", have been rescinded.

(b) All regulations, instructions and directives inconsistent with these procurement regulations as originally issued under date of July 1, 1942, or with any revision thereof, shall be deemed rescinded as of July 1, 1942, or as of the date of such revision, as the case may be.

SUBPART B—DISTRIBUTION OF PROCUREMENT REGULATIONS

§ 801.106 *Distribution of procurement regulations.*

§ 801.106-1 *Distribution to military establishments of complete sets of procurement regulations and of revisions to complete sets.* (a) Complete sets of procurement regulations and of revisions to complete sets are distributed by Legal Branch, Office, Director of Matériel, Headquarters, Army Service Forces, Room 5C-659, The Pentagon, Washington 25, D. C.

(b) All communications pertaining to the distribution of complete sets of procurement regulations and of revisions to complete sets, including:

(1) Requests for complete sets;

(2) Requests for increase or decrease in the number of copies of revisions to be furnished;

(3) Requests for copies of particular revisions;

(4) Requests for missing pages or tab cards;

(5) Requests for change of address to which revisions are to be forwarded;

(6) Requests that mailings of revisions be discontinued; should be addressed and forwarded directly to the address mentioned in paragraph (a) of this section.

(c) Any request for complete sets should specifically indicate whether or not any addition or other change is to be made in the mailing list for future revisions.

(d) Any request which involves any increase or decrease in the number of copies of revisions to be furnished should specify not only the new number of copies desired but also the number of copies currently being furnished. In addition, any such request and any request for a change of address should specify the mailing address (as appearing on the envelope or package in which revisions are received) to which revisions currently are being forwarded.

(e) Any request which involves an increase in the number of copies of complete sets being maintained at an installation, or an increase in the number of copies of revisions to be forwarded to an installation, should be accompanied by information concerning the need for the increase.

(f) Communications (including requests mentioned in this section) pertaining to the distribution of procurement regulations may be by letter or memorandum. Such requests need not be in the form of formal requisitions.

(g) Except as indicated in § 801.106-2, no distribution is made of any individual procurement regulation in separate form.

§ 801.106-2 *Distribution to military establishments of Procurement Regulation No. 7 and Joint Termination Regulation (PR 15 in separate form).* (a) Procument Regulation No. 7 and the Joint Termination Regulation (PR 15) are included in complete sets of Procurement Regulations and in revisions to complete sets. Section 801.106-1 relates to distribution of complete sets and revisions to complete sets. In addition, Procurement Regulation No. 7 and the Joint Termination Regulation (PR 15) and changes thereto, in separate form, are available to military establishments as indicated in paragraphs (b) and (c) of this section.

(b) Procurement Regulation No. 7 and changes thereto, in separate loose-leaf form, are distributed through Adjutant General Depots and, in case of the Army Air Forces, through ATSC District Offices and Headquarters, Air Technical Service Command, Wright Field, Dayton, Ohio. Requisitions for Procurement Regulation No. 7 and changes thereto, in separate form, should be addressed and forwarded to the appropriate distribution office and not to the address mentioned in § 801.106-1 (a).

(c) The Joint Termination Regulation (PR 15) and changes thereto, in separate loose-leaf form, are distributed through the Readjustment Distribution Center, Federal Office Building, 6th Floor, 90 Church Street, New York 7, New York. Requests for the Joint Termination Regulation and changes thereto, in separate form, should be addressed and forwarded to that office and not to the address mentioned in § 801.106-1 (a).

(d) When requesting Procurement Regulation No. 7 or the Joint Termination Regulation (PR 15), in separate form, the requesting installation should specify whether or not any addition or other change is to be made in the mailing list for the receipt of future changes to such regulations.

§ 801.106-3 *Availability of procurement regulations to private concerns.* (a) The complete procurement regulations, and the changes made by each revision, are reprinted in the FEDERAL REGISTER, which is available, at a nominal charge, from the Superintendent of Documents, Washington 25, D. C. The filing sheet of each revision to complete sets of procurement regulations lists the particular issues of the FEDERAL REGISTER in which such reprinting has taken place. In addition, the complete procurement regulations, or in certain cases particular procurement regulations, are also reprinted in certain commercial services.

(b) The Joint Termination Regulation (PR 15) and changes thereto, in separate loose-leaf form, are available in limited quantities, free of charge, to war contractors and allied organizations from the Joint Termination Regulation Distribution Center, Room 633, 90 Church Street, New York 7, New York. A mailing list is maintained by that office for the forwarding of future changes.

(c) Procurement Regulation No. 7 and changes thereto, in separate loose-leaf form, are available on a subscription basis, at a nominal charge, from the Superintendent of Documents, Washington 25, D. C. A mailing list is maintained by that office for the forwarding of future changes.

SUBPART C—APPLICABILITY OF REGULATIONS

§ 801.107 *Authority with respect to procurement.*

§ 801.107-1 *Basic statute.* Section 5a of the National Defense Act, as amended by section 2 of the act of December 16, 1940, provides in part as follows:

Hereafter the Secretary of War, in addition to other duties imposed upon him by law, shall be charged with the supervision of the procurement of all military supplies and other business of the War Department pertaining thereto and the assurance of adequate provision for the mobilization of matériel and industrial organizations essential to wartime needs, and he may assign to the Under Secretary of War and The Assistant Secretary of War such duties in connection therewith as he may deem proper. (10 U.S.C. 1193; M.L. 1939, sec. 897)

By the terms of the act of December 15, 1944 (Public Law 488, 78th Congress) the above-quoted provision will remain in force until six months after the termination of the present war or until such earlier date as Congress or the President may designate.

§ 801.107-2 *Delegations from the Secretary of War to the Under Secretary of War.* (a) On April 21, 1941, the Secretary of War issued the following order:

Pursuant to authority contained in the Act of December 16, 1940 (Public No. 891—76th Congress):

a. The duties and responsibilities placed on the Secretary of War by Section 5a of the National Defense Act, as amended, are hereby assigned to the Under Secretary of War.

b. Chiefs of branches of the Army will report directly to the Under Secretary of War regarding all matters of procurement.

c. The Under Secretary of War will continue to perform the duties and discharge the responsibilities placed on the Assistant Secretary of War by Army Regulations No. 5-5, July 16, 1932, Orders E. War Department, November 28, 1933, and all other existing orders or instructions.

d. The office heretofore designated as the Office of The Assistant Secretary of War will hereafter be designated the Office of the Under Secretary of War. All officers and civilian employees now detailed to the Office of the Under Secretary of War or the Office of The Assistant Secretary of War from the branches engaged in procurement, and all other officers and employees now on duty in the Office of the Under Secretary of War or in the Office of The Assistant Secretary of War, shall continue on such detail and duty in the Office of the Under Secretary of War.

e. During the absence or disability of the Under Secretary of War, or in the event of a temporary vacancy in that office, the duties and responsibilities of the Under Secretary of War shall be performed and discharged by The Assistant Secretary of War, and in the case of the absence or disability of both the Under Secretary of War and The Assistant Secretary of War, or in the event of a temporary vacancy in both of said offices, the duties and responsibilities of the Under Secretary of War shall be performed and discharged by the Assistant Secretary of War for Air.

(b) Under date of December 30, 1941, the Secretary of War issued the following memorandum:

MEMORANDUM for the Under Secretary of War.

Subject: Delegation of Authority under Executive Order No. 9001.

The powers delegated to the War Department by Executive Order No. 9001, dated December 27, 1941, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made, and to make advance, progress, and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts are hereby further delegated to the Under Secretary of War. He may, pursuant to Executive Order No. 9001, exercise such powers either personally or through such officer or officers or civilian officials of the War Department as he may direct, and he may confer upon such officers or civilian officials the power to make further delegations of such powers within the War Department.

HENRY L. STIMSON,
Secretary of War.

(c) War Department Circular 59, issued under date of March 2, 1942, provides in part as follows:

1. The President has approved a reorganization of the War Department and the Army, *effective March 9, 1942.* Pending the issuance of detailed instructions and changes in regulation, a summary description of the new organization is furnished for the information and guidance of all concerned.

* * * * *

e. Supply arms and services and War Department offices and agencies will come under the direct command of the Commanding General, Services of Supply as indicated below:

(1) Those parts of the office of the Under Secretary of War engaged in functions of procurement and industrial mobilization.

* * * * *

b. The mission of the Army Air Forces is to procure and maintain equipment peculiar to the Army Air Forces, and to provide air force units properly organized, trained, and equipped for combat operations. Procurement and related functions will be executed under the direction of the Under Secretary of War.

* * * * *

7. Services of Supply. a. The duties and responsibilities placed on the Secretary of War by Section 5a of the National Defense Act, as amended, shall continue to be performed by the Under Secretary of War. The Director of Production shall continue to perform his present services reporting direct to the Under Secretary of War.

b. The Commanding General, Services of Supply, shall, on procurement and related matters, act under the direction of the Under Secretary of War and shall, on military matters, report to the Chief of Staff. The Commanding General, Services of Supply, is charged in general with the functions, responsibilities, and authorities of command authorized by law, Army Regulations, and custom over individuals and units assigned to the Services of Supply.

c. The mission of the Services of Supply is to provide services and supplies to meet military requirements except those peculiar to the Army Air Forces. Procurement and related functions will be executed under the direction of the Under Secretary of War.

d. The Services of Supply consolidates under the jurisdiction of the Commanding General, Services of Supply, the supply arms and services, certain administrative services of the War Department, certain parts of the office of the Under Secretary of War, certain boards and committees, general depots, ports of embarkation and auxiliaries, and corps areas, with such amalgamation, reallocation of duties, and reorganization as is necessary or advisable.

e. The following duties are specifically assigned to the Services of Supply:

(1) The direction and supervision of engineering research, development, procurement, storage, and distribution of supplies and equipment, except those peculiar to the Army Air Forces.

(2) The establishment of purchasing and contractual policies and procedure.

(3) Transportation and traffic control.

(4) Construction for the Army.

(5) The consolidation of programs and requirements of the Army with the programs and requirements received from Defense Aid and the Navy and procured by the Army.

§ 801.107-3 *Responsibilities of the Under Secretary of War fixed by AR 5-5.* Although Army Regulation 5-5 was rescinded as of July 1, 1942, and not reissued until April 2, 1945, the portion of that regulation relating to the responsibilities of The Assistant Secretary of War (now the Under Secretary of War), as in effect just prior to its rescission, is incorporated by reference in paragraph c of the above quoted order of the Secretary of War, dated April 21, 1941. The portion of said regulation which is thus continued in force reads as follows:

* * * * *

b. Definition. Under section 5a, national defense act, as amended, the Assistant Secretary of War, under the direction of the Secretary of War, is charged, among other duties, with the supervision of all administrative and operative functions and installations of the Military Establishment concerned in the acquisition or production of military supplies. The types of matériel desired having been specified by the proper agencies, the responsibilities of the Assistant Secretary of War, under the statute, begin with the necessary preliminary and preparatory measures for the procurement or production of such matériel, and end with its delivery to the proper supply arms and services for issue.

c. Supervision over procurement includes preparation of plans and policies and supervision of activities concerning—

(1) Research and development of substitutes for critical and strategic materials and of materials, methods or processes, and facilities for manufacturing purposes.

(2) The procurement of materials and facilities for manufacturing purposes.

(3) Preparation of United States Army manufacturing specifications and the commercial standardization activities of the supply arms and services. See AR 850-25.

(4) Procurement of all military supplies by purchase, production, or other means, whether obtained for experimental, service test, or issue purposes; inspection, test, acceptance, and storage of supplies incident to procurement; the procurement of real estate and the construction, operation, maintenance, repair, and inspection of all establishments and facilities for the foregoing purposes.

(5) Procurement of supplies for other Government departments or for foreign governments at their request.

(6) The acquisition and use of patent rights by the War Department and the Army.

(7) The transfer or exchange of military supplies in conformity with approved policies.

(8) The renovation of matériel on a production basis at an establishment functioning under the direct control of a chief of a supply arm or service in accordance with approved policies and projects.

(9) The collection of information and compilation of data pertaining to sources of supply.

(10) The assurance of adequate and timely provisions for the mobilization of the matériel and industrial organizations essential to war-time needs, including arrangements in the supply arms and services and arrangements with the agencies outside the War Department.

(11) The Army Industrial College, Washington, D. C.

(12) Instruction in business administration at civilian institutions.

(13) Fiscal matters pertinent to procurement in accordance with instructions contained in paragraph 1b (2) and (4) of orders E, War Department, October 29, 1925.

(14) Legislation relating to procurement.

(15) Civilian personnel engaged on procurement duties.

(16) Any other matters pertaining solely to the business activities of the War Department in the procurement of military supplies. The determining factor in all cases will be whether the aspect of the particular activity concerned in the given case is incident to *procurement.* If it is, the statute places it under the supervision of the Assistant Secretary of War.

d. The Assistant Secretary of War will represent the War Department—

(1) On all interdepartmental boards for the standardization of—

(*a*) Specifications.

(*b*) Procurement procedure.

(2) On the army and Navy Munitions Board.

(3) In dealing with any interdepartmental or superdepartmental agency that may be created in connection with the allocation of matériel or industrial facilities to various uses.

(4) In arranging necessary contacts with other standardization bodies such as the American Engineering Standards Committee and the Division of Simplified Practice, Department of Commerce.

(5) On the Patents and Design Board. Sec. 10 (r), act July 2, 1926 (44 Stat. 788; U.S.C. 10:310 (r); sec. 2041, R. L., 1939).

(6) On the Advisory Air Coordination Committee.

(7) In dealing with any interdepartmental or superdepartmental agency that may be created in connection with aeronautical matters.

c. Chiefs of supply arms and services will report directly to and will correspond directly with the Assistant Secretary of War on all matters covered above.

2. *Delegated duties.* The following duties are delegated to the Assistant Secretary of War and are classified as follows:

a. Military.

(1) (*a*) Matters pertaining to the Militia Bureau and the National Guard.

(*b*) Matters pertaining to the Officers' Reserve Corps and the Organized Reserves.

(*c*) Clemency cases in mitigation or remission of sentence by courts-martial.

(2) Correspondence on the matters in (1) above will follow the usual military channels.

b. Nonmilitary. (1) (*a*) The sale or disposal of surplus supplies, equipment, plants, land, or other facilities.

(*b*) Claims, foreign or domestic, by or against the War Department, including those resulting from the operation of aircraft.

(*c*) The purchase and sale of real estate; the lease of real estate for the use of the War Department; the granting of leases or licenses to individuals, corporations, or organizations for the temporary use of land, buildings, or other property under War Department control; and easements or rights of way across military reservations, in accordance with approved policies.

(*d*) The activities relating to the National Board for the Promotion of Rifle Practice and to civilian marksmanship.

(*e*) Approval of expenditures from funds allotted, and of public vouchers for expenditures by the disbursing clerk of the War Department; approval of the program of expenditures by the National Board for the Promotion of Rifle Practice; routine expenditures from the appropriation "Contingencies of the Army"; and expenditures from "Contingencies, Military Information Division," for extraordinary expenses of military attachés and observers abroad.

(*f*) Matters relating to national military parks and national monuments.

(*g*) Matters relating to national cemeteries in the United States and abroad.

(*h*) Authorization of advertising.

(*i*) Regulations for burial expenses of deceased military personnel [AR 30-1830].

(*j*) The use of patent rights by the War Department and the Army.

(*k*) Bridge permits and extensions of time for completion of bridges.

(*l*) Disposition of engineer property pertaining to rivers and harbors.

(*m*) Permits for laying submarine cable.

(2) Correspondence on the matters in (1) above will be direct between the office of the Assistant Secretary of War and the agency or office concerned unless otherwise directed.

The foregoing provisions of this section were confirmed by paragraph 2d of Army Regulation 5-5, as reissued on April 2, 1945.

§ 801.107-4 *Orders, directives, regulations, and instructions relating to procurement policy, organization or procedure.* Under date of September 16, 1943, the Under Secretary of War addressed the following memorandum to the Commanding General, Army Air Forces and the Commanding General, Army Service Forces:

MEMORANDUM for: The Commanding General, Army Air Forces; The Commanding General, Army Service Forces.

1. Until otherwise directed, existing orders, directives, regulations and instructions with reference to procurement policy, organization or procedure, which have heretofore been issued by the Under Secretary of War, or by The Commanding General, Army Service Forces (formerly Services of Supply), or by higher authority, are applicable to the Army Air Forces as well as the Army Service Forces, unless otherwise specifically indicated.

2. Uniformity of policies and procedures in procurement and related matters will be accomplished in so far as practicable. To achieve this objective the following procedure is prescribed:

a. Prior to their issuance, important orders, directives, regulations or instructions affecting major policies on procurement or related matters will be presented to the Under Secretary of War for his approval.

b. All other orders, directives, regulations or instructions to carry out approved policies will be processed and issued by the Commanding General, Army Service Forces, without reference to the Under Secretary of War.

c. Orders, directives, regulations and instructions indicated in paragraphs a. and b. above will be issued by the Commanding General, Army Service Forces. They will be applicable to the Army Air Forces unless otherwise specifically indicated. Where so applicable, they shall, prior to their issuance, be cleared in each case with the Commanding General, Army Air Forces, through an Army Air Forces Liaison Officer designated by him. The Director, Purchases Division, Army Service Forces, will be responsible for referring such orders, directives, regulations and instructions to the Army Air Forces Liaison Officer for clearance. If the Army Air Forces disagree with the proposal in so far as it would be applicable to them, the matter will be submitted to the Under Secretary of War for decision.

d. The Commanding General, Army Service Forces, will furnish the Commanding General, Army Air Forces, with such number of copies of said orders, directives, regulations and instructions as the latter desires for redistribution to agencies under his jurisdiction.

3. This memorandum will supersede my communication dated 9 April 1942 to The Commanding General, Matériel Command, Army Air Forces and The Commanding General, Services of Supply, on the same subject. [The superseded memorandum was formerly set forth in this section].

ROBERT P. PATTERSON,
Under Secretary of War.

§ 801.107-5 *Delegations from the Under Secretary of War*—(a) *To the Commanding General, Army Service Forces.* Under date of September 15, 1942, the following memorandum was issued by the Under Secretary of War:

MEMORANDUM for the Commanding General, Services of Supply.

Subject: Delegation of Authority.

1. In confirmation of and supplementing the memorandum of the undersigned to the Commanding General, Services of Supply dated June 29, 1942 on the above subject, authority is hereby delegated to the Commanding General, Services of Supply, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to make, authorize and approve sales or contracts for the sale of equipment, supplies and material; to prescribe and modify regulations in respect of procurement; and to approve new War Department contract forms and deviations from approved forms of contracts, including all authority heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order 9001.

2. Without any limitation of the powers and authority hereinbefore granted, there is hereby vested in the Commanding General, Services of Supply, pursuant to and subject to the provisions of Title II of the First War Powers Act (Public Law 354, 77th Congress) and Executive Order 9001 the authority to take the following action:

a. He may enter into, amend or modify contracts, may make purchases, may place orders, and may make advance progress and other payments on such contracts, purchases and orders without regard to the provisions of law relating to the making, performance, amendment or modification of contracts.

b. The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form.

c. Whenever, in the judgment of the Commanding General, Services of Supply (or of an officer or civilian employee of the War Department to whom authority has been delegated to exercise such powers), the prosecution of the war is thereby facilitated, he may amend or modify contracts heretofore or hereafter made for the purpose of (1) obtaining continued operations by contractors engaged in war production, (2) encouraging greater diligence on the part of contractors, (3) protecting contractors from the consequences of unforeseen or unexpected events, (4) adjusting contracts to new conditions and circumstances, including those created by the rules, orders, instructions and determinations of Government departments, or (5) for any other purposes for facilitating the prosecution of the war.

Such amendments and modifications of contracts may be without consideration, other than the determination that the prosecution of the war will thereby be facilitated, and may be utilized to accomplish the same things as any original contract could accomplish, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract or the amendments or modifications thereof. The powers hereby delegated may be exercised by (1) supplemental agreements which modify or amend or settle claims by or against the United States arising under or with respect to any contracts heretofore or hereafter made; (2) agreements with contractors or obligors modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under any surety or other bond; or (3) supplemental agreements and change orders suspending or modifying the operation of existing contracts as yet uncompleted, and providing for the payment by the Government of the damages incurred by a contractor by reason of such suspension or modification; *provided* in each instance that full performance by the contractor under such contract, or under a series of contracts between the United States and the same contractor for substantially the same goods, shall not have been completed and final payment made thereunder. The supplemental contracts hereby authorized to be made include agreements of all kinds for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of the war, or for the invention, develop-

ment or production of, or research concerning any such things.

d. He may waive bid, payment, performance, or other bonds, and dispense with advertising for bids and competitive bidding.

3. Nothing herein shall affect the existing authority of the Commanding General, Services of Supply, as to matters relating to the Army Air Forces, the extent of which is set forth in the letter of April 9, 1942, from the Under Secretary of War to the Commanding General, Matériel Command, Army Air Forces, and to the Commanding General, Services of Supply, or any authority in respect of Army Air Force contracts and other contractual instruments, delegated to Colonel Albert J. Browning, A. U. S., by memoranda of the undersigned dated June 1, 1942, and September 15, 1942, nor shall anything herein contained be construed to limit or affect the power and authority of any commander in any theatre of operation.

4. The Commanding General, Services of Supply, or any person acting by delegation from him in the exercise of the powers hereby granted, shall have power to ratify and approve any contractual documents entered into or action taken by others, which he himself might have entered into or taken by virtue of the powers hereby granted.

5. The powers, authority and discretion hereby conferred upon the Commanding General, Services of Supply, or any portion or portions thereof, may be redelegated by him to whomsoever he may designate, including without limitation the Director, Purchases Division, Services of Supply, with the power of redelegating such powers, in whole or in part, to any officer or officers or civilian official or officials of the War Department. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the war.

ROBERT P. PATTERSON,
Under Secretary of War.

The memorandum of the Under Secretary of War, dated June 29, 1942, referred to in above memorandum reads as follows:

MEMORANDUM for the Commanding General, Services of Supply.

Subject: Delegation of Authority.

1. Authority is hereby delegated to the Commanding General, Services of Supply, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to approve sales of equipment, supplies and material; and to approve new War Department contract forms and deviations from approved forms of contracts, including all authority heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order No. 9001.

2. The Commanding General, Services of Supply, is authorized further to delegate the above powers or any portion thereof to whomsoever he may designate, with the power of redelegation.

3. The following memoranda are each hereby revoked; viz: (1) Memorandum for Mr. Albert J. Browning, dated March 13, 1942, delegating certain authority to the Chief of the Purchase Branch, Procurement and Distribution Division, Services of Supply, and (2) Memorandum for Colonel Albert J. Browning, A. U. S., dated June 2, 1942, delegating certain authority to him, as Chief of the Purchases Branch, Procurement and Distribution Division, Services of Supply. Nothing herein contained shall be construed as revoking the delegation of authority to Chiefs of Supply Services contained in Procurement Circular No. 91, dated December 29, 1941, and Procurement Circular No. 17, dated February 24, 1942, nor any delegation of authority heretofore made by the Commanding General, Services of Supply, or the Chief, Purchases Branch, Procurement and Distribution Division.

4. Nothing herein shall affect the existing authority of the Commanding General, Services of Supply, as to matters relating to the Army Air Forces, the extent of which is set forth in the letter of April 9, 1942, from the Under Secretary of War to the Commanding General, Matériel Command, Army Air Forces, and to the Commanding General, Services of Supply, or any authority in respect of Army Air Force contracts and other contractual instruments, delegated to Colonel Albert J. Browning, A. U. S., by memorandum of the undersigned, dated June 1, 1942.

ROBERT P. PATTERSON,
Under Secretary of War.

(b) *To the Chief of Staff.* Under date of January 11, 1943, the following memorandum was issued by the Under Secretary of War:

MEMORANDUM for The Chief of Staff:

1. There is hereby delegated to the Chief of Staff full power, in connection with operations subject to his direction and control, to exercise any of the authority and powers pursuant to Executive Order No. 9001 delegated to the undersigned by the Secretary of War by instrument dated December 30, 1941 [see paragraph (b) of this section]. The Chief of Staff may, pursuant to Executive Order No. 9001, exercise such powers either personally or through such officer or officers or civilian officials of the War Department as he may direct and he may confer upon such officers or civilian officials the power to make further delegations of such powers within the War Department.

2. All action heretofore taken by the Chief of Staff or by the direction of the Chief of Staff, that would by this delegation be authorized, is hereby ratified and confirmed. There is hereby expressly conferred upon the Chief of Staff the power and authority to ratify and confirm any action heretofore taken by any person responsible directly or indirectly to the Chief of Staff that would by this delegation of authority be authorized.

Dated this 11th day of January, 1943.

ROBERT P. PATTERSON,
Under Secretary of War.

§ 801.107–6 *Delegations from the Commanding General, Services of Supply, to the Director, Purchases Division.* Under date of September 16, 1942, the following memorandum was issued by the Commanding General, Services of Supply:

MEMORANDUM for Director, Purchases Division.

Subject: Delegation of Authority.

In confirmation of and supplementing the memorandum of the undersigned, dated June 29, 1942, to the Chief, Purchases Branch, Procurement and Distribution Division, Services of Supply (now the Director, Purchases Division, Services of Supply), the authority delegated to the Commanding General, Services of Supply, by memorandum of the Under Secretary of War, dated September 15, 1942 to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts and other contractual instruments, to make, authorize and approve sales or contracts for the sale of equipment, supplies and material and to approve War Department contract forms and deviations from approved forms, including all authority heretofore delegated to the undersigned pursuant to Public Law 354, 77th Congress, and Executive Order 9001 (including without limitation all authority pursuant to Public Law 354 and Executive Order 9001 delegated to the undersigned by the Under Secretary of War by the memorandum dated September 15, 1942), is hereby delegated to the Director, Purchases Division, Services of Supply. The Director, Purchases Division, is authorized to delegate further the above powers, authority, and discretions or any portion thereof to any officer or officers, or civilian official or officials of the War Department he may designate, with the power of redelegation. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the War.

BREHON SOMERVELL,
Lieutenant General, Commanding.

The memorandum of the Commanding General dated June 29, 1942, referred to in the above memorandum reads as follows:

MEMORANDUM for Chief, Purchases Branch, Procurement and Distribution Division.

Subject: Delegation of Authority.

The authority delegated to the Commanding General, Services of Supply, by memorandum of the Under Secretary of War, dated June 29, 1942, to act for the Secretary of War or the Under Secretary of War in clearing, approving, and taking other action in respect to contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts and other contractual instruments, to approve sales of equipment, supplies and material and to approve War Department contract forms and deviations from approved forms, including all authority heretofore delegated to the undersigned pursuant to Public Law 354, 77th Congress, and Executive Order 9001, is hereby delegated to the Chief, Purchases Branch, Procurement and Distribution Division, Services of Supply. The Chief, Purchases Branch, Procurement and Distribution Division, is authorized to delegate further the above powers or any portion thereof to whomsoever he may designate, with the power of redelegation.

BREHON SOMERVELL,
Lieutenant General, Commanding.

§ 801.107–7 *Delegations from the Under Secretary of War to the Special Representative of the Under Secretary of War for the Army Air Forces.* Under date of September 15, 1942, the following memorandum was issued by the Under Secretary of War:

MEMORANDUM for Colonel Albert J. Browning, A. U. S., Special Representative of the Under Secretary of War.

Subject: Delegation of Authority.

1. In confirmation of and supplementing the memorandum of the undersigned to Colonel Albert J. Browning, A. U. S., dated June 1, 1942, on the above subject, authority is hereby delegated to Colonel Browning to act for the Secretary of War or the Under Secretary of War, in clearing, approving, and taking other action in respect to Army Air Force contracts, change orders, supplemental agreements, advance payments, awards, letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts, and other contractual instruments; to make, authorize and approve sales or contracts for the sale of Army Air Force equipment, supplies and material; and to approve new War Department Army Air Force contract forms and

deviations from approved forms of contracts, including all authority with respect to Army Air Force contracts and agreements of all kinds heretofore delegated to the undersigned by the Secretary of War pursuant to Public Law 354, 77th Congress and Executive Order No. 9001. This memorandum, however, shall not affect the existing authority of the Commanding General, Services of Supply, as to matters relating to the Air Forces, the extent of which is set forth in the letter dated April 9, 1942 from the Under Secretary of War to the Commanding General, Matériel Command, Army Air Forces, and to the Commanding General, Services of Supply. Colonel Browning, and any person or persons designated by him as such, acting under the authority herein contained will act as "Special Representative of the Under Secretary of War."

2. Without any limitation of the powers and authority hereinbefore granted, there is hereby vested in Colonel Browning, pursuant to and subject to the provisions of Title II of the First War Powers Act (Public Law 354, 77th Congress) and Executive Order No. 9001 the authority to take the following action:

a. He may enter into, amend or modify contracts, may make purchases, may place orders, and may make advance progress and other payments on such contracts, purchases and orders without regard to the provisions of law relative to the making, performance, amendment, or modification of contracts.

b. The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form.

c. Whenever, in the judgment of Colonel Browning, (or of an officer or civilian employee of the War Department to whom authority has been delegated to exercise such powers), the prosecution of the war is thereby facilitated, he may amend or modify contracts heretofore or hereafter made for the purpose of (a) obtaining continued operations by contractors engaged in war production, (b) encouraging greater diligence on the part of contractors, (c) protecting contractors from the consequences of unforeseen or unexpected events, (d) adjusting contracts to new conditions and circumstances, including those created by the rules, orders, instructions and determinations of Government departments, or (e) for any other purposes for facilitating the prosecution of the war.

Such amendments and modifications of contracts may be made without consideration, other than the determination that the prosecution of the war will thereby be facilitated, and may be utilized to accomplish the same things as any original contract could accomplish, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract or the amendments or modifications thereof. The powers hereby delegated may be exercised by (a) supplemental agreements which modify or amend or settle claims by or against the United States arising under or with respect to any contacts heretofore or hereafter made; (b) agreements with contractors or obligors modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under any surety or other bond; or (c) supplemental agreements and change orders suspending or modifying the operation of existing contracts as yet uncompleted, and providing for the payment by the Government of the damages incurred by a contractor by reason of such suspension or modification; *Provided* in each instance that full performance by the contractor under such contract, or under a series of contracts between the United States and the same contractor for substantially the same goods, shall not have been completed and final payment made thereunder. The supplemental contracts hereby authorized to be made include agreements of all kinds for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of the war, or for the invention, development or production of, or research concerning any such things.

d. He may waive bid, payment, performance, or other bonds, and dispense with advertising for bids and competitive bidding.

4. Colonel Browning, or any person acting by delegation from him in the exercise of the powers hereby granted, shall have power to ratify and approve any contractual documents entered into or action taken by others, which he himself might have entered into or taken by virtue of the powers hereby granted.

5. The powers, authority and discretion hereby conferred upon Colonel Browning, or any portion or portions thereof, may be redelegated by him to whomsoever he may designate, with the power of redelegating such powers, in whole or in part, to any officer or officers or civilian official or officials of the War Department. In any delegation of power or authority hereunder there may be included such terms and conditions, if any, as the person making such delegation may deem appropriate to ensure proper exercise of such power and authority in the interest of the United States and of the prosecution of the war.

ROBERT P. PATTERSON,
Under Secretary of War.

The memorandum of the Under Secretary of War, dated June 1, 1942, referred to in the above memorandum, reads as follows:

MEMORANDUM for Colonel Albert J. Browning, A. U. S.

Authority is hereby delegated to Colonel Albert J. Browning, A. U. S. to act for the Secretary of War and/or the Under Secretary of War in clearing, approving and taking other action in respect to Army Air Force contracts, change orders, supplemental agreements, advance payments, awards; letters of intent, letter contracts, letter purchase orders, leases, amendments of contracts and other contractual instruments; to approve sales of Army Air Force equipment, supplies and materials; and to approve new War Department Army Air Force contract forms and deviations from approved forms of Army Air Force contracts.

The foregoing authority, or any portion thereof, is likewise delegated to such person or persons as may be designated in writing by Colonel Albert J. Browning, A. U. S.

The individual acting under the foregoing authority will so act as "Special Representative of the Under Secretary of War."

The foregoing authority shall remain in full force and effect until revoked by this office.

By direction of the Secretary of War:

ROBERT P. PATTERSON,
Under Secretary of War.

§ 801.107–8 *Delegation of authority to Legal Assistant to Director of Matériel and to Chief, Legal Branch to approve contract forms.* Under date of November 12, 1943 the following memorandum was issued:

MEMORANDUM for Legal Assistant to the Director of Matériel and to the Chief, Legal Branch, Director of Matériel.

Subject: Delegation of Authority to Approve Contract Forms and Deviations from Approved Forms.

The authority delegated to the Director, Purchases Division, by the Commanding General, Services of Supply, dated September 15, 1942 and the authority delegated to me by the Under Secretary of War, dated September 15, 1942 (in respect of matters relating to the Army Air Forces) to act for the Secretary of War or the Under Secretary of War in approving War Department contract forms and deviations from approved forms is hereby further delegated to the Legal Assistant to the Director of Matériel, and to the Chief, Legal Branch, Director of Matériel, Army Service Forces, or either of them, and to any person who for the time being may be acting in either capacity.

ALBERT J. BROWNING,
Brigadier General, General Staff Corps,
Director, Purchases Division.

§ 801.107–9 *Authority delegated by these procurement regulations.* These regulations to the extent, and only to the extent, that they actually confer authority upon the chiefs of the technical services and other officers or civilian officials of the War Department to exercise power to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made and to make advance, progress and other payments thereon shall constitute a redelegation by the Commanding General, Army Service Forces of the authority delegated to him as set forth in § 801.107–5, and by the Special Representative of the Under Secretary of War of the authority delegated to him, as set forth in § 807.107–7. The authority granted as provided in the preceding sentence, of course, does not dispense with the necessity of obtaining any approval expressly specified in any paragraph of these procurement regulations. Authority conferred upon any of the chiefs of the technical services under any paragraph of these procurement regulations may be exercised by the chiefs of the technical services, respectively, by redelegation or otherwise, through such officer or officers or civilian official or officials of the War Department as may be designated by them or by any person authorized by them to make such designation, with such powers of delegation or successive redelegation as they may deem appropriate; subject, however, to any provisions in the particular section of this chapter,

(a) Forbidding the assignment or delegation of the authority mentioned in such section, or

(b) Imposing limitations upon the assignment, delegation or exercise of such authority.

The exercise prior to the date of these regulations of any such authority by any such officer or officers or civilian official or officials of the War Department is hereby ratified and confirmed in all respects.

§ 801.107–10 Since the regulations are generally declaratory of policy only, it will be necessary for the chief of each technical service to publish appropriate instructions on procedure.

§ 801.108 *Applicability of these procurement regulations.*

§ 801.108–1 *Preliminary definitions.* (a) The term "procurement activities", as used in § 801.108–2, includes all such activities except the acquisition and disposal of real estate so far as the latter are governed and regulated by AR 100–60, 100–61, 100–62 and 100–63. The term comprises, but is not necessarily limited to, the procurement of supplies, material and equipment and the procurement of construction work, including that on rivers and harbors.

(b) The term "Army agencies", as used in § 801.108–2, includes all personnel of the Army, except as indicated in § 801.108–6. In particular, it includes the agencies referred to in §§ 801.108–4 and 801.108–5.

(c) The term "appropriated funds", as used in § 801.108–2, comprises all such funds, including such funds allocated to, as distinguished from appropriated to, the War Department; but does not include organizational, unit or similar funds.

§ 801.108–2 These procurement regulations are applicable to all procurement activities carried on by Army agencies with appropriated funds. If a project involves both a procurement activity and acquisition or disposal of real estate governed and regulated by the Army Regulations referred to in § 801.108–1, these procurement regulations are applicable so far as the procurement activity is concerned and are inapplicable so far as the acquisition or disposal of real estate is concerned.

§ 801.108–3 *Technical services and supply services.* Pursuant to Circular No. 30, Headquarters Army Service Forces, 15 May 1943, the designation of "supply services" is changed to "technical services". This change is being made in the procurement regulations as occasion arises to reprint pages for other reasons. In the meantime, the term "supply services" should be read as "technical services".

§ 801.108–4 *Army Air Forces.* (a) The regulations have been issued with the approval of the Army Air Forces, and shall, unless otherwise specifically indicated, apply to the Army Air Forces.

(b) Whenever used herein, unless otherwise specifically indicated, the term "technical services" shall be deemed to include the Army Air Forces, and the term "chiefs of the technical services" shall be deemed to include the Commanding General, Army Air Forces. Likewise, the terms "Director, Purchases Division, Headquarters, Army Service Forces" and "Director, Readjustment Division, Headquarters, Army Service Forces", when used in connection with action to be taken in respect of the Army Air Forces, shall, unless otherwise specifically indicated, be deemed to refer to the Special Representative of the Under Secretary of War designated for that purpose.

(c) Except as specifically otherwise provided, all communications to the Army Air Forces or to the Commanding General, Army Air Forces, relating to procurement, should be addressed to the attention of the Procurement Division, Assistant Chief of Air Staff, Matériel and Services.

§ 801.108–5 *Service commands.* These regulations are applicable to the procurement activities of the service commands. Where procurement is accomplished by a service command at the direction of the chief of a technical service or his duly authorized representative, the directions will contain references to the applicable sections of the procurement regulations and will also contain supplementary instructions where appropriate. In such a case, for the purposes of these regulations, the procurement shall be regarded as procurement by the technical service concerned and the contract will be regarded as a contract of that technical service. In all other cases, except as provided in § 803.318c–2, the service command accomplishing the procurement shall act independently of any technical service and the term "technical service" and the term "service", as used in these regulations, shall be deemed to refer to the service commands and the term "chiefs of technical services" and "chiefs of services" shall be deemed to refer to the Commanding Generals of the service commands. In connection with this section see § 801.108–3.

§ 801.108–6 *Procurement, contracting, termination and renegotiation authority of commanding officers outside continental United States.* (a) In general, each commanding officer in charge of United States armed forces outside the continental United States and its territories and possessions, including Alaska, who is responsible direct to the War Department, in connection with the procurement of supplies and facilities which he may deem necessary or appropriate to facilitate the prosecution of the war and to accomplish the mission confided in him or to protect the health, safety and welfare of the forces under his command, may disregard the provisions of the procurement regulations, Army Regulations and other regulations, circulars, or instructions, and any provisions or restrictions of the laws of the United States which may be applicable within the United States or any territory or possession thereof. This matter is more fully treated in section I of Circular No. 330, War Department, 1944, as amended by section IV, Circular No. 53, War Department, 1945.

(b) Likewise, in general, commanding officers in charge of United States armed forces outside the continental United States but within the territories or possessions of the United States, including Alaska, who is responsible direct to the War Department, in connection with the procurement of supplies and facilities which he may deem necessary or appropriate to facilitate the prosecution of the war and to accomplish the mission confided in him, or to protect the health, safety and welfare of the forces under his command, may disregard the provisions of the procurement regulations, Army Regulations or other War Department regulations, restrictions, circulars or instructions, and if he finds that to do so would facilitate the prosecution of the war, may disregard any provisions of law relating to procurement: *Provided, however,* That he is not authorized to disregard any of the provisions of (1) Title II of the First War Powers Act, 1941, (2) the restrictive provisions contained in Executive Order No. 9001 or (3) except where express authority to take such action is given in a particular case, any law approved after 18 December 1941. This matter is more fully set forth in section II of Circular No. 330, War Department, 1944, as amended by section IV, Circular No. 53, War Department, 1945.

(c) Each commanding officer referred to in paragraph (a) or (b) above is authorized to exercise, within the limit of his command, subject to any applicable regulations or instructions of the Director of Contract Settlement, or of the War Department, any authority and discretion granted to the War Department under the Contract Settlement Act of 1944. The chiefs of the several technical services, subject to any such applicable regulations or instructions, are also authorized by Subchapter C, to exercise with respect to any contracts or class of contracts being administered under their direction, and made or performed outside of the continental limits of the United States or in Alaska, any such authority and discretion granted by that Act. The procedures applicable to the termination of contracts set out in Subchapter C are not applicable outside the continental United States or in Alaska, but may furnish useful suggestions as to procedures appropriately to be followed in such areas. This matter is more fully treated in section III of Circular No. 330, War Department, 1944.

(d) Authority and discretion under the Renegotiation Act of 1943 and under the Renegotiation Act of 1942 have been delegated to each commanding officer in charge of United States armed forces in Alaska or outside the continental United States, who is responsible direct to the War Department, as more fully set forth in section IV, Circular No. 330, War Department, 1944.

§ 801.108–7 *Procurement within the United States for armed forces abroad.* It is to be noted that the provisions of Circular No. 330, War Department, 1944, referred to in § 801.108–6 have no application to procurement within the United States for armed forces abroad.

SUBPART D—MISCELLANEOUS PROHIBITIONS

§ 801.109 *Prohibition against voluntary service.*

§ 801.109–1 No department or officer of the Government may accept voluntary service for the Government except in cases of sudden emergency involving the loss of human life or the destruction of property, or when a written statement is obtained that the service rendered will not be made the basis of a future claim against the Government for compensation.

§ 801.110 *Prohibition against use of troop labor.*

§ 801.110–1 Except in cases of manifest necessity or when authorized by the Secretary of War, the labor of troops will

not be used to enable the contractors to fulfill contracts.

§ 801.110–2 Whenever troop labor has been used:

(a) Authority therefore will be given in writing.

(b) A report enumerating in detail the service rendered will be forwarded to the Commanding General, Army Service Forces, Attention of Industrial Personnel Division.

(c) Full deduction will be made for the value of the service rendered.

§ 801.111 *Conflicts between outside interests of officers or civilian employees and their official duties.*

§ 801.111–1 *Basic statute.* Section 41 of the United States Criminal Code (18 U.S.C. 93) provides as follows:

No officer or agent of any corporation, joint-stock company, or association, and no member or agent of any firm, or person directly or indirectly interested in the pecuniary profits or contracts of such corporation, joint-stock company, association, or firm, shall be employed or shall act as an officer or agent of the United States for the transaction of business with such corporation, joint-stock company, association, or firm. Whoever shall violate the provisions of this section shall be fined not more than $2,000 and imprisoned not more than two years.

§ 801.111–2 *Construction of basic statute.* The general language of section 41 of the United States Criminal Code has been the subject of interpretation from time to time by The Judge Advocate General and by the Attorney General. The Judge Advocate General has been careful to point out that the question of construction presented "involves the construction and application of criminal statutes concerning which the Federal courts alone can speak with final authority." However, the substance of certain of those opinions is set forth as an aid in the construction of the statute:

(a) In Vol. 40, Op. No. 42, March 31, 1942, the Attorney General rendered an opinion concerning the use of a certain Army officer as a Liaison officer between a corporation and the War Department. It appeared that the officer was also an officer and stockholder in the corporation. In holding that the basic statute would be violated if the officer acted in that capacity, the Attorney General stated in part:

No man can serve two masters. The statute in question is clearly grounded on this assumption. Its manifest purpose is such that any attempt to reconcile it with the proposed employment runs into difficulties. Some of these difficulties are pointed out by The Judge Advocate General of the Army in his opinion on the question. Others are equally apparent.

No matter how high are the motives of the Army Officer who advises, he is likely as a realistic matter to be consciously or unconsciously influenced by the fact that his actions may benefit the corporation of which he is an officer and a stockholder. To a degree his salary as an officer of the corporation would be affected by whether his advice leads the War Department to enter into a procurement contract with his company. To a larger degree his share in the earnings of the corporation as a stockholder would be affected by his advice.

(b) In two recent opinions (SPJGA 210.4 and SPJGA 250.7) rendered respectively on May 22, 1942 and March 28, 1942 The Judge Advocate General concluded that a person holding stock in a corporation may be a "person directly or indirectly interested in the pecuniary costs or contracts of such corporation," within the meaning of the statute. It is to be emphasized, however, that these two opinions relate solely to that issue and do not constitute opinions on what constitutes the "transaction of business" with the corporation within the meaning of the statute. The construction of these words, as contained in the statute, was the subject of an opinion discussed in paragraph (c) below.

(c) Under date of December 3, 1942 (SPJGA 1942/5702) the opinion of The Judge Advocate General was requested with respect to the employment of a person as head of an agency which would have complete charge of all phases of production of certain items which were purchased by the War and Navy Departments. The prospective head of the agency had been for some years an officer of a corporation which was one of the largest producers of the items with which the agency would be concerned, but at the time of the opinion was on leave of absence without pay. It appeared, however, that under a retirement system established by the corporation he would, if he lived to a specified age, become entitled to certain annual payments. It further appeared that there was an understanding that if the agency were called upon to transact business with the corporation in question, such transactions would be conducted by other officers or employees of the agency and that if questions were presented not capable of final decision by such other officers or employees, such questions would be referred to higher authority for decision. However, it also appeared that the head of the agency would be called upon to determine questions of general policy which would affect the corporation of which he was formerly an officer along with other producers. The Judge Advocate General concluded that section 41 of the Criminal Code would not be violated by the employment of such an individual as head of the agency.

(d) In an opinion (JAG 231.27) dated February 3, 1923, the Acting Judge Advocate General throws further light on what constitutes transacting business within the meaning of section 41 of the Criminal Code. He had been requested to review the law in relation to the interest of the agents or officers of the United States in contracts with the United States with a view to the submission of proposed amendments thereto so as to permit the utilization of leading men in industry in an advisory capacity in connection with the planning and supervision of the procurement of war necessities. The opinion in part reads as follows:

The statute is to be strictly construed and criminality attaches only when an individual, being an officer, or member of a business concern or directly or indirectly interested in the profits of the concern is employed or acts as agent of the United States for the transaction of business with that concern. The Act contemplates the actual transaction of business. The negotiation of a tentative contract by an agent of the Government with a business concern in which that agent is an officer, member, or in which he is interested, although not binding upon either party until executed, in accordance with statutory authority and an appropriation sufficient for the fulfillment thereof, would probably be considered a violation of the statute if the performance of the contract was thereafter entered upon. For this reason, in the preparation of procurement plans, no person should be permitted to have a part as agent for the United States in the negotiation of tentative contracts with a concern of which he is an officer, agent or member, or in which he is pecuniarily interested. * * * it is considered that acting in a solely advisory capacity without actual participation in the negotiation or awarding of a contract or directing the awarding of a contract would not be a violation of Section 41 of the Federal Criminal Code.

§ 801.111–3 *Regulations supplementary to basic statute.* The following regulations supplementary to the statute set forth in § 801.111–1 are prescribed:

(a) No officer or employee of the War Department may act as an agent of the United States in advising, recommending, making or approving the purchase of supplies or other property, or in contracting therefor, if he would be admitted to share or receive directly or indirectly any pecuniary profit or benefit from such purchase or contract.

(b) No officer or civilian employee of the War Department shall be in direct charge of the negotiation of, or exercise authority for the final approval of, any contract with any corporation, joint-stock company, association or firm, if at any time during the period subsequent to December 7, 1936, such officer or civilian employee was employed by or engaged in a course of substantial non-Governmental business dealings with such corporation, joint-stock company, association or firm.

The Under Secretary of War is authorized to make exceptions to the regulation contained in paragraph (b) above. In particularly meritorious cases where because of the unusual training, experience or other qualifications of the officer or employee, the chief of a technical service finds that the application of the regulations contained in such paragraph would be a serious obstacle to the service in performing its mission, a request for an exemption may be forwarded to the Director, Purchases Division, Headquarters, Army Service Forces. Such requests shall be held to a minimum and when made shall be accompanied by a full statement of the circumstances which are believed to make such exemption necessary. No exemption may be made from the provisions of the statute referred to in § 801.111–1 or from paragraph (a) of this section.

SUBPART E—PROPOSALS FOR LEGISLATIVE ACTION AND FOR EXECUTIVE ORDERS AFFECTING PROCUREMENT

§ 801.113 *General.* By Circular No. 59, War Department, 1942, the Legislative and Liaison Division, War Department, is charged with supervising the preparation of legislation requested by the War Department, with preparing reports to Committees of Congress and with the maintenance of liaison necessary thereto. Said Circular No. 59 fur-

ther provides that the preparation of reports on legislation affecting the Army Ground Forces, the Army Air Forces or the Army Service Forces may be assigned to the command concerned.

§ 801.114 *Legislation includes Executive orders.* The terms "legislation" and "legislative", as hereinafter used in this subpart refer to action taken or to be taken by Congress, other than the enactment of strictly appropriation items, and to all Executive orders.

§ 801.115 *Legislative Division, Office of the Under Secretary of War.* With the approval and by the authority of the Under Secretary of War, the Legislative Division, Office of the Under Secretary of War, is designated as the agency charged with the coordination within that Office, the Army Service Forces and the Army Air Forces, of all legislative matters affecting procurement or related functions.

§ 801.116 *Proposals for legislative action affecting procurement.*

§ 801.116–1 Except as specifically otherwise provided in § 801.116–2, all proposals for legislative action affecting procurement or related functions, originating from any source whatsoever, will be referred to the Legislative Division, Office of the Under Secretary of War, for coordination.

§ 801.116–2 All such proposals, other than proposals for Executive orders, originating from sources outside the Office of the Under Secretary of War, the Army Service Forces or the Army Air Forces, will be referred to the Legal Branch, Purchases Division, Headquarters, Army Service Forces. The Legislative Section of that Branch will promptly review such proposals to determine which are of sufficient importance to the Office of the Under Secretary of War, the Army Service Forces, Army Air Forces, or any of them to warrant further consideration. Such of the proposals as warrant such consideration will be referred directly to the Legislative Division, Office of the Under Secretary of War, for coordination.

§ 801.117 *Action of Legislative Division.* The Legislative Division, Office of the Under Secretary of War, will, with respect to such proposals originating within the Office of the Under Secretary of War, the Army Service Forces, or the Army Air Forces:

(a) Take all necessary action to secure the views of those individuals and elements within the Office of the Under Secretary of War, the Army Service Forces and the Army Air Forces, whose responsibilities would be affected by such legislative action.

(b) Refer any questions regarding the form of the proposed legislative action to the Legal Branch, Purchases Division, Headquarters, Army Service Forces, for consideration and report.

(c) Make all necessary arrangements for proper coordination with other Government departments and agencies whose functions would be affected.

(d) If it is determined by proper authority to initiate such legislative action, coordinate the matter with the Legislative and Liaison Division, War Department.

(e) Take any other necessary or appropriate action in connection therewith.

With respect to such proposal originating from sources outside the Office of the Under Secretary of War, the Army Service Forces or the Army Air Forces, Legislative Division, Office of the Under Secretary of War will, upon receipt of such proposals, take the action described in paragraphs (a), (c) and (e) above.

§ 801.118 *Congressional hearings.* Arrangements for appropriate representation from the Office of the Under Secretary of War, the Army Service Forces and the Army Air Forces, at Congressional hearings on legislative proposals affecting procurement or related functions will be made through the Legislative Division, Office of the Under Secretary of War.

§ 801.119 *Reports on legislative proposals.* All requests from official sources, within or without the War Department, for reports on legislative proposals affecting procurement or related functions will, upon receipt by the Office of the Under Secretary of War, the Army Service Forces or the Army Air Forces, be referred to the Legislative Division, Office of the Under Secretary of War, which will secure reports from the appropriate sources within the aforesaid elements of the War Department and will forward such reports, after approval thereof by proper authority, through established channels to the sources of the requests.

[Procurement Reg. 2]

PART 802—GENERAL PURCHASE POLICIES

SUBPART A—GENERAL

Sec.
802.201 Rescission of regulations.
802.202 Compliance with this part.
802.203 Definitions.
802.204 Contracting authority.
802.205 Purpose of regulations.

SUBPART B—CONTRACT PLACEMENT

802.220 Scope of subpart.
802.221 Purchase of used or second-hand materials.
802.222 Time for placing contracts and scheduling of deliveries.
802.223 Factors governing placement of contracts.
802.224 Contracts for newly developed articles.
802.225 Smaller War Plants policy.
802.225a Policies for the protection of manufacturers of materials and components.
802.226 Debarred bidders.
802.228 Exceptions.

SUBPART C—CONTRACT PRICE POLICIES

802.230 Basic objectives.
802.231 General policy.
802.232 Cost-plus-a-fixed-fee contracts.
802.232a Time and material or labor-hour contracts.
802.233 Fixed-price contracts.
802.234 Termination article.
802.234a Protection against loss from early termination.
802.235 Financing provisions.
802.236 Price revision articles.
802.236a Escalation.
802.236b Incentive contracts.
802.237 Adjustments without contract provisions.
802.238 Policies on certain special items of cost.
802.239 Subsidy prohibited.

SUBPART D—NEGOTIATION OF CONTRACTS

802.240 Method of contracting.
802.241 Methods of negotiation.
802.242 Use of informal bids.
802.243 Contractors' proposals.
802.244 Purchase analysis.
802.245 Special clauses.
802.246 Compulsory purchases.
802.247 Assistance by Headquarters, ASF.
802.248 Purchasing by prime contractors.

SUBPART E—PRICE SUPERVISION

802.250 General policy.
802.251 Price analysis.
802.252 Profit analysis.
802.253 Financial analysis.
802.254 Supervision of subcontracts and purchases.
802.255 Sanctions.
802.256 Coordination.

SUBPART F—CONTRACTING POLICY REGARDING CONSTRUCTION AND MAINTENANCE WORK

802.260 General.

SUBPART I—PURCHASE ACTION REPORTS

802.290 General.
802.291 Definitions.
802.292 Filing of reports by stations under the jurisdiction of chiefs of technical services or commanding generals of service commands.
802.293 Filing and distribution of reports by chiefs of technical services and commanding generals of service commands.
802.294 Filing of reports by functional staff divisions and stations under their jurisdiction.
802.295 Special instructions concerning reporting of preliminary contractual agreements, open-end contracts and indefinite quantity contracts.
802.296 General instructions concerning report forms.
802.297 Report forms and related instructions.
802.298 Responsibilities of chiefs of technical services and commanding generals of service commands.
802.299 Special Purchase Action Report Forms.

SUBPART A—GENERAL

§ 802.201 *Rescission of regulations.* Army Regulations 5–140, May 22, 1940, as amended; Army Regulations 5–160, October 24, 1941, as amended; Army Regulations 5–240, February 11, 1936, as amended; and all other prior directives and instructions of whatsoever nature relating to negotiated purchases, open market purchases, procurement without advertising, and other purchasing methods are hereby rescinded.

§ 802.202 *Compliance with this part.* Unless otherwise specifically provided, compliance with any provision of this part or of any amendment thereto which requires a change in contract procedure or in any contract provision shall not be mandatory until thirty days after the issuance of such regulation or amendment.

§ 802.203 *Definitions.*

§ 802.203–1 The term "negotiation" as used in these procurement regulations includes any method of contracting or purchasing, except the formal

advertising and sealed bid procedure prescribed by section 3709, Revised Statutes.

§ 802.203–2 The term "negotiated purchases" includes all purchases made by negotiation as so defined. (See § 802.241).

§ 802.204 *Contracting authority.*

§ 802.204–1 *Basis.* War Department contracting and purchasing are now based primarily on the authority contained in the act of December 18, 1941 (Public No. 354, 77th Congress) referred to as the First War Powers Act, 1941, and Executive Order No. 9001, December 27, 1941. The earlier authority contained in sections 1 (a) and (b) of the act of July 2, 1940 (Public No. 703, 76th Congress) has also been extended, however, by section 9 of the act of June 30, 1941 (Public No. 139, 77th Congress) and by section 13 of the act of June 5, 1942 (Public No. 580, 77th Congress). (See § 802.240).

§ 802.204–2 *First War Powers Act.* Title II of the First War Powers Act, 1941, reads as follows:

SEC. 201. The President may authorize any department or agency of the Government exercising functions in connection with the prosecution of the war effort, in accordance with regulations prescribed by the President for the protection of the interests of the Government, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made and to make advance, progress and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts whenever he deems such action would facilitate the prosecution of the war: *Provided,* That nothing herein shall be construed to authorize the use of the cost-plus-a-percentage-of-cost system of contracting: *Provided further,* That nothing herein shall be construed to authorize any contracts in violation of existing law relating to limitation of profits: *Provided further,* That all acts under the authority of this section shall be made a matter of public record under regulations prescribed by the President and when deemed by him not to be incompatible with the public interest.

§ 802.204–3 *Authority conferred.* Title I of Executive Order No. 9001 confers authority on the War Department under The First War Powers Act, 1941, as follows:

(a) Section 1 of the Executive order authorizes the Secretary of War "within the limits of the amounts appropriated therefor, to enter into contracts and into amendments or modifications of contracts heretofore or hereafter made, and to make advance, progress, and other payments thereon, without regard to the provisions of law relating to the making, performance, amendment, or modification of contracts" and to delegate these powers with authority to redelegate them. With respect to such delegations, see § 801.107 and following of this chapter, and especially § 801.107–9.

(b) "The contracts hereby authorized to be made include agreements of all kinds (whether in the form of letters of intent, purchase orders, or otherwise) for all types and kinds of things and services necessary, appropriate or convenient for the prosecution of war, or for the invention, development, or production of, or research concerning any such things, including but not limited to, aircraft, buildings, vessels, arms, armament, equipment, or supplies of any kind, or any portion thereof, including plans, spare parts and equipment therefor, materials, supplies, facilities, utilities, machinery, machine tools, and any other equipment, without any restriction of any kind, either as to type, character, location or form."

(c) "The War Department, the Navy Department, and the United States Maritime Commission may by agreement modify or amend or settle claims under contracts heretofore or hereafter made, may make advance, progress and other payments upon such contracts of any percentum of the contract price, and may enter into agreements with contractors and/or obligors, modifying or releasing accrued obligations of any sort, including accrued liquidated damages or liability under surety or other bonds, whenever, in the judgment of the War Department, the Navy Department, or the United States Maritime Commission respectively the prosecution of the war is thereby facilitated. Amendments and modifications of contracts may be with or without consideration and may be utilized to accomplish the same things as any original contract could have accomplished hereunder, irrespective of the time or circumstances of the making of or the form of the contract amended or modified, or of the amending or modifying contract, and irrespective of rights which may have accrued under the contract, or the amendments or modifications thereof."

(d) "Advertising, competitive bidding and bid, payment, performance, or other bonds or other forms of security, need not be required." (See Part 804 of this chapter.)

§ 802.204–4 *Restrictions on powers.* Title II of Executive Order No. 9001, 3 CFR Cum. Supp., prescribes the following regulations for the exercise of the authority thereby conferred.

(a) "Complete data shall be maintained by the War Department, the Navy Department, and the United States Maritime Commission as to all contracts and purchases which they respectively make pursuant to the act and this Executive order. The Secretary of War, the Secretary of the Navy, and the Chairman of the United States Maritime Commission shall make available for public inspection, as they may respectively deem compatible with the public interest, so much of such data as does not cover restricted, confidential, or secret contracts or purchases." (As amended by E.O. 9296, January 30, 1943, 3 CFR 1943 Supp. See Subpart I of this part.)

(b) Notwithstanding anything in the act or Executive order, the War Department, the Navy Department, and the United States Maritime Commission shall not discriminate in any act performed thereunder against any person on the ground of race, creed, color or national origin, and all contracts shall be deemed to incorporate by reference a provision that the contractor and any subcontractors thereunder shall not so discriminate. (See § 803.325.)

(c) No claim against the United States arising under any purchase or contract made under the authority of the Act shall be assigned except in accordance with the Assignment of Claims Act, 1940 (Public No. 811, 76th Congress, approved October 9, 1940). (See §§ 803.390 to 803.390–7.)

(d) Advance payments shall be made hereunder only after careful scrutiny to determine that such payments will promote the national interest and under such regulations to that end as the Secretary of War, the Secretary of the Navy, or the United States Maritime Commission may prescribe. (See §§ 803.321 to 803.321–4.)

(e) Every contract entered into pursuant to the act and Executive order must contain the warranty by the contractor against payment of commissions and contingent fees set out in § 803.323 (see § 811.1181).

(f) The cost-plus-a-percentage-of-cost system of contracting shall not be used.

(g) Provisions of law limiting profits under contracts or fixed-fees continue in effect and in no case shall the fixed fee under a cost-plus-a-fixed-fee contract exceed 7% of the estimated cost exclusive of the fee.

(h) No contract or modification or amendment thereof shall be exempt from the provisions of the Walsh-Healey Act (49 Stat. 2036) because of being entered into without advertising or competitive bidding, and the provisions of that act, the Davis-Bacon Act, as amended (49 Stat. 1011), the Copeland Act, as amended (48 Stat. 948) and the Eight Hour Law, as amended by the act of September 9, 1940 (Public No. 781, 76th Congress) if otherwise applicable apply to contracts made and performed under the authority of the act and Executive order. (See Part 809 of this chapter.)

§ 802.204–5 *Extent of authority.* By an opinion dated August 29, 1942, the Attorney General of the United States has construed the power conferred by the First War Powers Act, 1941, and Executive Order No. 9001. This opinion ruled that a proposed delegation of authority from the Under Secretary of War to the Commanding General, Army Service Forces, substantially similar to the delegation contained in § 801.107–5 was within the authority of the act and Executive order.

§ 802.205 *Purpose of regulations.* In conferring the powers under the First War Powers Act, Executive Order No. 9001 directed the war agencies to work with the War Production Board "to bring about the conversion of manufacturing industries to war production, including the surveying of the war potential of industries, plant by plant; the spreading of war orders; the conversion of facilities; the assurance of efficient and speedy production; the development and use of subcontracting to the fullest extent and conservation of strategic materials." The policies and procedures designed to carry out these procurement objectives are stated in this and the following regulations. This regulation dis-

cusses the basic principles underlying the policies and methods elaborated in the subsequent regulations, and the relation of these various policies to the procurement program as a whole.

SUBPART B—CONTRACT PLACEMENT

§ 802.220 *Scope of subpart.*

§ 802.220–1 Attainment of the essential procurement objectives with the minimum disruption of the nation's economic system, and effective use of available labor, materials and facilities, depend to a large extent on sound contract placement. This subpart states the policies to be followed and the factors to be considered in placing contracts, in selecting contractors, in scheduling deliveries and in revising delivery schedules.

§ 802.220–2 *Related regulations.* Further policies governing placement of contracts for plant facilities expansion are treated in Part 810 of this chapter. Policies governing purchasing through other services and other departments are discussed in Part 806 of this chapter, and foreign purchases are treated in Part 805. Policies governing cutbacks and curtailment of production are stated in Subchapter C of this chapter.

§ 802.221 *Purchase of used or second-hand materials.*

§ 802.221–1 *Policy.* In view of the prevalent shortages of raw materials, manufacturing facilities and labor, second-hand or used articles will be procured instead of new articles whenever (a) they are suitable in quality and design for the particular purpose involved, and (b) they can be obtained at reasonable cost with reasonable effort at the time required, unless any agency allocating such articles (such as the Machine Tool Section of the Production Division) orders otherwise.

§ 802.221–2 *Execution.* The chief of each technical service will make adequate provision to insure that all procurement officers and agencies under his direction comply with the policy stated in § 802.221–2, and will place responsibility upon a designated member of his staff for requiring compliance with that policy to the greatest extent practicable.

§ 802.221–3 *Obstacles.* Whenever a statute, order or regulation prevents the effective procurement of suitable used articles or other articles already available instead of new articles, the chief of the technical service concerned will notify the Director, Purchases Division, Headquarters, Army Service Forces, of this fact so that appropriate action may be taken pursuant to the First War Powers Act, 1941, and Executive Order 9001, or otherwise, to remove any obstruction to such procurement.

§ 802.221–4 *Purchases from disposal agencies.* (See §§ 806.613 to 806.613–8.)

§ 802.222 *Time for placing contracts and scheduling deliveries.*

§ 802.222–1 *General policies.* (a) At an earlier stage in the war program, procuring agencies were encouraged to place contracts at the earliest possible time and to require contractors to commence production or to place subcontracts immediately. That policy was desirable as long as Army procurement was directed primarily to the task of providing the initial equipment for the rapidly expanding requirements of the Army and of the United Nations. However, that phase of procurement is now approaching completion. Except for comparatively few items, procurement for the future is designed to meet estimated replacements and operational requirements. The paramount and governing policy is still to place contracts sufficiently in advance of the actual need for the supplies to assure that deliveries will be made on time and in the proper quantities. Subject to this guiding principle, conditions now make it advisable that in the placement of contracts consideration also be given (1) to restricting contract commitments to the practicable minimum both as to time and quantity, and (2) to the use of contract forms which will provide for the maximum flexibility in production rates while at the same time assuring the availability of the production facilities needed to produce all known requirements. This change of emphasis is essential if useless surpluses and costly cancellation and termination charges are to be avoided.

(b) The scheduling of deliveries to correspond more closely with actual requirements is likewise essential in the present stage of the war program. Close scheduling tends to prevent the building up of surpluses and to diminish termination claims. It is also vital to the most efficient use of available industrial capacity. If manufacturers are required to produce and deliver items long before they will actually be needed, they may be forced to increase the number of their employees abnormally or be unable to produce other items which will be needed sooner, and scarce materials may be tied up in inventory not currently needed. Thus the failure to schedule deliveries properly tends to disrupt the Army supply program and prevents industrial capacity from being used in the production of items as they are needed. Accordingly future contracts will be scheduled so that supplies will be delivered to synchronize with actual requirements, unless in a particular case efficient production requires otherwise. Existing contracts will also be reviewed with a view to rescheduling deliveries on the same basis.

§ 802.222–2 *Suggested methods for minimizing contract commitments or increasing flexibility of production rates.* In succeeding sections, certain contract procedures are outlined by which in particular cases flexibility of production rates of may be attained or contract commitments reduced in time and amount. These procedures are suggestive only; they are not all-inclusive. It is recognized that variations of these procedures and the adoption of wholly different procedures may be required in many cases. It is emphasized, however, that it is a condition to the effective use of any such procedures that procuring agencies know, well in advance, the total procurement program with which they are charged; appraise the availability of production facilities in relation to that program; and understand the production problems of their contractors.

§ 802.222–3 *Avoiding excessive "lead time"*—(a) *Withholding contract placement.* Where it is known that production facilities will be available and adequate for a given period, it will often be possible and prudent to withhold the placement of contracts (or of some portion of the total contracts to be placed) until shortly before the start of the actual "lead time" which is required for the particular procurement.

(b) *Controlling rate of performance.* In other instances, where it is necessary to obtain more definite assurance of the availability of production facilities, it will be feasible to place contracts well in advance of the actually required "lead time," but to provide expressly, by contract, that acquisition of materials, placement of subcontracts, or manufacture shall not commence until an agreed date, or shall proceed at a rate of speed not in excess of an agreed rate.

§ 802.222–4 *Short term contracts.* For a variety of reasons, some of which were related only to administrative convenience, procuring agencies have in the past tended to enter upon long term commitments covering all the supplies believed to be needed over a lengthy period of time. Long term commitments may be necessary where, for example, the supplies to be procured are distinctively war items and involve long range development. Long term commitments, however, are often not essential where the supplies to be procured are standard commercial items, especially if any excess production, not absorbed by the Army, is needed or may readily be absorbed by the civilian economy. In such cases commitments may well be short term and for relatively small amounts. Besides reducing outstanding commitments, this procedure will tend to bring about lower prices because allowances for contingencies are reduced when the contract period is short. It will also tend to effect savings when engineering changes are ordered.

§ 802.222–5 *Short term commitments with options of renewal.* In some cases it will be found advisable to enter into a short term initial commitment with an option or a number of successive options in the Government to extend or renew the commitment, exercisable by giving notice an agreed period of time in advance of completion of the initial commitment, sufficient for the contractor to procure the necessary materials to assure continuity of production if the option is exercised by the Government. Prices for option periods extending over any long period of time should not be made final at the time the original commitment is made. The techniques of price redetermination and price revision (see Part 812, Subparts B, C, and D, of this chapter) should be availed of where possible.

§ 802.222–6 *Cancelling future deliveries by advance notice.* Particularly in the procurement of standard commercial items, it will often be possible without hardship on contractors to provide that the Government may cancel future deliveries without liability, upon giving

notice to the contractor an agreed period of time in advance. This period of advance notice should be fixed with due regard to the contractor's problems in scheduling raw materials and component parts and avoiding excessive inventories at the effective date of cancellation. Experience has shown that many contractors will readily acquiesce in this procedure and will not claim increased prices to compensate for the contingency of cancellation. However, in some cases where the procedure here described is availed of, it may be proper to provide for a sliding scale of prices with higher prices for early than for later deliveries, in order that starting load costs may be covered if future deliveries are cancelled. As an alternative, it may be advisable to provide that prices for all or for the later deliveries shall be subject to an appropriate type of price redetermination or price revision. The contract should provide that in case the contract is cancelled for the convenience of the Government without the agreed advance notice, settlement will be made under the uniform termination article (§ 803.324 (g)) as though the contract called only for the deliveries scheduled up to the date upon which the agreed period of notice would have expired.

§ 802.222–7 *Use of "Letter of Commitment" for controlled materials or critical components.* (a) Especially in the procurement of items other than standard commercial items, the tendency to make a long term commitment has frequently been based upon the fact that the contractor must have a binding contract well in advance in order to place his orders for CMP materials, or for critical components which require a long period of manufacture. In many of these cases the time required by the prime contractor to manufacture the end item, after the CMP materials or critical components have been delivered, is relatively short, and there would be no occasion for a long term commitment were it not for the time required for the procurement of the controlled materials or the critical components. Under such circumstances it is proper to make an early commitment with a prime contractor which will empower him to purchase the controlled materials or to acquire the critical components, but to withhold placing the contract for the end item until shortly before the "lead time" actually required for the production of the end item. This plan is considered particularly effective where a surplus of facilities exists and competition is present.

(b) A form of "Letter of Commitment (Raw Materials Under CMP)" has been published as a standard form (§ 813.1328). Under this form the contractor is authorized to purchase controlled materials. The Government does not commit itself to place a production contract for the end item with the contractor who received the letter of commitment. If the letter of commitment is terminated, or a production contract is not placed with the contractor who has received the letter of commitment, the contractor is assured reimbursement of his costs upon transfer of the materials to the Government or its designee (who may be another contractor to whom a production contract is awarded). To the extent that a production contract is awarded to the contractor requiring the use of the controlled materials, the Government's obligation under the letter of commitment is correspondingly reduced.

(c) The form of letter of commitment may be accommodated by proper amendments to cases where it is desired that critical components be acquired, or critical components plus controlled materials.

(d) The form of letter of commitment here discussed is not to be considered a letter of intent or letter order within the meaning of §§ 803.303a and 803.303a–1 which deal with temporary or preliminary contract instruments (see §§ 813.1307, 813.1308, 813.1309, 813.1310) calling upon the contractor to commence production of an item, rather than merely to acquire raw materials or critical components. While the use of letters of intent or letter orders of the former type is discouraged, and the technical services are urged to supersede such instruments by definitive contacts at the earliest feasible time, the letter of commitment will be used wherever feasible in accordance with the foregoing provisions of this section, and it will not be supplanted by definitive production contracts until shortly before the commencement of the required "lead time" for production. The form of letter of commitment published at § 813.1328 includes no provision for the allowance of a profit in case of termination. Provision for a profit in such contingency may, however, be included with the prior approval of the Director, Purchases Division, Headquarters, Army Service Forces.

§ 802.222–8 *Use of special "changes" article (§ 803.329a).* The special "changes" article set forth at § 803.329a authorizes, within agreed limits, and on certain conditions, the increase or decrease of the quantity of supplies to be delivered under a contract, and the extension or acceleration of delivery schedules. This article affords a ready means of adjusting quantities and deliveries to meet actual requirements, especially in the purchase of items which do not involve a long "lead time". It is not, however, intended that the special "changes" article shall be used as a means of avoiding the regular termination procedure for large scale terminations.

§ 802.222–9 *Illustrative contract provisions.* Two sets of contract provisions are here reproduced, exemplifying certain of the techniques discussed above.

(a) *"Short term supply contract with Government options."* Under this form of contract, the Government contracts for a quantity of supplies to be delivered over a period of three months; reserving options of renewal for three successive quarterly periods. Prices for each option period are to be negotiated, and, failing agreement, are to be fixed by the contracting officer at an amount representing fair and just compensation (with a right of review under the Disputes article). The contractor is obligated to procure necessary raw materials including packing supplies during an agreed "lead time" preceding the exercise of each option and is to be paid his applicable costs plus 2% in case the Government fails to exercise the option. W. D. Contract Form No. 1 (§ 813.1301) is used with the following additional provisions:

(a) The three months for which a delivery schedule is set forth herein is hereafter referred to as the "base period" and the amount to be delivered during such period is hereafter referred to as the "base period amount."

(b) The Government further authorizes the Contractor and the Contractor agrees to take as promptly as necessary all steps required in accordance with good business practice to have available all raw materials including packing supplies so as to be able to deliver during the three months succeeding the base period a quantity of the articles contracted for equal to the base period amount.

(c) Contractor agrees that the Government shall have the option to purchase a quantity of the articles contracted for, equal to the base period amount, to be delivered F. O. B. _____ in accordance with the delivery schedule determined by the Government, within a period of three months from the last delivery date immediately preceding the said option period. Such option shall be exercised by the delivery to the Contractor by the Contracting Officer of a notice to that effect thirty days prior to said delivery date. Upon receipt of said notice, the Contractor further agrees to take as promptly as necessary all steps required in accordance with good business practice to have available all raw materials, including packing supplies, so as to be able to deliver during the three months succeeding the said option period a second additional quantity of the articles covered by this contract equal to the base period amount.

(d) The parties agree that the price for the quantity covered by such option to be delivered in accordance with the delivery schedule determined by the Government shall be agreed upon at least fifteen days prior to the last delivery date immediately preceding the said option period, or within such further period as may be agreed upon by the Contractor and the Contracting Officer, and, when agreed upon, shall be evidenced by supplemental agreement hereto.

(e) In the event that the parties fail to agree, within the time specified, as to the price of the articles so to be delivered during such three months option period, the price payable therefor shall be determined at an amount constituting fair and just compensation for such articles. Such determination shall be made by the Contracting Officer and shall be subject to review in the manner provided in Article —— (Disputes).

(f) Negotiations for the fixing of the price for the quantities to be delivered during the three month option period shall be conducted on the same basis and shall employ the same types of data as in the case of a negotiation of a price under a new contract. The Contracting Officer may request and the Contractor shall supply the same types of information as in the case of a new contract including, without limiting the foregoing, the information developed and the additional experience gained in the performance of this contract.

(g) The Contractor agrees that if the Government shall exercise the option above provided for, it shall have two additional successive options to purchase additional quantities of the articles contracted for, each equal to the base period amount, and each such quantity to be delivered F. O. B. _____ within periods of three months each immediately succeeding the preceding option periods. The manner in which these additional successive options shall be exercised and the method of determining the prices

for the quantities to be delivered during such additional option periods respectively shall be as set forth with respect to the first option except that as to the last three month option, the Contractor is not authorized to incur any costs for any raw material or packing supplies for any deliveries beyond said last option period. If the Government fails to exercise any one of the aforesaid options it may not exercise any successive option.

(h) In the event the Government does not exercise any one of the options herein granted to it the Government agrees to reimburse the Contractor for all costs incurred by it in connection with having available raw materials and packing supplies as provided herein, and in addition a sum equal to 2% of such costs, and the Contractor agrees that it shall transfer title to and deliver such supplies and raw materials to or upon the order of the Government in the manner, to the extent and at the times directed by the Contracting Officer, or in the absence of such directions, shall retain such raw materials and packing supplies at prices to be agreed upon.

(i) The fixing of the contract price for any period as hereinbefore provided shall be without prejudice to the determination of any excessive profits of the Contractor upon subsequent renegotiation under the Renegotiation Act, as amended, or any contract article inserted pursuant to that Act or providing for renegotiation of the contract price to eliminate excessive profits.

(b) *"Supply contract with short term limitations."* Under this form of contract, the Government contracts for a year's quantity, but the price and delivery schedule are established in the contract for the first three month period only. Prices for the quantities directed by the Government to be delivered during each ensuing quarterly period are to be negotiated in advance of the commencement of each period, and, failing agreement, are to be fixed by the contracting officer at an amount representing fair and just compensation (with a right of review under the Disputes article). The contractor is obligated, during certain "lead" times, to procure raw materials including packing supplies and perform processing and manufacturing operations adequate to meet deliveries during the period succeeding the period for which prices are agreed to or fixed. Appropriate amendment is made of the uniform termination article (§ 803.324 (g)) restricting in certain respects the rights of the Contractor in the event of termination of the contract for the convenience of the Government. W. D. Contract Form No. 1 is used, with the following additional provisions:

(a) The three months for which delivery schedule is set forth herein is hereafter referred to as the "base period."

(b) The unit price or prices for the quantities directed by the Government to be delivered in each three month period subsequent to the expiration of the base period in accordance with the delivery schedule determined by the Government shall be fixed by agreement between the parties within 30 days but not less than 15 days immediately preceding the commencement of each subsequent period or such other time as may be agreed upon by the Contractor and the Contracting Officer, and when agreed upon shall be evidenced by Supplemental Agreement hereto. In the event that the parties fail to agree, within the specified time, upon the price of the articles so to be delivered during any such subsequent three-month period, the price payable therefor shall be determined at an amount constituting fair and just compensation for such articles. Such determination shall be made by the Contracting Officer and shall be subject to review in the manner provided in Article —— (Disputes).

(c) Negotiations for the fixing of the price for the quantities to be delivered during any three month period succeeding the base period shall be conducted on the same basis and shall employ the same types of data as in the case of a negotiation of a price under a new contract. The Contracting Officer may request and the Contractor shall supply the same types of information as in the case of a new contract including, without limiting the foregoing, the information developed and the additional experience gained in the performance of this contract.

(d) The Contractor agrees to take, and to continue to take from time to time as prices are fixed for periods succeeding the base period, as promptly as necessary all steps required in accordance with good business practice (i) to have available all raw materials including packing supplies so as to be able to deliver during the three month period succeeding the date for which unit prices shall last have been fixed, quantities equal to those for which unit prices shall last have been fixed, but not in excess thereof, and (ii) to perform processing or manufacturing operations with respect to said quantities so as to be able to deliver them during such succeeding period but not to begin such operations prior to 30 days immediately preceding the commencement of such subsequent period without the approval in advance of the Contracting Officer, and, in such event, only to the extent to which the Contracting Officer shall approve in advance.

(e) In the event that this contract shall be terminated pursuant to the provisions of Article — ("Termination at the Option of the Government") the rights of the parties as respects that portion of the contract for which unit prices shall not have been fixed shall be determined in accordance with the provisions of Article —: *Provided, however,*

(i) That the Government shall reimburse the Contractor in connection with such portion of this contract for which unit prices shall not have then been agreed upon for costs which were incurred only in connection with (a) raw materials and packing supplies for quantities to be delivered during a period of three months succeeding the period for which unit prices shall have last then been fixed and (b) the processing and manufacturing operations performed with respect to such quantities in accordance with the aforesaid provisions. If as a result of such operations the Contractor shall have completed supplies called for herein in excess of the quantity for which unit prices shall have been agreed upon, the Contractor may, but is not obligated to, transfer title and deliver such completed supplies to or upon the order of the Government in the manner, to the extent and at the times directed by the Contracting Officer. If the Contractor transfers such title and makes such delivery of completed supplies, the Government will pay therefor, but without duplication of any amounts agreed upon in accordance with this paragraph, the unit price last fixed under this contract or by Supplemental Agreement thereto; if the Contractor does not transfer title or deliver such supplies as herein set forth the Government shall not reimburse the Contractor for any costs incurred in connection therewith.

(ii) For the purposes of paragraph (d) Article — ("Termination at the Option of the Government") the contract price of all units of supplies called for by this contract, the price of which shall not have been fixed, shall be deemed to be the unit price last fixed under this contract or by Supplemental Agreement thereto.

(f) The fixing of the contract price for any period as hereinbefore provided shall be without prejudice to the determination of any excessive profits of the Contractor upon subsequent renegotiation under the Renegotiation Act, as amended, or any contract article inserted pursuant to that Act or providing for renegotiation of the contract price to eliminate excessive profits.

§ 802.222–10 *Technical services urged to devise contract provisions and procedures to carry out the foregoing program.* Subject to any approvals of higher authority required to be obtained in particular cases under this chapter (see especially §§ 803.306 to 803.306–4), the technical services are urged to devise and employ contract provisions and procedures along the lines discussed in §§ 802.222 to 802.223.

§ 802.223 *Factors governing placement of contracts.* The selection of a contractor for a particular contract from among the available qualified producers depends on a number of factors. In making such selections effect must be given to various policies expressed by the Office of War Mobilization and Reconversion, by the War Production Board (see Directive No. 2, as amended, February 10, 1945; 10 F.R. 1731), by the War Manpower Commission in its directives, and by Congress, as in the Smaller War Plants Act. These policies, their relation and relative importance are discussed in the following paragraphs, which are applicable both to the placement of new business and to the revision or reduction of existing programs.

§ 802.223–1 *Ability to perform.* Primary emphasis shall be placed upon securing performance or deliveries at the time, in the quantity, and of the quality required by the war program. As indicated in § 802.222–1, the objective is to insure delivery in time to avoid delays in the war program, but to avoid creation of unnecessary inventories.

§ 802.223–2 *War Manpower Commission labor areas.* The War Manpower Commission has divided the country into twelve regions and from time to time classifies localities in each region according to their labor supply conditions and on this basis designates them as:

Group I: Areas in which acute labor shortages exist, or are anticipated which will endanger essential production.

Group II: Areas in which labor shortages exist which may endanger essential production, or areas which are approaching a balanced demand-supply situation.

Group III: Areas in which labor supply substantially balances demand for essential production or a moderate labor surplus currently exists or is anticipated.

Group IV: Areas in which a substantial labor surplus exists or is expected to develop.

The Industrial Personnel Division, Headquarters, Army Service Forces, will advise the technical services monthly, or more often if conditions warrant, of the designations of the War Manpower Commission.

§ 802.223–3 *Production urgency committees.* There have been established in labor shortage areas certain committees termed Production Urgency Committees, with authority among other things to approve the placement of contracts in Group I labor areas as indicated in § 802.223–4a.

§ 802.223–4 *Policy and procedures as to placing contracts in labor shortage*

areas. §§ 802.223–4a through 802.223–5 set forth the policy and procedures in connection with the placement of contracts and contract supplements in labor shortage areas. The terms "contracts" and "contract supplements" as used in such sections include informal, as well as formal, commitments.

§ 802.223–4a *Group I areas*—(a) *Contracts permitted to be placed in Group I areas.* Placement of contracts in Group I areas is to be avoided so far as possible. Subject to the requirements of paragraphs (c) and (d), the only contracts or contract supplements which may be placed in a Group I area are those:

(1) Which cannot be placed elsewhere with adequate assurance of obtaining satisfactory performance and timely deliveries;

(2) Which, in the considered judgment of the chief of the technical service concerned or of his authorized representative, it is impracticable to place elsewhere;

(3) Which are placed, pursuant to § 802.224, with originating manufacturers for newly developed articles; or

(4) Which are placed with a contractor currently employing less than 100 wage earners and which will not increase employment in the contractor's plant above 100 wage earners.

(b) *Contracts not requiring clearance of Production Urgency Committees.* A contract or contract supplement of the character referred to in paragraph (a) may be placed in a Group I area without clearance of a Production Urgency Committee if the contract or contract supplement will not increase employment in the contractor's plant above the ceiling currently established by the War Manpower Commission; or, if a contractor currently employs less than 100 wage earners, will not increase employment in the contractor's plant above 100 wage earners: *Provided, however,* That the reporting procedure prescribed in paragraph (c) is to be followed in all cases when applicable.

(c) *Reporting of intended placement of contracts not requiring clearance with Production Urgency Committees.* Before placement of an unclassified contract or contract supplement having a total value of $100,000 or more, which pursuant to paragraph (b) does not require clearance of the appropriate Production Urgency Committee, the reporting requirements of this paragraph (c) will be followed. Four copies of War Production Board Form GA–861, duly completed, and having endorsed thereon the proposed contract number and the legend "Critical production—information only—no increase in labor over the ceiling currently established by the War Manpower Commission" will be transmitted to the appropriate Production Urgency Committee. These reports will be transmitted through the Army representative on the Committee, or in the case of the Army Air Forces through the Army Air Forces representative on the Committee, at least 7 days before placement of the contract or contract supplement, unless this will unduly delay production, in which case the report will be transmitted as far in advance of placement as is practicable.

(d) *Contracts requiring clearance of Production Urgency Committees.* No contract or contract supplement, of any value, which will increase employment in the contractor's plant above the ceiling established by the War Manpower Commission, may be placed in a Group I area without prior clearance of the appropriate Production Urgency Committee; except that contracts or contract supplements with a contractor currently employing less than 100 wage earners and which will not increase employment in the contractor's plant above 100 wage earners need not be so cleared. Applications for clearance of the Committee will be made to the Committee for the area in which are located the facilities of the contractor at which the work, or a major part of the work, will be done. Applications for clearance may seek approval of a single contract or of an entire program.

§ 802.223–4b *Group II areas.* The only contracts or contract supplements which may be placed in a Group II area are:

(a) Continuation contracts (or contract supplements having the same effect as continuation contracts) which will not increase employment in the contractor's plant above the ceiling currently established by the War Manpower Commission;

(b) New contracts which cannot be placed in a Group III, IV or unclassified area with adequate assurance of performance and timely deliveries;

(c) Contracts or contract supplements which, in the considered judgment of the chief of the technical service concerned or of his authorized representative, it is impracticable to place in a Group III, IV or unclassified area;

(d) Contracts placed, pursuant to § 802.224, with originating manufacturers for newly developed articles; or

(e) Contracts or contract supplements with a contractor currently employing less than 100 wage earners and which will not increase employment in the contractor's plant above 100 wage earners.

§ 802.223–5 *Policy with respect to placing of contracts in Group III, Group IV and unclassified labor areas.* There are no restrictions upon the placement of contracts in a Group III, IV or unclassified area. It is the policy of the War Department to make every effort to place a substantial amount of its business with concerns located in Group IV areas, to the extent placement there is consistent with other procurement objectives and satisfactory performance and timely deliveries can be assured.

§ 802.223–6 *Subcontracting in labor shortage areas.* (a) Prime contractors holding the bulk of the War Department contracts have received a request from the Under Secretary of War to apply principles similar to those described in §§ 802.223–4 and 802.223–5, in placing their subcontracts for the fabrication of products required by their prime contracts. When new prime contracts which may involve subcontracting are made, the prime contractors will be advised of these principles by contracting officers and will be strongly urged to apply them in placing subcontracts.

(b) Where to give effect to changes in the classification of labor supply areas occurring after the execution of a particular prime contract would decrease the efficiency or increase the cost of placing recurring subcontracts thereunder, the chief of a technical service or his duly authorized representative is authorized, pursuant to the First War Powers Act, 1941, to enter into and approve supplemental agreements to provide for the payment of any increased price to the prime contractor to cover increased costs resulting from such changes in subcontracting, in the same manner as provided in § 802.225–7 (b). It is hereby determined that supplemental agreements entered into for this purpose will facilitate the prosecution of the war.

(c) Many prime contractors are regularly receiving the monthly classification of labor market areas issued by the War Manpower Commission. Arrangements may be made to have additional prime contractors supplied with them by communicating directly with the Division of Procurement Policy, War Production Board, Washington, D. C.

§ 802.223–7 *Other factors.* When policies relating to ability to perform and labor supply have been met, contracts will be placed so as to give due weight in each instance to the following objectives:

(a) *Cost and efficiency.* Placements of contracts so as to use the minimum number of man-hours and the minimum quantity of material to make the supplies needed. In the long run this will result in the lowest cost to the Government. In the absence of actual data as to the relative efficiency of producers in utilizing manpower and material, their comparative prices are normally the best test of their relative efficiency in these respects, unless other differences between them (such as differences in their cost of transportation or in their expenditures for facilities) distort the comparison. Whenever such information is needed producers will be required to furnish actual or estimated cost data covering their production. In so far as possible contracts should provide the maximum incentive to the producer for the reduction of his costs.

(b) *Small business concerns.* Placement of contracts so as to make the most effective utilization of the small plants of the nation. To this end, as large a proportion of awards as practicable will be made to qualified small concerns, directly if feasible and, if not, through awards to larger firms which will subcontract to small concerns. To achieve these objectives, payment of a reasonable premium is authorized where necessary, in accordance with directives from time to time in effect.

(c) *Conservation of special abilities.* Conservation for the more difficult war production problems of the resources of concerns best able, by reason of engineering, managerial and physical resources, to handle them, through placement of contracts for items which involve relatively simple production problems with concerns, normally the

smaller ones, which are less able to handle the more difficult problems.

(d) *New facilities.* Avoidance, so far as possible, of the creation of additional new (as distinguished from existing) machinery, equipment or facilities.

(e) *Transportation.* Conservation of transportation facilities by avoiding unnecessary crosshauling of raw, semi-finished or finished material from the point of origin to the point of consumption and by avoiding long hauling when such materials are available at a shorter distance.

(f) *More than one source of supply.* Placement of contracts so as to have for each item of supply and equipment at least two producers so located as not to be subject to the same hazard. This standard need not be adhered to if the chief of the technical service concerned shall determine (1) that such placement is impracticable or (2) that, although such placement is practicable, (i) the plant protection arrangements of the source selected are in his judgment entirely satisfactory, (ii) the source has adequate capacity for all foreseeable needs and (iii) adequate information with regard to the costs of operation of the source and the prices of comparable items are and will be available to ensure that an adequate and efficient analysis may be made of the prices to be charged to the Government for such item. In this connection, consideration will be given to the relative needs of the source selected and of proposed secondary sources for facilities and equipment to perform the contract.

No one of the six objectives stated in this section should alone be regarded as controlling. The placement or revision of contracts should reflect an evaluation of all these objectives which are applicable to the particular case.

§ 802.223–8 *Price*—(a) *With respect to labor areas (Prime Contracts).* To effectuate the policy with respect to avoiding the placement of prime contracts in critical labor areas, the technical services are authorized and directed to pay a premium price up to 15 per cent higher than the lowest of the prices bid by bidders located in Group I and Group II labor areas in any case where payment of such a premium price is necessary to avoid placing the particular prime contract in a Group I or Group II labor area.

(b) *With respect to small business concerns (Prime Contracts).* To effectuate the policy with respect to the placement of prime contracts with small concerns, the technical services are authorized and directed to pay a premium price up to 15 percent higher than the average price at which the purchase can be made by the contracting office from suitable large concerns (over 500 wage earners), regardless of the labor area or areas in which such large concerns are located, in any case where payment of such a premium price is necessary to place a prime contract with a small concern.

(c) *With respect to other policies.* The technical services are authorized and directed to pay higher prices than would otherwise be required to whatever extent such action is necessary to carry out the other policies expressed in §§ 802.223–1 to 802.223–7, inclusive, including the policies with respect to (1) avoiding placement of subcontracts in critical labor areas and (2) placement of subcontracts with small concerns.

(d) If, in the opinion of the chief of a technical service, a premium higher than 15 per cent should be paid in a particular case to achieve the purposes referred to in paragraphs (a) and (b) of this section, the proposed prime contract, with supporting data, will be submitted to the Director, Purchases Division, for approval.

(e) When a determination has been made that a contract will be placed at a premium price, such contract will be so placed with due regard for other War Department pricing policies.

(f) When the policies expressed in §§ 802.223–1 to 802.223–7, inclusive, have been met and selection among available contractors is still possible, contracts will be so placed as to obtain the lowest price for the Government.

§ 802.224 *Contracts for newly developed articles.* In placing contracts for new articles developed by a manufacturer for War Department use, the following principles will be observed:

(a) In general, a substantial proportion of initial orders for a new article should be placed with the manufacturer who developed it. Unless the chief of the technical service concerned determines such placement is not necessary (see § 802.223–7 (f)) effort should be made to place enough of the volume with other qualified producers to develop at least one other experienced source; when possible this should be a going production order and not a limited quantity educational order.

(b) When the originating manufacturer demands a price for the item substantially higher than the price for which it can be secured elsewhere, or will require substantially more facilities or tools than some other producer in order to get into production, or is already heavily loaded with orders, and the article can readily be made by one or more other producers, the contracts for the article should be placed with such producers. In such cases the originating manufacturer should be fairly paid for his developmental work as such.

§ 802.225 *Smaller War Plants policy.*

§ 802.225–1 *Smaller War Plants Act.* (a) Public Law 603—77th Congress (approved June 11, 1942) creates the "Smaller War Plants Corporation" (hereinafter referred to as "SWPC") and gives the Chairman of the War Production Board certain powers and responsibilities incident to placement of Government contracts with smaller plants. The majority of such powers have been delegated by the Chairman of the War Production Board to the Chairman of SWPC.

(b) The act gives SWPC power to enter into prime contracts with the War Department for articles, equipment, supplies or materials, or parts thereof, or work in connection therewith, and to subcontract the production of these items to small business concerns. If the Chairman of the War Production Board certifies that SWPC is competent to perform any specific Government procurement contract, the contract must be let to it on such terms and conditions as the Chairman may specify.

(c) The act also authorizes SWPC, by delegation from the Chairman of the War Production Board, to certify small business concerns or groups of such concerns to the Secretary of War with respect to capacity and credit as to a specific Government procurement contract. The War Department is directed to accept such certification as conclusive and is authorized to place the contract with the concern or group of concerns without requiring the meeting of any other requirements with respect to capacity and credit.

(d) The act recognizes that small plants are frequently unable to produce at as low a per unit cost as larger plants and that, as a consequence, it may be necessary for the Government to pay a higher per unit price for articles when obtaining them from small plants than it pays to business concerns operating large plants. War Department policy in respect to this will be prescribed by further instructions from time to time.

§ 802.225–2 *General policy.* (a) The established policy of the War Department is to place the greatest practicable volume of prime contracts and to encourage subcontracts with small business concerns or groups of such concerns without the necessity of plant certification or the taking of prime contracts by SWPC. To implement this policy, the basic program covered in §§ 802.225–3 to 802.225–9 is established in order to assist the smaller plants to participate to the greatest practicable extent in War Department contracts.

(b) It is recognized that procurement procedures vary as between technical services, and it is the policy of the War Department that procedures to be established between each technical service and SWPC will coordinate closely with the normal operations of the technical service. It is the responsibility of the chief of each technical service to establish operating procedures within his technical service with SWPC in conformity with the policies stated in §§ 802.225 to 802.225–9. Such procedures shall be established by mutual agreement between SWPC and each technical service, and shall be in writing. A copy of such agreement shall be provided the Small War Plants Branch, Purchases Division, Army Service Forces, which office is available for any assistance requested in connection with preparing the agreement.

§ 802.225–3 *Designations by, and representatives of, SWPC.* (a) To date no certifications as referred to in § 802.225–1 (c) have been made to the Secretary of War by SWPC. However, a program has been and will continue to be in effect whereby small concerns are recommended by SWPC to each contracting office of the War Department as being capable of performing contracts under particular procurements. Such recommendations are called designations, and

firms so designated are known as SWPC designees.

(b) SWPC has appointed a representative to each contracting office of the War Department. Such representative is known as a SWPC Procurement Specialist, and one of his duties is to present designations to the contracting office as set forth in § 802.225–6.

(c) SWPC has appointed a representative to the office of each technical service issuing procurement directives, and this representative is also known as a SWPC Procurement Specialist. Among his duties are those set forth in § 802.225–5.

§ 802.225–4 *Basic program.* (a) The following points of policy are established with respect to actions by the War Department in connection with SWPC, and have been agreed upon between SWPC and the War Department:

(1) This program will be undertaken on all procurements, except that procurements of secret or confidential items and those of an emergency nature may be excluded at the discretion of the chief of a technical service. "Emergency nature" relates to those situations where military necessity will not permit the processing of the procurements as outlined herein.

(2) The War Department's general definition of a small concern is an independently-owned concern employing less than 500 wage earners. Nevertheless, it is within the discretion of a contracting office, independently or upon the request of SWPC, to consider the relative size of a firm within its industry and treat it as large or small accordingly.

(3) All decisions with respect to the degree of participation of and the desired geographical location of small concerns, and to the choice of particular small concerns to participate in War Department procurements, will be reached at the contracting offices of each technical service, (or at whatever office in the technical service decisions are reached regarding the use of specific facilities).

(4) Since small concerns considered by the contracting office as suitable to bid for a procurement will normally be reviewed by SWPC to determine whether or not such firms will become SWPC designees for such procurement, it is anticipated that the final list of concerns so designated by SWPC will include many of the small concerns acceptable to the contracting office.

(b) Chiefs of technical services will designate Small War Plants officers at the contracting offices, and also at either the headquarters of the technical services or at the offices issuing procurement directives. Such officers will be charged with administering War Department policy in respect to small concerns, with working in cooperation with SWPC Procurement Specialists at such offices and with acting as specific contacts for representatives of small concerns calling at such offices. Each technical service will conduct staff supervision of contracting office procedures in connection with the small plant program.

§ 802.225–5 *Action at the office issuing procurement directives.* Opportunity will be afforded the SWPC Procurement Specialist at the office issuing procurement directives (a) to review with the proper personnel of the technical service the related parts of the Army Supply Program for the purpose of selecting products which will be generally suitable for small concerns, and (b) to examine all procurement directives (except those for secret and confidential items and those of an emergency nature, unless authorized to do so by the chief of the technical service). Where a technical service buys through district offices whose purchasing responsibility is confined to limited geographical areas, suggestions from the SWPC Procurement Specialist as to distribution to districts will be received and considered. When the SWPC Procurement Specialist indicates an interest in further action by SWPC on a procurement, this interest will be noted on the procurement directive that is sent to the contracting office. Lack of such notation of interest will not eliminate a procurement from further consideration under § 802.225–6 (a). Copies of procurement directives which have been examined (except those for secret and confidential items) will be supplied by the office issuing them to the SWPC Procurement Specialist at that office, to the extent desired by SWPC.

§ 802.225–6 *Action at the contracting office.* (a) The contracting office and the SWPC Procurement Specialist at that office will mutually decide, on all procurements (secret and confidential procurements are excluded, except where specifically authorized under § 802.225–5 (b)):

(1) Whether a particular procurement is suitable for manufacture by small concerns.

(2) The minimum portions of procurements found suitable under (1) which the contracting office will endeavor to place with designees of SWPC in compliance with §§ 802.223–1 to 802.223–8.

(3) In cases found suitable under (1) and (2), how many SWPC designations will be sought, from which SWPC regions they will be sought, and by what date such designations will be submitted to the contracting office.

(4) While emergency procurements are normally excluded under § 802.225–4 (a) (1) from further processing through SWPC, the contracting office may in its discretion allow the SWPC Procurement Specialist, if time permits, to suggest sources, when such action does not delay the procurement.

(b) Other action to be taken by the contracting office includes:

(1) A set of drawings, specifications and prints will be made available to the SWPC Procurement Specialist as soon as practicable after the SWPC Procurement Specialist requests them in connection with a particular procurement. Additional sets will be furnished, if available; and if not available, full descriptive information to the extent available will be given the SWPC Procurement Specialist.

(2) The contracting office will make available to the SWPC Procurement Specialist the names of small plant sources considered suitable by the contracting office for a particular procurement. SWPC will, under its procedures, designate or indicate reasons for refusing to designate such sources.

(3) Small concerns designated by SWPC in accordance with (a) (3) above will normally be given an opportunity to bid or negotiate. If a contracting office does not consider that a SWPC designee should receive this opportunity, the SWPC Procurement Specialist shall be given the reasons therefor.

(4) On the date established under (a) (3) the contracting office will consider not only SWPC designations that have been submitted for the particular procurement by that date but also any other sources of the contracting office's choice, and will determine which of such firms will be given an opportunity to bid or negotiate.

(5) Opportunity will be given the SWPC Procurement Specialist to make representations to the contracting office in behalf of concerns designated by SWPC for the procurement involved after final bid prices have been received but before final choice of contract placement is made. Copies of abstracts of bids, if available, on procurements in which SWPC participates under (a) (3) will be furnished at this time to the SWPC Procurement Specialist; if a copy is not available, information will be made available so that the SWPC Procurement Specialist may make his own copy.

(6) Negotiation and placement of awards will be governed by the factors enumerated in §§ 802.223–1 to 802.223–8. While the contracting office will endeavor to fulfill the percentage allotment for SWPC designees, and to place contracts with such designees for as great a percentage as is practicable, first consideration shall be, in all cases, that of securing performance or deliveries at the time, in the quantity, and of the quality required by the war program, and nothing in §§ 802.225–1 to 802.225–9 shall detract from that consideration. In considering the factor referred to in § 802.223–7 with respect to small business concerns, the contracting office may determine that the "most effective utilization of the small plants of the nation" will be accomplished, in a particular instance, by the payment of a higher price (when such price is proved to result from a justifiably higher cost) to a capable small plant in need of business as against a lower price bid by another small plant with an ample work-load.

(7) The SWPC copy of the abstract or information indicated in (5) will be noted as to awards made and signed by the contracting office.

(c) In the event the SWPC Procurement Specialist does not agree with the position taken by a contracting officer on the points enumerated in (a) and (b), or if small firms chosen by the contracting office to receive awards are considered by SWPC as not suitable to receive award under the procurement and the reasons given by SWPC for this decision are not acceptable to the contracting office, reasonable opportunity will be given SWPC, if military urgency permits, to submit the difference of opinion to the chief of procurement of the contracting office for final decision.

§ 802.225–7 *Encouraging subcontracting to small concerns.* (a) In order to

promote subcontracting to small concerns, the chief of each technical service will instruct contracting personnel at all levels to bring to the attention of prospective contractors the policy of the War Department to encourage subcontracting to the greatest practicable degree. The attention of such prospective contractors will be called to the contract clauses set forth in §§ 803.367 to 803.368 of this chapter.

(b) Additional subcontracting to small concerns by existing contractors will be fostered to the degree practicable. When the chief of a technical service or his duly authorized representative determines that increased costs under such additional subcontracts are justifiable, he is authorized to enter into and approve supplemental agreements amending or modifying such existing contracts to provide for the payment of an increased price to the prime contractor to cover the increased costs of such subcontracting. Any such agreement will be made pursuant to the First War Powers Act, 1941, and Executive Order 9001, and may be made without consideration to the Government other than the promotion of the policies stated in Public Law 603, 77th Congress and § 802.225–7 (b) and (c).

(c) The procedures described in paragraph (b) above will be applied to subcontracts where it appears to be practicable to get a subcontractor to spread his load among more subcontractors.

§ 802.225–8 *Limitations*—(a) *Standardization.* While the SWPC Procurement Specialists will be afforded every practicable assistance in bringing about the further spread of work to smaller plants, consistent with the factors enumerated in §§ 802.223–1 to 802.223–8, inclusive, standardization programs on items where a flow of replacement parts is a factor will also be taken into account in connection with applying the Small War Plants policy.

(b) *Preventing abuses.* In carrying out the policy of spreading the work to smaller war plants, contracting officers must take precautions to prevent abuse of the preferred position of such plants. For instance, a smaller war plant contractor should not be allowed to subcontract substantially the entire work to a large plant at a lower price and thereby to operate virtually as a contract broker.

§ 802.225–9 *Policy matters in connection with the Smaller War Plants Acts.* Matters of procedural disagreement will be referred to the headquarters of the technical service involved for settlement with the SWPC Procurement Specialist at that headquarters. If such disagreements cannot be settled at that level, reference will be made by the technical service to the Small War Plants Branch, Purchases Division, Headquarters, Army Service Forces. All matters of basic policy relating to prime contracting and subcontracting with smaller plants will be dealt with for SWPC by its Washington headquarters and for the War Department by the Small War Plants Branch, Purchases Division, Headquarters, Army Service Forces. On such matters, contact will be between these offices.

§ 802.225a *Policies for the protection of manufacturers of materials and components.* The Procurement Policy Board of the War Production Board has adopted the following policies for the protection of manufacturers of materials and components:

(a) Manufacturers and suppliers of certain materials and components (including certain B products as defined in the Controlled Materials Plan) used in war production have been obligated to carry stocks of such materials, finished components and work in process and to enter into commitments for work and supplies for the manufacture of such materials and components, in excess of requirements under firm orders of such components actually placed with them by their war production customers.

(b) Without such inventory and commitments and without manufacture in anticipation of firm orders, the manufacturers in question would not be in a position to meet promptly the purchase orders which are placed with them by war producers, frequently on short notice or on a short-term basis. These manufacturers are thus faced with a continuing large volume of short-term war production orders requiring the maintenance of an inventory of materials, completed components and work in process, but without the protection of a back-log of legal commitments from customers necessary to cover the production cycle involved. In the event of mass termination, such manufacturers would be unable to collect costs under existing termination procedures, except to the extent that they hold orders for such materials and components.

(c) In view of the administrative difficulties involved in direct dealings with the manufacturers of materials and components, the policy is to afford protection to such manufacturers of materials and components in the following manner:

(1) Such manufacturers will look for protection to the war contractors and subcontractors with whom they deal by requiring from them adequate placement of advance orders.

(2) Prime war contractors and their subcontractors requiring use of such materials and components should place advance orders with their respective subcontractors and suppliers, from time to time (but within the total quantitative requirements of the particular contracts), sufficient to protect such subcontractors and suppliers throughout the cycle of production required to produce such materials and components.

(3) In carrying out this policy it is important to avoid the unreasonable accumulation of excess inventories either by the manufacturers of such materials and components or by the war contractors and subcontractors to whom such manufacturers sell these materials and components. Accordingly, war contractors and subcontractors should carefully schedule production and deliveries under such advance orders and require the manufacturers of such materials and components to adhere reasonably to the schedules so arranged in accordance with sound production planning. However, in the event of the termination of such advance orders, inventories of such materials, components or work in process reasonably acquired for the performance of such orders should be taken into account and paid for in the termination settlement of such orders.

(4) So far as possible, advance orders placed for such materials and components should contain the approved subcontract termination article for use in fixed price orders or subcontracts. The inclusion of this provision is intended to provide fair compensation to the manufacturer of the materials and components in the event of termination, but the absence of this provision will not operate to deprive such manufacturers of fair compensation in the event of termination of orders placed with them.

§ 802.226 *Debarred bidders.*

§ 802.226–1 *Persons disqualified.* Contracts will not be placed with persons who are on any of the following lists of debarred bidders.

(a) List of bidders debarred from bidding on War Department contracts by reason of violations of the Walsh-Healey Act. (See § 809.916 and following.)

(b) List of bidders debarred from bidding on War Department contracts by reason of violations of the Davis-Bacon Act. (See § 809.910 and following.)

(c) War Department confidential list of bidders to whom awards will not be made.

(d) The proclaimed list of blocked nationals which the Secretary of State from time to time publishes listing persons and organizations deemed to be acting directly or indirectly for the benefit of the enemy. (See § 811.1185.)

§ 802.226–2 *Distribution of lists.* The Adjutant General will distribute to the technical services lists of bidders debarred by the Comptroller General by reason of violations of the Walsh-Healey Act or the Davis-Bacon Act and copies of the War Department confidential list of debarred bidders. Copies of the proclaimed list of blocked nationals will also be made available to the chiefs of the technical services.

§ 802.226–3 *Procedures for placing bidders on confidential list*—(a) *Authority.* The Adjutant General will place a bidder upon the confidential list of bidders to whom awards will not be made (1) where the Director, Purchases Division, Headquarters, Army Service Forces, determines that the bidder has been guilty of fraud or attempted fraud against the United States, or (2) for the duration of the present war, in any instance where the Director, Purchases Division, determines that the best interests of the United States require that contracts be not awarded to the bidder. In recommending that a bidder's name be placed on the list, the chief of a technical service will submit to the Director, Purchases Division, a full report of the specific instances of the bidder's alleged dereliction together with any available evidence relating to the contract concerned and the complaint against the bidder.

(b) *Notice.* If such action has not already been taken, the Director, Purchases Division, will send to the bidder by registered mail, a notice stating (1) that a recommendation has been made that the bidder's name be placed on the War Department's confidential list of bidders to whom awards will not be made, (2) the specific contract, bid, or action of the bidder as to which complaint is made, and the specific nature of the complaint in reasonable detail, and (3) that the bidder may make a statement in writing with respect to the complaint on or before a date fixed in the notice. The bidder will not be given access to any evidence in the hands of the War Department, except in the notice and statement required by this paragraph.

(c) *Direction.* The Director may make such investigations and study of the complaint, either directly or through The Judge Advocate General or The Inspector General, as he deems proper. If the Director determines that the bidder's name should be placed on the confidential list, he will transmit to The Adjutant General (1) the complete file, including any statement filed by the bidder, together with the direction to place the bidder's name on this list, and (2) drafts of notices of the action taken to be sent by The Adjutant General to the bidder, the technical services and the Comptroller General.

§ 802.228 *Exceptions.* Upon specific request the Director, Purchases Division, Headquarters, Army Service Forces may grant authority to depart from the policies stated in this subpart. Requests for such authority stating the reasons therefor will be forwarded to the Purchases Division, Headquarters, Army Service Forces. One such specific exemption granted to The Quartermaster General is referred to in QMS paragraph 2–2–3d (June 29, 1943).

SUBPART C—CONTRACT PRICE POLICIES

§ 802.230 *Basic objectives.* Policies regarding contract prices have three main objectives: to maintain incentives for efficiency, reductions in costs and maximum production; to obtain fair prices and prevent excessive profits; and to contribute to the control of inflation.

§ 802.230–1 *Incentives.* Increasing shortages in materials and manpower imperatively require that all producers be encouraged to operate at their highest attainable efficiency with the minimum waste or misuse of materials and labor, if maximum production of war equipment is to be reached and maintained. Increased efficiency, improved methods, and lower costs mean better use of available resources and savings in labor, materials and facilities and can be encouraged by making profits depend on efficiency. This requires careful purchasing and contracting to keep prices close enough to costs so that producers must exercise careful management and ingenuity to increase production and decrease costs in order to earn a reasonable profit.

§ 802.230–2 *Profit control.* In spending public money the War Department has the duty to see that its purchases are made at fair prices. In addition, pursuant to the Renegotiation Act, the War Department is charged with the responsibility for eliminating excessive profits on renegotiable business of contractors assigned to it for renegotiation. In many cases, skillful and careful negotiation of contracts will prevent excessive profits from accruing and make their renegotiation unnecessary.

§ 802.230–3 *Inflation.* For many types of military commodities ordinary methods of price control by maximum price regulations, formulas and ceilings become extremely complex and difficult to administer, and divide procurement responsibility. At the request of the War and Navy Departments the Office of Price Administration has agreed to refrain from further extending its price control over strictly military items, and in return the War and Navy Departments have undertaken the responsibility for maintaining control of prices in this limited exempted area. (See § 811.1132–2.)

§ 802.231 *General policy.*

§ 802.231–1 *Sound pricing.* The three objectives stated in § 802.230 are all closely related and must be handled accordingly. In order to promote efficiency and prevent inflation, it is vitally necessary to obtain sound contract prices reasonably close to costs, since recapture of profits for past periods on renegotiation will not operate to control costs or inflationary tendencies. This requires effective purchasing and price supervision to obtain well-negotiated original contracts. The chief of each technical service will see that this policy is implemented and followed in his service. This will require the use of appropriate contracts and contract provisions (discussed in this subpart), adequate methods of negotiation (discussed in Subpart D of this part) and effective price supervision (discussed in Subpart E of this part).

§ 802.231–2 *Relation to contract placement policies.* This basic policy of emphasizing the price element in negotiating contracts, stated in the preceding paragraph, is not inconsistent with the relatively minor importance of price in selecting contractors, stated in § 802.223–8. The selection of a contractor for a particular contract from among the qualified producers is based primarily on policies regarding speed and quality in performance and efficient use of manpower, materials and facilities. (See §§ 802.223–1 to 802.223–7.) In making this choice among producers the price of a particular producer as compared to other available producers is considered as less important than these other policies. When these other policies are satisfied by several producers, however, choice is based on comparative price. Moreover, the price to be fixed in the contract with the producer selected on these bases is vitally important. The fact that the war program requires that contractors be selected on bases other than comparative prices, makes it especially necessary to have sound methods of negotiation and price supervision to ensure that the contract prices agreed upon with such contractors will be close enough to their costs to encourage efficient operations, to prevent excessive profits and to restrain inflationary influences.

§ 802.232 *Cost-plus-a-fixed-fee contracts.*

§ 802.232–1 *Disadvantages.* Fixed-fee contracts have the following disadvantages:

(a) The fixed-fee contract does not encourage efficiency to the same extent as the closely priced fixed price contract. While the fixed-fee contractor is obligated to perform in an efficient manner, he does not have the same direct financial inducement to economize in the use of materials, machinery or manpower, or to keep down material and labor costs, or to use ingenuity and inventiveness in finding substitutes and improvements.

(b) Such contracts require uneconomical use of auditing and administrative personnel, both by the Government and the contractor, in checking and rechecking vouchers, in auditing and allocating costs and in adjusting accounting questions.

(c) The financial pressures which usually restrain a fixed price contractor in competing for labor and accumulating inventories do not apply to the same extent to the fixed-fee contractor.

§ 802.232–2 *Use forbidden: exceptions.* For the foregoing reasons supply contracts will not be made on a cost-plus-a-fixed-fee basis. Pending the conversion of one or more cost-plus-a-fixed-fee supply contracts in the course of performance in the contractor's plant to a fixed price basis pursuant to instructions from the Under Secretary of War, it may be necessary to use the cost-plus-a-fixed-fee form for the placement of further orders to be filled from the plant. While the cost-plus-a-fixed-fee form may be used for contracts which in substance provide for the payment of a management fee for the operation of Government-owned facilities, contracts of a service character such as modification center and airline contracts, research, experimental and development contracts, and contracts for first production quantities of articles not previously produced, such contracts will be placed on a fixed price basis whenever, in the judgment of the chief of the technical service, it is practicable to do so. Utilization of the price adjustment articles authorized by §§ 803.375 and 803.376 should aid materially in negotiating a fixed price for research and development work.

§ 802.232–3 *Conditions on use.* In the exceptional situations where the cost-plus-a-fixed-fee form is permitted by § 802.232–2 to be used for a supply contract, the following conditions will be met:

(a) When the contractor is to be reimbursed for substantially all its costs, the fixed fee represents essentially profit without risk. It should be determined not by the amount of the estimated cost, but by the extent and nature of the work supervised or the services to be performed by the contractor. Thus in fixing the fee consideration should be given, among other things, to whether the work

or production involved is complicated or simple, the turnover slow or rapid, how much or little of the work will be subcontracted, and how extensive or difficult the duties of the prime contractor will be in supervising the subcontracted work.

(b) Contracts for first production quantities of articles not previously produced will include a provision for conversion as soon as practicable to a fixed price basis (see article set forth in § 803.341–3). Whenever feasible a similar provision will be included in research, experimental, and developmental contracts.

(c) The article for statutory renegotiation of the fixed-fee will be included when required by § 812.1208 (a).

(d) In no case will the fixed-fee exceed the statutory maximum of 7% for supply contracts.

§ 802.232–4 *Construction contracts.* Whenever feasible, construction contracts will be made on a fixed price rather than a fixed-fee basis.

§ 802.232a *Time and material or labor-hour contracts.* The buying of articles or services on the basis of (a) direct labor at specified hourly rates, which rates are intended to include wages, overhead and profit, and (b) material at cost, is usually referred to as the time and material or labor-hour system of purchasing. The system was developed primarily for use in those situations where it was not possible at the time of placing the order or contract to estimate accurately the amount or duration of the work or to anticipate costs with any substantial accuracy, and has been employed to some extent in the procurement by the Army or by cost-plus-a-fixed-fee contractors of (1) engineering and design services in connection with production of supplies, (2) the engineering, design and manufacture of dies, jigs, fixtures, gauges and special machine tools, (3) repair work of various kinds, and (4) outside work on regular production in emergency cases.

§ 802.232a–1 *Use discouraged.* In the light of present procurement conditions and the cost experience now accumulated the necessity for the use of this system either in direct procurement or in purchases by cost-plus-a-fixed-fee contractors has been greatly reduced. The chiefs of the services will cause the use of this system of purchasing to be restricted to those situations where no practicable alternative exists.

§ 802.232a–2 *Conditions on use.* In the restricted situations where this system is permitted to be used, the chiefs of the services will assure that reasonable precautions are taken to prevent the abuses to which it is susceptible. In this connection it is important that particular care be exercised to select firms of known integrity and efficiency and that the use of complete, clear and definite orders or contracts be insisted upon. Adequate control will also require that all time and material or labor-hour purchase orders or contracts issued by a cost-plus-a-fixed-fee prime contractor be approved or ratified by the contracting officer.

§ 802.232a–3 *Adequacy of contract provisions.* In determining the adequacy of the provisions of any such orders or contracts where their use is permitted, consideration of the following basic elements will be helpful:

(a) *Labor.* Only direct labor should be included in the billing and the types of labor or work to be included in the category of direct labor should be specified. It should also be specified that the time of non-productive personnel will not be included in direct labor. The time of partners, officers, supervisors, foremen, clerks, typists, timekeepers, material handlers, stockroom employees, tool crib attendants, cleaners, janitors, maintenance men, packers, watchmen, truck drivers, and receiving and shipping employees, would normally be considered as non-productive work.

(b) *Hourly rate.* Separate rates should be specified for (1) engineering and design, and (2) manufacturing and construction work. Separate rates should also be quoted for normal time, overtime and double time work where overtime and double time are necessary.

(c) *Costs of materials.* The materials for which reimbursement is to be made should be adequately specified and should be billed at cost and without the addition of any so-called handling charge or profit. For example, it may be specified that material cost will include only raw materials and fabricated parts entering directly into the products; that purchases made specifically for the contract may be charged at their actual price; that materials withdrawn from stores may be charged at cost under any recognized method of pricing conforming to sound accounting practices and consistently followed; and that incoming transportation charges may be included. Provision should be made for a reduction in cost of materials for cash and trade discounts, rebates and allowances and the value of resulting scrap, where the amount of such scrap is appreciable.

(d) *Overtime.* In order to prevent excessive overtime and double time a provision having substantially the effect of one of the following should be employed:

(1) Vendor (the person or firm with whom the time and material or labor-hour order is placed) should covenant that the amount of overtime and double time used on the work will be fair and reasonable and will be in accordance with the exigencies of the particular job. (This will support any claims on account of excess overtime developed by an audit.)

(2) The vendor should specify the maximum amount of overtime and double time, if any, which he anticipates will be required for the job and should agree that this amount cannot be exceeded without the prior written approval of the contracting officer or contractor, as the case may be, placing the order.

(3) The vendor should agree that no overtime or double time may be used on the work without the prior written approval of the contracting officer or contractor, as the case may be, placing the order.

(e) *Subcontracting by the vendor.* The vendor will not be permitted to derive any profit on account of subcontracting a portion of the work. Where subcontracting is contemplated or is to be permitted, it should be provided that the amount billed on account of such work will neither exceed the amount charged therefor by the subcontractor nor the rates for such work regularly agreed upon between the vendor and the subcontractor. In order to control the amount of subcontracting, provision may be made that the vendor cannot subcontract any portion of the work in excess of a stated percentage without the prior written approval of the contracting officer or contractor, as the case may be, placing the order. Provisions should be made that there can be no subcontracting by a vendor at an hourly rate which exceeds the vendor's hourly rate, without the prior written approval of the contracting officer.

(f) *Records.* Provision will be made that the vendor will maintain detailed, complete and accurate accounting records on a job order basis; that the hours of labor will be supported by individual daily job time cards preferably signed by the workers performing the services and in all cases by evidence of actual payment; that material charges will be supported by paid invoices or storeroom requisitions; and that the records will be preserved for a period of at least three years.

(g) *Invoices.* A contractor placing a time and material or labor-hour order should require the vendor to support all invoices by a certificate that the amount billed is correct and just. In this connection, a contractor placing such an order may be required to furnish a supporting certificate that the prices stated in the invoice are fair and reasonable, or are not excessive.

(h) *Audit.* Provision should be made that the representatives of the Government and the contractor placing the order, or either of them, will be permitted to inspect and audit the books and records of the vendor and will have the right to determine the correctness and propriety of the costs charged. Provision should also be made that any overcharge found will be promptly refunded.

(i) *Excessive use of unskilled labor.* The vendor may be required to covenant that employees used on the work will on the average be as efficient as the average for the departments of his plant concerned.

§ 802.232a–4 *Ceiling price.* In any case or class of cases where the chief of the service is of the opinion that the use of a ceiling price will be effective and practicable in reducing costs, a provision should be incorporated in such contracts or orders that payment will be made on a time and material basis but not in excess of a stated maximum figure.

§ 802.232a–5 *Definite hourly rate.* A definite hourly labor rate must be stated at the time of issuance in all orders intended to be priced on a time and material or labor-hour basis. In the exceptional emergency cases where work must be started before the rate is agreed upon, the complete confirming order must be issued as soon as possible and in any event prior to completion of a substantial portion of the work.

§ 802.232a–6 *Audit manual.* Reference to the Manual for Administrative

Audit of Time and Material Vendors' Charges, prepared by the Office of the Fiscal Director, will be helpful in the consideration of effective control measures in particular cases. Copies of this Manual may be obtained by addressing a request to the Publication Section, Administrative Division, Office of the Fiscal Director, Headquarters, Army Service Forces, Washington 25, D. C.

§ 802.233 *Fixed price contracts.*

§ 802.233–1 *Advantages.* The ordinary fixed price contract without provisions for adjustment gives a contractor maximum incentives for efficiency if the original price is well negotiated. It is generally suitable for contracts of reasonable duration for standard articles made by an experienced producer. It should be used wherever conditions permit.

§ 802.233–2 *Limitations.* Under war conditions, however, the ordinary fixed price contract is not practicable for certain types of cases:

(a) When the articles required are new, experimental or developmental, or unfamiliar to the contractor, the lack of cost experience may prevent the setting of a fair price when the contract is made.

(b) Even where cost experience exists, shortages of materials, priorities and allocations and changes in the quantities and rates of delivery may seriously affect the costs during performance of the contract.

§ 802.233–3 *Adaptation to war conditions.* To meet these and other situations and to facilitate the use of the fixed price contract, various provisions and policies have been developed, including the following:

(a) Termination articles.
(b) Financing provisions.
(c) Price revision articles.
(d) Adjustments and relief, without contract provisions, under the First War Powers Act.

These provisions and policies are intended to adapt the fixed price contract to war conditions, to minimize the risks of the contractor from unpredictable contingencies, and to facilitate obtaining contract prices close to costs. To the extent that the risks of unpredictable contingencies are reduced, the contractor does not need reserves or allowances against them in his price.

§ 802.234 *Termination article.* The risk of loss from termination of the contract, either for a change in the procurement program or upon cessation of hostilities, would deter contractors from making fixed price contracts or would require large allowances in the price to protect against this risk. The termination article is designed to remove this risk of loss by guaranteeing the contractor payment for all proper expenditures and costs in connection with the contract and an appropriate allowance for profit on the unfinished work in process, and by providing for expeditious settlement and payment of the amounts due. (See §§ 803.324 and 803.324–1.) These provisions reduce to the minimum any hardships on contractors resulting from necessary adjustments and reductions in the supply program.

§ 802.234a *Protection against loss from early termination.* On rare occasions, in connection with an initial contract with a contractor for a particular product or type of construction, involving a long period of preparation for the performance of the contract or unusually large development and planning costs, unusual circumstances may give rise to the request that the contractor be given special protection against loss through termination for the convenience of the Government at an early stage of the performance of the contract. In such cases, a full statement of the facts and a draft of any special contract provisions recommended will be submitted through the chief of the technical service negotiating the contract, to the Director, Purchases Division, Headquarters, Army Service Forces, for approval.

§ 802.235 *Financing provisions.* Lack of working capital or difficulties in financing would discourage contractors from undertaking fixed price contracts and necessitate the use of cost-plus-a-fixed-fee contracts. To overcome this, the War Department has arranged various methods of assisting contractors and subcontractors in financing war business. Three of these are (a) partial payments, (b) advance payments, and (c) guaranteed loans. The principles and purposes governing the use of these financing methods are discussed in §§ 803.319 to 803.321–14, 803.330 and 803.331 of this chapter. Other arrangements have been provided to assist with the financing and construction of plant facilities expansion. These are discussed in Part 810 of this chapter. Finally, the right to assign government contracts as security for financing is dealt with in §§ 803.390 to 803.390–7.

§ 802.236 *Price revision articles.* One means of adapting fixed price contracts to wartime conditions so as to achieve the basic objectives stated in § 802.230 is through the use of price revision articles. They are designed as a vehicle to protect contractors against the risks and hazards resulting from performing contracts in a war economy and in return for that protection, to enable contractors to agree to close prices. War Department policies with respect to price revision, the articles themselves, and the rules for their use and administration are set out in Part 803 of this chapter, particularly in §§ 803.370 to 803.777–4, inclusive, of Subpart H thereof. That part should be consulted before any price revision article is used or considered for use in any contract.

§ 802.236a *Escalation.* Except as and to the extent specifically provided in §§ 802.236–4, 802.236–5 and 802.236–6, of this subpart, the use in War Department contracts of articles or provisions for escalation of any kind is not authorized. The term "escalation" as used herein means any kind of automatic, self-operating or nonnegotiated price revision, whether based on indexes of any character contractors' costs, OPA maximum prices, or any other standard. The term does not include negotiated price revision under the standard articles therefor set out in §§ 803.370 to 803.777–4, inclusive, of this chapter.

§ 802.236b *Incentive contracts.* An article providing for price redetermination upon completion of the contract, with specified rates of sharing in cost savings below and extra costs above a target price, appears in § 803.379–5 of this chapter. An explanation and an illustration of the operation of the article and the conditions for its use are set out in §§ 803.378–1 to 803.378–4, inclusive.

§ 802.237 *Adjustments without contract provisions.* Paralleling the contract provisions for price revision discussed under § 802.236, and necessary to complete the price program, are the policies regarding price adjustments and other relief under Title II of the First War Powers Act and Executive Order No. 9001 in the absence of contract provisions. Thus where a contractor, who has kept down the contingency allowances in his price, suffers some unexpected risk or event, it may often be equitable and in the interests of the Government for it to adjust the contract price or other terms by supplemental agreement so as to assume some or all of any resulting increases in costs. By granting such relief to contractors in appropriate cases, either with or without consideration, the Government will reduce the necessity for large allowances in prices and encourage greater cooperation by contractors. The application of these policies is discussed in Subpart E of Part 812.

§ 802.238 *Policies on certain special items of cost.*

§ 802.238–1 *Amortization.* Under section 124 of the Internal Revenue Code, contractors who construct or acquire facilities necessary for the war effort are allowed under certain conditions to amortize the cost of them for tax purposes over a period of sixty months instead of the longer period of normal depreciation. This special tax credit was provided by Congress in order to encourage contractors to provide such facilities from their own funds rather than at Government expense. In view of this purpose, it is essential that in negotiating contracts involving the use of such facilities, the expense of such facilities be not passed on to the Government and that the price be fixed on the basis of only normal depreciation on the facilities and not at the accelerated rate of amortization permitted for tax purposes by section 124. In other words, the contractor may not treat the amortization at the accelerated rate as a cost against war contracts, but must provide for the excess over normal depreciation from his normal profit; this the tax credit greatly facilitates by leaving a larger net profit after taxes available for this purpose. Where the contractor desires the contract price to provide for a larger amount of the cost of such facilities, the Government is in effect paying for the facilities to the extent of the additional

amount included in the contract. In such cases the contract must state the amount so included in the price and must contain suitable provisions to protect the interests of the Government in the facilities in accordance with § 810.1007 and following.

§ 802.238–2 *Reconversion and storage.* (a) In appropriate cases, the cost of converting plants to war production, including the removal of existing equipment and incidental building alterations, may be included in cost and therefore in the contract price and the contract may provide for payment, on termination of production for the Government, of the costs of removing Government-financed machinery and equipment, and of preparing it for storage and shipment.

(b) The Government will not bear either directly or indirectly, however, any part of the cost of reconverting the contractor's plant to commercial production (including installation of privately-owned machinery and equipment) or the cost of storing such machinery and equipment during the period between conversion and reconversion. This policy applies to all types of contracts, whether facilities contracts, cost-plus-a-fixed-fee contracts or fixed price contracts. It does not, however, prevent giving a contractor, in exceptional cases where fairness so requires, special protection against loss through early termination of the contract in accordance with § 802.234a.

§ 802.238–3 *Extraordinary risks incident to wartime operations.* In connection with both fixed price and cost-plus-a-fixed-fee contracts, the Government, pursuant to the First War Powers Act and Executive Order 9001 (see Op. J.A.G., SPJGC 1944/10016, September 5, 1944; conclusions concurred in by the Attorney General September 5, 1944), may assume particular extraordinary risks and hazards incident to war-time operations to which the contractor may be exposed, by agreeing to indemnify the contractor against loss or liability arising out of such risks and hazards. In cost-plus-a-fixed-fee contracts various contracting forms presently in use provide for such indemnification and no special approval by the Director, Purchases Division, Headquarters, Army Service Forces, for the use of these forms is required. In fixed price contracts such indemnification will be given only in rare cases and upon a clear showing of necessity. In any such fixed price contract (a) all contingencies and allowances for such risks and hazards will be excluded from the contract price and (b) such an indemnity agreement will be included only with the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces. In requesting such approval, a full statement will be submitted as to (1) the extent of the potential liability under the indemnity agreement, (2) any proposed contract maximum and minimum limits on the extent of such liability or other conditions affecting such liability, (3) the appropriated funds presently available to satisfy such liability and (4) the facts and reasons justifying such an indemnity agreement in the particular case rather than requiring the contractor to resort to insurance.

§ 802.239 *Subsidy prohibited.* None of the funds appropriated in the Military Appropriation Act, 1945 (Pub. Law 374, 78th Congress) shall be used for the payment of any subsidy on agricultural or other products. (See Section 1 of Pub. Law 374, 78th Congress, under subtitle "Subsistence of the Army".)

SUBPART D—NEGOTIATION OF CONTRACTS

§ 802.240 *Method of contracting.*

§ 802.240–1 *By negotiation.* Except as provided in § 802.240–2, all contracts and purchases made by the War Department will be made by negotiation under authority of the First War Powers Act, 1941, and Executive Order No. 9001, 3 CFR Cum. Supp., and in accordance with these procurement regulations. While this act and Executive order are construed to embody all the authority conferred by sections 1 (a) and (b) of the act of July 2, 1940 (Public Law No. 703, 76th Congress), as extended, the earlier act may also be cited as authority for contracting in appropriate cases if desired (see § 802.204–1).

§ 802.240–2 *By formal advertising.* When authorized by the Director, Purchases Division, Headquarters, Army Service Forces, contracts may be placed by formal advertising instead of by negotiations if deemed necessary in the interests of the Government.

§ 802.240–3 *Aids to negotiation.* Sound purchase control requires that the original contract be well negotiated on the basis of reliable cost experience and close estimates. To do this, all available information and aids to negotiation must be used as effectively as possible. This section deals with some of the methods and data which will assist such sound negotiation of contracts.

§ 802.241 *Methods of negotiation.*

§ 802.241–1 *General rule.* Subject to specific provisions of the regulations in this subpart, the chief of each technical service may determine the methods of negotiation to be followed by his service. Any method which, in the judgment of the chief of the technical service concerned, will result in the most efficient award of contracts and will protect the interests of the Government, is hereby authorized. Such methods may include not only face to face dealing but also informal written bids or telephone quotations, but the request for any such bids or quotations will clearly indicate that it is made under the authority of the First War Powers Act, 1941.

§ 802.241–2 *Decentralization.* The chiefs of the technical services will decentralize to their field agencies the actual work of negotiating contracts to the greatest extent consistent with efficiency and proper safeguarding of the public interest.

§ 802.242 *Use of informal bids.* Where consistent with the required speed of war procurement, notification of the proposed procurement will be given to a reasonable number of qualified producers and suppliers, and quotations secured from them.

§ 802.243 *Contractors' proposals.*

§ 802.243–1 *Value of standard proposal forms.* The use of contractors' proposals is an important method of obtaining information upon which to base a sound judgment in making awards of contracts. These proposals are particularly valuable when presented on standardized proposal forms, since a uniform method of statement facilitates comparison of all proposals received and their evaluation in the light of the principles set forth in Subpart B of this part and in ASF Manual M601.

§ 802.243–2 *Standard procurement forms prescribed for use in certain cases.*

§ 802.243–2a *When used*—(a) *Standard Procurement Form No. 3.* Whenever, in the opinion of the technical service involved, detailed cost or price information should be obtained from bidders as an aid to the adequate negotiation of contracts for supplies (excluding construction), it will employ Standard Procurement Form No. 3 and related forms (WD AGO Form 293, Mar. 1, 1945; WD AGO Form 293–1, February 1, 1945 or July 12, 1944; and WD AGO Form 293–2, March 1, 1945, referred to in § 813.1327. Within the scope of the foregoing rule, each technical service may prescribe more precisely the size and types of procurements in which Standard Procurement Form No. 3 is to be used.

(a) *Standard Procurement Form No. 4.* In simple procurements of supplies (excluding construction) for small amounts where effective competition exists, and where it is accordingly expected that awards will be made to the lowest bidders (subject to the principles set forth in Subpart B of this part), the information to be obtained from bidders may ordinarily be confined substantially to the quotation of prices. Whenever the technical service desires to obtain this limited information in the form of a written proposal, it will employ either (1) W. D. Contract Form No. 5 (§ 813.1317d), if that form of contract is otherwise suitable, or (2) Standard Procurement Form No. 4 (WD AGO Form 298), referred to in § 813.1327, followed by the execution of a suitable contract form.

§ 802.243–2b *Detailed instructions to procurement offices as to use of Form No. 3 and related forms*—(a) *Flexibility.* One important feature of Standard Procurement Form No. 3 is that it has considerable internal flexibility. The procurement office is required by the terms of the form to select and specify (within established limits), the data which the bidder is expected to furnish. Thus, the procurement office has latitude to accommodate the form to the necessities of particular procurements; for example, it may relieve the bidder of the task of compiling information which is not pertinent to the procurement or which is already known to the procurement office.

(b) *In general.* (1) Whenever feasible a preliminary survey will be made, by telephone or otherwise, to determine the prospective contractors to whom an award might be made. In this way, contractors not likely to make acceptable proposals may be eliminated without be-

ing required to expend the time and effort necessary to fill out Standard Procurement Form No. 3. Care should be taken, however, not to eliminate or exclude contractors whose proposals might possibly be acceptable, and not to act inconsistently with the policy of the Smaller War Plants Corporation. (See § 802.225).

(2) It is of the utmost importance that no contractor be asked to complete any portion of Standard Procurement Form No. 3 requiring information which will not be pertinent or useful in properly effecting the particular procurement, or which is already on file with the procurement office. This principle of selectivity will be applied to each contractor, so that in a particular procurement all of the bidders need not necessarily be asked to furnish the same information. The exclusion of such irrelevant and duplicative data is made possible by the flexible character of the form. A proper use of this feature of the form will relieve contractors of the burden of gathering and filling in unnecessary information. At the same time it will help to expedite procurements by making it possible for contractors to fill out and return their proposals more promptly. If, however, portions of the form omitted in the original request call for information which is subsequently deemed pertinent, that information may be requested by sending to the contractor additional copies of the form with an indication in the box on page 1 of the additional portions of the form to be completed.

(3) The procurement office and the contractor may, of course, make arrangements for the contractor to submit some part or parts of the information called for by the form by means of periodic reports or some other mutually satisfactory method. Such an arrangement may expedite and improve dealings with the contractor. Information so submitted should meet the substance of the requirements of the form.

(4) Although deviations from or additions to the form are not permitted without approval of higher authority (see § 802.243–3 where necessary the information obtained through use of the form may be clarified or amplified through correspondence or personal negotiation.

(5) The information submitted in or with Standard Procurement Form No. 3 will be used as a basis of negotiations with the prospective contractor, in accordnace with Part 802 and ASF Manual M 601 and any other instructions that may be in force from time to time.

(6) If a prospective contractor requests that he be notified upon rejection of his proposal, the procurement office will give such notice.

(c) *Instructions as to page 1 of Form No. 3.* (1) In the upper left-hand corner of page 1 of Standard Procurement Form No. 3, insert in the appropriate blanks the date, the request number (if any), the name and address of the procurement office, the name and address of the contractor, the preference rating to be assigned and (on the line entitled "Subject") the name or a brief description of the item or items as to which a proposal is sought.

(2) The box in the upper right-hand corner of page 1 should contain a list of all the titles of the Contractor's Proposal, or the portions of such titles which the contractor is requested to fill out or answer. It is at this point that the flexibility of the form, which has been discussed above, comes into actual operation. Care and sound judgment must be exercised in selecting the titles, or portions thereof, to be included in the box. The selection should be made only after a review has been made of the information already on hand in the procurement office, and after consideration has been given to the need for further information necessary to effect the procurement in accordance with War Department policies. In filling out the box, list only the title if all the sections thereof are to be completed; otherwise the sections themselves should be specified in the box. If the request for proposal relates to more than one kind of item, specify in the box, by item number or otherwise, the items for which cost breakdowns are to be submitted under either or both of Titles V and IX.

(3) A reference to the contract form number or some other brief description of the form of proposed contract (which may be stated in the alternative if the procurement office is uncertain as to which form of contract is to be used) should be inserted in the first blank in paragraph 1 on page 1. Mandatory clauses need not be specified. Any optional contract clauses which the procurement office desires to include in the contract should be appropriately referred to and identified in the blank space provided at the end of paragraph 1 on page 1. Such of the optional clauses as the procurement office requires to be included in the contract should be stated first and preceded by the words "No Deviation"; such of the optional clauses as the procurement office merely suggests for inclusion should be set forth in a second group and preceded by the words "Optional with Contractor". It may be desirable in some cases to attach a copy of the contract form or of the clauses.

(4) Insert in the blanks in paragraph 4 on page 1 the number of copies of the form to be completed and returned and the date for the return of the Contractor's Proposal. The date specified should give the contractor a reasonable time in which to complete and return the proposal but should be no longer than is necessary in the circumstances.

(5) The inclosures should be indicated in the lower left-hand corner, and the name of the procurement office and the signature and title of its representative should be entered on the blank lines in the lower right-hand corner, of page 1.

(d) *Instructions as to remainder of Form No. 3, and as to related forms.* (1) It should be noted that certain portions of the form following the heading "Contractor's Proposal" are required to be filled in by the procurement office. In filling out those portions and in determining the portions of the forms to be completed by the contractor, the following instructions will be observed.

(2) If the procurement office desires that the contractor's proposal be kept open for a certain number of days, that number may be inserted in the blank space provided therefor in paragraph 2 on page 2 of the form. That time should be kept to a minimum and in any event will not exceed thirty days. Otherwise the space should be left blank for completion by the contractor.

(3) In Title III (A) of Standard Procurement Form No. 3, Scope of Proposal, show the F. O. B. point in the space provided therefor and insert in the appropriate columns of the table the following information as to each item: Item number, description of item (or reference to description contained in any attachment), total quantity and unit (as pounds, yards, etc.) on the first two lines of column (3), and the Government's requested delivery schedule. The description of the item may be extended into column (3). Items for which separate prices are wanted, e. g., special packaging, should be shown as separate items in the table. If the delivery schedule for one item is the same as that for an item already specified, the schedule need not be repeated but may be indicated by the words "Same as for Item ——". In the case of spare parts, reference may be made to deliveries concurrent with the item or items to which they relate. If a proposal is desired without deviations from the request, the words "No Deviation" should be inserted in the columns for the description, total quantity and delivery schedule, or in one or more of such columns. If deviations are allowed, leave space at least equal to that used in filling out the Government's requested delivery schedule below each item. Columns (5) and (6), for the proposed unit and total prices, and column (7), for the contractor's proposed delivery schedule, should of course be left blank for completion by the contractor.

(4) Attention is invited to the space provided at the end of paragraph (c) of Title III of the "Instructions for Completing War Department Standard Procurement Form No. 3". (WD AGO Form 299–2, March 1, 1945). This space is intended for the insertion, by the procurement office, of special instructions relating to taxes in any case where the general instructions are inapplicable or inappropriate.

(5) Insert in paragraph (D) of Title III of Standard Procurement Form No. 3, a brief but adequate description of any material which the Government proposes to furnish. If more convenient, that description may be included in column (2) of the table under Title III (A). If no such material is to be furnished, insert the word "None". Where necessary, insert the words "No Deviation".

(6) Before the contractor is asked to complete Titles II and IV of Standard Procurement Form No. 3, the paragraphs appearing under those titles should be carefully checked by the contracting officer. To the extent that any of the information called for will not be useful or the procurement office already has obtained, or has made other arrangements by means of periodic reports or otherwise for obtaining, the information called for, the contractor should not be asked to complete the titles. Thus the box on page 1 of the form should list only such

of the paragraphs of Titles II and IV as will elicit new and useful information. It should be noted that some information is requested only to the extent available, and that whether the information called for by specification of paragraph 6 of Title IV is or is not to be furnished is a matter to be left to the contractor's judgment.

(7) When the contractor is asked to fill out Title V of Standard Procurement Form No. 3, Unit Cost Breakdowns, or some part or parts thereof, Column A under that title will be called for in nearly all cases, but Column B will be omitted where the contractor has not had relevant previous experience or where the procurement office already has satisfactory cost information on hand. It is permissible to insert in lines 12 through 19 any special elements of cost which are not included in the classifications appearing in the preceding lines, e. g., packaging materials or special tooling, but such insertions should be made sparingly and only when there is good reason for them. It is also permissible to work out with the contractor other classifications that are suitable for use with his cost accounting system or to make arrangements for over-all reports on his past cost experience. Where the proposal is to include more than one type of item, a continuation sheet for Title V (WD AGO Form 299–1, February 1, 1945 or July 12, 1944) should be added to each counterpart of the form for each of the additional items for which cost information is required.

(8) The supplement to Standard Procurement Form 3 includes Titles VI through X. If no part of those titles or any part thereof is specified in the box on page 1 the supplement should not be sent to the contractor.

(9) Title VI, Indirect Factory Expenses, and Title VII, General and Administrative Expenses, portions of Standard Procurement Form No. 3, should not be specified in the box on page 1 of the form unless there is reasonable cause for believing that the information to be elicited thereby will assist materially in the negotiation of the contract price, and the information is not already on file with the procurement office. Arrangements may be made with the contractor for the submission of this information in some other form or forms acceptable to both the procurement office and the contractor. Note that under each title, columns 1, 2 or 3 may be listed in the box on page 1 of the form. Use only the column or columns necessary in the particular instance.

(10) Title VIII of Standard Procurement Form No. 3, Accounting Methods, should be used only infrequently, when the information called for therein will contribute substantially to an understanding of the contractor's proposal. Where the information is considered useful, the request may be limited, by an appropriate indication in the box on page 1, to such of the lettered clauses as may be deemed appropriate in the particular instance. This title should not ordinarily be used where the contractor has supplied the information to the procurement office in connection with a reasonably recent or current procurement. Such information should be preserved in the files of the procurement office.

(11) Title IX of Standard Procurement Form No. 3, Costs of Other Items, should be specified only where the amount involved in any of the paragraphs of that title is substantial. Where necessary, the items as to which the information is sought should be specified. Note that any one or more of the paragraphs may be listed in the box on page 1 of the form. Continuation sheets used with Title V (WD AGO Form 299–1, February 1, 1945 or July 12, 1944) should be supplied where Title IX is used.

(12) Title X of Standard Procurement Form No. 3, Direct Materials, is to be used only where a few materials constitute an important element of total material cost and where the amount of subcontracting is not large in relation to total material cost. A list of the materials as to which the information is desired may be inserted by the procurement office in the space provided therefor. If Title X is specified in the box on page 1 of the form with respect to more than one item, the necessary additional copies of the supplement should be furnished to the contractor.

(13) One copy of the "Instructions for Completing War Department Standard Procurement Form No. 3" (WD AGO Form 299–2, March 1, 1945) should be sent to each contractor along with the necessary number of counterparts of Standard Procurement Form No. 3.

§ 802.243–2c Detailed instructions to contractors for completing Form No. 3 are set forth in the related form, WD AGO Form 299–2, March 1, 1945.

§ 802.243–2d Standard Procurement Form No. 4 (WD AGO Form 298) is self-explanatory.

§ 802.243–3 *Deviations from standard proposal forms permitted only with approval of higher authority.* (a) Unless authority is obtained under paragraph (b) below, Standard Procurement Forms Nos. 3 and 4 will be used without deviation or addition, and no substitute or supplementary proposal forms will be used (except that W.D. Contract Form No. 5 may be employed in lieu of Standard Procurement Form No. 4, as provided in § 802.243–2 (a). Where necessary, however, the information obtained through use of Standard Procurement Forms No. 3 or 4 may be clarified or amplified through correspondence or personal negotiation.

(b) Upon request and justification by the technical service involved, the Director, Purchases Division, Headquarters, Army Service Forces, may in particular classes of cases permit deviations from or additions to Standard Procurement Forms Nos. 3 and 4, or otherwise grant partial or complete exemptions from the requirements of §§ 802.243–2 and 802.243–3 (a). Such authority will normally be granted only where the forms do not fit the cost patterns of particular industries, and in these instances it will be required that the authorized deviations from or additions to the forms be applied uniformly to all members of the industry.

§ 802.244 *Purchase analysis.*

§ 802.244–1 *Price comparison.* Comparative prices for similar items compiled in accordance with § 802.251 will be made available to contracting officers for use in negotiating new contracts. The prices offered for new contracts should be carefully compared with previous prices for similar items, making allowance for improved methods, rates of production, type of facilities and other factors. Where proposals are obtained from several producers they should be similarly compared with each other.

§ 802.244–2 *Renegotiation information.* The chief of each technical service will insure that contracting officers make regular use of studies and other information compiled by the price adjustment and cost analysis sections and useful in negotiating with contractors, such as data on volume of business, the policies regarding overhead and reserves, rates of profit and other material. (See § 802.252.)

§ 802.244–3 *Cost analysis.* When the prices or cost estimates submitted by a producer are out of line with previous experience or other proposals and use of his facilities is necessary or desirable in accordance with the policies stated in Subpart B of this part, an analysis of the contractor's costs should ordinarily be made in order to find the causes of the higher costs or prices. Likewise where prices or cost estimates of a producer for an unfamiliar item are so low as to indicate mistakes in the estimates, a similar study should be made. Such study and analysis should be limited to the minimum necessary to obtain the required information and should be made with the least possible inconvenience to the producer (see § 802.253).

§ 802.244–4 *Check lists.* Orderly and speedy negotiations are facilitated by the use of standard negotiation check lists. Such forms should be designed to indicate the information to be obtained from the contractor and from other sources and the methods to be used in evaluating this material and in arriving at the final contract terms.

§ 802.245 *Special clauses.* The contracting officer should consider in each case whether use of any of the various articles for price adjustment discussed in Subpart C of this part and in Part 812 of this chapter is desirable. When such articles are used, the contracting officer will satisfy himself that the original price is sufficiently reduced, by eliminating or reducing contingency reserves and by lower profit margins, to justify the Government in agreeing to such adjustment provisions in favor of the contractor.

§ 802.246 *Compulsory purchases.* Where a fair contract cannot be obtained by voluntary negotiation, it may be necessary to resort to compulsory methods.

§ 802.246–1 *Mandatory orders.* Under section 9 of the Selective Training and Service Act of 1940 as amended, mandatory orders may be placed with producers requiring them to supply items of the nature and kind usually produced or readily capable of being produced by them. Payment for such items will be

at prices determined by the Secretary of War to be reasonable. While the general use of such orders is not favored they will be resorted to when necessary under the circumstances described and outlined in § 814.1450 et seq. Thus, where a qualified producer whose products are required in the war effort refuses to produce and deliver upon terms which in the opinion of the contracting officer are fair and reasonable, the issuance of a mandatory order will normally follow. Specific reference should be made to § 814.1450 et seq. for detailed procedures covering this method of procurement.

§ 802.246–2 *Requisitioning.* When articles needed in the war effort are already in existence but for one reason or another cannot be purchased after reasonable negotiation, the procedure under the requisitioning acts, as outlined in § 814.1401 et seq., should be resorted to in order to obtain the required items.

§ 802.247 *Assistance by Headquarters, Army Service Forces.* The Purchase Pricing Methods Branch, Purchases Division, Headquarters, Army Service Forces, will assist any service in preparing standard forms for proposals by contractors, evaluation sheets or check lists and other aids to effective negotiation.

§ 802.248 *Purchasing by prime contractors.*

§ 802.248–1 *Purchasing methods of cost-plus-a-fixed-fee contractors.* Cost-plus-a-fixed-fee contractors should ordinarily make their subcontracts and purchases by negotiation rather than by formal advertising. In connection with such negotiations, they will obtain informal quotations from qualified suppliers whenever feasible, but evidence of formal competition will not be required in connection with such agreements unless the contracting officer directs otherwise.

§ 802.248–2 *Adjustment of prices and terms of subcontracts and purchase orders under cost-plus-a-fixed-fee contracts* (a) The cost-plus-a-fixed-fee contractor is obligated to procure materials and services at the most advantageous prices possible, with due regard to securing prompt delivery and satisfactory performance. Under some circumstances, commercial concerns find it necessary or desirable and advantageous to adjust the price or terms of an outstanding subcontract or purchase order, without legal consideration, for the benefit of the supplier. By permitting cost-plus-a-fixed-fee contractors to make similar adjustments in appropriate cases in accordance with this regulation, it is believed that they will be able to buy from their suppliers at closer prices in the first instance and that the maximum use of available facilities through subcontracting will be maintained.

(b) In order expressly to authorize such adjustments in accordance with this regulation, the chief of a technical service may include in any cost-plus-a-fixed-fee contract substantially the following provision:

With the approval of the Contracting Officer, the Contractor may modify a subcontract or purchase order under this contract to increase the price or extend more favorable terms to the subcontractor.

The chief of a technical service may amend any existing cost-plus-a-fixed-fee contract to include this provision whenever in his opinion such action will be advantageous to the Government and will facilitate the prosecution of the war.

(c) It has been determined that it will facilitate the prosecution of the war to permit cost-plus-a-fixed-fee contractors to increase the price or to make other adjustments in the terms of a subcontract or purchase order, without legal consideration therefor, pursuant to the contract provision authorized by paragraph (b) above, whenever the contracting officer specifically determines.

(1) That the price increase or other adjustment is necessary or desirable in order to continue or increase satisfactory production of essential supplies or to ensure their timely delivery; or

(2) That fair and equitable dealing with the subcontractor or supplier in accordance with sound business practice requires such price increase or other adjustment; or

(3) That the maximum use of available facilities through subcontracting will be thereby facilitated or encouraged; or

(4) That the contractor through following such a policy will be enabled to buy from its suppliers and subcontractors at closer prices in the first instance.

(d) The contracting officer may approve any such increase in price or other adjustment in the terms of a subcontract or purchase order without legal consideration only if, in the light of all the facts and circumstances in the particular case, he makes the determination required by paragraph (c) above. Whenever approval of any such adjustment is contemplated, the contracting officer shall prepare and file a complete memorandum of the circumstances involved and the reasons for the proposed approval, and shall forward a copy of this memorandum to the chief of the technical service concerned for review and concurrence. No approval shall be given by the contracting officer under the contract until concurrence of the chief of the technical service concerned has been received. Upon any such adjustment in the price or terms of a subcontract or purchase order, the contractor shall be reimbursed on the basis of the adjusted price or terms.

(e) As used herein the term "cost-plus-a-fixed-fee contract" includes a provision in a fixed-price contract for procuring facilities for the account of the Government at cost (see § 803.332), and the term "contractor" includes the contractor operating under such a provision.

SUBPART E—PRICE SUPERVISION

§ 802.250 *General policy.* For the reasons stated in § 802.230, the War Department is responsible for supervising and controlling the prices of all supplies and equipment procured and of the various items and services entering into the costs of these supplies and equipment to insure that such prices are reasonable and not excessive. This subpart deals with the performance of this responsibility by the services.

§ 802.251 *Price analysis.*

§ 802.251–1 *Functions.* The chief of each technical service will maintain within his service appropriate agencies to perform the following price analysis functions:

(a) To assemble, analyze, interpret and disseminate price data for all important items procured by the technical services and for important component items entering into the costs of such items;

(b) To prepare special price analysis reports for procurement officers; and

(c) To compile and maintain comparative price records and indices for such items and their important components.

§ 802.251–2 *Sources of data.* In performing their functions, price analysis agencies will make use of the following types of information:

(a) Contract prices for similar items, which will be compiled on a comparable basis with respect to the basic (or major) item, essential extra parts and assemblies, initial and extra equipment, Government furnished equipment and scrap salvage.

(b) Cost estimates and other relevant data from proposals submitted by contractors.

(c) Analyses of the effect of major production and engineering problems on prices and costs.

(d) Prices paid for important subcontracted items. (See § 802.254.)

(e) Breakdowns of costs of subcontractors and sub-subcontractors based on production experience.

(f) Balance sheets and operating statements and similar data for contractors and subcontractors from price adjustment sections and financial services.

(g) Information from other Government agencies such as the Office of Price Administration. (See §§ 811.1130 to 811.1135.)

(h) Where necessary, audits of costs of contractors and subcontractors made by the cost analysis sections.

§ 802.251–3 *Use of price data.* (a) The price analysis agencies will prepare full analyses and reports on the comparative prices paid for important items and their components, making proper allowance for differences in the size of the contract, in design, local wage scales, type of facilities, contract terms and other factors. These reports will be in a form usable by procurement officers and price adjustment sections and will contain any recommendations for necessary or desirable action by them.

(b) In making or revising contracts, procurement officers will consult with the appropriate price analysis section and make use of all pertinent price analyses and reports then available.

(c) The price analysis agency will cooperate closely with the price adjustment sections and will make available to them price analyses and reports for use in renegotiation. When renegotiation reveals excessive profits the price analysis agency should immediately

make studies of the prices of such contractors.

(d) Price records on items procured by the technical service and important components will be kept in such manner as to be readily available for reporting to higher authority or to the Office of Price Administration as requested.

§ 802.251–4 *Corrective action.* When price analysis reveals that the prices of comparable items are out of line, the procurement officer directly concerned will immediately initiate measures to discover the reasons. The appropriate measures will depend upon the particular situation. The contractor or his important subcontractors may be required to furnish a breakdown of actual costs based on production experience. When these are inadequate, cost audits or spot checks may be undertaken through the financial analysis section, and studies of purchasing methods may be made in accordance with § 802.254. Unless the facts disclosed that differences in price are justified by higher costs and by the policies stated in Subpart B of this part, negotiations will be initiated for appropriate adjustments in contract or subcontract prices.

§ 802.252 *Profit analysis.* The studies, by the price adjustment sections of each technical service, of the overall costs, profits and financial position of contractors and subcontractors provide valuable data to assist contract negotiation, such as information regarding overhead, reserves, profit margins, volume of business and similar matters. The chief of each technical service will make arrangements to insure that such information is made readily available in useful form for procurement officers in conducting negotiations with such contractors and for price analysis agencies in performing their functions.

§ 802.253 *Financial analysis.*

§ 802.253–1 *Organization.* Each technical service will maintain appropriate agencies to perform financial analysis functions and to act as fact finding units with respect to costs and profits on its contracts and subcontracts for use in negotiations by contracting officers as well as in renegotiation by price adjustment sections. The chief of each technical service may assign the financial analysis functions to such place in the organization of the service as seems most appropriate to him to permit their effective performance; they need not be placed in the fiscal section of the technical service unless the chief of the service so decides.

§ 802.253–2 *Functions.* When a financial analysis study of any contractor is made to prepare reports for the price adjustment section, there will also be made such study as seems appropriate in each case to aid procurement officers in future contract negotiations with the contractor. In addition, whenever price analysis indicates that prices or costs of a particular contractor or subcontractor are out of line and the procurement officer so requests, the financial analysis agency will make necessary studies of any contractor or subcontractor. Such studies will be limited to the extent necessary to obtain the desired information.

§ 802.254 *Supervision of subcontracts and purchases.*

§ 802.254–1 *Policy.* The Government is vitally interested in the prices of component parts and materials of the items which it procures. The prices for such component articles are reflected in prices under fixed price prime contracts and are directly reimbursed under fixed-fee contracts. If excessive, such prices encourage inefficiency, inflationary expenditures and excessive profits in the same manner as excessive prime contract prices. Accordingly, the War Department and technical services must also supervise these prices. Because the Government could not attempt to inspect or approve individual purchases under all fixed price and fixed-fee contracts, they must be supervised by more selective methods adapted to varying circumstances.

§ 802.254–2 *Methods of supervising purchases under cost-plus-a-fixed-fee contracts.* While the cost-plus-a-fixed-fee contractor is responsible for efficient buying, the lack of direct financial incentives for economy makes it essential to supervise its purchasing with respect to prices, quantities and capacity of suppliers. Experience has shown that detailed prior approval of all purchase orders and subcontracts under fixed-fee supply contracts is less efficient for this purpose than more selective methods. Accordingly the following procedure for supervision will be adopted in the case of supply contracts.

(a) The purchasing policies and methods of the cost-plus-a-fixed-fee contractor should be carefully analyzed to determine their adequacy for sound purchasing. This analysis should ascertain (1) whether prices paid are reasonable; (2) whether quantities purchased are proper; (3) whether suppliers and subcontractors are reasonably qualified; (4) whether the purchasing personnel are well-qualified; and (5) whether purchasing procedures are sound and adequate.

(b) If the purchasing policies and methods are adequate with respect to prices, quantities and suppliers and are consistently followed, prior approval of subcontracts and purchase orders by the representatives of the contracting officer need not be required, or may be limited to those of substantial amounts, if regular selective checking is maintained instead.

(c) If the purchasing methods are inadequate in any respect, steps should be taken immediately to require the contractor to correct the deficiency, and if necessary, prior approval of subcontracts and purchase orders by the representative of the contracting officer to check on the propriety of the prices and other terms should be required until the deficiency is corrected.

(d) Periodically a report should be prepared with respect to each important contractor, stating the results of the inspection of the purchases and examination during the preceding period.

(e) If at any time the chief of a technical service finds that the selective method of supervision is inadequate, he may require such further supervision, including prior approval of purchase orders and subcontracts, as he deems necessary.

§ 802.254–3 *Methods of supervising purchasing by fixed price contractors.* (a) In the case of fixed price contracts, the contractor ordinarily has strong incentives to purchase at low prices in order to enhance the profit, but with high excess profits taxes and renegotiation, this incentive can be fully maintained only by keeping the prices under prime contracts close to minimum costs. For this purpose procurement officers must have adequate information on what component parts and materials should cost if well purchased and must know whether the contractor is equipped to obtain the best prices available.

(b) Price analyses in accordance with § 802.251 will supply necessary information. In that connection, the purchasing policies and methods of important fixed price contractors should be analyzed in the manner described in § 802.254–2. When such analysis or the study of the prices paid by different contractors for important component parts and materials reveals deficiencies, they should be called to the attention of the contractor with recommendations for their correction.

§ 802.254–4 *Personnel.* A selective method of control requires the use of well trained and experienced personnel with a knowledge of purchasing methods and industrial costs and prices. Each service should obtain an adequate number of qualified officers or employees to perform these functions.

§ 802.255 *Sanctions.* Whenever study or analysis reveals that the prices of a contractor or subcontractor are excessive, and he refuses to make appropriate adjustments, the facts should be reported through the chief of the technical service to the Purchases Division, Headquarters, Army Service Forces. In appropriate cases the Director may then authorize action to correct the situation by the use of compulsory orders, renegotiation, or other means.

§ 802.256 *Coordination.* Each technical service may determine the form of organization necessary to perform the foregoing functions within its service and to obtain their essential coordination and their integration with procurement. Thus, in its discretion, a technical service may combine these functions in a single agency or assign them to several separate agencies. Because these various price functions are so closely related, however, it is recommended that even where they are performed by several agencies in any service, all of them should be coordinated and integrated under a single head. Such an agency should supervise within the service all functions relating to contract clearance, negotiation aids, price analysis and supervision, liaison with the Office of Price Administration, renegotiation and price adjustment, and price research. This policy has been followed in Headquarters, Army Service Forces, by the creation within the Purchases Division of an Assistant Director for

Price responsible for supervising all of these functions. Creation of a similar agency in each service will facilitate coordination and cooperation between Headquarters and the services.

SUBPART F—CONTRACTING POLICY REGARDING CONSTRUCTION AND MAINTENANCE WORK

§ 802.260 *General.* Wherever possible all construction work will be performed on a contract basis, and barring that possibility for practical reasons such construction work will be performed on a hired labor basis.

§ 802.260–1 *Same; new construction.* Job construction refers to work of a type generally performed by a construction contractor, which is non-recurrent and temporary in the sense that it terminates on the completion of a specific project. In general, this includes such work as the construction of new structures or alterations of like nature to existing structures.

(a) All such new work within the meaning of the above definition will be prosecuted under contract whenever possible.

(b) When such work does not adapt itself to contracting procedure for practical reasons, it will be done by the officer in charge on a hired labor basis.

§ 802.260–2 *Same; maintenance work.* Maintenance work refers to work which is regular and recurring, and which is continuous in the sense that it is not terminable on the completion of a specific project. This includes such work as repair, adjustment, overhauling, and upkeep of existing structures or installations. The term also includes, as specified in § 809.911–5, the movement of machinery and installation of equipment, and alteration work incident thereto, performed as an incident of a supply contract. However, in making the determination required by § 809.911–7, as applied to particular machinery movement or installation work, each contracting officer concerned will give careful consideration to the desirable objective sought in the overall policy statement outlined above.

§ 802.260–3 *Same; construction or repair in restricted areas.* It is recognized that in restricted areas, because of the various factors involved, it is not often feasible to prosecute the work either under contract or on a hired labor basis. In such instances the work may be done by maintenance forces. However, every effort will be made to insure that this practice is not abused.

§ 802.260–4 *Same; termination of construction contracts.* The completion of specific construction projects, including original installation of equipment, will be made whenever possible under construction contracts.

(a) When this procedure is not practical, resort will then be made to hired labor.

(b) Completion of specific construction projects by the maintenance forces will be adopted as a last resort, and only when to do otherwise would result in interference or interruption of production, or would demand wasteful retention of a construction supervisory overhead organization.

SUBPART I—PURCHASE ACTION REPORTS

§ 802.290 *General*—(a) *Purpose.* This subpart relates to procedures established for purchase action reporting in order to comply with requirements of law and to provide a single system within the Army for reporting placement, cancellation and amendment of contracts.

(b) *Effective date.* Compliance is required, effective 1 March 1945, with the revised procedures provided in this subpart. However, in the event the new Purchase Action Report Forms W.D., A.G.O. No. 375 (original) and W.D., A.G.O. No. 376 (supplemental), which replace the old Report of Negotiated Purchase in Excess of $10,000, W.D., A.G.O. Forms No. 496 and 495, are not available by 1 March 1945, existing supplies of old forms may be used until such time as the new forms become available. Every effort will be made to utilize the new forms as early as possible.

(c) *Authority of Purchases Division as to reporting.* The Purchases Division, Headquarters, Army Service Forces, retains full authority pertaining to purchase action reporting requirements established by this subpart, despite the decentralization of some of the operating functions.

(d) *Matters to be reported.* All purchase actions, original and supplemental, as defined in § 802.291 (c) and (d), will be reported if involving the required dollar amount.

§ 802.291 *Definitions*—(a) *Technical service.* Notwithstanding the provisions of § 801.108–5 the term, "technical service", when used in this subpart, shall be deemed to include the Army Air Forces, but shall not be deemed to include any service command. The term "chief of a technical service" shall be deemed to include the Commanding General, Army Air Forces.

(b) *Service command.* The term service command" shall be deemed to include the Military District of Washington and the Northwest Service Command.

(c) *Purchase action.* A purchase action is any transaction whatsoever (including all types of awards, also mandatory orders and requisitions under Part 814) with any individual, firm, corporation or Governmental agency not under the jurisdiction of the War Department, involving the purchase or lease of goods, real estate or services of every character and description, and usually obligating Government funds; *Provided, however,* That the following are not regarded as purchase actions and therefore are not reportable:

(1) Transactions of the Army Exchange Service (see § 802.294 (c));

(2) Pay of individuals;

(3) Shipping and traveling expenses;

(4) Open-end contracts for services which are subject to open allotment as enumerated in Circular 245, W.D., 1944 and open-end contracts for the rental or lease of communications services or facilities;

(5) Indefinite quantity contracts, such as those listed in § 806.605d, which are for the use of more than one technical service or service command; and

(6) Delivery or purchase orders placed against a contract executed by another Department of the Government, such as a contract executed by the Procurement Division, Treasury Department.

Each delivery or purchase order in excess of $10,000 issued against an indefinite quantity contract of the character described in subparagraph (5) above, is considered to be a purchase action and should be reported as such on W.D., A.G.O. Form No. 375 (see § 802.205–3 (c)).

(d) *Supplemental purchase action.* A supplemental purchase action is any transaction affecting the cost of an existing purchase action by means of change order, supplemental agreement, amendment, cancellation, extension, renewal, etc.; this includes changes resulting from renegotiation, price adjustment, export differentials, etc. Changes such as adjustments due to over or under deliveries pursuant to a Variation in Quantities clause (see § 802.295–3 (a)) are not supplemental purchase actions.

(e) *Preliminary contractual agreements.* The term "preliminary contractual agreements" as used in this subpart, refers to all written agreements which do not obligate War Department funds to the full amount which it is anticipated will be obligated finally. Letter orders, letter purchase orders, letter contracts and letters of intent are examples of preliminary contractual agreements (see W.D. Contract Form No. 7, § 813.1307, as one type of such agreement). For manner of reporting, see § 802.295–1.

(f) *Open-end contract.* The term "open-end contract" as used in this subpart, means a contract in which no final completion date is set and which usually involves recurring charges for goods and services. (Contracts for gas, electricity or water may be cited as examples.) For manner of reporting, see § 802.295–2.

(g) *Indefinite quantity contracts.* For the purposes of this subpart, indefinite quantity contracts are considered to include those contracts which permit deliveries to be made in larger or smaller quantities than stated in the contract, either at the option of the contractor or of the contracting officer, and with or without a written change order modifying the contract. For manner of reporting, see § 802.295–3.

(h) *Date of award; date of action.* The "date of award" of an original purchase action is the date upon which a verbal or written notice of award thereof is given by the contracting officer to the contractor. The "date of action" with respect to a supplemental purchase action is the date upon which verbal or written notice thereof is given by the contracting officer to the contractor.

§ 802.292 *Filing of reports by stations under the jurisdiction of chiefs of technical services or commanding generals of service commands.* Stations under the jurisdiction of chiefs of technical services or commanding generals of service commands are required to file purchase action reports of the types, in the man-

ner, and under the conditions provided in §§ 802.292–1 through 802.292–5. Stations under the jurisdiction of functional staff divisions, Headquarters, Army Service Forces, will file such reports as provided in § 802.294.

§ 802.292–1 *Stations required to report.* Except as noted below, it is the responsibility of every station (whether an exempted or non-exempted station) to which a reallocation, allotment or suballotment has been made and which is located within the continental limits of the United States or in the Northwest Service Command, to file reports of purchase actions. Such reports, however, are not required to be filed by stations under the jurisdiction of the commanding generals of the Army Ground Forces or of the Defense Commands, or stations outside the continental limits of the United States (except those in the Northwest Service Command).

§ 802.292–2 *Method of determining whether report is to be filed with chief of technical service or commanding general of service command.* The numbering of the contract being reported determines to whom the report is to be forwarded by the station concerned. A purchase action or supplemental purchase action bearing a contract number which contains the letter symbol representing a particular technical service (see § 803.309–2) will be reported to the chief of that technical service. A purchase action or supplemental purchase action bearing a contract number which contains the symbol indicating a particular service command (see § 803.318b–5) will be reported to the commanding general of that service command.

§ 802.292–3 *Original Purchase Action Reports.* (a) A Purchase Action Report (W.D., A.G.O. Form No. 375, see § 802.297–1) will be submitted for every original purchase action which involves a total cost (actual or estimated) in excess of $10,000. The original and five copies (or more if directed by appropriate authority) of such report, will be forwarded to the chief of the appropriate technical service or commanding general of the appropriate service command, not later than the fifth calendar day following the date of award of the purchase action. (See § 802.291 (h).)

(b) When a purchase action, which was not reported because it previously involved a total cost of not more than $10,000 is increased so as to involve, after such increase, a total cost (actual or estimated) in excess of $10,000, a Purchase Action Report (W.D., A.G.O. Form No. 375, see § 802.297–1) will be submitted. The original and five copies (or more if directed by appropriate authority) of such report will be forwarded to the chief of the appropriate technical service or commanding general of the appropriate service command not later than the fifth calendar day following the date of award, which, in this instance, is considered to be the date on which a written or verbal notice of the increase is given by the contracting officer to the contractor.

§ 802.292–4 *Supplemental Purchase Action Reports.* (a) Subject to the conditions set forth in this paragraph, a Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376, see § 802.297–2) will be submitted for every supplemental purchase action as defined in § 802.291 (d) when, with respect to the purchase action involved (including such supplemental purchase actions, if any, as may have been reported previously),

(1) The cost of such purchase action is completely cancelled,

(2) The total cost (actual or estimated) of such purchase action is decreased to $10,000 or less, or

(3) The total cost (actual or estimated) of such purchase action is increased or decreased by more than $1,000.

The original and one copy (or more if directed by appropriate authority) of the Supplemental Purchase Action Report will be forwarded to the chief of the appropriate technical service or to the commanding general of the appropriate service command not later than the fifth calendar day following the date of action. (See § 802.291 (h).)

(b) For purposes of purchase action reporting, a decrease to $10,000 or less of the total previously reported cost (actual or estimated) involved in a purchase action will be considered and reported as a complete cancellation of such purchase action. This is so because only purchase actions involving a total cost in excess of $10,000 are reportable. If, due to a decrease to $10,000 or less in total cost involved in a purchase action, a Supplemental Purchase Action Report has been filed showing the complete cancellation of such purchase action and if subsequent changes (including termination settlements) increase such total cost to more than $10,000, a further Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376) will be filed; notwithstanding the provisions of § 802.292–3 (b), such increase should not be reflected on a Purchase Action Report (W.D., A.G.O. Form No. 375).

(c) Supplemental purchase actions involving increases or decreases of $1,000 or less in the total cost (actual or estimated) of previously reported purchase actions, normally will not be reported on the Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376) but will, instead, be included in the Monthly Summary Report (see § 802.292–5 and item (4) (c) in § 802.297–3a). Exceptions to this general rule concerning supplemental purchase actions of $1,000 or less are: (1) When the supplemental purchase action involves an increase in the total cost (actual or estimated) from $10,000 or less to more than $10,000; and (2) When the supplemental purchase action involves a decrease in the total previously reported cost (actual or estimated) from more than $10,000 to $10,000 or less. In the former case the entire purchase action will be reported as an original purchase action on W.D., A.G.O. Form No. 375 (see § 802.292–3 (b)), and in the latter case it will be reported as a complete cancellation on W.D., A.G.O. Form No. 376 (see paragraph (b) of this section.)

§ 802.292–5 *Monthly Summary Report of purchase actions.* (a) Within five calendar days after the close of each calendar month, one copy (or more if directed by appropriate authority) of the Monthly Summary Report (see § 802.297–3) will be submitted to the chief(s) of the appropriate technical service(s). Each Monthly Summary Report will reflect all original (W.D., A.G.O. Form No. 375) and all Supplemental (W.D., A.G.O. Form No. 376) Purchase Action Reports submitted to the chief(s) of such technical service(s) during the preceding calendar month. In addition each Monthly Summary Report will reflect the total of all supplemental purchase actions which (1) involve increases or decreases during the month under report of $1,000 or less in the cost of previously reported purchase actions and (2) are not required to be, and have not been reported on W.D., A.G.O. Forms No. 375 or 376 (See § 802.292–4 (d) and item (4) (c) in § 802.297–3a.) and have not been reported on previous Monthly Summary Reports. In preparing the Monthly Summary Report, the Purchase Action Reports (W.D., A.G.O. Form No. 375) should be classified by date of award (see § 802.291 (h)) and the Supplemental Purchase Action Reports (W.D., A.G.O. Form No. 376) and supplemental purchase actions of $1,000 or less should be classified by date of action (see § 802.291 (h)) and separate Monthly Summary Reports should be submitted for each month in which any reported action took place.

(b) No Monthly Summary Reports are required to be filed with the commanding generals of service commands.

§ 802.293 *Filing and distribution of reports by chiefs of technical services and commanding generals of service commands.* Chiefs of technical services and commanding generals of service commands are required to file purchase action reports of the types, in the manner, and under the conditions provided in § 802.293–1 through § 802.293–3. Functional staff divisions, Headquarters, Army Service Forces, will file such reports as provided in § 802.294.

§ 802.293–1 *Original and Supplemental Purchase Action Reports.* (a) Purchase Action Reports (W.D., A.G.O. Form No. 375, see § 802.297–1) and Supplemental Purchase Action Reports (W.D., A.G.O. Form No. 376, see § 802.297–2) will be forwarded by the chiefs of the technical services and commanding generals of service commands as follows:

Purchase Action Report (W.D., A.G.O. Form No. 375): 4 copies to the Department of Labor; 1 copy to the War Production Board.

Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376): 1 copy to the War Production Board.

(b) In forwarding reports as provided in paragraph (a), the following addresses should be used:

Department of Labor: Mr. William R. McComb, Deputy Administrator, Room 1114, Department of Labor Building, Washington 25, D. C. Attention: Mr. A. L. Triolo.

War Production Board: War Production Board, Bureau of Program and Statistics, Room H-327, Temporary E, 6th and Adams Drive SW., Washington 25, D. C.

(c) Notwithstanding the instructions in paragraphs (a) and (b) above, all

required copies of original or Supplemental Purchase Action Reports with respect to mandatory orders and requisitions (pursuant to Part 814) will be filed by the chiefs of technical services and commanding generals of service commands with the Director, Purchases Division, Headquarters, Army Service Forces, Attention: Chief, Control Branch.

§ 802.293–2 *Monthly Summary Report.* (a) Within 10 calendar days after the close of each calendar month, one copy of the Monthly Summary Report (see § 802.297–3) will be submitted by the chief of each technical service to the Commanding General, Army Service Forces, Attention: Director, Purchases Division. Each such report will be reconciled with the Monthly Summary Reports submitted to the chief of the technical service by stations reporting to him during or for that month (see § 802.292–5). The purpose of the Monthly Summary Report submitted by the chiefs of the technical services is to provide a control over purchase action reporting and to enable Purchases Division, Headquarters, Army Service Forces, to maintain a record of the totals of all purchase actions (with a value as awarded or supplemented in excess of $10,000) as of the month in which they took place, regardless of the month during which they are reported. It is essential, therefore, that the chief of each technical service, in preparing the Monthly Summary Report, classify original Purchase Action Reports (W.D., A.G.O. Form No. 375) by date of award (see § 802.291 (h)) and Supplemental Purchase Action Reports and changes of $1,000 or less by date of action (see § 802.291 (h)), and forward to Purchases Division a separate Monthly Summary Report for each month in which any reported action took place.

(b) Commanding Generals of service commands are not required to submit Monthly Summary Reports.

§ 802.293–3 *Quarterly Report on Procurement.* The chiefs of the technical services and the commanding generals of the service commands will submit to the Commanding General, Army Service Forces, Attention: Director, Purchases Division, within twenty days from the close of each quarter of each fiscal year, one copy of the Quarterly Report on Procurement (see § 802.297–4). Purchases Division will assemble the Quarterly Reports submitted by the chiefs of the technical services and the commanding generals of the service commands into one report which will be submitted by it to Congress, pursuant to Public Law 528, 77th Congress.

§ 802.294 *Filing of reports by functional staff divisions and stations under their jurisdiction.* (a) Except as otherwise provided in paragraph (c) of this section, functional staff divisions, Headquarters, Army Service Forces, and stations under their jurisdiction, will submit reports concerning purchase actions in the same manner as chiefs of technical services and stations under the jurisdiction of the chiefs of technical services. A purchase action or supplemental purchase action bearing a contract number which contains the symbol indicating a particular functional staff division will be reported by a station to the director of that division.

(b) The director of each functional staff division will be responsible for submission by that division and stations under its jurisdiction of reports concerning purchase actions, to the same extent as the chief of a technical service is responsible for reports by that technical service and stations under its jurisdiction.

(c) Nothing in this subpart shall require the preparation or submission of any reports concerning purchase actions by Army Exchange Service.

§ 802.295 *Special instructions concerning reporting of preliminary contractual agreements, open-end contracts and indefinite quantity contracts.*

§ 802.295–1 *Preliminary contractual agreements* (see § 802.291–5). (a) A Purchase Action Report (W.D., A.G.O. Form No. 375) covering a preliminary contractual agreement, will be submitted by a reporting station not later than the fifth calendar day following the date of award (see § 802.291 (h)) under the following conditions:

(1) If the preliminary contractual agreement obligates funds in an amount (actual or estimated) in excess of $10,000,

(2) If the preliminary contractual agreement does not obligate funds, but the undertaking of the Government is not conditioned upon funds becoming available, and if the estimated cost involved under the preliminary contractual agreement exceeds $10,000.

(b) If the undertaking of the Government under the preliminary contractual agreement is conditioned upon funds becoming available (see, for example, the Letter of Intent which was the subject of the decision of the Comptroller General, issued under date of 22 December 1941; B–21873; 21 Comp. Gen. 605), an original Purchase Action Report will be filed when either the expenditures of the Government under such agreement total in excess of $10,000 or a final definitive contract (involving an actual or estimated cost in excess of $10,000) is executed, whichever shall first occur.

(c) If a Purchase Action Report (W.D., A.G.O. Form 375) is filed for a preliminary contractual agreement, a Supplemental Purchase Action Report (W.D., A.G.O. Form 376) will be filed not later than the fifth calendar day after completion of performance under such preliminary contractual agreement or after supplement (including execution of a final definitive contract), amendment or change order to such preliminary contractual agreement, provided in any such case that an increase or decrease in excess of $1,000 from the amount previously reported is involved. A Supplemental Purchase Action Report reflecting execution of a final definitive contract or completion of performance of the preliminary contractual agreement shall indicate this fact and shall also reconcile any difference in excess of $1,000 between the amount shown in the Supplemental Purchase Action Report with the amount reported on the original Purchase Action Report as supplemented by previous Supplemental Purchase Action Reports, if any.

§ 802.295–2 *Open-end contracts.* (See § 802.291 (f)). (a) The Purchase Action Report (W.D., A.G.O. Form No. 375) for an open-end contract will include the full amount estimated to be expended for the first contract year. A Supplemental Purchase Action Report (W.D., A.G.O. Form No. 376) will be filed not later than the fifth calendar day after the close of the first contract year, reconciling the difference between the estimated and actual expenditures for such contract year, and reporting, as a separate item the estimated expenditure for the ensuing contract year. Similar Supplemental Purchase Action Reports will be filed at the end of each succeeding contract year during the life of the contract. A final Supplemental Purchase Action Report clearly marked, "Final Report," will be submitted not later than the fifth calendar day after the completion or termination of the contract, adjusting any unreported quantity and value, whether it be an increase or a decrease.

(b) Where the amount to be expended under an open-end contract cannot be estimated in advance, a Purchase Action Report (W.D., A.G.O. Form No. 375) will be filed on the basis of actual expenditures when the aggregate expenditures thereunder exceed $10,000. Supplemental Purchase Action Reports will not be rendered from time to time as additional expenditures, aggregating in excess of $1,000, are incurred. Such additional expenditures will be reported on a contract or fiscal year basis on a Supplemental Purchase Action Report filed not later than the fifth calendar day after the close of the contract or fiscal year, as the case may be.

§ 802.295–3 *Indefinite quantity contracts.* For the purposes of this subpart, indefinite quantity contracts, as defined in § 802.291 (g), fall into four broad classes as follows:

(a) Those containing the standard clause entitled "Variation in Quantities" (§ 803.329) which permits the contractor to deliver 10 per cent over or under the quantity specified in the contract. In reporting this type of contract, only the original quantity and value need be stated; upon completion of deliveries no Supplemental Purchase Action Report is required even though deliveries may fall short or exceed the amount originally reported. Supplemental purchase actions (see § 802.291 (d)) involving an increase or decrease of more than $1,000, however, are required to be reported (see § 802.292–4).

(b) Those containing a clause giving the contracting officer a power by change order to increase or decrease within stated percentage limits the quantity of articles called for by the contract (see § 803.329a). This type of contract will be reported originally at the quantity and value set forth in the contract. Supplemental purchase actions involving an increase or decrease of more than $1,000 will be reported (see § 802.292–4).

(c) Those, such as listed in § 806.605d, which are for the use of more than one technical service or service command.

This type of contract is not regarded as a purchase action (see § 802.291 (c) (5)) and the basic contract will not be reported. A Purchase Action Report (W.D., A.G.O. Form No. 375), however, is required to be submitted for each purchase or delivery order executed under such an indefinite quantity contract and involving a total cost (actual or estimated) in excess of $10,000. Each such purchase or delivery order will be regarded as a separate purchase action and therefore will be reported on a non-cumulative basis without regard to any other such purchase or delivery order issued under the basic contract. For reference purposes, reports of such purchase or delivery orders should always indicate (in space (34)) the full contract number of the basic contract.

(d) Any other type of indefinite quantity contract. For the purposes of this subpart indefinite quantity contracts not falling within paragraphs (a), (b) or (c) above, will be considered and reported as "open-end contracts" (see § 802.295 (b)).

§ 802.296 *General instructions concerning report forms*—(a) *Supply of forms.* (1) W.D., A.G.O. Forms No. 375 and 376 are available upon requisition from Adjutant General Depots, or in case of Army Air Force activities, from the appropriate Air Technical Service Command Depot.

(2) Forms for Monthly Summary Reports may be reproduced locally or typed as required.

(b) *Classified reports.* If the item or service covered by either an original or Supplemental Purchase Action Report is classified, proper entries should be made in all spaces (see §§ 802.297–1a and 802.297–2a) and the whole report prominently labeled with the appropriate classification and transmitted according to regulations governing classified information.

§ 802.297 *Report forms and related instructions.*

§ 802.297–1 *Purchase Action Report; W.D., A.G.O. Form No. 375.*

WAR DEPARTMENT PURCHASE ACTION REPORT	1. Date of report	2. Per. Serial No.
3. From (station, name, and address)	4. Station No. service	5. Contract No. (P. O. No.)
6. To (technical service or service command concerned)	7. Type of purchase action	8. Date of award
9. Contractor (name and address)	10. Contracting as: Mfr. / Dealer	11. Contractor code / State code
	12. Delivery to start	13. To be completed.
14. Work performed at (name and address)	15. Inspected at	16.
	17. F. o. b.	18.
19. Subj. to Walsh-Healey Act: Yes / No	20. Title of applicable industry minimum wage determination (Secretary of Labor) if any:	21. Date P. C.—Rcvd

22. Item No.	23. Description of items	24. No. of units	25. Unit cost and unit	26. Total cost (indicate if estimate)
27. Total supplies and services				$
28. Government facilities provided this contract				$
29. Total amount of contract				$

Additional information required for contracts in excess of $100,000

30. Negotiators for Government	31. Negotiators for contractor
32. Reason for contractor selection (if no competition obtained)	33. Specification approval (name)

34. Remarks:

WD AGO Form 375 1 December 1944 — This form supersedes WD AGO 496, 13 December 1943, which will not be used after receipt of this revision.

§ 802.297–1a *Instructions for preparation of Purchase Action Report; W.D., A.G.O. Form No. 375.* The following numbered instructions apply to the corresponding numbers appearing on the report form reproduced in § 802.297–1.

(1) *Date of report.* This shall be the date upon which the report is prepared.

(2) *Purchase action report serial number.* This enables the contracting station and the controlling technical service or service command to reconcile their records. Inasmuch as many stations may originate purchase actions for and report them to more than one technical service, a separate serial number will be used for each such technical service. Each series of serial numbers will begin with Serial Number 1 for each new fiscal year and continue in exact sequence to the end of the fiscal year. No symbol indicating a technical service or service command need appear as part of the serial number; this will be indicated by the symbol shown in the contract number. (See §§ 803.209 and 803.316b–5. Reports made in one fiscal year for purchase actions awarded in a previous fiscal year should bear a serial number in the series of the fiscal year in which awarded.

(3) *From.* Include the name and address of the station preparing the report.

(4) *Station number and service.* This is the first part of the contract number and will include the station number and technical service or service command symbol appearing on the contract.

(5) *Contract Number (P. O. No.).* This is the final part of the contract number and will show the number assigned to the individual contract being reported. If a purchase order is being reported, the number thereof also will be indicated here.

(6) *To.* Indicate the name and address of the technical service or service command to which the report is being rendered.

(7) *Type of purchase action.* Indicate the type of contract involved. This information should state (i) whether the contract is a formal contract (namely, a contract contained in one instrument, executed by both parties, see § 803.303–2), purchase order, delivery order (see § 803.614) or letter order and (ii) whether the contract is a fixed price (lump sum) or cost-plus-a-fixed-fee contract. In addition, if the contract is a preliminary contractual agreement (see § 802.291 (e)), so indicate by the word "preliminary". If a mandatory order or requisition pursuant to Part 814 is involved, this should be indicated.

(8) *Date of award.* Indicate the date of award as defined in § 802.291 (h).

(9) *Name and address of contractor.* Insert here the name and address of the contractor as it appears on the contract. If more than one prime contractor is involved, list each one as a split award on separate Purchase Action Reports, and indicate by cross reference the Purchase Action Report Serial Numbers of all such reports.

(10) *Contracting as manufacturer or dealer.* Indicate by checking proper box whether the contractor is acting as a manufacturer or as a dealer.

(11) *Contractor code.* This space will always be left blank.

(12) *Delivery to start.* In most cases this will be the initial delivery date specified in the contract. If the contract is a construction contract, the date work is to begin should be shown. If the contract is for the purchase of real estate, the date of possession should be indicated. Where dates are dependent upon receipt of material, estimated dates are permissible but will be so indicated.

(13) *Completion date.* This will normally be the date specified in the contract for the completion of deliveries. In some cases it may be the same as the starting date or the date of award. If the date is dependent upon the receipt of material, an estimated date may be used but should be so indicated.

(14) *Work performed at.* Where the work is to be performed by the contractor and at the address indicated in space (9) the words "same as above" will be entered here. However, if the work is to be performed by a different contractor or at a different address, the name and location of the establishment or plant where the work will be performed must be stated. If the work is to be performed at more than one location, list each one and where possible indicate the approximate percentage of work to be performed at each location. If the space provided is insufficient, additional data may be inserted under "Remarks" at space (34). Where the street address as well as the name of the city is shown on the face of the contract, this should be included.

(15) *Inspection point.* The use of this space is optional with the chief of each technical service or commanding general of each service command.

(16) This space will normally be left blank. However, at the discretion of the chief of a technical service or a commanding general of a service command it may be utilized for such information as may be desired.

(17) *F.O.B. point.* Same as (15).

(18) Same as (16).

(19) *Walsh-Healey Act.* Reporting provisions of the Walsh-Healey Act (Act of June 30, 1936; 49 Stat. 2036; 41 U.S.C. 35-45) will, after 1 May 1943, be fulfilled by the proper submission of four copies of W.D., A.G.O. Form No. 375 for each original purchase action. Indicate by appropriate check mark whether or not the contract is subject to that act.

(20) *Title of applicable industry minimum wage determination.* If the purchase action comes under any industry minimum wage determination (see Part 809), the industry involved should be indicated by name.

(21) *Date P.C.-13 sent.* Enter the date on which the poster, P.C.-13, was sent to the contractor and to the plant locations. (See § 809.919-3).

(22) *Item Number.* Enter the item number for each item described in space (23). The use of space (22) is optional with the chief of each technical service and the commanding general of each service command.

(23) *Description of items.* Insert complete description of product, service, facilities, project or property. Long lists of items attached to Purchase Action Reports are not required for centralized reporting unless specifically directed by the chief of the technical service or the commanding general of the service command responsible for procurement of the item involved. Where assorted items of like nature are reported, indicate group headings, such as "various tank engine parts", "various knit clothing", etc. Such headings must briefly but specifically state the type of article purchased to enable proper classification by end product. Do not indicate only "Spare parts"; instead, state for example, "Spare parts for trucks, except engine parts".

(24) *Number of units.* Enter the number of units for each item described in space (23).

(25) *Unit cost and unit.* State the unit cost and the unit involved. In cases where a varied group of items is shown in space (23), and not detailed, indicate various unit prices in the same manner; either as a price range, i.e., $4.37 to $4.69 each, or show the word "various" for a wide range of unit prices, such as on tools.

(26) *Total cost.* If cost is estimated, write "estimated" after amount. For purchase actions involving architect-engineer, management, or similar services only, indicate as the total cost the amount payable to the contractor and chargeable against a War Department appropriation. This applies primarily to cost-plus-a-fixed-fee contracts. If, under such a contract, the contractor is to receive payment of an architect-engineer, management, or similar fee, and in addition is to receive payment for work performed or supplies furnished, each such payment will be shown as a separate item. In cases where both supply items and either land acquisition, plant expansion or tool expansion are involved in a single purchase action, a description and cost of these groups should be shown separately as well as total cost of all groups. If, the purchase action is a preliminary contractural agreement (see § 802.291 (e)), the amount for which the War Department is obligated will be shown in space (26) and the estimated full contract price entered in space (23). In all other cases the total cost (actual or estimated) will be shown in space (26).

(27) *Total supplies and services.* Enter the total of all entries in space (26).

(28) *Government facilities provided this contract.* Enter the amount of funds made available for Government facilities under the contract being reported upon. Do not include such amount in the spaces (22) through (27).

(29) *Total amount of contract.* This is a total of spaces (27) and (28).

Spaces (30) through (33) need be filled in only if original value of contract at date of award exceeds $150,000.

(30) *Negotiator for the Government.* This may or may not be the contracting officer, but in each case the name(s) of the person(s) negotiating the contract for the Government will be shown.

(31) *Negotiator for contractor.* This should include the name(s) of the person(s) representing the contractor in negotiating the contract with the Government.

(32) *Reason for contractor selection.* Enter the principal or controlling reason why the particular contractor was selected for this contract if no competition was obtained. Where the contract was awarded pursuant to competitive bidding, so state by entering the words "competitive bidding", or a similar phrase.

(33) *Specification approval.* Where standard Government specifications, such as Army, Navy, Treasury Procurement, etc., are used, enter only the name of such agency. Where other than standard specifications have been used, enter the name of the person approving the use thereof.

(34) *Remarks.* This space may be used for any pertinent remarks, including data which cannot be entered in the appropriate prior spaces. At the discretion of the chief of each technical service or commanding general of each service command, additional data, such as the monthly scheduled deliveries, may be entered here. Where the Purchase Action Report covers a contract for the acquisition of land and the original value thereof at date of award exceeds $150,000, the following additional information will be added in this space for use in the Quarterly Report on Procurement (see § 802.297-4a (e)): a brief statement as to the location; the intended use of the land; the area; and the assessed value thereof as it appears on the records.

(35) *Name, grade or title.* Type the name and grade or title of the person signing the report.

(36) *Signature.* The original of each report should be signed by some responsible officer, normally the contracting officer; copies may bear either typewritten or rubber stamped signatures.

§ 802.297-2 *Supplemental Purchase Action Report; W.D., A.G.O. Form No. 376.*

WAR DEPARTMENT SUPPLEMENTAL PURCHASE ACTION REPORT	1. Date of report	2. Par. Ser. No.
3. From (Station name and address)	4. Station No. service	5. Contract No. / Supplement No.
6. To (Technical service or service command concerned)	7. Type of purchase action	8. Date of action
9. Contractor (Name and address)	10. Contracting as: Mfr. / Dealer	11. Contractor code / State
	12. Delivery to start	13. To be completed
14. Work performed at (Name and address)	15. Inspected at	16.
	17. F. O. B.	18.

19. Subj. to Walsh-Healey Act: Yes / No	20. Title of applicable industry minimum wage determination (Secretary of Labor) if any	21. Date P. C.—13 sent

22. Item No.	23. Description of items	24. No. of units	25. Unit cost and unit	26. Total cost (Indicate if estimate)

27. Contract value of items not revised		$
28. Total contract value including this revision		$
29. Total contract value prior to this revision	$	"xxxxxxxxxxxxxx"
30. Net change in contract value, this revision ☐ increase ☐ decrease	$	"xxxxxxxxxxxxxx"
31. Cash refunds prior to this revision ( ) this revision ( )		$

34. Remarks:

35. Name, grade or title (Type)	36. Signature

WD AGO FORM 376 1 December 1944 — This Form Supersedes WD AGO 495, 13 December 1943, which will not be used after receipt of this revision.

§ 802.297-2a *Instructions for preparation of Supplemental Purchase Action Report; W.D., A.G.O. Form No. 376.* The following numbered instructions apply to the corresponding number appearing on the report form reproduced in § 802.297-2. The word "Same" used in any of the following instructions means that the correspondingly numbered instruction in § 802.297-1a applies.

(1) Same.

(2) *Purchase Action Report Serial Number.* A Supplemental Purchase Action Report will contain the same serial number as the original Purchase Action Report, followed by a letter of the alphabet in parentheses, the first Supplemental Purchase Action Report using the letter "(a)"; the second "(b)," etc.

(3)-(4) Same.

(5) Same. In addition to the contract number, there will be entered in this space the number or letter of the contract supplement represented by the supplemental purchase action (see § 803.313–1).

(6)–(7) Same.

(8) *Date of action.* The date of the supplemental purchase action, determined as stated in § 802.291 (h), will be entered. In no case will the date shown be the date of award of the original purchase action.

(9) through (21) Same.

(22) through (26) Same. Entries under spaces (22), (23), (24), (25) and (26) will be made only for the items affected by the particular supplemental purchase action being reported. All entries will be the full quantities or costs as revised—do not enter merely the net increase or decrease. In all cases, the nature of the supplemental purchase action will be indicated (space (34) may be used)—viz: quantity increase or decrease; price increase or decrease, etc. Where quantities have been changed, show the number of units added or deleted; where delivery or completion dates have been changed, indicate the changes and specify the initial delivery date of any increased quantities; where a decreased quantity represents a partial or complete termination for the convenience of the Government, or a partial or complete termination by default of contractor, so indicate; where price changes have occurred, indicate the nature of the change and whether due to a change in specifications or in costs; where prices have been affected by partial termination, so indicate.

(27) *Contract value of items not revised.* Show the contract value of all items on the contract which are not affected by the supplemental purchase action being reported.

(28) *Total contract value, including this revision.* This entry will be the sum of the entries in spaces (26) and (27).

(29) *Total contract value prior to this revision.* The entry here will be the value of the contract as previously reported (including Supplemental Purchase Action Reports, if any).

(30) *Net change in contract value, this revision.* The entry in this space will be the difference between spaces (28) and (29). Indicate by check marks in the box whether the amount shown in space (28) is an increase or a decrease.

(31) *Cash refunds prior to this revision.* Use of this space (31) is optional with the chiefs of technical services or commanding generals of service commands.

(32)–(33) Omitted from W. D., A. G. O. Form No. 376.

(34) through (36) Same (except that data on the acquisition of land is not required on Supplemental Purchase Action Reports).

§ 802.297–3 *Monthly Summary Report.*

Control Approval Symbol PDS–18

MONTHLY SUMMARY REPORT

(1) for Month of _____ 194__
(2) To: _____
(3) From: _____
(4) Purchase actions not previously reported for this month:

	Value	*Number*
(a) W. D., A. G. O. Form No. 375	$	
(b) W. D., A. G. O. Form No. 376:		
(i) Cancellations (decrease)	$	
(ii) All other reported changes—Increase ☐ Decrease ☐	$	
(c) Changes and supplements of $1,000 or less, each, not reported on W. D., A. G. O. Form No. 376—Increase ☐ Decrease ☐	$	XXXX
(d) Total of items (b) and (c)—Increase ☐ Decrease ☐	$	
(5)		
(6)		
(7)		

§ 802.297–3a *Instructions for preparation of Monthly Summary Report.* The Monthly Summary Report will be prepared on the basis of net obligations undertaken during the month and not on the basis of appropriations authorized. This report will be submitted on an 8" x 10½" sheet. The following numbered instructions apply to the corresponding numbers appearing on the report form set forth in § 802.297–3:

(1) *Month for which report submitted.* As required in §§ 802.292–5 and 802.293–2, a separate Monthly Summary Report will be submitted for each month in which any purchase action, reported during or for the preceding calendar month, took place, as determined by the "date of award" or "date of action" (space (8) on W.D., A.G.O. Forms No. 375 and 376). Enter on line (1) the month covered by the particular Monthly Summary Report for which figures are reported under item (4) below.

(2) *For stations reporting to a chief of a technical service.* Enter the name and address of the technical service to which submitted.

For chiefs of technical services. Enter "Director, Purchases Division, Headquarters, Army Service Forces".

(3) *For stations reporting to a chief of a technical service.* Enter the name and station number of the reporting station.

For chiefs of technical services. Enter the name of the technical service.

(4) *Purchase Action Reports not previously reported for this month.* All entries under item (4) will pertain to the calendar month indicated in line (1).

(a) Under "Value" enter the sum of the entries in space (29) of all W.D., A.G.O. Forms No. 375 submitted during the previous calendar month, reporting purchase actions awarded during the month indicated in line (1). Under "Number" enter the count of all such W.D., A.G.O. Forms No. 375.

(b) (i) Under "Value" enter the sum of the entries in space (29) of all W.D., A.G.O. Forms No. 376 submitted during the preceding calendar month, reporting purchase actions, the cost of which was completely cancelled during the month indicated in line (1). As provided in § 802.292–4 (b), decrease to $10,000 or less in total cost of purchase actions is considered a complete cancellation. Under "Number" include the count of all such W.D., A.G.O. Forms No. 376.

(b) (ii) Under "Value" enter the total of entries in space (30) of all W.D., A.G.O. Form No. 376 submitted during the preceding calendar month, reporting increases or decreases during the month indicated in line (1) of more than $1,000 in the total cost of purchase actions, except decreases reported in (b) (i) above. Indicate whether increase or decrease by check in proper box. Under "Number" enter the count of all such W.D., A.G.O. Forms No. 376.

(c) Under "Value" enter the mathematical sum of all supplemental purchase actions made during the month indicated in line (1) which involved an increase or decrease of $1,000 or less in total cost and which were NOT reported on W.D., A.G.O. Form Nos. 375 or 376 and have not been reported on Monthly Summary Reports previously submitted. Indicate whether increase or decrease by check in proper box. No entry is required under "Number".

(d) Under "Value" enter sum of the entries in lines (b) (i); (b) (ii); and (c). Indicate whether increase or decrease by check in proper box. Under "Number" enter the sum of the entries in lines (b) (i) and (b) (ii).

(5) *Signature.* The officer or person responsible for procurement, or for preparation of purchase action reports, will sign here.

(6) *Name, grade or title.* Type the name, and grade or title of person signing report.

(7) *Date of submission.* Enter the date the report is submitted.

§ 802.297–4 *Quarterly Report on Procurement, Control Approval Symbol PDS–19.*

§ 802.297–4a *Instructions for preparation of Quarterly Report on Procurement.* (a) The Quarterly Report on Procurement will be submitted by the chief of each technical service and the commanding general of each service command. It will include only those contracts which have an original value at the date of award in excess of $150,000. No report will be made of any contract with an original value at the date of award of $150,000 or less, even though the value of such contract may have been increased by supplements to an amount in excess of $150,000. Similarly, no report will be made of any supplements, or changes, including increases, decreases, or cancellations of contracts. If no contract in excess of $150,000 has been awarded during the quarterly period, a negative report will be submitted.

(b) The Quarterly Report will be typed on individual strips, which, after typing, will be arranged in alphabetical order by the contractors' names, then grouped into pages attached to a header strip which will be provided in advance of each quarter by the Purchases Division, Headquarters, Army Service Forces. Headers and individual strips will be assembled by the use of crinkly "draftsman's type" Scotch tape, if available. The pages shall have no more than 10" of printed and typed matter, including the header strip showing. The space on the header strip, providing for the page numbers, will never be filled in by the reporting technical service or service command. At the foot of the last page submitted for each technical service or service command, there will be typed the total dollar value of all contracts included in the report. This total will include only the total of the individual figures reported, and will not be adjusted to record supplements, changes, cancellations, etc., occurring subsequent to the initial award.

(c) Purchases Division will assemble the reports submitted to it, into one report which it will submit to Congress. Subsequent to the preparation of this completed report by Purchases Division, the pages will be returned to the submitting headquarters for disassembly and filing of the individual strips for future reference.

(d) The following information will be submitted for each contract for supply items or services included in the Quarterly Report on Procurement; subparagraphs below refer to column headings on the header strip and the space references are to W.D., A.G.O. Form No. 375 and the explanations thereof in § 802.297–1a:

(1) *Contract number, date and type of contract.* Insert full contract number,

date of award, and indicate whether the contract is fixed price, cost-plus-a-fixed-fee, unit price, letter order, letter purchase order, purchase order, etc. (Spaces (4), (5), (8) and (7).)

(2) *Item description and quantity.* Insert brief description of the item or items and the quantity of each. (Spaces (23) and (24).)

(3) *Value.* The dollar value of the contract as reported in space (29).

(4) *Name and address of the contractor and negotiator.* Insert data from spaces (9) and (31).

(5) *Name of Government negotiator.* Space (30).

(6) *Specifications.* Space (33).

(7) *Reasons for contractor selection.* Space (32).

(c) The following information will be furnished for each contract for the purchase of land included in the Quarterly Report on Procurement. The subparagraphs below refer to columns in the special header strip for land acquisitions, which will be furnished by Purchases Division upon request. The space references are to W.D., A.G.O. Form No. 375 and to the explanations thereof in § 802.297–1a.

(1) *Contract number, date and type of contract.* Spaces (4), (5), (8) and (7).

(2) *Location and intended use.* Enter a brief statement as to the location and intended use of the land. (Space (34).)

(3) *Value.* Space (29).

(4) *Name and address of contractor and negotiator.* Spaces (9) and (31).

(5) *Name of Government negotiator.* Space (30).

(6) *Area and assessed value.* State the area of the land purchased and the assessed value as it appears on the records. (Space (34).)

(7) *Reasons for contractor selection.* Space (32).

§ 802.298 *Responsibilities of chiefs of technical services and commanding generals of service commands.* The chiefs of the technical services and commanding generals of the service commands are charged with the following responsibilities:

(a) Responsibility for assuring that all reports required by this subpart to be prepared and forwarded by the stations under their jurisdiction are prepared and forwarded in accordance with §§ 802.292–1 through 802.292–5. This responsibility includes:

(1) Responsibility for controlling by means of the serial numbering system (see §§ 802.297–1a (2)) the submission of original and Supplemental Purchase Action Reports (W.D., A.G.O. Forms No. 375 and 376).

(2) Responsibility for requiring the submission of at least a sufficient number of copies of original and Supplemental Purchase Action Reports to accomplish the distribution required by § 802.293 to be made by the chiefs of technical services and the commanding generals of the service commands.

(3) Responsibility for checking by contract number to assure that duplicate reports are not received. This will include the checking of terminations and cancellations to be sure they are properly reported, as specified in § 802.292–4.

(4) Responsibility for reconciling individual Purchase Action Reports submitted by each station with the Monthly Summary Reports submitted by that station. (Does not apply to commanding generals of service commands.)

(b) Responsibility for assuring that all reports required by this subpart to be prepared and forwarded by them are prepared and forwarded in accordance with §§ 802.293–1 through 802.293–3.

(c) Responsibility for obtaining, upon request, detailed information on specific transactions when same is deemed necessary, and for prompt submission of such information to Purchase Division, Headquarters, Army Service Forces.

§ 802.299 *Special Purchase Action Report Forms.* The Quartermaster Corps and the Ordnance Department have been authorized by the Director, Purchases Division to use special forms of Purchase Action Reports and Supplemental Purchase Action Reports deviating slightly from the standard W.D., A.G.O. Forms No. 375 and 376, set forth in §§ 802.297–1 and 802.297–2. Stations under the jurisdiction of the Quartermaster General and those under the Chief of Ordnance will obtain supplies of these special forms as directed by the respective chiefs of those services.

[Procurement Reg. 3]

PART 803—CONTRACTS

SUBPART A—GENERAL

Sec.
803.301 Rescission of regulations.
803.302 Definitions.
803.303 General requirements for contracts.
803.303a Letters of intent and letter orders.

SUBPART B—AUTHORITY TO MAKE AWARDS, CONTRACTS, AND MODIFICATIONS THEREOF; REQUIRED APPROVALS

803.304 Definitions.
803.305 Making and approval of awards of contracts, supplemental agreements and change orders.
803.306 Making and approval of contracts, supplemental agreements and change orders.
803.307 Authority of technical service to reallocate awards and contracts.
803.308 Supplemental agreements and clauses prescribed by Subpart H.
803.308a Supplemental agreements and change orders not involving receipt of consideration.
803.308b Correction of mistakes.
803.308c Contracts or supplemental agreements providing for advance payments.
803.308d Ratification of prior action.
803.308e Extension of time for performance.
803.308f Amendment of contracts after final administrative determination of amount due.
803.308g Supplements and change orders dealing with or directly affecting matters pending before the General Accounting Office in respect of the amended contract.
803.308h Defective, informal and quasi-contracts.

SUBPART C—FORMALITIES IN CONNECTION WITH EXECUTION OF CONTRACTS AND MODIFICATIONS THEREOF

803.309 Numbering contracts.
803.309a Identification of subcontracts.
803.310 Fiscal procedures.
803.311 Execution of contracts.
803.312 Statement and Certificate of Award (Standard Form No. 1036).
803.313 Form of supplemental agreements and change orders.
803.314 Consent of sureties to modifications.

SUBPART D—DISTRIBUTION OF CONTRACTS AND ORDERS THEREUNDER

803.315 General.
803.316 Numbered contracts.
803.317 Unnumbered contracts.
803.317a Supplemental agreements and change orders.
803.317b Army Audit Branches of the General Accounting Office.
803.318 Special cases.

SUBPART E—CONTRACT PROCEDURE WITHIN THE SERVICE COMMANDS

803.318a Organization of service commands.
803.318b Contract procedure.
803.318c Service command utility contracts.

SUBPART F—CONTRACT APPEALS

803.318d War Department Board.
803.318e Rules and regulations of board.
803.318f Appeals boards within the technical service.

SUBPART G—GUARANTEES, LOANS AND COMMITMENTS, AND ADVANCE PAYMENTS

803.319 General.
803.320 Guarantees, loans and commitments under Executive Order No. 9112.
803.321 Advance payments.

SUBPART H—MANDATORY AND OPTIONAL CONTRACT PROVISIONS

803.322 Officials not to benefit.
803.323 Covenant against contingent fees.
803.324 Uniform termination article.
803.325 Anti-discrimination clause.
803.326 Disputes article.
803.327 Buy American Act: contract clause.
803.328 Notice of shipments article.
803.329 Variation in quantities clause.
803.329a Changes article.
803.329b Adjustments under changes article in fixed price supply contracts.
803.330 Partial payments article when payments are not to exceed 75 percent of cost of property.
803.331 Partial payments article when payments are not to exceed 90 percent of direct labor and material costs.
803.331a Amendment of contracts containing partial payments article to include substance of paragraph (d) of partial payments article in § 803.330 or § 803.331.
803.332 Government-owned facilities.
803.334 Records of Government-owned property: contract clause.
803.335 Patent provisions.
803.336 Classified contracts; disclosure of information clause.
803.337 Classified contracts; employment of aliens clause.
803.338 Plant protection: contract clauses.
803.340 Rental of gas cylinders; contract clause.
803.341–3 Article — Conversion to fixed price contract.
803.342 Articles governing statutory renegotiation.
803.343 Davis-Bacon Act; contract clause.
803.344 Copeland "Kick-back" Act; contract clause.
803.345 Convict labor; contract clause.
803.346 Eight-Hour Law of 1912; contract clause.

Sec.
803.347 Advance payments with interest; clause for fixed price contracts.
803.348 Advance payments without interest.
803.348a Advance payments; cost-plus-a-fixed-fee contracts; with interest.
803.348b Advance payments; cost-plus-a-fixed-fee contracts; without interest.
803.349 Advance payments; additional provision.
803.349a Advance payments; optional amendment to clause in § 803.348a.
803.350 CPFF construction contracts; termination article.
803.351 OPA escalation articles.
803.352 Delays-Damages Article.
803.352a Provision for liquidated damages.
803.353 Walsh-Healey Act; representations and stipulations.
803.354 Notice of labor disputes; contract clause.
803.355 Assignments of rights; contract clause.
803.356 Provisions concerning assignment of rights under classified contracts.
803.357 Tax articles in fixed price (lump sum) contracts.
803.358 Specification of taxes included or excluded; information to bidders.
803.362 Lump sum construction contract; accident prevention clause.
803.363 Disposition of Government-owned property by contractors.
803.364 Marking of shipping containers.
803.365 Contract clauses in connection with bonds and insurance.
803.366 Clause concerning discounts to be contained in invitations for bids.
803.367 Clause concerning subcontracting; for fixed price supply contracts.
803.368 Clause concerning subcontracting; for cost-plus-a-fixed fee supply contracts.
803.369 Release upon final payment under cost-plus-a-fixed-fee contracts.
803.370 General considerations.
803.371 Rules applicable to Forms I-A, I-B, I-C, II-A and II-B.
803.372 Forms I-A, I-B and I-C for periodic pricing at fixed intervals.
803.373 Forms II-A and II-B, for optional periodic pricing upon demand.
803.374 Form III Price Revision Article; for retroactive changes in employment conditions.
803.375 Form IV Price Revision Article; retroactive price revision by mutual agreement.
803.376 Form V Price Revision Article; for retroactive pricing with limited upward revision.
803.377 Form VI Price Revision Article; for repricing upon happening of specified contingency.
803.378 Incentive type contract article.

SUBPART I—TERMINATION OF FIXED-PRICE (LUMP SUM) CONTRACTS UPON DEFAULT OF CONTRACTOR

803.379 Steps to be taken in event of default.
803.380 Steps to be taken in event of termination because of default.
803.380a Procedure to be followed when remedies under Delays-Damage Article are pursued.

SUBPART J—MISCELLANEOUS

803.390 Assignments.
803.391 Charges for telegraph, cable, and radio messages in cost-plus-a-fixed-fee contracts.
803.392 Handling defaults and threatened defaults by suppliers and subcontractors under cost-plus-a-fixed-fee prime contracts.
803.393 Disclosure of information in connection with completing Selective Service affidavit.
803.394 Contracts for electric power.
803.395 Contracts within section 9, Military Appropriation Act, 1944 and 1945.
803.396 Prior approval of awards of "management consultant" contracts.
803.398 Certification by contracting officers, under cost-plus-a-fixed-fee contracts, of unusual items likely to be questioned.
803.398a Reimbursement under cost-plus-a-fixed-fee supply contracts of contributions to charitable or community organizations.
803.398b Adjustments of fixed-price subcontracts under cost-plus-a-fixed-fee prime contracts.

SUBPART A—GENERAL

§ 803.301 *Rescission of regulations.* Army Regulations 5-200, dated January 2, 1940, as amended, and all other prior directives and instructions of whatsoever nature relating to the making of contracts are hereby rescinded.

§ 803.301-1 *Compliance with this part.* Unless otherwise specifically provided, compliance with any provision of this part or of any amendment thereto which requires a change in contract procedure or in any contract provision shall not be mandatory until thirty days after the issuance of such regulation or amendment.

§ 803.302 *Definitions.* As used in this chapter the following terms will have the meanings assigned to them in the following sections:

§ 803.302-1 *United States and Government.* These terms are synonymous and include the War Department.

§ 803.302-2 *Contractor.* A contractor is any person, partnership, company, or corporation (or any combination of these) which is a party to a contract with the United States.

§ 803.302-3 *Contracting officer.* (a) A contracting officer is an officer or civilian official of the War Department who has been appointed by any one of the following persons, or by their direction, or in accordance with such orders and regulations as they may prescribe for their respective commands, to execute contracts on behalf of the United States:

(1) The Secretary of War;

(2) The Under Secretary of War;

(3) The Commanding General in a Theatre of Operations;

(4) The Commanding General, Army Air Forces;

(5) The Director, Purchases Division, Army Service Forces;

(6) The Chief of any Technical Service.

(b) Unless otherwise specifically provided, the words "the contracting officer," when used in this chapter or in any existing or future contract, supplemental agreement or change order, are construed to include:

(1) His duly appointed successor or authorized representative;

(2) Any and all contracting officers, acting within the scope of the orders respectively appointing them contracting officers.

(c) Representatives may be designated as follows:

(1) The Chief of a Technical Service may designate any officer or civilian official to act as representative of the contracting officer or his duly appointed successor;

(2) A commanding officer may designate any contracting officer assigned to his command or station to act as representative of any other contracting officer assigned to the same command or station, or of a contracting officer's duly appointed successor so assigned;

(3) A contracting officer, his duly appointed successor, and any representative designated pursuant to (1) or (2) of this paragraph, may respectively designate any officers or civilian officials to act as their representatives.

(d) A designation authorized by paragraph (c) may be made by instructions referring to particular contractual instruments or classes of instruments, and may, to the extent not specifically prohibited by the terms of the contractual instrument involved, empower the representative to take any or all action thereunder which could lawfully be taken by the contracting officer. In no event, however, shall a representative, by virtue only of his designation as such, be empowered to execute any contract or supplemental agreement (as distinguished from change order). Of course, if the representative is a contracting officer, he may, pursuant to the order appointing him a contracting officer, execute contracts or supplemental agreements.

(e) Any person duly appointed a contracting officer in accordance with paragraph (a) above, with authority to execute contracts on behalf of a particular technical service, service command or the Army Air Forces may execute contracts on behalf of any other service when the necessary funds, if any, have been made available.

(f) All action heretofore taken which would have been valid if this section had then been in effect, is hereby ratified and confirmed.

§ 803.302-3a *Appointment of contracting officers at installations such as ports of embarkation.* The question sometimes arises whether a contracting officer carrying on procurement activities at an installation such as a port of embarkation should be appointed by the chief of the technical service having jurisdiction of the installation, or by the chief of another technical service which may have an interest in the particular type of procurement. The following rule of administration is established: The chief of the technical service (including the Commanding General, Army Air Forces) having jurisdiction of an installation is charged with primary responsibility for appointing contracting officers to carry on procurement activities at the installation, but with the concurrence of the chief of that technical service, the chiefs of other technical services (including the Commanding General, Army Air Forces) interested in the various types of procurement may appoint such contracting officers. This

does not alter in any way the authority of the persons designated in § 803.302–3 (a) (1), (2), (3) and (5) to appoint contracting officers. (See also § 803.-318b–1).

§ 803.302–4 *Disbursing officer.* A disbursing officer is the officer who has been designated to make payments under a contract.

§ 803.302–5 The following are terms used in connection with contracts:

(a) Signed number. A signed number means the instrument with the required signatures.

(b) Authenticated copy. An authenticated copy means a copy of the instrument shown to be authentic by either:

(1) Certification as a true copy,

(2) Official seal, or

(3) Photostatic process.

The signatures on such copies may be either facsimile, stamped, or typed. In lieu of copying the signatures of the parties signing the contract or supplemental agreement and of the witnesses thereto, and the corporate certification or certificate, if any, of the contracting officers as to the authority of the person who signed the original for the corporate contractor, the contracting officer or his authorized representative may execute the following certificate on the copies furnished the Fiscal Office and the Financing Disbursing Office for their use:

I certify that this is a true copy of the document properly signed and witnessed ---------- and that the corporate certification therein was properly executed.
(date)

(c) Copy. A copy means a copy of the instrument, including the names of the contracting parties, but lacking authentication.

§ 803.302–6 *Default.* Default is the refusal or the failure of a contractor to carry out the terms of a contract.

§ 803.303 *General requirements for contracts.* (a) Every purchase transaction except those where payment is made coincidentally with receipt of supplies will be evidenced by a written contract.

(b) Where it has been administratively determined by the commanding officer as more economical and advantageous in the interest of the war effort, Class B agent officers may be appointed in procurement installations under the provisions of AR 35–320 for the purpose of making cash payments for emergency purchases and nonpersonal services not exceeding $100. The use of War Department Form No. 332 (Public Voucher—Emergency Purchases and Nonpersonal Services Not Exceeding $100), properly executed and supported by certified invoices, will be used for this purpose. War Department Form No. 332 may be closed periodically to suit local conditions and submitted to the disbursing officer for credit in the agent officers' accounts as prescribed by AR 35–320.

(c) War Department Form No. 332, when used as authorized in paragraph (b) above, will be prepared in quadruplicate (original and three memorandum copies) and distributed as follows:

(1) Original and duplicate to accountable disbursing officer, supported by certified invoices.

(2) Triplicate to accountable property officer, supported by certified invoices and the following certificate:

I certify that the supplies enumerated hereon were received by me and that payment therefor has been made by me as agent officer in cash this ------- day of ---------- 19----, from funds intrusted to me by------ ----------, finance officer at ---------- ----------, that the nonexpendable property listed hereon (if any) will be accounted for by the ---------- property officer at ----------, and that the expendable items hereon designated thus (x) are for immediate consumption in current service in ----------
---------- (State purpose for which the expendable supplies are to be immediately used. For example: "Operation of motor trucks or airplanes," "troops on the march," etc.)
Allotment No. ----------

(Name, grade, and organization)
Agent Officer

(3) Quadruplicate, without attachments, to Fiscal Officer, Service Command Headquarters, for property audit files. This copy will be stamped with stamp of agent officer to indicate payment in cash or by check.

(d) When funds are expended in accordance with the procedure outlined in paragraphs (b) and (c) above, the transaction need not be evidenced by any written contract or purchase order, since payment will be made coincidentally with receipt of supplies.

§ 803.303–1 Contracts may be either formal or informal.

§ 803.303–2 A formal contract is one which is contained in one instrument executed by both parties. An illustration is War Department Contract Form No. 1 (see § 813.1301). Formal contracts may be used for any purchase transaction, regardless of amount and will be used for all purchase transactions, the contract price of which exceeds $500,000.

§ 803.303–3 For any purchase transaction, the contract price of which does not exceed $500,000, an informal contract consisting of two separate instruments, one signed by the contractor and the other signed by the contracting officer on behalf of the United States, may be used.

§ 803.303–4 (a) When a purchase order is preceded by a written quotation or is followed by a written evidence of acceptance executed by the contractor, it is to be regarded as an informal contract consisting of two instruments; and accordingly, may be used, in accordance with § 803.303–3, for any purchase transaction the contract price of which does not exceed $500,000. If the contractor's assent is not evidenced either by a written quotation or by acceptance of the purchase order in writing, the purchase order may nevertheless be used for any purchase transaction the contract price of which does not exceed $500,000 provided that the purchase order is preceded by an oral quotation or is based upon a price list.

(b) When the contractor furnishes no evidence of his assent either (1) by a written or oral quotation, (2) by a written acceptance or (3) by the publication of a price list, the purchase order may not be used for any transaction the contract price of which exceeds $5,000; but may be used for any transaction the contract price of which does not exceed $5,000.

(c) The provisions of this section and of §§ 803.301–2 and 803.301–3 are not applicable to interbranch or interdepartmental purchases (see § 806.605a and Subpart C of Part 806). Regardless of the amount involved, such purchases need not be evidenced by formal contracts. They should be evidenced by a delivery order (for suggested form see § 813.1317e, Form No. 19).

§ 803.303–5 *Numbering and distribution of contracts.* (a) The numbering of contracts is discussed in §§ 803.309 to 803.309–3 and 803.318b–5 and the distribution of contracts is discussed in Subpart D of this part.

(b) *Distribution of purchase orders.* As pointed out in § 803.303–4 (b), it is not necessary that a purchase order which does not exceed $5,000 in amount be preceded by a quotation. If the contract price exceeds $5,000, however, the following rules shall apply:

(1) If the purchase order was preceded by a written quotation signed by the contractor, or if the contractor delivered some written instrument evidencing the contractor's assent, the original of such written quotation or instrument should be forwarded to the appropriate Army Audit Branch of the General Accounting Office and a copy thereof attached to the copy of the purchase order furnished the disbursing officer.

(2) If the contractor did not furnish a written quotation or written evidence of its assent and the purchase order merely accepted an oral quotation or was based on a price list, the purchase order, as forwarded to the Army Audit Branch of the General Accounting Office, should contain a reference to the oral quotation or price list. This may consist of a simple statement such as "Pursuant to oral quotation of even date" or "Pursuant to oral quotation of ----------, 194--" or "Pursuant to ----------
(Name of contractor or other identification)
---------- price list, dated ----------, 194--".

§ 803.303–6 *Partial payments.* It is to be noted that any type of contract, including the purchase order, may provide for partial payments upon completion of the delivery of one or more complete units called for under the contract, or upon the completion of one or more distinct items of service called for thereunder. Any existing contracts which provide for a single payment may be amended to provide for such partial payments. Likewise, prior to delivery, payments may be made on work in progress for the Government, *Provided,* That the contract contains a clause similar to one of the contract clauses set forth in §§ 803.330 and 803.331. Contracts (including purchase orders) under which it is contemplated that more than one payment will be involved must, of course, be numbered as required by § 803.309–1 and distributed in accordance with § 803.316.

§ 803.303a *Letters of intent and letter orders*—(a) *Use.* The use of letters of

intent and letter orders was frequently necessary in the earlier stages of the war procurement program to enable contractors to start work immediately upon war contracts prior to the time when the information was available upon which a definitive contract could be negotiated and without the delay incident to contract negotiations. At the present stage of the procurement program, such temporary contractual instruments will be used only for the most cogent reasons and will be superseded at the earliest possible moment by definitive contracts. In general, such instruments should be used only (1) where it is essential to give the contractor a binding commitment to permit of preparatory work immediately and without any delay, or (2) where because of the experimental nature of the work involved or the lack of definitive information as to the volume of supplies to be ordered, the amount of work to be done, or detailed specifications, it is impossible to negotiate a definitive contract. Such instruments should not be used as a method of delaying the making of a definitive contract until a substantial portion of the contractor's performance of the contract has been completed. The standard termination provisions for inclusion in letter orders and letters of intent (see §§ 842.212–2 (b) and 842.213–3) leave room for the insertion of a date by which the definitive contract is to be executed, and also permit postponement of such date by mutual consent (see paragraph 6 (a) of contracts in §§ 813.1307 to 813.1310, inclusive). The date inserted should be the earliest date feasible under the circumstances, and postponement should not be consented to except for good cause.

(b) *Report on letters of intent, etc.* (1) On or before the 10th of each month the chief of each technical service will file with the Director, Purchases Division, Headquarters, Army Service Forces, a report entitled "Age Analysis of Outstanding Letters of Intent, Etc." (Control Approval Symbol PDS–17) and described in subparagraph (2) below. The first report shall be due September 10, 1944, for the period ending August 31, 1944. This report does not conflict with the reports of negotiated purchase actions in excess of $10,000, (Control Approval Symbol ICY–33) required by § 802.293.

(2) The reports "Age Analysis of Outstanding Letters of Intent, Etc." (Control Approval Symbol PDS–17) will be submitted original only, on an unclassified basis. For the purposes of these reports, the phrase "letters of intent, etc." shall be deemed to include letters of intent, letter orders, letter purchase orders, letter contracts, etc. Negative reports and letters of transmittal will not be submitted. Chiefs of technical services where necessary will obtain appropriate data from their procurement district offices, using the same reporting method as required for their report to the Purchases Division, Headquarters, Army Service Forces. These reports shall be in two parts and shall set forth the following information:

Part I. A tabulation, classified by month of origin, of the number of letters of intent, etc. outstanding at the close of the preceding month.

Part II. A separate listing of each letter of intent, etc. which at the close of the reporting month had been outstanding more than 90 days. This listing shall set forth:

(i) Contract number.

(ii) Name of contractor.

(iii) Date of original issuance of letter of intent, letter order, letter purchase order, etc.

(iv) The month in which it is anticipated the outstanding letter of intent, etc. will be converted to a definitive agreement.

(v) A brief statement of the reasons why each letter of intent, etc., which had been outstanding more than 90 days as of the end of the reporting period, had not been converted into a definitive contract.

(3) Letters of commitment (see W.D. Contract Form No. 28 and §§ 802.222–7 and 813.1328) will not be included in either Part I or Part II of these reports.

§ 803.303a–1 *Use of provisions for allowance of profit in standard termination provisions.* (a) The standard termination provisions (see §§ 842.212–2 (b) and 842.213–3) permit of an allowance for profit in the event of termination of a letter of intent or letter order for the convenience of the Government. Such provisions may be omitted in the discretion of the chief of the technical service. However, the chiefs of the technical services will normally include such provisions for a profit allowance (1) in letter orders and letters of intent which, because of inability on the part of the Government to furnish full specifications or essential information or other similar reason, will necessarily remain in effect for a considerable period before they can be superseded by definitive contract, and (2) in cases where the contractor is required to proceed under a letter of intent or letter order, although willing to quote a reasonable fixed price, solely because the Government for its own interest is unwilling immediately to negotiate a definitive contract.

(b) With respect to amendment of letters of intent or letter orders to include therein standard termination provisions, see § 842.213–3. With respect to allowance of profit on termination of letters of intent or letter orders, see § 845.533–4.

SUBPART B—AUTHORITY TO MAKE AWARDS, CONTRACTS, AND MODIFICATIONS THEREOF; REQUIRED APPROVALS

§ 803.304 *Definitions.*

§ 803.304–1 *Standard forms of contract.* The phrase "standard forms of contract", as used in this subpart, includes:

(a) Forms of contract which may from time to time be approved for the general use of all technical services by the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces. The following contract forms are hereby approved for such use:

(i) United States Standard forms of contract provided they comply with the requirements of Subpart H.

(ii) Long Form Supply Contract:
- Lump Sum Supply Contract (See § 813.1301).

(iii) Short Form Supply Contracts:
- Purchase Order or Delivery Order and Voucher for Purchases and Services other than Personal (See § 813.1317a).[1]
- Purchase Order (See § 813.1317b).[1]
- Government's Order and Contractor's Acceptance (See § 813.1317c).[1]
- Informal Invitation, Informal Bid, and Acceptance (See § 813.1317d).[1]
- Delivery Order (See § 813.1317e).
- Contractor's Offer and Government's Acceptance (See § 813.1317f).[1]

(iv) Construction and related contracts:
- Lump Sum Construction Contract (See § 813.1302).
- Cost-Plus-A-Fixed-Fee Construction Contract (See § 813.1303).
- Cost-Plus-A-Fixed-Fee Architect-Engineer Contract (See § 813.1304).
- Fixed-Fee Architect-Engineer-Construction-Management Services Contract (See § 813.1312).
- Lump-Sum Contract for Architect-Engineer Services (With Optional Supervision) (See § 813.1316).

(v) Letter Orders:
- Letter Order for Supplies (No Price Stated) (See § 813.1307).
- Letter Order for Supplies (Price Stated) (See § 813.1308).
- Letter Order Contract for Cost-Plus-A-Fixed-Fee Construction (See § 813.1309).
- Letter Order Contract for Lump-Sum Construction (See § 813.1310).

(vi) Supplemental Agreements for Advance payments:
- Supplemental Agreement for Advance Payments with Interest on Fixed-Price Contracts (See § 813.1320).
- Supplemental Agreement for Advance Payments with Interest on Fixed-Fee Contracts (See § 813.1321).
- Supplemental Agreement for Advance Payments with Interest on a Letter Purchase Order (See § 813.1322).
- Supplemental Agreement for Advance Payments without Interest on Fixed-Price Contracts (See § 813.1323).
- Supplemental Agreement for Advance Payments without Interest on Fixed-Fee Contracts (See § 813.1324).
- Supplemental Agreement for Advance Payments without Interest on Letter Purchase Orders (See § 813.1325).

(vii) Utility Service Forms:
- Negotiated Electric Service Contract (Connection Charge) (See § 813.1315a).
- Negotiated Utility Service Contract (No Connection Charge—Electric, Gas, Water, Sewage) (See § 813.1315b).[1]

(viii) Patent Rights Contracts:
- Contract Adjusting Royalties (See § 813.1329).
- Patent Release and License Contract (See § 813.1330).
- Patent Release and Licence Contract (See § 813.1331).
- Patent Release and Assignment Contract (See § 813.1332).
- Patent Release Contract (See § 813.1333).
- Patent Release Contract (See § 813.1334).

(ix) Contracts for use in connection with termination of contracts—see Part 849 of this chapter.

(x) Miscellaneous Contracts:
- Defense Supplies Corporation (See § 813.1311).
- Metals Reserve Company (See § 813.1311a).
- Defense Plant Corporation (See §§ 813.1311b and 813.1311c).
- War Supplies Limited (See § 813.1313).
- Government-Owned Equipment Rental Agreement (See § 813.1314).
- Invitation, Bid and Acceptance (Sale of Property and Waste Material) (See § 813.1326).[1]
- Contract of Sale of Property (See § 813.1326a).[1]

[1] To be used in accordance with instructions appearing in the cited section.

(x) Miscellaneous Contracts—Continued.
Letter of Commitment (Raw Materials under CMP) (See § 813.1328).

(b) Forms of contract, devised by a particular technical service, or a staff division exercising procurement functions, to meet the needs of a recurrent situation of a special type which may from time to time be approved by the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces (see § 801.107–8), for the use of that technical service or staff division. Forms so approved should be periodically revised (see § 803.301–1) to accord with requirements of these procurements regulations published following approval of the forms. If deviation from such requirements appears to be necessary, the forms should be resubmitted for approval.

(c) The forms of contract enumerated below are (January 1, 1945) in use by the various offices named. Except where the particular form was approved under paragraph (b) by memorandum or indorsement, in which case the precise terms approved together with any conditions on their use will appear from the pertinent file, it may be assumed that that version of the form was approved (subject to all requirements of the regulations in this chapter) which on January 1, 1945 was authorized by the technical service or staff division involved for use by personnel under its jurisdiction.

Office of the Chief of Chemical Warfare Service:
- Short Form Research Contract (consideration nominal)
- Negotiated Sale Contract

Office of the Chief of Engineers:
- Engineer Form No. 84. — Release of Claim for Additional Fee
- Engineer Form No. 85. — Release of Claim for Additional Fee to Extent only of Joint Venturer
- W. D. (Engineers) Form No. 17. — Hire by Government of Plant or Equipment.
- W. D. (Engineers) Form No. 520. — Contract for Reconditioning Construction and Maintenance Equipment
- W. D. (Engineers) Form No. 715. — War Department Lease of United States Property (Military Industrial Facilities)
- W. D. (Engineers) Form No. 843. — Contract for Dismantling, Demolition and Removal

Office of the Chief of Ordnance:
- Notice of Award
- Equipment Lease Form
- Sale of Scrap (Allocated)
- Gage Repair Contract
- "Drive-Away" Carrier, Repair Services
- Letter Order for Emergency Supplies
- Master Facilities Lease
- Contract for Spare Parts and Military Publications
- Recognizing the Assignment of Contracts

Office of the Quartermaster General:
- QMC Form No. 300. — Purchase Order for Use in Purchasing Certain Food Supplies.
- QMC Forms No. 315, 315b, and 316 (Tentative). — Invitation, Bid and Acceptance Form for Purchasing Coal
- Uniform Burial Contract QMC Form No. P642. — Contract for Purchasing Lubricating Oils and Greases

Office of the Quartermaster General—Continued.
- QMC Form No. 1013. — Contract for Warehouse Services
- QMC Form No. 1029. — Federal Emergency Warehouse Association Contract
- QMC Form No. 1048. — Research and Development Contract

Office of the Chief Signal Officer:
- O. C. S. O. Form No. 6–D. — Purchase Order
- W. D., A. G. O. Form No. 11–26 (superseding W. D. S. C. Form No. 57)[1] — General Contract for trunkline and other Communication Facilities and Services
- W. D., A. G. O. Form No. 11–51 (superseding W. D. S. C. Form No. 134).[1] — Contract for Communication and Electric Time Facilities and Services
- W. D., A. G. O. Form No. 11–140, June 28, 1944 (superseding W. D. S. C. Form No. 1137). — Telephone Service Order
- W. D., A. G. O. Form No. 11–148 (superseding W. D. S. C. Form No. 1165).[1] — General Contract for Commercial Telephone Service Similar to that Furnished the Business Public
- A. T. & T. Co. Form C276C (5–37).[1] — Application for Private Line Service or Channel
- Letter Order for Supplies (No Price Stated)
- Letter Contract for Motion Picture Training Film
- Contract for Motion Picture Training Film
- Letter Order for Stock Film and Sound Track
- General Contract for Operation and Maintenance in connection with Army Telephone Systems[1]
- Contract for Maintenance in Connection with Army-Owned Teletypewriter Equipment

GOVERNMENT-OWNED EQUIPMENT RENTAL AGREEMENT

Office of The Surgeon General:
- S.G. Form No. 1–H. — Supply Contract
- S.G. Form No. 2–D. — Long Term Supply Contract
- S.G. Form No. 3–D (and Appendix "1"). — Purchase Order
- S.G. Form No. 891. — Blood Plasma Contract
- Contract with Universities for Courses of Instruction
- Medical Research Contract (Cost Basis)
- Supplemental Agreement for Use of Cellular Residue

Office of the Chief of Transportation:
- TC Form No. 101. — Lease of Equipment Under Public No. 779, 77th Congress
- TC Form No. 102. — Lease of Equipment, with Indemnity, Under Public No. 779, 77th Congress
- TC Form No. 103. — Standard Master Ship Repair Contract
- TC Form No. 104. — Freight Handling Services.

Office of the Chief of Transportation—Continued.
- TC Form No. 224. (W.D., A.G.O. Form 55—123 Revised—Approved 14 October 1944). — Contract for Movement of Household Goods and Effects (see Section II, Circular No. 445, W.D., 1944)
- TC Form No. 225. — Government-Owned Facilities Lease Agreement
- TC Form No. 520. — Rental Agreement, Loading and Handling Equipment.

Army Air Forces:
- Matériel Command, Contract Form No. 32—Fixed Price Supply Contract
- Army Air Forces, Form No. 98—Purchase Order
- Letter Contract for Supplies or Services (Fixed Price)
- Letter Contract for Supplies or Services (CPFF)
- Cost-Plus-a-Fixed-Fee Supply Contract (CPFF) Form 3, revised)
- General Airlines Service Contract (and Supplement)
- Contract Pilot School
- Blanket Bailment Agreement
- Sale of Property (General)
- Sale of Propeller Boxes
- Contract for Return of Excess Parts to Manufacturers
- Sale of Aircraft and Spare Parts
- Blanket Agreement for Sale to Air Carriers of Components and Parts for Aircraft
- Sales of Aircraft to Defense Supplies Corporation for Resale
- Sale of Excess Engine Parts (two forms)
- Lease of Government-owned Facilities
- Special Facilities Contract
- Contract for Lease of Tractors and Trailers under Public No. 779, 77th Congress
- Contract for Lease of Tractors and Trailers and Indemnity Agreement under Public No. 779, 77th Congress
- Laundry and Dry Cleaning Contract; Hospital Laundry Contract

Office of the Provost Marshal General:
- Contract for Prisoner of War Labor

Office, Director of Personnel:
- Contract for Correspondence Instruction
- Contract for Radio and Phonograph Recordings

Service Commands:
- Contract for Training in Medicine and Dentistry
- Contract for Training in Veterinary Medicine
- Training Unit Contract
- Boiler Inspection Contract
- Contract for Inspection and Maintenance of Automatic Fire Alarm Systems
- Laundry and Dry Cleaning Contract; Hospital Laundry Contract (see ASF Circular No. 128, 1944, as amended by Section II, ASF Circular No. 159, 1945)

§ 803.304–2 *Contract.* As used in this subpart, the term "contract" means any contract except supplemental agreements and change orders and except those contracts referred to in §§ 810.1014 and 810.1015.

§ 803.304–3 *Price.* As used in this subpart, the term "price" means in the case of a lump-sum contract (or supplemental agreement or change order relating thereto), the stated price, and in the case of a cost-plus-a-fixed-fee contract (or supplemental agreement or change order relating thereto), the estimated cost plus the fixed-fee.

§ 803.304–4 *Technical service.* Whenever authority is conferred by this subpart upon a technical service, that authority may be exercised by the chief of

[1] It is emphasized that these forms should contain the standard clauses set forth in §§ 803.323 and 803.325, and General Condition 12 of W. D. Contract Form No. 47 (§ 813.1317c–2).

the technical service or by any officer or officers or civilian official or officials whom he may designate, subject to such regulations as he may prescribe.

§ 803.305 *Making and approval of awards of contracts, supplemental agreements and change orders.*

§ 803.305–1 *Authority of technical services to make awards.* All awards of contracts, supplemental agreements and change orders, other than those described in § 803.305–2 may be made by the technical service concerned without approval of higher authority.

§ 803.305–2 *Awards requiring the approval of Director, Purchases Division.* (a) The following awards must be submitted for approval to the Director, Purchases Division, Headquarters, Army Service Forces:

(1) Awards of contracts (other than Architect-Engineer Management or similar contracts) involving a price of $5,000,000 or more, and awards of supplemental agreements and change orders which have the effect of increasing the price of contracts (other than Architect-Engineer, Management or similar contracts) by $5,000,000 or more.

(2) Awards of Architect-Engineer, Management or similar contracts when the construction contracts to which they relate involve a price of $5,000,000 or more, and awards of supplemental agreements and change orders affecting Architect-Engineer, Management or similar contracts when the changes being concurrently made in the construction contracts to which they relate have the effect of increasing the price of the construction contracts by $5,000,000 or more.

(b) Neither preliminary contractual agreements, such as letters of intent, letter orders and letter purchase orders, nor letters of commitment (see §§ 802.222–7, 813.1328) are required to be submitted to the Director, Purchases Division, for approval pursuant to the provisions of paragraph (a) above, regardless of the amount of funds obligated thereunder or the estimated cost of the proposed procurement. However, approval of the award of a final definitive contract, involving conversion of a preliminary contractual agreement or the use of materials or components acquired pursuant to a letter of commitment, will be obtained if required by paragraph (a) above.

§ 803.305–3 *Submission of contract, supplemental agreement or change order in lieu of award.* In lieu of submitting an award for approval under § 803.305–2, the contract, supplemental agreement or change order may itself be submitted for approval and manual execution by the Director, Purchases Division, Headquarters, Army Service Forces.

§ 803.305–4 *Information to be furnished in requesting approval of awards.* Requests for approval of awards will include the information indicated below or such parts thereof as are relevant to the particular procurements. The requests should show the extent of the consideration given to the following points in the course of the negotiation and placement of the agreement.

(a) Requests for approval of awards under § 803.305–2 (a) (1):

(1) Name and address of contractor.

(2) Location of the plant from which items are to be furnished.

(3) Quantity and brief description of items to be furnished.

(4) Unit prices and total amount to be expended.

(5) Brief summary of delivery schedules.

(6) Experience of contractor with same or similar work.

(7) New facilities required and reference to any necessary approval thereof.

(8) Whether negotiations were conducted with more than one contractor.

(9) Brief reference to the consideration and application of contract placement policies (see Part 802, Subpart B).

(10) Reference to form of contract to be used, noting and justifying any provisions requiring approval of higher authority, or referring to any such approval previously obtained (see, for example, §§ 803.306–2, 803.306–4, 803.370, and 803.378).

(11) Price information showing that a careful and thorough price analysis was made in the course of the negotiation and giving a brief narrative history of the negotiations with the contractor. This information should be given in sufficient detail to permit an appraisal of the consideration given to (i) comparative prices, (ii) components of price, and (iii) cost and price trends. (See ASF Manual M 601 "Pricing in War Contracts"; Part 802, Subpart C.)

(*a*) *Comparative prices.* The value of this information depends in large part on whether the conditions and circumstances of the procurements offered for comparison are in fact fairly comparable with those involved in the procurement approval of which is sought. The request should therefore indicate the consideration given to the various factors in the particular case which affect comparability. The following list of such possible factors is merely suggestive, not exhaustive: (*1*) Volume of production; (2) contractors' experience in producing the same or similar items; (3) Government-owned facilities and Government-furnished material; (*4*) financing provisions; (*5*) royalty payments; (*6*) risk factors, including those arising out of the length of delivery schedules; (*7*) Government's assumption of risks by means of contract provisions; (*3*) comparative price movements.

(*b*) *Components of price.* The request should reflect the types of approach used in analyzing components of price, of which the following are suggestive: (*1*) Analysis of the contractor's cost breakdowns; (2) comparisons of the contractor's cost estimates with his experienced costs and with the estimated and experienced costs of other suppliers of the same or similar items; (3) comparison of the contractor's cost estimates with the over-all operating statement for his latest fiscal year or with budgeted forecasts for the period of production; (*4*) analysis of engineering cost estimates.

The consideration given to trends in prices, in cost of materials, and in wage rates and utilization of labor should be indicated in the request.

The reasons for substantial differences in costs and prices, as well as the effect of subcontracting on costs and prices, should be summarized.

Presentation of the foregoing information should indicate that the price analysis was made with a view to effectuating, wherever possible, the War Department policy of reducing costs and prices.

(12) State whether advance payments are to be requested and indicate percentage of total price.

(13) Approximate amount of subcontracting, in dollars and in percentage of price, proposed to be done by the contractor. Where the amount or the percentage is large, a summary of the analysis of available subcontract prices and all available price comparisons for the major components should be given.

(14) Where the request for approval includes, in addition to the principal unit, spare parts or special packaging, or both, there should be a clear summary of the method of the pricing thereof. In the case of spare parts, for example, the summary may show the consideration given to the relationship between the total of the prices for all the parts used in assembling a unit and the price of an assembled unit.

(15) Where the agreement is on a cost-plus-a-fixed-fee basis, in addition to an analysis similar to that required elsewhere in this paragraph (to the extent feasible), a full statement of the reasons for the use of such type of agreement should be given (see §§ 802.232–1 through 802.232–3, inclusive), together with an explanation of the basis of calculation of the fixed fee (see § 802.232–3).

(16) A brief statement of the consideration given to (i) the results of, (ii) the information obtained in, and (iii) any forward pricing agreement in connection with any statutory renegotiation of the contractor; together with a statement of the record of the contractor in making voluntary price reductions and refunds to the Government.

(17) Any other matters having a bearing on the reasonableness of the price, which it is desired to submit.

(18) Recommendation of the chief of the technical service, or his representative, as to the action desired to be taken by the Director, Purchases Division.

(b) Requests for approval of awards under § 803.305–2 (a) (2):

(1) Name and address of contractor who is to furnish the services.

(2) Brief description of the services and place of performance.

(3) Brief statement of past performance record of the contractor.

(4) Whether negotiations were conducted with more than one contractor.

(5) Brief description of project to which the services relate.

(6) Form of agreement, with adequate reference to and justification of any provisions requiring approval of higher authority or to any such approval previously obtained.

(7) The price, and whether it is considered reasonable.

(8) If the agreement is on a cost-plus-a-fixed-fee basis, the amount of the fixed fee, and whether the fixed fee exceeds the maximum allowed under the

schedule established by the Under Secretary of War.

(9) Ratio of fixed fee to estimated gross construction cost.

(10) Whether agreement covers design only or supervision only, or both design and supervision.

(11) Whether release of claim for additional fee has been obtained with respect to all prior cost-plus-a-fixed-fee construction or architect-engineer contracts with the War Department.

(12) Recommendation of the chief of the technical service, or his representative, as to the action desired to be taken by the Director, Purchases Division.

§ 803.306 *Making and approval of contracts, supplemental agreements and change orders.*

§ 803.306–1 *Authority of technical services to make contracts.* A contract may be made by the technical service concerned without approval of higher authority (provided that approval of the award has been obtained, if such approval is required under § 803.305–2, and the contract substantially embodies the award as approved), if:

(a) The contract is written on a standard form of contract; or

(b) The contract (1) complies with the requirements of Subpart H of this part, and (2) does not contain any provision or involve any matter of policy which, in the opinion of the technical service, should be considered and passed upon by authority higher than the technical service.

§ 803.306–2 *Factors to be considered in determining whether review is necessary.* In determining whether a contract provision or matter of policy should be considered and passed upon by higher authority, consideration shall be given by the technical service to the following factors among others:

(a) Whether there is involved a conflict with a policy theretofore approved by higher authority;

(b) Whether there is involved a decision on an important question of policy which has not theretofore been passed upon by higher authority;

(c) Whether there is involved a decision on any matter in which uniformity among the several technical services appears to be desirable;

(d) Whether there is involved a decision on an important or doubtful question of law.

§ 803.306–3 *Authority of technical services to make supplemental agreements and change orders.* Except as provided in § 803.306–5 and in §§ 803.308a and 803.308g, a supplemental agreement to change order modifying a contract (other than an Architect-Engineer, Management or similar contract) may be made or issued by the technical services concerned without approval of higher authority (provided that approval of the award has been obtained if such approval is required under the provisions of § 803.305–2 and the supplemental agreement, or change order substantially embodies the award as approved), if:

(a) The technical service had authority to make the original contract pursuant to § 803.306–1, or the technical service did not have such authority but obtained approval pursuant to § 803.306–4; and

(b) The provisions and features of the supplemental agreement or change order are themselves such that the technical service would have authority to include them in an original contract pursuant to § 803.306–1.

Changes in Architect-Engineer, Management or similar contracts may also be made by the technical service concerned, provided that the requirements of paragraphs (a) and (b) above are satisfied and provided that the change being currently made in the construction contract to which the Architect-Engineer, Management or similar contract relates does not necessitate approval. Supplemental agreements converting cost-plus-a-fixed-fee contracts to a fixed price basis will be governed by the provisions of § 803.306–5.

§ 803.306–4 *Contracts, supplemental agreements and change orders requiring approval of Purchases Division.* The approval of the Purchases Division, Headquarters, Army Service Forces shall be obtained, as herein provided, in connection with all contracts other than those specified in § 803.306–1, and all supplemental agreements and change orders other than those specified in § 803.306–3. Where approval is necessary solely because one or more provisions of the contract, supplemental agreement or change order fail to comply with the requirements of Subpart H or present a matter or matters of policy which should be considered by authority higher than the technical service, the necessary approval may be obtained, prior to execution of the instrument on behalf of the technical service, on submission of the contract or the material provisions thereof to the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces, whose approval will be signified by indorsement, memorandum, letter or telegram in response to the request for approval; or on submission of the contract, supplemental agreement or change order, after execution on behalf of the technical service, for approval and manual execution by the Director, Purchases Division. In every other instance the contract, supplemental agreement or change order must be submitted, after execution on behalf of the technical service, for approval and manual execution by the Director, Purchases Division. Upon receipt of requests for the approval of deviations from the contract clauses set forth in §§ 803.365–1 to 803.365–9, the Legal Assistant to the Director of Matériel or the Chief, Legal Branch, Director of Matériel, Headquarters, Army Service Forces, will attend to all necessary clearances with the Contract Insurance Branch, Special Financial Services Division, Headquarters, Army Service Forces.

§ 803.306–5 *Supplemental agreements converting cost-plus-a-fixed-fee contracts to a fixed price basis.* (a) In all cases, supplemental agreements converting cost-plus-a-fixed-fee contracts to a fixed price basis (which for purposes of this section will include conversion to the incentive type contract—see § 803.378–5) will be made subject to the approval of the Director, Purchases Division, Headquarters, Army Service Forces. In submitting such supplemental agreements for the approval of the Director, Purchases Division, Headquarters, Army Service Forces, in addition to any information required by § 803.305–4 or other instructions as to contract clearance, a written statement should be presented (1) analyzing the price data and other similar information, if any, submitted by the contractor, (2) describing the investigations of these data and of other relevant facts which have been made by the War Department representatives, and (3) setting forth the principal factors considered in negotiating the conversion of the particular contract to a fixed price basis on the terms recommended. In the case of a partial conversion (not retroactive to the beginning of performance), the statement will indicate what steps have been taken to exclude from the proposed fixed price starting load costs for which the contractor is entitled to reimbursement or has been reimbursed under the cost-plus-a-fixed-fee portion of the contract. The records of the cost analyses and other investigations made in connection with the conversion will be preserved in the procurement office charged with the conversion negotiations or in the office of the Chief of the technical service concerned.

(b) It is the policy of the War Department to convert cost-plus-a-fixed-fee contracts to a fixed price basis as stated in the recitals quoted below in this paragraph. It has been administratively determined by the Under Secretary of War that such policy is to the advantage of the Government and that the execution of supplemental agreements effecting such conversions of cost-plus-a-fixed-fee contracts to a fixed price basis will facilitate the prosecution of the war when the contracting officer shall have satisfied himself as hereinafter provided in this paragraph and when the supplemental agreements shall have been approved as provided in paragraph (a) above. Although a fixed price, properly determined, will usually result in lower expenditure by the Government than on a cost-plus-a-fixed-fee basis, in some instances it may be to the interest of the Government to convert cost-plus-a-fixed-fee contracts for various reasons other than expected monetary saving. Therefore, the policy in favor of conversion may be carried out even in those cases where a price must be set for the first period of deliveries after the conversion which appears to be higher than the unit cost plus unit fee being paid on the cost-plus-a-fixed-fee basis at the time of the conversion. The price for the first period of deliveries after conversion may be necessitated by the increased risks to which the contractor is subject, but opportunity may exist over the life of the contract for savings to develop for the Government as a result of increased efficiency. Each supplemental agreement providing for such a conversion will be made only after the contracting officer has satisfied him-

self in the light of the above-mentioned policy of the War Department that the facts warrant substantially the following recitals which will be included with appropriate modifications to meet the needs of each particular case in each supplemental agreement:

Whereas, it is the policy of the War Department to convert cost-plus-a-fixed-fee contracts to a fixed price basis to the greatest extent feasible in order, among other things, (1) to develop greater efficiency in the use of manpower, materials and capacity by providing the contractor with an incentive to improve its operations, (2) to develop lower prices and costs through improvements in operating efficiency, and (3) to reduce the expense and manpower necessary for administrative work, both for the Government and for contractors; and

Whereas, it has been administratively determined by the Under Secretary of War that such policy is to the advantage of the Government and that the execution of supplemental agreements effecting such conversions of cost-plus-a-fixed-fee contracts to a fixed price basis will facilitate the prosecution of the war; and

Whereas, the conversion of this contract from a cost-plus-a-fixed-fee to a fixed price basis will implement the policy of the War Department aforementioned not only insofar as this contract is concerned but also to the extent that future contracts for supplies wih the contractor may, as a result of this conversion, be placed by the Government on a fixed price basis; and

Whereas, in view of the aforementioned policy of the War Department and after consideration of all factors deemed relevant to the conversion of this contract from a cost-plus-a-fixed-fee to a fixed price basis, and after reasonable price analysis, the terms and conditions set forth in this supplemental agreement have been found to be reasonable under all the circumstances; and

Whereas, for the purposes aforesaid this supplemental agreement is entered into pursuant to the First War Powers Act, 1941, and Executive Order No. 9001.

(c) The supplemental agreement covering the conversion will be distributed as provided in §§ 803.303–5 and 803.315 et seq. The statements and other data referred to in paragraph (a) need not be submitted with the supplemental agreement to the General Accounting Office or to the finance officer, but will be retained as provided in paragraph (a) available for inspection.

(d) Prior to distribution there will be attached to each copy of the conversion supplement a certificate signed by the contracting officer stating specifically that the conversion of the contract from a cost-plus-a-fixed-fee to a fixed price basis was made after an investigation and determination that, in the judgment of the War Department, such action would facilitate the prosecution of the war.

(e) Any supplemental agreement, converting a cost-plus-a-fixed-fee subcontract to a fixed price basis, if required to be approved by the contracting officer, shall, prior to such approval, be forwarded for approval of the Director, Purchases Division, Headquarters, Army Service Forces, accompanied by the information required by paragraph (a) above.

§ 803.307 *Authority of technical service to reallocate awards and contracts.* It is recognized that, in order to promote the more efficient utilization of combined manufacturing facilities or to prevent interruption of work, it may become advisable to reallocate an award, contract, or modification thereof. Accordingly, when an award, contract, or modification thereof has been made with required approvals, and the technical service concerned thereafter determines that it is advisable to obtain the materials or services involved wholly or in part from another contractor or from two or more contractors, it is authorized without further approval to reallocate the award, contract or modification thereof in whole or in part to another contractor or to two or more contractors, and for this purpose to make appropriate awards and appropriate contracts: *Provided,* That the aggregate quantities, aggregate prices, and the terms of the awards and contracts resulting from the reallocation are substantially the same as those contained in the award, contract or modification thereof which was the subject of the reallocation.

§ 803.308 *Supplemental agreements and clauses prescribed by Subpart H.* Except as otherwise specifically provided to the contrary in any section of these procurement regulations, whenever any contract (either as originally drawn or as the same may have been modified, amended or supplemented) contains a provision covering the same subject matter as a clause prescribed by Subpart H of this part, but in a form different from that therein prescribed, it will not be necessary, in executing any supplemental agreement or change order in connection with said contract, to amend such provision either with respect to the items which are the subject of the contract or with respect to the items which are the subject of the supplemental agreement or change order.

§ 803.308a *Supplemental agreements and change orders not involving receipt of consideration.* Except as otherwise specifically provided in these regulations, approval by the Director, Purchases Division, Headquarters, Army Service Forces, will be required for each supplemental agreement or change order which does not involve the receipt by the Government of adequate legal consideration, or which modifies or releases an accrued obligation owing directly or indirectly to the Government including accrued liquidated damages or liability under any surety or other bonds. In every such case the technical service shall submit a full statement of the case and of the action recommended together with a finding by the technical service, adequately supported, that the prosecution of the war would be facilitated by the action recommended. The Director, Purchases Division, will signify his approval by manual execution of the supplemental agreement or change order, where such instrument is submitted, or where such instrument is not submitted, by memorandum, indorsement, letter or telegram in response to the request for approval. Attention is directed to the provisions of § 803.308g. The provisions of this section apply to amendments or modifications of agreements for the repayment of excessive profits executed pursuant to the Renegotiation Act, as amended, except to those amendments of such agreements authorized by § 803.308e (b).

§ 803.308b *Correction of mistakes.* Effecting amendment of contracts with the least possible delay to correct misunderstanding, mistakes, errors, and ambiguities will facilitate the prosecution of the war by expediting the procurement program and by giving contractors proper assurance that mistakes unavoidable in a war program as large and extensive as that now in progress, will be corrected expeditiously and fairly. Accordingly, mistakes may be corrected by supplemental agreement pursuant to Title II of the First War Powers Act, 1941, and Executive Order No. 9001, as follows:

(a) Each chief of a technical service may, within the time prescribed by § 803.308f, enter into a supplemental agreement correcting mistakes found by the chief of the technical service to be of the following types:

(1) Misunderstandings, mistakes, and errors of the parties to a written agreement, or ambiguities therein, the correction of which would result in benefit to the Government;

(2) Misunderstandings, mistakes and errors of the parties to a written agreement, or ambiguities therein, which consist solely of a failure to express in the written agreement the true agreement between the parties in accordance with the negotiations between them, or of a mutual mistake as to a material fact;

(3) Mistakes and errors of a contractor, even if unilateral which consist solely of the failure of the contractor, in good faith, to set forth in a bid or in a written agreement what he intended to include therein.

Except as to misunderstandings, mistakes, errors or ambiguities of the type referred to in subparagraph (1) above, the authority conferred upon the chiefs of the technical services by this paragraph (a) is subject to the following limitations:

(i) The notice of the mistake must have been given by the contractor to the contracting officer before completion of performance and before the giving of notice of termination of the contract; *Provided,* That in case of contracts for sale of government property, such notice must be given by the purchaser to the contracting officer before completion of deliveries by the government or before final payment by the purchaser, whichever is later.

(ii) The change involved must not result in an adjustment in excess of $50,000; and

(iii) Where the contract was made as a result of a formal or informal invitation to bid the change must not result, in the case of contracts for the sale of government property, in the payment by the contractor of a sum less than the amount of any bid submitted by any other bidder upon substantially the same terms and conditions, and in the case of other contracts, in the payment to the contractor of a sum in excess of the amount of any bid submitted by any other bidder upon substantially the same terms and conditions, except that, in either case, if the

contract was not originally placed on a basis of competition as to price but primarily on the basis of other considerations the limitation contained in this subdivision (iii) shall not be applicable.

This paragraph (a) does not grant any authority to the chief of a technical service to correct a mistake in an agreement for the repayment of excessive profits under the Renegotiation Act, as amended, and the correction of a mistake in any such agreement may be made only with the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(b) At any time prior to the making of final payment under a termination settlement agreement entered into prior to 21 July 1944, the chief of the technical service concerned may correct mistakes, errors and ambiguities in such termination settlement agreement when such correction will result in benefit to the Government or when the change involved does not result in an adjustment in excess of $50,000. (Also see § 847.748). The authority conferred by this paragraph is not subject to any of the limitations created by paragraph (a) above or by § 803.308f. Termination settlement agreements entered into on or after July 21, 1944 may be amended as authorized by § 847.748.

(c) In any other case where the chief of a technical service determines that it will facilitate the prosecution of the war to execute a supplemental agreement to correct a mistake, he will first obtain approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(d) Approval of the Director, Purchases Division, will not be required in the case of any supplemental agreement correcting a mistake, under which the Government receives adequate new legal consideration, regardless of whether the supplemental agreement involves an adjustment amounting to $50,000 or more, and regardless of the time of execution of such supplemental agreement.

Requests for approval by the Director, Purchases Division, Headquarters, Army Service Forces, of supplemental agreements to correct misunderstandings, mistakes, errors and ambiguities in contracts in accordance with the provisions of this section will be accompanied by a full statement of the circumstances including all relevant papers or copies thereof. The evidence submitted shall show that an error or mistake was made or that a misunderstanding or ambiguity exists, in what it consists, and how it occurred, the true intent of the parties, and the effect of the mistake, if not corrected, upon the financial condition of the contractor. When this section does not require that the approval of the Director, Purchases Division, be obtained, the chief of the technical service approving or executing such agreement will see that a similar statement is prepared with respect to each such supplemental agreement and that such statement and all relevant papers and evidences are carefully preserved. Attention is directed to the provisions of § 803.308g.

§ 803.308c *Contracts or supplemental agreements providing for advance payments.* The subject of advance payments is treated in Subpart G of this part. If a contract contains a clause authorizing the making of advance payments, the determination of whether the approval of the Purchases Division must be obtained under § 803.306–4 should be based upon the provisions of the contract other than the clause providing for advance payments. If the making of advance payments is authorized under a supplemental agreement, the provisions of this subpart shall be inapplicable, and only Subpart G shall be considered in determining whether approval of such supplemental agreement by any authority higher than the technical service is necessary.

§ 803.308d *Ratification of prior action.* In any case where an existing War Department contract or any section of these Procurement Regulations requires that any action affecting a War Department contract be approved by a contracting officer, chief of a technical service or other representative of the War Department in advance of the taking of such action or that it be so approved in writing by a stated time, such action may be approved or ratified in writing by such officer or representative of the War Department after such action has been taken or after such stated time. Such approval or ratification will take effect retroactively as of the date specified in the written instrument of approval or ratification. In general, cases which are appropriate for the exercise of the authority contained in this section will fall into one of two categories, namely: (a) Cases where, in the interest of expediting production and without obtaining the requisite prior approvals, action has been taken in reliance in good faith upon assurances of a person in authority, or (b) cases where the action taken without such assurances was of a nature which would have been approved had approval been sought seasonably. The prosecution of the war will be facilitated by the liberal use of the authority contained in this section.

§ 803.308e *Extension of time for performance.* (a) The chief of each technical service may authorize contracting officers designated by him to extend by supplemental agreement within the time prescribed by § 803.308f, the time fixed for performance in any contract and to waive accrued liquidated damages. Each such supplemental agreement shall be entered into pursuant to the First War Powers Act and Executive Order No. 9001. If the contractor shall be in default by reason of delay at the date thereof, such supplemental agreement shall be subject to the approval of the Director, Purchases Division, Headquarters, Army Service Forces, unless the contracting officer shall find that such delay caused no substantial damage to the Government (as distinguished from the accrual of liquidated damages under the contract). For the purposes of this section, the contractor shall not in any case be considered in default by reason of delay if such delay is excusable within the meaning of the contract. Attention is directed to the provisions of § 803.308g.

(b) The chief of the technical service to which any contract for the repayment to the Government of excessive profits, executed pursuant to the Renegotiation Act of 1942 (see § 812.1201–1 (b), has been assigned for administration, may extend by supplemental agreement the time within which any payment is to be made under such contract whenever he determines (1) that the extension is necessary to avoid an impairment of the contractor's ability to perform war contracts or subcontracts, and (2) that such action will facilitate the prosecution of the war. A copy of each such supplemental agreement, together with a full statement of the circumstances upon which the determination is based, will be forwarded to the Director, Renegotiation Division, Headquarters, Army Service Forces, upon the execution of the agreement. Each such supplemental agreement shall contain, among other things, the following provision:

> All unpaid installments hereunder may at the option of the Government be declared and thereupon shall become immediately due and payable, in the event of a default continuing for 20 days in the payment of any amount required to be paid under this agreement. Interest, at the rate provided by law in the District of Columbia as the rate which is applicable in the absence of express contract as to the rate of interest, shall accrue and be payable upon each payment due hereunder from and after the due date thereof, whether original or accelerated.

(c) Supplemental agreements extending the time within which payment is to be made under any contract for the repayment to the Government of excessive profits, executed pursuant to the Renegotiation Act of 1943 (see § 812.1201–1 (a), are required to be submitted for the approval of the Director, Purchases Division, Headquarters, Army Service Forces (see § 803.308a). In submitting any such supplemental agreement for approval it shall be forwarded to the Director, Purchases Division, through the Director, Renegotiation Division, Headquarters, Army Service Forces.

§ 803.308f *Amendment of contracts after final administrative determination of amount due.* The authority granted to the chiefs of the technical services pursuant to §§ 803.308b (a), 803.308e (a), 803.379 and 803.380 will not be exercised (a) in the case of contracts for the sale of government property, after the completion of delivery by the government or final payment by the contractor, whichever is later or (b) in the case of other contracts, after the contracting officer has administratively determined the final amount due under the contract by communicating his determination to the contractor or by the approval of a final voucher therefor, except that if the contracting officer's determination is, by the terms of the contract, subject to review by the Secretary of War, or his duly authorized representative, such authority may be exercised at any time prior to final action on such review if the contractor perfects his right to such review. Attention is directed to the provisions of § 803.308g.

§ 803.308g *Supplements and change orders dealing with or directly affecting matters pending before the General Accounting Office in respect of the amended*

contract. Chiefs of technical services may not approve or authorize the execution of any supplemental agreement or change order which deals with or directly affects the claim under the contract amended thereby which has been transmitted to the General Accounting Office, or any dispute under the contract which has been referred to the General Accounting Office. This limitation of authority is applicable to action taken pursuant to §§ 803.306–3, 803.306–4, 803.308a, 803.308b, 803.308e, 803.308h–4, 803.379 and 803.380 notwithstanding any authority granted to the chiefs of the technical services by those sections respectively. In requesting any approval of the Director, Purchases Division, Headquarters, Army Service Forces, required by these regulations, the chiefs of the several technical services will call attention to any matters pending before the General Accounting Office with respect to the contract in question, or any closely related contract which may be affected or dealt with by the supplementary agreement, change order, or action, approval of which is requested, and will state fully the circumstances in any such pending matter.

§ 803.308h *Defective, informal and quasi-contracts.*

§ 803.308h–1 *Statutory provisions.* Section 17 of the Contract Settlement Act of 1944 reads as follows:

SEC. 17. (a) Where any person has arranged to furnish or furnished to a contracting agency or to a war contractor any materials, services, or facilities related to the prosecution of the war, without a formal contract, relying in good faith upon the apparent authority of an officer or agent of a contracting agency, written or oral instructions, or any other request to proceed from a contracting agency, the contracting agency shall pay such person fair compensation therefor.

(b) Whenever any formal or technical defect or omission in any prime contract, or in any grant of authority to an officer or agent of a contracting agency who ordered any materials, services, and facilities might invalidate the contract or commitment, the contracting agency (1) shall not take advantage of such defect or omission; (2) shall amend, confirm, or ratify such contract or commitment without consideration in order to cure such defect or omission; and (3) shall make a fair settlement of any obligation thereby created or incurred by such agency, whether expressed or implied, in fact or in law, or in the nature of an implied or quasi contract.

(c) Where a contracting agency fails to settle by agreement any claim asserted under this section, the dispute shall be subject to the provisions of section 13 of this act.

(d) The Director shall require each contracting agency to formalize all such obligations and commitments within such period as the Director deems appropriate.

Regulation No. 12 of the Office of Contract Settlement, dated January 24, 1945, issued under this section 17, authorizes the War Department to make or continue in effect regulations not inconsistent with those prescribed by the Office of Contract Settlement.

§ 803.308h–2 *Investigation of claims under statute.* The chiefs of the several technical services will arrange for the prompt investigation of all claims which may come within the purview of section 17 of the Contract-Settlement Act of 1944. Claims under this section shall be in such form and supported by such documentary evidence as the chief of the technical service deems appropriate under the circumstances of individual cases. If the chief of the technical service concerned is of the opinion that any such claim is without merit or if the Director, Purchases Division, withholds approval of any claim recommended by the chief of the technical service under the provisions of § 803.308h–5, such claim will be denied by the chief of the technical service by written notice to the claimant accompanied by findings indicating the basis of the denial. The written notice and findings will be sent by registered mail, return receipt requested. Two copies of each such notice and findings, together with a copy of the claim and supporting papers and a brief statement of the circumstances of the investigation made by the technical service will be transmitted to the Judge Advocate General (attention Contract Appeals Branch, Contracts Division). Such brief statement should include the names and permanent addresses of any witnesses relied upon by the technical service in denying such claim. A copy of the findings will be forwarded by the Judge Advocate General to the Office of Contract Settlement in accordance with Regulation No. 12 of that office. Whenever the chief of the technical service is advised of the filing of an appeal or suit under section 13 of the Contract Settlement Act of 1944 with respect to a claim denied by him, he shall promptly transmit such information to the Judge Advocate General (attention Contract Appeals Branch, Contract Division).

§ 803.308h–3 *Formalization of claims under existing procedures.* Insofar as specifically authorized by other provisions of the regulations in this chapter in effect prior to the effective date of the Contract Settlement Act of 1944, the chiefs of the technical services may continue to approve and formalize instructions given or requests made in the behalf of the technical service to furnish or arrange to furnish materials, services, or facilities. Approval or formalization of instructions or requests not authorized by the regulations in this chapter prior to the effective date of the Contract Settlement Act of 1944 pursuant to section 17 of that act will be dealt with in accordance with §§ 803.308h to 803.308h–9, inclusive.

§ 803.308h–4 *Action under section 17 by the technical service.* (a) The chief of any technical service may take or approve any action authorized by subsections (a) and (b) of section 17 of the Contract Settlement Act of 1944, if there was in existence at the time of the furnishing or arranging to furnish any materials, services and facilities in question, a valid, formal contract between the Government (acting through the technical service in question) and the person claiming the benefit of section 17: *Provided,* That:

(1) Such person acted in good faith upon instructions from an officer or employee of such technical service;

(2) Such instructions were of a type which, when given could properly be embodied in a change order, supplemental agreement or other modifying instrument under such existing contract;

(3) Such person actually furnished or arranged to furnish materials, services or facilities which the Government in fact desired such person to furnish or to arrange to furnish in connection with such contract at the time such instructions were given; and

(4) Such person (i) has not been paid for such materials, services or facilities or for arranging to furnish the same, (ii) has no pending contractual arrangement for such payment by the Government, and (iii) is willing to accept in complete discharge of all liability of the Government for furnishing or arranging to furnish such materials, services or facilities an amount which the chief of the technical service considers to be not in excess of fair compensation for what such person has in fact done or furnished and which is not in excess of $500,000.

(5) No claim relating to the furnishing of such materials, services or facilities has been referred to the General Accounting Office (see § 803.308g).

(6) Final payment has not been made under the contract as theretofore formally amended in writing.

(b) The chief of the technical service also may take or approve any action authorized by section 17 (a) of the Contract Settlement Act of 1944, in case there was not in existence at the time of the furnishing or arranging to furnish any materials, services and facilities in question, a valid, formal contract, within the purview of § 803.308h–4 (a), which could properly have been the subject of timely amendment by change order, supplemental agreement or other modifying instrument making provision therefor, *Provided,* That:

(1) The person claiming the benefit of said statutory provision acted in good faith upon instructions from an officer or employee of such technical service;

(2) Such instructions were of a type which, when given could properly be embodied in a formal or informal contract;

(3) Such person actually furnished or arranged to furnish materials, services or facilities which the Government in fact desired such person to furnish or to arrange to furnish at the time such instructions were given;

(4) Such person (i) has not been paid for such materials, services or facilities or for arranging to furnish the same, (ii) has no pending contractual arrangement for such payment by the Government, and (iii) is willing to accept in complete discharge of all liability of the Government for furnishing or arranging to furnish such materials, services or facilities an amount which the chief of the technical service considers to be not in excess of fair compensation for what such person has in fact done or furnished and which is not in excess of $50,000; and

(5) No claim relating to the furnishing of such materials, services or facilities has been referred to the General Accounting Office (see § 803.308g).

(c) Any action taken by the chief of the technical service will be embodied (1) in a supplemental agreement to the existing contract involved when the

claim is handled under authority of § 803.308h–4 (a), and (2) in a contract where the claim is handled under authority of § 803.308h–4 (b). In each case involving the payment to the contractor of more than $50,000 by reason of such a supplemental agreement or of more than $5,000 by reason of such a contract, the supplemental agreement or contract shall be subject to the prior written approval of the chief of the technical service in person or of any one or more employees or officers designated by him within the headquarters office of the technical service, or, in case of the Army Air Forces, within the headquarters office of the Army Air Forces or of one of its major component commands.

(d) The chief of the technical service will make a written report promptly to the Director, Purchases Division, Headquarters, Army Service Forces, of each action taken pursuant to the authority granted by this section which involves in excess of $500. Such report will contain the following:

(1) A copy of the supplemental agreement or contract constituting the action;

(2) A brief statement of facts and evidence upon which such action is based; and

(3) A statement of the reasons why such instructions were not formalized at the time they were given.

(e) The chief of the technical service concerned will require full records to be preserved containing the facts relevant to any action taken pursuant to this section.

(f) The chief of each technical service will take adequate steps to make certain that the grant of authority contained in this section does not lead to any relaxation of the efforts of the procurement offices within such technical service to formalize promptly all instructions and agreements with contractors as required by applicable regulations.

§ 803.308h–5 *Action by Director, Purchases Division.* (a) In any case not clearly covered by § 803.308h–4, the chief of each technical service will not grant any claim or request for relief or action under section 17 of the Contract Settlement Act of 1944 without obtaining the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces. Each recommendation for such relief or action will be accompanied by an adequate statement of the circumstances which, in the opinion of the chief of the technical service, justify such relief or action and in addition the following:

(1) A statement of the scope and nature of the investigation of the circumstances made by the technical service and signed statements by representatives of the Government and of the claimant having knowledge of the relevant circumstances, sworn to where practicable;

(2) The original or photostatic copies of any written instructions and a full statement of any oral instructions, relied upon by the claimant;

(3) Identification of any officer or agent upon whose authority to bind the War Department the claimant relied, together with a statement by the claimant that he in fact relied upon such authority;

(4) A statement of when and to whom such materials, services, or facilities were furnished or were arranged to be furnished, and of the arrangements made for furnishing them, showing whether or not at the time of furnishing or arranging to furnish such materials, services or facilities the claimant intended to be directly compensated for the same by the War Department;

(5) A finding by the chief of the technical service that the amount claimed constitutes fair compensation for the materials, services, or facilities furnished or arranged to be furnished; such finding shall be supported by (i) substantiating evidence, (ii) statement of profit allowance, if any (see § 803.308h–7 and (iii) and explanation of the scope of the investigation of the costs incurred;

(6) A statement of the reasons why the proposed action was not, at the time of the circumstances upon which the relief requested is based, promptly embodied in an appropriate supplemental agreement, change order or contract;

(7) A brief description of the contract or contracts, if any, to which such proposed relief or action is related;

(8) A statement as to whether any other claim for any part or all of the relief requested has been, or is being, submitted to any other Government agency or war contractor, and if so, of the action taken thereon;

(9) The name, address and telephone number of the person in the War Department with detailed knowledge of the facts of the case.

(b) Upon receipt of written approval by the Director, Purchases Division, of any such claim, the chief of the technical service will embody the action authorized in an appropriate contract or supplemental agreement and will send a copy of the executed instrument to the Director, Purchases Division.

§ 803.308h–6 *Form of contract or supplemental agreement.* Unless otherwise authorized by the Director, Purchases Division, Headquarters, Army Service Forces, each contract or supplemental agreement executed or proposed for execution under the authority of section 17 of the Contract Settlement Act of 1944 will contain the provisions mentioned below (in addition to provisions which may be specially pertinent to the particular case). In the case of supplemental agreements it will not, of course, be necessary to repeat any standard clause referred to below if the original contract already contains that clause.

(a) Recitals of the principal facts and circumstances which justify a finding that the action taken is within the scope of section 17 of the Contract Settlement Act of 1944, including a statement in cases of action within the scope of subsection (a) of such section 17, that the materials, services or facilities in question were related to the prosecution of the war.

(b) Recital that the execution of the contract or supplemental agreement has been authorized by or in behalf of the Secretary of War pursuant to the authority of the Contract Settlement Act of 1944.

(c) A provision enumerating and describing the materials, services or facilities which the contractor has furnished or delivered and setting forth the actual delivery schedule.

(d) A provision whereby the contractor releases and discharges the Government of and from all liabilities for furnishing or arranging to furnish the described materials, services or facilities.

(e) A provision stating that by the execution of the agreement the contractor warrants that, in furnishing the described materials, services or facilities, it complied with all provisions required by Federal law or Executive order to be incorporated in War Department contracts for procurements of this nature.

(f) The patent indemnity provisions (see § 803.335) and patent license provisions (relating to research or development work) which would apply if the procurement were being contracted for in the usual manner, modified so far as necessary in the light of the fact that the materials, services or facilities have already been furnished.

(g) The contract provisions appearing in § 803.322 (Officials Not to Benefit), § 803.323 (Covenant Against Contingent Fees), § 803.326 (Disputes), and § 813.1301, Article 23 (Definitions); and the first sentence of § 813.1301, Article 8 (Payments), and § 803.342–1 (a) (Renegotiation), to the extent such contract provisions are required if the procurement were being contracted for in the usual manner.

§ 803.308h–7 *Action by War Department Board of Contract Appeals.* The War Department Board of Contract Appeals in connection with any appeal pending before it under the "Disputes" article of a contract (see e. g. § 803.326) may authorize or direct the taking of any action pursuant to section 17 of the Contract Settlement Act of 1944 which in its opinion is required or authorized by that section.

§ 803.308h–8 *Fair compensation.* Under some circumstances, fair compensation under section 17 of the Contract Settlement Act of 1944 will consist of reimbursement for all or part of the costs incurred in furnishing or arranging to furnish materials, services or facilities. In others, a profit, in addition to costs, may be appropriate. The determination of compensation after performance obviously differs from pricing before the fact in certain important respects. Contingency allowances are of course improper. The profit allowance, if any, must be made in the light of the fact that the amount to be paid is determined after costs are known and risks have been removed.

§ 803.308h–9 *Time limitation.* Paragraph 8 of Regulation 12 of the Director, Office of Contract Settlement dated 24 January 1945 reads as follows:

8. Contracting agencies required to formalize obligations and commitments. Where an obligation or commitment created or incurred by a contracting agency might be invalidated because of a formal or technical defect or omission, in a prime contract or in any grant of authority to an officer or agent

who ordered materials, services, or facilities related to the prosecution of the war, the agency shall formalize the obligation or commitment within ninety days from notice to its headquarters office of the existence of such formal or technical defect or omission.

For the purposes of the foregoing, the term "headquarters office" is interpreted to mean the office from which the last approval is required.

SUBPART C—FORMALITIES IN CONNECTION WITH EXECUTION OF CONTRACTS AND MODIFICATIONS THEREOF

§ 803.309 *Numbering contracts.*

§ 803.309–1 *When required.* (a) Every formal contract (see § 803.303–2) involving the receipt or expenditure of public moneys will be numbered.

(b) Every informal contract (see § 803.303–3) involving the receipt or expenditure of public moneys will be numbered when:

(1) The actual or estimated amount involved is $5,000 or more, or

(2) It is contemplated that more than one payment (or receipt) will be involved, regardless of the amount involved.

(c) The provisions of paragraph (a) are not applicable to delivery orders evidencing interbranch or interdepartmental purchases (see § 806.605a and Subpart C of Part 806 of this subchapter). Such delivery orders need only be given such designation as may be prescribed by the chiefs of the technical services. If, however, it is contemplated that any such order will involve more than one payment, it must be numbered in accordance with §§ 803.309–2 or 803.318b–5 unless the procedure prescribed in § 803.318–1 (c) is followed.

§ 803.309–2 *System.* Contract numbers will be placed in the upper right-hand corner and will consist of the following in the order named:

(a) The capital letter "W", representing the War Department.

(b) Station number representing the station or office as published in the War Department Fiscal Code.

(c) The letter or letters representing the technical service. No approved letter symbol may be changed, nor may any new letter symbol be adopted, unless approval therefor is first obtained from the Office of the Fiscal Director, Headquarters, Army Service Forces, which, before granting any such approval is required to obtain formal approval of the Comptroller General of the United States.

(d) A serial number, separated from the above by a hyphen, commencing with the number 1 and continuing in succession indefinitely without regard to the fiscal year. When the serial number reaches the limit of five digits (99,999), a new series will be used beginning with the serial number 1 and followed by the capital letter "A". Should additional series become necessary, they will be distinguished by the capital letters "B", "C", "D", etc., as may be required.

NOTE: The foregoing applies only to the numbering of technical service contracts and not to the numbering of service command contracts. As to the latter, see § 803.318b–5.

As to numbering of contracts of sale by the War Department, see § 821.113.

§ 803.309–2a *Contracts executed by Army Air Forces contracting officers.* In numbering contracts executed by Army Air Forces contracting officers, the letter symbol representing the technical service shall be the letters representing the Army Air Forces, regardless of the source of the funds being used to finance the contracts. Burial contracts, however, shall continue to be numbered as service command contracts.

§ 803.309–3 *Examples.* Based upon § 803.309–2 above, the following is the number of the first numbered contract executed by the Philadelphia Quartermaster Depot:

W-36-030 qm-1

§ 803.309–4 *Effect of War Department Fiscal Code.* (a) Under date of January 1, 1944, the War Department Fiscal Code was issued as TM 14–700.

(b) Chapter 8 of the aforementioned code sets forth list of procurement station numbers presently prescribed. These station numbers are to be used in numbering contracts (as required by §§ 803.309–2 (b) and 803.318b–5 (a) (2).

(c) It is to be noted that Chapter 7 of the aforementioned code contains code numbers designating the various technical services as well as the various service commands. These code numbers are not to be substituted, in the numbering of contracts, for the letters used to designate the technical services and the service commands (as required by §§ 803.309–2 (c) and 803.318b–5 (a) (3)), since symbol letters used in the numbering of contracts to designate the technical services must be approved, prior to their use, by the Comptroller General of the United States.

§ 803.309a *Identification of subcontracts.* Section 803.309 prescribes a numbering system for prime contracts with the War Department; it does not prescribe a numbering system for subcontracts (including purchase orders) under such prime contracts. It is desirable, however, that subcontracts be properly identified and tied-in with the prime contracts to which they respectively relate. Accordingly, contracting officers will urge contractors holding prime contracts with the War Department to include in their subcontracts, so far as practicable, a reference to the number of the prime contract involved. Prime contractors will also be asked to urge their subcontractors to include a reference to the number of the applicable prime contract in sub-subcontracts; and so on down the line. This practice will materially assist in accounting and auditing and particularly in the settlement of terminated subcontracts of all tiers.

§ 803.310 *Fiscal procedures.*

§ 803.310–1 *Allotments of funds not to be exceeded.* The authority to make contracts is subject to the proviso that allotments made for supplies will not be exceeded. Officers who are charged with making contracts will submit, prior to the incurrence of obligations, all proposed contracts to the fiscal officer for verification as to the sufficiency of funds for that purpose. Officers who are charged with the fiscal record keeping will be held strictly responsible that obligations incurred on the basis of documents submitted for determination as to the sufficiency of funds do not exceed the amounts authorized and that such obligations include no other purpose than indicated in the allotment.

§ 803.310–2 *Statements as to availability of funds.* See AR 35–240 for the statements which will be made on contracts and on purchase orders placed under existing contracts as to the funds chargeable and the sufficiency thereof.

§ 803.311 *Execution of contracts.*

§ 803.311–1 *Contracts with individuals.* A contract with an individual will be signed by the individual in his own name.

§ 803.311–2 *Contracts with an individual trading as a firm.* Such a contract will be signed by the individual in question. The following illustrates the form that such a contract will ordinarily take:

* * * * *

JOHN DOE COMPANY,
Contractor.

By _____
John Doe (Owner)

_____
(Business Address)

§ 803.311–3 *Contracts with partnerships.* (a) The contract may be signed in the name of the partnership by one or more of the partners. Each partner who signs will sign as one of the firm.

(b) A contract with a partnership doing business through a local representative or agent may be executed in the name of the firm by such local representative or agent.

(c) If the contract is executed in the manner specified in paragraph (b) and the contract involves a substantial contract price, there should, if practicable, be filed with the contract a properly certified copy of the power of attorney showing the authority of the representative or agent executing the contract.

§ 803.311–4 *Contracts with corporations.* (a) A contract with a corporation will have the name of the corporation written in the blank space provided therefor at the end of the contract form followed by the word "by", after which the officer or person who has been authorized to contract on behalf of the corporation will sign his name, with the designation of his official capacity.

(b) The contracting officer will in all cases endeavor to satisfy himself that the signer has authority to bind the corporation.

(c) If the contract form being used contains alternate certificates of the type set forth in § 813.1301 (Art. 24), the contracting officer will, if practicable, procure or make one of such alternate certificates.

(d) If the contract form being used does not contain alternate certificates of the type set forth in § 813.1301 (Art. 24), no such certificate need be executed, nor will the evidence specified in paragraph (e) be required.

(e) In lieu of complying with paragraph (c) above, the contracting officer may obtain satisfactory evidence of the authority of the signer to bind the corporation and file such evidence with the contract. Such evidence will consist of extracts from the records of the corporation showing either

(1) The election or appointment of the officer executing the contract on behalf of the corporation and the grant of authority to such officer to execute the contract; or

(2) If the contract is signed by someone other than an officer of the corporation, the grant of authority to such person to execute the contract.

The above-mentioned copies will be certified by the custodian of such records, under the corporate seal (if there be one), to be true copies of the records of the corporation.

§ 803.311–5 *Contracts with joint-venturers.* Contracts are sometimes entered into with joint-venturers, consisting of a corporation and a partnership, or a partnership and an individual, etc. In such cases the contract will be signed by each participant in the joint-venture in the manner indicated for each type of participant in §§ 803.311–1, 803.311–2, 803.311–3 or 803.311–4.

§ 803.311–6 *Contracting officer's signature.* The contracting officer will sign on behalf of the United States in the space provided for his signature, and his official title will be added.

§ 803.311–7 *Approval articles.* If approval and manual execution of a contract, supplemental agreement or change order by any War Department officer or official other than the contracting officer are required pursuant to these procurement regulations or the regulations of the technical service concerned, (a) an appropriate approval article will be included in the instrument, (b) all changes and deletions shall have been made before the instrument is forwarded for such approval, and (c) the instrument shall not be valid until such approval and manual execution have been obtained.

§ 803.312 *Statement and Certificate of Award (Standard Form No. 1036).*

§ 803.312–1 When contracts are negotiated in accordance with the authority referred to in § 802.204, Standard Form No. 1036 need not be executed. (General Regulations of Comptroller General No. 51, Supp. No. 8, June 1, 1942. However, when Standard Form No. 1036 is not executed either:

(a) The notation "Negotiated Contract", signed by the officer negotiating the contract, should appear under or in close proximity to the contract symbol and number on the cover sheet of the contract or,

(b) The contract should show in the wording thereof that it was negotiated under the authority referred to in § 803.204 (Decision of Comptroller General dated July 11, 1942 (A–51607), rendered in response to letter of Acting Judge Advocate General of Navy dated June 27, 1942).

§ 803.312–2 If in exceptional cases contracts are awarded pursuant to formal advertising, Standard Form No. 1036, properly executed in accordance with instructions contained on the form, will be attached to the copy of the agreement which is furnished the General Accounting Office.

§ 803.313 *Form of supplemental agreements and change orders.*

§ 803.313–1 *Supplemental agreements.* (a) Supplemental agreements will be reduced to writing and signed by the contracting parties. Supplemental agreements will bear the same identification as the contract which is thereby modified or amended, and will be lettered or numbered, whichever method is authorized by the chief of the technical service concerned, in the order in which the modifications or amendments to the contract are issued. One continuous series of lettering or numbering as the case may be, will be used for each contract, even though it is modified or amended, both by supplemental agreements and by change orders: *Provided, however,* That a separate series of subnumbers, following the regular contract symbol, may be used to designate termination supplemental agreements, this to be preceded by the words "Termination Supplemental Agreement No. _____", For example, the first termination supplemental agreement of Contract No. W 36–030–qm–417 may be designated "Termination Supplemental Agreement No. W 36–030–qm–417 (1)".

(b) Whenever it is desired to effect a modification of more than one contract, it is permissible, in lieu of executing separate supplemental agreements for each contract, to execute a single supplemental agreement. This may be particularly desirable in effecting reductions in the total contract price of more than one contract or in the unit prices payable for items deliverable under more than one contract, (whether in conjunction with renegotiation under the provisions of the Renegotiation Act, as amended, or otherwise). Such supplemental agreements should be numbered in accordance with paragraph (a) above as a supplemental agreement to each contract modified thereby. This may be done either on the face thereof or on an exhibit thereto. The following illustrates the type of designation that should be given such a supplemental agreement:

Supplemental Agreement No.	*to Contract No.*
3	W 36–030–qm–417
4	W 36–030–qm–418
8	W 36–030–qm–419

The above designations indicate that the single supplemental agreement constitutes the third modification of contract number W 36–030–qm–417, the fourth modification of contract number W 36–030–qm–418 and the eighth modification of contract number W 36–030–qm–419.

(c) In lieu of the procedure outlined in paragraph (b), a company pricing agreement (see ASF Manual M–609) which affects a substantial number of contracts with the Government may be given a number of its own distinct from the numbers of the contracts affected thereby. If this is done, a statement will be made on the face of the company pricing agreement, or in a schedule to the agreement and referred to on the face, to the effect that the agreement modifies the prices under specified contracts, identified by number; the company pricing agreement will not be given a separate supplemental agreement number with respect to each contract affected thereby. Any supplemental agreement to a company pricing agreement, numbered in accordance with the provisions of this paragraph, will similarly indicate the contracts affected thereby.

§ 803.313–2 *Change orders.* (a) Change orders will be in the form of letters addressed to the contractor, and will specify the number of the contract concerned, the changes to be made, the increase or decrease in price and time for performance, and such other terms as may be necessary. Change orders will bear the same identification as the contract which is thereby modified or amended and will be lettered or numbered whichever method is authorized by the chief of the technical service concerned, in the order in which the modifications or amendments to the contract are issued. One continuous series of lettering or numbering as the case may be will be used for each contract, even though it is modified or amended both by supplemental agreements and by change orders.

(b) In order to avoid the work involved in duplicating change orders, the following procedure may, in the discretion of the chief of the technical service, be adopted with respect to any or all contracts:

(1) Change orders will be classified as primary change orders and secondary change orders.

(2) Primary change orders are those which specify an increase or decrease in price or make any other material change in the terms of the contract.

(3) All other change orders (including those in which an increase or decrease in price will be necessitated, but the amount of which is not known at the time of the change order) are secondary change orders.

(4) Primary change orders will be numbered in accordance with paragraph (a) above.

(5) Secondary change orders will be given only such identification as the chief of the technical service shall prescribe.

(6) Secondary change orders will not be included in the continuous series of lettering or numbering referred to in the last sentence of paragraph (a).

(7) If a secondary change order is executed and it subsequently becomes apparent that the change made thereby will result in an increase or decrease in price, a supplemental agreement will be executed to evidence such increase or decrease.

§ 803.314 *Consent of sureties to modifications.*

§ 803.314–1 *Supplemental agreements.* Subject to the provisions of § 803.314–3, if payment or performance bonds have been executed in connection with a con-

tract or if an advance payment bond has been given in connection with an advance payment made under a contract, the consent of the surety should be obtained to any supplemental agreement modifying or amending the contract.

§ 803.314–2 *Change orders.* Likewise, subject to the provisions of § 803.314–3, the consent of such a surety should be obtained to any change order which has the effect of increasing the contract price by more than $25,000. Such consent is not necessary when the change order effects an increase in the contract price of $25,000 or less.

§ 803.314–3 *Exception to requirement of consent of surety.* The provisions of §§ 803.314–1 and 803.314–2 are subject to the qualification that the consent of a surety under a bond executed prior to the execution of a supplemental agreement, or change order is not necessary if (a) an additional bond is furnished in support of the supplemental agreement or change order and (b) such surety is also surety on the additional bond.

§ 803.314–4 *Examination of consents of sureties.* The original of each consent of surety required by §§ 803.314–1 and 803.314–2 together with the original signed number of the supplemental agreement or change order to which it relates will be forwarded through The Judge Advocate General to the General Accounting Office. The Judge Advocate General will examine the consent of surety as to form, execution and legal sufficiency and will then forward it together with the supplemental agreement or change order to the General Accounting Office for filing.

§ 803.314–5 *Form of consent of surety.* For form of consent of surety see § 804.496–8.

SUBPART D—DISTRIBUTION OF CONTRACTS AND ORDERS THEREUNDER

§ 803.315 *General.* The following general instructions are applicable to the distribution of both numbered and unnumbered contracts:

§ 803.315–1 Contracts will not be distributed until properly signed by all parties, and approved, if approval is required.

§ 803.315–2 All instructions relating to distribution of contracts are subject to the provisions of AR 380–5 and all other current instructions governing the safeguarding and disclosing of information affecting the war effort of the United States. Copies of secret or confidential contracts submitted to the General Accounting Office will be transmitted under two covers. In the case of lump sum (fixed price) contracts, each cover is to be addressed to Assistant Chief, Audit Subdivision, General Accounting Office, at the address of the appropriate Army Audit Branch (see § 803.317b). In the case of cost-plus-a-fixed-fee contracts, each cover is to be addressed to Assistant Chief, War Contract Service Section, Audit Division, General Accounting Office, Washington 25, D. C. The inner cover only will be marked "Personal and Confidential".

§ 803.316 *Numbered contracts.*

§ 803.316–1 Subject to such special instructions as may be issued by the chief of the technical service concerned, numbered contracts will be distributed as follows:

(a) The original signed number of each lump sum (fixed price) contract will be forwarded to the Army Audit Branch of the General Accounting Offices (see § 803.317b). The original signed number of each cost-plus-a-fixed-fee contract will be forwarded to the War Contract Service Section, Audit Division, General Accounting Office, Washington 25, D. C. If a surety bond or bonds were required in support of a contract, whether lump sum or cost-plus-a-fixed-fee, see § 804.409–2 (a).

(b) The duplicate signed number will be filed with the contracting officer or as directed by the chief of the technical service concerned.

(c) The triplicate signed number will be forwarded to the contractor.

(d) An authenticated copy will be forwarded to the disbursing officer for his files.

(e) Additional authenticated copies or unauthenticated copies will be distributed as directed by the chief of the technical service concerned.

§ 803.317 *Unnumbered contracts.*

§ 803.317–1 The original signed number will be furnished the disbursing officer and will be attached to the voucher on which payment is made and will accompany such voucher to the Army Audit Branch of the General Accounting Office (see § 803.317b). If a surety bond or bonds were required in support of a contract, whether lump sum or cost-plus-a-fixed-fee, see § 804.409–2 (a).

§ 803.317–2 The duplicate signed number will be forwarded to the contractor.

§ 803.317–3 An authenticated copy will be furnished the disbursing officer for his files.

§ 803.317–4 Additional copies will be prepared and distributed as directed by the chief of the technical service concerned.

§ 803.317–5 *Payments for partial deliveries under unnumbered contracts.* A contract may be entered into under which it was anticipated that delivery would be completed in a single shipment but due to subsequent unforeseen conditions and circumstances the contractor is precluded from completing such delivery and instead makes partial shipments in order to fulfill his obligation as expeditiously as practical. Under such circumstances payments, not to exceed five (5) in number on any given contract, may be made with respect to partial deliveries under unnumbered contracts, provided that the original signed contract is attached to the first payment voucher and cross references thereto noted on successive partial and final payment vouchers. Such cross references will include the following information as to the first payment voucher: the date and the disbursing officer's name and voucher number.

§ 803.317a *Supplemental agreements and change orders.* (a) Signed numbers and copies of supplemental agreements and change orders will be distributed in the same manner as is prescribed for the contracts to which they pertain and the contracting officer will note on his retained copy of the supplemental agreement or change order the date on which the contractor's number was delivered or mailed to him. When, pursuant to § 803.313–1 (b), a single supplemental agreement is executed to modify more than one contract, the following procedure will be followed:

(1) The original signed number will be forwarded to the Army Audit Branch of the General Accounting Office (see § 803.317b). If a surety bond or bonds were required in support of such modification of the contract, see § 804.409–2 (a).

(2) The duplicate signed number will be filed with the contracting officer who supervised the execution thereof or with the chief of the technical service concerned and correct copies of the supplemental agreement will be furnished to the contracting officers under all of the contracts affected by the supplemental agreement.

(3) The triplicate signed number will be forwarded to the contractor.

(4) An authenticated copy will be forwarded to the disbursing officer under each contract affected by the supplemental agreement.

(b) If the alternative procedure of numbering change orders provided for in § 803.313–2 (b) is adopted, only primary change orders will be distributed in accordance with paragraph (a) above. Secondary change orders will be given only such distribution as the chief of the technical service concerned may prescribe.

§ 803.317b *Army Audit Branches of the General Accounting Office.* In order to decentralize its work, the General Accounting Office has established an Army Audit Branch at each Army Regional Accounting Office. Accordingly, contracts, supplemental agreements and change orders, which formerly were required to be forwarded to the General Accounting Office in Washington, D. C., will in the future be forwarded to the appropriate Army Audit Branch.

§ 803.317b–1 (a) The Army Audit Branches are maintained at the various Army Regional Accounting Offices. The Army Audit Branch to which a particular contract, supplemental agreement or change order should be sent is the one located at the Army Regional Accounting Office to which the disbursing officer under the contract is required to submit his accounts (see § 803.317b–2). If a particular contract permits payment by more than one disbursing officer, and the accounts of such disbursing officers are submitted to different Army Regional Accounting Offices, copies of the contract (and of supplements and change orders) should be provided for the Army Audit Branches at each of such Army Regional Accounting Offices. In such cases, the original signed number and sufficient copies for each of the other

Army Audit Branches concerned will be submitted to the Army Audit Branch for the area in which the contracting officer is located. The latter Branch will retain the original and distribute the copies to the other Army Audit Branches.

(b) It is to be emphasized that the contracts are not to be forwarded to the Army Regional Accounting Office but to the Army Audit Branch. Using the Los Angeles area as an example, the following illustrates the proper method of addressing the contracts:

Army Audit Branch of General Accounting Office, 1206 Santee Street, Los Angeles, Calif.

§ 803.317b–2 (a) The following is a list (set forth in Section I, Circular No. 481, W.D., 1944) of the Army Regional Accounting Offices in the United States to which disbursing officers are required to submit their accounts.

Region I. Army Regional Accounting Office, 63 Vesey Street, New York 7, New York.

(a) Disbursing officers stationed in Washington, D. C., except the Disbursing Officer, Finance Office, U. S. Army, Washington 25, D. C., Transportation Division.

(b) Disbursing officers stationed in the Military District of Washington, D. C.

(c) Disbursing officers stationed within the geographical limits of the First, Second, and Third Service Commands, except those assigned to tactical organizations and mobile units.

(d) Disbursing officers stationed in the offices of the military attaches, except as otherwise directed.

(e) Disbursing officers stationed at any Atlantic base command, including Iceland but excluding the Caribbean Defense Command.

(f) Disbursing officers of task forces in the Atlantic area.

Region II. Army Regional Accounting Office, 449 West Peachtree Street, Atlanta 3, Georgia.

(a) Disbursing officers stationed within the geographical limits of the Fourth Service Command, except those assigned to tactical organizations and mobile units.

(b) Disbursing officers serving with the United States Army Forces in Central and South America.

(c) Disbursing officers located in the Caribbean Defense Command.

Region III. Army Regional Accounting Office, 366 West Adams Street, Chicago 6, Illinois.

(a) Disbursing officers who are assigned to tactical organizations and mobile units which operate within the continental limits of the United States.

(b) Disbursing officers who are stationed within the geographical limits of the Fifth, Sixth, and Seventh Service Commands.

(c) Disbursing officers of the Alaskan Department, the Northwest Service Command, and other United States Army Forces in Canada.

(d) Special disbursing agents assigned to United States Army transports whose home port is in the continental United States or in foreign theaters of operation where no theater fiscal office has been established.

(e) The Disbursing Officer, Finance Office, U. S. Army, Washington 25, D. C., Transportation Division.

Region IV. Army Regional Accounting Office, 1206 Santee Street, Los Angeles 54, California.

(a) Disbursing officers stationed within the geographical limits of the Eighth and Ninth Service Commands, except those assigned to tactical organizations and mobile units.

(b) A list of foreign theater fiscal offices which have been established in theaters of operation is also set forth in Section I, Circular No. 481, W.D., 1944.

§ 803.318 *Special cases.*

§ 803.318–1 *Purchases under contracts of Procurement Division, Treasury Department; Navy Department; Post Office Department; etc.* (a) Delivery orders covering such purchases will be distributed in accordance with § 803.317 above. If the delivery order is numbered in accordance with § 803.309 and following, it will, of course, be distributed in accordance with § 803.316–1.

(b) The chief of the technical service concerned will secure compliance with all special instructions of the respective agencies which make the contracts. For example, the regulations of the Procurement Division, Treasury Department require that a copy of all delivery orders placed under General Schedule of Supplies Contracts be forwarded to that Division.

(c) Vouchers submitted to the Army Audit Branch of the General Accounting Office (see § 803.317b) may relate to less than all of the items covered by the delivery order. If the original signed number of the delivery order has not already been so submitted, it will be submitted to said Army Audit Branch with the first voucher; and when vouchers are submitted to said Army Audit Branch covering subsequent payments, a reference will be made to the first voucher. The reference should contain the date on which the invoice covered by the first voucher was paid and the name of the disbursing officer by whom such payment was made.

SUBPART E—CONTRACT PROCEDURE WITHIN THE SERVICE COMMANDS

§ 803.318a *Organization of service commands.*

§ 803.318a–1 *Functions of the service commands.* The Commanding Generals of the service commands are the direct subordinates of the Commanding General, Army Service Forces, and are his field representatives for the performance of the administrative, housing, hospitalization, and supply functions assigned to them. (See sec. 403.01 of the Army Service Forces Manual M 301.)

§ 803.318a–2 *Relationship between the service commands and the technical services.* The former offices of the special staff (including the quartermaster, engineer, ordnance officer, and signal officer) are under the complete jurisdiction of the Commanding General of each service command, and are an integral part of his headquarters; such offices are not to be considered field offices or agencies of the technical services. The technical services act as staff agencies of the Commanding General, Army Service Forces, for the functions assigned to them in directing and supervising those functions in the service commands. Accordingly, they may issue instructions to the Commanding Generals of the service commands in their own names or under the authority of the Commanding General, Army Service Forces, but they may not exercise direct command of the subordinates in the headquarters of a Commanding General of a service command (including the quartermaster, engineer, ordnance officer, and signal officer). (See sec. 403.02 of the Army Service Forces Manual M 301.)

§ 803.318b *Contract procedure.*

§ 803.318b–1 *Appointment of contracting officers.* Commanding Generals of service commands are authorized to appoint contracting officers. Contracting officers so appointed may execute service command contracts as that term is defined in § 803.318b–2 below, as well as technical service contracts executed on behalf of a technical service as set forth in § 803.318b–3 (a) (6) to (8) below.

§ 803.318b–2 *Reasons for separate system of numbering and distribution of service command contracts.* As indicated in § 803.318a–2, as a result of the service command reorganization, much of the contracting done at Class I, II, IV and special installations located within service commands is done under the complete jurisdiction of the commanding generals of the service commands. Except as provided in § 803.318c–2 and except as staff officers of the Commanding General, Army Service Forces, the chiefs of technical services have no function to perform in connection with this contracting. Some of the contracting done at Class I, II, IV and special installations is still, however, under the jurisdiction of the chiefs of the technical services. In order clearly to differentiate contracts which are executed at such installations under the jurisdiction of the commanding generals of the service commands from those executed under the jurisdiction of the chiefs of the technical services, it is important that contracts of the former type be numbered and distributed in a manner different from technical service contracts. In the succeeding sections a separate system of numbering and distribution is provided for contracts executed under the jurisdiction of the commanding generals of the service commands. These contracts will be referred to as service command contracts.

§ 803.318b–3 *Guides to determine when a contract is a service command contract.* (a) It is difficult to lay down any general rule as a guide to determining when a contract is to be numbered and distributed as a service command contract. The following general guides may be used for making the determination with respect to contracts (other than contracts executed by Army Air Forces contracting officers, as to which, see § 803.309–2a:

(1) All contracts which are executed within a service command and which are to be paid for with funds made available to the commanding generals of the service commands by the Commanding General, Army Service Forces, are to be regarded as service command contracts and not contracts of any technical service.

(2) Contracts which are executed under the supervision of the commanding generals of the service commands and which are to be financed under an open allotment (see Chapter 5, section I, of the War Department Fiscal Code, TM 14–700), are to be regarded as service command contracts.

(3) Training contracts are to be regarded as service command contracts.

(4) Contracts for the disposition of property, by sale or otherwise, are to be designated as service command contracts unless, as in the case of contracts for the disposition of real estate, the contract is of a type over which the chief of one of the technical services exercises direct supervision. In connection with contracts for the disposition of property, see § 821.113.

(5) In addition to contracts coming within the categories enumerated in subparagraphs (1) to (4) above, all other contracts which, pursuant to the provisions of the Army Service Forces Manual or the provisions of any other regulations, are executed under the complete jurisdiction of the commanding generals of the service commands are to be regarded as service command contracts.

(6) Any type of contract which is to be financed with technical service funds is to be regarded as a technical service contract. Subparagraphs (7) and (8) below are two specific illustrations of the general rule contained in this subparagraph.

(7) When a contracting officer within a service command is requested to execute a contract on behalf of a technical service, and it is understood that such contract is to be paid for out of technical service funds, such contract is to be regarded as a technical service contract.

(8) When a given item is not available at a technical service depot, a representative of a service command may be given sufficient funds by a technical service to enable the service command to purchase the item in question. A contract executed in making such a purchase is to be regarded as a technical service contract.

(9) Prisoner of war labor contracts are not to be regarded as service command contracts. They are to be numbered as contracts of the Office of the Provost Marshal General. Thus the first contract executed at the Prisoner of War Camp, Pine Camp, N. Y., would be numbered:

W-30-178 pmg-1

(10) Contracts for furnishing local transportation to Government and other personnel, executed in accordance with Circular No. 397, War Department, 1944 and Memorandum No. W55-15-43, issued by the Office of the Adjutant General, will be numbered as Transportation Corps contracts.

(b) In case of doubt as to whether a particular contract should be numbered and distributed as a service command contract an inquiry should be addressed to the Commanding General, Army Service Forces, Attention: Legal Branch, Director of Matériel. If time does not permit making such inquiry, the contract should be numbered as in the past, and an inquiry should be addressed to the Commanding General, Army Service Forces, Attention: Legal Branch, Director of Matériel, for advice as to how that type of contract should be numbered in the future.

(c) As indicated in § 803.318b-1 the authority of a contracting officer of a service command includes authority to execute technical service contracts of the type referred to in paragraph (a) (6) to (8) of this section.

§ 803.318b-4 *Distribution of service command contracts.* The provisions of Subpart D of this part are applicable to service command contracts. In connection with service command contracts the term "chief of the technical service" is to be read as "commanding general of the service command." Except as required by § 803.318c-2, service command contracts (as that term is defined in § 303.318b-3) should not be forwarded to the headquarters of the various technical services for legal review. If the chief of a technical service requests that copies of a particular type of service command contract be forwarded to his office in order to complete his technical records, such copies may be forwarded pursuant to § 803.316-1 (e).

§ 803.318b-5 *Numbering of service command contracts.* (a) Contract numbers will be placed in the upper right-hand corner of service command contracts and will consist of the following in the order named:

(1) The capital letter "W", representing the War Department, followed by a hyphen.

(2) The station number, that is, the station or office as published in the War Department Fiscal Code. There may be added to the station number a capital letter or other designation to indicate the branch by which the contract was executed. The following symbols will be used to designate the respective branches set opposite each symbol:

Q—Quartermaster.
S—Signal.
T—Transportation.
O—Ordnance.
E—Engineer.
M—Medical.
C—Chemical.
U—Repairs & Utilities Branch.
Tng—Training Branch.
AST—Army Specialized Training Branch.

No symbol other than those enumerated in the preceding sentences will be used unless approval for such use is obtained from the Legal Branch, Office of Director of Matériel, Headquarters, Army Service Forces. Any request for such approval should specify the reason why additional symbols are required. The Legal Branch will advise the Contract Service Section, Audit Division, General Accounting Office, Washington, D. C., of any approvals granted for the use of such additional symbols. It is to be emphasized that the use of the additional symbols authorized by this subparagraph is for the convenience of the post, camp or station and, accordingly, is optional. The use of these branch symbols may be dispensed with or, if desired, a single branch symbol (and one series of contracts) may be used for more than one, but less than all, branches at a given post, camp or station.

(3) A symbol in parentheses to indicate the service command. In the case of the nine service commands, this symbol will consist of the capital letters S. C. in parentheses followed by a hyphen and a roman numeral indicating in which service command the contract was executed. It is important that capital letters followed by periods and by the roman numeral be used in order that no confusion will arise with Signal Corps contracts which bear the symbol "sc". In the case of the Northwest Service Command and the Military District of Washington, this symbol will respectively consist of the capital letters S.C.N.W. and M.D.W., the symbol to be in parentheses.

(4) A serial number separated from the above by a hyphen, commencing with the number "1" and continuing in succession indefinitely without regard to the fiscal year.

(b) It is to be emphasized that the numbering procedure set forth in this section is applicable only to service command contracts (as the term is defined in § 803.318b-3). When technical service contracts are executed within a service command (see § 803.318b-3, particularly paragraph (a) (6) to (8), such contracts should be numbered as technical service contracts in accordance with the provisions of § 803.309-2.

(c) Serial numbers: It is desirable that separate series be commenced for service command contracts (as defined in § 803.318b-3). This should be done as promptly as possible. By adding the branch symbols authorized by paragraph (a) (2) above, separate series may be maintained for each branch of a post, camp or station.

(d) Effect of War Department Fiscal Code. See § 803.309-4.

(e) *Contract of sale.* Reference is made to § 821.113. As indicated therein when a contract of sale, as distinguished from a contract of purchase, is executed, the letter "s" will be added after the parenthesis of the symbol specified in paragraph (a) (3) of this section. The letter "s" will be so added not only in the case of contracts for the sale of property but also in the case of contracts for the sale of services.

§ 803.318b-6 *Example.* Based upon § 803.318b-5, the following is the number of the first numbered contract executed at the Quartermaster Branch at Fort Bragg, North Carolina: W-31-001Q (S.C. IV)-1. The foregoing is on the assumption that the contract is to be paid with funds allotted to the Fourth Service Command by the Commanding General, Army Service Forces.

§ 803.318b-7 *Identification of subcontracts under service command contracts.* See § 803.309a.

§ 803.318c *Service command utility contracts.*

§ 803.318c-1 Utility contracts, for the purpose hereof, whether including connection charges or not, are defined as those for the procurement of electricity, gas, water, sewage disposal, steam, railroad track maintenance and switching service, inspection and maintenance of fire alarm systems, boiler inspection and maintenance of elevators.

§ 803.318c-2 All utility contracts and changes or supplemental agreements thereto entered into by service commands which require approval of higher authority pursuant to §§ 803.306-1 through 803.306-4 will be referred by

the commanding general of the service command direct to the Office of the Chief of Engineers, Attention: Repairs and Utilities Branch, New War Department Building, Washington 25, D. C. Such contracts will be reviewed by the Office of the Chief of Engineers for engineering and rate features, matters of policy and legal sufficiency and approved or returned for revision. Prior to reference to the Chief of Engineers such contracts will be referred to the Repairs and Utilities Divisions of the service command for review of engineering and rate features. The action taken and comments made by Repairs and Utilities Divisions will be made a part of the file forwarded to the Chief of Engineers for review.

Any such utility contract or modification thereof requiring approval pursuant to §§ 803.306–1 through 803.306–4 will contain a provision that it is subject to the approval of the Chief of Engineers and will not be binding until so approved. Prior to such approval any required approval by the Purchases Division, Headquarters, Army Service Forces, will be obtained by the Chief of Engineers. Provisions of this paragraph shall not be construed to interfere with or supersede the provisions of §§ 803.394 to 803.394–5, inclusive, and in accordance with § 803.394–5 any utility contract which is of the character described in § 803.394–2 will also contain a provision that it is subject to approval by the War Department Power Procurement Officer or the Deputy War Department Power Procurement Officer and will not be binding until so approved.

§803.318c–3 See §§ 803.397–1 and 803.397–3 with respect to Army Air Forces and Engineer utility contracts, respectively.

§ 803.318c–4 *Service command utility contract procedure.* The procedure set forth in § 803.318c–2 does not affect the execution, numbering and distribution of service command utility contracts as provided for in §§ 803.318b through 803.318b–6.

SUBPART F—CONTRACT APPEALS

§ 803.318d *War Department Board.*

§ 803.318d–1 *General.* By memorandum of the Secretary of war, dated August 8, 1942, there was constituted in the Office of the Under Secretary of War a board to be known as "War Department Board of Contract Appeals". The board is hereinafter referred to as "the Board". The Board consists of three members, one of whom is designated as President of the Board. There is also a recorder. The President of the Board and the recorder are required to be persons trained in the law. The Under Secretary of War recommends appointees for membership on the Board and for the position of recorder, and nominates the President of the Board. Appointments are made by the Secretary of War. If the Under Secretary of War at any time determines that additional members of the Board are necessary in order to process appeals with reasonable despatch, he may from time to time recommend for appointment such additional members of the Board as he deems necessary, and may make recommendations for the filling of any vacancies on the Board and in the office of the recorder. Upon request of the Under Secretary of War, The Judge Advocate General is authorized to assign to the Board one or more judge advocates as trial attorneys or examiners; and if and when deemed necessary by the Under Secretary of War and upon his request, The Judge Advocate General may also assign a judge advocate as general counsel.

§ 803.318d–2 *Types of contracts, appeals from which may be taken.* In general, contracts contain two types of "disputes" clauses under which appeals may be taken. Some specifically authorize the Secretary of War to appoint as his authorized representative either individuals or "a board". (See §§ 803.326 and 803.326–1). Others do not specifically authorize the appointment of "a board". Contracts containing clauses specifically authorizing the designation of "a board" are referred to in the succeeding paragraphs as "contracts containing the standard clause". Contracts containing clauses not speciafically authorizing the designation of "a board" are hereinafter referred to as "contracts" containing the nonstandard clause".

§ 803.318d–3 *Appeals under contracts containing standard clause.* In the case of contracts containing the standard clause, appeals from decisions of contracting officers or other authorities (including the chiefs of the technical services) will be heard, considered and decided by the Board acting as the duly authorized representative of the Secretary of War, as fully and finally as the Secretary of War might do.

§ 203.318d–4 *Appeals under contracts containing the nonstandard clause.* In the case of contracts containing the nonstandard clause, appeals from decisions of contracting officers or other authorities (including the chiefs of the technical services) will be heard and considered by the Board which will report its views on such appeals to the President of the Board. The President, as the authorized representative of the Secretary of War, will then make the decision, as fully and finally as the Secretary of War might do, unless he shall not be in accord with the decision of the Board, in which case he will promptly submit the case for final determination upon the record to the Under Secretary of War. The latter will then make the decision as the duly authorized representative of the Secretary of War for that purpose.

§ 203.318d–5 *Functioning of Board.* The President of the Board from time to time may divide the Board into divisions of one or more members and assign members to such divisions. A majority of the members of the Board or of a division thereof shall constitute a quorum for the transaction of the business of the Board or of a division respectively, and the decision of a majority of the members of the Board or of a division shall be deemed to be the decision of the Board or of the division as the case may be. If a majority of the members of the division is unable to agree on a decision, or if within thirty days after a decision by a division the Board or the President thereof directs that the decision of the division be reviewed by the Board, the decision will be so reviewed; otherwise the decision of a majority of the members of the division shall become the decision of the Board. If a majority of the members of the Board is unable to agree upon a decision, the President of the Board will promptly submit the appeal to the Under Secretary of War for his decision upon the record. The Under Secretary of War is designated as the authorized representative of the Secretary of War for that purpose. A vacancy in the Board or in any division thereof shall not impair the powers nor affect the duties of the Board or division nor of the remaining members of the Board or division, respectively. The authority and procedure specified in this paragraph shall apply whether the Board be acting as the duly authorized representative of the Secretary of War under § 803.318d–3 or in an advisory capacity under § 803.318d–4.

§ 803.318d–6 *Taking testimony.* Any member of the Board or any examiner designated by the President of the Board for that purpose may hold hearings, examine witnesses, receive evidence, and report the evidence to the Board or, if the case is pending before a division, to the appropriate division.

§ 803.318d–7 *Powers of Board.* The Board has all powers necessary and incident to the proper performance of its duties and has the power with the approval of the Under Secretary of War to adopt its own methods of procedure and rules and regulations for its conduct and for the preparation and presentation of appeals. These rules and regulations are set forth in §§ 803.318e–1 to 803.318e–12.

Memorandum of the Secretary of War, dated July 4, 1944, provided that in the consideration and disposition of appeals to the Secretary of War, the Board and the President of the Board, as representatives of the Secretary of War for the disposition of appeals, shall:

(a) Exercise such delegable authority and discretion as the Secretary of War himself might exercise either through contractual power or otherwise in the consideration and disposition of appeals, to ratify or approve the acts of subordinates and to waive any contract requirement which the Secretary of War himself legally might waive, whenever in the discretion of the Board or the President of the Board, as the case may be, such action is deemed necessary or desirable to arrive at a just and equitable adjustment or disposition of the dispute involved in the appeal.

(b) Consider and administratively pass on appeals not specifically or impliedly authorized by the contract where the ruling appealed from is not thereby made final and conclusive, and the appeal is taken within the time fixed in the contract for appeals.

(c) Find and administratively determine the facts out of which a claim by a contractor arises for damages against the Government for breach of contract, without expressing opinion on the question of the Government's liability for damages.

§ 803.318d–8 *Place for holding hearings.* The office of the Board is in the office of the Under Secretary of War but hearings also may be held in such other places as the Board determines to be expedient or necessary for the proper performance of its duties.

§ 803.318d–9 *Procedure.* The Board fixes the times when and places where hearings will be held, and serves notice thereof. The parties or their representatives are entitled to be heard and introduce evidence; *Provided,* That if a transcript of the evidence taken at a hearing in the office of the chief of a technical service accompanies the record, the Board may limit the testimony before it to matters not disclosed by the transcript.

§ 803.318d–10 *Correspondence.* All correspondence pertaining to appeals to the Secretary of War is to be referred to and conducted by the Board.

§ 803.318e *Rules and regulations of Board.* The rules and regulations promulgated by the Board, and approved by the Under Secretary of War under date of September 25, 1942, are set forth in §§ 803.318e–1 to 803.318e–12. A form of notice of appeal is set forth in § 803.318e–13. As said rules and regulations or such form are amended by the Board from time to time, these paragraphs will be amended to conform.

§ 803.318e–1 *Rule I: General matters.*

1. *Correspondence.* All correspondence with the Board shall be addressed "War Department Board of Contract Appeals, Office of the Under Secretary of War, Washington, D. C."

a. Channels of communication. The president, any member of the Board, and the recorder thereof are authorized to correspond directly, without regard to the usual channels of communication, with any officer or other person within or without the Army, the War Department, the Ground Forces, the Army Service Forces, or the Army Air Forces, relative to any information desired by the Board, or in connection with any matters pertaining to the business of the Board. Any information obtained from such correspondence shall not be used as evidence at the hearing on any appeal without first having been submitted to the parties to the appeal.

b. Letters. Letters advising the appellant or other party to an appeal of the final decision of the Board on any appeal and any further correspondence regarding the appeal, including letters to the Comptroller General, may be signed by the president or recorder of the Board.

c. Transmission of papers. The president of the Board or the recorder thereof, by direction of the Board, is authorized to transmit directly to the chief of any technical service concerned, for appropriate action, any papers, documents, or other data pertaining to any appeal that may come to the Board, which the chief of such service is authorized under the terms of the contract finally to determine or to determine subject to appeal to the Secretary of War.

d. Routing of correspondence. All papers pertaining to appeals to the Secretary of War under War Department contracts, received in the War Department or any agency thereof, or any technical service, shall be transmitted directly to the War Department Board of Contract Appeals, except as provided in Rule II (§ 803.318e–2).

2. *Form, size and number of papers filed.* Appeals, notices, motions, applications, stipulations, briefs, depositions, and other papers, if typewritten, filed with the Board shall be typewritten on one side of the paper only, with margin 1½ inches on the left of the page, and, as far as practicable, shall be upon paper 8½ x 11 inches in size. The papers shall be fastened on the left side without covers or back. Six copies of each of such papers, whether typewritten or not, except stipulations and depositions, shall be filed.

3. *Number to be assigned to proceedings.* The recorder shall assign a number to each appeal coming before the Board, which number will be placed on all papers in the case.

4. *Amendments.* The Board may, in its discretion, allow any paper to be amended or corrected or any omission therein to be supplied.

5. *Service of papers.* Service of papers in all hearings, investigations, and proceedings pending before the Board may be made personally, or by mailing the same in a sealed envelope, registered, return receipt requested, with postage prepaid, addressed to the party upon whom service shall be made, and the date of the registry receipt shall be the date of service. Waiver of the service of any paper may be noted thereon or on a copy thereof, or on a separate paper, signed by the parties or their attorneys and filed with the Board. When any party has appeared by attorney, service upon the attorney will be deemed proper service upon such party.

6. *Substitution of parties.* In the event of the death of an appellant, or for other cause, including a change in the name of a corporation or other party or the succession of one party to the functions or interests of another, or in the event of a mistake in the name or title of a proper party, the Board may order substitution of the proper name or title.

7. *Motions for substitution.* All motions for substitution shall be accompanied by pertinent documentary evidence, unless the parties by stipulation filed with the Board agree to the substitution.

8. *Army Air Forces.* The term "technical services" as used in these rules, includes the Army Air Forces; and the term "chiefs of the technical services" includes the Commanding General, Army Air Forces.

§ 803.318e–2 *Rule II: Proceedings preliminary to hearings.*

1. *Appeals, how taken.* *a.* An appeal from the decision of a contracting officer and an appeal from the decision of the chief of a technical service must be in writing, filed with the officer from whose decision the appeal is taken, within the time allowed by the contract, unless for good cause shown, the board shall determine to consider the appeal on its merits, notwithstanding it was not filed within the time allowed by the contract.

b. Form of appeals. Each appeal shall state the particular provisions of the contract out of which the dispute arises; the exact nature of the dispute and the ruling of the contracting officer or other authority from which the appeal is taken, together with a statement of specific facts claimed by the appellant to sustain his position. If the appeal is insufficient in these respects it may be returned for appropriate amendment. The appeal should follow, substantially, the form annexed to these rules and must be signed and sworn to by the appellant. Six copies of the appeal should be filed.

2. *Time of filing to be endorsed.* When the appeal has been received by the contracting officer or the chief of a technical service, as the case may be, he will endorse thereon the date of filing and forward the appeal, as hereinafter provided.

3. *Findings of fact and decisions.* *a.* In rendering a decision on any dispute involving a question of fact, the contracting officer or the chief of a technical service, as the case may be, shall prepare and sign findings of fact, a true copy of which with his written decision, shall be promptly furnished the contractor; and in case of appeal, the officer from whose decision the appeal is taken shall forward a true copy of such findings and of the decision, as hereinafter provided.

b. Forwarding by contracting officer. When an appeal is taken from the decision of a contracting officer he shall promptly forward to the chief of service concerned, a true copy of his findings of fact and of his decision; the original written appeal and the required copies thereof; a transcript of any evidence taken by him; and all pertinent papers in the case.

c. Forwarding by chiefs of Technical Services of appeals from decisions of Contracting Officer. (1) If the appeal from the contracting officer's decision is to the Secretary of War, the chief of the technical service receiving the appeal will exercise the utmost care to see that the record is complete as required by these rules and regulations; will add to the file, if not already in it, an original duplicate or true copy of the contract, including the plans and specifications and all changes and supplemental agreements; and shall promptly forward the complete file to the War Department Board of Contract Appeals.

(2) If for any reason the complete file cannot be so forwarded within five days from the date the appeal is received, the chief of the technical service will report to the War Department Board of Contract Appeals the date on which the appeal was received in his office and the reason for the delay in forwarding the file.

(3) It will be unnecessary, hereafter, for the chiefs of the technical services to furnish the reports required by paragraph 7, of P & C General Directive No. 72, of November 7, 1941.

4. *Forwarding appeals from chiefs of services.* The chief of a technical service, within five days after the receipt of a written appeal from his decision, will forward the original written appeal and the required copies thereof to the War Department Board of Contract Appeals, together with the following papers: a copy of his findings of fact and decision; the advisory report, if there be one, of the contract settlement board in his office; a transcript of any testimony taken during the course of the proceedings; a duplicate original or a certified copy of the contract, including the plans and specifications and all changes and supplemental agreements; the findings of fact and decision of the contracting officer; and all papers and correspondence pertaining to the contract, pertinent to the consideration of the appeal.

5. *Appeals improperly filed.* If any officer or agency of the War Department should receive a written appeal which has not been filed as provided in paragraph 1, of this rule, the recipient shall, after endorsing thereon the date of its receipt, immediately transmit the appeal to the chief of the technical service concerned:

a. For appropriate action as provided in paragraph 4, of this rule, if the appeal is from the decision of such chief; or

b. If the appeal is from the decision of a contracting officer, then for transmission to the contracting officer for action as required by paragraphs 3 *a.* and 3 *b.* of this rule.

6. *Calls for papers, documents and information.* After an appeal has been filed, the Board, or any member thereof, or any person designated by the Board for that purpose, may call for the production of any papers, documents, or specific information in the possession of any of the parties, relevant to the dispute out of which the appeal arises.

§ 803.318e–3 *Rule III: Hearings.*

1. *Where held.* Hearings shall be held at the office of the Board unless otherwise directed by the Board.

2. *Notice of hearings.* *a.* The appellant and the representative of the Government

shall be given at least 10 days notice of the time and place of hearing.

b. Continuances will not be granted except upon written motion and for good cause shown.

3. *Request for hearing at place other than office of the Board.* If the appellant shall desire that a hearing be held at a place other than the office of the Board, he shall at the time of taking his appeal, or within a reasonable time thereafter, but before service of notice of hearing, make a request therefor, showing the name of the place where he would prefer the hearing to be held, and stating fully the reason for such request. The representative of the Government may, within 10 days after an appeal has been filed in the office of the Board, file with the Board a request for hearing at a place other than the office of the Board and shall in such request state fully the reasons therefor. If neither the appellant nor the representative of the Government request a hearing at a place other than at the office of the Board, the Board may, nevertheless, on its own motion hold a hearing at another place.

4. *Stipulating facts.* The appellant and the representative of the Government may, by stipulation in writing filed with the Board, agree upon the facts or any portion thereof involved in the appeal, which stipulation shall be regarded and used as evidence at the hearing. However, the Board may, in such case, require additional evidence.

5. *Limiting testimony.* Where there is a transcript of testimony taken in the office of the chief of any technical service, the Board may, in its discretion, limit the testimony before it to testimony relative to matters not disclosed by the transcript. In all cases the Board may limit the amount of testimony, where merely cumulative.

6. *Submission on the record to the Under Secretary of War.* Where a majority of the members of the Board are unable to agree upon a decision, and the matter is submitted on the record to the Under Secretary of War for final determination, ordinarily, no further testimony will be introduced. However, the Under Secretary of War may, in his discretion, direct that additional testimony be taken before the Board, a division thereof, or before such person as he may designate, or he may direct a re-hearing before the Board, or reconsideration by the Board.

7. *Absence of parties or counsel.* The unexcused absence of a party or his counsel at the time and place set for the hearing of any proceeding will not be the occasion for delay, but the hearing will proceed and the case will be regarded as submitted on the part of the absent party or parties.

8. *Limitation of argument.* Oral argument before the Board or any division thereof may be limited by the Board or by the division, respectively.

9. *Briefs.* The parties may file briefs in lieu of personal appearances or in connection therewith. All briefs will be filed within 20 days after conclusion of the hearing unless otherwise directed by the Board or by the division before which the appeal is pending.

10. *Oral examination of witnesses.* Witnesses before the Board or any division thereof or before any member or examiner will be examined orally under oath, unless the facts are stipulated or the Board or division thereof shall otherwise order.

§ 803.318e–4 *Rule IV: Evidence.*

1. *Copies of papers.* When books, records, papers, or documents have been received in evidence, a true copy thereof or of such part thereof as may be material or relevant may, in the discretion of the Board or of the division holding the hearings, be substituted therefor.

2. *Withdrawal of exhibits.* After a decision has become final, the Board may, upon motion, permit the withdrawal of original exhibits, or any part thereof, by the party entitled thereto, or may, on its own motion make such other disposition thereof as it deems advisable.

3. *Administration of oaths.* Any judge advocate or acting judge advocate, the president, any member or the recorder of the Board, or any officer detailed to conduct an investigation, or hold a hearing, may administer oaths to witnesses.

4. *Ex parte affidavits not evidence.* Statements in the petition, ex parte affidavits, and briefs do not constitute evidence.

§ 803.318e–5 *Rule V: Depositions.*

1. *Before whom taken.* *a.* Depositions to be read in evidence before the Board or any division thereof may be taken before and authenticated, by any officer, military or civil, authorized by the laws of the United States or by the laws of place where the deposition is taken, to administer oaths.

b. Form and return of deposition to Board. Each deposition shall show the docket number and the caption of the proceeding, the place and date of taking, the name of the witness, and the party by whom called. The officer taking a deposition shall enclose the original deposition and exhibits, in a sealed packet, with postage or other transportation prepaid, and direct and forward the same to the War Department Board of Contract Appeals, Office of the Under Secretary of War, Washington, D. C.

2. *Notice to take, or stipulation for taking.* When either party desires to take a deposition, unless the parties shall stipulate as to the time when and place where the deposition is to be taken and the name of the officer before whom it is to be taken and the name and address of the witness, such party shall give to the opposite party at least 10 days notice of the time when and the place where such deposition will be taken and the name and address and official title of the officer before whom it is proposed to take the deposition, as well as the name of the witness. A deposition may be taken either upon written interrogatories or upon oral examination, as may be specified in the notice. If the deposition is to be taken upon written interrogatories, copies thereof shall accompany the notice to take depositions. If the opposite party desires to submit cross interrogatories, same must be served upon the party giving the notice within 5 days from the receipt of the notice to take the deposition, or within such further time as may be allowed by the Board. In order to avoid the taking of depositions or to avoid a continuance for the purpose of taking the testimony of any witness, the parties may stipulate what the testimony of the witness would be if present, and such stipulation shall be received in evidence by the Board.

3. *Reason for taking.* A duly authenticated deposition may be read in evidence before the Board, if such deposition be taken when the witness resides, is found, or is about to go beyond the State, Territory, or District in which the Board or a division thereof is to hold a hearing, or beyond the distance of 100 miles from the place of hearing, or when it appears to the satisfaction of the Board or a division thereof, that the witness by reason of age, sickness, bodily infirmity, imprisonment, or other reasonable cause is unable to appear and testify in person at the place of hearing.

4. *Deposition not considered until offered.* *a.* Testimony taken by deposition will not be considered until offered and received in evidence.

b. Introduction of deposition by opposite party. A deposition taken by one party may be introduced by the opposite party, but the whole deposition must be offered unless otherwise stipulated by the parties, or directed by the Board or by the division hearing the appeal.

§ 803.318e–6 *Rule VI: Decisions and findings.*

1. *Copies to be served on parties.* Decisions and findings of the Board, including decisions of any division thereof which have become decisions of the Board, including findings on questions of fact, shall be certified under the seal of the Board and served upon the parties or their attorneys in the manner herein provided for the service of papers.

2. *Divisional opinions.* A copy of each opinion of a division shall be promptly furnished by the division to each member of the Board, and if a majority of the members of the Board, including the president, shall at any time within 30 days after the date of the decision by the division file with the recorder a statement in writing to the effect that they do not desire a review of the decision by the Board, the recorder will make an entry in the records of the Board to that effect as of the date on which a majority of the members of the Board shall have filed such statements. Thereupon the decision of the division shall become the decision of the Board, and the recorder will promptly furnish copies of the decision to the parties concerned.

§ 803.318e–7 *Rule VII: Representation.*

a. Qualifications of attorneys. Any appellant may be represented before the Board by an attorney at law who has been admitted to practice and who is in good standing, before the Supreme Court of the United States, or before the highest court of any State, Territory, possession or the District of Columbia. The Board may, in its discretion, require any person appearing as an attorney at law, to present to the Board evidence that he or she possesses the above qualifications. The statement of the attorney may be accepted as satisfying the requirement of this rule.

b. Representation in lieu of counsel. Any individual appellant may appear for himself. Any partnership appellant may be represented by one or more partners. Any corporate appellant may be represented by a *bonafide* officer of the corporation.

§ 803.318e–8 *Rule VIII: Transcript of proceedings.*

1. *Record of hearings.* A full and complete record shall be kept of all hearings before the Board or any division thereof.

2. *Testimony to be taken stenographically.* The testimony shall be stenographically reported, and transcripts thereof shall be made, if in the opinion of the Board or of the division holding the hearing, a permanent record of the testimony is deemed necessary. Transcripts shall be supplied to the parties and to the public by the official reporter at such rates as may be fixed by contract between the Board and the reporter.

§ 803.318e–9 *Rule IX: Rehearings.*

a. Applications for rehearings, etc. Either party may apply to the Board for a rehearing, or reconsideration as to any matter determined by the Board, and to a division of the Board as to any matter determined by that division. Rehearing, further hearing or reconsideration of a decision, may be had, if in the judgment of the Board or of the members of the division in which the decision was rendered, as the case may be, sufficient reason therefor be made to appear.

b. Motions for. All motions for rehearing, or reconsideration shall set forth specifically the ground or grounds relied upon to sustain the motion, and must be filed within 10 days from the date of the service of a copy of the decision of the Board or of a division, respectively, upon the party filing the motion. All such motions will be determined upon the record and briefs submitted and without oral argument or additional evidence.

§ 803.318e–10 *Rule X: Computation of time.*

Sundays and legal holidays to be counted. Whenever these rules or any order of the Board prescribe a time within which any act may be performed, Sundays and legal holidays in the District of Columbia shall count the same as other days, except that when the time prescribed for the performance of an act expires on a Sunday or a legal holiday in the District of Columbia, such time shall extend to and include the next succeeding day that is not a Sunday or such a legal holiday: *Provided,* That when the time for performing any act is prescribed by statute, nothing in these rules shall be deemed to be a limitation or extension of the statutory time period.

§ 803.318e–11 *Rule XI: Coordination with Price Adjustment Board.*

1. *Notice to Price Adjustment Board.* Upon the filing of an appeal with the Board, the recorder thereof will promptly advise the War Department Price Adjustment Board of the pendency of the appeal, giving the name of the contractor, the contract number, the name of the contracting officer or other authority from whose decision the appeal has been taken, together with a copy of the appeal or a brief statement of the issues involved.

2. *Information regarding renegotiation.* Prior to any hearing, the Board will ascertain from the War Department Price Adjustment Board, whether any renegotiation agreement has been accomplished relating to the contract under which the appeal is pending or whether renegotiation proceedings relative to the contract are pending. If a renegotiation agreement has been entered into such agreement will be taken into consideration by the War Department Board of Contract Appeals in reaching its decision. If renegotiation proceedings are pending the Board may, in its discretion, suspend further proceedings on the appeal until the renegotiation proceedings have been concluded. A copy of each decision rendered by the Board will be furnished the War Department Price Adjustment Board.

§ 803.318e–12 *Rule XII: Effective date.*

These rules shall become effective from the date of their approval by the Under Secretary of War, and from time to time may be amended by the Board with such approval.

§ 803.318e–13 *Form of notice of appeal.*

Appeal of _____
(Contractor)
Under Contract No. _____ B. C. A. No. _____

To the SECRETARY OF WAR:

The undersigned contractor under the contract referred to above, hereby appeals to the Secretary of War from the decision of the

(here insert the name and title of the contracting officer, or the name and title of the chief of the technical service, as the case may be)

rendered on the _____ day of _____, 19____, wherein it was ruled:

(here insert the specific ruling from which the appeal is taken)

That said ruling was erroneous and that the undersigned contractor is aggrieved thereby, for the following reasons:

_____

That the dispute arises out of the following provisions of the contract:

(here insert pertinent contract provisions)

That the facts which sustain appellant's position are as follows:

(here state specific facts upon which the claimant relies to sustain the appeal)

That the dispute out of which the appeal arises has not been disposed of by mutual agreement, although appellant has made an effort to that end.

This appeal is made pursuant to Article ____ of the contract.

That the postoffice address of appellant is as follows:

_____

Dated at _____ this _____ day of _____ 19____

_____
(Contractor, appellant)

By _____
(Title of officer if a corporation, or the word "partner", if a partner signs for a partnership)

Form of verification where petitioner is an individual:

STATE OF _____
County of _____, *ss:*

_____, being first duly sworn upon his oath deposes and says that he is the appellant referred to above; that he has read the foregoing and knows the contents thereof, and that the facts therein stated are true of his own knowledge except as to matters which are therein stated on information or belief; and that as to those matters he believes the statements to be true.

_____

Subscribed and sworn to before me this _____ day of _____, 19____.

_____
Notary Public in and for the county of _____, state of _____

Form of verification where appellant is a corporation:

STATE OF _____
County of _____, *ss:*

_____, being first duly sworn upon his oath deposes and says, that he is the _____ of the above-named corporation, appellant; that he is authorized to make this oath for and on its behalf; that he has read the foregoing instrument, knows the contents thereof, and that the facts stated therein are true of his own knowledge, except as to matters which are therein stated on information or belief, and that as to those matters he believes the statements to be true.

_____

Subscribed and sworn to before me this _____ day of _____, 19____

_____
Notary Public in and for the county of _____, state of _____

Form of verification where the petitioner is a partnership:

STATE OF _____
County of _____, *ss:*

_____, being first duly sworn upon his oath deposes and says that he is a member of the above-named partnership, appellant; that he has read the foregoing instrument, knows the contents thereof, and that the facts therein stated are true of his own knowledge, except as to matters which are therein stated on information or belief, and that as to such matters, he believes the statements to be true.

_____

Subscribed and sworn to before me this _____ day of _____, 19____

_____
Notary Public in and for the county of _____, state of _____

If the appellant is represented by an attorney give his name and address.

§ 803.318f *Appeals boards within the technical services.*

§ 803.318f–1 *General.* There should exist in each technical service, a board to act as an advisor to the chiefs of the technical services with respect to appeals under contracts which authorize the chiefs of the technical services to pass upon appeals either finally or subject to further appeals by the contractor to the Secretary of War.

§ 803.318f–2 *Organization of boards.* Each board should consist of at least three members. One member of the Board, preferably with legal training, should be designated as executive secretary, to maintain a calendar of such cases as may be appealed to the chief of the service; to make a preliminary analysis of each case, and if necessary, return the file for further evidence, papers or exhibits; to maintain a record of the progress of each case; and in general, to act as executive representative of the Board and of chief of the technical service with respect to such matters. The Under Secretary of War will be informed of the name and address of every such executive secretary. Unless the chief of any technical service considers the volume of such work to be sufficient to require the full-time services of such executive secretary or other board members, they should be directed to perform such services in addition to other duties.

§ 803.318f–3 *Procedure.* In order that a uniform and orderly procedure may be followed, the following steps are prescribed in each case. The board should:

(a) Investigate and determine the facts in each case. During each such investigation, an opportunity should be afforded to the contractor, if he desires it, to present evidence in support of his contentions.

(b) Arrive at a finding of all essential facts and prepare a statement thereof for the information of the chief of the technical service concerned, and of the Under Secretary of War in cases forwarded to him for disposition. In the latter cases the report of the Board, together with the recommendation of the chief of the technical service concerned and the complete files in the case, will be forwarded to the Under Secretary of War.

(c) Based upon these findings of fact, prepare any necessary correspondence, supplemental agreements, or other documents for the action of the persons concerned.

§ 803.318f–4 In the determination of disputes, it will be the policy of all concerned to do complete and fair justice to the legitimate claims and contentions of every contractor, subject, however, to the limitation that in the absence of specific statutory authority no officer or official of the United States is vested with any power to surrender without consideration to the United States, any asset or right of the United States; every such officer and official must be controlled by the express terms of the contract in question and the applicable statutes and regulations.

§ 803.318f–5 The recommendations of the boards in question will be advisory only; the chief of the technical service concerned will not be bound by any such recommendation.

SUBPART G—GUARANTEES, LOANS AND COMMITMENTS, AND ADVANCE PAYMENTS

§ 803.319 *General.*

§ 803.319–1 *War Department policy.* It is the policy of the War Department that, in general, guarantees of loans, not in excess of 90 per cent of the principal amount of the loan, are to be employed rather than direct loans or participations in loans; and that likewise, guarantees of loans are, in general, to be employed in preference to advance payments. It is not intended entirely to supplant advance payments, especially where the technical service concerned concludes that the negotiation or performance of a particular contract will be facilitated by the use of advance payments.

§ 803.319–2 *Policy in connection with prime contractors.* Guaranteed loans to a prime contractor are particularly preferable to advance payments to such a contractor in the following situations:

(a) Where a number of technical services are involved,

(b) Where the prime contractor is at the same time a subcontractor under other prime contracts,

(c) Where the prime contractor has contracts with several branches of the government,

(d) Where the prime contractor has a large number of contracts and purchase orders.

In the above situations, guaranteed loans avoid the difficulties of segregation, accounting and supervision which are inherent in advance payments.

§ 803.319–3 *Policy in connection with subcontractors.* Guaranteed loans to subcontractors are preferable to subadvances even though the guarantee may exceed 90 per cent of the principal amount of the loan.

§ 803.319–4 *Cooperation with liaison officers.* The closest cooperation should exist between contracting officers, liaison officers (see § 803.320–4), and the Federal Reserve Banks, from the time negotiations for an award of a prime contract commence. Only in this way can there be devised the most practical method of financing from the standpoint of maximum war production by the contractor. In a given case, the most practical method of financing may be (a) private financing, (b) a guaranteed loan, (c) advanced payments, or (d) a direct Government loan; if a guaranteed loan or a direct loan, it may or may not be policed as to expenditures by the technical service most interested. That method of financing which is most conducive to maximum production should be adopted by mutual agreement between the contracting officer and the liaison officer, and it shall be the function of the liaison officer to endeavor to insure cooperation among the several technical services and with other branches of the government to this end.

§ 803.319–5 *Determination of method of financing at time of award.* In the case of prime contractors, especially those having contracts with a single technical service, the method of working capital financing most conducive to maximum production should be determined prior to the making of an award. The question of the amount of facilities necessary for such production and the method of financing such facilities should also be determined at that time. To these ends, the fiscal and production branches of procurement offices should closely cooperate both internally and, where appropriate, with the liaison officers and the Federal Reserve Banks.

§ 803.320 *Guarantees, loans and commitments under Executive Order No. 9112.*

§ 803.320–1 *Executive Order No. 9112.* Under date of March 26, 1942, Executive Order 9112 (3 CFR Cum. Supp.) was issued. It reads in part as follows:

(1) The War Department, Navy Department and the Maritime Commission are hereby respectively authorized, without regard to the provisions of law relating to the making, performance, amendment or modification of contracts, (a) to enter into contracts with any Federal Reserve Bank, the Reconstruction Finance Corporation, or with any other financing institution guaranteeing such Reserve Bank, Reconstruction Finance Corporation or other financing institution against loss of principal or interest on loans, discounts or advances, or on commitments in connection therewith, which may be made by such Reserve Bank, Reconstruction Finance Corporation, or other financing institution for the purpose of financing any contractor, subcontractor or others engaged in any business or operation which is deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the war, and to pay out funds in accordance with the terms of any such contract so entered into; and (b) to enter into contracts to make, or to participate with any Federal Reserve Bank, the Reconstruction Finance Corporation, or other financing institution in making loans, discounts or advances, or commitments in connection therewith, for the purpose of financing any contractor, subcontractor or others engaged in any business or operation which is deemed by the War Department, Navy Department or Maritime Commission to be necessary, appropriate or convenient for the prosecution of the war, and to pay out funds in accordance with the terms of any such contract so entered into.

§ 803.320–2 *Administration.* The administration of the powers conferred upon the War Department by Executive Order 9112 are vested in the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces. The general policies and procedures established by that Branch as well as the general contractual arrangements established by the Branch are subject to review by the Director, Purchase Division, Headquarters, Army Service Forces.

§ 803.320–3 *Financial contracting officers.* Financial contracting officers are officers or civilian officials attached to the Office of the Fiscal Director, Headquarters, Army Service Forces who have been granted authority by the Fiscal Director of said Division to execute or approve guarantees (either in the form of guarantees to save financial institutions harmless or in the form of commitments to purchase), to make direct Government loans, to enter into other financial arrangements, and to enter into commitments therefor, all pursuant to the authority conferred by Executive Order 9112; to participate in negotiations for financing; and to coordinate with the Federal Reserve Banks which act as agents of the War Department in arranging financing for businesses whose operations are necessary, appropriate or convenient for the prosecution of the war.

§ 803.320–4 *Liaison officers.* Liaison officers are officers or civilian officials attached to the Advanced Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Services Forces, who have been detailed for duty in every city in which a Federal Reserve Bank is situated as well as in Los Angeles and Detroit. Their functions and duties are those specified in §§ 803.320–5 and 803.320–9 as well as in various other sections of this subpart.

§ 803.320–5 *Procedure for obtaining guaranteed loans.* Contractors may make applications for guaranteed loans:

(a) Through a local bank which in turn will transmit the applications to the Federal Reserve Bank in the district where the bank is located,

(b) Directly to the Federal Reserve Bank, or

(c) To a liaison officer.

It will be the duty of the liaison officer to obtain information from the procurement officers of the technical service or services concerned and from other appropriate sources as to whether the applicant's operations (existing or prospective) are necessary, appropriate, or convenient for the prosecution of the war and as to applicant's ability to perform its contracts. When liaison officers are not actually detailed to a given Federal Reserve District, the Federal Reserve Bank will perform this duty. Upon the basis of the information so obtained, the liaison officer will issue a Statement of Necessity. If the liaison officer is not satisfied that the terms and conditions of the loan will expedite production and protect the Government's interest to the fullest extent possible, the Statement of Necessity may be withheld pending the working out of satisfactory terms and conditions.

§ 803.320–6 *Loans and guarantees not requiring submission to the Advance Payment and Loan Branch, Office of the Fiscal Director.* Upon the issuance of a Statement of Necessity, a direct Government loan or a guarantee on behalf of the War Department may be completed by a Federal Reserve Bank, acting as fiscal agent of the United States on such terms and conditions as to it may seem advisable, provided that such loan or guarantee must be submitted for approval to the Advance Payment and Loan Branch, Office of the Fiscal Director, if it comes within any of the categories set forth in § 803.320–7.

§ 803.320–7 *Loans and guarantees requiring submission to the Advance Payment and Loan Branch.* Direct Government loans and guarantees coming within any of the following categories must be submitted for approval to the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces:

(a) All direct Government loans and also all guarantees when the amount thereof plus the amount of all loans and guarantees made pursuant to Executive Order No. 9112 (including Navy Department and Maritime Commission loans and guarantees), which the contractor has then outstanding, exceed $100,000.

(b) All guarantees when the liaison officer and the Federal Reserve Bank disagree as to the terms and conditions thereof.

(c) All guarantees, regardless of the principal amount of the loan, when the guarantee is for an amount in excess of 90 percent of the principal amount of the loan.

(d) All guarantees when the Federal Reserve Bank is itself participating in the loan.

§ 803.320–8 *Execution of loan or guarantee.* If the Federal Reserve Bank does not participate in the loan, the guarantee normally will be executed by the Federal Reserve Bank as fiscal agent of the United States. If the Federal Reserve Bank does participate in the loan, the guarantee will be executed by the financial contracting officer. Direct Government loans will be executed by a financial contracting officer.

§ 803.320–9 *Cooperation of procurement officers.* When it has been determined pursuant to §§ 803.319–1 and 803.319–4 that a guaranteed loan is the method of financing most conductive to maximum war production, it is essential that the Federal Reserve Bank, the Advance Payment and Loan Branch, the liaison officers, and the financial contracting officers receive the fullest and speediest cooperation from the procurement officers of the various technical services. Procurement officers of the technical services will furnish such information relating to contracts awarded or executed by them, and as to subcontractors and orders under such contracts, as may be called for by the Federal Reserve Bank, the Advance Payment and Loan Branch, liaison officers or financial contracting officers. In order to expedite this cooperation, special units may be established in the district offices of the technical services, or existing Advance Payment Sections may be utilized for this purpose. Information normally required to be furnished will include:

(a) The need for the borrower's production, and

(b) The ability of the borrower to perform from the view point of technical production.

Obtaining information as to the borrower's financial condition is primarily the responsibility of the liaison officer and the Federal Reserve Banks. However, procurement officers of a technical service may supply such information and may make recommendations with respect thereto which will be given due weight provided that the information as to the necessity for the production and the technical ability of the borrower to perform is not delayed.

§ 803.321 *Advance payments.*

§ 803.321–1 *General policy.* Subject to the provisions of §§ 803.319–1 to 803.319–3, advance payments will be made to contractors upon their request in all cases where such action will facilitate the prosecution of the war provided that after careful scrutiny it is determined that the national interest will be promoted thereby and provided that the Government will be adequately protected.

§ 803.321–2 *Types of contracts.* Subject to the provisions of § 803.321–1, advance payments may be made in connection with agreements of all kinds (whether contracts, letter contracts, letter purchase orders or other types of agreements).

§ 803.321–3 *Advance payments under contracts executed prior to December 27, 1941.* No advance payment in excess of 30 per cent of the amount of the contract will be authorized upon a contract entered into prior to December 27, 1941, except under a supplemental agreement containing provisions for such an advance payment executed on or after December 27, 1941.

§ 803.321–4 *Security.* Advance payments shall be authorized only upon the furnishing of adequate security by the contractor. The security to be furnished will be that required under the provisions of the standard clauses or standard forms of supplemental agreements referred to in § 803.321–11. A guarantee by, or bond of, a parent corporation is desirable if the subsidiary corporation has limited financial responsibility, especially in the case of a newly formed subsidiary corporation. Whether guarantees, subordination agreements or other security devices should be required, in connection with advance payments, is within the discretion of the person having authority to approve the authorization of advance payments. Advance payments bonds will be required only in the most exceptional circumstances. (See §§ 804.406–4 and 804.407–1).

§ 803.321–4a *Release of security upon liquidation of advance payments.* The execution, upon the liquidation of advance payments, of releases and agreements to release mortgages, guarantors in guaranty agreements, sureties on advance payment bonds, and other security devices, which may be required in connection with advance payments, will facilitate the prosecution of the war. Accordingly, such releases and agreements to release may be executed pursuant to Title II of the First War Powers Act, 1941, and Executive Order 9001, by the chief of a technical service or his duly authorized representative, or by the person to whom he may delegate such authority, in those cases where such security devices have been given to secure a specific advance payment or advance payments and no other obligations to the Government, and such advance payment or advance payments have been fully liquidated.

In cases where releases or agreements to release security devices, given in connection with advance payments, cannot be executed pursuant to the authority above granted, proposed releases or agreements to release, together with recommendations as to action requested, should be submitted to the Advance Payment and Loan Branch, Office of the Fiscal Director, for prior approval and execution by the Fiscal Director or his duly authorized representative to whom authority to execute such releases and agreements to release is granted pursuant to Title II of the First War Powers Act, 1941, and Executive Order 9001.

§ 803.321–5 *Definitions.* As used in §§ 803.321–6, 803.321–7 and 803.321–14, the following terms shall have the following meaning:

(a) The amount of the contract: In the case of a lump sum contract, the contract price; in the case of a cost-plus-a-fixed-fee contract, the estimated cost exclusive of the fixed-fee.

(b) Standard contract clause: A contract clause following without substantial deviation the wording of one of the contract clauses referred to in § 803.321–11.

(c) Standard supplemental agreement: A supplemental agreement following without substantial deviation the wording of one of the forms of supplemental agreement referred to in § 803.321–11.

The determination of whether there is a substantial deviation from contract clause or from a form of supplemental agreement is within the discretion of the chiefs of the technical services. In general, the determining factor is whether the modification changes established policies with respect to advance payments.

§ 803.321–6 *Initial advance payments not requiring approval of Advance Payment and Loan Branch.* Chiefs of technical services are authorized, without obtaining the approval of the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, to approve the authorization and making of initial advance payments on contracts pertaining to their respective services, when:

(a) The amount of the contract is less than $5,000,000 and the amount of the advance payment is not in excess of 50 per cent of the amount of the contract, and

(b) The advance payment is authorized under a standard contract clause or a standard supplemental agreement.

§ 803.321–7 *Subsequent advance payments not requiring approval of Advance Payment and Loan Branch.* The chiefs of the technical services are authorized, without obtaining the approval of the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, to approve the authorization and making of advance payments in addition to advance payments previously authorized in connection with a given contract, when:

(a) The amount of the contract on which the subsequent advance payment is based is less than $5,000,000 and the proposed advance payment does not exceed 50 per cent of such amount, and

(b) The proposed advance payment is authorized under an approved contract clause or an approved supplemental agreement.

As used in this section, the term "amount of the contract on which the subsequent advance payment is based" means the

amount by which the amount of the contract has been increased since the date of the last authorization of an advance payment.

§ 803.321–8 *Advance payments requiring approval of Advance Payment and Loan Branch.* Unless an advance payment comes within the provisions of §§ 803.321–6 or 803.321–7, the authorization of such advance payment must be submitted for approval to the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces. The submission to said Branch will consist of a recommendation of the chief of the technical service concerned, together with the following information:

(a) The amount proposed to be advanced.

(b) The amount of contract involved and the subject matter thereof.

(c) Whether the contract was awarded on a fixed price or on a cost-plus-a-fixed-fee basis.

(d) The terms of the proposed advance (including method and time of repayment or liquidation including, if possible, a schedule of deliveries).

(e) The national interest in making the advance.

(f) The security proposed to protect the Government against loss with the definite recommendation of the chief of the technical service as to the adequacy thereof.

(g) The financial position and the general character and responsibility of the contractor, as well as the technical ability of the contractor to perform the contract.

(h) A copy of the contractor's letter of request and any financial and budget data submitted relating to the necessity for the advance.

(i) Copy of contracting officer's report, if any, on the advance payment request.

(j) Any other information pertinent to a proper decision in the case.

(k) The date and identifying symbol of the approval of the award together with the appropriation available.

Requests for the approval of the authorization of an advance payment may be presented either during the negotiation of a contract or at any time thereafter. If the contract is available a copy thereof together with applicable letters of intent and intermediate supplemental agreements, if any, should be forwarded together with the recommendation. If a copy of the contract is not available at the time the recommendation is forwarded, such a copy should be submitted for review and filing promptly after execution.

§ 803.321–9 *Special provision with respect to advance payments under open-end provisions in connection with cost-plus-a-fixed-fee contracts.* If in connection with a cost-plus-a-fixed-fee contract, it is proposed to authorize the making of an advance payment in an amount equivalent to a percentage of the estimated cost as the same may be amended from time to time, approval of the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, need not be obtained unless the estimated cost of the contract exclusive of the fixed-fee at the time of the granting of such authorization is $5,000,000 or more (provided, of course, that the authorization is made under a standard contract clause or a standard supplemental agreement). If, however, it subsequently becomes apparent that the cost will be $5,000,000 or more, no further advances will be made under such authorization until such approval has first been obtained. If such approval has once been obtained, the making of advance payments, in addition to those made prior to or at the time of such approval, may be made without further approval of the Advance Payment and Loan Branch, regardless of the amount of such additional advance payments.

§ 803.321–10 *Advance payments in connection with letter contracts or letter purchase orders.* Advance payments in connection with letter contracts or letter purchase orders will be provided for by a standard supplemental agreement. There should be included in such agreement a clause relieving a subsequent performance surety of the fidelity risk involved in making advance payments in any case where it is contemplated that a performance bond will be required in connection with the more formal contract and where no advance payment bond has been required.

§ 803.321–11 *Forms of supplemental agreement and contract clauses.* The following is a list of contract clauses and forms of supplemental agreements for use in connection with the authorization of advance payments:

(a) The contract clause contained in § 803.347 will be used in providing for advance payments with interest on fixed-price contracts.

(b) War Department Contract Form No. 20 will be used in executing a supplemental agreement for advance payments with interest on fixed-price contracts. (See § 813.1320)

(c) War Department Contract Form No. 21 will be used in executing a supplemental agreement for advance payments with interest on cost-plus-a-fixed-fee contracts. (See § 813.1321)

(d) The contract clause contained in § 803.348a will be used in providing for advance payments with interest on cost-plus-a-fixed-fee contracts.

(e) War Department Contract Form No. 22 will be used in executing a supplemental agreement for advance payments with interest on a letter purchase order. (See § 813.1322)

(f) The contract clause contained in § 803.348 will be used in providing for advance payments without interest on fixed-price contracts.

(g) War Department Contract Form No. 23 will be used for executing a supplemental agreement for advance payments without interest on fixed-price contracts. (See § 813.1323)

(h) The contract clause contained in § 803.348b will be used in providing for advance payments without interest on cost-plus-a-fixed-fee contracts.

(i) War Department Contract Form No. 24 will be used for executing a supplemental agreement for advance payments without interest on cost-plus-a-fixed-fee contracts. (See § 813.1324)

(j) War Department Contract Form No. 25 will be used for executing a supplemental agreement for advance payments without interest on letter purchase orders. (See § 813.1325)

§ 803.321–12 *Interest.* Except as set forth in § 803.321–13 below, whenever an advance payment is made to a contractor by the War Department, a charge should be made for the use of the Government money so furnished. The charge should be in the nature of an interest charge computed, at convenient accounting periods, at the rate of two and one-half percent per annum on the unliquidated balance of advance payments outstanding from time to time. In the case of a fixed-price contract, the amount of the charge should be deducted from payments under the contract. In the case of a cost-plus-a-fixed-fee contract, the charge should be deducted from the amount of the fee otherwise payable to the contractor, and should not be an item of reimbursable cost under the contract.

§ 803.321–13 *Exceptions to interest requirement.* The requirement that interest be charged on advance payments shall not be applicable to advance payments:

(a) Authorized in connection with contracts which provide that the work thereunder shall be performed at cost without profit or fee to the contractor.

(b) Authorized in connection with cost-plus-a-fixed-fee contracts on which the fee is disproportionately small compared to the amount of interest that would accrue on the advance payment.

(c) Authorized in connection with contracts entered into, or contracts the terms of which had been agreed upon, prior to June 8, 1942, to the extent that such application would be inconsistent with the terms upon which such contracts were negotiated.

(d) Authorized in connection with fixed price contracts which have been converted from cost-plus-a-fixed-fee contracts provided that advances previously authorized on the cost-plus-a-fixed-fee contracts have been without interest and provided further that in negotiating the fixed prices on the converted contracts due allowance is made for the continuation of advances without interest. This does not preclude, however, the use of advances with interest in accordance with § 803.321–12 in the negotiation of the converted contracts from a cost-plus-a-fixed-fee to fixed price basis if it is preferred to negotiate the new price on the use of advances with interest.

(e) Authorized to be made without interest by specific action of the Fiscal Director, Headquarters, Army Service Forces.

(f) Authorized in connection with cost-plus-a-fixed-fee contracts which have been terminated in whole or in part to the extent that such advance payments are used for the making of partial payments to subcontractors on account of termination claims of such

subcontractors. Interest will cease to accrue on that part of the advance payment balance outstanding so used from the time such partial payments are made until the time the prime contractor is reimbursed for termination settlements with such subcontractors. (See §§ 846.654–1 and 803.349a.)

§ 803.321–14 *Reports.* In connection with advance payments, the technical services will make the following report:

(a) *Individual advance payment report.* A complete report of each advance payment, except those approved by the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, pursuant to §§ 803.321–8 or 803.321–9, will be submitted to said Branch, for consideration, review and file. There will be submitted with the report a copy of the contract under which the advance payment was authorized or, if the advance payment was authorized under a supplemental agreement, a copy of the contract and of such supplemental agreement. The report will contain a statement of the amount of the contract, the amount of the advance payment authorized, the national interest in making the advance payment, the proposed security and a statement as to whether prior approval of withdrawal is to be required, as well as a statement of the financial responsibility of the contractor and of its ability to perform the contract. The contractor's most recent balance sheet or a Federal Reserve Bank report should also be filed.

(b) *Quarterly report.* In each year, there shall be rendered to the Advance Payment and Loan Branch, Headquarters, Army Service Forces reports for the periods ending March 31, June 30, September 30, and December 31. Each such report will be rendered fifteen days after the close of the period. There will be set forth in such reports the status of all contracts on which advance payments have been authorized. The following data should be included in the report:

(i) Contract number.
(ii) Name of contractor.
(iii) Description of contract.
(iv) Type of contract.
(v) Amount of contract as it may be changed from time to time.
(vi) Amount of advance payments authorized.
(vii) Amount of advance payments made.
(viii) Advance payments recovered.
(ix) Advance payments outstanding.
(x) Appropriation symbol.
(xi) Project number.

A special statement should be included in the report as to any contract with respect to which the completion of the contract and liquidation of the advance payments appear to be doubtful together with a statement as to the steps being taken to protect the advance payments. A report should include data previously furnished and not merely cover the period from the last report. However the report need not include contracts upon which complete liquidation of the advance payments have been made and so reported in a previous report.

(c) *Interim reports.* If at any time between the rendering of quarterly reports it appears doubtful that a contractor to whom advance payments have been made will complete the contract, a report should be rendered to the Advance Payment and Loan Branch, Office of the Fiscal Director, Headquarters, Army Service Forces, immediately. This report should include a statement of the facts in the case and of the steps being taken to protect the advance payments.

§ 803.321–15 *Advance payment for communication services and facilities in accordance with established tariffs of foreign communications companies.* In accordance with the First War Powers Act and Executive Order No. 9001, contracts covering the procurement of commercial communications services or facilities in foreign countries may authorize advance payment of charges therefor when such advance payment is provided for in established tariffs or is in accordance with rules, practices, or regulations applicable to the furnishing of similar services and facilities to the general public. It is hereby determined that the insertion of such advance payment provisions will facilitate the prosecution of the war. In connection with such advance payments, it will not be necessary to make any of the reports provided for in § 803.321–14.

SUBPART H—MANDATORY AND OPTIONAL CONTRACT PROVISIONS

§ 803.322 *Officials not to benefit.* Every contract, regardless of subject matter or amount, will contain the following clause without deviation:

Officials not to benefit. No member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

§ 803.323 *Covenant against contingent fees.* (a) Every contract, regardless of subject matter or amount (except contracts of sale) will contain the following clause without deviation:

Covenant against contingent fees. The Contractor warrants that he has not employed any person to solicit or secure this contract upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the Government the right to annul the contract, or, in its discretion, to deduct from the contract price or consideration the amount of such commission, percentage, brokerage, or contingent fees. This warranty shall not apply to commissions payable by contractors upon contracts or sales secured or made through bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business.

(b) As to contracts of sale, see General Provision 13 of W.D. Contract Form No. 26 (§ 813.1326).

(c) Also see § 811.1181.

§ 803.324 *Uniform termination article.* (a) There is set forth below the uniform termination article prescribed by the Office of War Mobilization for use in fixed price (lump sum) supply contracts. This article will be referred to hereafter in this paragraph as the uniform article.

(b) The uniform article may be inserted in any lump sum supply contract.

(c) Every lump sum supply contract for the manufacture of supplies and equipment executed on and after February 20, 1944, except:

(1) Contracts to be completed in six months or less for an amount of less than $500,000,

(2) Contracts for an amount of less than $50,000, regardless of the date of completion and

(3) Requirement or open end contracts, will contain the uniform article without deviation.

(d) As to amendment of contracts to include the uniform article, see § 842.213.

ARTICLE ___. *Termination at the option of the Government.* (a) The performance of work under this contract may be terminated by the Government in accordance with this Article in whole, or from time to time in part, whenever the contracting officer shall determine any such termination is for the best interests of the Government. Termination of work hereunder shall be effected by delivery to the contractor of a Notice of Termination specifying the extent to which performance of work under the contract shall be terminated, and the date upon which such termination shall become effective. If termination of work under this contract is simultaneous with, a part of, or in connection with, a general termination (1) of all or substantially all of a group or class of contracts made by the War Department for the same product or for closely related products, or (2) of war contracts at, about the time of, or following, the cessation of the present hostilities, or any major part thereof, such termination shall only be made in accordance with the provisions of this Article, unless the contracting officer finds that the contractor is then in gross or wilful default under this contract.

(b) After receipt of a Notice of Termination and except as otherwise directed by the contracting officer, the contractor shall (1) terminate work under the contract on the date and to the extent specified in the Notice of Termination; (2) place no further orders or subcontracts for materials, services or facilities except as may be necessary for completion of such portions of the work under the contract as may not be terminated; (3) terminate all orders and subcontracts to the extent that they relate to the performance of any work terminated by the Notice of Termination; (4) assign to the Government, in the manner and to the extent directed by the contracting officer, all of the right, title and interest of the contractor under the orders or subcontracts so terminated; (5) settle all claims arising out of such termination of orders and subcontracts with the approval or ratifications of the contracting officer to the extent that he may require, which approval or ratification shall be final for all the purposes of this Article; (6) transfer title and deliver to the Government in the manner, to the extent and at the times directed by the contracting officer (i) the fabricated or unfabricated parts, work in process, completed work, supplies and other material produced as a part of, or acquired in respect of the performance of, the work terminated in the Notice of Termination, and (ii) the plans, drawings, information and other property which, if the contract had been completed, would be required to be furnished to the Government; (7) use his best efforts to sell in the manner, to the extent, at the time, and at the price or prices directed or authorized by the contracting officer, any property of the types referred to in subdivision (6) of this paragraph: *Provided, however,* That the contractor (i) shall not be required to extend credit to any purchaser and (ii) may retain any such property at a price or prices approved by the contracting officer; (8) complete performance of such part of the work as shall not have been

terminated by the Notice of Termination; and (9) take such action as may be necessary or as the contracting officer may direct for protection and preservation of the property, which is in the possession of the contractor and in which the Government has or may acquire an interest.

(c) The contractor and the contracting officer may agree upon the whole or any part of the amount or amounts to be paid to the contractor by reason of the total or partial termination of work pursuant to this Article, which amount or amounts may include a reasonable allowance for profit, and the Government shall pay the agreed amount or amounts. Nothing in paragraph (d) of this Article prescribing the amount to be paid to the contractor in the event of failure of the contractor and the contracting officer to agree upon the whole amount to be paid to the contractor by reason of the termination of work pursuant to this Article shall be deemed to limit, restrict or otherwise determine or affect the amount or amounts which may be agreed upon to be paid to the contractor pursuant to this paragraph (c).

(d) In the event of the failure of the contractor and contracting officer to agree as provided in paragraph (c) upon the whole amount to be paid to the contractor by reason of the termination of work pursuant to this article, the Government, but without duplication of any amounts agreed upon in accordance with paragraph (c), shall pay to the contractor the following amounts:

(1) For completed articles delivered to and accepted by the Government (or sold or retained as provided in paragraph (b) (7) above) and not theretofore paid for, forthwith a sum equivalent to the aggregate price for such articles computed in accordance with the price or prices specified in the contract;

(2) In respect of the contract work terminated as permitted by this Article, the total (without duplication of any items) of (i) the cost of such work exclusive of any cost attributable to articles paid or to be paid for under paragraph (d) (1) hereof; (ii) the cost of settling and paying claims arising out of the termination of work under subcontracts or orders as provided in paragraph (b) (5) above, exclusive of the amounts paid or payable on account of supplies or materials delivered or services furnished by the subcontractor prior to the effective date of the notice of termination of work under this contract which amounts shall be included in the cost on account of which payment is made under subdivision (i) above; and (iii) a sum equal to _____% (Note 1), of the part of the amount determined under subdivision (i) which represents the cost of articles or materials not processed by the contractor, plus a sum equal to _____% (Note 2), of the remainder of such amount, but the aggregate of such sums shall not exceed 6% of the whole of the amount determined under subdivision (i), which for the purpose of this subdivision (iii) shall exclude any charges for interest on borrowings;

NOTES 1 and 2: The chief of each technical service may provide for determining the percentages to be inserted at Note 1 (which in no event will exceed 2%) and to Note 2 (which may be greater or less than or equal to 6%). The general use of 2% and 8%, respectively, as arbitrary figures is recommended in the interest of expediting the execution of contracts. Where the use of arbitrary figures is not desired for any reason, the methods to be used in arriving at the percentage to be inserted at Note 2 shall be the same as those now used in price analysis. When the intended rate of profit on the finished article covered by the contract is lower than 8%, the insertion of a lower figure at Note 2 will of course be desirable.

(3) The reasonable cost of the preservation and protection of property incurred pursuant to paragraph (b) (9) hereof; and any other reasonable cost incidental to termination of work under this contract, including expense incidental to the determination of the amount due to the contractor as the result of the termination of work under this contract.

The total sum to be paid to the contractor under subdivisions (1) and (2) of this paragraph (d) shall not exceed the total contract price reduced by the amount of payments otherwise made and by the Contract price of work not terminated. Except for normal spoilage and to the extent that the Government shall have otherwise expressly assumed the risk of loss, there shall be excluded from the amounts payable to the contractor as provided in paragraph (d) (1) and paragraph (d) (2) (i), all amounts allocable to or payable in respect of property, which is destroyed, lost, stolen or damaged so as to become undeliverable prior to the transfer of title to the Government or to a buyer pursuant to paragraph (b) (7) or prior to the 60th day after delivery to the Government of an inventory covering such property, whichever shall first occur.

(e) The obligation of the Government to make any payments under this article: (1) shall be subject to deductions in respect of (i) all unliquidated partial or progress payments, payments on account theretofore made to the contractor and unliquidated advance payments, (ii) any claim which the Government may have against the contractor in connection with this contract, and (iii) the price agreed upon or the proceeds of sale of any materials, supplies or other things retained by the contractor or sold, and not otherwise recovered by or credited to the Government, and (2) in the discretion of the contracting officer shall be subject to deduction in respect of the amount of any claim of any subcontractor or supplier whose subcontract or order shall have been terminated as provided in paragraph (b) (3) except to the extent that such claim covers (i) property or materials delivered to the contractor or (ii) services furnished to the contractor in connection with the production of completed articles under this contract.

(f) In the event that, prior to the determination of the final amount to be paid to the contractor as in this article provided, the contractor shall file with the contracting officer a request in writing that an equitable adjustment should be made in the price or prices specified in the contract for the work not terminated by the Notice of Termination, the appropriate fair and reasonable adjustment shall be made in such price or prices.

(g) The Government shall make partial payments and payments on account, from time to time, of the amounts to which the contractor shall be entitled under this Article, whether determined by agreement or otherwise, whenever in the opinion of the contracting officer the aggregate of such payments shall be within the amount to which the contractor will be entitled hereunder.

(h) For the purposes of paragraphs (d) (2) and (d) (3) hereof, the amounts of the payments to be made by the Government to the contractor shall be determined in accordance with the Statement of Principles for Determination of Costs upon Termination of Government Fixed Price Supply Contracts approved by the Joint Contract Termination Board, December 31, 1943, as amended by Regulation No. 5 of the Office of Contract Settlement dated September 30, 1944. The contractor for a period of three years after final settlement under the contract shall make available to the Government at all reasonable times at the office of the contractor all of its books, records, documents, and other evidence bearing on the costs and expenses of the contractor under the contract and in respect of the termination of work thereunder.

§ 803.324-1 Every lump-sum construction contract regardless of subject matter, except:

(a) Contracts to be completed in six months or less for an amount of less than $500,000 and

(b) Contracts for an amount of less than $50,000 regardless of the date of completion.

will contain the following clause without deviation:

ARTICLE ___. *Termination for convenience of the Government.* (a) The Government may terminate this contract in whole or in part at any time by a notice in writing from the Contracting Officer to the Contractor, specifying the date upon which such termination shall become effective and the extent to which the performance of such contract shall be terminated. Termination shall be effective upon the date and to the extent specified in said notice.

(b) Upon receipt of the notice of termination the Contractor shall except insofar as the notice directs otherwise with respect to this contract, or, in the event of partial termination, with respect to the part thereof covered by the notice:

(1) Discontinue all work and the placing of all orders for materials and facilities otherwise required for the performance thereof;

(2) Cancel all existing orders and subcontracts to the extent such orders and subcontracts are chargeable to the performance thereof;

(3) Transfer to the Government, in accordance with the directions of the Contracting Officer, all materials, supplies, work in process, facilities, equipment, machinery or tools acquired by the Contractor in connection with the performance thereof, and all plans, drawings, working drawings, sketches, specifications and information for use in connection therewith. If and as the Contracting Officer so directs or authorizes, the Contractor shall sell at a price approved by the Contracting Officer, or retain at a price mutually agreeable, any such materials, supplies, equipment, machinery, tools, or other things: *Provided, however,* That the Contractor may retain any such equipment, machinery and tools as of right if he so elects in writing, stating that he will forego reimbursement therefor. The proceeds of any such sale, or the agreed price, shall be paid or credited to the Government in such manner as the contracting officer may direct so as to reduce the amount payable by the Government under this Article;

(4) Take such action as may be necessary to secure to the Government the benefits of any rights remaining in the Contractor under orders or subcontracts chargeable thereto to the extent that such orders or subcontracts are so chargeable;

(5) Take such action as the Contracting Officer may prescribe for the protection and preservation of all property in the possession or control of the Contractor, title to which is transferable to the Government under the provisions of this article. Should the notice of termination cover only a portion of this contract, the Contractor will proceed to completion of such portions as are not terminated.

(c) Upon compliance by the Contractor with the above provisions of this Article and subject to deductions or credit for payments previously made, and without duplication of any such payments, the Government shall pay to the Contractor such sum as the Contracting Officer and the Contractor may agree by Supplemental Agreement is reasonably necessary to compensate the Contractor for his costs, expenditures, liabilities, commitments and work with respect to this contract, other than the expenditures and costs referred to in paragraph (e) of this Article.

The Contracting Officer shall include in such sum such allowance for profit with respect to the contract as is reasonable under all the circumstances.

(d) If the Contracting Officer and the Contractor, within 90 days from the effective date of the notice of termination referred to in paragraph (a), or within such extended period as may be agreed upon between them, cannot agree upon the sum payable under the provisions of paragraph (c), the Government shall instead compensate the Contractor in the following manner, subject to deductions or credit for payments previously made, and without duplication thereof, and upon compliance with the provisions of paragraphs (a) and (b) of this Article:

(1) By reimbursing the Contractor for all actual expenditures and costs certified by the Contracting Officer as having been made or incurred with respect to this contract, including expenditures and costs made or incurred in connection with any portions of the contract which may have been completed prior to termination, as well as expenditures and costs made or incurred after termination in completing those portions of the contract which the Contractor may have been required by the notice of termination to complete;

(2) By reimbursing or providing for the payment or reimbursement of, the Contractor for all expenditures made or costs incurred with the prior written approval of the Contracting Officer in settling or discharging any outstanding contractual obligations or commitments incurred or entered into by the Contractor with respect to this contract; and

(3) By paying the Contractor, as a profit on this contract, insofar as a profit is realized hereunder, an amount to be computed by the Contracting Officer in the following manner:

(A) Estimate the profit which would have been realized on this contract if the contract had been completed and labor and materials costs prevailing at the date of terminations had remained in effect.

(B) Estimate, from a consideration of all relevant factors, the percentage of completion of the contract including any work performed after termination. In estimating the percentage of completion, the Contracting Officer shall estimate the percentage of the total work required by the contract which the work actually accomplished represents.

(C) Multiply the profit determined under (A) by the percentage determined under (B). The product is the amount to be paid the Contractor as profit.

(e) The Government shall pay to the Contractor such sum as the Contracting Officer and the Contractor may agree upon for expenditures made and costs incurred with the approval of the Contracting Officer (a) after the date of termination for the protection of Government property, and (b) for such other expenditures and costs as may be necessary in connection with the settlement of this contract, and in the absence of such agreement as to the amount of such expenditures and costs shall reimburse the Contractor for the same.

(f) The obligation of the Government to make any of the payments required by this Article shall be subject to any unsettled claim for labor or material and to any claim which the Government may have against the Contractor under or in connection with this contract, and payments under this Article shall be subject to reasonable deductions by the Contracting Officer on account of defects in materials or workmanship.

(g) The sum of all amounts payable under this Article, plus the sum of all amounts previously paid under this contract, shall not exceed the total contract price, adjusted in the event that this contract contains an article providing for price adjustment, on the basis of the estimate of the Contracting Officer, to the extent which would have been required by such article if this contract had been completed and labor and materials costs prevailing at the date of termination had remained in effect.

(h) Should the above provisions of this Article not result in payment to the Contractor of at least $100, then that amount shall be paid to the Contractor in lieu of any and all payments hereinbefore provided for in this Article.

(i) The Government shall promptly make partial payments to the Contractor:

(1) on account of the amounts due under paragraphs (c), (d) and (e) of this Article to the extent that, in the judgment of the Contracting Officer, such payments are clearly within the amounts due under such paragraphs, and

(2) of such amounts as the Contracting Officer may direct, on account of proposed settlements of outstanding obligations or commitments, to be made by the Contractor pursuant to paragraph (d) (2) of this Article, if such settlements shall have been approved by the Contracting Officer and subject to such provisions for escrow or direct payment to the persons entitled to receive such settlement payments as the Contracting Officer may require.

(j) Any disputes arising out of termination under this Article shall be decided in accordance with the procedure prescribed in Article * * * of this contract.

(k) Upon the making of the payments called for by this Article, all obligations of the Government to make further payments or to carry out other undertakings hereunder shall cease forthwith and forever, except that all rights and obligations of the respective parties under the Articles, if any, of this contract applicable to patent infringements and reproduction rights shall remain in full force and effect.

(l) The Government shall terminate this contract only in accordance with this Article, except as otherwise provided by law or by Article * * * (Delays-Damages). Notwithstanding Article * * * (Delays-Damages) and any defaults of the Contractor, the Government shall terminate this contract only in accordance with this Article if such termination is simultaneous with or part of or in connection with a general termination of war contracts at, about the time of, or following the cessation of the present hostilities or the end of the present war, unless the Contracting Officer finds that the defaults of the Contractor (1) have been gross or wilful and (2) have caused substantial damage to the Government.

The foregoing clause may be inserted in any contract as to which its inclusion is not mandatory.

§ 803.324–2 *Termination at the option of the Government (Short form).* The following article may be used in any supply or construction contract where neither of the articles set out in §§ 803.324 and 803.324–1 is required to be used.

ARTICLE ___. *Termination at the option of the Government.* The performance of work under this contract may be terminated by the Government whenever the Contracting Officer shall determine that such action is for the best interests of the Government. If this contract is so terminated, fair compensation, within the meaning of the Contract Settlement Act of 1944 (Public No. 395, 78th Cong.), as the same may from time to time be amended, will be provided for the contractor.

§ 803.325 *Anti-discrimination clause.* (a) Every contract, regardless of subject matter or amount, will contain (except as may be otherwise specifically permitted by the interpretations of Executive Order No. 9346 set forth in §§ 809.985 and 809.986) the following clause without deviation:

Anti-discrimination. (a) The Contractor, in performing the work required by this contract, shall not discriminate against any employee or applicant for employment because of race, creed, color, or national origin.

(b) The Contractor agrees that the provision of paragraph (a) above will also be inserted in all of its subcontracts. For the purpose of this article, a subcontract is defined as any contract entered into by the contractor with any individual, partnership, association, corporation, estate, or trust, or other business enterprise or other legal entity, for a specific part of the work to be performed in connection with the supplies or services furnished under this contract: *Provided, however,* That a contract for the furnishing of standard or commercial articles or raw material shall not be considered as a subcontract.

(b) When a prime contract is amended in accordance with § 809.986 to include the clause set forth in paragraph (a) of this section, there may be inserted in the supplemental agreement which amends the prime contract a statement substantially as follows:

The amendment made by this section * * * shall be effective as of the date of approval of this supplemental agreement and shall not be deemed to require amendment of the antidiscrimination provisions contained in any subcontract theretofore entered into unless such subcontract is subsequently modified in some other respect.

(c) The contract clause set forth in paragraph (a) of this section is required under the provisions of Executive Order No. 9346. Such Executive order is discussed in Subpart L of Part 809.

§ 803.326 *Disputes article.* (a) Every contract, regardless of subject matter, for an amount of $20,000 or more will, and every contract for an amount of less than $20,000 may (at the option of the contractor), contain the following article without deviation:

Disputes. Except as otherwise specifically provided in this contract, all disputes concerning questions of fact which may arise under this contract, and which are not disposed of by mutual agreement, shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail a copy thereof to the Contractor at his address shown herein. Within 30 days from said mailing the Contractor may appeal in writing to the Secretary of War, whose written decision or that of his designated representative or representatives thereon shall be final and conclusive upon the parties hereto. The Secretary of War may, in his discretion, designate an individual, or individuals, other than the Contracting Officer, or a board as his authorized representative to determine appeals under this Article. The Contractor shall be afforded an opportunity to be heard and offer evidence in support of his appeal. The president of the board, from time to time, may divide the board into divisions of one or more members and assign members thereto. A majority of the members of the board or of a division thereof shall constitute a quorum for the transaction of the business of the board or of a division, respectively, and the decision of a majority of the members of the Board or of a division shall be deemed to be the decision of the Board or of a division, as the case may be. If a majority of the members of a division are unable to agree on a decision or if within 30 days after a decision by a division, the board or the president thereof directs that the decision of the division be reviewed by the board, the

decision will be so reviewed, otherwise the decision of a majority of the members of a division shall become the decision of the board. If a majority of the members of the board is unable to agree upon a decision, the president will promptly submit the appeal to the Under Secretary of War for his decision upon the record. A vacancy in the board or in any division thereof shall not impair the powers, nor affect the duties of the board or division nor of the remaining members of the board or division, respectively. Any member of the board, or any examiner designated by the president of the board for that purpose, may hold hearings, examine witnesses, receive evidence and report the evidence to the board or to the appropriate division, if the case is pending before a division. Pending decision of a dispute hereunder the Contractor shall diligently proceed with the performance of this contract. Any sum or sums allowed to the Contractor under the provisions of this Article shall be paid by the United States as part of the cost of the articles or work herein contracted for and shall be deemed to be within the contemplation of this contract.

(b) Where a contract has no definite termination date, or where a termination date is expressed but the contract is subject to renewal (e. g., through failure of the Government to take action to terminate or through the Government's exercise of a right to renew), it may be difficult to determine whether the contract is for an amount of $20,000 within the meaning of paragraph (a) of this section. The following rule of thumb is prescribed to resolve the difficulty in such cases: It will be assumed for the purpose of making the determination that the contract will run for a period of three years from its starting date, and the aggregate charge will be estimated on this basis. If the aggregate charge, so estimated, is $20,000 or more, the Disputes article will be included in the contract; if less than $20,000, the article may be included at the option of the contractor.

§ 803.326–1 In all contracts which contain a definition of "his duly authorized representative" in relation to the head of the department, as "any person authorized to act for him other than the contracting officer," the words "or board" will be inserted between the word "person" and the word "authorized".

§ 803.327 *Buy-American Act; contract clause.* Whenever the restrictions of the Buy-American Act are applicable to any items deliverable under a contract (see §§ 805.502 to 805.504), the contract will contain the following clause. In such cases, this clause will be inserted without deviation except that there may be added such language as is necessary to indicate to which items the clause applies.

Domestic articles. Unless the Secretary of War shall determine it to be inconsistent with the public interest, or the cost to be unreasonable, only such unmanufactured articles, materials, and supplies as have been mined or produced in the United States, and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, or supplies mined, produced, or manufactured, as the case may be, in the United States shall be delivered pursuant to this contract, except as noted in the specifications and/or other papers hereto attached. The provisions of this article shall not apply with respect to articles, materials, or supplies for use outside the United States, or if articles, materials, or supplies of the class or kind to be used, or the articles, materials, or supplies from which they are manufactured are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

§ 803.328 *Notice of shipments article.* All contracts for the furnishing of supplies, except contracts for the furnishing of supplies in connection with which a Government inspector, transportation officer, or other Government official at the plant or warehouse of the Contractor is charged with the duty of issuing notices of shipment, will contain a clause substantially as follows (see § 811.1182b):

ARTICLE —. *Notice of Shipments.* At the time of delivery of a shipment to a carrier for transportation, the Contractor shall give such prepaid notice of shipment to the consignee establishment, and to such other persons or installations designated by the Contracting Officer, as the Contracting Officer may require. If such instructions have not been received at least 24 hours prior to such delivery to a carrier, the Contractor shall request instructions from the Contracting Officer, concerning the notice of shipment to be given.

§ 803.329 *Variation in quantities clause.* In those cases where it is desired to accept over or under deliveries due to manufacturing processes, etc., contracts may contain a clause substantially as follows:

Variation in quantities. Unless otherwise specified, any variation in the quantities herein called for, not exceeding 10 per cent, will be accepted as a compliance with the contract, when caused by conditions of loading, shipping, packing, or allowances in manufacturing processes, and payments shall be adjusted accordingly.

§ 803.329a *"Changes" article.* In any case where it is desired to include in a supply contract a provision giving the contracting officer in addition to the powers set forth in § 813.1301 (Art. 2) a power by change order (a) to increase or decrease within stated percentage limits the quantity of articles called for by the contract or (b) to accelerate or reduce the rate of delivery of the articles in the quantity called for by the contract, the following article relating to changes may be used instead of the article set forth in § 813.1301 (Art. 2).

Article ——. *Changes.* The Contracting Officer may at any time, by a written order, and without notice to the sureties make changes of any one or more of the following types:—(a) changes in the directions as to shipment and packing of any supplies; (b) increases or decreases in the quantity of supplies to be furnished hereunder, the total increase or decrease not, however, to exceed ——% of the quantity of supplies deliverable hereunder; (c) changes in the drawings or specifications, where the supplies to be furnished are to be specially manufactured in accordance with drawings and specifications; (d) extensions of the delivery schedules hereunder reducing the rate of deliveries of the supplies called for by this contract; or (e) accelerations of the delivery schedules hereunder by an increase or increases in the rate of deliveries hereunder. Unless consented to in writing by the Contractor, no change orders hereunder of the type mentioned in clause (d) of the preceding sentence shall cause decreases in the deliveries hereunder, and no change orders of the type mentioned in clause (e) of such sentence shall cause increases in the deliveries called for hereunder, amounting respectively in the aggregate in any one month to more than ——% of the quantity of supplies, the delivery of which is called for in such month by the delivery schedule originally contained in this contract. If such changes cause an increase or decrease in the amount of work under this contract or in the cost of performance of this contract or in the time required for its performance an equitable adjustment shall be made which adjustment may include in any instance an adjustment (i) in the purchase price, including (but not limited to) any adjustment in unit price fair in the light of any change in volume caused by such order, and (ii) in the delivery time or schedule, or (iii) in either the price or delivery schedule and the contract shall be modified in writing accordingly. Any claim for adjustment under this article must be asserted within 30 days from the date the change is ordered: *Provided, however,* That the Contracting Officer, if he determines that the facts justify such action, may receive, consider and adjust any such claims asserted at any time prior to the date of final settlement of the contract. If the parties fail to agree upon the adjustment to be made the dispute shall be determined as provided in Article —— (Disputes) hereof. But nothing provided in this Article shall excuse the Contractor from proceeding with the contract as changed.

When the article set forth in § 813.1301 (Art. 2) is used, the fourth sentence of the article set out above beginning with the words "Any claim for adjustment * * *" may be used, at the discretion of the Contracting Officer, in lieu of the fourth sentence (beginning with the same words) of the article set forth in § 813.1301 (Art. 2). The provisions of clauses (d) and (e) of the first sentence of the foregoing article, or either of such clauses, may be omitted in the discretion of the Contracting Officer and, in the event of any such omission, the second sentence of the article will either be omitted or appropriately modified.

§ 803.329b *Adjustments under changes article in fixed price supply contracts.*

§ 803.329b–1 *General.* (a) The "Changes" article authorized for use in fixed-price supply contracts (see § 813.1301 (Art. 2) of this chapter) permits the contracting officer by a written order to make changes in the drawings or specifications, or in the requirements as to packing and shipment. The article authorized in § 803.329a may be used in supply contracts in lieu of that authorized in § 813.1301 (Art. 2) of this chapter in which event the contracting officer is also empowered to increase or decrease within stated limits the quantities called for by the contract or to accelerate or reduce the rate of deliveries. An equitable adjustment is to be made and the contract modified accordingly.

(1) If such changes cause an increase or decrease in the amount due under the contract or in the time required for its performance (§ 813.1301 (Art. 2)), or

(2) If such changes cause an increase or decrease in the amount of work under the contract or in the time required for its performance (§ 803.329a),

If the parties fail to agree the dispute is to be determined as provided in the Disputes article.

(b) The different types of changes which may be ordered will raise different

kinds of problems in effecting the equitable adjustment required. These are discussed in §§ 803.329b–2 to 803.329b–4, inclusive.

(c) Reference is made to § 803.398b with respect to analogous problems of adjustments of fixed-price subcontracts under cost-plus-a-fixed-fee prime contracts.

§ 803.329b–2 *Types of adjustments after a change order.* There are two types of adjustments either or both of which may be required to be made as the result of a change order:

(a) Adjustments attributable to increases or decreases in the unit costs for the balance of the contract as a result of the change order, including changes in the direct costs and in the amounts as well as the allocations of indirect expenses required for the performance of the balance of the contract;

(b) Adjustments attributable to the portion of the work done prior to the change order, including items such as work in process, materials or machinery no longer usable, and subcontract or purchase order cancellation charges.

It is important that the difference between these two types of charges be clearly understood and observed in order to avoid duplication of the expenses incurred by the Government. Ordinarily it is desirable that these two types of adjustments be kept distinct, although the results may be included in a single written instrument. From the standpoint of pricing such separation is particularly desirable, since including those adjustments which are attributable to work done prior to the change order in the adjustment of unit prices tends to distort the unit prices for the purpose of pricing continuation orders and other comparable contracts. Where the two types of adjustment mentioned in (a) and (b) above are not set out in a single instrument it is important that each instrument shall indicate that it accomplishes only a part of the "equitable adjustment" contemplated as a result of the change order.

§ 803.329b–3 *Adjustments attributable to the balance of the contract.* Efficient administration of the contract requires that the charges attributable to the change in unit costs as a result of the change order be determined and adjusted as quickly as possible in order that the contractor shall assume the same risks as he assumed in negotiating the original contract price. In effecting this adjustment, consideration must be given to the factors and principles relating to the negotiation of a new contract discussed in ASF Manual M–601 "Pricing in War Contracts", with particular attention to changes in the cost factors. Any necessary adjustment will in every case be reflected in an increase or decrease of the unit price of the items to be delivered after the change became effective. The claim for this type of adjustment is similar in nature to a claim asserted by a contractor under subparagraph (f) of the Uniform Termination Article (see e. g. § 803.324). Including this adjustment in a written agreement need not be delayed pending completion of the adjustment discussed in the next paragraph. In the event that the contract in question contains the optional price adjustment article set forth in § 803.373–5 or 803.373–6, consideration will be given to the desirability of a negotiation for price adjustment under that article in lieu of the adjustment described in this section.

§ 803.329b–4 *Adjustments attributable to the work before the change order.* (a) A claim for the adjustment of charges attributable to the work done prior to the effective date of the change order is similar in nature to a claim with respect to the uncompleted portion of the contract arising upon termination under the termination article (see e. g. § 803.324). In adjusting such charges the provisions of Subchapter C of this chapter are not controlling but may be used as a guide. The adjustment of this type of charge may be reflected in a lump sum payment and should normally be so reflected where substantial amounts are involved rather than reflected in the price of the article itself.

(b) In the event that the contractor includes in his claim the cost of any property which is rendered unusable by reason of the change order, the contracting officer must safeguard the interests of the Government by assuring that the value of such property is reflected in the adjustment made by reason of the change. Any excess inventory resulting from the change order should, if practicable, be dealt with and accounted for in conformity with Part 844 of this chapter. If title is to be taken by the Government, the agreement will provide clearly what is to be done with the property. The contracting officer will take all necessary action for prompt execution of the provisions of the supplementary agreement relating to property which is to be transferred to the Government.

(c) In view of section 3 (d) of the Contract Settlement Act and § 841.111–4 of this chapter the claim of a subcontractor under a fixed-price prime contract for work cancelled in whole or in part under circumstances which require the Government to bear the cost is a termination claim. The settlement of such a termination claim will be effected in accordance with the principles and under the procedures set out in Subchapter C of this chapter (see especially Part 846). Accordingly, in effecting the adjustments of the prime contract attributable to the work done prior to change order, the prime contractor will not be permitted to include estimated sums on account of the claims of his subcontractors. Instead he will be required to effect settlements of those claims before he may be paid therefor and to agree that any sums received on account of the settlement of the claims of his immediate subcontractors, which are not paid or credited to the immediate subcontractor within 10 days after receipt thereof, will be returned to the Government (see Article 3 of § 849.981–1 of this chapter).

§ 803.329b–5 *Adjustments of changes resulting in a reduction in quantity.* A reduction in the quantity to be delivered under the contract made pursuant to the "Changes" article set forth in § 803.329a constitutes a partial termination within the meaning of the Contract Settlement Act of 1944. The use of a "Changes" article to effect a reduction in quantity and the problems incident thereto are discussed in § 842.216 of this chapter. Attention, however, is directed to the importance of safeguarding the interest of the Government in property rendered unusable because of the reduction by securing title thereto or otherwise receiving credit for the value thereof.

§ 803.330 *Partial payments article when payments are not to exceed 75 per cent of cost of property.* In those cases where it is contemplated that partial payments in an amount not to exceed 75 per cent of the cost to the contractor of the property will be made, the contract will contain an article substantially as follows:

Partial payments. Partial payments, which are hereby defined as payments prior to delivery, on work in progress for the Government under this contract, may be made upon the following terms and conditions.

(a) The Contracting Officer may, from time to time, authorize partial payments to the Contractor upon property acquired or produced by it for the performance of this contract: *Provided*, That such partial payments shall not exceed 75 per cent of the cost to the Contractor of the property upon which payment is made, which cost shall be determined from evidence submitted by the Contractor and which must be such as is satisfactory to the Contracting Officer: *Provided further*, That in no event shall the total of unliquidated partial payments (see (c) below) and of unliquidated advance payments, if any, made under this contract, exceed 80 per cent of the total contract price of supplies still to be delivered.

(b) Upon the making of any partial payment under this contract, title to all parts, materials, inventories, work in process and non-durable tools theretofore acquired or produced by the Contractor for the performance of this contract, and properly chargeable thereto under sound accounting practice, shall forthwith vest in the Government; and title to all like property thereafter acquired or produced by the Contractor for the performance of this contract and properly chargeable thereto as aforesaid shall vest in the Government forthwith upon said acquisition or production: *Provided*, That nothing herein shall deprive the Contractor of any further partial or final payments due or to become due hereunder; or relieve the Contractor or the Government of any of their respective rights or obligations under this contract.

(c) In making payment for the supplies furnished hereunder, there shall be deducted from the contract price therefor a proportionate amount of the partial payments theretofore made to the Contractor, under the authority herein contained.

(d) It is recognized that property (including, without limitation completed supplies, spare parts, drawings, information, partially completed supplies, work in process, materials, fabricated parts and other things called for herein) title to which is or may hereafter become vested in the Government pursuant to this Article will from time to time be used by or be put in the care, custody or possession of the Contractor in connection with the performance of this contract. The Contractor, either before or after receipt of notice of termination at the option of the Government, may acquire or dispose of property to which title is vested in the Government under this Article, upon terms approved by the Contracting Officer, *Provided*, That, after receipt of notice of termination,

any such property that is a part of termination inventory may be acquired or disposed of only in accordance with the provisions of the termination article of this contract and applicable laws and regulations. The agreed price (in case of acquisition by the contractor) or the proceeds received by the contractor (in case of any other disposition), shall, to the extent that such price and proceeds do not exceed the unliquidated balance of partial payments hereunder, be paid or credited to the Government as the contracting officer shall direct; and such unliquidated balance shall be reduced accordingly. Current production scrap may be sold by the Contractor without approval of the Contracting Officer but the proceeds will be applied as provided in this subparagraph (d); *Provided*, That any such scrap which is a part of termination inventory may be sold only in accordance with the provisions of the termination article of this contract and applicable laws and regulations. Upon liquidation of all partial payments hereunder or upon completion of deliveries called for by this contract, title to all property (or the proceeds thereof) which has not been delivered to and accepted by the Government under this contract or which has not been incorporated in supplies delivered to and accepted by the Government under this contract and to which title has vested in the Government under this Article shall vest in the Contractor.

(e) The article of this contract captioned "Liability for Government Property" and any other provision of this contract defining liability for Government-owned property shall be inapplicable to property to which the Government shall have acquired title solely by virtue of the provisions of this Article. The provisions of this Article shall not relieve the Contractor from risk of loss or destruction of or damage to property to which title vests in the Government under the provisions hereof.

(f) If this contract (as heretofore or hereafter supplemented or amended) contains provision for Advance Payments, and in addition if at the time any partial payment is to be made to the Contractor under the provisions of this partial payments article any unliquidated balance of advance payments is outstanding, then notwithstanding any other provision of the Advance Payments Article of this contract the net amount, after appropriate deduction for liquidation of the advance payment, of such partial payment shall be deposited in the special bank account or accounts maintained as required by the provisions of the Advance payments Article, and shall thereafter be withdrawn only pursuant to such provisions.

§ 803.331 *Partial payments article when payments are not to exceed 90 per cent of direct labor and material costs.* In those cases where it is contemplated that partial payments in an amount not to exceed 90 per cent of the direct labor and material costs to the contractor will be made, the contract will contain an article substantially as follows:

Partial payments. Partial payments, which are hereby defined as payments prior to delivery, on work in progress for the Government under this contract, may be made upon the following terms and conditions.

(a) The Contracting Officer may, from time to time, authorize partial payments to the Contractor upon property acquired or produced by it for the performance of this contract: *Provided*, That such partial payments shall not exceed 90 per cent of the direct labor and direct material costs to the Contractor of the property upon which payment is made, which costs shall be determined from evidence submitted by the Contractor and which must be such as is satisfactory to the Contracting Officer; *Provided, further*, That in no event shall the total of unliquidated partial payments (see (c) below) and of unliquidated advance payments, if any, made under this contract, exceed 80 percent of the contract price of supplies still to be delivered.

(b) (c) (d) (e) (f) [These subparagraphs are the same as similarly lettered subparagraphs of the article contained in § 803.330 of these procurement regulations].

§ 803.331a *Amendment of contracts containing partial payments article to include substance of paragraph (d) of partial payments article in § 803.330 or § 803.331.* Any contract which contains a partial payments article similar to that set forth in either § 803.330 or 803.331 but not containing the substance of subparagraph (d) of such article may be amended to include the substance of such subparagraph (d) in such partial payments article. The addition of such paragraph is considered to be of advantage to the Government as simplifying and expediting the transfer and disposition of property acquired for or used in the performance of a contract and it has been determined that the making of such amendments will facilitate the prosecution of the war. Authority is granted to the chief of each technical service to make or to authorize the making of such amendments pursuant to the First War Powers Act and Executive Order No. 9001.

§ 803.332 *Government owned facilities.* The following article is prescribed for inclusion in fixed or unit price contracts under which the contractor is to acquire or manufacture facilities for the account of the Government or the Government is to furnish facilities to the contractor, for use in connection with the contractor's work under the contract:

Government-owned facilities. (A) In connection with its work under this contract, the contractor shall, within the shortest practicable time, acquire or manufacture for the Government's account the facilities listed in Schedule "A" attached hereto, the estimated costs of which are therein stated. (With the prior written approval of the contracting officer as to their character and estimated costs, the contractor may substitute facilities similar to those listed in Schedule "A", in which event said Schedule will be modified accordingly.[1] Such facilities shall be installed by the contractor in its plant or plants, or, if approved in writing by the contracting officer, in the plants of subcontractors. The contractor shall insert provisions in all subcontracts under which such facilities are furnished to the subcontractors whereby there will be made applicable to the Government and the subcontractors substantially the same rights and obligations in respect to such facilities as are made applicable to the Government and the contractor under this Article.

(B) Upon inspection and acceptance of the facilities by the contracting officer, and upon the contractor's furnishing satisfactory evidence that it has made payment or incurred the costs as the case may be, the Government shall reimburse the contractor for the actual costs of Schedule "A" facilities approved by the contracting officer. The term "actual costs," as used in this Article, means the following:

(1) For facilities procured by the contractor from sources other than its own manufacture:

(a) The net invoice price to it of the facilities;

(b) The costs of transportation: *Provided*, That no costs of transportation shall be separately reimbursed when the invoice price reimbursed under (1) (a) hereof includes the costs of transportation;

(2) For facilities manufactured by the contractor:

(a) The net invoice price to it of all direct materials required in manufacture;

(b) The costs of transportation: *Provided*, That no costs of transportation shall be separately reimbursed when the invoice price reimbursed under (2) (a) hereof includes the costs of transportation;

(c) The costs to it of all direct labor required in manufacture;

(d) An amount equal to ——[2] per cent of item (2) (c) hereof as an allowance for all overhead and administrative expenses. The contractor represents, based on experience, that this amount does not include any element of profit, and represents no more than actual costs allocable to manufacture.

The contractor shall install all Schedule "A" facilities at no expense to the Government in addition to the contract price.[3]

(C) In the event the contracting officer shall determine, at any time prior to installation of any item of Schedule "A" facilities, that such item is not reasonably necessary for the performance of this contract, or any other contract for the performance of which the use of that item has been authorized pursuant to paragraph (E) (2), within the time allowed for such performance, he may by written order exercise one of the following options with respect to that item:

(1) If the contractor has made no binding commitment and incurred no expense therefor of a kind reimbursable hereunder as an

---

[1] In appropriate cases the following language may be used in lieu of the sentence in the text enclosed in parentheses:

With the prior written approval of the contracting officer as to their character and estimated costs, the contractor may substitute facilities similar to those listed in Schedule "A", or the contractor may add additional facilities thereto, in which event said Schedule will be modified accordingly: *Provided, however*, That the actual costs reimbursed to the contractor pursuant to paragraph (B) below, for facilities listed in Schedule "A" or such similar facilities as the contractor may substitute therefor and such additional facilities as the contractor may add thereto, shall not exceed the sum of $——.

[2] Insert a number or the word "no".

[3] If costs of installation are to be reimbursed to the contractor, delete this sentence and substitute the following:

"(3) For the installation of facilities acquired or manufactured hereunder, when effected by the servants, agents or employees of the contractor:

"(a) The net invoice price to it of all direct materials required for installation;

"(b) The costs of transportation: *Provided*, That no costs of transportation shall be separately reimbursed when the invoice price reimbursed under (3) (a) hereof includes the costs of transportation;

"(c) The costs to it of all direct labor required for installation;

"(d) An amount equal to —— [insert a number or the word "no"] per cent of item (3) (c) hereof as an allowance for overhead and administrative expenses. The contractor represents, based on experience, that this amount does not include any element of profit, and represents no more than actual costs allocable to installation.

"(4) For the installation of facilities acquired or manufactured hereunder, when effected by persons other than the servants, agents or employees of the contractor:

"(a) The net invoice price to it of the installation."

actual cost: The contracting officer may eliminate the item from Schedule "A" and the Government shall be relieved of any liability therefor.

(2) If the contractor has made a binding commitment or incurred expense therefor of a kind reimbursable hereunder as an actual cost: The contracting officer may direct the contractor to stop all further work and the making of all further commitments thereon and eliminate the item from Schedule "A". In that event the contractor and the contracting officer will attempt to agree on an amount which will reasonably compensate the contractor for the actual cost incurred by him with regard to such eliminated item. If no such agreement is reached within thirty (30) days after the date of elimination (or within such longer period as may at any time be mutually agreed upon), the contractor will be paid an amount, if any, which together with all sums previously paid by the Government on account of the item, shall be sufficient to reimburse the contractor for expenses paid and the settlement of any obligation incurred by the contractor thereon. In lieu of reimbursing the contractor for the settlement of obligations, the Government, in the discretion of the contracting officer, may assume such obligations or any of them. In no event shall the aggregate of reimbursement on account of the item (and of all payments previously made) together with the amount of any obligations assumed, exceed the actual costs, as herein defined, expended or incurred thereon up to the time of such elimination. The contracting officer may permit the contractor to sell or retain at prices or on terms agreed to by the Government any materials, supplies, or work in process, and the proceeds of such sale, or such agreed prices, shall be paid or credited to the Government in such manner as the contracting officer may direct. Upon payment to the contractor pursuant to this subparagraph (2), title to all materials, supplies, work in process and other things for which payment is made (except such property as may be sold or retained as above provided) will vest in the Government (if title thereto has not already vested in the Government). The Government will also become entitled to any rights under any commitment which it may assume, or for the settlement of which it shall have reimbursed the contractor.

(3) The contracting officer may direct the diversion of the item, when it shall have been acquired or its manufacture shall have been completed, to the Government or to any person designated by the contracting officer. In that event the Government shall reimburse the contractor for the actual costs of the item in accordance with the provisions of paragraph (B) hereof, with appropriate adjustment in the amount of reimbursable transportation costs. Upon diversion, the item will be eliminated from Schedule "A".

The determination of the contracting officer that an item of Schedule "A" facilities is not reasonably necessary for the performance of this contract, or any other contract for the performance of which the use of that item has been authorized pursuant to paragraph (E) (2), within the time authorized for such performance, is subject to written appeal by the contractor within ten (10) days to _____ or his

(Chief of the Technical Service)

duly authorized representative, whose decision thereon shall be final and conclusive upon the parties hereto. Pending this decision, the contracting officer shall not exercise any of the above options.

(D) Except with the prior written approval of the contracting officer for each such purchase, the contractor will not purhase any Schedule "A" facilities in which it had any property interest at any time after the commencement of negotiations for this contract.

(E) (1) Title to each item of Schedule "A" facilities shall vest in the Government immediately upon inspection and acceptance thereof by the contracting officer, or at such earlier time as the contracting officer may designate in writing. Such facilities shall be deemed personal property although they may be affixed to realty.

(2) The Government hereby grants to the contractor the right to use Schedule "A" facilities, without the payment of rental therefor, in connection with its work under this contract, and, subject to the written approval of the contracting officer and upon such terms as he may prescribe, in connection with any other work for which the Government and the contractor may heretofore have contracted, or may hereafter contract. (Where the Government, pursuant to this paragraph (E) (2), has granted to the contractor the right to use Schedule "A" facilities in connection with its work on any contract other than the contract of which this Article is a part, the contractor shall at any time, upon the request of the contracting officer, enter into suitable amendments of this Article or suitable separate agreements of lease of the facilities evidencing the terms upon which the facilities are then held.)

(F) (1) The contractor shall not be liable for loss or destruction of or damage to Schedule "A" facilities title to which has vested in the Government (a) caused by any peril while the facilities are in transit off the contractor's premises, or (b) caused by any of the following perils while the facilities are on the contractor's or subcontractor's or other premises or by removal therefrom because of any of the following perils:

Fire; lightning; windstorm, cyclone, tornado; hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the contractor or any agent or employee of the contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of rivers or streams; enemy attack or any action taken by the military, naval or air forces of the United States in resisting enemy attack.

The perils as set forth in (a) and (b) above are hereinafter called "excepted perils."

(2) The contractor represents that it is not maintaining and agrees that it will not hereafter maintain insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to Schedule "A" facilities caused by any excepted peril, and represents that it is not including and agrees that it will not hereafter include in any price to the Government any charge or reserve for such insurance.

(3) Upon the happening of loss or destruction of or damage to Schedule "A" facilities caused by an excepted peril, the contractor shall communicate with the contracting officer and with the Loss and Salvage Organization now or hereafter designated by the contracting officer and, with the assistance of that organization employed by the contractor to perform services in accordance with instructions or regulations of the Government (unless the contracting officer directs that no such organization be employed), shall take all reasonable steps to protect the facilities from further damage, separate the damaged and undamaged facilities, put all the facilities in the best possible order, and furnish to the contracting officer a statement of: (a) the lost, destroyed and damaged facilities, (b) the time and origin of the loss, destruction or damage, (c) all known interests in commingled property of which the facilities are a part, and (d) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged facilities.*[4] The contractor shall be reimbursed the expenditures made by it in performing its obligations under this subparagraph (3) (including charges made to the contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, at its option, assumed direct), as approved by the contracting officer and set forth in a Supplemental Agreement.

(4) With the approval of the contracting officer after loss or destruction of or damage to Schedule "A" facilities, and subject to such conditions and limitations as may be imposed by the contracting officer, the contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of facilities which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the contractor, that separation is impracticable.

(5) Except to the extent of any loss or destruction of or damage to Schedule "A" facilities for which the contractor is relieved of liability under the foregoing provisions of this paragraph (F), and except for reasonable wear and tear or depreciation, the facilities (other than facilities permitted to be sold) shall be returned by the contractor to the Government, or delivered by the contractor to any designee of the Government (at the time elsewhere in this Article provided) in as good condition as when received by the contractor in connection with this contract. In aid of its obligation so to return the facilities, the contractor shall, at its own expense, maintain a program for the proper use, care and maintenance of the facilities, as well as a property control and accounting system consistent with good business practice, and make repairs and replacements.

(6) In the event the contractor is indemnified, reimbursed or compensated for any loss or destruction of or damage to Schedule "A" facilities caused by an excepted peril, it shall equitably reimburse the Government. The contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the contracting officer, shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(7) Whenever any item of Schedule "A" facilities has become unserviceable (whether under circumstances which do or which do not render the contractor liable hereunder), the contractor shall notify the contracting officer, and it may then be required by the contracting officer to dismantle and prepare the item for shipment at no expense to the Government in addition to the contract price, whereupon the item shall be removed promptly by the Government at the Government's expense.

(G) Each item of Schedule "A" facilities shall be suitably marked with an identifying mark or symbol, indicating that such item is the property of the Government. Upon completion of the installation of such facilities, the contractor shall submit to the contracting officer a detailed inventory list including a description of the identifying mark or symbol on each item.

(H) The Government shall not be responsible for damages to property of the contractor or for personal injuries to the contractor's officers, agents, servants or employees, or other persons on the premises as invitees or licensees of the contractor, arising from or incident to the use of Schedule "A" facilities, and the contractor shall save the Government harmless from any and all such claims; *provided*, that nothing in this paragraph shall be deemed to affect any liability of the Government to its own employees.

[4] Italicized language may be omitted in appropriate cases.

(I) The Government shall at all times have access to the premises wherein any Schedule "A" facilities are located.

(J) Except as otherwise in this Article specifically provided, the contractor shall not remove or otherwise part with the possession of any Schedule "A" facilities. The contractor shall not pledge or assign, or transfer or purport to transfer title to any of such facilities in any manner to any third person, either directly or indirectly, nor do or suffer anything to be done whereby any of such facilities shall or may be seized, taken in execution, attached, destroyed or injured. Any violation of the provisions of this paragraph or of paragraph (F) hereof shall entitle the Government forthwith to enter upon the premises wherein such facilities are found and remove the same.

(K) In the event the contracting officer shall determine, at any time after installation of any item of Schedule "A" facilities, that the item is not reasonably necessary for the performance of this contract or any other contract for the performance of which the use of such facilities has been authorized, he may serve on the contractor a written notice of his intention to remove such item. This determination is subject to written appeal by the contractor within ten (10) days to ---------- or his duly
(Chief of the Technical Service)
authorized representative, whose decision shall be final and conclusive upon the parties hereto. Pending this decision, the facilities shall remain in the contractor's plant available for use. At any time within one year after completion or termination in whole or in part of such contracts, the contracting officer may serve on the contractor a written notice of his intention to remove all the Schedule "A" facilities or any portion thereof. Within the shortest practicable time after service of a notice under this paragraph (K), and in no event later than fifteen days thereafter (unless a longer time is allowed by the contracting officer), the contractor, at no expense to the Government in addition to the contract price, will have dismantled and prepared for shipment the items affected.[4] Upon notification from the contractor that the items are ready for shipment, the Government shall remove them at the Government's expense.

(L) If, upon the completion or termination of this contract or any other contract entered into between the Government and the contractor for the performance of which the use of Schedule "A" facilities has been authorized, no notice pursuant to paragraph (K) of intention to remove an item has been received, the contractor shall, at no expense to the Government in addition to the contract price, place the item in stand-by condition, and thereafter maintain it in such condition in its own plant for a period of ninety (90) days from the date of such completion or termination (unless a notice pursuant to paragraph (K) is received in the meantime). In lieu of placing the item in stand-by condition and maintaining it in its own plant, the contractor may store the same elsewhere at its own expense provided that the item can be quickly and readily reinstalled in the production line and production resumed within a reasonable time if necessary in the interest of the Government.

(M) Unless a notice pursuant to paragraph (K) is sooner received, the contractor shall, for a period of nine (9) months after completion of the stand-by period, store the items affected as follows:

(1) In the plant where the items are then located, or in the contractor's other plants in the same locality, if space is available thereat and storage will not materially impair the use of the plant or plants for the contractor's Government or commercial work; or

(2) If space is not available at such plant or plants or storage thereat will materially impair their use by the contractor, then at any other place or places in the vicinity selected by the contractor which are considered satisfactory by the contracting officer. However, the contractor's obligation to store under this subparagraph (2) shall cease if such other place or places cannot be obtained by the contractor, unless the Government shall itself find and designate a place or places of storage.

At the time the items are placed in storage, whether in the contractor's plant or elsewhere, the parties shall attempt to negotiate a Supplemental Agreement to this contract providing for payment to the contractor of a sum or sums agreed upon as representing the reasonable expenses of placing and maintaining the items in storage. In the absence of such agreement, the contractor shall be entitled to receive payment, under this contract, of such reasonable expenses. The contractor's obligation in respect to storage shall be contingent upon the availability of appropriated funds for payment of such reasonable expenses, and if appropriated funds are not available, the contractor shall be under no such obligation. The items affected shall have been dismantled and prepared for shipment, at no expense to the Government in addition to the contract price, within fifteen days after the expiration of the storage period, or, if no storage obligation arises, then within fifteen days after the expiration of the stand-by period (unless a longer time is allowed by the contracting officer). Upon notification from the contractor that the items are ready for shipment, the Government shall remove them at the Government's expense.

(N) The ninety (90) day stand-by period, and the nine (9) month storage period, may be eliminated, shortened or lengthened by agreement of the parties on mutually agreeable terms.

(O)[5] The Government reserves the right to furnish to the contractor f. o. b. the contractor's plant any or all the items of Schedule "A" facilities upon written notice by the contracting officer to the contractor at any time prior to the installation of such items. In such event the contracting officer shall exercise the option described in paragraph (C) (1) or (C) (2) with respect to the item, eliminate it from Schedule "A", and place it on the list of Schedule "B" facilities hereinafter provided for.

(P)[6] The Government shall furnish to the contractor f. o. b. the contractor's plant, the Government-owned facilities listed in Schedule "B" attached hereto, not later than the dates shown thereon. Subject to the right of the contractor to inspect and reject Schedule "B" facilities for good and sufficient reason prior to shipment, the contractor shall receive the same in their then condition, without warranty express or implied on the part of the Government as to serviceability or fitness for use. The contractor shall bear the costs of installation of such facilities.[6] Schedule "B" facilities shall be held by the contractor and considered and treated in the same manner as Schedule "A" facilities under and pursuant to[7] paragraphs (E) (2) and (F) to (N) inclusive of this article.

(Q)[5] The contractor has in its possession, installed and ready for use under this contract, the facilities listed in Schedule "C", title to which is in the Government. Such facilities shall be held by the contractor and considered and treated in the same manner as Schedule "A" facilities under and pursuant to paragraphs (E) (2) and (F) to (N) inclusive of this article. Any previous agreement to the contrary is hereby modified accordingly.

NOTE 1: See §§ 803.365–1a, 804.451–1, 804.498 and 827.723, and Part 810.

NOTE 2: Where it is determined that a rental should be charged (see § 810.1002) paragraph (E) (2) of the article should be appropriately modified.

NOTE 3: Attention is invited to the fact that Government bills of lading (or commercial bills of lading to be converted into Government bills of lading at destination) may be availed of to secure the benefits of land grant freight rates where title to the facilities or parts thereof is in the Government at point of origin (see paragraphs (E) (1) and (B)).

NOTE 4: In cases where facilities are hereafter to be acquired or manufactured by, or furnished by the Government to, a contractor, a clause may be included granting an option to the contractor to purchase the facilities, provided the chief of the technical service finds that such action will be in the interest of the Government. (The power to make this finding is *not* subject to delegation by the chief of the technical service, unless the Director, Purchases Division, Headquarters, Army Service Forces, specifically authorizes a delegation.) In such cases, unless otherwise authorized by the Director, Purchases Division, Headquarters, Army Service Forces, the option will contain the following features:

(i) The option will come into effect only upon the date of expiration of the standby-plus-storage period, and will cover all, but not part of, the facilities as to which a standby obligation arose and as to which no notice under paragraph (K) of intention to remove has been served upon the contractor during the standby-plus-storage standby period.

(ii) The option period will extend for not more than fifteen days after the date specified in Note 4 (i).

(iii) The option price will be the full cost of the facilities to the Government (including transportation and installation charges) less specified rates of depreciation, plus storage charges incurred under paragraph (M).

NOTE 5: Amendments may be made of existing contracts, substituting the article above set forth (or pertinent portions thereof) for provisions regarding Government-owned facilities now appearing in such contracts, subject to the following:

(i) Uniformity of treatment is considered essential. Accordingly, authority to make these amendments will not be exercised until the technical service concerned apprises all its contractors holding Government-owned facilities of the promulgation of the article above set forth and specifically informs them that they may negotiate with the Government for amendment of their contracts.

(ii) Government negotiators must recognize that contractors will typically derive substantial benefits from these amendments. For example, under the article above set forth the standby period is ninety days and storage is at Government expense, while under the article previously authorized the standby period was one year, and storage expenses were not chargeable to the Government. In general, the article above set forth facilitates the conversion of plants. Accordingly, amendments of existing contracts will be permitted only where the Government receives material and adequate consideration, measured by any difference in value to the contractor between the superseded article and the article inserted by amendment.

(iii) Except with the approval of the chief of the technical service concerned, no amendment will be permitted of an existing Government-owned facilities article which includes a purchase option, unless, as part of

---

[5] Delete if inapplicable.

[6] If such costs are to be reimbursed to the contractor, make appropriate changes (see paragraphs (B) (3) (a) (c) (d) and (B) (4) (a) above).

[7] Insert "subparagraphs (1) and (3 of paragraph (C) and" if contractor is to be reimbursed the costs of installation of Schedule "B" facilities.

the amendment, the purchase option is modified to include the features mentioned in Note 4 (i), (ii) and (iii) above. (The power to give such approval is *not* subject to delegation by the chief of the technical service, unless the Director, Purchases Division, Headquarters, Army Service Forces, specifically authorizes a delegation.) The approval of the Director, Purchases Division, Headquarters, Army Service Forces, will be obtained before any existing Government-owned facilities article which does not include a purchase option, is amended to grant such option.

(iv) The technical services will maintain close supervision of all amendments under this Note 5 and will require adequate records to be prepared and preserved of the negotiations leading to the amendments.

NOTE 6: In the event that the facilities are located in an area outside the United States, where the services of the Loss and Salvage Organizations and not available, the following clause will be used in lieu of paragraph (F) (3) above:

"Upon the happening of loss or destruction of or damage to Schedule "A" facilities caused by an excepted peril, the contractor shall communicate with the contracting officer, shall take all reasonable steps to protect the facilities from further damage, separate the damaged and undamaged facilities, put all the facilities in the best possible order, and furnish to the contracting officer a statement of: (a) the lost, destroyed and damaged facilities, (b) the time and origin of the loss, destruction or damage, (c) all known interests in commingled property of which the facilities are a part, and (d) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged facilities.* [Italicized words may be omitted in appropriate cases.] The contractor shall be reimbursed the expenditures made by it in performing its obligations under this subparagraph (3) as approved by the contracting officer and set forth in a Supplemental Agreement."

§ 803.334 *Records of Government-owned property: contract clause.* All contracts, in connection with which property or supplies of any kind owned by the United States are furnished to a contractor for use on the contract or as guides, samples, etc., will contain the following clause without deviation:

Records of Government-owned property. The property officer, _____, is designated as the officer to maintain the necessary property records in connection with this contract.

§ 803.335 *Patent provisions.* The patent articles set forth in §§ 803.335–1 to 803.335–8, inclusive, are for use in accordance with the policy and discretion set forth in §§ 811.1116, 811.1117 and 811.1118.

§ 803.335–1 *License under foreground patents.* Where it is proper in a development contract (see §§ 811.1116–1 to 811.1116–7, inclusive) to require the contractor to grant the Government a license under foreground patents, the appropriate contract article is as follows:

ARTICLE ___. *Patent rights.* (1) Where used in this Article, and not elsewhere in this contract, the expression "Subject Invention" means each invention, improvement and discovery (whether or not patentable) conceived or first actually reduced to practice in the performance of this contract, including any subcontract hereunder, or in the performance of any research or development work relating to the subject-matter hereof which was done upon the understanding that this contract or any subcontract hereunder would be awarded; the expression "Technical Personnel" means each person employed by or working under the direction of Contractor or any subcontractor hereunder who, by reason of the nature of his duties in connection with the performance of this contract, or any subcontract hereunder, would reasonably be expected to make inventions; and the expression "Contractor's Patent Rights" means all patents and applications for patent, under which Contractor now has or may hereafter acquire the right to grant a licence, to the extent that they are based upon the disclosure of inventions other than a Subject Invention.

(2) Contractor agrees to and does hereby grant to the Government an irrevocable, non-exclusive, non-transferable and royalty-free license to practice, and cause to be practiced for the Government, throughout the world, each Subject Invention in the manufacture, use and disposition according to law of any article or material, and the use of any method: *Provided, however,* That as respects any Subject Invention made by others than Technical Personnel, and as respects the practice of any Subject Invention in foreign countries, the said license shall be to the extent of Contractor's right to grant the same: *And provided further,* That nothing contained in this sentence shall be deemed to grant a license under Contractor's Patent Rights. Contractor agrees (i) to deliver to the Contracting Officer or his designee, promptly and in any event prior to final settlement, a complete written disclosure of each Subject Invention which reasonably appears to be patentable and, as to each such invention, to exert its best efforts to effect such delivery within six months after first publication, public use or sale; (ii) to designate, at the time of such delivery, whether or not said invention has been or will be claimed in a patent application, and to file or cause to be filed in due form and time an application covering each such invention affirmatively so designated; (iii) to furnish to the Contracting Officer or his designee, on request, copies or an irrevocable power to inspect and make copies of each patent application filed by or on behalf of the Contractor covering any Subject Invention; (iv) to deliver to the Contracting Officer or his designee, duly executed, such instruments of assignment, application papers and rightful oaths, prepared by the Government, as the Contracting Officer or his designee deems necessary to vest in the Government (but, as to any Subject Invention made by others than Technical Personnel, only to the extent of Contractor's right to do so) the sole and exclusive ownership in, and the right to apply for and prosecute patent applications covering, each Subject Invention which Contractor does not affirmatively designate as aforesaid (subject however to the reservation of a personal, non-exclusive and royalty-free license thereunder to Contractor); and (v) to deliver to the Contracting Officer or his designee, duly executed, such instruments of licence, prepared by the Government, confirmatory of any licence rights herein agreed to be granted to the Government, as the Contracting Officer or his designee may require.

(3) Contractor agrees to and does hereby grant to the Government the right to reproduce, use and disclose for any governmental purpose all or any part of the reports, drawings, blueprints, data and technical information to be delievered by Contractor to the Government under this contract: *Provided, however,* That nothing contained in this sentence shall be deemed to grant a license under any patent now or hereafter issued.

§ 803.335–2 *License under foreground and background patents.* Where it is proper in a development contract (see § 811.1116–8 to 811.1116–10, inclusive) to require the contractor to grant the Government a license under foreground and background patents, the appropriate contract article is as follows:

ARTICLE ___. *Patent rights.* (1) Where used in this Article and not elsewhere in this contract, the expression "Subject Invention" means each invention, improvement and discovery (whether or not patentable) conceived or first actually reduced to practice in the performance of this contract, including any subcontract hereunder, or in the performance of any research or development work relating to the subject-matter hereof which was done upon the understanding that this contract or any subcontract hereunder would be awarded; the expression "Technical Personnel" means each person employed by or working under the direction of Contractor or any subcontractor hereunder who, by reason of the nature of his duties in connection with the performance of this contract, or any subcontract hereunder, would reasonably be expected to make inventions; and the expression "Contractor's Patent Rights" means all patents and applications for patent, under which Contractor now has or may hereafter prior to final settlement acquire the right (without obligation to make payment to others) to grant the license hereinafter set forth, to the extent that they are based upon the disclosure of inventions (other than a Subject Invention) which relate to or are useful in connection with the manufacture or use of the subject-matter of this contract.

(2) Contractor agrees to and does hereby grant to the Government an irrevocable, non-exclusive, non-transferable and royalty-free license to practice, and cause to be practiced for the Government, throughout the world, (a) each Subject Invention in the manufacture, use and disposition according to law of any article or material, and the use of any method: *Provided, however,* That as respects any Subject Invention made by others than Technical Personnel, and as respects the practice of any Subject Invention in foreign countries, the said license shall be to the extent of Contractor's right to grant the same; and (b) each invention covered by Contractor's Patent Rights in the manufacture, use and disposition according to law of any and all _____ and parts thereof of the type made or developed in the performance of this contract or any subcontract hereunder, and any modification or improvement thereof, but acceptance or exercise of said license shall not estop the Government at any time to contest the enforceability, validity or scope of, or the title to, any patent so licensed. Contractor agrees (i) to deliver to the Contracting Officer, or his designee, promptly and in any event prior to final settlement, a complete written disclosure of each Subject Invention which reasonably appears to be patentable and, as to each such invention, to exert its best efforts to effect such delivery within six months after first publication, public use or sale; (ii) to designate, at the time of such delivery, whether or not said invention has been or will be claimed in a patent application, and to file or cause to be filed in due form and time an application covering each such invention affirmatively designated as aforesaid; (iii) to furnish to the Contracting Officer or his designee, on request, copies or an irrevocable power to inspect and make copies of each patent application filed by or on behalf of the Contractor covering any Subject Invention; (iv) to deliver to the Contracting Officer or his designee, duly executed, such instruments of assignment, application papers and rightful oaths, prepared by the Government, as the Contracting Officer or his designee deems necessary to vest in the Government (but, as to any Subject Invention made by others than Technical Personnel only to the extent of Contractor's right to do so) the sole and exclusive ownership

in, and the right to apply for and prosecute patent applications covering, each Subject Invention which Contractor does not affirmatively designate as aforesaid (subject however to the reservation of a personal, nonexclusive and royalty-free license thereunder to Contractor); and (v) to deliver to the Contracting Officer or his designee, duly executed, such instruments of license, prepared by the Government, confirmatory of any license rights herein agreed to be granted to the Government, as the Contracting Officer or his designee may require.

(3) Contractor agrees to and does hereby grant to the Government the right to reproduce, use and disclose for any governmental purpose all or any part of the reports, drawings, blueprints, data and technical information to be delivered by Contractor to the Government under this contract; *Provided, however,* That nothing contained in this sentence shall be deemed to grant a license under any patent now or hereafter issued.

§ 803.335–3 *Title to foreground patents.* Where it is proper in a development contract (see §§ 811.1116–11 and 811.1116–12) to require the contractor to assign to the Government title to foreground patents, the appropriate contract article is as follows:

ARTICLE ___. *Patent rights.* (1) Where used in this Article and not elsewhere in this contract, the expression "Subject Invention" means each invention, improvement and discovery (whether or not patentable) conceived or first reduced to practice in the performance of this contract, including any subcontract hereunder, or in the performance of any research or development work relating to the subject-matter hereof which was done upon the understanding that this contract or any subcontract hereunder would be awarded, unless disclosed in a patent application filed prior to the commencement of such performance; the expression "Technical Personnel" means each person employed by or working under the direction of Contractor or any subcontractor hereunder who, by reason of the nature of his duties in connection with the performance of this contract, or any subcontract hereunder, would reasonably be expected to make inventions; and the expression "Contractor's Patent Rights" means all patents and applications for patent, under which Contractor now has or may hereafter acquire the right to grant a license, to the extent that they are based upon the disclosure of inventions other than a Subject Invention.

(2) Each Subject Invention made by Technical Personnel and, to the extent of Contractor's assignable rights therein, each Subject Invention made by others than Technical Personnel, shall be the sole and exclusive property of the Government, and the Contracting Officer or his designee shall have sole power to determine to whom, and in what manner and form, consistent with law, title thereto shall be assigned and patent protection therefor shall be obtained in any country; *Provided, however,* That nothing contained in this sentence shall be deemed to grant a license under Contractor's Patent Rights. Contractor agrees (i) to deliver to the Contracting Officer or his designee, promptly and in any event prior to final settlement, a complete written disclosure of each Subject Invention which reasonably appears to be patentable and, as to each such invention, to exert its best efforts to effect such delivery within six months after first publication, public use or sale; and (ii) to deliver to the Contracting Officer or his designee, duly executed, such instruments of assignment, application papers and rightful oaths, relating to each Subject Invention title to which is to be assigned pursuant to this contract, as the Contracting Officer or his designee may require in order to enable patent applications therefor to be filed and prosecuted, and title to such applications to be assigned and recorded, in any country.

(3) Contractor agrees to and does hereby grant to the Government the right to reproduce, use and disclose for any governmental purpose all or any part of the reports, drawings, blueprints, data and technical information to be delivered by Contractor to the Government under this contract; *Provided, however,* That nothing contained in this sentence shall be deemed to grant a license under any patent now or hereafter issued.

§ 803.335–4 *Indemnity against patent risks (broad form).* Where it is proper (see § 811.1117–3) to require the contractor to indemnify the Government against all patent infringement risks, the appropriate contract article is as follows:

ARTICLE ___. *Patent indemnity.* The Contractor agrees to indemnify the Government, its officers, agents, servants and employees against liability including costs and expenses for infringement upon any Letters Patent of the United States (except Letters Patent issued upon an application which is now or may hereafter be ordered to be kept secret under the provisions of the Act of October 6, 1917, as amended, 35 U.S.C. 42) occurring in the performance of this contract or arising (in respect only of inventions which are actually embodied in items manufactured or supplied hereunder, or are involved in the use, unless there be more than one practicable use, of such items) by reason of the use or disposal of such items by or for the account of the Government.

§ 803.335–5 *Indemnity against patent risks (narrow form).* Where it is proper (see § 811.1117–4) to require the contractor to indemnify the Government against all patent infringement risks except those which necessarily result from the contractor's compliance with specifications (unless originating with the contractor) forming a part of the contract or with specific written instructions given by the Contracting Officer for the purpose of directing the manner of performance thereof, the appropriate contract article is as follows:

ARTICLE ___. *Patent indemnity.* (a) The Contractor agrees to indemnify the Government, its officers, agents, servants and employees, against liability including costs and expenses for infringement upon any Letters Patent of the United States (except Letters Patent issued upon an application which is now or may hereafter be ordered to be kept secret under the provisions of the Act of October 6, 1917, as amended, 35 U.S.C. 42) occurring in the performance of this contract or arising (in respect only of inventions which are actually embodied in items manufactured or supplied hereunder, or are involved in the use, unless there be more than one practicable use, of such items) by reason of the use or disposal of such items by or for the account of the Government; excepting however infringements necessarily resulting from the Contractor's compliance with specifications (unless originating with the Contractor) now or hereafter forming a part of this contract or with specific written instructions given by the Contracting Officer for the purpose of directing the manner in which the Contractor shall perform this contract.

(b) The Contractor shall diligently and promptly report to the Contracting Officer in reasonable written detail (i) each claim of patent infringement asserted with respect to, and (ii) the identity and apparent pertinence of each adversely-held domestic patent having a bearing or apparent bearing upon, the subject-matter or performance of this contract, which said claim or bearing has heretofore or shall hereafter prior to final settlement come to the attention of the Contractor's legal representatives or executive agents.

§ 803.335–6 *Authorization and assistance.* Where there is reason to believe (see § 811.1117–6) that the manufacture, use or disposal of any of the items to be supplied under a contract may create risk of patent infringement or may involve the payment of royalties (whether or not the contractor indemnifies the Government against patent infringement risks), the appropriate contract article is as follows:

ARTICLE ___. *Authorization and assistance.* (a) For the purpose set forth in Section 6 of the Royalty Adjustment Act 1942 (Public No. 768, 77th Cong.; 35 U.S.C. 94), insofar as said Section 6 refers to the Act of June 25, 1910, as amended (35 U.S.C. 68), and for no other purpose whatsoever, the Government shall, without prejudice to its rights of indemnification if any be deemed to have given its authorization and consent to the use and manufacture, in the performance of this contract or of any subcontract hereunder, (1) of any patented invention embodied in the structure or composition of any article the delivery of which is accepted by the Government under this contract and (2) of any patented invention utilized in machinery, tools or methods the use of which necessarily results from compliance by the Contractor or the using subcontractor with (i) specifications or written provisions now or hereafter forming a part of this contract or (ii) specific written instructions given by the Contracting Officer for the purpose of directing the manner of such performance.

(b) The Contractor shall diligently and promptly report to the Contracting Officer in reasonable written detail (i) each claim of patent infringement asserted with respect to, and (ii) the identity and apparent pertinence of each adversely-held domestic patent having a bearing or apparent bearing upon, the subject-matter or performance of this contract, which said claim or bearing has heretofore or shall hereafter prior to final settlement come to the attention of the Contractor's legal representatives or executive agents.

(c) In case the rates or amounts of any royalties, which are directly or indirectly chargeable to the Government under this contract, are adjusted pursuant to the provisions of the Royalty Adjustment Act 1942 (Public No. 768, 77th Cong.; 35 U.S.C. 89) or in any other manner, the prices herein shall be reduced to the extent that the Contractor receives the benefit of such adjustment, or fails to take the benefit thereof after the Government has given the Contractor notice in writing not to make the payment involved, and the Contractor shall pay or credit, as the Contracting Officer may direct, the amount of such price reduction. Nothing contained in this contract shall be deemed to constitute an approval by the Government of the rates or amounts of any royalties chargeable to the Government hereunder, or to prejudice or impair the right of the Government or any department or agency thereof to adjust the rate or amount of such royalties.

Attention is directed to the fact that clause (b) of the foregoing article is a duplicate of clause (b) of the contract article set forth in § 803.335–5 above. If the contract articles set forth in this section and in § 803.335–5 are both used in the same contract, the duplicating provision of this section should be eliminated.

§ 803.335–7 *Indemnity bond.* Where the giving of bond in support of the contractor's indemnity obligation is deemed necessary (see § 804.406–5) the appropriate contract article is as follows:

ARTICLE ___. *Patent infringement bond.* The Contractor shall give a bond in an amount satisfactory to the United States, the terms of which shall fully protect the Government against loss should the Contractor default in any patent indemnity obligation herein set forth.

§ 803.335–8 *Patent applications disclosing certain classified subject-matter.* Where it is proper for the Government to control the filing of patent applications disclosing top secret, secret or confidential subject-matter of a contract (see § 811.1116–13), the appropriate contract article is as follows:

While and so long as the subject-matter of this contract is classified by the War Department as "Confidential" or "Secret" or higher, Contractor agrees that, before filing or causing to be filed a patent application disclosing such subject-matter, Contractor will refer the proposed application to the Contracting Officer or his designee for a recommendation by the War Department whether such application should be ordered to be kept secret under the provisions of the Act of October 6, 1917, as amended (35 U.S.C. 42), and will faithfully observe any reasonable instructions given by the Contracting Officer or his designee in that regard which instructions may include a direction not to file the same so long as the Contracting Officer or his designee deems such action necessary in the interests of national security. If and to the extent that the subject-matter of this contract is classified by the War Deparment as "Secret" or higher, Contractor agrees upon request of the Contracting Officer or his designee to assign and convey to the Government the entire right, title and interest in and to each United States patent application, disclosing the said subject-matter or any part thereof of this contract and filed by or on behalf of Contractor, which Contractor is not obligated to assign to the Government by virtue of any other provision of this contract, the same to be held by the Government subject to reversion of the entire right, title and interest therein to Contractor upon allowance of the said application; *Provided, however,* That nothing contained in this sentence shall enlarge or diminish the rights otherwise granted to or reserved by the Government or Contractor in respect of said application or the invention covered thereby except as and to the extent herein expressly provided.

§ 803.336 *Classified contracts: disclosure of information clause.* All top secret, secret, confidential or restricted contracts will contain the following clause without deviation:

Disclosure of information. (a) It is understood that disclosure of information relating to the work contracted for hereunder to any person not entitled to receive it, or failure to safeguard all secret, confidential and restricted matter that may come to the Contractor or any person under his control in connection with the work under this contract, may subject the Contractor, his agents, employees, and subcontractors to criminal liability under the laws of the United States. See Title 1 of an Act approved June 15, 1917 (40 Stat. 217; 50 U.S.C. 31–42) as amended by an Act approved March 28, 1940 (54 Stat. 79); and the provisions of an Act approved Jan. 12, 1938 (52 Stat. 3; 50 U.S.C. 45–45d, as supplemented by Executive Order No. 8381, dated March 22, 1940, 5 F.R. 1147.

(b) The Contractor shall cause a like provision to be inserted in all subcontracts under this contract.

§ 803.337 *Classified contracts; employment of aliens clause.* All top secret, secret, confidential or restricted contracts will contain the following clause without deviation (for a further discussion of the subject of employment of aliens, see Subpart K of Part 809):

Employment of aliens. The Contractor will not permit any alien employed or to be employed by it or by any sub-bidder or subcontractor to have access to the drawings, specifications and accompanying enclosures relating to the performance of this contract, or to the models or material referred to therein, or to engineering principles, composition, subassemblies, or assemblies which are vital to the functioning or use of the article or articles forming the subject matter of this contract, without the written consent beforehand of the Secretary of War.

With respect to any classified contract, now in effect and not completely performed, which contains a provision with respect to the employment of aliens in a different form from that herein prescribed, the chiefs of technical services concerned will take steps, where they deem it necessary to do so, to amend such provision by substituting therefor the clause herein prescribed.

§ 803.337–1 *Employment of aliens in connection with contracts for aircraft, aircraft parts or aeronautical accessories.* All top secret, secret, confidential or restricted contracts which are also subject to the act approved July 2, 1926, as amended March 3, 1927, section 10 (j)–(p); 10 U.S.C. 310 (j)–(p), relating to the employment of aliens in connection with contracts for furnishing or constructing aircraft, aircraft parts or aeronautical accessories for the United States may also contain such reference to that act or its provisions as the Commanding General, Army Air Forces, deems appropriate.

§ 803.338 *Plant protection; contract clauses.* In those cases where the contracting officer deems it necessary to retain some control as to the plant protective devices in a particular plant, the contract will contain a clause substantially similar to one of those set forth below. Such a clause will not normally be necessary in construction contracts.

Plant protection. The Contractor shall maintain in and about his plant adequate plant protective devices and shall employ such watchmen, guards and other personnel as the Contracting Officer may deem necessary to prevent espionage, sabotage, and other malicious destruction or damage.

Plant protection. The Contractor shall maintain in and about his plant adequate plant protective devices and shall employ such watchmen, guards and other personnel as the Contracting Officer may deem necessary to prevent espionage, sabotage, and other malicious destruction or damage. If the Contracting Officer from time to time shall require the installation of plant protective devices or the employment of watchmen, guards or other personnel, or both, in addition to those deemed necessary by him on the date the Contractor shall commence performance of this contract, the cost of any such devices installed or the pay of any such personnel employed, or both, at the written request and upon the written authorization of the Contracting Officer, shall be reimbursed to the Contractor upon submission of vouchers approved by the Contracting Officer, provided that no reimbursement of the cost of any such installation or pay of any such personnel, or both, shall be made in excess of the cost thereof, as estimated in advance and approved in writing by the Contracting Officer.[1]

Plant protection. (a) The Contractor and each Subcontractor, at his own expense, at all times during the term of this contract, or any subcontract hereunder, shall continue all such precautions for the guarding and protection of his plant, property and work in process, as immediately prior to the date of this contract have been taken by the Contractor or Subcontractor for the protection of the plant, and shall make available such information with respect thereto as the Contracting Officer may request.

(b) The Contractor agrees to furnish the authorized Security and Safety personnel of the War Department with a survey of the existing internal security system at the Contractor's plant. The Contractor agrees, at his own expense, to make the changes set forth in Appendix . . . hereto annexed and made a part hereof to cause his existing internal security system to comply with the regulations of _____

(Chief of Technical Service)

including the recommendations made by the appropriate War Department Internal Security personnel

(c) At any time during the term of this contract, the Contracting Officer or his duly authorized representative may require the Contractor or Subcontractor to install and maintain in and about the plant additional protective devices, equipment and personnel. The Contractor and each Subcontractor shall submit promptly to the Contracting Officer or his duly authorized representative, for prior approval as to estimated cost, detailed inventories, including the estimated cost of each item of protective devices or equipment so required to be installed and of installing the same and a detailed estimate of the cost of maintaining any such additional protective devices or equipment and personnel.

(d) The Contractor or Subcontractor shall be reimbursed upon the submission of a voucher approved by the Contracting Officer, or his duly authorized representative, for the cost of maintaining such additional personnel as may have been required under paragraph (c) hereof, and the Contractor shall be reimbursed also for all payments made by it to Subcontractors pursuant to paragraph (b) hereof. The Contractor or Subcontractor shall be reimbursed, upon the submission of a voucher approved by the Contracting Officer or his duly authorized representative, the invoice price of the additional plant protective devices or equipment so required pursuant to Paragraph (c) hereof. In addition the Contractor or Subcontractor shall be reimbursed the reasonable cost of installing such additional plant protective devices or equipment. Such reasonable cost shall include only transportation to the Contractor's or Subcontractor's plant, direct labor, and direct material necessary for the installation of the additional plant protective devices or equipment. The Government shall not be under obligation to make reimbursement of total cost of such additional plant protective devices or equipment and of installing the same in excess of the estimate approved in advance by the Contracting Officer unless payment of such excess shall be

[1] If desired an additional proviso may be added, reading substantially as follows:

Provided further that no reimbursement of the cost of any such installation or pay of any such personnel is being made to the contractor by other means.

approved or ratified by the Contracting Officer as reasonable. If the Contracting Officer and the Contractor or Subcontractor, as the case may be, are able to agree upon the amount of the cost of such additional devices or equipment, such sum shall be the amount to be reimbursed hereunder.

(e) Title to all plant protective devices and equipment added under Paragraph (c) of this Article shall be in the Government. The Contractor or Subcontractor, during the term of this contract or any extension thereof or during the term of the Subcontract or any extension thereof, at his own expense, shall maintain and keep in good condition and repair all such protective devices and equipment. If such protective devices and equipment are to be installed on premises leased by the Contractor, the Contractor shall take appropriate steps to preserve the Government's right to remove such property pursuant to Paragraph (g) of this Article.

(f) The _____
(Chief of Technical Service)
or his duly authorized representative, and authorized plant protection personnel of the War Department, at all times during the performance of this Contract or any extension thereof, or during the term of the Subcontract or any extension thereof, and until after expiration of the right of removal set forth below, shall have access to the Contractor's plant, or the plant of the Subcontractor, in order to inspect, inventory, or remove any of said plant protective devices or equipment required pursuant to Paragraph (c) hereof, and to inspect the premises with respect to compliance with all regulations and requirements concerning plant protection, including any recommendations made by the appropriate War Department Internal Security personnel.

(g) After the completion or termination of this contract and prior to final settlement thereof, the Contractor, or the Subcontractor, as the case may be, shall have the option, exercisable in writing, to purchase at the then value as fixed by the Contracting Officer, or his duly authorized representative, any special plant protective devices or equipment theretofore installed in his plant pursuant to Paragraph (c). Not later than the date of final settlement, the Contractor or Subcontractor shall notify the Contracting Officer in writing to remove any such devices or equipment as to which the option to purchase is not to be exercised, and the Government shall have the right, at any time within 180 days after the receipt of such notice, to remove at its own expense any such plant protective devices or equipment.

(h) The Contractor agrees to insert in each of his subcontracts the following provision:

"The Subcontractor agrees to be bound by the provisions of Article _____ of the
(This Article)
prime contract with the Government insofar as they are applicable to this contract. The Prime Contractor will reimburse the Subcontractor for the cost of such special devices, equipment and personnel as have been or hereafter may be added by the Subcontractor, pursuant to Paragraph (c) of Article _____, for which reimbursement has not been made by the Government direct to the Subcontractor according to the terms set forth in Paragraph (d) of Article _____"

(i) For the purpose of this Article, a subcontract is defined as any contract or agreement entered into between the Contractor and any other party, for the performance of all or any part of the work called for under this Contract.

(j) The Contractor, upon request of the Contracting Officer, shall suspend from access to work under this contract any officer or employee whose continued employment is deemed by the Contracting Officer to endanger the security of the war effort.

(k) If guard personnel are members of the Civilian Auxiliary to the Military Police or successor organization, the Contractor shall be reimbursed for such additional cost approved by the Contracting Officer as may be incurred because of compliance with regulations and orders issued by a military commanding officer in charge of the Contractor's plant guards.

§ 803.340 *Rental of gas cylinders; contract clause.* Every contract for the rental of gas cylinders will contain a clause substantially similar to one of the following:

Rental of gas cylinders (individual basis). Cylinders shall remain the property of the contractor and will be loaned, without charge, to the Government for a period of 30 days after the date of shipment of cylinders from the contractor's plant. Beginning with the first day after the expiration of the 30-day free loan period to and including the day the cylinders are released to the transportation company for return to the contractor, there will be charged and the United States agrees to pay the contractor a rental at the rate of $_____ per cylinder per day for the use of cylinders not returned to the contractor.

Rental of gas cylinders (quantity basis). Cylinders shall remain the property of the contractor and will be loaned, without charge, to the Government for a period of 30 days after the date of shipment of cylinders from the contractor's plant. Beginning with the first day after the expiration of the 30-day free loan period to and including the day the cylinders are released to the transportation company for return to the contractor, there will be charged and the United States agrees to pay the contractor a rental at the rate of $_____ per cylinder per day, computed on a quantity basis, as indicated below, for the use of cylinders not returned to the contractor. This rental charge will be computed separately for oxygen and acetylene cylinders and for each point of delivery named in the contract. A credit of 30 cylinder days will accrue for each cylinder shipped. A debit of one cylinder day will accrue for each cylinder for each day held beginning with the day after date of shipment from contractor's plant to and including the day the cylinder is released to the transportation company for return to the contractor. At the end of the contract period, in the event the total number of debits exceeds the total number of credits, rental will be charged for the difference. If the total number of credits equals or exceeds the total number of debits, no charge will be made for the use of the cylinders.

All cylinders not returned to the contractor on or before the expiration of a 90-day rental period or lost or damaged beyond repair while in the possession of the United States Government shall be paid for by the United States to the contractor at a replacement value of $_____ for each oxygen cylinder of 100 to 110 cubic feet capacity, $_____ for each oxygen cylinder of 200 to 220 cubic feet capacity, $_____ for each acetylene cylinder of 100 to 150 cubic feet capacity, and $_____ for each acetylene cylinder of 250 to 300 cubic feet capacity.

Cylinders retained or lost and so paid for shall be considered the property of the United States. But if and when located they may, at the option of the Government, be returned to the contractor, and, in such event, credit shall be allowed to the Government at the replacement value paid, less rental at the rate of $_____ per day beginning at the expiration of the 30-day loan period as aforesaid to the date upon which cylinders are turned over to carrier for return to contractor's plant.

§ 803.341–3 *Article _____. Conversion to fixed price contract.* The following article will be used in cost-plus-a-fixed-fee contracts in accordance with § 802.232–3 of this chapter:

ARTICLE _____. *Conversion to fixed price contract.* (a) The Government and the Contractor agree to convert this contract from a cost-plus-a-fixed-fee basis to a fixed price basis in accordance with this article.

(b) Within (15) days after the production of ____% of the items covered by this contract, the Contractor will submit to the Contracting Officer the following data:[1]

(1) Statements showing the cost of producing all items theretofore completed for delivery for which cost figures are available, and such other statements as the Contracting Officer may require.

(2) Estimates of the cost of producing the remainder of the contract based upon the previous cost experience of the Contractor and upon all other relevant factors.

(3) Proposed prices for the items theretofore delivered and to be delivered during the remainder of the contract.

(c) Upon the filing of the data required by section (b) hereof, the Contractor and Contracting Officer will negotiate in good faith to agree upon a price or prices for this contract on a fixed price basis. In negotiating such prices consideration may be given to all pertinent factors which have affected the Contractor's costs during the preceding period and which are likely to affect such costs during the remainder of the contract and to all pertinent factors bearing upon the profit margin which is reasonable for the Contractor to earn under the contract. The agreement to convert may make the fixed price basis applicable to the entire contract, including performance before as well as after the effective date of the conversion; and it may provide for the treatment of any advance payments and reimbursements theretofore made to the Contractor as payments under the revised contract, for appropriate credit for deliveries theretofore made by him, and for releasing to the Contractor any interest or title of the Government in any materials and property acquired for the performance of the contract. The terms of the agreement shall be evidenced by a supplemental agreement.

(d) Any conversion made or contract price fixed under this Article is without prejudice to the determination of any excessive profits of the Contractor upon subsequent renegotiation under Section 403 of the Sixth Supplemental National Defense Appropriation Act, 1942, as amended, or the contract article inserted herein pursuant to that Act.

§ 803.342 *Articles governing statutory renegotiation.* The following articles dealing with statutory renegotiation will be used in accordance with Part 812 of this chapter (§ 812.1202 et seq., § 812.1207 et seq.).

§ 803.342–1 [*Form 1*] *Renegotiation pursuant to the Renegotiation Act: Form for general use.*

---

[1] Where it will be unduly difficult for the Contractor to submit the data in the form specified in paragraphs (1) and (2), the following form may be substituted for those paragraphs, if the Contracting Officer is satisfied that it will provide reliable and sufficient data for the purposes of the article:

"(1) Revised estimates of the cost of performing the entire contract, based upon the cost experience of the Contractor during the trial run and upon all other relevant factors, itemized in the same way as the estimated cost stated in section (b) above, and showing separately any reserves for contingencies included in the estimate."

Paragraph (3) will then be renumbered (2).

ARTICLE ____. *Renegotiation.* (a) This contract shall be deemed to contain all the provisions required by subsection (b) of the Renegotiation Act as amended by Section 701 of the Revenue Act of 1943 (Public Law No. 235, 78th Congress, enacted February 25, 1944).

(b) In compliance with said subsection (b) of the Renegotiation Act, the Contractor shall insert in the subcontracts specified in said subsection (b) either the provisions of this Article or the provisions required by said subsection (b).

§ 803.342–2 [*Form II*] *Same: Form for contracts exempt under discretionary exemption.*

ARTICLE ____. *Renegotiation.* (a) The Contractor agrees to insert in the subcontracts specified in subsection (b) of the Renegotiation Act as amended by Section 701 of the Revenue Act of 1943 (Public Law No. 235, 78th Congress, enacted February 25, 1944), either the provisions required by said subsection (b) or the following:

"Article ____. Renegotiation. (a) This contract shall be deemed to contain all the provisions required by subsection (b) of the Renegotiation Act as amended by Section 701 of the Revenue Act of 1943 (Public Law No. 235, 78th Congress, enacted February 25, 1944).

"(b) In compliance with said subsection (b) of the Renegotiation Act, the Contractor shall insert in the subcontracts specified in said subsection (b) either the provisions of this Article or the provisions required by said subsection (b)."

(b) The Contractor agrees that there may be retained by the United States from amounts otherwise due the Contractor or that the Contractor will repay to the United States, as the Secretary of War or his duly authorized representative may direct, any amounts which under subsection (b) of the Renegotiation Act he is directed to withhold from a subcontractor and which are actually unpaid at the time the Contractor receives such direction.

§ 803.342–3 [*Form III*] *Same: Form for supplemental agreements.*

ARTICLE ____. *Renegotiations.* (a) This contract shall be deemed to contain all the provisions required by subsection (b) of the Renegotiation Act as amended by Section 701 of the Revenue Act of 1943 (Public Law No. 235, 78th Congress, enacted February 25, 1944).

(b) In compliance with subsection (b) of the Renegotiation Act, the Contractor shall insert in the subcontracts specified in said subsection (b) and made by the Contractor after the date of this instrument either provisions similar to paragraphs (a) and (b) of this Article or the provisions prescribed by said subsection (b) of the Renegotiation Act.

(c) This Article applies only to the supplemental agreement by which it was added and to any supplemental agreement or change orders hereafter executed except that the Contractor may discharge any obligation under the basic contract to insert renegotiation provisions in subcontracts, by inserting therein either the provisions of paragraphs (a) and (b) of this Article or the provisions prescribed by subsection (b) of the Renegotiation Act.

§ 803.343 *Davis-Bacon Act: contract clause.* All contracts subject to the Davis-Bacon Act will contain the following clause without deviation (for a discussion of the Davis-Bacon Act and information as to the contracts which are subject to and those which are exempt from such act, see Subpart D of Part 809):

Rate of wages. (In accordance with the act of August 30, 1935, 49 Stat. 1011, as amended by the act of June 15, 1940, 54 Stat. 399 (U. S. Code, title 40, secs. 276a and 276a–1), this article shall apply if the contract is in excess of $2,000 in amount and is for the construction, alteration, and/or repair, including painting and decorating, of a public building or public work within the geographical limits of the States of the Union, the Territory of Alaska, the Territory of Hawaii, or the District of Columbia.)

(a) The contractor or his subcontractor shall pay all mechanics and laborers employed directly upon the site of the work, unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account, the full amounts accrued at time of payment, computed at wage rates not less or more than those stated in the specifications (subject to Executive Order Number 9250 and the General Orders and Regulations issued thereunder) regardless of any contractual relationship which may be alleged to exist between the contractor or subcontractor and such laborers and mechanics; and the scale of wages to be paid shall be posted by the contractor in a prominent and easily accessible place at the site of the work. The contracting officer shall have the right to withhold from the contractor so much of accrued payments as may be considered necessary by the contracting officer to pay to laborers and mechanics employed by the contractor or any subcontractor on the work the difference between the rates of wages required by the contract to be paid laborers and mechanics on the work and the rates of wages received by such laborers and mechanics and not refunded to the contractor, subcontractors, or their agents.

(b) In the event it is found by the contracting officer that any laborer or mechanic employed by the contractor or any subcontractor directly on the site of the work covered by the contract has been or is being paid a rate of wages less than the rate of wages required by the contract to be paid as aforesaid, the Government may, by written notice to the contractor, terminate his right to proceed with the work or such part of the work as to which there has been a failure to pay said required wages and prosecute the work to completion by contract or otherwise, and the contractor and his sureties shall be liable to the Government for any excess costs occasioned the Government thereby.

(c) The regulations of the Secretary of Labor, referred to in article ____ (non-rebate of wages) hereof, allow certain "permissible deductions" from the wages required by this article to be paid.

The article to which cross reference is made in paragraph (c) of the above clause is that contained in § 803.344.

§ 803.343–1 *Minimum wages.* There will be contained in each contract subject to the Davis-Bacon Act (or in the specifications accompanying the contract) a clause substantially as follows:

The minimum wages to be paid laborers and mechanics on this project, as determined by the Secretary of Labor to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the pertinent locality, are as follows:

Classification of laborers and mechanics	Minimum rates of wages per hour

Any class of laborers and mechanics not listed in the preceding paragraph, which will be employed on this contract, shall be classified or reclassified conformably to the foregoing schedule by mutual agreement between the contractor and class of labor concerned, subject to the prior approval of the contracting officer. In the event the interested parties cannot agree on the proper classification or reclassification of a particular class of laborers and mechanics to be used, the question, accompanied by the recommendation of the contracting officer, shall be referred to the Secretary of Labor for final determination. The wages specified in this schedule shall be the maximum wages to be paid, subject, however, to Executive Order No. 9250 and the General Orders and Regulations issued thereunder.

§ 803.344 *Copeland "Kick-back" Act: contract clause.* All contracts subject to the Copeland "Kick-back" Act will contain the following clause without deviation (for a discussion of the Copeland "Kick-back" Act and information as to the contracts which are subject to and those which are exempt from such act, see Subpart C of Part 809):

Nonrebate of wages. The contractor shall comply with the regulations of the Secretary of Labor pursuant to the Act of June 13, 1934, 48 Stat. 948 (U.S. Code, title 40, secs. 276b and 276c), and any amendments or modifications thereof, shall cause appropriate provisions to be inserted in subcontracts to insure compliance therewith by all subcontractors subject thereto, and shall be responsible for the submission of affidavits required of subcontractors thereunder, except as the Secretary of Labor may specifically provide for reasonable limitations, variations, tolerances, and exemptions from the requirements thereof.

§ 803.345 *Convict labor; contract clause.* All contracts, except those to which the prohibition against use or employment of convict labor is clearly inapplicable, and except those containing the clause set forth in either §§ 803.353 or 803.353–4 will contain the following clause without deviation:

Convict labor. The contractor shall not employ any person undergoing sentence of imprisonment at hard labor. This provision shall not be construed to prevent the contractor or any subcontractor hereunder from obtaining any of the supplies, or any component parts or ingredients thereof, to be furnished under this contract or any of the materials or supplies to be used in connection with the performance of this contract, directly or indirectly, from any Federal, State or territorial prison or prison industry: *Provided,* That such articles, materials or supplies are not produced pursuant to any contract or other arrangement under which prison labor is hired by or employed or used by any private person, firm or corporation.

Any contract related to the prosecution of the war which contains a convict labor provision in a different form from that herein prescribed will be amended by the contracting officer to substitute the form herein prescribed for such other form if the contractor so desires.

For discussion of the above clause as well as of the convict labor provision of the Walsh-Healey clause, see Subpart A of Part 809 of this chapter.

§ 803.346 *Eight-Hour Law of 1912; contract clause.* All contracts subject to the provisions of the Eight-Hour Law of 1912 will contain the following clause without deviation (for a discussion of the Eight-Hour Law of 1912 and information as to contracts which are subject to and

those which are exempt from such law, see Subpart B of Part 809):

Eight-hour law. No laborer or mechanic doing any part of the work contemplated by this contract, in the employ of the contractor or any subcontractor contracting for any part of said work contemplated, shall be required or permitted to work more than 8 hours in any one calendar day upon such work at the site thereof, except upon the condition that compensation is paid to such laborer or mechanic in accordance with the provisions of this article. The wages of every laborer and mechanic employed by the contractor or any subcontractor engaged in the performance of this contract shall be computed on a basic day rate of 8 hours per day and work in excess of 8 hours per day is permitted only upon the condition that every such laborer and mechanic shall be compensated for all hours worked in excess of 8 hours per day at not less than one and one-half times the basic rate of pay. For each violation of the requirements of this article a penalty of $5 shall be imposed upon the contractor for each laborer or mechanic for every calendar day in which such employee is required or permitted to labor more than 8 hours upon said work without receiving compensation computed in accordance with this article, and all penalties thus imposed shall be withheld for the use and benefit of the Government: *Provided,* That this stipulation shall be subject in all respects to the exceptions and provisions of U. S. Code, title 40, sections 321, 324, 325, and 326, relating to hours of labor, as modified by the provisions of Section 303 of Public Act No. 781, 76th Congress, approved September 9, 1940, relating to compensation for overtime.

§ 803.347 *Advance payments with interest; clause for fixed price contracts.* A clause substantially as follows will be included in fixed-price contracts when it is contemplated that advance payments with interest will be made thereon:

Advance payments. (a) At any time and from time to time, after the approval of this contract, at the request of the Contractor and subject to the approval of the _____ or his duly authorized
(Chief of supply service)
representative, or of the person to whom authority has been delegated to make advance payments, as to the present need therefor, the Government shall advance to the Contractor sums not to exceed _____
(Insert amount of advance payment)
_____ or _____ per centum (____%) of the contract price, as it may be amended, whichever shall be the smaller. On the unliquidated balance of the advance payments outstanding, the Contractor agrees to pay interest at the rate of two and one-half per cent per annum to be computed in accordance with the provisions of paragraph (f).

(b) As a condition precedent to the making of any advance payment or payments as hereinbefore provided, the Contractor shall furnish the Government with such adequate security as the Under Secretary of War or the person to whom authority has been delegated to make advance payments shall prescribe; *Provided:* That, if other security is not prescribed, the terms of this contract shall be considered adequate security for such advance payments; *Provided further:* That, if at any time the Under Secretary of War deems the security furnished by the Contractor inadequate, the Contractor shall furnish such additional security as shall be satisfactory to the Under Secretary of War.

(c) Until all advance payments hereunder are liquidated, all funds received as advance payments under this contract together with _____ per cent (____%) of all other cash
(Insert per cent to be deposited which shall be not less than 85%)
payments under this contract, shall be deposited in a special bank account or accounts at a member bank or banks of the Federal Reserve System, or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684), as amended (12 U.S.C. 264), separate from the Contractor's general or other funds. Such special bank account or accounts shall be so designated as to indicate clearly to the bank their special character and purpose, and the balances in such account or accounts shall be used by the Contractor exclusively as a revolving fund for carrying out the purposes of this contract (including reimbursement to the Contractor for any reasonable amounts expended by him for such purposes), and any amendments thereto, and not for the other business of the Contractor; *Provided:* That for the purpose of determining proper disposition of funds hereunder such of the Contractor's costs as may not be directly allocable to this contract, as it may be amended, may be charged against funds deposited in the special account in that proportion which the amount of work being done under this contract, as it may be amended, approximately bears to the total amount of work being performed by the Contractor, out of which such costs also arise, but within the period to which such costs relate. When required by the _____
(Chief of
_____ or his duly authorized repre-
technical service)
sentative, or any other person to whom authority to make advance payments has been delegated, withdrawals from such special account or accounts shall be made subject to the prior written approval of the Contracting Officer or his duly authorized representative. Any balances from time to time in such special account or accounts shall secure the repayment of the advances in connection with which the special account or accounts are opened, and the Government shall have a lien upon such balances to secure the repayment of such advances which lien shall be superior to any lien of the bank or any other person upon such account or accounts by virtue of assignment to it of such contract or otherwise; *Provided:* That the bank shall be under no liability to any party hereto for the withdrawal of any funds from said special account upon checks, properly endorsed and signed by the Contractor, except that after the receipt by the bank of written directions from the _____
(Chief of technical service)
or his duly authorized representative, the bank shall act thereon and be under no liability to any party hereto for any action taken in accordance with the said written directions. Any instructions or written directions received by the bank through the Contracting Officer upon War Department stationery and purporting to be signed by, or by the direction of, the _____
(Chief of technical service)
or his duly authorized representative shall, insofar as the rights, duties, and liabilities of the bank are concerned, be conclusively deemed to have been properly issued and filed with the bank by the _____
(Chief of technical service)
or his duly authorized representative.

(d) If, upon the completion of the contract, or upon its termination for other than the fault of the Contractor, the advance payments made to the Contractor have not been fully liquidated in the manner herein provided, the unliquidated balance of such advance payments shall be deducted from any payments otherwise due the Contractor, and if the sum or sums due the Contractor be insufficient to cover such balance, the deficiency shall be paid by the Contractor in cash forthwith after demand and final audit by the Government of all accounts hereunder: *Provided, however,* That in the event of such termination of the contract for other than the fault of the Contractor, such deduction shall not be made prior to final audit unless and only to the extent that, the Contracting Officer or his duly authorized representative shall determine that such action is reasonably required in order to secure the eventual repayment in full to the Government of such unliquidated advance payments. In the event of cancellation or termination of this contract because of the fault of the Contractor, the Contractor agrees to return to the Government, upon demand, without set-off of any sums alleged to be due the Contractor, the unliquidated balance of any advance payment. Furthermore, if, in the opinion of the _____
(Chief of technical
_____ or his duly authorized representative,
service)
the unobligated balance of the advance payments made by the Government under paragraph (a) hereof exceeds the amount necessary for the current needs of the Contractor, as determined by the _____
(Chief of technical service)
or his duly authorized representative the amount of such excess shall, upon demand made by the _____ or his duly au-
(Chief of technical service)
thorized representative be promptly returned to the Government and will be credited against the balance due the Government on advances previously made. If the demand made in any event set forth in this subparagraph is not met upon receipt of such demand by the Contractor, the amount demanded will bear interest at the rate of six percent (6%) rather than two and one-half percent (2½%) per annum from the date of the receipt of the demand until payment is made. *Provided, however,* That such additional interest over and above the regular two and one-half percent is hereby waived as to any sum paid by the Contractor within 15 days after the amount becomes due hereunder.

(e) Except as otherwise provided herein, liquidation of the principal of any advance payment or advance payments made to the Contractor hereunder shall be made by deductions of _____ per cent (____% from any and all payments made by the Government under the terms of the contract or by means of direct repayment by the Contractor from his own free funds or from the special account or accounts: *Provided,* That if at any time, as a result of amendments to the contract or otherwise, the unliquidated balance of the principal of advance payments made exceeds _____ per cent (____%) of the balance of the total contract price then unpaid, the amount of such excess which has not then been expended or obligated shall upon demand of the _____, or
(Chief of technical service)
his duly authorized representative be promptly returned to the Government by withdrawal from the special account or accounts or otherwise, and that portion of the excess which has been expended or obligated may, at the option of the Contractor, be so returned and if not so returned, shall, together with any unexpended or unobligated portion of the excess not otherwise returned to the Government, be deducted from any and all payments to be made by the Government under the contract: *Provided further,* That, if and when the contractor has, by means of deductions or otherwise, reimbursed the Government in full for payments made, any money remaining in the special bank account or accounts shall be free and clear of any lien hereunder and the bank or banks concerned shall have authority to pay same to the contractor and shall thereupon be relieved of any further obligation to the Government on account thereof.

(f) On the unliquidated balance of the advance payments outstanding, the contractor agrees to pay interest at the rate of two and one-half per cent per annum. Such interest

shall be computed at the end of each calendar month on the average daily balance of the principal of the unliquidated advance payments outstanding. In determining such balance, charges on account of the advance payments to the Contractor hereunder shall be made as of the dates of the checks therefor; credits arising from deductions from payments to the Contractor under this contract shall be made, upon the issue of the check for such payment, as of the dates of shipment as indicated on the Contractor's invoice and/or Government Receiving Report; and credits arising from cash repayments to the Government by the Contractor shall be made as of the dates the checks therefor are received by the disbursing officer. As soon as such monthly computations shall have been made, the interest so determined shall be deducted from the payments otherwise due to contractor under this contract: *Provided, however,* That in no event shall deductions on account of interest exceed five per cent (5%) of the gross payment due the contractor prior to any deduction under this paragraph or paragraph (e) or any other provisions of this contract. In the event the accrued interest exceeds such five per cent, the excess of such interest shall be carried forward and deducted from subsequent payments. The interest shall not be compounded, and shall, subject to the provisions of paragraph (d) hereof, cease to accrue upon the termination of the contract for other than the fault of the contractor, or upon the date found by the Contracting Officer to be the date upon which the contractor completed his performance under the contract.

(g) The contractor shall, at all times, afford to the Contracting Officer or his duly authorized representative, proper facilities for the inspection and audit of the contractor's accounts, and the contractor hereby agrees that the Contracting Officer, or his duly authorized representative, shall have the right, so far as the contractor's rights are concerned, during business hours, to inspect and make copies of any entries in the books and records of the bank relating to the said special account.

(h) Subject to the approval of the Contracting Officer or his duly authorized representative the contractor may make payments to subcontractors and materialmen in advance out of the special account, for labor or services, or to pay for material in advance of delivery at the site of the work or at an approved storage site. Such subadvances shall not exceed _____ per cent of the subcontract price and the subcontractor or materialmen to whom such advances are made shall furnish adequate security therefor. Unless other security is furnished, covenants in subcontracts, expressly made for the benefit of the Government, providing for a subspecial account with Government lien thereon and for a Government lien on property, tangible or intangible, purchased from the special account, and imposing upon the subcontractor substantially the same duties and giving the Government substantially the same rights as are provided herein between the Government and the contractor, have been prescribed by the Under Secretary of War as minimum adequate security for such subadvances.

(i) If no surety bond is furnished as part of the security under subparagraph (b) hereof, then, upon receipt of items or materials paid for from such special account or accounts, such items or materials shall be segregated and the Government shall have a lien on such items or materials until the advance payment or payments have been fully liquidated, or until the item or items and/or materials concerned have become the property of the Government as the result of partial payments, or otherwise; *Provided:* That if segregation in any instance be impracticable and the items or materials concerned are consequently intermingled with other property of the Contractor, then and in that event the lien above provided for in favor of the Government shall extend to the intermingled mass to the amount represented by the value of the items or materials involved; and without limiting the generality of the foregoing, such lien shall continue as follows: (a) in case the contract covers construction, until such items or materials are incorporated into the building, and thereafter on the building in the construction of which the items or materials are incorporated; (b) in the case of items or materials comprising facilities, on such facilities both before and after their installation in the plant; and (c) in the case of articles contracted for, until the items or materials so paid for are fabricated into such articles, and thereafter on the articles until accepted by the Government [and the Government shall hereby likewise have an effective assignment of a security interest in all intangible property purchased, or otherwise acquired, with funds from said special account].[1] If at any time during the progress of the work under this contract it becomes necessary to deliver any item or items and/or materials upon which the Government has a lien as aforesaid to a third person, the contractor shall notify such third person of the lien herein provided and shall obtain from such third person a receipt, in duplicate, acknowledging, among other things, the existence of such lien. A copy of each receipt shall be delivered by the contractor to the contracting officer.

(j) Any assignment of moneys due or to become due under this contract shall be subordinate to the rights or claims of the Government arising under this contract or any amendment thereto by virtue of any advance payments authorized herein or otherwise: *Provided,* that, if at any time any claim arising under this contract is assigned or purportedly assigned in any manner inconsistent with the said rights of the Government, the _____ or his duly authorized
(Chief of technical service)
representative shall have the right to suspend further advance payments without notice.

§ 803.348 *Advance payments without interest.* A clause substantially as follows will be included in fixed price contracts when it is contemplated that advance payments without interest will be made thereon:

Advance payments. (a) At any time and from time to time, after the approval of this contract, at the request of the Contractor and subject to the approval of the _____ or his duly authorized
(Chief of technical service)
representative, or of the person to whom authority has been delegated to make advance payments, as to the present need therefor, the Government shall advance to the Contractor, without payment of interest therefor by the Contractor, sums not to exceed _____ or _____ per
(Insert amount of advance payment)
centum (____%) of the contract price, as it may be amended, whichever shall be the smaller.

(b) As a condition precedent to the making of any advance payment or payments as hereinbefore provided, the Contractor shall furnish the Government with such adequate security as the Under Secretary of War or the person to whom authority has been delegated to make advance payments shall prescribe; *Provided:* That, if other security is not prescribed, the terms of this contract shall be considered adequate security for such advance payments; *Provided further:* That if at any time the Under Secretary of War deems the security furnished by the Contractor inadequate, the Contractor shall furnish such additional security as shall be satisfactory to the Under Secretary of War.

(c) Until all advance payments hereunder are liquidated, all funds received as advance payments under this contract together with _____ per cent (____%) of all
(Insert per cent to be deposited which shall be not less than 85%)
other cash payments under this contract, shall be deposited in a special bank account or accounts at a member bank or banks of the Federal Reserve System, or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684), as amended (12 U.S.C. 264), separate from the Contractor's general or other funds. Such special bank account or accounts shall be so designated as to indicate clearly to the bank their special character and purpose, and the balances in such account or accounts shall be used by the Contractor exclusively as a revolving fund for carrying out the purposes of this contract (including reimbursement to the Contractor for any reasonable amounts expended by him for such purposes), and any amendments thereto, and not for the other business of the Contractor; *Provided:* that for the purpose of determining proper disposition of funds hereunder such of the Contractor's costs as may not be directly allocable to this contract, as it may be amended, may be charged against funds deposited in the special account in that proportion which the amount of work being done under this contract, as it may be amended, approximately bears to the total amount of work being performed by the Contractor, out of which such costs also arise, but within the period to which such costs relate. When required by the _____ or his duly authorized
(Chief of technical service)
representative, or any other person to whom authority to make advance payments has been delegated, withdrawals from such special account or accounts shall be made subject to the prior written approval of the Contracting Officer or his duly authorized representative. Any balances from time to time in such special account or accounts shall secure the repayment of the advances in connection with which the special account or accounts are opened, and the Government shall have a lien upon such balances to secure the repayment of such advances which lien shall be superior to any lien of the bank or any other person upon such account or accounts by virtue of assignment to it of such contract or otherwise; *Provided:* That the bank shall be under no liability to any party hereto for the withdrawal of any funds from said special account upon checks, properly endorsed and signed by the Contractor, except that after the receipt by the bank of written directions from the _____
(Chief of
_____ or his duly authorized repre-
technical service)
sentative, the bank shall act thereon and be under no liability to any party hereto for any action taken in accordance with the said written directions. Any instructions or written directions received by the bank through the Contracting Officer upon War Department stationery and purporting to be signed by, or by the direction of, the _____
(Chief of
_____ or his duly authorized represen-
technical service)
tative shall, in so far as the rights, duties, and liabilities of the bank are concerned, be conclusively deemed to have been properly issued and filed with the bank by the _____
_____ or his duly authorized repre-
(Chief of technical service)
sentative.

(d) If, upon the completion of the contract, or upon its termination for other than the fault of the Contractor, the advance payments made to the Contractor have not been fully liquidated in the manner herein pro-

[1] The bracket provision may be inserted in the case of experimental contracts or other cases where deemed especially appropriate.

vided, the unliquidated balance of such advance payments shall be deducted from any payments otherwise due the Contractor, and if the sum or sums due the Contractor be insufficient to cover such balance, the deficiency shall be paid by the Contractor in cash forthwith after demand and final audit by the Government of all accounts hereunder: *Provided, however,* That in the event of such termination of the contract for other than the fault of the Contractor, such deduction shall not be made prior to final audit unless, and only to the extent that, the Contracting Officer or his duly authorized representative shall determine that such action is reasonably required in order to secure the eventual repayment in full to the Government of such unliquidated advance payments. In the event of cancellation or termination of this contract because of the fault of the Contractor, the Contractor agrees to return to the Government, upon demand, without set-off of any sums alleged to be due the Contractor, the unliquidated balance of any advance payment. Furthermore, if, in the opinion of the_____or his duly authorized representative, the unobligated balance of the advance payments made by the Government under Paragraph (a) hereof exceeds the amount necessary for the current needs of the Contractor, as determined by the _____or his duly authorized representative the amount of such excess shall, upon demand made by the_____ _____or his duly authorized representative be promptly returned to the Government and will be credited against the balance due the Government on advances previously made. If the demand made in any event set forth in this subparagraph is not met upon receipt of such demand by the Contractor, the amount demanded will bear interest at the rate of six per cent (6%) per annum from the date of the receipt of the demand until payment is made: *Provided, however,* That such payment of interest is hereby waived as to any sum paid by the Contractor within 15 days after the amount becomes due hereunder.

(Chief of technical service)

(Chief of technical service)

(Chief of technical service)

(e) Except as otherwise provided herein, liquidation of any advance payment or advance payments made to the Contractor hereunder shall be made by deductions of _____ per cent (____%) from any and all payments made by the Government under the terms of the contract or by means of direct repayment by the Contractor from his own free funds or from the special account or accounts: *Provided:* That if at any time, as a result of amendments to the contract or otherwise, the unliquidated balance of the principal of advance payments made exceeds _____ per cent (____%) of the balance of the total contract price then unpaid, the amount of such excess which has not then been expended or obligated shall upon demand of the _____, or his duly authorized representative be promptly returned to the Government by withdrawal from the special account or accounts or otherwise, and that portion of the excess which has been expended or obligated may, at the option of the Contractor, be so returned and if not so returned, shall, together with any unexpended or unobligated portion of the excess not otherwise returned to the Government, be deducted from any and all payments to be made by the Government under the contract; *Provided further,* that, if and when the Contractor has, by means of deductions or otherwise, reimbursed the Government in full for payments made, any money remaining in the special bank account or accounts shall be free and clear of any lien hereunder and the bank or banks concerned shall have authority to pay same to the Contractor and shall thereupon be relieved of any further obligation to the Government on account thereof.

(Chief of technical service)

(f) The Contractor shall, at all times, afford to the Contracting Officer or his duly authorized representative, proper facilities for the inspection and audit of the Contractor's accounts, and the Contractor hereby agrees that the Contracting Officer, or his duly authorized representative shall have the right, so far as the Contractor's rights are concerned, during business hours, to inspect and make copies of any entries in the books and records of the bank relating to the said special account.

(g) Subject to the approval of the Contracting Officer or his duly authorized representative the Contractor may make payments to subcontractors and materialmen in advance out of the special account, for labor or services, or to pay for material in advance of delivery at the site of the work or at an approved storage site. Such subadvances shall not exceed _____ per cent of the subcontract price and the subcontractor or materialmen to whom such advances are made shall furnish adequate security therefor. Unless other security is furnished, covenants in subcontracts, expressly made for the benefit of the Government, providing for a subspecial account with Government lien thereon and for a Government lien on property, tangible or intangible, purchased from the special account, and imposing upon the subcontractor substantially the same duties and giving the Government substantially the same rights as are provided herein between the Government and the Contractor, have been prescribed by the Under Secretary of War as minimum adequate security for such subadvances.

(h) If no surety bond is furnished as part of the security under subparagraph (b) hereof, then, upon receipt of items or materials paid for from such special account or accounts, such items or materials shall be segregated and the Government shall have a lien on such items or materials until the advance payment or payments have been fully liquidated, or until the item or items and/or materials concerned have become the property of the Government as the result of partial payments, or otherwise: *Provided,* That if segregation in any instance be impracticable and the items or materials concerned are consequently intermingled with other property of the Contractor, then and in that event the lien above provided for in favor of the Government shall extend to the intermingled mass to the amount represented by the value of the items or materials involved; and without limiting the generality of the foregoing, such lien shall continue as follows: (a) in case the contract covers construction, until such items or materials are incorporated into the building, and thereafter on the building in the construction of which the items or materials are incorporated; (b) in the case of items or materials comprising facilities, on such facilities both before and after their installation in the plant; and (c) in the case of articles contacted for, until the items or materials so paid for are fabricated into such articles, and thereafter on the articles until accepted by the Government [; and the Government shall hereby likewise have an effective assignment of a security interest in all intangible property purchased, or otherwise acquired, with funds from said special account].[1] If at any time during the progress of the work under this contract it becomes necessary to deliver any item or items and/or materials upon which the Government has a lien as aforesaid to a third person, the Contractor shall notify such third person of the lien herein provided and shall obtain from such third person a receipt, in duplicate, acknowledging, inter alia, the existence of such lien. A copy of each receipt shall be delivered by the Contractor to the Contracting Officer.

(i) Any assignment of moneys due or to become due under this contract shall be subordinate to the rights or claims of the Government arising under this contract or any amendment thereto by virtue of any advance payments authorized herein or otherwise: *Provided,* That, if at any time any claim arising under this contract is assigned or purportedly assigned in any manner inconsistent with the said rights of the Government, the _____ or his duly authorized representative shall have the right to suspend further advance payments without notice.

(Chief of technical service)

§ 803.348a *Advance payments; cost-plus-fixed-fee contracts; with interest.* A clause substantially as follows will be included in cost-plus-fixed-fee contracts when it is contemplated that advance payments with interest will be made thereon:

Advance payments. (a) At any time and from time to time after the execution of this contract, the Government at the request of the Contractor and subject to the approval of the _____ or his duly authorized representative, or the person to whom authority to make advance payments has been delegated, as to the present need therefor, shall advance to the Contractor sums not to exceed _____ per centum (_____ %) of the estimated cost of this contract (exclusive of the Contractor's fixed fee), as it may be amended from time to time. On the unliquidated balance of the advance payments outstanding, the Contractor agrees to pay interest at the rate of two and one-half percent (2½%) per annum to be computed in accordance with the provisions of paragraph (f) hereof.

(Chief of technical service)

(b) As a condition precedent to the making of any advance payment or payments as hereinbefore provided, the Contractor shall furnish the Government with such adequate security as the Under Secretary of War or the person to whom authority has been delegated to make advance payments shall prescribe: *Provided,* That, if other security is not prescribed, the terms of this contract shall be considered adequate security for such advance payments; and *Provided further,* That if at any time the Under Secretary of War deems the security furnished by the Contractor inadequate, the Contractor shall furnish such additional security as shall be satisfactory to the Under Secretary of War.

(c) Until all advance payments hereunder are liquidated, all funds received as advance payments under this contract together with all funds received as reimbursements for the cost of the work under Article _____ of this contract, exclusive of the Contractor's fixed fee, shall be deposited in a special bank account, or accounts at a member bank or banks of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684, as amended; 12 U.S.C. 264) separate from the Contractor's general or other funds. Such special bank account or accounts shall be so designated as to indicate clearly to the bank their special character and purpose, and the balance in such account or accounts shall be used by the Contractor exclusively as a revolving fund for carrying out the purposes of this contract and any amendments thereto, and not for other business of the Contractor. Any balances from time to time in such special account or accounts shall at all times secure the repayment of the advances in connection with which the special account

[1] The bracket provision may be inserted in the case of experimental contracts or other cases where deemed especially appropriate.

or accounts are opened, and the Government shall have a lien upon such balances to secure the repayment of such advances, which lien shall be superior to any lien of the bank or any other person upon such account or accounts by virtue of assignment to it of such contract or otherwise; *Provided:* That the bank shall be under no liability to any party hereto for the withdrawal of any funds from said special account upon checks properly endorsed and signed by the Contractor, except that after the receipt by the bank of written directions from the _____ or his duly authorized
(Chief of technical service).
representative, the bank shall act thereon and be under no liability to any party hereto for any action taken in accordance with the said written directions. Any instructions or written directions received by the bank through the Contracting Officer upon War Department stationery and purporting to be signed by, or by the direction of, the _____ or his duly authorized
(Chief of technical service)
representative, shall, insofar as the rights, duties, and liabilities of the bank are concerned, be conclusively deemed to have been properly issued and filed with the bank by the _____ or his duly author-
(Chief of technical service)
ized representative.

(d) It is agreed that the aggregate of the advance payments outstanding under this contract, together with funds received as reimbursement for the cost of the work by the Contractor under Article _____ of this contract, shall, at no time, exceed the total estimated cost of the work under this contract as it may be revised from time to time, and any such excess shall be immediately repaid by the Contractor to the Government or if any reimbursement is due from the Government to the Contractor, shall be deducted therefrom: *Provided, however,* That if the total cost of the work under this contract shall be in excess of the amount so paid to the Contractor, including said advance payments, the Government upon presentation of satisfactory evidence shall currently and promptly reimburse the Contractor to the extent of such excess cost (subject to any delay in the availability of appropriated funds).

(e) If, upon completion of this contract, or upon the termination thereof for other than the fault of the Contractor, the advance payments made to the Contractor in respect of this contract have not been fully liquidated in the manner herein provided, the unliquidated balance of such advance payments shall be deducted from any payments otherwise due the Contractor in respect of this contract; and if the sum or sums due the Contractor be insufficient to cover such balance, the deficiency shall be paid by the Contractor in cash forthwith after demand and final audit by the Government of all accounts hereunder in respect of this contract: *Provided, however,* That in the event of such termination of the contract for other than the fault of the Contractor, such deduction shall not be made prior to final audit unless, and only to the extent that, the Contracting Officer or his duly authorized representative shall determine that such action is reasonably required in order to secure the eventual repayment in full to the Government of such unliquidated advance payments. In the event of cancellation or termination of this contract because of the fault of the Contractor, the Contractor, notwithstanding any ultimate rights to be reimbursed, agrees to return to the Government, upon demand, without set-off of any sums alleged to be due the Contractor, the unliquidated balance of any advance payment. Furthermore, if, in the opinion of the _____ or
(Chief of technical service)
his duly authorized representative, the unobligated balance of the advance payments made by the Government under paragraph (a) hereof exceeds the amount necessary for the current needs of the Contractor, as determined by the _____ or his
(Chief of technical service)
duly authorized representative, the amount of such excess shall, upon demand by the _____ or his duly authorized
(Chief of technical service)
representative, be promptly returned to the Government and will be credited against the balance due the Government on advances previously made. If the demand made in any event set forth in this paragraph is not met upon receipt of such demand by the Contractor, the amount demanded will bear interest at the rate of six percent (6%) rather than two and one-half percent (2½%) per annum from the date of the receipt of the demand until payment is made: *Provided, however,* That such additional interest over and above the regular two and one-half percent is hereby waived as to any sums paid by the Contractor within 15 days after the amount becomes due hereunder. If and when the Contractor has, by means of deductions or otherwise, reimbursed the Government in full for payments made, any money remaining in the special bank account or accounts shall be free and clear of any lien hereunder, and the bank or banks concerned shall have authority to pay same to the Contractor and shall thereupon be relieved of any further obligation to the Government on account thereof.

(f) On the unliquidated balance of the advance payments outstanding, the Contractor agrees to pay interest at the rate of two and one-half percent (2½%) per annum. Such interest shall be computed at the end of each calendar month on the average daily balance of the principal of the unliquidated advance payments outstanding. In determining such balance, charges on account of the advance payments to the Contractor hereunder shall be made as of the dates of the checks therefor; credits resulting from disbursements made by the Contractor which are applied against advance payments shall be made upon the approval of the vouchers therefor by the disbursing officer, as of the dates respectively upon which the Contractor presents to the Contracting Officer or his duly authorized representative full and accurate data for the preparation of each such voucher which date shall, as to each such voucher, be certified by the Contracting Officer or his duly authorized representative on the face thereof; and credits arising from cash repayments to the Government by the Contractor shall be made as of the dates the checks therefor are received by the disbursing officer. As soon as such monthly computations shall have been made, the interest charge so determined shall be deducted from any payments on account of the fixed fee which may be made to the Contractor from time to time under this contract. In the event the accrued interest exceeds any such payment, the excess of such interest shall be carried forward and deducted from subsequent payments on account of the fixed fee. The interest shall not be compounded, and shall, subject to the provisions of paragraph (e) hereof, cease to accrue upon the termination of the contract for other than the fault of the Contractor, or upon the date found by the Contracting Officer to be the date upon which the Contractor completed his performance under the contract.

(g) The Contractor shall, at all times, afford to the Contracting Officer, or his duly authorized representative, proper facilities for the inspection and audit of the Contractor's accounts, and the Contractor hereby agrees that the Contracting Officer, or his duly authorized representative, shall have the right so far as the Contractor's rights are concerned, during business hours, to inspect and make copies of any entries in the books and records of the bank or banks relating to the said special account or accounts.

(h) Subject to the approval of the Contracting Officer or his duly authorized representative the Contractor may make payments to subcontractors and materialmen in advance out of the special account, for labor or services, or to pay for materials in advance of delivery at the site of the work or at an approved storage site. Such subadvances shall not exceed _____ percent (_____%) of the subcontract price or estimated cost, as the case may be, and the subcontractor or materialmen to whom such advances are made shall furnish adequate security therefor. Unless other security is furnished, covenants in subcontracts, expressly made for the benefit of the Government, providing for a subspecial account with Government lien thereon and for a Government lien on or title to property, tangible or intangible, purchased from the special account, and imposing upon the subcontractor substantially the same duties and giving the Government substantially the same rights as are provided herein between the Government and the Contractor, have been prescribed by the Under Secretary of War as minimum adequate security for such subadvances.

(i) Any assignment of moneys due or to become due under this contract shall be subordinate to the rights or claims of the Government arising under this contract or any amendment thereto by virtue of any advance payments authorized herein or otherwise; *Provided,* That, if at any time any claim arising under this contract is assigned or purportedly assigned in any manner inconsistent with the said rights of the Government, the_____ or his duly
(Chief of technical service)
authorized representative shall have the right to suspend further advance payments without notice.

§ 803.348b *Advance payments; cost-plus-fixed-fee contracts; without interest.* A clause substantially as follows will be included in cost-plus-a-fixed-fee contracts when it is contemplated that advance payments without interest will be made thereon:

Advance payments. (a) At any time and from time to time after the execution of this contract, the Government at the request of the Contractor and subject to the approval of the _____ or his duly author-
(Chief of technical service)
ized representative, or the person to whom authority to make advance payments has been delegated, as to the present need therefor shall advance to the Contractor, without payment of interest thereon by the Contractor, sums not to exceed _____ per cent (____%) of the estimated cost of this contract (exclusive of the Contractor's fixed fee), as it may be amended from time to time.

(b) As a condition precedent to the making of any advance payment or payments as hereinbefore provided, the Contractor shall furnish the Government with such adequate security as the Under Secretary of War or the person to whom authority has been delegated to make advance payments shall prescribe: *Provided:* That, if other security is not prescribed, the terms of this contract shall be considered adequate security for such advance payments: *And provided further,* That if at any time the Under Secretary of War deems the security furnished by the Contractor inadequate, the Contractor shall furnish such additional security as shall be satisfactory to the Under Secretary of War.

(c) Until all advance payments hereunder are liquidated, all funds received as advance payments under this contract together with all funds received as reimbursements for the cost of the work under Article _____ of this contract, exclusive of the Contractor's fixed fee, shall be deposited in a special bank account or accounts at a member bank or banks of the Federal Reserve System or any "insured" bank within the meaning of the Act

creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684) as amended (12 U.S.C. 264) separate from the Contractor's general or other funds. Such special bank account or accounts shall be so designated as to indicate clearly to the bank their special character and purpose, and the balance in such account or accounts shall be used by the Contractor exclusively as a revolving fund for carrying out the purposes of this contract and any amendments thereto and not for other business of the Contractor. Any balances from time to time in such special account or accounts shall at all times secure the repayment of the advances in connection with which the special account or accounts are opened, and the Government shall have a lien upon such balances to secure the repayment of such advances, which lien shall be superior to any lien of the bank or any other person upon such account or accounts by virtue of assignment to it of this contract or otherwise; *Provided:* That the bank shall be under no liability to any party hereto for the withdrawal of any funds from said special account upon checks, properly endorsed and signed by the Contractor, except that after the receipt by the bank of written directions from the _____ or his duly
(Chief of technical service)
authorized representative, the bank shall act thereon and be under no liability to any party hereto for any action taken in accordance with the said written directions. Any instructions or written directions received by the bank through the Contracting Officer upon War Department stationery and purporting to be signed by, or by the direction of, the _____ or his duly author-
(Chief of technical service)
ized representative, shall, in so far as the rights, duties, and liabilities of the bank are concerned, be conclusively deemed to have been properly issued and filed with the bank by the _____ or his duly au-
(Chief of technical service)
thorized representative.

(d) It is agreed that the aggregate of the advance payments outstanding under this contract together with funds received as reimbursement for the cost of the work by the Contractor under Article _____ of this contract shall, at no time, exceed the total estimated cost of the work under this contract as it may be revised from time to time and any such excess shall be immediately repaid by the Contractor to the Government or if any reimbursement is due from the Government to the Contractor, shall be deducted therefrom; *Provided, however,* That if the total cost of the work under this contract shall be in excess of the amount so paid to the Contractor, including said advance payments, the Government upon presentation of satisfactory evidence shall currently and promptly reimburse the Contractor to the extent of such excess cost (subject to any delay in the availability of appropriated funds).

(e) If, upon completion of this contract, or upon the termination thereof for other than the fault of the Contractor, the advance payments made to the Contractor in respect of this contract have not been fully liquidated in the manner herein provided, the unliquidated balance of such advance payments shall be deducted from any payments otherwise due the Contractor in respect of this contract; and if the sum or sums due the Contractor be insufficient to cover such balance, the deficiency shall be paid by the Contractor in cash forthwith after demand and final audit by the Government of all accounts hereunder in respect of this contract; *Provided, however,* That in the event of such termination of the contract for other than the fault of the Contractor, such deduction shall not be made prior to final audit unless, and only to the extent that, the Contracting Officer or his duly authorized representative shall determine that such action is reasonably required in order to secure the eventual repayment in full to the Government of such unliquidated advance payments. In the event of cancellation or termination of this contract because of the fault of the Contractor, the Contractor, notwithstanding any ultimate rights to be reimbursed, agrees to return to the Government, upon demand, without set-off of any sums alleged to be due the Contractor, the unliquidated balance of any advance payment. Furthermore, if, in the opinion of the _____ or
(Chief of technical service)
his duly authorized representative, the unobligated balance of the advance payments made by the Government under paragraph (a) hereof exceeds the amount necessary for the current needs of the Contractor, as determined by the _____ or his
(Chief of technical service)
duly authorized representative, the amount of such excess shall, upon demand by the _____ or his duly authorized
(Chief of technical service)
representative, be promptly returned to the Government and will be credited against the balance due the Government on advances previously made. If the demand made in any event set forth in this paragraph is not met upon receipt of such demand by the Contractor, the amount demanded will bear interest at the rate of six percent (6%) per annum from the date of the receipt of the demand until payment is made; *Provided, however,* That such payment of interest is hereby waived as to any sum paid by the Contractor within 15 days after the amount becomes due hereunder. If and when the Contractor has, by means of deductions or otherwise, reimbursed the Government in full for payments made, any money remaining in the special bank account or accounts shall be free and clear of any lien hereunder and the bank or banks concerned shall have authority to pay same to the Contractor and shall thereupon be relieved of any further obligation to the Government on account thereof.

(f) The Contractor shall, at all times, afford to the Contracting Officer, or his duly authorized representative, proper facilities for the inspection and audit of the Contractor's accounts, and the Contractor hereby agrees that the Contracting Officer, or his duly authorized representative shall have the right so far as the Contractor's rights are concerned, during business hours, to inspect and make copies of any entries in the books and records of the bank or banks relating to the said special account or accounts.

(g) Subject to the approval of the Contracting Officer or his duly authorized representative the Contratcor may make payments to subcontractors and materialmen in advance out of the special account, for labor or services, or to pay for materials in advance of delivery at the site of the work or at an approved storage site. Such subadvances shall not exceed _____ percent (%) of the subcontract price or estimated cost, as the case may be, and the subcontractor or materialmen to whom such advances are made shall furnish adequate security therefor. Unless other security is furnished, covenants in subcontracts, expressly made for the benefit of the Government, providing for a subspecial account with Government lien thereon and for a Government lien on or title to property, tangible or intangible, purchased from the special account, and imposing upon the subcontractor substantially the same duties and giving the Government substantially the same rights as are provided herein between the Government and the Contractor, have been prescribed by the Under Secretary of War as minimum adequate security for such subadvances.

(h) Any assignment of moneys due or to become due under this contract shall be subordinate to the rights or claims of the Government arising under this contract or any amendment thereto by virtue of any advance payments authorized herein or otherwise, *Provided* That, if at any time any claim arising under this contract is assigned or purportedly assigned in any manner inconsistent with the said rights of the Government, the _____ or his
(Chief of technical service)
duly authorized representative shall have the right to suspend further advance payments without notice.

§ 803.349 *Advance payments; additional provision.* The following sentences may be inserted immediately following the second sentence of clause (c) of the Advance Payments Articles set forth in §§ 803.347 and 803.348 when (a) a contractor has more than one contract with the supply service concerned and segregation of materials and separate accounting between the contracts are difficult or impracticable and (b) the contracts to be included within the pooling arrangement run concurrently or substantially overlap each other in time of performance:

When so authorized in writing by the Contracting Officer or his duly authorized representative, funds received as advance payments under this contract and any other contract or contracts now in existence or hereafter entered into between the_____
(Chief of tech-
_____ and the Contractor, together with nical service)
any or all payments under this contract and such other contracts which are required to be deposited in a special account, may be considered to be a single revolving fund which may be used by the Contractor for the purposes of any or all of said contracts without regard to the origin of such funds. In such event, any provision of this contract inconsistent with the foregoing provision shall be automatically modified accordingly.

Under like circumstances a similar insertion may be made after the second sentences of Article 3 of War Department Contract Forms Numbers 20 and 23. (See §§ 813.1320 and 813.1323).

§ 803.349a *Advance payments; optional amendment to clause in § 803.348a.* (a) The following sentence may be inserted immediately following the third sentence of paragraph (f) of the advance payments article set forth in § 803.348a, either before or after termination, when it is desired to make partial payments to subcontractors in accordance with §§ 843.331 and 845.564–2 of this chapter:

When the work under this contract is terminated in whole or in part and partial payments are made to subcontractors against their termination claims out of the revolving fund set up under paragraph (c) hereof, the average daily balance of the principal of the unliquidated advance payments will be reduced for the purpose of the computation of interest by the amount of such partial payments from the time such payments are made until the contractor is reimbursed for termination settlements with such subcontractors.

(b) If the article in § 803.348a is amended as provided for in (a) above, the following new clause also should be inserted in the article:

Subject to the approval of the Contracting Officer or his duly authorized representative the Contractor may, in the event of the termination of this contract in whole or in part, make partial payments to subcontractors and suppliers out of the special account against their termination claims without re-

gard to the provisions of paragraph (h) hereof.

(c) Under like circumstances similar insertions may be made in War Department Contract Form Number 21. (See § 813.1321.)

§ 803.350 *CPFF construction contracts; termination article.* The following clause will be incorporated in all cost-plus-a-fixed-fee construction contracts without deviation:

Termination for convenience of the Government. 1. The Government may terminate this contract at any time by a notice in writing from the Contracting Officer to the Contractor. Such termination shall be effective in the manner and upon the date specified in said notice and shall be without prejudice to any claims which the Government may have against the Contractor. Upon receipt of such notice, the Contractor shall, unless the notice directs otherwise, immediately discontinue all work and the placing of all orders for materials, facilities, and supplies in connection with performance of this contract and shall proceed to cancel promptly all existing orders and terminate all subcontracts insofar as such orders and/or subcontracts are chargeable to this contract.

2. If this contract is terminated for the fault of the Contractor, the Contracting Officer may enter upon the premises and take possession for the purpose of completing the work contemplated by this contract, of any or all materials, tools, machinery, equipment, and appliances which may be owned by or in the possession of the Contractor and all options, privileges, and rights, and may complete or employ any other person or persons to complete said work. Following such termination, rental shall be paid to the Contractor for such construction plant or parts thereof as he may own, and which the Government may retain at rates prescribed in Article ——.

3. Upon the termination of this contract, full and complete settlement of all claims of the Contractor arising out of this contract shall be made as follows:

a. The Government shall assume and become liable for all obligations, commitments, and claims that the Contractor may have theretofore in good faith undertaken or incurred in connection with said work, the cost of which would be reimbursable in accordance with the provisions of this contract; and the Contrator shall, as a condition of receiving the payments mentioned in this article, execute and deliver all such papers and take all such steps as the Contracting Officer may require for the purpose of fully vesting in the Government, the rights and benefits of the Contractor under such obligations or commitments.

b. The Government shall reimburse the Contractor for all expenditures made ir accordance with Article _____ and not previously reimbursed.

c. The Government shall reimburse the Contractor for such further expenditures after the date of termination for the protection of Government property and for accounting services in connection with the settlement of this contract as are required or approved by the Contracting Officer.

d. The Government shall pay to the Contractor any unpaid balance for the rental of the Contractor's equipment in accordance with Article _____ to date of termination.

e. If the contract is terminated for the convenience of the Government, the Contractor will be paid that proportion of the prescribed fee which the work actually completed bears to the entire work under this contract less fee payments previously made. If the contract is terminated due to fault of the Contractor, no additional payments on account of the fee will be made.

f. The obligation of the Government to make any of the payments required by this Article, or by Article _____ of this contract, shall be subject to any unsettled claims in connection with this contract which the Government may have against the Contractor.

4. Prior to final settlement the Contractor shall furnish a release as required in Article _____ hereof.

§ 803.351 *OPA escalation articles.* The articles appearing in §§ 803.351–4, 803.351–5, and 803.351–6, providing for escalation upon a change in maximum prices fixed by the Office of Price Administration, are authorized for use in the contracts and upon the conditions specified in the italic heading of each of those sections.

§ 803.351–4 *Article for use in contracts for the purchase of lumber or coal.*

ARTICLE _____. *Escalation in relation to OPA ceiling prices.* The contractor represents and warrants that the prices shown herein are not in excess of the maximum prices established by the Office of Price Administration, or other authorized government agency, and in effect upon the date hereof for the supplies to be furnished hereunder. In the event such maximum price applicable to any item is increased or decreased the price payable for any subsequent delivery of such item made in accordance with the provisions of the contract, shall be increased, or decreased, by the same number of cents, or fraction thereof, per unit, that such maximum price may be increased, or decreased, up to and including the date of delivery.

NOTE: Where the foregoing article is used, the following clause may be added:

Price adjustment in relation to other factors. In the event that the establishment and maintenance by the Office of Price Administration or other Government agency of maximum prices for the type of_____ _____ covered by this contract is terminated during the contract period, and if during the remainder of such period changes should occur in working hours, wage scales, or other conditions of employment, which changes are a part of the general revision of such conditions [within the producing district where the coal is mined], the parties hereto, upon the request in writing of one to the other within 30 days after the effective date upon which any such change occurs, may redetermine by negotiation the unit price affected, provided that pending such negotiation the contractor shall continue deliveries hereunder. Any price redetermination as herein provided shall be applicable to all deliveries after the effective date upon which the change occurs permitting redetermination as herein provided.

§ 803.351–5 *Article for use in contracts for the purchase of basic steel products from steel mills (Schedule I of CMP Regulation 1, as amended from time to time).*

ARTICLE _____. *Escalation in relation to OPA ceiling prices.* The contractor represents and warrants that the prices shown herein are not in excess of the maximum prices established by the Office of Price Administration, or other authorized government agency, and in effect upon the date hereof for the supplies to be furnished hereunder. In the event such maximum price applicable to any item is increased the price payable for any subsequent delivery of such item made in accordance with the provisions of the contract, shall be increased by the same number of cents, or fraction thereof, per unit, that such maximum price may be increased up to and including the date of delivery. If the OPA maximum price in effect on the date of shipment of any of the supplies to be delivered hereunder is less than the price stated herein, the price payable for such supplies shall be the OPA maximum ceiling price in effect on the date of shipment.

NOTE: Where the foregoing article is used, the clause set forth in the note to § 803.351–4 may be added.

§ 803.351–6 *Article for use only in long term contracts (six months or more) for the purchase of gasoline and fuel oil (other than aviation gasoline).*

Article _____. Escalation in relation to OPA ceiling prices. The contractor represents and warrants that the prices shown herein are not in excess of the maximum prices established by the Office of Price Administration, or other authorized government agency, and in effect upon the date hereof for the supplies to be furnished hereunder. In the event such maximum price applicable to any item is increased the price payable for any subsequent delivery of such item, made in accordance with the provisions of the contract, shall be increased by the same number of cents or fractions thereof, per unit, that such maximum price may be increased up to and including the date of delivery unless such price is redetermined as hereinafter provided. In the event such maximum price is decreased, the price payable for any deliveries made subsequent to the reduction shall not be changed (except that if such maximum price shall be below the contract price, the contract price shall be reduced to the maximum price) unless such price is redetermined as hereinafter provided. Within sixty days after the date of any change in such maximum price, the contractor, if required by the contracting officer so to do, shall furnish the contracting officer with such pertinent data, as he may reasonably require showing the extent to which the factors causing such change are applicable to the supplies to be furnished. Any accounting data shall be that resulting from customary accounting practice in the industry. Upon the basis of such information the parties, by negotiation, shall redetermine the price applicable to such items, which redetermined price shall be effective from the date of the change in such maximum price until another change occurs in said maximum price. In the event of the failure of the parties to agree upon a redetermined price the contracting officer may terminate at the end of said sixty-day period (and within fifteen days thereafter) the right of the contractor to proceed with further deliveries of such item without liability upon either party except liability incurred with respect to deliveries made or orders placed prior to the date of termination. Failure on the part of the contracting officer to terminate the contract under the provisions of this paragraph shall not affect the right of the government to terminate under any other provisions of this contract.

§ 803.352 *Delays-damages clause.* Every lump-sum supply contract, regardless of subject matter except contracts for an amount of less than $5,000, will contain a clause substantially as follows:

Delays-Damages. (a) If the Contractor refuses or fails to make deliveries of the supplies within the time specified in Article __, or any extension thereof, the Government, subject to the provisions of paragraph (b) below, may, by a notice in writing from the Contracting Officer to the Contractor of its intention to terminate under this Article, terminate the right of the Contractor to proceed with delivery of the supplies or such parts thereof as to which there has been delay. In such event, the Government may (1) require the Contractor to deliver to the Government such completed supplies, partially completed supplies and materials,

parts, plans, drawings, information, and contract rights of the Contractor, (hereinafter called manufacturing material), as the Contractor has produced or acquired for the performance of such portion of this contract as to which the right to proceed with delivery is terminated, and accomplish or secure the completion or manufacture of supplies therewith; and, in addition thereto or in lieu thereof (2) purchase in the open market or secure by contract or otherwise, the manufacture and delivery of supplies similar to those called for by this contract in an amount which together with the supplies, if any, completed under (1) above shall not exceed the amount of supplies the right to proceed with delivery of which is terminated. If delivery is made pursuant to clause (1) of the preceding sentence the Government shall pay to the Contractor, less any previous payments, the following: (a) For each unit of the completed supplies accepted by the Government the unit contract price, and (b) for all partially completed supplies and manufacturing material delivered, the unit contract price for each unit of supplies completed or manufactured therewith, less the cost to the Government of completion or manufacture, but if that cost exceeds the unit contract price, the Contractor and his sureties shall be liable for such excess. If the cost to the Government of supplies procured in accordance with clause (2) above exceeds the corresponding unit price or prices under this contract, the Contractor and his sureties shall be liable for such excess.

(b) The Government shall not have a right of termination under this Article if (i) the delay of the Contractor in making deliveries is an excusable delay, as hereinafter defined, and (ii) the Contractor notifies the Contracting Officer in writing of such delay and the cause thereof, within ten days from the beginning thereof or within such further period as the Contracting Officer shall, with the approval of the Secretary of War or his duly authorized representative, prior to the date of final settlement of the contract, grant for the giving of such notice. Upon receipt of such notification from the Contractor, the Contracting Officer shall ascertain the cause of the delay, and his findings of fact thereon shall be final and conclusive on the parties hereto, subject to appeal within thirty days by the Contractor to the Secretary of War or his duly authorized representative, whose decision on such appeal as to the cause of delay shall be final and conclusive on the parties hereto. The term "excusable delay" as used in this paragraph means any delay in making deliveries which results without fault or negligence on the part of the Contractor and which is due to unforeseeable causes beyond his control including, without being limited to, acts of God or of the public enemy, any preference, priority or allocation order issued by the Government or any other act of the Government, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; and, unless the Contracting Officer shall determine that the materials or supplies to be furnished under a subcontract are procurable in the open market, any delay of a Subcontractor which results without fault or negligence on the part of the Contractor, and which is due to unforeseeable causes beyond the control of the Contractor, including without being limited to the types of causes above enumerated.

§ 803.352–1 If desired, paragraph (b) of the clause set forth in § 803.352 may be modified in either of the following manners:

(a) The portion of said paragraph (b) commencing with the word "and" in the fifth line and ending with the word "Contractor" in the fifteenth line of that paragraph, may be eliminated. In such event, the "(i)" in the third line of that paragraph will be eliminated, the comma after the word "defined" in the fifth line will be changed to a period, and the word "the" in the fifteenth line will be changed to "The".

(b) There may be substituted for the first sentence of said paragraph (b), the following sentence:

The Government shall not have a right of termination under this Article if (i) the delay of the Contractor in making deliveries is an excusable delay, as hereinafter defined, and (ii) the Contractor notifies the Contracting Officer in writing of such delay and the cause thereof, prior to the date of final settlement of the contract.

§ 803.352–2 If desired, the word "unforeseeable", contained in the clause set forth in § 803.352, may be omitted. If the word is omitted, and bids are being solicited informally or otherwise, and there exists some foreseeable and probable cause of delay which would be beyond the control of the contractor, care should be exercised in evaluating the various bids submitted. It is possible under those circumstances for contractor "A" to submit a bid which requires performance within a time schedule which could not possibly be adhered to if such cause of delay materialized. Under the delays-damages clause, as modified in accordance with this section, the failure to perform within the time schedule might well be construed as an excusable delay. Contractor "B", although capable of performing with as great despatch as "A" may allow for the probable cause of delay, and submit a bid calling for deliveries at a date later than that offered by "A". In evaluating the two bids, the fact that "A" has not made allowance for the probable cause of delay should be taken into account.

§ 803.352–3 For the purpose of the first sentence of paragraph (b) of the Delays-Damages clause set forth in § 803.352, and for the purpose of any like provision contained in any contract clause which has been inserted in a contract in lieu of said Delays-Damages clause, the chief of the technical service or such person as he may designate shall be deemed to be the "duly authorized representative of the Secretary of War". If desired, the term "chief of technical service or his duly authorized representative" may be substituted for the term "Secretary of War or his duly authorized representative".

§ 803.352a *Provision for liquidated damages.* Except with the permission of the chief of the technical service concerned (which may be granted with respect to contracts individually or by class), or in accordance with general instructions given by him, no contract shall provide for liquidated damages in the event of default. Where a contract provides for liquidated damages and a default takes place, action will be taken, subject to the provisions of §§ 803.308e, 803.379 and 803.380, promptly on behalf of the Government to enforce any remedies available under the contract. So far as possible, such action will be taken in such manner as will prevent the inequitable accumulation of liquidated damages.

§ 803.353 *Walsh-Healey Act; representations and stipulations.* All supply contracts subject to the Walsh-Healey Act (Act of June 30, 1936; Public Law No. 846, 74th Congress; 49 Stat 2036; 41 U.S.C. 35–45) (see § 809.916 and sections following), except as provided in § 803.353–4, will contain the following clause without deviation:

Representations and stipulations pursuant to the Walsh-Healey Act:

(a) The contractor is the manufacturer of or a regular dealer in the materials, supplies, articles, or equipment to be manufactured, or used in the performance of the contract.

(b) All persons employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract will be paid, without subsequent deduction or rebate on any account, not less than the minimum wages as determined by the Secretary of Labor to be the prevailing minimum wages for persons employed on similar work or in the particular or similar industries or groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under the contract: *Provided, however,* That this stipulation with respect to minimum wages shall apply only to purchases or contracts relating to such industries as have been the subject matter of a determination by the Secretary of Labor.

(c) No person employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract shall be permitted to work in excess of 8 hours in any 1 day or in excess of 40 hours in any 1 week unless such person is paid such applicable overtime rate as has been set by the Secretary of Labor: *Provided, however,* That the provisions of this stipulation shall not apply to any employer who shall have entered into an agreement with his employees pursuant to the provisions of paragraphs 1 or 2 of subsection (b) of section 7 of an act entitled "The Fair Labor Standards Act of 1938": *Provided further,* That in the case of such an employer, during the life of the agreement referred to, the applicable overtime rate set by the Secretary of Labor shall be paid for hours in excess of 12 in any 1 day or in excess of 56 in any 1 week and if such overtime is not paid, the employer shall be required to compensate his employees during that week at the applicable overtime rate set by the Secretary of Labor for hours in excess of 8 in any 1 day or in excess of 40 in any 1 week.

(d) No male person under 16 years of age and no female person under 18 years of age and no convict labor will be employed by the contractor in the manufacture or production or furnishing of any of the materials, supplies, articles, or equipment included in the contract.

(e) No part of the contract will be performed nor will any of the materials, supplies, articles, or equipment to be manufactured or furnished under said contract be manufactured or fabricated in any plants, factories, buildings, or surroundings or under working conditions which are unsanitary or hazardous or dangerous to the health and safety of employees engaged in the performance of the contract. Compliance with the safety, sanitary, and factory inspection laws of the State in which the work or part thereof is to be performed shall be prima facie evidence of compliance with this subsection.

(f) Any breach or violation of any of the foregoing representations and stipulations shall render the party responsible therefor liable to the United States of America for liquidated damages, in addition to damages for any other breach of the contract, in the sum of $10 per day for each male person

under 16 years of age or each female person under 18 years of age, or each convict laborer knowingly employed in the performance of the contract, and a sum equal to the amount of any deductions, rebates, refunds or underpayment of wages due to any employee engaged in the performance of the contract; and, in addition, the agency of the United States entering into the contract shall have the right to cancel same and to make open-market purchases or enter into other contracts for the completion of the original contract, charging any additional cost to the original contractor. Any sums of money due to the United States of America by reason of any violation of any of the representations and stipulations of the contract as set forth herein may be withheld from any amounts due on the contract or may be recovered in a suit brought in the name of the United States of America by the Attorney General thereof. All sums withheld or recovered as deductions, rebates, refunds, or underpayments of wages shall be held in a special deposit account and shall be paid, on order of the Secretary of Labor, directly to the employees who have been paid less than minimum rates of pay as set forth in such contracts and on whose account such sums were withheld or recovered: Provided, That no claims by employees for such payments shall be entertained unless made within 1 year from the date of actual notice to the contractor of the withholding or recovery of such sums by the United States of America.

(g) The contractor shall post a copy of the stipulations in a prominent and readily accessible place at the site of the contract work and shall keep such employment records as are required in the Regulations under the act available for inspection by authorized representatives of the Secretary of Labor.

(h) The foregoing stipulation shall be deemed inoperative if this contract is for a definite amount not in excess of $10,000.

§ 803.353–1 *Changes in regulations under Walsh-Healey Act.* From time to time there are issued by the Secretary of Labor changes in regulations under the Walsh-Healey Act which have the effect of modifying the standard representations and stipulations which are required to be inserted in supply contracts subject to that act (see Subpart E of Part 809). Accordingly, if desired, there may be added to the representations and stipulations set forth in § 803.353 an additional paragraph as follows:

(i) The foregoing representations and stipulations shall be subject to all applicable regulations, determinations and exemptions of the Secretary of Labor now or hereafter in effect.

§ 803.353–2 *Convict labor.* For discussion of the provision with respect to convict labor contained in paragraph (d) of the representations and stipulations set forth in § 803.353, see § 809.903–2.

§ 803.353–3 *Minimum wage determinations under the Walsh-Healey Act.* (a) It is not necessary that contracts subject to the Walsh-Healey Act contain a statement as to the minimum wage determination which is applicable.

(b) Provisions of paragraph (a) above do not however, affect the requirement that the applicable minimum wage determinations, if any, be set forth in the individual purchase action report (see item (20) in § 802.297–1a.

§ 803.353–4 *Incorporation by reference of Walsh-Healey Act stipulations.* By Circular Letter No. 12–42, dated January 4, 1943, the Administrator of the Wage and Hour and Public Contracts Divisions of the Department of Labor permitted the incorporation of the Walsh-Healey Act representations and stipulations by reference. Accordingly, notwithstanding the provisions of § 803.353, such representations and stipulations may be incorporated by reference. The following language is suggested.

The representations and stipulations required by Section 1 of the Act of June 30, 1936 (Walsh-Healey Act, Public No. 846, 74th Congress) to be included in all contracts therein specified are hereby incorporated and made a part of this contract with the same force and effect as if fully set forth in the contract.

If desired, the following sentence may be added:

Such representations and stipulations shall be subject to all applicable regulations, determinations, and exemptions of the Secretary of Labor now or hereafter in effect.

(Compare § 803.353–1.)

§ 803.354 *Notice of labor disputes; contract clause.* The following clause will be contained without deviation in all contracts except (a) those to which it is clearly inapplicable, (b) those which are written on a standard form of contract, such as War Department Contract Form No. 47 (§ 813.1317c), which does not contain the clause:

Notice to the Government of labor disputes. Whenever an actual or potential labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor will immediately give notice thereof to the[1]_____ Such notice shall include all relevant information with respect to such dispute.

§ 803.355 *Assignment of rights; contract clause.* In accordance with the Assignment of Claims Act of 1940 (54 Stat. 1029) every contract which provides for payments aggregating $1,000 or more, with the exception of secret, confidential and restricted contracts, will contain the following clause without deviation:

Assignment of rights hereunder. (a) Claims for monies due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company or other financing institution, including any Federal lending agency. Any such assignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment may be made to one party as agent or trustee for two or more parties participating in such financing.

(b) In the event of any such assignment the assignee shall file four signed copies of a written notice of the assignment, together with one copy of the instrument of assignment, with each of the following:

(i) General Accounting Office;

(ii) the Contracting Officer;

(iii) the surety or sureties upon the bond or bonds, if any, in connection with this contract;

(iv) the officer designated in this contract to make payments thereunder.

(c) Any claim under this contract which has been assigned pursuant to the foregoing provisions of this Article may be further assigned and reassigned to a bank, trust company or other financing institution, including any Federal lending agency. In the event of such further assignment or reassignment the assignee shall file one signed copy of a written notice of the further assignment or reassignment together with a true copy of the instrument of further assignment or reassignment with the contractor; and shall file four signed copies of such written notice and one copy of such instrument with each of the parties designated in the preceding paragraph.

(d) No assignee shall divulge any information concerning the contract except to those persons concerned with the transaction.

(e) Payment to an assignee of any claim under this contract shall not be subject to reduction or set-off for any indebtedness of the assignor to the United States arising independently of this contract.

(f) Indication of the assignment of claim and of any further assignment thereof and the name of the assignee will be made on all vouchers or invoices certified by the contractor.

§ 803.356 *Provisions concerning assignment of rights under classified contracts.* Unless the omission of such provision is authorized by the chief of the technical service concerned, secret, confidential and restricted contracts will contain the following clause without deviation:

Assignment of Rights Hereunder. No claim under this contract shall be assigned.

In the event that the omission of the foregoing provision is authorized as aforesaid, the contract will contain without deviation the clause set forth in § 803.355 and there shall be added thereto the following paragraphs without deviation:

(g) In no event shall copies of any plans, specifications, or other similar documents marked "Secret", "Confidential" or "Restricted" and annexed or attached to this contract be furnished to any assignee of any claim arising under this contract or to any other person not entitled to receive the same.

(h) The contractor agrees that he will obtain from the assignee an agreement signed by such assignee similar to that required by paragraph 61, AR 380–5. In such agreement the assignee shall also agree that, in case of further assignment, it will obtain a similar agreement from such assignee.

§ 803.357 *Tax articles in fixed price (lump sum) contracts.* Form of tax articles are set forth below in §§ 803.357–1 and 803.357–2. Whichever form is applicable must be used in all contracts executed on or after June 1, 1944 and may be used (in preference to the forms of articles formerly contained in such sections) in contracts executed before that date.

§ 803.357–1 *Long form tax article.* Except as otherwise stated in §§ 803.357–2 and 803.357–5 all fixed price (lump sum) contracts will include a tax article substantially in the form set forth in this section. Attention is directed to the necessity of including in each contract suitable provisions (see §§ 803.358) to specify any taxes to be excluded from or included in the contract price otherwise than as provided in such tax article. If desired, the words "of the award of this contract" or "of the bid upon the basis of which this contract was placed" may be substituted for the italicized words "of this contract" in the following article,

[1] Such officers as may be designated by the chief of the technical service concerned.

provided that such substitution is made uniformly throughout the article and that the date of the award or the date of the bid, as the case may be, is specified in the contract.

Article _____. Taxes. (a) Unless otherwise indicated in this contract, (A) the prices herein do not include any state or local sales, use or other tax from which the Contractor or this transaction of the procurement of these supplies or work is exempt, and (B) the prices herein include all applicable Federal taxes and other applicable state and local taxes in effect at the date *of this contract.* Upon request of the Contractor the Government will issue tax exemption certificates or furnish other similar proof of exemption with respect to all taxes excluded from the price.

(b) If after the date *of this contract* the Federal Government or any state or local government shall impose, remove or change (including any change by the removal by statute of an exemption available to the Contractor for the purposes of this contract) any duty, sales, use or excise tax or any other tax or charge directly applicable to the supplies or work covered hereby or the materials used in the manufacture thereof or directly upon the importation, production, processing, manufacture, construction, sale or use of such supplies, work or materials, which tax or charge must be borne by the Contractor because of a specific contractual obligation or by operation of law, or, in case of a decrease or elimination of any such tax, where the Contractor is relieved to that extent, and if in case of an increase in such an existing tax or the imposition of such a new tax the Contractor has paid such tax or charge to the Federal Government or to a state or local government, or any other person, then the prices named herein will be increased or decreased accordingly and any amount due to the Contractor as a result of such change will be charged to the Government and entered on vouchers (or invoices) as a separate item: *Provided, however,* That the Government reserves the right to issue to the Contractor in lieu of such payment a tax exemption certificate or certificates acceptable to the Federal Government or state or local government, as the case may be. The amount of any adjustment pursuant to this paragraph (b) may be determined by a written agreement between the parties hereto. Nothing contained herein shall be construed as requiring the Government to reimburse the Contractor for any Federal, state, or local income taxes, income surtaxes or excess profits taxes, transportation taxes, or taxes on property.

(c) In the case of any state or local tax or charge which the Contractor contends is chargeable to the Government because of the provisions of this Article, or any other provision of this contract, the Contractor agrees to refrain from paying any such tax or charge upon the direction of the Contracting Officer (in which event the Government will save the Contractor harmless from penalties and interest incurred through compliance with the direction of the Contracting Officer not to pay such tax); to take such steps as may be directed by the Government to cause such tax or charge to be paid under protest; to preserve and, if so directed by the Contracting Officer, to cause to be assigned to the Government any and all rights to the abatement or refund of such tax or charge; if so requested, to permit the Government to prosecute any claim, litigation or proceeding for the refund of such tax in the name of the Contractor, and to furnish to the Government all reasonable assistance and cooperation requested by the Government in any litigation or proceeding for the recovery of such tax or charge.

(d) Where any duties or taxes have been included in the contract price (including the price as adjusted under paragraph (b) of this Article) and a refund or drawback is obtained by the Contractor by reason of the export or re-export of supplies covered hereby, or of materials used in the performance of this contract, the amount of such refund or drawback will be paid over to the Government, or credited against amounts due from the Government under this contract: *Provided, however,* That the Contractor shall not be required to apply for such refund or drawback unless so requested by the Contracting Officer.

If desired the following sentence, or substantially similar language, may be added at the end of paragraph (b) of the foregoing tax article:

For the purposes of any additional procurement of supplies or work called for by any agreement supplemental hereto, the words *"date of this contract"* shall be deemed to refer to the date of such supplemental agreement.

§ 803.357–2 *Short form tax article.* (a) The short form tax article set forth below may be used, in lieu of the form set forth in § 803.357–1, (1) where the estimated time for performance does not exceed sixty days, (2) where the contract is executed on a standard form of contract (as that term is defined in § 803.304–1) which contains the short form tax article, and (3) where the contract instrument is a purchase order. The long form tax article (§ 803.357–1) may be inserted in lieu of the short form tax article in any standard form of contract which contains the short form tax article.

Article _____. Taxes. Unless otherwise indicated in this contract, (A) the prices herein do not include any state or local sales, use or other tax from which the Contractor or this transaction of the procurement of these supplies is exempt, and (B) the prices herein include all applicable Federal taxes and other applicable state and local taxes in effect at the date of this contract. Upon request of the Contractor the Government will issue tax exemption certificates or furnish other similar proof of exemption with respect to the taxes excluded from the price. Where any duties or taxes have been included in the contract price and a refund or drawback is obtained by the Contractor by reason of the export or re-export of supplies covered hereby, or of materials used in the performance of this contract, the amount of such refund or drawback will be paid over to the Government, or credited against amounts due from the Government under this contract: *Provided, however,* That the Contractor shall not be required to apply for such refund or drawback unless so requested by the Contracting Officer.

(b) Attention is again directed to the necessity of including in each contract (see § 803.358) suitable provisions to specify any taxes to be excluded from, or included in, the contract price other than as provided in such tax article.

§ 803.357–4 *State and local taxes.* State and local sales or use taxes generally do not apply to sales directly to the United States or to the use of property by the United States (see § 808.831). Special provisions may be included in any contract with respect to any state or local excise tax as to which there is doubt whether an exemption exists applicable to the transaction covered by the contract. Any such special provisions should clearly specify whether such tax is to be included in or excluded from the price and whether the Government must pay or reimburse the contractor for the tax if no exemption is applicable. Contracting officers, so far as is practicable, should take precautions to see that contractors do not include in their bid, or price any amount for (a) any state or local sales or use taxes which do not apply to sales to the Federal Government or to the use of property by the Federal Government, or (b) any other state or local taxes, exemption from which is available in the case of transactions to which the Federal Government is a party.

§ 803.357–5 *Omission of standard tax articles.* The chief of any technical service may authorize the omission of the tax articles set forth in §§ 803.357–1 and 803.357–2 from any contract where they are plainly inapplicable or inappropriate. In any class or classes of contracts for services where a major part of the cost of performance consists of payroll expense, e. g., stevedoring contracts, the chief of any technical service may authorize the inclusion of a provision for price adjustment in the event of changes in payroll taxes with respect to such services. The form of any such provision in general should be similar to the provision found in paragraph (b) of the tax article set out in § 803.357–1 but should not be made applicable to taxes other than those paid with respect to the wages of the employees of the particular contractor.

§ 803.357–6 *Customs duties.* Customs duties are Federal taxes and under the contract clauses set forth in §§ 803.357–1 and 803.357–2, will, unless otherwise indicated in the contract, be deemed to be included in the contract price. As to the right to "drawback," see §§ 805.506 to 805.506–3.

§ 803.358 *Specification of taxes included or excluded; information to bidders.* (a) The standard tax articles state that the contract prices include Federal taxes. However, as stated in Part 808 of this chapter, certain exemptions from Federal excise taxes are available to the United States. In the event any contract for the procurement of an item for which an exemption is available to the United States is executed containing one of the standard tax articles, and any Federal tax is to be excluded from the contract price, it will be necessary in such contract to show expressly and accurately the Federal tax so excluded.

(b) Likewise, where any particular state or local tax is included in or excluded from the contract price otherwise than as is stated in the standard provision of the tax article used in the contract, such contract must contain appropriate provisions indicating expressly and accurately the nature of any such particular tax.

(c) Invitations to bid, requests for proposals, specifications, instructions to bidders, and proposals should indicate expressly the types of taxes to be included in or excluded from the contract price and whether tax exemption certificates will be given or required. The tax provisions of each contract must be in conformity with any invitation to bid, speci-

fications and proposals issued or made in connection therewith.

(d) Information with respect to Federal, state or local taxes may be found in Part 808 of this chapter.

§ 803.362 *Lump sum construction contracts; accident prevention clause.* Every lump sum construction contract, regardless of subject matter or amount, except contracts for the construction and/or repair of vessels and other floating equipment, will contain a clause substantially as follows:

Accident prevention. In order to protect the life and health of employees in the performance of this contract, the contractor will comply with all pertinent provisions of the "Safety Requirements for Excavation—Building—Construction" approved by the Chief of Engineers, December 16, 1941, as revised 15 March 1943, (a copy of which is on file in the office of the contracting officer) and as may be amended, and will take or cause to be taken such additional measures as the contracting officer may determine to be reasonably necessary for this purpose. The contractor will maintain an accurate record of and will report to the contracting officer in the matter and on the forms prescribed by the contracting officer, all cases of death, occupational disease and traumatic injury arising out of or in the course of employment on work under this contract. The contracting officer will notify the contractor of any non-compliance with the foregoing provisions and the action to be taken. The contractor shall, after receipt of such notice, immediately correct the conditions to which attention has been directed. Such notice, when served on the contractor or his representatives at the site of the work, shall be deemed sufficient for the purpose aforesaid. If the contractor fails or refuses to comply promptly, the contracting officer may issue an order stopping all of any part of the work. When satisfactory corrective action is taken, a start order will be issued. No part of the time lost due to any such stop order shall be made the subject of claim for extension of time or for excess costs or damages by the contractor.

Every fixed-fee construction contract, regardless of subject matter or amount, will contain a clause substantially similar to the foregoing except that the last sentence will be omitted.

§ 803.363 *Disposition of Government-owned property by contractors.* (a) An article substantially as follows may be inserted in Cost-plus-a-fixed-fee Contracts when authorized by the provisions of § 827.727:

It is recognized that property (including without limitation machine tool and processing equipment, manufacturing aids, raw, manufactured, scrap and waste materials), title to which is or may hereafter become vested in the Government, will be used by or will be in the care, custody or possession of the Contractor in connection with the performance of this contract. With the approval in writing of the Contracting Officer (whether such approval is given prior to or after the giving of a notice of the termination of this contract for the convenience of the Government), the Contractor may transfer or otherwise dispose of such Government-owned property to such parties and upon such terms and conditions as the Contracting Officer may approve or ratify, or, with like approval by the Contracting Officer, the Contractor may itself acquire title to such property or any of it at a price mutually agreeable. The proceeds of any such transfer or disposition of the agreed price of any property, title to which is so acquired by the Contractor, shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract, or shall otherwise be paid in such manner as the Contracting Officer may direct.

(b) If desired, the article authorized in paragraph (a) may be designated as subparagraph (a) and there may be added thereto provisions substantially as follows:

(b) The Contractor is authorized to insert in any subcontract made by the Contractor on a cost-plus-a-fixed-fee basis under this contract substantially the following provision:

ARTICLE _____. Sale of Government Property—It is recognized that property (including without limitation machine tools and processing equipment, manufacturing aids, raw, manufactured, scrap and waste materials) title to which is or may hereafter become vested in the Government, will be used by or will be in the care, custody or possession of _____ (Subcontractor) in connection with the performance of this subcontract. With the approval in writing of the Contracting Officer for the plant of _____ (Subcontractor) (whether such approval is given prior to or after the giving of a notice of the termination of this subcontract), _____ (Subcontractor) may transfer or otherwise dispose of such Government-owned property to such parties and upon such terms and conditions as such Contracting Officer may approve or ratify, or, with like approval by, and at a price agreeable to, such Contracting Officer, _____ (Subcontractor) may itself acquire title to such property or any of it. The proceeds of any such transfer or disposal or the agreed price of any property, title to which is so acquired by _____ (Subcontractor) shall, at the direction of such Contracting Officer, be applied by _____ (Subcontractor) in reduction of any payments to be made by _____ (Prime Contractor) under this subcontract, or shall be paid to the Treasurer of the United States, or to _____ (Prime Contractor) for the account of the United States, in such manner as such Contracting Officer may direct.

(c) Upon approval of any transfer or other disposition of Government-owned property as provided in paragraph (b) above, which transfer or disposition is made to a transferee other than the Contractor, the Contractor shall be and hereby is released and discharged from liability for such property, if any, except that the Contractor shall be obligated to account to the Government for the proceeds of any such transfer or disposal of such property paid or credited to the Contractor pursuant to the direction of the Contracting Officer for the plant of any such subcontractor.

(c) Any existing cost-plus-a-fixed-fee contract may be amended to include an article substantially similar to that authorized by paragraph (a) above or that authorized by paragraphs (a) and (b) above.

(d) If a cost-plus-a-fixed-fee contract contains an article authorized by paragraph (a) above and it is desired, without amending such contract, to confer upon subcontractors authority to dispose of Government-owned property, the subcontracts may be amended to insert therein the article contemplated by clause (b) contained in paragraph (b) above.

§ 803.364 *Marking of shipping containers.* Every supply contract relating to supplies destined for overseas shipment will contain a clause substantially as follows (see §§ 811.1101 to 811.1101–7):

Marking of shipping containers. The Contractor will follow any directions set forth in the contract specifications concerning the marking of containers in which the supplies are to be shipped. If the contract specifications contain no such directions, the Contractor will follow such instructions on the matter as he may from time to time receive from the Contracting Officer.

§ 803.365 *Contract clauses in connection with bonds and insurance.*

§ 803.365–1 *Liability for Government-owned property; cost-plus-a-fixed-fee contracts.* In compliance with the policy expressed in § 804.434, the following article is prescribed for inclusion in cost-plus-a-fixed-fee contract (see Note 2 below).

Liability for Government-owned property. (a) Except as otherwise specifically provided, the contractor shall not be liable for loss or destruction of or damage to property of the Government in the possession or control of the contractor in connection with this contract (hereinafter called "Government property") unless such loss, destruction or damage results from willful misconduct or failure to exercise good faith on the part of the contractor's corporate officers or other representatives having supervision or direction of the operation of the whole of the contractor's business or of the whole of any plant operated by the contractor in the performance of this contract.

(b) The contractor represents that it is not maintaining and agrees that it will not hereafter maintain insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to Government property, and represents that it is not including and agrees that it will not hereafter include in any price to the Government any charge or reserve for such insurance.

(c) Upon the happening of loss or destruction of or damage to Government property caused by:

Fire; lightning; windstorm, cyclone, tornado, hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the contractor or any agent or employee of the contractor; smoke; sprinkler leakage; earthquake, or volcanic eruption; flood, meaning thereby rising of rivers or streams; enemy attack or any action taken by the military, naval or air forces of the United States in resisting enemy attack,

the contractor shall communicate with the contracting officer and with the Loss and Salvage Organization now or hereafter designated by the contracting officer and, with the assistance of that organization employed by the contractor to perform services in accordance with instructions or regulations of the Government (unless the contracting officer directs that no such organization be employed), shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the contracting officer a statement of: (1) the lost, destroyed and damaged Government property, (2) the time and origin of the loss, destruction or damage, (3) all known interests in commingled prop-

erty of which the Government property is a part, and (4) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged Government property.*[1] The contractor shall be reimbursed the expenditures made by it and approved by the contracting officer in performing its obligations under this paragraph (c) (including charges made to the contractor by the Loss and Salvage Organization, except any of such charges, the payment of which the Government has, at its option, assumed direct).

(d) In the event the contractor is indemnified, reimbursed or compensated for any loss or destruction of or damage to Government property, it shall equitably reimburse the Government. The contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the contracting officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(e) The Government shall at all times have access to the premises wherein any Government property is located.

(f) The contractor shall insert in all cost-plus-a-fixed-fee subcontracts under this contract provisions which will make applicable to the Government and the subcontractors substantially the same rights and obligations in respect to the Government property as are made applicable to the Government and the contractor under this Article.

NOTE 1: Where *facilities*, such as machinery, are furnished by the Government or acquired for Government account under cost-plus-a-fixed-fee contracts, appropriate *additional* provisions, dealing with such subjects as standby, storage and removal, may be included.

NOTE 2: (a) The Article set forth above will be included in all cost-plus-a-fixed-fee contracts executed on or after March 15, 1944.

(b) Whenever the terms of a cost-plus-a-fixed-fee contract are to be modified by the execution, on or after March 15, 1944, of a supplemental agreement, and the contract to be modified does not contain an Article identical in wording with that set forth above, the supplemental agreement will provide that the contract is modified to include the Article.

(c) In order that the services of the Loss and Salvage Organizations may be made available, widely and promptly, it is desired, in addition, that existing contracts be amended whenever practicable to incorporate the Article even when occasion does not arise to write a supplemental agreement for other reasons.

NOTE 3: See §§ 804.434–1 and 804.498 in regard to Loss and Salvage Organizations.

NOTE 4: In the event that the Government property is located in an area outside of the United States, where the services of the Loss and Salvage Organizations are not available, the following clause will be used in lieu of paragraph (c) above:

Upon the happening of loss or destruction of or damage to Government property, the contractor shall communicate with the contracting officer, shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the contracting officer a statement of: (1) the lost, destroyed and damaged Government property, (2) the time and origin of the loss, destruction or damage, (3) all known interests in commingled property of which the Government property is a part, and (4) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged Government property.*[1] The contractor shall be reimbursed the expenditures made by it and approved by the contracting officer in performing its obligations under this paragraph (c).

§ 803.365–1a *Same; fixed or unit price contracts.* Except in the special cases discussed in § 804.451, the following article is prescribed for inclusion in fixed or unit price contracts under which Government-owned property is furnished to the contractor. (See Note 1 below). When deemed desirable by a technical service, because of the amount of Government property involved or for other reasons in the best interests of the United States, the substance of the following article may also be approved for inclusion in fixed or unit price subcontracts under either cost-plus-a-fixed-fee or fixed or unit price prime contracts. This article is not intended to cover Government-owned facilities furnished under fixed or unit price contracts or subcontracts, as to which see § 803.332.

Liability for Government-owned property. (a) Except as otherwise specifically provided, the contractor shall not be liable for loss or destruction of or damage to property of the Government in the possession or control of the contractor in connection with this contract (hereinafter called "Government property") (1) caused by any peril while the property is in transit off the contractor's premises, or (2) caused by any of the following perils while the property is on the contractor's or subcontractor's or other premises or by removal therefrom because of any of the following perils:

Fire; lightning; windstorm, cyclone, tornado, hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the contractor or any agent or employee of the contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of rivers or streams; enemy attack or any action taken by the military, naval or air forces of the United States in resisting enemy attack.

The perils as set forth in (1) and (2) above are hereinafter called "excepted perils".

(b) The contractor represents that it is not maintaining and agrees that it will not hereafter maintain insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to Government property caused by any excepted peril, and represents that it is not including and agrees that it will not hereafter include in any price to the Government any charge or reserve for such insurance.

(c) Upon the happening of loss or destruction of or damage to Government property caused by an excepted peril, the contractor shall communicate with the contracting officer and with the Loss and Salvage Organization now or hereafter designated by the contracting officer and, with the assistance of that organization employed by the contractor to perform services in accordance with instructions or regulations of the Government (unless the contracting officer directs that no such organization be employed), shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the contracting officer a statement of: (1) the lost, destroyed and damaged Government property, (2) the time and origin of the loss, destruction or damage, (3) all known interests in commingled property of which the Government property is a part, and (4) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged Government property.*[1] The contractor shall be reimbursed the expenditures made by it in performing its obligations under this paragraph (c) (including charges made to the contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, at its option, assumed direct), as approved by the contracting officer and set forth in a Supplemental Agreement.

(d) With the approval of the contracting officer after loss or destruction of or damage to Government property, and subject to such conditions and limitations as may be imposed by the contracting officer, the contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of Government property which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the contractor, that separation is impracticable.

(e) Except to the extent of any loss or destruction of or damage to Government property for which the contractor is relieved of liability under the foregoing provisions of this Article, and except for reasonable wear and tear or depreciation, or the utilization of the Government property in accordance with the provisions of this contract, the Government property (other than property permitted to be sold) shall be returned to the Government in as good condition as when received by the contractor in connection with this contract. In aid of its obligation so to return the Government property, the contractor shall maintain a property control, accounting and maintenance system consistent with good business practice.

(f) In the event the contractor is reimbursed or compensated for any loss or destruction of or damage to Government property, caused by an excepted peril, it shall equitably reimburse the Government. The contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the contracting officer, shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(g) The Government shall at all times have access to the premises wherein any Government property is located.

NOTE 1: (a) The Article set forth above will be included in all fixed or unit price contracts under which Government-owned property is furnished to the contractor, executed on or after March 15, 1944.

(b) Whenever the terms of such a fixed or unit price contract are to be modified by the execution, on or after March 15, 1944, of a supplemental agreement, and the contract to be modified does not contain an Article identical in wording with that set forth above, the supplemental agreement will provide that the contract is modified to include the Article.

(c) In order that the services of the Loss and Salvage Organizations may be made available, widely and promptly, it is desired, in addition, that such existing con-

[1] Italicized language may be omitted in appropriate cases.

tracts be amended whenever practicable to incorporate the Article even when occasion does not arise to write a supplemental agreement for other reasons.

NOTE 2: See §§ 804.451–1 and 804.498 in regard to Loss and Salvage Organizations.

NOTE 3: In the event that the Government property is located in an area outside of the United States, where the services of the Loss and Salvage Organizations are not available, the following clause will be used in lieu of paragraph (c) above:

Upon the happening of loss or destruction of or damage to Government property caused by an excepted peril, the contractor shall communicate with the contracting officer, shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the contracting officer a statement of: (1) the lost, destroyed and damaged Government property, (2) the time and origin of the loss, destruction or damage, (3) all known interests in commingled property of which the Government property is a part, and (4) the insurance, if any, covering any part of or interest in such commingled property. *If and as directed by the contracting officer, the contractor shall make repairs and renovations of the damaged Government property.*[1] The Contractor shall be reimbursed the expenditures made by it in performing its obligations under this paragraph (c) as approved by the contracting officer and set forth in a Supplemental Agreement.

§ 803.365–1b *Liability and insurance clauses for use in fixed price contracts for transportation services.* The contract articles set forth below shall be used under the conditions prescribed for the use of each article in fixed price contracts for services accessorial to or forming a part of a transportation movement, including contracts for freight handling, car loading and unloading, packing and crating, stevedoring, lighterage, trucking, heavy lift service, lumber handling and other contracts for terminal services not procured by means of a bill of lading.

(a) *Where eliminating cost of insurance results in savings.* Where savings to the Government may be obtained by eliminating the cost of insurance on Government property which otherwise would be added to the contract price, the contract will, unless an indemnity article for liability for extraordinary wartime risks and hazards is required, contain the article set forth in § 803.365–1 (omitting paragraph (f) and, in cases where the contract is performed on Government premises, paragraph (e)).

(b) *Where services performed by common carrier or warehouseman.* The following liability provision will be used where the services are performed by a common carrier or a common warehouseman at tariff or established rates, since such rates include a factor for the liability imposed or assumed:

Liability for Government-owned property. The Contractor's responsibility for Government property in its possession or control pursuant to the performance of this contract shall be that imposed by law.

(c) *Where savings trivial in amount, difficult of ascertainment or performed at tariff rates.* Except as otherwise provided in paragraph (b) of this section, where savings will be trivial in amount or difficult of ascertainment or where the services are performed at tariff or established rates, which rates include a factor for liability imposed or assumed, the following article will be used:

Liability for Government-owned property. The Contractor shall be liable to the Government for all loss of or damage to property of the Government in its possession or control in connection with this contract resulting from the fault or negligence of the Contractor's officers, agents, or employees.

(d) *Where contractor carries limited amount of insurance.* Where insurance covering Contractor's liability for property is carried in a limited amount and no substantial savings will accrue to the Government if this insurance is eliminated, yet if the Contractor be required to assume total liability the Contractor's insurance limits would have to be increased or additional insurance purchased, thereby increasing the cost of services, the following article will be used:

Liability for Government-owned property. (a) The Contractor shall be liable to the Government for all loss or destruction of or damage to the property of the Government in its possession or control in connection with this contract (hereinafter called "Government property") resulting from the fault or negligence of the Contractor's officers, agents, or employees: *Provided, however,* That the liability of the Contractor under this paragraph shall not exceed $(A) on account of any one accident or occurrence and that with respect to so much of any loss or destruction of or damage to Government property on account of any one accident or occurrence as exceeds $(A) the Contractor shall be liable only under the conditions set forth in subparagraph (b) hereof.

(b) Except as otherwise specifically provided, the Contractor shall not be liable for loss or destruction of or damage to Government property unless such loss, destruction or damage results from the willful misconduct or failure to exercise good faith on the part of the Contractor's corporate officers or other representatives having supervision or direction of the operation of the Contractor's business or of the whole of Contractor's operations at any place where the Contractor may perform services under this contract.

(c) The Contractor represents that it is not maintaining and agrees that it will not hereafter maintain insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to Government property in excess of the maximum amount of liability provided in subparagraph (a) hereof, and represents that it is not including and agrees that it will not hereafter include in any price to the Government any charges or reserve for such insurance.

(d) Upon the happening of loss or destruction of or damage to Government property in excess of $(A) the Contractor shall communicate with the Contracting Officer and, if directed by the Contracting Officer, with the Loss and Salvage Organization now or hereafter designated by the Contracting Officer; and, with the assistance of that organization, if employed by the Contractor to perform services in accordance with instructions or regulations of the Government, shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the Contracting Officer a statement of: (1) the lost, destroyed and damaged Government property, (2) the time and origin of the loss, destruction or damage, (3) all known interests in commingled property of which the Government property is a part, (4) the insurance, if any, covering any part of or interest in such commingled property. The Contractor shall be reimbursed the expenditures made by it and approved by the Contracting Officer in performing its obligations under this subparagraph (d) (including charges made to the Contractor by the Loss and Salvage Organization, except any of such charges, the payment of which the Government has, at its option, assumed direct).

(e) In the event the Contractor is indemnified, reimbursed or compensated for any loss or destruction of or damage to Government property, it shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(f) The Government shall at all times have access to the premises wherein any Government property is located. (Omit this subparagraph if the contract is to be performed at an Army installation.)

(e) *Where Government may obtain benefit of insurance carried as part of contractor's regular operations.* If the Contractor carries as a part of its regular commercial operations insurance on property covering loss or damage caused by fire, lightning, flood, windstorm and the like, and the Government may obtain the benefit of such additional insurance protection without substantial increase in the contract price, the following provision will be added at the end of the articles prescribed in paragraphs (a) and (b), at the end of subparagraph (a) of the article prescribed in paragraph (d) of this section or (with the first seven words of the second sentence deleted) in lieu of subparagraph (a) of the article prescribed in paragraph (d) of this section, depending upon the nature of the Contractor's insurance:

The Contractor carries and will maintain as a part of its regular commercial operations insurance covering loss or destruction of or damage to property in the amount of $_____. In addition to the liability hereinabove imposed, the Contractor shall be liable to the Government for any loss or damage to property of the Government in its possession or control in connection with this contract to the extent coverage is provided in such insurance.

(f) *Where extraordinary risks and hazards are involved.* In rare cases contracts which may involve extraordinary risks and hazards of loading and unloading, discharging, handling, storage, or proximity of ammunition,, explosives, gasoline, or other inherently dangerous freight may provide that the Government assumes such extraordinary risks and hazards incident to wartime operations to which the Contractor may be exposed. In such instances, where a lower contract rate may be obtained thereby and it is deemed that the assumption of such risks and hazards by the Government will facilitate the prosecution of the war, the article set forth below may be used with such minor variations as may be necessary to fit the particular situation.

[1] Italicized language may be omitted in appropriate cases.

All contracts containing such article will be submitted for prior written approval in accordance with § 802.238–3 of this chapter. No indemnity provision will be used in contracts at tariff rates with common carriers or common warehousemen.

Liability and indemnity. (a) The Contractor shall procure and maintain at all times during the continuance of this contract a policy or policies of insurance insuring the Contractor against liability for injury to or death of any person or persons in an amount not less than $(X) in any one accident, and for liability for property damage, including but not limited to property of the Government, in an amount not less than $(Y) in any one accident. The Contractor shall have attached to and made a part of all said insurance policies a provision by the terms of which the insurer agrees to waive any and all rights of subrogation which it may have against the United States by reason of any payment under said policy or policies.

(b) The Contractor shall be liable to the Government for any loss or damage which may be sustained by the Government as a result of the fault or negligence of the Contractor's officers, agents or employees, subject, however, to the following limitations and conditions:

(i) The Contractor's liability to the Government in connection with any one accident shall be limited to the amount of $(Y) (or the amount of insurance carried by the Contractor, whichever is greater). The Contractor represents that the prices stated herein do not include the cost of insurance against the risks assumed by the Government nor any provision for a reserve to cover such risks.

(ii) The Contractor shall not be responsible to the Government for any loss or damage resulting from any act or omission of any employee of the Government or resulting from compliance by officers, agents, or employees of the Contractor with specific directions of the Contracting Officer; nor shall the Contractor be so responsible for any such loss or damage resulting from failure of the equipment supplied by the Government, unless the Contractor is negligent in the care and use of such Government furnished equipment.

(c) The services to be performed under this contract are incident to war activities of the Government and may include, in addition to services of a nature normally performed by the Contractor in peacetime commercial operations with the risks and hazards normally incident thereto, the loading, discharging, handling, presence or proximity of ammunition, explosives, gasoline or other inherently dangerous freight. It is understood that the compensation to the Contractor for the work has been established with regard only to the normal risks and hazards involved in similar services in peacetime commercial operations, and that such consideration does not include any allowance for the additional and extraordinary risks and hazards described above. To induce the contractor to undertake the performance of such services for the compensation herein provided, and thus obtained for the Government the resulting benefit of such reduced compensation, the Government will hold the Contractor harmless,

(i) Against liability to parties other than the Government because of death, bodily injury, or property damage or destruction or otherwise of any kind whatsoever, irrespective of negligence of the Contractor, its officers, agents, servants, or employees; and

(ii) For any expense, not excluded under subparagraph (4) hereof, which may be incurred by the Contractor, and which is attributable to such liability:

subject, however, to the following conditions and limitations:

(1) The undertaking of the Government shall be applicable and limited to situations where such liability arises out of, results from, or is in any way attributable to or connected with the presence or proximity of ammunition, explosives, gasoline or other inherently dangerous freight, or the loading, unloading, discharging, handling or storing of such freight by the Contractor.

(2) The undertaking of the Government shall be limited to the excess over and above $ (X), or the amount of insurance carried by the Contractor, whichever is greater, for injury to or death of persons, and $ (Y), or the amount of insurance carried by the Contractor, whichever is greater, for property damage, of the total and entire amount of such liability arising out of any single accident.

(3) The undertaking of the Government shall not be applicable and the Government shall have no obligation or liability in respect of such undertaking or otherwise, in situations in which such liability and expense is due in whole or in part to willful and deliberate disregard of instructions of the Government or to the personal failure to exercise good faith, or, insofar as the character of the work permits under wartime operations, that degree of care normally exercised under like conditions in the performance of the Contractor's peacetime commercial operations, by the elected corporate officers of the Contractor or the representative of the Contractor having supervision or direction of all operations at any place where the contractor may perform services hereunder, unless such failure to exercise such normal care is in compliance with express instructions of the Government.

(4) The Contractor shall cooperate with the Government and, upon the Government's request, shall assist in effecting settlements, securing and giving evidence, obtaining the attendance of witnesses and in the conduct of suits; and the Government shall reimburse the Contractor for actual out-of-pocket expenses incurred by it in compliance with such a request, other than the cost of maintaining the contractor's usual organization and loss of earnings, unless and to the extent such expenses are covered by a policy or policies of insurance carried by the Contractor. The Contractor shall not, except at its own cost, voluntarily make any payment, assume any obligation or incur any expense other than for such immediate medical and surgical relief to others as shall be imperative at the time of said occurrence of such event.

(5) This undertaking of the Government to hold the Contractor harmless against liability, as herein provided, shall not create or give rise to any right, privilege, or power in any person or organization, except the Contractor, nor shall any person or organization be or became entitled to join the Government as a co-defendant in any action against the Contractor brought to determine the Contractor's liability or for any other purpose: *Provided, however,* That as to any risk borne or assumed by the Government through its undertaking above set forth, the Government shall be subrogated to any claim, demand or cause of action against third persons or organizations which exists in favor of the Contractor, and the Contractor shall, if so required, forthwith execute one or more formal assignments or transfers of such claims, demands or causes of action.

(6) The undertaking of the Government shall not be applicable to the Contractor's liability arising under the applicable provisions of a federal, state, territorial or district Workmen's Compensation law.

(7) Upon the happening of any event from which the obligation of the Government to hold the Contractor harmless against liability and expenses might arise, the Contractor shall communicate with The Judge Advocate General, Washington, D. C., the Contracting Officer and with the Loss and Salvage Organization now or hereafter designated by the Contracting Officer. If claim is made or suit is brought thereafter against the Contractor as a result or because of such event, the Contractor shall immediately deliver to the Government every demand, notice, summons or other process received by it or its representatives, and the Government shall provide appropriate attachment or appeal bonds or undertakings where required in the course of such litigation.

§ 803.365–2 *Cost-plus-a-fixed-fee contract; clause concerning reimbursement for losses and insurance expenses.* Every cost-plus-a-fixed-fee contract will contain the following clause without deviation:

Allowable items of cost shall include the contractor's actual expenses incurred under his contract for:

a. Such bonds and insurance policies as have been approved or required by the Contracting Officer.

b. Losses or expenses not compensated by insurance or otherwise (including settlements made with the written consent of the Contracting Officer) actually sustained by the Contractor in connection with the work and found and certified by the Contracting Officer to be just and reasonable, unless reimbursement therefor is expressly prohibited; provided that such reimbursement shall not include any amount for which the Contractor would have been indemnified or compensated by insurance except for failure of the Contractor to procure or maintain bonds or insurance in accordance with the requirements of the Contracting Officer.

c. The cost of reconstructing and replacing any of the work or property destroyed or damaged and not covered by insurance, but expenditures under this item must have the written authorization of the Contracting Officer in advance.

d. The cost, including incidental expenses and premiums (if any), of providing such death, injury, internment, and other benefits to the Contractor's employees engaged in performing services under this contract as the Contracting Officer may approve or require.

§ 803.365–3 *Cost-plus-a-fixed-fee contracts; insurance clause.* Every cost-plus-a-fixed-fee contract will contain the following clause without deviation:

Insurance. *a.* The Contractor shall procure and thereafter maintain such bonds and insurance in such forms and in such amounts and for such periods of time as the Contracting Officer may require in writing and shall be reimbursed for the cost thereof;

b. In every instance where this contract requires the United States to pay the premium on a bond or insurance policy, the bond or insurance policy shall contain an endorsement or other recital excluding by appropriate language any claim on the part of the insurer or obligor to be subrogated, on payment of a loss or otherwise, to any claim against the United States;

c. The Contractor shall give the Contracting Officer or his representative immediate notice in writing of any suit or action filed against the Contractor arising out of the performance of this contract and of any claim against the Contractor the cost and expense of which are reimbursable under the provisions of Article ----- hereof, and the risk of which is then uninsured or in which the amount claimed exceeds the amount of insurance coverage. The Contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the Contractor. Insofar as the following shall not conflict with any

policy or contract of insurance, and upon request of the Contracting Officer, the Contractor shall do any and all things to effect an assignment and subrogation in favor of the Government of all Contractor's rights and claims except against the Government, arising from or growing out of such asserted claims, and, if required by the Contracting Officer, shall authorize representatives of the Government to settle and/or defend any such claim and to represent or take charge of any such litigation affecting the Contractor.

§ 803.365–4 *Cost-plus-a-fixed-fee contracts; clause concerning insertion of insurance and liability provisions in CPFF subcontracts.* Every cost-plus-a-fixed-fee contract, the terms of which do not require the incorporation by reference in cost-plus-a-fixed-fee subcontracts, of all of the terms and conditions of the prime contract in regard to insurance and liability, will contain the following clause without deviation:

Additional provisions. (1) The Contractor will include in each cost-plus-a-fixed-fee subcontract made under this contract a provision as follows:

(a) The title to all work under this subcontract, completed or in the course of manufacture or assembly in the Subcontractor's plant, shall be in the Government. Upon delivery thereof to the Subcontractor at any point within the continental limits of the United States or any place approved by the Contractor, title to all purchased materials, parts, assemblies, subassemblies, tools, machinery, equipment and supplies, for which the Subcontractor shall be entitled to be reimbursed hereunder, shall vest in the Government.

(b) The Subcontractor shall not be reimbursed for the cost of any insurance on any property of the Government.

(c) As used herein the term "Government" shall be deemed to mean the United States of America.

(2) The Contractor will, if so requested by the Contracting Officer, include in any particular cost-plus-a-fixed-fee subcontract, a provision as follows:

The Subcontractor shall procure and thereafter maintain the following insurance: _____ (here shall be inserted the types, amounts and limits of insurance, as specified in writing by the Contracting Officer). The cost of such insurance and losses or expenses (including settlements made with the written consent of the Contracting Officer who executed the principal contract or his duly authorized successor or representative) not compensated by insurance or otherwise and found and certified by the Contractor and said Contracting Officer or his duly authorized successor or representative to be just and reasonable, actually sustained by the Subcontractor in the defense and/or discharge of such claims of others on account of death or bodily injury of persons or loss or destruction of or damage to property as may arise out of or in connection with the performance of the work under this subcontract shall be allowable items of cost hereunder; *Provided,* That such reimbursement shall not include any amount for which the Subcontractor would have been indemnified or compensated except for the failure of the Subcontractor to procure or maintain insurance in accordance with the requirements of this subcontract. The Subcontractor shall give the Contractor immediate notice in writing of any suit or action filed against the Subcontractor, arising out of the performance of this subcontract and of any claims against the Subcontractor, the cost and expense of which is reimbursable under the provisions of this subcontract pertinent to allowable items of cost, and the risk of which is then uninsured or in which the amount claimed exceeds the amount of insurance coverage. The Subcontractor shall furnish immediately to the Contractor copies of all pertinent papers received by the Subcontractor. Insofar as the following shall not conflict with any policy or contract of insurance, and upon request of the Contractor, the Subcontractor shall do any and all things to effect an assignment and subrogation in favor of the Contractor or its nominee of all Subcontractor's rights and claims, except rights and claims of the Subcontractor against the Contractor or such nominee, arising from or growing out of such asserted claim, and, if required by the Contractor, shall authorize representatives of the Contractor or of its nominee to settle and/or defend any such claim and to represent the Subcontractor in or take charge of any such litigation. Every policy for the insurance referred to in this paragraph shall contain an indorsement or other recital excluding by appropriate language any claim on the part of the insurer or obligor to be subrogated on payment of a loss or otherwise to any claim against the Contractor or the Government.

(3) Whenever a provision as set forth in paragraph (2) of this article is inserted in any subcontract, then the contractor will forthwith transmit to the Contracting Officer all notices and copies of papers received by it from the subconstractor, will make the Government its nominee for all assignments and subrogations received by it from the subcontractor thereunder and, if required by the Contracting Officer, will do everything in its power to have representatives of the Government authorized to settle and/or defend the claims therein referred to and to represent the subcontractor in or to take charge of the litigation therein referred to.

§ 803.365.5 In accordance with the instructions contained in §§ 803.365–6 to 803.365–9, inclusive, there will be inserted without deviation in Architect-Engineer-Construction-Management Service Contracts and all contracts (except supply contracts), executed under or in connection with such contracts, the appropriate clause or clauses set forth in said sections.

§ 803.365–6 In the Architect-Engineer-Construction - Management - Service-contract the following clause:

The A-E-M hereby agrees that he will procure and maintain bonds and insurance in such forms and in such amounts and for such periods of time as the Contracting Officer may require or approve. Insurance shall cover all work required by this contract, regardless of whether it is performed by the A-E-M's own forces, subcontractors, or under direct contracts with the Government, as is contemplated in Article_____ (Article containing _____ of this contract. General Statement of Work and Services)

§ 803.365–7 In cost-plus-a-fixed-fee subcontracts, executed under Architect-Engineer - Construction - Management Service Contracts, there will be inserted without deviation the following clause:

All necessary insurance protection required under the terms of this contract will be provided by the policies maintained by the Architect-Engineer-Manager Contractor.

§ 803.365–8 In lump-sum subcontracts, executed under Architect Engineer-Construction-Management Service Contracts, there will be inserted without deviation the following clause:

(1) The Architect-Engineer-Manager Contractor will, at no cost to the Subcontractor, maintain policies providing the following insurance protection for the Subcontractor, which insurance shall apply only to operations of the Subcontractor under this subcontract and employees of the Subcontractor engaged therein and shall not apply to any other operations or employees of the Subcontractor:

(a) *Workmen's compensation.* (i) In jurisdictions where there are Workmen's Compensation Laws, either mandatory or elective, statutory coverage; and in jurisdictions where the Workmen's Compensation Law does not cover all occupational diseases, occupational disease coverage by endorsement for limits of $50,000 per person in any one case and, subject to that limit for each person, an aggregate limit of $100,000 for each year of the policy period;

(ii) In those states where there is a "per accident" limitation of coverage under paragraph 1 (b) of the policy, an endorsement will be added to provide $100,000 limit for each accident;

(iii) In those states where there is a "per person" limitation of coverage under paragraph 1 (b) of the policy, an endorsement will be added to provide $50,000 limit for each person;

(iv) In jurisdictions where there are no Workmen's Compensation Laws, Employers' Liability Insurance, including occupational disease coverage, for limits of $50,000 per person in any claim and, subject to that limit for each person, $100,000 for two or more persons in any one accident and $100,000 aggregate limit for each year of the policy period for occupational disease claims.

(b) *General liability.* Insurance with limits of $50/100,000 for bodily injury liability on the comprehensive policy form; the policy will be endorsed to include coverage for aircraft and watercraft operations by elimination of any such exclusions therein.

(c) *Automobile public liability and property damage.* Insurance with limits of $50/100,000 for bodily injury liability and $5,000 for property damage liability on the comprehensive policy form covering all owned, non-owned and hired automobiles which will be used in connection with the work to be done under the contract, and which are not for use exclusively on the premises at which the work under such contract is performed.

(2) The Subcontractor may purchase at his own expense such additional or other insurance protection as he may deem necessary. The Contracting Officer or his authorized representative may restrict access to the site of the work to such personnel of any insurance carrier providing additional or other insurance coverage referred to in this paragraph for the proper servicing of such insurance as he may deem necessary.

§ 803.365–9 In prime lump sum or unit price contracts, collateral to Architect - Engineer - Construction - Management Service Contracts, there will be inserted without deviation the following clause:

(1) The Architect-Engineer-Manager Contractor will, at no cost to the Contractor, maintain policies providing the following insurance protection for the Contractor and his Subcontractors (excluding supply subcontractors) which insurance shall apply only to operations of the Contractor and such Subcontractors under this contract and employees of the Contractor and such Subcontractors engaged therein and shall not apply to any other operations or employees of the Contractor and such Subcontractors:

(a) *Workmen's compensation.* (i) In jurisdictions where there are Workmen's Compensation Laws, either mandatory or elective, statutory coverage; and in jurisdictions where the Workmen's Compensation Law does not cover all occupational diseases, occupational disease coverage by endorsement for limits of $50,000 per person in any one case, and subject to that limit for each person, an aggre-

gate limit of $100,000 for each year of the policy period;

(ii) In those states where there is a "per accident" limitation of coverage under paragraph 1(b) of the policy, an endorsement will be added to provide $100,000 limit for each accident;

(iii) In those states where there is a "per person" limitation of coverage under paragraph 1 (b) of the policy, an endorsement will be added to provide $50,000 limit for each person;

(iv) In jurisdictions where there are no Workmen's Compensation Laws, Employers' Liability Insurance including occupational disease coverage, for limits of $50,000 per person in any claim and, subject to that limit for each person, $100,000 for two or more persons in any one accident and $100,000 aggregate limit for each year of the policy period for occupational disease claims.

(b) *General liability.* Insurance with limits of $50/100,000 for bodily injury liability on the comprehensive policy form; the policy will be endorsed to include coverage for aircraft and watercraft operations by elimination of any such exclusions therein.

(c) *Automobile liability and property damage.* Insurance with limits of $50/100,000 for bodily injury liability and $5,000 for property damage liability on the comprehensive policy form covering all owned, non-owned and hired automobiles which will be used, in connection with the work to be done under the contract, and which are not for use exclusively on the premises at which the work under such contract is performed.

(2) The contractor or his subcontractors may purchase at their own expense such additional or other insurance protection as they may deem necessary. The Contracting Officer or his authorized representative may restrict access to the site of the work to such personnel of any insurance carrier providing additional or other insurance coverage referred to in this paragraph for the proper servicing of such insurance, as he may deem necessary.

§ 803.366 *Clause concerning discounts to be contained in invitations for bids.* All invitations for bids, formal or informal, directed to more than one prospective contractor, will contain a clause substantially as follows:

Offers of prompt payment or cash discounts will not be considered in the award of contracts or purchase orders, but if such an offer is made, the Government reserves the right to take advantage of the same according to its terms in making payment.

§ 803.367 *Clause concerning subcontracting: for fixed price supply contracts.* All fixed price supply contracts, except those in which, in the opinion of the contracting officer, subcontracting (as defined in (d) below) is impracticable, will contain the following clause without deviation:

Subcontracting. (a) It is mutually understood and agreed that the policy of the Government, as declared by Congress in Public Law 603—77th Congress (the Smaller War Plants Act) is to bring about the greatest utilization of small war plants facilities which is consistent with efficient production of war materials.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to smaller war plants that the Contractor finds to be consistent with the efficient performance of all its other obligations undertaken by this contract.

(c) The Government agrees that in any renegotiation proceedings involving this contract, proper consideration will be given to the efficiency and ingenuity exhibited by the prime contractor in subcontracting to and in utilizing the facilities of, smaller war plants; to the amount of such subcontracting so accomplished; and to the amount of technical, engineering and other assistance rendered by the Contractor to such subcontractors.

(d) For the purposes of this article the term "subcontracts" includes only contracts for the production or of work upon an item, component, or asembly manufactured according to Government specifications or specifications of a prime contractor and does not include (1) any purchase of a standard commercial or catalog item, or (2) any purchase of a basic raw material, or (3) any purchase of supplies or services for the general operation of the contractor's plant, or (4) any purchase from a parent subsidiary or affiliate of the contractor.

§ 803.368 *Clause concerning subcontract; for cost-plus-a-fixed-fee supply contracts.* All cost-plus-a-fixed-fee supply contracts, except those in which, in the opinion of the Contracting Officer, subcontracting is impracticable, will contain the following clause without deviation:

Subcontracting. It is mutually understood and agreed that the policy of the Government, as declared by Congress in Public Law 603—77th Congress (the Smaller War Plants Act) is to bring about the greatest utilization of small plants which is consistent with efficient production of war materials. It is also recognized that business concerns operating small plants are frequently unable to produce certain articles at as low a per unit cost as business concerns operating large plants. Accordingly, the Contractor, with the written approval of the Contracting Officer, may, in cases where the manufacturing costs are found to be greater, pay to firms operating small plants higher pricer than to firms operating large plants, to the extent determined to be reasonable in the light of the difference in their costs of manufacturing the article to be sub-contracted.

§ 803.369 *Release upon final payment under cost-plus-a-fixed-fee contracts.* To facilitate the prosecution of the war and the final settlement of war procurement contracts, authority is granted to the chiefs of technical services and their representatives, pursuant to the First War Powers Act, 1941, Executive Order No. 9001 and the Contract Settlement Act of 1944, to amend existing cost-plus-a-fixed-fee contracts, whether or not terminated or completed, but in no event after final payment thereunder has been made, to include substantially the following article, and concurrently to delete any existing provisions of such contracts which are inconsistent with the following article:

Article ____. *Release provisions.* 1. Prior to final payment and as a condition thereof the Contractor shall furnish the Government with a release of all claims against the Government arising under and by virtue of this contract, other than (a) such claims, if any, as may be specifically excepted by the Contractor from the operation of the release in stated amounts to be set forth therein, or in estimated amounts where the amounts are not susceptible of exact statement, and (b) any claim based upon responsibility of the Contractor to third parties arising out of the performance of this contract not known to the Contractor at the time of furnishing the release.

2. Even though the existence or amount thereof shall not be determined until after the furnishing of such release as is described next above, reimbursement to be made for payments made by the Contractor shall include, along with wages and salaries otherwise reimbursable, all additional amounts determined (either by approval of the Contracting Officer or by litigation as hereinafter provided) to be due and payable for overtime compensation and allowances under local, state or Federal laws in connection with such wages and salaries.

3. The Contractor shall promptly notify the Contracting Officer of any claims of the type described in paragraph 1 (b) above which are asserted subsequent to the execution of the release.

4. In the event the Contracting Officer shall determine that the best interests of the Government require that the Contractor initiate or defend litigation in connection with claims of third parties arising out of the performance of this contract, the Contractor will proceed with such litigation in good faith and the costs and expenses of such litigation, including judgments and court costs, allowances rendered or awarded in connection with suits for wages, overtime or salaries, and reasonable attorneys' fees for private counsel when the Government does not furnish Government counsel, shall be reimbursable under this contract. The term "litigation" shall include suits at law or in equity and proceedings before any Governmental agency having jurisdiction over the claim.

§ 803.370 *General cosiderations.*

§ 803.370–1 *General policy.* As announced in Part 802 of this chapter, the policy of the War Department is to enter into supply contracts on a fixed price basis whenever such a course is feasible. Fixed price contracts at close prices tend to stimulate contractors to keep down costs by making the most effective use of manpower, materials and productive equipment and thus to minimize the cost of the war in terms of those economic resources as well as in terms of monetary outlay. Every effort must be made, therefore, to place supply contracts at close prices, regardless of whether any of the Price Revision Articles set out in §§ 803.370 to 803.377, inclusive, are used. Where the use of such an article is deemed necessary, the appropriate article may and should be incorporated in the contract if the conditions prescribed for its use are satisfied. The various articles to which the foregoing statements are applicable, together with the rules governing their use, are set forth hereinafter in §§ 803.370 to 803.377, inclusive.

§ 803.370–2 *Exceptions to general policy and regulations.* In specific instances where the contracting officer is of the opinion that (a) prices submitted by prospective contractors have not been arrived at independently, or (b) reasonable prices cannot be established from cost break-downs and other available data, or (c) other circumstances require protection of the Government's interests by the use of an appropriate Price Revision Article, or a modification thereof providing for downward adjustment only, he may initiate a request through channels to the Director Purchases Division, Headquarters, Army Service Forces, for authority to deviate from the policy and regulations set forth herein. Such requests will be accompanied by (1) a

full statement of all the facts and circumstances deemed to require such deviation, (2) a statement of the proposed manner and effect of the deviation, and (3) the recommendation of the chief of the technical service with respect thereto.

§ 803.370–3 *Arrangement of articles and regulations.* (a) Forms I–A, I–B and I–C provide for periodic revision of price at fixed intervals. Forms II–A and II–B provide for optional periodic revision of price upon the demand of either party. These forms constitute the basic price revision articles and are identical in provision except to the extent that their specific purposes require variations therein. The regulations common and applicable to all these forms are contained in § 803.371. Additional regulations governing the use and administration of each separate form will be found in the paragraph setting out that form.

(b) Form III, providing for revision of price on account of retroactive changes in labor conditions, and the regulations for its use and administration, are set out in § 803.374.

(c) Form IV, providing for downward price revision after completion or termination of the contract, and the regulations for its use and administration, are set out in § 803.375.

(d) Form V, providing for downward or limited upward price revision after completion or termination of the contract, and the regulations for its use and administration, are set out in § 803.376.

(e) Form VI, providing for repricing upon the happening of a specified contingency, and the regulations for its use and administration, are set out in § 803.377.

§ 803.370–4 *Relation of revision of prices under contract articles to statutory renegotiation.* (a) It is the policy of the War Department that each War Department contract should stand on its own feet insofar as the price is concerned and that, in arriving at a sound price initially or in revising the price pursuant to a contract article, no consideration should be given to the fact that the contractor may have incurred low profits or losses under other war contracts. It is recognized that where a Price Revision Article calls for a revision of the prices of items delivered during a completed fiscal period the price change may affect the billings for a period which has been included in a renegotiation settlement. It is the policy of the War Department that, except insofar as a different result is required by reason of contractual provisions which are now no longer authorized, there shall be no difference in net result to the contractor and the Government whether the price revision relating to the completed fiscal period follows or precedes the statutory renegotiation of sales for that period. This policy is given effect by a provision inserted in those Price Revision Articles which call for retroactive price revision (e. g. §§ 803.372–7 (j) and 803.373–6 (j)).

(b) In the great majority of cases the revision of prices of items delivered in the completed fiscal period can be completed before conclusion of the statutory renegotiation for that period. Contracting officers will make every effort to see that this result is attained. In the few cases where the revision of prices of items delivered in a completed fiscal period has not been completed before the conclusion of the statutory renegotiation for that period, the negotiation to establish the revised price should be carried to conclusion as promptly as possible. In determining what changes are to be made in the amounts paid or payable by or to the contractor in respect of items delivered during the completed fiscal period, the following general guides should be considered by the contracting officer:

(1) If the renegotiation resulted in a clearance notice or clearance agreement:

(i) Any reduction in price should be recovered from the contractor;

(ii) An increase in price should be allowed to the contractor if and to the extent that the office which conducted the renegotiation advises the contracting officer that excessive profits will not result therefrom.

(2) If the renegotiation resulted in a recapture of excessive profits:

(i) No increase in price should be allowed, since that would merely have the effect of increasing the excessive profits;

(ii) To the extent that the renegotiation has permitted the contractor to set up a reserve against possible downward price revisions, any reduction in price should be recovered from the contractor;

(iii) After exhaustion of any reserves against downward price revisions the contracting officer may permit the amount recaptured in renegotiation to be treated as an offset against any downward price revision to the extent that he is reasonably satisfied that the renegotiation recapture has not been applied as an offset against downward price revisions under other contracts.

§ 803.370–5 *Tabular view of price revision articles.*

NOTE: This table is designed to assist contracting officers and other procurement personnel to familiarize themselves with the price revision articles and to enable them quickly to ascertain which article appears most appropriate for a particular proposed contract. It is not designed to supplant in any way the textual regulations themselves, since the effect of each article and the conditions for its use are not stated in detail. Before any article is proposed to be used or is used in a particular case, the full text of the applicable regulations will be carefully examined and followed.

Effect of article	Conditions for use	
	Applicable to particular article	Applicable to all Form I and Form II articles
Form I–A (§ 803.372–6) Upward or downward price revision negotiated at fixed periods, with prospective effect only.	(§ 803.372–2) 1. Contract is such that both parties should be bound by price for the first period. Pricing period is range from 3 to 4 months in length. 2. Price is based on projections not extending beyond end of first period. 3. Periods should conform with operation of contractor's cost accounting system and need not be of equal length. 4. Periods may be measured in time or production or delivery of items.	(§ 803.371–1) 1. Contract is fixed price contract for supplies or services. 2. There is an absence of competition as that term is defined in § 803.371–1 (b). 3. Price is negotiated on understanding that particular article is to be included in contract and is a close price containing substantially no contingency charges. 4. Contractor employs proper estimating methods. 5. Contractor's cost accounting system is sufficiently reliable and accurate for proper operation of article. 6. One article is not to be substituted for another without express authority. 7. Alternative provisions for disagreements are provided. See §§ 803.372–2, 803.372–8, 803.373–2 and 803.372–7.
Form I–B (§ 803.372–6) Upward or downward price revision negotiated at fixed periods, with prospective effect only and with first period price based on experience under prior contract for same or similar item.	(§ 803.372–2) 1. Production under prior contract will continue to beginning of production under new contract. 2. Where new contract is of short duration, it may constitute one period. 3. Price is based on projections which do not extend beyond end of first period. 4. Periods should conform with operation of contractor's cost accounting system and need not be of equal length. 5. Periods may be measured in time or production or delivery of items.	
Form I–C (§ 803.372–7) Upward or downward price revision negotiated at fixed intervals, with retroactive revision at end of first period and prospective revision thereafter.	(§ 803.372–2) 1. Contract is such that neither party should be bound by price for first period. First period not to extend beyond 45% of production under contract. 2. Price is based on projections not extending beyond end of first period. 3. Periods should conform with operation of contractor's cost accounting system and need not be of equal length. 4. Periods may be measured in time or production or delivery of items. 5. Article may provide for one repricing, both retroactive and prospective, in appropriate cases.	

Effect of article	Conditions for use	
	Applicable to particular article	Applicable to all Form I and Form II articles
Form II-A (§ 803.373-5) Upward or downward price revision negotiated upon demand of either party, with prospective effect only, and subject to specified limitations on frequency of demands.	(§ 803.373-2) 1. Contract is such that both parties should be bound by initial price. 2. Price is based on projections extending over life of entire contract, taking into account reasonably expected cost decreases. 3. Date before which first demand cannot be made is specified. Ninety-day limitation effective thereafter may be varied by chief of technical service.	(§ 803.371-1) 1. Contract is fixed price contract for supplies or services. 2. There is an absence of competition as that term is defined in § 803.371-1 (b). 3. Price is negotiated on understanding that particular article is to be included in contract and is a close price containing substantially no contingency charges. 4. Contractor employs proper estimating methods. 5. Contractor's cost accounting system is sufficiently reliable and accurate for proper operation of article. 6. One article is not to be substituted for another without express authority. 7. Alternative provisions for disagreements are provided. See §§ 803.372-2, 803.372-8, 803.373-2 and 803.373-7.
Form II-B (§ 803.373-6) Upward or downward negotiated price revision, with first period fixed and subject to retroactive revision, and with prospective revision thereafter upon demand of either party, subject to specified limitations on frequency of demands.	(§ 803.373-2) 1. Contract is such that neither party should be bound by initial price. 2. Price is based on projections extending over life of entire contract, taking into account reasonably expected cost decreases. 3. Ninety-day limitation on frequency of demands may be varied by chiefs of technical service. 4. Percentage figure in paragraph (b) (1) of article to be kept as low as possible and never is to exceed 40%.	
Form III (§ 803.374-5) Negotiated price revision in event of retroactive changes in wages, salaries or employment conditions ordered or authorized by War Labor Board or any other authorized Government Agency.	(§ 803.374-2) 1. Contract must contain one of the Form I or Form II price revision articles. 2. Price must contain substantially no charge for changes in wages, salaries or employment conditions.	
Form IV (§ 803.375-4) Downward price revision negotiated upon contracting officer's demand after completion or termination of contract.	(§ 803.375-2) 1. Contract amount is $100,000 or less. 2. Initial price bears reasonable relationship to expected final price under contract. 3. Items are strictly developmental or experimental in character. 4. Contractor's cost accounting system is sufficient to show costs under contract.	
Form V (§ 803.376-4) Downward or limited upward price revision negotiated after completion or termination of contract.	(§ 803.376-2) 1. Maximum price does not exceed $1,000,000. 2. Contract calls for experimental or developmental items or service for tests in laboratories or field operations or similar experiments. 3. Form I-C or II-B cannot be used in contract. 4. Price is as close as circumstances permit. Maximum price bears reasonable relationship to initial price. 5. Contractor has or will establish adequate cost accounting system. 6. Prior written approval of Director, Purchases Division is required before article is used in any contract.	
Form VI (§ 803.377-2) Upward or downward price revision negotiated upon happening of specified contingent event and limited to that event and its direct effect.	(§ 803.377-2) 1. Contingency or basic assumption must be clearly stated in article. 2. Contingency must come within one of specified categories. 3. Certain events are excluded as possible contingencies. 4. Price contains no charge or allowance on account of specified contingency. 5. Article may be used even though one of Form I or Form II articles is used in same contract.	

§803.371 *Rules applicable to Forms I-A, I-B, I-C, II-A and II-B.*

§ 803.371-1 *Conditions for use.* None of Forms I-A, I-B, I-C, II-A and II-B will be used unless all of the following conditions are satisfied:

(a) The contract is a fixed price contract for supplies or services.

(b) The contracting officer believes that there is an absence of competition for the business to which the contract is to relate and that the prices quoted do not clearly reflect competition. The term "competition" as used herein means an actual striving by two or more persons for the particular order. It generally presupposes that available productive facilities are more than sufficient to meet the entire demand for the item in question, with the consequence that there is a free interaction between the forces of supply and demand. The term does not include formal bids or quotations which do not reflect a genuine attempt on the part of the bidders to obtain the order in actual rivalry with one another or which do not indicate independent action in arriving at the prices quoted.

(c) The price (1) is negotiated upon the express understanding that the particular Price Revision Article is to be included in the contract and (2) is a close price meeting the requirements of Army Service Forces Manual M601, "Pricing in War Contracts," and Subpart C of Part 802 of this chapter and containing substantially no charge or allowance for contingencies.

(d) The contracting officer is satisfied that the contractor employs methods of estimating its costs which accurately reflect current shop and engineering experience and proper quantity and price allowances for material, labor, machine utilization and other cost elements.

(e) The contracting officer is satisfied that the contractor has a cost accounting system of sufficient accuracy and reliability to show the cost information required by the article at the time or times provided therein.

(f) Except as otherwise specifically authorized in §§ 803.370 to 803.377, inclusive, no Price Revision Article will be substituted for another in or be deleted from an existing contract without the prior approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(g) The special conditions for the use of the particular Form I or Form II article to be employed, hereinafter prescribed, are met and satisfied.

§ 803.371-2 *Rules for administration.* In negotiating a price adjustment under any of the Form I or Form II articles, the contracting officer will adhere to the following rules:

(a) The negotiations to revise prices should ordinarily take into account all changes in specifications which have been made up to the time of the negotiations.

(b) Negotiations to revise prices will be conducted upon substantially the same basis as the original negotiation of a price when like information on costs and estimates is available. The contracting officer ordinarily should not give consideration to an increase in price beyond the amount estimated to be the excess of (1) any increases in cost beyond the contractor's control over (2) any offsetting reductions in the contractor's costs. However, this rule should not be applied to deprive a contractor of a reasonable reward in the form of an increased estimated profit margin for especially efficient and economical production.

(c) The contracting officer should take into consideration the fact that increases in certain costs may be offset by decreases in others. The contracting officer should also recognize that increases in wages and in the prices of materials will not necessarily increase, immediately or proportionately, the cost of items to be delivered by the contractor. For example, some of the labor on work in process at the time of a wage increase may have been performed while lower rates of wages were in effect. Again, materials included in work in process may have been bought by the contractor before the effective date of a price increase. Similarly, the contractor may have an inventory on hand or materials on order at prices which do not reflect the current increases therein. Also, there may be offsetting savings not attributable to the efficiency of the contractor.

(d) The contractor's estimate of future costs will be considered in the light of all available data, including shop, en-

gineering, accounting and other relevant information, which will help to check the accuracy of the estimate. When any component or components of the estimate are in question, the contracting officer should inquire into the physical facts, e. g., the number of men actually engaged in a particular operation or process, the quantity of material actually used, etc. Expense and overhead allocations are based upon an estimated amount of expense spread over an anticipated volume to be obtained. Check of the actual rate of expenditures and the actual volume being obtained should be made so that the rates used may be founded on up-to-date forecasts. The aggregate of those charges included in the prices of contracts entered into within the current period should be considered in order to avoid excessive prices through over-absorption of such charges.

(e) In addition to consideration of the contractor's cost experience under the contract and its estimates of future production costs, the contracting officer should make use of comparative prices, comparative costs and the trends of such prices and costs. If, since the making of the contract, prices have become competitive (in the sense indicated in § 803.371–1), particular weight shall be given to comparative prices, to the end that the effect of competitive forces may be fully realized for the benefit of the Government.

(f) The contracting officer should make such use and verification of the estimate and the supporting cost data submitted by the contractor as he would make with respect to similar data upon the negotiation of a price under a new contract. The verification may include the examination of the contractor's records, accounts and books and, if necessary in a particular case, may include an audit thereof, but generally the emphasis should be upon a check of the physical facts underlying the estimate (e. g., the quantity of material actually used, scrap losses, man and machine hours consumed, etc.) and the prices and rates used therein.

(g) The negotiations will be promptly instituted and concluded in strict accordance with the provisions of the particular article. Every effort will be made to come to an agreement as to revised price or prices. The provisions operative in the event of failure of the parties to agree shall be relied upon only as a last resort. If the alternative provisions of §§ 803.372–8 or 803.373–7 have been used and an order is to be entered pursuant to section 801 of the Revenue Act of 1943, the price thereunder will be fixed in accordance with Subpart I of Part 812 of this chapter.

(h) Upon the conclusion of each negotiation for price revision, the revised price or prices will be evidenced by a supplemental agreement. The supplemental agreement should clearly indicate what costs, if any, of a nonrecurrent nature have been recognized as having been paid for in prices for the preceding period or periods, so as to avoid the possibility of a second payment therefor in the event of termination at the option of the Government. This is particularly important where Form I–C or Form II–B has been used.

(i) Whenever a contract containing one of the Form I–A, I–B, I–C, II–A or II–B Price Revision Articles is modified by change order or supplemental agreement, so as to affect the rate of deliveries or quantities of items called for, the contracting officer will take care to deal with and cover explicitly any modifications in the operation of the Price Revision Article which he considers are made necessary by the modification of rates of deliveries or quantities.

§ 803.371–3 *Exemption from statutory renegotiation.* Provisions for exemption from renegotiation may be added to any Form I or Form II Article in accordance with and subject to the provisions of § 812.1205 of this chapter.

§ 803.372 *Forms I–A, I–B and I–C, for periodic pricing at fixed intervals.*

§ 803.372–1 *Nature and effect of articles.* (a) Form I–A, appearing in § 803.372–5 provides for negotiated upward or downward revision of the price at intervals fixed in paragraph (b) of the Article. Every revision is prospective only and may result in a price which is the same as, or higher or lower than, the price for the preceding period. In appropriate cases the contract may be divided into two periods, with the result that there will be only one revision of price.

(b) Form I–B, appearing in § 803.372–6 is the same as Form I–A except that specific reference is made to a prior existing contract for the same or substantially similar items or services as those called for by the new contract and the price for the first period is subject to a revision at the beginning of the period on the basis of the contractor's experience under the prior contract and all other relevant factors.

(c) Form I–C, appearing in §803.372–7 (replacing the articles formerly appearing in §§ 803.360–2 and 803.341–2), is the same as Form I–A except that the price for the first period is subject to retroactive revision at the end thereof. Every revision thereafter has a forward effect only, and any revision may result in a price which is the same as, or higher or lower than, the price previously in effect. In appropriate cases the contract may be divided into two periods, with the result that there will be only one revision of price.

§ 803.372–2 *Conditions for use of Forms I–A, I–B and I–C.* (a) Form I–A may be used where the nature of the product, the relative intricacies of manufacture, the proposed methods of production, the experience of the contractor and his labor force, the prior use of the particular plant, the ability of the contractor to make reasonably accurate estimates, and other surrounding conditions are such that the Government and the contractor should be bound by the price for the first period. Generally such circumstances exist where the contractor has had substantial prior experience in producing the item, but this is not necessarily so, as where the item is simple and an accurate cost estimate may be made at the outset. The length of the pricing periods will depend on the circumstances of each case and will normally range from 3 to 4 months each.

(b) Form I–B may be used where the conditions for the use of Form I–A are satisfied and where the production under the previous contract will continue substantially to the beginning of production under the contract containing Form I–B. The length of the pricing periods will depend upon the circumstances of each case and will normally range from 3 to 4 months each. Where the duration of the contract subject to the Form I–B Article is relatively short, it may be appropriate to provide for only one pricing period. In such case the Form I–B Article will be appropriately modified.

(c) Form I–C may be used where the conditions prescribed in paragraph (a) above for the use of Form I–A cannot be satisfied and where, in consequence, the circumstances are such that neither the Government nor the contractor should be bound by the price initially negotiated for the first period. Generally such circumstances exist where the contractor has not had substantial prior experience in producing the items, but they may exist even in cases where the contractor has had substantial experience, as in cases where specification changes, the substitution of important materials, the use of an untried plant or labor force, the intricacies of manufacturing processes, or other conditions prevent the making of sufficiently reliable cost estimates at the outset of the contract. The first pricing period under this article should be no longer than is necessary to enable the contractor to gain the experience necessary to make an accurate estimate, but in any event shall not include more than 40 per cent of the items or services called for by the contract. The Article may also be used in those cases in which one price revision, both retroactive and prospective, is deemed appropriate.

(d) When any one of the Form I Articles is used, the price for the first period will be based on projections which do not extend beyond that period.

(e) The periods selected should be made to conform, as nearly as possible, with the operation of the contractor's accounting system, so that the contractor may submit the required experienced cost information with the least possible delay and interference with routine procedures. The periods need not be of equal length.

(f) The pricing periods under any of the Form I Articles may be measured by the production or delivery of a specified number or percentage of items in lieu of calendar periods. Where this course is followed the pricing periods will conform substantially to the foregoing limitations, and the Article will be appropriately modified to reflect the change in type of period.

(g) The conditions laid down in § 803.371–1 must be satisfied before any of the foregoing Articles is used.

(h) The optional paragraph (e) (Disagreements) set out in § 803.372–8 may

be substituted for paragraph (e) (Disagreements) in Form I–A, I–B or I–C at the option of the chief of the technical service.

§ 803.372–3 *Substitution or insertion by amendment.* (a) Any of the Form I Articles may be substituted for the old form of the corresponding Article contained in an existing contract.

(b) Form I–A or I–B may be inserted in an existing contract by amendment if all the conditions for its use in a new contract are satisfied and if (1) the price is substantially reduced or (2) the quantity is increased and the article is made applicable only to the increased quantity.

(c) Form I–C may be inserted in an existing contract only with the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(d) It has been determined that the insertion of Form I–A, I–B or I–C in existing contracts by supplemental agreement in conformity with the requirements of this section will facilitate the prosecution of the war.

§ 803.372–4 *Administration of Forms I–A, I–B and I–C.* (a) The price revised prospectively for any period shall be based on projections which do not extend beyond the end of that period.

(b) In administering Form I–C particular care will be taken to conclude the retroactive price revision thereunder before conclusion of an agreement or unilateral determination under the Renegotiation Act which is applicable to any part of the period subject to such retroactive price revision.

(c) The rules for administration of all the Form I and II Price Revision Articles, set out in § 803.371–2, will be followed and applied with respect to Forms I–A, I–B and I–C.

§ 803.372–5 *Text of Form I–A.*

(a) The prices fixed in Article — may be increased or decreased in accordance with this Article.

(b) *Price periods.* The Government and the Contractor agree to revise the contract prices under this contract periodically in accordance with this Article and agree that the performance of this contract will be divided into successive periods for that purpose. The first period will extend from _____ to _____; and the second and each succeeding period will extend for _____ months from the end of the preceding period. The first day of the second and each succeeding period is hereinafter referred to as "the effective date of the price revision." Fifteen days before the end of each period hereunder, except the last, or at such time or times as the Contracting Officer may fix, the Contractor shall furnish the statements and data referred to in paragraph (c) of this Article.

(c) *Submission of data.* At the time or each of the times specified or provided for in paragraph (b) of this Article the Contractor shall submit (i) a new estimate and breakdown of the unit cost and the proposed prices of the items to be delivered in the succeeding period under this contract, itemized so far as is practicable in the manner prescribed in War Department Procurement Form No. 3; (ii) an explanation of the differences between the original (or last preceding) estimate and the new estimate; (iii) such relevant shop and engineering data, cost records, overhead absorption reports and accounting statements as may be of assistance in determining the accuracy and reliability of the new estimates; (iv) a statement of experienced costs of production hereunder to the extent that they are available at the time or times of the negotiation of the revision of prices hereunder; and (v) any other relevant data usually furnished in the case of negotiation of prices under a new contract. The Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(d) *Negotiations.* (1) Upon the filing of the statements and data required by paragraph (c) of this Article, the Contractor and the Contracting Officer will negotiate promptly in good faith to agree upon prices for items to be delivered on and after the effective date of the price revision. Negotiations for price revision under this Article shall be conducted on the same basis, employing the same types of data (including, without limitation, comparative prices, comparative costs, and trends thereof) as in the negotiation of prices under a new War Department contract.

(2) After each negotiation the agreement reached will be evidenced by a supplemental agreement stating the revised prices to be effective with respect to deliveries on and after the effective date of the price revision.

(e) *Disagreements.* If within thirty days after the effective date of the price revision (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to revised prices for the period in question, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article —. (Disputes).

(f) *Payments.* Until new prices shall become effective in accordance with this Article, the prices in force at the effective date of the price revision shall be paid upon all deliveries, subject to appropriate later revision made pursuant to paragraph (d) or (e) or (h) (2) (B) of this Article.

(g) *Reservation of Government's rights.* Any provision of this Article and any action thereunder shall be without prejudice to (1) the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act; and (2) to any Order fixing the price of items to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(h) *Termination provisions.* For any of the purposes of Article —. (Termination at the Option of the Government) of this contract (including without limitation, the computation of "the total contract price" and "the contract price of work not terminated") the contract price of delivered articles shall be deemed to be,

(1) for all items delivered prior to the effective date of the price revision, the contract price (giving effect to any prior revisions under this Article) applicable to each such item;

(2) for all items delivered on or after the effective date of the price revision,

(A) the contract price as revised in accordance with this Article, if such revision shall have been agreed upon; and

(B) if such revision shall not have been agreed upon, then such estimated prices as the Contractor and the Contracting Officer may agree upon as reasonable under all the circumstances and in the absence of such agreement such reasonable prices as may be determined in accordance with Article —. (Disputes).

§ 803.372–6 *Text of Form I–B.*

(a) The prices fixed in Article —, may be increased or decreased in accordance with this Article.

(b) *Price periods.* The Government and the Contractor agree to revise the contract prices under this contract periodically in accordance with this Article and agree that the performance of this contract will be divided into successive periods for that purpose. The first period will extend from _____ to _____; and the second and each succeeding period will extend for _____ months from the end of the preceding period. The first day of each period is hereinafter referred to as "the effective date of the price revision". Fifteen days before the beginning of the first period hereunder, or at such other time as the Contracting Officer may fix, the Contractor will furnish the statements and data referred to in paragraph (c) of this Article, which shall, however, be based on the Contractor's experience under Contract No. _____, which also calls for the manufacture and delivery to the Government of _____. Fifteen days before the end of the first and each succeeding period hereunder, except the last, or at such other time or times as the Contracting Officer may fix, the Contractor shall furnish the statements and data referred to in paragraph (c) of this Article, which shall be based on the contractor's experience under this contract.

(c) *Submission of data.* At the time or each of the times specified or provided for in paragraph (b) of this Article the Contractor shall submit (i) a new estimate and breakdown of the unit cost and the proposed prices of the items to be delivered in the succeeding period under this contract itemized so far as is practicable in the manner prescribed in War Department Standard Procurement Form No. 3; (ii) an explanation of the differences between the original (or last preceding) estimate and the new estimate; (iii) such relevant shop and engineering data, cost records, overhead absorption reports and accounting statements as may be of assistance in determining the accuracy and reliability of the new estimate; (iv) a statement of experienced costs of production hereunder to the extent that they are available at the time or times of the negotiation of the revision of prices hereunder; and (v) any other relevant data usually furnished in the case of negotiation of prices under a new contract. The Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(d) *Negotiations.* (1) Upon the filing of the statements and data required by paragraph (c), of this Article, the Contractor and the Contracting Officer will negotiate promptly in good faith to agree upon prices for items to be delivered on and after the effective date of the price revision. Negotiations for price revision under this Article shall be conducted on the same basis, employing the same types of data (including, without limitation, comparative prices, comparative costs, and trends thereof) as in the negotiation of prices under a new War Department contract.

(2) After each negotiation the agreement reached will be evidenced by a supplemental agreement stating the revised prices to be effective with respect to deliveries on and after the effective date of the price revision.

(e) *Disagreements.* If within thirty days after the effective date of the price revision (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to revised prices for the period in question, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes).

(f) *Payments.* Until new prices shall become effective in accordance with this Article, the prices in force at the effective date of

the price revision shall be paid upon all deliveries, subject to appropriate later revision made pursuant to paragraph (d) or (e) or (h) (2) (B) of this Article.

(g) *Reservation of Government's rights.* Any provision of this Article and any action thereunder shall be without prejudice (1) to the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act; and (2) to any Order fixing the price of items to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(h) *Termination provisions.* For any of the purposes of Article — Termination at the Option of the Government) of this contract (including, without limitation, the computation of "the total contract price" and "the contract price of work not terminated") the contract price of delivered articles shall be deemed to be,

(1) for all items delivered prior to the effective date of the price revision, the contract price (giving effect to any prior revisions under this Article) applicable to each such item;

(2) for all items delivered on or after the effective date of the price revision;

(A) the contract price as revised in accordance with this Article, if such revision shall have been agreed upon; and

(B) if such revision shall not have been agreed upon, then such estimated prices as the Contractor and the Contracting Officer may agree upon as reasonable under all the circumstances and in the absence of such agreement such reasonable prices as may be determined in accordance with Article — (Disputes).

§ 803.372–7 *Text of Form I–C.*

(a) The prices fixed in Article — may be increased or decreased in accordance with this Article.

(b) *Price periods.* The Government and the Contractor agree to revise the contract prices under this contract periodically in accordance with this Article and agree that the performance of this contract will be divided into successive periods for that purpose. The first period will extend from ____ ____ to _____; and the second and each succeeding period will extend for ____ months from the end of the preceding period. The first day of the second and each succeeding period is hereinafter referred to as "the effective date of the price revision." Fifteen days before the end of each period hereunder, except the last, or at such other time or times as the Contracting Officer may fix, the Contractor shall furnish the statements and data referred to in paragraph (c) of this Article.

(c) *Submission of data.* At the time or each of the times specified or provided for in paragraph (b) of this Article the Contractor shall submit (i) a new estimate and breakdown of the unit cost and the proposed prices of the items to be delivered in the succeeding period under this contract, itemized so far as is practicable in the manner prescribed in War Department Standard Procurement Form No. 3; (ii) an explanation of the differences between the original (or last preceding) estimate and the new estimate; (iii) such relevant shop and engineering data, cost records, overhead absorption reports and accounting statements as may be of assistance in determining the accuracy and reliability of the new estimate; (iv) a statement of experienced costs of production hereunder to the extent that they are available at the time or times of the negotiation of the revision of prices hereunder; and (v) any other relevant data usually furnished in the case of negotiation of prices under a new contract. The Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(d) *Negotiations.* (1) Upon the filing of the statements and data required by paragraph (c) of this Article, the Contractor and the Contracting Officer will negotiate promptly in good faith to agree upon prices for items to be delivered on and after the effective date of the price revision, and in the case of the first negotiation under this Article the prices for items delivered prior to the effective date of the price revision. Negotiations for price revision under this Article shall be conducted on the same basis, employing the same types of data (including, without limitation, comparative prices, comparative costs, and trends thereof) as in the negotiation of prices under a new War Department contract.

(2) After each negotiation the agreement reached will be evidenced by a supplemental agreement stating the revised prices to be effective with respect to deliveries on and after the effective date of the price revision. The supplemental agreement made upon completion of the first negotiation shall also state revised prices for items delivered prior to the effective date of the price revision.

(e) *Disagreements.* If within thirty days after the effective date of the price revision (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to revised prices for the period in question, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes).

(f) *Payments.* Until new prices shall become effective in accordance with this Article, the prices in force at the effective date of the price revision shall be paid upon all deliveries, subject to appropriate later revision made pursuant to paragraph (d) or (e) or (h) (2) (B) of this Article.

(g) *Reservation of Government's rights.* Any provision of this Article and any action thereunder shall be without prejudice (1) to the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act; and (2) to any Order fixing the price of articles to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(h) *Termination provisions.* For any of the purposes of Article — (Termination at the Option of the Government) of this contract (including, without limitation, the computation of "the total contract price" and "the contract price of work not terminated") the contract price of delivered articles shall be deemed to be,

(1) for all items delivered prior to the effective date of the price revision, the contract price (giving effect to any prior revisions under this Article) applicable to each such item;

(2) for all items delivered on or after the effective date of the price revision,

(A) the contract price as revised in accordance with this Article, if such revision shall have been agreed upon; and

(B) if such revision shall not have been agreed upon, then such estimated prices as the Contractor and the Contracting Officer may agree upon as reasonable under all the circumstances and in the absence of such agreement such reasonable prices as may be determined in accordance with Article — (Disputes).

(i) *Termination during the first period.* In the event that this contract is terminated under Article — (Termination at the Option of the Government) or the Contractor's right to deliver is terminated under Article — (Delays—Damages), so that the last delivery under the contract as terminated is made prior to the completion of the first period as defined in paragraph (b) of this Article, the Contractor within ____ days after such last delivery shall furnish the data required by paragraph (c) of this Article and thereupon the parties shall negotiate in good faith to agree upon revised prices under this contract. The agreement reached shall be evidenced by a supplemental agreement to this contract stating the revised prices under the contract. Any failure to agree as to the revised prices shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes).

(j) *Effect of prior renegotiation.* If, prior to any revision of the price under this Article, any sums paid or payable under this contract in respect of items the price of which may be affected by such revision have been included as renegotiable income received or accrued by the Contractor in any fiscal period for which there has been a final determination (by agreement or unilateral determination) as to the Contractor's liability to repay to the Government excessive profits under the Renegotiation Act, appropriate weight shall be given to the results of the proceedings in renegotiation in determining the sums, if any, to be paid or credited by or to the Contractor in connection with this revision under this Article of that part of the price applicable to that fiscal period, it being the intent of the parties that the net result shall be substantially the same as it would have been if the revision had preceded such final determination.

§ 803.372–8 *Optional paragraph (b) (Disagreements) for use with Form I–A, I–B or I–C.*

(e) *Disagreements.* (1) If within 30 days after any effective date of the price revision (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree as to revised prices, the Contractor, if it has substantially complied with the requirements of this Article as to the furnishing of statements and data, may give written notice to the Contracting Officer requiring the Government to pay the prices set forth in such notice from the time at which such price revision was to be effective under the provisions of this Article and until the beginning of the next succeeding period hereunder.

(2) The Government shall pay the prices set forth in such notice from the time such price revision was to be effective as aforesaid, unless within 30 days after the delivery of such notice there shall be served upon the Contractor an Order pursuant to Section 801 of the Revenue Act of 1943 (which may contain any terms or conditions permitted by that Section) fixing the prices to be paid for items and services to be delivered from and after the date of the Order for the balance of the contract or until a date specified in the Order. If no such Order is served on the Contractor, the prices set forth in the Contractor's notice shall be incorporated in an appropriate supplemental agreement.

(3) The Contractor's delivery of a notice pursuant to this paragraph (e) shall constitute (1) a refusal, within the meaning of Section 801, to agree to prices for the items and services to be furnished under this contract lower than those specified in the Contractor's notice, (2) a waiver and release of any right (under said Section 801 or otherwise) of the Contractor to further negotiation with any representative of the War Department as to fair and reasonable prices and (3) a consent by the Contractor that an Order may be made pursuant to Section 801 without other or further notice to the Contractor than the service of such Order. In the event of the service of such an Order, the contract shall continue in effect except as modified by said Order and the Contractor shall have the rights and remedies granted to it under paragraph (c) of said Section

801. It is agreed that the prices fixed in the Order shall also be the prices applicable from the time at which such price revision was to be effective under the provisions of this Article until the effective date of the Order.

(4) If the Contracting Officer and the Contractor fail to agree as aforesaid, and if Section 801 of the Revenue Act of 1943 shall not be in force, the Contracting Officer within 30 days after the delivery of the Contractor's notice may serve upon the Contractor a written election by which the Government agrees to pay to the Contractor fair and just compensation for all deliveries made under the contract from the time at which such price revision was to be effective under the provisions of this Article until the beginning of the next succeeding period hereunder. The written election shall specify the amount which the Contracting Officer deems to be fair and just compensation. If no written election is served upon the Contractor, the prices set forth in the Contractor's notice shall be incorporated in an appropriate supplemental agreement. If a written election is served upon the Contractor as above provided, the contract shall continue in effect as modified by such written election and the Contractor (a) shall be paid currently the amount specified by the Contracting Officer in such written election for all deliveries affected thereby and (b) may recover from the United States, by suit brought within six months after the delivery of such written election or after the completion of deliveries under this contract whichever shall last occur, the amount, if any, by which such fair and just compensation exceeds the amount so specified.

(5) If the Contracting Officer and the Contractor fail to agree and no notice has been given by the Contractor as contemplated in subparagraph (e) (1) of this Article, the Contractor shall be entitled to receive, from the time at which such price revision was to be effective under the provisions of this Article until the beginning of the next succeeding period hereunder, fair and just compensation the amount of which shall be determined as a question of fact under Article — (Disputes).

§ 803.373 *Forms II–A and II–B, for optional periodic pricing upon demand.*

§ 803.373–1 *Nature and effect of Articles.* (a) Form II–A, appearing in § 803.373–5 (formerly § 803.360a), provides for negotiated upward or downward revision of the price from time to time upon the written demand of either the Government or the Contractor, subject to specified limitations on the frequency of the demands. All revisions made under Form II–A have a prospective effect only, and upon any revision the new price may be the same as, or higher or lower than, the price theretofore in effect.

(b) Form II–B, appearing in § 803.373–6 replacing § 803.360a–1) provides for a negotiated upward or downward revision of the prices upon completion of delivery of a specified percentage of the principal items called for by the contract, without a demand by either party. Thereafter there may be upward or downward revision of the price upon written demand of either party, subject to specified limitations on the frequency of the demands, exactly as in the case of Form II–A. Any revision made pursuant to a demand after the initial period has a prospective effect only.

§ 803.373–2 *Conditions for use of Forms II–A and II–B.* (a) Form II–A may be used where the nature of the product, the relative intricacies of manufacture, the proposed methods of production, the experience of the Contractor and his labor force, the prior use of the particular plant, the ability of the Contractor to make reasonably accurate estimates, and other surrounding conditions are such that the Government and the Contractor should be bound by the initial price. Generally such circumstances exist where the Contractor has had substantial prior experience in producing the item, but this is not necessarily so, as where the item is simple and an accurate cost estimate may be made at the outset. Since price revision is not required under Form II–A unless one of the parties makes a demand therefor, the price initially fixed in a contract containing this Article may remain unchanged for the life of that contract. The price should therefore be based on projections extending over the entire life of the contract. The projections should give effect to all decreases in costs which might reasonably be expected to occur during performance of the contract. Because of the protection afforded the Contractor by the Article, however, the projections should not give effect to possible increases in costs.

(b) Form II–B may be used where the conditions prescribed in paragraph (a) above for the use of Form II–A cannot be satisfied and where, in consequence, the circumstances are such that neither the Government nor the Contractor should be bound by the price negotiated for the initial period. Generally such circumstances exist where the Contractor has not had substantial prior experience in producing the item, but they may exist even in cases where the Contractor has had substantial experience, as where specification changes, the substitution of important materials, the use of an untried plant or labor force, the intricacies of manufacturing processes, or other conditions prevent the making of sufficiently reliable cost estimates at the outset of the contract. The initial price should be based on projections which do not extend beyond the completion of the initial portion of the contract as specified in paragraph (b) of Form II–B.

(c) In the case of Form II–A the date before which the first demand may not be made will be fixed so as to preclude a first demand that may be premature, and will be inserted in the blank provided therefor in paragraph (b). In appropriate cases the 90-day limitations in paragraph (b) of Form II–A and II–B may be changed by the chief of the technical service to meet the exigencies of those cases.

(d) The percentage figures to be inserted in paragraph (b) (1) of Form II–B should be kept as low as circumstances will permit and should never exceed forty per cent.

(e) The conditions laid down in § 803.371–1 must be satisfied before either Form II–A or II–B is used.

(f) The optional paragraph (e) (Disagreements) set out in § 803.373–7 may be substituted for paragraph (e) (Disagreements) in Form II–A or II–B at the option of the chief of the technical service.

§ 803.373–3 *Substitution or insertion by amendment.* (a) Either Form II–A or II–B may be substituted for the old form of the corresponding Article contained in a preexisting contract.

(b) Form II–A may be inserted in an existing contract if all the conditions for its use are satisfied and (1) if the price is substantially reduced or (2) the quantity is increased and the Article is made applicable only to the increased quantity.

(c) Form II–B may be inserted in an existing contract only with the prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces.

(d) It has been determined that the insertion of Form II–A or II–B in existing contracts by supplemental agreement in conformity with the requirement of this section will facilitate the prosecution of the war.

§ 803.373–4 *Administration of Forms II–A and II–B.* (a) Proper administration of Forms II–A and II–B requires that the contracting officer make regular periodic reviews of the contract price to ascertain whether or not a demand should be served. No demand should be made unless the contracting officer has good grounds for believing that a revision in price is necessary to protect the Government's interests. The need for such a demand may be indicated by factors such as the following: (1) Comparative prices, (2) movements or trends in such prices, (3) movements or trends in the costs of other contractors for the same or similar items or services, (4) information supplied by the Contractor in the ordinary course of business, (5) changes in market prices of materials or components, (6) changes in subcontract prices, (7) information revealed in connection with statutory renegotiation or the application of the company pricing program to the Contractor, and (8) changes in the Contractor's prices under other Government contracts.

(b) The first revised forward price under Form II–B and prices negotiated pursuant to a demand under either Article should be based on projections extending over the remaining life of the contract and should not take into account possible increases in costs.

(c) In administering Form II–B particular care will be taken to conclude the retroactive price revision thereunder before the conclusion of an agreement or unilateral determination under the Renegotiation Act which is applicable to any part of the period subject to such retroactive price revision.

(d) The rules for administration of the Form I and Form II price revision articles set out in § 803.371–2 will be followed and applied with respect to Forms II–A and II–B.

§ 803.373–5 *Text of Form II–A.*

(a) The prices fixed in Article — may be increased or decreased in accordance with this Article.

(b) *Demand for negotiation.* (1) At any time and from time to time, subject to the limitations specified in this Article, either the Government or the Contractor may deliver to the other a written demand that the parties negotiate to revise the prices under this contract. No such demand shall be

made before _____ and thereafter neither party shall make a demand having an effective date within 90 days of the effective date of any prior demand, provided, however, that this limitation shall not be applicable in the event that during any 90-day period the War Labor Board or any other similar Government agency shall authorize or order a change in wages, salaries or conditions of employment in the plants of the Contractor used in the performance of this contract. Each demand shall specify a date (identical with or subsequent to the date of the delivery of the demand) as of which the revised prices shall be effective as to the deliveries made thereon and thereafter. This date is hereinafter referred to as "the effective date of the price revision". Any demand under this Article, if made by the Contractor, shall state briefly the ground or grounds therefor and shall be accompanied by the statements and data referred to in paragraph (c) of this Article. If the demand is made by the Government, such statements and data will be furnished by the Contractor within 30 days of the delivery of the demand.

(2) In the event all remaining work under this contract, as it may from time to time be amended, shall be terminated under Article —. (Termination at the Option of the Government), no demand shall then or thereafter be made and any demand the effective date of which is less than 30 days before the effective date of such termination shall be void and of no effect.

(c) *Submission of data.* At the time or each of the times specified or provided for in paragraph (b) of this Article the Contractor shall submit (i) a new estimate and break-down of the unit cost and the proposed prices of the items remaining under this contract after the effective date of the price revision, itemized so far as is practicable in the manner prescribed in War Department Standard Procurement Form No. 3; (ii) an explanation of the differences between the original (or last preceding) estimate and the new estimate; (iii) such relevant shop and engineering data, cost records, overhead absorption reports and accounting statements as may be of assistance to determining the accuracy and reliability of the new estimate; (iv) a statement of experienced costs of production hereunder to the extent that they are available at the time or times of the negotiation of the revision of prices hereunder; and (v) any other relevant data usually furnished in the case of negotiation of prices under a new contract. The Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(d) *Negotiations.* (1) Upon the filing of the statements and data required by paragraph (c) of this Article, the Contractor and the Contracting Officer will negotiate promptly in good faith to agree upon prices for items to be delivered on and after the effective date of the price revision. Negotiations for price revisions under this Article shall be conducted on the same basis, employing the same types of data, including, without limitation, comparative prices, comparative costs, and trends thereof, as in the negotiation of prices under a new War Department contract.

(2) After each negotiation the agreement reached will be evidenced by a supplemental agreement stating the revised prices to be effective with respect to deliveries on and after the effective date of the price revision (or such other later date as the parties may fix in such supplemental agreement).

(e) *Disagreements.* If, within 30 days after the date on which the statements and data are required pursuant to paragraph (b) of this Article to be filed (or such further period as may be fixed by written agreement), the Contracting Officer and the Contractor fail to agree to revised prices, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes), and the prices so fixed shall remain in effect for the balance of the contract notwithstanding any other provision of this Article.

(f) *Payments.* Until new prices shall become effective in accordance with this Article, the prices in force at the effective date of the price revision shall be paid upon all deliveries, subject to appropriate later revision made pursuant to paragraph (d) or (e) or (h) (2) (B) of this Article.

(g) *Reservation of Government's rights.* Any provision of this Article and any action thereunder shall be without prejudice (1) to the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act, and (2) to any Order fixing the price of items to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(h) *Termination provisions.* For any of the purposes of Article —. (Termination at the Option of the Government) of this contract (including, without limitation, the computation of "the total contract price" and "the contract price of work not terminated"), the contract price of delivered articles shall be deemed to be,

(1) for all items delivered prior to the effective date of the price revision, the contract price (giving effect to any prior revisions under this Article) applicable to each such item;

(2) for all items delivered on or after the effective date of the price revision,

(A) the contract price as revised in accordance with this Article, if such revision shall have been agreed upon; and

(B) if such revision shall not have been agreed upon, then such estimated prices as the Contractor and the Contracting Officer may agree upon as reasonable under all the circumstances and in the absence of such agreement such reasonable prices as may be determined in accordance with Article — (Disputes).

§ 803.373–6 *Text of Form II–B.*

(a) The prices fixed in Article — may be increased or decreased in accordance with this Article.

(b) *Times for negotiation.* (1) Upon completion of delivery of ____ per cent of the (*here specify the principal items to be furnished under the contract*) to be furnished under this contract, the parties shall negotiate to revise the prices of all items theretofore and thereafter to be delivered. Within 5 days after the completion of delivery of said ____ per cent, the Contractor shall furnish to the Contracting Officer the statements and data referred to in paragraph (c) of this Article. At any time and from time to time after the completion of delivery of said ____ per cent, subject to the limitations specified in this Article, either the Government or the Contractor may deliver to the other a written demand that the parties negotiate to adjust the prices under this contract. No demand shall be made prior to 90 days after the completion of delivery of said ____ per cent an dthereafter neither party shall make a demand having an effective date within 90 days of the effective date at any prior demand, *Provided, however,* That this limitation shall not be applicable in the event that during any 90-day period the War Labor Board or any similar Government agency shall authorize or order a change in wages, salaries or conditions of employment in the plants of the Contractor used in the performance of this contract. Each demand shall specify a date (identical with or subsequent to the date of the delivery of the demand) as of which the revised prices shall be effective as to the deliveries made thereon and thereafter. This date is hereinafter referred to as "the effective date of the price revision". For the purposes of the first negotiation contemplated by this paragraph, the date of execution of this contract shall be deemed to be the effective date of the price revision. Any demand under this Article, if made by the Contractor, shall state briefly the ground or grounds therefor and shall be accompanied by the statements and data referred to in paragraph (c) of this Article. If the demand is made by the Government, such statements and data will be furnished by the Contractor within 30 days of the delivery of the demand.

(2) In the event all remaining work under this contract, as it may from time to time be amended, shall be terminated under Article — (Termination at the Option of the Government), no demand shall then or thereafter be made and any demand the effective date of which is less than 30 days before the effective date of such termination shall be void and of no effect.

(c) *Submission of data.* At the time or each of the times specified or provided for in paragraph (b) of this Article the Contractor shall submit (i) a new estimate and breakdown of the unit cost and the proposed prices of the items remaining under this contract after the effective date of the price revision, itemized so far as is practicable in the manner prescribed by War Department Standard Procurement Form No. 3; (ii) an explanation of the differences between the original (or last preceding) estimate and the new estimate; (iii) such relevant shop and engineering data, cost records, overhead absorption reports and accounting statements as may be of assistance in determining the accuracy and reliability of the new estimate; (iv) a statement of experienced costs of production hereunder to the extent that they are available at the time or times of the negotiation of the revision of prices hereunder; and (v) any other relevant data usually furnished in the case of negotiation of prices under a new contract. The Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(d) *Negotiations.* (1) Upon the filing of the statements and data required by paragraph (c) of this Article, the Contractor and the Contracting Officer will negotiate promptly in good faith to agree upon prices for items to be delivered on and after the effective date of the price revision. Negotiations for price revisions under this Article shall be conducted on the same basis, employing the same types of data (including, without limitation, comparative prices, comparative costs, and trends thereof) as in the negotiation of prices under a new War Department contract.

(2) After each negotiation the agreement reached will be evidenced by a supplemental agreement stating the revised prices to be effective with respect to deliveries on and after the effective date of the price revision (or such other later date as the parties may fix in such supplemental agreement).

(e) *Disagreements.* If within 30 days after the date on which the statements and data are required pursuant to paragraph (b) of this Article to be filed (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to revised prices, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes), and the prices so fixed shall remain in effect for the balance of the contract notwithstanding any other provision of this Article.

(f) *Payments.* Until new prices shall become effective in accordance with this Article, the prices in force at the effective date

of the price revision shall be paid upon all deliveries, subject to appropriate later revision made pursuant to paragraph (d) or (e) or (h) (2) (B) of this Article.

(g) *Reservation of Government's rights.* Any provision of this Article and any action thereunder shall be without prejudice to (1) the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act, and (2) to any Order fixing the price of items to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(h) *Termination provisions.* For any of the purposes of Article — (Termination at the Option of the Government) of this contract (including, without limitation, the computation of "the total contract price" and "the contract price of work not terminated"), the contract price of delivered articles shall be deemed to be,

(1) for all items delivered prior to the effective date of the price revision, the contract price (giving effect to any prior revisions under this Article) applicable to each such item;

(2) for all items delivered on or after the effective date of the price revision,

(A) the contract price as revised in accordance with this Article if such revision shall have been agreed upon; and

(B) if such revision shall not have been agreed upon, then such estimated prices as the Contractor and the Contracting Officer may agree upon as reasonable under all the circumstances and in the absence of such agreement such reasonable prices as may be determined in accordance with Article — (Disputes).

(i) *Termination during the initial period.* In the event that this contract is terminated under Article — (Termination at the Option of the Government) or the Contractor's right to deliver is terminated under Article — (Delays—Damages), so that the last delivery under the contract as terminated is made prior to the completion of the initial period as specified in paragraph (b) of this Article, the contractor within —— days after such last delivery shall furnish the data required by paragraph (c) of this Article and thereupon the parties shall negotiate in good faith to agree upon revised prices under this contract. The agreement reached shall be evidenced by a supplemental agreement to this contract stating the revised prices under the contract. Any disagreement as to the revised prices will be disposed of as a question of fact in accordance with Article — (Disputes).

(j) *Effect of prior renegotiation.* If, prior to any revision of the price under this Article, any sums paid or payable under this contract in respect of items the price of which may be affected by such revision have been included as renegotiable income received or accrued by the Contractor in any fiscal period for which there has been a final determination (by agreement or unilateral determination) as to the Contractor's liability to repay to the Government excessive profits under the Renegotiation Act, appropriate weight shall be given to the results of the proceedings in renegotiation in determining the sums, if any, to be paid or credited by or to the Contractor in connection with the revision under this Article of that part of the price applicable to that fiscal period, it being the intent of the parties that the net result shall be substantially the same as it would have been if the revision had preceded such final determination.

§ 803.373–7 *Optional paragraph (e) (Disagreements) for use with Form II–A or II–B.*

(e) *Disagreements.* (1) If within 30 days after the date on which the statements and data are required pursuant to paragraph (b) of this Article to be filed (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to revised prices, the Contractor, if it has substantially complied with the requirements of this Article as to the furnishing of statements and data, may give written notice to the Contracting Officer requiring the Government to pay the prices set forth in such notice from the time at which such price revision was to be effective under the provisions of this Article.

(2) The Government shall pay the prices set forth in such notice from the time such price revision was to be effective as aforesaid, unless within 30 days after the delivery of such notice there shall be served upon the Contractor an Order pursuant to Section 801 of the Revenue Act of 1943 (which may contain any terms or conditions permitted by that Section) fixing the prices to be paid for items and services to be delivered from and after the date of the Order for the balance of the contract or until a date specified in the Order. If no such Order is served on the Contractor, the prices set forth in the Contractor's notice shall be incorporated in an appropriate supplemental agreement.

(3) The Contractor's delivery of a notice pursuant to this paragraph (e) shall constitute (1) a refusal, within the meaning of Section 801, to agree to prices for the items and services to be furnished under this contract lower than those specified in the Contractor's notice, (2) a waiver and release of any right (under said Section 801 or otherwise) of the Contractor to further negotiation with any representative of the War Department as to fair and reasonable prices and (3) a consent by the Contractor that an Order may be made pursuant to Section 801 without other or further notice to the Contractor than the service of such Order. In the event of the service of such an Order, the contract shall continue in effect except as modified by said Order and the Contractor shall have the rights and remedies granted to it under paragraph (c) of said Section 801. It is agreed that the prices fixed in the Order shall be the prices applicable from the time at which such price revision was to be effective under the provisions of this Article.

(4) If the Contracting Officer and the Contractor fail to agree as aforesaid, and if Section 801 of the Revenue Act of 1943 shall not be in force, the Contracting Officer within 30 days after the delivery of the Contractor's notice may serve upon the Contractor a written election by which the Government agrees to pay to the Contractor fair and just compensation from the time at which such price revision was to be effective under the provisions of this Article. The written election shall specify the amount which the Contracting Officer deems to be fair and just compensation. If no written election is served upon the Contractor, the prices set forth in the Contractor's notice shall be incorporated in an appropriate supplemental agreement. If a written election is served upon the Contractor as above provided, the contract shall continue in effect as modified by such written election and the Contractor (a) shall be paid currently the amount specified by the Contracting Officer in such written election for all deliveries affected thereby and (b) may recover from the United States, by suit brought within six months after the delivery of such written election or after the completion of deliveries under this contract, whichever shall last occur, the amount, if any, by which such fair and just compensation exceeds the amount so specified.

(5) If the Contracting Officer and the Contractor fail to agree and no notice has been given by the Contractor as contemplated in paragraph (e) (1) of this Article, the Contractor shall be entitled to receive, from the time at which such price revision was to be effective under the provisions of this Article, fair and just compensation the amount of which shall be determined as a question of fact under Article — (Disputes).

§ 803.374 *Form III Price Revision Article; for retroactive changes in employment conditions.*

§ 803.374–1 *Nature and effect of Article.* This Article (formerly § 803.360b), authorized for use only in conjunction with any one of the Form I or Form II Articles, is designed to protect contractors against retroactive changes in wages, salaries, or condition of employment ordered or authorized by the War Labor Board or any other similar agency of the Government. It provides for a negotiated price revision applicable to items delivered and to be delivered under the contract between the effective date of the wage increase and the earliest possible time for price revision under the Form I or Form II Article used in the contract. Any price revision giving effect to the wage increase for deliveries made after such earliest possible time, e. g., the end of the current pricing period under the Form I–A Article, is to be negotiated under that Article.

§ 803.374–2 *Conditions for use.* (a) The contract must contain one of the Form I or Form II price revision Articles.

(b) The contract price must contain substantially no contingency allowance or charge on account of any possible change in wages, salaries or conditions of employment.

§ 803.374–3 *Insertion by amendment.* The Article may be inserted by amendment in an existing contract if and only if the following conditions are satisfied: (a) The conditions set out in § 803.374–2 are met; and either (b) the Article is inserted at the time when the quantities of items called for by the contract are increased and is limited in its application to the items added at that time, or (c) (1) the Article is inserted at the time of a price revision under one of the Form I or Form II Articles and is limited in its retroactive application to items the prices of which are then being revised and (2) the amendment is approved by the Director, Purchases Division, Headquarters, Army Service Forces. Every request for such approval by the Director, Purchases Division, shall contain a full statement of facts which justify the insertion of the Article, including estimates of (i) the Government's maximum liability under the Article, (ii) its probable liability thereunder, (iii) reference to pending or threatened labor disputes, and (iv) the amount of the price reduction made in return for the insertion of the Article. It has been determined that the insertion of Form III in existing contracts by supplemental agreement in conformity with the requirements of this paragraph will facilitate the prosecution of the war.

§ 803.374–4 *Rules for administration.* (a) The procedure prescribed by the Article will be strictly followed before any negotiations are had or any price revision is made thereunder.

(b) In the negotiations particular care will be taken to see that the price revision is applied only to such deliveries as shall have been affected by the change in employment conditions and is not applied to (1) completed items or work in process at the effective date of the order authoriz-

ing or directing the change in employment conditions, or (2) work performed but not completed by delivery during the period subject to revision under the Article.

(c) The price revision made under this Article shall be limited to items delivered and to be delivered under the contract between the effective date of the order and the earliest possible time for price revision under the Form I or Form II Article to which this Article is supplemental.

(d) Any price revision made pursuant to this Article will be evidenced by a supplemental agreement, which shall be subject to prior approval of the Director, Purchases Division, Headquarters, Army Service Forces.

§ 303.374–5 *Text of Form III.*

Article . . . . *Price revision upon change of wages or employment conditions.* (a) The prices fixed in Article—may be revised from time to time in accordance with this Article. As used in this Article, the term "adjustment in wages" shall include any adjustment in wages, salaries or conditions of employment.

(b) *Conditions precedent.* If all the following conditions are satisfied, the Contracting Officer shall enter into negotiations with the Contractor for the revision of the prices of items called for under this contract but only to the extent set forth in paragraph (c) of this Article:

(1) The Contractor shall advise the Contracting Officer in writing of any reference to the War Labor Board or to any other similar Government agency of any request on behalf of the employees of the Contractor for any adjustment in wages which may materially effect the costs of performing this contract. This advice shall be given within twenty days after the Contractor shall learn that such reference has been made. In the event that the reference has been made prior to the inclusion of this Article—in this contract and has not been finally acted upon, the written advice shall be given at the time of execution of the instrument effecting such inclusion.

(2) The Contractor, prior to the expiration of thirty days (or such greater period as may be agreed upon in writing) after the date of the order for or authorization of any adjustment in wages, but, in any event, prior to the expiration of one year after the date specified for the delivery of the last item of supplies called for by this contract as it may from time to time be amended, shall submit to the Contracting Officer the following:

A. A true copy of the order or authorization for such adjustment.

B. A written demand that the parties negotiate to revise the contract prices of items delivered and to be delivered under the contract during a period stated in the demand. That period shall not commence at a date earlier than the first day specified in the order or authorization for the adjustment in wages.[1] That period shall not extend after the earliest date after the demand as of which the contract prices of items to be delivered under this contract can be revised pursuant to Article — (Revision of Prices).

C. Estimates of the probable effects of such adjustment in wages upon the Contractor's costs of producing the items delivered or to be delivered during the period stated in the demand. These estimates shall give due effect to estimates of completed items and work in process on hand at the beginning of such period and to the fact that the full effect of such adjustment will not normally be reflected immediately in the cost of items delivered under the contract. The estimates shall be accompanied by estimates of the effect of such adjustment on the direct and indirect labor costs of the items delivered and to be delivered during the stated period.

D. Proposed revised prices for the items delivered or to be delivered under the contract during the stated period.

(c) *Negotiations.* Upon the filing of the estimates and data required by paragraph (b) (2) of this Article, the Contracting Officer and the Contractor will negotiate promptly in good faith to agree upon revised prices for the items delivered or to be delivered during the stated period, the cost of producing which has been affected by such adjustment in wages. In the negotiation the Contracting Officer and the Contractor in good faith will estimate the effect of such adjustment upon the cost of such items. It is recognized that it will not be practicable to make precise computations of the effect of any such adjustment on the Contractor's costs and therefore it is the intention of the parties that negotiation and determination of any revision in price under this Article shall be on the basis of the estimates of the effect of the adjustment. The prices payable for the items to delivered and to be delivered will be revised to reflect, to an extent which is deemed reasonable under all the circumstances, such estimated effect on costs.

(d) *Limitation on revision.* The Contractor agrees that it will not request and shall not be entitled to receive a price revision under this Article except to the extent that such adjustment in wages operates to make the price under this contract less than a fair and reasonable one under all the circumstances. In no event shall any such revision exceed the amount of the estimated effect of such adjustment in wages on the Contractor's costs hereunder during the stated period specified in the written demand mentioned in subparagraph (b) (2) B of this Article.

(e) *Supplemental agreement.* Any agreement reached under this Article will be incorporated in a supplemental agreement to this contract which shall be subject to the written approval of the Director, Purchases Division, Headquarters, Army Service Forces [in AAF contracts, substitute: "the Under Secretary of War or his duly authorized representative"] and which shall state (1) the revised prices to be effective with respect to deliveries during a specified period to be set forth in such agreement and (2) the method of adjusting the payments therefor.

(f) *Disagreements.* If within 30 days after the time for filing the estimates and data required by paragraph (b) (2) of this Article (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to revised prices, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes).

(g) *Effect of Article.* Any provision of this Article and any action thereunder shall be without prejudice to (1) the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act; and (2) to any Order fixing the price of articles to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(h) *Effect of prior renegotiation.* If, prior to any revision of the price under this Article the final or contingent cost of retroactive wage adjustments increasing the cost of performing this contract has been included and allowed for the purpose of the final determination (by agreement or unilateral determination) for a fiscal period, as to the Contractor's liability to repay to the Government excessive profits under the Renegotiation Act, appropriate weight shall be given to the results of the proceedings in renegotiation in determining the sums, if any, to be paid or credited to the Contractor in connection with the revision of the price under this Article, it being the intent of the parties that the net result shall be substantially the same as it would have been if the revision had preceded such final determination.

§ 303.375 *Form IV Price Revision Article; retroactive price revision by mutual agreement.*

§ 303.375–1 *Nature and effect of Article.* This Article is designed for use in contracts of $100,000 or less for experimental or developmental items or services. By its terms the contracting officer is empowered, after completion or termination of the contract, to demand that the parties negotiate to reduce the entire contract price. The revision effected thereunder is wholly retroactive.

§ 303.375–2 *Conditions for use.* (a) The amount of the contract is $100,000 or less.

(b) The price initially fixed in the contract should bear a reasonable relationship to the expected final price thereunder.

(c) The items or services called for by the contract are strictly developmental or experimental in character.

(d) The contractor's cost accounting system is sufficient to show the costs under the contract.

§ 303.375–3 *Rules for administration.* (a) If the production cost figures indicate that the price was high, the contracting officer will make the demand contemplated by the Article and will proceed promptly with and conclude the revision of the price in accordance with the Article.

(b) The Contracting Officer should make such use and verification of the cost data as he would make with respect to similar data upon the negotiation of a price under a new contract. The verification may include an examination and audit of the contractor's books and records.

(c) The profit agreed to upon the revision will be dependent upon the contractor's efficiency in the performance of the contract.

(d) The revised price will be evidenced by a supplemental agreement making adequate provision to secure to the Government the benefit of the reduction.

§ 303.375–4 *Text of Form IV.*

(a) Within sixty days after the completion or termination of this contract, the Contractor will submit to the Contracting Officer a detailed statement of the costs of performing this contract. Upon the written demand of the Contracting Officer, made at any time within thirty days after the submission of such statement, the Contractor will negotiate to reduce the contract price to an amount representing fair and reasonable compensation for the performance of the contract. In such negotiations the efficiency of the contractor in production, buying and management will be given due weight.

(b) The Contractor will furnish to the Contracting Officer such other statements of actual costs of production and such other financial statements, at such times and in such form and detail, as the Contracting Officer may prescribe, and will permit such

[1] Where this Article is inserted in a contract by amendment, insert at this point an additional sentence stating the earliest date as of which this Article may apply (see paragraph (c) of this section).

audits and examinations of its books, records and accounts as the Contracting Officer may request.

(c) If within thirty (30) days after the making of such demand (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to a revised price, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article —. (Disputes).

(d) The Government shall retain from amounts otherwise due the Contractor, or the Contractor shall repay to the Government if paid to him, any amount by which the contract price is found as a result of the application of this Article to exceed a fair and reasonable price, as the Contracting Officer may direct.

(e) Any provision of this Article and any action thereunder shall be without prejudice to (1) the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act, and (2) any Order fixing the price of items to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

§ 803.376 *Form V Price Revision Article—for retroactive pricing with limited upward revision.*

§ 803.376–1 *Nature and effect of Article.* This Article, providing for upward and downward price revision, is authorized for use in certain limited kinds of experimental or developmental contracts which involve a maximum price of not more than $1,000,000. Under the Article a contract price is agreed upon which it is believed will tend to compel the contractor to do as efficient a job as possible in the circumstances, and at the same time a maximum price is fixed as a ceiling on any upward revision under the Article. The revision takes place after completion or termination of the contract and is of course wholly retroactive.

§ 803.376–2 *Conditions for use.* (a) The maximum price under the contract as set forth in paragraph (c) of the Article must never exceed $1,000,000.

(b) The contract must call only for experimental or developmental items or services for tests in (1) laboratories, (2) field operations, or (3) similar experiments.

(c) The items or services called for by the contract are of such a non-repetitive character as to preclude the proper use of Form I–C or II–B. (See §§ 803.371–2, 803.372–2 and 803.373–2.)

(d) The contract price shall be as close as the circumstances of the particular procurement will permit. The maximum price will bear a reasonable relationship to the initial contract price in the light of the predictability of costs.

(e) The Contractor must have or establish a cost accounting system which will show the costs of performing the contract. If the Contractor's normal cost accounting methods are not satisfactory, it will be necessary to use one of the optional alternative sentences set out in paragraph (b) of the Article, in which event it will be necessary to prescribe the cost records which the contractor is to maintain and the method of maintaining such records. Wherever possible this determination concerning the records should be made at the time the contract is initially executed, using the first optional alternative sentence and specifying in detail what is to be required of the contractor. When such determination cannot be made at once, the contracting officer may conclude that after further investigation he will be able to prescribe the appropriate cost records, in which event the second optional alternative sentence should be used; and in that case such determination should be reflected, when possible, by an agreement supplemental to the contract.

(f) Any use of the Article shall be subject to prior written approval of the Director, Purchases Division, Headquarters, Army Service Forces. The request for such approval shall show in detail full compliance with the foregoing conditions and shall include, to the extent practicable, the information called for by § 803.305–4

§ 803.376–3 *Rules for administration.* (a) The time limitations prescribed in the Article will be strictly followed.

(b) The contracting officer should make such use and verification of the cost data submitted by the contractor as he would make with respect to similar data upon the negotiation of a price under a new contract. The verification may include the examination and audit of the contractor's books and records.

(c) The negotiations under the Article may result in a revised price which is the same as, or higher or lower than, the contract price but never in a revised price in excess of the maximum price. The profit agreed to upon the revision of the price will be dependent upon the contractor's efficiency in performing the contract.

(d) The revised price will be evidenced by a supplemental agreement making adequate provision to secure to the Government the benefit of any price reduction negotiated, or for payment to the contractor of any price increase, as the case may be.

§ 803.376–4 *Text of Form V.*

(a) Because of the experimental and developmental nature of the work called for by this contract and the great uncertainty as to the cost of performance hereunder, the parties agree that the contract price fixed in Article — hereof may be increased or decreased in accordance with the provisions of this Article.

(b) Within ____ [not exceeding 60] days after the completion or termination of this contract, the Contractor will file with the Contracting Officer a statement showing, in such form and detail as the Contracting Officer may prescribe, the Contractor's cost of producing the supplies or furnishing the services called for hereunder, together with such other information as may be pertinent in the negotiations for a revised price pursuant to this Article. Such statement of cost shall fairly reflect the normal operation of the Contractor's cost system. [*First optional alternative to preceding sentence:* The Contractor will establish and maintain records of the costs of performing this contract, as follows: * * *] [*Second optional alternative:* The Contractor will establish and maintain such records of the costs of performing this contract as the Contracting Officer may require in writing.] The Contracting Officer shall have the right at all reasonable times to make or cause to be made such examinations and audits of the Contractor's books, records and accounts as he may request.

(c) Upon the filing of the statement and other pertinent information required by paragraph (b) of this Article, the Contractor and the Contracting Officer will promptly negotiate in good faith to agree upon a reasonable revised price for the entire contract which, upon the basis of such statement and other pertinent information, will constitute fair and just compensation to the Contractor for the performance of this contract. In determining the extent of any estimated allowance for profit to be taken into account in fixing such revised price, consideration will be given to the extent to which the Contractor has performed the contract with efficiency, economy and ingenuity. In no event shall the revised price exceed the sum of $_____. The revised price shall be evidenced by a supplemental agreement to this contract.

(d) If within _____ [not exceeding 90] days after the completion or termination of this contract, the parties shall fail to agree upon a revised price in accordance with the provisions of this Article, the failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with Article — (Disputes).

(e) In the event of a price increase the Government will pay or credit to the Contractor the amount by which the revised price shall exceed the contract price aforesaid. In the event of a decrease in price the contractor will repay or credit the amount of such decrease to the Government in such manner as the Contracting Officer may direct.

(f) For any of the purposes of Article — (Termination at the Option of the Government) of this contract (including without limitation, computation of "the total contract price" and "the contract price of work not terminated") the contract price shall be the revised contract price agreed upon under paragraph (c) of this Article or determined under paragraph (d) of this Article, as the case may be.

(g) The provisions of this Article and any revision of price made hereunder shall be without prejudice to the determination of the existence of any excessive profits of the Contractor upon subsequent renegotiation under the Renegotiation Act or any contract article inserted pursuant to that Act.

(h) *Effect of prior renegotiation.* If, prior to any revision of the price under this Article, any sums paid or payable under this contract in respect of items the price of which may be affected by such revision have been included as renegotiable income received or accrued by the Contractor in any fiscal period for which there has been a final determination (by agreement or unilateral determination) as to the Contractor's liability to repay to the Government excessive profits under the Renegotiation Act, appropriate weight shall be given to the results of the proceedings in renegotiation in determining the sums, if any, to be paid or credited by or to the Contractor in connection with the revision under this Article of that part of the price applicable to that fiscal period, it being the intent of the parties that the net result shall be substantially the same as it would have been if the revision had preceded such final determination.

§ 803.377 *Form VI Price Revision Article—for repricing upon happening of specified contingency.*

§ 803.377–1 *Nature and effect of Article.* This Article provides for an equitable adjustment of prices upon the happening of a contingency specified in the Price Revision Article. The equitable adjustment may require either an increase or decrease in the price.

§ 803.377–2 *Conditions for use.* (a) The contingency upon which the equitable adjustment is to take place will be

clearly and accurately stated in the place provided therefor in paragraph (a) of the Article. Particular care will be taken to exclude from the statement of the contingency any point or matter which is not intended to be considered in making the equitable adjustment. For example, if the contingency relates to possible changes in price of a specified material, the statement will be strictly confined to that possibility and will not allow any adjustment on account of changes in the quantity of material to be used or on account of any factor other than price. The dollar estimate of the unit cost predicated on the realization of the basic assumption should also be clearly specified in the blank space, so that the difference in costs resulting from a non-realization of the basic assumption may be readily ascertained.

(b) The contingency must come within one of the following categories: (1) Cases where the Government actually fixes the price or effectively controls the entire supply of material to be used by the contractor in performance of the contract (e. g., natural or synthetic rubber); (2) cases where freight rates upon specified materials to be used by the contractor in performing the contract are changed under authority of the Interstate Commerce Commission; (3) cases where the cost of freight on specified materials to be used by the contractor in performing the contract is changed as the result of allocation or priority orders of the Government or any of its instrumentalities; (4) cases where the contractor contemplates the purchase of a single specified important material or component, which is to be used in performing the contract, from a stated source or at a stated price and such source or price is necessarily changed without fault or any voluntary action on the part of the contractor; (5) cases where the contractor's compliance with the delivery schedule of the contract is prevented as a direct or proximate result of any act of the Government or any of its instrumentalities. In each of such cases the probable effect of the happening of the contingency should be a substantial change in the contractor's costs.

(c) The Article is not authorized for use to cover any of the following contingencies: (1) Changes in taxes or duties (see § 803.357); (2) changes in wage rates or employment conditions (see § 803.374); (3) changes in OPA maximum prices of either components or end items (see § 803.351); (4) risks arising in connection with patents (see § 803.335); (5) termination of the contract in whole or in part (see § 803.324).

(d) The price must contain no charge or allowance on account of the specified contingency.

(e) In appropriate cases the Article may be included in a new contract even though such contract may also contain one of the Form I or Form II Price Revision Articles.

§ 803.377–3 *Rules for administration.* (a) The contracting officer will determine from the information supplied by the contractor and all other relevant data whether the contingency specified in the Article has occurred and the amount by which the contractor's costs have been changed thereby. The contracting officer may make such examination and audit of the contractor's books and records as he deems necessary.

(b) The adjustment in price should be sufficient to compensate the contractor or the Government for the net changes in the contractor's costs resulting from the happening of the contingency. There must be no adjustment under the Article on account of cost changes resulting from other factors.

(c) The adjustment in price will be evidenced by a supplemental agreement.

§ 803.377–4 *Text of Form VI.*

(a) *Basic assumption.* The contractor represents that the prices under this contract have been fixed on the following assumption (hereinafter called the basic assumption):

In the event that the basic assumption is not realized, in whole or in part, and that as a result the Contractor's costs vary materially from its presently anticipated costs as specified above, the parties agree that an equitable adjustment shall be made in the contract price on account of any net increase or decrease in such costs resulting from that non-realization.

(b) Within 30 days after the entire or partial nonfulfillment of the basic assumption, the Contractor shall notify the Contracting Officer in writing of the fact and extent of such occurrence, and shall also, within such time (or within such further period as the Contracting Officer may in writing allow before the date of final settlement of the contract) present in writing to the Contracting Officer any claim which it may then have for adjustment under this Article. Within 30 days after the Contractor's notification to him (or within such further time as the parties may agree upon in writing), the Contracting Officer shall present in writing to the Contractor any claim for adjustment under this Article which the Government may then have. The parties agree to negotiate in good faith concerning these claims and the amount and terms of any equitable adjustment which should be made. If the parties fail to agree whether an equitable adjustment is required under this Article, or upon the terms or amount of such adjustment, the dispute shall be disposed of as a question of fact in accordance with Article — (Disputes). But nothing provided in this Article shall excuse the Contractor from proceeding with the contract in accordance with its terms. Any adjustment hereunder shall be evidenced by a supplemental agreement to this contract. Nothing provided in this Article is intended to alter, restrict or limit the terms of Article — (Changes) or the authority of the Contracting Officer thereunder.

(c) *Warranty.* The Contractor represents and warrants that there is not included in the price hereunder any charge, allowance, or reserve for the possible non-fulfillment, in whole or in part, of the basic assumption.

(d) *Relation to Delays—Damages Article.* To the extent that performance of this contract may be delayed because of the non-realization of the basic assumption, in whole or in part, and that the Contractor shall have been unable to prevent such delay, the delay shall be deemed to be excusable for the purposes of Article — (Delays—Damages).

(e) *Reservation of Government's rights.* Any provision of this Article and any action thereunder shall be without prejudice to (1) the determination of the existence of any excessive profits of the Contractor under the Renegotiation Act, and (2) any Order fixing the price of items to be furnished or services to be rendered hereunder made under Section 801 of the Revenue Act of 1943.

(f) *Effect of prior renegotiation.* If, prior to any adjustment of the price under this Article, any sums paid or payable under this contract in respect of items the price of which may be affected by such adjustment have been included as renegotiable income received or accrued by the Contractor in any fiscal period for which there has been a final determination (by agreement or unilateral determination) as to the Contractor's liability to repay to the Government excessive profits under the Renegotiation Act, appropriate weight shall be given to the results of the proceedings in renegotiation in determining the sums, if any, to be paid or credited by or to the Contractor in connection with the adjustment under this Article of that part of the price applicable to that fiscal period, it being the intent of the parties that the net result shall be substantially the same as it would have been if the adjustment had preceded such final determination.

§ 803.378 *Incentive type contract article.*

§ 803.378–1 *General considerations.* (a) The contract Article set forth in § 803.379–5 is designed to reduce contract prices by providing contractors with an incentive to minimize the cost of performing contracts. The contractor shares with the Government the savings brought about by such reduction in costs. The contractor's profit per unit increases as costs decrease and decreases as costs increase up to a point where additional costs result in losses.

(b) Under this Article a target price, which should not exceed the sum of a realistic estimate of the total cost of performing the contract and a reasonable profit, is determined. Because of the advantage to the contractor in the opportunity to increase his profit by cost reductions and to be reimbursed up to a point for cost increases, his risk is less than under a fixed price contract; and therefore the profit margin at the target price will ordinarily be lower than that allowed for an equal fixed price. A maximum (ceiling) price which the final price cannot exceed is also set. The contractor and the Government share in the reduction in cost below that price. The final price consists of (1) the contractor's costs determined by negotiation and agreement after completion of all work under the contract and (2) a profit computed by the application of an agreed formula to the difference between the maximum (ceiling) price and such negotiated costs.

(c) The Article will be found more useful than the standard fixed-price contract in many situations. It provides a strong incentive to control and reduce costs. For contractors expecting to operate after the war it affords the opportunity to begin the restoration of efficiencies usually necessary in a competitive market. It furnishes protection to contractors who are not financially strong enough or are unwilling to accept the risk of loss which may possibly result from close fixed pricing. Contracting officers should carefully consider use of the Article in cases where satisfactory fixed prices cannot be agreed upon. The opportunity to adjust the price based on experienced costs will be found particularly adaptable in converting CPFF contracts, because it represents a less hazardous transition to a fixed-price basis.

When a contractor's volume is reduced by the termination of some but not all of its contracts, it may be expedient to insert the incentive provisions in remaining contracts; and such insertion will not be considered an amendment without consideration under § 803.308a merely because the maximum price exceeds the original fixed price. The incentive type contract is adaptable for use in contracts for first production quantities of items not previously produced. In some cases it may be feasible to utilize it in research, experimental and development contracts, particularly where considerable repetitive work is involved. In such cases provision should be made for revision of the target and maximum prices at some early point in performance of the contract.

(d) The Article is not intended to take the place of the Price Revision Article set out in §§ 803.370 to 803.377, inclusive. Rather, it is intended to provide another technique, for use in certain cases, of obtaining close prices from War Department contractors. This Article will not be used in any contract containing one of the Price Revision Articles set out in §§ 803.370 to 803.377, inclusive.

§ 803.378–2 *Conditions for use.* The Article may be used in fixed price contracts, subject to the following conditions:

(a) Sufficient experience is available to make a reasonably accurate determination of the target price.

(b) The maximum (ceiling) price is as low as possible under the circumstances and affords no protection to the contractor against extravagance and inefficiency.

(c) The formula for fixing the profit is so scaled that an effective premium is afforded for reducing costs below the estimate and a deterrent provided to discourage the contractor from increasing costs.

(d) The contracting officer is satisfied that the contractor's accounting system is sound, since final costs will be determined by negotiation and not by audit. The contract provides for the contractor to furnish detailed cost statements which can and should be supplemented by investigation whenever and to the extent deemed desirable by the contracting officer.

(e) The contract will be made subject to the approval of the Director, Purchases Division, Headquarters, Army Service Forces. The submission of the contract to him for approval will explain in detail how the foregoing conditions have been fulfilled, will analyze the target and maximum (ceiling) prices and the price data, if any, submitted by the contractor, and will contain any other information considered relevant.

§ 803.378–3 *Assistance by Purchases Division.* Purchases Division, Headquarters, Army Service Forces, has made a special study of the incentive type contract and the experience of other Government departments in its use. Contracting officers are encouraged to seek the assistance of representatives of the Purchase Division in connection with negotiation of such contracts.

§ 803.378–4 *Explanatory illustration of incentive type contract.* A case is assumed where a substantial number of a particular item have been furnished. The contracting officer has estimated that a price of $1,266,000 per unit would be fair and reasonable. Because of the uncertainty of the future the contractor has insisted on many contingency allowances and was unwilling to agree to a firm price of less than $1,335,000 per unit. An incentive contract was, therefore, resorted to which is explained by the following figures:

Target price	$1,266,000
Estimated Cost without contingencies	1,200,000
Maximum (ceiling) price	1,350,000

Formula for determining final price to include negotiated cost plus sum for profit which shall be equal to the following percentages of the amount by which negotiated cost is less than maximum (ceiling) price:

Fifty-two per cent (52%) of such amount to the extent of the first Fifty Thousand Dollars ($50,000) thereof;

Forty-eight per cent (48%) of such amount to the extent of the next Fifty Thousand Dollars ($50,000) thereof;

Thirty-two per cent (32%) of such amount to the extent of the next Fifty Thousand Dollars ($50,000) thereof;

Twenty per cent (20%) of such amount to the extent of any balance thereof.

Using various figures for the negotiated cost, the following table is illustrative of the results which would be obtained:

Negotiated final cost	Profit	Equal to—	Total final unit price to Government
		Percent	
$1,350,000	0	0	[3] $1,350,000
$1,300,000	$26,000	2	1,326,000
$1,250,000	50,000	4	1,300,000
$1,200,000 [1]	66,000	5.5	[2] 1,266,000
$1,100,000	86,000	7.82	1,186,000
$1,000,000	106,000	10.6	1,106,000
$900,000	126,000	14.0	1,026,000
$800,000 etc.	146,000	18.25	946,000

[1] War Department estimated cost.
[2] Target price.
[3] Maximum (ceiling) price.

§ 803.378–5 *Text of incentive type contract article.*

ARTICLE —. *Price Redetermination.* (a) *Scope of Article.* The parties hereto agree that the price stipulated in Article — hereof is a fair and reasonable negotiated price based upon estimates made in the light of the information available to the parties at the time of the negotiation. (The prices of spare parts to be determined in accordance with Appendix A hereto shall be negotiated on the same basis.) Such price(s) shall, however, be increased or decreased as provided in this Article.

(b) *Submission of data.* After the last delivery to be made hereunder, the Contracting Officer and the Contractor shall redetermine by negotiation in the manner provided in paragraph (c) of this Article the contract price(s) (and the prices of spare parts) (exclusive of changes agreed to from time to time pursuant to the Article hereof entitled "Changes"). For that purpose, within ninety (90) days (or such longer period as the Contracting Officer may approve) after the last delivery to be made hereunder, the Contractor shall submit to the Contracting Officer, in such form and detail and accompanied by such supporting data as the Contracting Officer may require, a statement of (1) all costs incurred by the Contractor in performing the contract to such time and chargeable thereto in accordance with generally accepted and sound accounting practices consistently followed by the Contractor and (2) the estimated cost of such further performance, if any, as may be necessary to complete the contract, excluding from such statement any costs separately reimbursable to the Contractor pursuant to any provision of this contract other than the provisions of the Article hereof entitled "Changes." Such statement and supporting data shall be certified by two officers or other responsible officials of the Contractor as having been prepared in compliance with the provisions of this paragraph. One of such persons shall be a person supervising accounting under the contract. Such certification shall be in the following form:

> The undersigned, as individuals and as authorized representatives of _____ (Contractor) (hereinafter called the Contractor), hereby certify that we have examined the statement and supporting data to which this certificate is attached and that, to the best of our knowledge and belief, such statement and supporting data, except as otherwise indicated therein in the case of estimates, have been prepared from the books of account and records of the Contractor; that such books of account and records have been kept in accordance with generally accepted and sound accounting practices consistently followed by the Contractor; that they include only actual and estimated costs allocable to the performance of Contract No. _____; and that they have been prepared with the knowledge that they will be used in connection with the negotiation of the final contract price under such contract.

Variations in the foregoing form shall not be made except with the approval of the Contracting Officer.

(c) *Manner of redetermination.* The redetermination provided in paragraph (b) above shall be effected in the following manner:

(1) On the basis of such statement and supporting data and such investigation as the Contracting Officer shall deem appropriate in the circumstances, there shall be established by negotiation the average unit cost of the items to be delivered hereunder. This shall then be adjusted by deducting therefrom the aggregate amount of all increases in cost, reduced to a unit basis, and adding thereto the aggregate amount of all decreases in cost, reduced to a unit basis, as provided for pursuant to the provisions of the Article hereof entitled "Changes." In the event of failure to agree, such adjusted average unit cost shall be determined under the provisions of the Article hereof entitled "Disputes."

(2) The redetermined unit price shall be established by adding to the adjusted average unit cost, as established under subparagraph (1) above, an allowance for profit equal to the following percentages of the amount, if any, by which such adjusted average unit cost is less than the sum of $_____ (the maximum price specified below):

> ____% of such amount to the extent of the first $_____ thereof,
> ____% of such amount to the extent of the next $_____ thereof,
> ____% of such amount to the extent of the next $_____ thereof,
> ____% of such amount to the extent of any balance thereof.

In no event, however, shall such redetermined unit price exceed $_____.

(3) The price of spare parts shall be redetermined by applying to the price of each spare part as it was first established hereunder (exclusive of packing and similar charges, if any) a percentage determined by dividing the total number of dollars in the redetermined unit price established pursuant to subparagraph (2) above by $_____ (the base unit prices specified in Article —).

(d) *Exclusion of changes.* The price adjustment for changes determined from time to time pursuant to the Article hereof entitled "Changes" shall not be redetermined under this Article and shall be paid in addition to or shall be deducted from, as the case may be, the redetermined prices established in accordance with paragraph (c) of this Article.

(e) *Supplemental Agreement.* When such redetermined prices shall have been arrived at as hereinabove provided, the amount thereof shall be evidenced by a supplemental agreement. In the event that the redetermined prices shall be greater than the prices previously in effect, the Contractor, upon submission of invoices therefor, shall be promptly paid the amount of the increase applicable to items theretofore delivered. In the event that the redetermined prices shall be less than the prices previously in effect, the Contractor shall promptly refund to the Government the amount of the decrease applicable to items theretofore delivered, or, with the approval of the Contracting Officer, the same may be deducted from any amount thereafter payable to the Contractor under this contract.

(f) *Effect of termination.* If this contract shall be terminated pursuant to the Article hereof entitled "Termination at the Option of the Government" prior to a price redetermination under this Article and if (A) such termination shall occur after deliveries have commenced or (B) such termination shall be partial, leaving one or more items to be delivered thereafter, then in that event (i) there shall at the request of the Contractor promptly be established by negotiation between the parties an amendment to this contract, subject, in the event of failure to agree, to final determination under the provisions of the Article hereof entitled "Disputes", which shall establish such revisions, if any, in the maximum price and profit allowances specified in subparagraph (c) (2) hereof as shall be equitable under the circumstances; and (ii) upon completion of deliveries under the contract as terminated, the contract prices for items delivered shall be redetermined under the provisions of this Article on the basis of the adjusted average unit cost for such completed items, exclusive of all costs allocable to the terminated portion of this contract.

(g) *Termination under Delays-Damages Article.* In the event that this contract shall be terminated pursuant to the Article hereof entitled "Delays-Damages," prior to a price redetermination under this Article, the prices, if any, payable to the Contractor pursuant to said Delays-Damages Article shall be either (i) the prices currently in effect as of the effective date of termination, as established under paragraph (h) of this Article, or if the contracting officer shall determine in his discretion that the payment of the said prices is not in the best interest of the Government, (ii) the prices redetermined in accordance with paragraph (c) of this Article on the basis of the adjusted average unit cost for completed items, exclusive of all costs allocable to the terminated portion of the contract.

(h) *Revision of tentative contract prices.* Pending the price redetermination pursuant to the provisions of paragraph (c) of this Article, the sum of $_____ specified in Article — hereof and based upon an assumed average unit cost of $_____, (and the prices of spare parts to be determined in accordance with Appendix A hereto) (hereinafter called the tentative contract prices), as the same may be revised pursuant to the provisions of this paragraph, shall be deemed to be the contract prices for all purposes of this contract. If at any time after the delivery of the _____ item under the contract, it appears that the average unit cost will be substantially greater or less than such assumed average unit cost, either the Contractor or the Contracting Officer may by notice to the other request negotiations for the fixing of revised tentative contract prices. If the parties are unable within thirty (30) days after the receipt of such notice to agree upon revised tentative contract prices, the dispute shall be deemed a question of fact to be determined under the Disputes Article. Within thirty (30) days after revised tentative contract prices shall have been so fixed, the amounts paid to the Contractor on the basis of the previous tentative contract prices shall be recomputed upon the basis of such prices as revised, and if such amounts so recomputed are in excess of the amounts theretofore paid, the Government will promptly pay the excess to the Contractor upon the submission of invoices therefor and, if such amounts so recomputed are less than the amounts theretofore paid, the Contractor shall promptly refund the difference to the Government or, with the approval of the Contracting Officer, the same may be deducted from any amount thereafter payable to the Contractor under this contract. The fixing of revised tentative contract prices pursuant to the provisions of this paragraph shall not limit nor affect in any way the price redetermination thereafter required to be effected pursuant to the provisions of paragraph (c) of this Article.

SUBPART I—TERMINATION OF FIXED-PRICE (LUMP SUM) CONTRACTS UPON DEFAULT OF CONTRACTOR

§ 803.379 *Steps to be taken in event of default.* The rigid enforcement of contract provisions (a) imposing liquidated damages on contractors for failure to perform within specified periods, or (b) authorizing termination of contracts for default, has been found in many instances to impede the prosecution of the war. The exercise by the several chiefs of technical services of discretion to take such action as may seem to them fair and equitable under all the circumstances will expedite the procurement of necessary war matériel and facilitate the prosecution of the war. For the foregoing reasons authority is delegated to and confirmed in the chief of each technical service to authorize the contracting officers under his command, subject to such limitations as the chief of the technical service may establish, to take any of the following courses in the event of default of the contractor:

(1) Permit the contractor to proceed and to charge the contractor with the actual damages resulting from the default. If the contract provides for liquidated damages, such damages and not actual damages must be charged.

(2) Enter into a supplemental agreement with the contractor's surety providing for the completion of performance of the contract and for payment therefor. Such supplemental agreement should clearly state that all rights against the contractor are reserved so far as the surety does not undertake to cure the effect of the defaults by the contractor.

(3) Terminate the contract:

(i) Under any provision of the contract permitting termination in the event of default, in which case the provisions of § 803.380 shall be applicable. In exercising the authority to terminate for default due regard should be given to the preservation of rights against any surety on any performance bond.

(ii) Under any contract article providing for termination for the convenience of the Government, when the defaults of the Contractor have not been gross or willful, and have not caused substantial injury to the Government, if the Contracting Officer shall find that the use of that termination article will be equitable under all the circumstances.

(4) Extend by supplemental agreement the time fixed in the contract for performance in the manner provided in § 803.308e, and within the time prescribed by § 803.308f, if the default consists of failure to perform within the time specified by the contract. In general, it is not the policy of the Government to terminate contracts for default under the stringent provisions of a delays-damages article, in a manner to bring about a forfeiture or a severe loss on the part of the contractor, merely because, at a time when the Government desires to terminate its contract for reasons not based upon the defaults of the contractor, the contractor happens to be in technical default under the contract. Attention is directed as to the provisions of § 803.303g.

§ 803.380 *Steps to be taken in event of termination because of default.* If termination is effected pursuant to a contract provision substantially similar to that set forth in §§ 803.352 or 813.1302 (Art. 9) of these procurement regulations (or any similar authorized contract provision used in lieu of either of these provisions), the chief of a technical service may, but is not required to, pursue the remedies provided for in such contract provision or available by law. In the event the contract remedies are elected, the procedure set forth in §§ 803.380a to 803.380a–7 will be followed. In lieu of making use of the contract remedies he may within the time prescribed by § 803.308f, if he finds that to do so will facilitate the prosecution of the war, make a supplemental agreement with the contractor and relieve the contractor of liability which would result from the enforcement of such remedies. Such an agreement may be entered into only with the prior approval of the Director, Purchases Division, Headquarters, Army Service Forces (obtained in the manner provided in § 803.308a except where the chief of a technical service shall find any one of the following facts:

(a) That the Government no longer has need for the supplies, services, or construction called for by the contract;

(b) That the supplies or services, undelivered because of the contractor's default, can be obtained from some source other than the contractor on a basis as favorable as that set forth in the contract or that the construction provided for in the contract can be accomplished on terms substantially as favorable to the Government as though performed under the original contract;

(c) That for reasons of policy the technical service wishes to buy supplies of the type covered by the contract on terms

more expensive or less favorable to the Government than those set forth in the terminated contract. (For example, the technical service may desire to buy from particular producers or in particular geographical areas in order to distribute war work more widely despite any extra expense involved. The excess expense in such a case should not equitably be charged to the contractor);

(d) That any excess cost charged to the contractor would be nominal;

(e) That the contractor currently employs less than 100 employees or was recommended as a prime contractor by the Smaller War Plants Division, War Production Board, has other war contracts existing or prospective, and that enforcement of the remedies provided in the contract would materially impair his ability to perform such contracts.

In any case where, pursuant to the foregoing provisions of this paragraph, a supplemental agreement relieving the contractor of liability is authorized, the chief of the technical service may, instead of entering into such a supplemental agreement, enter into a supplemental agreement (1) cancelling the contract by mutual consent without cost to the Government and (2) granting a mutual release of all claims arising out of the contract.

§ 803.380a *Procedure to be followed when remedies under delays-damages contract article are pursued.* If a contractor defaults and it is determined to pursue the remedies provided by a contract provision substantially similar to that set forth in §§ 803.352 or 813.1302 (Art. 9) of these Procurement Regulations (or any similar authorized contract provision used in lieu of either of these provisions), the following procedure will, in general, be followed:

(a) The contractor will be notified in writing that his right to proceed has been terminated.

(b) A copy of the termination notice will be furnished to the disbursing officer who will be advised to withhold further payments to the contractor pending additional instructions.

(c) Supplies or materials similar to those called for by the contract will then be procured elsewhere at as reasonable a price as practicable considering the quantity and quality required by the Government and the time in which the supplies or materials are required. In the case of a construction contract, the work will be completed according to the plans and specifications either by such other responsible contractor who offers the lowest price or by Government plant and hired labor. In either construction or supply contracts the excess cost to the Government will be charged to the contractor and the proper disbursing officer will be notified to withhold payments to cover the excess costs, pending payment thereof by the contractor.

(d) The contracting officer, immediately upon making the contract for the purchase of the materials or supplies, or for the completion of the construction contract, will request immediate remittance of the excess cost from the defaulting contractor.

(e) If the contracting officer collects the entire amount of the excess cost, he will furnish a report with reference thereto to the proper disbursing officer, transmitting the amount collected for disposition by the disbursing officer in accordance with paragraph 5*g*, AR 35–6040.

(f) If the contracting officer is unable to make collection of the entire amount of excess cost, he will furnish a complete report of the facts and circumstances to the proper disbursing officer.

If the contractor was given financial assistance by the Government (see Subpart G of this part) appropriate steps will be taken to protect the interest of the Government.

§ 803.380a–1 *Reports of default.* (a) The reports to which reference is made in § 803.380a (e) and (f) will be made on the form set forth in § 803.380a–7, or such other form as may be prescribed by the chief of the technical service; or, if the contract in question is a Treasury Procurement Supply Contract, such report will be made on Form 59 Treasury Department, Procurement Division, Branch of Supply (Report on Delinquent Contractor).

(b) The number of copies of the report to be made is as follows:

(1) It will be submitted to the disbursing officer in quadruplicate, except that when the contracting officer makes the collection in accordance with § 803.380a (d) and (e), the report will be submitted in duplicate.

(2) If the purchase was made against a defaulting contractor of the Procurement Division, Treasury Department, three additional copies will be made and submitted to the disbursing officer.

(c) The form which is suggested for use under contracts generally is self-explanatory. However, attention should be given to the following:

(1) Under "Remarks," include a statement as to the reason why the purchase was made against the defaulting contractor, substantiated by copies of correspondence and other pertinent papers, if any. If the space under "Remarks" is not sufficient, the back of the form may be used.

(2) The contracting office will sign the form in the space provided therefor under the heading "Remarks".

(d) In preparing reports covering TPS contracts on Form 59, in addition to paragraph (c) (1) and (2) of this section attention should be given to the following:

(1) Above the line noted "Item No." enter the applicable contract number and, if stated in the contract, the period governed by the contract. For example, if the item is purchased on the General Schedule of Supplies, the TPS contract number and period covered thereby would be given as TPS–8920–11/2/33 to 8/31/36.

§ 803.380a–2 *Collection of the excess cost.* (a) The disbursing officer, upon receipt of the report to which reference is made in § 803.380a (f), will effect collection of the excess cost from the defaulting contractor by deducting the amount thereof from any funds payable to the defaulting contractor.

(b) If the disbursing officer effects collection of the entire amount of excess cost due the Government in accordance with paragraph (a) of this section, he will indicate that action on the appropriate form and sign the form under the heading "Remarks" or on the back of the form, and dispose of the report as follows:

(1) The original will be attached to the voucher or other form covering the collection.

(2) The duplicate copy will be filed in the office of the disbursing officer.

(3) The triplicate and quadruplicate copies, if any, will be transmitted to the contracting officer, marked for his information only.

(4) The three additional copies to which reference is made in § 803.380a–1 (b) (2) will be transmitted to the Branch of Supply, Procurement Division, Treasury Department, in cases where collection has been made by either the disbursing officer or the contracting officer.

(c) If the disbursing officer finds it impracticable to collect the entire amount of excess cost due the Government, he will indicate his action and recommendation on the appropriate form and sign the form under "Remarks" or on the back of the form, and dispose of the report as follows:

(1) If the default was made on a War Department Contract:

(i) The original and quadruplicate copy will be transmitted to the Office of the Fiscal Director, Headquarters, Army Service Forces, the original to be forwarded to the General Accounting Office and the quadruplicate copy to be retained by the Office of the Fiscal Director, Headquarters, Army Service Forces.

(ii) The duplicate copy will be filed in the office of the disbursing officer.

(iii) The triplicate copy will be transmitted to the contracting officer with a notation to the effect that the excess cost could not be collected and that the matter has been reported to the Office of the Fiscal Director, Headquarters, Army Service Forces, for reference to the General Accounting Office.

(2) If the default was made on a contract of the Procurement Division, Treasury Department:

(i) The original, quadruplicate and the three additional copies to which reference is made in § 803.380a–1 (b) (2), will be transmitted directly to the Branch of Supply, Procurement Division, Treasury Department.

(ii) The duplicate copy will be filed in the office of the disbursing officer.

(iii) The triplicate copy will be transmitted to the contracting officer with a notation to the effect that the excess cost could not be collected and that the matter has been reported to the Procurement Division, Treasury Department.

§ 803.380a–3 In the event that collection of the excess cost is effected by means of contractor's check, money order, cash, or any means other than set-off against another account due the contractor, Standard Form No. 1044 (Schedule of Collections), properly completed, will be submitted in accordance with AR 35–780 with the required number of

copies to be submitted with Form 59. In the cases to which reference is made in § 803.380a–1 (b) (2), when collection is effected, three additional copies of Standard Form No. 1044 will be made for transmission with the additional copies of the report.

§ 803.380a–4 If purchase is made against a defaulting contractor under a War Department contract and no excess cost is involved, a report on the appropriate form will be made and disposition of the report will be made as indicated in § 803.380a–2 (c). If a TPS contract is involved a report will be made on Form 59 and submitted by the contracting officer directly to the Branch of Supply, Procurement Division, Treasury Department, in triplicate.

§ 803.380a–5 A purchase or purchases against the account of a defaulting contractor must not exceed the quantity originally ordered, with consideration given, of course, to the variation clause, if any, in the contract, and must be secured on the same unit basis, such as each dozen, pound. However, this does not preclude the Government from entering into one contract with the completing contractor which includes additional needed supplies provided that the excess costs to be charged against the account of the defaulting contractor are determined as provided in the preceding sentence of this section.

§ 803.380a–6 The foregoing instructions do not apply to defaulting contracts under Navy Supply or Post Office Department Contracts. On such defaults, no action should be taken until after the matter has been submitted by the contracting officer by letter to the department concerned through the chief of the technical service. In an emergency, telegraphic submission will be in order.

SUBPART J—MISCELLANEOUS

§ 803.390 *Assignments.*

§ 803.390–1 *Basic statutes.* There are two statutes creating restrictions on assignments of contracts with and claims against the United States. In 1940 both of these statutes were amended by the addition thereto of a paragraph making the restrictions inapplicable in certain situations. (See § 803.390–2.)

Prior to the amendment in 1940, Revised Statutes 3737 provided as follows:

No contract or order, or any interest therein, shall be transferred by the party to whom such contract or order is given to any other party, and any such transfer shall cause the annulment of the contract or order transferred, so far as the United States are concerned. All rights of action, however, for any breach of such contract by the contracting parties are reserved to the United States. (41 U.S.C. 15.)

Prior to said amendment in 1940, Revised Statutes 3477 provided as follows:

All transfers and assignments made of any claim upon the United States, or of any part or share thereof, or interest therein, whether absolute or conditional, and whatever may be the consideration therefor, and all powers of attorney, orders, or other authorities for receiving payment of any such claim, or of any part or share thereof, shall be absolutely null and void, unless they are freely made and executed in the presence of at least two attesting witnesses, after the allowance of such a claim, the ascertainment of the amount due, and the issuing of a warrant for the payment thereof. Such transfers, assignments, and powers of attorney, must recite the warrant for payment, and must be acknowledged by the person making them, before an officer having authority to take acknowledgments of deeds, and shall be certified by the officer; and it must appear by the certificate that the officer, at the time of the acknowledgment, read and fully explained the transfer, assignment, or warrant of attorney to the person acknowledging the same. The provisions of this section shall not apply to payments for rent of post-office quarters made by postmasters to duly authorized agents of the lessors. * * * (31 U.S.C. 203.)

§ 803.390–2 *Assignment of Claims Act of 1940.* (a) In 1940 by the enactment of the Assignment of Claims Act (Public No. 811—76th Congress), approved October 9, 1940, the restrictions created by sections 3477 and 3737 of Revised Statutes referred to in paragraph (a) above were, subject to certain conditions therein specified, made inapplicable to any case in which monies due or to become due under a contract providing for payments aggregating $1,000 or more, are assigned to a bank, trust company, or other financing institution including any Federal lending agency. The conditions specified in the act are, in general, those set forth in paragraphs (a), (b) and (e) of the standard article contained in § 803.355.

(b) Where direct payment is made to the assignee, the contractor will furnish on each voucher, invoice, or other supporting paper a statement to the effect that he recognizes the assignment, its validity, and the right of the assignee to receive payment. (See par. 2f, AR 35–1040.)

§ 803.390–3 *Assignments by operation of law.* It has been held that the provisions of sections 3477 and 3737 of the Revised Statutes, do not apply where a contract or claim is transferred by order of a court in receivership or bankruptcy proceedings, such an assignment, being by operation of law. (See 3 Comp. Gen. 623; 5 id. 592.)

§ 803.390–4 *Transfer of entire business.* It has been held that where an individual or corporation having a contract with or claim against the Government sells an entire business to another individual or corporation, the transferee will be recognized by the United States as the lawful successor in interest of the contractor or claimant notwithstanding the provisions of sections 3477 and 3737 of the Revised Statutes, referred to above. (9 Comp. Gen. 72, 74.)

§ 803.390–5 *Corporate mergers.* It has likewise been held that the provisions of section 3477 of the Revised Statutes are inapplicable to the transfer of a claim against the United States resulting from the merger of one corporation into another. (Seaboard Airline Railway v. U. S., 256 U. S. 655.)

§ 803.390–6 *Recognition of assignments prohibited by Revised Statutes.* Assignments or transfers of contracts and claims prohibited by sections 3477 and 3737 of the Revised Statutes are merely voidable and may be validated by the Government. Authority to validate such assignments or transfers is vested in the chiefs of the technical services.

§ 803.390–7 In connection with the assignment of claims, contracting officers will, upon request of the contractor, furnish proposed assignees information regarding the status of the contract at the time of the assignment. In so doing, the contracting officer will advise the assignee that the information is so furnished only for confidential use in connection with the assignment.

§ 803.391 *Charges for telegraph, cable, and radio messages in cost-plus-a-fixed-fee contracts.* Pursuant to the

provisions of Public Law, 4, 78th Congress, approved March 6, 1943, cost-plus-a-fixed-fee contractors and subcontractors are no longer entitled to send telegraph, cable or radio messages at government rates.

§ 803.392 *Handling defaults and threatened defaults by suppliers and subcontractors under cost-plus-a-fixed-fee prime contracts.* The following procedures are established to assure to the Government the maximum amount of protection and salvage in cases where suppliers or subcontractors of cost-plus-a-fixed-fee prime contractors fail or refuse to perform their obligations under purchase orders or subcontracts, or threaten to do so:

(a) In general, it is the responsibility of the prime contractor to administer and police his purchase orders and subcontracts; and nothing herein contained shall be construed to remove, lessen or impair such responsibility. In case of a threatened breach of contract by a supplier or subcontractor, it is the duty of the prime contractor to use all lawful means employed by businessmen in the trade to obtain performance. This will normally include the sending of a reminder to the supplier or subcontractor that compliance with contract terms is expected and that the supplier or subcontractor will be held to strict accountability for breach; personal interviews where feasible; and similar steps. It is also the duty of the prime contractor to take steps reasonably necessary to assure that he will not lose contract rights through waiver or estoppel.

(b) Where default is threatened by a supplier or subcontractor because of bona fide misunderstandings or differences between him and the prime contractor which appear to be capable of fair settlement, the prime contractor will attempt, through negotiation, to obtain such settlement. But no settlement involving any change in the terms of a purchase order or subcontract previously approved by the Contracting Officer shall be made without the written approval of the Contracting Officer.

(c) The prime contractor will notify the Contracting Officer promptly of any situation which may require the issuance of a purchase order or subcontract to another supplier or subcontractor for supplies or services covered by a purchase order or subcontract as to which default is in prospect or has occurred. Such additional purchase order or subcontract may be issued when the successful and speedy completion of the prime contractor's work is imperilled by default of a supplier or subcontractor. The prime contractor will maintain full and accurate records of cost under such additional purchase order or subcontract for the purpose, among others, or establishing a claim for damages against the defaulting supplier or subcontractor. He will also prepare and keep careful notes of all other information pertinent to the case which may be of assistance in the event of a lawsuit.

(d) Where a supplier or subcontractor has defaulted, and a claim arises in favor of the prime contractor, the latter will attempt to negotiate and settle the claim on reasonable terms whenever it appears that a fair settlement capable of prompt consummation is preferable to litigation. The prime contractor will keep the Contracting Officer informed of the progress of such settlement negotiations. The Contracting Officer shall have authority to approve a settlement and no settlement agreement will be made without his written approval.

(e) When, in the opinion of the prime contractor further efforts at settlement will be ineffectual, he will promptly so notify the Contracting Officer. If the Contracting Officer concurs in this opinion, he will reimburse the prime contractor, if the latter has not been reimbursed previously for the amount of his claim against the supplier or subcontractor and if the claim is a reimbursable one under the prime contract, and he will direct the prime contractor to execute an assignment to the United States of the claim on the defaulted purchase order or subcontract, to assemble all the papers pertinent to the claim, to make or obtain any affidavits or other records of the transaction, and to prepare any necessary report on the claim. The Contracting Officer will forward this record (in triplicate), together with his own report and recommendation (in triplicate) to the Litigation Division, Office of The Judge Advocate General, through the chief of the technical service concerned.

(f) The Judge Advocate General may from time to time in the further handling of the claim request cooperation and assistance from the prime contractor, the Contracting Officer, and the chief of the technical service concerned.

(g) If the matter is to be forwarded to the General Accounting Office by The Judge Advocate General it will be forwarded through the Office of The Fiscal Director, Headquarters, Army Service Forces.

§ 803.393 *Disclosure of information in connection with completing Selective Service affidavit.* (a) It appears that some industrial firms have been setting forth detailed information on their war production activities, including dollar value of contracts, in completing the Affidavit — Occupational Classification (Industrial) D.S.S. Form 42A, Selective Service System.

(b) The information elicited on the reverse side of this form, pertaining to activities, production, contemplated conversion and numbers of employees, should be stated in general terms only. Detailed confidential data will not be included.

(c) All companies holding War Department contracts will be informed by the chiefs of the technical services that they must avoid any inclusion of confidential war production and related data in completing above mentioned forms.

§ 803.394 *Contracts for electric power.*

§ 803.394–1 *Presidential directives.* (a) Under date of September 26, 1942, the following letter was received by the Secretary of War from the President:

September 26, 1942.

My dear Mr. Secretary:

It is of the utmost importance that the costs of the war program be held to a minimum consistent with the fullest and most rapid progress. In arranging for the electric power supply for war plants or establishments, the cheapest sources of power consistent with war requirements should be used.

Public and private power supplying agencies should be advised as far in advance as possible of the prospective location and requirements of plants or establishments on or near their systems in order that they may assist in solving the power supply problem involved at the lowest possible cost. In many instances it should be possible to lessen power costs if provision is made for power to be supplied to the consuming agencies directly from the power generating agency. If the lines of the lowest cost power supplying agency do not connect immediately with the war plants, there is no reason why connecting lines of other companies or agencies should not be utilized for a reasonable transmission charge. I am asking the Federal Power Commission to cooperate by using its emergency powers when necessary to make available transmission and other appropriate services for the effectuation of this policy.

I do not think that companies not themselves having sufficient power to supply war plants should be purchasing power from neighboring public power agencies for resale to these plants at a substantial profit. In such cases business like procedure would suggest that the power be purchased directly from the power supplying agencies and reasonable transmission charges be paid to the transmitting companies.

Adoption of my suggestion will not discriminate in favor of public or private power, but will accord with sound business practice.

Sincerely yours,

FRANKLIN D ROOSEVELT

Hon. HENRY L. STIMSON,
Secretary of War.

(b) Under date of October 22, 1942, the following letter was received by the Chairman, Federal Power Commission from the President:

October 22, 1942.

My dear Mr. Olds:

I would like the Federal Power Commission, after consultation with the procurement agencies and the War Production Board, to establish the procedure, outlined in the attached memorandum, to effectuate the policies set forth in my letter of September 26, 1942, addressed to the War Department, Navy Department, Maritime Commission, Defense Plant Corporation, Federal Housing Agency and the War Production Board.

Sincerely yours,

FRANKLIN D ROOSEVELT

Hon. LELAND OLDS, *Chairman,*
Federal Power Commission.

The following memorandum was attached to the October 22, 1942 letter from the President to Mr. Leland Olds, Chairman, Federal Power Commission.

Outline of Procedure for Purchase of Power for War Plants and Establishments:

(1) Each agency directly or indirectly responsible for power procurement to designate a Power Procurement Officer to handle all contracts and arrangements for electric power as hereinafter provided.

(2) Each agency to direct its representatives to report promptly to the Power Procurement Officer each proposed procurement of power, in excess of a reasonable minimum, which involves Government approval or any Government obligation. Such reports to include all essential facts in accordance with forms approved by the Federal Power Commission.

(3) Power Procurement Officers to refer such reports promptly to the Federal Power Commission, together with proposed contracts, for determination whether cheaper

power supply is available and, if so, how it can be delivered. Federal Power Commission to issue necessary orders after consultation with War Production Board as to priorities and allocations.

(4) Federal Power Commission to determine whether proposed rates and conditions are reasonable and, if unreasonable, to fix proper terms and otherwise cooperate with Power Procurement Officers in effectuating arrangements necessary for securing power on best possible terms.

(5) Review and renegotiation of existing contracts to be in accordance with above procedure.

§ 803.394–2 *War Department Power Procurement Officer.* Pursuant to the directives from the President, set forth in § 803.394–1 the Secretary of War has designated Col. S. M. Weaver as War Department Power Procurement Officer and Major George P. Steinmetz as Deputy War Department Power Procurement Officer, with the following responsibilities for contracts of 1000 kilowatts or over for electric service to all installations where the War Department has an interest in the cost of electric service:

(a) Review of all existing contracts and initiation of such modifications or changes as are considered to be required to comply with the principles expressed in the President's directives.

(b) Review of proposed contracts and of proposed supplements to existing contracts, if such supplements extend the time, alter the contract price, or make any other substantial change in the contract terms, to assure that such contracts and supplements are consistent with the principles expressed in the President's directives.

§ 803.394–3 *Representatives of War Department Power Procurement Officer.* The Repairs and Utilities Divisions of the Service Command Engineer Offices are designated as representatives of the War Department Power Procurement Officer. These representatives will carry out, under his direction, such field activities as may be necessary in connection with contracts and supplements to contracts for electrical service to all establishments within the geographical boundaries of the Service Commands, where the War Department has an interest in the cost of electric service. Commanding Officers at all such establishments will cooperate with these representatives by making available such information as is required for their review of existing and proposed contracts and supplements.

§ 803.394–4 *Liaison with War Department Power Procurement Officer.* The Commanding General, Army Air Forces, and the chiefs of the technical services are directed to designate an officer or civilian representative to maintain liaison with the War Department Power Procurement Officer on matters pertaining to contracts for electric service. The latter should be notified of such appointment and of the address and telephone number of the person designated.

§ 803.394–5 *Required provision in contracts and supplements.* All contracts and supplements of the character referred to in § 803.394–2 will contain a provision that the contract or supplement is subject to the approval of the War Department Power Procurement Officer or Deputy War Department Power Procurement Officer and will not be binding until so approved. Such contracts and supplements which are Army Air Forces utility contracts (see § 803.397–1) will be forwarded as provided in § 803.397–1 to the War Department Power Procurement Officer for approval. Such contracts and supplements which are not Army Air Forces utility contracts (see § 803.397–1) will be forwarded through the Repairs and Utilities Division of the Service Command to the War Department Power Procurement Officer, Office of the Chief of Engineers, for approval.

§ 803.395 *Contracts within section 9, Military Appropriation Act, 1944 and 1945.*

§ 803.395–1 *Section 9, Military Appropriation Act, 1944 and 1945.* Section 9, Military Appropriation Act, 1944 (Public Law 108, 78th Congress) provides:

Whenever, during the fiscal year ending June 30, 1944, the Secretary of War should deem it to be advantageous to the national defense, and if in his opinion the existing facilities of the War Department are inadequate, he is hereby authorized to employ, by contract or otherwise, without reference to section 3709, Revised Statutes, civil service or classification laws, or section 5 of the act of April 6, 1914 (38 Stat. 335), and at such rates of compensation (not to exceed $25 per day for individuals) as he may determine, the services of architects, engineers, or firms or corporations thereof, and other technical and professional personnel as may be necessary.

Section 9, Military Appropriation Act, 1945 (Pub. Law 374, 78th Congress) provides:

Whenever, during the fiscal year ending June 30, 1945, the Secretary of War should deem it to be advantageous to the national defense, and if in his opinion the existing facilities of the War Department are inadequate, he is hereby authorized to employ, by contract or otherwise, without reference to section 3709, Revised Statutes, civil service or classification laws, or section 5 of the Act of April 6, 1914, (38 Stat. 335), and at such rates of compensation (not to exceed $25 per day and travel expenses, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty station and return as may be authorized in travel orders or letters of appointment for individuals) as he may determine, the services of architects, engineers, or firms or corporations thereof, and other technical and professional personnel as may be necessary.

§ 803.395–2 *Effect of statutes on contracts.* Except as may be provided in other applicable statutes (see, e. g., section 12, Public Law 580, 77th Congress), the statutes above-quoted affect (a) each War Department contract for architectural, engineering, technical or professional services (1) made with any individual; or (2) made with a firm or corporation which is engaged primarily in the business of furnishing such services, and (b) each War Department contract for the employment of the services of accountants or other experts to assist in inaugurating new or changing old methods of transacting business of the Department. Except as above stated, they do not apply to any contracts with firms or corporations for services related to the development, invention, design, procurement, production, repair, or maintenance of war supplies, matériel or facilities or for research or services concerning any such supplies, matériel or facilities, or to any other type of War Department contract.

§ 803.395–3 *Approval of contracts.* Notwithstanding anything contained in Subpart B of this part, each contract of the type described in the first sentence of § 803.395–2 above, regardless of amount, and each supplemental agreement or change order making a material change in such a contract, will contain a provision stating that it is subject to the approval of the Secretary of War or Under Secretary of War and will not be binding until so approved; and such contract, supplemental agreement or change order will be forwarded by the chief of the technical service involved for approval by the Secretary of War or Under Secretary of War through the Director, Purchases Division, Headquarters, Army Service Forces. The chief of the technical service, in recommending approval, will refer specifically to the statute above quoted and will furnish a full statement of facts supporting the findings and determination required by the statute to be made by the Secretary of War (Under Secretary of War).

§ 803.395–4 *Citation of authority on contracts.* Each such contract, supplemental agreement and change order will cite as authority the statute above quoted, the First War Powers Act, 1941, and Executive Order No. 9001.

§ 803.395–5 *Compensation.* Where such contract is with an individual, it will expressly limit the compensation payable to him to not more than twenty-five dollars per day, plus additional compensation for overtime pursuant to the provisions of the War Overtime Pay Act of 1943 (Public Law 49, 78th Cong., approved 7 May 1943).

§ 803.395–6 *Approval of awards.* See § 803.396 below, requiring that the technical services obtain approval before making awards of certain contracts, supplemental agreements and change orders for "management consultant" services. As noted in § 803.396 (d), obtaining approval of such awards does not eliminate the requirement that the contracts, supplemental agreements and change orders embodying those awards be also processed under § 803.395–3 where § 803.395–3 is otherwise applicable.

§ 803.396 *Prior approval of awards of "management consultant" contracts.* (a) Notwithstanding anything contained in Subpart B, the technical services will obtain the approval of the Director, Purchases Division, Headquarters, Army Service Forces, before making an award of any contract to a corporation or firm (including a proprietorship) for "management consultant" services, or an award of any supplemental agreement or change order which involves any substantial change in the nature or the services or any substantial increase in the amount of the services to be performed under such a contract. "Management consultant" services are defined as including assistance in inaugurating new or changing old methods of transacting

business of the War Department, or in investigating, devising or developing procedures, methods, systems, forms or the like for accomplishing the business of the War Department. Assistance in developing systems of item identification, nomenclature or interchangeability of war matériel is an example of "management consultant" services within the meaning of this section. The character of the work to be performed determines whether the services involved are "management consultant" services within the meaning of this section; the question whether the proposed contractor is engaged primarily in the business of furnishing such services, and the dollar amount of the project, are irrelevant to the determination.

(b) It is the policy of the War Department that to the extent possible, firms shall not be employed to perform "management consultant" services on continuous operating activities, on projects which should be carried on by the War Department with its own personnel, or in lieu of the direct employment of individuals by the War Department or the employment of individuals as consultants. Where it is necessary to employ corporations or firms to perform "management consultant" services, the agreement should be made on a temporary basis and provision should be made for recruiting and training War Department personnel to take over the performance of such services as soon as practicable.

(c) Requests for approval of awards under this section will include the information indicated below or such parts thereof as are relevant to the particular transaction:

(1) Name and address of proposed contractor; its qualifications to perform the services; prior experience, if any;

(2) Necessity for and full description of the work to be performed;

(3) Types of personnel to be employed (for example, clerical, supervisory, engineers, draftsmen) and number of each type;

(4) Period of time required to complete the contract;

(5) Explanation of why the work cannot be accomplished by War Department personnel or by the employment of individual consultants, and steps taken to recruit such personnel;

(6) Price and justification;

(7) Reference to form of contract to be used, noting and justifying any provisions requiring approval of higher authority, or referring to any such approval previously obtained (see, for example, §§ 803.306–2 and 803.306–4.

(d) Obtaining approval of an award under this section does not eliminate the requirement that the contract, supplemental agreement or change order be approved by higher authority under § 803.395–3 if the contract, supplemental agreement or change order is of a type which must receive such approval under the provisions of § 803.395–3.

§ 803.397 *Utility contracts.*

§ 803.397–1 *Army Air Forces utility contracts.* (a) Army Air Forces utility contracts are those utility contracts, as defined in § 803.318c–1, which affect Class III installations and which (1) are not of general or regional application or (2) do not primarily affect Class I, II and IV installations. Army Air forces utility contracts are the responsibility of the Commanding General, Army Air Forces, subject, however, to the provisions of §§ 803.306–1 through 803.306–4 and §§ 803.394 through 803.394–5, inclusive. Army Air Forces commanding officers, however, may request the advice and assistance of Service Command Engineers in connection with Army Air Forces utility contracts.

(b) Any Army Air Forces utility contract requiring approval of higher authority, will be referred by the commanding officer of the Class III installation concerned through Army Air Forces command channels to the Director, Purchases Division, Headquarters, Army Service Forces. If approval of any such contract is required under §§ 803.394 through 803.394–5, inclusive, it will contain the approval provision required by § 803.394–5 and will be forwarded by the Director, Purchases Division, to the War Department Power Procurement Officer for necessary action.

§ 803.397–2 *Service command utility contracts.* Utility contracts, as defined in § 803.318c–1, other than Army Air Forces utility contracts, are the responsibility of the Commanding Generals of the service commands. In this connection see §§ 803.318c to 803.318c–4, inclusive.

§ 803.397–3 *Engineer utility contracts.* Notwithstanding the provisions of §§ 803.397–1 and 803.397–2, if utility contracts, as defined in § 803.318c–1, are required during construction at Class I, II, III or IV installations, under the jurisdiction of the Chief of Engineers, such contracts will be entered into by Engineer contracting officers and administered as Engineer contracts until transferred to Army Air Forces or service command jurisdiction.

§ 803.398 *Certification by contracting officers, under cost-plus-fixed-fee contracts, of unusual items likely to be questioned.* (a) Experience has shown that in connection with the administration of many cost-plus-fixed-fee contracts a number of items of reimbursement are claimed by contractors which are unusual in nature and consequently require special attention of the contracting officer in making his administrative determination of whether the contractor is entitled to reimbursement therefor. Because of the possibility of subsequent inquiries by the General Accounting Office concerning reimbursement of such items, the procedure prescribed in paragraph (b) below will be followed. The following are illustrations of the types of items of this nature:

Attorneys' fees
Accountants' fees
Bonuses and special payments to employees
Cafeteria and other special activity losses or expenses
Check cashing fees or other expenses in connection therewith.
Expense of recruiting employees and transporting them to the site of work
Employee morale expenses
Losses not covered by insurance
Membership fee in Associations
Publications, including technical manuals, war law and labor services
Travel expenses

(b) Where in the judgment of the contracting officer, the item claimed is of the nature described in paragraph (a) above, the contracting officer will prepare and place in his files a memorandum setting forth in detail all pertinent facts and the particular reasons for approving reimbursement, including the nature of the expenditure and the necessity for its being made in connection with the contract. This memorandum will provide a basis for justifying the contracting officer's action if the item is later questioned by the General Accounting Office.

(c) Should the item in question be the subject of either an informal inquiry or a formal exception, the reply thereto may include a copy of the memorandum above mentioned. Should the matter of clearing any question raised by the General Accounting Office require the attention of higher authority, a copy of the memorandum will be furnished to assist in such clearance.

§ 803.398a *Reimbursement under cost-plus-fixed-fee supply contracts of contributions to charitable or community organizations.* (a) Supplemental Cost Interpretation No. 9, as originally issued December 9, 1942 and as published in paragraphs 263–267 of TM 14–1000 ("Administrative Audit Procedures for Cost-Plus-A-Fixed-Fee Supply Contracts") provided for the reimbursement of CPFF supply contractors for contributions to charitable or community organizations under certain limitations. In a decision of the Comptroller General, B–35488, August 15, 1944, the allowance of contributions to charitable or community organizations was questioned, and, in the particular case, the contribution was disallowed. Disbursing officers are now being instructed not to pay vouchers representing reimbursement of costs based upon contributions, even though the contract incorporates by reference TD 5000 and the costs are allowable under the provisions of Supplemental Cost Interpretation No. 9.

(b) Nevertheless, contracting officers are not necessarily required, because of the decision of the Comptroller General, to refuse to certify vouchers for reimbursement of such contributions if contractors appear otherwise to be entitled to such reimbursement under the terms of their contracts and in accordance with Supplemental Cost Interpretation No. 9. If in any case a voucher is to be certified in accordance with Supplemental Cost Interpretation No. 9, a separate voucher covering such item only will be prepared to which there will be attached a statement that the voucher has been certified in accordance with this section. Any voucher so certified will not be submitted to the disbursing officer but will be returned to the contractor.

§ 803.398b *Adjustments of fixed-price subcontracts under cost-plus-a-fixed-fee prime contracts.* (a) The principles set out in § 803.329b–3 apply to adjustments of a fixed price subcontract under a cost-plus-a-fixed-price prime contract attributable to the balance of the work under such subcontract.

(b) In view of section 3 (d) of the Contract Settlement Act and § 841.111–4 of this chapter the claim of a fixed-price

subcontractor under a cost-plus-a-fixed-fee contract for work terminated or cancelled in whole or in part under any circumstances which require the Government to bear the cost of settlement, is a termination claim. The settlement of such a termination claim will be effected in accordance with the principles and under the procedures set out in Subchapter C of this chapter (see especially Part 846 of this chapter).

(c) Approval by the contracting officer of adjustments and settlements of the character described in paragraphs (a) and (b) above will be effected to the extent required by the prime contract. In some cases the settlement of the subcontract may have been pursuant to an authorization to settle subcontracts under § 846.642 or § 846.643 of this chapter. Where the settlement has been made under such an authorization, any such approval will be taken to indicate only that the subcontract was terminated under circumstances which require the Government to bear the cost of the subcontract settlement and that the contractor has made the settlement under the authorization.

[Procurement Reg. 4]

PART 804—BONDS AND INSURANCE

SUBPART A—GENERAL

Sec.
804.401 Rescission of regulations.
804.402 Compliance with this part.
804.403 Exceptions to requirements of this part.
804.404 Definition of "Contract Insurance Branch".

SUBPART B—BONDS

804.405 Types of bonds.
804.406 Contract bond requirements on lump sum construction and supply contracts.
804.407 Contract bond requirements for cost-plus-a-fixed-fee contracts.
804.408 General policy as to rates.
804.409 Filing and examination of bonds and consents of surety.
804.410 Bonds executed by receivers, trustees, administrators, guardians, or executors as principal obligors.
804.411 Bonds executed by limited partnerships as principal obligors.

SUBPART E—BONDS AND INSURANCE FORMS

804.496 Bond forms.
804.497 Insurance forms.
804.498 List of Offices of Loss and Salvage Organizations.
804.499 Extension of policy period endorsement for workmen's compensation and employers' liability policy.

SUBPART A—GENERAL

§ 804.401 *Rescission of regulations.* Army Regulations 5–140, May 22, 1940, as amended; Army Regulations 5–220, August 7, 1940, as amended; and all other directives and instructions relating to bonds and insurance issued prior to February 1, 1943, are hereby rescinded.

§ 804.402 *Compliance with this part.* Unless otherwise specifically provided, compliance with any provision of this part or of any amendment thereto which requires a change in procedure or in any contract provision shall not be mandatory until thirty days after the issuance of such regulation or amendment.

§ 804.403 *Exceptions to requirements of this part.* Where any provisions of this part, establishes requirements the application of which is impractical in a given special case or in a particular situation, the matter should be submitted to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces with a full statement of the facts and circumstances. That Branch has authority to make exceptions to requirements set forth in this part.

§ 804.404 *Definition of "Contract Insurance Branch".* Whenever used in this part, the terms "Insurance Branch" or "Contract Insurance Branch" shall be deemed to mean the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces.

SUBPART B—BONDS

§ 804.405 *Types of bonds.* There are set forth in §§ 804.405–1 to 804.405–14, inclusive, brief descriptions of the more common types of bonds, riders, and endorsements used in connection with War Department Contracts. In certain of those sections there are contained cross references to the forms of bonds, riders, and endorsements which are contained in Subpart E of this part.

§ 804.405–1 *Bid bond.* A bid bond is a bond accompanying a bid in which the obligor obligates himself in an amount stated (the penal sum), which obligation, it is stated, is to be void if:

(a) The bid is not withdrawn after the opening within the period specified in the bid, or, if no shorter period is specified, within sixty days; and

(b) A written contract, with such bond or bonds as may be required, is executed within ten days after the prescribed forms are presented for signature. (For form see § 804.496–1.)

§ 804.405–2 *Annual bid bond.* An annual bid bond is a single bond securing all bids submitted to a designated agency

during the fiscal year. Such a bond is executed in lieu of executing separate bid bonds for each bid. (For form see § 804.496–2.)

§ 804.405–3 *Performance bond.* A performance bond is a bond which is executed in connection with a contract and which secures the performance and fulfillment of all the undertakings, covenants, terms, conditions and agreements contained in the contract. (For form see § 804.496–3.)

§ 804.405–4 *Annual performance bond.* An annual performance bond is a single bond securing the performance and fulfillment of all the undertakings, covenants, terms, conditions and agreements of all contracts executed with a designated agency during a fiscal year. Such a bond is executed in lieu of executing separate performance bonds for each contract. (For form see § 804.496–4.)

§ 804.405–5 *Payment bond.* A payment bond is a bond which is executed in connection with a contract and which secures the payment of all persons supplying labor and material in the prosecution of the work provided for in the contract. (For form see § 804.496–5.)

§ 804.405–6 *Advance payment bond.* An advance payment bond is a bond which secures the performance and the fulfillment of a contractual provision for the making of advance payments of the type described in § 803.321, et seq. (For form see § 804.496–6.)

§ 804.405–7 *Patent infringement bond.* A patent infringement bond is a bond which secures the performance and fulfillment of the undertakings contained in a patent clause of the type set forth in § 803.335–7. (For form see § 804.496–7.)

§ 804.405–8 *Fidelity bond (blanket).* A fidelity bond is a bond under which the obligor agrees to indemnify an employer up to an amount stated in the bond for losses caused by dishonesty on the part of all employees except those expressly excluded by written endorsement on the bond. (For form see § 804.496–9.)

§ 804.405–9 *Forgery bond or policy (depositor's form).* A forgery bond or policy is a bond or policy under which the obligor agrees to reimburse a purchaser and others named in the bond or policy (the insureds) to an amount stated in the bond or policy:

(a) For losses caused by the forging or altering of a check, draft, or similar instrument issued by or purported to have been issued by any of the insureds named in the bond or policy.

(b) For losses resulting from the fact that a check or draft has been obtained from the insureds through the device of impersonation. (For form see § 804.496–10.)

§ 804.405–10 *Retroactive reinstatement rider.* This rider contains a provision which is available for blanket fidelity and forgery bonds whereby after a loss has been sustained the penalty of the bond is restored to its original amount with respect to prior losses. There is contained in the bond itself a provision which automatically restores the penalty of the bond to the original amount with respect to future losses.

§ 804.405–11 *Waiver of restoration premium rider.* This rider contains a provision which is available for blanket fidelity and forgery bonds which has the effect of eliminating the premium charge for restoring the penalty of the bond after a loss has been sustained.

§ 804.405–12 *Endorsement excluding subrogation to claims against the United States.* This endorsement contains a provision which excludes any claim on the part of the surety company to be subrogated on payment of a loss or otherwise to any claim against the United States. It is required to be placed on any fidelity or forgery bond, the premium for which is either paid by the Government directly or is a reimbursable item under a cost-plus-a-fixed-fee contract.

§ 804.405–13 *Cancellation or change notice rider.* This rider contains a provision by which a surety agrees to notify certain named interested parties in the event that the bond is cancelled or changed in any other manner.

§ 804.405–14 *License or permit bond.* This is a bond which secures to a municipality or other public authority the payment of fines or the amount of any losses sustained as a result of action taken, or omitted to be taken, in violation of the terms of a license or permit. The indemnity sometimes runs to third persons in addition to the municipality.

§ 804.406 *Contract bond requirements on lump sum construction and supply contracts.*

§ 804.406–1 *Bid bonds.* Bid bonds will not be required in connection with lump sum construction and supply contracts except when the contract was placed as a result of formal advertising and the invitation to bidders specified that the contracts were to be supported by performance and/or payment bonds. On such bonds as are required the penal sum will be in an amount deemed adequate for the protection of the United States. The maximum rates of premiums on such bonds are as follows:

(a) On construction contracts not exceeding $2,500, a premium of twenty cents per $100 of bid price, the minimum premium being $1.00;

(b) On construction contracts in an amount in excess of $2,500, a flat fee of $5.00 per bond;

(c) On supply contracts not in excess of $1,250 in amount, a premium of twenty cents per $100 of bid price, the minimum premium being $1.00;

(d) On supply contracts in excess of $1,250 in amount, a flat fee of $2.50 per bond.

The charge for a bid bond is applied as a credit against the premium for the performance bond if the contractor is the successful bidder.

§ 804.406–2 *Performance bonds.* The extent to which performance bonds will be required in connection with lump sum construction and supply contracts will be determined by the chief of the technical service concerned. The requirement of performance bonds will of necessity change from time to time to meet both changing conditions and specific situations. On such bonds as are required the penal sum will be the lowest which, in the exercise of sound judgment, is deemed adequate for the protection of the United States. The maximum rates of premiums on such bonds are as follows:

(a) On lump sum construction contracts for both performance and payment bonds on the same contract with stipulated completion time not exceeding twelve months:

(1) For Class "A" construction (including dredging):

(i) $5.00 per thousand of the contract price up to $2,500,000 and $3.75 per thousand of the portion of the contract price in excess of $2,500,000; or

(ii) Where the total penal sum of the performance and payment bonds is less than 10% of the contract price, $40.00 per thousand of the aggregate penal sum of both the performance and payment bonds; and

(iii) A minimum premium in any case of $7.50 per bond.

(2) For Class "B" construction (including highways and bridges):

(i) $6.65 per thousand of the contract price up to $2,500,000 and $5.00 per thousand of the portion of the contract price in excess of $2,500,000; or

(ii) Where the total penal sum of the performance and payment bonds is less than 15% of the contract price, $45.00 per thousand of the aggregate penal sum of both the performance and payment bonds; and

(iii) A minimum premium in any case of $10 per bond.

(b) On lump sum supply contracts (for performance bonds only) a premium of $1.00 per thousand of the contract price, the premium in no event to exceed $3.00 per thousand of the penal sum of the bond and in no event to be less than $5.00.

§ 804.406–3 *Payment bonds*—(a) *Lump sum construction contracts.* Payment bonds will be required in connection with all lump sum construction contracts where performance bonds are required. As a general rule payment bonds will also be required in connection with all other construction contracts which exceed $2,000 in amount. However, as to contracts where performance bonds are not required, the requirement of a payment bond may in the discretion of the chief of the supply service concerned be waived when the credit of the contractor makes the requirement unnecessary. The penal sum of payment bonds executed in connection with lump sum construction contracts will be as follows:

(1) When the contract price is $1,000,000 or less, 50 percent of the contract price;

(2) When the contract price is in excess of $1,000,000 but less than $5,000,000, 40 percent of the contract price;

(3) When the contract price is $5,000,000 or more, $2,500,000.

The maximum rates of premium for payment bonds executed in connection with lump sum construction contracts will be $4.50 per thousand of contract price up to $2,500,000 and $3.35 per thousand of the portion of the contract price in excess of $2,500,000; the premium in no case to ex-

ceed 3.3 percent of the penal sum of the bond. The minimum premium will be $10.00 per bond.

(b) *Lump sum supply contracts.* Payment bonds will not be required in connection with lump sum supply contracts except where, in the opinion of the chief of the supply service concerned, the requirement of such a bond would facilitate the prosecution of the war. The penal sum of the bond will be the lowest sum which in the exercise of sound judgment is deemed reasonably adequate for the protection of the United States as the representative of the suppliers of labor and materials. The maximum rates of premium on payment bonds executed in connection with lump sum supply contracts are as follows:

(1) On lump sum supply contracts of $1,000,000 or less where the penalty of the bond does not exceed 50% of the contract price: $2.25 per thousand on 50 percent of the contract price;

(2) On lump supply contracts of $1,000,000 or less where the penalty of the bond exceeds 50 percent of the contract price: $2.25 per thousand of the penal sum of the bond;

(3) On lump sum supply contracts in excess of $1,000,000 but not in excess of $6,250,000 where the penalty of the bond does not exceed 40 percent of the contract price: $2.25 per thousand on 40 percent of the contract price;

(4) On lump sum supply contracts in excess of $1,000,000 but not in excess of $6,250,000 where the penalty of the bond exceeds 40 percent of the contract price: $2.25 per $1,000 of the penal sum of the bond;

(5) On lump sum supply contracts in excess of $6,250,000: $2.25 per thousand of the penal sum of the bond and in no event less than $5,625.

If both performance and payment bonds are required in connection with a supply contract, the rates set forth in §§ 804.406–2 (b) and 804.406–3 (6) represent the maximum rates of premium for each separate bond.

§ 804.406–4 *Advance payment bonds.* The extent to which advance payment bonds will be required in connection with lump sum construction and supply contracts is discretionary with the chief of the supply service concerned, but such bonds will be required only in the most exceptional circumstances. The penal sum of the bond will be the lowest sum which in the exercise of sound judgment is deemed reasonably adequate for the protection of the United States. The maximum rates of premium are as follows:

(a) On the first $2,500,000 advanced—$6.00 per thousand;

(b) On any sum advanced in excess of $2,500,000 and up to $5,000,000—$5.75 per thousand;

(c) On any sum advanced in excess of $5,000,000 and up to $7,500,000—$5.50 per thousand;

(d) On any sum advanced in excess of $7,500,000—$5.00 per thousand.

The above rates are computed on all moneys advanced, and are for bonds guaranteeing performance of contractual provisions covering advance payments only; they are not for guaranteeing the performance of any other contracts.

§ 804.406–5 *Patent infringement bonds.* (a) A patent infringement bond will not be required with respect to any contract in connection with which a performance bond has been executed.

(b) Even if a performance bond has not been executed the requirement of a patent infringement bond will be the exception rather than the rule. Where, however, a lump sum supply contract or construction contract contains a patent clause of the type set forth in § 803.335 and the financial responsibility of the contractor is unknown or doubtful, a patent infringement bond may, in the discretion of the chief of the supply service concerned, be required.

(3) On such bonds as are required, the penal sum will be the lowest which, in the exercise of sound judgment, is deemed adequate for the protection of the interests of the United States. The maximum rate of premium is $10 per thousand per annum on the penal sum of the bond. The maximum premium for the term of the bond is five annual premiums of $10 per thousand each. If the term premium is paid in advance, a discount of 20 percent is applicable.

§ 804.406–6 *Annual bid bonds.* The annual bid bond is not in general use for lump sum construction and supply contracts.

§ 804.406–7 *Annual performance bonds.* The annual performance bond is not in general use for lump sum construction and supply contracts.

§ 804.407 *Contract bond requirements for cost-plus-a-fixed-fee contracts.*

§ 804.407–1 *Bonds not required.* Bid, performance, payment advance payment, patent infringement, annual bid and annual performance bonds will not be required for cost-plus-a-fixed-fee supply contracts, construction contracts, or contracts for the operation of Government-owned plants.

§ 804.407–2 *Fidelity bonds.* Fidelity bonds will be approved in connection with cost-plus-a-fixed-fee supply contracts, construction contracts or contracts for the operation of Government-owned plants only in those cases where in the opinion of the chief of the supply service concerned it is desirable to obtain the investigating and claims facilities of a surety company and such bonds are considered to be reasonably necessary for the protection of the contractor or the Government. A Primary Commercial Blanket form of bond with a rider providing for retroactive reinstatement for prior losses in the penal sum of $10,000 will be considered sufficient. The following additional clauses will be required:

(a) A rider excluding any claim on the part of the surety company to be subrogated on the payment of loss or otherwise, to any claim against the United States;

(b) A rider providing for pro rata refund of premium in the event of cancellation by the insured;

(c) A rider providing for a notice to the chief of the supply service concerned in the event of any change in or cancellation of the bond;

(d) A rider providing for investigation of all claims;

(e) A rider providing for investigation of all Class "A" employees.

There are a variety of discounts which may be applied to blanket fidelity insurance under certain circumstances. A 30% class discount may be applicable to the class A employee premium charge, depending on the nature of the assured's contracts on hand when the bond is written or renewed. A 10% general discount may be applicable to the combined class A and class B employee premium charge for a Primary Commercial Blanket Bond, depending on the number of employees involved and the amount of the bond. An experience discount ranging as high as 25% may be applicable to the final premium, depending on the size of the premium and the amount of claims or losses incurred. Therefore, when blanket fidelity insurance is purchased, carriers should be cautioned to apply all appropriate discounts.

When, pursuant to § 804.409–3 hereof, a duplicate of the fidelity bond or policy is forwarded to the Contract Insurance Branch, it will be accompanied by (1) a statement showing what percentage of the name assured's total volume of contracts for all departments and agencies of the Government is cost-plus-a-fixed-fee, (2) a classification of the employees showing the number placed in A, B, and C classes, and (3) if available a complete computation of the premium charge or proposed premium charge. Upon receipt of this data the Contract Insurance Branch will advise the service concerned if the premium has not been correctly computed.

§ 804.407–3 *Forgery bonds.* This type of bond will be approved in connection with cost-plus-a-fixed-fee supply contracts, construction contracts or contracts for the operation of Government-owned plants only in those cases where, in the opinion of the chief of the technical service concerned, the operation of the contract requires the employment of a large number of new employees who may be inexperienced in the proper method of handling accounting matters and where the contractor concerned transacts the greater part of his business by checks. If, in such a case, it is determined that a forgery bond or policy is desirable to obtain the investigating and claims facilities of a surety company and is considered reasonably necessary for the protection of the Government or the contractor, a forgery bond or policy with a retroactive reinstatement rider may be approved in the penal sum of $10,000. This sum is considered sufficient. The clauses referred to in paragraph (a) to (d), inclusive, of § 804.407–2 will be required.

§ 804.407–4 *License and permit bonds.* These types of bonds will be approved only in those cases where in the opinion of the chief of the technical service concerned such bonds provide a necessary protection to the Government or to the

contractor against liability to third parties or where failure to provide such bonds would constitute a violation of an applicable ordinance or statute of a municipality or other public authority.

§ 804.407–5 *Endorsement excluding subrogation to claims against the United States.* In every case where a contract requires the United States to pay the premium, either directly or by way of reimbursement, on a bond, the bond will contain an endorsement or other recital excluding by appropriate language any claim on the part of the surety to be subrogated, on payment of a loss or otherwise to any claim against the United States.

§ 804.408 *General policy as to rates.* The rates referred to in §§ 804.406 to 804.406–5, inclusive:

(a) Are maximum rates. Where a surety charges less than the rates shown in said section, care should be observed that the savings resulting therefrom are reflected in the contract price.

(b) Apply to both prime contracts with the War Department and subcontracts thereunder.

(c) Apply to all bonds which were executed on or after August 28, 1942 in connection with contracts of the types referred to in § 804.406.

(d) Apply to the increased amount of any contract, the amount of which is increased on or after August 28, 1942.

(e) Are based on a stipulated completion time not exceeding twelve months on Class "A" and Class "B" construction contracts.

§ 804.408–1 *Bond premium computation on terminated contracts.* (a) Premium on the bonds described in §§ 804.406–2 and 806.406–3 (except in certain instances mentioned in such sections where the rate is applied to the penalty of the bond or bonds) is determined by multiplying the appropriate rate of premium by the final contract price, that is, the total remuneration received by the contractor after final settlement. The rule followed by the surety industry generally is as follows:

> The "contract price" on which premium is computed means the whole sum of money or other reimbursement which has passed from the owner to the contractor when final settlement between the two has been made, excluding any bonus for "time". If this sum is different from the original estimate, premium must be adjusted accordingly, either by a refund of part of the original premium by the surety if the original estimate was larger than the actual contract price, or by payment of additional premium by the contractor if the original estimate was smaller than the actual contract price. (Towner Rating Bureau bond manual—page 47.)

Accordingly, when a contract is terminated short of original estimate, the decrease in contract price requires that an adjustment in bond premium be taken into account when final settlement is made. Such adjustment (or return premium) on a contract decrease is ascertained by subtracting from the original premium the amount of premium developed in multiplying the appropriate rate by the terminated contract price. By "appropriate" rate is meant the rate that would have been used for a contract in the amount of the terminated contract price at the time the original contract was awarded. Care should be observed in connection with construction contracts in excess of $2,500,000 in amount for the reason that prior to August 28, 1942, such contracts were accorded special rates of a graduated nature, depending on the size of the contract and the performance time involved. Subsequent to August 28, 1942, special rates have been promulgated for construction contracts where performance time required more than twelve months.

(b) Premium on bonds required in support of War Department contracts other than those described in §§ 804.406–2 and 804.406–3 is determined by various methods, depending on the nature of the bond or contract involved. As a general rule, adjustment of bond premium is in order where a contract is terminated short of completion. Especially is this true where the bond premium is included in the contract price as an item of cost.

(c) Premium on fidelity and forgery bonds furnished in connection with cost-plus-a-fixed-fee contracts is paid for a certain period of time, which is generally one year. There is attached to each such bond a rider providing for pro rata refund of premium on a calendar day basis when the bond is canceled upon contract termination.

§ 804.409 *Filing and examination of bonds and consents of surety.*

§ 804.409–1 *Bonds executed in duplicate.* All bonds of the types described in §§ 804.405–1 to 804.405–14, will be executed in duplicate.

§ 804.409–2 *Forwarding of bonds and consents of surety to Judge Advocate General.* (a) The original of all surety bonds required by the various elements of the War Department (except as hereinafter provided in paragraph (c) will be forwarded to The Judge Advocate General. If such bond was required in support of a contract or modification thereof, the original signed number of the bond should be attached to the original signed number of the contract or modification thereof, as the case may be, and forwarded to The Judge Advocate General. In the event it is not practicable to forward the original number of the contract or modification, a duplicate signed number or an authenticated copy thereof should be attached to the original bond and forwarded to The Judge Advocate General. The Judge Advocate General will examine bonds as to legal sufficiency and as to form and execution. In the case of corporate sureties he will examine them to ascertain whether the corporate officials who purported to execute the bonds on behalf of the corporate sureties had authority to do so; and in the case of individual sureties he will examine them to ascertain whether the affidavit of justification and the certificate of sufficiency of the surety or sureties are in accordance with regulations. The Judge Advocate General will then forward the bond, together with any contract or modification thereof which it supports, to the proper office for filing. In this connection, it is important that the forwarding office indicate clearly the Army Audit Branch of the General Accounting Office to which the contract or modification and the bond should be sent (see §§ 803.317b–1 and 803.317b–2). The duplicate bond will be retained and filed in the office to which it pertains or which authorized its acceptance.

(b) Consents of surety will be handled in the same manner as bonds, except that for more expeditious handling they may be forwarded in blank to the Office of The Judge Advocate General which will have them executed in Washington under the Expediter Plan and then approve them.

(c) The following bonds will not be forwarded to The Judge Advocate General:

(1) Bid bonds (except annual bid bonds). The original and duplicate numbers will be retained in the office to which they pertain or which authorized their acceptance.

(2) Blanket fidelity and forgery bonds. Refer to § 804.409–3 for filing of duplicates.

(3) All bonds required by Army Regulations to be filed elsewhere than at the War Department. The orginal and duplicate will be retained in the office to which they pertain or which authorized their acceptance.

§ 804.410 *Bonds executed by receivers, trustees, administrators, guardians, or executors as principal obligors.* (a) Receivers, trustees, administrators, guardians or executors are officers of the court which appointed them. Their powers are limited to those specified in the court order appointing them. Accordingly, when a bond is executed by such an officer of a court, a duly authenticated copy of the court order showing his authority to execute the bond should be obtained.

(b) All bonds executed by such a court officer should commence substantially as follows:

> I (we) John Doe (and _____) as executor(s) (administrator(s)) of the estate of _____, deceased (trustee(s) of _____) (receiver(s) of _____) (guardian(s) of _____).

(c) The execution should be prepared and signed by such court officer in the blank space provided for the signature of the individual obligors and should be in substantially the following form:

> John Doe (and _____) as executor(s) (administrator(s)) of the estate of _____, deceased (trustee(s) of _____) (receiver(s) of _____) (guardian(s) of _____).

(d) In the case of a bond executed by the receiver of a corporation, the corporate seal should not be affixed inasmuch as the bond is not the bond of the corporation itself, but a bond executed by the receiver on behalf of the estate of which he is receiver.

(e) Bonds executed by a receiver or trustee which may extend beyond the term of his appointment, and all bonds executed by administrators, guardians or executors will not in general be acceptable, unless the court has entered a specific decree authorizing the type of bond

in question, or unless in the general decree appointing the officer the court has specifically granted authority to execute the type of bond in question. In either event a duly authenticated copy of the court order should be attached to the copy of the bond.

§ 804.411 *Bonds executed by limited partnerships as principal obligors.* If the principal obligor is a limited partnership the individual names and residences of the general and limited partners will appear in the body of the bond with a recital that they are general and limited partners respectively. The limited partnership shall be named, the location of its business specified, and the bond shall be executed in the name of the limited partnership by all of the general partners with a recital that they are general partners and by such general partners as individuals.

SUBPART C—SURETIES ON BONDS

§ 804.415 *Definition of consent of surety.* A consent of surety is an instrument by which the surety or sureties on a bond or bonds supporting a contract:

(a) Consent to a supplemental agreement which modifies or amends the contract, or

(b) Consent to a change order making an authorized modification.

§ 804.416 *Requirement.* The circumstances under which consents of sureties are required are set forth in §§ 803.314 to 803.314–3.

§ 804.417 *Forms.* The form of consent to be used in cases where an advance payment provision was added by supplemental agreement subsequent to the original execution of the contract is set forth in § 804.496–8 (b).

The forms of consent to be used in all other cases are set forth in § 804.496–8 (a).

§ 804.417–1 *Filing and examination of consents of surety.* See § 804.409–2.

§ 804.418 *Procedure for accomplishing execution of consent or correction of bonds and consents.* There are two procedures for obtaining the execution of consents. Either may be used but it is suggested that the so-called "expediter plan" expedites the handling of these matters particularly where a number of co-sureties are involved. On occasion, use of the so-called "standard plan" has resulted in considerable delay in obtaining consents or correction of bonds. Accordingly, the expediter plan is recommended. The following is a description of the two procedures:

(a) *Expediter plan.* There has been established in Washington at the Office of the Association of Casualty and Surety Executives, Washington Building, an arrangement whereby either Mr. Howard M. Starling or Mr. Charles M. Walker, on his sole unwitnessed signature, will execute consents of surety and make corrections in bonds and consents in compliance with requests originating either in Washington or in the field offices. These representatives of the surety industry have been so empowered by all of the surety companies on the Treasury Department List and authenticated evidence of their authority as above described has been filed with Office of The Judge Advocate General and with the Section of Surety Bonds, Treasury Department. Whenever a supply service desires to avail itself of the expediter plan, it should transmit an unexecuted consent or the incorrect bond or consent in the manner described in § 804.410–2 (b) to the Office of The Judge Advocate General. That office will get in touch with Mr. Starling or Mr. Walker who will handle all the details for the surety companies concerned and will execute or correct the instrument. The Office of The Judge Advocate General will then handle the document in the manner set forth in § 803.314–4.

(b) *Standard plan.* If the expediter plan is not used, the request for a consent or for a correction of a bond or consent should be made directly to the surety company concerned or its representative.

§ 804.419 *Corporate sureties.*

§ 804.419–1 *Corporate surety acceptability requirements.* In order to be acceptable to the War Department, the corporate surety must have obtained from the Secretary of the Treasury authority to do business under the Act of August 13, 1894 (28 Stat. 279), as amended by the Act of March 23, 1910 (36 Stat. 241); 6 U. S. C. 8; M. L. 1939, sec. 534. A list of the corporations approved by the Secretary of the Treasury is published semi-annually by the Treasury Department as Form No. 356 (Section of Surety Bonds). This list indicates the maximum penal sum in which any corporate surety may underwrite any one obligation. Any corporation whose name is on this list is acceptable within the limits of such approval. The chiefs of the supply services are responsible for distributing copies of the list. It may be procured through The Judge Advocate General to whom a requisition for the requirements of each supply service should be sent semi-annually on or before March 15 and September 15.

§ 804.419–2 *Qualifications of agents and corporate sureties.* Corporate sureties should forward to The Judge Advocate General, Washington, D. C. for filing: powers of attorney or certified copies of resolutions of their Boards of Directors or Trustees authorizing their officers or agents to execute bonds, and certificates evidencing the revocation of authority previously granted to execute bonds.

§ 804.419–3 *Corporate co-sureties.* More than one corporate surety may be accepted as surety upon any recognizance, stipulation, bond, or undertaking in connection with either supply or construction contracts: *Provided,* That in no case will the liability of any such co-surety exceed the maximum penal sum in which the corporate surety is qualified to underwrite any one obligation. On bonds covering supply contracts where the amount of the bond is greater than the underwriting limitation of the corporate surety, the latter may reinsure with a corporation on the acceptable list of corporate sureties and having the required underwriting capacity. Reinsurance agreements are not acceptable in connection with construction contracts. As indicated by the forms of bonds (see §§ 804.496–3 (e), 804.496–5 (d) and 804.496–6 (e)), it is not necessary that corporate co-sureties obligate themselves for the full amount of the bond. Each corporate surety may, by setting forth the limit of its liability in the bond as a definite and specified sum, limit such liability. In all cases the liability shall be limited to the maximum penal sum in which the corporate surety is qualified to underwrite any one obligation. As further indicated by the aforementioned forms, the sureties must, however, bind themselves "jointly and severally" for the purpose of allowing a joint action or actions against any or all of them.

§ 804.420 *Individual sureties.*

§ 804.420–1 *Acceptability.* Individual sureties are acceptable for all types of bonds other than fidelity and forgery bonds: *Provided,* That they meet the requirements specified in §§ 804.420–3 and 804.420–5.

§ 804.420–2 *Number.* If individual sureties are used there shall be at least two responsible individuals on each bond.

§ 804.420–3 *Citizenship.* Except as prescribed in paragraph (b) individual sureties will be citizens of the United States.

(b) Sureties on bonds executed in foreign countries, the Canal Zone, Porto Rico, Hawaii, Alaska or any other possession of the United States, to secure the performance of contracts entered into those places need not be citizens of the United States. However unless they are citizens of the United States they must be domiciled in the country, territory or possession where the contract is to be performed.

§ 804.420–4 *Extent of liability.* The liability of each individual surety shall extend to the entire penal amount of the bond, except that when more than two sureties are furnished, the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, may authorize special provision with respect to the extent of liability.

§ 804.420–5 *Justification.* Individual sureties will each justify in an amount not less than the penal amount of the bond.

§ 804.420–6 *Stockholders as sureties.* In connection with any bond of which a corporation is the principal obligor, a stockholder of that corporation is acceptable as a surety on the bond: *Provided,* That his net worth exclusive of his stock holdings in the corporation is equal to the amount for which he justified: *And provided further,* That such fact is expressly stated in his affidavit of justification.

§ 804.421 *Partnerships as sureties.* A partnership or other unincorporated association, as such, will not be accepted as a surety. The individual members of the partnership or association may, of course, if they meet the requirements of §§ 804.420–3 and 804.420–5 qualify as sureties. Individual members of a partnership or association will not, however, be acceptable as sureties on bonds under which the partnership or association, or

any co-partner or member thereof, is the principal obligor.

§ 804.422 *Substitution or replacement of a surety.* In case of financial embarrassment, failure or other disqualifying cause on the part of a surety under a bond the chief of the supply service concerned will require the substitution of a new surety satisfactory to him.

§ 804.423 *Options in lieu of sureties on bonds.* Under the conditions set forth in §§ 804.423–1 and 804.423–2, United States bonds or notes, certified checks, money orders or currency may be deposited in lieu of furnishing sureties on bonds.

§ 804.423–1 *United States bonds or notes.* (a) Under the provisions of the act of February 24, 1919, as amended, any person required to furnish a bond executed by him as principal obligor has the option, in lieu of furnishing sureties on his bonds, of depositing United States Liberty bonds or other bonds or notes of the United States except as provided in paragraph (b) (3) below at a sum equal at their par value to the penal amount of the bond (Act of February 24, 1919, ch. 18, sec. 1320, as amended; 6 U.S.C. 15; M.L. 1939, sec. 540).

(b) Procedure: The procedure for carrying out the authority conferred by the above mentioned act, is contained in Treasury Department Circular No. 154, issued under date of February 6, 1935. In general, the procedure is as follows:

(1) The contracting officer is the "bond approving officer" who will turn over the securities deposited with him to the local disbursing officer for safekeeping. The disbursing officer will receipt for the securities in duplicate on Form D, Treasury Department Circular No. 154.

(2) Instead of retaining the securities turned over to him, the disbursing officer may deposit them with the Treasury of the United States, a Federal Reserve Bank, a branch of the Federal Reserve Bank, having the requisite facilities, or other depository duly designated for that purpose by the Secretary of the Treasury. The procedure is set forth in more detail in Treasury Department Circular No. 154.

(3) United States Savings bonds may only be pledged in lieu of furnishing sureties, when the bond approving officer is the Secretary of the Treasury. The acceptance by a War Department contracting officer of United States savings bonds is thus precluded.

(4) Treasury Certificates of Indebtedness are not acceptable in lieu of furnishing sureties.

§ 804.423–2 *Certified checks, money orders or currency.* Any person required to furnish a bond executed by him as principal obligor has the option in lieu of furnishing sureties on his bond, of depositing a certified check, a Post Office money order or currency provided that the penal sum of the bond is not in excess of $50,000. The following procedure will be followed:

(a) Certified checks or Post Office money orders will be drawn to the order of the Treasurer of the United States.

(b) Certified checks, Post Office money orders and currency accepted by the contracting officer in lieu of sureties on a bond will be promptly turned over to the local disbursing officer and deposited by him in a special deposit account. A certificate as to this action will be executed by the disbursing officer and attached to the original bond.

(c) The amount of the security deposited will be refunded to the contractor when the obligation of the bond has by its terms ceased.

SUBPART D—INSURANCE

General

§ 804.431 *General policy.* Insurance coverages will be authorized or required only in those instances where public policy or interest makes it desirable to use the organization, facilities or other services of the insurance industry, or where a commingling of property and operations or circumstances of ownership make the carrying of insurance reasonably necessary for the protection of the several interests concerned.

§ 804.432 *Exclusion of subrogation.* In every instance where a contract requires the United States to pay the premium either directly or by way of reimbursement on an insurance policy, the policy will contain an endorsement or other recital excluding by appropriate language any claim on the part of the insurer to be subrogated, on payment of a loss or otherwise, to any claim against the United States. For contract language see § 803.365–3.

Insurance in Connection with Cost-Plus-a-Fixed-Fee Contracts

§ 804.434 *Insurance on Government-owned property.* (a) No insurance covering loss or destruction of or damage to property, legal title to which is in the United States and which is to be used in connection with a cost-plus-a-fixed-fee contract, will be required or authorized without the prior approval of the Contract Insurance Branch, Special Financial Services Division, Headquarters, Army Service Forces. To implement this policy of self-insurance on government-owned property, there shall be included in the contract, the clause set forth in § 803.365–1. The policy of self-insurance rests to a large degree upon savings to the Government obtained by eliminating the cost of insurance which otherwise would be added to the contract price.

(b) Where it is considered advisable to impose specific standards of care such as an obligation to keep the facilities in good operating condition and repair and to make all necessary repairs and replacements, a clause to this effect may be included in the contract.

§ 804.434–1 *Procedure to be followed in the event of loss or destruction of or damage to property of the Government in the possession or control of contractors (or subcontractors).* (a) In the event of loss or destruction of or damage to property of the Government in the possession or control of contractors (or subcontractors), it is of the utmost importance that immediate action be taken so that the property will be conserved and production will suffer the least interruption. Contractors are generally not in a position to handle losses with maximum efficiency and War Department personnel may not be available or equipped to give all the required attention to such a problem.

(b) Accordingly upon the happening of loss or destruction of or damage to Government property, the prescribed contract article (§ 803.365–1) requires the contractor (or subcontractor) to give notice to and employ the services of a loss and salvage organization designated by the contracting officer (unless the contracting officer directs that no such organization be employed).

(c) The loss and salvage organizations referred to are the Fire Companies Adjustment Bureau, Inc., The Western Inspection and Adjustment Company, or the Underwriters Adjustment Company (hereinafter or elsewhere designated as loss and salvage organization). A list of the offices of these organizations with telephone numbers, is set forth in § 804.498. Their services will be rendered to contractors (or subcontractors) under a schedule of rates filed with the War Department and intended to cover costs without allowance for profit.

(d) Each office has been instructed to respond immediately to requests of contractors in connection with loss or destruction of or damage to Government property while at fixed locations or in course of transit, and thereafter investigate the damage or loss, prevent the accrual of further damage or deterioration, eliminate hazards to life or other property, clear debris, locate and remove property to appropriate places of storage or erect suitable shelter therefor and otherwise conserve and protect all possible salvage. In the event of catastrophic loss, the loss and salvage organizations may procure the services of others and temporarily augment their own staffs so that the loss may be handled with the utmost dispatch and efficiency. The organization so employed will report as may be appropriate to the contracting officer or to the contractor, and generally will operate under the regulations and the specific instructions of the contracting officer.

(e) The prevention of further and progressive loss to damaged property, its repair or disposal, are steps which are related and which are, in commercial practice, generally combined into one series of operations performed or directed by one organization. Where, under the prescribed contract article (§ 803.365–1) the contractor (or subcontractor) has undertaken, if and as directed by the contracting officer, to make repairs and renovations, it may be to the advantage of the Government to request the contractor to employ the loss and salvage organization to assist in repair and renovation. Similarly, under the contract clause set forth in § 803.363, assistance may be sought from the loss and salvage organization in respect to disposal of damaged Government property.

(f) In the event that the Government property is located in an area outside of the United States, where none of the above organizations has resident representatives reasonably accessible, there will be included in the contract the clause

set forth in Note 4, § 803.365–1 and in the event of loss, the contracting officer will supervise and enforce the discharge of the contractor's obligations.

§ 804.435 *Waiver of Defense Plant Corporation insurance requirements.*

§ 804.435–1 Where cost-plus-a-fixed-fee contracts are being performed in facilities owned by the Defense Plant Corporation and leased to a contractor, the contractor is required by the terms of the lease to procure and maintain at his own expense fire and supplementary coverage, and general liability and automobile liability insurance for bodily injury and property damage, on special forms. The Defense Plant Corporation is named as the insured on such policies. Inasmuch as the cost of such insurance is ultimately borne by the Government as a reimbursable item of cost, arrangements have been made with the Defense Plant Corporation pursuant to which that corporation has agreed to waive its insurance requirements in specific cases where it is requested to do so by the War Department. In such cases the War Department agrees that neither the failure to carry insurance nor any ensuing damage to or destruction of the facility will relieve the War Department of its existing obligation to the Defense Plant Corporation under take-out letters.

§ 804.435–2 In all cases where a definite saving in cost to the Government can be effected by eliminating insurance requirements of the Defense Plant Corporation, the Contract Insurance Branch will be advised promptly of the following: (a) Name of contractor; (b) number of contract; (c) type of contract; (d) location of facility involved; (e) the plancor or lease number; (f) the estimated saving, if the same can be estimated; and (g) the recommendation of the chief of the technical service. For those cost-plus-a-fixed-fee contractors insured under the War Department Insurance Rating Plan, special policy forms required by Defense Plant Corporation will be terminated and the name of Defense Plant Corporation will be endorsed onto the contractor's policies as an additional insured together with a recital of the indemnity provisions of the lease agreement. The Defense Plant Corporation will be requested by the Contract Insurance Branch, in appropriate cases, to waive its insurance requirements.

§ 804.436 *Casualty insurance.* Cost-plus-a-fixed-fee contractors, including, but not limited to, constructors, architect-engineers, architect-engineer managers, operators, and suppliers will be required to procure and maintain the insurance specified in §§ 804.436–1 to 804.436–3 which, where practicable, will cover the operation of the prime contractor, cost-plus-a-fixed-fee subcontractor, and such other contractors or subcontractors for which provision is made in § 804.460.

§ 804.436–1 *Workmen's compensation insurance.* This coverage will be required as follows:

(a) In jurisdictions where there are workmen's compensation laws, either mandatory or elective:

(1) Statutory coverage, plus

(2) In jurisdictions where the workmen's compensation law does not cover all occupational diseases, occupational disease coverage by endorsement for limits of $50,000 per person in any one case; and, subject to that limit for each person, for an aggregate limit of $100,000 for each year of the policy period;

(3) In those jurisdictions where there is a "per accident" limitation of coverage under paragraph 1 (b) of the policy, an endorsement providing a $100,000 limit for each accident; and

(4) In those jurisdictions where there is a "per person" limitation of coverage under paragraph 1 (b) of the policy, an endorsement providing a $50,000 limit for each person;

NOTE: In certain states the occupational disease aggregate limit is determined by the occupational disease premium. If such basic aggregate limit is less than $100,000 the lowest multiple thereof necessary to increase the aggregate limit to $100,000 will be used.

(b) In jurisdictions where there are no workmen's compensation laws, or where workmen's compensation insurance is carried in a State Fund, which Fund does not afford complete coverage as herein required, employers' liability insurance, including occupational diseases coverage for limits of $50,000 per person in any one claim and, subject to that limit for each person, $100,000 for two or more persons in any one accident and an aggregate limit of $100,000 for each year of the policy period for occupational disease claims.

§ 804.436–2 *General liability insurance.* This insurance will be required with limits of $50/100,000 for bodily injury liability on the comprehensive policy form. The policy will be endorsed to include coverage of aircraft and water craft operations by elimination of any exclusions of such coverage contained in the policy.

§ 804.436–3 *Automobile public liability and property damage insurance.* This insurance will be required with limits of $50/100,000 for bodily injury liability and $5,000 for property damage liability on the comprehensive policy form covering all owned, non-owned, and hired automobiles which will be used in connection with the work to be done under a cost-plus-a-fixed-fee contract and which are not used exclusively on the premises at which the work under such contract is performed.

§ 804.436–4 *Self-insurance.* Self-insurance by cost-plus-a-fixed-fee contractors, in lieu of the requirements outlined in §§ 804.436–1 to 804.436–3, will not be approved except in unusual circumstances and then only after approval is obtained from the Contract Insurance Branch. Where the contractor requests and the chief of the technical service deems it desirable, that workmen's compensation insurance be provided by self-insurance, there will be submitted to the Contract Insurance Branch the following:

(a) A duly authenticated copy of the authority to self-insure from the state or political subdivision having jurisdiction, if such authority is required by law;

(b) A detailed statement of the method or plan of self-insurance to be used and of the safety, claim and medical facilities which will be provided, including the cost thereof.

§ 804.436–5 *Insurance requirements for lump-sum subcontractors.* (a) Lump-sum subcontractors will provide the contractor and the contracting officer with a certificate of insurance evidencing the fact that workmen's compensation, public liability and automobile liability and property damage insurance are carried with an acceptable insurance carrier covering operations in connection with the project, and that termination or alteration of the coverages enumerated on the certificate of insurance will not be made without ten days' prior notice of such termination or alteration to the chief of the technical service concerned. Limits of insurance should be at least equal to those required of the prime contractor. Where authenticated evidence of authority to self-insure workmen's compensation and ability to respond in damages can be shown to the satisfaction of the chiefs of the technical services, the above requirements may be waived.

(b) For the purposes of paragraph (a) the term "subcontractor" is defined as any individual, partnership, association, corporation, estate, trust or other business enterprise or legal entity which has undertaken, pursuant to a purchase order or by agreement with the prime contractor, to perform on the prime contractor's premises all or any part of the work or to make or furnish on such premises any article (other than raw materials or standard or commercial articles) required for the performance of the prime contract. By the term "prime contractor's premises" is meant the premises, under the control of the prime contractor, at which the work under the prime contract is to be performed.

§ 804.437 *Miscellaneous insurance.* The chiefs of the technical services may consider that other forms of insurance are necessary in special instances. The circumstances under which these forms of insurance may be authorized are described in §§ 804.437–1 to 804.437–10. In general, the authorization of any of these forms of insurance will be the exception rather than the rule.

§ 804.437–1 *Payroll robbery, hold-up, and safe burglary insurance.* This form of insurance will be approved only in those cases where substantial sums of money are in the care, custody, and control of the contractor in isolated areas where normal protection, which would be available in a stabilized situation, is lacking, or where a commingling of property and operations or circumstances of ownership make the carrying of insurance reasonably necessary for the protection of the several interests concerned.

§ 804.437–2 *General liability insurance for damage to property of others.* This form of insurance will be approved only in those cases where the operations conducted are of such a nature that an accident might reasonably involve extensive destruction of property belonging to

others, and it is considered desirable to obtain the experienced claims and investigating services of a reliable insurance carrier. When such insurance is authorized there will be provided a limit of $50,000 per accident and an aggregate limit of $100,000 for each year of the policy period. It is anticipated that this form of coverage will be necessary only for contractors engaged in the manufacture or handling of high explosives and in certain cases of aircraft operations.

§ 804.437–3 *Products liability insurance.* This form of insurance may be authorized in instances where a contractor under authority of its contract operates a commissary or other similar facility for dispensing food. Such insurance, when authorized, will be by endorsement to the general liability policy and will provide a limit of $50,000 per person in any one accident; and, subject to that limit for each person, $100,000 for injuries sustained by two or more persons in any one accident; and, subject to the foregoing limits, an aggregate limit of $100,000 for all accidents during each year of the policy period.

§ 804.437–4 *Contractual liability insurance.* This form of insurance is provided in the Comprehensive general liability policy where a contractor or subcontractor has assumed liability under:

(a) A lease of premises,
(b) An easement agreement,
(c) An agreement required by municipal ordinance,
(d) A sidetrack agreement, or
(e) An elevator or escalator maintenance agreement.

The chief of the technical service concerned may approve the purchase of insurance for other assumed liability where the assumption of the liability by the contractor or subcontractor has been authorized and the chief of the technical service determines that the purchase of such insurance is necessary.

§ 804.437–5 *Boiler and machinery insurance.* (a) This form of insurance will not be authorized. It may be desirable to arrange for boiler inspection service.

(b) *Boiler inspection service.* When a cost-plus-a-fixed-fee contractor is performing his contract in a plant containing a number of boilers or other pressure vessels, it is generally desirable that such boilers or other pressure vessels receive periodic inspections. This is in the interest of continuous and safe operation. Accordingly, the chief of the technical service may authorize the use of the boiler inspection service contract by such a contractor (for form see § 804.497–27). When practicable the boiler inspection service of the insurance company carrying the workmen's compensation insurance of the contractor will be used provided that such carrier has a fully qualified and experienced boiler inspection department. Otherwise, some other qualified insurance carrier will be selected.

§ 804.437–6 *Ocean or inland marine insurance.* These forms of insurance will not be required and their purchase will be authorized only on those instances where the chief of the technical service concerned determines that the procurement of such insurance is desirable or necessary for the protection of the contractor or the Government.

§ 804.437–7 *Marine war-risk insurance.* See § 804.461 and following.

§ 804.437–8 *Fidelity bonds.* See § 804.407–2.

§ 804.437–9 *Forgery bonds.* See § 804.407–3.

§ 804.437–10 *License and permit bonds.* See § 804.407–4.

§ 804.438 *Group insurance.* Group insurance plans and such other forms of insurance as are provided voluntarily to employees in order to indemnify them in the event of disabilities, dismemberments, hospitalizations or surgical treatments and to provide payments in the event of old age or death will be governed by the provisions set forth in §§ 804.438–1 to 804.438–6.

§ 804.438–1 All programs providing insurance of the character referred to in above in this section will be subject to the written authorization of the contracting officer.

§ 804.438–2 In determining proper standards for the type of group insurance benefits to be offered, unless there is substantial reason for providing otherwise, such plans will be consistent with the general employee relations policies existent throughout the contractor's organization or in conformity with approved agreements made as a result of collective bargaining with employees' representatives.

§ 804.438–3 If in the opinion of the chief of the technical service concerned the existing plan of group insurance is, in the light of § 804.438–2, undesirable for the cost-plus-a-fixed-fee contractor, there shall be forwarded a full description of the plan desired by the contractor, together with the recommendation of the chief of the technical service to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, for appropriate decision.

§ 804.438–4 If a particular cost-plus-a-fixed-fee contractor, because his organization is of recent origin or for any other reason, has not previously provided a plan of group insurance and now desires to take out such insurance the following information will be forwarded to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces: (a) A statement as to whether such insurance is common to the industry and to the community; (b) the purposes for which the group insurance plan is needed at the particular plant; (c) any other pertinent information; and (d) the recommendation of the chief of the technical service concerned.

§ 804.438–5 Different considerations are involved for group annuities, and for other insurance not purchased under a group insurance policy. When it is desirable in the opinion of the chief of the technical service concerned to provide such insurance, a request for prior approval will be forwarded to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, together with the following information: (a) A complete outline of the hazards involved; (b) the number of personnel involved; (c) the nature and probable duration of the coverage; (d) any other pertinent information; and (e) the recommendation of the chief of the supply service concerned.

§ 804.438–6 War Department Group Insurance Rating Plan: The War Department Group Insurance Rating Plan, which is set forth in §§ 804.440 to 804.440–18, is to be applied as provided in said paragraphs on and after March 1, 1943, in accordance with §§ 804.439 to 804.439–4.

§ 804.439 *Procedure.* The chief of each supply service concerned will require cost-plus-a-fixed-fee contractors and their subcontractors to whom this plan is applicable to:

(a) Immediately request their insuring companies to attach to the policies involved a War Department Group Insurance Rating Plan Endorsement. Copies of all such requests will be obtained, and forwarded to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces.

(b) Request the insuring companies to furnish immediately to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, all details pertinent to underwriting properly the policies involved.

§ 804.439–1 *Effective date of plan.* A careful review of the group insurance program which is involved in each case will be made by the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, and, upon completion of such review, the supply service concerned will be advised of the date on which the War Department Group Insurance Rating Plan is to be effective in each particular case.

§ 804.439–2 *Application for plan to be made immediately.* There will be certain cost-plus-a-fixed-fee contractors and subcontractors involved in this program, particularly those whose cost-plus-a-fixed-fee operations are commingled with lump sum or private operations, for whom it will be necessary to have the group insurance program carefully correlated with existing conditions; and there may be certain legal steps involved which will have to be fully explored. It is desired, therefore, that each contractor and subcontractor involved be required to make application immediately to the insuring companies for the War Department Group Insurance Rating Plan Endorsement, irrespective of the renewal dates of their policies.

§ 804.439–3 *Applicability of plan.* It is contemplated at this time that the War Department Group Insurance Rating Plan will be applied only in connection with policies covering cost-plus-a-fixed-fee contractors' employees when the work is either 100 percent cost-plus-a-fixed-fee or when the cost-plus-a-fixed-fee operations are physically separated from other operations of the contractor, either private or lump sum. There may be cases, however, where, pursuant to a review of

the commingled operations, it will be possible to apply the rating plan.

§ 804.439–4 *Review by Insurance Branch.* Prior to the final acceptance of renewals or new purchases of group insurance, all such renewal or new purchase programs, together with the pertinent data, will be referred to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, for approval.

§ 804.440 *Description of plan.*

§ 804.440–1 *General requirements.* On and after March 1, 1943, renewal of existing group insurance policies or the purchase of new group insurance policies, so far as cost is concerned, for prime cost-plus-a-fixed-fee contractors and cost-plus-a-fixed-fee subcontractors thereof, will be authorized only if the factors which the insuring company uses for that portion of such policies covering the cost-plus-a-fixed-fee contract are not greater than the maximum factors set forth in §§ 804.400–4 to 804.440–7 except that:

(a) The provisions of §§ 804.440 to 804.440–18 shall apply only to such policies under which more than 500 employees, operating under the cost-plus-a-fixed-fee contract, have been insured either on the effective date, if such policy is issued on or subsequent to March 1, 1943, or on any renewal date on or subsequent to that date irrespective of when the policy was issued.

(b) If the contractor desires to renew existing group insurance policies or to purchase new group insurance policies with or from an insuring company which uses factors greater than herein set forth, the United States shall not make, nor be liable for, reimbursement in an amount greater than would result from calculation in accordance with the provision of §§ 804.440 to 804.440–18, but no authorization shall be granted in any case if the pool reserve (§ 804.440–7 (b)) is not established and maintained exactly as specified herein.

NOTE: If the contractor does not desire to renew existing group insurance policies with an insuring company which refuses to issue a War Department Group Insurance Rating Plan Endorsement, the contractor's cost for the terminating year will be reimbursed in accordance with his contract.

§ 804.440–2 *Experience refund.* When the amount resulting from use of all factors is less than the earned premium according to the premium rates in force for the period for which calculation is made, the excess shall be returned by the insuring company to the contractor within two months of the date of calculation, except as otherwise provided in the succeeding sections.

§ 804.440–3 *Premium limitations.* Furthermore, anything contained herein to the contrary notwithstanding, the maximum charge by the insuring company to the contractor for such insurance in any period shall be determined by applying the premium rates in the policy in effect for such period.

§ 804.440–4 *Factor No. I; total losses.* Total losses shall be the amount of drafts issued during the period of calculation subject to the following modifications:

(a) An appropriate adjustment may be included for the amount of drafts issued during the succeeding period of two months on claims occurring during the period covered by the calculation (if corresponding adjustment is made at the beginning of the period) or, an insuring company which administers its business regularly on such basis may determine as its total losses for any policy period for the purposes of this section the drafts issued on claims occurring in such period or within the succeeding two months, plus an estimate of the drafts issued on unclosed claims occurring within such period.

(b) For death claims and for total and permanent disability claims approved for payment by the insuring company but for which either no payment or only partial payment has been made, an appropriate adjustment of losses may be included so as to include the face amount of claims approved for payment, with a deduction for the commuted value of any remaining installments on disability recoveries when the face amount of the claim approved for payment has previously been included in the losses charged under this plan.

(c) For waiver of premium total and permanent disability claims, losses may be appropriately adjusted to include, in lieu of actual payments at death, an amount of $850 for each $1,000 of such claims approved, and such amount shall be increased upon death by $150 and reduced upon recovery by $050 for each such $1,000 of insurance. Two years after the completion or termination of all cost-plus-a-fixed-fee contracts effective with each insuring company under this rating plan, or after the termination of the last insurance policy effective with each insuring company under this plan, whichever occurs sooner or at such earlier date as may be considered appropriate by the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, the reserves remaining on account of all such approved claims shall be subject to revaluation by an Arbitration Committee as provided in § 804.440–11.

§ 804.440–5 *Factor No. II*—(a) *Expense and risk charges.* The maximum allowable charge for taxes, conversions, and claim administration shall be 3.75 percent of the premium at the rate effective for the period of calculation, subject to the following modifications:

(1) *Taxes.* If the estimated amount incurred by the insuring company on all its policies operating under this plan for taxes on premium, surplus, or income exceeds 2 percent of the premium, such estimated amount of taxes may be charged, subject to the approval by the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, of the items to be included and the method of calculation. With such approval, the insuring company may estimate as of January 1 of each calendar year what its average tax rate will be for the policy years ending in the coming calendar year and charge that rate on all the policy years ending in that calendar year. If the actual taxes incurred on renewals in that calendar year, computed on either an average or individual contract basis, whichever basis is used by the insuring company for charging such items on its business, generally differ from the amount produced by the estimated factor the difference shall be charged or credited by the insuring company in its calculation of the estimated average tax rate for renewal in the following calendar year. Any difference remaining after the completion or termination of the last cost-plus-a-fixed-fee contract effective with each insuring company under this rating plan, or after the termination of the last insurance policy effective with each insuring company under such plan, whichever occurs sooner, shall be credited or charged, as the case may be, before the final disposition of the pool reserve as set forth in § 804.440–7 (b).

(2) *Conversions.* An insuring company may elect to have the percentage of 3.75 percent reduced to 2.25 percent for life insurance and include in lieu of the difference the actual cost charged by the insuring company to its group department, for actual conversions under all policies operating under this plan, if such charge per $1,000 of insurance converted is no larger than such insuring company charges its group department during the period for all such conversions. However, an insuring company which so elects will be considered to have experienced a conversion rate in excess of normal, if during the period that each policy comes under this rating plan the ratio of the amount of insurance converted for such policy to the total of the amount of insurance terminated for such policy is greater than the corresponding ratio for the remainder of such insuring company's corresponding business for this period, and under such circumstances charges for insurance converted will be subject to the approval of the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces. (Such elections will be made in writing to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, and will apply to all such insuring company's business under this rating plan.)

(3) *Claim expense.* If the actual amount incurred by the insuring company for claim expense on all its policies operating under this plan exceeds the amount otherwise determined by this paragraph, the actual amount of such claim expense may be charged only if the Insurance Branch, Fiscal Division, approves the calculation. With such approval, the insuring company may estimate as of January 1 of each calendar year what its average claim expense rate will be for renewals in the coming calendar year and charge that rate on all renewals in that calendar year. If the actual claim expense incurred on renewals in that calendar year, computed on either an average or individual contract basis, whichever basis is used by the insuring company for charging such items on its business, generally differs from the amount produced by the estimated factor the difference shall be charged or credited by the insuring company in its calculation of the estimated

average claim expense rate for renewals in the following calendar year. Any difference remaining after the completion or termination of the last cost-plus-a-fixed-fee contract effective with each insuring company under this rating plan, or after the termination of the last insurance policy effective with each insuring company under such plan, whichever occurs sooner, shall be credited or charged, as the case may be, before the final disposition of the pool reserve as set forth in § 804.440–7 (b).

(4) *Plans self-administered.* Where claims drafts are issued by the contractor or the contractor's agent the amount of the maximum allowable charge for all coverages other than life insurance shall be reduced by 1.25 percent of the premium.

(b) *Other expenses and risk charges.* The maximum allowable charge for expenses not included in paragraph (a) above, or in § 804.440–6, and for the insuring company's risk charges, shall be determined by Table I as follows:

TABLE I

Percentage of Earned Premium Developed by Applying Standard Rates With Extras for Industry, Sex, Race, or Any Other Cause

Annual premium:	1st Year	Renewal
$10,000 or less	16	11
$25,000	12	7
$50,000	11	6.5
$100,000	10	5.5
$250,000	9	4.5
$500,000	7	3.5
$1,000,000	6	3
Over $1,000,000	5	2.5

(1) The annual premium in Table I shall be taken as the premium for each form of coverage under each insurance policy, except dependent coverage shall not be considered as a separate coverage.

(2) If the annual premium lies between any two of the figures in the annual premium column, the percentage shall be interpolated to the nearest tenth of one percent.

(3) The figures shown in the column headed "1st year" shall not be used on premiums other than those earned in the first 12 months that an insurance policy was effective on a company, plant, or unit.

(4) For policies which are not operated on the so-called "self-accounting plan," all percentages in the above table may be increased by 1 percent of the premium.

§ 804.440–6 *Factor No. III; Commissions.* The maximum allowance for commission charges by the insuring company in connection with payments to soliciting agents or brokers will be:

(a) *Coverage in effect prior to March 1, 1943.* For insurance plans effective before March 1, 1943, not more in amount nor longer in duration than would be provided upon the basis of commission agreements applicable to such plans and consummated prior to March 1, 1943, *Provided:*

(1) That such agreements are pursuant to customary practice of the respective insuring companies.

(2) That so-called "1st year" commissions shall not be paid on premiums other than those earned in the first 12 months that the insurance was effective on a company, plant, or unit, and that such "1st year commission treatment" was decided and entered in the home office records prior to March 1, 1943.

(3) That renewal commissions shall not be paid for longer than nine years subsequent to the expiration of the first year commissions.

(b) *New coverage.* For insurance plans effective on or after March 1, 1943, not more than the percentages in the following table as applied to earned premiums without extras for industry, race, sex, or any other cause:

TABLE II

Total combined earned premium as calculated in accordance with this paragraph:	*Maximum soliciting agent's or broker's commission (percent)*
1st $10,000	7½
Next $40,000	4
Next $50,000	2
Next $400,000	1
Over $500,000	½

In determining the percentage from the above table, an insurance plan will be considered as including all coverages issued on and after the effective date of this rating plan covering the same group of employees working in operations to which a cost-plus-a-fixed-fee contract applies. If the insurance plan so defined is handled by more than one insuring company, the maximum allowance for commission charges for all coverages combined will be the same as that which would be allowed if the insurance plan were being handled by one insuring company. The maximum percentage allowance to be used by each insuring company concerned on that portion of the insurance plan which it is handling will be the percentage based on the combined premium for all the coverages included in the plan, regardless of what insuring company handles each coverage. Commissions on "extensions", "increases in coverages", and similar actions will be paid in accordance with the scale in Table II, but premiums on which first year or renewal commissions have been paid previously shall be counted in determining the proper place in the above premium column to commence the commission computation.

(c) *Commission savings.* Any savings which an insuring company may effect by reason of paying less commission on these insurance policies than are charged to these policies shall be credited to the contractors insured in accordance with this plan in the manner determined by the Insurance Branch, Fiscal Division.

(d) *Additional commissions.* Any charges above and beyond the agreements herein specified shall not be allowable as an item of reimbursable expense unless and until approved by the Insurance Branch, Fiscal Division.

§ 804.440–7 *Factor No. IV*—(a) *Policy reserves*—(1) *Open claims.* As a maximum allowance for a reserve for claims incurred but for which no payment has been made, or for a reserve for additional payments on claims on which partial payment has been made (in addition to any amounts already charged as losses under § 804.440–4), the insuring company may retain the percentage of premiums in Table III (see subparagraph (3) of this paragraph), calculated by using minimum rates with extras for industry, race, sex, or other cause.

(2) *Final disposition.* Two years after the completion or termination of all cost-plus-a-fixed-fee contracts effective with each insuring company under this rating plan, or after the termination of the last insurance policy effective with each insuring company under this plan, whichever occurs sooner, or at such earlier date as may be considered appropriate by the Insurance Branch, Fiscal Division, the difference between the total amount charged under this rating plan by each insuring company for such reserves over the sum of (i) the amounts actually paid as the result of claims under this rating plan for which such reserves were held, and (ii) the amounts required for subsequent payments (such latter amounts to be calculated by the insuring company and submitted for the approval of the Insurance Branch, Fiscal Division), shall be returned to the contractors or their successors or nominees (policies on which the insuring company has paid out an amount equal to or greater than the amount charged for policy reserves shall be excluded in making this calculation) according to the ratio that the difference between the amount of policy reserves charged on each such policy and the amount of policy reserves paid or required for subsequent payments on each such policy bears to the total of such differences, or shall be deducted by the insuring company from any settlement otherwise available from the pool reserve set forth in paragraph (b) of this section, as the case may be, but such charge shall be made to the pool reserve only if satisfactory proof is furnished the Insurance Branch, Fiscal Division, that the policy reserves, in the aggregate, set up by the insuring company at the time this rating plan became effective, were sufficient to pay all losses on claims occurring prior to the date this plan became effective with respect to such policies.

TABLE III

Forms of insurance	*Percentages of earned premium as defined in subparagraph (1) above*
Life insurance:	
(a) With permanent total disability benefit	30
(b) With premium waiver provision	15
(c) With extended death benefit	10
Indemnity for accidents or sickness	10
Indemnity for hospital confinement	[1] 10
Indemnity for surgical operations	[1] 10
Accidental death and dismemberment insurance	10

[1] For policies including maternity or obstetrical benefits for dependents of employees, an additional reserve of 25 percent of the premium for the dependent coverage (including the premium for the maternity coverage) may be held.

(3) Subject to the limitations of this plan, the policy reserves maintained shall be in strict accordance with the general practice of the insuring company.

(b) *Pool reserve*—(1) *Final disposition.* Each insuring company shall create and

maintain a pool reserve which shall be available for the payment of losses (as outlined in subparagraph (2) of this paragraph) under that portion of all of its policies to which a War Department Group Insurance Rating Plan Endorsement applies. Two years after the completion or termination of all cost-plus-a-fixed-fee contracts effective with each insuring company under this rating plan, or after the termination of the last insurance policy effective with each insuring company under this plan, whichever occurs sooner, or at such earlier date as may be considered appropriate by the Insurance Branch, Fiscal Division, any portion of this reserve which has not been used for any of the purposes authorized by this rating plan shall be returned to the contractors or their successors or nominees. Such return shall be allocated to the various policies in proportion to the difference between each policy's contribution to the total pool reserve and the amounts withdrawn from such reserve to pay claims under such policy, but policies on which the insuring company has paid out an amount equal to or greater than the amount charged for the pool reserve shall be excluded in making this calculation.

(2) *Use.* If the total losses under any contractor's policy for any policy year plus one-half the maximum increase in the policy reserve permitted for the period by reason of increase in premium, or minus the decrease in policy reserve by reason of decrease in premium, to the extent that the result is not less than the premium, as the case may be, shall exceed 100 percent of the earned premium for such year calculated on the basis of minimum rates with any extras for industry, race, sex, or other cause, the insuring company shall be entitled to reimbursement for all such amounts in excess of such premium and this amount shall be added to the contribution required of this policy to the pool reserve.

(3) *Establishment and maintenance.* To establish and maintain this pool reserve, the insuring company shall, in calculating any experience refund for any year, be entitled to deduct the amount, if any, by which the larger of (i) 20 percent of the premium for the year for which such experience refund is applicable, such premium to be calculated on the basis set forth in the preceding paragraph, or (ii) the extra premium for industry accumulated from the renewal date prior to March 1, 1943, to the date of calculation, exceeds any amount actually remaining in the pool reserve from previous contributions to such reserve by this contract. The amount of such deduction for any year shall in no event exceed the amount, if any, remaining after completing the operations set out in § 804.440–8 (a) to (h), inclusive.

§ 804.440–8 *Experience rating account.* The insuring company shall maintain an experience rating account for the insurance under each policy to which this rating applies. As of each renewal date and within 60 days, this account shall be adjusted in the order indicated:

(a) Credit the actual premium.

(b) Charge losses as described in § 804.440–4.

(c) Charge one-half the maximum increase in the policy reserve permitted for the period by reason of increase in premium in accordance with § 804.440–7 (a) (3).

(d) Credit the decrease in policy reserve by reason of decrease in premiums to the extent that (b) exceeds (a).

(e) Credit from the pool reserve:

(1) In the event of an increase in policy reserve (b) plus (c) minus (a).

(2) In the event of a decrease in policy reserve (b) minus (d) minus (a).

(f) Charge expenses not greater than the maximum allowable under §§ 804.440–5 and 804.440–6.

(g) Charge deficit carried over (if any) from previous period. (In first calculation under this plan (g) shall be taken as zero. For subsequent calculations, it shall be taken as (k)).

(h) Charge an amount, if available, which if added to (c) shall not be greater than sufficient to attain one-half the maximum policy reserve for the period as set forth in § 804.440–7 (a).

(i) Charge an amount, if available, not greater than sufficient to establish and maintain the appropriate maximum amount in the pool reserve as of the end of the period in accordance with § 804.440–7 (b).

(j) Charge an amount, if available, not greater than sufficient to attain the maximum policy reserve for the period as set forth in § 804.440–7 (a).

(k) Deduct total charges from total credits. If result is positive, treat as experience refund; if result is negative, treat as deficit.

It is recommended that each insuring company maintain in connection with each policy an experience rating account, a policy reserve account, and a pool reserve account, showing the maximum allowable reserves under each account, the actual reserves set up, and all debit and credit transactions affecting these accounts.

§ 804.440–9 *Distribution of experience refund.* When an experience refund or reserve refund is made by the insuring company the contractor shall proceed in the following manner unless approval for a different procedure is given by the Insurance Branch, Fiscal Division:

(a) Any such refund shall be credited to the contractor's charge to the War Department, except that the contractor may, with the consent of the Insurance Branch, Fiscal Division, continue any practice he may have had prior to March 1, 1943, as to the application of all or any part of such refund. In any event, if the refund exceeds the contractor's contribution to the cost of the plan, the excess shall be applied for the sole benefit of the employees.

(b) In the event that unforeseen circumstances prevent such division of any refund, any or all of such monies so affected shall be payable to the United States.

§ 804.440–10 *Minimum contribution by employees.* If any contractor has a group insurance policy under which the employees' contributions are at a rate lower than specified in this section, the United States shall not make or be liable for reimbursement in an amount greater than the maximum reimbursement that could result under such plan of group insurance if the employees' contributions were at the rates herein set forth. If the group insurance was in force on March 1, 1943, the minimum rate of contributions for the purpose of this paragraph shall be the scale of contributions applicable at that time, and if the group insurance was not in force on March 1, 1943, the minimum contributions shall be the equivalent of 60¢ per month per $1,000 of group life insurance and 60¢ per month per $10 of weekly indemnity for accidents and sickness, unless a lower scale of contributions is approved by the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces.

§ 804.440–11 *Establishment of arbitration committee.* For revaluation of the reserves described in § 804.440–4 (c), and for decision relative to other reserves not returned within the time limits specified, an arbitration committee shall be selected consisting of three members, one selected by the insuring company, one by the contractor and the third by these two members, and the majority decision of this committee shall be final if approved by the Contract Insurance Branch.

§ 804.440–12 *Forwarding of data.* As soon as the insuring company has furnished to the contractor the renewal data required herein, it shall be forwarded to the Contract Insurance Branch for examination.

§ 804.440–13 *Limitation of reimbursement.* There shall be no reimbursement, or liability for reimbursement, in excess of that developed by applying generally recognized extras for sex, industry, or race (except extra higher rates in effect prior to March 1, 1943), unless such reimbursement has had approval of the Contract Insurance Branch prior to the effective date of any rates greater than above specified.

§ 804.440–14 *Termination of contract by the Government.* In the event the cost-plus-a-fixed-fee contract is terminated by the Government, all liabilities and assets of the contractor existing by reason of the operation of any group insurance policies during the period a cost-plus-a-fixed-fee contract was in force, shall become liabilities and assets of the Government.

§ 804.440–15 *Endorsement of policies.* All policies shall bear suitable identifying endorsement, in a form acceptable to the Contract Insurance Branch, as evidence that the War Department Group Insurance Rating Plan is applicable.

§ 804.440–16 *Effective date.* The effective date of this rating plan, as to any policy or portion thereof to which it is applicable, shall be determined by the Contract Insurance Branch, but shall not be earlier than March 1, 1943.

§ 804.440–17 If in the opinion of the Contract Insurance Branch, Special Financial Services Division, there are circumstances which would make the application of this plan inappropriate, it shall not become operative, anything contained herein to the contrary notwithstanding.

§ 804.440–18 Nothing contained herein shall be construed as regulating the charges which an insurance company can make under any policy or policies.

§ 804.441 *Benefits in event of capture or detention of employees.* Standards for the amount of benefits and the methods of providing payment to employees in the event of their capture or detention are set forth in Public Law 784, 77th Congress. This law sets forth the policy of Congress and provides that upon claims being filed as specified therein, payment or reimbursement will be negotiated through the United States Employees Compensation Commission. Where, in the opinion of the chief of the technical service concerned, it is necessary that the amount of benefits be increased over that prescribed in the statute above referred to, prior approval of the Contract Insurance Branch, Special Financial Services Division, Headquarters, Army Service Forces will be obtained. The following information will be forwarded to that Branch: (a) Reasons why such increase is necessary; (b) statement as to whether qualified employees can be obtained without providing increased benefits; (c) number of employees involved; (d) location of operations; (e) any special hazards; (f) any other pertinent information; (g) the recommendation of the chief of the technical service concerned.

§ 804.442 *Insurance in connection with cost-plus-a-fixed-fee contracts outside of the continental United States.* The foregoing §§ 804.434 to 804.441, inclusive, may not be applicable to cost-plus-a-fixed-fee contracts for work to be performed outside the continental United States. Such contracts involve questions of the applicable laws and local conditions which will be encountered in the country where the work is to be performed, as well as questions of the medical and hospital facilities for the treatment and care of employees of the contractor. Insurance companies generally are not equipped or licensed to underwrite insurance in foreign countries. In order to establish the required coordination in connection with such contracts, the chief of the technical service concerned will advise the Contract Insurance Branch, Special Financial Services Division, Headquarters, Army Service Forces, of all such contemplated work as far in advance as possible. Arrangements will then be made to have a representative of that Branch present, if practicable, during the negotiations with respect to the contract provisions pertaining to insurance liability, medical and hospital matters. The Contract Insurance Branch, will be responsible for the establishment and proper functioning of insurance facilities on such projects, and direct communication is authorized for this purpose.

Insurance in Connection With Lump Sum Contracts

§ 804.450 *General.* No insurance requirements, other than statutory requirements, will be imposed on the contractor unless in the opinion of the chief of the technical service concerned the imposition of certain insurance requirements will serve to safeguard the contractor's ability to perform the contract. If performance and payment bonds support the contract, the requirement of any insurance should be unnecessary.

§ 804.451 *Insurance on Government-owned property.* (a) The same general policy exists with respect to Government-owned property in the possession, care, custody or control of lump sum or unit price contractors as exists with respect to such property in the possession, care, custody or control of cost-plus-a-fixed-fee contractors (see § 804.434.) To implement this policy—under which the Government is in effect a self-insurer on its own property—there shall be inserted in lump sum or unit price contracts for the performance of which Government-owned property is furnished to contractors, the article set forth in § 803.365–1a, or, in case where Government-owned production machinery or other facilities are so furnished, the liability provisions of § 803.332.

(b) The contract articles referred to are intended to put the contractor in the same position he would occupy if he obtained commercial insurance policies providing broad coverage against the "expected perils" set forth in the contract article. In view of the protection thus afforded to the contractor by the Government in lieu of commercial insurance, the contractor has no liability for loss or destruction of or damage to Government-owned property caused by any "excepted peril" against which he may obtain commercial insurance, and the contractor is in fact required by the contract article to make the express representation (among others) that he is not maintaining and will not maintain insurance (including self-insurance funds or reserves) covering such liability.

(c) The policy described above rests to a large degree upon the savings to the Government obtained by the elimination of charges for commercial insurance, which savings are, of course, intended to be reflected in the contract price. When, by reason of special circumstances, it is not practicable to obtain such savings (for example, when Government interests are so far commingled with other interests as to be practically incapable of segregation) or the savings are trivial in amount, the chief of the technical service concerned may, in his discretion, determine that the general policy will not be applied. Typical cases where this determination has been made in the past are: service contracts such as laundry contracts; shoe, tent or tire repair contracts; machinery maintenance or repair contracts; fixed rate storage contracts. In such cases neither the contract article set forth in § 803.365–1a nor the liability provision of § 803.332 will be used. In lieu thereof the following will be used:

(1) Instead of the article set forth in § 803.365–1a, a clause may be used stating in substance that except for reasonable wear and tear or depreciation or the utilization of the Government-owned property in connection with the contract, the contractor shall be liable for any loss or destruction of or damage to such property.

(2) Instead of the liability provision appearing in § 803.332, a clause may be used stating in substance that except for reasonable wear and tear or depreciation, the Government-owned facilities shall be returned to the Government or delivered to the Government's designee, at the time elsewhere in the article provided, in as good condition as when received.

(d) The same general policy as exists with regard to lump-sum supply contracts applies to fixed-price contracts for services accessorial to or forming a part of a transportation movement, including contracts for freight handling, car loading and unloading, packing and crating, stevedoring, lighterage, trucking, heavy lift service, lumber handling and other contracts for terminal services not procured by means of a bill of lading. For forms of contract articles covering liability for Government-owned property, see § 803.365–1b.

§ 804.451–1 *Procedure to be followed in the event of loss or destruction of or damage to property of the Government in the possession or control of contractors (or subcontractors).* (a) Except when insurance is permitted, upon the happening of loss or destruction of or damage to property in the possession or control of contractors (or subcontractors) caused by an "excepted peril" (see §§ 803.365–1a and 803.332) the procedure to be followed is the same as that described in § 804.434–1.

(b) In connection with the disposal of damaged Government property, attention is invited to paragraph (d) of the article set forth in § 803.365–1a and paragraph (F) (4) of article set forth in § 803.332, which are comparable with § 803.363.

§ 804.452 *Waiver of Defense Plant Corporation insurance requirements.* Inasmuch as the insurance costs are included in the contract price, the provisions of §§ 804.435 to 804.435–2 are also applicable to lump sum contracts.

§ 804.453 *Lump sum contracts excluding cost of insurance.* In certain cases contracts are awarded on a basis of a contract price exclusive of the cost of the forms of insurance specified in §§ 804.436 to 804.436–3. Such contracts contain a provision pursuant to which the Government agrees to reimburse the contractor on an actual cost basis for the cost of such insurance. In such cases, the provisions of §§ 804.434 to 804.442, inclusive, of this subpart, are applicable to such insurance. The contractor may purchase at his own expense such additional or other insurance protection as he may deem necessary.

Architect-Engineer-Management Contracts

§ 804.460 *Architect - engineer - management contracts.* (a) In the interest

of security and in order to obtain the most suitable and efficient arrangements with respect to insurance, hospital, and medical, loss paying and safety engineering facilities, the chief of the technical service concerned will require the contractor under an architect-engineer-management contract to provide through one insurance company specified insurance for all cost-plus-a-fixed-fee contractors and subcontractors, lump sum contractors and lump sum subcontractors other than contractors and subcontractors under supply contracts and subcontracts. Such insurance will afford the contractors and subcontractors the coverage referred to in §§ 804.436–1 to 804.436–3 (for contract provisions see §§ 803.365–5 to 803.365–8).

(b) The contractors or their subcontractors may purchase at their own expense such additional or other insurance protection as they deem necessary. When insurance carriers furnishing such additional protection request access to the site of the work for personnel engaged in servicing such insurance, the chief of the supply service concerned may deny such access, or restrict it to such of those personnel as it is, in his judgment, necessary to admit for the proper servicing of the insurance.

War Risk Insurance in Connection With Vessels or Other Floating Equipment

§ 804.461 *Master policy.* A master policy issued by the War Shipping Administration to the War Department permits the War Department to insure with the War Shipping Administration war risks or liabilities which it has assumed or for which it is obligated in connection with certain persons, vessels or other floating equipment. Declarations under this policy will be made to the War Shipping Administration by the Chief of the technical service concerned or any subordinate whom he may designate. All declarations will be numbered in sequence as reports are made. For required form of report see § 804.497–3.

§ 804.461–1 *Risks covered.* The master policy covers risks or liabilities that are assumed by or that may be imposed on the War Department:

(a) As owner, operator or owner and operator of vessels or other floating equipment;

(b) Under charters or other forms of contracts for the use by the War Department of privately owned vessels or other floating equipment;

(c) Under any form of agreement for the operation of such vessels or equipment;

(d) Under any form of agreement for the carriage by water of any person or property on a commercial basis; and

(e) Under any contract for the construction of vessels or other floating equipment for the War Department.

§ 804.461–2 *Property and interests insurable.* The persons, vessels, property, or interests that may be insured under the master policy are those set forth in section 222 of Public Law 523, 77th Congress, namely:

(a) Vessels:

(1) American vessels (including vessels under construction);

(2) Vessels registered under the law of the Philippine Islands;

(3) Foreign-flag vessels owned by citizens of the United States (as said term "citizen" is used in Public Law, 173, 77th Congress, approved July 14, 1941) or owned or controlled by or made available as described in § 804.461–1 (c) but engaged in the waterborne foreign commerce of the United States or other transportation by water or other vessel services deemed by the Maritime Commission to be in the interest of the war effort or the domestic economy of the United States, while so engaged.

(b) Cargoes shipped or to be shipped on any vessels specified in paragraph (a) above, including shipments by express or registered mail.

(c) The disbursements (including advances to masters and general average disbursements) and freight and passage moneys of such vessels.

(d) The personal effects of the masters, officers and crews of such vessels, and of other persons transported on such vessels:

(1) Personal effects of licensed officers and other persons may be covered for $500; and of unlicensed crew members for $300;

(e) Master, officers and crews of such vessels and other persons employed or transported thereon against the loss of life, personal injury or detention by an enemy of the United States following capture. ((1) Crew life: Personnel of vessels and other persons may be covered for $5,000 against loss of life and for scheduled benefits against injury. (2) Wages and bonuses: Liability for wages and bonuses of personnel of vessels may be covered against loss resulting from internment or destruction or abandonment of vessels resulting from capture, seizure, etc.)

(f) Protection and indemnity: Statutory or contractual obligation or other liabilities of such vessels or of the owner or charterer of such vessels of the nature customarily covered by insurance. (If protection and indemnity is required, report should reflect value of the vessel or approximately $150 per gross ton subject to a minimum of $50,000 per vessel.)

§ 804.461–3 The master policy does not cover:

(a) Total or constructive total loss, or partial loss (particular average) of any vessels, equipment, or property owned by the War Department;

(b) Claims for damage or service of any nature asserted by any other Government Department or Agency, or barrel by decision of the Comptroller General;

(c) Liabilities of any nature toward personnel of the military forces of the United States and other United Nations;

(d) Any losses or liabilities existing or imminent at the time any vessel, property or other interest is reported to the War Shipping Administration for coverage under this policy;

(e) Losses or liabilities of any nature excluded by the provisions of War Shipping Administration policies.

Purchase of Insurance by Cost-Plus-a-Fixed-Fee Contractors

§ 804.470 *Acceptability of insurance carrier.*

§ 804.470–1 The contractor will designate its own insurance carrier on all projects except where insurance is placed on a competitive bid basis as hereafter provided in § 804.470–2. The insurance carrier selected must meet the following minimum standards of acceptability:

(a) At least 80% of the outstanding stock of the insurance carrier must be owned by citizens of either the United States or one or more of the other United Nations; and the carrier must be wholly controlled and operated by such citizens and free from any direct or indirect Axis or Pro-Axis connections or influence.

(b) The carrier must have an unobligated minimum surplus of $350,000.

(c) In the case of a contract of casualty insurance, other than Workmen's Compensation insurance, the financial condition of the insurance carrier must be such that the policy will not expose it in a single accident or occurrence to a loss (1) in the case of a fixed-premium carrier of more than 10% of its total capital stock and surplus, or (2) in the case of a dividend paying carrier of more than 10% of its net assets.

(d) In the case of workmen's compensation insurance, the insurance carrier shall have (1) in the case of fixed-premium carrier, a total capital and surplus of at least a million dollars, or (2) in the case of a dividend paying carrier, at least a million dollars of net assets.

§ 804.470–2 The chief of the technical service concerned will pass upon the acceptability of the insurance carrier whether selected by the contractor or chosen on a competitive basis. The chief of the technical service will obtain from the contractor the following information which will be used by him in conjunction with the standards set forth in § 804.470–1 in determining the acceptability of the carrier:

(a) The name of the insurance carrier;

(b) The jurisdiction in which the insurance carrier is organized;

(c) Whether the insurance carrier is qualified to write the required insurance in the jurisdiction in which the project is located;

(d) A statement executed by an authorized official of the insurance carrier that the insurance carrier meets the standards of acceptability set forth in § 804.470–1;

(e) The engineering, claims and medical facilities, if required, which will be provided at the project by the insurer;

(f) The latest financial statement of the insurance carrier;

(g) A separate letter which may be forwarded directly by the insurance carrier to the chief of the technical service concerned, setting forth the actual amount of each risk retained by the primary carrier and its reinsurance arrangements, including the names of all reinsurers and the amount of risk accepted by each. Such letter will embody a statement that the reinsurance arrangements will not be modified or cancelled until thirty days advance notice shall have been given to the Contract In-

surance Branch. Where a reinsurer is a foreign company or a foreign controlled company, the letter outlining the reinsurance arrangements will include a statement that the primary carrier will not divulge the name, nature or location of the risk and that if such disclosure is required to obtain payment of a reinsured loss, prior approval will be obtained from the Contract Insurance Branch before any information is given to the foreign reinsurer or foreign controlled reinsurer.

§ 804.471 *Methods of purchase of casualty insurance.* Casualty insurance required or authorized under any section of this part will be purchased in the manner specified in §§ 804.471–1 to 804.471–4.

§ 804.471–1 Where the premiums involved are estimated to amount to $300 or less the contractor will select the insurance carrier and procure the necessary insurance.

§ 804.471–2 Where the premiums involved are estimated to exceed $300, but not to exceed $5,000, the contractor will be required to purchase the insurance on a competitive bid basis. In order to secure a fair market price, at least four bids will be required, two of which will be from reliable fixed-premium carriers and two from reliable dividend paying carriers. If one bid is received from a fixed-premium paying association or syndicate and another from a dividend paying association or syndicate, such bids will be sufficient to comply with these requirements. The terms "associations" or "syndicates" refer to groups of insurance carriers which have joined together for participation in the risk involved on a predetermined basis which contemplates that they will be jointly and severally liable under the insurance policy. The chief of the technical service concerned will assure himself that all insurance purchased on a competitive bid basis is placed with the carrier or carriers offering the lowest net cost commensurate with sound protection and service before approving the policy or policies.

§ 804.471–3 (a) Except as provided in paragraph (b), where the premiums involved are estimated to exceed $5,000 the contractor will select its own insurance carrier and require the issuance of policies under the War Department Insurance Rating Plan described in §§ 804.473 to 804.489 below. An exception will be made to this requirement when the statutes of the jurisdiction involved expressly prohibits the use of this plan and permission cannot be obtained without modification of the statutes of the jurisdiction concerned.

(b) Where the operations of the contractor under a cost-plus-a-fixed-fee contract are commingled with its other operation, or where operations are being performed by the contractor under more than one cost-plus-a-fixed-fee contract with one or several of the technical services, the use of the War Department Insurance Rating Plan may not be appropriate. In such cases the chief of any technical service concerned will forward to the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces, his recommendations, and that Branch, after coordinating with any other technical services concerned, will advise as to the proper insurance requirements.

§ 804.471–4 Insurance coverages which cannot be written under the War Department Insurance Rating Plan will be purchased on the competitive bid basis or as set forth in § 804.436–4.

War Department Insurance Rating Plan

§ 804.473 *Plan in general.* The War Department Insurance Rating Plan is a comprehensive retrospective rating formula for the determination of premium specially adapted to fit the needs of the War Department. The Plan was approved for use by the War Department on May 3, 1941, and is available for use in connection with the required casualty insurance coverage as outlined in §§ 804.436–1 to 804.436–3. It may be extended to include the coverages outlined in §§ 804.437–2 to 804.437–4. The plan will be used where the cost of insurance provided by the contractor is reimbursable under the contract. The clauses which are required to be attached to policies written in connection with the plan are enumerated in § 804.475.

§ 804.474 *Duration of coverage.* The insurance will be continuous and concurrent until completion of the project or operation except that if the project or operation is of indefinite duration, the insurance to be written under the plan shall be for an initial period of twenty-four (24) months. In such event, if the project or operation continues for a longer period than twenty-four months, the policies of insurance will be renewed at the expiration of the first twenty-four months by attachment of endorsement in accordance with forms set forth in §§ 804.499 and 804.499–1, to workmen's compensation, comprehensive general liability and comprehensive automobile policies, respectively.

§ 804.475 *Endorsements to be attached to policy.* The insurance carrier selected will be required to attach the following endorsement forms to the policies issued by it:

(a) War Department Insurance Rating Plan endorsement (see § 804.497–4).

(b) General endorsement for general liability policy (see $804.497–5).

(c) General endorsement for automobile liability policy (see § 804.497–6).

(d) General endorsement for workmen's compensation and employers' liability policy (see § 804.497–7).

§ 804.476 *Rules and rates under War Department Insurance Rating Plan.* A Joint Committee representing the Association of Casualty and Surety Executives and the American Mutual Alliance established rules and rates set forth in §§ 804.477 to 804.482–1 for use in connection with policies written under the War Department Insurance Rating Plan. These rules and rates were approved by the War Department on May 13, 1941.

§ 804.477 *Rules and rates with respect to workmen's compensation.* The rules and rates adopted as set forth in § 804.476 prescribe that the Manual Rules and Rates set forth in the following paragraphs shall be used, in connection with the War Department Insurance Rating Plan, as the basis for determining the standard premium for workmen's compensation insurance with respect to projects located in the jurisdictions therein referred to:

(a) District of Columbia, Territories of Alaska and Hawaii and all states in which private insurance carriers may write insurance under the War Department Insurance Rating Plan, except the states enumerated in paragraphs (b) to (n): Manual Rules and Rates published by the National Council on Compensation Insurance.

(b) Arizona: Manual Rules and Rates promulgated by the Industrial Commission of Arizona.

(c) California: Manual Rules and Rates promulgated by the California Inspection Rating Bureau.

(d) Delaware: Manual Rules and Rates promulgated by the Delaware Compensation Rating and Inspection Bureau.

(e) Louisiana: Manual Rules and Rates promulgated by the Louisiana Casualty and Surety Rating Commission.

(f) Massachusetts: Manual Rules and Rates promulgated by the Massachusetts Rating and Inspection Bureau.

(g) Minnesota: Manual Rules and Rates promulgated by the Minnesota Compensation Rating Bureau.

(h) New Jersey: Manual Rules and Rates promulgated by the Compensation Rating and Inspection Bureau of New Jersey.

(i) New York: Manual Rules and Rates promulgated by the Compensation Insurance Rating Board.

(j) North Carolina: Manual Rules and Rates promulgated by the Compensation Rating and Inspection Bureau of North Carolina.

(k) Pennsylvania: Manual Rules and Rates promulgated by the Pennsylvania Compensation Rating and Inspection Bureau.

(l) Texas: Manual Rules and Rates promulgated by the Board of Insurance Commissioners of Texas.

(m) Virginia: Manual Rules and Rates promulgated by the Workmen's Compensation Rating Bureau of Virginia.

(n) Wisconsin: Manual Rules and Rates promulgated by the Wisconsin Compensation Rating and Inspection Bureau.

§ 804.478 *Employers' liability insurance (Mississippi).* It is prescribed that the Manual Rules and Rates of the National Bureau of Casualty and Surety Underwriters shall be used as a basis for determining the standard premium for employers' liability insurance.

§ 804.479 *Employers' liability and voluntary compensation insurance (Oregon and Washington).* It is prescribed that the Manual Rules and Rates of the National Bureau of Casualty and Surety Underwriters shall be used as the basis for determining the standard premium for employers' liability and voluntary compensation insurance.

§ 804.480 *Experience rating not to be employed.* In adopting the manual rules and rates of the existing rating organizations the Joint Committee specifically provided that experience rating should not be employed. Instead, in recognition of the differences in hazard, it adopted the following rule:

For the purpose of determining the amount of the "fixed charge" under the War Department Insurance Rating Plan, the standard premium for workmen's compensation and employers' liability insurance shall be discounted 10% before applying the appropriate percentage as prescribed in Table I of the Plan.

No discount which may be provided for in the manual rules and rates published by the National Council on Compensation Insurance or in any of the manual rules and rates referred to in §§ 804.477 to 804.480 to reflect any reduction in expense shall be applicable in determining the standard premium.

§ 804.480–1 *Modification of basic manual rules by interpretation.* With respect to workmen's compensation, employers'. liability and manufacturers' and contractors' liability insurance, the Joint Rating Committee has made provision whereby the basic manual rules with regard to assignment of payroll of miscellaneous employees will be modified by interpretation as follows:

(a) The payroll of miscellaneous employees shall be assigned by audit period.

(b) The payroll of miscellaneous employees whose duties during the entire audit period were incidental to and are directly assignable to a single manufacturing classification shall be assigned to the rate for that classification unless such payroll has not been so allocated on the records in which case these employees shall be assigned as cited in the following paragraph (c).

(c) The payroll of miscellaneous unassignable employees whose duties during the audit period were incidental to two or more manufacturing classifications shall be assigned to the several manufacturing classifications in the same proportion which the payroll of the several manufacturing classifications bears to the total payroll of such manufacturing classifications.

(d) In cases where a project average rate is to be used to cover all operations, the payroll of miscellaneous employees shall be included in the rate determination and the procedure described in paragraphs (b) and (c) above shall be followed on an estimated basis for the entire period covered by the policy rather than by audit period.

§ 804.481 *Automobile bodily injury and property damage liability insurance.* (a) For insurance on projects located in the District of Columbia, the Territories of Alaska and Hawaii and all states except Louisiana, Massachusetts, North Carolina and Texas, it is prescribed that the Manual Rules and Rates of the National Bureau of Casualty and Surety Underwriters shall be used as a basis for determining the standard premium for automobile bodily injury and property damage liability insurance subject to the following modifications:

(1) All commercial automobiles shall be rated as medium class 5 regardless of the class and load capacity to which such commercial car would ordinarily be assigned except in Massachusetts where light class 4 will be applicable.

(2) All automobiles classified as private passenger automobiles under the Manual Rules and Rates shall be classified as "Class C".

(3) In lieu of the rates appearing in the Manual Rules and Rates for non-ownership bodily injury and property damage liability, standard limits rates applicable to this coverage shall be as follows, such rates to apply to the total payroll on the project:

(i) $0.06 per $1,000 for payroll for bodily injury liability effective for new and renewal policies written on or after March 1, 1943, in all states except:

Kansas effective April 30, 1943.

Indiana and North Carolina effective May 5, 1943.

Washington effective May 8, 1943.

Virginia effective May 30, 1943.

(ii) $0.05 per $1,000 of payroll for property damage liability.

(4) All automobiles owned by the Federal government and furnished for the contractors' use on a project, and all automobiles hired or purchased under rental purchase contracts shall be classified and rated in the same manner as automobiles owned by the contractor. Hired automobiles other than those hired under a rental purchase contract shall be rated in accordance with the Rules and Rates prescribed in the Manual, except that when cars are hired without chauffeurs the payroll upon which the premium will be calculated will be double the cost of hire.

(5) Neither the Experience Rating Plan nor the Automobile Fleet Plan Discount nor any other individual risk rating plan shall be used but in lieu thereof, and in recognition of the reduced hazards on these risks the manual rates including the rates set forth above shall be subject to a uniform discount of 50%.

(b) For insurance on projects located in Louisiana, Massachusetts, North Carolina and Texas, it is prescribed that the rules and rates of the organizations set forth below shall be used as a basis for determining the standard premium for automobile bodily injury and property damage liability insurance subject to the modification set forth in subparagraphs (1) to (5) above:

(1) Louisiana: The Louisiana Casualty & Surety Rating Commission.

(2) Massachusetts: Massachusetts Automobile Rating and Accident Prevention Bureau.

(3) North Carolina: North Carolina Automobile Rate and Administrative Office.

(4) Texas: The Board of Insurance Commissioners.

(c) For insurance on projects located in the states of Illinois, New Hampshire, New York, Oklahoma, Virginia and Washington, the Manual Rules and Rates of the National Bureau of Casualty and Surety Underwriters referred to in paragraph (a) above, shall be used in the form in which they are filed with and approved by the state supervising authority having jurisdiction.

(d) In the event that coverage is required for any automobiles for which passengers are carried for a consideration, such automobiles are to be rated in accordance with the Manual Rules and Rates applicable to public automobiles, subject to the 50 percent discount applicable to other classes of automobiles.

§ 804.482 *Comprehensive bodily injury liability insurance.* For insurance on projects located in the District of Columbia, the Territories of Alaska and Hawaii and all states except Louisiana and New York it is prescribed that the Manual Rules and Rates of the National Bureau of Casualty and Surety Underwriters shall be used as a basis for determining the standard premium for comprehensive bodily injury liability insurance. For insurance on projects located in the state of New York the basis for determining the standard premium shall be the Manual Rules and Rates of the National Bureau of Casualty and Surety Underwriters as approved by the New York State Insurance Department; and for insurance on projects located in Louisiana, the basis for determining the standard premium shall be the Manual Rules and Rates of the Louisiana Casualty and Surety Rating Commission. Neither the Experience Rating Plan nor any other individual risk rating plan shall be used, but instead in consideration of the reduced hazards on these risks all manual rates shall be subject to a uniform discount of 50 per cent.

§ 804.482–1 Those classifications in the Manual for which no rates appear will be submitted by the insurance carrier to the appropriate rating authority if any, for the establishment of a rate. The rate so established will be submitted to the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces. Any liability rate so established will be subject to the 50% discount applicable to other liability insurance classifications.

§ 804.483 *Insurance Advisor.* (a) In connection with the War Department Insurance Rating Plan, each contractor performing a contract in one of the several States of the United States or the District of Columbia, will select a competent and responsible Insurance Advisor. This Advisor may be a licensed insurance agent or broker or other person of comparable competence and trustworthiness. He shall not, while so employed be employed or paid any remuneration whatsoever by any insurance carrier for services rendered or benefit conferred directly or indirectly in connection with the insurance on the project to which the Insurance Service Agreement relates (see § 804.497–13). The advisor selected will be requested to submit a detailed statement of the knowledge and experience which qualifies him to act as Insurance Advisor.

(b) On projects located in States having a resident agents law which requires an advisor to be a licensed agent or broker such law will be complied with.

§ 804.483–1 Paragraph 1 of the Insurance Service Agreement, when used in connection with projects located in Massachusetts must be amended by inserting the words "being a duly licensed advisor, agent, or broker as defined in section 163, 166, and 177b of the General Laws, Chapter 175," between the words "hereinafter called the Advisor" and the words "agreement(s), in consideration of a fee".

§ 804.483–2 If the contractor desires that his regular insurance agent or broker act as Advisor but the project is so far removed that the agent or broker (not qualified as set forth above) is unable to give complete service, the agent or broker may arrange with another person or firm sufficiently near the project to render a portion of the Advisor's services. The individual or firm will qualify as an Advisor as set forth above and both parties will execute jointly the Insurance Service Agreement.

§ 804.483–3 No Insurance Advisor will be appointed in connection with projects located outside the several States of the United States and the District of Columbia.

§ 804.484 *Assignment to Government of premiums due under policies written under War Department Insurance Rating Plan upon termination or completion of cost-plus-a-fixed fee contracts.* (a) The following form will be used for the purpose of assigning to the Government the interest of a cost-plus-a-fixed-fee contractor in return premiums, premium refunds, etc., on insurance policies written under the War Department Insurance Rating Plan upon termination or completion of the contract, when the Government has assumed the payment of the contractor's obligations for premiums under such policies (see § 804.490–3).

ASSIGNMENT TO GOVERNMENT

Under Cost-Plus-A-Fixed Fee Contract No. _____ dated _____ between the United States of America (hereinafter called the Government) and _____ (hereinafter called the Contractor).

The Government having assumed and become liable for the obligation of the contractor for premiums under Policies Nos. _____, and _____ issued by the _____ Insurance Company, the Contractor does hereby assign, transfer and set over to the Government as of the date hereof, all of its right, title and interest in and to all return premiums, premium refunds, dividends and any other moneys due or to become due the Contractor in connection with such policies.

In witness whereof, the Contractor has executed this assignmment this _____ day of _____, 194_____.

[CORPORATE SEAL]

CONTRACTOR,

_____

By_____

Attest:

_____

Secretary

Accepted:

United States of America,

By_____

Contracting Officer

(b) Appropriate detailed instructions will be given by the chiefs of technical services to contracting officers and others concerned so that the form is executed and forwarded by registered mail, return receipt requested, to the home office of the insurance company involved. The letter accompanying the form will specify that all checks to cover return premiums, etc., are to be made payable to the Treasurer of the United States.

(c) In addition to whatever copies are required for the purposes of a technical service, one copy of the executed form will be forwarded to the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces.

Special Instructions for the Preparation of Policies

§ 804.485 *Workmen's compensation policies.* Policies to evidence workmen's compensation insurance taken out in accordance with this part, will be written to provide the coverage required by this part and in accordance with the following regulations:

(a) The War Department Insurance Rating Plan is not available for use in connection with workmen's compensation insurance in the States of Nevada, North Dakota, Ohio and Washington, but the plan will be used in those states for comprehensive general liability and automobile liability and property damage if the premiums involved are estimated to exceed $5,000.

(b) In the State of Oregon the contractor will formally reject the workmen's compensation act and will then purchase insurance as prescribed in §§ 804.470 to 804.471–4. The policy will provide on a voluntary basis the benefits of the workmen's compensation act and employer's liability insurance.

(c) In the State of West Virginia the contractor will qualify with the appropriate state authority as a self-insurer and will then purchase insurance as prescribed in §§ 804.470 to 804.471–4. The policy will provide the benefits of the workmen's compensation act and employers' liability insurance.

(d) In the following states occupational diseases coverage in limits of $50/100,000 will be obtained by having this coverage endorsed on the compensation policy:

Alabama.	New Jersey.
Arizona.	New Mexico.
Colorado.	Oklahoma.
Delaware.	Oregon.
Florida.	Pennsylvania.
Georgia.	Rhode Island.
Iowa.	South Carolina.
Kansas.	South Dakota.
Kentucky.	Tennessee.
Louisiana.	Utah.
Maine.	Vermont.
Montana.	West Virginia.
New Hampshire.	Wyoming.

(e) Occupational disease coverage will be obtained in the states enumerated below, as follows:

(1) Illinois: by having the employer elect in writing to accept the terms of the Occupational Diseases Act;

(2) Indiana: by having the employer elect in writing to accept the terms of the Occupational Diseases Act;

(3) Missouri: by having the employer elect in writing to bring himself within the Workmen's Compensation Act with respect to occupational diseases; and the Workmen's Compensation policy will be endorsed to indicate the carrier's acceptance of the employer's election.

(4) Virginia: by having the employer elect to provide coverage under section 2–h of the Compensation Law amendment effective 1 July 1944 which will be accomplished by having the employer reject section 2–g and elect by written declaration, filed in the offices of the Industrial Commission, State Office Building, Richmond, Virginia, on a form provided by it, to be bound by the provisions of section 2–h relating to full coverage of all occupational diseases. Coverage under paragraph 1 (b) of the Workmen's Compensation policy for occupational diseases will not be required.

(f) In the State of Missouri the contractor will have the Missouri endorsement (see § 804.497–8) attached to the compensation policy. This endorsement will be cleared in each individual case by the chief of the technical service concerned or his authorized representative with the Superintendent of Insurance of the State of Missouri.

(g) Special endorsements will be attached to policies in the following states:

Delaware (See § 804.497–9).
Massachusetts (See § 804.497–10).
Pennsylvania (See § 804.497–11).
Texas (See § 804.497–12).

§ 804.486 *Average rates for construction projects insured under the War Department Insurance Rating Plan.* Because of the multiplicity of classifications which must be used in connection with construction projects, average rates will, in all instances where practicable, be used and the following procedure will apply:

(a) The rate will be established by the board or bureau having jurisdiction.

(b) Calculation of such rate will be on the basis of the Manual Rules, Classifications and Rates administered by the board or bureau having jurisdiction.

(c) Data for establishing such rate will be secured by the carrying company from the technical service concerned and will be subject to acceptance and verification by the board or bureau having jurisdiction.

(d) Pending the submission of complete data upon which to establish such average rate the board or bureau will establish a tentative average rate based upon such information concerning the operations as may be made available.

(e) The average rate computed in accordance with (b) and (c) above will be established and promulgated to the carrier as promptly as possible, and such rate will apply only if the carrier and the War Department agree to its use.

(f) Such rate will be effective as of the inception date of the policy and may not be changed except as follows:

(1) It will be subject to revision on the anniversary date of the policy.

(2) Whenever features or operations contemplated under the project are materially changed.

(3) Whenever work which was included in the establishment of the average rate is sublet to lump-sum subcontractors whose operations are not under the War Department Insurance Rating Plan.

(4) The amended rate as established under (2) and (3) above will be effective as of the inception date of the policy.

(5) In the event that the state rates are changed as a result of a change in

the law, the average rate will be modified as of the effective date of the revised state rates.

Upon promulgation by the board or bureau having jurisdiction, all average rates will be submitted to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces, for approval. Complete supporting data and the recommendation of the chief of the technical service concerned will also be submitted.

§ 804.487 *Insurance against loss or damage to property.*

§ 804.487–1 *Release form.* A non-interest release form will be used in all applicable cases where the contracting officer is required to execute an instrument in connection with insurance covering against loss or damage to property and purchased pursuant to a provision contained in a War Department contract. For form see § 804.497–1.

§ 804.487–2 *Endorsement form.* (a) where a contract requires that the contractor shall provide and maintain insurance covering against loss or damage in a sum at least equal to the value of the property belonging to the United States which is in his possession, the form of endorsement set forth in § 804.497–2 will be used. This endorsement is designed for the purpose of clearly defining the interest of the government and of providing the manner in which losses shall be settled. Its use will not eliminate the necessity of reviewing each insurance policy submitted in order to determine that the amount of insurance conforms to requirements and that the exclusions which appear in the policy do not deprive the United States of any of its rights.

§ 804.488 *Rules and regulations of the State of Massachusetts pertaining to use of War Department Insurance Rating Plan in that state.* The Emergency Construction and Expansion Comprehensive Insurance Rating Plan on Cost-Plus-a-Fixed-Fee Contracts, dated May 3, 1941, commonly known as the War Department Insurance Rating Plan, as amended by Endorsement Forms 2A, 10A, and 30A, of May 26, 1942, is hereby permitted for use in the Commonwealth of Massachusetts under the authority of Executive Order No. 18, subject to the following rules, regulations, and modifications:

(a) This plan shall be available only when requested by the United States Government, through the War Department, the Navy Department, the Maritime Commission, or the Defense Plant Corporation, or in cooperation therewith in connection with the operations of any assured undertaking a contract of which written notice has been given to the Commissioner of Insurance of the Commonwealth of Massachusetts by the procurement officer of the United States agency in charge of the project or his representative to be on a cost-plus-a-fixed-fee basis and on other projects in connection with the prosecution of the war wherein the cost of the insurance is a direct item of expense to the United States Government by reason of a contract reimbursement agreement.

(b) Requests for permission to use the plan shall be made by the insurance carrier to the Commissioner of Insurance of the Commonwealth of Massachusetts and shall be accompanied by the written request for the use of the plan by the procurement officer of the United States agency in charge of the project or his authorized representative and also a statement from the assured giving the name and address of the licensed insurance adviser, agent, or broker.

(c) The plan shall not be used where the estimated standard premium for the insurance is less than $5,000. In cases where the standard premium on war projects is less than $5,000, each carrier shall observe the rates and rules for Workmen's Compensation Insurance which have been approved by the Massachusetts Commissioner of Insurance. Rules, rates, and classification of risks and premium charges, promulgated by the Commissioner of Insurance for Massachusetts Compulsory Motor Vehicle Insurance Policies and Bonds and Guest Occupant charges, shall be used in connection with risks involving standard premium of less than $5,000.

(d) The advisor provided for in the plan shall be a person who meets the requirements of Gen. Laws, Chapter 175, section 163, 166 or 177B, and who holds a license under one or more of said sections. No insurance carrier shall recognize an advisor unless such advisor is licensed as described above. Enclosed amendment must be attached to service agreement. (See § 804.497–10 (e)).

(e) Policies in force on May 26, 1942, may be cancelled and rewritten under this plan with the approval of the Massachusetts Commissioner of Insurance, provided that no policy written under this plan may have an effective date prior to May 26, 1942.

(f) Permission to use the plan in Massachusetts may be discontinued by the Massachusetts Commissioner of Insurance by giving ten days' written notice to the War Department or other governmental agency authorized to use this plan and to the Massachusetts Rating and Inspection Bureau as a representative of the insurance companies.

(g) Endorsement Forms 2A, 10A, and 30A, copies of which are attached hereto, shall be attached to each policy contract issued under this plan. (See §§ 804.497–5, 804.497–6 and 804.497–7.)

(h) Losses incurred under the plan are to be determined by the insurance carrier and approved by the Massachusetts Commissioner of Insurance and the Under Secretary of War or corresponding head of other governmental agency authorized to use this plan.

(i) Reserves on outstanding cases are to be determined by the insurance carrier and approved by the Massachusetts Insurance Department and the Under Secretary of War, or corresponding head of other governmental agency authorized to use this plan.

(j) The insurance carrier shall furnish to the Massachusetts Commissioner of Insurance and to the War Department a quarterly itemized statement of incurred losses.

(k) Payroll audits shall be made as soon as possible following the termination of the audit period as shown in the policy and a copy furnished to the Massachusetts Commissioner of Insurance. There shall be attached to each policy to which the War Department Insurance Rating Plan applies, War Project Endorsement form "D" shown below.

§ 804.489 *Rules and regulations pertaining to use of War Department Insurance Rating Plan in State of Texas.* (a) When policies written under the plan are submitted to the Casualty Insurance Commissioner for his approval they will be accompanied by a copy of the insurance service agreement signed by the insurance advisor and the contractor or architect-engineer. No policy will be approved unless accompanied by such agreement and such copy will be retained permanently by the Insurance Department.

(b) Workmen's Compensation insurance policies written under this plan may eliminate the wording "and elsewhere in Texas". Where such wording is eliminated the policy will not be approved until the Casualty Insurance Commissioner is submitted satisfactory evidence that the contractor and each subcontractor or the architect-engineer named in such policy will be insured by a separate Workmen's Compensation insurance policy written according to normal manual requirements for all the assured's contracting activities throughout Texas during the entire period of coverage under the Emergency Insurance Rating Plan. Concurrent policies carried by reason of this requirement may be combined for determination of premiums.

(c) Any Workmen's Compensation insurance policy concurrent with one extending coverage under the provisions of the War Department Emergency Rating Plan will provide by endorsement for a ten-day written notice by the insurance carrier or by the assured (whichever cancels the policy) to the Casualty Insurance Commissioner before such policy may be terminated by cancelation.

Settlement of Claims

§ 804.490 *Settlement under the War Department Insurance Rating Plan.*

§ 804.490–1 *Preliminary settlement.* The Rating Plan provides that within sixty days after the expiration of the policy (or within sixty days of the termination of the project) the carrier shall compute the aggregate earned standard premium and a preliminary settlement of the premium shall then be made (for form of preliminary settlement, see §§ 804.497–15 through 804.497–21). It is desired that this preliminary settlement be made prior to the termination of the contract.

§ 804.490–2 *Submission of preliminary settlement forms.* Insurance carriers will be required to submit to the contractor seven properly executed copies of the forms of preliminary settlement together with any refund which may be called for by the settlement form. The contractor will be instructed to retain one copy and to submit the remaining six copies, together with the refund, to the contracting officer. The contracting officer will make the following distribution:

(a) One copy, together with the refund, to the disbursing officer.

(b) One copy to the General Accounting Office.

(c) Two copies to the chief of the technical service concerned.

(d) Two copies to be retained by the contracting officer. The chief of the technical service will forward one copy to the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces.

§ 804.490–3 *Generally the contract in question will have been terminated by the time final settlement* (see §§ 804.497–15 to 804.497–21 is in order (eight months after completion of the project). Therefore in terminating such contracts, the chief of the technical service concerned will issue appropriate instructions to the effect that any remaining credits due in connection with the insurance or any outstanding obligations of the contractor with respect to the insurance will be assumed by the United States Government.

§ 804.490–4 *Submission of final settlement forms.* The insurance carriers will be notified to submit simultaneously (a) to the technical service concerned the number of properly completed copies of final settlement forms required by it and (b) directly to the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces one properly completed copy of such settlement form. The technical service concerned will promptly submit to the Contract Insurance Branch any information which it believes to be pertinent to the negotiations for settlement with the insurance carrier. The Contract Insurance Branch will take appropriate action to examine the final settlements, reach agreements with the carriers concerning the adjustment of losses and premiums, and secure Comprehensive Insurance Rating Plan Releases. If no changes are made in the settlement statement as submitted by a carrier, the Contract Insurance Branch will notify the technical service concerned of approval. In the event revised settlement statement is required, the Contract Insurance Branch will secure the necessary properly executed forms from the carrier and forward them to the technical service with the Contract Insurance Branch's approval of the settlement. When advised of approval by the Contract Insurance Branch, the technical service will take appropriate steps to close the account on the basis of the approved statement. The procedure prescribed in this section will be followed on and after April 29, 1944.

§ 804.490–5 *Valuation and adjustment of losses and claims.* All appropriate action will be taken by the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces, with respect to the valuation and adjustment of losses and claims.

§ 804.491 *Claims, losses and claims service under the War Department Insurance Rating Plan.*

§ 804.491–1 *Claims service by insurance carriers.* The carrier is required to provide sufficient claims facilities to afford prompt and adequate claims service to the contractor. Any complaints concerning the claims service which is rendered by a carrier in connection with a particular project will be referred for necessary action to the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces.

§ 804.491–2 *Claims settlements by insurance carriers.* (a) It is the duty of the insurance carrier to make all decisions with respect to the investigation, settlement and litigation of claims against contractors covered by its policies of insurance "to the extent of its coverage, said policies having been issued under the War Department Insurance Rating Plan."

(b) Medical benefits in excess of statutory limits: Medical benefits in excess of the statutory limits on compensation claims may be provided by the insurance carrier if in its best judgment, such extension of benefits will probably reduce disability and the ultimate cost of indemnity payments provided the carrier has received the prior written approval of the Contracting Officer or his representative; or receives the approval of the Contract Insurance Branch, Special Financial Services Division, Office of the Fiscal Director, Headquarters, Army Service Forces.

§ 804.491–3 *Insurance medical facilities, first aid and hospital (contract medical).* (a) An agreement has been effected with insurance carriers concerning the standard form endorsement and the maximum percentages to be used in the distribution of Project Site Medical (Contract Medical) cost between the contractor and the Insurance Carrier.

(b) The agreement provides for Project Site Medical Endorsement as follows:

It is agreed that "losses incurred" as defined in paragraph 1-b of the Insurance Rating Plan Endorsement, shall include —% of the amount paid as salaries to "medical personnel" employed at the project site: *Provided, however,* That such amount is subject to a maximum of —% of the Standard Premium for Workmen's Compensation and Employers' Liability coverages.

"Medical personnel" as used in this endorsement shall include: doctors, internes, nurses, technicians, and, if employed on a full-time basis to perform services normally rendered by a nurse, orderlies, and nurses' aides.

(c) The percentage of amount paid as salaries "to medical personnel" (first blank in above endorsement) is to be fixed by negotiation subject to the following maxima:

(1) Construction projects—66⅔% of such salaries.

(2) Manufacturing projects—50% of such salaries.

(3) Explosives risks—33⅓% of such salaries.

(d) The maximum percentages of Standard Premium for Workmen's Compensation and Employers' Liability coverages (second blank in above endorsement) are:

(1) Construction projects—7½% of standard premium.

(2) Manufacturing projects—10% of standard premium.

(3) Explosives risks—5% of standard premium.

(e) The endorsement set forth in paragraph (b) above is to be used when the project is entirely a construction project, a manufacturing project or an explosive risk. If the project changes from a "construction project" to either a "manufacturing project" or an "explosive risk" two endorsements will be necessary. The first, effective as of the effective date of the policies, will be the same as the endorsement described in paragraph (b) above, except that the phrase "applicable to construction operations" will be added at the end of the first paragraph of the endorsement. The second, effective as of the date of change of character of the risk, will be the same as the endorsement described in paragraph (b) above, except that the percentage of salaries will be that applicable to the new operations, and the phrase "applicable to _____ (insert 'manufacturing' or 'explosives') Operations" will be added at the end of the first paragraph of the endorsement.

(f) If the project is at the same time in part a "construction project" and in part either a "manufacturing project" or an "explosive risk" or any combination of the above, the endorsement to be used effective as of the date and during the period the project includes more than one operation will be the same as the endorsement described in paragraph (b) above except that:

(1) The percentage inserted in the first bracket will be determined on a pro rata basis determined by taking into account the existing and probable future situation as regards payroll expenditure with respect to each type of operation.

(2) The phrase "the sum of ____% of the Standard Premium for Workmen's Compensation and Employers' Liability coverages applicable to _____ (construction or _____ operations and ____% of manufacturing) the Standard Premium for Workmen's Compensation and Employers' Liability coverages applicable to _____ (manufacturing or _____ operations" replaces the phrase explosives) "____% of the Standard Premium for Workmen's Compensation and Employers' Liability coverages". When mixed operations no longer exist the endorsement will be revised in accordance with the procedure hereinbefore outlined.

(g) All policies effective July 15, 1943 and thereafter will have endorsements affixed thereto in accordance with this section. Immediate arrangements will be made by the technical service concerns to have the carriers execute and attach such endorsements to each Workmen's Compensation and Employers' Liability policy written under the War Department Insurance Rating Plan in effect prior to July 15, 1943. Copies of such endorsements will be forwarded to the Contract Insurance Branch, Special Financial Services Division, Headquarters, Army Service Forces, as soon as possible in order that final settlements now

pending on a number of these contracts may be disposed of. The endorsements will be retroactive to the effective date of the policies.

(h) The percentage of Project Site Medical mentioned herein and the percentage of Standard Premium are maxima and subject to these maxima, the distribution of Medical salaries between the carrier and the contractor is subject to negotiation. If on any project arrangements were hitherto in effect whereby any carrier assumed a smaller percentage of the Project Site Medical than the maxima provided herein, the endorsements should not provide any greater percentage of such medical cost to be included by the carrier than the percentage heretofore agreed upon.

(i) In arriving at agreed percentages of medical salaries, consideration should be given to a proper allocation based upon industrial accident exposure.

§ 804.491–4 *Claims not covered by insurance policy; duty of insurance carrier.* The insurance carrier will notify the contractor promptly of any claim reported to it which, in its opinion, is not covered by the terms of the insurance policy. All such matters will be referred immediately for determination to the Insurance Branch, Fiscal Division, Headquarters, Army Service Forces.

§ 804.491–5 *Relationship of the claims representatives of the carriers to technical services.* The insurance carrier through its investigation of accidents and the handling of settlements frequently obtains and compiles data which will be helpful to the representatives of the technical service on the project. The relationship between these parties should be one of mutual assistance and cooperation. The claims representative of the insurance carrier is required to cooperate with the technical service representative when requested to do so and to supply him with such data as will be of assistance to the latter in carrying out his duties. The technical service concerned will not request the claims representative of the insurance carrier to fill out forms, copy reports, or prepare other clerical data not necessary in the performance of his duties in connection with the handling of claims.

§ 804.491–6 *Loss reports*—(a) *Quarterly loss reports.* The insurance carrier is required to submit a quarterly loss report (for form see §§ 804.497–23 and 804.497–24) every three months during the term of the policy, except for the three (3) months period immediately preceding the policy anniversary date from which date preliminary (interim) settlement is due within sixty (60) days. The insurance carrier is required to furnish the contractor with five copies of the quarterly loss report. The contractor should retain two copies and send three copies to the Contracting Officer or his representative. The Contracting Officer will retain one copy unless the chief of the technical service concerned requires him to send it to a higher echelon within the technical service, and will forward two copies to the chief of the technical service concerned. The chief of the technical service will retain one copy and forward the other to the Contract Insurance Branch. In order that maximum use may be made of these reports, they will be forwarded promptly through channels as set forth above.

(b) *Preliminary settlement.* The insurance carrier will use the approved form of preliminary settlement. (See §§ 804.497–15 to 804.497–21.) Distribution of these forms when completed will be made as set forth in § 804.490–2. The chief of the technical service concerned will obtain the approval or disapproval of these statements by the Contract Insurance Branch before any final action is taken thereon. Refunds of premium may be accepted without reference to the approval or disapproval by the Contract Insurance Branch. The chief of the technical service concerned will be notified of the action taken by the Contract Insurance Branch.

(c) *Final settlement.* The same form shall be used for final settlement as is used for preliminary settlement statements (see §§ 804.497–15 to 804.497–21). If the final settlement statement is approved by the Contract Insurance Branch, after its examination of the claims files, the chief of the technical service concerned will be so notified. If settlement is deferred, the chief of the technical service concerned will be notified. Upon consummation of final settlement with the carrier, the Contract Insurance Branch will secure the necessary corrected settlement statements from the insurance carrier.

(d) No other reports by insurance carriers concerning insured losses will be required unless requested by the Contract Insurance Branch.

§ 804.491–7 *Arbitration of losses.* If final settlement with a carrier is not feasible, by reason of dispute over losses claimed by such carrier, the Contract Insurance Branch will arrange for arbitration in accordance with the provisions of the War Department Insurance Rating Plan, and will notify the chief of the technical service concerned of the pendency of such arbitration. Upon final settlement of such losses, the chief of the technical service concerned will be notified.

§ 804.491–8 *Claims under Missouri Voluntary Workmen's Compensation Endorsement.* An agreement and release will be taken at the time settlement is made by the insurance carrier with an employee and a receipt and release will be taken at the time final payment is made. These are necessary and are required by the Insurance Commisioner of Missouri (for forms see §§ 804.497–25 and 804.497–26). The insurance carrier will be responsible for the execution of the forms.

Miscellaneous

§ 804.492 *War risk indemnity contracts.* With the passage of Public Law 784, 77th Congress, the execution of War risk indemnity contracts has become unnecessary. The authority heretofore granted in respect to the execution of such agreements is withdrawn.

§ 804.493 *Reports.* There will be forwarded promptly to the Contract Insurance Branch the following information:

(a) In connection with insurance written under the War Department Insurance Rating plan copies of all policies, audit statements, other reports of insurance carriers, (except engineering inspection reports), reports of insurance advisors and any other pertinent data.

(b) In connection with any insurance where approval of losses by the Under Secretary of War is required for the determination of premium, copies of the policies and copies of all statements, except engineering inspection reports, required of the insurance carrier.

SUBPART E—BONDS AND INSURANCE FORMS

§ 804.496 *Bond forms.*

§ 804.496–1 *Bid bond.* Standard Form No. 24 (Standard Government Form of Bid Bond (construction or supply)) is the approved bid bond form. In the preparation of the form, contracting officers are authorized, when it is deemed by them to be in the best interests of the Government, to insert in the blank space on page one, following the words "in the penal sum of" and before the word "dollars", the following clause:

an amount equal to ____ per cent of the accompanying bid of said principal, but in no event shall said penalty exceed the sum of_____.

There should be inserted in the first blank space of the above clause the percentage deemed appropriate by the contracting officer, having regard to existing instructions of the chief of the supply service concerned, and in the second blank space the amount of the maximum penalty in dollars. Standard Form No. 24 reads as follows:

STANDARD GOVERNMENT FORM OF BID BOND
(NO. 24)

(Construction or Supply)

Know all men by these presents, That we, as Principal, and_____ as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal has submitted the accompanying bid, dated _____, 19____, for _____.

Now, therefore, if the principal shall not withdraw said bid within the period specified therein after the opening of the same, or, if no period be specified, within sixty (60) days after said opening, and shall within the period specified therefor, or, if no period be specified, within ten (10) days after the prescribed forms are presented to him for signature, enter into a written contract with the Government, in accordance with the bid as accepted, and give bond with good and sufficient surety or sureties, as may be required, for the faithful performance and proper fulfillment of such contract, or in the event of the withdrawal of said bid within the period specified, or the failure to enter into such contract and give such bond within the time specified, if the principal shall pay the Government the difference between the amount specified in said bid and the amount for which the Government may procure the required work and/or supplies, if the latter amount be in excess of the former, then the above obligation shall be void and of no

effect, otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this ____ day of _____, 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–2 *Annual bid bond.* United States Standard Form No. 34 (Revised) is the approved form of Annual Bid Bond. It reads as follows:

ANNUAL BID BOND (NO. 34)

(Supplies)

Know all men by these presents, that we _____, as Principal, and _____ as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in such penal sum or sums, lawful money of the United States, as shall be sufficient to indemnify the Government in case of the default of the said principal as hereinafter set forth, for the payment of which sum or sums well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal contemplates submitting bids from time to time during the fiscal year ending June 30, 19____, to the _____ for furnishing materials and supplies to the Government, and desires that all such bids submitted for opening during said fiscal year be covered by a single bond instead of by a separate Bid Bond for each bid:

Now, therefore, if the principal shall not withdraw any such bid within the period specified therein after the opening of the same, or, if no period be specified, within sixty (60) days after said opening, and shall within the period specified therefor, or, if no period be specified, within ten (10) days after the prescribed forms are presented to him for signature, enter into a written contract with the Government, in accordance with the bid as accepted, and give bond with good and sufficient surety or sureties, as may be required, for the faithful performance and proper fulfillment of such contract, or in the event of the withdrawal of any bid within the period specified, or the failure to enter into such contract and give such bond within the time specified, if the principal shall pay the Government the difference between the amount specified in said bid and the amount for which the Government may procure the required materials and supplies, if the latter amount be in excess of the former, then the above obligation shall be void and of no effect, otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____ 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–3 *Performance bond.* (a) Standard Form No. 25, Revised is the approved form of performance bond for use when the bond is to be executed by individual sureties, or by one corporate surety. The form is set forth in paragraph (d) below.

(b) Standard Form No. 25–B is the approved form of performance bond for use when the bond is to be executed by two or more corporate sureties. For cases involving more than six sureties, continuation sheets to sheets one and three of the form are provided. These bear the form designations, Standard Form No. 25–B1 and 25–B3. Standard Form No. 25–B is set forth in paragraph (e) below.

(c) When the aforementioned Standard Forms of performance bonds are used, there may be inserted therein the following additional clause.

Provided, however, that the foregoing obligation of the surety shall not be applicable to the liability of the principal for the return of excessive profits under the provisions of the Sixth Supplemental National Defense Appropriation Act, 1942.

(d) Performance Bond (No. 25).

PERFORMANCE BOND (NO. 25)

(Construction or Supply)

Know all men by these presents, that we, _____ as Principal, and _____ as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal entered into a certain contract, hereto attached, with the Government, dated _____, 19____, for _____.

Now, therefore, if the principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said contract during the original term of said contract and any extensions thereof that may be granted by the Government, with or without notice to the surety, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said contract that may hereafter be made, notice of which modifications to the surety being hereby waived, then, this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____, 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

(e) Performance Bond (No. 25–B).

PERFORMANCE BOND (NO. 25–B)

(Construction or Supply. Corporate Co-Surety Form)

Know all men by these presents, that we, _____ as Principal, and the corporations hereinafter designated as Surety A to Surety _____, inclusive, as Sureties, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars, for the payment of which sum well and truly to be made we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents: *Provided*, That we the sureties bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us, and for all other purposes each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite its name in the following schedule:

Surety	*Name and State of incorporation*	*Limit of liability*
A		
B		
C		
____		
____		
____		
____		
Q		

The condition of this Obligation is such, that whereas the Principal entered into a certain contract, hereto attached, with the Government dated _____, 19____, for _____

Now, therefore, if the Principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said contract during the original term of said contract and any extensions thereof that may be granted by the Government, with or without notice to the Sureties, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said contract that may hereafter be made, notice of which modifications to the Sureties being hereby waived, then, this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____, 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–4 *Annual performance bond.* United States Standard Form No. 35 (Revised) is the approved form of annual performance bonds. It reads as follows:

ANNUAL PERFORMANCE BOND (NO. 35)

(SUPPLIES)

Know all men by these presents, that we _____ as principal and _____ as surety are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal contemplates entering into contracts from time to time during the fiscal year ending June 30, 19____, with the Government represented by _____ for furnishing materials and supplies to the Government and desires that all such contracts be covered by one bond instead of by a separate performance bond for each contract:

Now, therefore, if the principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of any and all such contracts so entered into during the original term thereof and any extensions that may be granted by the Government, with or without notice to the surety, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of any and all duly authorized modifications of such contract and may hereafter be made, notice of which modifications to the surety being hereby waived, then this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____, 19____, the name and corporate seal

of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–5 *Payment bond.* (a) Standard Form No. 25–A is the approved form of payment bond for use when the bond is to be executed by individual sureties, or by one corporate surety. The form is set forth in paragraph (c) below.

(b) Standard Form No. 25–C is the approved form of payment bond for use when the bond is to be executed by two or more corporate sureties. For cases involving more than six sureties, continuation sheets to sheets one and three of the form are provided. These bear the form designations, Standard Form No. 25–C1 and No. 25–C3. Standard Form No. 25–C is set forth in paragraph (d) below.

(c) Payment Bond (No. 25–A).

PAYMENT BOND (NO. 25-A)

Know all men by these presents, that we, _____ as Principal, and _____ as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal entered into a certain contract, hereto attached, with the Government, dated _____, 19____, for _____

Now, therefore, if the principal shall promptly make payment to all persons supplying labor and material in the prosecution of the work provided for in said contract, and any and all duly authorized modifications of said contract that may hereafter be made, notice of which modifications to the surety being hereby waived, then this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____-day of_____, 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

(d) Payment Bond No. 25–C).

PAYMENT BOND (NO. 25–C)

(Corporate Co-Surety Form)

Know all men by these presents, that we, _____ as Principal, and the corporations hereinafter designated as Surety A to Surety ____, inclusive, as Sureties, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars, for the payment of which sum well and truly to be made we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents: *Provided*, That we the Sureties bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us, and for all other purposes each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite its name in the following schedule:

Surety	*Name and State of incorporation*	*Limit of liability*
A

Q		

The condition of this obligation is such, that whereas the Principal entered into a certain contract, hereto attached, with the Government, dated _____ 19____, for _____

Now, therefore, if the Principal shall promptly make payment to all persons supplying labor and material in the prosecution of the work provided for in said contract, and any and all duly authorized modifications of said contract that may hereafter be made, notice of which modifications to the Sureties being hereby waived, then this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this ____ day of _____ _____ 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–6 *Advance payment bond.* (a) The approved forms of advance payment bond for use when the bond is to be executed by individual sureties or one corporate surety are set forth in paragraphs (c) and (d) below. These forms are Standard Form No. 25, Revised (Standard Government Form of Performance Bond (construction and supply)), amended by the insertion of the italicized clauses.

(b) The approved forms of advance payment bond for use when the bond is to be executed by two or more corporate sureties are set forth in paragraphs (e) and (f) below. These forms are Standard Form No. 25–B [Standard Government Form of Performance Bond (construction and supply)], amended by the insertion of the italicized clauses. For cases involving more than six sureties continuation sheets to sheets one and three of the form are provided bearing the designations "Standard Form No. 25–B1" and "Standard Form No. 25–B3."

(c) Advance Payment Bond.

ADVANCE PAYMENT BOND

(When the provisions for advance payments are contained in the basic contract)

Know all men by these presents, that we, _____ as Principal, and _____ as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the Principal entered into a certain contract, hereto attached, with the Government, dated _____ 19__, for _____ *and whereas such contract authorizes advance payments to the contractor in the sums not to exceed $_____, or _____ per centum of the contract price, as it may be amended, whichever shall be the smaller.*

Now, therefore, if the principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said contract *relating to advance payments* during the original term of said contract and any extensions thereof that may be granted by the Government, with or without notice to the surety, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said contract *relating to advance payments* that may hereafter be made, notice of which modifications to the surety being hereby waived, then, this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____ _____ 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

(d) Advance Payment Bond.

ADVANCE PAYMENT BOND

(When the provisions for advance payments are contained in a supplemental agreement)

Know all men by these presents, that we _____ as the Principal, and _____ as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal entered into a certain contract, hereto attached, with the Government, dated _____, 19__, for _____ *and whereas the Government has entered into a contract supplemental to the aforesaid principal contract, such supplemental contract being dated _____, 19__, and authorizing advance payments to the contractor of sums not to exceed $_____ or _____ per centum of the contract price, as it may be amended, whichever shall be the smaller.*

Now, therefore, if the principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said *supplemental contract relating to advance payments* during the original term of said *supplemental contract relating to advance payments* and any extensions thereof that may be granted by the Government, with or without notice to the surety, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said *supplemental contract relating to advance payments* that may hereafter be made, notice of which modifications to the surety being hereby waived, then, this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this ____ day of _____, 19__, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

(c) Advance Payment Bond.

ADVANCE PAYMENT BOND

(Corporate Co-Surety Form)

(When the provisions for advance payments are contained in the basic contract)

Know all men by these presents, That we, _____ as Principal, and the corporations hereinafter designated as Surety A to Surety ____, inclusive, as Sureties, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars, for the payment of which sum well and truly to be made we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents: *Provided,* That we the Sureties bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us, and for all other purposes each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite its name in the following schedule:

Surety	*Name and State of incorporation*	*Limit of liability*
A		
B		
C		

Q		

The condition of this obligation is such that whereas the Principal entered into a certain contract hereto attached, with the Government, dated _____ 19____, for_____ *and whereas such contract authorizes advance payments to the contractor in the sums not to exceed $_____, or _____ per centum of the contract price, as it may be amended, whichever shall be the smaller.*

Now, therefore, if the Principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said contract *relating to advance payments* during the original term of said contract and any extensions thereof that may be granted by the Government, with or without notice to the Sureties, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said contract *relating to advance payments* that may hereafter be made, notice of which modifications to the Sureties being hereby waived, then, this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____ 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

(f) Advance Payment Bond.

ADVANCE PAYMENT BOND

(Corporate Co-Surety Form)

(When the provisions for advance payments are contained in a supplemental agreement)

Know all men by these presents, that we, _____ as Principal, and the corporations hereinafter designated as Surety A to Surety ____, inclusive, as Sureties, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars, for the payment of which sum well and truly to be made we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents: *Provided,* That we the Sureties bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us, and for all other purposes each Surety binds itself, jointly and severally with the Principal, for the payment of such sum only as is set forth opposite its name in the following schedule:

Surety	*Name and State of incorporation*	*Limit of liability*
A		
B		
C		

Q		

The condition of this obligation is such, that whereas the Principal entered into a certain contract, hereto attached, with the Government, dated _____, 19__, for _____ *and whereas the Government has entered into a contract supplemental to the aforesaid principal contract, such supplemental contract being dated _____ and authorizing advance payments to the contractor of sums not to exceed $_____ or _____ per centum of the contract price, as it may be amended, whichever shall be the smaller.*

Now, therefore, if the Principal shall well and truly perform and fulfill all the undertakings, covenants, terms, conditions, and agreements of said *supplemental contract relating to advance payments* during the original term of said *supplemental contract relating to advance payments* and any extensions thereof that may be granted by the Government, with or without notice to the Sureties, and during the life of any guaranty required under the contract, and shall also well and truly perform and fulfill all the undertakings, covenants, terms, conditions and agreements of any and all duly authorized modifications of said *supplemental contract relating to advance payments* that may hereafter be made, notice of which modifications to the Sureties being hereby waived, then, this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this _____ day of _____ 19___, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–7 *Patent infringement bond.* The following is the approved form of patent infringement bond:

Know all men by these presents, that we, _____ as Principal, and _____ _____, as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of _____ dollars, lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal entered into a certain contract, hereto attached, with the Government, dated _____, 19____, for _____ and whereas the said principal has specifically obligated himself in said contract to hold and save the Government, its officers, agents, servants, and employees, harmless from liability of any nature or kind, including cost and expenses, for or on account of any patented or unpatented invention, article, or appliance manufactured or used in the performance of that contract, including their use by the Government of the articles therein contracted for.

Now, therefore, if the principal shall well and truly perform and fulfill the above undertaking and agreement, and shall promptly make payment of any judgment and costs obtained against the United States under the provisions of the Act of June 25, 1910 (36 Stat. 851) as amended by the Act of July 1, 1918 (40 Stat. 705) or expenses incident thereto, then this obligation to be void; otherwise to remain in full force and virtue.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this ____ day of _____ 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

§ 804.496–8 *Consent of surety.* (a) The following form is authorized for use in all cases other than those specified in paragraph (b) below.

Consent of Surety is hereby given to the foregoing Supplemental Agreement and the surety agrees that its bond or bonds shall apply and extend to the contract as modified or amended thereby.

(b) The following form is authorized for use when advance payments are added by supplemental agreement after the original contract has been executed and the performance bond given.

The undersigned surety company (or companies), surety (or sureties) on the performance bond supporting Contract No. _____ dated _____ with _____ (principal) of _____ (city and state) _____ hereby consent to the alteration of the contract effected by the execution of the agreement supplemental thereto dated _____ providing for advance payments, upon the condition that it (or they) shall not be liable under such performance bond for any portion of the advance payments which is not used by the contractor for the purposes of the contract.

If, in the event of default under the contract, the surety company (or companies) is (are) permitted to perform, and in case the additional funds for full performance are not available, it is understood and agreed that the number of articles to be delivered or the services to be performed under said contract shall be reduced in the proportion that the amount of advance payment moneys not used for the purposes of the contract bears to the total contract price.

In witness whereof, the respective sureties have executed this instrument under their several seals this _____ day of _____ 19____, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative pursuant to authority of its governing body.

(c) In appropriate cases, the words "Supplemental Agreement" contained in the above forms may be changed to "Change Order".

§ 804.496–9 *Fidelity bond.* The primary commercial blanket form of fidelity bond as standardized by the Surety Association of America or its equivalent is the approved form of fidelity bond. There should be attached thereto the following:

(a) A rider providing for retroactive reinstatement for prior losses.

(b) A rider excluding any claim on the part of the surety company to be subrogated, on payment of loss or otherwise, to any claim against the United States.

(c) A rider providing for pro rata refund of premium in event of cancellation by the Insured.

(d) A rider providing for notice to the technical service concerned in the event of any change in or cancellation of the bond.

(e) A rider providing for investigation of all Class A employees.

(f) A rider providing for investigation of all claims.

(g) (Optional) A rider eliminating a premium charge for restoring the bond penalty after losses.

§ 804.496–10 *Forgery bond.* The depositor's form of forgery bond or policy as standardized by the Surety Association of America or its equivalent is the approved form of forgery bond. There should be attached thereto the following:

(a) A rider providing for retroactive reinstatement for prior losses.

(b) A rider excluding any claim on the part of the surety company to be subrogated, on payment of loss or otherwise, to any claim against the United States.

(c) A rider providing for pro rata refund of premium in event of cancellation by the Insured.

(d) A rider providing for notice to the technical service concerned in the event of any change in or cancellation of the bond.

(e) A rider providing for the investigation of all claims.

(f) (Optional) A rider eliminating premium charge for restoring the bond penalty after losses.

§ 804.496–11 *License or permit bond.* The form of license or permit bond prescribed by statute or ordinance of the public authority having jurisdiction is the approved form of bond.

§ 804.497 *Insurance forms.*

§ 804.497–1 *Release form.* (See § 804.487–1)

§ 804.497–2 *Endorsement form.* (See § 804.487–2.)

To be attached to _____ Dated_____
Policy No._____

1. This policy covers all property owned wholly or in part by the United States or in which the United States has any interest, legal or equitable, by way of lien, mortgage, pledge, or otherwise, while said property is on the premises of the assured as described in the policy to which this endorsement is attached. Loss if any under this policy shall be payable to the contractor and to the Treasurer of the United States as their respective interests may appear: *Provided, however,* That the United States is entitled to indemnity, in preference and priority, on all property insured hereunder and in which it has an interest.

2. This policy, with respect to the interests of the United States, shall not be altered, cancelled, or further endorsed, transferred or assigned, unless written notice to that effect shall be given, at least twenty days in advance, to the United States of America, through_____

_____
(Insert name or names and addresses of Contracting Officer of the technical service involved).

3. Since this policy is hereby endorsed primarily to afford protection to the United States, and since the United States is not in a position to determine whether the assured under this policy is underinsured, any co-insurance clause of this policy as far as the interest of the United States is concerned is hereby declared to be inoperative and of no effect.

4. Inasmuch as the United States is not in control of the insured property, this policy, with respect to the interest of the United States, shall not be impaired or affected by the failure of the assured to comply with any condition or warranty contained therein.

Technical Service or Command

§ 804.497–4 *War Department Insurance Rating Plan endorsement.*

Amending Policy Numbered_____

1. It is agreed that the premiums for the policies numbered: _____
_____
_____
issued by the Company affording insurance in connection with the War Department Cost-Plus-A-Fixed-Fee Contract No. _____,
(Name of Contractor)
to _____
_____
_____

and all subcontractors performing operations on a Cost-Plus-A-Fixed-Fee basis in connection with a project at_____
_____
shall be a fixed charge plus modified losses plus all actual allocated claim expense, all multiplied by the tax multiplier, subject to a maximum premium equal to the amount obtained by the application of the tax multiplier to 90% of the standard premium.

a. The premium computed in accordance with the provisions of the policies, other than this endorsement, shall be known as the "standard premium" and shall be computed in accordance with manual rules and rates which have been approved by the Under Secretary of War.

b. "Losses incurred" as used in this endorsement shall mean the sum of all losses (indemnity and medical) actually paid plus reserves for unpaid losses as determined by the Company and approved by the Insured and the Under Secretary of War.

c. "Modified losses" as used in this endorsement shall mean the losses incurred converted by the application of the factor 1.12.

d. "Allocated claim expense" as used in this endorsement shall mean actual payments and reserves for legal expenses, excluding the cost of investigation and adjustment of claims by salaried employees and fee adjusters, but including attorney's fees, court costs, interest, expense for expert testimony, examination, X-ray, autopsy or medical expenses of any kind not incurred for the benefit of the injured or any other expenses incurred under the policy other than payment of indemnity or medical treatment, provided that only those items of expense which can be directly allocated to a specific claim involving litigation or possible litigation when necessary to determine the Company's liability shall be included.

e. "Fixed charge" as used in this endorsement shall mean the amount provided for fixed expenses and for losses in excess of the maximum. The fixed charge shall be determined by applying the appropriate percentage as set forth in Table I, to the sum of 80% of the standard premium for Workmen's Compensation and Employers' Liability and 100% of the standard premium for Automobile Bodily Injury Liability and Property Damage Liability coverages and all other bodily injury liability and property damage liability coverages combined.

f. TABLE I—TABLE OF FIXED CHARGES

(1) Standard Premium: [1]	(2) *Fixed charge* [2]
$5,000 or less	37.
$10,000	29.
$25,000	22.
$50,000	18.4
$100,000	12.5
$150,000	11.5
$200,000	10.5
$250,000	9.7
$300,000	9.
$350,000	7.5
$400,000 to $700,000	6.5
$700,000 and over	6.3

[1] Standard Premium to be used in determining applicable fixed Charge percentage (80% of Standard Premium for Workmen's Compensation and Employers' Liability and 100% of Standard Premium for all bodily injury liability and property damage liability coverages).

[2] Fixed charge (expressed as a percentage of standard premium stated in column 1).

If the standard premium lies between any two of the figures in the standard premium column, the Fixed Charge shall be interpolated.

g. "Tax Multiplier" as used in this endorsement shall mean the factor as set forth in Table II, to be applied to the fixed charge, to the modified losses and to the allocated claim expense in order to increase those

amounts sufficiently to provide for those taxes which are levied as a percentage of premium and for assessments for industrial commissions, rating boards and bureaus.

h. TABLE II—TABLE OF TAX MULTIPLIERS

State	Workmen's compensation and employers' liability—Tax multiplier applicable to total insurance costs	Automobile bodily injury liability and property damage liability—Tax multiplier applicable to total insurance costs	Other bodily injury liability and property damage liability—Tax multiplier applicable to total insurance costs
All States except as noted below	1.029	1.024	1.024
Alabama	1.034	1.029	1.029
Arkansas	1.050	1.024	1.024

Tennessee	1.050	1.029	1.029
Texas	1.058	1.053	1.051
Utah	1.031	1.026	1.026
Virginia[2]	1.034	1.031	1.031
Washington	----------	1.026	1.026
Wyoming	----------	1.029	1.029

[1] Kansas Compensation Act provides for levying varying fees per claim which are paid into a fund for the support of the Industrial Commission. All such fees must be added to the modified losses before applying the tax multiplier.

[2] Maryland Compensation Act provides for levying assessment per $100 of payroll for expenses of Industrial Commission. An amount equal to 3.4 cents per $100 of payroll must be added to the fixed charges before applying the tax multiplier.

[3] New York Compensation Act provides for levying an assessment on indemnity losses for expenses of the Department of Labor. An amount equal to 4.5% of the indemnity losses incurred must be added to the modified losses before applying the tax multiplier.

2. If Table II fails to provide the proper tax multiplier, the multiplier will be obtained by using the following formula:

$$\text{Tax Multiplier} = \frac{1}{1.0 - (\text{the tax loading plus } 0.8\%)}$$

In any case where the tax multiplier is obtainod by use of the formula and not the table, it will not be used in the premium computation until approved by the insured and the Under Secretary of War.

3. The deposit premium shall be 15% of the estimated annual standard premium.

4. The Company shall be paid 50% of the earned standard premium on policies written on a payroll basis determined monthly by audit of the expended payrolls and 50% of the earned standard premium on all other policies determined monthly on the basis of the actual monthly exposures.

5. The Company shall furnish to the insured and to the War Department a quarterly itemized statement of incurred losses.

6. Within sixty days after termination of the policies, the Company shall compute the aggregate amount of modified losses plus all allocated claim expense times the tax multiplier, the aggregate fixed charge times the tax multiplier and the aggregate earned standard premium, and a preliminary settlement of premium shall be made.

7. Within eight months after termination of the policies, based upon a determination of loss reserves made not earlier than six months after such termination, the final settlement of premium computed in accordance with the provisions of this endorsement shall be made. If the losses so determined are not approved by the insured and the Under Secretary of War and agreement cannot be reached as to any modification thereof, the final settlement shall be deferred for a further period of six months or such further period up to twenty-four months as may be necessary to produce an approved determination of such loss reserves. In the event an approved determination of loss reserves cannot be reached by this method, the matter shall be referred for arbitration to a committee of three, one member of which shall be selected by the insured, one by the Company, and the third by those two members, and the decision of this committee shall be final upon approval by the Under Secretary of War.

8. If the policies are canceled, the earned standard premium shall be determined on a pro rata basis, but if such cancelation is effected by the insured—except for cancelation on termination of the project—the maximum premium shall be 90% of the standard premium for the original policy period, obtained by extending the earned standard premium on a pro rata basis, all increased by the provision for taxes.

ATTACHMENT

The Company may use its usual attachment clause.

NOTE: The method set forth below is to be followed in stating the Name of Employer in Item 1 of the Declarations:

Name of Employer: _____, C.P.F.F. contractor with U.S.A., and others, as described in endorsement _____
(Insert "attached" or number)

---

§ 804.497–4a *Mandatory endorsement amending War Department Insurance Policy Plan regarding approval of losses.* It is agreed that the War Department Insurance Rating Plan endorsement is hereby amended as follows:

(a) The words "the insured and" are deleted from Division b. of paragraph 1, from paragraph 2 and from the second sentence of paragraph 7.

(b) The words "Under Secretary of War" are substituted for the word "insured" in the third sentence of paragraph 7.

Accepted By _____
(Name of Insured)

§ 804.497–5 *General endorsement for general liability policy.*

Amending Policy Numbered _____

It is agreed that:

1. *Name of insured.* The name and address of the Insured are: _____

(Name and address of Contractor)

prime cost-plus-a-fixed-fee contractor under Government Contract No. _____ with the United States of America and _____

(Names and addresses of subcontractors)

cost-plus-a-fixed-fee subcontractors and all other cost-plus-a-fixed-fee subcontractors under such contract.

The prime contractor agrees to notify the Company as soon as practicable of the names of all cost-plus-a-fixed-fee subcontractors under such contract not named herein. Failure so to notify the Company shall not invalidate the insurance.

Any notice relating to this insurance mailed or delivered by the Company to the prime contractor and to the subcontractors named in the policy shall be deemed notice to all subcontractors not named in the policy.

2. *Operations covered.* Such insurance as is afforded by the policy applies to all operations in connection with the contract designated in paragraph 1 of this endorsement and all subcontracts thereunder and does not apply to any other operations of the insured.

3. *Waiver of subrogation against the United States.* The Company waives any right of subrogation against the United States of America which might arise by reason of any payment under the policy.

4. *Rate adjustment.* The rules and rates upon which the standard premium for the policy is based are subject to change at the end of each year of the policy to accord with rules and rates then in use by the Company, subject to the approval of the Under Secretary of War.

5. *Cancelation.* The cancelation condition of the policy is amended as follows:

a. The reference therein to a specified number of days is changed to thirty days.

b. This policy may be canceled by the named insured by mailing written notice to the Company stating when not less than thirty days thereafter such cancelation shall be effective.

c. Cancelation by the Company shall not be effective unless a copy of the notice of cancelation is mailed to _____

(Insert name or names and addresses of Contracting Officers of the technical service involved)

on the same day that notice of cancelation is mailed or delivered to the named insured.

d. In the event of cancelation by the named insured the Company will as soon as practicable mail notice thereof to the officer or officers named in the preceding paragraph.

6. *Aggregate limits.* As respects insurance afforded under the policy for which an aggregate limit of liability is set forth therein such limit of liability shall apply to each year of the policy period.

7. *Interpretation of cross liability.* As respects claims against any insured under this policy other insureds or the employees of other insureds shall be deemed to be members of the public.

8. *Exclusion of products liability.* The policy does not apply.

a. To the handling or use of, the existence of any condition in or a warranty of goods or products manufactured, sold, handled or distributed by the named insured, other than equipment rented to or located for use of others but not sold, if the accident occurs after the insured has relinquished possession thereof to others and away from premises owned, rented or controlled by the insured or on premises for which the classification is stated in the declarations as subject to this exclusion;

b. To operations, other than pick-up and delivery and the existence of tools, uninstalled equipment and abandoned or unused materials, if the accident occurs after such operations have been completed or abandoned at the place of occurrence thereof and away from premises owned, rented or controlled by the insured.

9. *Malpractice.* It is agreed that malpractice, error or mistake in rendering of medical, surgical, nursing or hospital services or treatment or the omission thereof shall be

deemed an accident, and that all malpractice, error or mistake in the rendering or omission of such services or treatment to any one person shall be deemed one accident.

10. *Definition of "cost".* When used as a premium basis the word "cost" shall mean the total cost of all operations performed for the named insured during the policy period by independent contractors not on a cost-plus-a-fixed-fee basis, including materials used or delivered for use, except maintenance or ordinary alterations and repairs on premises owned or rented by the named insured; any other provision of the policy relating to the meaning of the word "cost" when used as a premium basis is eliminated.

11. *Premium adjustment.* The premium for this policy is to be computed in accordance with the provisions of the War Department Insurance Rating Plan Endorsement forming a part of Policy No. _____
(Insert number of Workmen's Compensation Policy)

ATTACHMENT

The Company may use its usual attachment clause.

NOTE: The method set forth below is to be followed in stating the Name of Insured in Item 1 of the Declarations:

Name of Insured _____,
C. P. F. F. contractor with U. S. A., and others, as described in endorsement _____
(Insert "attached" or number)

---

§ 804.497–6 *General endorsement for automobile liability policy.*

Amending Policy Numbered _____

It is agreed that:

1. *Name of Insured.* The name and address of the Insured are: _____

_____,
(Name and address of Contractor)
prime cost-plus-a-fixed-fee contractor under Government Contract No. _____ with the United States of America and _____

_____,
(Names and addresses of subcontractors)
cost-plus-a-fixed-fee subcontractors and all other cost-plus-a-fixed-fee subcontractors under such contract.

The prime contractor agrees to notify the Company as soon as practicable of the names of all cost-plus-a-fixed-fee subcontractors under such contract not named herein. Failure so to notify the Company shall not invalidate the insurance.

Any notice relating to this insurance mailed or delivered by the Company to the prime contractor and to the subcontractors named in the policy shall be deemed notice to all subcontractors not named in the policy.

2. *Automobiles covered.* Such insurance as is afforded by the policy applies with respect to all automobiles owned or hired by the named insured if maintained for use principally in connection with the contract designated in paragraph 1 of this endorsement or any subcontract thereunder and applies with respect to all other automobiles only while used in connection with such contracts. Such insurance does not apply, however, to automobiles used exclusively on the premises and the ways immediately adjoining at which the work under such contracts is performed.

Automobiles owned by the named insured shall for the purposes of this insurance include automobiles owned in full or in part by the named insured or purchased or hired under bailment lease or owned by the United States of America and furnished to the named insured for his use.

Any exclusion with respect to use of an owned or hired automobile as a taxicab, public bus, public or livery conveyance or in the business of trucking for others, or beyond the limitations of restricted use endorsement is waived.

Any provision of the policy relating to fleet discounts is eliminated.

The premium for non-ownership coverage shall be determined by the application of the rates per $1,000 of remuneration for bodily injury liability and for property damage liability stated in the Declarations. The term "remuneration" as used herein shall include the remuneration earned by all employees of the named insured while engaged in operations in connection with such contracts. Any other provision of the Policy relating to premium for such coverage is eliminated.

3. *Waiver of subrogation against the United States.* The Company waives any right of subrogation against the United States of America which might arise by reason of any payment under the policy.

4. *Rate adjustment.* The rules and rates upon which the standard premium for the policy is based are subject to change at the end of each year of the policy to accord with rules and rates then in use by the Company, subject to the approval of the Under Secretary of War.

5. *Cancelation.* The cancelation condition of the policy is amended as follows:

a. The reference therein to a specified number of days is changed to thirty days.

b. This policy may be canceled by the named insured by mailing written notice to the Company stating when not less than thirty days thereafter such cancelation shall be effective.

c. Cancelation by the Company shall not be effective unless a copy of the notice of cancelation is mailed to _____

_____
(Insert name or names and addresses of Contracting Officers of the Supply Service involved)
on the same day that notice of cancelation is mailed or delivered to the named insured.

d. In the event of cancelation by the named insured the company will as soon as practicable mail notice thereof to the officer or officers named in the preceding paragraph.

6. *Interpretation of cross liability.* As respects claims against any insured under this policy other insureds or the employees of other insureds shall be deemed to be members of the public.

7. *Premium adjustment.* The premium for this policy is to be computed in accordance with the provisions of the War Department Insurance Rating Plan Endorsement forming a part of Policy No. _____
(Insert number of Workmen's Compensation Policy)

ATTACHMENT

The Company may use its usual attachment clause.

NOTE: The method set forth below is to be followed in stating the Name of Insured in Item 1 of the Declarations:

Name of Insured: _____
C. P. F. F. contractor with U. S. A., and others, as described in endorsement _____
(Insert "attached" or number)

§ 804.497–7 *General endorsement for workmen's compensation and employers' liability policy.*

Amending Policy Numbered _____

It is agreed that:

1. *Name of employer.* The name and address of this Employer are: _____

_____
(Name and address of contractor)
prime cost-plus-a-fixed-fee contractor under Government Contract No. _____ with the United States of America and _____

_____
(Names and addresses of subcontractors)
cost-plus-a-fixed-fee subcontractors and all other cost-plus-a-fixed-fee subcontractors under such contract.

The prime contractor agrees to notify the Company as soon as practicable of the names of all cost-plus-a-fixed-fee subcontractors under such contract not named herein. Failure so to notify the Company shall not invalidate the insurance.

Any notice relating to this insurance mailed or delivered by the Company to the prime contractor and to the subcontractors named in the policy shall be deemed notice to all subcontractors not named in the policy.

2. *Operations covered.* Such insurance as is afforded by the policy applies to all operations in connection with the contract designated in paragraph 1 of this endorsement and all subcontracts thereunder and does not apply to any other operations of the Employer.

3. *Waiver of subrogation against the United States.* The Company waives any right of subrogation against the United States of America which might arise by reason of any payment under the policy.

4. *Rate adjustment.* The rules and rates upon which the standard premium for the policy is based are subject to change at the end of each year of the policy to accord with rules and rates then in use by the Company, subject to the approval of the Under Secretary of War. This provision applies in addition to any other provision in the policy with respect to changes in rules and rates.

5. *Cancelation.* The cancelation condition of the policy is amended as follows:

a. The reference therein to a specified number of days is changed to thirty days.

b. Cancelation by the Company shall not be effective unless a copy of the notice of cancelation is mailed to _____

_____
(Insert name or names and addresses of Contracting Officer of the Supply Service involved)
on the same day that notice of cancelation is mailed or delivered to the Employer.

c. In the event of cancelation by the Employer the Company will as soon as practicable mail notice thereof to the officer or officers named in the preceding paragraph.

6. *Aggregate limits.* As respects insurance afforded under the policy for which an aggregate limit of liability is set forth therein such limit of liability shall apply to each year of the policy period.

7. *All States coverage.* In the event the Employer is obligated to pay compensation benefits under any Workmen's Compensation law of any state or district of the United States other than a Workmen's Compensation law cited in an endorsement made a part of the policy because of injuries sustained by employees while engaged in operations for the Employer in connection with the contract designated in paragraph 1 of this endorsement and all subcontracts thereunder, the Company agrees to pay such compensation benefits under the law of any such state other than the law of a state which does not permit the writing of Workmen's Compensation insurance by private carriers.

ATTACHMENT

The Company may use its usual attachment clause.

NOTE: The method set forth below is to be followed in stating the Name of Employer in Item 1 of the Declarations:

Name of Employer: _____, C. P. F. contractor with U. S. A., and others, as described in endorsement_____

_____
(Insert "attached" or number)

§ 804.497–8 *Special endorsement for Missouri compensation policies written under the War Department Insurance Rating Plan.*

It is agreed that:

1. The provisions of this endorsement are applicable solely with respect to persons in the employ of this Employer who are engaged in the business operations covered by the policy and whose average annual earnings exceed $3,600.

2. In the event of personal injury or death of any such person arising out of and in the course of his employment, the company will pay, subject to the provisions of paragraphs 3, 4 and 5 hereof, on behalf of this Employer, the same compensation and the same medical, surgical, hospital and other statutory benefits to or for such injured person or to any person claiming by, through, or under him in the event of death resulting from such injury, as would be payable under the Workmen's Compensation Law of Missouri if the injury or death had been that of an employee of this Employer whose average annual earnings were $3,600.

3. In consideration of these payments and as a condition precedent thereto the injured person or any persons claiming by, through or under him shall execute a full release of all claims for damages against this Employer in the manner required by the Company and shall in addition execute an assignment to the Company of any right of action available to any of them against any person, firm, corporation or estate other than this Employer which is or may be liable for such injury or death. If death of the injured shall result after a period of disability, death being due to such injuries and any one claiming by, through or under the injured shall accept any payment provided for in this endorsement which accrues after such death, with notice or knowledge of said release and assignment, the acceptance of such payment shall operate to estop the person so accepting from asserting that such release or assignment is not binding upon him.

4. If the Company proceeds upon such assignment and recovers and collects an amount from the party at fault in excess of the amount of the payments made hereunder, the Company shall first take the necessary expenses of the procedure and shall pay any remaining balance of such excess so obtained to the person or persons executing the assignment. The Company shall have power and discretion to proceed against the party at fault or to settle with said party upon such terms as may seem desirable to the Company, either without litigation or during the pendency thereof.

5. If the injured person or any person claiming by, through or under him shall refuse to accept the payments offered under the provisions of the preceding paragraphs, then the Company may withdraw the foregoing proposal without notice, under which circumstances the Company will be no longer bound by the undertakings expressed in the preceding paragraphs. If any claim, suit or demand is made or prosecuted against this Employer or any other person or organization for damages for such injuries or death, such claim, suit or demand shall be considered as a refusal to accept such payments and the obligations of the Company as expressed in Paragraph One (b) of the Policy as well as all parts of the Policy having reference thereto, subject however, to such limitations or modifications as may be endorsed thereon, shall be available to this Employer and shall be and remain the obligations of the Company as fully and completely as if this endorsement had not been written.

THE _____ INSURANCE COMPANY.

§ 804.497–9 *Special endorsement for Delaware compensation policies written under the War Department Insurance Rating Plan.*

The insurance shall be continuous until completion of the project or operation, except that if the project or operation is of indefinite duration and continues for a longer period than twenty-four months, at the expiration of the first twenty-four months the Rating Plan shall be applied and the policy shall be renewed and the Rating Plan again applied at the end of each twenty-four months' period, as though it were a new project or operation.

It is agreed that except for cancelation under the War Department Insurance Rating Plan Endorsement this policy shall remain in effect for a period of twelve months and shall be renewed from year to year to the completion of the contract described in this policy.

It is also agreed that the Workmen's Compensation Rules and Rates which have been approved by the Industrial Accident Board of the State of Delaware and the Under Secretary of War shall be applicable to this policy and that the rates expressed in this policy shall be subject to change in accordance with the Rate Manuals promulgated by the Delaware Compensation Rating and Inspection Bureau and approved by the Industrial Accident Board of the State of Delaware and the Under Secretary of War.

It is agreed that Workmen's Compensation losses will be valued by the Delaware Compensation Rating and Inspection Bureau in accordance with the instructions of the Industrial Accident Board of the State of Delaware as approved by the Under Secretary of War.

It is further agreed that the named insured will undertake, and the insurance carrier hereby assumes, all of the liability under the Delaware Compensation Law because of injury or death resulting therefrom to employees of subcontractors who perform any part of the work described in this policy under cost-plus-a-fixed-fee contracts. To this end the named insured agrees to notify all subcontractors that he has assumed this liability and has provided the insurance thereof.

This endorsement forms a part of Compensation

Revised Draft. Nov. 5, 1941. Incl. #2.

§ 804.497–10 *Special endorsements for Massachusetts compensation policies written under the War Department Insurance Rating Plan*—(a) *War Project Endorsement Form (D).*

The insurance company shall audit the payroll for the purpose of computing premiums under this policy as soon as possible after its final expiration and, in any event, within eight months. Payroll audits shall not be waived.

(b) *War Department Insurance Rating Plan Endorsement Form (2A).* Amending revised Form 2 (see § 804.497–4).

Clause 1 (a) is hereby amended to read as follows:

The premium computed in accordance with the provisions of the policies, other than this endorsement, shall be known as the "standard premium" and shall be computed in accordance with manual rules and rates which have been approved by the *Massachusetts Commissioner of Insurance* and the Under Secretary of War.

Clause 1 (b) is hereby amended to read as follows:

"Losses incurred" as used in this endorsement shall mean the sum of all losses (indemnity and medical) actually paid plus reserves for unpaid losses as determined by the Company and approved by the *Massachusetts Commissioner of Insurance* and the Under Secretary of War.

Clause 2 is hereby amended to read as follows:

In any case where the tax multiplier is obtained by use of the formula and not the table, it will not be used in the premium computation until approved by *insurance company* and the Under Secretary of War.

Clause 5 is hereby amended to read as follows:

The Company shall furnish to the *Massachusetts Commissioner of Insurance* and to the War Department a quarterly itemized statement of incurred losses.

Clause 7 is hereby amended to read as follows:

Within eight months after termination of the policies, based upon a determination of loss reserves made not earlier than six months after such termination, the final settlement of premium computed in accordance with the provisions of this endorsement shall be made. If the losses so determined are not approved by the *Massachusetts Commissioner of Insurance* and the Under Secretary of War and agreement cannot be reached as to any modification thereof, the final settlement shall be deferred for a further period of six months or such further period up to twenty-four months as may be necessary to produce an approved determination of such loss reserves. In the event such an approved determination of loss reserves cannot be reached by this method, the matter shall be referred for arbitration to a Committee of three, one member to be selected by the insured, one by the carrier and a third by those two members and the decision of this committee shall be final upon approval by the Massachusetts Commissioner of Insurance and the Under Secretary of War.

(c) *General Endorsement for Workmen's Compensation and Employers' Liability Policy.* Amending Workmen's Compensation Endorsement 10 (see § 804.497–7).

The second sentence of paragraph 2, clause 1, is hereby amended so as to read as follows:

Failure so to notify the Company shall not invalidate the insurance but the insurance company shall be entitled to all premiums due on account of the operations of such subcontractor.

Clause 4, is hereby amended so as to read as follows:

The rules and rates upon which the standard premium for the policy is based are subject to change at the end of each year of the policy to accord with rules and rates which the Massachusetts Commissioner of Insurance permits the Company to use, subject to the approval of the Under Secretary of War. This provision applies in addition to any other provision in the policy with respect to changes in rules and rates.

(d) *General Endorsement for Automobile Liability Policy.* Amending Automobile Liability Endorsement 30 (see § 804.497–6).

The second sentence of paragraph 2 of clause 1 is hereby amended so as to read as follows:

Failure so to notify the Company shall not invalidate insurance but the insurance company shall be entitled to all premiums due on account of the operations of such subcontractor.

(e) *War Department Amended Insurance Service Agreement* (see § 804.497–12).

Paragraph 1 of the War Department Insurance Service Agreement is hereby amended by striking out said paragraph 1 and inserting in its place the following new paragraph:

I (We) _____, [1] Insurance Advisor licensed under Gen. Laws, Chap. 175, Sec. 177B, [1] Insurance Agent licensed under Gen. Laws, Chap. 175, Sec. 163, [1] Insurance Broker licensed under Gen. Laws, Chap. 175, Sec. 166, hereinafter called the Party of the First Part, agree, in consideration of a sum of money to be determined as hereinafter set forth, to render complete insurance advisory service to _____, hereinafter called the Party of the Second Part, on all insurance upon which a fixed charge is based, during the construction or operation of _____, located at _____ from the effective date of this Agreement continuously until final settlement of all premiums has been made.

§ 804.497–11 *Special endorsement for Pennsylvania compensation policies written under the War Department Insurance Rating Plan.*

XXIV.—SPECIAL ENDORSEMENT FOR PENNSYLVANIA COMPENSATION POLICIES WRITTEN UNDER THE WAR DEPARTMENT INSURANCE RATING PLAN

The insurance shall be continuous until completion of the project or operation, except that if the project or operation is of indefinite duration and continues for a longer period than twenty-four months, at the expiration of the first twenty-four months the Rating Plan shall be applied and the policy shall be renewed and the Rating Plan again applied at the end of each twenty-four months' period, as though it were a new project or operation.

It is agreed that except for cancelation under the War Department Insurance Rating Plan Endorsement this policy shall remain in effect for a period of twelve months and shall be renewed from year to year to the completion of the contract described in this policy.

It is also agreed that the Workmen's Compensation Rules and Rates which have been approved by the Pennsylvania Insurance Commissioner and the Under Secretary of War shall be applicable to this policy and that the rates expressed in this policy shall be subject to change in accordance with the rate Manuals promulgated by the Pennsylvania Compensation Rating and Inspection Bureau and approved by the Pennsylvania Insurance Commissioner and the Under Secretary of War.

It is agreed that Workmen's Compensation losses will be valued by the Pennsylvania Compensation Rating and Inspection Bureau in accordance with the instructions of the Pennsylvania Insurance Commissioner as approved by the Under Secretary of War.

It is further agreed that the named insured will assume liability in connection with Section 302 (b) of the Compensation Act and the Occupational Disease Act, for employees of subcontractors performing any part of the construction described in this endorsement under cost-plus-a-fixed-fee contracts, and to this end the named insured agrees to notify all subcontractors that he has assumed the position of "statutory employer" for the employees of all such subcontractors.

This endorsement forms a part of Compensation Policy No. _____

Issued to _____

_____

(Insurance Carrier)

§804.497–12 *Texas National Defense Projects*—(a) *Control Endorsement.*

Amending:

Policy No. _____

and all endorsements thereto.

Whereas, the Board of Insurance Commissioners of Texas is vested with the sole and exclusive power and authority to make, fix, prescribe, establish, and promulgate insurance rates and classifications of hazards governing premiums for Workmen's Compensation and Motor Vehicle Insurance as authorized by the laws of the State of Texas, now therefore:

It is agreed that the standard premium as used in this policy or any endorsement attached to it or relating thereto shall mean a premium calculated according to the Manual rules and rates of the Board of Insurance Commissioners of Texas and the special rules and rates promulgated in connection with the War Department Emergency Insurance Rating Plan adopted by the said Board of Insurance Commissioners for use in Texas.

All premium computations provided for in this policy or in any endorsement attached to it or relating thereto shall be promptly submitted by the insurer to the Texas Casualty Insurance Commissioner and shall take effect only upon their promulgation by such Commissioner.

This endorsement, together with the policy to which it is attached and all other endorsements attached or pertaining thereto, is in the form prescribed by the Texas Board of Insurance Commissioners in accordance with statutory direction. Any contract or agreement written under the provisions of the hereinabove mentioned Rating Plan which conflicts in any wise whatsoever with the provisions of this endorsement or with the provisions of Texas law shall be void and of no effect to the extent of such conflict, except as these requirements may conflict with statutes of the United States relating to functions of the United States of America under the Constitution.

(b) *Attachment.* A company may use its usual attachment clause.

(c) *War Department Insurance Service Agreement for use in the State of Texas.*

I (We), _____, hereinafter called First Party, agree, in consideration of a sum of money to be determined as hereinafter set forth, to render complete insurance advisory service to _____ hereinafter called Second Party, on all insurance upon which a fixed charge is based, during the construction or operation—or both—(as the case may be) of _____ located at _____, from the effective date of this Agreement continuously until final settlement of all premiums has been made.

The complete insurance advisory service to be rendered by the First Party shall include a review of all policies of insurance; verification of all statements of premiums, losses and loss reserves submitted to the Second Party by the carrier; verification of all payroll classifications assigned to the policies, a determination that payrolls are assigned to proper classifications; and the rendering of detailed reports of findings to the Second Party, monthly.

The Second Party agrees to pay to the First Party, in consideration of the services to be rendered, a fixed charge, as hereinafter provided, which shall be determined by applying the fixed charge (expressed as a percentage of standard premiums), found in the following table to 50% of the standard premium for all policies issued to the Second Party on the War Department comprehensive rating plan.

FIXED CHARGE TABLE

A *50% of the standard premium as hereinabove defined*	*B* *Fixed charge expressed as a percentage of standard premiums stated in column A*
1st $10,000	7½
Next $40,000	4
Next $50,000	2
Next $400,000	1
Over $500,000	½

The First Party shall submit monthly to the Second Party a detailed statement of the aggregate earned standard premium and the aggregate earned fixed charge less all monthly payments of earned fixed charge to date; except that if this Agreement supersedes a previous agreement which has been terminated, the First Party shall submit to the Second Party, monthly, a detailed statement of the aggregate earned standard premium less that portion earned prior to the date of this Agreement and the aggregate earned fixed charge which shall be determined by applying to the amount of standard premium earned since the effective date of this Agreement, the earned fixed charge percent applicable to the total earned standard premium, less all payments of earned fixed charge made under this Agreement. Upon approval, the Second Party shall pay to the First Party the unpaid portion of the earned fixed charge. A final detailed statement shall be submitted the First Party upon receipt of final audit statements from the carrier and final settlement shall then be made upon approval of such audit by the War Department and the Second Party.

This agreement may be terminated by either of the parties, upon notice in writing to the other party and to the Texas Casualty Insurance Commissioner, and the termination shall be effective immediately upon notice being sent to said Commissioner. The fixed charge shall be determined in accordance with the terms of this Agreement, as of the effective date of termination, and final settlement shall then be made.

This agreement shall be effective and binding on the undersigned from and after _____

consideration of a fee to be determined in the manner hereinafter set forth, to render complete insurance advisory service to _____

_____
(Name of Contractor)

of _____,
(Address of Contractor)

contractor with the United States of America under Contract No. _____ hereinafter called the "Contractor", on all insurance procured under the War Department Insurance Rating Plan with respect to the construction or operation (or both, as the case may be) of _____, located at or near _____; from the effective date of this agreement continuously until final settlement of all premiums for such insurance has been made.

2. The Advisor agrees that he will:

a. Upon request, assist the Contractor in the selection of an insurance carrier;

b. Procure insurance binders and policies and examine to determine that they are correctly written and that the required coverages are provided;

c. Upon request, assist the Contractor in establishing proper procedure and records for determining payroll classifications and for other units of exposure upon which insurance premiums are based;

d. Examine all insurance audit statements and premium invoices;

e. Visit the project or location of operations at least once each month to determine that insurance matters are being properly handled;

f. Render any other assistance of an insurance nature which the Contractor may require; and,

g. Submit to the Contractor monthly a detailed report of findings and of services performed.

3. The Contractor agrees to pay the Advisor a fee for his services, the amount of which shall be determined by applying the applicable percentages set forth in Column B below to 50% of the standard premium accruing during the period of this agreement on policies issued to the Contractor under the War Department Insurance Rating Plan. "Standard Premium" as used herein shall mean the premium for such policies computed on the basis of the manual rules and rates approved by the War Department for use in connection with the policies issued to the Contractor under the War Department Insurance Rating Plan.

FEE SCHEDULE

A *50% of the standard premium as hereinabove defined*	*B* *Fee, expressed as a percentage of standard premiums stated in column A*
1st $10,000	7½
Next $40,000	4
Next $50,000	2
Next $400,000	1
Over $500,000	½

4. The Advisor shall submit monthly a statement of the aggregate earned standard premium and the aggregate earned advisor's fee, less the amount of all fees previously earned. If, however, this agreement supersedes a previous insurance service agreement or agreements, the Advisor shall submit monthly a statement of (a) the aggregate standard premium earned during the term of all agreements; (b) the aggregate standard premium earned during the term of all previous agreements; and (c) the fee earned during the term of this agreement less all fees previously earned under this agreement. The fee earned under this agreement shall be computed by applying the basis of computation as set forth in this agreement to the aggregate standard premium earned during the term of all agreements, and deducting from the total fee thus computed, the portion thereof applicable to the aggregate standard premium earned during the term of all previous agreements. Upon approval by the Contractor of each such monthly statement, the Advisor shall be paid the earned fee. A final statement shall be submitted by the Advisor upon receipt of final audit statements from the insurance carrier and final settlement of the Advisor's fee shall be made as soon as practicable thereafter.

5. The Advisor agrees that he will neither accept employment by nor any remuneration directly or indirectly from the insurance carrier for services rendered in connection with the insurance written under the War Department Insurance Rating Plan covering operations under the contract referred to in paragraph 1 hereof.

6. This agreement may be terminated by either of the parties hereto upon notice in writing mailed to the other party stating when, not less than ten days thereafter, such termination shall be effective. Delivery of such notice shall be equivalent to mailing. In the event of termination a copy of such notice shall immediately be mailed to_____

§ 804.497–22 *Comprehensive Insurance Rating Plan Release.*

COMPREHENSIVE INSURANCE RATING PLAN RELEASE

This release executed this ..... day of ..... 194....., by the ....., (Insurance Company) hereinafter referred to as the insurance company.

Witnesseth that:

Whereas, the said insurance company entered into certain policies of insurance numbered ....., ..., ..., with the ....., the fixed-fee contractor with the United States of America under Government Contract No. ....., and

Whereas, the premiums for such insurance policies are to be computed on the ..... Insurance Rating Plan Endorsement, which is made a part of such policies, and

Whereas, the contract between the United States of America and the fixed-fee contractor provides that the United States of America can settle any and all claims arising thereunder, including insurance premiums, and

Whereas, it is provided in the ..... Insurance Rating Plan Endorsement that all losses, loss reserves and premiums claimed by said insurance company to be due by said contractor are to be approved by the ..... as a prerequisite to their payment by the said fixed-fee contractor, and

Whereas, the said premium has been computed in accordance with the aforementioned ..... Insurance Rating Plan Endorsement and the losses, loss reserves and premiums have been approved by the ..... or his duly authorized representative;

Now, therefore, in consideration of the sum of ..... Dollars, the said ....., (Insurance Company) does by these presents, release quitclaim and forever discharge the said ..... fixed-fee contractor, and the United States of America from any and all premiums, or claims therefor, under the aforesaid insurance policies.

In Witness whereof the ..... (Insurance Company) has caused its name to be signed and executed by ....., its Vice President, and its seal affixed and attested by ....., its Secretary, pursuant to a resolution of its Board of Directors.

Attested:

§ 804.497–25 *Missouri agreement and release.*

Agreement made the _____ day of _____ 194____, by and between _____ hereinafter referred to as the injured person, residing at _____ in _____ State of _____ and _____ Insurance Company of _____, hereinafter referred to as insurer.

Whereas, the average annual earnings of said injured person computed under the workmen's compensation law of the State of Missouri exceed $3,600 so that such law would not be applicable, and

Whereas, the injured person alleges he suffered personal injuries by accident on the _____ day of _____ 194____ at or about _____ in _____ State of _____ while in the employ of _____ of _____ State of _____ hereinafter referred to as employer, and

Whereas, the employer has provided for payment of voluntary workmen's compensation benefits, herein enumerated, by contract with the insurer; *It Is Agreed:*

1. That the insurer will pay to the injured person the sum of $_____ weekly, starting as of the _____ day of _____, 194____, payable bi-weekly and continuing until such time as the insurer shall have paid to the injured person an amount equal to that sum which the injured person would receive had his average annual earnings been $3,600 and had he a valid and enforceable claim for workmen's compensation benefits under the workmen's compensation law of the State of Missouri on account of the aforesaid occurrence.

2. That the insurer will provide the injured person with such medical, surgical and hospital attention as the nature of his injuries resulting from the aforesaid occurrence may require to the extent that the injured person would receive had he a valid and enforceable claim for workmen's compensation benefits under the workmen's compensation law of the State of Missouri.

3. That any difference or controversy arising between the parties with respect to this agreement shall be settled by arbitration. In such event, the injured person shall appoint one arbitrator, and the insurer shall appoint another. The arbitrators thus appointed shall agree upon and appoint a third. All parties hereby agree to be bound by the decision of any two of said arbitrators and hereby waive all rights to take any legal measures except to enforce the arbitrators' award. If the difference or controversy is essentially a medical question the arbitrators so selected shall be duly licensed physicians.

4. That in consideration of the undertakings of the insurer and the payments to be made and benefits to be provided as hereinbefore set forth, the injured person for himself, his heirs, assigns and legal representatives does hereby forever release, discharge, and acquit the aforesaid employer and the insurer, their successors and assigns, heirs and legal representatives of and from any and all causes of action, rights, remedies, claims, suits or judgments the injured person or his heirs, assigns or legal representatives now have or hereafter may have by reason of the aforesaid occurrence.

In witness whereof the parties have hereunto set their hands and seals on the date above mentioned.

§ 804.497–26 *Final receipt and release; Missouri.*

I, _____, residing at _____, in _____, state of _____, hereby acknowledge receipt of ($_____) _____ dollars paid me this day by _____ Insurance Company under an agreement dated the _____ day of _____, 194____

I hereby acknowledge that to this date, including the amount mentioned above, _____ Insurance Company has paid me the total sum of ($_____) _____ dollars; that _____ Insurance Company has fulfilled and carried out in all respects the terms of the aforesaid agreement and that all obligations thereunder, including any obligation to provide medical or other services, have terminated.

In consideration of all said payments and benefits and in conformity with the above-mentioned agreement I, for myself, my heirs and legal representatives do hereby forever release, discharge and acquit _____ Insurance Company and _____ MY employer at the time of the accident or occurrence described in said agreement, of and from any and all causes of action, rights, remedies, claims, suits or judgments I now have or which I or my heirs or legal representatives hereafter may have by reason of the aforesaid agreement, or the accident or occurrence described therein, or under any policy of insurance _____ Insurance Company issued to my said employer.

In witness whereof I have hereunto set my hand and seal on this _____ day of _____, 194____.

§ 804.497–27 *Boiler inspection contract.* The following is the approved form of boiler inspection contract:

The _____ of _____ (hereinafter called the Company) hereby agrees with _____, a contractor with the United States, (hereinafter called the Contractor) to inspect boilers and pressure vessels owned, or operated, or under the control of the Contractor and contained in a plant owned, or operated, or controlled by said Contractor in its capacity as contractor with the United States, as aforesaid, under Contract No. _____ with the United States.

The location of such plant and the location of the Company's Inspection Headquarters designated for the particular plant at which said pressure vessels and boilers are to be inspected are as follows:

Name and location of plant	*Company's inspection headquarters*
Name	Person
Location	Office
Mailing Address	Mailing Address
Telephone Number	Telephone Number

This agreement is subject to the following stipulations and conditions:

1. Such inspections shall be made by duly qualified inspectors regularly employed by the Company, employing methods at least equal to the requirements of the American Society of Mechanical Engineers' Code.

2. The Contractor at its own expense shall make necessary preparations and arrangements for the making of such inspections. The Contractor shall send a written request therefor, at least ten days in advance, to the Company's Inspection Headquarters designated herein for the plant containing the object to be inspected, specifying the kind of inspection desired in each instance, and specifying the time when said inspection is to be made and describing the object to be inspected.

3. Following each inspection the Company will mail a copy of a report of such inspection to the Contractor and _____ copies thereof to the Contracting Officer of the United States at the address of the plant at which the inspection was made, which report shall set forth the conditions found as a result of the inspections.

4. Fees for such inspection service shall be as follows: The Company shall bill the Contractor on the first day of the month following the month in which the report of such inspection was rendered and such fees shall be payable on the tenth day of the month following the month in which the bill was submitted.

(a) $10.00 for each internal inspection of a water tube boiler having a rated heating surface of over 10,000 sq. ft.;

[1] The matter in brackets is optional.

(b) $5.00 for each internal inspection of a water tube boiler having a rated heating surface of not more than 10,000 sq. ft.;

(c) $3.00 for each internal inspection of any other boiler or pressure vessel;

(d) $2.00 for each external inspection of any boiler or pressure vessel;

(e) $1.00 in District No. 1; $2.00 in District No. 2; $3.00 in District No. 3 for each visit made by the Company's Inspector to a plant at the Contractor's request whether or not an inspection is made, which "visit" fees shall be in addition to the fees specified in Sections (a), (b), (c), and (d) of this paragraph. A list of the states comprising each such district is annexed hereto.

(f) The "visit' shall mean a call at any one plant, by any one Inspector, in any one day; if one Inspector calls at one plant more than once in any one day, such calls will be considered as only one "visit".

(g) A "day" shall mean each period of twenty-four hours commencing at the time the inspector arrives at the plant.

(h) "External Inspection" shall mean an examination of a boiler or pressure vessel in operation and under pressure.

(i) "Internal Inspection" shall mean a complete internal and external examination of a boiler or pressure vessel when not in operation or under pressure.

5. The Company shall not be liable directly or indirectly for any loss or injury to property or persons resulting from any accident to, or defect in, any object; nor shall the Company be liable directly or indirectly for loss or damage of any kind arising from an inspection or a report thereof, or from the omission of an inspection or of a report whether or not such inspection or report or omission was at the request of the Contractor.

6. Either party hereto may terminate this agreement by mailing written notice thereof to the other party at the address set out herein, and, at the same time, a copy to the contracting officer at the address of the plant at which the inspection was made, at least thirty days before the effective date of such termination.

In witness whereof, The parties hereto have executed this agreement at _____ on the _____ day of _____ 194__.

The _____ Company,

By _____
Vice President.

Attest: _____
Secretary.

_____
Contractor.

§ 804.499 *Extension of policy period endorsement for workmen's compensation and employers' liability policy.*

Amending Policy Numbered _____

It is agreed that:

1. Item 3 of the Declarations is amended to read:

Policy Period: From _____ to _____ 10__, 12:01 A. M., standard time, at the address stated in Item 1, but if the operations in connection with the project insured have not been completed by the date stated above as the end of the policy period such date is amended, as of such time, to be a date two years beyond said date and suc-

cessive similar amendments are likewise made, severally effective as of the last previous date fixed for the end of the policy period, until a date is so fixed for the end of the policy period which is beyond the time the said operations have been completed.

2. Paragraph 6 of the _____ Insurance Rating Plan Endorsement is deleted and the following substituted therefor:

Within 60 days after the date two years from the effective date of the policies the company shall compute the aggregate amount of modified losses plus all allocated claim expenses times the tax multiplier and the aggregate fixed charge times the tax multiplier and the aggregate earned standard premium (all based upon the insurance in effect for the two-year period), and a preliminary settlement of premium shall be made.

Subsequent cumulative settlements of premium shall be made within 60 days after the anniversary, as of each annual anniversary of the date two years from the effective date of the policies (each based upon modified losses, allocated claim expenses, tax multipliers, the aggregate fixed charge and the aggregate earned standard premium for the entire period of insurance up to the last anniversary), so long as the policies remain in effect.

Within 60 days after termination of the policies the company shall compute the aggregate amount of modified losses plus all allocated claim expenses times the tax multiplier, the aggregate fixed charge times the tax multiplier and the aggregate earned standard premium (all based upon the entire period of insurance), and a cumulative preliminary settlement of premium shall be made.

§ 804.499–1 *Extension of policy period endorsement for general liability policy and automobile liability policy.*

Amending Policy Numbered _____

It is agreed that Item 2 of the Declarations is amended to read:

Policy Period: From _____ to _____ 19__ 12:01 A. M., standard time, at the address stated in Item 1, but if the operations in connection with the project insured have not been completed by the date stated above as the end of the policy period such date is amended, as of such time, to be a date two years beyond said date and successive similar amendments are likewise made, severally effective as of the last previous date fixed for the end of the policy period, until a date is so fixed for the end of the policy period which is beyond the time the said operations have been completed.

[Procurement Reg. 5]

PART 805—FOREIGN PURCHASES

Sec.

805.501 Rescission of regulations.
805.502 Buy American Act.
805.503 Applicable only to food and clothing.
805.504 Procedure for complying with the Acts.
805.505 Clearance through Customs.
805.506 Drawback.
805.507 Marking of shipments.
805.509 Purchases from Canadian suppliers.
805.510 War Production Policy for Canada and the United States.

§ 805.501 *Rescission of regulations.* Army Regulations 5–340, August 10, 1936, as amended, and all other prior directives and instructions relating to the Buy American Act and foreign purchases are hereby rescinded.

§ 805.502 *Buy American Act.* Quoted.

SEC. 1. That when used in this title—

(*a*) The term "United States", when used in a geographical sense, includes the United States and any place subject to the jurisdiction thereof;

(*b*) The terms "public use", "public building", and "public work" shall mean use by, public building of, and public work of, the United States, the District of Columbia, Hawaii, Alaska, Puerto Rico, the Philippine Islands, American Samoa, the Canal Zone, and the Virgin Islands.

SEC. 2. Notwithstanding any other provision of law, and unless the head of the department or independent establishment concerned shall determine it to be inconsistent with the public interest, or the cost to be unreasonable, only such unmanufactured articles, materials, and supplies as have been mined or produced in the United States, and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, or supplies mined, produced, or manufactured, as the case may be, in the United States, shall be acquired for public use. This section shall not apply with respect to articles, materials, or supplies for use outside the United States, or if articles, materials, or supplies of the class or kind to be used or the articles, materials, or supplies from which they are manufactured are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

SEC. 3. (*a*) Every contract for the contruction, alteration, or repair of any public building or public work in the United States growing out of an appropriation heretofore made or hereafter to be made shall contain a provision that in the performance of the work the contractor, subcontractors, material men, or suppliers, shall use only such unmanufactured articles, materials, and supplies as have been mined or produced in the United States, and only such manufactured articles, materials, and supplies as have been manufactured in the United States substantially all from articles, materials, or supplies mined, produced, or manufactured, as the case may be, in the United States except as provided in section 2: *Provided, however,* That if the head of the department or independent establishment making the contract shall find that in respect to some particular articles, materials, or supplies it is impracticable to make such requirement or that it would unreasonably increase the cost, an exception shall be noted in the specifications as to that particular article, material, or supply, and a public record made of the findings which justified the exception.

(*b*) If the head of a department, bureau, agency, or independent establishment which has made any contract containing the provision required by subsection (*a*) finds that in the performance of such contract there has been a failure to comply with such provisions, he shall make public his findings, including therein the name of the contractor obligated under such contract, and no other contract for the construction, alteration, or repair of any public building or public work in the United States or elsewhere shall be awarded to such contractor, subcontractors, material men, or suppliers with which such contractor is associated or affiliated, within a period of three years after such finding is made public. * * * Title III, Act March 3, 1933 (47 Stat. 1520; 41 U. S. C. 10a, b, and c; M. L., 1939, sec. 742).

§ 805.502–1 *Restriction created by Appropriation Act.* (a) The Military Appropriation Act, 1945, approved June 28, 1944 (Public Law 374—78th Congress) contains a proviso that no part of any appropriation contained in that Act "shall be available for the procurement of any article of food or clothing not grown or produced in the United States or its possessions, except to the extent that the Secretary of War shall determine that articles of food or clothing grown or produced in the United States or its possessions cannot be procured of satisfactory quality and in sufficient quantities and at reasonable prices as and when needed, and except procurements by vessels in foreign waters and by establishments located outside the continental United States, except the Territories of Hawaii and Alaska, for the personnel attached thereto."

(b) The restriction created by the provision quoted in paragraph (a) will, for convenience, be referred to hereafter as the appropriation restriction.

§ 805.503 *Applicable only to food and clothing.* The Secretary of War has authority, subject to certain limitations, to make exemptions from both the Buy American Act and the appropriation restriction. Under date of March 13, 1942, the Under Secretary of War exempted from the provisions of the Buy American Act everything except certain articles of food and clothing. The appropriation restriction is applicable only to food and clothing. Hence, preference for domestic over foreign items, may be completely disregarded with respect to items other than food and clothing.

§ 805.503–1 *Exempt items of food and clothing.* In addition to exempting from the Buy American Act, all items other than food and clothing, the Under Secretary of War has exempted from both the Buy American Act and the appropriation restriction certain types of food and clothing. These are set forth in the succeeding sections.

§ 805.503–2 *Canadian purchases.* All items of food or clothing which have been mined, produced or manufactured, as the case may be, in the Dominion of Canada have been exempted.

§ 805.503–3 *Items of food and clothing exempt without regard to country of origin.* The following items of food and clothing have been exempted without regard to country of origin.

Bananas.	Fish oils.
Brazil Nuts.	Flour.
Canned corned beef.	Green olives.
Canned roast beef.	Molasses.
Chewing gum.	Orange and lemon peel.
Chocolate.	Spices.
Cigars.	Sugar.
Citron.	Tapioca.
Cocoa.	Tea.
Coffee.	Vanilla.
Dried beans.	Wheat.
Dried peas.	

§ 805.503–4 *Items of food exempt when purchased from specified countries.* The following items of food have been exempted when purchased from the countries specified.

Canned fish—Mexico.
Fish fillet—Bahama Islands.
Fresh fish—Mexico and Iceland.
Frozen fish—Iceland.
Fresh fruits—Cuba, Mexico and Puerto Rico.

Fresh vegetables—Cuba, Mexico and Puerto Rico.
Guava puree—Cuba.
Guava concentrate—Cuba.

§ 805.503–5 *Exemption of certain types of clothing.* It has been determined by the Under Secretary of War that clothing shall not be subject to the restrictions of the Buy American Act or the appropriation restriction merely because it has been manufactured from one of the following materials produced abroad.

Asbestos.	Mohair.
Cork.	Rayon.
Cotton linters	Rubber.
Cotton, long staple.	Silk.
Flax.	Sisal.
Flaxseed.	Tanning materials.
Hemp.	Hides (and skins).
Jute, unmanufactured.	Hog bristles.
Kapok.	Jute burlaps.
Leather.	Wool.
Manila fiber.	

§ 805.503–6 *Contract clause.* The contract clause set forth in § 803.327, will be inserted in all contracts for food or clothing except contracts for the items of food or clothing enumerated in §§ 805.503–2 to 805.503–5.

§ 805.504 *Procedure for complying with the acts.* In making purchases of articles of food or clothing which are still subject to the restrictions of the "Buy American" Act, or any cognate act, the chief of the technical service concerned should make every effort to satisfy his requirements for such articles out of domestic production. In any case where the chief of the technical service finds it essential to purchase articles of food or clothing of foreign production, a recommendation should be submitted to the Director, Purchases Division, Headquarters, Army Service Forces.

§ 805.505 *Clearance through customs.* The procedure for clearing through customs materials imported by the War Department is set forth in detail in Circular No. 407, War Department, 1942. That circular also describes the circumstances under which such materials may be admitted free of duty. All personnel concerned with procurement of materials abroad should familiarize themselves with the contents of the circular.

§ 805.505–1 In connection with Circular No. 407, attention is invited to the following points:

(a) Except as indicated in paragraph (b) below, materials imported by the War Department will be consigned to the War Department or to an official of the War Department acting in his official capacity (where necessary or convenient, in care of a commercial plant or firm). In such cases the bill of lading or carrier's certificate will show the War Department or an official of the War Department as consignee.

(b) War Department Lend-Lease materials imported through an inland border point and destined to a United States port for waterborne export will be consigned as follows:

To War Shipping Administrator, as principal, for account of _____
(Authorized agency of Lend-Lease government)

Send arrival notices to _____
(Name and address of appropriate War Shipping Administration forwarding corporation at port of export)
and
United States Army Port Agency
_____
_____
(Address and port of export)

The carrier's certificate will show the War Department as owner or consignee of the materials.

(c) Materials consigned as indicated in paragraph (a) or (b) of this section will not be held at ports of entry for the filing of entry papers, but in all cases entries will be prepared as soon after release as possible and filed at the ports of entry. Materials so consigned will in no instance be forwarded in bond.

(d) All entries of materials imported by the War Department will be made in the name of the War Department.

(e) In the event materials held in customs bonded warehouse at a point within the United States are purchased by the War Department, the warehouse withdrawal will be properly endorsed to show the War Department as authorized to make withdrawal, and the withdrawal from warehouse will be made in the name of the War Department.

§ 805.506 *Drawback.*

§ 805.506–1 *Provisions of Tariff Act.* Under the provisions of the Tariff Act of 1930 (see Chapter 4, Title 19, U. S. Code) it is provided that under certain circumstances the amount of customs duties paid on merchandise imported shall be refunded as a "drawback". The most usual circumstance under which this right arises is when there are exported out of the United States articles which were manufactured or produced in the United States with the use of merchandise imported from abroad. It is provided that the full amount of the duties paid on the merchandise so used, less 1% of such duties, shall be refunded as a "drawback".

§ 805.506–2 *Customs regulations.* The problem frequently arises as to who is entitled to claim the drawback. Assume, for example, that an importer manufactures with the imported merchandise an end product which he sells to an exporter. Under the act referred to in § 805.506–1, someone is entitled to a refund of the import duties. The rule for determining whether the manufacturer or the exporter is entitled to this refund is stated in Article 1070 of the Customs Regulations. This regulation provides that a manufacturer of articles with respect to which there is a right to a drawback is not entitled to the drawback unless, on the sale or consignment of the articles, he has reserved to himself the right to claim the drawback and produces evidence that such reservation was made with the knowledge and consent of the exporter.

§ 805.506–3 *Purchase price to include custom duties.* Whenever the Government purchases articles, with respect to which there might arise a claim to a drawback, the price paid shall include the customs duties, and accordingly the manufacturer will have no claim to a drawback.

§ 805.507 *Marking of shipments.*

§ 805.507–1 All materials procured abroad will be marked as prescribed in memorandum issued under date of June 1, 1943, by the Office of The Adjutant General, file 400.161 (5–19–43 OB–S–SPMOT–M), except that materials imported through an inland border point and destined for an interior point within the United States will be marked as prescribed in § 805.507–2.

§ 805.507–2 In all cases of materials imported through an inland border point and destined for an interior point within the United States, each container included in a less than carload lot (LCL), less than truck load lot (LTL), express, parcel post, or other shipment where markings are required will be marked to indicate that the U. S. War Department or an official of the U. S. War Department acting in an official capacity is the consignee.

§ 805.509 *Purchases from Canadian suppliers.*

§ 805.509–1 *No contracts to be made directly.* The technical services shall not directly enter into contracts with contractors domiciled in the Dominion of Canada for the delivery of supplies to be produced in Canada. All such contracts will be entered into with War Supplies Limited through its Washington representatives, or, under the circumstances set forth in § 805.503–9, with North West Purchasing Limited. Such corporation will then arrange with the Canadian Department of Munitions and Supply for the purchase by that Department from Canadian contractors of the supplies covered by the contracts between the War Department and War Supplies Limited or North West Purchasing Limited, as the case may be.

§ 805.509–2 *War Supplies Limited.* War Supplies Limited is a corporation wholly owned and controlled by the Government of Canada and created under the laws of the Dominion of Canada with its principal office in the city of Ottawa, Province of Ontario. A Washington office is maintained at 1235 Fifteenth Street, N. W., (Marshall Building), telephone Executive 2020, Extensions 120, 121, 186 and 556. The representatives of the Corporation in Washington are Mr. F. G. Rounthwaite, President, and Acting General Manager and Mr. D. C. Cullen, Treasurer and Assistant Secretary.

§ 805.509–3 *Purpose of organization of War Supplies Limited.* At the time that War Supplies Limited was organized it was recognized that if the various agencies of this government were to purchase directly from Canadian manufacturers competition for supplies produced in Canada would arise between this government and the Canadian government. The result would, in all probability, be that both governments would be obliged to pay more for the supplies so obtained than would otherwise be necessary.

Such competition likewise would give rise to complications with respect to the precedence of the two governments with regard to the production of Canadian plants. It was also recognized that unless orders for the account of the United States government were placed through some agency of the Canadian government, the control over costs and profits which the Canadian Government exercises would not be effective with regard to orders so placed by this government. Accordingly War Supplies Limited was organized to centralize purchases by this government from Canadian manufacturers.

§ 805.509–4 *Procedure for negotiating contract.* If practicable, arrangements should be made through War Supplies Limited to have a representative of the subcontractor, who, it is contemplated, will actually produce the item desired, present in Washington to participate in the negotiation of the contract. In this way the prime contract and the contract with the producer can be prepared simultaneously.

§ 805.509–5 *Administration of contract.* On matters pertaining to contracts with War Supplies Limited, contact should be had with said corporation and not with the Canadian subcontractor. The only exception to this would be in those cases where the technical service is represented at the plant through inspectors or other officers, in such instances communication with the subcontractor through the resident representative is in order on inspection and technical matters. Payment checks should be issued to War Supplies Limited and addressed to that corporation at its Washington office.

§ 805.509–6 *Contract form.* The contract form set forth in § 813.1313 should be used for executing supply contracts with War Supplies Limited, subject to such additions and deletions as may be necessary in any particular case. It will be noted that no provision relative to progress or advance payment is made in the form. This matter will be considered individually in each case. In accordance with § 805.505 no duty will be paid and accordingly no duty should be included in the purchase price. If it is necessary in a particular case, there may be added to the contract form a statement to the effect that the United States Government will pay any duties necessarily imposed for the entrance of articles into the United States.

§ 805.509–7 *Guarantee by Canadian Government.* The Canadian Government, through its Secretary of State for External Affairs, has guaranteed to the United States Government all commitments, obligations and covenants which War Supplies Limited may give to any department or agency of the United States Government in connection with any contracts or orders which may be given to said corporation by any department or agency of the United States Government. The Canadian Government has likewise waived notice of any change or modification which may be made from time to time in these commitments, obligations or covenants.

§ 805.509–8 *Excess profits on contracts with War Supplies Limited.* In a letter dated September 10, 1942, addressed to the Under Secretaries of War and Navy and to the Chairman of the Maritime Commission, War Supplies Limited, stipulated in part as follows:

> All contracts with the War Department will be treated collectively and not individually, and if the aggregate profits realized by private corporations under such contracts are in excess of ten percent of cost, the amount of the excess will be refunded.
>
> * * * * *
>
> The Canadian Government will not make any profit on the aggregate of the transactions. However, it is understood that any losses to the Canadian Government on individual contracts may be recovered out of profits realized on other contracts.

The standard renegotiation clause will not be included in contracts with War Supplies Limited.

§ 805.509–9 *Purchases in Canadian Northwest.* (a) In the past, contracts with suppliers domiciled in the Dominion of Canada for the purchase of materials, machinery, machine tools, and equipment necessary for the construction and maintenance of War Department projects in the Canadian Northwest, including the Alcan highway and associated projects, were not normally made direct with the suppliers but with North West Purchasing Limited, a Canadian Crown Company incorporated by the Canadian Department of Munitions and Supply.

(b) As of August 31, 1944 North West Purchasing Limited ceased to exist as a Crown Company.

(c) Accordingly, future contracts of the type described in paragraph (a) above will be entered into with the suppliers and not with North West Purchasing Limited. Normally, however, the agency of the Department of Munitions and Supply located at Edmonton, Alberta, will be given advance notice of required purchases and will allocate and negotiate the contracts. In unusual cases clearance through the agency of the Department of Munitions and Supply may be dispensed with, under such regulations as may be issued by the Commanding General, Northwest Service Command. See also §§ 812.1205–4 and 812.1291–1.

§ 805.510 *War production policy for Canada and the United States.* Having regard to the fact that Canada and the United States are engaged in a war with common enemies, the President of the United States and the Canadian War Cabinet have, upon the recommendation of the Joint War Production Committee of Canada and the United States, approved a declaration of policy calling for a combined, all-out war production effort and the removal of any barriers standing in the way of such a combined effort. Such declaration of policy follows:

> Victory will require the maximum war production in both countries in the shortest possible time; speed and volume of war output, rather than monetary cost, are the primary objectives.
>
> An all-out war production effort in both countries requires the maximum use of the labor, raw materials and facilities in each country.
>
> Achievement of maximum volume and speed of war output requires that the production and resources of both countries should be effectively integrated, and directed towards a common program of requirements for the total war effort.
>
> Each country should produce those articles in an integrated program of requirements which will result in maximum joint output of war goods in the minimum time.
>
> Scarce raw materials and goods which one country requires from the other in order to carry out the joint program of war production should be so allocated between the two countries that such materials and goods will make the maximum contribution toward the output of the most necessary articles in the shortest period of time.
>
> Legislative and administrative barriers, including tariffs, import duties, customs and other regulations or restrictions of any character which prohibit, prevent, delay or otherwise impede the free flow of necessary munitions and war supplies between the two countries should be suspended or otherwise eliminated for the duration of the war.
>
> The two Governments should take all measures necessary for the fullest implementation of the foregoing principles.

§ 805.510–1 The President of the United States has directed the affected departments and agencies of the Government to abide by the letter and spirit of the foregoing policy so far as lies within their power. It is directed that the chief of each technical service wholeheartedly cooperate in an effort to make such policy effective in action. Manufacturing facilities available in the United States and in Canada should be placed upon an equal basis so far as awards of production orders are concerned, having in mind that time is of the essence and that, other things being equal, production of essential war materials at the earliest practicable date is the immediate aim of the Army Service Forces.

§ 805.510–2 Under the provisions of the Act of March 3, 1933 (see § 805.502), it has been determined by the Under Secretary of War to be inconsistent with the public interest to limit procurement of essential defense articles to those manufactured, mined or produced within the United States.

[Procurement Reg. 6]

PART 806—INTERBRANCH AND INTERDEPARTMENTAL PURCHASES

SUBPART A—GENERAL

Sec.	
806.601	Rescission of regulations.
806.602	Definitions.

SUBPART B—INTERBRANCH PROCUREMENT

806.604	Report of actions of the Procurement Assignment Board.
806.605	Assignments made by the Board.
806.605a	Indefinite quantity contracts executed by various technical services.
806.605c	Standard Master Ship Repair Contract.
806.605d	Indefinite quantity contracts executed by the Office of the Quartermaster General.

SUBPART C—INTERDEPARTMENTAL PURCHASES

Sec.
806.606 Purchases under contracts of Procurement Division, Treasury Department.
806.606a Regional and district warehouse and supply centers of Treasury Department, Procurement Division.
806.606b Stock Catalog, Washington, D. C.
806.606c Blind-made products.
806.607 Purchases under contracts of Navy Department.
806.608 Purchases from Federal Prison Industries, Inc., Department of Justice.
806.608a Purchases from State prisons and other correctional institutions.
806.609 Purchases under contracts of Post Office Department.
806.610 Purchases from Government Printing Office.
806.611 Purchases from other agencies of the Government.
806.612 Purchase of property pursuant to Public Law 670.
806.613 Procurement of surplus property from disposal agencies.
806.614 Form of delivery order to be used in making interdepartmental or interbranch purchases.

SUBPART A—GENERAL

§ 806.601 *Rescission of regulations.* Army Regulations 5–300, December 10, 1936, as amended; Army Regulations 5–320, October 10, 1936, as amended; and all other prior directives and instructions relating to interbranch and interdepartmental procurement inconsistent herewith are hereby rescinded.

§ 806.602 *Definitions.*

§ 806.602–1 *Procurement.* The term "procurement" as used in this part refers to the procedure necessary to obtain a given item or class of items and includes the execution of the following functions:

(a) *Specification (Abbr. Spec.)* This function involves the responsibility for the preparation or supply of specifications in accordance with the provisions of AR 850–25 to be used in the procurement of the item or items. Specifications will be such as to provide items meeting the approved military characteristics. For items not covered by military characteristics, specifications will be such as to provide items meeting the technical requirements of the using arms and services and the services interested therein by virtue of their missions.

(b) *Determination of requirements (Abbr. Reqs.).* This function involves the determination by a technical service of its own requirements as well as the requirements of the using arms for which the technical service is responsible under existing Army Regulations. When only one service is indicated as having responsibility for determination of requirements for an item it shall be understood that said service is responsible for consolidating the requirements of all arms and services.

(c) *Provision of funds (Abbr. Funds).* This function involves the preparation of estimates, defense of estimates, and custody of funds.

(d) *Purchase (Abbr. Pur.)* This function consists of contracting for a given item or class of items or manufacturing such items in Government-owned establishments under the jurisdiction of a technical service, and includes final acceptance.

(e) *Inspection (Abbr. Insp.).* This function consists of making the inspections necessary for final acceptance of any item from the contractor.

§ 806.602–2 *Interbranch and interdepartmental procurement.* The term "interbranch procurement" refers to the procurement of items by one technical service for another technical service. The term "interdepartmental procurement" refers to the purchase of items by one department or agency of the government from another department or agency thereof.

SUBPART B—INTERBRANCH PROCUREMENT

§ 806.603 *Authority of Procurement Assignment Board.* The Procurement Assignment Board, Headquarters, Army Service Forces, is authorized to assign responsibility for all functions of procurement enumerated in § 806.602–1 in regard to any item or class of items subject to the following limitation: Prior to the assignment by the Procurement Assignment Board of the "specification" function the Board will obtain the concurrence of the Production Division, Headquarters, Army Service Forces, and prior to the assignment of the "provision of funds" function the Board will obtain the concurrence of the Budget Officer for the War Department. The Director of the Production Division and the Budget Officer will each designate a representative to participate in meetings of the Procurement Assignment Board. With respect to a given item or class of items all functions may be assigned to one technical service or apportioned among different technical services. Unless and until action is taken by the Procurement Assignment Board the responsibility for the performance of the functions enumerated in § 806.602–1 in respect to an item or class of items will remain with the technical service or technical services exercising such responsibility.

§ 806.603–1 *Army Air Forces.* When action by the Board is to be taken in regard to an item in which the Army Air Forces have a substantial interest, it will be understood that the Army Air Forces will be given an opportunity to be heard on the matter, and that if the Army Air Forces disagree with any action proposed to be taken by the Procurement Assignment Board, an effort will be made by the Board to reconcile the disagreement by a conference with a representative designated by the Commanding General, Army Air Forces; and that in the event a satisfactory agreement cannot be reached in this manner, the Board and the representative of the Army Air Forces will jointly prepare a brief setting forth their respective views on the matter, which brief will be submitted to the Under Secretary of War, who will make the final decision.

§ 806.603–2 *Purchase of an item by other than the service assigned such responsibility.* (a) Purchase of item shall be made by the services assigned responsibility for purchase of such item except under the circumstances indicated in paragraph (b), (c) and (d) of this section.

(b) When an item is required within a brief period of time and, in the judgment of the service requiring it, cannot be provided in such time by the service having responsibility for purchasing it, the item may be purchased by the requiring service: *Provided, however,* That in connection with emergency purchases of paper and paper products, the procedure established in paragraph 8, War Department Supply Bulletin SB 10–8, 1945, will be observed.

(c) Purchase may be made by a service other than the service to which responsibility for purchase of an item has been assigned, if the latter service has granted authority. This may be done by the issuance of general instructions or by consent granted with respect to a specific transaction.

(d) When items are purchased on behalf of a lump sum contractor on the understanding that an appropriate reduction will be made in the contract price, or when an item is purchased for a cost-plus-a-fixed-fee contractor which would normally be obtained by the cost-plus-a-fixed-fee contractor itself, purchase may be effected by a service other than the service having responsibility for purchasing the item.

(e) In the event that any purchase made pursuant to paragraph (b) above involves an expenditure in excess of $5,000, a prompt report of the transaction will be made to the chief of the technical service having responsibility for the purchase of the item and a copy of such report will be sent to the Procurement Assignment Board, Headquarters, Army Service Forces.

(f) Purchases made pursuant to the provisions of this paragraph will be subject to the applicable restrictions concerning local purchases and purchases of restricted or prohibited items. See § 811.1187 et seq.

§ 806.603–3 *Clearance of instructions with Board.* All instructions by Army Service Forces, Staff Divisions thereof, or Army Air Forces to be issued in War Department or Army Service Forces publications concerning:

(a) Transfer of any of the functions of procurement from one technical service to another or to or from the Army Air Forces, or

(b) Assumption of any of the functions of procurement by a technical service or the Army Air Forces;

shall be submitted for concurrence and clearance to the Procurement Assignment Board, Headquarters, Army Service Forces, before publication.

§ 806.603–5 *Transfer of responsibility for purchase.* When action by the Board centralizes the responsibility for the purchase of a given item or class of items in a technical service:

(a) Any other technical service having such an item or class of items on order will promptly compile and transmit to the service assigned such responsibility a list of all outstanding orders

for such items. These lists will indicate the following:

(1) Number and adequate description of items including specifications and applicable funds;

(2) Name and address of supplier;

(3) Unit price;

(4) Delivery dates;

(5) Status of deliveries, to be supplemented monthly;

(6) Contract or purchase order symbol; and

(7) Partial payments or advance payments already made.

(b) Unless both services agree that such transfer is undesirable, all existing contracts shall be transferred to the service to which responsibility for purchase has been assigned, effective upon a date mutually agreed upon by the participating services, but not later than 60 days after notification to the services by the Board of its action.

(c) Signed instruments and other contractual documents shall be delivered to the service to which responsibility for purchase has been assigned not later than the effective date determined in paragraph (b) of this section.

(d) The transfer shall be effeted by the execution by the original contracting service of a supplemental agreement changing the allotment number and making any other necessary changes, or by such other means as may be determined by the service to which responsibility for purchase has been assigned.

§ 806.603–6 *Procedure.* (a) All technical services requiring an item for which determinations of requirements and provisions of funds therefor have been assigned to another service, will assist the responsible technical service by furnishing to it statements of their requirements at such times as may be called for by the responsible technical service.

(b) The technical service or services having responsibility for determination of requirements will forward requisitions for requirements and allotment of applicable funds to the technical service having responsibility for purchase at such times and for such periods as may be specified by the latter.

(c) When circumstances warrant, requirements may be forwarded by the most expeditious method available through the service responsible for the determination of requirements to the service responsible for purchase, and will be confirmed by a formal requisition.

(d) Each requisition from a service responsible for determination of requirements and provision of funds will contain a certificate of availability of funds and citation of the applicable allotment number.

(e) Where items are assigned to a technical service other than the Medical Department for the requirements of the Army at large, the separate and additional requirements for such items for hospitals are not included therein. Determination of requirements and provision of funds for such separate and additional requirements for hospitals are the responsibility of the Medical Department.

§ 806.603–7 *Procurement within the United States for armed forces abroad.* It is to be noted that the action of the Procurement Assignment Board governs procurement within the United States for armed services abroad (see § 801.108–7). When an item is to be purchased for the armed forces abroad it should be purchased by the technical service to which responsibility for purchasing the item has been assigned by the Procurement Assignment Board.

§ 806.603–8 *Spare parts.* The assignments of responsibility for procurement of items or classes of items by the Procurement Assignment Board will be deemed to define in identical manner the responsibility for procurement of spare parts for all such items or classes of items, unless otherwise specifically indicated herein.

§ 806.604 *Report of actions of the Procurement Assignment Board.* (a) There is contained in Appendix I to these procurement regulations[1] a condensed record of the assignments made by the Board since the beginning of the calendar year 1942. Actions taken by the Board are reported in ASF circulars. From time to time, information as to such actions will be consolidated in the Appendix. Reference is made to the first page of the Appendix for a more complete statement as to what is covered therein.

(b) Certain actions of the Board are set forth in the sections immediately following. The Appendix, however, contains cross references to these sections.

§ 806.605 *Assignments made by Board.*

§ 806.605–1 *Assignment of fuel: charcoal, coal, coke, dust fuels, gas, gasoline, oil (fuel), wood, etc. (FSSC Class 7).*

Items	Spec.[1]	Req.	Funds	Pur.	Insp.
Gasoline with Octane Rating Higher than 80: All Uses. (This assignment covers but is not limited to the uses enumerated below, and assignments as to such uses are modified accordingly.)	AAF	AAF	AAF	AAF	AAF
Army Air Forces Aircraft: All fuels, except gasoline with octane rating higher than 80, which is covered above	AAF	AAF	AAF	AAF	AAF
Automotive, excluding fire apparatus, and vehicles required for construction activities of the Corps of Engineers:

Petrolatum (medicinal)	MED	MED	MED	QMC	MED
Paraffine, refined for dental, histological and pharmaceutical use	MED	MED	MED	QMC	MED
Solvents, petroleum	ORD	QMC	QMC	QMC	QMC
Oils, lubricants and greases—all other uses	ORD	QMC	QMC	QMC	QMC

[1] The service or services (other than the Army Air Forces) assigned the function of "Specification" for the petroleum products listed above shall coordinate and clear this function with the War Department Committee on Liquid Fuels and Lubricants through the Fuels and Lubricants Division, Office of the Quartermaster General.

To the extent that the assignments of responsibility for the functions of procurement set forth in this paragraph are inconsistent with the provisions of Circular No. 33, Headquarters, Army Service Forces, 1943, the provisions of said Circular No. 33 are superseded hereby.

[2] Except responsibility for specification for Oil, Fuel Diesel No. 2 or equal, (FSSC Class 7) which is the responsibility of the Ordnance Department.

§ 806.605a *Indefinite quantity contracts executed by various technical services.* In the succeeding sections there is set forth information with respect to certain indefinite quantity contracts executed by various technical services under which all of the technical services are obliged to purchase their requirements. However, when it appears to his satisfaction that an item contracted for under an indefinite quantity contract was not purchased under such contract because the necessity of doing so was overlooked, the chief of the technical service which executed the indefinite quantity contract may ratify the purchase. This will be done, however, only where it appears that the oversight represents an isolated instance and not a continued course of neglect. A statement should be presented to the chief of the technical service setting forth all the facts, including the contract price paid as compared to that payable under the indefinite quantity contract and all facts bearing upon the failure to purchase under the indefinite quantity contract.

§ 806.605b *Indefinite quantity contract for safety glass.* As of April 1, 1945, the Ordnance Department has executed an indefinite quantity contract for safety glass in ordnance vehicles. Pertinent excerpts from this contract are set forth in Ordnance Procurement Circular No. 97–45, and in paragraph 6,068.2 of Ordnance Procurement Instructions, as amended.

§ 806.605c *Standard Master Ship Repair Contract.*

§ 806.605c–1 A form of contract for the repair and alteration of vessels has been approved as a standard form of contract and assigned the number "TC Form No. 103" (see § 803.304–1 (c)). TC Form No. 103 is the War Department version of a master contract for the repair and alteration of vessels devised jointly by the War Department, the Navy Department and the War Shipping Administration.

§ 806.605c–2 When executed with a particular contractor, TC Form No. 103 establishes the basis upon which that contractor will perform such repair and alteration work on vessels within the jurisdiction of the War Department as may be assigned to the contractor by means of job orders issued pursuant to the contract. All such work will be assigned to the contractor by means of job orders under the contract, unless the Chief of Transportation or his authorized representative grants prior approval to the use of a different method of contracting.

§ 806.605c–3 Colonel Harold S. Wright, T. C., Commanding Officer, Army War Ship Repair Contract Agency, 25 Broad Street, New York 4, N. Y. (see Memorandum No. S55–15–43, 7 June 1943, creating this Agency), has been appointed contracting officer for the execution and administration of contracts written on TC Form 103, and authority has been delegated to the Chief of Transportation to appoint a successor and additional contracting officers for the same purpose. Contracts on TC Form No. 103 will be executed only by contracting officers appointed pursuant to this section.

§ 806.605c–4 Contracting officers appointed pursuant to § 806.605c–3 above have authority to designate officers and civilian officials of the War Department as their representatives and to empower such representatives to take all action under particular contracts or groups of contracts on TC Form No. 103 which could lawfully be taken thereunder by the contracting officers themselves, including the power to issue and administer job orders.

§ 806.605c–5 Colonel Wright has designated the following as his representatives, with power to issue and administer job orders, subject to various conditions and limitations:

(a) The officer certified for the purpose by or under the direction of the Commanding General of each Service Command, the Commanding General, Army Air Forces, and the Chief of Engineers, for each installation under their respective commands.

(b) The officer certified for the purpose by the commanding officer of each port of embarkation and by each Zone and District Transportation Officer.

Certification of a contracting officer's representative may be made by name or official title. Certification is effective upon acknowledgment of receipt by Colonel Wright.

§ 806.605c–6 From time to time the Chief of Transportation will cause to be published information concerning the contracts on TC Form No. 103 which have been executed for the War Department, including the contract numbers, names and addresses of contractors, location of shipyards, contract periods, "billing rates," etc. The publications will also name the contracting officer's representatives who have been authorized to issue job orders under the contracts, and set forth instructions applicable to the issuance and administration of job orders.

§ 806.605c–7 A Joint Board, consisting of one representative each for the Secretary of War, the Secretary of the Navy and the War Shipping Administrator, has been constituted pursuant to the provisions of Article 5, subparagraphs (b) (ii) and (d) of TC Form No. 103 for the purpose of making recommendations as set forth in said subparagraphs.

§ 806.605c–8 The contracting officer for the War Department shall act jointly with the contracting officers for the Navy Department and War Shipping Administration to formulate policies and obtain uniformity of interpretation, administration and billing rates.

§ 806.605d *Indefinite quantity contracts executed by the Office of the Quartermaster General.* The tabulation set forth below contains certain information with respect to all indefinite quantity contracts executed by the Office of the Quartermaster General, which are applicable to purchases made by activities outside the jurisdiction of the Quartermaster General. More complete information as to these contracts is contained in the War Department Supply Bulletins referred to in the tabulation. These Supply Bulletins are available at Adjutant General Depots.

[2] The basic contracts for greases and gear lubricants are contracts of Treasury Department, Procurement Division.

SUBPART C—INTERDEPARTMENTAL PURCHASES

§ 806.606 *Purchases under contracts of Procurement Division, Treasury Department.*

§ 806.606–1 *Basic law.* The act of March 3, 1933 provided in part as follows:

* * * Accordingly, the President shall investigate the present organization of all executive and administrative agencies of the Government and shall determine what changes therein are necessary to accomplish the following purposes: * * * To group, coordinate, and consolidate executive and administrative agencies of the Government, as nearly as may be, according to major purposes; * * * To eliminate overlapping and duplication of effort; * * * (47 Stat. 1517; 5 U. S. C. 124).

Pursuant to the above act there was issued under date of June 10, 1933, Executive Order Number 6166 which provides in part as follows:

The function of determination of policies and methods of procurement * * * of property, facilities, structures, improvements, machinery, equipment, stores, and supplies exercised by any agency is transferred to a Procurement Division in the Treasury Department, at the head of which shall be a Director of Procurement. * * * In respect of any kind of procurement * * * for any agency the Procurement Division may, with the approval of the President, (a) undertake the performance of such procurement * * * itself, or (b) permit such agency to perform such procurement * * * or (c) entrust such performance to some other agency, or (d) avail itself in part of any of these recourses, according as it may deem desirable in the interest of economy and efficiency. When the Procurement Division has prescribed the manner of procurement * * * of any thing, no agency shall thereafter procure * * * such thing in any manner other than so prescribed. The execution of work now performed by the Corps of Engineers of the Army shall remain with said corps, subject to the responsibilities herein vested in the Procurement Division. * * *

Under date of April 12, 1935 there was issued by the Procurement Division, Treasury Department, with the approval of the President, a regulation which provides in part as follows:

* * * Those supplies of which the procurement * * * is to be controlled (by the Procurement Division) * * * will be listed and communicated to the executive departments as may be necessary, and thereafter no individual procurement * * * of these articles shall take place except in emergencies. * * *

§ 806.606–2 *Requirement.* Purchases will be made from contracts of the Procurement Division, Treasury Department (General Schedule of Supplies), when so directed by the chief of the technical service concerned or when required by the terms of the contracts unless the item can not be furnished under such contracts within the time that the item is required by the technical service concerned.

§ 806.606–3 *Emergency purchases.* In any case where, pursuant to the provisions of § 806.606–2, purchases of an item listed in the General Schedule of Supplies is not made under a General Schedule of Supplies contract because the item could not be furnished under such a contract within the time that the item was required, the voucher submitted to the disbursing officer for payment shall contain a finding that:

(a) The purchase was justified because the item could not be furnished under the General Schedule of Supplies Contract within the time in which the item was required; and

(b) The purchase outside the General Schedule of Supplies Contract was necessary to facilitate the prosecution of the war and was authorized under the First War Powers Act and Executive Order No. 9001.

Such finding shall be final and conclusive. The authority to make such a finding is vested in the chiefs of the technical services and may be delegated to any officer or civilian official under their jurisdiction, including the contracting officer. It is to be emphasized that this authority is only to be used when necessary, and that it should not be construed to authorize disregard of the requirements of the General Schedule of Supplies. In all cases, the finding should consist of more than a mere conclusion. It should set forth the specific reasons why the time element made the purchase necessary.

§ 806.606–4 *Procedure.* (a) Chiefs of technical services (and commanding generals of service commands) are responsible for advising contracting officers under their jurisdiction as to the terms and conditions of all mandatory General Schedule of Supplies contracts. The commanding generals of the service commands should assume this responsibility as promptly as is practicable. In the past, the schedules have been distributed to the posts, camps and stations under the jurisdiction of the various service commands by the chiefs of certain of the technical services. This practice should not be discontinued until such time as the commanding generals of the service commands have had an opportunity to set up procedures to enable them to assume the responsibility.

(b) The schedules may be obtained from the Editorial Section, Procurement Division, Treasury Department. That Section will not, however, honor requests from posts, camps or stations or other installations, but only from the offices of the chiefs of technical services or the headquarters of the commanding generals of the service commands. Accordingly, all requests should be forwarded through channels to the appropriate headquarters.

§ 806.606–5 *Ratification of purchases not made under contracts of the Procurement Division, Treasury Department.* When it appears to his satisfaction that an item listed in the General Schedule of Supplies was not purchased under a contract of the Procurement Division, Treasury Department, because the contracting officer overlooked the necessity of purchasing under such a contract, the chief of the technical service concerned (who, in case purchase responsibility for such item has been assigned to a particular technical service, shall be the chief of such technical service) may ratify such purchase. This will be done, however, only where it appears that the oversight represents an isolated instance and not a continued course of neglect. A statement should be presented to the chief of the technical service concerned setting forth all of the facts including the contract price paid as compared to that payable under the Treasury Department contract and all facts which tend to excuse the failure to purchase under the Treasury Department contract.

§ 806.606–6 *Delivery orders under contracts of the Procurement Division, Treasury Department.* (a) Delivery orders issued under contracts of the Procurement Division, Treasury Department, will contain sufficient data to enable prompt identification by disbursing and auditing agencies of the correct listing in the proper General Schedule of Supplies. These data will include contract number, item number, and, where applicable, supplement, region or zone number.

(b) Reference is made to the discussion in § 806.614 concerning the suggested form of delivery order. As stated in § 806.614 all orders issued under contracts of the Procurement Division, Treasury Department, are included within the term "delivery orders" even though such orders are frequently referred to as "purchase orders."

(c) Each delivery order should show the name of the finance officer by whom payment will be made.

§ 806.606–7 *Mandatory schedules.* The following is a list of the classes of the General Schedule of Supplies which are mandatory by the terms of the schedules on the field services of the War Department:

Description of item and schedule of supplies	*Period*
Explosives and blasting accessories; 4 Supp. No. 1	July 1 to December 31, 1944 (extended to June 30, 1945).
Gasoline:	
Tank wagon and drum deliveries, tank-car, transport-truck and marine deliveries; 7 and Supps., Regions 1 to 6, incl.	July 1, 1944 to June 30, 1945.
Fuel Oil:	
Tank-wagon and drum deliveries, tank-car, transport-truck, and marine deliveries; 7 and 14 and Supps. Regions 1 to 6, incl.	July 1, 1944 to June 30, 1945.
Gasoline Diesel oil and lubricating oil, service-station deliveries; 7 and 14.	July 1, 1944 to June 30, 1945.
Tire chains; 8, Supp. No. 8, Revised	July 1, 1944 to June 30, 1945.
Motor-vehicle accessories, etc., item 8–C–3400 clutch facings) only; 8 & 66, Supp. No. 1, Revised.	July 1, 1944, to June 30, 1945.
Automotive storage batteries; 17, Supp. No. 2, Revised	March 16 to September 15, 1945.

Description of item and schedule of supplies	*Period*
Telephones and parts; 17, Supp. No. 6, Revised	March 1 to August 31, 1944 (extended to August 31, 1945).
Electric lamps; 17, Supp. No. 3	September 1, 1944 to August 31, 1945.
Wood furniture; 26, Part I	January 1 to December 31, 1945.
Steel furniture; 26, Part II, Revised	January 1 to December 31, 1942 (extended to December 31, 1945).
Steel insulated filing cabinets; 26, Part II, Supp. No. 1	July 1 to December 31, 1943 (extended to December 31, 1945).
Floor and window coverings; 27 Revised	October 1, 1944, to September 30, 1945.
Books; 35	December 1, 1944 to November 30, 1945.
Encyclopedia Britannica; 35	February 15 to November 30, 1945.
Machine tools (only the following items: 40-M-9-100, and 40-P-22 to 40-P-37, incl.); 40.	September 1, 1944 to August 31, 1945.
Woodworking saws; 40	July 1, 1944 to June 30, 1945.
Solvents; 51	February 1 to June 30, 1945.
Paper drinking cups; 53	July 1, 1944 to June 30, 1945.
Office equipment; 54	July 1, 1944 to June 30, 1945.
Filing cases, copy holders, and finished plates for offset duplicating machines; 54.	July 1, 1944 to June 30, 1945.
Offset duplicating supplies; 54	January 20 to June 30, 1945.
Typewriters; 54, Revised	July 1, 1941, to June 30, 1942 (extended to June 30, 1945).
Portable drinking fountains; 63	March 1, 1945 to February 28, 1946.
Feed and forage (applicable to certain D. C. installations only; 67.	June 1 to September 30, 1945.
Airplane tires and tubes; 83, Revised	April 24 to June 30, 1942 (extended to September 30, 1945).
Consolidated public utilities contracts in Baltimore, Md.; New York, N. Y.; and Philadelphia, Pa.; 101 (Electric service), 105 (Gas service).	Effective December 1, 1944 and thereafter until further notice.
Slide film prints; 103	February 1, 1945 to January 31, 1946.
Recording and transcription service; 103, Supp. No. 2, Revised.	September 1, 1944 to August 31, 1945.
Exchange allowances for typewriters; 104	March 1 to June 30, 1945.

NOTE 1: Some of the schedules listed above are mandatory only upon some of the activities of the War Department. In case of doubt as to whether it is mandatory that a particular item be procured under a schedule, the schedule itself should be consulted and provisions of the schedule should be regarded as controlling.

NOTE 2: Attention is called to the provisions of § 811.1187 *et seq.*, as to restrictions concerning local purchases and the purchases of restricted or prohibited items. Such restrictions apply to items, even though they may be listed on the General Schedule of Supplies.

§ 806.606a *Regional and District Warehouse and Supply Centers of Treasury Department, Procurement Division.*

§ 806.606a–1 *Establishment and functions of Regional and District Warehouse and Supply Centers.* Various Regional and District Warehouse and Supply Centers have been established by Treasury Department, Procurement Division in the United States. These Centers engage in procurement, storage and issue of commonly used items of supply. Items handled by these Centers in general are new items purchased by Treasury Department, Procurement Division.

§ 806.606a–2 *Stock Catalogs of Warehouse and Supply Centers.* Stock Catalogs are issued by each Regional and District Warehouse and Supply Center listing articles regularly carried by it in stock and available for issue by it. Such catalogs may be obtained from the appropriate Regional Directors, Treasury Department, Procurement Division. The addresses of such Regional Directors are as follows:

Region I: Park Square Building, Boston 16, Mass.

Region II: 50 Church Street, New York 7, N. Y.

Region III: 499 Pennsylvania Avenue NW., Washington 25, D. C.

Region IV: Commercial Arts Building, 704 Race Street, Cincinnati 2, Ohio.

Region V: 209 South LaSalle Street, Chicago 4, Ill.

Region VI: Belle Isle Building, 105 Pryor Street NE., Atlanta 3, Ga.

Region VII: P. O. Box 1407, Fort Worth 1, Tex.

Region VIII: 2605 Walnut Street, Kansas City 8, Mo.

Region IX: 1030 15th Street, 7th Floor, Denver 2, Colo.

Region X: 30 Van Ness Avenue, San Francisco 2, Calif.

Region XI: 2005 Fifth Avenue, Seattle 1, Wash.

Region XII: Iolani Palace, Honolulu 2, T. H.; Bulding "F," Munoz Rivera Park, San Juan, P. R.

§ 806.606a–3 *Authority to purchase from Warehouse and Supply Centers.* Field services of the War Department are required to purchase items through Treasury Department, Procurement Division, only to the extent provided in §§ 806.606–2 and 806.606–7. Purchase of any item from Warehouse and Supply Centers is, however, authorized, whenever desired by the responsible office, subject to such conditions and regulations, if any, as the chief of the interested technical service (who, in case purchase responsibility for such item has been assigned to a particular technical service, shall be the chief of such technical service) may prescribe. Purchase from a Warehouse and Supply Center of any item listed on a General Schedule of Supplies mandatory on the purchasing office (see § 806.606–7), or on the Schedule of Blind-Made Products (see § 806.606c) is considered a compliance with such Schedules. Similarly, purchase may be made from a Warehouse and Supply Center of an item even though such item is otherwise required to be purchased from Federal Prison Industries, Inc. (see § 806.608).

§ 806.606a–4 *Purchasing procedure.* See § 806.614 as to the appropriate form of delivery order to be used in purchasing items from Warehouse and Supply Centers. Instructions contained in the appropriate stock catalog are to be followed in purchasing items, except insofar as such instructions may be modified by § 806.614.

§ 806.606b *Stock Catalog, Washington, D. C.* This publication of the Procurement Division of the Treasury Department lists the items which are carried in stock in the warehouse of that Division in Washington, D. C., primarily to supply the needs in that city and adjacent area.

§ 806.606c *Blind-made products.*

§ 806.606c–1 *Basic law.*

* * * All brooms and mops and other suitable commodities hereafter procured in accordance with applicable Federal specifications by or for any Federal department or agency shall be procured from such nonprofit making agencies for the blind in all cases where such articles are available within the period specified at the price determined by the committee to be the fair market price for the article or articles so procured; * * * Act June 25, 1938 (52 Stat. 1196; 41 U. S. C. 46; M. L., 1939, sec. 1951).

§ 806.606c–2 *Schedule of blind-made products.* Schedule of Blind-Made Products, effective January 1, 1943, or later date, prepared under the direction of Committee on Purchases of Blind-Made Products, and issued by the Procurement Division, Treasury Department. This schedule is obtained in the same manner as other schedules of the General Schedule of Supplies (see § 806.606–4). The basic law does not apply in cases where brooms and mops are procured for use outside continental United States.

§ 806.606c–3 *General clearance.* The following general clearance dated June 3, 1942, which covers purchases until further notice is quoted for information and guidance.

Effective as of this date and continuing until rescinded, blanket clearance is hereby granted to purchase from commercial sources any item listed in the Schedule of Blind-made Products where military necessity may require the delivery of the articles needed within a period of two weeks.

Very truly yours,

ROBT. LEFEVRE,
Secretary,
Committee on Purchases of Blind-made Products.

§ 806.606c–4 *Attaching clearance to voucher.* It is to be noted that it is not necessary to attach a copy of this general clearance to the contract or voucher. It is sufficient in pertinent cases to make reference on either the contract or the voucher to General Clearance dated June 3, 1942.

§ 806.607 *Purchases under contracts of Navy Department.*

§ 806.607–1 *Requirement.* Purchases will be made from contracts of the Navy Department when so directed by the

chief of the technical service concerned or when required by the terms of the contracts.

§ 806.607–2 *Procedure.* Chiefs of technical services are responsible for advising contracting officers as to the terms and conditions of all such contracts and as to whether purchases therefrom are mandatory.

§ 806.608 *Purchases from Federal Prison Industries, Inc., Department of Justice.*

§ 806.608–1 *Basic law.* The act of May 27, 1930 provides in part as follows:

The several Federal departments and independent establishments and all other Government institutions of the United States shall purchase at not to exceed current market prices, such products of the industries herein authorized to be carried on as meet their requirements and as may be available * * * (46 Stat. 392; 18 U. S. C. 744g; M. L., 1939, Sec. 1936).

Under date of December 11, 1934, there was issued Executive Order Number 6917 which provides in part as follows:

It is hereby ordered that a corporation of the District of Columbia be and is hereby created, said corporation to be named as Federal Prison Industries, Inc. * * * The principal office of said corporation shall be in the City of Washington, District of Columbia, * * * The heads of the several executive departments, independent establishments and Government owned and Government controlled corporations shall cooperate with the corporation in carrying out its duties and shall purchase, at not to exceed current market prices, the products or services of said industries, to the extent required or permitted by law.

§ 806.608–2 *Requirement.* It is required that all items manufactured by and all services rendered by, Federal Prison Industries, Inc., be purchased from that agency except where a general or special clearance for the purchase of the items from commercial sources has been granted.

§ 806.608–3 *General clearance.* The following general clearance, dated June 1, 1945, which covers purchases for the period July 1 to December 31, 1945, indicates not only the items as to which such clearance has been granted but also those items which are available and which, accordingly, must be purchased from Federal Prison Industries, Inc.:

THE UNDER SECRETARY OF WAR,
Washington, D. C.

DEAR SIR: Subject to applicable conservation and limitation orders, the following articles and services are available and can be furnished by Federal Prison Industries, Inc., from industries established under the Act of Congress approved May 27, 1930 (46 Stat. 391):

Brushes: As listed in Schedule of Products.
Canvas goods: Shell covers, canvas covers, tarpaulins, truck covers, truck curtains, barracks bags, shower curtains, miscellaneous bags, bandoleers.
Camouflage nets.
Cargo nets.
Castings: Manhole frames and covers, grates, grate bars, and gutter drains for delivery in Wisconsin, Michigan, Illinois, Indiana, Ohio, Pennsylvania, New York, New Jersey, Delaware, Maryland, West Virginia, Virginia, Kentucky and the District of Columbia.
Fiber furniture.
Laundry services required by posts and stations within 100 miles of the Federal Correctional Institution, Tallahassee, Florida, the United States Penitentiary, Alcatraz, California, the Federal Detention Headquarters, New York City, the Federal Reformatory for Women, Alderson, West Virginia, and the United States Penitentiary, Terre Haute, Indiana.
Mattresses: Cotton felt.
Metal products: Storage shelving, transfer cases, lockers, food trays, sputum cups, iron berths, bunks and hospital beds.
Milk: 1,000 lbs. per day for delivery to Fort Bliss, Texas, only.
Printing: See § 806.610 (i).
Wood furniture and specialties: Desk trays, costumers; striking tool handles as listed in Fed. Spec. NN–H–93, Grade A only; Douglas, 4C, 3C, wide arm and side chairs; stools as listed in Schedule of Products, except rotary type.

CLEARANCE

C–26980

1. Clearance is granted to purchase from other sources articles manufactured or services rendered by Federal Prison Industries, Inc., not listed above.

2. Clearance is granted to purchase from other sources articles manufactured or services rendered by Federal Prison Industries, Inc., including the items listed above, in the following cases:

(a) By contractors or contracting officers under cost-plus-a-fixed-fee construction or supply contracts;

(b) By contracting officers under fixed-price (lump sum) construction or supply contracts, wherein the Government is required to furnish certain Government materials;

(c) When immediate delivery or performance is required by the public exigency;

(d) When suitable second hand or used articles can be procured;

(e) When required in small quantities and for delivery within ten days.

3. This clearance is to cover purchases made by the War Department only, and is effective for the period July 1 to December 31, 1945, inclusive.

4. Copy of this clearance should be attached to your contract or voucher when transmitted to the General Accounting Office, or reference made thereon to this clearance number.

Very truly yours,
FEDERAL PRISON INDUSTRIES, INC.,
By (Signed) A. H. COMINS,
Associate Commissioner.

§ 806.608–4 *Attaching clearances to vouchers.* It is to be noted that it is no longer necessary to attach a copy of the clearance to the contract or voucher. It is sufficient to make reference on either the contract or the voucher to Clearance No. C–26980.

§ 806.608–5 *Procedure.* Chiefs of technical services are responsible for advising contracting officers as to the detailed procedure for placing orders with Federal Prison Industries, Inc. In general, purchase orders should be forwarded in duplicate to Federal Prison Industries, Inc., Department of Justice, Washington, D. C. Requests for special clearances should also be directed to the above agency which, in an emergency, will grant telegraphic clearance.

§ 806.608a *Purchases from State prisons and other correctional institutions.* Purchases of items manufactured or produced by State prisons may be made directly from such institutions (Op. Att. Gen. 37739, May 6, 1942, and Let. Pres. May 10 1942. See also Executive O. 9196 dated July 9, 1942, and § 809.902 and following of this chapter). Likewise, purchases of services rendered by State prisons may be made directly from such institutions. No purchase, however, from a State prison or other correctional institution will be made of a mandatory item or service appearing in the schedules of the Federal Prisons Industries, Inc. (See § 806.608) without a prior clearance (general or special) from that agency. For purchases by Government contractors and subcontractors from Federal, State and territorial prisons or prison industries, see § 803.345.

§ 806.609 *Purchases under contracts of Post Office Department.*

§ 806.609–1 *Requirement.* Envelopes required by the military service (other than by the departmental service, War Department, Washington, D. C.) will be procured under the contracts entered into by the Post Office Department unless it is impracticable to do so.

§ 806.609–2 *Envelopes authorized for supply to the military service.* (a) The following envelopes only are authorized for supply to the military service (excluding the departmental service, War Department, Washington, D. C.) on requisitions, the item numbers corresponding to those in "Award of Contracts for Envelopes", Post Office Department:

Item No.	*Description*
17.	4⅛ by 9½ inches, Kraft, open side.
30.	5 by 11½ inches, Kraft, open side.
42.	6½ by 9½ inches, Kraft, open side.
63.	8½ by 11½ inches, Kraft, open side or open end.
93.	10 by 15 inches, Kraft, open side or open end, 5-inch flap.
111.	2½ by 4¼ inches, Kraft, open end.
122.	3⅛ by 5⅞ inches, Kraft, open end.
123.	3⅞ by 7½ inches, Kraft, tag, strong eyelet at bottom, open end.
183.	3⅞ by 8⅞ inches, White, open side.
192.	4⅛ x 9½ inches, White, open side.
203.	3⅞ by 8⅞ inches, White, open side, with Opaquing Design inside.
204.	4⅛ by 9½ inches, White, open side, with Opaquing Design inside.
405.	3⅞ by 8¾ inches, Kraft, open side, window.
435.	4⅛ by 9½ inches, White, open side, window.
504.	4⅛ by 9½ inches, White, Air Mail, red and blue border.
514.	4⅛ by 9½ inches, White, Air Mail, red and blue border, lightweight with opaquing design inside.
(1)	4⅞ by 8⅞ inches, Kraft, open side, window (for War Bonds).
(1)	4½ by 8¼ inches, Kraft, open side, window (for War Bonds).

[1] There has been no Item No. assigned to this envelope.

(b) Orders for envelopes should be placed with the contractors specified in the pamphlet "Awards of Contracts for Envelopes". Such orders may be sent to the contractor directly and need not be sent through the office of the chief of the technical service concerned.

§ 806.609–3 The foregoing does not affect in any way the present methods of procuring jackets, open end, thumb notched, as required by the various tech-

nical services, the same being procured on approved requisitions as are other supplies.

§ 806.610 *Purchases from Government Printing Office.*

§ 806.610–1 All blank envelopes, blank paper, ink, glues and other supplies manufactured or carried in stock by the Government Printing Office, and which are required for use within the District of Columbia will be purchased from that office.

§ 806.610–2 All printing and blankbook work other than that referred to in § 806.610–3, shall be obtained from the Government Printing Office unless a clearance is obtained from the Public Printer to have the work done elsewhere.

§ 806.610–3 (a) Under the regulations of the Joint Committee on Printing relative to Periodicals and Field Printing, printing, binding and blankbook work which it is impracticable to have done at the Government Printing Office and which is necessary for the exclusive use of any field service outside of the District of Columbia may be procured elsewhere than at the Government Printing Office in the District of Columbia without the necessity of obtaining a clearance from the Public Printer. Such work shall be done either:

(1) By local Army-owned reproduction facilities;

(2) At United States Army Field Printing Plants authorized by the Joint Committee on Printing;

(3) By commercial firms, or

(4) By field plants, Justice Department, described under § 806.610–9.

A list of authorized War Department Field printing plants is contained in the aforementioned regulations. These regulations are distributed by The Adjutant General, Field Printing Branch, Publication Division, and should be requested through the chief of the technical service (or commanding general of the service command).

(b) Said regulations further provide that:

No field printing, even though authorized by the committee, shall be done at any field plant, * * * having machinery or equipment (including motors) which has been or may be purchased, exchanged, or transferred since May 1, 1920, without specific approval by the Joint Committee on Printing of such purchase, exchange, or transfer: *Provided*, That this regulation shall not be construed as applying to minor replacements of type or material or parts necessary in making repairs to machinery and equipment.

§ 806.610–4 The cost of the jobs produced either in Army-owned reproduction facilities or in authorized U. S. Army Field Printing Plants should be absorbed in the operating cost of such installations to be charged against the specific funds made available for their operation.

§ 806.610–5 The cost of work procured from commercial sources should be charged against the specific funds available therefor to the respective technical service expenditure of which has been authorized by The Adjutant General. Obligations for field contract printing procured from commercial concerns may be incurred, to the extent that authority has been delegated and funds made available, in accordance with the provisions of the Fiscal Code. All allotments must carry the appropriate purpose number and decimal suffix prescribed in finance circulars. Paragraph 9, AR 35–1040 prescribes the form of certificate which is required to be placed on contracts or purchase orders involving payments for printing, binding, and blankbook work procured commercially in the field. Information relative to reports required by the Joint Committee on Printing together with forms required, will be furnished by The Adjutant General to the chiefs of technical services.

§ 806.610–6 The Adjutant General is charged with the responsibility of coordinating all Army field printing. Questions concerning policies and propriety of field contract printing will be referred to The Adjutant General.

§ 806.610–7 As specified in section II, Circular No. 8, War Department, 1939, Decision A–99850 of the Comptroller General of the United States dated December 22, 1938, is construed as subjecting to the Regulations of the Joint Committee on Printing (a) stenographer's books or other articles in book form which require printing, binding or ruling operations for their manufacture, and (b) any item which requires any printing and binding operation after the receipt of the order by the vendor to fit it for the particular needs of the Government service.

§ 806.610–8 The chiefs of technical services only are authorized to communicate directly with the Government Printing Office through their properly appointed representatives.

§ 806.610–9 Federal Prison Industries, Inc., has available facilities for performing printing work for the War Department. It is to be noted that these facilities are not listed in the letter set forth in § 806.608–3 and so the use of the printing services is not mandatory. However, wherever practicable, it is desirable that use be made of these facilities. The facilities are available at three prisons and may be made use of by sending a purchase order directed to one of the following:

Warden of Federal Reformatory, El Reno, Oklahoma.

Superintendent of Industries, Leavenworth Penitentiary, Leavenworth, Kansas.

Business Manager of Industries, Atlanta Penitentiary, Atlanta, Ga.

Where the form of purchase order contains the standard convict labor clause, that clause should, of course, be deleted (§ 809.903–1 (a)).

§ 806.610–10 Bureau of the Budget Regulation No. 4 (revised) January 18, 1944, (as reprinted in Circular 69, War Department, February 16, 1944) for the purpose of conserving critical materials, establishes standards of grade, colors, copy and size for letterheads, manifold (tissue) sheets, memorandum forms, and envelopes, and sets forth numerous suggestions to promote conservation, which will be observed by all agencies to the fullest practicable extent.

§ 806.611 *Purchases from other agencies of the Government.* Property may be acquired from other agencies of the Government either in the manner set forth in § 806.612 or in the manner set forth in §§ 806.613 to 806.613–8.

§ 806.612 *Purchase of property pursuant to Public Law 670.* The act of July 20, 1942 (Public Law 670–77th Congress; 31 U.S.C. 686) amended section 7 (a) of the act of May 21, 1920 (41 Stat. 613), as amended by section 601 of the act of June 30, 1932 (47 Stat. 417) to read as follows:

Any executive department or independent establishment of the Government, or any bureau or office thereof, if funds are available therefor and if it is determined by the head of such executive department, establishment, bureau, or office to be in the interest of the Government so to do, may place orders with any other such department, establishment, bureau, or office for materials, supplies, equipment, work, or services, of any kind that such requisitioned Federal agency may be in a position to supply or equipped to render, and shall pay promptly by check to such Federal agency as may be requisitioned, upon its written request, either in advance or upon the furnishing or performance thereof, all or part of the estimated or actual cost thereof as determined by such department, establishment, bureau, or office as may be requisitioned; but proper adjustments on the basis of the actual cost of the materials, supplies, or equipment furnished, or work or services performed, paid for in advance, shall be made as may be agreed upon by the departments, establishments, bureaus, or offices concerned: *Provided*, That the War Department, Navy Department, Treasury Department, Civil Aeronautics Administration, and the Maritime Commission may place orders, as provided herein, for materials, supplies, equipment, work, or services, of any kind that any requisitioned Federal agency may be in a position to supply, or to render or to obtain by contract: *Provided further*, That if such work or services can be as conveniently or more cheaply performed by private agencies such work shall be let by competitive bids to such private agencies. Bills rendered, or requests for advance payments made pursuant to any such order, shall not be subject to audit or certification in advance of payment.

The chiefs of the technical services are authorized, pursuant to the foregoing statute, to purchase property (other than property which has been declared surplus) from other Federal agencies on payment of the estimated or actual cost thereof, but proper adjustments on the basis of the actual cost of the material, supplies, or equipment furnished, paid for in advance, shall be made as may be agreed upon mutually.

§ 806.612–1 *Powers of War Food Administration and Reconstruction Finance Corporation under Public Law 670.* The functions, powers, and duties, with respect to placing orders for materials, supplies, equipment, work, or services of any kind that any requisitioned Federal agency may be in a position to supply, or to render or to obtain by contract, which are vested in the War Department, Navy Department, Treasury Department, Civil Aeronautics Administration and the Maritime Commission under Public Law 670 (above) may also be exercised (a) by the War Food Administration, and by any constituent agency or corporation thereof, designated by the War Food Administrator (Executive Order 9418) and (b) by the Reconstruction Finance Corporation, and by any constituent, subsidiary or controlled agency or corporation thereof designated by the

Reconstruction Finance Corporation. (Executive Order 9440.)

§ 806.613 *Procurement of surplus property from disposal agencies.*

§ 806.613–1 *Surplus Property Act.* The Surplus Property Act of 1944 (Public Law 457, 78th Congress) places the responsibility upon all Government agencies, in order to avoid making purchases through commercial channels when suitable items are available from surplus property disposal agencies, to consult continuously the records of surplus property maintained by the disposal agencies under the regulations of the Surplus Property Board, and to determine whether their requirements can be satisfied out of such surplus property.

§ 806.613–2 *Disposal agencies.* (a) The disposal agencies and the general types of property for which they are responsible are as follows:

Reconstruction Finance Corporation—Capital and producers goods.
Department of Commerce—Consumers goods.
U. S. Maritime Commission—Ships and Maritime property.
War Food Administration—Food and related products.

A detailed statement of the specific kinds of property assigned to each of the foregoing disposal agencies is set forth in § 829.904.

(b) The surplus property operations of Reconstruction Finance Corporation within the United States are conducted through regional offices. The addresses of these regional offices and the areas that they serve are set forth in § 829.907.

(c) The surplus property operations of the Department of Commerce within the United States are likewise conducted through regional offices. The addresses of these regionall offices and the areas that they serve are set forth in § 829.908.

(d) The surplus property operations of U. S. Maritime Commission are conducted through a centralized office, the address of which is:

United States Maritime Commission, Attention: Mr. E. W. Gorman, Assistant to the Director of the Procurement Division, Washington 25, D. C.

(e) The surplus property operations of War Food Administration are likewise conducted through a centralized office, the address of which is:

Office of Distribution, War Food Administration, Washington 25, D. C.

§ 806.613–3 *Information as to available surpluses.* Information as to available surpluses may be obtained from the regional offices of Reconstruction Finance Corporation and of Department of Commerce, and from the Washington offices of U. S. Maritime Commission and War Food Administration. Although the regional offices of Reconstruction Finance Corporation and of the Department of Commerce maintain detailed inventories only for surplus property located within their respective geographical areas, they are prepared to furnish information as to the availability of specific items of property held by other regional offices, upon request. Both Reconstruction Finance Corporation and the Department of Commerce, periodically publish listings of available surplus property, and these lists may be obtained from any of the regional offices of these disposal agencies.

§ 806.613–4 *Establishment of operational liaison with disposal agencies.* (a) In order that the War Department may utilize the surplus property of other Government agencies to the fullest extent practicable, and effectively discharge its responsibilities under the Surplus Property Act as set forth in § 806.613–1, the Commanding General, Army Air Forces, will establish and maintain operational liaison between the procuring offices of Army Air Forces and the disposal agencies in such manner and at such levels as he shall deem most effective; and chiefs of technical services (other than Army Air Forces) will establish and maintain operational liaison with the disposal agencies, as follows:

(1) Each technical service that procures food or related products of the nature assigned to War Food Administration for disposal will establish operational liaison with the Washington office of that disposal agency. Operational liaison may be established at the level of the office of the chief of service or at the level of the district procurement office of the technical service, as the chief of service deems desirable.

(2) Each technical service that procures ships or maritime products of the nature assigned to U. S. Maritime Commission for disposal will establish operational liaison with the Washington office of that disposal agency. Operational liaison may be established at the level of the office of the chief of service or at the level of the district procurement offices of the technical service, as the chief of service deems advisable.

(3) Each technical service will establish operational liaison between each of its field procurement offices and the regional offices of Reconstruction Finance Corporation and the Department of Commerce, respectively for the region in which the field procurement office is located. In addition, operational liaison between the office of the chief of service and the Washington offices of Reconstruction Finance Corporation and the Department of Commerce, may be established if the chief of service deems such operational liaison desirable.

(b) Each liaison officer shall be the focal point for the exchange of information with the disposal agencies as to contemplated Army procurements and as to the availability of surplus property to satisfy such procurements. The duties of each liaison officer shall be to review continuously the lists of surplus property published by the various disposal agencies; to be informed currently as to the items being procured by his respective procurement district office or technical service; to furnish information to the disposal agencies concerning items under procurement; to ascertain from the disposal agencies whether or not suitable items are available from surplus stock; and to transmit such information concerning available items to the proper procurement officer. All such reviews of surplus property lists and such exchanges of information as to procurements and available surplus property shall be made promptly and expeditiously so as not to delay procurement.

§ 806.613–5 *Procedure for acquiring surplus property.* In general, surplus property will be transferred with reimbursement by the War Department at a fair valuation determined by the disposal agency. Details of transfer procedure may be ascertained from the offices of the disposal agencies. See § 806.614 as to the appropriate form of delivery order to be used in acquiring surplus property from disposal agencies. However, where the property being transferred was declared surplus by another element of the War Department or by the Navy Department, non-reimbursable transfer can be arranged wherever permitted by Special Order No. 6 of the Surplus Property Board, dated May 1, 1945.

§ 806.613–6 *Direct communication with disposal agencies authorized.* Direct communication with disposal agencies is authorized in all matters pertaining to the acquisition of surplus property.

§ 806.613–7 *Readjustment Division.* Although direct communication with disposal agencies is authorized, Readjustment Division, Headquarters, Army Service Forces, is available for assistance in establishing operational liaison with the disposal agencies, and for consultation when the technical services desire assistance in their negotiations for acquisition of surplus property from the disposal agencies. All policy matters pertaining to the acquisition of surplus property from disposal agencies will be cleared with Readjustment Division, Headquarters, Army Service Forces (Section II, Circular 199, W.D. 1944).

§ 806.613–8 *Disposition of property to other Government agencies.* It is to be noted that this § 806.613 relates only to the acquisition of surplus property from the disposal agencies, and not to the reporting of surplus War Department property to the disposal agencies or to disposition of War Department property to other Government agencies. As to the latter, see Parts 821 to 829.

§ 806.614 *Form of delivery order to be used in making interdepartmental or interbranch purchases.* (a) Delivery orders are used to place orders:

(1) Under already existing contracts executed by other technical services or other departments of the Government (see §§ 806.605a, 806.606, 806.607 and 806.609) and

(2) With other departments of the Government furnishing particular services or supplies (see §§ 806.606a, 806.606b, 806.608, 806.610, 806.612 and 806.613).

(b) The term "delivery orders" is used in the procurement regulations to refer to orders of the character described in paragraph (a) above. Although orders placed under General Schedules of Supplies contract sometimes are referred to as "purchase orders", the term "delivery orders" is more accurate, since a binding contract already exists between the Government and the contractor.

(c) The following forms of delivery order may be used in making interbranch or interdepartmental purchases:

(1) W. D. Contract Form No. 303 (§ 813.1317a), [In certain cases, TM 38–403 (Station Supply Procedure) and ASF

Manual M 408 (Depot Supply Procedures) require the use of this form], or

(2) W. D. Contract Form No. 19 (§ 813.1317e).

(d) W. D. Contract Form Nos. 19 and 383, when used to place orders for services or supplies with other departments (see paragraph (a) (2) of this section), will be required to be modified to delete reference to a basic purchase agreement.

[Procurement Reg. 8]

PART 808—FEDERAL, STATE AND LOCAL TAXES

SUBPART A—CONTRACT TAX ARTICLES

Sec.
808.800 Contract tax articles.

SUBPART B—FEDERAL EXCISE TAXES

808.801 Table of Federal excise taxes.
808.802 Manufacturers' excise taxes.
808.803 Pistols and revolvers.
808.804 Retailers' excise taxes.
808.805 Tax on transportation of persons.
808.806 Tax on transportation of property.
808.807 Tax on transportation of oil by pipe line.
808.808 Telegraph, telephone, radio and cable facilities.

SUBPART C—EXEMPTIONS FROM FEDERAL EXCISE TAXES

808.810 Exemption from specific Federal excise taxes as to articles sold and services furnished for the use of the United States.
808.811 Exemption based on exportation.
808.812 Exemption from manufacturers' excise taxes of sale of certain supplies and equipment for vessels of war including aircraft.
808.813 Manufacturers' excise taxes; sales for further manufacture.
808.814 Sales under contracts entered into prior to 1 June 1944 and agreements and change orders supplemental thereto.
808.815 Miscellaneous exemptions.
808.816 Effective date of removal of other Governmental exemptions.
808.817 Power of Secretary of the Treasury to authorize exemption.
808.818 Federal excise taxes not covered by this part.

SUBPART D—TAX EXEMPTION CERTIFICATE FORMS AND PROCEDURE

808.820 Applicability of this subpart.
808.821 Standard tax exemption forms.
808.822 U. S. Government Tax Exemption Certificate, Form 1094.
808.823 Supply and reports of standard forms.
808.824 Who may execute tax exemption certificates.
808.825 Aircraft and vessels of war, supplies and equipment tax exemption certificate.
808.826 Tax exemption certificates for issuance by contractors.
808.827 Preparation and execution of exemption certificates.
808.828 When and how exemption certificates are issued to contractors.
808.829 Blanket tax exemption certificates; contracts under General Schedule of Supplies.
808.830 State and local taxes.

SUBPART E—STATE AND LOCAL TAXES

808.831 Applicable tax directives.
808.832 Certificate of non-inclusion of state or local taxes in amount billed to CPFF contractors or subcontrators.
808.833 Tax provisions of purchase orders issued by CPFF contractors and subcontractors.

SUBPART F—COLLECTION AND PAYMENT OF FEDERAL EXCISE TAXES BY THE GOVERNMENT

Sec.
808.840 General.
808.841 Remittances to contractor.
808.842 Transfers to which §§ 808.840 and 808.841 do not apply.
808.843 Adjustment of sales price.

SUBPART G—ADJUSTMENTS OF CONTRACTS BECAUSE OF CHANGED FEDERAL EXCISE TAXES

808.850 Excise tax rates increased by Revenue Act of 1943.
808.851 Excise taxes repealed by Revenue Act of 1943.
808.852 Excise taxes repealed by Revenue Act of 1942.
808.853 Contract provisions requiring adjustment by reason of changed Federal excise taxes.
808.854 Adjustments required under standard tax article by reason of increase in rates and repeal of excise taxes.
808.855 Authority of chiefs of technical services with respect to adjustments.
808.856 Situations in which adjustment not required by reason of repeal or increase.
808.857 Adjustments by reason of removal of exemptions by Revenue Act of 1943.
808.858 Tax on transportation of property imposed by Revenue Act of 1942.

APPENDIX—POLICY AS TO CLAIMING EXEMPTION FROM FEDERAL EXCISE TAXES AVAILABLE ON THE BASIS OF PURCHASE OF ARTICLES FOR THE USE OF THE UNITED STATES

808.890 General; scope of Appendix.
808.891 Definition of terms.
808.892 Statutory exemptions.
808.893 Exemption under Treasury Decision 5114.
Sec.
808.894 When sales deemed for use of United States.
808.895 Special considerations affecting tax exemption of lubricating oil and gasoline.
808.896 Exemption rules as to articles subject to tax under chapters of Internal Revenue Code other than Chapters 25 or 29.
808.897 Memorandum of policy, effective as of March 1, 1943, as to Federal excise taxes.

SUBPART A—CONTRACT TAX ARTICLES

§ 808.800 *Contract tax articles.* See §§ 803.357 and 803.358 with respect to the standard forms of tax articles.

SUBPART B—FEDERAL EXCISE TAX

§ 808.801 *Table of Federal excise taxes.* The following table lists the Federal excise taxes which are discussed in this part, together with references to the portions of the Internal Revenue Code imposing such taxes, the Treasury Regulations issued with respect to such taxes, and the sections of this part in which such taxes are more particularly described. In addition such table shows the taxes from which exemption is available on and after June 1, 1944 with respect to sales made for the exclusive use of the United States. The table does not show the exemption applying to supplies and equipment for vessels of war, including aircraft, nor other exemptions applying to private as well as Government procurement, as to which see §§ 808.811 and 808.812.

Tax	Reference to Internal Revenue Code and regulations thereunder	Section reference	Exemption of sales to United States on and after 1 June 1944
Manufacturers' excise taxes	Ch. 29, IRC; Regs. 44 and 46.	808.802 et seq.	
Tires and inner tubes	Sec. 3400, IRC; Regs. 46, Subpart D.	808.802-1	Exempt to extent provided in § 808.810 (Also see Note 1).
Automobiles, buses, trucks, etc.	Sec. 3403, IRC; Regs. 46, Subpart F.	808.802-2	Not exempt (But see Note 1).
Radio receiving sets, etc	Sec. 3404, IRC; Regs. 46, Subpart G.	808.802-3	Exempt (§ 808.810).
Refrigerators, etc	Sec. 3405, IRC; Regs. 46, Subpart H.	808.802-4	Not exempt (But see Note 1).
Sporting goods	Sec. 3406 (a) (1), IRC; Regs. 46, Subpart J.	808.802-5	Not exempt (But see Note 1).
Electric, gas or oil appliances	Sec. 3406 (a) (3), IRC; Regs. 46, Subpart L.	808.802-6	Not exempt (But see Note 1).
Photographic apparatus	Sec. 3406 (a) (4), IRC; Regs. 46, Subpart M.	808.802-7	Not exempt (But see Note 1).
Business and store machines	Sec. 3406 (a) (9), IRC; Regs. 46, Subpart O.	808.802-8	Not exempt (But see Note 1).
Electric light bulbs and tubes	Sec. 3406 (a) (10), IRC; Regs. 46, Subpart S.	808.802-9	Not exempt (But see Note 1).
Firearms, shells, cartridges	Sec. 3407, IRC; Regs. 46, Subpart I.	808.802-10	Exempt (§ 808.810).
Matches	Sec. 3409, IRC; Regs. 44, Subpart F.	808.802-11	Not exempt (But see Note 1).
Electrical energy	Sec. 3411, IRC; Regs. 46, Subpart T.	808.802-12	Not exempt (But see Note 1).
Gasoline	Sec. 3412, IRC; Regs. 44, Subpart D.	808.802-13	Not exempt (But see Note 1).
Lubricating Oils	Sec. 3413, IRC; Regs. 44, Subpart E.	808.802-14	Not exempt (But see Note 1).
Pistols and revolvers	Sec. 2700, IRC; Regs. 47	808.803	Exempt (§ 808.810).
Retailers' excise taxes	Ch. 19, IRC; Regs. 51	808.804	
Jewelry	Sec. 2400, IRC; Regs. 51, Subpart D.	808.804-1	Not exempt (But see Note 1).
Furs	Sec. 2401, IRC; Regs. 51, Subpart E.	808.804-2	Not exempt (But see Note 1).
Toilet preparations	Sec. 2402, IRC; Regs. 51, Subpart F.	808.804-3	Not exempt (But see Note 1).
Luggage	Sec. 1651, IRC; Regs. 51, Subpart G.	808.804-4	Not exempt (But see Note 1).
Taxes on transportation			
Transportation of persons	Ch. 30, Subch. C, IRC; Regs. 42, Subpart F.	808.805	Exempt as to transportation upon Government transportation requests (§ 808.810).
Transportation of property	Ch. 30, Subch. E, IRC; Regs. 113.	808.806	Exempt as to transportation under Government bills of lading (§ 808.810).
Transportation of oil by pipe line	Ch. 30, Subch. A, IRC; Regs. 42, Subpart D.	808.807	Not exempt.
Telephone, telegraph, radio and cable facilities	Ch. 30, Subch. B, IRC; Regs. 42, Subpart E.	808.808	Exempt as to services furnished directly to the United States (§ 808.810).

NOTE 1: Exemption continues as to articles sold after June 1, 1944 pursuant to contracts entered into prior to June 1 1944 or to any agreements or change orders supplemental to such contracts and bearing the same Government contract number. (See § 808.814).

This part does not purport to include all material necessary to a decision as to the scope of any of the Federal excise taxes referred to herein. In cases of doubt, the Treasury Regulations should be consulted. If additional assistance is required, it may be obtained from the Tax Division, Office of The Judge Advocate General, Washington, D. C., if not available within the technical service concerned.

§ 808.802 *Manufacturers' excise taxes.* (Chapter 29, IRC; Regulations 44 and 46; 26 CFR, Cum. Supp., Parts 314 and 316). *Rates: Various.* See following sections.

The manufacturers' excise taxes are set forth below in §§ 808.802–1 to 808.802–14, inclusive. The tax in each case, unless otherwise specified, is imposed upon articles sold by the manufacturer, producer or importer, and is equivalent to the indicated per cent of the price for which the article is sold. The rates specified are those effective since November 1, 1942, except in the case of the tax on electric light bulbs and tubes (§ 808.802–9), the rate of which was changed effective April 1, 1944.

§ 808.802–1 *Tires and inner tubes.* (Sec. 3400, IRC; Regulation 46, Subpart D; 26 CFR, Cum. Supp. 316.30–316.32).

(a) Tires wholly or in part of rubber (exclusive of metal rims or rim bases): 5 cents a pound on total weight.

(b) Inner tubes (for tires) wholly or in part of rubber: 9 cents a pound on total weight.

The term "rubber" includes synthetic and substitute rubber.

808.802–2 *Automobiles, buses, trucks trailers, motorcycles.* (Sec. 3403, IRC; Regulations 46, Subpart F; 26 CFR, Cum. Supp., 316.50–316.57).

(a) Automobile truck chassis, automobile truck bodies, automobile bus chassis, automobile bus bodies, truck and bus trailer and semitrailer chassis, truck and bus trailer and semitrailer bodies, tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer (including in each of the above cases parts or accessories therefor sold on or in connection therewith or with the sale thereof)—5%. A sale of an automobile truck, bus, or truck or bus trailer or semitrailer, shall be considered to be a sale of the chassis and of the body.

(b) Other automobile chassis and bodies, chassis and bodies for trailers or semitrailers suitable for use in connection with passenger automobiles, and motorcycles (including in each case parts or accessories therefor sold on or in connection therewith or with the sale thereof), except tractors—7%. A sale of an automobile, trailer, or semitrailer shall be considered to be a sale of the chassis and of the body.

(c) Parts or accessories (other than tires and inner tubes and other than radios) for any of the articles enumerated in paragraphs (a) or (b)—5%. Spark plugs, storage batteries, leaf springs, coils, timers, and tire chains, which are suitable for use on or in connection with, or as component parts of, any of the articles enumerated in paragraphs (a) and (b) shall be considered parts or accessories for such articles, whether or not primarily adapted for such use.

(d) The following items are not subject to this tax:

(1) Motor-driven machines designed and adapted for use in pulling or drawing vehicles around the premises of factories and railway stations, and small trucks for handling baggage and trunks at railway stations, as distinguished from automotive vehicles, including tractors, used on highways and roads. (Sec. 316.50, Regulations 46; 26 CFR, Cum, Supp., 316.50).

(2) Parts and accessories (which term does not include tires, inner tubes and automobile radios) sold to a manufacturer of articles enumerated in paragraphs (a) and (b) above, provided an appropriate certificate of the purchaser is given to the seller, stating that the purchaser is a manufacturer of such articles. (Sec. 3403 (c), IRC; sec. 316.57, Regulations 46; 26 CFR, Cum. Supp., 316.57).

(e) Where a manufacturer sells tax-paid tires, inner tubes and automobile radios on or in connection with or with the sale of automobile trucks, other automobiles, taxable tractors, or motorcycles, he may take appropriate credit against the tax due on his sale. (Sec. 3403 (e), IRC; sec. 316.54, Regulations 46; 26 CFR, Cum. Supp., 316.54).

§ 808.802–3 *Radio receiving sets, phonographs, phonograph records and musical instruments.* (Sec. 3404, IRC; Regulations 46, Subpart G; 26 CFR, Cum. Supp.; 316.60–316.64). Rate: 10%.

(a) Radio receiving sets, automobile radio receiving sets, combination radio and phonograph set, and phonographs.

(b) Chassis, cabinets, tubes, reproducing units, power packs, antennae of the "built in" type, and phonograph mechanisms, which are suitable for use on or in connection with, or as component parts of, any of the articles enumerated in paragraph (a), whether or not primarily adapted for such use.

(c) Phonograph records,

(d) Musical instruments,

including in each case, except in the case of musical instruments, parts or accessories therefor sold on or in connection with the sale thereof.

§ 808.802–4 *Refrigerators, refrigerating apparatus and air conditioners.* (Sec. 3405, IRC; Regulations 46, Subpart H; 26 CFR, Cum. Supp., 316.70–316.73). Rate: 10%.

(a) *Refrigerators.* Household type refrigerators (for single or multiple cabinet installations) having, or being primarily designed for use with, a mechanical refrigerating unit operated by electricity, gas, kerosene, or gasoline.

(b) *Refrigerating apparatus.* Cabinets, compressors, condensors, evaporators, expansion units, absorbers, and controls for, or suitable for use as parts of or with, household type refrigerators of the kind described in paragraph (a) except when sold as component parts of complete refrigerators or refrigerating or cooling apparatus.

(c) *Air-conditioners.* Self-contained air-conditioning units.

Including in each case parts or accessories therefor sold on or in connection with the sale thereof.

§ 803 802–5 *Sporting goods.* (Sec. 3406 (a) (1), IRC; Regulations 46, Subpart J; 26 CFR. Cum. Supp., 316.90–316.91). Rate 10%.

and combinations of any of the foregoing.

§ 808.802–9 *Electric light bulbs and tubes.* (Sec. 3406 (a) (10), IRC; Regulations 46, Subpart S; 26 CFR, Cum. Supp. 316.180–316.181). Rate: 20%. Electric light bulbs and tubes, not including articles taxable under any other manufacturers' excise tax.

§ 808.802–10 *Firearms, shells, cartridges.* (Sec. 3407, IRC; Regulations 46, Subpart I; 26 CFR Cum. Supp. 316.80–316.82). Rate: 11%. Firearms (except pistols and revolvers, as to which see § 808.803), shells and cartridges.

§ 808.802–11 *Matches.* (Sec. 3409, IRC; Regulations 44, Subpart F; 26 CFR, Cum. Supp., 314.50–314.52).

(a) Fancy wooden matches and wooden matches having a stained, dyed, or colored stick or stem, packed in boxes or in bulk—5½ cents per 1,000 matches.

(b) All matches other than those enumerated above—2 cents per 1,000 matches.

§ 808.802–12 *Electrical energy for domestic or commercial consumption.* (Sec. 3411, IRC; Regulations 46 Subpart T; 26 CFR, Cum. Supp., 316.190–316.194). Rate: 3⅓%.

(a) Tax is imposed upon electrical energy sold for domestic or commercial consumption and not for resale.

(b) The term "electrical energy sold for domestic or commercial consumption" does not include:

(1) Electrical energy sold to the United States for consumption by the legislative, executive or judicial branches of the Federal Government and agencies thereof; examples of such governmental activities are office buildings for the legislative, executive and judicial branches of the Federal Government and agencies thereof, Army camps, post exchanges, barracks and dormitories for enlisted personnel of the armed forces, military supply depots, penal institutions and hospitals; but sales of electrical energy (when separately metered) to the United States for consumption in officers' quarters or residences at military establishments or in emergency housing for war workers or Federal housing projects, constitute sales for domestic consumption (S. T. 931, Int. Rev. Bull. 1944, No. 15, p. 36);

(2) Electrical energy sold for industrial consumption, e. g., for use in manufacturing, mining, refining, shipbuilding, building construction, irrigation, etc. (Sec. 316.190, Regulations 46; 26 CFR, Cum. Supp. 316.190); or

(3) Electrical energy sold for other uses which likewise cannot be classed as domestic or commercial, such as electrical energy used by electric and gas companies, waterworks, telegraph, telephone and radio communication companies, railroads, etc. (Sec. 316.190, Regulations 46; 26 CFR, Cum. Supp., 316.190)

(c) The tax does not apply to sales of electrical energy for resale, except where the electrical energy is sold to an owner or lessee of a building for resale to the tenants therein.

(d) The tax does not apply to publicly owned electric or power plants, or to electric or power plants or systems owned and operated by cooperative or nonprofit corporations engaged in rural electrification.

§ 808.802–13 *Gasoline.* (Sec. 3412, IRC; Regulations 44, Subpart D; 26 CFR, Cum. Supp., 314.30–314.35). Rate: 1½ cents a gallon.

(a) Tax is imposed on gasoline sold by the producer or importer thereof, or by any producer of gasoline. The term "gasoline" means (1) all products commonly or commercially known or sold as gasoline (including casinghead and natural gasoline), benzol, benzene, or naphtha, regardless of their classifications or uses; and (2) any other liquid of a kind prepared, advertised, offered for sale or sold for use as, or used as, a fuel for the propulsion of motor vehicles, motor boats, or airplanes, except that it does not include any of the foregoing (other than products commonly or commercially known or sold as gasoline) sold for use otherwise than as a fuel for the propulsion of motor vehicles, motor boats, or airplanes, and otherwise than in the manufacture or production of such fuel and does not include products commonly or commercially known or sold as kerosene, gas oil, or fuel oil. Further definitions, referring to the thermometer readings, octane ratings and other specifications are found in sec. 314.30, Regulations 44; 26 CFR, Cum. Supp., 314.30.

(b) Gasoline may be sold tax free by a producer of gasoline to other producers of gasoline, provided the producers are properly registered and bonded and an appropriate certificate in this connection is furnished the seller. (Sec. 314.32, Regulations 44; 26 CFR, Cum. Supp., 314.32).

(c) Tax does not attach to products (other than those referred to in § 808.802–13 (a) (1)) sold direct for use otherwise than as fuel for the propulsion of motor vehicles, motor boats, or airplanes and otherwise than in the manufacture or production of such fuel, provided an appropriate certificate in this connection is furnished the seller. (Sec. 314.33, Regulations 44; 26 CFR, Cum. Supp., 314.33). Exemption from tax discussed in this paragraph will not be claimed, contract prices will not exclude taxes on the basis of such an exemption and proof of such an exemption will not be furnished contractors.

§ 808.802–14 *Lubricating oils.* (Sec. 3413, IRC; Regulations 44, Subpart E; 26 CFR, Cum. Supp., 314.40–314.44). Rate: 6 cents a gallon.

(a) Tax is imposed upon lubricating oils sold by the manufacturer or producer. The term "lubricating oil" includes all oils, regardless of their origin, which are sold as lubricating oil and all oils which are suitable for use as a lubricant, but does not include products of the type commonly known as grease. (Sec.314.40, Regulation 44; 26 CFR, Cum. Supp. 314.40).

(b) Lubricating oils may be sold tax free by the manufacturer or producer thereof direct to another such manufacturer or producer for resale, provided the manufacturers are properly registered and bonded and an appropriate certificate in this connection is furnished the seller. (Sec. 314.42 Regulations 44; 26 CFR Cum. Supp. 314.42).

(c) No tax attaches where lubricating oils are sold direct for nonlubricating

uses by the purchaser provided an appropriate certificate in this connection is furnished the seller. (Sec. 314.43 Regulations 44; 26 CFR, Cum. Supp., 314.43). Exemption from tax discussed in this paragraph will not be claimed, contract prices will not exclude taxes on the basis of such an exemption and proof of such an exemption will not be furnished contractors.

§ 808.802–15 *Basis and application of manufacturers excise taxes.* (a) In general, the manufacturers' excise taxes are based on the sales price. In such cases, any charges for coverings, containers, etc., are included in the sales price for purposes of computing the tax. If the amount of the sales price is adjusted upon return to the seller of coverings or containers, the tax should also be adjusted. (Sec. 316.10, Regulations 46; 26 CFR. Cum. Supp., 316.10). The tax imposed, however, is not part of the taxable price of the article. (26 CFR, Cum. Supp., 316.11). Charges for transportation, delivery, insurance, installation, and similar charges are also excluded in computing the tax. (Sec. 316.12, Regulations 46; 26 CFR, Cum. Supp. 316.12).

(b) The lease of an article is considered a sale thereof. In the case of leases or installment sales, the tax is paid proportionately upon each payment. (Sec. 316.9, Regulations 46; sec. 314.4, Regulations 44; 26 CFR, Cum. Supp., 316.9, 314.4).

(c) The tax in general attaches when title passes from the manufacturer. (Sec. 316.5, Regulations 46; sec. 314.4, Regulations 44; 26 CFR, Cum. Supp. 316.5, 314.4). If subsequent reduction is made in the sales price, credit or refund may be obtained by the manufacturer. (Sec. 316.13, Regulations 46; 26 CFR, Cum. Supp. 316.13). Claim by a manufacturer for credit or refund must show, among other things, that the tax has not been collected from the purchaser or has been repaid to him or that his written consent to the allowance of the credit or refund has been obtained. (Sec. 316.204, Regulations 46; sec. 314.64, Regulations 44; 26 CFR, Cum. Supp. 316.204, 314.64).

(d) No manufacturers' excise tax is imposed under section 3406, Internal Revenue Code (§§ 808.802–5 to 808.802–9, inclusive), with respect to any article subject to the retailers' excise tax on sale of jewelry, etc., referred to in § 808.804–1. (Sec. 3406, IRC).

§ 808.803 *Pistols and revolvers.* (Chapter 25, Subchapter A, IRC; Regulations 47; 26 CFR, and Cum. Supp., Part 302). Rate: 11%. Tax is imposed upon pistols and revolvers sold or leased by the manufacturer, producer or importer. (Sec. 2700, IRC).

§ 808.804 *Retailers' excise taxes.* (Chapter 19, IRC; Regulations 51; 26 CFR, Cum. Supp., Part 320). Rate: 20% of price for which article is sold, except where otherwise specified. (Rate is effective April 1, 1944.) Tax is imposed upon the articles specified below in §§ 808.804–1 to 808.804–4, inclusive, sold at retail. Such articles when sold to the Government for use or consumption are considered to be sold at retail.

§ 808.804–1 *Jewelry, etc.* (Sec. 2400, IRC; Regulations 51, Subpart D; 26 CFR, Cum. Supp., 320.30–320.38).

(a) All articles commonly or commercially known as jewelry, whether real or imitation; pearls, precious and semiprecious stones, and imitations thereof; articles made of, or ornamented, mounted or fitted with, precious metals or imitations thereof; watches and clocks and cases and movements therefor; gold, goldplated, silver, or sterling flatware or hollow ware, and silver-plated hollow ware; opera glasses; lorgnettes; marine glasses; field glasses; and binoculars. The rate of tax is 10% (and not 20%) of the sales price of watches selling at retail for not more than $65 and alarm clocks selling at retail for not more than $5.

(b) The tax does not apply to any article used for religious purposes, to surgical instruments, to watches designed especially for use by the blind, to frames or mountings for spectacles or eyeglasses, to a fountain pen or smokers' pipe if the only parts of the pen or the pipe which consist of precious metals are essential parts not used for ornamental purposes, or to buttons, insignia, cap devices, chin straps, and other devices prescribed for use in connection with the uniforms of the armed forces of the United States.

(c) "Opera glasses; lorgnettes; marine glasses; field glasses; and binoculars" include only those which are portable instruments. Articles known as marine glasses, field glasses and similar optical instruments which by reason of size or weight are ordinarily mounted upon tripods or other bases, are not subject to tax. (Sec. 320.36, Regulations 51; 26 CFR, Cum. Supp., 320.36).

§ 808.804–2 *Furs.* (Sec. 2401, IRC; Regulations 51, Subpart E; 26 CFR, Cum. Supp., 320.40–320.41).

(a) Articles made of fur on the hide or pelt and articles of which such fur is the component material of chief value.

(b) Where a person, who is engaged in the business of dressing or dyeing fur skins or of manufacturing, selling, or repairing fur articles, produces an article of the kind described from fur on the hide or pelt furnished, directly or indirectly, by a customer and the article is for the use of, and not for resale by, such customer, the transaction shall be deemed to be a sale at retail and the person producing the article shall be deemed to be the person selling such article at retail. The tax on such a transaction shall be computed and paid by such person upon the fair retail market value of the finished article. The Revenue Act of 1943 added, effective April 1, 1944, the provisions referred to in this paragraph.

§ 808.804–3 *Toilet preparations.* (Sec. 2402, IRC; Regulations 51, Subpart F; 26 CFR, Cum. Supp., 320.50–320.52). Perfumes, essences, extracts, toilet waters, cosmetics, petroleum jellies, hair oils, pomades, hair dressings, hair restoratives, hair dyes, aromatic cachous, toilet powders, and any similar substance, article, or preparation, by whatsoever name known or distinguished; any of the above which are used or applied or intended to be used or applied for toilet purposes.

§ 808.804–4 *Luggage.* (Sec. 1651, IRC).

(a) Trunks, valises, traveling bags, suitcases, satchels, overnight bags, hat boxes for use by travelers, beach bags, bathing suit bags, brief cases made of leather or imitation leather, and salesmen's sample and display cases.

(b) Purses, handbags, pocketbooks, wallets, billfolds, and card, pass, and key cases.

(c) Toilet cases and other cases, bags, and kits (without regard to size, shape, construction, or material from which made) for use in carrying toilet articles or articles of wearing apparel.

including in each case fittings or accessories therefor sold on or in connection with the sale thereof.

This tax first became effective April 1, 1944. For the period during which it remains in effect, the manufacturers' excise tax imposed upon luggage by section 3406 (a) (2), Internal Revenue Code, is suspended.

§ 808.804–5 *Sales in army commissaries and exchanges.* Under an agreement between the War Department and the Bureau of Internal Revenue, the latter will not attempt to collect retailers' excise taxes on sales of jewelry, furs, toilet preparations and luggage to members of the armed forces and their families and to civilian employees permanently employed on military posts, when such sales are made in army commissaries and exchanges. The War Department in turn agreed that sales of such articles in army commissaries and exchanges would not be made to casual laborers or temporary employees on military posts.

§ 808.804–6 *Basis and application of retailers' excise taxes.* (a) The retailers' excise taxes are based on the sales price. Any charges for coverings, containers, etc. shall be included in the sales price for purposes of computing the tax. If the amount of the sales price is adjusted upon return to the seller of coverings or containers, the tax should also be adjusted. (Sec. 320.6, Regulations 51; 26 CFR, Cum. Supp., 320.6). The tax imposed, however, is not part of the taxable price of the article. (Sec. 320.7, Regulations 51; 26 CFR, Cum. Supp., 320.7). Charges for transportation, delivery, insurance, installation, and similar charges are also excluded in computing the tax. (Sec. 320.8, Regulations 51; 26 CFR, Cum. Supp., 320.8)

(b) The lease of an article is considered a sale thereof. In the case of leases or instalment sales, the tax is paid proportionately upon each payment. (Sec. 320.10, Regulations 51; 26 CFR, Cum. Supp., 320.10)

(c) The tax in general attaches when title passes to the purchaser. (Sec. 320.4, Regulations 51; 26 CFR, Cum. Supp., 320.4). If subsequent reduction is made in the sales price, a credit or refund may be obtained by the seller. (Sec. 320.9, Regulations 51; 26 CFR, Cum. Supp., 320.9). Claim by a seller for credit or refund must show, among other things, that the tax has not been

collected from the purchaser or has been repaid to him or that his written consent to the credit or refund has been obtained. (Sec. 320.66; Regulations 51; 26 CFR, Cum. Supp., 320.66).

(d) In the case of any article classifiable under more than one retailer's excise tax, only one tax on such article shall be imposed. Where the rates of such tax differ, the article shall be subject to tax at the highest rate. (Sec. 1653, IRC.)

§ 808.805 *Tax on transportation of persons.* (Chapter 30, Subchapter C, IRC; Regulations 42, Subpart F; 26 CFR, Cum. Supp., 130.50–130.64).

Rate: 15% of the amount paid. Tax is imposed upon the amount paid within the United States for the transportation of persons by rail, motor vehicle, water, or air, within or without the United States, and for seating or sleeping accommodations in connection with such transportation. (Sec. 3469, IRC).

§ 808.805–1 *Basis and application of tax on transportation of persons.* (a) The taxability of a payment for transportation is determined strictly by the place of payment, i. e., whether within or without the United States. The place where the transportation service is furnished has no bearing on the tax. (Sec. 130.51, Regulations 42; 26 CFR, Cum. Supp., 130.51).

(b) Where a payment covers other charges than for transportation of a person, such other charges may be excluded in computing the tax, provided they are separable and are shown in the exact amounts thereof in the records pertaining to the transportation charge. (Secs. 130.52 and 130.54, Regulations 42; 26 CFR, Cum. Supp., 130.52 and 130.54).

(c) The tax does not apply to an amount paid for transportation of freight that includes also the transportation of caretakers or messengers for which no specific charge as such is made. (Sec. 130.54 (d), Regulations 42; 26 CFR, Cum. Supp. 130.54 (d)).

(d) The tax does not apply to transportation or facilities furnished under special tariffs providing for fares of not more than 1¼ cents per mile applicable to round trip tickets sold to personnel of the United States Army, Navy, Marine Corps, and Coast Guard traveling in uniform of the United States, or to members of the military or naval forces of any of the other United Nations traveling in uniform of such nation, at their own expense when on official leave, furlough, or pass, including authorized cadets and midshipmen (Sec. 3469 (f) (2) IRC).

(e) The tax does not apply to charges not exceeding 35 cents, certain commutation tickets, nor to transportation by motor vehicles with seating capacity of less than 10 and not operated on an established line. (Sec. 3469 (a) and (b), IRC; secs. 130.58–130.60, Regulations 42; 26 CFR, Cum. Supp., 130.58–130.60).

§ 808.806 *Tax on transportation of property.* (Chapter 30, Subchapter E, section 3475, IRC; Regulations 113; 26 CFR, Cum. Supp. Part 143). Rate: 3% of the amount paid, except that in the case of coal, the rate is 4 cents per short ton.

(a) Tax is imposed upon the amount paid within the United States for the transportation of property by rail, motor vehicle, water, or air from one point in the United States to another. The tax applies only to amounts paid to a person engaged in the business of transporting property for hire, including amounts paid to a freight forwarder, express company, or similar person, but does not include amounts paid by a freight forwarder, express company, or similar person for transportation with respect to which a tax on the transportation of property has previously been paid. In the case of property transported from a point without the United States to a point within the United States, the tax shall apply to the amount paid within the United States for that part of the transportation which takes place within the United States. The tax on the transportation of coal does not apply to the transportation of coal with respect to which there has been a previous taxable transportation.

(b) Effective December 1, 1943, amounts paid by or to the War Shipping Administration for the transportation of property by water from one point in the United States to another, except between points on the Great Lakes, are exempt from tax until approximately six months after the termination of hostilities.

(c) Effective December 1, 1943, the tax does not apply to amounts paid for the transportation of property to or from the American National Red Cross.

(d) Effective December 1, 1943, amounts paid for transportation of property to or from the government of a state, territory, or political subdivision thereof, or the District of Columbia are exempt from tax.

(e) The tax does not apply to amounts paid to the Post Office Department for the transportation of property.

(f) As to shipments on United States Government bills of lading, see § 808.810.

§ 808.806–1 *Basis and applications of tax on transportation of property*—(a) *Transportation.* The term "transportation" means the movement of property by a person engaged in the business of transporting property for hire, including interstate, intrastate, and intracity or other local movements, as well as towing, ferrying, switching, etc. In general, it includes accessorial service furnished in connection with a transportation movement, such as loading, unloading, blocking and staking, elevation, transfer in transit, ventilation, refrigeration, icing, storage, demurrage, lighterage, trimming of cargo in vessels, wharfage, handling, feeding and watering livestock, and similar services and facilities. (Sec. 143.1 (d), Regulations 113; 26 CFR, Cum. Supp., 143.1 (d)).

(b) *Coal.* The term "coal" includes anthracite, bituminous, semi-bituminous, sub-bituminous, and lignite coal, coal dust, and coke and briquettes made from coal (Sec. 143.1 (f), Regulations 113; 26 CFR, Cum. Supp., 143.1 (f)).

(c) *Baggage.* An amount paid, in connection with the transportation of persons, for the transportation of baggage, including incidental charges on account of excess weight, excess value, storage, transfer, special delivery, etc., or an amount so paid for a special baggage or express car or other conveyance is subject to the tax on the transportation of property if separable from the payment for the transportation of persons and separately shown on the records of the carrier. Otherwise the tax on the transportation of persons (see § 808 805–1) applies. (Sec. 143.1 (c), Regulations 113; 26 CFR, Cum. Supp., 143.14 (c)).

(d) *Previous taxable transportation of coal.* An amount paid for the transportation of coal is not taxable if there has been a previous taxable transportation of such coal. An amount paid for the transportation of coke or briquettes made from coal is not subject to tax provided there has been a previous taxable transportation of the coal or coal dust from which such coke or briquettes were manufactured. When a person delivers to a carrier a quantity of coal for a transportation movement, and the transportation tax has previously been paid with respect to the coal so delivered, a statement to that effect shall be endorsed on the bill of lading or other shipping papers. This endorsement shall constitute authority to the carrier not to collect tax with respect to the transportation charges due on such shipment. (Sec. 143.13 (b), Regulations 113; 26 CFR, Cum. Supp., 143.13 (b)).

§ 808.807 *Tax on transportation of oil by pipe line.* (Chapter 30, Subchapter A, IRC; Regulations 42, Subpart D; 26 CFR. Cum. Supp., 130.20–130.26.) Rate: 4½% of amount paid. Tax is imposed upon all transportation of crude petroleum and liquid products thereof by pipe line. In the event no charge is made for such transportation, or if the payment is made under a transaction which is not an arm's length one and such payment is less than the fair charge, the tax is imposed upon the fair charge for the transportation (Sec. 3460, IRC).

§ 808.808 *Telegraph, telephone, radio and cable facilities.* (Chapter 30, Subchapter B, sec. 3465, IRC; Regulations 42, Subpart E; 26 CFR. Cum. Supp., 130.30–130.46.) Rate: See following paragraphs. Rates shown therein are those effective April 1, 1944.

(a) *Telephone and radio telephone messages.* Tax is imposed at the rate of 25% of the amount paid within the United States for each telephone or radio telephone message or conversation for which the toll charge is more than 24 cents.

(b) *Telegraph, cable, and radio dispatches and messages.* Tax is imposed on the amount paid within the United States for each telegraph, cable or radio dispatch or message. In the case of each such domestic dispatch or message the rate of tax is 25%. In the case of each such international dispatch or message the rate of tax is 10%.

(c) *Leased wire, teletypewriter, or talking circuit special services.* Tax is imposed at the rate of 25% of the amount paid for leased wire, teletypewriter, or talking circuit special service, but not including an amount paid for service used exclusively in rendering a service taxable under the tax described in paragraph (d).

(d) *Wire and equipment service.* Tax is imposed at the rate of 8% of the amount paid for any wire and equipment service (including stock quotation and information services, burglar alarm or fire alarm service, and all other similar services but not including service described in paragraph (c)).

(e) *Local telephone service.* Tax is imposed at the rate of 15% of the amount paid by subscribers for local telephone service and for any other telephone service in respect of which a tax is not payable under the taxes described in paragraphs (a) to (d). Amounts paid for the installation of instruments, wires, poles, switchboards, apparatus, and equipment shall not be considered amounts paid for service.

SUBPART C—EXEMPTIONS FROM FEDERAL EXCISE TAXES

§ 808.810 *Exemption from specific Federal excise taxes as to articles sold and services furnished for the use of the United States.* Exemption is available from the following specific Federal excise taxes, to the extent indicated below, in connection with articles sold and services furnished for the use of the United States. Such exemption is available with respect to contracts entered into either prior or subsequent to June 1, 1944.

(a) Manufacturers' excise tax on radio receiving sets, phonographs, phonograph records and musical instruments. See § 808.802–3.[1]

(b) Manufacturers' excise tax on firearms, shells, cartridges. See § 808.802–10.[1]

(c) Manufacturers' excise tax on tires and inner tubes (see § 808.802–1), when such tires and tubes are sold to any person for use as component parts in the manufacture of an article which is to be sold direct to the War Department at a price not including the tax on the tires and tubes.[3]

(d) Tax on pistols and revolvers. See § 808.803.[1]

(e) Tax on telephone, telegraph, cable, radio, or leased wire services or facilities (see § 808.808), to the extent such services or facilities are furnished directly to the United States and for which payment is made directly by the United States. No exemption is available with respect to such services or facilities furnished to a contractor or other person operating under a contract to perform work on behalf of, or to furnish articles or materials to, the United States Government or any agency thereof.[2]

(f) Tax on transportation of persons (see § 808.805) with respect to payments for transportation furnished to the United States upon a United States Government transportation request.[2]

(g) Tax on transportation of property (see § 808.806), with respect to payments for transportation to or from the Government of the United States shipped on a United States Government bill of lading.[2]

§ 808.810–1 *Policy as to claiming exemption from specific Federal excise taxes listed in § 808.810.* Exclusion from contract prices of the tax on pistols and revolvers and the manufacturers' excise taxes referred to in § 808.810 is governed by the policy set forth in the Appendix to this part, except as otherwise provided in this section. Fixed price (lump sum) contractors, subcontractors, suppliers and materialmen may be authorized to purchase tires and inner tubes on a tax exclusive basis, when permitted pursuant to Treasury Decision 5114, as a variation to the policy set forth in such Appendix. Cost-plus-a-fixed fee prime contractors or subcontractors should not be permitted to purchase tires and inner tubes on a tax exclusive basis; care should be taken to determine that any fixed fee is computed without reflecting in any way any tax on tires or inner tubes.

Exemptions referred to in § 808.810 from transportation taxes are automatically secured by the use of United States Government transportation requests or bills of lading, as the case may be. Exemptions referred to in § 808.810 from communications taxes are automatically secured without the use of exemption certificates.

§ 808.811 *Exemption based upon exportation.* Exemption is available (a) from the manufacturers' excise taxes (§ 808.802 et seq.) and the retailers' excise taxes (§ 808.804 et seq.) with respect to sales for export and (b) from the tax on the transportation of property (§ 808.806) with respect to property in course of exportation. (Secs. 2406, 2705, 3449, IRC; secs. 314.25–314.27, Regulations 44; secs. 316.25–316.27, Regulations 46; secs. 320.21–320.22, Regulations 51; secs. 143.30–143.35, Regulations 113; 26 CFR, Cum. Supp., 314.25–314.27, 316.25–316.27, 320.21–320.22, 143.30–143.35.) This exemption will not be claimed. Contract prices therefore, will not exclude Federal excise taxes from which exemption is available only by reason of export and proof of exportation will not be furnished to contractors.

§ 808.812 *Exemption from manufacturers' excise taxes of sale of certain supplies and equipment for vessels of war including aircraft.* Exemption from manufacturers' excise taxes (§ 808.802, et seq.) is available with respect to the sale of an article for use as fuel supplies, ships' stores, sea stores, or legitimate equipment on vessels of war of the United States or of any foreign nation, vessels employed in the fisheries or in the whaling business or actually engaged in foreign trade or trade between the Atlantic and Pacific ports of the United States or between the United States and any of its possessions. The term "vessels of war" of the United States or of any foreign nation includes aircraft owned by the United States or by any foreign nation and constituting a part of the armed forces thereof. The terms "fuel supplies," "ships' stores," "legitimate equipment" include all articles, materials, supplies, and equipment necessary for the navigation, propulsion, and upkeep of vessels. (Sec. 3451, IRC; sec. 314.28, Regulations 44; sec. 316.28, Regulations 46; 26 CFR, Cum. Supp., 314.28, 316.28). Under Treasury regulations this exemption, insofar as it relates to aircraft, is available only with respect to purchases made direct from manufacturers or producers and not with respect to purchases from dealers or distributors.

§ 808.812–1 *Policy as to claiming exemption described in § 808.812.* Serious administrative burdens would be imposed if the exemption described in § 808.812 were to be claimed with respect to articles of a character usable either (a) as supplies or legitimate equipment for vessels of war including aircraft or (b) otherwise. This exemption will not be claimed, contract prices will not exclude Federal excise taxes on the basis of this exemption and proof of this exemption will not be furnished to contractors, except that such action may be taken in connection with purchases of the following items:

(1) Aviation gasoline.

(2) Lubricating oil suitable only for aircraft engines.

(3) Aircraft tires and inner tubes.

(4) Aerial photographic cameras including gun cameras, lenses, apparatus, equipment, and films therefor.

§ 808.813 *Manufacturers' excise taxes; sales for further manufacture.* Exemption is available from manufacturers' excise taxes (§ 808.802 et seq.), and may be claimed by manufacturers, in the case of sale of any taxable article (other than tires, inner tubes or automobile radios) sold for use by the vendee as material in the manufacture or production of, or as a component part of, a taxable article or for resale by the vendee for such use by his vendee if such article is in due course so resold. (Also see § 808.802–2 (d) (2).) An appropriate certificate of the vendee must be given to the vendor in order to obtain this exemption. (Sec. 3442, IRC; secs. 314.20–314.23, Regulations 44; secs. 316.20–316.23, Regulations 46; 26 CFR, Cum. Supp., 314.20–314.23, 316.20–316.23). This exemption is available to a purchasing manufacturer without the necessity for any action by the War Department. The standard tax articles do not provide for the inclusion in the contract price of taxes from which such an exemption is available and such taxes should not be a component of the contract price.

§ 808.814 *Sales under contracts entered into prior to June 1, 1944, and agree-*

[1] Exemption with respect to these items was retained in the Internal Revenue Code as to sales made prior to the first day of the first month which begins six months or more after the date of termination of hostilities in the present war. (Sec. 307 (b) (2), Revenue Act of 1943.)

[2] Exemption of these items was authorized by the Secretary of the Treasury on April 29, 1944 (9 F.R. 4615, May 2, 1944) pursuant to authority vested in him by section 307 (c) of the Revenue Act of 1943 (see § 808.817). Such authorization of exemption expires at the close of the last day of the sixth full calendar month following the date of the termination of hostilities in the present war.

[3] This exemption was authorized by the Secretary of the Treasury on May 31, 1944 (9 F.R. 5993, June 2, 1944) pursuant to authority vested in him by section 307 (c) of the Revenue Act of 1943 (see § 808.817). Such authorization of exemption expires at the close of the last day of the sixth full calendar month following the date of the termination of hostilities in the present war.

ments and change orders supplemental thereto. Exemption from the manufacturers' excise taxes (§ 802.802 et seq.) and the retailers' excise taxes (§ 808.804 et seq.) remain available as to sales for the use of the United States pursuant to a contract entered into prior to June 1, 1944, or to any agreement or change order (executed prior to, on or after June 1, 1944) supplemental to such contract and bearing the same Government contract number. (Sec. 307 (b) (1), Revenue Act of 1943.) No such exemption remains available as to excise taxes on transportation and communication referred to in §§ 808.805 to 808.808, inclusive. Accordingly, exemptions from the manufacturers' and retailers' excise taxes remain available with respect to:

(a) Sales to the United States by prime contractors under fixed price contracts entered into prior to June 1, 1944, if the prices exclude the taxes on such sales, and under cost-plus-a-fixed-fee contracts entered into prior to that date; and

(b) Purchases by such prime contractors from their suppliers or subcontractors under purchase orders or subcontracts entered into prior to, on or after June 1, 1944: *Provided,* That their prime contracts contemplated tax exclusive purchases and that the purchase orders or subcontracts provide for the exclusion of the taxes from the prices of the articles purchased. (As a general rule, fixed price prime contracts entered into on and after March 1, 1943, in conformity with the policies set forth in the Appendix to this part have not contemplated tax exclusive purchases by prime contractors—see §§ 808.897 to 808.897-6, inclusive.)

§ 808.814-1 *Policy as to claiming exemptions applying to sales under contracts entered into prior to June 1, 1944, and agreements and change orders supplemental thereto.* (a) The provisions of prime contracts entered into prior to June 1, 1944, determine whether and to what extent the contract price includes or excludes Federal excise taxes and consequently whether and to what extent exemptions are to be claimed.

(b) If the price under a contract entered into prior to June 1, 1944, includes an applicable Federal excise tax, agreements or change orders supplemental to such contract and executed on or after June 1, 1944, will also include such tax in the price and such tax will be paid by the contractor. This shall not prevent, however, the claiming of any available exemptions pursuant to the provisions of this part.

(c) If the price under a prime contract entered into prior to June 1, 1944, excludes an applicable Federal excise tax, agreements or change orders supplemental thereto and executed on or after June 1, 1944 may also exclude such tax. Exemption will continue to be available from any tax so excluded. Heretofore existing policies, which are contained in the Appendix to this part, determine the extent to which exemption from any such tax may be extended to purchases by contractors.

(d) Where new contracts normally would be executed, supplemental agreements or change orders will not be used merely to avoid the payment of Federal excise taxes.

§ 808.815 *Miscellaneous exemptions.* In addition to the exemptions discussed in this subpart, certain miscellaneous exemptions, applying to private as well as Government procurement, are available from Federal excise taxes. Some of these miscellaneous exemptions are mentioned in Subpart B of this part; in some cases such Subpart B provides that those exemptions will not be claimed. Any exemption, as to which no policy is otherwise provided in this part, need not be claimed, in which event contract prices will not exclude taxes on the basis of such an exemption and proof of such an exemption will not be furnished to contractors.

§ 808.816 *Effective date of removal of other Governmental exemptions.* Prior to the Revenue Act of 1943, additional exemptions, not set forth in this subpart, were available in connection with procurement for the use of the United States. The removal by the Revenue Act of 1943 of such additional exemptions is effective as follows:

(a) Manufacturers' and retailers' excise taxes—sales made on and after June 1, 1944.

(b) Tax on transportation of persons—amounts paid on or after June 1, 1944.

(c) Tax on transportation of property—amounts paid on or after June 1, 1944.

(d) Tax on telephone, telegraph, radio and cable facilities:

(1) Messages and dispatches (§ 808.808 (a) and (b))—originating on or after June 1, 1944.

(2) Service (§ 808.808 (c) to (e))—amounts paid pursuant to bills rendered on or after June 1, 1944, for service for which no previous bill was rendered.

§ 808.817 *Power of Secretary of the Treasury to authorize exemption.* The Secretary of the Treasury may authorize exemption from the taxes imposed by Chapters 19 (retailers' excise taxes, § 808.804 et seq.), 29 (manufacturers' excise taxes, § 808.802 et seq.), or 30 (taxes on transportation and communication, §§ 808.805 to 808.808) of the Internal Revenue Code as to any particular articles or services, or class of articles or services, to be purchased for the exclusive use of the United States, if he determines that the imposition of such taxes with respect to such articles or services, or class of articles or services, will cause substantial burden or expense which can be avoided by granting tax exemption and that the full benefit of such exemption, if granted, will accrue to the United States. The authority of the Secretary of the Treasury in this regard, however, is not applicable to any contract entered into on or after the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war. (Sec. 307 (c) of the Revenue Act of 1943).

§ 808.817-1 *Procedure to request exercise of authority by Secretary of the Treasury.* In cases where it is deemed necessary for the Secretary of the Treasury to authorize exemptions with respect to any particular articles or services, or class of articles or services, requests for the exercise of that authority will be forwarded through channels to the Director, Purchases Division, Headquarters, Army Service Forces. Such requests should specify in detail the reasons why the request exemption is needed.

§ 808.817-2 *Circumstances under which requests are proper.* The purpose of the removal by the Revenue Act of 1943 of various exemptions applying to the United States from Federal excise tax was to eliminate the numerous administrative procedures (and resulting need for personnel) required on the part of private contractors, procurement agencies and the Bureau of Internal Revenue in order to establish such exemptions, which if not available would not cause any net loss to the United States. It was recognized, however, that in some cases it might be determined that such removal of exemptions would impose greater net costs or administrative burdens than did the retention thereof or would cause other results adversely affecting the United States, in some serious and substantial manner. The established policy of the War Department is to request the Secretary of the Treasury to authorize exemptions only in cases of this character.

In no event will requests be made to the Secretary of the Treasury to authorize exemptions from tax if the only reason therefor is a desire to reduce the contract price or prices by the amount of the tax which, if paid, would go eventually into the Treasury. Such requests will be presented to the Secretary of the Treasury only where it is clearly established (a) that the denial of exemption with respect to purchases of particular articles or services, or classes of articles or services, for the exclusive use of the United States imposes serious administrative problems or presents substantial danger of net loss to the United States, and (b) that the full benefit of any exemption, if granted, will accrue to the United States.

§ 808.818 *Federal excise taxes not covered by this part.* This part applies only to Federal excise taxes imposed by the following chapters of the Internal Revenue Code: Chapter 19 (retailers' excise taxes—see § 808.804, et seq.), Chapter 25 (pistols and revolvers—see § 808.803), Chapter 29 (manufacturers' excise taxes—see § 808.802, et seq.) and Chapter 30 (transportation and communication—see §§ 808.805 to 808.808). When any technical service has responsibility for the procurement or purchase of any articles subject to a Federal excise tax under any other chapter of the Internal Revenue Code, such technical service may prescribe such rules, governing the securing of exemption from such tax, as it may deem proper.

SUBPART D—TAX EXEMPTION CERTIFICATE FORMS AND PROCEDURE

§ 808.820 *Applicability of this subpart.* The forms and procedures set forth in

this subpart are applicable after June 1, 1944, so far as exemptions from Federal excise taxes are concerned, only with respect to the exemptions specified in §§ 808.810, 808.812 and 808.814. The policies governing the claiming of these exemptions are set forth in §§ 808.810–1, 808.812–1 and 808.814–1.

§ 808.821 *Standard tax exemption forms.* The following standard tax exemption forms have been prescribed:

	Standard Form No.
U. S. Government Tax Exemption Certificate	1094
Cover of U. S. Government tax exemption certificate book (front, outside and inside; back, outside)	1094A
Tabulation sheet (insert)	1094B
U. S. Government tax exemption identification card	1094C

§ 808.822 *U. S. Government Tax Exemption Certificate, Form 1094.* The front of U. S. Government Tax Exemption Certificate, Form 1094, is as follows:

Standard Form No. 1094—Revised Form approved by Comptroller General U. S., June 11, 1937 (Gen. Reg. No. 86—Revised)

*State and local taxes to be paid only when absolutely necessary to obtain commodity required.

§ 808.822–1 *Form 1094; where used.* U. S. Government Tax Exemption Certificate Form No. 1094 will be issued by the appropriate officer where required by the contract to supply proof of exemption with respect to those taxes which have been excluded from the contract price, as follows:

(a) All Federal excise taxes from which exemption is available on the basis of purchase for the use of the United States. See §§ 808.812 and 808.825 in connection with exemption under section 3451, Internal Revenue Code.

(b) All state and local taxes, except when a different form is required by the state or local tax authority. (See § 808.830)

§ 808.823 *Supply and reports of standard forms.* (a) Standard Forms 1094, 1094A, 1094B and 1094C will be requisitioned and distributed as prescribed in AR 310–200.

(b) Such forms will be subject to special control as prescribed in paragraph 10, AR 310–100.

(c) Submission of reports accounting for such forms is indefinitely suspended.

§ 808.824 *Who may execute tax exemption certificates.* (a) Tax exemption certificates will be executed only by those officers and Federal employees who have been supplied with a Standard Form No. 1094–C (U. S. Government tax exemption identification card).

(b) The identification card of authorized officers and employees of technical services responsible for purchasing at a post, camp, or station will be signed by the commanding officer. Identification cards supplied to other officers and Federal employees will be signed by the officer who furnishes such officer or employee with tax exemption certificates.

§ 808.825 *Aircraft and vessels of war supplies and equipment tax exemption certificate.* The following form is prescribed by Regulations 44 (Sec. 314.23) and Regulations 46 (Sec. 316.23) (26 CFR, Cum. Supp., 314.23 and 316.23):

EXEMPTION CERTIFICATE

(For use by purchasers of articles for use as fuel supplies, ships' stores, sea stores, or legitimate equipment on certain vessels (section 3451 of the Internal Revenue Code))

____, 19____

(Date)

The undersigned purchaser hereby certifies that he is ____ of

(Owner, officer, charterer, or an authorized agent

____ and that the article

(Name of company and vessel)

or articles specified in the accompanying order, or as specified below or on the reverse side hereof, will be used only for fuel supplies, ships' stores, sea stores, or legitimate equipment on a vessel belonging to one of the following classes enumerated in section 3451 of the Internal Revenue Code:

(Check class to which vessel belongs.)

——(1) Vessels engaged in foreign trade,

——(2) Vessels engaged in trade between the Atlantic and Pacific ports of the United States,

——(3) Vessels engaged in trade between the United States and any of its possessions,

——(4) Vessels employed in the fisheries or whaling business,

——(5) Vessels of war of the United States or a foreign nation.

If the articles are purchased for use on civil aircraft engaged in trade as specified in (1) or (3) above, state the name of the country in which the aircraft is registered ____

The undersigned understands that if the article is used for any purpose other than as stated in this certificate, or is resold or otherwise disposed of, he must report such fact to the manufacturer. It is understood that this certificate may not be used in purchasing articles tax free for use as fuel supplies etc., on pleasure vessels, or on any type of aircraft except (a) civil aircraft employed in foreign trade or trade between the United States and any of its possessions, and otherwise entitled to exemption, and (b) aircraft owned by the United States or any foreign country and constituting a part of the armed forces thereof. It is also understood that the fraudulent use of this certificate to secure exemption will subject the undersigned and all guilty parties to a penalty equivalent to the amount of tax due on the sale of the article and upon conviction to a fine of not more than $10,000, or to imprisonment for not more than five years, or both, together with costs of prosecution. The undersigned also understands that he must be prepared to establish by satisfactory evidence the purpose for which the article was used.

(Address)

The above form will be issued by the appropriate officer where *required by the contract* to supply proof of exemption with respect to the Federal excise taxes from which an exemption is available under Section 3451, Internal Revenue Code, such as for fuel supplies, ship stores and equipment for vessels of war, including aircraft of the armed forces. See § 808.812–1 as to the policy with respect to claiming this exemption.

§ 808.826 *Tax exemption certificates for issuance by contractors.* T. D. 5114, Jan. 27, 1942 (26 CFR, Cum. Supp., Part 470) authorizes exemption from the Federal excise taxes imposed by Chapters 25 and 29 of the Internal Revenue Code (taxes on pistols and revolvers and Manufacturers' excise taxes—see §§ 808.–802 to 808.803, inclusive) on sales to contractors with the United States of purchase, construction and subsidiary articles. The policy with respect to this exemption is set forth in the Appendix to this part. The exemption is not available unless the contractor or subcontractor has been authorized by the contracting officer on W. D. Tax Form No. 1 (see § 808.826–1) attached to a standard Government Tax Exemption Certificate Form 1094. The forms prescribed by section 470.3 (b) of T. D. 5114 (26 CFR, Cum. Supp., 470.3 (b)) for use by contractors and subcontractors are set forth in §§ 808.826–2 and 808.826–3.

§ 808.826–1 *W. D. Tax Form No. 1: Authority of contractor and subcontractors to issue tax exemption certificates.*

W. D. Tax Form No. 1

AUTHORITY OF CONTRACTOR AND SUBCONTRACTORS TO ISSUE TAX EXEMPTION CERTIFICATES

§ 808.827 *Preparation and execution of exemption certificates.* (a) In the preparation of tax exemption certificates the typewriter will be used when practicable, otherwise ink or indelible pencil will be used. The use of ordinary lead pencil is prohibited. All blank spaces must be properly filled in or lined out, and no such exemption certificate will be delivered to a contractor unless fully and properly executed, except that the Bureau of Internal Revenue has advised that it is not necessary to state the amount of Federal tax upon the exemption certificate (Ltr. to the Chief Signal Officer from D. S. Bliss, Deputy Commissioner of Internal Revenue, 19 June 1942). The amount of tax should be stated, however, if readily available. In a case where Federal excise taxes have been excluded from the contract price of articles or supplies purchased, but the exact amount of the tax cannot be determined at that time, a blanket tax exemption certificate may be issued to cover all sales under the contract. The certificate should cover all articles purchased under such contract, including delivery orders placed thereunder by other officers. As to blanket tax exemption certificates covering purchases under contracts of the General Schedule of Supplies, see § 808.829.

(b) A separate certificate for each kind of tax (Federal, State or local) involved will be prepared. In the issuance of these certificates care must be exercised to fill in the blank spaces provided for showing on each certificate the separate amounts of the taxes involved (if known) so that the certificates may be used only for the purpose intended.

(c) Where the supplies or work covered by the contract are not taxable as such and the certificate is to be used for the purpose of obtaining exemption on the articles to be incorporated in the supplies or work covered by the contract, the amount of tax to be shown on the certificate should be stated as "None". No tax should be shown on the certificate except the tax imposed directly upon the supplies or work covered by the contract.

(d) Except as provided in paragraph (a) of § 808.828, the following statement will be written or stamped upon the face of each certificate pertaining to Federal taxes (except where a cost-plus-a-fixed-fee contract is involved): "W. D. Tax Form No. 1 attached". Tax Exemption Certificate Form No. 1094 may be modified insofar as necessary with respect to contracts for construction, alterations, improvements and repairs. The person issuing a tax exemption certificate will, in addition to his signature and title, insert on the lines provided therefor, his identification card number. (See § 808.824.)

§ 808.828 *When and how exemption certificates are issued to contractors.* At any time after the execution of the contract, a tax exemption certificate (Form 1094) and W. D. Tax Form No. 1, when appropriate, will be executed and delivered to the contractor, upon request, covering Federal excise taxes in the following cases:

(a) Where supplies are taxable under Chapter 25 or 29, and are purchased by the Government at a price which is exclusive of such tax. In such a case, the description of the supplies furnished tax free will be inserted on the tax exemption certificate. If such supplies purchased by the Government have had (or will have) incorporated therein tires, inner tubes, or automobile radios and the price paid by the Government is exclusive of the tax thereon, these items will be listed in the space headed "List of Articles" on W. D. Tax Form No. 1, which will be attached to the tax exemption certificate. This will enable the contractor, pursuant to T. D. 5114 (26 CFR, Cum. Supp., Part 470), to issue tax exemption certificates to the suppliers of such tires, inner tubes and automobile radios. It should be noted that under section 3442, Internal Revenue Code, no tax is imposed with respect to the sale of any article (except tires, inner tubes, and automobile radios) for use by the contractor in the manufacture or production of, or as a component part of an article itself taxable under Chapter 29. Accordingly, the contractor may obtain exemption from the burden of the tax on any articles exempted from tax by section 3442 in the manner provided in the Treasury Regulations (Regulation 46, especially section 316.20, 26 CFR, Cum. Supp., 316.20). Therefore, if no tires, inner tubes, or automobile radios are to be included in such supplies to be purchased from the contractor, there is no occasion for annexing W. D. Form No. 1 to the tax exemption certificate.

(b) Where the supplies purchased under the contract are not taxable under Chapter 29 but have had (or will have) incorporated therein one or more articles which are taxable under such Chapter, and the price paid by the Government is exclusive of the tax on one or more of such articles. In such a case, the amount of tax shown on the tax exemption certificate should be stated as "None" and the articles incorporated (or to be incorporated) into the supplies purchased by the Government which are sold exclusive of the tax thereon should be listed upon W. D. Tax Form No. 1 attached to the certificate. Upon receipt of the tax exemption certificate, the contractor and/or his subcontractors (including suppliers) are then authorized to issue tax exemption certificates in the form prescribed in §§ 808.826–2 and 808.826–3, as to the articles listed in W. D. Tax Form No. 1 attached to the Form No. 1094.

(c) Where the contract covers construction, alterations, improvements or repairs, and the physical project to be constructed, altered, improved or repaired will have incorporated therein one or more articles which are taxable under Chapter 29 and the price paid by the Government for the construction, alterations, improvements or repairs, is exclusive of the tax on one or more of such articles to be incorporated into the physical project. In such a case, the amount of tax shown on the tax exemption certificate should be stated as "None", and the articles to be incorporated into the physical project to be constructed, altered, improved or repaired on which no such tax is included in the contract price should be listed upon W. D. Tax Form No. 1 attached to the certificate. Upon receipt of the tax exemption certificate the contractor and/or his subcontrac-

[1] To be shown by contracting officer if known.

tors (suppliers) are then authorized to issue tax exemption certificates in the form prescribed in §§ 803.826–2 and 808.826–3, as to the articles listed on W. D. Tax Form No. 1 attached to the certificate.

(d) Under a cost-plus-a-fixed-fee contract (except one covering the sale of articles taxable under Chapter 29, where (1) above is applicable) when one or more articles taxable under Chapter 29 are used by the contractor as equipment, material or supplies in performing the contract, and such articles are purchased at a price which is exclusive of the tax thereon and payment for same is made by the United States, directly or by reimbursement of the contractor. In such a case, the amount of tax shown on Form 1094 should be stated as "None" and there should be attached to or written on Form 1094 the following statement: "The contractor is authorized to issue tax exemption certificates in the form prescribed by section 470.3(b) of Treasury Decision 5114, approved Jan. 27, 1942 (26 CFR. Cum. Supp., 470.3(b)), as to all articles sold on a Federal tax exclusive basis and for which payment is made by the United States, directly or by reimbursement of the contractor, and which are used by the contractor as equipment, material or supplies in performing the contract to which this (the attached) certificate pertains."

§ 808.829 *Blanket tax exemption certificates; contracts under General Schedule of Supplies.* (a) Nothing contained in this chapter will be construed as authorizing the issuance of blanket tax exemption certificates by chiefs of technical services or contracting officers covering purchases under contracts of the General Schedule of Supplies. Upon application of the contractor, the Procurement and Accounting Division, Office of the Secretary of War, will issue blanket tax exemption certificates as may be necessary to cover all purchases made by War Department agencies in Washington, D. C., and in the field under term contracts of the General Schedule of Supplies, Procurement Division, Treasury Department.

(b) Contractors are required to indicate the number of the applicable blanket tax exemption certificate on their invoices.

(c) The purchase order need not contain the number of the applicable tax exemption certificate. It is sufficient that it contain a reference to the General Schedule of Supplies contract number.

§ 808.830 *State and local taxes.* (a) Tax exemption certificates are also used for establishing exemptions from state and local taxes. In such cases, certificates should be prepared in accordance with the requirements of the particular state or local tax authority concerned. In most cases, Form 1094 (§ 808.822) will be the appropriate form of tax exemption certificate. Except as provided in paragraph (b), no tax exemption certificate should be issued with respect to a state or local tax unless the contract shows that the price paid by the Government is exclusive of the tax to which the certificate pertains or unless the contractor consents to the deduction of such tax from the contract price and the acceptance of the tax exemption certificate in lieu thereof.

(b) When impossible for any reason to effect purchases, excluding the amount of any state or local tax which is deemed to be legally inapplicable to Government purchases, a tax exemption certificate on Form 1094 will be executed and delivered to the disbursing officer to whose accounts the vouchers in the transaction pertain, together with a written statement to the effect that the vendor refused such certificate. Tax exemption certificates executed and delivered as prescribed in this paragraph are for the use of the Finance Department in securing a refund of the amount of the taxes involved. The serial number of the tax exemption certificate will be shown on the payment voucher.

(c) When Form No. 1094 (or other appropriate certificate) executed under the conditions stated above, is received in the administrative office (Finance Department), the bureau or office number of the payment voucher will be noted on the certificate and the administrative office (Finance Department) will bill the State or local taxing agency for refund of the taxes paid. The amount(s) collected will be transmitted to the disbursing officer for credit to the appropriation(s) from which the vouchers were paid, or to miscellaneous receipts accounts, "4326—Refund, State and Local Taxes," if the appropriation cannot be readily identified. In the event the administrative office (Finance Department) fails to secure refund of the amount of taxes paid, it will transmit promptly to the General Accounting Office the tax exemption certificates, if available, together with all correspondence with the taxing agency relating thereto, and information as to the disbursing officer's voucher number on which payment for the merchandise was made, for use by the General Accounting Office in effecting collection thereof as required by section 236, Revised Statutes, as amended by the Budget and Accounting Act, 1921.

SUBPART E—STATE AND LOCAL TAXES

§ 808.831 *Applicable tax directives.* While the various state and local tax laws are not uniform in their application, as a general rule Government purchases are exempt from such taxes. Neither are such laws uniform in their application to purchases by Government contractors. Information will be published from time to time as to the procedure to be followed with regard to state and local taxes. Information already published is contained in a series of memoranda for the chiefs of the technical services and others as follows:

Alabama	Memo. OUSW (PC-L 012.2 Taxes)), 12 January 1942. (Past transactions) Memo. OUSW (PC-L 012.2 (Taxes) (Alabama)), 23 January 1942, as amended by Memo. Hq. SOS (SPPDL-012.2 (Taxes) (Alabama)), 12 June 1942. (Future transactions)

§ 808.831–1 *Information as to the situation in other states* or advice with respect to particular problems in the states lised above should be obtained from the office of The Judge Advocate General by inquiry addressed to the attention of the Chief, Tax Division.

§ 808.831–2 *The instructions contained in the memoranda listed above* are modified by the privisions of § 808.832 so far as they relate to the form of certificates required on invoices of subcontractors and suppliers under cost-plus-a-fixed-fee contracts.

§ 808.832 *Certificate of non-inclusion of State or local taxes in amounts billed to cost-plus-a-fixed-fee contractors or subcontractors.* Where purchases of materials or services by cost-plus-a-fixed-fee contractors or cost-plus-a-fixed-fee subcontractors are exempt from state or local taxes, the vendor's invoices, except as provided in § 808.833, should contain the following statement:

State or local sales, use and similar taxes are not included in the amounts billed.

Where purchases by cost-plus-a-fixed-fee contractors or cost-plus-a-fixed-fee subcontractors are not exempt from state or local taxes the above statement may be omitted from vendor's invoices, but such taxes must be separately itemized.

§ 808.833 *Tax provisions of purchase orders issued by cost-plus-a-fixed-fee contractors and subcontractors.* Cost-plus-a-fixed-fee contractors and cost-plus-a-fixed-fee subcontractors may include in their purchase orders covering supplies or materials the following statement:

Any state or local sales, use, or similar tax, included in the amounts billed MUST be separately stated and itemized. It is understood, and the acceptance of this order shall constitute an agreement, that unless such taxes are separately stated and itemized, no such taxes are included in the amounts billed.

If this statement is included in the purchase order and if no state or local taxes are included in the amount billed to the cost-plus-a-fixed-fee contractor or cost-plus-a-fixed-fee subcontractor, the supplier of the supplies or materials need not include upon his invoice the statement quoted in § 808.832 that certain state or local taxes are not included in the amounts billed. However, even where the purchase order contains the statement quoted above in this paragraph, the invoice of the supplier under the purchase order must separately state and itemize all state or local sales, use or similar taxes which are in fact included in the price billed.

SUBPART F—COLLECTION AND PAYMENT OF FEDERAL EXCISE TAXES BY THE GOVERNMENT

§ 808.840 *General.* Except as provided in § 808.842, the amount of the Federal excise tax will be collected from the purchaser when articles, subject to tax under Chapter 25 (tax on pistols and revolvers—see § 808.803) or Chapter 29 (Manufacturers' excise taxes — see § 808.802, et seq.) of the Internal Revenue Code, purchased free of tax are sold to individuals or used for other than the use of the United States. Funds so collected will be deposited with the local disbursing officer together with information of the name of the contractor from whom the articles were purchased and the number of the contract under which purchase was made. In cases where the name and amount of the contract involved are not known to the sales officer, he will ascertain this information from the shipping or contracting officer or from the chief of the technical service, if necessary.

§ 808.841 *Remittances to contractor.* Funds received by a disbursing officer as payment for taxes imposed by Chapter 25 or 29 of the Internal Revenue Code will be placed in a special deposit account and remitted to the contractor monthly, or at the time the officer closes his accounts when he ceases to disburse, in order that return may be made therefor to the appropriate Collector of Internal Revenue. A copy of the report of such remittance will be forwarded to the Bureau of Internal Revenue. However, if it is impossible for the disbursing officer to determine the contractor from whom the articles subject to tax under Chapter 25 or 29 were purchased, he may remit the amount of the tax to the Collector of Internal Revenue for the district in which the disbursing officer is located with a statement that the name of the contractor is unknown.

§ 808.842 *Transfers to which §§ 808.840 and 808.841 do not apply.* In connection with the following types of transfers of Government-owned property purchased by the Government free of tax, it is not necessary that the amount of the Federal tax be collected from the purchaser and accordingly the provisions of §§ 808.840 and 808.841 are inapplicable:

(a) All sales of used property,

(b) Transfers to a cost-plus-a-fixed-fee contractor of Government-owned property for use in connection with the performance of the contract (whether the transfer is made directly by the Government or on behalf of the Government pursuant to a contract provision similar to that contained in § 803.363),

(c) Sales to a lump sum contractor of Government-owned property for use in connection with the performance of the contract,

(d) Transfers to other agencies of the Government, including transfers for disposition to the Procurement Division, Treasury Department.

§ 808.843 *Adjustment of sales price.* As indicated in § 808.842 (c), it is not necessary that on a sale of property to a lump sum contractor, the amount of the Federal tax, as such, be collected from the contractor. It is not appropriate, however, that the contractor derive the benefit arising from the fact that the Government originally acquired the property tax fee. Accordingly, in fixing the sales price to be paid to the Government by the lump sum contractor, one of the elements going into the price must be the amount of the Federal excise tax which would ordinarily be payable upon a sale of the property.

SUBPART G—ADJUSTMENTS OF CONTRACTS BECAUSE OF CHANGED FEDERAL EXCISE TAXES

§ 808.850 *Excise tax rates increased by Revenue Act of 1943.* The following excise tax rates, among others, were increased (effective April 1, 1944) by the Revenue Act of 1943.

Description of tax	Old rate	Rate under 1943 act
Retailers' excise taxes:	*Per cent*	*Per cent*
Jewelry, etc. (except as to certain watches and alarm clocks)	10	20
Furs	10	20
Toilet preparations	10	20
Luggage (formerly manufacturers' excise tax)	10	20
Manufacturers' excise taxes:		
Electric light bulbs and tubes	5	20
Tax on communication:		
Telephone (over 24 cents)	20	25
Domestic telegraph, cable or radio dispatches	15	25
Leased wires, etc.	15	25
Wire and equipment service	5	8
Local telephone service	10	15
Tax on transportation of persons	10	15

§ 808.851 *Excise taxes repealed by Revenue Act of 1943.* Section 310 of the Revenue Act of 1943 repealed as of April 1, 1944 the retailers' excise tax imposed by section 2400, Internal Revenue Code, with respect to "silver-plated flatware." Section 311 of the Revenue Act of 1943 revised section 3406 (a) (3), Internal Revenue Code, so as to exempt household type electric vacuum cleaners from manufacturers' excise taxes.

§ 808.852 *Excise taxes repealed by Revenue Act of 1942.* Section 611 of the Revenue Act of 1942 repealed as of November 1, 1942 excise taxes imposed by Internal Revenue Code, section 3406 (a), subsections (5), (7), (8), and (9) relating respectively to electric signs, rubber articles, washing machines and optical equipment. Sections 614 and 615 of the Revenue Act of 1942 have revised sections 3405 and 3406 (a) (6) of the Internal Revenue Code so as to exempt from excise taxation certain commercial refrigerating apparatus and cash registers of the type used in registering over-the-counter retail sales.

§ 808.853 *Contract provisions requiring adjustment by reason of changed Federal excise taxes.* The standard tax article prescribed in § 803.357–1 (as well as the provision formerly prescribed therein) for lump sum supply contracts requires certain adjustments in contract prices by reason of changes after the date of the contract or the date of the award, as the case may be, in excise taxes directly applicable to the supplies or work covered by the contract or the materials used in the manufacture thereof, all as more fully set out in paragraph (b) of such standard tax article.

§ 808.854 *Adjustments required under standard tax article by reason of increase in rates and repeal of excise taxes.* The increases in rates of excise taxes and the repeal of excise taxes mentioned in §§ 808.850 to 808.852 require adjustment under paragraph (b) of the standard tax article prescribed in § 803.357–1 or substantially similar provisions, if:

(a) Such taxes are directly applicable to the supplies or work covered by the contract or to the materials used in work or manufacture under the contract (all as more fully set forth in paragraph (b) of such standard tax article);

(b) The date of such contract or of the award, as the case may be, was prior to the date of the applicable increase or repeal; and

(c) Such taxes were included in the contract price. In the case of increase of rates, however, no adjustment will be made in excess of the amount of additional taxes or charges which the contractor is required to pay by reason of such increase. As a general rule, no adjustment will be required in connection with increase in rates of tax imposed with respect to communication and transportation.

§ 808.855 *Authority of chiefs of technical services with respect to adjustments.* To facilitate the prosecution of the war by reducing to a minimum the serious administrative burden of making adjustments referred to in § 808.854 and the time of contractors and government officers consumed in determining the amount thereof, the chiefs of the technical services are authorized pursuant to the First War Powers Act, 1941 and Executive Order No. 9001 to negotiate and enter into supplemental agreements with contractors with respect to the amount of any such adjustments after such verification and check thereof as the chiefs of the technical services severally shall prescribe. To expedite the negotiation of such adjustments the amount thereof may be determined by estimate, spot check, audit, or in any other manner deemed reasonable or appropriate by the chief of the technical service concerned. No adjustment decreasing the contract price shall be required in respect of any contract or class of contracts as to which the chief of the technical service concerned shall determine that the amount of adjustment possibly to be obtained will not be substantial or will not warrant the interference with the orderly conduct of the procurement program or the expenditure of the time and effort involved in making or determining the amount of adjustment.

§ 808.856 *Situations in which adjustment not required by reason of repeal or increase.* No adjustment of the contract price will be required by reason of the repeal or increase of rates of excise taxes if the contract provides that the contract price does not include such taxes or if the contract does not contain a provision substantially similar to paragraph (b) of the standard tax article prescribed in § 803.357–1.

§ 808.857 *Adjustments by reason of removal of exemptions by Revenue Act of 1943.* Effective June 1, 1944, certain exemptions available in connection with procurement by the United States were terminated (see § 808.815). Such exemptions, insofar as they relate to manufacturers' excise taxes (§ 808.802 et seq.) and retailers' excise taxes (§ 808.804 et seq.), remain in force as to contracts entered into prior to that date (see § 808.814) and no adjustments in contract prices are necessary by reason of termination of such exemptions. Such exemptions, however, insofar as they relate to transportation and communication taxes remain in effect only to the extent provided in § 808.810. If under a particular contract provision, adjustment is required by reason of the removal of exemptions relating to transportation and communication taxes, the provisions of § 808.855 shall apply to such adjustment.

§ 808.858 *Tax on transportation of property imposed by Revenue Act of 1942.* No increase will be made in the price payable under a contract executed prior to December 1, 1942, and containing a tax article substantially in the form of the standard tax article prescribed in § 808.357–1, by reason of the imposition of the tax on transportation of property under section 3475 of the Internal Revenue Code (Revenue Act of 1942, sec. 620) on freight charges which the contractor is bound to pay in accordance with the contract. (See Dec. Comp. Gen. B–30754, dated January 2, 1943; 22 Comp. Gen. 583).

APPENDIX—POLICY AS TO CLAIMING EXEMPTION FROM FEDERAL EXCISE TAXES AVAILABLE ON THE BASIS OF PURCHASE OF ARTICLES FOR THE USE OF THE UNITED STATES [1]

§ 808.890 *General; scope of Appendix.* This Appendix sets forth the policies which were in effect prior to June 1, 1944, as to claiming exemption from Federal excise taxes. These policies were based upon the availability of exemption on the ground of purchase for the use of the United States and therefore remain in effect on and after June 1, 1944, only in those instances where exemption with respect to sales for the use of the United States are continued beyond that date. (See §§ 808.814 and 808.814–1 with respect to exemption under contracts entered into prior to June 1, 1944, and §§ 808.810 and 808.810–1 with respect to exemption from specific taxes remaining available.

Discussion in this Appendix of statutory exemption provisions and Treasury Regulations relates to the situation existing prior to June 1, 1944, and is applicable with respect to exemptions based on sales for the use of the United States continued beyond that date.

The policy as to claiming exemptions which are available on any basis other than purchase for the use of the United States is set forth in Subpart C of this part (e. g. see § 808.811, concerning exemptions based on exportation and § 808.812, concerning exemption based on supplies and equipment for vessels of war including aircraft).

§ 808.891 *Definition of terms.* (a) The following terms are used in this Appendix as they are defined in Treasury Decision 5114, Jan. 27, 1942 (26 CFR, Cum. Supp., 470.1):

"Prime Contract" means a contract made by the United States. "Purchase article" means any article purchased as such by the United States under a prime contract. "Construction article" means any article for use as equipment, material or supplies by a prime contractor in performing a prime contract, provided, however, that payment for the article is made by the United States. "Subsidiary article" means any article, which by itself or after being combined by any persons with other articles, is incorporated in a purchase article or construction article.

(b) The following terms are defined for the purposes of this Appendix as follows:

"Subcontract" means any purchase or agreement to perform all or any part of the work, or to make or furnish any article, required for the performance of another contract or subcontract. "Article" includes any material, part, assembly, machinery, equipment or other personal property.

§ 808.892 *Statutory exemptions.* Chapters 19 (Retailers' excise taxes; see § 808.804 et seq.), 25 (pistols, revolvers and certain other firearms; see § 803.–803), and 29 (Manufacturers' excise taxes; see § 808.802 et seq.) of the Internal Revenue Code impose certain excise taxes from which exemption is available if the taxable articles are sold for the use of the United States.

§ 808.893 *Exemption under Treasury Decision 5114.* In accordance with Treasury Decision 5114, dated Jan. 27, 1942 (26 CFR, Cum. Supp., Part 470), articles are exempt from taxes imposed by Chapter 25 or 29, where such articles are used or incorporated by the purchaser as material in the manufacture or production of, or a component part of, an article which is to be furnished to the United States Government, *Provided*, That (a) the price of the article does not include a tax on the sale or transfer thereof under Chapter 25 or 29 of the Internal Revenue Code, (b) the article is included at such tax-free basis in the price of the article in which it is incorporated and (c) satisfactory evidence of the exemption is furnished by tax exemption certificate (see § 808.823). With respect to prime contracts or purchases made March 1, 1943, and purchases made by subcontractors on or after that date, see policies outlined in § 808.897, et seq.

§ 808.894 *When sales deemed for use of United States.* An article is deemed to be sold for the use of the United States when it is sold (a) to the United States to be utilized by the United States or to be disposed of by the United States to a foreign Government, or (b) to a Government contractor or subcontractor (including a supplier) when the article is incorporated in an article sold to the United States or in the building or work constructed, altered, improved or repaired pursuant to a contract with the United States, or (c) to a Government contractor under a cost-plus-a-fixed-fee contract or subcontractor under a cost-plus-a-fixed-fee subcontract where the article is used as equipment, materials or supplies by the contractor or subcontractor in performing a Government prime contract or in performing a subcontract under such prime contract and payment for the article is made by the United States, whether directly or by reimbursement of the contractor or subcontractor for the cost thereof. With

[1] The matters set forth in this Appendix have limited application. See § 808.890.

respect to purchases by cost-plus-a-fixed-fee subcontractors of articles to be consumed in the performance of the subcontract (see § 808.895 (c)) tax exemption can be obtained under present rulings of the Commissioner of Internal Revenue only by the issuance of a Form 1094 by an authorized Government officer (see § 808.824). The term "incorporated in" as above refers to any process whereby an article enters into building, work or supplies or a component thereof so as to become a part thereof and is not merely consumed in such production.

§ 808.895 *Special considerations affecting tax exemption of lubricating oil and gasoline.* (a) Lubricating oil or gasoline, when incorporated in a purchase article so as to become a part thereof, constitutes a subsidiary article within the meaning of Treasury Decision 5114, and tax exemption of such oil and gasoline can be obtained pursuant to that Treasury Decision. Thus lubricating oil incorporated as the fluid in hydraulic apparatus constitutes a subsidiary article, where the hydraulic apparatus is purchased as such by the United States under a prime contract or where the hydraulic apparatus is a component part of some other article purchased as such by the United States under a prime contract. However, except as stated in paragraph (b) below, the term "subsidiary article" does not include lubricating oil consumed in the operation of machinery in manufacturing such hydraulic apparatus.

(b) Lubricating oil or gasoline is also a subsidiary article when sold to a prime contractor for use as equipment, material or supplies in the performance of his prime contract, if payment for the lubricating oil or gasoline is made by the United States, and in other cases where it can be shown that the United States clearly receives the benefit of exemption from the tax. Thus, where the prime contract involves the construction of a plant, or the operation and maintenance of a plant, either on the basis of cost-plus-a-fixed-fee or some other basis under which the tax on the gasoline or lubricating oil is not to be included in the cost chargeable to the United States, the gasoline or lubricating oil sold to the prime contractor for use in the performance of such prime contract constitutes a subsidiary article within the meaning of Treasury Decision 5114 and tax exemption of such oil and gasoline can be obtained pursuant to that decision. In such case, the gasoline or lubricating oil is deemed to be incorporated in the subject matter of the prime contract, namely, the plant construction or the plant operation.

(c) Gasoline, lubricating oil and other similar consumable supplies, used under cost-plus-a-fixed-fee contracts are exempt. However, such consumable supplies, when constituting subsidiary articles, as in paragraph (b) above, are only exempt under Treasury Decision 5114 if purchased by a prime contractor. If such consumable supplies are purchased by a cost-plus-a-fixed-fee subcontractor or subsidiary subcontractor, Form 1094 must be used in order to secure the exemption from Federal excise tax.

(d) With respect to prime contracts or purchases made after March 1, 1943, and subcontracts or purchases made by contractors or subcontractors on or after that date, see policies outlined in § 808.897 et seq.

§ 808.896 *Exemption rules as to articles subject to tax under Chapters of Internal Revenue Code other than Chapter 25 or 29.* Where any technical service has responsibility for the procurement or purchase of any articles subject to tax under Chapters of the Internal Revenue Code other than Chapter 25 or 29, as for instance Chapter 19, such technical service may prescribe such rules governing the securing of tax exemptions thereunder as it may deem proper.

§ 808.897 *Memorandum of policy, effective as of March 1, 1943, as to Federal excise tax.* The Under Secretary of War, jointly with the Under Secretary of the Navy, has issued the memorandum dated January 4, 1943, quoted below. The purpose of the policies stated therein is to reduce administrative work caused to Government departments and to contractors with respect to Federal excise tax exemptions and to eliminate confusion which has arisen particularly in connection with purchases, on a tax exempt basis in accordance with Treasury Decision 5114, by fixed price (lump sum) contractors and subcontractors, of articles and supplies for incorporation in or use in connection with supplies or work to be furnished or performed under a prime contract with the Government. The policies outlined in the memorandum have no application whatsoever to state and local taxes or exemptions thereunder or to fixed price (lump sum) prime contracts or subcontracts made prior to March 1, 1943, or to subcontracts or purchase orders thereunder. (The memorandum does not change or have any effect upon the exemption expressly provided by section 3442 (1) of the Internal Revenue Code under which contractors manufacturing taxable purchase articles may obtain subsidiary articles tax exempt in the manner provided in that section and applicable regulations—see § 808.813.) The memorandum follows:

POLICY AS TO FEDERAL EXCISE TAX EXEMPTIONS—TO BECOME EFFECTIVE MARCH 1, 1943

The War and Navy Departments adopt the following policies as to the payment of Federal excise taxes and exemptions therefrom, with respect (a) to all contracts executed by the Government after March 1, 1943, and all subcontracts thereunder and (b) to all subcontracts made after March 1, 1943, under cost-plus-a-fixed-fee prime contracts, regardless of when the prime contracts were executed. Certain terms used in this memorandum are defined in Note 1 below. The purpose of these policies is to reduce administrative work caused to Government Departments and to contractors with respect to Federal excise tax exemptions and to avoid the complications which have arisen in connection with purchases on a tax exempt basis in accordance with Treasury Decision 5114 by fixed price (lump sum) contractors and subcontractors.

1. The Government may make direct purchase of articles subject to Federal excise taxes ("purchase articles") on a price basis which either includes or excludes such taxes. In general, it will be War and Navy Department policy to make such direct purchases on a tax exclusive basis except where administrative convenience makes tax inclusive purchasing preferable.

2. In general, fixed-price (lump sum) contractors, subcontractors, suppliers and materialmen will not be authorized to purchase "construction articles", "subsidiary articles" or articles used or consumed in the performance of the prime contract or subcontract, on a tax-exclusive basis pursuant to Treasury Decision 5114, and no tax exemption certificates will be issued in respect thereof.

3. A prime contractor under a cost-plus-a-fixed-fee or cost prime contract, or any cost-plus-a-fixed-fee or cost subcontractor thereunder, may purchase any articles subject to Federal excise taxes ("construction articles", "subsidiary articles," or articles used or consumed in the performance of such prime contract or subcontract) on a price basis which either includes or excludes such taxes, *provided* that in general purchases on a tax exclusive basis shall be made by a cost-plus-a-fixed-fee subcontractor only where there is no fixed-price contractor intervening between such subcontractor and the prime contractor. Tax exemption certificates will be issued where purchases are made on a tax-exclusive basis pursuant to the policy announced in this paragraph. In general, it will be War and Navy Department policy to have such cost-plus-a-fixed-fee contractors and cost-plus-a-fixed-fee subcontractors make such purchases on a tax exclusive basis except where administrative convenience makes tax inclusive purchasing preferable. The term "cost contract" includes any contract provision on a cost basis and any contract for special additional facilities or emergency plant facilities of the Government-ownership type or substantially in the form approved by the Advisory Commission to the Council of National Defense and published in the FEDERAL REGISTER on October 19, 1940 (5 F. R. 4147, No. 205).

4. Exceptions to the policies prescribed in this memorandum may be authorized by the War or Navy Departments in order to facilitate procurement.

5. Bidders and contractors will be advised of the policies herein set forth as promptly as possible, so that they may make plans, fix prices and prepare cost analyses consistently with such policies.

6. The policies herein contained have no application to state and local taxes. These policies will likewise not necessitate any change in the policies applicable to fixed-price prime contracts and subcontracts executed prior to March 1, 1943, and subcontracts thereunder.

Dated this 4th day of January, 1943.

ROBERT P. PATTERSON
Under Secretary of War
FORRESTAL
Under Secretary of the Navy

[NOTE 1: This note in the statement of policy refers to the definitions set out in § 808.891.]

§ 808.897–1 *Changes effected by memorandum of policy.* (a) Fixed price (lump sum) prime contracts made on or after March 1, 1943, for the acquisition by the War Department of articles subject to Federal excise taxes ("purchase articles") shall in general be made on a price basis which excludes such Federal excise taxes. The chief of any technical service may authorize any contract or class of prime contracts to be made on a price basis which includes such Federal excise taxes.

(b) Fixed price (lump sum) prime contractors under contracts made on or after March 1, 1943, and subcontractors under them will not in general be authorized to purchase "subsidiary articles" (see § 808.891) or articles used or consumed in the performance of the prime contract on a tax exclusive basis pursuant to Treasury Decision 5114.

(c) Where the price contract with the Government is on a cost-plus-a-fixed-fee basis, regardless of the date of the execution of the prime contract, a fixed price (lump sum) subcontractor thereunder whose subcontract is made on or after March 1, 1943, will not be authorized to purchase "subsidiary articles", or articles used or consumed in the performance of the prime contract or subcontract, on a tax exclusive basis pursuant to Treasury Decision 5114.

(d) Cost-plus-a-fixed-fee prime contractors and cost-plus-a-fixed-fee subcontractors acting under them (where no lump sum contractor intervenes between the prime contractor and the cost-plus-a-fixed-fee subcontractor) will normally purchase articles, which are subject to Federal excise tax, on a tax exclusive basis.

§ 808.897–2 *Issue of tax exemption certificates.* Except as provided in § 808.897–3, no tax exemption certificate will be issued by any officer or employee of the War Department or pursuant to Treasury Decision 5114 in a manner inconsistent with the policies provided in §§ 808.897 and 808.897–1. Nothing in this chapter, however, requires any contractor or subcontractor to forego any Federal excise tax exemption to which he may be entitled otherwise than under Treasury Decision 5114 (see, for example, sec. 3442, IRC). Where contractors are entitled to any such exemption, contracting officers should take precautions to see that prices under lump sum contracts are fixed after giving due consideration to the effect of such exemption (see § 808.813).

§ 808.897–3 *Variations from policy by chief of any technical service.* The chief of any technical service may authorize variations (consistent with applicable tax exemption laws and tax regulations) from the policies set forth in § 803.397 et seq. in any case or class of cases where he finds that such action is necessary to facilitate procurement. Any variations so authorized will be reported at once in writing to the Director, Purchases Division, Headquarters, Army Service Forces. (Variations authorized by § 808.897–5 need not be so reported.)

§ 808.897–4 *Documents to be consistent with policy.* The chief of each technical service will make necessary changes in existing bid forms, specifications, and instructions relating to bids and evaluation of contracts to carry out the policies set forth in the memorandum quoted in § 808.897. Great care should be exercised in drawing contracts and purchase orders to make certain that their provisions reflect accurately the intention of the parties with respect to taxes and that they are consistent with the policies above mentioned.

§ 808.897–5 *Exception to tax policy with respect to radio apparatus, parts and similar items.* In some instances contractors have experienced difficulty in ascertaining whether particular items and parts of certain specialized military and naval equipment fall within the category of articles enumerated in section 3404, Internal Revenue Code (see § 808.802–3). Accordingly, as an exception to the tax policy set forth in § 803.897 (see § 808.897–3), contracting officers are given authority to make prime contracts by the terms of which the prime contractor will be permitted to make purchases, on a basis exclusive of tax, of articles which are or may be subject to the tax imposed by section 3404 or section 3444 (so far as it relates to articles enumerated in section 3404), Internal Revenue Code, whether such articles (a) constitute subsidiary articles, or (b) are acquired by the prime contractor for transfer by him to the United States as purchase articles. With respect to any such purchases, the prime contractor may be authorized to issue tax exemption certificates in accordance with Treasury Decision 5114 and subject to its limitations.

§ 808.897–6 *Taxable articles manufactured by the prime contractor and included in a purchase article as a component part thereof.* The tax policy set out in §§ 803.897 and 803.897–1 is not intended to prevent the Government from buying purchase articles on a basis exclusive of any taxes on component parts of such purchase articles where such component parts (a) have been manufactured by the prime contractor himself and (b) have been included in the purchase article by such manufacturer himself. Buying such purchase articles from prime contractors on a basis exclusive of any tax imposed with respect to such component parts pursuant to the provisions of Internal Revenue Code, section 3444, is consistent with the above mentioned tax policy.

SUBPART C—COPELAND ("KICKBACK") ACT

809.906 Basic law.
809.907 Applicability.
809.908 Procedure.
809.909 Alternative procedures for railway carriers.

SUBPART D—DAVIS-BACON ACT

809.910 Basic law.
809.911 Applicability: Character of contracts covered.
809.912 Regulations of the Secretary of Labor.
809.913 Obtaining predeterminations of prevailing wage rates.
809.914 Reports of violations.
809.915 Policy regarding construction and maintenance work.

SUBPART E—WALSH-HEALEY PUBLIC CONTRACTS LAW

Sec.
809.916 General.
809.917 Publications to be furnished contracting officers.
809.918 Contracts subject to the act.
809.919 General instructions.
809.920 Interpretations not found in publications furnished contracting officers.
809.921 Exceptions not stated in the publications furnished contracting officers.
809.923 Procedure for obtaining exceptions with respect to the stipulations required by the Act.

SUBPART F—FAIR LABOR STANDARDS ACT OF 1938

809.930 Basic law.
809.931 Exceptions.
809.932 Regulations of the Administrator.
809.933 Liability of employer.
809.934 Reimbursement of cost-plus-a-fixed-fee contractors for payments in accordance with the act.
809.935 Investigations and inspections.

SUBPART G—OVERTIME WAGE COMPENSATION

809.940 Executive order.
809.941 Elimination of inconsistencies through amendment of contracts; non-reimbursement, etc.
809.942 Interpretations of the order.
809.943 Exceptions to Executive Order 9240.
809.944 Future interpretations.

SUBPART H—WAGE AND SALARY STABILIZATION

809.950 General.
809.951 Increases and decreases in wages and salaries under the stabilization program.
809.952 Functions and operation of the National War Labor Board with respect to the wage and salary stabilization program.
809.954 Jurisdiction and organization of the Bureau of Internal Revenue with respect to the stabilization program.
809.956 Jurisdiction of the War Food Administrator with respect to the stabilization program.
809.957 Jurisdiction of the National Railway Labor Panel with respect to the stabilization program.
809.958 When approval of Economic Stabilization Director required.
809.959 Territorial application.
809.960 Criminal penalties.
809.961 Effect of unlawful payments. (Determination of costs under government contracts and other aspects of violations.)
809.962 Responsibility of War Department personnel with respect to violations as defined by Joint Statement of the Board and the Commissioner.
809.963 War Department relations with the National War Labor Board.

SUBPART I—FORTY-EIGHT HOUR WORKWEEK

809.969 Executive Order No. 9301.
809.969 Regulations of War Manpower Commission.
809.970 Designation of areas subject to E. O. 9301.
809.971 Designation of activities subject to E. O. 9301.
809.972 Statement re adoption of forty-eight hour week.
809.973 Interpretation of regulations.
809.974 Enforcement procedure.
809.975 Adjustments to cover increased cost of compliance.

SUBPART J—STATE LABOR LEGISLATION

Sec.
809.977 War Department policy respecting State labor legislation.
809.978 Requests for relaxation of State labor legislation.

SUBPART K—EMPLOYMENT OF ALIENS

809.980 Joint statement.
809.981 Anti-discrimination contract clause.
809.982 Procedure.

SUBPART L—FAIR EMPLOYMENT PRACTICE

809.984 Executive Order No. 9346.
809.985 Interpretations of Executive Order No. 9346 by the Committee on Fair Employment Practice.
809.986 Amendment of contracts and subcontracts not containing anti-discrimination clauses.
809.987 Employment of aliens.

SUBPART M—MISCELLANEOUS

809.989 Division engineers; addresses and territorial jurisdictions.
809.990 Regional War Labor Boards; geographical jurisdictions and addresses.
809.991 Wage and Hour and Public Contracts Divisions of the United States Department of Labor Regional Offices; geographical jurisdictions and addresses of of Regional Directors.
809.992 Salary Stabilization Regional Offices of the Salary Stabilization Unit, Bureau of Internal Revenue; geographical jurisdictions and addresses.
809.993 Delegations of authority to War Department.
809.994 Minimum wage determinations.

SUBPART A—CONVICT LABOR LAW

§ 809.901 *Basic statutes.* The public policy of the United States as to convict labor is expressed in the act of 23 February 1887 (24 Stat. 411; 18 U.S.C. 708, 709). This statute is a penal one and provides for imprisonment or fine upon conviction for its violation. See also 47 Stat. 418; 31 U.S.C. 686b; 45 Stat. 1084; 49 U.S.C. 60; 49 Stat. 494; 49 U.S.C. 61–64; 54 Stat. 1134, as amended 55 Stat. 581; 18 U.S.C. 396a.

§ 809.902 *Executive order of the President.* (a) Pursuant to the public policy prescribed by the aforementioned act of February 13, 1887, the President on May 18, 1905, issued an Executive order which provides, in substance, that all contracts which shall thereafter be entered into by officers or agents of the United States involving the employment of labor in the States composing the Union, or the Territories contiguous thereto, shall, unless otherwise provided by law, contain a stipulation forbidding, in the performance of such contracts, the employment of persons undergoing sentences of imprisonment at hard labor which have been imposed by courts of the several States, Territories, or Municipalities having criminal jurisdiction.

(b) Under date of July 9, 1942, the President issued Executive Order 9196 which "in order to remove any doubts which might otherwise exist and to insure the effective utilization of all existing productive facilities, * * * ordered that Executive Order No. 325A of May 18, 1905, be, and the same is hereby, suspended for the period of the war and for six months thereafter to the extent necessary to permit officers and agencies of the Federal Government charged with the purchase or procurement of articles necessary in the conduct of war to procure, directly or indirectly, through any contractor or subcontractor or otherwise, articles of any kind produced in any Federal, State or territorial prison, provided such articles are not produced pursuant to any contract or other arrangement under which prison labor is hired out to, or employed or used by, any private person, firm or corporation."

(c) The form of the provision to be used in contracts to which such Executive orders apply (except contracts subject to the Walsh-Healey Act as to which see §§ 803.353 and 803.353–4) is set out in § 803.345.

§ 809.903 *Application of basic statutes.*

§ 809.903–1 *Exceptions to prohibitions.* The prohibitions contained in the foregoing provisions of this subpart do not apply to the following purchases:

(a) Purchases of items manufactured, or services rendered, by Federal Prison Industries, Inc. (see § 806.608).

(b) Purchases of items manufactured or produced, or of services rendered, by State prisons or other correctional State institutions (see § 806.608a).

§ 809.903–2 *Shipment of convict-made goods.* The Assistant Solicitor General has advised the Chairman of the War Production Board that the Federal statutes prohibiting shipment of convict-made goods and subjecting such shipments to the operation of state prohibitory laws (See e. g. 54 Stat. 1134, as amended 55 Stat. 581; 18 U.S.C. 396a; 45 Stat. 1084; 49 U.S.C. 60; 49 Stat. 494; 49 U.S.C. 61–64) do not extend to convict-made goods being procured by a contractor directly or indirectly for the Federal Government, *Provided,*

(a) That there is no other source of supply readily available to him on the open market;

(b) That purchases of such articles, materials or supplies are limited to the amount necessary to fulfill specific existing contracts with the Government; and

(c) That all such purchases are made at prices substantially equivalent to the current market price of the commodity purchased.

He has also expressed the view that an order of the Secretary of Labor, dated May 26, 1942, has the effect of exempting from the operation of the convict labor provisions of the Walsh-Healey Act (49 Stat. 2036, as amended, 41 U.S.C. 35 and following) "Contracts negotiated during the present war for the purchase of prison-made goods by contractors, subcontractors or brokers when such purchases are limited as above set forth to the purchase of such goods for the purposes of existing Government Contracts." (See opinion of Attorney General, May 6, 1942; letter amplifying this opinion to the Chairman, War Production Board from the Assistant Solicitor General, date June 20, 1942.)

§ 809.903–3 *Employment.* The provisions of the statute referred to in § 809.901 do not prohibit the employment by contractors or subcontractors of persons serving sentences on parole or probation, nor to convicts who have served their terms.

SUBPART B—EIGHT-HOUR LAW OF 1912

§ 809.904 *Basic law.* The act requires that, in every contract to which it is applicable, a provision must be inserted that no laborer or mechanic doing any part of the work contemplated by the contract in the employ of a contractor or any subcontractor, shall be required or permitted to work more than 8 hours in any one calendar day upon such work unless such mechanic or laborer is compensated for all hours worked in excess of 8 hours in any one calendar day at not less than 1½ times the basic rate of pay. Act of June 19, 1912 (37 Stat. 137), as amended by section 5 (b) act of 28 June 1940 (54 Stat. 679) and section 303 act of September 9, 1940 (54 Stat. 884), 40 U. S. C. 324, 325, 325–A; M. L. 1939 and Supp. II, secs. 743, 745.

§ 809.904–1 *Form of contract provision.* The form of the provision to be used in contracts to which the act applies is set out in § 803.346.

§ 809.905 *Applicability.* The basic law applies to all War Department contracts which may require or involve the employment of laborers or mechanics either by the prime contractor or any subcontractor, with the following exceptions:

§ 809.905–1 *Exceptions.* (a) The law does not apply to supply contracts, such contracts ordinarily being subject to the Walsh-Healey Act where the amount involved is in excess of $10,000.00 (see Subpart E of this part).

(b) Where the same class of work is not, as a general rule, being performed by the Government, contracts for any of the following classes of work are not covered by the act.

(1) Contracts for transportation by land or water.

(2) Contracts for the transmission of intelligence.

(3) Contracts for the construction or repair of levees or revetments necessary for protection against floods or overflows on the navigable waters of the United States.

(4) Contracts for supplies or for such materials or articles as may usually be bought in the open market, whether such supplies, materials or articles are made to conform to particular specifications or not (except armor and armor plate).

(c) The law does not apply to contracts between the War Department and any one of the several States of the Union or the political subdivisions thereof. The law, however, is applicable to any subcontract covering any part of the work covered by such prime contract with a State (or political subdivision thereof) where it is sublet to a private contractor.

(d) The Attorney General has expressed the opinion that the basic law is not applicable to the employment of members of the crew of a dredge or like floating plant (38 Op. A.G. 150 (1934)).

SUBPART C—COPELAND ("KICKBACK") ACT

§ 809.906 *Basic law.* The act provides that whoever shall induce any person employed in work subject to the act to give up any part of the compensation to which he is entitled under his contract of employment by force, intimidation, threat of procuring dismissal from such employment or any other manner whatsoever, shall be fined not more than $5,000 or imprisoned not more than 5 years, or both. Act of 13 June 1934, (48 Stat. 948) 40 U.S.C.A. secs. 276(b) and (c) as amended by Reorganization Plan No. IV, effective June 30, 1940, (54 Stat. 1236).

§ 809.906–1 *Form of contract provision.* The form of the provision required by regulation in contracts to which the act applies is set out in § 803.344 (Title 29–A, Department of Labor Regulations 2.6). (29 CFR, Cum. Supp., 3.6).

§ 809.907 *Applicability.*

§ 809.907–1 *Character of contracts.* Generally the act applies to contracts and subcontracts regardless of amount for the construction, prosecution, completion or repair of any public building, public work, or building or work financed in whole or in part by loans or grants from the United States. The act applies to contracts for such work entered into upon a cost-plus-a-fixed-fee basis or otherwise, with or without advertising for proposals, as well as to contracts entered into upon a lump sum basis.

§ 809.907–2 *Exceptions.* (a) The act does not apply to supply contracts, such contracts ordinarily being subject to the Walsh-Healey Act where the amount is in excess of $10,000 (see Subpart E of this part); nor does it apply ordinarily to installation or maintenance work done for the account of the Government in connection with and as an incident to supply contracts.

(b) The form of provision required in § 803.344 is not required in War Department contracts with a State, or a political subdivision thereof, nor are other regulations with regard to the filing of affidavits, payroll summaries and securing authorized payroll deductions applicable to such contracts. However, the provision must be included and the regulations must be followed in subcontracts of any part of the work involved sublet by any state (or political subdivision thereof) to a private contractor.

§ 809.907–3 *Determination of applicability.* Since the primary factor for determining whether or not the act applies is the nature of the work contemplated in the contract and since this same factor is involved in determining whether or not the Davis-Bacon Act applies, reference is made to §§ 809.911 to 809.911–5, which are equally applicable to this subpart.

§ 809.908 *Procedure.* Pursuant to the provisions of the act, the Secretary of Labor has prescribed certain regulations made effective April 30, 1942 which govern the procedure to be followed in connection with contracts that are subject to the act, and the Davis-Bacon Act §§ 809.910 et seq.; also with regard to certain types of authorized deductions and the method of securing approval thereof. The substance of the pertinent regulations follows:

§ 809.908–1 *Weekly affidavit with respect to payment of wages.* Each contractor or subcontractor engaged in work subject to the act is required to furnish each week a sworn affidavit with respect to the wages paid each of its employees (which shall not be deemed to apply to persons in classifications higher than that of laborer and mechanic and those who are the immediate supervisors of such employees) engaged on the work covered by the act during the preceding weekly payroll period. The affidavit shall be executed and sworn to by the contractor or subcontractor who supervises the payment of wages and shall be in the following form:

State of_____

County of_____, ss:

I, _____ (Name of party signing affidavit), _____ (title) being duly sworn, do depose and say: That I pay or supervise the payment of the persons employed by _____ (contractor or subcontractor) on the _____ (building or work); that the attached payroll sets out accurately and completely the name, occupation, and hourly wage rate of each person so employed for the weekly payroll period from the _____ day of _____, 194__, to the _____ day of _____ 194__, the total number of hours worked by him during such period, the full weekly wages earned by him and any deductions made from such weekly wages, and the actual weekly wages paid to him; that no rebates have been or will be made either directly or indirectly to or on behalf of said _____ (contractor or subcontractor) from the full weekly wages earned as set out on the attached payroll; and that no deductions, other than the permissible deductions (as defined in the Regulations under the "Kickback" Act (48 Stat. 948) described in the following paragraph of this affidavit, have been made or will be made, either directly or indirectly, from the full weekly wages earned as set out on the attached payroll.

(Paragraph describing deductions, if any)

_____

(Signature and title)

Sworn to before me this _____ day of _____, 194__ (Title 29–A Dept. of Labor Regulations, 2.3 (b)). (29 CFR, Cum. Supp., 3.3 (b)).

§ 809.908–2 *Exemptions with respect to weekly affidavits.* Upon a written finding by the Secretary of War, the Secretary of Labor may provide reasonable limitations, variations, tolerances and exemptions from the requirements set forth in § 809.908–1, subject to such conditions as the Secretary of Labor may specify. Request for such finding shall be submitted through the chief of the technical service to the Industrial Personnel Division, Headquarters, Army Service Forces, for submission through channels to the Secretary of Labor. (Title 29–A, Department of Labor Regulations, 2.3 (c)). (29 CFR, Cum. Supp., 3.3 (c)).

§ 809.908–3 *Submission of weekly affidavits.* (a) Each weekly affidavit shall be delivered by contractor or subcontractor within seven days after the regular payment date of the payroll period to the contracting officer or such other officer as may be designated for such purpose by the chief of the technical service.

(b) After such examination and check as may be made, one affidavit and one copy of the payroll of each contractor and subcontractor engaged on Federal construction (except shipbuilding and railroad), covering the weekly payroll periods ending nearest January 15, April 15, July 15, and October 15, shall be submitted quarterly by the contracting officer or other designated officer to the U. S. Department of Labor within 14 days after the close of specified payroll period.

(c) Affidavits and payrolls for all contracts (except shipbuilding and railroads) located in the States listed below should be mailed to the addresses indicated:

State and Location of Regional Office

Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, Virginia: Regional Wage Analyst, Bureau of Labor Statistics, 4th Floor, Carl Witt Building, 249 Peachtree St. NW., Atlanta Ga.

Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont: Regional Wage Analyst, Bureau of Labor Statistics, 224 Washington St., Boston, Mas.

Illinois, Indiana, Minnesota, North Dakota, South Dakota, Wisconsin: Regional Wage Analyst, Bureau of Labor Statistics, Room 1212, Merchandise Mart, 222 West North Bank Drive, Chicago, Ill.

Louisiana, Oklahoma, Texas: Regional Wage Analyst, Bureau of Labor Statistics, 1610 Mercantile Bank Bldg., Dallas, Tex.

Kentucky, Ohio, West Virginia: Regional Wage Analyst, Bureau of Labor Statistics, 133 Federal Bldg., Public Square, Cleveland, Ohio.

Colorado, Idaho, Montana, New Mexico, Utah, Wyoming: Regional Wage Analyst, Bureau of Labor Statistics, 422 Chamber of Commerce Bldg., Denver, Colo.

Michigan: Regional Wage Analyst, Bureau of Labor Statistics, Room 926; David Stott Bldg., 1150 Griswold Street, Detroit, Mich.

New York, New Jersey Counties—Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, Warren: Regional Wage Analyst, Bureau of Labor Statistics, Room 713, Parcel Post Bldg., 341 Ninth Avenue, New York, N. Y.

Delaware, District of Columbia, Maryland, Pennsylvania, New Jersey Counties—Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Ocean, Salem: Regional Wage Analyst, Bureau of Labor Statistics, Room 1634, Widener Bldg., Chestnut and Juniper Sts., Philadelphia, Pa.

Arkansas, Iowa, Kansas, Missouri, Nebraska: Regional Wage Analyst, Bureau of Labor Statistics, 3000 Fidelity Bldg., Kansas City, Mo.

Arizona, California, Nevada: Regional Wage Analyst, Bureau of Labor Statistics, Room 410–412, Golden Gate Bldg., 25 Taylor St., San Francisco, Calif.

A separate office for the Southern California area is maintained at: Room 1523, Post Office and Court House Bldg., Los Angeles, Calif.

Oregon, Washington: Regional Wage Analyst, Bureau of Labor Statistics, 516 Seaboard Bldg., Seattle, Wash.

(d) In the case of shipbuilding and railroad contracts, affidavits and payrolls will be submitted for payroll periods ending nearest 15 May and 15 November to the Bureau of Labor Statistics, Washington, D. C.

§ 809.908–4 *Submission of subcontractor summaries.* Each contractor or subcontractor shall within seven days after the making of any subcontract

with another person concerning work subject to the act deliver to the contracting officer or such other officer as may be designated for such purpose by the chief of the technical service, an affidavit setting forth the name and address of his subcontractor and a summary description of the precise work subcontracted. After such examination and check as may be made, such affidavit or a copy thereof shall be transmitted by the contracting officer or other designated officer directly to the Bureau of Labor Statistics, U. S. Department of Labor, Washington, D. C., (Title 29–A, Department of Labor Regulations 2.4 (b)). (29 CFR, Cum. Supp., 3.4 (b)).

§ 809.908–5 *Authorized payroll deductions.* (a) Deductions for the following purposes are permissible:

(1) Where required by Federal, State, or local statutes or ordinances to be made by the employer from the wages earned by the employee;

(2) Bona fide prepayment of wages without discount or interest;

(3) Deductions required by court process provided that the contractor or subcontractor will not be permitted to make such a deduction in favor of the contractor, subcontractor, or any affiliated person or where collusion or collaboration exists. (Title 29–A Department of Labor Regulations 2.5 (a)). (29 CFR, Cum. Supp., 3.5 (a)).

(b) Any deduction is also permissible which in fact meets the following standards and with respect to which the contractor or subcontractor shall have made written application by registered mail to the Secretary of Labor, a copy of which application shall be sent to the contracting agency by the contractor or subcontractor setting forth all the pertinent facts, indicating that such deductions will meet the following standards:

(1) That such deduction is not prohibited by other law; and

(2) That such deduction is (i) voluntarily consented to by the employee in writing and in advance of the period in which the work was done, and that consent to the deduction is not a condition either for the obtaining of or for the continuance of employment or (ii) that such deduction is for the benefit of the employees or their labor organization through which they are represented and is provided for in a bona fide collective bargaining agreement; and

(3) That from such deduction no payment is made to, nor profit or benefit is obtained directly or indirectly by the contractor or subcontractor or any affiliated person, and that no portion of the funds, whether in the form of a commission or otherwise, will be returned to the contractor or subcontractor or to any affiliated person; and

(4) That the convenience and interest of the employees are served thereby, and that such or similar deductions have been customary in this or comparable situations. (Title 29–A Department of Labor Regulations 2.5 (b)). (29 CFR, Cum. Supp., 3.5 (b)).

(c) After application in good faith, the deduction may be made in accordance with the foregoing standards: *Provided, however,* That if the Secretary of Labor, on his own motion, or on the application of any person or agency affected by the granting of the application, shall conclude at any time, after written notice to the applicant and an opportunity for him to present his views in support of the deduction, that the deduction has not met the foregoing standards, such deductions shall cease to be "permissible" seven days after the applicant and the Federal agency concerned have been notified of the Secretary's decision. (Title 29–A Department of Labor Regulations 2.5 (c)). (29 CFR, Cum. Supp., 3.5 (c)).

(d) Upon application to and prior written permission from the Secretary of Labor and subject to the standards set forth in paragraph (b), deductions may be made by a contractor or subcontractor or any affiliated person, for membership fees in group benefit or retirement associations; for board and lodging; or for other purposes where the Secretary of Labor concludes the deduction is required by compelling circumstances: *Provided, however,* The contractor, subcontractor, or any affiliated person does not make a profit or benefit directly or indirectly from the deduction. A copy of the Secretary's decision shall be sent to the applicant and the Federal agency concerned. (Title 29–A Department of Labor Regulations 2.5 (d)). (29 CFR, Cum. Supp., 3,5 (d)).

(e) In accordance with and subject to the standards set forth in paragraph (b), general permission is granted to make payroll deductions for:

(1) The payment of the purchase price of United States Defense Stamps and Bonds and United States Tax Savings Notes;

(2) The repayment of loans to or the purchase of shares in credit unions organized and operated in accordance with District of Columbia, Federal, or State credit union statutes.

(3) Contributions to a Federal governmental or quasi-governmental agency. (Title 29–A Department of Labor Regulations 2.5 (e)). (29 CFR, Cum. Supp., 3.5 (e)).

§ 809.908–6 *Restricted payments prohibited.* In any case in which the employee does not have full and actual freedom of disposition of his wage payment, whether made in cash or by check, any restricted payment made to the employee is considered a deduction. (Title 29–A Department of Labor Regulations 2.5 (h)). (29 CFR, Cum. Supp., 3.5 (h)).

§ 809.908–7 *Lack of knowledge no defense.* Nothing in the regulations shall be construed to permit any deduction which the contractor or subcontractor knew, or in the exercise of good faith should have known, did not meet the foregoing standards. In order to insure compliance with his regulations, the Secretary of Labor may notify the contractor or subcontractor that the deduction will be permitted only if certain conditions with respect thereto are observed. The contractor or subcontractor or any affiliated person shall also comply with such general rules and regulations concerning the deductions as the Secretary of Labor shall make from time to time, notice of which shall have been given to the contractor or subcontractor or any affiliated person making the deduction and to the Federal agency concerned either directly or through publication in the FEDERAL REGISTER. (Title 29–A Department of Labor Regulations 2.5 (g)). (29 CFR, Cum. Supp., 3.5 (g)).

§ 809.908–8 *Request for advisory opinions.* The Secretary of Labor will furnish an opinion regarding the coverage of any specific project or with respect to the application of any provisions of the regulations at the request of any Federal or State agency. Request for any such opinion shall be submitted through the chief of the technical service to the Industrial Personnel Division, Headquarters, Army Service Forces, for submission through channels to the Secretary of Labor. (Title 29–A Department of Labor Regulations 2.7). (29 CFR, Cum. Supp., 3.7).

§ 809.909 *Alternative procedures for railway carriers.* By letters of October 5, 1942 and January 22, 1943 from the Secretary of Labor to the Secretary of War, a partial exemption regarding the submission of weekly reports described in § 809.908–1 was granted to railway carriers and an alternative method for obtaining permission of the Secretary of Labor to make certain types of deductions was approved. Copies of these letters may be obtained from the office of the Labor Branch, Industrial Personnel Division, Headquarters, Army Service Forces.

SUBPART D—DAVIS-BACON ACT

§ 809.910 *Basic law.* The act as amended requires as to every contract to which it applies:

(a) That a scale of minimum wages for every class of mechanics or laborers employed shall be set out in the specifications (in cases where specifications are advertised for bids),

(b) That a minimum wage scale must be included in the contract together with a stipulation that the same will be observed whether contracts are let on bids or not.

(c) The inclusion of certain additional provisions hereinafter referred to for the administration and enforcement of the required stipulations.

Act of March 3, 1931 (46 Stat. 1494), as amended by act of August 30, 1935 (49 Stat. 1011), act of June 15, 1940, (54 Stat. 399), and act of March 23, 1941 (55 Stat. 53; 40 U.S.C. 276a, a–1 to a–7), M.L. 1939 and Sup. I, sec. 746.

§ 809.910–1 *Form of contract provision.* The form of provisions required by regulation in contracts to which the act applies is set out in §§ 803.343 and 803.343–1. (Title 29–A, Department of Labor Regulations 2.6) (29 CFR, Cum. Supp., 3.6).

§ 809.911 *Applicability: Character of contracts covered.* The act as amended applies to all contracts in excess of $2000 to be performed in any of the States of the United States, the Territory of Alaska, the Territory of Hawaii or the District of Columbia, for construction, alteration or repair including painting or decorating of public buildings or public works where the same require or in-

volve the employment of mechanics or laborers. The act applies to contracts entered into upon a cost-plus-a-fixed-fee basis or otherwise with or without advertising for bids, as well as to contracts entered into upon a lump sum basis.

§ 809.911–1 *Definition of "building" and "work."* The Secretary of Labor has, by regulation, defined the words "building" and "work" as including, generally, construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work.

§ 809.911–2 *Definition of "construction," or "repair."* The Secretary of Labor has defined the above terms as used in the act and in the Copeland Act (see Subpart C of this part) as, in substance, including all types of work done under a construction contract such as altering, remodeling, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work by persons employed at the site by the contractor or subcontractor. (Title 29–A Department of Labor Regulations 2.2 (b)) (29 CFR, Cum. Supp., 3.2 (b)).

§ 809.911–3 *Exceptions as to contracts with States.* The law does not apply to contracts between the War Department and any one of the several States of the Union or the political subdivisions thereof. The law, however, is applicable to any subcontract covering any part of the work covered by such prime contract with a State (or political subdivision thereof) where it is sublet to a private contractor.

§ 809.911–4 *Exceptions based on nature of work contemplated by contract.* The act does not apply to:

(a) Contracts for servicing and maintenance work generally (Title 29–A, Department of Labor Regulations, 2.2 (a)) (29 CFR, Cum. Supp., 3.2 (a)).

(b) Contracts for manufacturing and furnishing materials or supplies. (See Title 29–A, Department of Labor Regulations, 2.2 (a)) (29 CFR, Cum. Supp., 3.2 (a)), and servicing and maintenance work incident thereto.

(c) Contracts covering the furnishing of equipment and operating personnel for work only incidental to public work (see 19 Comp. Gen. 467, Dec. B–6009, 1 Nov. 1939.).

§ 809.911–5 *Exceptions, "Servicing and maintenance work" defined.* The terms "servicing and maintenance work" as used in paragraphs (a) and (b) of § 809.911–4, include:

(a) Movement of machinery into or out of or from one part to another part of a building or plant completed or substantially completed.

(b) Installation of machinery, machine tools or other equipment in a plant or building completed or substantially completed.

(c) Plant rearrangement and production facilities adjustment or alterations incident to (a) or (b) above.

NOTE: This definition in connection with paragraph (a) and (b) of § 809.911–4 does not relate to servicing and maintenance procured by a construction contractor as a part of construction work.

§ 809.911–6 *Exceptions based on other grounds.* The act does not apply to:

(a) Contracts for construction, alteration or repair, though otherwise meeting the tests of coverage hereinabove set out, where the place of performance of the contract is not known or cannot be reasonably ascertained at the time the contract is negotiated.

(b) Contracts with railroad carriers and airline carriers engaged in interstate or foreign commerce, or subcontracts let to such carriers for the construction, alteration or repair of railways, or other facilities, insofar as such contracts involve railways or other facilities and wage rates payable to employees of such carriers operating under collective bargaining agreements with such carriers made agreeable to the provisions of the Railway Labor Act, as amended. (Letter March 14, 1942 from the Secretary of Labor to the Secretary of War; and amendment dated April 10, 1936, 49 Stat. 1189, 45 U.S.C. 181 through 188, of the "Railway Labor Act" of 1926).

§ 809.911–7 *Determination by chief of technical service.* The act contemplates an administrative determination of the application of the law to particular contracts and the War Department is authorized to make such determination. The chief of the technical service involved will determine within his own office whether the foregoing regulations require the inclusion of Davis-Bacon (and Copeland) Act provisions in any particular contract. In cases of doubt the question, accompanied by full statement of the facts, shall be referred to the Industrial Personnel Division, Headquarters, Army Service Forces, for determination.

§ 809.912 *Regulations of the Secretary of Labor.* The regulations of the Secretary of Labor described in §§ 809.908 to 809.908–8, inclusive, where pertinent, are applicable to all contracts subject to the act. Regulation No. 503 issued by the Secretary of Labor, September 30, 1935, as amended, prescribes the procedures to be followed in predetermining prevailing rates of wages.

§ 809.913 *Obtaining predeterminations of prevailing wage rates.*

§ 809.913–1 *Responsibility of the Chief of Engineers.* The Chief of Engineers is responsible for obtaining from the Secretary of Labor and for furnishing to the technical services upon request, as provided in § 809.913–2, all predeterminations of prevailing wage rates under the Davis-Bacon Act required in connection with the award of War Department contracts.

§ 809.913–2 *Responsibility of contracting officers.* Prior to entering into negotiations for awarding a contract to which the Davis-Bacon Act is applicable, the contracting officer concerned will request the Corps of Engineers to furnish the appropriate predetermination of the wage rates to be contained in the contract. The contracting officer will forward such request direct to the Division Engineer of the Corps of Engineers within whose territorial jurisdiction the work called for by the proposed contract is to be performed unless the chief of the technical service concerned directs that the request be forwarded through his office. In the latter event the request will be forwarded through the chief of the technical service concerned to the Labor Relations Branch, Personnel Division, Office of the Chief of Engineers. Since predeterminations are subject to change, contracting officers are cautioned, in any case where a predetermination previously furnished by the Corps of Engineers is apparently applicable to the proposed contract, to inquire whether such predetermination is current. (The territorial jurisdiction of the Division Engineers is coextensive with that of the service commands. For a list of the addresses of the Division Engineers with a statement of the service commands in which they are located, see § 809.939.)

§ 809.914 *Reports of violations.* Where a contracting officer finds that any laborer or mechanic employed by a contractor or subcontractor on work subject to the act has been or is being paid wages less than the wages required by the contract to be paid, the contracting officer will make a report on Standard Form No. 1093 (schedule of deductions from payment to contractors) executed as completely as possible from his records to the disbursing officer. The latter will complete the execution of the form from his records and transmit it to the office indicated on the form. (Circular letter A–34103, 28 February 1936, of the Comptroller General.)

§ 809.915 *Policy regarding construction and maintenance work.* See Subpart F of Part 802.

SUBPART E—WALSH-HEALEY PUBLIC CONTRACTS LAW

§ 809.916 *General.* The Walsh-Healey Public Contracts Law (act of June 30, 1936, 49 Stat. 2036; as amended by the act of May 13, 1942, 56 Stat. 277; 41 U.S.C. 35–45; sometimes hereinafter referred to as the act) requires the inclusion of certain representations and stipulations in contracts to which the act applies. The act further provides that the Secretary of Labor, under certain circumstances, may make exceptions to this requirement. Contracting officers are furnished with publications containing the text of the Act and certain regulations and interpretations relating thereto of the Secretary of Labor, who is charged with its administration (see § 809.917). Accordingly, this subpart is confined for the most part to matters relating to the act deemed of interest to War Department personnel not found in such publications. Provisions to be included in War Department contracts in compliance with the act may be found in §§ 803.353 to 803.353–4. The minimum wage determinations contemplated by the act made by the Secretary of Labor are set forth in §§ 809.994 et seq. Also, reference is made to § 809.803–2 for a

discussion respecting the convict labor provisions of the act and to item (19) of § 802.297–1a for a statement of procedure satisfying the requirements of the Department of Labor with respect to reporting the award of War Department contracts subject to the act.

§ 809.917 *Publications to be furnished contracting officers.* The Secretary of Labor has published a document entitled "Walsh-Healey Public Contracts Act, Rulings and Interpretations, No. 2, September 29, 1939" and a supplement thereto, published January 24, 1944, entitled "Supplement to Rulings and Interpretations No. 2." These publications contain a compilation of the text of the act, the regulations of the Secretary of Labor relating thereto, and pertinent rulings and interpretations. The chiefs of the technical services are responsible for furnishing these publications and a supply of the forms referred to therein to each of their contracting officers (it is no longer necessary to obtain Form PC–1 from the Department of Labor; see item (19) of § 802.297–1a. Information of interest not found in these publications is set forth in §§ 809.920 and 809.921.

§ 809.918 *Contracts subject to the act.* Generally, the law is applicable to every War Department contract for the purchase of supplies the amount of which exceeds $10,000. The publications furnished to contracting officers in accordance with § 809.917, as supplemented by pertinent provisions of §§ 809.920 and 809.921, define in detail the contracts to which the act applies.

§ 809.919 *General instructions.*

§ 809.919–1 *Compliance with regulations.* The regulations and instructions contained in the publications mentioned in § 809.917 as supplemented by § 809.920 and 809.921 will be complied with by all contracting officers.

§ 809.919–2 *Minimum wage determinations.* Prospective contractors will be informed of applicable minimum wage determinations, if any, in advance of or coincident with negotiating contracts. (For a list of such determinations see §§ 809.994 et seq.)

§ 809.919–3 *Furnishing of posters.* Contracting officers are responsible for seeing that contractors who are awarded contracts subject to the Walsh-Healey Act are furnished Posters, Form PC–13 (Revised March 1944) simultaneously with the making of the award, or as soon thereafter as possible. All copies of previously issued posters which bear no revision date or a revision date other than March 1944, must be destroyed and be replaced by that revised issue. These forms may be obtained from the Records, Control and Distribution Section, Room 1106, Department of Labor, Washington 25, D. C. In this connection, see § 809.917.

§ 809.920 *Interpretations not found in publications furnished contracting officers.* (a) The succeeding paragraphs of this section set forth or refer to certain interpretations of the act or of the regulations issued thereunder not found in the publications mentioned in § 809.917.

(b) Pursuant to an opinion of the Solicitor's Office, Department of Labor, released August 9, 1944, contracts which were originally $10,000 or less but are subsequently amended so as to increase the price to an amount in excess of that figure must contain the Walsh-Healey stipulations after such an amendment. This is so, irrespective of whether the amendment is the result of unilateral action by the War Department (under a change order or similar provision) or of mutual consent of the parties. With respect to contracts exceeding $10,000 which are subsequently modified to a figure of $10,000 or less, (1) the Walsh-Healey Act does not apply to any work performed thereunder after the date of modification if the reduction is effected by mutual consent of the parties, but (2) the act would apply to such work if the reduction is effected by unilateral action of the War Department authorized by the contract.

(c) Ice has been held to be a nonperishable commodity and thus contracts therefor are subject to the act.

§ 809.921 *Exceptions not stated in the publications furnished contracting officers.* (a) The succeeding paragraphs of this section set forth or refer to certain exceptions not stated in the publications mentioned in § 809.917.

(b) Individuals, corporations, or other organizations, not manufacturers or regular dealers as defined by the act, but acting at the instance of Defense Production Associations certified by the War Production Board, are exempt from the representation and stipulation required by section 1 (a) of the act.

(c) The following are excepted from the representations and stipulations of section 1 of the act:

(1) Contracts awarded to any railroad or other carrier.

(2) Contracts awarded for preserved or processed butter during the period from February 3, 1943, to the termination of the present war and three months thereafter.

(3) Contracts awarded during the present war for:

(i) Orange marmalade.

(ii) The production of training films.

(4) Contracts awarded through June 30, 1945 for dehydrated rutabagas and carrots and for the canned and dehydrated fruits and vegetables set forth on page 3 of "Supplemental to Rulings and Interpretations, No. 2" (except milk, evaporated).

§ 809.923 *Procedure for obtaining exceptions with respect to the stipulations required by the act.*

§ 809.923–1 *General.* Section 6 of the act permits the Secretary of Labor to make exceptions to the requirement that the representations and stipulations of section 1 of the act be included in War Department proposals or contracts which are subject to the act. On November 11, 1942, the Secretary of Labor granted a partial exception permitting the employment of female persons between the ages of 16 and 18, under certain conditions (see "Supplement to Rulings and Interpretations No. 2"). Section 809.923–5 prescribes the procedure to be followed where a broader exception, through a modification of the conditions attached to such partial exception is sought. Sections 809.923–2 to 809.923–4 set forth the procedure to be followed when any other exception is sought.

§ 809.923–2 *Requests for exceptions and review thereof by contracting officers.* Except as provided in §809.923–5, all requests of present or prospective War Department contractors for exceptions under section 6 of the act will be addressed to the chief of the interested technical service. Such requests of the contractor will be in writing, will be transmitted through the appropriate contracting officer, and will set forth all pertinent information, including the nature of the requested exception, the need therefor, and any action already taken by the contractor to avoid the necessity for the exception. Upon receipt of such a request from a contractor, the contracting officer and the chief of the labor branch of the service command in which the facility or facilities in question are located (hereinafter referred to as the appropriate labor officer), and, in those instances when requests are from contractors of Army Air Forces, the Army Air Forces labor officer in whose district the facility or facilities are located, will review the request in the light of:

(a) The urgency of the particular procurement;

(b) The relation of existing production schedules to War Department requirements;

(c) The relation of present and past deliveries to production schedules;

(d) The extent to which labor supply is a limiting factor in production, the reasons therefor, and in particular, the extent to which the contractor's wage scale is responsible for the labor supply problem;

(e) The steps, if any, which have been taken either by the contractor or by any government agency to resolve the labor supply problem;

(f) The extent to which factors inherent in the production processes involved necessitate the requested exception;

(g) The extent to which the productive capacity of the facility or facilities in question is being utilized for War Department procurement; and

(h) Any other pertinent data.

§ 809.923–3 *Consultation with regional directors, Department of Labor, and forwarding requests to chiefs of technical services.* (a) If the contracting officer believes that the requested exception is appropriate under the circumstances and necessary in the war effort:

(1) The appropriate labor officer will inform the appropriate regional director of the Wage and Hour and Public Contracts Divisions, United States Department of Labor, of the request for exception and the necessity therefor; and

(2) After joint consideration with such regional director, the contracting officer, if still of the opinion that the requested exception is appropriate, will

transmit the request together with (i) his written recommendation relative thereto, (ii) a statement of all the information upon which the recommendation is based and (iii) a recital of the steps taken in compliance with the procedure set forth in § 809.923–2 and this section, to the chief of the interested technical service. (A list of such regional directors is given in § 809.991.)

(b) The procedure set forth in paragraph (a) of this section with respect to such regional director will be complied with unless such compliance would result in undue delay. The contracting officer and the appropriate labor officer, in consulting with the appropriate regional director, will furnish him any pertinent information in their possession which he may require for rendering a report in connection with the need for the exception to the Administrator of the Wage and Hour and Public Contracts Divisions.

§ 809.923–4 *Review and processing of requests by chief of the technical service.* If the chief of the interested technical service concurs in the recommendation of the contracting officer, after review of the request and consideration as to whether the need for an exception can be avoided by utilization of alternative facilities, he will forward the request to the Industrial Personnel Division, Headquarters, Army Service Forces, through the Purchases Division, Headquarters, Army Service Forces, together with:

(a) A statement of all pertinent data;

(b) His recommendation;

(c) A letter setting forth the need for the exception, addressed to the Secretary of Labor and prepared for the signature of the Secretary of War; and

(d) Findings of fact as required by section 6 of the act, prepared for the signature of the Secretary of War.

§ 809.923–5 *Special procedure with respect to exception relative to employment of female minors.* If a present or prospective War Department contractor requests a modification of any of the conditions attached by the Secretary of Labor to her exception of November 11, 1942, in respect to the employment of female persons between 16 and 18 years of age, mentioned in § 809.923–1, the request will be processed in the same manner as other requests for exceptions under section 6 of the act, as provided in §§ 809.923–2 to 809.923–4, except as follows:

(a) The request will be addressed to the Secretary of Labor;

(b) If the chief of the technical service believes that the requested modification is appropriate under the circumstances and necessary in the war effort, he will transmit the request directly to the Administrator, Wage and Hour and Public Contracts Divisions, United States Department of Labor, with a brief statement of the need for the modification.

SUBPART F—FAIR LABOR STANDARDS ACT OF 1938

§ 809.930 *Basic law.* (a) The act establishes minimum wages and maximum hours for employees engaged in commerce or in the production of goods for commerce, and restricts the use of child labor. Only those provisions of the act relating to minimum wages and maximum hours as they affect cost-plus-a-fixed-fee contractors are dealt with in this subpart.

(b) Section 6 (a) of the act requires every employer to pay to each of his employees (except homeworkers in Puerto Rico and the Virgin Islands) "who is engaged in commerce or in the production of goods for commerce" not less than 30 cents per hour or, if the Administrator of the Wage and Hour Division of the Department of Labor in accordance with the act shall have prescribed some other rate, not less than the rate (not in excess of 40 cents per hour) so prescribed by the Administrator.

(c) Section 7 (a) of the act prohibits every employer from employing any of his employees "who is engaged in commerce or in the production of goods for commerce" for a workweek longer than 40 hours, unless such employee receives compensation for his employment in excess of such 40-hour workweek at a rate not less than one and one-half times the regular rate at which he is employed. Employment pursuant to bona fide collective bargaining agreements providing for employment for not more than 1000 hours during any period of 26 consecutive weeks or for not more than 2080 hours during any period of 52 consecutive weeks, and employment for a period or periods of not more than 14 workweeks in the aggregate in any calendar year in an industry found by the Administrator to be of a seasonal nature will not constitute a violation of section 7 (a), if employees receive compensation for employment in excess of 12 hours in any workday or in excess of 56 hours in any workweek at a rate not less than one and one-half times the regular rate at which they are employed. Neither does section 7 (a) apply, under stated circumstances, to employees engaged in processing certain perishable products. Act of June 25, 1938, 52 Stat. 1060, 29 U. S. Code, Section 201–219 (Supp. 1939), as amended by 53 Stat. 1266; 54 Stat. 615; and Act of October 29, 1941 (77th Congress, 1st Sess.).

§ 809.931 *Exceptions.* The provisions of sections 6 and 7 of the act do not apply with respect to:

(a) Any employee employed in a bona fide executive, administrative, professional, or local retailing capacity, or in the capacity of outside salesman (as such terms are defined and delimited by regulations of the Administrator); or

(b) Any employee engaged in any retail or service establishment the greater part of whose selling or servicing is in intrastate commerce; or

(c) Any employee employed as a seaman; or

(d) Any employee of a carrier by air subject to the provisions of title II of the Railway Labor Act; or

(e) Any employee employed in the catching, taking, harvesting, cultivating, or farming of any kind of fish, shellfish, crustacea, sponges, seaweeds, or other aquatic forms of animal and vegetable life, including the going to and returning from work and including employment in the loading, unloading, or packing of such products for shipment or in propagating, processing, marketing, freezing, canning, curing, storing, or distributing the above products or byproducts thereof; or

(f) Any employee employed in agriculture; or

(g) Any employee to the extent that such employee is exempted by regulations or orders of the Administrator issued under section 14 (which permits the issue of regulations and certificates allowing learners, apprentices, messengers and individuals whose earning capacity is impaired by age, physical or mental deficiency, or injury to be employed for lower wages than those prescribed by section 6); or

(h) Any employee employed in connection with the publication of any weekly or semiweekly newspaper with a circulation of less than three thousand the major part of which circulation is within the county where printed and published; or

(i) Any employee of a street, suburban, or interurban electric railway, or local trolley or motor bus carrier; or

(j) To any individual employed within the area of production (as defined by the Administrator), engaged in handling, packing, storing, ginning, compressing, pasteurizing, drying, preparing in their raw or natural state, or canning of agricultural or horticultural commodities for market, or in making cheese or butter or other dairy products; or

(k) Any switchboard operator employed in a public telephone exchange which has less than five hundred stations.

§ 809.932 *Regulations of the Administrator.* The act provides that the Administrator shall by regulation define certain terms used in the Act and may grant certain exemptions from its provisions. Regulations issued by the Administrator, as revised from time to time, should be consulted in these respects.

§ 809.933 *Liability of employer.* Any employer who violates the provisions of section 6 or 7 of the act is liable to the employee or employees affected in the amount of their unpaid minimum wages, or their unpaid overtime compensation, and in an additional equal amount as liquidated damages; and, in the event the employee institutes suit therefor, the costs of the action and a reasonable attorney's fee as allowed by the court. Violations also may be restrained by injunction and may subject the employer to criminal penalties.

§ 809.934 *Reimbursement of cost-plus-a-fixed-fee contractors for payments in accordance with the act.* Minimum wages and overtime payments paid currently in accordance with the act are reimbursable to cost-plus-a-fixed-fee contractors as labor costs. Cost-plus-a-fixed-fee contractors also may be reimbursed, in proper cases, amounts paid in settlement of claims for overtime subsequently asserted by his employees. (See § 809.935–2 for the administrative procedure to be followed in respect of such of said subsequently asserted claims are made the subject of an investigation

by the Administrator and § 811.1120–3 for the administrative procedure to be followed to determine the position of the Government in suits for such claimed overtime brought against cost-plus-a-fixed-fee contractors.) Attention is called to the Comptroller General's decision of December 15, 1943 (B–38642, 23 Comp. Gen. 439) to the effect that amounts paid in settlement of such claims may be reimbursed even though the settlements necessitated a compromise of disputed questions of law or fact: *Provided,* That such settlements are in amounts less than the total amounts (including liquidated damages, court costs and attorneys fees) which would be required to be paid in the event the employee sued and obtained judgment and that it is administratively determined that the settlement in each instance was fully warranted as being in the best interest of the Government. Vouchers covering such payments should be supported by evidence setting forth the basis for such administrative determination and any questions of law with respect to the application of the act should be determined by the contracting officer only after thorough consideration has been given the matter by competent Government attorneys or by private attorneys engaged to represent the contractors if the former are not available, and a showing to that effect should also be made a part of the evidence submitted with the vouchers.

§ 809.935 *Investigations and inspections.*

§ 809.935–1 *Investigations and inspections of records by the Administrator.* Each employer subject to the act or any order issued thereunder must make and preserve such records of the persons employed by him and of the wages, hours and other conditions and practices of employment maintained by him, and make such reports therefrom, as the Administrator shall prescribe by regulation or order as necessary or appropriate for the enforcement of the provisions of the act or his regulations or orders thereunder. The act provides that the Administrator or his designated representatives may investigate and gather data regarding the wages, hours and other conditions and practices of employment in any industry subject to the act and may enter and inspect such places and such records, question such employees and investigate such facts, conditions, practices or matters as he may deem necessary or appropriate to determine whether any person has violated any provision of the act, or which may aid in the enforcement of the provisions of the act.

§ 809.935–2 *Investigations of cost-plus-a-fixed-fee contractors.* (a) The Under Secretary of War, by memorandum dated December 15, 1943 to the Commanding Generals of the Army Air Forces and the Army Service Forces, has directed, with respect to investigations of cost-plus-a-fixed fee contractors of the War Department, that: To the extent consistent with security and other regulations governing admission of visitors to plants and projects, representatives of the Administrator should be accorded access to the facilities and records of War Department contractors for the purpose of making investigations to determine applicability of and compliance with the act. Investigations will be conducted at such time and in such manner as to interrupt or interfere least with operations. They should be confined wherever possible to the inspection of records in the office of the contractor. Inspections of the areas in the facility where construction or production is in progress will be held to a minimum. Necessary interviewing of employees should, wherever possible, be conducted outside work hours or at such other times as will interfere least with construction or production operations.

(b) The Administrator has stated that his investigators will advise cost-plus-a-fixed-fee contractors approximately one week before they plan to arrive at the project to make an investigation under the act. The War Department representative at the plant will see that the investigation is conducted in accordance with such directive of the Under Secretary of War.

(c) If the Administrator is of the opinion that any such investigation discloses violation of section 6 or 7 of the act, he will transmit a report of the investigation to the Director, Industrial Personnel Division, Headquarters, Army Service Forces, who will transmit it to the appropriate technical service. The technical service will cause the matter to be examined into and, if such examination confirms such violation, will advise the contractor to take appropriate steps to comply with the law. The technical service promptly will report to the Director, Industrial Personnel Division, Headquarters, Army Service Forces, as to its examination into the matter and as to the action taken. If the question as to whether a violation exists depends upon a construction of a provision of the act which has not been construed by the courts or under the procedure provided in the agreement referred to in § 811.1120–3, the Judge Advocate General will be consulted as to the construction to be followed.

SUBPART G—OVERTIME WAGE COMPENSATION

§ 809.940 *Executive order.* Executive Order No. 9240, dated September 9, 1942 (7 F.R. 7159) with Section V as amended by Executive Order No. 9248, dated September 17, 1942 (7 F.R. 7419), reads as follows:

WHEREAS many labor organizations have already adopted the patriotic policy of waiving double time wage compensation or other premium pay for work on Saturday, Sunday and holidays, as such, for the duration of the war; and

WHEREAS it is desirable and necessary in the prosecution of the war, and to insure uniformity and fair treatment for those labor organizations, employers, and employees who are conforming to such wage policies that this principle be universally adopted:

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and the statutes, as President of the United States and as Commander in Chief of the Army and Navy, it is hereby ordered:

I. That the following principles and regulations shall apply for the duration of the war to the payment of premium and overtime wage compensation on all work relating to the prosecution of the war:

A. No premium wage or extra compensation shall be paid to any employee in the United States, its territories or possessions, for work on Saturday or Sunday except where such work is performed by the employee on the sixth or seventh day worked in his regularly scheduled workweek and as hereinafter provided.

(1) Where because of emergency conditions an employee is required to work for seven consecutive days in any regularly scheduled workweek a premium wage of double time compensation shall be paid for work on the seventh day.

(2) Where required by the provisions of law or employment contracts, not more than time and one-half wage compensation shall be paid for work in excess of eight hours in any day or forty hours in any workweek or for work performed on the sixth day worked in any regular scheduled workweek.

B. No premium wage or extra compensation shall be paid for work on customary holidays except that time and one-half wage compensation shall be paid for work performed on any of the following holidays only:

New Year's Day
Fourth of July
Labor Day
Thanksgiving Day
Christmas Day

and either Memorial Day or one other such holiday of greater local importance.

II. All Federal departments and agencies shall conform the provisions in all existing and future contracts negotiated, executed, or supervised by them to the policies of this order. All such departments and agencies shall immediately open negotiations to alter provisions in existing contracts to conform them to the requirements of this order.

III. Nothing in this order shall be construed as requiring a modification of the principle that every employee should have at least one day of rest in every seven days. The continuous operation of plants and machines in prosecuting the war does not require that employees should work seven consecutive days.

IV. Nothing herein shall be construed as superseding or in conflict with the provisions of the statutes prescribing the compensation, hours of work and other conditions of employment of employees of the United States.

V. All Federal departments and agencies affected by this order shall refer to the Secretary of Labor for determination questions of interpretation and application arising hereunder. In any industry or occupation in which the Secretary finds that a wage stabilization agreement approved by a Government department or agency is operating satisfactorily, or in any industry or occupation in which the Secretary finds that the nature and exigencies of operations make such action necessary or advisable for the successful prosecution of the war, the Secretary may determine that any or all of the provisions of this order shall not apply to such industry or occupation or to any classes of employees therein.

VI. The provisions of this order shall become effective October 1, 1942.

FRANKLIN D ROOSEVELT

§ 809.941 *Elimination of inconsistencies through amendment of contracts; nonreimbursement, etc.* By memorandum dated September 17, 1942, (See ASF Cir. No. 65, 1942) the Under Secretary of War acting jointly with the Under Secretary of the Navy and the Chairman of the Maritime Commission, issued instructions reading in part as follows:

2. Wherever any contract of the War Department, the Navy Department, or the Mari-

time Commission contains a provision which requires the payment of overtime or premium wages in a manner inconsistent with the provisions of Executive Order No. 9240, contracts will be amended to eliminate such inconsistency for the period beginning October 1, 1942, and no future contract will contain any such inconsistent provision. It is not required that any amendment be made of the usual contract articles included with respect to the provisions of the Walsh-Healey Act, the Eight Hour Law, and the Fair Labor Standards Act of 1938, all as amended.

3. On and after October 1, 1942, no reimbursement of cost will be made under any cost-plus-a-fixed-fee contract nor will any recognition be given for inclusion in the case of Navy so called 'price-minus' contracts, of any cost which represents the payment of premium or overtime compensation at rates or under circumstances which are not permitted by the foregoing order.

§ 809.942 *Interpretations of the order.* Prior to February 17, 1943, the Secretary of Labor issued various interpretations of Executive Order 9240 which were formerly incorporated in these procurement regulations. On February 17, 1943, the Secretary of Labor issued "Interpretative Bulletin No. 1 of Executive Order 9240." This bulletin contains the official interpretations of the order, effective March 1, 1943. It supersedes the former interpretations. The bulletin interpretations are set forth in the following sections. As additional interpretations are issued, this subpart will be amended to include such interpretations. All of the earlier interpretations have been deleted, although payments made prior to March 1, 1943, pursuant to these earlier interpretations should be considered to have been in compliance with the order.

§ 809.942–1 *Basic purposes of the order as stated by the Secretary of Labor.* The order was designed (a) to facilitate round-the-clock war production, (b) to discourage absenteeism found to have resulted from the practice of paying premium rates for particular days as such, and (c) to assure, in the interest of efficiency and health, observance of the principle that workers should have at least one day of rest in each week.

§ 809.942–2 *Work to which order is applicable.* The order went into effect October 1, 1942. By its terms it applies to "all work relating to the prosecution of the war." This is interpreted to mean all work performed by prime contractors on Government war contracts, by their subcontractors, and those who make the materials and supplies necessary for the performance of such contracts and subcontracts. The order was intended to extend to enterprises which are engaged in producing, processing, mining, or manufacturing products used by the Government in the prosecution of the war or products used by a Government contractor or subcontractor in the manufacture of war products. Enterprises which provide public transportation or communication facilities, storage, distribution, or warehousing facilities, are not covered by the order. Accordingly, employees of railroads, air lines, bus lines, trucking lines or other common or contract carriers, seagoing personnel, longshoremen, dock workers, and similar waterfront workers, are not within the scope of the order. Employees of telephone and telegraph companies and radio stations, engaged in the normal communication operations of such companies, as well as employees of newspapers, magazines, and other periodicals which disseminate general information to the public at large are also excluded. Employees of power and light, water, gas and other public utility companies which merely furnish power and other facilities to the general public are not covered even though some of their output is supplied to war contractors. On the other hand, a power plant operated, for example, by a war manufacturer furnishing power or light, or other services to the factory would properly be regarded as a plant facility and would be subject to the order. Also firms engaged exclusively in distribution which do not process any war products would not be covered. Accordingly, employees of wholesalers, retailers, storage warehouses and brokers would be exempt if their employers are not engaged in any processing activity. Agricultural workers and employees of Federal or State Governments, and political subdivisions thereof, are not subject to the order.

§ 809.942–3 *Classes of employees to which order is applicable.* The order should be applied on the basis of operations carried on in an individual plant. Therefore, if a particular plant is engaged in war work which is within the scope of coverage, the entire plant would be subject to the order, including production, clerical, and maintenance employees. In cases where an employer in a particular plant is engaged both in the production of war goods and in noncovered work the order would apply to the entire plant in the absence of segregation. If an employee works an entire workweek exclusively in noncovered production, and his duties do not contribute or relate to work which is subject to the order, such an employee would not be covered by the order for that week. On the other hand, if that employee works a portion of a week in the performance of any function contributing to the production of war goods, he would be subject to the order for the entire workweek. The burden of establishing segregation is upon the employer. The order would apply to any employee engaged in covered work if his compensation is customarily or by requirements of applicable statutes or agreements related to the number of hours worked in a day or the number of days worked in a week.

§ 809.942–4 *Saturday and Sunday work.* Paragraph I A of the order prohibits premium wages or extra compensation for work performed on Saturday or Sunday as such, that is, for work performed on either of those days without reference to the number of hours or days previously worked in the workweek. Any attempt to clothe any other day in the workweek with the status of a premium day, as such, would be contrary to the order.

§ 809.942–5 *Double time for seventh day.* Paragraph I A (1) of the order requires the payment of double time for work on the seventh consecutive day worked in any regularly scheduled workweek. Under this requirement double time may be paid only if all 7 days fall within the same workweek. Double time for work performed on the seventh day should be computed at twice the straight-time rate paid for work on that day or twice the average straight-time hourly rate for the workweek, whichever is the customary method of computing overtime compensation. The employer's records should indicate which method is adopted.

§ 809.942–6 *The workweek.* A workweek consists of 7 successive days (see § 809.942–7) starting on the same calendar day each week. This is definition of a workweek under the Fair Labor Standards Act and is generally accepted by industry. The workweek may be established for the whole plant, for particular employees, or for any subdivision of the plant. The beginning of the workweek may be changed if not intended to evade the requirements of the order. The order does not call for or require any particular work or shift schedule nor does it prescribe the days or hours on which work is to be performed. It is of course highly desirable that work schedules be posted in advance, thus enabling employees to know upon what days work will be required of them.

§ 809.942–7 *The work day.* The order is to be applied on a 24-hour day basis. A 24-hour period may be established as the workday for the plant or for particular employees or departments, *Provided* such an arrangement is not designed to evade the purposes of the order. In the event no particular 24-hour period is established as the workday, the calendar day (i. e., from midnight to midnight) shall be considered as the workday. Thus, work on an established workday regardless of the number of hours worked would, for the purpose of the order, be considered as 1 day of work.

§ 809.942–8 *Exceptions as to work day.* Certain exceptions to this rule must be recognized. At times a shift may cut across 2 workdays. Only 1 of the 2 days is to be counted as a day worked, and that is the day on which the shift starts. Where an employee on particular occasions works beyond his normal shift and thereby works into the next workday, such excess hours should not be regarded as an additional day. However, if the employee continues to work into his day of rest to the extent of one-half his normal shift or is called back to work on his day of rest, that day must be counted as a day of work.

§ 809.942–9 *Effect of the order on applicable statutes and employment contracts.* Such provisions of employment contracts as are in conflict with the order are to that extent modified thereby. Employment contracts or agreements as those terms are used herein include practices established by custom or usage. Paragraph I A (2) contemplates that applicable statutes such as the Fair Labor Standards Act and the Walsh-Healy Act, or employment agreements

which provide for overtime at time and one-half on a daily or weekly basis or for the sixth day of work in a regularly scheduled workweek, shall not be disturbed by the provisions of the order. Therefore, in situations where applicable laws or employment agreements require time and one-half for overtime worked in excess of 8 hours per day or 40 hours per week, the order permits the payment of time and one-half for such overtime. Likewise, where an employment contract requires time and one-half compensation for the sixth day worked in a regularly scheduled workweek, the order permits such premium pay. If overtime compensation for hours in excess of 8 per day or 40 per week, or for the sixth day worked is not required by applicable statutes or employment agreements, nothing in the order requires the payment of such premium rates.

§ 809.942–10 *Contracts for premium pay unrelated to work on particular days as such.* It is not the purpose of the order to disturb employment contracts which contain provisions for extra compensation for onerous work, night work, or emergency work (i. e., work resulting from a sudden condition calling for immediate action); which extra compensation is in no way related to premium pay for work on Saturday, Sunday, or particular days as such. Accordingly, the order would not invalidate contracts, practices, or customs calling for more than time and one-half for hours in excess of 12 on a shift since such work is ordinarily regarded as particularly onerous. Likewise, the order would not invalidate contracts calling for premium pay for "call-in work" where the employee is summoned to duty outside his regular work schedule, and such premium rates are unrelated to work on Saturday, Sunday, or any other day as such. Furthermore, the order does not prevent the payment of shift wage differentials or bonuses, or attendance bonuses, where such payments are not in fact related to work performed on Saturday, Sunday, or particular days, as such.

§ 809.942–11 *Holidays; choice of sixth holiday.* Paragraph I B of the order has two requirements: (a) It requires time and one-half for work on the 6 holidays enumerated in the order, and (b) it forbids payment of any premium wage or extra compensation for work on any other holidays as such. A choice is afforded between Memorial Day and any other holiday of greater local importance. Failure to select a substitute holiday leaves Memorial Day as the sixth holiday under the order. The holiday chosen as a substitute for Memorial Day need not be the same holiday each year but only 6 holidays may be paid for at premium rates in the 12-month period beginning October first.

§ 809.942–12 *Holidays; computation of premium pay.* The order requires that time and one-half compensation be paid for work on designated holidays but forbids payment in excess of time and one-half. Thus, if the wages of an employee include compensation for a holiday although not worked, the additional amount which must be paid under the order for work performed on that holiday is limited to such amount, as brings the total compensation for the day to time and one-half. Compensation for work performed on a holiday should be computed at one and one-half times the straight-time rate paid for work on that day or one and one-half times the average straight-time hourly rate for the workweek, whichever is the customary method of computing overtime compensation. The employer's record should indicate which method is adopted.

§ 809.942–13 *Holidays; inclusion of holidays in computing sixth and seventh days.* For purposes of computing the seventh day of work in a workweek under the order, the designated holidays must be included in the count whether or not work is performed on such days. An idle holiday should be included in computing the sixth day worked in the workweek unless the employment contract specifies otherwise.

§ 809.942–14 *Holidays; determination of what constitutes work on holidays.* Insofar as the order requires payment of time and one-half for work on the designated holidays, it means payment of time and one-half for the hours worked on the calendar holiday, namely, hours worked between midnight at the beginning of the holiday and midnight at the close of the holiday. However, in order to give all employees equal benefit of the holiday, it is permissible to compensate employees at time and one-half for all hours worked on a shift, some part of which cuts across the calendar holiday. It is not permissible to pay the time and one-half holiday rate for more than one shift in a situation in which the employee works two shifts, both of which cut across the calendar holiday. However, employees must be paid time and one-half for at least all the hours worked on the calendar holiday. If one of the designated holidays falls on Sunday, either Sunday or Monday may be observed as the holiday, but not both.

§ 809.942–15 *Holidays; not worked.* There is no provision in the order relating to compensation on holidays not worked.

§ 809.942–16 *Holiday pay not offset against other premium pay.* The time and one-half premium pay required for work on the 6 holidays designated in the order may not be offset or credited against overtime or premium pay required for any other day or portion of the workweek by virtue of this order or applicable statute, such as the Fair Labor Standards Act, the Walsh-Healey Act, or the Federal Eight-Hour Law, but whether holiday premium pay can be credited against overtime compensation due under a contract for other hours depends on the terms of the contract. For example, an employee works 6 days of 8 hours each or a total of 48 hours in a workweek. The second day is one of the designated holidays and the 8 hours worked on that day must be paid for at time and one-half. This premium pay may not be credited or offset against the time and one-half required by statute for hours over 40 during that week. Both must be paid.

§ 809.942–17 *Seventh day pay not offset against other premium pay.* Similarly, the double time required for the seventh consecutive day worked in the workweek may not be offset or credited against overtime or premium pay required for any other day or portion of the workweek by the order or existing law. Thus, if in the example in § 809.942–16, the employee works an additional or seventh consecutive day in the same workweek, he must receive double time for that day. This double time may not be offset or credited against the holiday premium pay in this example, nor against the time and one-half due for the hours worked in excess of 40 prior to the seventh day.

§ 809.942–18 *Pyramiding not permitted of overtime or premium rates on a particular day.* On the other hand, it is contrary to the purposes of the order to allow the pyramiding of overtime or premium rates on a particular day. Thus, double time and no more may be paid for work on the seventh consecutive day worked in the workweek even though, by virtue of the employment contract or applicable statute, the hours worked on that day may exceed 8 or are in excess of 40 for the workweek or otherwise call for overtime rates of pay. For example, an employee works all 7 days of the workweek, 8 hours each day. The hours worked on the seventh day call for time and one-half under the Fair Labor Standards Act and double time under the order. The two premium rates may not be pyramided—only double time may be paid for work on that day. The same is true even though the employee works over 8 hours on the seventh day, which excess hours may also call for time and one-half. Also, since the order limits premium pay for the designated holidays to time and one-half, it would be contrary to the order to pyramid the holiday rate and the weekly overtime rate required, for example, by the Fair Labor Standards Act, in cases where the holiday itself consists of hours in excess of 40 for the week. For example, the employee works 6 days of 8 hours each. The hours worked on the last day call for time and one-half under the Fair Labor Standards Act. The last day is also a holiday designated in the order. The order limits pay on that day to time and one-half. For the same reason, where the holiday coincides with the sixth day worked in the workweek, which day by contract may also call for time and one-half, the order prevents the pyramiding of the two overtime rates. Likewise, not more than time and one-half may be paid for work on the sixth day worked in the workweek even though the hours worked on that day may be in excess of 8 for the day or 40 for the week. Even though the hours worked on the holiday in excess of 8 require time and one-half under the Walsh-Healey Act, the order limits the amount of compensation to time and one-half and prevents the pyramiding of overtime rates or the hours worked in excess of 8.

§ 809.942–19 *Absences; full days of absence.* (a) If an employee is absent for all of one of more days, such days are not to be included in computing the seventh day. The only two exceptions to this rule are a designated holiday on which no work is performed and the case where an employee reports with the reasonable expectation of work and is sent home because of a lack of work or other reason beyond his control. Such days should be counted in computing the seventh consecutive day.

(b) With respect to the inclusion of full days of absence for the purpose of determining whether a sixth day has been worked, the answer is to be found in the prevailing custom, practice, or agreement, in the plant. However, the counting of days of absence merely for the purpose of evading the prohibition in the order against premium pay for Saturday and Sunday work as such would be in contravention of the terms of the order.

§ 809.942–20 *Absences for parts of workdays.* (a) The order does not require that any particular number of hours be worked in a day for that day to be regarded as a day worked under the order.

(b) Where an employee is absent for part of a workday for a justifiable reason, the day must be counted as a day worked for the purpose of computing the seventh day of work in the workweek. Since one of the basic purposes of the order is to discourage absenteeism, days on which an employee does not work his full schedule but absents himself for a portion of the day without justifiable cause should not be counted in computing the seventh day. It is permissible, however, for the employer to allow the employee to make up the time lost by such voluntary absence during the subsequent days of the workweek, and be compensated at the rate of double time on the seventh day of the workweek for hours worked on that day. However, double time may be paid on the seventh day only for those hours worked after the time lost has been made up by the employee.

(c) In computing the sixth day worked in the workweek, the question as to inclusion of days on which the employee has been absent for a portion of the day may be determined by the prevailing custom, practice, or agreement in the plant, provided days are not counted merely for the purpose of evading the prohibitions against premium pay for Saturday and Sunday, as such.

§ 809.942–21 *Relationship of Executive Order 9240 to 9250.* Payments required or forbidden by the terms of Executive Order 9240 do not, in the opinion of the Secretary of Labor, as stated in Interpretative Bulletin No. 1, require approval of the WLB as wage increases or decreases under the terms of Executive Order 9250. In situations where changes in the wage structure or premium rates are permitted but not required by Executive Order 9240, the procedures for the approval of wage increases as stated in Subpart H of this part should be followed before such changes are initiated by the employer.

§ 809.942–22 *National War Labor Board approval requirements for premium pay on sixth day of workweek.* On May 31, 1943, the National War Labor Board adopted a resolution to the effect that, where, pursuant to the terms of a collective bargaining agreement, or the custom and practice in a plant, a premium rate or extra compensation was regularly paid, prior to October 1, 1942, for services performed on Saturday, as such, not more than time and one-half premium wage compensation may be paid without the approval of the National War Labor Board, for services performed on the sixth day of work in the regularly scheduled workweek, in accordance with the provisions of Executive Order 9240.

§ 809.943 *Exceptions to Executive Order 9240.*

§ 809.943–1 *Shipbuilding stabilization agreement.* The Secretary of Labor on February 25, 1943, pursuant to Executive Order 9248, issued an order determining that the provisions of Executive Order 9240 shall not apply after March 2, 1943, to the shipbuilding and ship repair industry.

The Secretary's order is based on a finding that the Zone Standards Agreements for the Shipbuilding and Ship Repair Industry, and the Pacific Coast Repair Agreements, approved by the Government departments and agencies concerned with shipbuilding and ship repair work, are operating satisfactorily to stabilize overtime practices in the industry. The exemption is not limited, however, to companies which are parties or subject to these wage stabilization agreements, but is applicable to the entire shipbuilding and ship repair industry.

The shipbuilding and ship repair industry, for the purposes of the Secretary's order, includes generally construction, conversion, outfitting, and repair of any floating marine structures, including floating drydocks. Many preliminary processes and the manufacture of many parts and products which are eventually used in the building of a ship are, however, not included. For example, the manufacture of prefabricated parts in steel mills or sawmills is not included in the industry.

The construction, conversion, outfitting, and repair activities which are considered within the shipbuilding and ship repair industry are those which are performed in the water, in drydocks, in basins, on ways for launching, or on the premises of a shipyard or boatyard. The exemption covers all employees of companies which are engaged in such activities, including maintenance, clerical and technical employees, and including also employees who may be assigned to work away from the shipyard such as draftsmen employed by the shipyard and temporarily stationed in the office of an independent drafting concern, working on plans for the shipyard. However, employees of "uptown shops" are not within the exemption.

§ 809.943–2 *Building trades stabilization agreement.* (a) Except as indicated in paragraph (b) below, work on construction projects subject to the Wage Stabilization Agreement for the Building and Construction Trades Industry engaged in War Construction (July 1941) is exempted from the provisions of Executive Order 9240. The Agreement is entitled "Memorandum of Agreement between the Representative of Government Agencies Engaged in Defense Construction and the Building and Construction Trades Department of the American Federation of Labor." (See Order, Secretary of Labor, September 30, 1942.)

(b) On May 22, 1943, the Secretary of Labor determined that for the duration of the war, paragraph 1 (B) of Executive Order 9240, which recognizes the following six holidays only: New Year's Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day, and Memorial Day, and requires compensation at the rate of time and one-half for work performed on such holidays, applies to work on construction projects which is subject to the Wage Stabilization Agreement for the Building and Construction Industry: *Provided*, That the clause in the Executive order permitting the substitution of one holiday of greater local importance than Memorial Day does not apply to such work. (See Determination, Secretary of Labor, May 22, 1943.)

(c) While work covered by the Building Trades Stabilization Agreement has been exempted from the order, the holiday provisions of the order (paragraph I (B)) have been incorporated in the Stabilization Agreement by resolution of the Board of Review, which performs the function of administering the Stabilization Agreement. (Interpretative Resolution No. 2 of the Board of Review passed on November 10, 1942.)

§ 809.943–3 *Sugar processing industry.* The Secretary of Labor on March 24, 1943, pursuant to Executive Order 9248, issued an order determining that in the case of an employer engaged in the processing of sugar beets or sugar cane into sugar (but not refined sugar) or into syrup, the provisions of section 1A(1) of Executive Order 9240 (requiring the payment of double time compensation on the seventh consecutive day of a regularly scheduled workweek) shall not apply to his employees in any place of employment where he is so engaged.

§ 809.943–4 *Fish processing industry.* The Secretary of Labor on April 24, 1944, pursuant to Executive Order 9248, issued an order determining that the provisions of Executive Order 9240 shall not apply to employees engaged in the processing of fish, including the canning and reduction thereof, and operations incidental thereto, in the United States, its territories, and possessions.

§ 809.943–5 *Fruit and vegetable packing and canning industries.* The Secretary of Labor on August 25, 1943, pursuant to Executive Order 9248, issued an order determining that in the case of an employer engaged in the first processing of, or in canning or packing, perishable or seasonal fresh fruits and vegetables, the provisions of Executive Order 9240 shall not apply to his employees in any place of employment where he is so engaged.

§ 809.943–6 *Milk processing industry.* The Secretary of Labor on October 22, 1943, pursuant to Executive Order 9248, issued an order determining that in the case of an employer engaged in the first processing of milk, whey, skimmed milk, or cream into dairy products, the provisions of Executive Order 9240 shall not apply to his employees in any place of employment where he is so engaged.

§ 809.944 *Future interpretations.* Section V of Executive Order No. 9240, as amended, requires that all questions regarding its interpretations and application be referred to the Secretary of Labor. Such questions requiring action by the Secretary of Labor, insofar as they are posed by representatives of the War Department, will be directed, through channels, to the Director, Industrial Personnel Division, Headquarters, Army Service Forces, who will take any necessary steps to obtain such interpretations in appropriate cases. The Director, Industrial Personnel Division, will clear with the Director, Purchases Division, all such questions relating to contracting or procurement procedure. Interpretations of Executive Order 9240, made by the Secretary of Labor from time to time will be promptly forwarded to the chiefs of technical services, and will be summarized for inclusion in this subpart. Auditors, finance officers, and other persons reviewing War Department vouchers and payments will present to the Director, Industrial Personnel Division, through the Office of the Fiscal Director, Headquarters, Army Service Forces, all requests for instructions as to the application of the Executive order to fiscal matters.

§ 809.944–1 Requests for interpretations will be prepared in the following form and submitted in triplicate:

(a) A brief statement of the question for which interpretation is requested.

(b) A statement as to the person, official, department, or organization requesting the interpretation.

(c) Any facts or comments which are necessary for interpretation. These comments should not exceed one or two paragraphs.

SUBPART H—WAGE AND SALARY STABILIZATION

§ 809.950 *General.*

§ 809.950–1 *Scope of subpart.* This subpart deals with the national wage and salary stabilization program. The Stabilization Act of 1942, as amended (sometimes hereinafter referred to as "the Act"), authorizes and directs the President, among other things, and subject to certain limitations, (a) to issue a general order stabilizing wages and salaries affecting the cost of living on the basis, unless otherwise provided, of the levels which existed on September 15, 1942, and (b) generally to provide for the making of adjustments with respect to wages and salaries "to aid in the effective prosecution of the war or to correct gross inequities." By Executive Order No. 9250 and other directives, the President, with respect to the stabilization program, has (1) established policies, (2) defined certain functions of the National War Labor Board, and (3) delegated certain powers and responsibilities to the Economic Stabilization Director (sometimes hereinafter referred to as "the Director"). Some of these powers and responsibilities of the Director have been re-delegated by him to the National War Labor Board, the Commissioner of Internal Revenue and the War Food Administrator (sometimes hereinafter referred to respectively as "the Board", "the Commissioner", and "the Administrator"). The Board and the Commissioner, in turn, have authorized other agencies, in certain cases, to exercise their functions with respect to the stabilization program in the first instance, subject to their review. The succeeding sections discuss the broader aspects of the program and indicate, to the extent deemed of interest to War Department personnel, the functions of various agencies having jurisdiction with respect thereto. Contracting officers should be reasonably familiar with the program. However, since contracting and disbursing officers are not authorized to determine whether particular payments of wages and salaries by War Department contractors violate wage and salary stabilization policy (see §§ 809.961 and 809.962), no attempt is made in these procurement regulations to set forth in detail the various rules, regulations, orders and interpretations which have been promulgated pursuant to the act.

§ 809.950–2 *Applicable statutes, orders, regulations and rulings.* Statutes, orders, regulations and rulings respecting the stabilization program include the Stabilization Act of 1942 (entitled An Act to Amend the Emergency Price Control Act of 1942, to Aid in Preventing Inflation, and for Other Purposes), as amended by the Public Debt Act of 1943 and by the Stabilization Extension Act of 1944, the War Labor Disputes Act (relating to labor disputes which may lead to substantial interference with the war effort, to government operation of facilities under certain circumstances, and to other matters), Executive Order No. 9250 (wage stabilization order), Executive Order No. 9299 (regulations and procedure with respect to wage and salary adjustments for employees subject to the Railway Labor Act), Executive Order No. 9328 (supplemental stabilization order, the "hold-the-line" order), Executive Order No. 9370 (enforcement of orders of the Board), the regulations of the Director, the Director's policy directive of May 12, 1943, and the regulations, rulings, orders and interpretations of the various agencies having jurisdiction with respect to the stabilization program.

§ 809.950–3 *Where information may be obtained.* Any questions relating to the stabilization program may be addressed by the chiefs of the technical services to the Industrial Personnel Division, Headquarters, Army Service Forces, Washington 25, D. C. In addition, pursuant to a joint statement of the Board and the Commissioner, reliable advice relating to the national stabilization policy may be obtained from the Regional War Labor Boards (§ 809.990) and the regional offices of the Bureau of the Internal Revenue (§ 809.992).

§ 809.950–4 *Definition of wages and salaries.* For the purposes of the stabilization program, salaries and wages have been defined by the agencies charged with its administration to include all forms of direct or indirect remuneration to an employee or officer for work or personal services performed for an employer or corporation, including but not limited to bonuses, additional compensation, gifts, commissions, fees, and any other remuneration in any form or medium whatsoever (excluding insurance and pension benefits in a reasonable amount as determined by the Director). "Salaries" means remuneration for personal services computed on a weekly, monthly, annual or other comparable basis, except a wage basis. "Wages" means remuneration for personal services computed on an hourly or daily basis, a piece-work basis, or other comparable basis.

§ 809.951 *Increases and decreases in wages and salaries under the stabilization program.*

§ 809.951–1 *General.* Generally (a) no increases or decreases in wage rates (regardless of whether required by the terms of any labor agreement), (b) no increases in salaries, and (c) no decreases in salaries (if below $5,000 or if the effect of the decrease is to reduce the salary below $5,000 per annum) shall be made without the approval of the appropriate agency having jurisdiction with respect thereto (§§ 809.952–809.958). Exceptions to this requirement of approval have been made (e. g. in the case of certain employers of eight people or less), limitations have been set within which approvals may be granted, and certain increases and decreases which may be made without the specific approval of the appropriate agency in the particular case have been defined. Sections 809.951–2 to 809.951–5, inclusive, contain a general summation of the limitations upon increases and decreases in wages and salaries under the stabilization program. For further details and for a statement of the exceptions and of the increases and decreases which may be made without specific approval, heretofore mentioned, reference is made to the regulations, rulings and orders of the agencies charged with the administration of the program.

§ 809.951–2 *Limitations on wage and salary increases*—(a) *Policy.* Existing policy as to wage and salary increases (insofar as those within the jurisdiction of the Board or the Commissioner as hereinafter set forth are concerned) is expressed in § 4001.11 of the regulations of the Director as supplemented by the Director's Policy Directive of May 12, 1943 and Policy Directive on "Fringe" Adjustments of March 8, 1945. This policy may be summarized as follows:

(1) No increase in wages or salaries shall be authorized by the Board or the Commissioner, as the case may be, except in the following cases:

(i) Such increases as are clearly necessary to correct substandards of living;

(ii) Such wage or salary readjustments as may be deemed appropriate and may not have heretofore been made to

compensate, in accordance with the "Little Steel Formula" (see paragraph (b) of this section), for the rise in the cost of living between January 1, 1941 and May 1, 1942;

(iii) Salary and wage adjustments necessary to adjust salaries or wages up to the minimum of the tested and going rates paid for comparable work in the same or most nearly comparable plants or establishments in the same labor market, except in rare and unusual cases in which the critical needs of war production require the setting of a wage or salary at some point above the minimum of the going wage or salary bracket;

(iv) Reasonable adjustments in wages or salaries in case of promotions, reclassifications, merit increases, incentive wages or the like: *Provided*, That such adjustments do not increase the level of production costs appreciably or furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices. (The Board may approve or direct certain such adjustments irrespective of such proviso in accordance with the Director's Policy Directive on "Fringe" Adjustments of March 8, 1945).

(2) No increase in a salary rate approved by the Commissioner shall increase the level of production costs appreciably, or furnish the basis either to increase prices or to resist otherwise justifiable reductions in prices or furnish the basis of further wage or salary increases.

(3) In connection with the approval of wage or salary adjustments necessary to eliminate substandards of living or to give effect to the Little Steel Formula or in connection with the adoption of a longer workweek, there may be approved wage or salary adjustments for workers in immediately interrelated job classifications to the extent required to keep minimum differentials between immediately interrelated job classifications necessary for the maintenance of productive efficiency. Such adjustments are to be tapered off rigorously in application to higher job classifications so as to apply only in those classifications and only to the extent necessary for productive efficiency in the interrelated job classifications.

(b) *Little Steel formula.* This formula has been adopted by the Board for application generally in the case of wage increases for a group of employees. Under the formula, the Board will consider requests for general increases in straight-time wage rates up to 15 percent above the level prevailing on January 1, 1941. Thus a terminal point for general wage increases is set. The formula is usually not applicable to individual workers or to employees in particular job classifications. It will normally be applied only to groups composed of all employees in a bargaining unit, in a plant, a company or an industry, depending upon the circumstances of each case.

§ 809.951–3 *Limitations on decreases in salaries of less than $5,000.* In the case of a salary rate existing as of the close of October 3, 1942, or thereafter approved, under which an employee is paid a salary of less than $5,000 per annum for any particular work, generally no decrease shall be made by the employer below the highest salary rate paid for such work in the local area between January 1, 1942, and September 15, 1942, unless to correct gross inequities or to aid in the effective prosecution of the war. In either such event, approval of the decrease must be obtained from the appropriate agency. The words "for any particular work" as used in this section refer to the particular work of the particular employee and not merely to a particular type of work.

§ 809.951–4 *Limitations on decreases in salaries of over $5,000.* In the case of a salary rate existing as of the close of October 3, 1942, or thereafter approved, under which an employee is paid a salary of $5,000 or more per annum, decrease may be made without approval: *Provided*, That if by virtue of such decrease the new salary paid is less than $5,000 per annum, then the validity of the decrease below $5,000 shall be determined as set forth in § 809.951–3.

§ 809.951–5 *Limitations on decreases in wages.* The Board shall not approve a decrease in the wages for any particular work below the highest wages paid therefor between January 1, 1942, and September 15, 1942, unless to correct gross inequities and to aid in the effective prosecution of the war.

§ 809.952 *Functions and operation of the National War Labor Board with respect to the wage and salary stabilization program.*

§ 809.952–1 *Jurisdiction of the Board.* The jurisdiction of the Board covers (a) the final disposition of labor disputes "which may lead to substantial interference with the war effort" and (b) the approval or disapproval of voluntary wage and salary adjustments. With respect to wages and salaries, the Board (except as indicated in §§ 809.956 and 809.957) is authorized to determine whether any:

(1) Wage payments, or

(2) Salary payments to an employee where the rate at which the salary, exclusive of bonuses and additional compensation and without regard to the contemplated adjustments, computed on an annual basis, is not in excess of $5,000 per annum, and where such employee:

(i) In his relations with his employer is represented by a duly recognized or certified labor organization, or

(ii) Is not employed in a bona fide executive, administrative or professional capacity

are made in contravention of the act, or any rulings, orders or regulations promulgated thereunder.

§ 809.952–2 *Regulations, orders and rulings of the Board.* From time to time the Board has issued regulations, general orders, and other directives (a) establishing stabilization policies, with respect to wages and salaries subject to its jurisdiction, within the limits set forth in the act, the pertinent Executive orders and the Director's regulations, (b) creating Regional War Labor Boards and other subagencies to exercise its functions in the first instance subject to the Board's review, and (c) establishing procedures to be followed in cases before the Board and such subagencies. In addition, the Board has delegated to various other government agencies authority to perform certain of its duties with respect to the stabilization program. With respect to adjustments in wages and salaries subject to its jurisdiction, the orders of the Board (and of the agencies upon which it has conferred appropriate authority) take one of two forms, depending upon the nature of the proceeding involved, as follows: (1) Upon applications for voluntary wage and salary adjustments proposed by employers or submitted pursuant to agreement of employers and their employees, the Board issues so-called "permissive" rulings, permitting specified adjustments within the limits of established stabilization policy, while (2) in cases of dispute between employers and employees or their representatives, the Board issues so-called "directive orders" directing the making of specified wage and salary adjustments within such limits. For a statement of the procedure to be followed by War Department personnel in cases before the Board (or before agencies upon which it has conferred authority) in which the War Department has an interest, reference is made to § 809.963.

§ 809.952–3 *Agencies which exercise functions of the Board subject to its review.*—(a) *Regional War Labor Boards.* The Board has established twelve Regional War Labor Boards together with a Territorial War Labor Board for Hawaii (Alaska has been made a part of Region XII) through which, generally, it exercises its functions in the first instance. (A list of these Regional War Labor Boards, together with a statement of the areas in which they have jurisdiction, respectively, may be found in § 809.930.) In addition, the Board has established various other subagencies and authorized them in certain types of cases, subject to the Board's review, (1) to hear and determine and to issue directive orders in labor dispute cases, and (2) to make final rulings on voluntary wage or salary adjustments. A list of certain such subagencies, together with a general designation (subject to exception) of the cases in connection with which they have been granted authority, is as follows:

(1) Non-Ferrous Metals Commission in cases affecting the stabilization of the mining, milling, smelting and refining of non-ferrous metals, referred to it by the Board or by the Regional Directors of the 9th, 10th and 12th regions of the Board. (The jurisdiction of the Non-Ferrous Metals Commission does not extend to those enterprises which supply materials and equipment to the above named industries.)

(2) Detroit Area Tool and Die Commission in cases concerning the tool and die industry in the counties of Wayne, Oakland, Macomb, Monroe, Washtenaw and Genessee in the State of Michigan.

(3) The Trucking Commission in cases involving persons employed in the fol-

lowing types of trucking operations: over-the-road (common, contract, or private carrier), local pick-up, and delivery; transfer and storage.

(4) Shipbuilding Commission in cases involving persons employed in the shipbuilding industry.

(5) West Coast Lumber Commission in cases involving the production of lumber and lumber products in Oregon, Washington, Idaho, Montana and California.

(6) The National Airframe Panel in cases involving employees of certain manufacturers of airplanes. In dispute cases this panel acts only in an advisory capacity to the Board but the panel is authorized, subject to the Board's review, to make final rulings on voluntary wage and salary adjustments within its jurisdiction in cases where the decision of the panel is unanimous.

(7) The War Shipping Panel in cases involving the shipping industry. In dispute cases this panel acts only in an advisory capacity to the Board but the panel is authorized, subject to the Board's review, to make final rulings on voluntary wage and salary adjustments within its jurisdiction in cases where the decision of the panel is unanimous.

(b) *Shipbuilding Stabilization Committee.* This committee composed of representatives of the Government, of shipbuilding management, and of shipbuilding labor, was established by General Administrative Order No. 2–57 of the War Production Board to perform certain functions with respect to the four Zone Standards Agreements, as amended. These agreements, negotiated in the four shipbuilding zones (i. e. the Pacific Coast, the Atlantic Coast, the Gulf Coast, and the Great Lakes) were originally entered into by the Office of Production Management (predecessor of the War Production Board), the Navy Department and the U. S. Maritime Commission on behalf of the Government; by the Metal Trades Department of the American Federation of Labor and by the Industrial Union of Marine and Shipbuilding Workers of America of the Congress of Industrial Organizations on behalf of labor; and by various shipbuilding companies. Subsequently the War Department indicated it would participate in Zone Standards. The agreements, as amended by proposals dated May 16, 1942 of a National Shipbuilding Conference subsequently ratified by the parties (such proposals so ratified being commonly termed the Chicago Amendments), among other things fix certain wage rates to be paid in the shipbuilding industry and provide for an annual wage review to be conducted by the Shipbuilding Stabilization Committee. Pursuant to Executive Order No. 9250, the Committee continues to exercise its functions. However, no new wage rate fixed by Zone Standards Agreement may become effective until approved by the Board which acts with respect thereto, in the first instance, through its subagency the Shipbuilding Commission. (See paragraph (a) (4) of this section.)

(c) *The Wage Adjustment Board for the Building Construction Industry.* On May 22, 1942, the War and Navy Departments, National Housing Administration, Reconstruction Finance Corporation, the Maritime Commission and the Building and Construction Trades Department of the American Federation of Labor, entered into an agreement stabilizing wage rates for all war construction work done for or financed by the United States (except non-Federal construction where state laws should govern wage rates) in the continental United States at the level in effect on July 1, 1942. Such agreement, by its terms to endure for the duration of the war, provided for the creation of a Wage Adjustment Board (1) to determine whether certain wage adjustments should be made and (2) to fix the amount of any such adjustment. The Wage Adjustment Board for the Building Construction Industry, (hereinafter referred to as the Wage Adjustment Board), has been established by order of the Secretary of Labor with authority (1) to investigate and act upon adjustments of wage rates under such agreement of May 22, 1942, and (2) to carry out the duties and functions delegated to it by the National War Labor Board. Under General Order No. 13 of the National War Labor Board, the Wage Adjustment Board continues to exercise its functions under such order of the Secretary of Labor and such agreement of May 22, 1942, insofar as the same are consistent with the terms of such General Order No. 13, and is authorized, (1) to hear and issue directive orders in labor dispute cases and (2) to make rulings on voluntary wage and salary adjustments. The jurisdiction of the Wage Adjustment Board is limited to mechanics and laborers in the building and construction industry in the continental United States and Alaska employed directly upon the site of the work, and its determinations are subject to review by the Board.

(d) *War Department Wage Administration Agency.* Pursuant to appropriate delegations of authority, the Wage Administration Section, Industrial Personnel Division, Headquarters, Army Service Forces (referred to as the War Department Wage Administration Agency when acting under such delegations), acting upon behalf of the Secretary of War, is authorized to rule upon all applications for wage and salary adjustments (insofar as approval thereof has been made a function of the Board) covering civilian employees within the continental limits of the United States employed by (1) the War Department, (2) the Army Exchange Service and (3) certain Government owned, privately operated facilities of the War Department designated in lists furnished from time to time to the Board by the War Department Wage Administration Agency. The chiefs of the technical services are responsible, respectively, for (i) designating to the War Department Wage Administration Agency the facilities which, in their opinion, should be placed upon such lists and (ii) advising the officers of their services concerned of the names of facilities which have been placed upon such lists. The War Department Wage Administration Agency has also been authorized, subject to certain limitations, to establish wage or salary schedules for civilian employees of the War Department in the various Government owned, Government operated installations located in the Territory of Hawaii. The delegations of the Board, contained in the Board's General Orders Nos. 14 and 37, are set forth in full at §§ 809.993 et seq.

§ 809.952–4 *When specific approval of Board is not required.* Reference is made to the General Orders of the Board for a definition of certain exceptions to the requirements of the stabilization program and of certain increases in wages and salaries subject to the jurisdiction of the Board which may be made without other or specific approval.

§ 809.952–5 *Preliminary inquiries as to wage and salary adjustments within the jurisdiction of the Board.* An employer or a union (or an employee, or a group of employees not represented by a union) directly concerned in a proposed wage or salary adjustment, may jointly or separately, ask the nearest designated officer of the Wage and Hour and Public Contracts Divisions of the United States Department of Labor in the region for a ruling as to whether the proposed adjustment may be made without Board approval. If said ruling is that the proposed wage or salary adjustment may be made without approval of the Board, the ruling shall be deemed to be authorative and shall remain in effect unless reversed. (For a list of the addresses of such officers, see § 809.991.)

§ 809.952–6 *Application for the Board's approval of voluntary adjustments.* Generally, each application for the Board's approval of a proposed voluntary wage or salary adjustment shall be filed with the nearest office of the Wage and Hour and Public Contracts Divisions of the United States Department of Labor in the region where the employer maintains his principal place of business. All applications shall be made upon appropriate forms prepared by the Board. (For a list of such offices see § 809.991.)

§ 809.952–7 *Procedure in dispute cases involving wages or salaries subject to the jurisdiction of the Board.* A dispute case arises out of a disagreement as to wages or working conditions, or both. The National War Labor Board usually accepts dispute cases only on certification by the U. S. Conciliation Service although the Board also has power to take cases on its own initiative. A dispute case is referred to the New Case Committee of the National Board which determines whether the case shall be retained by the National Board for disposition or referred to the appropriate regional board or industry commission for decision. Upon certification of the case to a regional board, the case is considered by a New Case Committee of the regional board and prepared for a hearing. The Committee designates a tripartite panel to hear the case or, if the parties agree, a single person is appointed. Upon conclusion of the hearing by the panel or individual, the findings are reported to the regional board which makes a decision on the panel's findings and recommendations. Arguments may be heard if the panel's report is not unanimous. A re-

gional board may certify to the National Board any case or any question in the case upon which it desires a National Board ruling. Directive orders are issued to the parties when made, except that issuance of any provision of an order, which relates to a wage or salary adjustment, may be stayed if two or more public members of the regional board dissent from the provision and request that its issuance be stayed. In such an event a copy of the directive order and the request of stay, together with a statement of the reason for such request is transmitted to the National Board. Reconsideration of rulings and orders of regional boards may be had upon filing of petition under established rules. For a statement of procedure to be followed by War Department personnel in cases before the Board (or before agencies upon which it has conferred appropriate authority) in which the War Department has an interest, reference is made to § 809.963.

§ 809.954 *Jurisdiction and organization of the Bureau of Internal Revenue with respect to the stabilization program.*

§ 809.954–1 *Jurisdiction of the Commissioner.* The Commissioner is authorized to determine, under regulations prescribed by him with the approval of the Secretary of the Treasury, whether any salary payments (other than those under the jurisdiction of the Board, the War Food Administrator or the National Railway Labor Panel, as the case may be, as specified in §§ 809.922–1, 809.956 and 809.957) are made in contravention of the act or any regulations or rulings promulgated thereunder.

§ 809.954–2 *Salary Stabilization Unit.* There has been established within the Bureau of Internal Revenue, but independent of all other units therein, a Salary Stabilization Unit which, generally, is charged with the responsibility of exercising the Commissioner's authority and performing his duties with respect to the stabilization program. The Salary Stabilization Unit functions, generally, through Salary Stabilization Regional Offices. The head of the regional office having jurisdiction of any application is authorized to approve or disapprove it for the Commissioner, wholly or in part, and his decision is deemed to be that of the Commissioner unless and until modified or reversed as provided in the Commissioner's regulations. (For a list of such regional offices, see § 809.992.)

§ 809.954–3 *Delegation to War Department Wage Administration Agency.* The Wage Administration Section, Industrial Personnel Division, Headquarters, Army Service Forces (referred to as the War Department Wage Administration Agency when acting under the authority hereinafter mentioned) acting on behalf of the Secretary of War, has been authorized, subject to certain conditions, to rule upon all applications for salary adjustments (insofar as approval thereof has been made a function of the Commissioner) covering civilian employees within the continental limits of the United States and Alaska employed by (a) the War Department, (b) the Army Exchange Service, and (c) certain Government owned, privately operated facilities of the War Department named in lists furnished from time to time to the Commissioner by the War Department Wage Administration Agency. The chiefs of the technical services are responsible, respectively, for (1) furnishing the War Department Wage Administration Agency with the names of facilities which, in their opinion, should be placed upon such lists and (2) advising the officers of their services concerned of the names of facilities which have been placed on such lists. The Commissioner's delegation to the War Department Wage Administration Agency is set forth in full at § 809.993–3.

§ 809.954–4 *When specific approval of the Commissioner is not required.* Reference is made to the regulations of the Commissioner for a definition of certain exceptions to the requirements of the stabilization program and of certain increases in salaries subject to his jurisdiction which may be made without other or specific approval.

§ 809.954–5 *Where applications for approval of salary increases and decreases and salary rate schedules and rulings respecting exemptions within the jurisdiction of the Commissioner shall be filed.* Generally such an application shall be filed with the Salary Stabilization Regional Office in whose territorial jurisdiction the main office or principal place of business of the employer is located. (For a list of such offices see § 809.992.) Such application shall be filed on forms prescribed by the Commissioner and shall contain such information as he may require. If, however, the Commissioner has delegated to any other officer or agency (e. g. the War Department Wage Administration Agency, see § 809.954–3) his authority to approve or disapprove adjustments in salaries, then applications respecting such adjustments shall be made to the officer or agency to whom such authority has been delegated, in the form and manner prescribed by such officer or agency.

§ 809.956 *Jurisdiction of the War Food Administrator with respect to the stabilization program.* The War Food Administrator, subject to certain limitations, is authorized to determine whether any salary or wage payments to agricultural labor are made in contravention of the act or any rulings, orders or regulations promulgated thereunder. The authority of the War Food Administrator does not extend to any person whose salary payments, exclusive of bonuses and additional compensation and without regard to the contemplated adjustment, are at a rate, computed on an annual basis, which exceeds $5,000 per annum.

§ 809.957 *Jurisdiction of the National Railway Labor Panel with respect to the stabilization program.* Special procedures with respect to wage and salary adjustments for employees subject to the Railway Labor Act are established by Executive Order No. 9299.

§ 809.958 *When approval of Economic Stabilization Director required.* All wage or salary adjustments which may furnish the basis either to increase price ceilings or to resist otherwise justifiable reductions in price ceilings or which may increase production costs above the level prevailing in comparable plants or establishments, require the ultimate approval of the Economic Stabilization Director.

§ 809.959 *Territorial application.* The Board, the Commissioner and the Administrator have been authorized, under certain circumstances, to exempt from the operation of the stabilization program wages or salaries paid in any territory or possession of the United States. Pursuant to this authority, the Commissioner and the Board have provided that stabilization control shall not apply to salaries and wages under their jurisdiction, respectively, in any territory or possession of the United States, except Alaska and Hawaii.

§ 809.960 *Criminal penalties.* Section 11 of the act privides as follows:

> Any individual, corporation, partnership or association wilfully violating any provision of this Act, or of any regulation promulgated thereunder, shall, upon conviction thereof, be subject to a fine of not more than $1,000 or to imprisonment for not more than one year, or to both such fine and imprisonment.

§ 809.961 *Effect of unlawful payments (determination of costs under Government contracts and other aspects of violations).* Upon determining that a wage or salary payment has been made by an employer in contravention of the act or the regulations, rulings or orders promulgated thereunder (see § 809.962 (e)), the Board, the Commissioner or the Administrator, as the case may be, pursuant to § 4001.15 of the regulations of the Director, may certify to the Departments and agencies of the government an amount to be disregarded as hereinafter set forth. In case of such certification to the War Department, the amount so certified will be disregarded by the appropriate agency of the War Department in determining costs or expenses of such employer for such of the following purposes as may be pertinent:

(a) For the purpose of any law or regulation, including the Emergency Price Control Act of 1942, or any maximum price regulation thereunder;

(b) For the purpose of calculating deductions under the revenue laws of the United States; and

(c) For the purpose of determining costs or expenses under any Government contract.

§ 809.962 *Responsibility of War Department personnel with respect to violations as defined by Joint Statement of the Board and the Commissioner.* (a) Agencies of the War Department are not required to conduct audits, investigations, or payroll reviews merely for the purpose of ascertaining whether or not contractors have complied with Executive Order 9250 (i. e. the President's Wage Stabilization Order) or the regulations promulgated thereunder. The technical services are neither required nor authorized to determine that a prime contractor has violated the Executive Order or the Regulations thereunder (see, however, Renegotiation Regulations par. 382.3 (§ 1603.382–3 of Title 32) and the Army Renegotiation Manual par. 382.4.

(b) When, however, probable noncompliance by a prime contractor with Executive Order 9250 or the regulations thereunder is discovered by or brought to the attention of a technical service, such service should:

(1) Advise each such contractor of the particulars in which probable non-compliance appears and request that he consult the Regional War Labor Board or Salary Stabilization Regional Office which has jurisdiction over approval of wage rates in the case. (See §§ 809.990 and 809.992 for lists of regional offices.)

(2) Report such apparent violation to the Regional War Labor Board or Salary Stabilization Regional Office which has jurisdiction over approval of wage rates in the case. Any such reports should include the following information:

(i) Name and address of contractor.

(ii) Date, number and place of performance of the contract.

(iii) Résumé of facts constituting apparent violation including approved wage rates, by whom approved, wages actually paid, names or classifications of persons paid, dates of apparent improper payments, and name of party making payments if other than contractor.

(c) The technical services have the responsibility of establishing within their services appropriate procedures for the reporting of apparent violations to the proper Government agency. Such procedures should be devised to restrict contacts with such agency solely to the transmittal of a report containing the information listed in paragraph (b) of this section.

(d) No report should be supplemented by appearances or participation in hearings or other proceedings of the agency having jurisdiction in the matter except in accordance with § 809.963.

(e) Determinations of violations will be made in all cases by the National War Labor Board or the Commissioner of Internal Revenue. If the appropriate Government agency finds that a violation of Executive Order 9250 or the regulations thereunder has occurred, the Industrial Personnel Division, Headquarters, Army Service Forces, will be advised, and will issue specific instructions to the interested technical service.

(f) All responsibilities which the technical services had prior to issuance of Executive Order 9250 or of this subpart with respect to reimbursement of contractors in accordance with other laws and regulations are in no way affected by this subpart.

§ 809.963 *War Department relations with the National War Labor Board.* (a) For the purpose of coordinating War Department policy and action, the Industrial personnel Division, Headquarters, Army Service Forces will process all cases coming before the National War Labor Board in which the War Department has an interest. No other War Department representative or agency will make any statements of fact or recommendation, formally or informally, to the National War Labor Board or to any of its personnel respecting the merits of any case pending before that Board.

(b) No War Department representative or agency will make any statement of fact or recommendations to any regional war labor board or regional or area war labor panel or to any of their personnel respecting the merits of any cases pending before such board or panel except that in pending wage cases affecting War Department procurement, War Department representatives, through appropriate service command channels or as may otherwise be authorized, may request that such cases be expedited and may make statements of fact relating solely to the following issues:

(1) The importance of the product or service affected to the War Department procurement program,

(2) Where requested, the probable cost to the War Department resulting from any contemplated wage adjustment, and

(3) Whether production is on schedule, and if not, the extent to which manpower shortages, high turnover, or excessive absenteeism are a contributing factor.

(c) Certain "rare and unusual cases" specially involving "the critical needs of war production" have been excepted from the establishe l wage stabilization criteria when these needs are threatened by a manpower problem, the only solution to which entails the approval of wage rates or wage adjustments which will not be permissible under those criteria (see § 809.951–2 (a) (1) (iii)). Special procedures have been designed for the processing of these "rare and unusual" cases and adopted by the National War Labor Board, the War Production Board, the War Manpower Commission, the War Department, and other procurement or interested Government agencies. The Industrial Personnel Division, Headquarters, Army Service Forces, has been designated as the sole War Department agency with authority to certify and process such cases in which the War Department has an interest.

(d) (1) In the event that any War Department representative or agency believes that a case pending before the National War Labor Board or before an area or regional war labor board or panel should be considered within the "rare and unusual" exception, such representative or agency will advise the Industrial Personnel Division, Headquarters, Army Service Forces, and will forward to that Division, through appropriate channels, a report containing the factual foundation for its opinion. This report should include information respecting:

(i) The present wage rates, the wage adjustment being requested, and a complete statement of the nature of the request pending before the Board.

(ii) The relative importance of the product or service in the total procurement program;

(iii) The relative importance of the particular facility and the existence and location of alternative facilities, if any;

(iv) The relation of present deliveries to production schedules;

(v) The extent to which labor supply is the limiting factor in production;

(vi) The extent to which the wage schedule is responsible for labor supply problems in this facility; and

(vii) Any other pertinent information.

(2) In no event will any representative or agency of the War Department, other than the Industrial Personnel Division, Headquarters, Army Service Forces, state or recommend to the National War Labor Board that a case should be regarded as "rare and unusual."

(e) Nothing in this section shall be construed to affect the relationship between the War Department Wage Administration Agency and the Board arising out of General Orders Nos. 14 and 37 of the Board (see § 809.952–3 (d)).

SUBPART I—FORTY-EIGHT HOUR WORKWEEK

§ 809.968 *Executive Order No. 9301.* The following is the full text of Executive Order No. 9301 issued under date of February 9, 1943 (8 F.R. 1825):

EXECUTIVE ORDER 9301

ESTABLISHING A MINIMUM WAR-TIME WORK WEEK OF FORTY-EIGHT HOURS

By virtue of the authority vested in me by the Constitution and statutes, as President of the United States, and in order to meet the man-power requirements of our armed forces and our expanding war-production program by a fuller utilization of our available man power, it is hereby ordered:

1. For the duration of the war, no plant, factory or other place of employment shall be deemed to be making the most effective utilization of its man power if the minimum work week therein is less than forty-eight hours per week.

2. All departments and agencies of the Federal government shall require their contractors to comply with the minimum work week prescribed in this order and with policies, directives and regulations prescribed hereunder, and shall promptly take such action as may be necessary for that purpose.

3. The chairman of the War Manpower Commission shall determine all questions of interpretation and application arising under this order and shall formulate and issue such policies, directives and regulations as he determines to be necessary to carry out this order and to effectuate its purposes. The chairman of the War Manpower Commission is authorized to establish a minimum work week greater or less than that established in Section 1 of this order or take other action with respect to any case or type of case in which he determines that such different minimum work week or other action would more effectively contribute to the war effort and promote the purposes of this order.

4. All departments and agencies of the Federal government shall comply with such policies, directives and regulations as the chairman of the War Manpower Commission shall prescribe pursuant to this order, and shall so utilize their facilities, services and personnel and take such action under authority vested in them by law as the chairman determines to be necessary to effectuate the purposes of this order and promote compliance with its provisions.

5. Nothing in this order shall be construed as superseding or in conflict with any Federal, state or local law limiting hours of work or with the provisions of any individual or collective bargaining agreement with respect to rates of pay for hours worked in excess of the agreed or customary work week, nor shall this order be construed as suspending or modifying any provision of the fair labor standards act (act of June 25, 1938; 52 Stat. 1060; 29 U.S.C. 201 et seq.) or any other Federal, state or local law relating to the payment of wages or overtime.

FRANKLIN D ROOSEVELT

THE WHITE HOUSE,
Feb. 9, 1943.

§ 809.969 *Regulations of War Manpower Commission.* The following is the text of the regulations issued by the

War Manpower Commission to implement the 48-hour work week.

By virtue of authority vested in me as Chairman of the War Manpower Commission by Executive Order No. 9301 establishing a Minimum Wartime Workweek of 48 hours, and by Executive Orders Nos. 9139 and 9279, I hereby prescribe the following regulations:

§ 903.1 *General policy for interpretation and application of Executive order.* Executive Order No. 9301 shall be so construed and applied as best to effectuate its fundamental purpose, which is to aid in meeting the manpower requirements of our armed forces and our expanding war production program by a fuller utilization of our available manpower. Effectuation of this purpose requires that in situations of labor shortage employers do not hire new workers when their manpower needs can effectively be met by a fuller utilization of their current labor force, and that workers who can be released by an extension of the workweek are released under circumstances which will permit and facilitate their effective utilization elsewhere in the war effort.

§ 903.2 *Application to areas and activities.* The Chairman of the War Manpower Commission will from time to time by order designate areas and activities as subject to the provisions of Executive Order No. 9301. Regional Manpower Directors may designate additional areas and activities within their respective regions as subject to the provisions of Executive Order No. 9301, if they find and by appropriate public notice so declare, that such action will aid in alleviating labor shortages which are impeding the war effort. Unless and until an area or activity has been so designated, employers therein will not be required to extend their workweek.

§ 903.3 *Delegation of authority.* Regional and Area Manpower Directors are authorized and directed to determine all questions arising within their respective regions and areas with respect to the interpretation and application of these regulations, in conformity with such procedures and instructions as the Executive Director of the War Manpower Commission may issue in implementation thereof.

§ 903.4 *Minimum wartime workweek.* "Minimum wartime workweek" as used in these regulations means a workweek of 48 hours, except in cases where a workweek of 48 hours (a) would be impracticable in view of the nature of the operations, (b) would not contribute to the reduction of labor requirements, or (c) would conflict with any Federal, State or local law or regulation limiting hours of work. In such cases "minimum wartime workweek" means the greatest number of hours (less than 48) feasible in the light of the nature of the operations, the reduction of labor requirements or the applicable Federal, State and local law or regulation, as the case may be.

§ 903.5 *Extension of workweek in designated areas and activities.* If the workweek applicable to any worker employed in any plant, factory or other place of employment in an area or an activity designated as subject to the provisions of Executive Order No. 9301, is less than the minimum wartime workweek, such workweek shall be extended to the minimum wartime workweek as follows:

(a) Whenever extension of such workweek to the minimum wartime workweek would not involve the release of any workers, the affected employer shall proceed promptly to extend the workweek to the minimum wartime workweek.

(b) Whenever the Regional or Area Manpower Director or a designated representative of either determines that extension of such workweek to the minimum wartime workweek would involve the release only of workers who can be promptly placed in suitable employment with other employers, the affected employer will be notified of such determination and thereupon shall proceed promptly to extend the workweek to the minimum wartime workweek.

(c) If extension of such workweek to the minimum wartime workweek would involve the release of some workers and the Regional or Area Manpower Director or designated representative has not determined and notified the employer that such workers can promptly be placed in suitable employment with other employers, the workweek shall not be extended except as authorized below. On or before April 1, 1943, the affected employer shall submit to the Regional or Area Manpower Director or the designated representative of either Director a statement as to the number of workers whose release would be involved and their occupational classification, together with a proposed schedule for the timing of such releases. The Regional or Area Manpower Director or designated representative will authorize a schedule for the extension of the workweek to the minimum wartime workweek and for the release of workers in terms of labor market needs and the employer shall thereupon proceed to extend the workweek in accordance with such schedule.

§ 903.6 *Restriction upon hiring of workers.* No employer shall hire any worker in an area or activity designated as subject to the provisions of Executive Order No. 9301, if the employer has failed in any manner to comply with the provisions of § 903.5 of these regulations in the plant, factory or other place of employment in which the worker would be employed.

§ 903.7 *Exclusions.* No provision of these regulations shall be construed or applied so as to require the extension of a workweek:

(a) In any establishment or other place of employment in which less than eight workers are regularly employed;

(b) In any establishment or place of employment principally engaged in agriculture;

(c) Of persons in the employ of any State or any political subdivision thereof, or any instrumentality of any one or more of the foregoing;

(d) Of youth under the age of sixteen years; or

(e) Of individuals who on account of other employment, household responsibilities, or physical limitations, are not available for full time work.

§ 903.8 *Definitions.* As used in these regulations:

(a) "Workweek" means the number of hours within a period of seven successive days, beginning with the same calendar day each week, during which workers are normally required to be on duty.

(b) "Agriculture" means those farm activities carried on by farm owners or tenants on farms in connection with the cultivation of the soil, the harvesting of crops, or the raising, feeding, or management of livestock, bees, and poultry, and shall not include any packing, canning, processing, transportation or marketing of articles produced on farms unless performed or carried on as an incident to ordinary farming operations as distinguished from manufacturing or commercial operations.

§ 809.970 *Designation of areas subject to E.O. 9301.* By authority vested in the Chairman of the War Manpower Commission by Executive Order No. 9301, establishing a minimum wartime workweek of 48 hours and in accordance with the provisions of § 903.2 of the regulations prescribed by the Chairman of the War Manpower Commission, said Chairman may designate the areas subject to the provisions of Executive Order No. 9301. A current list of the areas so designated may be secured from any office of the United States Employment Service or of the War Manpower Commission.

§ 809.971 *Designation of activities subject to E. O. 9301.* (a) The following is the text of General Order No. 6, issued by the War Manpower Commission, designating certain activities as subject to the provisions of Executive Order No. 9301.

By virtue of the authority vested in me as Chairman of the War Manpower Commission, by Executive Order No. 9301, establishing a minimum wartime workweek of 48 hours, and in accordance with the provisions of § 903.2 of the regulations prescribed by me on February 22, 1943, I hereby designate the following activities as subject to the provisions of Executive Order No. 9301:

1. The mining (including the development of ore properties) dressing, and beneficiating (milling) of the following non-ferrous metals and their ores: Aluminum, antimony, arsenic, beryllium, chrome, cobalt, columbium, copper, lead, magnesium, manganese, mercury, molybdenum, silver, tantalum, tin, titanium, tungsten, uranium, vanadium, zinc, zirconium, and all other non-ferrous metals and their ores.

2. (a) All logging operations.

(b) All operations of all sawmills, planing mills, veneer mills, plywood mills, cooperage-stock mills, cooperage establishments, shingle mills, wooden box factories and wood pulp mills.

(b) A current list of the activities subject to the provisions of Executive Order No. 9301 can be obtained from any office of the United States Employment Service or of the War Manpower Commission.

§ 809.972 *Statement re adoption of forty-eight hour week.* Under date of March 11, 1943, the National War Labor Board defined the extent of its jurisdiction in the matter of overtime pay in the light of Executive Order No. 9301, as follows:

In order to answer the many inquiries received as to the effect of Executive Order 9250 on wages and salaries in the light of the Executive Order of February 9, establishing the minimum wartime work-week of 48 hours, the National War Labor Board today issued the following statement:

1. *Effect of the order on employer's obligation to pay over-time.* Any employer who adopts a 48 hour week in compliance with Executive Order 9301 of February 9, 1943 and the regulations of the War Manpower Commission issued thereunder is under the same obligation with respect to over-time pay as if he had adopted a 48 hour week before the order was issued. That is, his obligations to pay or not to pay over-time rates is in no way affected by the order.

This interpretation is based on the following provision of section 5 of the order:

Nothing in this order shall be construed as superseding or in conflict with * * * the provisions of any individual or collective bargaining agreement with respect to rates of pay for hours worked in excess of the agreed or customary work-week, nor shall this order be construed as suspending or modifying any provision of the Fair Labor Standards Act or any other Federal, State or local law relating to the payment of wages or over-time.

2. *Necessity to secure War Labor Board approval for the payment of over-time.* Approval of the War Labor Board is not required for payment of overtime rates to wage and

salary employees for hours worked in excess of 40 made in accordance with the provisions of the Fair Labor Standards Act or any other similar Federal, State or local law or by the provisions of a collective bargaining agreement or by the employer's past custom and practice.

If none of these applies, then payment for the hours worked in excess of 40 at other than straight time rates would be a wage increase and would therefore require approval by the War Labor Board.

3. *Salaried employees.* Salaried employees within the jurisdiction of the War Labor Board, whose overtime pay is not covered by the Fair Labor Standards Act or any other similar Federal, State or local law, or by a collective bargaining agreement or their employer's past practice, may not, without the prior approval of the War Labor Board, be paid at more than straight time rates proportionate to the additional hours worked

4. Application for approval of the increases referred to above may, of course, be made, in accordance with the National War Labor Board's regular procedure, at any local office of the Wage and Hour Division of the U. S. Department of Labor (see § 809.952–6).

§ 809.973 *Interpretation of regulations.* Generally, the order and the regulations prescribe a 48-hour workweek in the areas and activities designated in general orders. However, the regulations provide for several exceptions. Whether the orders and regulations issued under the Executive order in question will affect particular concerns and what their effect will be are questions that must be determined in every case by the War Manpower Commission or its regional or local representatives. Neither contracting officers nor labor officers are authorized to interpret or construe the Executive order or the regulations. Therefore, all contractors and subcontractors presenting questions concerning the interpretation or application in particular cases of the orders and regulations will be referred to the War Manpower Commission officials in the appropriate area.

§ 809.974 *Enforcement procedure.* Until the War Manpower Commission has advised the War Department that a particular contractor is failing to comply with the order and the regulations, no action will be taken by any representative of the technical service, either to withhold contracts from such contractor or to require compliance with the order and the regulations by any such contractor. In cases where the War Manpower Commission has found that a particular War Department contractor is not complying with said order and regulations and has so advised the War Department, the chief of the technical service will be notified immediately by the Director, Industrial Personnel Division, Headquarters, Army Service Forces, and it will be the duty of the chief of the technical service or his designated representative promptly to request such contractor to comply with said order and regulations. Whenever any such contractor shall thereafter fail or refuse to comply therewith, report thereof will be made immediately by the chief of the technical service involved to the Director, Industrial Personnel Division.

§ 809.975 *Adjustments to cover increased cost of compliance.* The War Department policy in regard to adjustment for the increased cost of performance occasioned by compliance with said order and regulations is set out in the following Joint Statement of the War and Navy Departments, dated April 1, 1943:

(a) Executive Order No. 9301 and the regulations promulgated thereunder by the War Manpower Commission require all employers in certain areas and all employers in certain industries to adopt the minimum wartime workweek as defined by said regulations. The Executive order directs all procurement agencies of the Government to require their contractors to comply with the order and with the regulations.

(b) While many Government contractors and subcontractors may not be affected, the War Department and Navy Department recognize that some contractors and subcontractors will be obliged to extend the workweek of their employees and will be required to pay premium rates for the additional hours involved, with the result that their labor costs will be increased. The Departments also recognize that such compliance may result in hardship to some contractors who have cooperated with the Departments in efforts to secure prices as close to cost plus a fair profit as is possible under war conditions, and that such hardship may result in the impairment of the ability of many contractors, particularly small contractors, to continue effectively to produce war goods.

(c) Accordingly, the following policy has been adopted by the War Department and Navy Department:

(1) Where, during the course of performance of a lump sum contract or subcontract, a contractor or subcontractor has been required to increase the workweek of employees in order to comply with Executive Order No. 9301 and the regulations of the War Manpower Commission promulgated thereunder; and where, because of premium overtime rates required by Federal law or Executive order, such compliance has resulted in an increase in the cost of performance of such contract or subcontract, over and above cost of performance had such increase in the workweek not been so required; and where such increase in the cost of performance would cause hardship to such contractor or subcontractor, the War Department and Navy Department will give consideration in appropriate cases to granting relief from such hardship.

(2) Generally speaking, it will be regarded that hardship exists only in cases where the increase in the cost of performance of a War Department or Navy Department contract resulting from compliance with the order and the regulations operates to deprive the contractor of a fair profit on the contract.

(3) Where contracts under which such increases are sought relate to commodities, supplies or articles which are subject to OPA ceiling prices, any adjustment to be made must be within such ceiling prices or subject to approval in particular cases by the Office of Price Administration.

(4) Requests by subcontractors for such relief must in all cases be presented through prime contractors and adjustments, made for the benefit of subcontractors, shall be made only through prime contractors.

§ 809.975–1 *Time limit for filing requests for adjustment.* No requests for adjustments of the type above described will be considered unless they are presented to the contracting officer prior to the time the contracting officer has administratively determined the final amount due under the contract under which the request is presented by communicating his determination to the contractor or by the approval of the final voucher therefor.

§ 809.975–2 *Procedure for adjustment.* Requests for adjustment must be presented to the contracting officer of the technical service involved. Such adjustments as are made in the amount of the contract price with prime contractors will be made by supplemental agreement between the technical service and the prime contractor. No adjustment will be made by direct contract with subcontractors. The latter should make request for adjustments through their prime contractors and the amounts of such adjustments as are appropriate, made for the benefit of such subcontractors, will be included in supplemental agreements with the prime contractors.

§ 809.975–3 *Nature of showing required for adjustment.* No adjustment will be made without a proper showing which must include the following:

(a) That the contractor or subcontractor was required, by the Executive order in question as interpreted and applied to his case by the War Manpower Commission regulations, to increase the workweek of some or all of his employees.

(b) The amount of the increased labor costs incurred because of premium overtime rates involved in compliance with the minimum wartime workweek.

(c) The amount of savings, through reduced overhead costs or otherwise, resulting from the adoption of the longer workweek.

(d) The total contract price of War Department contracts or subcontracts on which an adjustment is sought; the estimated amount of net earnings before taxes that would have accrued thereon had not the increased labor costs been incurred.

§ 809.975–4 *Authority to execute supplemental agreements.* Whenever the chief of the technical service, or such person within the technical service to whom the authority so to act has been delegated by the chief of the technical service, shall find in the light of the showing made by the contractor and verified to the extent feasible within the technical service:

(a) That the increase in the cost of performance of a War Department contract or subcontract, resulting from compliance with Executive Order No. 9301 and the regulations promulgated thereunder, operates to deprive the contractor or subcontractor of a fair profit on the contract, or subcontract, and

(b) That it is appropriate, in the light of all the facts known to him, or reason-

ably ascertainable by him, bearing upon the earnings of the contractor or subcontractor from its war business, to grant relief;

he is authorized to enter into supplemental agreement pursuant to the First War Powers Act and Executive Order No. 9001 awarding the contractor an additional amount, not in excess of the diminution of the amount of a fair profit on such contract or subcontract, caused by such compliance.

SUBPART J—STATE LABOR LEGISLATION

§ 809.977 *War Department policy respecting State labor legislation.* It is the policy of the War Department to require its contractors to comply with all applicable State labor statutes, and the rules and regulations promulgated thereunder. This requirement applies even where a contractor, by reason of operating a government-owned facility located on territory owned by the United States, might otherwise be exempt.

§ 809.978 *Requests for relaxation of State labor legislation.* In all cases in which manufacturers engaged in war production deem necessary to the achievement of full war production the relaxation of State labor statutes or administrative orders which are restricting or are allegedly restricting war production, the following procedure will be observed:

§ 809.978–1 *Procedure for requests.* (a) The interested contractor will submit the initial request for such relaxation to the State Labor Commissioner or other State officials charged with the enforcement of labor legislation in the State or region where the plant of the manufacturer involved is located.

(b) In the event that the contractor's request for relaxation is denied, the technical service concerned may assist the contractor by supporting the request for relaxation by direct representation to the appropriate State official.

(c) The labor branches of the service commands may be called upon to render staff assistance relative to the foregoing.

(d) If the desired relaxation has not been obtained after exhausting the above procedure, and the appropriate War Department agency continues to urge its necessity, the matter may be referred through channels to the Director, Industrial Personnel Division, Headquarters, Army Service Forces, Attention; Chief, Labor Branch. Such referrals should contain the following information:

(1) Provision or provisions of law the relaxation of which is required.

(2) Extent of relaxation required.

(3) Criticalness or relative scarcity of the material.

(4) Circumstances necessitating the relaxation (such as, for example, a shortage in the local supply of skilled labor).

(5) Remedial action being taken by the manufacturer (such as, for example, training and upgrading).

(6) Efforts previously made to obtain the relaxation.

§ 809.978–2 *Refusal of requests.* Requests for assistance in obtaining a relaxation will be refused in cases in which:

(a) The contractor has not already requested the proper State authorities for such relaxation.

(b) Such relaxation is clearly unnecessary to maintain full production.

(c) The granting thereof would result in a clearly excessive increase in hours of work, in an unreasonable curtailment of rest and lunch periods, or in an undesirable impairment of working conditions.

SUBPART K—EMPLOYMENT OF ALIENS

§ 809.980 *Joint statement.* Under date of June 7, 1943, the Secretary of War, the Attorney General, the Secretary of the Navy and the Chairman of the Maritime Commission issued a joint statement on the employment of aliens. This statement reads as follows:

I. INTRODUCTORY STATEMENT

1. The protection of the war effort against espionage, sabotage, and subversive activities is paramount to all other considerations. The Departments of War, Justice and Navy, and the maritime Commission, recognize clearly the importance of meeting to the fullest possible extent the expanding military and industrial demands for manpower. The governmental agencies herein named are, therefore, making this joint statement with respect to the national policy to the end that the available manpower may be utilized by contractors and sub-contractors to the maximum degree consistent with the paramount importance of internal security.

2. The granting of full employment opportunities to all loyal and qualified workers irrespective of national origin or citizenship is urged upon and expected of all contractors and sub-contractors of the government agencies herein named. The applicable national policy was clearly stated by the President in his statement of July 11, 1942, in which he said:

Persons should not hereafter be refused employment, or persons at present employed discharged, solely on the basis of the fact that they are aliens or that they were formerly nationals of any particular foreign country. A general condemnation of any group or class of persons is unfair and dangerous to the war effort. The Federal Government is taking the necessary steps to guard against, and punish, any subversive acts by disloyal persons, citizens as well as aliens.

3. The policy and procedure herein outlined apply to the employment of aliens by Government contractors and subcontractors within the continental United States. Special regulations apply to the employment of aliens on shipboard and in territories outside of the continental United States.

II. PERMISSION TO EMPLOY AN ALIEN IS REQUIRED IN ONLY TWO CLASSES OF CASES

4. Contractors and subcontractors are required to obtain the written consent of the head of the Government department concerned, before employing aliens under the following conditions only:

(a) *Aeronautical contracts.* Written consent is required before an alien employee may be permitted to have access to the plans or specifications or the work under construction or to participate in the contract trials under contracts involving aircraft, aircraft parts, or aeronautical accessories for the United States.

(b) *Classified contracts.* Written consent is required before aliens employed by a contractor in the performance of secret, confidential, or restricted Government contracts shall be permitted to have access to the plans or specifications, or the work under such contracts, or to participate in the contract trials.

5. War and Navy Department and Maritime Commission contractors and subcontractors may employ aliens as freely as American citizens except under the specific conditions specified in paragraph 4, (a) and (b), above.

III. APPLICATION OF ANTIDISCRIMINATION CLAUSE

6. Pursuant to Executive Order No. 8802, dated June 25, 1941, an antidiscrimination clause (sometimes called "nondiscrimination" clause) has been included in all War and Navy Department and Maritime Commission contracts entered into since June 25, 1941. This clause requires the granting of full employment opportunities to all loyal and qualified workers regardless of race, creed, color, or national origin. This clause is intended to apply equally to citizens and noncitizens. For contractors or subcontractors of the War and Navy Departments, or of the Maritime Commission to require American citizenship as an essential condition for employment is considered a breach of the clause in the contract and is contrary to the national policy as expressed in the Executive order.

7. Even on aeronautical and classified contracts, if a qualified applicant whose services the contractor needs is an alien whose loyalty to the United States the contractor has no reason to doubt, the contractor is obligated to cooperate with the applicant in applying for consent to his employment. Failure to request consent for the employment of, or to employ such an alien upon securing consent, if except for his alien status he would have been employed, constitutes a breach of the anti-discrimination clause of the contract and is contrary to national policy as expressed in the Executive order. If a contractor refuses employment to a qualified and authorized alien worker, he should be prepared to present specific and sufficient reasons to avoid a charge of discrimination.

8. In no case, except those in which an individual alien is denied employment by the specific action of the War or Navy Departments or the Maritime Commission, is a contractor justified in informing an applicant that he is being refused employment because of Government regulations. The same considerations apply to removal from employment.

IV. PROCEDURE FOR REQUESTING CONSENT TO EMPLOY ALIENS FOR WORK ON AERONAUTICAL OR CLASSIFIED CONTRACTS

9. In order to obtain consent of the Head of the Government Department concerned, for the employment of an alien on an aeronautical or classified contract, the alien and the contractor are required to fill out their respective parts of an Alien Questionnaire form. The procedure in this connection is as follows:

(a) The alien may go to the nearest office of the United States Employment Service, which will furnish him with the application form and will assist him in filling out his portion of the Questionnaire. However, if the contractor has forms and office facilities conveniently available, the alien may go directly to the contractor's plant and may there fill out his portion of the Questionnaire. The Plant Security Officer is instructed to furnish to contractors the Alien Questionnaire forms. However, the form may also be secured from the local office of the United States Employment Service.

(b) When the alien's portion of the Questionnaire has been completed, the form will then be submitted to the employer who will fill out his portion of the Questionnaire. Insofar as possible, statements made by the contractor or reported by him, regarding the loyalty of the alien, should be factual rather than simply expressions of opinion.

(c) When the contractor has completed the Alien Questionnaire, (seven copies), he

will retain one copy and will deliver the others to the plant security officer. This officer will retain one copy and will forward the others to the authorized representative of the head of the department concerned.

(d) This representative, after full investigation of the loyalty of the alien applicant, makes his recommendation, pursuant to which the Secretary of War, the Secretary of the Navy, or the Chairman of the Maritime Commission grant or deny consent to employ the alien. Notice of such action is sent directly to the contractor. In the normal case, the employer should receive a decision on his request within less than two weeks from the date the application is filed with the plant security officer.

V. SIGNIFICANCE OF, AND APPEALS FROM DENIAL OF CONSENT

10. The denial of consent does not necessarily indicate a decision that the alien concerned has disloyal tendencies, but may merely mean that his loyalty to the United States has not yet been positively proved.

11. If consent is denied, the contractor should promptly so inform the alien applicant, and at the same time advise him as to possible reconsideration.

12. Reconsideration of a denial of consent may be requested by either the alien or the contractor and additional evidence of loyalty and letters of recommendation, may be sent direct to the Office of the Provost Marshal General.

13. Aliens whose applications for employment on aeronautical or classified contracts have been denied by the Secretary of War, the Secretary of the Navy, or the Chairman of the Maritime Commission, should be directed to the United States Employment Service for referral to other work.

VI. NO PENALTIES APPLY IF CONSENT IS OBTAINED BEFORE EMPLOYING ALIENS ON AERONAUTICAL AND CLASSIFIED CONTRACTS

14. Some contractors and sub-contractors have hesitated to employ aliens because of a lack of clear understanding of the statutory restrictions, and concern as to the penalty for violation thereof. It is repeated and emphasized that the only restrictions are those set forth in paragraph 4 above, and that an employer is not subject to any penalty if, in good faith, he obtains the written consent of the head of the Government department concerned before an alien is permitted to have access to the work, plans, or trials under aeronautical or classified contracts.

VII. RESPONSIBILITIES FOR PLANT SECURITY

15. The contractor is responsible for the protection of the plant against all persons who might endanger its security, regardless of their citizenship. Contractors will comply with detailed regulations concerning plant security issued from time to time by the War and Navy Departments and the Maritime Commission, including:

(a) complying with the provisions of their contracts respecting the safeguarding of all plans and specifications and all work under these contracts; (b) in any case and at any time where there is a definite indication that an employee is subversive or engaged in subversive activities, no investigation will be conducted by the employer, but the facts will be furnished to the Federal Bureau of Investigation for appropriate consideration. (Employees have the same duty of reporting in this regard as have employers.)

VIII. PRIOR STATEMENTS AND CONTRACT PROVISIONS

16. This joint statement is applicable with equal force to the employment of aliens under all existing contracts. If any clause of any existing contract prescribes greater restrictions on the employment of aliens than are hereby required or permitted, the Government will waive compliance with such clause, to the extent that it conflicts with this Statement.

17. All previous statements of the Department of War, Navy, Justice and the Maritime Commission with respect to the policy and procedure in connection with the employment of aliens, are hereby superseded insofar as they may be inconsistent with any statements contained herein.

HENRY L. STIMSON,
Secretary of War.

FRANCIS BIDDLE,
Attorney General.

FRANK KNOX,
Secretary of the Navy.

E. S. LAND,
Chairman, U. S. Maritime Commission.

§ 809.980–1 *Form of contract provision.* For the form of provision relating to employment of aliens required by regulation to be included in all top secret, secret, confidential or restricted contracts, see § 803.337.

§ 809.981 *Anti-discrimination contract clause.* The anti-discrimination clause (see § 803.325) required in contracts under the provisions of Executive Order No. 9346 issued under date of May 27, 1943 (see Subpart L of this part) prohibits discrimination against any employee or applicant for employment because of "national origin". This is construed as prohibiting discrimination based on non-citizenship as well as discrimination based on country of origin.

§ 809.982 *Procedure.* It is to be noted that under Article IV of the Joint Statement set forth in § 809.980 it is contemplated that the Alien Questionnaire, when completed, will be delivered to the plant security officer. If, at a given plant, there is no plant security officer, the questionnaire should be delivered to the Director of Internal Security at the Headquarters of the service command within the limits of which the plant is located.

SUBPART L—FAIR EMPLOYMENT PRACTICE

§ 809.984 *Executive Order No. 9346.* (a) Executive Order No. 9346 issued under date of May 27, 1943 (sometimes hereinafter referred to as the order), reaffirmed the policy of the United States "that there shall be no discrimination in the employment of any person in war industries or in Government by reason of race, creed, color, or national origin" and declared it to be "the duty of all employers, including the several Federal departments and agencies, and all labor organizations, in furtherance of this policy and of this order, to eliminate discrimination in regard to hire, tenure, terms or conditions of employment, or union membership because of race, creed, color or national origin." In addition the order provided as follows:

1. All contracting agencies of the Government of the United States shall include in all contracts hereafter negotiated or renegotiated by them a provision obligating the contractor not to discriminate against any employee or applicant for employment because of race, creed, color, or national origin and requiring him to include a similar provision in all subcontracts.

2. All departments and agencies of the Government of the United States concerned with vocational and training programs for war production shall take all measures appropriate to assure that such programs are administered without discrimination because of race, creed, color, or national origin.

(b) The order also established, in the Office for Emergency Management of the Executive Office of the President, a Committee on Fair Employment Practice, and authorized this Committee, among other things, to formulate policies to achieve the purposes of the order, to receive and investigate complaints of discrimination forbidden by its terms and to promulgate such rules and regulations as might be appropriate or necessary, to carry out the provisions of the order.

(c) The "anti discrimination" clause to be included in War Department contracts, in compliance with the order, may be found in § 803.325.

§ 809.985 *Interpretations of Executive Order No. 9346 by the Committee on Fair Employment Practice.* Pursuant to the authority vested in it by Executive Order No. 9346, the Committee on Fair Employment Practice has issued the following interpretations under the order:

(1) The words "all contracts hereafter negotiated or renegotiated" include all contracts made, amended or modified.

(2) A non-discrimination provision is required in leases, grants or easements, right of way, etc., to the same extent that it is required in other contracts.

(3) The obligation to include the non-discrimination clause exists even though the contract involves non-war activity.

(4) The obligation to include the non-discrimination clause exists even though the contract is required to be awarded to the lowest bidder.

(5) The obligation to include the non-discrimination clause exists even though the contract is between a Federal Government Agency and a State agency or subdivision of a state.

(6) The obligation to include the non-discrimination clause does not depend on the amount of money or other consideration involved in the performance of the contract.

(7) The non-discrimination provision required does not refer to, extend to or cover the activities or business of the contractor which are not related to or involved in the performance of the contract entered into.

(8) Inclusion of a non-discrimination provision is not required in contracts the performance of which does not involve the employment of persons.

(9) Inclusion of a non-discrimination provision is not required in contracts with foreign contractors for work to be performed outside the continental or territorial limits of the United States where no recruitment of workers within the said limits of the United States is involved.

(10) The non-discrimination clause is not required in contracts renewed pursuant to an option to renew in accordance with the terms, conditions and provisions contained in the original contract.

(11) The requirement that parties to contracts with the Government of the United States (or agencies of said Government) include a non-discrimination clause "in all subcontracts" is not applicable to lessors of space in buildings except in cases where the Government of the United States (or any agency thereof) is the only tenant involved, or unless a sub-contract is entered into solely for the purpose of performing an obligation (or obligations) imposed by the Government lease.

(12) The requirement that parties to contracts with the Government of the United States (or agencies of said Government) in-

clude a non-discrimination clause "in all sub-contracts" is applicable only in those cases in which the sub-contract is entered into solely for the purpose of enabling the prime contractor to fulfill an obligation (or obligations) imposed by the Government contract.

§ 809.986 *Amendment of contracts and subcontracts not containing anti-discrimination clauses.* (a) The contract clause set forth in § 803.325 is required, under the provisions of Executive Order No. 9346 to be included "in all contracts hereafter negotiated or renegotiated * * *". The inclusion of the word "renegotiated" has been interpreted as imposing the requirements set forth in paragraphs (b) and (c).

(b) Whenever the terms of a contract or contracts are to be modified by the execution of a supplemental agreement, and the contract or contracts to be modified do not contain a clause identical in wording with that set forth in § 803.325, such supplemental agreement will provide that the contract or contracts are modified to include such a clause.

(c) Normally the provisions of paragraph (b) of this section will not be applicable to renegotiation agreements executed pursuant to the Renegotiation Act referred to in Procurement Regulation No. 12 (Part 812). If, however, the renegotiation agreement expressly purports to modify the terms of specified existing contracts with respect to future deliveries, the provisions of paragraph (b) of this section will be applicable. Likewise, if the renegotiation agreement is to be followed by a supplemental agreement or agreements, modifying, with respect to future deliveries, the terms of existing contracts, such supplemental agreement or agreements will provide for the inclusion, in the contracts modified thereby, of the clause set forth in § 803.325.

(d) When a prime contract is amended in accordance with paragraphs (a) and (b) of this section, it is not necessary that the existing subcontracts be correspondingly modified. However, if the subcontracts are subsequently amended for any other reason the anti-discrimination clause contained therein should be amended to conform to the wording of paragraph (a) (1) of the clause set forth in § 803.325.

§ 809.987 *Employment of aliens.* See Subpart K of this part relating to employment of aliens, particularly § 809.981.

SUBPART M—MISCELLANEOUS

§ 809.989 *Division engineers; addresses and territorial jurisdictions.* Following is a list of the addresses of the Division Engineers of the Corps of Engineers with an indication of the service command in which each is located. The territorial jurisdiction of the Division Engineers is coextensive with that of the service commands.

New England Division: 75 Federal Street, Boston 10, Mass. First Service Command.

North Atlantic Division: 21st Floor, 270 Broadway, New York 7, N. Y. Second Service Command.

Middle Atlantic Division: Room 909, 101 E. Fayette Street, Baltimore 2, Md. Third Service Command.

South Atlantic Division: 50 Whitehall Street, P. O. Box 4114, Atlanta 2, Ga. Fourth Service Command.

Ohio River Division: 1120 Huntington Bank Building, Columbus 16, Ohio. Fifth Service Command.

Great Lakes Division: 20 North Wacker Drive, Chicago 6, Ill. Sixth Service Command.

Missouri River Division: Farm Credit Building, 19th and Douglas, Omaha 1, Nebr. Seventh Service Command.

Southwestern Division: Santa Fe Building, 1114 Commerce Street, Dallas 2, Tex. Eighth Service Command.

Pacific Division: 351 California Street, San Francisco, Calif. Ninth Service Command.

§ 809.990 *Regional War Labor Boards; geographical jurisdictions and addresses.*

Region I: Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island. 209 Washington Street, Boston 8, Mass.

Region II: New York, the Northern part of New Jersey (including following counties: Sussex, Passaic, Bergen, Warren, Morris, Essex, Hudson, Union, Middlesex, Somerset, Monmouth, Hunterdon). 220 E. Forty-second Street, New York 17, N. Y.

Region III: Pennsylvania, Maryland, Delaware, District of Columbia, Southern part of New Jersey (including following counties: Mercer, Ocean, Burlington, Atlantic, Camden, Gloucester, Salem, Cumberland, Cape May). Room 428, Stephen Girard Building, 21 So. 12th Street, Philadelphia 7, Pa.

Region IV: Virginia, Tennessee, North Carolina, Mississippi, Alabama, Georgia, South Carolina, Florida. P. O. Box 1322, Atlanta, Ga.

Region V: Ohio, Kentucky, West Virginia. Guardian Building, 629 Euclid Avenue, Cleveland 1, Ohio.

§ 809.993 *Delegations of authority to War Department.*

§ 809.993–1 *General Order No. 14 of the National War Labor Board.* General Order No. 14, adopted by the National War Labor Board on November 24, 1942, as subsequently amended, reads as follows:

AUTHORIZATION TO THE WAR DEPARTMENT TO PASS ON WAGE AND SALARY ADJUSTMENTS FOR DESIGNATED CIVILIAN EMPLOYEES

(A) The National War Labor Board hereby delegates to the Secretary of War, to be exercised on his behalf by the Wage Administration Section within the Industrial Personnel Division, Headquarters, Army Service Forces (hereinafter referred to as the "War Department Agency"), the power to rule upon all applications for wage and salary adjustments (insofar as approval thereof has been made a function of the National War Labor Board) covering civilian employees within the continental limits of the United States, employed by:

(1) The War Department

(2) The Army Exchange Service, and

(3) Government-owned, privately-operated facilities of the War Department,

all in accordance with the further provisions of this order.

(B) There shall be a standing tripartite Appeals Committee, to consist of two representatives of the public, who shall act as co-chairmen, and two representatives each of industry and labor to be appointed by the National War Labor Board. The Committee may have such assistants as the Board may designate. The Board hereby delegates to the Appeals Committee the power to pass upon appeals from rulings by the War Department Agency under category A (3) above, and to perform such other duties as are hereinafter prescribed.

(C) In the performance of their respective duties the War Department Agency and the Appeals Committee shall comply with the terms of Executive Order No. 9250, dated October 3, 1942, Executive Order No. 9328, dated April 8, 1943, the Supplementary Directive of May 12, 1943, and all general orders and policies of the National War Labor Board announced thereunder.

Any wage or salary adjustment approved by the Agency "which may increase production costs above the level prevailing in comparable plants or establishments" shall become effective only if also approved by the Director of Economic Stabilization. Notice to this effect shall be contained in all rulings and orders issued by the War Department Agency in wage cases.

Applications for approval of voluntary wage adjustments within the jurisdiction of the War Department Agency shall state whether or not the adjustment if granted may increase production costs above the level prevailing in comparable plants or establishments. If the answer is in the affirmative, the War Department Agency shall send to the War Labor Board for processing to the Office of the Director of Economic Stabilization a copy of the application and a copy of its ruling at the time of issuance thereof, for approval as mentioned above.

The War Department Agency, without making an initial ruling thereon, may refer to the Board for decision by the Board any case which in the opinion of the Agency presents doubtful or disputed questions of sufficient seriousness and import to warrant direct action by the Board.

(D) The War Department Agency and the Appeals Committee shall transmit to the Wage Stabilization Division of the National War Labor Board copies of their respective rulings and rules of procedure as they are issued. In administering the provisions of this order the Agency shall also transmit monthly reports of its rulings to the Wage Stabilization Director of the National War Labor Board, and such additional data as said Division or the Board may from time to time deem necessary.

(E) Any ruling by the War Department Agency hereunder shall be final, subject

(1) To the National War Labor Board's ultimate power to review rulings on its own initiative, and

(2) In cases under category A (3) above, to the right of any aggrieved party, within a period of fourteen days after the issuance of the ruling, to file an appeal with the Appeals Committee.

(F) Any ruling by the Appeals Committee hereunder shall be final, subject

(1) To the National War Labor Board's ultimate power to review rulings on its own initiative, and

(2) To the right of any aggrieved party, including the War Department within a period of fourteen days after the issuance of the ruling, to petition the National War Labor Board for leave to appeal to the Board. The burden shall be upon the petitioner in such cases to show why the Board should be called upon to act.

(G) Any ruling by the War Department Agency hereunder shall be deemed to be the Act of the National War Labor Board unless and until reversed or modified by the Appeals Committee or by the Board.

(H) The term "government-owned, privately-operated facilities of the War Department" shall include for the purposes of this Order only those facilities (1) in which the War Department has contractual responsibility for the approval of pay roll costs, and (2) which are designated in lists furnished from time to time, to the Board by the War Department Agency. The Board may at any time, upon at least seven days' notice to the War Department Agency, strike from the list any facility if the Board believes that the policies of Executive Order No. 9017, Executive Order No. 9250, Executive Order No. 9328, or the Supplementary Directive of May 12, 1943, will be furthered by the Board's acting directly upon the wage and salary adjustments of such facility.

(I) Where disputes about wages and salaries arise between the private operators of said facilities and their employees, the following procedure shall be followed. The dispute shall first be referred for negotiation to the U. S. Conciliation Service. If an agreement is reached, that portion of the agreement pertaining to wages shall be submitted to the War Department Agency for approval. If no agreement is reached, the dispute shall be referred for decision to the appropriate Regional Board, subject to the regular rules of procedure of the National War Labor Board. At the same time, the War Department Agency shall be notified of the dispute and the nature of the case. On its own initiative the Agency may request the Regional Board for any further information concerning the case. When a decision has been reached by the Regional Board, copies of the Board's decision shall be sent to the War Department Agency and the Wage Stabilization Director of the National War Labor Board at the same time that copies are sent to the parties in the dispute. Within the fourteen day period allowed for filing a petition for review, the War Department Agency may request a review of the case according to the rules of procedure, as amended, of the National War Labor Board.

§ 809.993–2 *General Order No. 37 of the National War Labor Board.* The National War Labor Board hereby supplements General Order No. 36 by delegating to the Secretary of War, or to such agency as he may designate, subject to final review by the National War Labor Board, the authority to establish wage or salary schedules for civilian employees of the War Department in the various government-owned, government-operated installations located in the Territory of Hawaii, in accordance with the provisions of the Act of Congress of October 2, 1942, Executive Order 9250 dated October 3, 1942, Executive Order 9328 dated April 8, 1943, the Supplementary Directive of May 12, 1943 and all other Executive orders and regulations issued thereunder, subject to the following limitations:

(a) The June 6, 1944 level of wage and salary rates prevailing in army installations in the Territory of Hawaii shall be maintained in accordance with the directions subsequently set forth in this order.

(b) Exclusive of the Hawaiian Air Depot, the approval of any wage or salary schedules resulting from job reclassifications shall not cause an overall increase in the job rates as weighted by the number of employees in each job classification in all the establishments to which that schedule is applied, to exceed five percent.

(c) Wage rates to be established through job classifications for the Hawaiian Air Depot shall be in conformity with the schedules for other War Department installations established in the Territory.

(d) The rates for any new job classifications subsequently created in any War Department installation shall bear the proper relationship to the rates for immediately interrelated job classifications in that installation.

NOTE: Pursuant to the authority vested in him by General Order No. 37 of the National War Labor Board, the Secretary of War has designated the War Department Wage Administration Agency as the agency to exercise all powers delegated to him in that order. (See § 809.952–3(d).)

§ 809.993–3 *Delegation from the Commissioner of Internal Revenue.* By letter dated December 24, 1942, the Commissioner of Internal Revenue delegated to the Secretary of War the authority to administer the provisions of Executive Order No. 9250, General Regulations of the Director of Economic Stabilization and the Salary Stabilization Regulations as they relate to salary adjustments, which come under the jurisdiction of the Commissioner of Internal Revenue, of all civilian employees employed by the War Department within the continental limits of United States and Alaska, the Army Exchange Service and Government-owned, privately-operated facili-

ties of the War Department. The full text of the letter follows:

DECEMBER 24, 1942.

The Honorable, THE SECRETARY OF WAR.

MY DEAR MR. SECRETARY: Reference is made to your letter dated December 1, 1942, addressed to the Secretary of the Treasury, wherein it is suggested that an arrangement be adopted so that the Secretary of War may have the authority to administer the provisions of Executive Order No. 9250, General Regulations of the Director of Economic Stabilization and the Salary Stabilization Regulations, as they relate to salary adjustments which come under the jurisdiction of this office, of all civilian positions of the War Department within the continental United States and Alaska. The delegation of authority would also cover salary adjustments for personnel under the Army Exchange Service and in Government owned, privately operated plants. It is further requested that the authority delegated be exercised on behalf of the Secretary of War by the Wage Administration Section in the Civilian Personnel Division Headquarters, Services of Supply. Under the plan suggested the Wage Administration Section would have authority to act on cases covered by the policies of this office and will present to the Commissioner of Internal Revenue a request for a decision of any case not so covered. There was attached to your letter a Wage Administration Manual for ungraded civilian jobs.

In accordance with your request, there is hereby delegated to the Secretary of War, as the agent of the Commissioner, to be exercised on his behalf by the Wage Administration Section within the Civilian Personnel Division, Headquarters, Services of Supply (hereinafter referred to as the War Department Agency) authority to rule upon all applications for salary adjustments (insofar as approval thereof has been made a function of the Commissioner of Internal Revenue) covering civilian employees within the continental limits of the United States and Alaska, employed by the War Department, the Army Exchange Service and Government owned, privately operated facilities of the War Department.

This delegation is subject to the following conditions:

1. The War Department Agency, without making initial ruling thereon, may refer to the Commissioner of Internal Revenue for decision any case which in the opinion of the agency presents doubtful and disputed questions of sufficient importance to warrant direct action by the Commissioner.

2. The War Department Agency shall transmit to the Commissioner of Internal Revenue copies of its rulings and rules of procedure as they are issued and such additional data and reports as the Commissioner may from time to time deem necessary.

3. Any ruling by the War Department Agency shall be final, subject to

(a) the Commissioner's ultimate power to review rulings on his own initiative;

(b) the right of any aggrieved party to take an appeal to the Commissioner from the ruling of the War Department Agency within a period of ten days after the date of such ruling. An appeal shall be filed with the War Department Agency to be forwarded to the Commissioner for action.

Any ruling by the War Department Agency shall be deemed to be the act of the Commissioner of Internal Revenue, unless and until reversed or modified by him, and any such reversal or modification shall take effect from the date recited in the order of modification or reversal.

4. Any ruling of the War Department Agency under this delegation of authority shall be effective from the date of the receipt of the application for salary adjustment and in no case should the War Department Agency issue a ruling which would have a retroactive effect; except, however, in those cases where a salary adjustment was made in good faith and consistent with the provisions of Executive Order No. 9250, prior to the date of this letter, retroactive approval may be made if the application for approval is filed with the War Department Agency on or before January 15, 1943.

5. The "Government owned, privately operated facilities of the War Department" which are to be subject to the terms of this delegation shall be only those which are named in lists furnished from time to time to the Commissioner of Internal Revenue by the War Department Agency. The Commissioner of Internal Revenue may at any time, upon at least seven days' notice to the War Department Agency, strike from the list any facility if the Commissioner of Internal Revenue believes that the policies of the Executive Order No. 9250, the regulations promulgated by the Economic Stabilization Director and those of the Commissioner of Internal Revenue require that the Commissioner of Internal Revenue act directly upon the wage and salary adjustments of such facility.

Since the Wage Administration Section in the Headquarters, Services of Supply, has the technical staff and has made the necessary preparation to apply the provisions of the Executive Order No. 9250 and the regulations throughout the War Department, it is believed that the foregoing delegation of authority will aid in the expeditious handling of the salary adjustment program.

Very truly yours,

GUY T. HELVERING,
Commissioner.

§ 809.994 *Minimum wage determinations.* Sections 809.994–1 to 809.994–44, inclusive, contain the minimum wage determinations of the Secretary of Labor under the Walsh-Healey Public Contracts Law.

§ 809.994–1 *Knitting, knitwear and woven underwear.* The knitting, knitwear, and woven underwear industry is defined for the purposes of this determination as follows:

(a) The manufacturing, dyeing, or other finishing of any knitted fabric made from any yarn or mixture of yarns, and the manufacturing of knitted towels and cloths;

(b) The knitting from yarn or manufacturing from knitted fabric of knitted garments, sections of garments, or garment accessories except gloves, mittens, hosiery, belts manufactured from purchased knitted fabric, and any product the manufacture of which is covered by the prevailing minimum wage determination for the suit and coat branch of the uniform and clothing industry (§ 809.994–34);

(c) The manufacturing of underwear and bathing suits from any woven fabric.

Date effective. April 20, 1943.

Wage. Not less than 40 cents an hour or $16.00 for a week of 40 hours, arrived at either upon a time or piece-work basis. Learners may be employed at subminimum rates only in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under Fair Labor Standards Act, as amended on June 28, 1943, which were adopted for the purposes of this determination.

§ 809.994–2 *Gloves and mittens industry.* The gloves and mittens industry is defined for the purpose of this determination as that industry which manufactures gloves and mittens (except athletic gloves and mittens) from any material (other than rubber) or from any combination of materials (other than rubber).

Date effective. January 16, 1943.

Wage. 40 cents an hour or $16.00 for a week of 40 hours arrived at either upon a time or piece-work basis. Learners may be employed at subminimum rates only in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, as amended on March 22, 1943, which were adopted for the purposes of this determination.

§ 809.994–3 *Seamless hosiery industry.* Manufacture or furnishing of seamless hosiery.

Date effective. July 8, 1943.

Wage. 40 cents per hour or $16.00 per week for a week of 40 hours, arrived at either upon a time or piece-work basis. Learners may be employed at sub-minimum rates only in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, which were adopted for the purposes of this determination.

§ 809.994–4 *Men's hat and cap industry.* Manufacture or supply of men's hats and caps, including men's white sailor and other stitched cloth hats, men's fur-felt hats, men's uniform caps, and women's hats, men's uniform caps, and women's hats and caps of similar design and construction.

Date effective. March 2, 1944.

Wage. 67.5 cents an hour or $27.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

(a) *Variation from minimum wage determination.* A tolerance of not more than 20 percent of the employees in any one factory, whose activities at any given time are subject to the provisions of the Walsh-Healey Public Contracts Act is granted for auxiliary workers in the men's hat and cap industry except that there shall be no limitation on the number or proportion of auxiliary workers employed in the uniform cap and stitched hat branches of the industry, provided that any auxiliary workers in the industry shall be paid not less than 40 cents an hour or $16 per week of 40 hours, arrived at either upon a time or piecework basis.

(b) *Definition of "auxiliary workers."* The term "auxiliary workers" as applied to the employees in the uniform cap and stitched hat branches of the industry shall include only those employees engaged in auxiliary occupations enumerated and defined as follows:

(1) *Hand clipping.* The operation of separating component parts of the article after they have been sewn.

(2) *Hand cleaning.* The operation of removing excess threads from the article or removing stains or dust.

(3) *Size stamping.* The operation of stamping the head size mark on the article.

(4) *Floor boys (girls).* One who carries items of work to and from the various departments.

(5) *Examining.* The operation of inspecting the article for imperfections during any stage of manufacture.

(6) *Sweat band, braid, and strap cutter and measuring.* The operation of measuring and cutting bands, straps and ribbons.

(7) *Turning.* The operation of turning the article inside out or outside in.

(8) *Packing.* The operation of packing the finished caps into shipping containers, spraying larvex or moth flakes; if necessary, inserting tissue paper in caps and inserting a cardboard ring stiffener to support crown of cap.

(9) *Shipping and receiving.* The operation of unloading and checking stock and preparing containers for shipment.

(10) *Waste material sorting.* The operation of separating paper from the rags whether performed in the cutting room or elsewhere.

(11) *Hand stapling.* The operation by hand pressure of a wire stapling machine to join together parts of the article, to attach labels, bows or cloth to the article or part of the article, or to join ends of a cardboard strip to form a packing ring.

(12) *Drawstring pulling.* The operation of slipping a cord or drawstring through part of a cap, hood or helmet.

(13) *Basting pulling.* The operation of pulling out basting threads.

(14) *Porter.* The operation of cleaning floors or carrying boxes.

(15) *Band and braid fitting.* The operation of placing by hand but not sewing on a cap a prepared band or braid.

(16) *Wire stiffener inserting.* The operation of slipping a wire ring into the cap.

(17) *Hand buckling.* The operation of slipping a buckle on a strap.

(18) *Visor inserting.* The operation of inserting a canvas stiffener into a cloth pocket before the visor is attached.

(19) *Pasting.* The operation of attaching a label or ticket to a part of hat with paste or glue.

(20) *Hand button inserting.* The operation of inserting, by hand, into a prepared hole a button and bending over clips to hold the button in place, or inserting a button with a threaded neck, and screwing a nut on neck to hold button firm.

(21) *Hand hole punching.* The operation of punching a hole into material by use of an ice pick or similar pointed hand instrument.

(22) *Wire cutting and ring forming.* The operation of cutting a wire to length and joining the ends to form a stiffener ring.

(23) *Hand eyeletting.* The operation by hand pressure of a machine to attach an eyelet to the article.

(24) *Hand snap fastening.* The operation by hand pressure of a machine to attach a snap fastener to the article.

§ 809.994–5 *Rainwear industry.* Manufacture or supply of men's raincoats, including vulcanized and rubberized raincoats and raincoats made from material known under the registered trademark of "Cravenette" or from fabric chemically or otherwise treated so as to render it water-resistant, of oiled waterproof cotton outer garments, and of other types of rainwear.

Date effective. December 4, 1942, except that learners may be employed at subminimum rates, in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division, on or after December 4, 1942, in the performance of contracts, bids for which were solicited or negotiations otherwise commenced by the contracting agency prior to that date.

Wage. 40 cents an hour or $16 per week of 40 hours, arrived at either upon a time or piecework basis. Learners may be employed at subminimum rates only in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938, as amended on June 28, 1943, which were adopted for the purposes of this determination.

§ 809.994–6 *Cotton garment and allied industries.* The cotton garment and allied industries shall be understood to be that industry which manufactures or furnishes any of the following commodities:

Trousers, knickers, work pants, and breeches (except when made wholly of wool and uniform trousers and breeches made wholly or partially of wool) dress or work shirts and nightwear of any material except knit fabric; overalls, overall jackets, and one-piece overall suits; work coats and work jackets (except wool and wool-lined, and leather and sheep-lined); washable service apparel (hospital, professional, etc.; other cotton outerwear of any material except knit fabric; barrack bags; bandoleers; ammunition and cartridge belts made of textiles; canvas leggins; cot covers; fabric pouches and carriers for first aid equipment, such as: kit cantle ring straps, kit inserts, kit laces, kit pouches and kit suspenders; mattress covers; mosquito bars; and wardrobe bags with draw-strings, made of textiles.

Date effective. July 20, 1942.

Wage. 40 cents per hour or $16.00 per week of 40 hours, arrived at either upon a time or piece work basis.

Learners may be employed at subminimum rates only in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, as amended on June 28, 1943, which were adopted for the purposes of this determination.

§ 809.994–7 *Men's neckwear industry.* Manufacture and supply of men's neckwear (exclusive of knitted neckwear) and of women's ties of design and construction similar to such men's neckwear.

Date effective. July 8, 1943, except that learners and apprentices may be employed at subminimum rates in accordance with the present applicable regulations of the Administrator of the Wage and Hour Division, on or after July 8, 1943, in the performance of contracts bids for which were solicited or negotiations otherwise commenced by the contracting agency prior to that date.

Wage. 50 cents per hour or $20.00 per week for a 40-hour week arrived at either upon a time or piece work basis. Learners and apprentices may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act which were adopted for the purposes of this determination.

Establishments manufacturing products as defined in this industry shall be granted a tolerance for persons actually employed as boxers and trimmers: *Provided,* That such boxers and trimmers be paid not less than 40 cents per hour or $16.00 per week for a 40-hour week and not less than the piece rates paid to all other workers in the same occupational classification.

§ 809.994–8 *Dimension granite industry.* Including monumental stone, building stone, paving blocks, curbing, riprap, and rubble, but not crushed stone.

Date effective. January 15, 1938.

Wage. In Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, and New York—57.5 cents per hour or $23.00 per week based on a 40-hour week, arrived at either on a time or piece work basis.

In North Carolina, Virginia, South Carolina, Georgia, Florida, Alabama, Tennessee, Kentucky, Mississippi, Louisiana, Arkansas, and Texas—40 cents per hour or $16.00 per week based on a 40-hour week, arrived at either on a time or piece work basis. Effective July 8, 1944.

In Pennsylvania, New Jersey, Delaware, Maryland, District of Columbia, West Virginia, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Oklahoma, Kansas, Nebraska, South Dakota, North Dakota, Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, California, Oregon and Washington—42.5 cents per hour or $17.00 per week based on a 40-hour week, arrived at either on a time or piece work basis.

Monumental stone, building stone, paving blocks, curbing, riprap, and rubble, specifically made subject to the minimum wage determination for the dimension granite industry, are exclusively products of granite quarries, and such stones when the products of other quarries are not subject to the minimum wage determination for the dimension granite industry.

§ 809.994–9 *Shoe manufacturing and allied industries.* The term "shoe manufacturing and allied industries" means:

(a) The manufacture or partial manufacture of footwear from any material and by any process except knitting, vulcanizing of the entire article or vulcanizing (as distinct from cementing) of the sole to the upper.

(b) The manufacture or partial manufacture of the following types of footwear, subject to the limitations of paragraph (a) but without prejudice to the generality of that paragraph:

Athletic shoes	Puttees, except spiral puttees
Boots	Sandals
Boot tops	Shoes completely rebuilt in a shoe factory
Burial shoes	Slippers
Custom made boots or shoes	
Mocassins	

(c) The manufacture from leather or from any shoe-upper material of all cut stock and findings for footwear, including bows, ornaments, and trimmings.

(d) The manufacture of the following types of cut stock and findings for footwear from any material except from rubber or composition of rubber, molded to shape:

Cutsoles	Shanks
Midsoles	Boxtoes
Insoles	Counters
Taps	Stays
Lifts	Stripping
Rands	Sock linings
Toplifts	Heel pads
Bases	

(e) The manufacture of heels of any material except molded rubber, but not including the manufacture of wood-heel blocks.

(f) The manufacture of cut upper parts for footwear, including linings, vamps and quarters.

(g) The manufacture of pasted shoe stock.

(h) The manufacture of boot and shoe patterns.

Date effective. July 11, 1942.

Wage. 40 cents an hour or $16.00 for a week of 40 hours, arrived at on a time or piece work basis.

Learners, handicapped workers, and apprentices may be employed in accordance with the following regulations under the Fair Labor Standards Act of 1938, which are hereby adopted for the purpose of this wage determination: Regulations Applicable to the Employment of Learners (29 CFR, Cum. Supp., Part 522); Regulations Applicable to the Employment of Handicapped Persons (29 CFR, Cum. Supp., Part 524); Regulations Ap-

plicable to the Employment of Apprentices (29 CFR, Cum. Supp., Part 521); and the Regulations Applicable to the Employment of Handicapped Clients in Sheltered Workshops (29 CFR, Cum. Supp., Part 525).

Nothing in this determination shall be interpreted as abrogating any obligation that may have been incurred under the previous determination for the men's welt shoe industry.

§ 809.994–10 *Handkerchief industry.* The handkerchief industry, for the purpose of this determination, is defined as follows: The manufacture of men's, women's and children's handkerchief, plain or ornamented, from any material.

Date effective. July 8, 1943.

Wage. 40 cents per hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis. Learners may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938 which were adopted for the purposes of this determination.

§ 809.994–11 *Envelope industry.* Envelopes.

Date effective. May 12, 1938.

Wage. 42.5 cents per hour or $17.00 per week for a week of 40 hours, to be arrived at either upon a time or piece work basis.

§ 809.994–12 *Vitreous or vitrified china industry.* Vitreous or vitrified china, excluding semivitreous or semivitrified china.

Date effective. May 19, 1938.

Wage. 42.75 cents per hour or $17.10 per week for a week of 40 hours, to be arrived at either upon a time or piece work basis. The Administrator for the Public Contracts Division, Department of Labor, advises the above applies only to "tableware, kitchenware, dinnerware, and kindred lines, and not to plumbers' and sanitary supplies."

§ 809.994–13 *Leather, leather trimmed, and sheep-lined garments industry.* All leather, leather trimmed, and sheep-lined garments for men, women, or children.

Date effective. September 19, 1941.

Wage. 42.5 cents per hour or $17.00 per week of 40 hours, arrived at either upon a time or piece rate basis.

NOTE: The Administrator of Public Contracts, Department of Labor, in letter dated January 6, 1942, states that is has been determined that sheep-lined aviation helmets and leather aviation helmets come within the purview of the above determination.

§ 809.994–14 *Flint glass industry.* The flint glass industry produces such types of glassware as illuminating, table glassware, all thin blown glass, thermos bottles, chemical and laboratory ware, perfumery ware, stoppers and bottles, and the like, which character of glassware is produced by the pressed, pressed and blown, off hand and blown method, cutting and polishing; in fact, all types of glassware other than window, plate, and rolled glass, common bottles, containers, and prescription glassware.

Date effective. July 12, 1938.

Wage. 42.5 cents an hour or $17.00 per week for a week of 40 hours, arrived at either upon a time or piece work basis.

NOTE: The Department of Labor has advised that this wage determination is intended to cover all types of glassware other than window, plate and rolled glass, common bottles, containers, and prescription glassware. Among the items particularly included under this intended coverage are fiberglass and fiberglass products.

§ 809.994–15 *Luggage, leather goods, belts, and women's handbag industry.* The luggage, leather goods, belts, and women's handbag industry is defined for the purpose of this determination as follows:

(a) The manufacture from any material of luggage including, but not by way of limitation, trunks, suitcases, traveling bags, brief cases, sample cases; the manufacture of instrument cases covered with leather, imitation leather, or fabric including, but not by way of limitation, portable radio cases; the manufacture of small leather goods and like articles from any material except metal; the manufacture of women's, misses', and children's handbags, pocketbooks, purses, and mesh bags from any material except metal; but not the manufacture of bodies, panels, and frames from metal, wood, fiber, or paper board for any of the above articles.

(b) The manufacture from leather, imitation leather, or fabric of cut stock and parts for any of the articles covered in paragraph (a) of this section.

(c) The manufacture of men's, boys', women's, misses', and children's separate belts from leather, imitation leather, or other material or fabric.

Date effective. April 20, 1943.

Wage. Not less than 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece work basis. Apprentices may be employed at subminimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, which were adopted for the purposes of this determination. Learners may be employed at subminimum rates in the performance of contracts for the manufacture or furnishing of articles covered by paragraph (c) in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, which were adopted for the purposes of this determination.

§ 809.994–16 *Fireworks industry.* Commercial fireworks, fusees, flares, and railroad torpedoes.

Date effective. September 8, 1944.

Wage. 40 cents an hour or $16.00 per week for a week of 40 hours, arrived at either upon a time or piece work basis.

§ 809.994–17 *Wool carpet and rug industry.* Wool carpets and rugs (exclusive of rag rugs).

Date effective. October 15, 1938.

Wage. 40 cents an hour or $16.00 per week of 40 hours, to be arrived at either upon a time or piece work basis.

§ 809.994–18 *Tag industry.* Tags.

Date effective. September 23, 1941.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece work basis.

§ 809.994–19 *Aircraft manufacturing industry.* (a) The following illustrative list of commodities, their parts and accessories is understood to be within the scope of the aircraft manufacturing industry wage determination (included are not only those products which were originally construed to be within this industry, but also those products which have since been included by interpretation. This list is subject to revision as additional interpretation of products is made):

Airplanes
Engines, aircraft-type
Gliders
Propellers, aircraft and parts and accessories, such as—

Airplane spare parts and accessories

Accumulators, landing gear
Adapter assembly for oxygen masks
Adapters and plungers
Ailerons
Ammunition rounds counters and contractors
Axles
Beaching gear
Bomb bay tanks
Bomb hoists
Bomb rack assemblies
Bomb shackles
Booster coils
Brackets
Brake hose and hose fittings
Cabin center panel for windshield
Cable terminals
Cables, motor trigger
Clevises
Clips
Conduit and pipe fittings
Control assemblies for bomb release interval
Control equipment for turrets
Controls, air brake
Couplings
Cowlings
De-icer equipment (except rubber) for propeller, windshield and carburetor venturi: Pump, oil supply tank, control and distributing valve
Domes, plexiglas navigating
Elbows
Elevators
Fairings
Ferrules
Fins
Fittings, structural
Fixtures: master and articulated rod bearing and bushing
Flaps, wing
Flare racks
Floats
Generators
Hinges
Hoisting slings
Hooks, arresting
Hose assemblies
Housings
Hulls, seaplane
Hydraulic pressure regulators
Hydraulic windshield wipers
Jumpers, bonding
Landing gear: Brakes
Oleo struts: Skids, Tires, Wheels
Levers
Locks, oleo leg
Mount assemblies: Gun, ammunition box
Mounts: Camera, engine, and generator
Oleo packing
Operating cylinders
Panels, wing
Pedals
Pins, fitting
Posts
Pulleys
Recoil dampeners, gun
Reservoirs
Retracting cylinders
Rudders
Seats, pilot
Shackles
Shock struts and cords
Solenoids
Spars
Sponsons
Stabilizers
Struts, shock (oleo) and parts
Supports
Switches: Electrical, gun control
Swivels
Tabs
Tail skids
Tail surfaces
Tail wheel assemblies
Tail wheel caster knuckles
Tanks
Thimbles
Tie rods
Tips, wing
Tow target releases and drags
Trigger motors
Turnbuckles
Turret ammunition boxes and mount assemblies
Turrets
Valves
Vents
Wings

Engine parts and accessories

Adapters
Arms
Baffles
Bushings
Cages
Cams
Carburetor manifold jackets
Carburetors
Closures
Collector rings
Control systems
Counterweights
Covers, metal
Crankcases
Crankshafts

Cylinder barrels
Cylinder heads
Dowels
Drives
Filters:
Air, gasoline
Fuel injection systems
Gear boxes
Glands
Guides
Heating systems
Housings
Ignition harness
Impellers, supercharger
Intercoolers
Jets
Magnetos
Manifolds:
Intake, exhaust
Oil coolers
Oil separators
Pipes
Pistons
Plates
Priming equipment
Pumps:
Air, fuel, oil, vacuum
Radiators
Rockers
Rods
Seats, valve
Shafts
Slingers
Spacers
Spark plugs
Starters
Strainers
Studs
Sumps
Superchargers
Tappets
Temperature regulating equipment
Tubes
Valves: engine, gasoline (pilot operated, manual control, syphon)

Propeller parts

Barrels
Blades
Brackets
Brakes
Bushings
Cams
Collars
Controls
Counterweights
Cylinders
Domes
Gears
Governors
Housings
Hubs
Pistons
Spiders
Spinners

Specialized servicing equipment

Airplane mooring kits
Cable testing machines
Chock assemblies
Clubs, test
Cradle assemblies for servicing aircraft parts
Combination workstand-ladder assemblies
Dollies
Energizer assemblies
Engine heaters
External power units for hand inertia starters
Pump testing units
Special testing equipment for aircraft, engine, and propeller parts and accessories
Special tools and stand assemblies for the assembly, disassembly, and repair of aircraft and the engines, propellers, parts, and accessories therefor
Tables, propeller aligning

(b) Specifically excluded from the scope of the industry are:

Fabricated textile products: Fabric covers (including engine-warming covers); parachutes; safety belts; tow targets; wind socks.

Pyrotechnics: Engine starter cartridges; flares, signals.

Electrical and radio equipment: Batteries; electric wire and cable; intercommunication equipment; landing and navigation lights; lighting systems; radios; radio compasses.

Rubber products: Rubber de-icing equipment; flotation gear; life preservers; life rafts; bonded rubber mountings; vibration dampers; rubber utilities; tires and tubes.

Machine shop products and machinery: Bearings; bolts, nuts, rivets, screws, and washers; gas refueling systems (including refueling pumps); gears and sprockets; piston rings; springs; wire rope.

Miscellaneous products: Cameras; fire extinguishers; first aid equipment; gaskets; instruments; lavatory equipment; lighter-than-air craft.

Date effective. May 7, 1942.

Wage. 50 cents an hour or $20.00 for a week of 40 hours, arrived at on a time or piece-work basis.

§ 809.994–20 *Bobbinet industry* (See § 809.994–42 (Textile industry).)

§ 809.994–21 *Iron and steel industry.* This determination covers only pig iron, iron or steel ingots, and rolled or drawn iron or steel products as hereinafter stated, and such fabricated iron or steel products as are specifically named but does not include any unspecified coated, insulated, forged, or cast items. The definition as formulated below describes the products of the iron and steel industry and the provisions thereof do not apply to any production in open hearth and electric furnaces other than that specifically enumerated.

The iron and steel industry is defined to mean and include the business of producing and selling all or any one or more of the following products:

Axles—rolled or forged.
Bale ties—single loop.
Bars—alloy steel, hot rolled.
Bars—cold finished, carbon and alloy.
Bars—concrete reinforcing, straight lengths.
Bars—ingots, blooms and billets—iron.
Bars—merchant steel.
Bars—tool steel.
Ferro-manganese and spiegeleisen.
Girder rails and splice bars therefor.
Ingots, blooms, billets and slabs—alloy.
Ingots, blooms, billets and slabs—carbon.
Light rails—60 pounds or less per yard, and splice bars and angle bars therefor.
Standard tee rails of more than 60 pounds per yard, and angle bars and rail joints therefor, or any of such products.
Mechanical tubing.
Pig iron—foundry, high silicon silvery, malleable, open hearth basic, Bessemer, and high silicon Bessemer.
Pig iron—low phosphorus.
Pipe—standard, line pipe, and oil country tubular products.
Plates.
Posts—fence and sign.
Railroad tie plates.
Railroad track spikes.
Sheet bars.
Sheets.
Skelp.
Steel sheet piling.
Strip steel—cold rolled.
Strip steel—hot rolled.
Structural shapes.
Tube rounds.
Tubes—boiler.
Wheels—car, rolled steel.
Wire—drawn.
Wire hoops—twisted or welded.
Wire nails and staples, twisted barbless wire, barbed wire, twisted wire fence stays and wire fencing (except chain-link fencing).
Wire rods.
Wire—spring.
Wire—telephone.

Date effective.—Note. This determination was originally effective March 1, 1939, but its operation was subsequently suspended due to court proceedings. Its operation was again resumed effective May 27, 1940.

Wage. Whether arrived at on a time or piece work basis, 45 cents per hour in the locality consisting of the States of Louisiana, Arkansas, Mississippi, North Carolina, South Carolina, Florida, Oklahoma, Texas, Alabama, Tennessee, Georgia, Virginia, and West Virginia (except the counties of Hancock, Brooke, Ohio, Harrison, Monongalia, and Marshall);

60 cents per hour in the locality consisting of the States of Washington, Oregon, California, Montana, Idaho, Nevada, Wyoming, New Mexico, Utah, Colorado, and Arizona;

58½ cents per hour in the locality consisting of the States of North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, and the area in and about East Saint Louis, Illinois;

62½ cents per hour in the locality consisting of the States of Wisconsin, Illinois (except the area in and about East Saint Louis, Illinois), Michigan, Indiana, Ohio, Pennsylvania, Delaware, Maryland, Kentucky, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and that portion of the State of West Virginia comprised within the counties of Hancock, Brooke, Ohio, Marshall, Harrison, and Monongalia, and the District of Columbia.

Provided, That apprentices may be employed at lower rates if their employment conforms to the standards of the Federal Committee on Apprenticeship.

This wage determination has heretofore been interpreted to cover the following:

Plate, armor;
Strips, galvanized;
Sheets, galvanized;
Plates, galvanized;
Shapes, structural, galvanized;

and to exclude the following:

Wire, telephone, insulated;
Rods, welding, coated.

§ 809.994–22 *Tobacco industry.* The tobacco industry, for the purposes of this determination, is defined to include the manufacture of cigarettes, of chewing and smoking tobaccos, and of snuff, but to exclude the manufacture of cigars.

Date effective. December 4, 1942.

Wage. 40 cents an hour, or $16 per week of 40 hours, arrived at either upon a time or piecework basis. Learners may be employed at sub-minimum rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938 which were adopted by the Secretary of Labor for the purposes of this determination.

§ 809.994–23 *Furniture industry.* This determination applies to all contracts subject to the basic law, for any of the commodities included in the determination under the wood furniture branch, the public seating branch, and the metal furniture branch of the furniture manufacturing industry.

(a) *Metal furniture branch*—(1) *Definition.* The metal furniture branch of the furniture manufacturing industry is defined to be that industry whose products include:

Metal office furniture: Vertical filing cabinets; horizontal sections and half sections, and bookcases; hi-line and bookshelf units; desks; tables; chairs; storage cabinets; and wardrobes.
Metal hospital furniture.
Metal household furniture.
Steel shelving: Industrial and general purpose steel shelving, miscellaneous fittings, attachments, and accessories.
Steel lockers: Box lockers; single-tier lockers; double-tier lockers; two-person and compartment lockers; miscellaneous fittings as used in schools, clubs, gymnasiums, commercial, and industrial establishments.
Visible filing equipment: Cabinets; panels.

Date effective. May 13, 1939.

Wage. 45 cents an hour or $18.00 per week of 40 hours, arrived at either upon a time or piece rate basis.

(2) *Extension of minimum wage determination.* Metal furniture branch.

Date effective. July 28, 1941.

Wage. That the minimum wage determination for the metal furniture branch of the furniture industry is extended to the manufacture of metal cabinets for printers' type; metal cabinet partitions; metal tool boxes, tool cabinets, and tool chests; metal trunks, box type; metal rotating bins; metal

sectional bins; and metal work benches, desks, and tables.

(3) *Steel fabric springs.* It has been determined that the manufacture of steel fabric springs for metal folding cots, when to be supplied on government contracts subject to the Public Contracts Act, is covered by the metal furniture branch of the furniture manufacturing industry minimum wage determination (Cir. Let. No. 4-44, 25 March 1944, Dept. of Labor).

(b) *Public seating branch.* The public seating branch of the furniture manufacturing industry is defined to be that industry which fabricates, assembles, and installs (by those who fabricate or assemble) public seating (upholstered or unupholstered), fabricated or assembled of wood, plywood, iron, steel, non-ferrous metals or any combinations of these materials, and consisting of the following:

(1) Fixed or connected seating for such public places as theaters, auditoriums, lodges, assembly halls, shoe stores, rinks, ball parks; race tracks, stadia, and other similar buildings and structures;

(2) Pewing, chancel, choir stalls, and related furniture and accessories for ecclesiastical purposes, seats and benches for court houses, hospitals, public waiting rooms, and for other similar public purposes;

(3) Pupils' desks, pupils' tables, pupils' chairs, and school furniture for all educational purposes;

(4) Portable chairs with folding seats in both single and multiple units;

(5) Portable folding seating in single units for other than household use.

Provided, That the following are specifically not included: Tablet armchairs and school chairs fabricated and/or assembled exclusively of wood.

Date effective. August 15, 1942.

Wage. 40 cents an hour, or $16.00 for a week of 40 hours arrived at either on a time or piece work basis.

(c) *Wood furniture branch.* The wood furniture branch of the furniture manufacturing industry is defined to mean the manufacturing, assembling, upholstering, and finishing, from wood, reed, rattan, willow, and fiber, of upholstered and other household, office, lawn, camp, porch, and juvenile and toy furniture, including but without limitation porcelain top breakfast furniture and radio, phonograph and sewing machine cases and cabinets; the manufacturing and assembling from wood, of furniture parts for the above, separately, set up or knocked down including but without limitation parlor furniture frames and chairs in the white. This definition does not include the manufacture of any product covered by the prevailing minimum wage determination for the public seating branch of the furniture manufacturing industry.

The manufacturing of any products covered under this definition is deemed to begin following the delivery of the wood from the kiln or from the air-dried dimension shed.

Date effective. August 15, 1942.

Wage. 40 cents an hour, or $16.00 for a week of 40 hours, arrived at either on a time or piece work basis for the District of Columbia, and all States other than California, Washington, and Oregon; and 50 cents an hour, or $20.00 for a week of 40 hours, arrived at either on a time or piece work basis, for the States of California, Washington, and Oregon.

§ 809.994-24 *Drug and medicine industry.* Manufacture or packaging of any one or more of the following products:

(a) Drugs or medicinal preparations (other than food) intended for internal or external use in the diagnosis, treatment, or prevention of disease in, or to affect the structure or any function of, the body of man or other animals;

(b) Dentifrices, cosmetics, perfume, or other preparations designed or intended for external application to the person for the purpose of cleansing, improving the appearance of, or refreshing the person.

The foregoing shall not be deemed to include the manufacture or packaging of shaving cream, shampoo, essential (volatile) oils, glycerine, and soap, or in the milling or packaging without further processing of crude botanical drugs.

Date effective. September 19, 1941.

Wage. 40 cents per hour or $16.00 per week of 40 hours, arrived at either upon a time or piece rate basis.

§ 809.994-25 *Photographic supplies industry (excluding motion picture equipment of 35 mm. or over).* (a) The following illustrative list of commodities is understood to be within the scope of the photographic supplies industry wage determination (included are not only those products which were originally construed to be within this industry, but also those products which have since been included by interpretation. This list is subject to revision as additional interpretation of products is made):

Accessories and parts, photographic: bellows, cable releases, cones, film rewinders, filters, lenses, magazines, reels, shades, shutters, splicers, spools, synchronizers.
Cameras.
Developing and printing equipment (except photographic chemicals): contract printers, driers, dry-mounting presses, enlargers, hangers, racks, stands, straighteners, tanks, washers, wringers.
Films, sensitized or unsensitized: photographic, X-ray.
Finders, photographic: view, range.
Flashlight apparatus, photographic (except lamps).
Frames, printing, photographic.
Holders, plate, photographic.
Machines: blueprint coating and reproduction, photocopying, photographic, photostat.
Projectors and their accessories and parts (except lamps).
Screens, photographic or X-ray: intensifying, projection.
Sensitized supplies, photographic: cloths, films, papers, plates, slides.
Tripods, photographic.
Vectograph.

(b) Specifically excluded from the scope of this industry are: Blueprint, brownprint, black-line, and blackprint paper and cloth; photoengraving equipment; built-in photographic laboratory fixtures; camera mounts; dropknife type print trimmers; cameras, projectors, and photographic accessories and parts of the 35 mm. size or larger (motion picture); photographic chemicals; and lamps.

Date effective. August 14, 1939.

Wage. 40 cents an hour of $16.00 per week of 40 hours, arrived at either upon a time or piece work basis. Learners may be employed at lower rates for a period of not to exceed 60 days if the total number of such workers in any one establishment does not exceed 5 per cent of the workers on the payroll, and if such learners are paid not less than 80 per cent of the minimum wage as determined, or 32 cents an hour or $12.80 per week of 40 hours, arrived at either upon a time or piece work basis.

§ 809.994-26 *Blueprint paper coating industry.* The blueprint paper coating industry includes the manufacture or supply of blueprint, brownprint, blackprint, blackline, and other similarly sensitized papers and cloths.

Date effective. October 11, 1940.

Wage. The prevailing minimum wage determination for the photographic supplies industry, set forth in § 809.994-25, has been extended to include the blueprint paper coating industry.

Allowances or tolerances. None.

§ 809.994-27 *Soap industry.* Soap in bars, cakes, chips, and flakes, and in granulated, powdered, paste, and liquid forms, and glycerine; cleansers containing soap, scouring powders, and shaving soaps, and creams containing soap, and washing compounds containing soap.

Date effective. August 14, 1939.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece work basis.

§ 809.994-28 *Fertilizer industry.* Superphosphates, concentrated superphosphates, and concentrated fertilizer from superphosphates, potash, and ammoniates.

Date effective. July 8, 1944.

Wage. 40 cents per hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis in all States and the District of Columbia other than New Mexico, Colorado, Wyoming, Montana, Idaho, Utah, Arizona, Nevada, California, Oregon, and Washington, in which eleven States the prevailing minimum wage shall continue to be 50 cents an hour or $20.00 per week of 40 hours arrived at either upon a time or piece-work basis, in accordance with the determination of August 15, 1939.

§ 809.994-29 *"Specialty accounting" supply manufacturing industry.* The commodities covered by this determination are as follows:

(a) Autographic and/or credit registers and/or supplies thereof, such as are used in making handwritten records of various transactions.

(i) Autographic registers may be further described as a machine or device for storing, alining, registering, and issuing copies of hand written records.

(ii) The accounting forms are usually folded in zigzag style, although some roll stationery is used. Such accounting forms are usually printed with the name and business of the user, but stock printed forms and plain stationery may be used. One or multiple copies of stationery may be used. Some roll and folder stationery is provided with edge perforations which engage pin sprockets for registration of forms.

(iii) The one or several carbon copies required may be arranged on rolls at right angles to rolls of stationery or such carbon sets may be interleaved with the forms and may cover the entire area or only a part of such forms.

(iii) Registers may be equipped to retain one or more copies of the transaction in a lock compartment and to issue the remaining copies. Registers may be supplied with a cash drawer, which is opened only by an operation which delivers a serially numbered form into a locked compartment.

(2) Credit registers may be further described as a cabinet or device for retaining in orderly arrangement sales tickets representing charge and other transactions.

(i) Such credit registers usually contain a set of vertical-hinged leaves, each leaf containing several numbered springs, the numbers corresponding with customers' names written on an index.

(ii) Such registers usually contain a storage and cash drawer and are sometimes supplied in combination with adding machines.

(b) Continuous form stationery, which is described as multiple sets of "business forms" with or without carbons, attached and/or folded, for use in billing machines, typewriters, and other office equipment. For example, continuous form stationery may be rolled or "fan folded" and may provide any number of copies up to the limit which will take a carbon impression. This type of stationery is usually printed according to specifications. They may be coated with carbon on the back or interleaved with carbon sheets.

(c) Sales and manifold books, which are described as bound books of multiple sets of forms for making original, handwritten records of sales and/or other transactions. For example, sales books are bound books of sales checks or tickets arranged in sets, usually either carbon coated on the back or arranged to fold or lay one or more carbon sheets between each two copies of a set. Translucent sheets are occasionally combined with carbon paper coated on both sides to reduce the number of carbon sheets. Covers may be arranged to fold in for the purpose of providing a better writing surface and may be ruled for tabulating sales. Sales books may or may not be printed.

Date effective. November 1, 1939.

Wage. 40 cents per hour or $16.00 per week of 40 hours, arrived at either upon a time or piece work basis. Apprentices may be employed at lower rates if their employment conforms with the standards of the Federal Committee on Apprenticeship.

§ 809.994–30 *Small arms ammunition, explosives, and related products industry.* The following illustrative lists of commodities are understood to be within the scope of the small arms ammunition, explosives, and related products industry wage determination (included are not only those products which were originally construed to be within this industry, but also those products which have since been included by interpretation. This list is subject to revision as additional interpretation of products is made):

(a) *Small arms ammunition.*

Without reference to size—
- Cartridges: blank
- Engine starter
- Howitzer igniting
- Mortar igniting
- Target rocket igniting
- Primers, saluting
- Shot shells (empty or loaded):
  - Riot gun
  - Shotgun

Not over .50 caliber—
- Bullets
- Cartridges: machine gun—
  - Pistol
  - Revolver
  - Rifle
  - Submachine gun
- Cases, cartridge, empty
- Cores, bullet

and the primers, shot, and wads used in connection with any of the products included in either of the above groups.

Date effective. September 16, 1940.

Wage. 42.5 cents an hour or $17.00 per week of 40 hours, arrived at either upon a time or piece rate basis. Apprentices may be employed at lower rates than herein determined: *Provided,* Their employment conforms to the standards of the Federal Committee on Apprenticeship.

(b) *Explosives.*

- Ammonium picrate
- Dinitroglycol
- Dynamite: ammonia, ammonia gelatine, blasting gelatine, gelatine, nitroglycerine, low freezing
- Fulminate of mercury
- Gelignite
- Gun cotton (dry nitrocellulose)
- Lead azide
- Nitrocellulose: dry, flake
- Nitro-starch explosive, compressed
- Permissible explosives (Bureau of Mines Bulletin No. 219)
- Picric acid
- Potassium nitrate
- Potassium picrate
- Powder: black, blasting, chlorate type, fuse, nitroglycerine, pellet, smokeless cannon, smokeless gun
- Spotting charges: M1, M1A1
- Tetranitro—aniline
- Tetranitro—methane
- Tetryl
- Tolite
- Trinitro—aniline
- Trinitro—benzene
- Trinitro—cresol
- Trinitrotoluol or trinitrotoluene (TNT)
- Trinitroxylene or trinitroxylol (TNX)
- Trinol
- Trotyl

Date effective. September 16, 1940.

Wage. 57.5 cents an hour or $23.00 per week of 40 hours, arrived at either upon a time or piece rate basis. Apprentices may be employed at lower rates than herein determined: *Provided,* Their employment conforms to the standards of the Federal Committee on Apprenticeship.

(c) *Blasting caps.*

- Blasting caps
- Detonating caps

Date effective. September 16, 1940.

Wage. 47.5 cents per hour or $19.00 per week of 40 hours, arrived at either upon a time or piece rate basis. Apprentices may be employed at lower rates than herein determined: *Provided,* Their employment conforms to the standards of the Federal Committee on Apprenticeship.

§ 809.994–31 *Paper and pulp industry.* Pulp and other fiber and the primary conversion of pulp and other fiber into paper and paperboard, and in addition, the manufacture and conversion of primary paper into toilet paper and paper towels, coated book paper, and paper shipping sacks.

Date effective. Determined to be October 15, 1939.

Wage. For the States of Washington, Oregon, and California, 50 cents an hour or $20.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

For all other States and the District of Columbia, 40 cents per hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis. Effective July 8, 1944.

The following explanation of this determination has been received from the Public Contracts Division, Department of Labor:

Except for those products listed in the determination as manufactured or converted from primary paper, this determination is limited in application to paper and paperboard manufactured from pulp and other fiber, and to pulp and other fiber of the character used in manufacturing paper and paperboard. The majority of paper and paperboard items purchased by the Government that are subject to this wage determination are classified and listed as follows:

(a) *Book paper, writing paper, and cover paper.* (1) Book paper includes antique-finish, book end, coated book, half-tone, lithograph, machine-finished sized and supercalendered, and offset papers.

(2) Cover paper includes laid cover and machine-finished cover papers.

(3) Writing paper includes bond, duplicate check copies, index, internal revenue, ledger, manifold (including glazed), map, mimeograph, parchment deed, vellum finish, and postage stamp papers.

(b) *Building paper.* Felts and sheathing paper.

(c) *Ground-wood printing and specialty paper.* Blueprint paper (unsensitized), distinctive papers (public debt, securities, etc.), safety papers (safety device incorporated in manufacture of paper), and tracing paper.

(d) *Newsprint paper.* Facing slips and newsprint paper.

(e) *Paperboards.* Back-lining, binder's board or tarboard, bristol board, chip-board, lined boards (box, chip, marble-grained), newsboard, pressboard, red sulphite, tagboard, manila cardboard, and strawboard.

(f) *Tissue and absorbent paper.* (1) Absorbent paper includes blotting, filter, and matrix paper and board.

(2) Tissue paper includes lens tissue, paper towels, and toilet paper.

(g) *Wrapping paper.* (1) Kraft wrapping paper.

(2) Manila paper includes target paper and uncut label paper.

(3) Plate and roll wiping paper.

§ 809.994–32 *Cement industry.* Portland cements, including modified portland cement, such as portland masonry cement and portland puzzolan cement.

Date effective. March 2, 1940.

Wage. Within the States of Pennsylvania, New York, New Jersey, Maryland, West Virginia, Ohio, Delaware, Massachusetts, Connecticut, Rhode Island, Vermont, New Hampshire, and the District of Columbia, 57 cents an hour or $22.80 per week of 40 hours.

Within the States of Maine, Michigan, Indiana, Kentucky, South Dakota, North Dakota, Nebraska, and Kansas, 50 cents an hour or $20.00 per week of 40 hours.

Within the State of Illinois, 63½ cents an hour or $25.40 per week of 40 hours.

Within the States of Wisconsin, Minnesota, Iowa, Missouri, Colorado, Wyoming, Utah, Montana, Idaho, Oregon, Nevada, Arizona, and New Mexico, 55 cents an hour or $22.50 per week of 40 hours.

Within the State of Washington, 70 cents an hour or $28.00 per week of 40 hours.

Within the State of California, 62½ cents an hour or $25.00 per week of 40 hours.

Within the States of Oklahoma and Texas, 47 cents an hour or $18.80 per week of 40 hours.

Within the States of Arkansas, Louisiana, Alabama, Tennessee, Virginia, Georgia, Florida, Mississippi, North Carolina, and South Carolina, 40 cents an hour or $16.00 per week of 40 hours.

§ 809.994–33 *Structural clay products industry.* Common brick, face brick, (including glazed and enameled brick), salt glazed brick, manhole brick, structural clay tile (including glazed tile), unglazed face tile, paving brick, and clay or shale granules.

Date effective. July 8, 1944.

Wage. 40 cents per hour or $16.00 per week of 40 hours arrived at either upon a time or piece-work basis.

§ 809.994–34 *Uniform and clothing industry*—(a) *Suit and coat branch.* The suit and coat branch of the uniform and clothing industry is defined to be that industry which manufactures men's civilian suits and overcoats, tailored-to-measure uniforms including the pants, uniform overcoats, and uniform coats. Expressly excluded from this definition are shirts, single pants regardless of material, outdoor jackets, leather and sheep-lined jackets, work clothing, and washable service apparel.

Date effective. February 25, 1941.

Wage. 60 cents an hour or $24.00 per week of 40 hours, arrived at either upon a time or piece-work basis, with a 20 percent tolerance for auxiliary workers, *Provided* they be paid not less than 40 cents an hour or $16.00 per week of 40 hours.

(b) *Outdoor jackets branch.* The outdoor jackets branch of the uniform and clothing industry is defined to be that industry which manufactures wool and wool-lined jackets whether or not such jackets are properly described as mackinaws, field jackets, windbreakers, lumber jackets, peajackets, wool jumpers, or middies, blanket-lined or similar coats, or by any other similar designation.

Date effective. February 25, 1941.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

(c) *Wool trousers branch.* The wool trousers branch of the uniform and clothing industry is defined to be that industry which manufactures wool or part wool uniform trousers or breeches, except tailored-to-measure trousers.

Date effective. February 25, 1941.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

§ 809.994–35 *Die casting manufacturing industry.* The die casting manufacturing industry is defined to be that industry which manufactures die castings for sale and does not include the manufacture of die castings when incorporated into another product by the manufacture of such other products. The term "die casting" as used herein describes a casting made by forcing molten metal under pressure into a metallic mold or die.

Date effective. April 5, 1941.

Wage. 50 cents an hour or $20.00 per week of 40 hours, arrived at either upon a time or piece-work basis. Apprentices may be employed at lower rates of pay if their employment conforms to the standards of the Federal Committee on Apprenticeship. Learners may be employed at the rate of 40 cents an hour or $16.00 per week of forty hours for a period of not to exceed 60 days if the total number of employees classified as such does not exceed 5 per cent of the total number of employees in any one establishment.

§ 809.994–36 *Dental goods and equipment manufacturing industry*—(a) *Durable goods.*

Hand instruments, including forceps and pliers, broaches and cutting instruments, for dental use.
Dental chairs
Dental cabinets
Equipment units
Dental sterilizers
Dental gas apparatus
Dental X-ray equipment
Dental compressors, engines, and lathes
Dental lights
Dental laboratory equipment, other than laboratory furniture

Date effective. September 23, 1941.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

Apprentices may be employed at lower rates of pay if their employment conforms to the standards of the Federal Committee on Apprenticeship. Learners may be employed at lower rates in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act of 1938.

(b) *Consumable goods.*

Dental gold.
Dental alloy for amalgams.
Dental cement and filling materials.
Teeth, porcelain and gold.
Orthodontic appliances.
Waxes, compounds, and investments.
Rubber dental materials.
Denture materials other than rubber.
Burs, drills, and similar tools for use with handpieces.
Abrasive points, wheels, and disks.

Date effective. July 17, 1944.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

Learners may be employed as provided in paragraph (a) of this section.

§ 809.994–37 *Scientific industrial and laboratory instruments industry.* (a) The following illustrative list of commodities, their components and spare parts is understood to be within the scope of the scientific industrial and laboratory instruments wage determination (included are not only those products which were originally construed to be within this industry, but also those products which have since been included by interpretation. This list is subject to revision as additional interpretation of products is made):

Accelerometers
Aerographs
Alidades
Almanac units, nautical
Altimeters
Altiperiscopes
Ammeters
Analyzers, exhaust gas
Anemometers
Apparatus, microprojection
Astrographs
Automatic gun control equipment
Azimuth drums
Balances: analytical laboratory, precision, torsion
Balancing machines
Bank and climb control units
Barographs
Barometers
Bars, beam-compass
Bearing circles
Binnacles, compensating
Binoculars
Boards: drafting, plotting
Boro silicate (optical glass)
Brake testing machines, inertia
Bulbs: resistance, thermometer
Bunsen burners
Centrifuge: human, small electric
Chronograph, counter
Clinometers, service
Collimeters: binocular, octant
Compasses: direction, drafting, hull vehicular, gyroscope
Computers, gun data
Controller assemblies
Controls, domestic automatic (humidity, temperature)
Curves: aircraft, altitude correction, drafting
Dials
Directors, ballistic cam
Dividers, proportional
Drafting machines
Dynamometers
Equipment, automatic steering
Fathometers
Filters, ray
Firing control equipment
Flight control equipment, electronic
Fuzes: glass tube, self-indicating
Fuze setters
Galvanometers
Gages: depth, pressure, temperature, vacuum (but not machinists' precision)
Gears, steering (gyroscope)
Generator, pulse
Glass, optical
Glasses, magnifying, reducing
Gyro indicator assemblies
Gyroscopes: directional horizon
Hydrographs, without clocks
Hydrometers
Hygrothermographs and accessories
Inclinometers
Indicators: directional, elevation, fuel mixture, salinity, temperature, velocity, level
Instruments: drafting, engineering, laboratory, meteorological, military, navigation, ophthalmic, surveying, aircraft, recording
Lenses (wholly or partially ground and polished) except photographic lenses and except lenses such as are of a noncorrective type used in protective goggles
Lettering devices
Level vials
Liners (paper rulers)
Manometers: liquid, mechanical
Map enlarging outfits
Measures, map
Meters: drift, electric, exposure, water velocity
Microscopes
Milliammeters
Motion picture recording theodolites
Mototracers
Mounts: telescope, bombsight, periscope
Octants
Odometers
Ophthalmic goods
Ophthalmoscopes
Pantographs, drafting
Pelorus assemblies
Pencils, drawing-instrument and parts
Pens: barograph, drawing-instrument, thermograph
Periscopes
Pilots, robot
Poles, tubular metal ranging
Potentiometers
Prickers, drawing-instrument
Prisms
Profilometers
Projectors for air mapping
Propeller shaft revolution indicating equipment
Protractors
Psychrometers, sling
Pyrometers
Q Meters
Recording instruments: depth, humidity, light intensity, stress, temperature, water stage
Reels, sounding
Reflector, sight
Regulators, gaseous oxygen
Resistance coils for use on scientific instuments
Reticles
Retinoscopes
Rods: Philadelphia level, stadia
Rotors, meteorological
Rules: drafting, slide
Sextants
Sights: drift, telescopic, bomb, computing
Signal assemblies (instruments)
Sound locaters
Sounding equipment, echo
Splines and weights, sets
Stabilizers, bomb

Stadia, computer
Stadimeters
Stereophotogrammetric equipment
Stereoscope, magnifying, lens prism
Stereoscopic plotting instruments (aerial mapping projectors)
Strain measuring equipment
Sunshine detectors (recorders)
Supports: maximum and minimum thermometer, wind instrument
Switches for engine cylinder thermometers
Synchronous repeaters and transmitters
Tachometers
Tally counters
Telescopes
Temperature controls: electric, pneumatic
T-Squares
Testing sets and equipment:
Battery
Electric
Fatigue crack
Testing sets and equipment—Con.
Gage, portable
Hardness
Tension
Valve spring
Wheatstone bridge type
Teststand assemblies:
Tachometer
Automatic pilot
Theodolites and tripods
Thermocouples
Thermographs
Thermometers (except clinical)
Thermostats
Torpedo computer trainer
Tracers
Trainers for pilot instruction
Transits
Transmission systems, gun data
Triangles
Tube assemblies, airspeed
Tube, pitot-static
Vanes, wind-instrument
Vibration measuring instruments
Whirling apparatus

Date effective. September 23, 1941.

Wage. 40 cents an hour or $16.00 per week of 40 hours, arrived at either upon a time or piece-work basis.

Apprentices may be employed at lower rates of pay if their employment conforms to the standards of the Federal Committee on Apprenticeship. Learners may be employed at the rate of 35 cents an hour or $14.00 per week of 40 hours for a period of not to exceed 60 days, if the total number of employees so classified does not exceed 10 per cent of the total number of employees in any one establishment in any given payroll or work week.

NOTE: The Department of Labor has issued the following interpretation of the term "optical glass" as used in the above determination:

Optical glass is a generic term applying to that type of glass which after grinding and polishing assumes definite refractive qualities and is intended to include finished products as well as blanks.

By this token, ophthalmic glass and its products, including eye glass lenses, as well as wholly or partially ground and polished lenses for any purpose other than photographic, are covered by the determination.

§ 809.994–38 *Surgical instruments and apparatus industry.* (a) The following illustrative list of commodities is understood to be within the scope of the surgical instrument and apparatus industry wage determination (included are not only those products which were originally construed to be within this industry, but also those products which have since been included by interpretation. This list is subject to revision as additional interpretation of products is made):

Adenotomes
Anastomosis buttons
Apparatus, blood transfusion
Applicators, metal surgical
Aspirators
Atomizers
Blades, surgeons'
Bougies, metal
Bronchoscopes
Catheters
Cauteries
Chisels, bone
Clamps, surgical
Clips, suture
Cranioclasts
Curettes, surgical
Cystoscopes
Depressors, tongue (metal)
Dilators
Directors, grooved
Dissectors
Drills, bone
Drill points
Elevators, bone, periosteal, rib
Endoscopes
Forceps, surgical
Forks, tuning
Gags, mouth
Gouges
Haemacytometers
Hammers, surgical
Hemostats
Inhalers, anesthetic
Instruments, foreign body
Intubators
Irrigators
Knives, surgical
Laryngoscopes
Ligatures
Lithotomes
Mallets, surgical
Microtomes
Needles, surgical and hypodermic
Otoscopes
Pelvimeters
Perforators
Periosteotomes
Pharyngoscopes
Plates, bone
Pliers, surgical
Probangs
Probes, surgical
Proctoscopes
Rachitomes
Raspatories
Rasps, surgeons'
Razors, surgical
Retractors
Rongeurs
Saws, surgical
Scalpels
Scissors or shears, surgical
Sigmoidoscopes
Snares
Speculas
Sphygmomanometers, mecurial and aneroid
Spoons, surgical
Sterilizers
Stethoscopes
Strippers, vein
Syringes, glass or metal
Sutures
Tenacula
Thermometers, clinical
Trocars
Trephine
Trephine points
Trachea tubes
Urethroscopes
Urethrotomes
Wrenches, clubfoot

§ 809.994–39 *Evaporated milk industry.* Evaporated milk.

Date effective. November 3, 1941.

Wage. Arrived at either upon a time or piece-work basis:

In the States of Washington, Oregon, and California, 50 cents per hour or $20.00 per week of 40 hours.

In all other States and the District of Columbia, 40 cents per hour or $16.00 per week of 40 hours. Effective July 8, 1944.

§ 809.994–40 *Paint and varnish industry.* Pigments or colors, either in dry or paste form; paints mixed ready for use or in dry or paste form; varnishes, lacquers, enamels; fillers, putty, top dressings; paint and varnish removers; furniture and floor wax; and lacquer thinners.

Date effective. November 6, 1941.

Wage. Arrived at either upon a time or piece-work basis:

For the States of Virginia, North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Louisiana, and Arkansas, 40 cents an hour or $16.00 per week of 40 hours.

For all other States of the United States and the District of Columbia, 50 cents an hour or $20.00 per week of 40 hours.

§ 809.994–41 *Leather manufacturing industry.* The leather manufacturing industry is defined to be that industry which tans, curries, and finishes leather (including rawhide) from any type of hide or skin, and manufactures welting and power transmission belting when made wholly or principally of leather.

(a) *Tanning, currying, and finishing of leather (including rawhide).*

Date effective. December 17, 1941.

Wage. Arrived at either upon a time or piece-rate basis.

In the States of Maine, Vermont, New Hampshire, New York, Massachusetts, Rhode Island, Connecticut, New Jersey, Maryland, Pennsylvania, Delaware, Ohio, Indiana, Michigan, Wisconsin, Illinois, Missouri, Iowa, Minnesota, North Dakota, South Dakota, Nebraska, Kansas, New Mexico, Colorado, Wyoming, Montana, Idaho, Utah, Arizona, Nevada, California, Oregon, Washington, and the District of Columbia, 50 cents an hour or $20.00 per week of 40 hours.

In the States of West Virginia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Florida, Arkansas, Louisiana, Oklahoma, and Texas, 40 cents an hour or $16.00 per week of 40 hours.

(b) *Welting and power transmission belting.*

Date effective. December 17, 1941.

Wage. Arrived at either upon a time or piece rate basis. 40 cents an hour or $16.00 per week of 40 hours, regardless of where manufactured.

§ 809.994–42 *Textile industry.* The term textile industry means:

(a) The manufacturing or processing of yarn or thread and all processes preparatory thereto, and the manufacturing, bleaching, dyeing, printing and other finishing of woven fabrics (other than carpets and rugs containing any wool) from cotton, flax, jute, other vegetable fiber, silk, grass, or any synthetic fiber, or from mixtures of these fibers; or from such mixtures of these fibers with wool or animal fiber (other than silk) as are specified in paragraphs (g) and (h) of this section; except the chemical manufacturing of synthetic fiber and such related processing of yarn as is conducted in establishments manufacturing synthentic fiber;

(b) The manufacturing of batting, wadding, or filling and the processing of waste from the fibers enumerated in paragraph (a) of this section;

(c) The manufacturing, bleaching, dyeing, or other finishing of pile fabrics or cords (except carpets and rugs containing any wool) from any fiber or yarn;

(d) The processing of any textile fabric, included in this definition of this industry, into any of the following products: bags; bandages and surgical gauze; bath mats and related articles; bedspreads; blankets; diapers; dish-cloths; scrubbing cloths and wash-cloths; sheets and pillow cases; tablecloths, lunch-cloths and napkins; towels; window curtains; shoe laces and similar laces;

(e) The manufacturing or finishing of braid, net or lace from any fiber or yarn;

(f) The manufacturing of cordage, rope or twine from any fiber or yarn including the manufacturing of paper yarn and twine;

(g) The manufacturing, or processing of yarn (except carpet yarn containing any carpet wool) or thread by systems other than the woolen system from mixtures of wool or animal fiber (other than silk) with any of the fibers designated in paragraph (a) of this section, containing not more than 45 percent by weight of wool or animal fiber (other than silk);

(h) The manufacturing, bleaching, dyeing, printing or other finishing of woven fabrics (other than carpets and rugs) from mixtures of wool or animal fiber (other than silk) containing not more than 25 percent by weight of wool or animal fiber (other than silk), with any of the fibers designated in paragraph (a) of this section, with a margin of tolerance of 2 percent to meet the exigencies of manufacture;

(i) The manufacturing, dyeing, finishing or processing of rugs or carpets from grass, paper, or from any yarn or fiber except yarn containing any wool but not including the manufacturing by hand of such products.

(j) The manufacture of adhesive tape of the type used with surgical gauze or bandages. (Adhesive tape for industrial purposes is not now subject to any minimum wage determination under the Walsh-Healey Act.)

Date effective. June 24, 1942.

Wage. 40 cents an hour or $16.00 for a week of 40 hours, arrived at on a time or piece work basis.

Learners may be employed at subminimum rates only in accordance with the present applicable regulations issued by the Administrator of the Wage and Hour Division under the Fair Labor Standards Act, as amended on March 22, 1943, which were adopted for the purposes of this determination.

§ 809.994–43 *Chemical and related products industry.* The following illustrative list of commodities is understood to be within the scope of the chemical and related products industry wage determination (included are not only those products which were originally construed to be within this industry, but also those products which have since been included by interpretation. This list is subject to revision as additional interpretation of products is made):

The chemical and related products industry includes:

(1) (a) Heavy, industrial, and fine chemicals, including compressed and liquefied gases, and insecticides and fungicides (1939 Census of Manufactures industries Nos. 999, 985, 933 [1])

(b) The by-products of the foregoing (1939 Census of Manufactures industries Nos. 981, 982)

(2) The manufacture of such commodities as bluing; bone black, carbon black, and lampblack; cleaning and polishing preparations, blackings, and dressings; mucilage, paste, and other adhesives (1939 Census of Manufactures industries Nos. 995, 986, 989, 996)

(a) *Illustrative list of commodities.*

Acetylene gas
Acid: boric, carbolic, oxalic
Acid wash, deck covering
Alcohol, (except wood)
Amine, alkylated
Ammonia, anhydrous
Ammonia, household
Ammonium nitrate
Auramine
Bichromate of soda
Blackings
Bleaching material
Bluing
Bone black
Burnishing ink
Cadmium lithopone
Calcium silicate
Calomel
Carbon black
Carbon dioxide (dry ice)
Carbonate, strontium
Casein
Celluloid
Cellulose, acetate flake
Cement, mending (except rubber)
Chloroform
Cleansers (no soap)
Compounds, industrial: boiler, water treating, insulating metal treating
Creosote
Creosote oil
Deodorants (except for human use)
Developer, x-ray film
Dibutyl phthalate
Dinitrotoluene
Disinfectants: household, industrial
Dressing, fabricated leather
Dry cleaning preparations
Dry mix for welding rod coating
Dyestuffs
Ethyl cellulose
Ferro-alloys (except ferro-manganese) produced by electrochemical processes
Ferrosilicon
Fibestos, cellulose acetate
Fluorescein dye
Fungicides, agricultural
Gasket paste
Germicides
Gums, manufactured synthetic
Hexamethylene tetramine
Humidity indicators
Hydrocarbon gases
Hydrogenation catalyst
Hydroquinone
Hyperchloride
Insecticides: agricultural, household
Kolloxaline
Lamp black
Magnesium metal, when chemically compounded
Magnesium resinate
Methox
Methylbenzine
Methylbenzol
Methyl chloride
Mononitrotoluene
Mucilage
Neoprene
Nitrocellulose, wet (gun cotton)
Oxygen
Paint, desiccant detector
Paris green
Paste, adhesive
Pentaerythrite
Pentaerythritol
Penthrite
Pentolite
Pentrinite
Pentrite
Phenol (carbolic acid)
Phenylcmthone
Photographic chemicals
Polish: auto, metal, stove
Polystyrene
Potash
Potassium perchlorate
Pyrethrum concentrate extract
Pyrethrum (insect powder)
Repellants: agricultural, household
Resins, synthetic
Rubber, synthetic
Scouring powder (no soap)
Sealing wax
Shoe impregnite
Soda, caustic (sodium hydroxide)
Sodium hyposulfite
Sodium nitrate, synthetic
Sodium thiosulfate
Stains, leather
Strontium oxalate
Synthetic gums
Thermite, incendiary
Thorium nitrate
Tints, household
Titanium tetrachloride
Toluene
Toluol
Washing powder (no soap)
Wax: auto, metal, stove

(b) *Specifically excluded from the chemical industry.*

Cement, rubber
Compounds: caulking, damp proofing, water proofing; liquid and plastic roof coating
Ferro-manganese
Glue
Paint remover
Plastics, fabricated
Polish: floor, furniture
Rayon and allied products
Salt: table, rock
Soap
Top dressings
Varnish remover
Wax: floor, furniture

Date effective. April 23, 1942.

Wage. Arrived at either upon a time or piece work basis.

(1) 40 cents an hour or $16.00 per week of 40 hours, for the States of Maryland, Virginia, North Carolina, South Carolina, Tennessee, Arkansas, Mississippi, Alabama, Georgia, Florida, and the District of Columbia; and

(2) 50 cents an hour or $20.00 per week of 40 hours for the remaining States of the United States.

§ 809.994–44 *Aviation textile products manufacturing industry.* The aviation textile products manufacturing industry is defined for the purposes of this determination as that industry which is engaged in the manufacture of articles (other than apparel) primarily of fabric for use in connection with the aviation industry, including, but without limitation, parachutes of all types, parachute packs, parachute harnesses, safety belts, aerial delivery containers made primarily from fabrics, tow targets, and wind direction indicators of the wind-sock type; *Provided, however,* That the manufacture of canvas and duck articles for ground use, such as signaling panels, is not included.

Date effective. December 11, 1942.

Wage. 55 cents an hour or $22.00 a week of 40 hours, arrived at either on a time or pieceswork basis, for the States of California, Oregon, and Washington, 47½ cents an hour or $19.00 a week of 40 hours, arrived at either on a time or pieceswork basis, for the remaining 45 states and the District of Columbia. Workers who are in fact learners may be employed at the rate of 40 cents an hour or $16.00 a week of 40 hours during the first two weeks of their employment and at the rate of 45 cents an hour or $18.00 a week during the third and fourth weeks of their employment.

[1] Except water-proofing compounds.

[Procurement Reg. 10]

PART 810—PLANT FACILITIES EXPANSIONS

SUBPART A—POLICY

Sec.
810.1001 General policy in regard to new facilities.
810.1002 Rental or allowance for the use of Government-financed facilities.
810.1003 Reconversion and storage costs.
810.1003a Costs of removing and dismantling Government owned facilities.
810.1004 Tax amortization.
810.1004a Use of War Department owned machine tools and other industrial equipment for other than War Department production.

SUBPART B—METHODS FOR PROVIDING NEW FACILITIES AND PROTECTION OF THE GOVERNMENT'S INTEREST IN GOVERNMENT-FINANCED FACILITIES

810.1005 Protection of the Government's interest.
810.1006 Methods for providing new facilities.
810.1007 Other methods of protecting the Government's interest in Government-financed facilities.

SUBPART C—PROCEDURE FOR OBTAINING CLEARANCE AND APPROVAL OF INDUSTRIAL FACILITY EXPANSIONS

810.1008 Submission of projects.
810.1009 Applications for approval of projects and for release of Expediting Production Funds ("site letters").
810.1010 War Production Board clearance.
810.1011 Increased costs and continuing capital expenditures.
810.1012 Application for release of Expediting Production Funds.
810.1013 Notice of approvals.
810.1014 Obtaining the letter of commitment in connection with Defense Plant Corporation lease agreements.
810.1015 Approval of contracts or agreements required in certain cases.
810.1015a Termination or cancellation of Emergency Plant Facilities Contracts.

SUBPART D—AMORTIZATION DEDUCTION AND CERTIFICATES OF NECESSITY

810.1016 Amortization deduction.
810.1017 Regulations.
810.1018 Policy and procedure.
810.1019 War Department policy regarding certificates.

SUBPART A—POLICY

§ 810.1001 *General policy in regard to new facilities.* The conservation of critical material and the fullest possible

utilization of existing facilities, whether structures, machinery, or equipment, requires that preference in placing contracts should be given first to contractors who have existing buildings or machinery available, and, second, to contractors who need to acquire the least amount of additional facilities for performance of the contract. Where it has been determined that new facilities are essential, preference should be given to contractors who will themselves finance such facilities. So far as practicable, direct payment or direct reimbursement by the Government for the cost of new facilities should be confined to facilities which themselves form a separate unit (on land covered by the facilities contract or controlled by a long-term lease) or which are readily removable or separable from the contractor's existing plant without unreasonable expense or loss of value. Thus, so far as practicable, buildings should not be erected at the Government's expense on land owned by the contractor unless the Government is given an option to lease on an appropriate basis for a substantial term (e. g. ten years) after the emergency, or an option to buy land at a reasonable price, now or later determined by negotiation.

In connection with new construction projects, the measures in the following sections will be observed in order to conserve critical materials.

§ 810.1001–1 The site will be selected with a view to minimizing the requirements for additional utilities, transportation, and housing facilities. An effort will also be made to avoid the necessity of multiple-storied structures.

§ 810.1001–2 Whenever possible structures should be of a temporary nature and should be of the simplest construction consistent with the proposed use of the structure and the applicable building codes.

§ 810.1001–3 Air conditioning will be employed in only those structures or portions of structures where the manufacturing process makes such use essential. Air conditioning will not be employed for the comfort or for increasing the efficiency of personnel.

§ 810.1001–4 Construction of new facilities will, insofar as possible, be of materials the use of which is not prohibited by applicable orders of the Army-Navy Munitions Board or the War Production Board.

§ 810.1001–5 Unless otherwise specifically provided, compliance with any provision of this part or of any amendment therto which requires a change in contract procedure or in any contract provision shall not be mandatory until thirty days after the issuance of such regulation or amendment.

§ 810.1002 *Rental or allowance for the use of Government-financed facilities.* In cases where competition in a price sense will or may exist between the contractor receiving Government-financed facilities and other manufacturers (not using comparable Government facilities on a no-rental basis), appropriate steps will be taken to equalize insofar as possible the competitive situation. To this end, a reasonable rental not less than normal depreciation during the period of use will ordinarily be charged in such cases. Where there is direct Government construction or installation of Government-owned machinery or equipment (not including construction or installation under a Defense Plant Corporation Lease), in lieu of the rental charge, cognizance may be taken of the difference in the ownership or rental status of the facilities, as between the several manufacturers, and this factor taken into account in placing the contract.

Where Government-financed facilities are employed for the performance of contracts other than those directly with the Government, a rental will usually be charged for the facilities so employed. However, where the facilities are furnished as a part of an integrated production program under which a reduction commensurate with the facilities furnished is obtained in the cost of the supplies to the Government, and the furnishing of the facilities without rental does not create an unfair competitive advantage, the rental charge need not be made. Rental may also be waived with respect to production for a foreign Government for cause deemed adequate by the chief of the technical service.

§ 810.1003 *Reconversion and storage costs.* Where, pursuant to the policy stated in § 810.1001 hereof, the Government undertakes to finance the conversion of plants to war production (including required new machinery, equipment, and building installations), the cost of such conversion may include the cost of removing existing commercial machinery, equipment, and installations, and the cost of incidental building rehabilitation and alteration. In such cases, provision may be made for payment, on termination of production for the Government, of the costs of removal of Government-financed machinery and equipment, including preparation for shipment and storage. No provision may be made, however, for the Government's bearing, either directly or indirectly, any part of the cost of reconverting the contractor's plant to commercial production (including reinstallation of privately-owned machinery and equipment), nor will the Government bear the cost of storing such machinery and equipment during the period between conversion and reconversion. This policy is equally applicable to all types of contracts, whether facilities contracts, cost-plus-a-fixed-fee contracts, or fixed-price contracts.

§ 810.1003a *Costs of removing and dismantling Government-owned facilities.* (a) The obligation to perform the operation of (1) dismantling Government owned facilities (and preparing them for shipment) and (2) removing the facilities from the contractor's plant, and the question of whether either or both of such operations shall be performed at Government expense, are not uniformly treated in War Department contracts. This is largely the result of periodic changes in standard forms. Many facilities articles and leases obligate the contractor to perform the operation of dismantling facilities at his own expense but obligate the Government to remove the facilities at the Government's expense. A few facilities contracts obligate the contractor to perform the operation of dismantling but provide for the reimbursement of his costs of doing so. Some contracts contain provisions obligating the Government to remove facilities from the contractor's plant or providing that the contractor's expense of removal will be reimbursed to it by the Government, and are silent on the dismantling, in which case "remove" and "removal" may be fairly interpreted to include dismantling.

(b) With the exception of the few instances in which it is necessary to comply with express covenants for reconversion, it is the policy of the War Department (see §§ 810.1003 and 802.238–2) that the Government will not bear any part of the cost of reconverting the contractor's plant to commercial production. In connection with the dismantling of facilities and their removal from the contractor's plant this policy is interpreted to prohibit reimbursement of the contractor (or the assumption by the Government of the obligation to perform the work) for any items of expense relating to the restoration, repair, or alteration of the premises in order to correct a condition which was created by or resulted from the installation of the facilities. (For example, reimbursement will not be made for the cost of removal of footings or filling of pits which were constructed for the installation of the facilities. Similarly, reimbursement will not be made for the costs of repairing or filling holes or apertures in floors, walls or roof which were made as an incident to installation and remain after dismantling and removal.)

(c) It is recognized, however, that incidental structural damage may in some cases be caused to the premises by the operations of dismantling the facilities or removing them from the plant. Wherever such damage is directly and intentionally caused in the process of performing an operation which the Government is obligated by the terms of the particular contract to perform (or for the performance of which the Government is obligated to reimburse the contractor) the obligation will be interpreted to include the repair of such incidental damage at Government expense. (For example, assuming the Government is obligated by the contract to remove facilities or to reimburse the contractor for doing so, the obligation would include the expense of opening or destruction and the subsequent rebuilding of a wall, partition or floor in cases where the removal of the facilities, as distinguished from their dismantling, required such opening or destruction. In case the contract obligates the Government to dismantle the facilities or to reimburse the contractor for doing so, the obligation would include the expense of the repair of any structural damage directly and intentionally caused in the process of dismantling.)

§ 810.1004 *Tax amortization.* Under the provisions of section 124 of the Internal Revenue Code, the cost of facilities incurred by a contractor may, under certain circumstances, but only for the purpose of computing taxable income (see § 802.238–1) be amortized over a period of 60 months (or in some instances, a shorter period). To obtain the benefit of such amortization, a Certificate of Necessity must first be obtained. The procedure for obtaining such certificates is set forth in Subpart D of this part. Said section 124 is inapplicable to the acquisition or construction of facilities under a plan of the type described in Plans III, IV or V in § 810.1006 below.

§ 810.1004a *Use of War Department owned machine tools and other industrial equipment for other than War Department production.*

§ 810.1004a–1 *Use by contractor under other contracts or for commercial production.* To promote the most effective possible use of Government owned machine tools and other industrial equipment which have been furnished to private concerns under War Department facilities contracts, the chief of each technical service, or his duly authorized representative, is authorized hereby to permit the use of such machine tools or equipment by the contractor under the conditions hereinafter set forth: *Provided,* That the War Department does not for the time being require such machine tools and equipment for its own production at the contractor's plant. Such use may be permitted:

(a) Where such machine tools and equipment are to be used by the contractor for the performance of other war contracts, either as a prime contractor with any Government department or agency or as a subcontractor.

(b) Where such machine tools and equipment are to be used by the contractor for the production of items determined by the Director, Production Division, Headquarters, Army Service Forces or by the chief of the technical service, or by the duly authorized representative of either of them, to be of importance in some direct and immediate manner to the prosecution of the war or to the national defense. In such cases instruments authorizing the use shall provide for a limitation of such use to a definite period of time or to a definite quantity of production.

(c) Where such machine tools and equipment are to be used by the contractor for other commercial production not directly connected with war procurement and not of the type mentioned in paragraph (b) above, *Provided,* That the instrument permitting such use expressly states that such permission is granted subject to termination at any time by the chief of the technical service or his duly authorized representative upon written notice to the contractor.

§ 810.1004a–2 *Lease agreement.* In all instances a fair and reasonable rental will be charged for the use of such machine tools and equipment in an amount determined by the chief of the technical service or his duly authorized representative to be adequate to protect the Government's interest. The lease agreement must make provision for proper repair and maintenance of such machine tools and equipment.

§ 810.1004a–4 *Statutory authority for lease.* Each instrument authorizing the lease or use of such machine tools and equipment in accordance with these regulations will be made pursuant to Public Law 703, 76th Congress (as amended by Public Law 580, 77th Congress, section 13) and to Title II of the First War Powers Act and Executive Order No. 9001.

§ 810.1004a–5 *Determination as to benefits from permitted use of machine tools and other industrial equipment.* It is hereby determined that the use to full advantage of Government owned machine tools and other industrial equipment which have been furnished to War Department contractors under facilities agreements, when such machine tools and equipment would otherwise be idle or unproductive.

(a) Will increase production required for war purposes and for the national economy, thereby promoting the interest of national defense and facilitating the prosecution of the war, and

(b) Will tend to reduce the cost to the Government of the war procurement program by obtaining fair compensation for the use of such machine tools and equipment, when idle, much of which is rapidly depreciating in value, and

(c) Will tend to enable war contractors to maintain their plants and working forces in efficient standby condition in intervals between the performance of contracts related to war procurement.

§ 810.1004a–6 *Authorized procedures not to delay circularization of idle property or declaration as surplus.* It is War Department policy to dispose promptly, in accordance with existing regulations, of all machine tools and equipment which the War Department no longer needs. The procedures authorized by the preceding paragraphs (especially § 810.1004a–1 (c)) will not delay circularization to all Government agencies of idle machine tools and other equipment (excessive at the point of use) or its declaration as surplus. The primary purpose of the authority granted by § 810.1004a–1 (c) is to provide for the effective use of machine tools and other equipment (a) during the period of circularization and pending determination of its appropriate disposition, and (b) during intervals in war production in the plant of the contractor having custody of such machine tools and equipment.

SUBPART E—METHODS FOR PROVIDING NEW FACILITIES AND PROTECTION OF THE GOVERNMENT'S INTEREST IN GOVERNMENT-FINANCED FACILITIES

§ 810.1005 *Protection of the Government's interest.* The duty of protecting the Government's interest in facilities for which the Government has paid in whole or in part rests upon the contracting officer. Where the new facilities are paid for by the contractor, and the cost thereof is not to be borne by the Government directly or indirectly, there is no problem of protecting the interest of the Government in the facilities. (See Plan I, § 810.1006.) Where the new facilities are to be financed by the Government, protection of the Government's interest therein will ordinarily be accomplished by the use of Plan II, III, IV, or V, as outlined in § 810.1006 hereof. In exceptional cases, such protection may be accomplished by the use of Special Facilities Contracts or Lease Agreements or through the use of the procedure outlined in § 810.1007 hereof.

§ 810.1006 *Methods for providing new facilities.* The following methods are typical of those which may be used for providing new facilities:

PLAN I—PRIVATE OWNERSHIP—WITH NO GOVERNMENT INTEREST

Purpose—For cases in which the contractor is not to be paid by the Government directly or indirectly for the cost of the facilities except to the extent of normal depreciation included in the price of articles sold to the Government.

Financing—Financed by the contractor.

Title—Vested in the contractor.

PLAN II—PRIVATE OWNERSHIP—WITH GOVERNMENT INTEREST (EMERGENCY PLANT FACILITIES CONTRACT)

Purpose—For cases in which the contractor is to be reimbursed by the Government and desires to retain a future interest in the facilities.

Financing—By the contractor until repaid by the Government.

Title—Vested in the contractor with option to purchase such interest as the Government may have acquired by having repaid the contractor partially or wholly for facilities.

PLAN III—GOVERNMENT OWNERSHIP—WAR DEPARTMENT CONSTRUCTION CONTRACT

Purpose—For cases in which the contractor is constructing facilities for the Government and at Government expense.

Financing—By the Government.

Title—Vested in the Government. When the facilities will constitute an addition to or an extension of an existing plant of the contractor, the contractor may be given an option to purchase the facilities.

PLAN IV—GOVERNMENT OWNERSHIP—DEFENSE PLANT CORPORATION LEASE

Purpose—For cases in which the Defense Plant Corporation pays for the facilities.

Financing—Defense Plant Corporation, upon recommendation by the War Department, enters into an Agreement of Lease with the contractor which, as agent for and in the name of Defense Plant Corporation, constructs the buildings and purchases the machinery and then leases the facilities from Defense Plant Corporation at an agreed rental. In most cases where the rental agreed upon is insufficient to reimburse Defense Plant Corporation in full over the term of the lease, part of the financing is borne by the War Department under an agreement with Defense Plant Corporation.

Title—Vested in Defense Plant Corporation, with option in contractor to buy at the end of the lease.

PLAN V—GOVERNMENT OWNERSHIP—SUPPLY CONTRACT

Purpose—For cases in which the contractor will acquire facilities (other than real estate and buildings) for the account of and to be paid for by the Government; facilities to be used by contractor to manufacture supplies under War Department supply contract; contractor responsible for return of facilities in good condition, except for reasonable wear and tear and loss due to stated perils. This type of Government financing is provided for

by the article entitled Government-Owned Facilities set forth in § 803.332.

Financing—Government Funds.

Title—Vested in the Government, with option in contractor, in certain cases, to buy at cost less depreciation.

§ 810.1007 *Other methods of protecting the Government's interest in Government-financed facilities.* Where, because of special circumstances (such as the inseparability of the new facilities from existing privately owned facilities), the adoption of none of the methods set forth in § 810.1006 is practicable and the Government bears, as a part of the contract price, all or a portion of the cost of the facilities to the contractor, the contracting officer will include in the contract which provides for such payment by the Government for the facilities suitable provisions for the protection of the Government's interest in the facilities and will state in the contract the amount of such payment. Ordinarily, in such cases the provisions hereinafter set forth should all be included. However, in exceptional circumstances one or more of such provisions, with the approval of the Director, Purchases Division, Headquarters, Army Service Forces, may be omitted from the contract with or without substitution of modified provisions directed to the same end, as determined by the following sections.

§ 810.1007–1 *Maintenance of facilities.* Requirement that the contractor maintain the facilities, or an appropriate portion thereof, in good condition at its own expense for a period provided for in the contract extending beyond the period of existing supply contract, unless upon request the contracting officer releases it from such obligation;

§ 810.1007–2 *Retention of title.* Requirement that the contractor retain title to the facilities, or an appropriate portion thereof, during said period free of encumbrances not consented to in writing by the contracting officer;

§ 810.1007–3 *No material alteration.* Requirement that the contractor makes no material alteration in the nature of the facilities, or an appropriate portion thereof, without the written consent of the contracting officer;

§ 810.1007–4 *Priority to Government orders.* Requirement that the contractor give priority to Government orders during said period;

§ 810.1007–5 *Depreciation or amortization.* Requirement that the contractor shall not include in any price in any supply contract with the Government any sum for depreciation or amortization of the facilities, or an appropriate portion thereof, during said period;

§ 810.1007–6 *Release from requirements.* Provision that the contractor may at any time be released from the above requirements upon payment to the Government of a sum agreed upon between the contractor and the contracting officer as constituting fair and just return to the Government for its payment for the facilities.

Where reference is made in the above sections to "an appropriate portion" of the facilities, that portion for which payment is made by the Government is intended.

SUBPART C—PROCEDURE FOR OBTAINING CLEARANCE AND APPROVAL OF INDUSTRIAL FACILITY EXPANSIONS

§ 810.1008 *Submission of projects.* Except as provided in §§ 810.1008–3, 810.1010–2 and 810.1010–3, below, all requests for the construction, modification, expansion, or conversion of an industrial facility to be financed by the War Department or by the Defense Plant Corporation under War Department sponsorship (including those which involve only a contingent War Department liability) will be submitted by the sponsoring technical service to the Production Division, Headquarters, Army Service Forces for approval and clearance by all interested agencies, if such projects involve:

(a) Use of Expediting Production Funds, or

(b) Use of other War Department funds or Defense Plant Corporation funds and are estimated to cost in excess of $100,000, excluding costs of jigs, dies, fixtures and gages, such cost including the value of machinery and equipment to be obtained from excess stocks, as well as all new expenditures, whether financed privately or by the Government.

§ 810.1008–1 *Definition of industrial facility.* An industrial facility, as used in this part, is defined as a manufacturing plant, whether privately or Government-owned, with all necessary appurtenances thereto, including machinery and equipment, utilities, warehouses, testing buildings, and similar items. Manufacturing plants, together with the facilities required to supplement such plants, at War Department owned and operated arsenals, depots, and similar establishments, are also considered industrial facilities.

§ 810.1008–2 *Preliminary inquiry to Production Division.* In order to minimize delays and the possibilities of unfavorable action, when new facilities are first being considered, it is desirable that the initiating office communicate with the Production Division, Headquarters, Army Service Forces to ascertain the availability of existing facilities suitable for the required production.

§ 810.1008–3 *New construction, additions or alterations at Class IV installations.* All requests for new construction, additions or alterations, the cost of which exceeds $1,000, at industrial facilities in Class IV installations will be approved personally by the chief of the interested technical service (without delegation) and will be submitted for approval to the Production Division, Headquarters, Army Service Forces through the Office, Chief of Engineers. Such requests will contain the information required under § 810.1009 below to the extent applicable, and must contain complete justification for the proposed work.

§ 810.1009 *Application for approval of projects and for release of Expediting Production Funds ("site letters").* Applications for approval of any proposed facilities expansions or conversions of the type described in §§ 810.1008 and 810.1008–3 above, and for the release of Expediting Production Funds, will be made to the Production Division, Headquarters, Army Service Forces except as provided for the Army Air Forces in §§ 810.1010–2 and 810.1010–3 below. If the projects involve Expediting Production Funds in excess of $25,000, or other funds in excess of $100,000, such applications will supply the following information in quadruplicate. Items not applicable to a particular project will be so indicated.

(a) Name and location of project.

(b) Name and address of operator.

(c) Product and production rate to be created by this project.

(d) General statement of processing operations to be performed in the plant on the item to be produced and the principal types of machine tools and other machinery and equipment necessary therefor. Indicate nature of additional machine tools and other machinery and equipment included in the proposed project.

(e) General description of proposed construction or rehabilitation, if any. For new construction, state number of buildings and approximate floor space of each.

(f) Labor information as follows:

(1) Current employment in the entire plant.

(2) Expected peak employment as the result of expansions previously authorized and now under way, excluding this proposal.

(3) Labor presently engaged on production of item for which expansion is requested.

(4) Additional labor required to staff the expansion. If the project is located in a labor area in which an Area Production Urgency Committee has been established, there must be attached to the site letter a signed copy of the Form GA–862 indicating approval by the Committee.

(g) Maximum additional power required, in kilowatts, and sources of supply.

(h) Additional fuel required, quantity, and type.

(i) Statement of adequacy of water, sewage disposal, rail and highway transportation, and housing.

(j) Brief reasons for selection of this facility or site.

(k) Statement of estimated costs:

(a) Land (number of acres)	
(b) Purchase of existing plant	
(c) Construction and rehabilitation including installation costs of (d)	
(d) Machine tools and other machinery and equipment	
(e) Automotive furniture and fixtures	
(f) Dies, jigs, fixtures and gages, and other manufacturing aids	
(g) Contingencies, overhead, and miscellaneous	
(h) Total (excluding portion privately financed)	
(i) Private financing[1]	
(j) Total cost	

[1] Explain part of project to be privately financed.

The figures shown for machine tools and other machinery and equipment will be the value of all the tools and equipment to be physically added to the operation. There

will be an indication of the portion of each which it is estimated will be secured from available excess lists.

(l) Statement of requirements for item to be produced and existing capacity for such production. Include under this heading:

(1) Total requirements for each year 1944 and 1945.

(2) List of existing producers, including those in process of expansion.

(3) Scheduled 1944 production from each.

(4) Maximum monthly capacity of each facility and month when that capacity will be reached.

(m) Method of financing. If use of Expediting Production Funds is required, make a request for a specific amount or state that such a request will be submitted separately, stating, also, how the remainder of cost, if any, is to be financed.

(n) (1) Estimated date of initial operation.

(2) Estimated date of completion of construction.

(3) Estimated date of full operation.

§ 810.1009–1 *Supplying missing information.* Where it is deemed essential, in the interest of expedition, to file any application before the complete data required above are available, the missing information will be supplied promptly in a second letter following the original application.

§ 810.1009–2 *Approval of applications.* Except for the projects of the Army Air Forces (see §§ 810.1010–2 and 810.1010–3), all applications by the technical services must be approved by the Director, Production Division, Headquarters, Army Service Forces.

§ 810.1009–3 *Projects under $25,000 involving Expediting Production Funds.* In order to simplify the procedure for processing projects in this class, the technical service should, whenever possible, submit them in groups, listing the projects, together with the amounts of funds requested for each, in a single memorandum in triplicate. The detailed information required by § 810.1008 for larger projects need not be furnished, but the following information will be furnished with respect to each project covered by the memorandum:

(a) Name and location of project.

(b) Total cost, including breakdown of cost into construction, machinery and equipment, etc.

(c) Purpose of project.

(d) Adequate information to establish essentiality.

§ 810.1010 *War Production Board clearance.* Except as provided in § 810.1011, every proposed industrial facility expansion estimated to cost in excess of $100,000 (including any portion to be privately financed and any portion of equipment to be provided from available excess) must be approved by the Facilities Committee, War Production Board.

§ 810.1010–1 *Procedure for obtaining approval of the Facilities Committee.* The following procedure is established for all projects requiring approval by the Facilities Committee:

(a) When a project has been approved by the Director, Production Division, Headquarters, Army Service Forces, the Production Division will submit the proposal to the Facilities Committee, War Production Board, for approval. It will be the responsibility of the Production Division to maintain liaison with the Facilities Committee to expedite action on proposals which have been submitted.

(b) After notification by the Production Division that the project has been cleared by all necessary agencies, the technical service will instruct the contractor (except where the work is under the jurisdiction of the Corps of Engineers) to submit to the War Production Board, through the technical service, a WPB–617 application covering the entire project if construction is involved, or a PD–3A if the proposal includes only machine tools and equipment. To these applications will be attached a copy of the memorandum of approval from the Facilities Committee, War Production Board, which will eliminate the necessity for any further check by the War Production Board as to essentiality. If a Necessity Certificate for Tax Amortization is to be requested, the application therefor will accompany the WPB–617 or PD–3A.

(c) Prior to forwarding the PD–3A to the War Production Board, the technical service will fully complete the certificate and will assign the appropriate preference rating, as established in the Army and Navy Munitions Board Priorities Directive, and will be responsible for checking the list of equipment, in order to eliminate items which can be obtained from available surpluses. If it is not practicable to submit the entire list of equipment on the initial PD–3A, a statement to that effect will be made. Subsequent PD–3A's on the project will be submitted as indicated above and will be accompanied by a list of serial numbers and amounts of PD–3A certificates previously submitted. It will not be necessary to submit Form PC–20 with PD–3A's on projects covered by this memorandum. Forms WPB–1548 (Amendment to original WPB–617's), when necessary, will be submitted through the same channels.

(d) The technical service must assure itself that the WPB–617 or PD–3A is in agreement with the information required by § 810.1009 above, or attach supporting data to justify any over-run of cost when submitting the forms to the War Production Board.

(e) The approved WPB–617 or PD–3A will be transmitted to the contractor through the technical services. To assure that this step is taken by the War Production Board, the technical service will make such a request in each case.

§ 810.1010–2 *Army Air Forces projects requiring WPB approval.* For projects of the Army Air Forces which require approval by the War Production Board and which involve Expediting Production Funds, the Army Air Forces will address and submit two originals of the application containing the information specified in § 810.1009 directly to the Facilities Committee, War Production Board, and will send the remaining two copies of the original application to the Production Division, Headquarters, Army Service Forces, for its information and record. The Facilities Committee will notify the Army Air Forces directly of the action taken, sending an information copy to the Production Division, Headquarters, Army Service Forces.

§ 810.1010–3 *Army Air Forces projects not requiring WPB approval.* When projects of the Army Air Forces do not require approval of the War Production Board but involve Expediting Production Funds, the Army Air Forces will make application for such funds to the Under Secretary of War through the Production Division, Headquarters, Army Service Forces, including in such application the following certification as to necessity, signed for the Commanding General, Army Air Forces, by the Chief, Resources Division, Office, Assistant Chief of Air Staff, Matériel, Maintenance and Distribution, or one of his superior officers:

It is hereby certified that the items of expenditure herein referred to are essential to enable this facility to attain the production capacity required of it in order to meet the peak requirements of the currently authorized aircraft program.

The merits of such projects will not be reviewed by the Production Division, Headquarters, Army Service Forces.

§ 810.1011 *Increased costs and continuing capital expenditures.*

§ 810.1011–1 *Increased costs only.* Increases in costs of projects previously approved by Headquarters, Army Service Forces, or by the Under Secretary of War, which are due to a low initial estimate and do not involve a change in the scope of the project or production output, do not require approval of the War Production Board but do require clearance by the Production Division, Headquarters, Army Service Forces. All such applications of the technical services must include a clear statement of the particular factors justifying the increased costs, and will be subject to the approval of the Production Division, Headquarters, Army Service Forces, except as indicated under § 810.1010–3.

§ 810.1011–2 *Continuing capital expenditures.* Applications may be made by a technical service for approval of continuing capital expenditures required in connection with an existing project theretofore sponsored by or transferred to sponsorship of such technical service. Such application shall state:

(a) The estimated costs of the additional capital facilities required for a specified current or ensuing quarter year (giving breakdown thereof in accordance with § 810.1009 (k) above), together with estimated dollar amount required for the next succeeding three quarter-years, the total amount of such four quarter-years not to exceed five percent of the total estimated cost of the project as heretofore approved;

(b) The necessity for such continuing capital expenditures; and

(c) The method of financing thereof, the amount of Expediting Production

Funds, if any, required therefor, and the manner in which the balance of such expenditures will be financed.

Such application shall be submitted to the Production Division, Headquarters, Army Service Forces, and, except as indicated under § 810.1010–3, shall be subject to approval by the Division. Approval of the War Production Board of such application is not required, regardless of the amount.

§ 810.1011–3 *Conditions of approval.* Approval of applications for continuing capital expenditures shall be subject to the following terms and conditions:

(a) Expenditures shall be limited to items normally classified as capital charges and shall not be used for items which may properly be charged to maintenance, repairs, or operations;

(b) Expenditures shall be only for construction, alterations, extension, machinery, equipment, or other facilities required to round out or improve operating efficiency, balance production, or otherwise develop maximum utilization of the existing project;

(c) Expenditures shall not be used for any new structure, the estimated cost of which exceeds $25,000, nor for camouflage or any new administration buildings or cafeterias, but may be used for alterations or extensions of existing facilities of this character.

(d) New construction, additions or alterations at Class IV installations, the estimated cost of which exceeds $1,000, will be processed in accordance with the provisions of § 810.1008–3 above regardless of the other provisions of this section.

(e) When a project which has been financed solely with Expediting Production Funds has been completed, the technical service must immediately return all unexpended funds in excess of 3% of the total cost of the project. The funds retained may be used for continuing capital expenditures, in which case the technical service must notify the Production Division, Headquarters, Army Service Forces of the amount being so held. The use of such excess funds will be subject to the terms and conditions outlined in paragraphs (a) through (d) above.

§ 810.1012 *Application for release of Expediting Production Funds.* When a project requires release of Expediting Production Funds, application therefor shall be made in accordance with § 810.1009 (m) above. When a project for which Expediting Production Funds are requested has received approvals herein required to be given by the Production Division, Headquarters, Army Service Forces, the War Production Board, or both, or has been certified in behalf of the Commanding General, Army Air Forces, in accordance with § 810.1010–3 above, the Production Division, Headquarters, Army Service Forces, will submit the project, with all supporting information, to the Under Secretary of War for approval and release of Expediting Production Funds.

§ 810.1013 *Notice of approvals.* In all cases involving approval by the Production Division, Headquarters, Army Service Forces, or release of Expediting Production Funds, the Production Division, Headquarters, Army Service Forces, will advise the interested technical service in writing when the project has received all necessary approvals.

§ 810.1014 *Obtaining the letter of commitment in connection with Defense Plant Corporation lease agreements.* Where the proposed expansion is to be financed through a Defense Plant Corporation lease agreement, the letter of commitment from the War Department to the Defense Plant Corporation will be submitted to the Under Secretary of War. Such submission will be through the Office of the Under Secretary of War; Attention: Contracts and Facilities, and will be accompanied by a brief statement of the nature, location, estimated cost and productive capacity of the project, together with a statement that the project is essential and that the estimated cost thereof is believed reasonable.

§ 810.1015 *Approval of contracts or agreements required in certain cases.* The following contracts will be submitted to the Director, Purchases Division, Headquarters, Army Service Forces, for approval:

(a) All Emergency Plant Facilities Contracts.

(b) All Special Facilities Contracts.

(c) Contracts containing provisions which are required to be submitted under § 810.1007.

(d) Supply contracts containing "Government-Owned Facilities" clauses which deviate in substance from § 803.332 or any provision of which is required to be submitted under the notes to § 803.332.

(e) Separate lease agreements referred to in § 823.304 (b) except those which are (1) written on a standard form of contract for lease of equipment (see § 803.304–1), or (2) embody substantially the provisions of § 803.332, and do not contain any provisions which is required to be submitted under the notes to § 803.332.

§ 810.1015a *Termination or cancellation of Emergency Plant Facilities contracts.* Whenever it is desired to effect termination or cancelation of an Emergency Plant Facilities contract and permit the contractor to acquire all or any part of the interest of the Government in the facilities, the matter will be submitted in detail for the approval of the Under Secretary of War, through the Director, Purchases Division, Headquarters, Army Service Forces.

SUBPART D—AMORTIZATION DEDUCTION AND CERTIFICATES OF NECESSITY

§ 810.1016 *Amortization deduction.* For Federal income tax purposes, the cost of construction, reconstruction, erection, installation or acquisition of facilities may, pursuant to section 124 of the Internal Revenue Code, be amortized over a period of 60 months (or a shorter period under certain circumstances) when a Certificate of Necessity has been issued certifying that such construction, reconstruction, erection, installation or acquisition of facilities is necessary in the interest of national defense during the emergency period. (See § 810.1004.) The procedure for obtaining such a certificate is set forth in the following sections.

§ 810.1016–1 *Transfer of authority to issue certificates to War Production Board.* Prior to December 17, 1943, the Secretary of War and the Secretary of Navy were authorized to issue such certificates. However, on that date and by Executive Order No. 9406, "* * * the functions, powers and duties of the Secretary of War and the Secretary of the Navy with respect to the certification, pursuant to section 124 (f) of the Internal Revenue Code * * * [were] transferred to the Chairman of the War Production Board."

§ 810.1016–2 *Issuance of certificates prior to effective date of transfer.* Executive Order No. 9406 provided that the regulations of the Secretary of War and the Secretary of the Navy in effect prior to October 5, 1943 should govern the issuance of Certificates of Necessity for all applications therefor describing facilities, the beginning of the construction, reconstruction, erection, installation, or the date of acquisition of which was prior to October 5, 1943. The order also indicated that the Secretary of War and the Secretary of Navy would act upon applications for certificates filed with either of them before December 17, 1943, describing facilities, the beginning of the construction, reconstruction, erection, installation, or date of acquisition of which was prior to October 5, 1943. All other applications for certificates are to be filed with and pursuant to regulations of the War Production Board.

§ 810.1016–3 *Automatic ineligibility.* Any application for a necessity certificate which was filed after April 5, 1944 for facilities which were acquired prior to October 5, 1943 is automatically ineligible because of the lapse of more than six (6) months between their date of acquisition and the date of filing the application therefor. Furthermore, any application for a certificate for a facility which was acquired after October 5, 1943 with respect to which no predetermination had been made is likewise automatically ineligible by reason of the promulgation, on that date, of the predetermination requirement, i. e., that the necessity for such a facility be determined by the certifying authority before its acquisition. (See Executive Order No. 9406, 3 CFR 1943 Supp.)

§ 810.1017 *Regulations.* Pursuant to Executive Order No. 9406, regulations governing the Certificates of Necessity have been promulgated by the Chairman of the War Production Board and appear in Part 910 of Title 32. Copies of such regulations may be obtained from the War Production Board.

§ 810.1018 *Policy and procedure.* Sections 810.1018–1 through 810.1018–4, inclusive, summarize the policy and procedure with regard to Certificates of Necessity as prescribed in the War Production Board regulations referred to above. Sections 810.1018–5 and 810.1018–6, inclusive, set out the procedure within

the War Department except with regard to applicants with whom the Army Air Forces are principally concerned.

§ 810.1018–1 *General.* Certificates of Necessity will be issued only where the facilities to be constructed or acquired are (a) clearly necessary to the war effort and (b) it is to the advantage of the Government that they be privately financed. In general, it may be stated that whenever the Government cannot readily take title to a proposed facility, it is to the advantage of the Government that such a facility be privately financed, i. e., in cases of plant rehabilitation, attached structural additions and equipment such as brick furnaces.

§ 810.1018–2 *Applications for certificates.* Applications for Certificates of Necessity, from and after December 17, 1943, will be made in triplicate on the form prescribed and provided by the War Production Board (Form WPB 3467) together with six copies of Appendix A thereto, which form is likewise prepared and provided by the War Production Board. All such applications must precede the construction, reconstruction, erection, installation or acquisition of a facility in order that the certifying authority may determine whether such construction, reconstruction, erection, installation, or acquisition is necessary, within the meaning of section 124 of the Internal Revenue Code. Where priority assistance or specific authorization of the War Production Board is necessary to effect acquisition, the application for a Certificate of Necessity and the application for priority assistance or specific authorization must be filed together.

§ 810.1018–3 *Filing application.* Applications for certificates will be filed directly with the War Production Board in Washington, D. C., as prescribed by paragraph (7) of the aforesaid regulations. An application will be deemed to be filed when it is received at the office of the War Production Board in Washington, D. C.

§ 810.1018–4 *Data required.* Where possible, all information called for on the standard form of application must be clearly and concisely given and it must be executed in the manner and by the person prescribed therein.

§ 810.1018–5 *Processing applications.* The War Production Board, in order to obtain recommendations as to the desirability of issuing the certificate, may transmit a copy of the application to the Production Division, Headquarters, Army Service Forces, which maintains liaison between the War Production Board and the technical services in matters pertaining to amortization. In such cases, the Production Division will forward a copy of the application to the chief of the technical service concerned with a request for report and recommendation. The chief of the technical service concerned will transmit this copy of the application to the officer most appropriately qualified for investigation and report.

§ 810.1018–6 *Reports on applications.* Fifteen days after this receipt of the application, the reporting officer will transmit his report to the Production Division, Headquarters, Army Service Forces, through such channels as the chief of the technical service may prescribe. When the report cannot be furnished in the prescribed time, the reporting officer will transmit a statement assigning the reasons for the delay. In all cases, the report must contain a recommendation as to the granting or denial of the Certificate of Necessity.

§ 810.1019 *War Department policy regarding certificates.* Only in extraordinary cases will an affirmative recommendation for the issuance of a certificate be made. While it is recognized that some additional facility expansions will be necessary, it is the policy of the War Department that they be accomplished either by Government financing, the purchase or lease of Government-owned facilities, or private financing without amortization.

§ 810.1019–1 The need for this policy was emphasized by the Under Secretary of War on August 14, 1943 in a memorandum to the Commanding General, Army Air Forces, and Commanding General, Army Service Forces, in which he stated:

> The need of material and manpower for production of munitions has required curtailment in the creation of new facilities. This applies to expansion of industrial facilities as well as others, and makes it imperative that such expansion be curtailed. • • •
>
> Reporting officers (of the Technical Services and Army Air Forces reporting on applications for Necessity Certificates) should recommend in each case that an Application for a Necessity Certificate be denied unless they are able to establish definitely that the needs of the Army Supply Program can not be effectively obtained without additional facilities of the type which are the subject of the application.

By a similar memorandum dated May 8, 1945, the Under Secretary of War has directed that, in view of the unconditional surrender of the German forces in Europe, particular attention be given to the foregoing provision that only in extraordinary cases will an affirmative recommendation for the issuance of a certificate be made.

[Procurement Reg. 11]

PART 811—MISCELLANEOUS PURCHASE INSTRUCTIONS

SUBPART A—MARKING OF CONTAINERS

Sec.
811.1102 Numbering of compressed gas cylinders.

SUBPART B—PATENTS

811.1109 Interchange of patent rights and industrial information.
811.1110 Agreement with the United Kingdom for the Interchange of patent rights and industrial information.
811.1111 List of lend-lease and reciprocal aid agreements.
811.1112 Adjustment of royalties for use of inventions.
811.1113 Voluntary adjustments of royalties effected before an order is made.
811.1114 Agreements in settlement and compromise after an order is made and before suit against the United States has been instituted.
811.1115 Investigation of, and licenses, assignments and releases eliminating claims for, the unauthorized use of inventions.
811.1116 Patent rights provisions of a development contract.
811.1117 Patent risk provision.
811.1118 Discretion of the chiefs of technical services.

SUBPART C—LITIGATION AND RELATED MATTERS

811.1120 Procedure for handling litigation involving cost-plus-a-fixed-fee contractors.
811.1121 Reports of criminal conduct in connection with War Department contracts.
811.1122 Joint action with Navy with respect to contingent fees.

SUBPART D—PRICE AND RATIONING REGULATIONS

811.1130 General.
811.1131 OPA price regulations in general.
811.1132 Purchases.
811.1134 Sales.
811.1135 Rationing regulations.

SUBPART E—CONTROLLED MATERIALS PLAN

811.1140 Revision of existing supply contracts to conform to production schedules authorized under Controlled Materials Plan.
811.1141 Allotment of materials for new contracts.

SUBPART F—CONTRACTS INVOLVING RUBBER OR SYNTHETIC RUBBER

811.1150 Agreement with Rubber Reserve Company.
811.1151 Administration of agreement.
811.1152 Effect of agreement on contracts involving natural rubber.
811.1153 Existing contracts involving synthetic rubber.
811.1154 Conversion from use of natural rubber to use of synthetic.
811.1155 Price Adjustment Provisions.

SUBPART G—MISCELLANEOUS MATTERS

811.1160 Discounts in purchasing.
811.1161 Contingent fees.
811.1162 Track-scaling of loaded railroad cars.
811.1162a Ordering of less than full carloads to be avoided.
811.1162b Notice of shipments by contractors.
811.1162c Land grant deductions.
811.1163 Procurement of spare parts.
811.1164 Contracts with foreign nationals.
811.1165 Contracts with blocked nationals.
811.1166 Limitation on purchase of arms, ammunition and implements of war.
811.1167 Restrictions on purchases of selected items.
811.1167a Restrictions on local purchases.
811.1168 Advertising.
811.1169 Certificate required in procurement with respect to motor-propelled passenger-carrying vehicles.

SUBPART A—MARKINGS OF CONTAINERS

§ 811.1102 *Numbering of compressed gas cylinders.* See in this connection AR 850–60 (September 29, 1942) covering the safe handling, storing, shipping and using of compressed gas cylinders.

§ 811.1102–1 *Specifications of Interstate Commerce Commission.* Cylinders for compressed gases must be made under specifications of the Interstate Commerce Commission. Deviations from these specifications are permitted in certain cases. Those specifications require identification of the cylinders by a serial number and by an identification symbol.

§ 811.1102–2 *Assignment of serial numbers.* The serial numbers which are to be used by the purchasing officers of the War Department will be assigned by the Director, Purchases, Division, Headquarters, Services of Supply, to the chief of the supply service concerned upon request. Letters should be prefixed and suffixed to those serial numbers to indicate type and size of cylinder as indicated below.

§ 811.1102–3 *Identification symbol.* The registered identification symbol of the War Department is WD.

§ 811.1102–4 *Maintenance of records.* Chiefs of supply services will furnish to their field agencies such serial numbers as may be required from those assigned as indicated in § 811.1102–2. A record will be maintained of the numbers that have been actually used by their field agencies, together with a record of cylinders which have been manufactured or purchased.

§ 811.1102–5 *Markings on cylinders.* Ordinary markings for a cylinder are illustrated by the following example:

ICC–3A480 (Specification mark)
KM1234H (Serial No.)
WD (Symbol)

Any special markings desired on cylinders are permissible but must be specified as "additional marks" and must not interfere with the ordinary marks as above noted.

NOTE: The mark ICC–3A480 means that the cylinder has been made under specification 3A with service pressure 480 lbs. per square inch, and that it is limited to use for gas with pressure not over 480 lbs. per square inch at 70° F., and not over 480×5/4=600 lbs. per square inch at 130° F.

§ 811.1102–6 *Safety devices.* Cylinders must be fitted with safety devices of approved type as required by regulations of the Interstate Commerce Commission. Manufacturers of cylinders and valves are familiar with those requirements.

§ 811.1102–7 *Types of cylinders*—(a) *Anhydrous ammonia.* Cylinders for anhydrous ammonia should preferably be of types ICC–4 or ICC–4A480. Type ICC–3A480 is also authorized but will probably be found more expensive.

(b) *Chlorine.* Cylinders for chlorine will be type ICC–3A480.
