The War Production Board may from time to time allocate the supply of stockpiled burlap and specifically direct the quantities, time, and manner in which deliveries by any authorized government agency shall be made or withheld. It may also direct or prohibit particular uses of burlap. Any direction, prohibition, or allocation issued pursuant to this paragraph, to be valid, must be in writing in the name of the War Production Board.

(d) *Quotas and allocations of burlap for bag manufacturers.* (1) The War Production Board will assign to each bag manufacturer a burlap quota representing the percentage his average annual cut-up (i. e., the lineal yardage of burlap converted by him into bags) during the years 1939 and 1940, bears to the total average annual cut-up during the same years by all bag manufacturers who are assigned quotas.

(2) The War Production Board will, from time to time issue burlap allocation certificates to bag manufacturers based on their assigned burlap quotas. These letters should be filed on or before the first day of the calendar quarter for which the allotment is requested. Each application by a new manufacturer should include a statement of the facilities available to him for the manufacture of textile bags, the maximum yardage of textile bagging material which can be processed on his facilities on the basis of 48 hours operation per week, the minimum yardage of textile bagging material needed for economical operation and any other pertinent information.

No bag manufacturer shall dispose of burlap received against his allocation certificate except to fill orders (for burlap for use other than in the manufacture of bags) bearing preference ratings which have been duly assigned, applied or extended in accordance with Conservation Order M-328, provided no bag manufacturer shall be required to fill rated orders for a total of more than five bales of burlap from any one person in any calendar month.

(5) Notwithstanding any allotment made available by a burlap allocation certificate, no bag manufacturer shall purchase any burlap in excess of a minimum practicable working inventory at his then current rate of operation, nor more than he will actually use on his own facilities, whichever is less.

has been duly assigned, applied or extended in accordance with Conservation Order M-328, may obtain such burlap from the Defense Supplies Corporation or its authorized representatives (unless his order is for less than a full bale), from bag manufacturers or from persons owning frozen burlap.

Any person disposing of frozen burlap to a bag manufacturer shall immediately notify by letter the War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C., stating the name of the buyer, the quantity of bales, the serial number and sequence number of the burlap allocation certificate authorizing the buyer to accept delivery.

Such statement shall be made by letter setting forth all pertinent facts. For manufacturers' sales to wholesalers, the above maximum prices are subject to a 25 percent trade discount and to cash discount of 2 percent, ten days net thirty days. The freight charge is to be paid by seller.

For sales by wholesalers, the above list prices are subject to all discounts and allowances and freight terms that the wholesaler had in effect to each class of purchaser of sandblast stencil during March 1942. If the seller did not sell or offer for sale sandblast stencil during March 1942, or if he proposes to sell sandblast stencil to a different class of purchaser than he sold during March 1942, such wholesaler shall not sell or offer for sale sandblast stencil until the discounts, allowances and freight terms applicable to his sales have been established by order of the Office of Price Administration which shall be issued after

(b) *Reports of maximum prices.* Prior to first offering the commodity for sale, the applicant shall submit to the Office of Price Administration, Washington, D. C., a report applying for a specific authorization of a maximum price. The report shall contain: (1) a description in detail of the commodity (including the manufacturing process if the applicant is a manufacturer); (2) a statement of facts which make it necessary to price the commodity under this section; (3) a proposed pricing method and the price for the commodity determined in accordance with this method, and the cash discount, freight and quantity allowances and other allowances and discounts applicable to each class of purchaser; (4) a statement of the reasons why the applicant believes that the use of this method results in prices which are in line with the level of maximum prices established by this regulation. PROOF OF RELATIONSHIP AND DEPENDENCY

§ 2.1048 *Secondary evidence of birth or marriage.* The classes of evidence to be requested for the purpose of establishing age or relationship or marriage are indicated in §§ 2.1046 and 2.1050 in the order of preference. Failure to furnish the higher class, however, does not preclude the acceptance of a lower class if the evidence furnished is sufficient to prove the point involved. PART 10—INSURANCE

NATIONAL SERVICE LIFE INSURANCE;
PREMIUMS

§ 10.3408 *Deduction of insurance premiums from compensation, retirement pay or pension.* The insured under a National Service Life Insurance policy may authorize the monthly deduction of premiums from disability compensation, death compensation, retirement pay, disability pension, or death pension, that may be due and payable to him under any laws administered by the Veterans' Administration in accordance with the following provisions:

No change in (a).

(b) The monthly disability compensation, death compensation, retirement pay, disability pension or death pension so due and payable must be equal to, or in excess of, the amount of the insurance premium figured on a monthly basis.

No change in (c), (d) or (e).

§ 10.3409 *Effective date of authorization for deduction of insurance premiums from compensation, retirement pay, or pension.* When premium deductions are

authorized by the insured under National Service Life Insurance in accordance with the provisions of Veterans' Administration regulations, the Veterans' Administration will make monthly deductions from the disability compensation, death compensation, retirement pay, disability pension, or death pension, due and payable to the insured, of an amount sufficient to pay the monthly premium on the insurance. Such deductions shall begin with the month in which the authorization is effective and continue so long as the disability compensation, death compensation, retirement pay, disability pension, or death pension, due and payable to the insured is sufficient to pay the monthly insurance premium, unless the authorization is sooner canceled or otherwise terminated.

§ 10.3410 *Premiums to be deducted from compensation, retirement pay, or pension, treated as paid, for purpose of preventing lapse.* When premium deductions are authorized by the insured under National Service Life Insurance, in accordance with the provisions of Veterans' Administration regulations, the insurance premium will be treated as paid for the purpose of preventing lapse of the insurance, although such deduction is not in fact made, if upon the due date of the premium there is due and payable to the insured an amount of disability compensation, death compensation, retirement pay, disability pension, or death pension sufficient to provide the payment. Any premium authorized to be deducted from disability compensation, death compensation, retirement pay, disability pension, or death pension, due and payable to the insured and not actually paid, shall be deducted from any amount of current disability compensation, death compensation, retirement pay, disability pension, or death pension that may become due and payable to the insured. The amounts so deducted for premiums shall be deposited and covered into the Treasury to the credit of the National Service Life Insurance Fund.

§ 10.3411 *Termination of the authorization to deduct insurance premiums from compensation, retirement pay, or pension.* Deduction of insurance premiums on National Service Life Insurance shall cease and the authorization shall terminate if the disability compensation, death compensation, retirement pay, disability pension, or death pension, becomes insufficient to provide the premium, or if disability compensation, death compensation, retirement pay, disability pension, or death pension, is no longer due and payable to the insured. If authorization was executed by the manager of a Veterans' Administration facility or chief officer of a State hospital or other institution to make deductions from an institutional award, the authorization will cease and terminate at the termination of the institutional award, and if subsequent premiums are to be paid by deduction from monthly benefit payments, another authorization must be executed by the insured or his legal representative or his wife. (See

§ 10.3408 (a.) The insurance shall lapse after the termination or cancellation of the authorization to deduct premiums from disability compensation, death compensation, retirement pay, disability pension, or death pension, unless the premium be otherwise paid within the grace period. The insured will be notified, by letter directed to his last address of record, of the termination of the authorization to deduct premiums; but the failure to give such notice or the failure to receive such notice, shall not prevent lapse of the insurance.

PART 25—MEDICAL
DENTAL SERVICES

§ 25.6129 *Extent of dental treatment.* The type and extent of dental treatment in any individual case will be determined by a dental officer of the Veterans' Administration in accordance with the following principles:

(a) In Class I (see § 25.6123), any dental treatment indicated as reasonably necessary to retain masticatory function may be authorized.

(b) (1) In Class II, any treatment indicated as necessary for the correction of wartime service-connected dental disabilities may be authorized as well as for peacetime service-connected dental disabilities, provided the applicant was discharged under conditions other than dishonorable on account of a disability incurred in line of duty, or is in receipt of pension for a service-incurred disability. When diseased teeth (the disability from which is service-connected) are to be replaced by means of artificial dentures, all other diseased teeth in the same maxilla may be extracted, if necessary, and the dentures may be constructed accordingly. This principle will also apply when extraction is indicated for mechanical reasons. But in constructing bridges for missing teeth, the loss of which has not been attributed to military or naval service, only mechanical necessity will permit consideration of such missing teeth in designing the bridge.

(2) When service connection has been established only for teeth missing from one maxilla, and artificial dentures for both jaws are determined necessary to meet proper treatment indications, extractions of teeth in the opposing maxilla may be made.

(3) Missing third molar teeth, loss of which has been attributed to military or naval service, will not be replaced; nor will such circumstances be held to call for replacement of other missing teeth whose loss is not service-connected.

(c) In Class III, treatment will be rendered, as adjunct or auxiliary measures, only for those dental conditions which, in sound professional judgment, are hav-

ing a direct and material detrimental effect upon an associated basic disease.

(d) In Class IV, sufficient treatment will be rendered domiciliary members to keep their mouths in hygienic and comfortable condition, with sufficient masticatory surface to maintain health.

(e) In Class V, treatment other than emergency, will consist only of such measures as may be reasonably necessary to prevent the interruption of an authorized course of vocational training.

§ 25.6135 *Replacement of dental prosthesis.* (a) Dental prosthesis (i. e., fillings, bridges and dentures), furnished for treatment of service-connected dental disease or injury, which have been broken or become unserviceable through legitimate wear and deterioration, may be replaced, provided the condition is still shown to be service connected by the final dental rating promulgated under current rating instructions. Usually prosthesis, especially fillings and fixed bridges, should give at least two years' service, and this should be considered in these cases. In average cases in which fillings and fixed bridges inserted by designated dentists fail within two years, due to faulty technique or engineering, the claimant, if practicable, will be referred back to the designated dentist who rendered the treatment, who will be required to adjust the defective prosthesis; if this cannot be done, or if the designated dentist declines to make good the defect, determination will be made by the chief, dental service, as to the advisability of requesting a refund. In considering such cases due consideration will be given to the veteran's physical condition, and any unusual or extenuating conditions which obtain in his mouth.

When the chief, dental service, is of the opinion that a refund is in order he will prepare a brief of the facts in the case, attaching thereto copies of pertinent documents, and submit it to the finance officer with a recommendation that refund in a specified amount be effected, if possible.

(b) Dental prosthesis, such as bridges and dentures, furnished for treatment of a service-connected dental disease or injury, when lost, destroyed, or otherwise disposed of by a veteran, may be replaced upon the authority of the chief medical officer or his designate. The field station concerned will obtain affidavits of the veteran and, if possible, of other persons familiar with the circumstances of the loss, destruction, etc. The chief medical officer or his designate may require any other additional evidence considered necessary to show good faith and lack of carelessness on the part of the veteran, and may deny replacement if circumstances warrant.

(c) Dental prosthesis such as bridges and dentures furnished as adjunct or auxiliary relief, when requiring replacement through legitimate wear or deterioration, will be replaced upon determination as to the present necessity of replacement as adjunct or auxiliary relief.

(1) If the veteran applies for replacement, on an out-patient basis of prosthesis previously furnished as adjunct treatment and cannot produce such prosthesis, the procedure as prescribed in paragraph (b) of this section will govern in determining eligibility therefor.

(2) If the prosthesis is indicated as adjunct or auxiliary treatment on an in-patient basis the chief, dental service, will satisfy himself that the prosthesis previously furnished was not destroyed, lost or otherwise disposed of due to the carelessness or neglect of the beneficiary. If he is of the opinion that the loss was occasioned by the carelessness or neglect of the beneficiary, the decision as to replacement will be made by the chief medical officer or clinical director, as required in paragraph (b) of this section.

(d) Dental prosthesis such as bridges and dentures furnished veterans receiving domiciliary care in a Veterans' Administration facility as Class IV (domiciliary) treatment may be replaced when unserviceable through fair wear and deterioration. If veteran requests replacement of prosthesis previously furnished him by the Veterans' Administration and is unable to produce the prosthesis or presents same in a mutilated condition, the chief, dental service, will secure all evidence available and present it to the chief medical officer or clinical director for a determination as to whether the prosthesis was lost through the carelessness and neglect of the veteran or willfully mutilated by him. If such determination is made, replacement will be made only upon payment of the cost of the prosthesis by the veteran either in cash, or by labor at the facility for which he will be credited at the rate of fifty cents per day. The cost of the appliance will be computed at twenty-five percent of the fee basis value shown in Veterans' Administration regulations.

(e) Dental prosthesis such as bridges and dentures furnished vocational trainees will be replaced in accordance with the same procedure as prescribed in paragraph (c) of this section and subject to the provisions of § 25.6129 (e).

The War Shipping Administration having indicated that the waiver of load lines, relating to certain vessels engaged in business in the conduct of the war, dated August 26, 1944, has been found to be insufficient to take full advantage of tanker capacity in the movement of the petroleum products to the combat areas in the Pacific;

LOAD LINES FOR TANKERS LOADING FROM WEST COAST PORTS DURING APRIL, MAY, AND JUNE 1945¹

The Acting Secretary of the Navy having by order dated October 1, 1942 (7 F.R. 7979), waived compliance with the navigation and vessel inspection laws administered by the United States Coast Guard, in the case of any vessel engaged in business connected with the conduct of the war, to the extent and in the manner that the Commandant, United States Coast Guard, shall find to be necessary in the conduct of the war.

Now, therefore, I find it necessary in the conduct of the war that there shall

be waived compliance with the act of March 2, 1929, c. 503, 45 Stat. 1492, as amended (46 U.S.C. 85-85g), relating to load lines for vessels making a foreign voyage by sea, to the following extent and subject to the following conditions.

During the months of April, May, and June 1945, tankers engaged in the conduct of the war and certified for deeper loading according to Part 43 of the United States Load Line Regulations, when loading from the West Coast harbor areas of San Francisco, Los Angeles, and Long Beach, and routed via the Central Pacific south of Latitude 49° N. to ports in the Pacific theater of war, may load on departure so as not to submerge their tropical fresh water load lines when at sea.

Dated: April 5, 1945.

FEDERAL POWER COMMISSION.

[Docket No. G-663]

CINCINNATI GAS TRANSPORTATION Co.

ORDER SUSPENDING SUPPLEMENTAL RATE SCHEDULES

SEPTEMBER 15, 1945.

It appears to the Commission that:

(a) By order of November 2, 1944, the Commission, in Docket No. G-591, suspended Cincinnati Gas Transportation Company's Rate Schedule FPC No. 7 providing for changes in its rate schedules then in force, as listed below, for the sale of natural gas to the following companies:²

Schedule then in force:	Vendee
-FPC No. 1...	The Cincinnati Gas & Electric Co.
FPC No. 3...	The Union Light, Heat & Power Co.
FPC No. 4...	Bracken County Gas Co.

Such order required that the rate schedules then in force be continued in effect. On March 13, 1945, prior to the expiration of the period for which Rate Schedule FPC No. 7 was suspended, the Transportation Company filed a waiver of any right it may have under section 4 (e) of the Natural Gas Act to make such proposed rate schedule effective until the Commission enters an order permitting such action.³

(b) On August 18, 1945, the Transportation Company filed agreements with The Cincinnati Gas and Electric Company and The Union Light, Heat and Power Company designated as Supplements No. 3 to its aforesaid Rate Schedules FPC Nos. 1 and 3, respectively.⁴

¹ Hereinafter referred to as the "Transportation Company."

² Service to Kentucky Utilities Company was also covered by the Transportation Company's Rate Schedule FPC No. 7, and rate schedules of the Transportation Company's affiliates, United Fuel Gas Company and Warfield Natural Gas Company, were suspended by the order of November 2, 1944; however, such matters are not directly involved here.

³ A hearing was held on the suspended Rate Schedule FPC No. 7 concurrently with the hearing involving the general investigation of the rates of the Transportation Company and its affiliates in Docket No. G-440. Oral argument before the Commission en banc was heard in such matters on September 14, 1945.

⁴ Apparently Supplement No. 3 to the Transportation Company's Rate Schedule FPC No. 3 is designed to cover service rendered under its aforesaid Rate Schedule FPC No. 4 to Bracken County Gas Company. Such supplement provides that The Union Light, Heat and Power Company shall take over the service to certain customers now served by Bracken.

Such supplemental rate schedules propose to put into effect, with respect to service to the aforesaid two companies, the provisions of the suspended Rate Schedule FPC No. 7, except as to provisions providing for increased rates. The rates provided in the aforesaid Rate Schedules FPC Nos. 1 and 3 would be continued in effect. The principal changes proposed relate to the periods for which service would be rendered. Twenty-year terms would be provided in lieu of the provisions permitting cancellation upon 6 months' notice by either party to the other. The supplemental rate schedules further provide that the vendees may not terminate the agreements on less than 5 years' notice to the Transportation Company.

(c) By letters of August 9 and August 15, 1945, transmitting the supplemental rate schedules, the Transportation Company explained that the purpose of such schedules was to afford an arrangement with its aforesaid customers for the sale of natural gas on a long-time basis. With respect to the necessity for such an arrangement, it was stated that Columbia Gas & Electric Corporation has agreed with the Securities and Exchange Commission to dispose of its stock ownership in The Cincinnati Gas and Electric Company, and that in order to do the financing necessary to effect such disposition, the latter must be assured a long-term supply of gas.⁵ No reasons were assigned for the necessity of having a long-term agreement with The Union Light, Heat and Power Company, nor for the necessity of imposing upon the vendees the restriction preventing them from terminating the agreements in less than 5 years from the date of notice to the Transportation Company of their intention so to do. No effort has been made by the Transportation Company since the suspension of its Rate Schedule FPC No. 7 to put into effect similar provisions covering the sale of natural gas to its single unaffiliated customer, Kentucky Utilities Company.

(d) The provisions of the aforesaid supplemental rate schedules may be inconsistent with the public interest and place an undue burden upon the ultimate consumers of natural gas.⁶

(e) Unless suspended by order of the Commission, Supplements No. 3 to the Transportation Company's Rate Schedules FPC Nos. 1 and 3 will become effective as of September 18, 1945, pursuant to the provisions of the Natural Gas Act and the amended Provisional Rules of Practice and Regulations thereunder.

The Commission finds that: It is necessary, desirable and in the public in-

⁵ The Transportation Company and its aforesaid vendees are all controlled by Columbia Gas & Electric Corporation. See *In the Matter of Columbia Gas & Electric Corp., et al.*, S. E. C. Holding Company Act Release No. 5455, December 1, 1944, and Release No. 6028, September 5, 1945.

⁶ See application *In the Matter of Metropolitan Eastern Corporation*, Docket No. G-625, requesting a certificate of public convenience and necessity for authority to construct and operate a natural gas pipeline from the Carthage gas field, Panola County, Texas, to the vicinity of Cincinnati, Ohio. A hearing on this application has been ordered to commence October 15, 1945.

terest that a public hearing be held concerning the lawfulness of the changes in the Transportation Company's Rate Schedule FPC Nos. 1 and 3 proposed to be made effective by its Supplement No. 3 to each of such rate schedules, and that such supplemental rate schedules be suspended pending the hearing and decision thereon.

The Commission orders that:

(A) A public hearing be held on a date and at a place to be fixed by further order of the Commission concerning the lawfulness of the proposed changes in conditions of service set forth in Supplements No. 3 to the Transportation Company's Rate Schedules FPC Nos. 1 and 3.

(B) Pending such hearing and decision thereon, Supplement No. 3 to the Transportation Company's Rate Schedules FPC Nos. 1 and 3, insofar as such supplemental schedules provide for the sale of natural gas other than for resale for industrial use only, be and they are hereby suspended until February 13, 1946, or until such time thereafter as such supplemental rate schedules shall be made effective in the manner prescribed by the Natural Gas Act.

(C) During the period of such suspension the Transportation Company's Rate Schedules FPC Nos. 1, 3 and 4, and presently effective supplements thereto, shall remain and continue in full force and effect, except insofar as such rate schedules may be for the sale of natural gas for resale for industrial use only.

(D) Interested State commissions may participate in said hearing as provided in § 67.4 of the provisional rules of practice and regulations under the Natural Gas Act.

By the Commission.

[MPR 188, Order 51 Under Order 1052]

THE SWEAT-COMINGS Co., Inc.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Reg-

ister, and pursuant to paragraph (g) of Order No. 1052 under § 1499.159b of Maximum Price Regulation No. 183, it is ordered:

(a) *Manufacturer's maximum prices.* The Sweat-Comings Company, Inc. Richford, Vermont, may add an additional adjustment charge to its maximum prices for sales and deliveries to all classes of purchasers of the articles of wood household furniture which it manufactures, and for which maximum prices were established prior to the effective date of this order, equal to 3% of its previously established maximum prices as adjusted by paragraph (d) of Order No. 1052 under Maximum Price Regulation No. 188.

This additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted, maximum prices are subject to the manufacturer's customary terms, discounts, allowances, and other price differentials in effect during March 1942 on sales to each class of purchasers.

(b) *Maximum prices of purchasers for resale.* A person who hereafter buys an article covered by this order and resells it in substantially the same form, may collect from his customers, in addition to his properly established maximum price in effect immediately before this order was issued, an adjustment charge in the same amount as the additional adjustment charge herein authorized for and which he pays to his supplier. If he did not have a maximum price in effect for the article at the time this order was issued, he may add the same adjustment charge to the maximum price which he hereafter establishes for his sales under the applicable regulation. If the applicable regulation requires the maximum resale price to be computed on the basis of cost, the reseller must find his maximum resale price (not including the permitted adjustment charge) by using as cost his invoice cost less any adjustment charge stated on the invoice as a separate amount.

On all sales other than sales to the ultimate consumer this additional adjustment charge may be made and collected only if it is separately stated on each invoice. The adjusted price is subject to each seller's customary terms, discounts, and allowance on sales of the same or similar articles. The adjustment charge authorized in this paragraph (b) is in addition to any adjustment charge permitted for wholesalers by Order No. 1052 under Maximum Price Regulation No. 188.

(c) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established by paragraph (b) of this order for determining adjusted maximum prices for resales of the article. This notice may be given in any convenient form, and is in addition to any notice required by paragraph (d) of Order No. 1052 under Maximum Price Regulation No. 188.

(d) All requests not specifically granted by this order are hereby denied.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 26th day of September 1945.

Issued this 25th day of September 1945.

JAMES G. ROGERS, Jr.,
Acting Administrator.

[Supp. Order 103, Special Order 5]

TOLERANCES OVER 1943 AVERAGE PRICES

An opinion accompanying this Special Order No. 5, under section 17 of Supplementary Order 108 has been issued simultaneously herewith and filed with the Division of the Federal Register.

SECTION 1. Purpose of this order. This order provides percentage tolerances for certain categories which may be used during the 3d and 4th quarters of 1945 by those manufacturers whose base periods for those categories were 1943 periods. Section 3 of this order contains a list of categories together with the tolerance specified for each category.

SEC. 2. Use of the tolerance—(a) Who may use the tolerance. You may use the tolerance provided in this order for any category in the 3d and the 4th quarters of 1945: *Provided*, That your maximum average price for that category in that quarter is based on a 1943 base period.

(b) How to use the tolerance. In computing your surcharge for any category, under section 6 of SO 108, you may, during the 3d and 4th quarters of 1945, substitute for your original maximum average price the higher of the following amounts:

(1) Your adjusted maximum average price (found under section 3 of Special Order 3 to SO 108), or

(2) Your original maximum average price increased by the percentage listed for that category in section 3 of this order.

Note: In computing your credit for any category under section 6 of SO 108, you may not use the tolerance provided in this order; that is, your credit in any category is found by subtracting your weighted average price from your original maximum average price (or your adjusted maximum average price, whichever is higher) and multiplying that amount by the number of units delivered in that category.

For example: Suppose that your original maximum average price in Category A-10 is \$4.10 for the 3rd quarter. Under Special Order 3 you adjusted your maximum average price to \$4.37. The tolerance in that category is 10% of your original maximum average price. Your original maximum average price plus your tolerance is \$4.51 (\$4.10 plus 10% = \$4.51). If your weighted average price for the 3rd quarter is more than \$4.51 (the higher of the two), you must compute your surcharge for that category. To do this, you subtract \$4.51 from your weighted average price and multiply the difference by the number of units delivered in the category.

However, in order to have a credit in that category, your weighted average price must be less than \$4.37 (your adjusted maximum average price). To figure the amount of your credit, you subtract your weighted average price from \$4.37 and multiply the difference by the number of units delivered in the category.

SEC. 3. Percentage tolerances.

The seller may offer to sell an insulation job covered by this Revised Order No. G-4 on the basis of a "guaranteed price" wherein the seller agrees to charge a fixed amount; *Provided, however*, That the "guaranteed price" must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order. Upon completion of the contract, and before final payment, if required by the purchaser, the seller is required to furnish the purchaser with an itemized statement showing the number of square feet and the thickness and unit price for each category of insulation used which is specified in paragraph (b), and an explanation of the amount for incidental work.

(h) Notification. Every person making sales subject to this Revised Order No. G-4 shall state on his sales tag or invoice that the price charged does not exceed the price permitted by this Revised Order No. G-4 under Revised Maximum Price Regulation No. 251.

(i) Erason. Any practice or device which results in a higher price to the purchaser than is permitted by this Revised Order No. G-4 is as much a violation as an outright over-ricing charge and subjects the seller to the penalties provided by Section 16 of Revised Maximum Price Regulation No. 251.

(j) This order may be revised, amended, or revoked by the Office of Price Administration at any time.

This order shall become effective September 19, 1945.

- Hose opening----- \$2 each.
- Strip opening----- \$0.50 per linear foot.
- For tile roofs and decks covered with canvas or metal----- Actual cost of labor and material.

Closing of openings includes restoring of original finish but not decorating.
² Plus cost of labor and material necessary if retaining material is furnished.

NOTES: For loose material installed in depths other than 4" the above prices may be increased by 1½¢ (or 2½¢ in the case of mineral wool) for each inch over 4" and shall be decreased by 1½¢ (2½¢ in the case of mineral wool) for each inch under 4".

In regard to depth of loose material, a fill ¾" less than nominal will be recognized as full. In regard to thickness of batts, a 1" (standard) batt shall include all thicknesses of 1" and over but less than 2"; the 2" (semi-thick) batt shall include all batts 2" and over but less than 3"; the 3" (full-thick) batt shall include all batts 3" or more in thickness.

The area of elevator shafts, ventilators, skylights, monitors, and penthouses on flat roofs shall not be in-

cluded where they are more than 16 square feet in area and extend through the areas to be insulated. Where the exterior walls are of brick and/or stone veneer or solid brick, the area of floors or ceilings to be insulated shall be determined by taking gross interior dimensions. For stairwell walls, measurements may be taken as a rectangle from floor to ceilings instead of as a triangle. In determining the total square foot area for each type of insulation ordered by the buyer, a tolerance of five percent will be permitted.

(e) Where a sale for which a maximum price is provided above includes either the special insulation work enumerated in paragraph (i) below, or incidental construction work of the types enumerated in paragraphs (ii) and (iii) below, the maximum price so provided may be increased by the amount of the seller's maximum price for the special insulation work or incidental construction work established in accordance with Revised Maximum Price Regulation No. 251.

- (i) Insulating doors and scuttle covers.
- (ii) The following accessories: slant roof louveres, gable louveres, roof ventilators, and knee wall ventilators.
- (iii) Other incidental construction work not included with the maximum prices established in paragraph (b).

[Region III Rev. Order G-57 Under 18, (c)]

FIREWOOD IN UPPER PENINSULA OF MICHIGAN

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1499.18 (c) of the General Maximum Price Regulation, it is hereby ordered:

(a) *What this order does.* This order establishes ceiling prices for various types of sellers of firewood. Section (b) (1) and (b) (2) establish dollars-and-cents ceiling prices. Provision is made for specific deductions and additions determined by the basis of delivery used. Paragraph (b) (3), Schedule B, establishes ceiling prices for sales by producers and wholesalers to retailers, and paragraph (b) (1), Schedule A, maximum prices which may be charged consumers by all persons including producers and retail dealers; such maximum prices, in the main, are based upon current costs plus March 1942 margins. Paragraph (c) provides special methods for pricing specialty woods, including kindling. No person may sell firewood at prices higher than the ceiling prices provided in this Order.

(b) *Ceiling prices for sales by producers of firewood.* The ceiling prices for sales of firewood loaded in freight cars at producer's plant, or delivered within producer's free delivery zone, shall be the prices set forth in paragraphs (b) (1) and (b) (2) of this section. From these amounts shall be deducted, or to those amounts may be added, the deductions or additions applicable to the type of delivery described in sub-paragraph 3.

(1) Ceiling prices for sales by all persons including producers or retailers, to consumers, shall be the prices set forth in Schedule A, attached hereto and made a part hereof as though fully written herein.

(2) Ceiling prices for sales by producers and wholesalers to retail dealers shall be, subject to the delivery allowances and deductions provided in section (b) (3), the prices set forth in Schedule B, attached hereto and made a part hereof as though fully written herein.

(3) *Delivery allowances and deductions.* Where wood is sold on some basis other than loaded on freight cars at the

producer's plant, or delivered within the producer's free delivery zone (as that term is defined in section (d) (15) of this order), the following additions may, and the following deductions must, be made:

(i) Where firewood is picked up by the buyer at the producer's place of business, the following deductions from the ceiling prices above established must be made:

Standard cord of 48" or 8' lengths.....	\$1.00
Single cord of 24" lengths.....	.55
Single cord of 16" lengths.....	.40
Single cord of 12" lengths.....	.30

(ii) For deliveries of a minimum load of 128 cubic feet of firewood (measured in pile) beyond the seller's free delivery zone, if delivery is made by seller's own truck, the following delivery charges may be added:

Distance beyond free delivery zone	Allowance per minimum load of 128 cubic feet
Not over 5 miles.....	\$0.50
Over 5 miles, but not over 10 miles.....	1.00
Over 10 miles, but not over 15 miles.....	1.50
Over 15 miles.....	1.75

(iii) If deliveries of firewood are made in amounts less than 128 cubic feet (piled) the maximum delivery allowance set forth in the table of sub-paragraph (ii) above shall be reduced in the proportion which the actual load bears to 128 cubic feet.

(iv) If delivery is made by common or contract carrier a seller may add the actual amount paid to such a carrier but in no event an amount exceeding lawful maximum rate for such delivery.

(4) *Test loads.* When a producer sells firewood all of the same size and type by the rail carload, he shall, unless he actually measures the exact number of cords in the carload, weigh one cord of the wood sold and determine the total number of such cords in the carload by dividing the net weight of the carload by the weight of such "test" cord.

(c) *Maximum prices for retail dealers who cannot price under subparagraphs (b) (1) and (b) (2).* Retail dealers who cannot establish a maximum price for any kind, size, or type of firewood under the paragraphs (b) (1) or (b) (2) because they saw or otherwise process firewood in sizes or kinds substantially different from those shown in Schedules A and B of paragraph (b) or for any other reason, shall apply to the Escanaba District Office of the Office of Price Administration for ceiling prices or for a pricing method whereby such ceiling prices may be determined. Such applications shall be filed by any dealer now selling firewood on or prior to December 31, 1945, and by any other retail dealer prior to making any sales. Such applications shall state:

(i) The kind, size and type of firewood to be sold.

(ii) The names and addresses of the two retail dealers located closest to applicant's place of business.

(iii) An analysis of transportation, sawing, handling, loading, unloading and other costs, if any, incidental to the sale of each kind, size and type of firewood.

(iv) The method of pricing and the proposed prices which the applicant desires to use.

(v) Such other information as the Office of Price Administration may request.

Upon such application, the Office of Price Administration will establish ceiling prices or a method for establishing ceiling prices which will be in line with the general level of ceiling prices established under this order. The proposed prices shall be considered approved twenty days after mailing the application (or all additional information which may have been requested), unless, within that time, the Office of Price Administration advises you that your prices have been disapproved.

(d) *Deductions.* As used in this order, (1) "Firewood" means any wood sold for ultimate use in stove or furnaces as fuel, but does not include wood sold for chemical distillation purposes.

(2) "Body or block wood" means those types of firewood cut from trees, logs, or parts of trees and logs, with a diameter before splitting of at least 2 inches.

(3) "Slab wood" means wood cut from the sides of a log or bolt.

(4) "Bundled edgings" means wood cut from the side of a piece of lumber and tied into bundles in accordance with accepted trade practices.

(5) "Hardwood" means firewood at least 95% of which is produced from the commercial species of the genera ash (*Fraxinus*), beech (*Fagus*), birch (*Betula*), elm (*Ulmus*), maple (*Acer*), oak (*Quercus*), and all other hardwood species except popple, poplar, or aspen (*Populus*), basswood (*Tilia*), and soft elm (*Ulmus fulva* or *Americana*).

(6) "Mixed wood" means firewood at least 50% of which is produced from the commercial species of the genera of ash (*Fraxinus*), beech (*Fagus*), birch (*Betula*), elm (*Ulmus*), maple (*Acer*), oak (*Quercus*), and all other hardwood species except aspen, popple, or poplar (*Populus*), basswood (*Tilia*), and soft elm (*Ulmus fulva* or *Americana*).

(7) "Softwood" means any firewood which does not qualify as hardwood of mixed wood, but which can be used as fuelwood.

(8) A "producer" means a person who produces firewood:

(a) By manufacturing forest products into fuelwood as defined above,

(b) As a result of the operation of a sawmill, veneer mill, or any other type of woodworking plant.

(9) A "retail dealer" means a seller of firewood who produces no firewood but acquires firewood from producers or from other dealers. Cutting firewood into smaller lengths than the lengths in which it was acquired or purchased shall not be considered to be producing firewood.

(10) A "standard cord of 4 foot or 8 foot lengths" means a pile of firewood of 4 foot lengths piled 4 feet high and 8 feet wide, or a pile of firewood of approximately 8 foot lengths piled 4 feet high and 4 feet wide.

(11) A "single tier of 24 inch lengths" means a pile of firewood of 20 inch to 28 inch lengths piled 4 feet high and 8 feet wide.

(12) A "single tier of 16 inch lengths" means a pile of firewood of 14 inch to 20 inch lengths piled 4 feet high and 8 feet wide.

(13) A "single tier of 12 inch lengths" means a pile of firewood of 11 inch to 14 inch lengths piled 4 feet high and 8 feet wide.

(14) "Piled" means piled as tightly as the type of wood will permit and in accordance with established trade practices.

(15) A seller's "Free delivery zone" is the corporate limits of the city or village, if any, within which the seller is located but in no event an area smaller than the area within a radius of five miles of the seller's place of business.

(16) "Specialty firewood" means kindling, or wood which is produced as a byproduct at a sawmill, veneer mill, flooring mill or other wood-working plant, either in random lengths or uneven shapes and sizes so that it cannot practicably be piled, measured, and sold in cords. Examples of "specialty firewood" are such woods as but not limited to, flooring clippings, defective bowling pin blanks, plywood clippings, short edgings, log ends, etc.

(e) *Invoices and records.* Every person making a sale of firewood for which a maximum price is set by this order shall give the purchaser or his agent at the time of the sale an invoice or other memorandum of sale, which shall show:

(1) The date of sale;

(2) The name and address of the buyer and seller;

(3) The quantity of firewood sold, expressed in terms of standard cords, single tiers, or weight, whichever is the unit of measurement used as the basis of maximum prices established by this Order;

(4) Description of firewood sold in the same manner as it is described in this Order. (This shall include the kind of wood, i. e., hard, soft or mixed, and average length of pieces of wood.)

(5) Place of Sale. (If the price is dependent on place of delivery, then the place of delivery shall be stated in such a manner to indicate the exact amount of delivery charges added.)

(6) The price per unit and the total price of the wood. On the invoice or memorandum, a separate statement shall be made of any discounts, and of each service rendered such as delivery, carrying and stacking, and the charge made for each such service.

The seller shall keep an exact copy of such invoice or memorandum for as long as the Emergency Price Control Act of 1942, as amended, remains in effect, and such copy shall be made available for inspection by the Office of Price Administration.

(f) *Geographical applicability.* This order shall apply to all sales by any persons whose places of business are located within the following counties, all within the upper Peninsula of Michigan: Alger, Baraga, Chippewa, Delta, Dickinson, Gogebic, Houghton, Iron, Keweenaw, Luce, Marquette, Marinette, Menominee, Ontonagon, and Schoolcraft.

(g) *Effect on other orders.* This order supersedes and revokes any and all former orders issued under § 1499.18 (c) of the General Maximum Price Regulation insofar as the latter apply to sellers located in the counties covered by this order.

(h) *Revocability.* This order may be modified, amended or revoked at any time by the Office of Price Administration.

(i) *Effective date.* This Revised Order No. G-57 under § 1499.18 (c) of the

General Maximum Price Regulation shall become effective August 25, 1945.

Issued August 25, 1945.

CLIFFORD J. HOUSER,
Acting Regional Administrator.
