TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter A—Farm Housing Loans and Grants
[FHA Instruction 451.7]

PART 307—FARM AND HOME MANAGEMENT YEAR-END SERVICING

SUBPART A—ANNUAL CHECKOUT FOR SECTION 503 BORROWERS

APPLICATION OF PAYMENTS TO CHATTEL DEBTS

Section 307.2 (b) (1) Title 6, Code of Federal Regulations (17 F. R. 10159) is revised to provide that payment on chattel debts be in the amount of the scheduled installment for the year or a reasonable amount, whichever is less, and that if the actual payment is more than the amount considered reasonable, only the latter figure will be used in determining the borrower's right to a contribution. The revision reads as follows:

§ 307.2 Use of income. * * *

(b) * * *

(1) To pay on chattel mortgage debts the amount of the scheduled installment for the year as shown on the chattel note or the amount considered by the County Supervisor as reasonable, whichever is less. When the amount actually paid on the chattel mortgage debt during the payment year is larger than the amount considered reasonable, only the latter figure will be used in computing the amount, if any, of contribution to which the borrower is entitled. If the Farm Housing mortgage is subject to a prior lien on which there are amounts overdue or soon to become due and the borrower's cash income is insufficient to make payments with respect to chattels as specified in the preceding sentence and also to pay in full the amounts overdue or soon to become due on the prior lien, the prior lienholder's consent to letting delinquencies remain or occur should be obtained in order to avoid foreclosure.

(Sec. 510 (g), 63 Stat. 438; 42 U. S. C. 1420 (g). Interprets or applies sec. 503, 63 Stat. 434; 42 U. S. C. 1473)

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS).

SUBPART B—UNITED STATES STANDARDS FOR FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS

UNITED STATES STANDARDS FOR PINEAPPLES

On December 6, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (F. R. Doc. 52-12944, 17 F. R. 11123) regarding proposed United States Standards for Pineapples.

A period of thirty days was allowed for submitting written data, views and arguments for consideration in connection with the proposed standards. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice of rule making, the following United States Standards for Pineapples are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952)

Fancy consists of pineapples of similar varietal characteristics, which are mature, firm, dry and well formed, which have well developed eyes, and which are free from decay and sunscald, and free from injury caused by bruising, sunburn, and gummosis, and free from damage caused by disease, insects, rodents or mechanical or other means. The butts shall be well trimmed, well cured, and free from damage caused by cracks. The tops shall be of characteristic color, single, straight, well attached to the fruit and free from crown slips. The length of the tops shall be not less than 5 inches nor more than 1½ times the length of the fruit. (See Size and Marking Requirements.)	
(1) In order to allow for variations incident to proper grading and handling, other than for size and marking, not more than a total of 10 percent, by count, of the pineapples in any lot may fail to meet the requirements of the grade: <i>Provided</i> , That not more than one-half of this amount, or 5 percent, shall be allowed for pineapples which are seriously damaged, including therein not more than 1 percent for pineapples affected by decay.	
(2) <i>U. S. No. 1.</i> U. S. No. 1 consists of pineapples of similar varietal characteristics, which are mature, firm, dry and well formed, which have well developed eyes, and which are free from decay and sunscald, and free from damage caused by bruising, sunburn, gummosis, disease, insects, rodents or mechanical or other means. The butts shall be well trimmed, fairly well cured and shall not be badly cracked. The tops shall be of characteristic color, single, reasonably straight, well attached to the fruit, and shall have not more than 5 crown slips, not more than 2 of which may be more than 2¾ inches in length. The length of the tops shall be not less than 4 inches nor more than twice the length of the fruit. (See Size and Marking Requirements.)	
(1) In order to allow for variations incident to proper grading and handling, other than for size and marking, not more than a total of 10 percent, by count, of the pineapples in any lot may fail to meet the requirements of the grade: <i>Provided</i> , That not more than one-half of this amount, or 5 percent, shall be allowed for pineapples which are seriously damaged, including therein not more than 1 percent for pineapples affected by decay.	
(3) <i>U. S. No. 2.</i> U. S. No. 2 consists of pineapples of similar varietal characteristics, which are mature, firm and fairly well formed, which have fairly well developed eyes, and which are free from decay and sunscald, and free from serious damage caused by bruising, sunburn,	

gummosis, disease, insects, rodents or mechanical or other means. The butts shall be fairly well cured. The tops shall be of characteristic color, well attached to the fruit, not completely curved over and shall consist of not more than 2 fairly well developed stems but may have any number of crown slips. (See Size and Marking Requirements.)

(1) In order to allow for variations incident to proper grading and handling, other than for size and marking, not more than a total of 10 percent, by count, of the pineapples in any lot may fail to meet the requirements of the grade: *Provided*, That not more than one-tenth of this amount, or 1 percent, shall be allowed for pineapples affected by decay.

(b) *Unclassified.* Unclassified consists of pineapples which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Application of tolerances.* (1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade.

(1) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified.

(1) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that at least one decayed or otherwise defective fruit may be permitted in any package.

(d) *Size and marking requirements.* (1) The pineapples in each container shall be fairly uniform in size and the count shall be plainly stamped, stenciled or otherwise marked on the container.

(2) In order to allow for variations incident to proper packing not more than 5 percent of the packages in any lot may fail to meet the requirements pertaining to size and marking.

(e) *Definitions.* (1) "Similar varietal characteristics" means that the pineapples in any lot are similar in type and character of growth.

(2) "Mature" means that the pineapple has reached the stage of development which will insure a proper completion of the ripening process.

(3) "Firm" means that the fruit does not yield to slight pressure.

(4) "Dry" means that the surface of the fruit is free from moisture other than that resulting from condensation.

(5) "Well formed" means that the fruit shows good shoulder development and is not lopsided or distinctly pointed, and that the sides are not noticeably flattened.

(6) "Well developed eyes" means eyes which have developed normally.

(7) "Injury" means any defect which more than slightly affects the appearance or the edible or shipping quality of the fruit. Sunburn which will not more than slightly affect the appearance of the fruit when ripe, or gummosis which is very slight shall not be considered as injury.

(8) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the fruit. Sunburn which will not materially affect the appearance of the fruit when ripe, or gummosis which is slight or does not materially discolor the eyes shall not be considered as damage.

(9) "Well trimmed" means that the bracts on the stem next to the base of the fruit have been removed and the stem has been cut off so that the fruit will stand straight when placed butt end down on a flat surface.

(10) "Well cured" means that the cut portion of the butt has completely calloused over.

(11) "Characteristic color" means that at shipping points the tops are of good green color characteristic of well-grown pineapples, and in the receiving markets, are fairly good green color and relatively free from dryness and discoloration.

(12) "Single top" means that the fruit does not have more than one prominent main stem at the crown of the fruit.

(13) "Crown slips" means the small, secondary top growths at the crown of the fruit.

(14) "Fairly well cured" means that the cut portion of the butt is free from bleeding.

(15) "Fairly well formed" means that the fruit is not excessively lopsided or excessively flattened at the shoulders or sides.

(16) "Fairly well developed eyes" means eyes which show fairly normal development and are not badly misshapen.

(17) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the fruit.

(18) "Fairly uniform in size" means that for counts 18 or less in standard southeastern pineapple crates, the pineapples do not vary more than $\frac{1}{8}$ inch in diameter, and for counts over 18 in number the pineapples do not vary more than $\frac{1}{2}$ inch in diameter. Diameter shall be the greatest dimension measured at right angles to a line from top to butt.

Effective time. The United States Standards for Pineapples contained in this section and which supersede the suggested tentative United States Grades for Pineapples issued December 4, 1931, and United States Standards for Porto Rican Pineapples issued October 27, 1931, shall become effective thirty (30) days after the date of publication in the FEDERAL REGISTER.

[Lemon Reg. 469]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.576 Lemon Regulation 469—

(a) **Findings.** (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612) regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C., 601 et seq.) and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on January 21, 1953; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) **Order** (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 25, 1953, and ending at 12:01 a. m., P. s. t., February 1, 1953, is hereby fixed as follows:

- (i) District 1: Unlimited movement;
- (ii) District 2: 250 carloads;
- (iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handler," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

[Tangerine Reg. 132]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.609 *Tangerine Regulation 132—*

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933) regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy

of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than January 26, 1953. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until January 26, 1953; the recommendation and supporting information for continued regulation subsequent to January 25 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 20; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 26, 1953, and ending at 12:01 a. m., e. s. t., February 9, 1953, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 1 Russet; or

(ii) Any tangerines, grown in the State of Florida, which are of a size smaller than the size that will pack 210 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19½ inches; capacity 1,726 cubic inches).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Russet," and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§ 51.417 of this title; 17 F. R. 8377).

[Orange Reg. 229]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.610 *Orange Regulation 229—*

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than January 26, 1953. Shipments of oranges, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until January 26, 1953; the recommendation and supporting information for continued regulation subsequent to January 25 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on January 20; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., January 26, 1953, and ending at 12:01 a. m., e. s. t., February 9, 1953, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than 2¹/₁₆ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges, smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Oranges (§ 51.302 of this title; 17 F. R. 7879) *Provided*, That, in determining the percentage of oranges in any lot which are smaller than 2¹/₁₆ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size 2¹/₁₆ inches in diameter and smaller.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the term "U. S. No. 1 Russet" shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§ 51.302 of this title; 17 F. R. 7879)

(3) Shipments of Temple oranges, grown in the State of Florida, are subject to the provisions of Orange Regulation 225 (§ 933.596; 17 F. R. 10438)

(Sec. 5, 49 Stat. 763, as amended; 7 U. S. C. and Sup. 608c)

LIMITATION OF SHIPMENTS

§ 933.611 *Grapefruit Regulation 174—*

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933) regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the pub-

lic interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (60 Stat. 237 5 U. (i) Any white seeded grapefruit grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any pink seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2;

(iii) Any seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2 Russet;

(iv) Any seeded grapefruit, other than pink grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(v) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(vi) Any white seedless grapefruit, grown in the State of Florida, which

are of a size smaller than a size that will pack 96 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vii) Any pink seedless grapefruit grown in the State of Florida, which are of a size smaller than a size that will pack 112 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box.

(2) As used in this section, "handler," "variety" and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. No. 1 Russet," "U. S. No. 2," "U. S. TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade [6th Gen. Rev. of Export Regs., Amdt. 27¹]

PART 371—GENERAL LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 380—AMENDMENTS, EXTENSIONS, TRANSFERS

PART 382—DENIAL OR SUSPENSION OF EXPORT PRIVILEGES

PART 384—GENERAL ORDERS

MISCELLANEOUS AMENDMENTS

1. Section 371.18 *Return of certain commodities imported into the United States GLR* is amended by adding thereto a new paragraph (g) to read as follows:

(g) *Return of shipments refused entry.* Shipments of commodities refused entry by U. S. Customs, by the Food and Drug Administration, or by other U. S. Government agencies may be returned under this general license to the country of origin, including Hong Kong and Macao, and Subgroup A countries, except that this paragraph does not authorize the return of any shipment which has

¹ This amendment was published in Current Export Bulletin No. 691, dated January 15, 1953, and in the reprint page, dated January 15, 1953.

been refused entry by U. S. Customs because of the Foreign Assets Control Regulations of the Treasury Department unless such return is licensed or otherwise authorized by the Foreign Assets Control.

2. Section 373.7 *Special provisions for machinery and parts* is amended in the following particulars:

a. In subparagraph (1) of paragraph (c) *Pumps, compressors, blowers, exhausters, fans, and parts* the reference to "(Schedule B Nos. 770900 through 770990)" is amended to read: "(Schedule B Nos. 770900 through 770995)"

b. In subparagraph (2) of paragraph (c) the parenthetical reference to "(classified within Schedule B Nos. 771150 or 770400 through 770775)" is amended to read as follows: "(classified within Schedule B Nos. 770400 through 770775)".

c. Paragraph (d) *Automotive replacement parts* is amended to read as follows:

(d) *Automotive replacement parts—*

(1) *Additional application requirements.*

(i) An exporter who receives an order, or an inquiry relating to an order, for automotive replacement parts, listed in subparagraph (2) of this paragraph, to be exported to a destination listed in subparagraph (3) of this paragraph from a consignee with whom he has not previously done business and who has not been approved as an ultimate consignee on an export license issued to him, is required to observe the special provision described in this paragraph when filing an application for a validated export license to make the proposed shipment.

(ii) Prior to filing a license application, the exporter shall request the ultimate consignee to communicate with the nearest United States embassy or consulate in his area and provide information for a World Trade Directory report, if he has not already done so within the last 12 months. When applying for an export license, such an exporter, in addition to supplying the information required by paragraph (a) of this section, shall state in the commodity description item of the license application, or on an attachment thereto, that he has requested the ultimate consignee to provide the information specified above.

(iii) The filing of World Trade Directory report information with a United States embassy or consulate is essential in order to facilitate final action on the application for a validated license. Licenses will not be issued in such cases until the related reports are received from the embassies or consulates, or unless such reports are on file in the Department of Commerce. Applications will be returned without action in any instance where the World Trade Directory report is not received by the Department of Commerce within 90 days from the date of filing the application.

(2) *Commodities.* The provisions of this paragraph are applicable to applications for licenses to export the following commodities to the destinations set forth in subparagraph (3) of this paragraph.

Schedule B No.	Commodity

3. Section 380.2 *Amendments or alterations of licenses* is amended in the following particulars:

a. The second undesignated paragraph *Amendment action by field offices* of Note 1, *Licenses held by collectors* following paragraph (c) *Procedure for submitting requests for amendments* is amended to read as follows:

Amendment action by field offices. Amendments approved by field offices will be validated in a different manner than those approved by the Washington office. The facsimile of the Department of Commerce seal and the name of the field office will be inserted in the space marked "Validation" by means of a validating machine and plate. To complete the validation process, the

amending officer will, in the spaces provided, insert a serial number and sign and date Form IT-763. The collector's copy of the approved form will be sent to the appropriate collector of customs by official transmittal as the official notice of amendment. A confirmation copy will be sent to the individual named in item 4 of Form IT-763. In the case of rejection or return without action, the amending officer will, in the spaces provided, indicate rejection or RWA, sign, date, identify the field office, and give the reasons for such action; a confirmation copy will be sent to the individual named in item 4 of Form IT-763.

5. Section 384.5 *Order revoking certain general licenses to mainland of China (including Manchuria) Hong Kong, and Macao* is amended in the following particulars:

a. A footnote 1 is added following the title of the section to read as follows:

¹ Order effective 12:01 a. m., eastern standard time, December 3, 1950, and amendment thereof issued and announced December 6, 1950, December 28, 1950, January 25, 1951, March 22, 1951, May 17, 1951, and January 15, 1953, respectively.

b. The word "GLR" is deleted in the first sentence of the section. The remainder of the section is unchanged. The first sentence, as amended, is to read as follows: "General Licenses GRO, GMC, and GCC, authorizing exportation of any commodity, whether or not included on the Positive List of Commodities (§ 399.1 of this subchapter), are revoked to the following destinations."

6. Section 384.9 *Order revoking certain general licenses to subgroup A destinations* is amended in the following particulars:

a. A footnote 1 is added following the title of the section to read as follows:

¹ Order effective 12:01 a. m., March 2, 1951, and amendment thereof effective January 15, 1953.

b. The word "GLR" is deleted in paragraph (a) of this section. The remainder of the section is unchanged. The first sentence, as amended, is to read as follows: "General Licenses GRO, GMC, GCC, GIT, and GITD, authorizing exportation of any commodity, whether or not included on the Positive List of Commodities (§ 399.1 of this subchapter) or technical data, are revoked for exports to subgroup A destinations."

This amendment shall become effective as of January 15, 1953.

CPR 30—MACHINERY AND RELATED MANUFACTURED GOODS

SR 11—AUTOMOTIVE TRUCKS, MOTOR COACHES, TRUCK TRAILERS, TRAILER COACHES, AMBULANCES, HEARSEs, FLOWER CARS, MOTORCYCLES AND MOTOR SCOOTERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105) and Economic Stabilization Agency General Order No. 2 (16 F. R. 738) this Supplementary Regulation 11 to Ceiling Price Regulation 30 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation to Ceiling Price Regulation 30 applies to manufacturers of automotive trucks, motor coaches, truck trailers, trailer coaches, ambulances, hearses, flower cars, motorcycles and motor scooters. It establishes a method whereby such manufacturers may determine their ceiling prices for these vehicles and for any extra, special or optional equipment installed thereon.

The manufacturers subject to this supplementary regulation face special pricing problems not encountered by other manufacturers under Ceiling Price Regulation 30. Most passenger automobile manufacturers also produce automotive trucks, busses or other vehicles.

No. 16—2

In large measure, these commercial vehicle manufacturers all use similar production, distribution and pricing methods.

Accordingly, this supplementary regulation incorporates a number of the provisions relating to pricing now found in Ceiling Price Regulation 1, Revision 1, the regulation governing sales by manufacturers of passenger automobiles. This action is consistent with the policy of the Office of Price Stabilization to provide price controls adapted both to the specific nature and needs of particular industries and to the requirement for effective administration and enforcement.

A manufacturer using this supplementary regulation may redetermine his ceiling price for his vehicle and any extra, special or optional equipment thereon, to put his prices on a f.o.b. factory basis, exclusive of any additional charges he may have previously included in his ceiling price under Ceiling Price Regulation 30. To the ceiling price as computed under this supplementary regulation, the manufacturer will add separately his charges for transportation, federal excise taxes, extra, special or optional equipment, handling and delivery, and any other charges, following his usual practice on December 1, 1950 for determining the amount of such charges. Recalculation of existing ceiling prices is not compulsory, however. Manufacturers subject to this regulation may elect to continue to use their ceiling prices as determined under Ceiling Price Regulation 30.

This supplementary regulation does not affect sales by a manufacturer of any products other than the commercial vehicles named herein and the extra, special or optional equipment installed thereon. Accordingly, sales of replacement parts by such manufacturers continue to be subject to Ceiling Price Regulation 30, as well as parts and extra, special or optional equipment made by manufacturers who do not produce a complete commercial vehicle.

Many of the manufacturers subject to this supplementary regulation make shipments from assembly plants as well as from their main factory. Historically, their transportation charges are identical, irrespective of the actual point of origin. Ceiling Price Regulation 30 upset that customary practice. This supplementary regulation now places commercial vehicle manufacturers on the same basis as passenger automobile manufacturers who are authorized under Ceiling Price Regulation 1, Revision 1, the regulation governing their sales of automobiles, to continue their historical method of determining their transportation charges. In addition, this supplementary regulation will allow certain commercial vehicle manufacturers who now sell on a delivered basis and furnish the transportation themselves, to follow their customary method of determining their transportation charge. They will be able, as a result, to reflect in their ceiling prices established under this supplementary regulation their higher transportation costs and will have the same type of price relief now granted by Supplementary Regulation 9 to Ceiling Price Regulation 30 to manufacturers who use outside transportation facilities.

This supplementary regulation also provides a new method for establishing ceiling prices for new models of automotive trucks, and extra, special or optional equipment thereon. The method provided is simpler than that used for new commodities in Ceiling Price Regulation 30 and parallels the procedure prescribed in Ceiling Price Regulation 1, Revision 1 for the same purpose. An automotive truck will be considered to be a new model if it is not a counterpart or modification of a vehicle for which a ceiling price had already been established prior to the effective date of this supplementary regulation. Manufacturers of motor coaches, truck trailers, trailer coaches, ambulances, hearses, flower cars, motorcycles and motor scooters will not, however, determine their ceiling prices for new models under the provisions of this supplementary regulation but will continue to use section 9 of Ceiling Price Regulation 30 for that purpose. It is contemplated that a meeting will be held with representatives of these manufacturers at which consideration will be given to the practicability of allowing all other commercial vehicle manufacturers to use a similar method of establishing ceiling prices for new models.

Every effort has been made to conform this supplementary regulation to existing business practices, cost practices or methods, or means or aids to distribution. Insofar as any provisions of this supplementary regulation may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of the regulation.

In the formulation of this supplementary regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. On December 3, 1952, a meeting was held with the Commercial Motor Vehicle Manufacturers Industry Advisory Committee, comprising representatives of the motor truck manufacturing industry. In the judgment of the Director of Price Stabilization, the ceiling prices established by this supplementary regulation are generally fair and equitable to buyers and sellers alike, and are consistent with the requirements of and are necessary to effectuate the purpose of Title IV of the Defense Production Act of 1950, as amended.

AUTHORITY: Sections 1 to 7 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Supp. 2101-2110, E. O. 10161, September 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. Sellers and sales affected by this supplementary regulation. This supplementary regulation applies to you if you are a manufacturer of automotive trucks, motor coaches, truck trailers, trailer coaches, ambulances, hearses, flower cars, motorcycles or motor scooters, and items of extra, special or optional equipment sold with such vehicles. However, this supplementary regulation does not affect sales of extra, special, or optional equipment sold by a manufacturer who does not make such commercial vehicles nor does it affect sales of replacement parts. The terms "manufacturer," "automotive truck," "motor coach," "truck trailer," "trailer coach," "ambulance," "hearse," "flower car," "motorcycle," "motor scooter," and "items of extra, special or optional equipment" are defined in section 7.

Sec. 2. What this supplementary regulation does. This supplementary regulation establishes an alternative method for determining ceiling prices for new and unused automotive trucks, motor coaches, truck trailers, trailer coaches, ambulances, hearses, flower cars, motorcycles, motor scooters, and extra, special or optional equipment on these vehicles. Under this supplementary regulation, if you manufacture any of these vehicles you may recompute your ceiling prices which were calculated under the provisions of CPR 30, to establish a ceiling price, f. o. b. your factory. The ceiling price so computed will include all equipment that is standard for each body type or line of each of your makes of vehicles on the effective date of this supplementary regulation. In addition to your ceiling price of the vehicle, you are authorized to make a charge for any extra, special, or optional equipment installed thereon, at the written request of the purchaser, which equipment was not standard on the effective date of this supplementary regulation. Separate charges may also be made for transportation, federal excise taxes and handling and delivery or any other charges, in accordance with your usual practice on December 1, 1950. The method for establishing ceiling prices are set forth in greater detail in section 5, below. This supplementary regulation also provides in section 6, below, a method for determining the ceiling price of new models of automotive trucks and new items of extra, special, or optional equipment on such automotive trucks. If you are a manufacturer of automotive trucks, you must determine your ceiling prices for your new models of automotive trucks and new equipment thereon under section 6, whether or not you elect to use section 5 for establishing ceiling prices for the automotive trucks and equipment you are now manufacturing.

Sec. 3. Applicability of Ceiling Price Regulation 30. All provisions of CPR 30 shall remain applicable to you except as those provisions are limited, modified

or supplemented by this supplementary regulation.

SEC. 4. Reporting and record-keeping requirements. You must keep available for inspection by the Office of Price Stabilization for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, records showing the methods used by you in making the calculations under this supplementary regulation. All other reporting and record-keeping provisions of CPR 30 remain applicable to you, except that you need not file an amended Public Form No. 8 pursuant to section 35 of CPR 30.

Sec. 5. Ceiling prices established by this supplementary regulation. (a) Under this supplementary regulation your ceiling price for a new and unused automotive truck, motor coach, truck trailer, trailer coach, ambulance, hearse, flower car, motorcycle, and motor scooter to a class of purchaser will be your ceiling price in effect on the date this supplementary regulation becomes effective for each body type in each line, or their counterparts of each make, to the same class of purchaser less the amount of any charge for transportation, federal excise taxes, handling and delivery, or any other charges you may have included in your ceiling price. Such additional charges may be made in accordance with paragraphs (b) and (c). Your ceiling price shall include all equipment that was standard for each body type or line of each make on the effective date of this supplementary regulation.

(b) If a new automotive truck, motor coach, truck trailer, trailer coach, ambulance, hearse, flower car, motorcycle or motor scooter is sold with equipment which was not standard on the date this supplementary regulation becomes effective, you may add to your ceiling price of the commercial vehicle determined under paragraph (a) your ceiling price in effect on the date this supplementary regulation becomes effective, for the extra, special, or optional equipment installed on the commercial vehicle.

(c) In addition to your ceiling price determined under paragraphs (a) and (b) you may make separate charges for transportation, federal excise taxes, and handling and delivery or other charges, in accordance with your usual practice on December 1, 1950. You shall not change the practice which you followed on that date with respect to transportation charges, taxes, or any other charges incident to the sale or delivery of a new commercial vehicle where the effect of such change would be to increase the cost to the purchaser, nor may you increase your handling and delivery charge above the amount of the charge in effect on the date this supplementary regulation becomes effective.

(d) Notwithstanding the provisions of paragraphs (a) and (b) you may, if you so elect, continue to use your ceiling prices for automotive trucks, motor coaches, truck trailers, trailer coaches, ambulances, hearses, flower cars, motorcycles and motor scooters and on items of extra, special, or optional equipment in effect at the time this supplementary regulation becomes effective.

Sec. 6. Ceiling prices for new automotive trucks and new extra, special or optional equipment on automotive trucks.—(a) *New automotive trucks.* If, on or after the effective date of this supplementary regulation, you produce an automotive truck which is not a counterpart or a modification of any body type, line, or series for which you have previously established a ceiling price under Ceiling Price Regulation 30, you shall apply to the Office of Price Stabilization for an order establishing a ceiling price for your automotive truck. You shall not sell a new automotive truck, referred to in this section, until you have received from the Office of Price Stabilization a ceiling price for each new automotive truck you desire to sell. Your application must be filed with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and contain the following information:

(1) A description of the new automotive truck for which a ceiling price is sought, with a statement justifying your classification as a new automotive truck, not a counterpart, within the meaning of this regulation. This description should give details of the body types to be produced; the engine, including the manufacturer, number of cylinders, horsepower rating, bore and stroke; wheelbase and over-all length, gross vehicle weight; wheel equipment; tire size; type of final drive; and any other information you deem pertinent.

(2) A detailed statement of the total unit costs of the new automotive truck as of the time of the application, including your direct materials and labor costs, factory overhead, tool amortization, selling and general and administrative expense. If any of these costs are estimated this must be indicated, with the basis for arriving at your estimate.

(3) A description of the automotive truck you manufacture and consider most similar to the new automotive truck and for which you have a ceiling price; a detailed statement of the total unit costs as of the date of your application pursuant to this section, including your direct materials and labor costs, factory overhead, selling and general and administrative expense (if any of these costs are estimated this must be indicated, with the basis for arriving at your estimate) a statement of your original tool amortization unit cost; and the selling price to each class of purchaser as of the time the application is submitted, for the similar automotive truck.

(4) If your method of allocating factory overhead, selling, and general and administrative expense reported under subparagraph (2) is different from your method of allocating such costs reported under subparagraph (3) an explanation of why the methods do not conform.

(5) Your proposed suggested list price or suggested factory retail price, if any, discounts and net prices applicable to each class of purchaser, and all extra charges and deductions applicable to such automotive truck, such as, transportation charges, delivery and handling

charges and allowances for excise taxes. You may indicate in your announcements of such list or retail prices, that the suggested prices incorporated therein reflect suggested markups no higher than those of the most similar vehicles manufactured by you in effect on June 24, 1950.

(b) *New extra, special, or optional equipment on automotive trucks.* If, on or after the effective date of this supplementary regulation, you produce any items of extra, special or optional equipment for sale with an automotive truck, which is not a counterpart or a modification of any item of extra, special or optional equipment for which you have previously established a ceiling price under Ceiling Price Regulation 30, you must file a report on OFS Form 149, in duplicate, by registered mail, return receipt requested, with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C. You may sell at your proposed ceiling price 15 days after receipt of these forms by the Office of Price Stabilization unless you have been notified that your proposed ceiling price has been disapproved.

Sec 7. *Definitions*—(a) *Generally.* Except as otherwise provided in this supplementary regulation, or as required by the context thereof, the terms used in this supplementary regulation have the same meaning as in CPR 30.

(b) *Automotive truck.* This term includes all vehicles with an internal combustion engine, commonly referred to as motor trucks, and designed primarily for the haulage of freight rather than passengers. It does not include so-called "off-the-highway" trucks nor cargo handling trucks.

(c) *Motor coach.* This term means a motor vehicle, commonly known as a bus, designed primarily for the transportation of passengers rather than freight, and having a seating capacity of more than ten passengers.

(d) *Truck trailer.* This refers to an axled vehicle used for transporting freight, pulled by an automotive truck or truck tractor to which it is attached by a fifth wheel, a hitch or coupling; also referred to as a semi or full trailer.

(e) *Trailer coach.* This means a wheeled vehicle, without motive power, with furnishings designed to provide living quarters or business accommodations and which is moved by a passenger automobile or automotive truck to which it is attached by a hitch or coupling; also referred to as house trailer or mobile home.

(f) *Ambulance.* An automotive vehicle designed for the transportation of sick or injured persons.

(g) *Hearse.* This refers to an automotive vehicle designed to convey the dead to the grave.

(h) *Flower car.* This means an open automotive vehicle designed to carry flowers in a funeral procession.

(i) *Motorcycle.* This is a two-wheeled automotive vehicle having one or two riding saddles and sometimes having a sidecar or delivery box with a third wheel. This term does not include motorized bicycles.

(j) *Motor scooter.* A two-wheeled automotive vehicle with wheels usually under ten inches in diameter and with a single cylinder engine generating under seven horse power.

(k) *Make of automotive truck.* Indicates the manufacturer thereof and is the manufacturer's trade or brand name. A single manufacturer may produce more than one make, in which case different trade names are used to differentiate the several makes.

(l) *Line or series.* This term refers to a sub-group of a make bearing a title, trade name, or other classificatory designation.

(m) *Body type.* This means one of the various body types in a line or series of each make of vehicle.

(n) *Model.* This term refers to the year in which the vehicle was produced or its year designation.

(o) *Counterpart model or counterpart.* These terms mean a replacement of a body style or line or series in a make of automotive truck by the manufacturer, not deviating substantially from the specifications of the previous model of the automotive truck. It also refers to replacement of items of extra, special, or optional equipment of the previous model.

(p) *Class of purchaser or purchaser of the same class.* This term refers to the practice adopted by the seller in setting different prices for sales to different purchasers or kinds of purchasers (for example, wholesaler, dealer, exporter, Government agency, fleet owner) or for purchasers located in different areas or for purchasers of different quantities or under different terms or conditions of sale or delivery.

(q) *Extra, special or optional equipment.* This term refers to any equipment which the manufacturer did not class as standard on the effective date of this supplementary regulation and which is ordinarily sold with or installed on a vehicle.

(r) *Manufacturer.* This term refers to any person who produces any automotive truck, motor coach, truck trailer, trailer coach, ambulance, hearse, flower car, motor cycle and motor scooter. It does not include persons who produce only parts or sub-assemblies of such vehicles.

(s) *Standard equipment.* This term refers to any equipment which the manufacturer classed as standard on the effective date of this supplementary regulation.

Effective date. This supplementary regulation shall become effective February 23, 1953, or such earlier date between January 23, 1953, and February 23, 1953, as you may select.

NOTE: The record-keeping and reporting provisions of this supplementary regulation have been approved by the Bureau of the Budget in accordance with the Federal Report Act of 1942.

CPR 60—CASTINGS

SR 4—ADJUSTMENT IN CEILING PRICES FOR PRODUCERS OF HIGH ALLOY STEEL CASTINGS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Supplementary Regulation 4 to Ceiling Price Regulation 60 is hereby issued.

STATEMENT OF CONSIDERATIONS

This supplementary regulation authorizes an interim increase of 3.5 per cent in the producer's ceiling prices of high alloy steel castings.

The price adjustment provided for by this supplementary regulation is based upon the same type of data and the same standards as the price adjustment previously authorized for malleable steel (carbon or low alloy) and gray iron castings by Supplementary Regulations 1, 2 and 3 to Ceiling Price Regulation 60, and, like those adjustments, is in addition to the adjustment authorized by General Overriding Regulation 35.

In the formulation of this supplementary regulation there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and full consideration has been given to their recommendations.

In the opinion of the Director of Price Stabilization, the provisions of this regulation are generally fair and equitable, comply with all applicable provisions of the Defense Production Act of 1950, as amended, and are necessary to effectuate the purposes of that Act.

REGULATORY PROVISIONS

Sec.

1. What this supplementary regulation does.
2. Adjustment of ceiling prices.
3. Applicability of General Overriding Regulation 35.
4. Applicability of Ceiling Price Regulation 60.

AUTHORITY: Sections 1 to 4 issued under sec. 704, CA Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 833, as amended; 50 U. S. C. App. Sup. 2101-2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

SECTION 1. *What this supplementary regulation does.* This supplementary regulation permits producers of high alloy steel castings to increase the ceiling prices for such castings established under Ceiling Price Regulation 60 by 3.5 per cent.

SEC. 2. *Adjustment of ceiling prices.* If you are a producer of high alloy steel castings, you may increase your ceiling prices, as established under CPR 60, for them and for equipment furnished by you in connection with your sales of such castings, by 3.5 per cent.

SEC. 3. *Applicability of General Overriding Regulation 35.* After you have recalculated your ceiling prices pursuant to section 2 of this supplementary regulation, you may further adjust your ceiling prices as provided in GOR 35 to reflect metal cost increases.

SEC. 4. Applicability of Ceiling Price Regulation 60. Except to the extent expressly modified or supplemented by this regulation, all provisions of Ceiling Price Regulation 60 shall be applicable to any producer subject to this regulation.

Effective date. This Supplementary Regulation 4 to Ceiling Price Regulation 60 is effective January 23, 1953.

[General Ceiling Price Regulation, Amdt. 1
to Supplementary Regulation 113]

GCPR, SR 113—PRODUCERS OF ALUMINUM
MILL PRODUCTS

ADJUSTMENT IN THE CEILING PRICE OF
PRIMARY ALUMINUM MILL PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Supplementary Regulation 113 to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

On August 6, 1952, Supplementary Regulation 113 to the General Ceiling Price Regulation was issued increasing ceiling prices for primary aluminum by 1¢ per pound and for aluminum mill products by 5 percent. This was done on the basis of petitions submitted by the three primary producers of aluminum under the provisions of General Overriding Regulation 29, one of which requested an increase of 2¢ per pound on primary aluminum and of 10 percent on aluminum mill products, while the other two requested an increase of 2.35¢ per pound for primary aluminum and of 12.8 percent for aluminum mill products.

Subsequent to the issuance of Supplementary Regulation 113, the three primary aluminum producers—Aluminum Company of America, the Kaiser Aluminum and Chemical Corporation, and the Reynolds Metals Company—filed further petitions requesting additional increases in price. These petitions urged that the amount of relief provided under Supplementary Regulation 113 was insufficient and that further increases were required under OPS standards. The companies also urged that further price increases should be granted in view of the provisions of a number of contracts, which had been entered into between each of them and the United States Government under which they had each undertaken a substantial expansion of capacity to provide for defense requirements. These contracts included provisions under which the companies could terminate them if, as a result of price control, they were unable to earn a reasonable profit on the new facilities and if they were unable to obtain appropriate relief from the price stabilization authorities. The contracts further provided that the

profit prevailing at the time the contracts were signed was to be regarded as a reasonable profit. The contracts were entered into at various times between November 1950 and the end of 1951.

The Office of Price Stabilization reviewed carefully additional cost data submitted by the three primary producers covering their recent operations. These data indicate that, in the case of one producer, there have been substantial further cost increases resulting principally from loss of production due to the drought in the Northwest. On the basis of this evidence, it appears that this producer would be entitled individually to some further relief under the provisions of section 3 (b) (2) of GOR 29. The figures do not, however, indicate that further relief for the other two primary producers is required under OPS standards. In view of the fact that aluminum is a standard commodity normally sold at a uniform price, individual relief for a single producer would be impractical.

In the meantime, the Office of Defense Mobilization has been conducting a series of negotiations with the three primary producers in connection with the terms of the expansion contracts. As a result of these negotiations, certain changes in these contracts have been agreed upon. One of the elements of this agreement is that the price of aluminum pig and ingot should be raised by ½¢ per pound, and that the price of aluminum mill products should be raised by 4 percent over present levels. The Director of Defense Mobilization has instructed the Economic Stabilization Administrator to put this increase into effect, and the Administrator has, in turn, instructed the Director of Price Stabilization to take this action. This amendment is being issued in compliance with this instruction.

The amount of the increase granted by this amendment is sufficient to cover that to which the one primary producer whose costs have increased sharply would be entitled under the provisions of GOR 29. Consequently, no further action will be taken by the Office of Price Stabilization upon the individual petitions for amendment which have been submitted by the three primary producers.

At the Industry Advisory Committee meeting preceding the issuance of SR 113, independent aluminum fabricators argued strongly that if the prices of pig and ingot were increased by 1¢ per pound, prices of fabrication should be raised by more than 5 percent in order to avoid squeezing their profit margins. Following a further meeting of the Industry Advisory Committee, a survey was undertaken to determine the extent to which these claims of hardship were justified. Only 2 companies of the 28 surveyed have submitted usable replies. On the basis of these very meager returns, it seems possible that the margins of independent fabricators have in fact been reduced somewhat, though there is no conclusive evidence of serious hardship. The increase in ceiling prices granted by this amendment raises ceilings for fabricators by a significantly larger ratio to the increase for ingot than had been

provided under SR 113. Moreover, any reduction which in fact occurred in the margins of independent fabricators following the issuance of SR 113, was due not only to the higher prices for pig and ingot, but also to rising wage costs. Since no further wage increases are anticipated in the immediate future, it seems probable that the increase of 4 percent in the price of fabrication granted under this amendment, compared with the increase of only ½ cent per pound for pig and ingot, should be sufficient to eliminate any hardship presently being suffered by the independents.

In issuing this amendment, it has been convenient to stipulate ceiling prices in terms of increases over the levels prevailing prior to August 4, 1952, the effective date of SR 113. In the case of pig and ingot, the amount of the increase allowed is therefore 1.5 cents, representing the sum of the 1 cent allowed under SR 113 and the additional 0.5 cent now provided. Since the present ceiling prices for aluminum mill products are at 105 percent of their earlier level, an increase of 4 percent over present levels means that ceilings will be raised to 9.2 percent over those prevailing prior to August 4, 1952, the effective date of SR 113. This complies with the instructions of the Director of Defense Mobilization.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 2 of Supplementary Regulation 113 is amended to read as follows:

SEC. 2. Ceiling prices—(a) Primary aluminum pig, primary aluminum alloy pig and primary aluminum ingot. If you are a producer of primary aluminum pig, primary aluminum alloy pig, or primary aluminum ingot, your ceiling price per pound for these products is your ceiling price as established under the General Ceiling Price Regulation plus 1½ cents.

(b) Other listed aluminum products. If you are a producer of the aluminum products listed in Table A, your ceiling price for these products is your ceiling price determined under the General Ceiling Price Regulation plus 9.2 percent of your ceiling base price and extras as determined under the General Ceiling Price Regulation. You may round any ceiling price so determined so that it will be expressed in the nearest cent or fraction of a cent you normally employ. If you elect to round any such ceiling price you must round all such ceiling prices so as to reflect decreases as well as increases.

TABLE A

Primary aluminum alloy ingot (including billets).
Sheet, coil, plate, blanks, circles and foil.
Wire, rod and bar (including structurals).
Extrusions (including shapes, tubing and pipe).
Tubing, drawn and welded.
Electrical conductor cables, bare (ACSR and all aluminum).

Roofing and siding not fabricated beyond the forming operation.
Aluminum powder and paste.
Roll formed shapes.

[General Overriding Regulation 5, Revision 1, Amdt. 12]

GOR 5—EXEMPTIONS AND SUSPENSIONS OF CERTAIN CONSUMER DURABLE GOODS AND RELATED COMMODITIES

ADDITIONAL EXEMPTIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 12 to General Overriding Regulation 5, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

In line with the need for focusing the interests and energies of the Office of Price Stabilization on major areas of commodities and services affecting the cost of living and business costs, this amendment to General Overriding Regulation 5, Revision 1, exempts certain additional commodities from price control.

This amendment clarifies certain provisions of GOR 5, and exempts a number of miscellaneous products. Among these are certain watches and clocks, certain kinds of flatware and holloware, pictures, picture frames and mirror frames, chafing and shirring dishes and crayons. As to each of the exempted commodities, the Director of Price Stabilization has found that exemption will not affect the cost of living, that exemption will not divert materials and manpower from the defense effort, and that the burden on industry and on OPS of administration of price controls outweighs the benefit to the stabilization program of retention of price controls.

In the formulation of this amendment there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 5, Revision 1, is hereby amended in the following respects:

1. Paragraph (d) of section 4 is amended to read as follows:

(d) Frames, picture and mirror.

2. Paragraph (e) of section 4 is amended to read as follows:

(e) Pictures.

3. The following new paragraph is added to section 4 as paragraph (f) to read as follows:

(f) Screens, household, decorative.

4. Section 7 is amended by the addition of the following:

Metal chafing and shirring dishes, for household use.

5. Section 10 is amended by the addition of the following:

Wall planters (hanging and bracket types).

Table planters.
Novelties consisting of real or artificial flowers solidly encased in plastic.

6. Section 12 is amended to read as follows:

SEC. 12. Silverware, china, glassware, and accessories. The following silverware, china, glassware and accessories:

Ceramic decorative tiles for use as table ornaments.

Hand-decorated used bottles.
Vitrified chinaware manufactured in the United States, its Territories and Possessions.

Hand-made table, kitchen and art glassware, and hand-made blanks for such glassware, manufactured in the United States, its Territories and Possessions. Glassware and blanks are "hand-made" if they are gathered from a furnace by hand and mouth-blown or hand-pressed.

The following types of holloware:

Sterling.
Silverplate.
Aluminum-bronze.
Pewter.
Aluminum.
Chromeplate.
Bronze.
Brass.
Copper.

The following types of flatware:

Sterling.
Aluminum-bronze.
Silverware chests.
Covered bags for silverware.
Silverware polishing cloths.

7. Section 13 is amended to read as follows:

SEC. 13. Jewelry and related items.

(a) All precious jewelry, including precious metal jewelry.

(b) All costume jewelry.

(c) All men's jewelry.

(d) All religious jewelry.

(e) All dresser sets and military sets.

(f) All unfitted compacts.

(g) All miscellaneous cases (regardless of material) used as personal accessories, such as, but not limited to, cigar and cigarette cases, match cases, pill boxes, and snuff boxes.

(h) Watches and clocks whose price when sold by the importer, assembler or manufacturer is \$50 or higher. All other watches and clocks are not exempt.

(i) Watch and clock cases containing a precious, semi-precious or synthetic stone or stones whose cost to the case manufacturer exceeds the cost to him of the other component parts of the case.

(j) Watch attachments, regardless of material, other than watch cases.

(k) Precious, semi-precious, synthetic and imitation stones for use in jewelry.

[General Overriding Regulation 14, Amdt. 33]

GOR 14—EXCEPTED SERVICES

CERTAIN SPORT EVENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 33 to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment exempts from ceiling price regulation admission charges to certain special sport events if the seller presents such events for less than 14 days in any calendar year. This exemption covers only the occasional seller and is therefore limited to relatively few sport events. Admission charges for spectators to view special golf, tennis and swimming events are affected by this exemption if supplied by the occasional seller. The Director may from time to time enlarge the group of special sporting events.

In the judgment of the Director, controls over admission charges to sport events exempted by this amendment are not required at this time in order to carry out the purposes of the Defense Production Act of 1950, as amended. Such services do not enter significantly into the cost of living of the average American family and are administratively impracticable and burdensome to both OPS and the service seller in relation to the stabilization benefits obtained by continued regulation.

In view of the technical nature of this amendment, special circumstances have rendered consultation with industry representatives including trade association representatives, impracticable.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended by adding

at the end of paragraph (a) of section 3 a new subparagraph (130) as follows:

(130) Admission charges to view golf, tennis or swimming events provided that the seller presents such events for less than 14 days in any calendar year.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to General Overriding Regulation 14 shall become effective January 23, 1953.

JOSEPH H. FREEHILL,
Director of Price Stabilization.

[General Overriding Regulation 35, Amdt. 8]

GOR 35—PASS THROUGH FOR STEEL, PIG IRON, COPPER AND ALUMINUM COST INCREASES

ADJUSTMENT IN PASS THROUGH FOR CERTAIN ALUMINUM PRODUCTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to General Overriding Regulation 35 is hereby issued.

STATEMENT OF CONSIDERATIONS

Supplementary Regulation 113 to the General Ceiling Price Regulation increased the ceiling prices of primary aluminum pig, primary aluminum alloy pig, and primary aluminum ingot by one cent per pound and certain listed aluminum mill products by five percent. General Overriding Regulation 35, as originally issued, permitted manufacturers purchasing these products to pass through this increased cost in their products. Amendment 1 to SR 113, effective January 22, 1953, increased the ceiling price of primary aluminum pig, primary aluminum alloy pig, and primary aluminum ingot by one-half cent per pound and listed mill products by 4.2 percent. For the same reasons as set forth in GOR 35 as originally issued, this amendment permits manufacturers using these aluminum products to pass through the increased cost resulting from Amendment 1 to SR 113 to the GCPR. The total permitted adjustment for primary aluminum pig, primary aluminum alloy pig, and primary aluminum ingot is 1½ cents per pound and for the listed aluminum mill products is 9.2 percent.

In the formulation of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

GOR 35 is amended in the following respects:

1. Section 1, in its second paragraph is amended to read as follows:

Primary processors calculate their adjustments on the basis of the increases authorized for steel-mill products by Revision 1 of SR 100 to the GCPR, and by

parallel action for steel producers under the voluntary agreement; for aluminum-mill products by SR 113 to the GCPR, as amended; for pig iron by SR 116 to the GCPR; for products covered by the GCPR which contain primary copper by SR 125 to the GCPR; for brass-mill products by Amendment 1 to CPR 68; and for copper wire-mill products by Amendment 1 to CPR 110. These ceiling price increases are listed in Appendix A.

2. Paragraphs "F" and "G" in Appendix A are amended to read as follows:

	Cents per pound
F. Aluminum pig, aluminum alloy pig, aluminum ingot.....	1½
G. Aluminum mill products:	Percent
(1) Alloy ingot (including billets) -	9.2
(2) Sheet, coil, plate, blanks, circles and foil.....	9.2
(3) Wire, rod, and bar (including structurals).....	9.2
(4) Extrusions (including shapes, tubing and pipe).....	9.2
(5) Tubing, drawn and welded.....	9.2
(6) Electrical conductor cables, bare (ACSR and all aluminum).....	9.2
(7) Roofing and siding not fabricated beyond the forming operation.....	9.2
(8) Aluminum powder and paste.....	9.2
(9) Roll formed shapes.....	9.2

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective January 22, 1953.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-5, Amdt. 1 of January 23, 1953]

M-5—ALUMINUM

REPORTING REQUIREMENT CHANGE

This amendment to NPA Order M-5 as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950 as amended. In the formulation of this amendment, consultation with industry representatives has been rendered impracticable because of the need for immediate action.

AMENDATORY PROVISIONS

Section 14 of NPA Order M-5 as amended July 23, 1952, is amended to eliminate secondary smelters and independent fabricators of aluminum from the requirement that Form NPAF-167 shall be filed after January 15, 1953, and to provide that primary producers thereafter file Form NPAF-167 with NPA. Section 14 is hereby amended to read as follows:

Sec. 14. *Reports on Form NPAF-167* Each primary producer of aluminum shall, on or before the fifteenth day of each month, complete and file Form NPAF-167, in accordance with the instructions accompanying the form, setting forth the quantity of aluminum for

which he has accepted authorized controlled material orders or fabrication orders placed in accordance with section 12 of this order by a foil or powder fabricator, the quantity of aluminum for which he has not yet accepted such orders, and the estimated quantity of aluminum he expects to ship against past-due unfilled orders. These forms may be secured from the Washington office of NPA and shall in each instance be completed and filed in duplicate with the National Production Authority, Washington 25, D. C., Ref: M-5. A separate report is required for each of the aluminum forms and shapes listed in section 2 (c) of this order.

(64 Stat. 816, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2154)

This amendment shall take effect January 23, 1953.

REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

DIR. 3—RESTRICTIONS UPON USE OF RATINGS

This amended direction to NPA Reg. 2 is found necessary and appropriate to promote the national defense and is issued pursuant to the authority granted by the Defense Production Act of 1950, as amended. In the formulation of this direction as amended, consultation with industry representatives, including trade association representatives, has been rendered impracticable by the fact that this direction applies to all trades and industries.

EXPLANATORY

Direction 3 (as amended July 23, 1952) to NPA Reg. 2 is hereby amended by adding incandescent and fluorescent electric light bulbs to Appendix A.

REGULATORY PROVISIONS

SECTION 1. (a) No rating shall be applied or extended to obtain any of the materials or products listed in any numbered item of Appendix A of this direction on or after the date set forth opposite such numbered item, unless the rating bears a program identification consisting of the letter A, B, C, or E, and one digit, or the program identification Z-1 or Z-2.

(b) These restrictions shall not affect the status of ratings applied or extended to obtain any item listed in Appendix A of this direction prior to the date set forth opposite each such numbered item.

(64 Stat. 816, Pub. Law 429, 82d Cong., 50 U. S. C. App. Sup. 2154)

This direction as amended, shall, except as otherwise provided herein, take effect January 23, 1953.

[NPA Order M-17, as Amended Jan. 23, 1953]

M-17—COMPONENTS OR PARTS

This amended order is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended order, there was consultation with industry representatives, including trade association representatives, and consideration was given to their recommendations.

EXPLANATORY

This amendment affects NPA Order M-17 as amended March 23, 1951, by removing steatite electrical ceramic products from the order. Changes have been made in the standard provisions so that these provisions conform with similar provisions of other NPA orders.

REGULATORY PROVISIONS

AUTHORITY: Sections 1 to 10 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp., sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp., secs. 402, 405, E. O. 10281, Aug. 23, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. What this order does. This order applies particularly to manufacturers of components or parts referred to in section 2 and listed in Column A of section 10 of this order. It makes provision for and sets forth ceiling limitations for required acceptance of rated orders based on the percentage of previous shipments for the listed products. Its purpose is to provide equitable distribution of rated orders among the manufacturers of the specified components or parts in order to achieve maxi-

mum production and to reduce to a minimum any disruption of normal distribution. It supplements NPA Reg. 2, but only those provisions of Reg. 2 which are contradictory to this order are superseded, and all other provisions of that regulation continue to apply to manufacturers of components or parts.

Sec. 2. Types of components or parts to which this order applies. This order applies to the components or parts as are set forth in Column A of section 10.

Sec. 3. Required shipment dates. A rated order for components or parts listed in Column A of section 10 of this order must specify shipment on a particular date or during a particular month, which, in no case, may be earlier than that required by the person placing the order. The manufacturer of such components or parts must schedule the order for shipment within the requested month as close to the requested shipment date as is practicable considering the need for maximum production.

Sec. 4. Limitations for acceptance of rated orders. Unless specifically directed by NPA, no manufacturer of components or parts shall be required to accept rated orders for shipment from any one of his producing units regardless of location in any one month in excess of the percentages set forth in Column B of section 10 of this order of his average monthly shipments of the components or parts listed in Column A of section 10 as made by him during the period from January 1, 1950, through August 31, 1950.

Sec. 5. NPA assistance in placing rated orders. Any person who is unable to place a rated order due to the limitations imposed by section 4 of this order should apply to the National Production Authority, Washington 25, D. C., Ref: M-17, specifying the manufacturers who refused to accept the order. The National Production Authority will arrange to assist him in locating sources of supply.

Sec. 6. Request for adjustment or exception. Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that his business operation was commenced during or after the base period, that any provision otherwise works an undue or exceptional hardship upon him not suffered generally by others in the

same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

Sec. 7. Records and reports. (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F)

Sec. 8. Communications. All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-17.

Sec. 9. Violations. Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

Sec. 10. Types of components or parts; product limitation. The types of components or parts to which this order shall apply pursuant to section 2 of this order and the limitation percentage for acceptance of rated orders pursuant to section 4 of this order are as follows:

UNITED STATES STANDARDS FOR DANDELION GREENS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of United States Standards for Dandelion Greens under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952)

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with E. E. Conklin, Chief, Fresh Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington, 25, D. C., not later than 5:30 p. m., e. s. t., on the thirtieth (30) day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 51.188 *Standards for dandelion greens*—(a) *General.* (1) These standards are applicable to dandelion greens consisting of either plants or cut leaves, but they shall not be applicable to mixtures of plants and cut leaves in the same container.

(b) *Grades*—(1) *U. S. No. 1.* U. S. No. 1 consists of dandelion greens of similar varietal characteristics which are fresh, fairly tender, fairly clean, well trimmed, and which are free from decay and free from damage caused by seedstems, discoloration, freezing, foreign material, disease, insects or mechanical or other means.

(i) *Tolerance for defects.* In order to allow for variations incident to proper grading and handling, other than for mixtures of plants and cut leaves, not more than a total of 10 percent, by weight, of the units in any lot, may fail to meet the requirements of the grade: *Provided*, That not more than one-half of this amount, or 5 percent, shall be allowed for serious damage by any cause, and including thereon not more than 2 percent for decay. (See Basis for Calculating Percentages.)

(ii) *Tolerances for mixtures of plants and leaves.* Not more than 5 percent, by weight, of the dandelion greens

packed as plants, in any lot, may consist of cut leaves or when packed as cut leaves may consist of plants. (See Basis for Calculating Percentages.)

(c) *Unclassified.* Unclassified consists of dandelion greens which have not been classified in accordance with the foregoing grade. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(d) *Application of tolerances.* (1) The contents of individual containers in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified.

(i) When a tolerance is 10 percent or more, individual containers in any lot shall have not more than one and one-half times the tolerance specified.

(ii) When a tolerance is less than 10 percent, individual containers in any lot shall have not more than double the tolerance specified: *Provided*, That at least one specimen which does not meet the requirements may be permitted in any container.

(e) *Basis for calculating percentages.* (1) Percentages shall be calculated on the basis of weight or an equivalent basis. In sorting or grading the sample, the unit shall be the plant or leaf exactly as

it occurs in the sample. A plant or portion of plant shall not be broken to remove the defective portion, but shall be considered as a unit.

(f) *Definitions.* (1) "Similar varietal characteristics" means that the dandelion greens shall be of the same general color and character of growth. No mixture of varieties or types shall be permitted which materially affects the appearance of the lot.

(2) "Fresh" means that the greens are not more than slightly wilted.

(3) "Fairly tender" means that the greens are not old, tough, or excessively fibrous.

(4) "Fairly clean" means that the appearance of the greens is not materially affected by the presence of mud, dirt, or other foreign material.

(5) "Well trimmed" as applied to plants, means that they are cut at the crown of the root or cut so that the roots do not extend more than approximately one and one-half inches below the crown.

(6) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the individual unit, or the lot as a whole. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Seedstems when more than one-fourth the length of the longest leaf;

(ii) Discoloration when the appearance of the unit is materially affected by discoloration; and,

(iii) Mechanical damage when the unit is badly crushed, torn, or broken.

(7) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the individual unit, or the lot as a whole. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(i) Insects when the unit is noticeably infested or when it is seriously damaged by them;

(ii) Discoloration when the unit is badly discolored; and,

(iii) Decay.

[Docket No. AO-160-A-14-RO1]

HANDLING OF MILK IN PHILADELPHIA, PA., MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) notice is hereby given of a public hearing to be held, concurrently with a hearing by the Pennsylvania Milk Control Commission at the Hotel John Bartram, Locust and Broad Streets, Philadelphia, Pennsylvania, beginning at 10:00 a. m., e. s. t., January 28, 1953, for the purpose of receiving evidence with respect to the proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreement heretofore approved by the Secretary of Agriculture and to the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area. These proposed amendments have not received the approval of the Secretary of Agriculture.

Amendments to the order as amended, for the Philadelphia, Pennsylvania, marketing area have been proposed as follows:

By Inter-State Milk Producers Cooperative, Inc..

1. Consider the recommendations of a committee study on butterfat differentials, which would amend the order as follows:

(a) The basic test for quoting prices and calculating butterfat payments would be 3.7 percent;

(b) The producer or "pay out" differential would be 7 cents per point of fat at the present Class I price;

(c) The producer butterfat differential would change automatically with the annual level of the Class I price;

(d) The producer butterfat differential would fluctuate in 1 cent intervals;

(e) The Class I "pay in" differential and the producer "pay out" butterfat

differential would be equal except as noted in (f)

(f) The Class I "pay in" differential for items containing less than 3 percent and items containing more than 6 percent butterfat would continue to be determined as at present;

(g) No change would be made in the present method of distributing among producers the "pay in" butterfat differential on Class II milk; and

(h) Grade A producers would continue to receive for milk testing more than 3.7 percent, a butterfat differential 2 cents in excess of the differential on Grade B milk.

2. Add a new section as follows:

§ 961.86 *Additional payment.* In addition to the uniform price and all other payments required pursuant to §§ 961.80 through 961.85, each handler shall pay for milk which he has reported, or purported to have been sold, at a butterfat test over 4.0 percent butterfat, \$.02 for each one-tenth of one percent that the butterfat content is above 3.7 percent or except where such butterfat differential is paid under § 961.85.

By the Holstein-Friesian Association of America, Inc. and the Pennsylvania Holstein Association, Inc..

3. The basic buying standard test for Class I milk in the Philadelphia marketing area shall be 3.5 percent butterfat, and the level of the Class I price for 3.5 percent milk to be used as a base shall be determined in the present manner for 4 percent milk escalated down at the rate of 5 cents per 100 pounds for each 0.1 percent fat. The Class I formula shall be adjusted so that no reduction in price from the present method shall be assessed against producers of milk of 3.5 percent butterfat.

4. The Class I butterfat differential shall be established at a rate on the 3.5 percent price so determined at preferably not in excess of 6.0 cents per 0.1 percent fat but certainly not in excess of the 7-cent butterfat differential recommended by the Study Committee.

5. The Class I butterfat differential on Class I milk shall be established at the same rate for milk that tests below 3 percent and that which tests 6 percent or more butterfat.

6. The Class I butterfat differential on Grade A milk shall be established at the same rate as on Grade B milk from the price of Class I 3.5 percent milk.

By the Production and Marketing Administration:

7. Consider the tentatively recommended amendments set forth in the notice of reopening of hearing issued by the Assistant Administrator, December 18, 1952 (17 F. R. 11723)

By the Milk Distributors' Association of the Philadelphia Area, Inc..

8. Section 961.40 (b) Re-examine the level of prices under this section so as to obtain more competitive prices for the Class II prices thereunder.

9. In § 961.40 (b) (2) delete or suspend the following words: "for the months of April, May, and June and 44 cents in other months."

10. In § 961.40 (b) reestablish subparagraph (3) as effective during April,

May, and June, 1952, excepting the words "During the months of April, May, and June 1952."

By Inter-State Milk Producers Cooperative:

11. Delete in § 961.40 (b) (2) the following: "* * * in the computation of prices for the months of April, May and June, and 44 cents in other months."

12. Reestablish § 961.40 (b) (3) as effective during April, May and June 1952, excepting the words "During the months of April, May and June 1952."

By I. Elkin Nathans:

13. Amend § 961.6 (c) to read as follows:

(c) Any other plant from which milk is supplied to a pasteurizing or bottling plant described in paragraph (b) of this section: *Provided*, That any such other plant shall not be included in this definition during any month in which there is shipped only Class II milk as defined in § 961.31. This definition shall not include a plant at which a uniform price is required to be paid under the provi-

sions of another marketing order of the Secretary.

By Lehigh Valley Cooperative Farmers:

14. In § 961.90 add the proviso "*Provided, however* That any person who is a handler with a producer milk plant, only by reason of shipping milk to a pasteurizing and bottling plant, shall pay the pro rata rate only on the milk sold as Class I in the marketing area."

By Milk Distributors' Association of the Philadelphia Area, Inc.:

15. Section 961.50: In the first sentence delete the word "8th" and substitute therefor the word "10th."

16. Section 961.71. Delete the words "and announce" from the first unnumbered paragraph.

b. In paragraph (b) replace the semicolon after the word "production" with a period; delete the word "and"

c. Delete paragraph (c) and substitute therefor the following:

(c) Each handler who so elects may compute in the manner set forth in

§ 961.70 and in this section, the uniform price to be paid to the producers and include such computation in his report. On or before the 15th day after the end of each month the market administrator shall publicly announce the uniform price computed by or for each handler, with differentials applicable, pursuant to §§ 961.82 through 961.84.

17. Section 961.53: Delete this entire section and renumber the following sections.

18. Section 961.55: Amend this section to provide for adequate procedure for auditing producer payrolls.

19. Section 961.34: Re-examine this section on basis of providing equitable treatment for Order 61 handlers of milk and skim milk received from other Federal orders.

Issued at Washington, D. C., this 21st day of January 1953.

FISH

TARIFF-RATE QUOTA

JANUARY 21, 1953.

The tariff-rate quota for the calendar year 1953 on certain fish dutiable under

paragraph 717 (b) Tariff Act of 1930, as modified pursuant to the General Agreement on Tariffs and Trade (T. D. 51802)

In accordance with the proviso to item 717 (b) of Part I, Schedule XX, of the General Agreement on Tariffs and Trade (T. D. 51802) it has been ascertained that the average aggregate apparent annual consumption in the United States of fish, fresh or frozen (whether or not packed in ice) filleted, skinned, boned, sliced, or divided into portions, not specially provided for: Cod, haddock, hake, pollock, cusk, and rosefish, in the three years preceding 1953, calculated in the manner provided for in the cited agreement was 225,775,244 pounds. The quantity of such fish that may be imported for consumption during the calendar year 1953 at the reduced rate of duty established pursuant to that agreement is, therefore, 33,866,287 pounds. [Treasury Department Order 150-23]

ASSISTANT COMMISSIONER, BUREAU OF
INTERNAL REVENUEDELEGATION OF AUTHORITY WITH RESPECT
TO BUREAU FUNCTIONS

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950, the functions transferred to Assistant Secretary John S. Graham by Treasury Department Order No. 150-17, dated November 17, 1952, are hereby transferred to Justin F. Winkle, Assistant Commissioner of the Bureau of Internal Revenue, for the period between the effective date hereof and the time at which a Commissioner of Internal Revenue shall next take office. At the time of the Commissioner's taking office the authority of Mr. Winkle to perform such functions under this order shall cease, and such functions shall, by virtue hereof, be thereafter performed by the Commissioner.

In the performance of the functions herein delegated Mr. Winkle is designated as Acting Commissioner of Internal Revenue.

This order shall become effective as of 12:01 a. m., January 21, 1953.

Dated: January 20, 1953.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order 31]

PORT OF SEATTLE COMMISSION, SEATTLE,
WASH.

APPLICATION TO RE-ESTABLISH, ON TEMPORARY BASIS, BOUNDARIES OF FOREIGN-TRADE ZONE NO. 5

Pursuant to the authority granted in the Foreign-Trade Zones Act of June 18, 1934, as amended (48 Stat. 998-1003; 19 U. S. C. 81a-81u) the Foreign-Trade Zones Board has adopted the following order which is promulgated for the information and guidance of all concerned:

Whereas, the Port of Seattle Commission, Seattle, Washington, as grantee of Foreign-Trade Zone No. 5, filed an application dated November 19, 1952, requesting that, in connection with extensive development and modernization of the East Waterway Terminal, in a part of which the existing zone is now situated, and for the more economic utilization of the facilities of said terminal, the boundaries of the zone be re-established, on a temporary basis, to exclude the South half of Warehouse No. 2 and adjacent wharf, and include the North half of Warehouse No. 1 and adjacent Track No. 6; and

Whereas, the Port of Seattle Commission states that this alteration of boundaries and change in facilities will take care of the needs of the zone and for the economic utilization of Warehouse No. 2 and adjacent wharf for a period of approximately two years, when the progress of the reconstruction of the facilities of East Waterway Terminal will require moving the zone within the terminal area;

Now, therefore, the Foreign-Trade Zones Board, after full consideration and a finding that the proposal is in the public interest, hereby orders:

That the boundaries of Foreign-Trade Zone No. 5 be, and they hereby are re-established, on a temporary basis, to exclude the South half of Warehouse No. 2 and adjacent wharf, and include the North half of Warehouse No. 1 and adjacent Track No. 6, in conformity with revised Exhibit 10, made a part of the application, for a period of approximately two years or until the reconstruction of the facilities of East Waterway Terminal requires moving the zone within the terminal area, provided that the grantee segregates such area in a manner that will comply with the requirements of the Collector of Customs at Seattle.

It is found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1003) is unnecessary in connection with the issuance of this order, because its application is restricted to one foreign-trade zone, and is of a nature that it imposes no burden on the parties of interest. The effective date of this order is, therefore, upon publication in the FEDERAL REGISTER.

Signed at Washington, D. C., this 19th day of January 1953.

Secretary of Commerce, Chairman and Executive Officer Foreign-Trade Zones Board.

[Docket No. G-2107]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

JANUARY 19, 1953.

Take notice that Northern Natural Gas Company (Applicant) a Delaware

corporation with its principal office at 2223 Dodge Street, Omaha, Nebraska, filed on January 9, 1953, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing the operation on a full-time basis for an interim period of eight standby compressor units, which units are 1600 horsepower, horizontal, gas-driven compressor engines, direct-connected to twin double-acting compressor units located at Applicant's existing Holcomb, Bushton, Beatrice, Palmyra, Oakland, Ogden, and Ventura compressor stations, in order to provide an additional 40 MMcf per day contracted demand to Applicant's gas utility customers during the heating season of 1952-53.

The Commission in the Matter of Northern Natural Gas Company, Docket No. G-1618, issued to Applicant by telegram dated June 27, 1951, a temporary certificate authorizing facilities to increase Applicant's system capacity north of Kansas by 50 MMcf per day to 650 MMcf, and by telegram dated August 9, 1951, issued a temporary certificate authorizing (a) facilities designed to increase Applicant's system capacity north of Kansas to 675 MMcf per day, and (b) eight 1600 HP compressor units, to be installed and operated only as standby units, as described and requested in the eighth supplement to its application in Docket No. G-1618.

The facilities authorized by the aforementioned temporary certificates, including the eight compressor units available as standby only, according to the application therefor in Docket No. G-1618, were designed and proposed to provide an increase in Applicant's total allocable contract demand service of 71.1 MMcf per day above that in effect for Applicant's 600 MMcf system capacity. The facilities so authorized were constructed and placed in operation in 1951. On December 22, 1951, pursuant to the Commission's orders entered November 26 and 28, 1951, there were placed in effect Applicant's service agreements with 27 gas utility customers which had been filed on October 29 and November 15 and 26, 1951, embodying increased contract demands aggregating 638,978 Mcf per day which represented an increase of 71.18 MMcf per day in such service.

The aforementioned temporary certificates, which authorized, among other things, the referred to eight standby compressor units, were granted "pending the determination" of the certificate application as supplemented in Docket No. G-1618. That determination was made when the Commission issued on October 28, 1952, its Opinion No. 230-A and order amending further its Opinion No. 230 and order issued June 24, 1952, and supplementing its order issued July 29, 1952, in Docket No. G-1618. There is now pending in the Matter of Northern Natural Gas Company Docket No. G-2085, a proceeding relating to whether Applicant has certificate authority covering the facilities and operations applied for and involved in Docket No. G-1618.

Applicant states in the instant application in Docket No. G-2107 that the

intended use of the referred to eight 1600 horsepower compressor units as proposed by its application in Docket No. G-1618 was two-fold: (1) to be used in the event a breakdown occurred in any of the other compressor units during periods when the gas utility customers require full contract demands, and (2) to be used to permit Applicant to spread its regular engine and compressor overhaul operations over a much greater portion of the year. The instant application further states that, thus, Applicant seeks authorization to operate these standby compressor units on a full-time basis until such time as Applicant may have constructed and placed in operation facilities sufficient to provide Applicant with a system capacity of 825 MMcf per day north of Kansas. By full-time operation of these units, according to the application, Applicant is able to provide its gas utility customers with 40 MMcf per day additional contract demand.

On December 4 and 11, 1952, Applicant tendered for filing with the Commission certain proposed service agreements and tariff changes relating to delivery of approximately 40 MMcf additional contract demand being made available by operation of the referred to eight standby compressor units. On December 24, 1952, Applicant by telegram requested a temporary certificate authorizing operation of said standby compressor units on a full-time basis to provide the referred to increased contract demand service. On January 2, 1953, the Commission by telegram advised Applicant that a certificate application is necessary in order that the Commission may act upon such request for temporary authorization to operate such standby compressors on a full-time basis, and further advised Applicant that action on its proposed service agreements and related tariff changes tendered for filing was being deferred until Applicant filed a proper certificate application. Applicant states that the instant application in Docket No. G-2107 was filed pursuant to the aforementioned telegraphic advice.

Applicant requests that the intermediate decision procedure be omitted and waives oral hearing and opportunity for filing exceptions to the decision of the Commission, and requests that this application be disposed of under the shortened procedure provided for in § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

Protests or petitions to intervene may be filed with the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of February 1953. The application is on file with the Commission for public inspection.

SECURITIES AND EXCHANGE
COMMISSION

[File No. 70-2948]

MILWAUKEE ELECTRIC RAILWAY & TRANSPORT Co., AND WISCONSIN ELECTRIC POWER Co.

ORDER RELEASING JURISDICTION OVER
ACCOUNTING ENTRIES

JANUARY 19, 1953.

The Commission, on December 24, 1952, having issued its order (Holding

Company Act Release No. 11641) granting and permitting to become effective a joint application-declaration, as amended, filed by Wisconsin Electric Power Company ("WEPCO") a registered holding company and a public utility company, and its non-utility subsidiary, the Milwaukee Electric Railway & Transport Company ("Transport")

Said application-declaration having set forth certain transactions to be effected by WEPCO and Transport in connection with the proposed sale of its passenger transportation properties by Transport to Milwaukee & Suburban Transport Corporation ("New Transit Company") a recently organized and unaffiliated company, including, among other things, the receipt by Transport of \$3,000,000 face amount of 5 percent promissory notes and \$3,000,000 par value of 5 percent preferred stock of New Transit Company as part of the consideration for the sale of its passenger transportation properties, and said filing having indicated that the sale of its transportation properties by Transport would result in a book loss and an earned surplus deficit on the books of Transport;

Transport having proposed, further, the reacquisition of a portion of its capital stock from WEPCO, the owner of all such stock, partly by purchase for cash at its par value and partly through donation by WEPCO, it being proposed that the par value of the shares purchased would approximately equal the excess of Transport's current assets over its current liabilities immediately upon the sale of the passenger transportation properties, and that the par value of the shares to be received by donation would upon cancellation eliminate the company's earned surplus deficit;

Transport having initially proposed to record its investment in the notes and preferred stock of New Transit Company at their face amount and par value respectively, and WEPCO having proposed to record its investment in the remaining shares of Transport at their par value;

The Commission in its findings and opinion of December 24, 1952, having stated, among other things, that on the basis of the record the carrying values proposed by Transport would not reflect the fair current values of New Transit Company's notes and preferred stock, that the Board of Directors of Transport should determine the amount of a reserve for contingent losses on its investment in these securities and that, pending such action and the Commission's approval thereof, the Commission would reserve jurisdiction over the accounting entries proposed by Transport and WEPCO.

The Board of Directors of Transport having subsequently proposed to provide on the company's books, a reserve for contingent losses of \$100,000 with respect to the company's investment in the aforementioned notes, and a reserve of \$650,000 with respect to the company's investment in the aforementioned preferred stock; and the applicants-declarants having requested that the Commission release the jurisdiction heretofore reserved over the accounting

entries proposed by WEPCO and Transport;

The Commission having considered the revised proposed accounting entries in the light of the record as so completed, and having concluded that it is appropriate to release the jurisdiction heretofore reserved with respect to the accounting entries proposed, by WEPCO and Transport in connection with the proposed transactions:

It is ordered, That the jurisdiction heretofore reserved with respect to said accounting entries be, and hereby is, released.

By the Commission.

MIDDLE SOUTH UTILITIES, INC., AND
MISSISSIPPI POWER & LIGHT CO.

NOTICE REGARDING AN INCREASE IN AUTHORIZED COMMON STOCK AND SALE OF COMMON STOCK BY SUBSIDIARY TO PARENT COMPANY

JANUARY 19, 1953.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South") a registered holding company, and its electric utility subsidiary, Mississippi Power & Light Company ("Mississippi") have filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935, and have designated sections 6 (a) 7, 12 (c) and 12 (f) thereof and Rule U-43 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Mississippi has presently outstanding 2,100,000 shares of common stock without nominal or par value, all of which are owned by Middle South. Mississippi proposes to issue and sell to Middle South and Middle South proposes to acquire 500,000 additional shares of such common stock at an aggregate purchase price of \$3,000,000. Concurrently with the completion of the sale of its common stock, Mississippi proposes to transfer \$2,000,000 from earned surplus to its common capital stock account.

Mississippi has authorized under its charter only 2,500,000 shares of common stock so that it is presently in a position to issue only 400,000 additional shares of such stock. Mississippi proposes to amend its charter at a special meeting of stockholders to be held on or about February 9, 1953, so as to increase its authorized shares of common stock to 5,000,000 shares.

The proceeds from the sale of its common stock will be used by Mississippi to finance, in part, its extensive program for the construction of new facilities and extensions and improvements of its present facilities.

Notice is further given that any interested person may, not later than February 2, 1953, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the na-

ture of his interest, the reasons for such request and the issues, if any, of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after February 2, 1953, at 5:30 p. m., e. s. t., said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 and U-100 thereof. All interested persons are referred to said application-declaration which is on file with the Commission for a statement of the transactions therein proposed.

MICHAEL STIEFEL

ORDER FOR PROCEEDINGS AND NOTICE OF HEARING

In the matter of Michael Stiefel, 850 East Seventeenth Street, Brooklyn, New York.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 19th day of January 1953.

I. The Commission's public official files disclose that Michael Stiefel, a solo proprietor, hereinafter referred to as registrant, is registered as a broker-dealer pursuant to section 15 (b) of the Securities Exchange Act of 1934.

II. The Records Officer of the Commission has filed with the Commission a statement, a copy of which is attached hereto and made a part hereof,¹ stating that registrant did not file with the Commission reports of his financial condition during the calendar years 1949, 1950, 1951, and 1952 as required by section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted thereunder.

III. The information reported to the Commission by its Records Officer as set forth in paragraph II hereof tends, if true, to show that registrant violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section.

IV The Commission, having considered the aforesaid information, deems it necessary and appropriate in the public interest and for the protection of investors that proceedings be instituted to determine:

(a) Whether the statement referred to in paragraph II hereof is true;

(b) Whether registrant has willfully violated section 17 (a) of the Securities Exchange Act of 1934 and Rule X-17A-5 adopted under said section;

¹ Filed as part of the original document.

(c) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, it is in the public interest to revoke registration of registrant; and

(d) Whether, pursuant to section 15 (b) of the Securities Exchange Act of 1934, pending final determination, it is necessary or appropriate in the public interest or for the protection of investors to suspend the registration of registrant.

V. *It is ordered*, That registrant be given an opportunity for hearing as set forth in paragraph IV hereof on the 23d day of February 1953, at the main office of the Securities and Exchange Commission, located at 425 Second Street NW., Washington 25, D. C., before a Hearing Examiner to be designated by the Commission. On such date the Hearing Room Clerk in Room 193, North Building, will advise the parties and the Hearing Examiner as to the room in which such hearing will be held. The Commission will consider any motion with respect to a change of place of said hearing if said motion is filed with the Secretary of the Commission on or before February 16, 1953. Upon completion of any such hearing in this matter the Hearing Examiner shall prepare a recommended decision pursuant to Rule IX of the rules of practice unless such decision is waived.

It is further ordered, That in the event registrant does not appear personally or through a representative at the time and place herein set or as otherwise ordered, the Hearing Room Clerk shall file with the Records Officer of the Commission a written statement to that effect and thereupon the Commission will take the record under advisement for decision.

This order and notice shall be served on registrant personally or by registered mail forthwith, and published in the FEDERAL REGISTER not later than fifteen (15) days prior to February 23, 1953.

In the absence of an appropriate waiver, no officer or employee of the Commission engaged in the performance of investigative or prosecuting functions in this or any factually related proceeding will be permitted to participate or advise in the decision upon the matter except as witness or counsel in proceedings held pursuant to notice. Since this proceeding is not "rule making" within the meaning of section 4 (c) of the Administrative Procedure Act, it is not deemed to be subject to the provisions of the section delaying the effective date of any final Commission action.

By the Commission.

CAPITAL ADMINISTRATION COMPANY, LTD.
AND TRI-CONTINENTAL CORPORATION
ORDER DENYING MOTION AND POSTPONING
HEARING

JANUARY 22, 1953.

On January 7, 1953, the Commission, pursuant to section 40 (a) of the Invest-

ment Company Act of 1940, ordered that a public hearing be held on January 26, 1953, on the joint application of Capital Administration Company, Ltd. ("Capital") and Tri-Continental Corporation ("Tri-Continental"), for an exemption from sections 17 (a) (1) and (2) of the said act of the proposed merger of Capital into Tri-Continental, and on the application of Tri-Continental for an exemption from section 18 (d) of said act of the proposed issuance of warrants for the purchase of its common stock.

The Commission's Notice of Application and Order for Hearing was duly published in the FEDERAL REGISTER, released to the public press, and distributed to the applicable mailing list on file with the Commission.

On January 13, 1953, Edward S. Ragsdale, a shareholder of Capital, filed a motion requesting the Commission to cancel the said hearing, require the said companies to furnish a copy of the applications to Capital's shareholders or give them notice of the provisions therein, and direct that no hearing be held for a period of 60 days after such service or notification in order to permit the shareholders to obtain expert advice with respect to the applications and decide upon a course of action.

The Commission having heard oral argument on said motion on January 21, 1953, and having duly considered the matter, including the facts that the requirements of the said act and the Commission's rules of practice with respect to notice of the hearing have been fully met, that the Notice of Application and Order for Hearing contained a description of the provisions of the proposed merger, and that movant received a copy of said notice and order on January 9, 1953, and a copy of the applications on or about January 15, 1953, and that under the Commission's rules of practice, movant and any other shareholders in the said companies will be afforded appropriate opportunity to present their views and produce evidence at the hearing with respect to the proposed merger;

It is ordered, That the motion of Edward S. Ragsdale and the requests contained therein be, and they hereby are, denied, but that the public hearing on the aforesaid applications scheduled for January 26, 1953, be, and it hereby is, postponed to February 3, 1953, at 10:00 a. m., e. s. t., in Room 193 at the offices of the Commission, 425 Second Street NW., Washington 25, D. C.
