**Chapter III—Agricultural Research Service, Department of Agriculture**

**PART 319—FOREIGN QUARANTINE NOTICES**

**Subpart—Nursery Stock, Plants, and Seeds**

**AMENDMENT OF QUARANTINE AND REGULATIONS**

On April 2, 1959, notice of proposed amendment of § 319.37(b) of the quarantine relating to the importation of nursery stock, plants, and seeds (7 CFR 319.37(b), 23 F.R. 1715, 7165) and §§ 319.37-2a(b) and 319.37-4 (a) and (b) of the regulations supplemental to said quarantine (7 CFR 319.37-2a(b), 319.37-4 (a) and (b), 23 F.R. 7033) was published in the FEDERAL REGISTER (24 F.R. 2561). After due consideration of all relevant matters and under the authority of sections 1, 5, 7, and 9 of the Plant Quarantine Act of 1912, as amended (7 U.S.C. 154, 159, 160, 162), the Administrator of the Agricultural Research Service hereby amends the aforesaid sections in the following respects:

**§ 319.37 [Amendment]**

a. Section 319.37(b) is amended by adding "Lens spp. seeds", in its proper alphabetical order, in the tabular column therein headed "Plant Material", and by adding, with respect to "Lens spp. seeds", in the tabular columns headed "Foreign country or countries from which prohibited" and "Injurious insect or plant disease determined as existing in the country or countries named and capable of being transported in the prohibited plant material", respectively, the items "All South American countries" and "A rust fungus (a form of *Uromyces fabae* (Pers.) d By)."

**§ 319.37-2a [Amendment]**

b. Section 319.37-2a(b) is amended by changing the parenthetical phrase therein to read "(except seeds of *Lathyrus*, *Lens* spp., okra, and *Vicia*)".

c. Section 319.37-4(a) and the first sentence of § 319.37-4(b), respectively, are amended to read as follows:

**§ 319.37-4 Seeds.**

(a) *Seeds importable without individual permits.* Seeds of field crops, vegetables, and annual, biennial, and perennial flowers which are essentially herbaceous in character, except seeds of *Lathyrus*, *Lens* spp., okra, and *Vicia*, may be imported into the United States without further permit other than the authorization contained in this paragraph but subject to the conditions and requirements of § 319.37-2.

(b) *Seeds importable under permit.* All seeds not under paragraph (a) of this section, not prohibited entry in § 319.37 or any other quarantine, and not restricted in any other quarantine, and including seeds of *Lathyrus*, okra, and *Vicia*; and seeds of *Lens* spp. from other than South American countries; which are free from pulp of a character which will support living larvae of fruit flies or

other injurious insects, other than stored-product insects of general distribution, may be imported into the United States with a permit. \* \* \*

These amendments shall become effective May 19, 1959.

The amendment of § 319.37(b) prohibits the importation from all South American countries of seeds of lentil, *Lens culinaris* Medik. (*L. esculenta* Moench) and seeds of other species of the genus *Lens*. This action is taken because of the danger of introducing with such seeds a disease caused by a rust fungus identified as a form of *Uromyces fabae* (Pers.) d By. This disease is reported as having caused heavy losses to the lentil crop in certain South American countries during the past two years. *Uromyces fabae* in one form or another is a cosmopolitan organism, attacking several genera of the family Leguminosae, including sweetpea, garden pea, and vetch in the United States and elsewhere. However, it has never been reported as attacking lentil in the United States. Until recently it had not been reported as attacking that host in other parts of the world.

The amendments of §§ 319.37-2a(b) and 319.37-4 (a) and (b) require that a formal permit be secured for the importation of seeds of the genus *Lens* from all parts of the world other than South America in order to place them under necessary plant quarantine safeguards.

(Secs. 1, 5, 7, and 9, 37 Stat. 315, 316, 317, 318, as amended; 7 U.S.C. 154, 159, 160, 162)

**PART 728—WHEAT**

**Subpart—Wheat Marketing Quota Regulations for 1958 and Subsequent Crop Years**

**NORMAL WHEAT HARVEST COMPLETION DATES IN ALABAMA AND MISSISSIPPI**

*Basis and purpose.* The amendment herein is issued pursuant to and in accordance with the Agricultural Adjustment Act of 1938, as amended, and is issued for the purpose of providing dates on which wheat harvest is determined to be normally substantially completed in Alabama and Mississippi. Since county committees have completed the determination of 1959 excess wheat acreage it is important that State and county committees be notified of the amendment herein as soon as possible so that producers with 1959 excess wheat acreage may be notified of the final date for

adjustment of the excess, storage of the excess, or delivery to the Secretary. Accordingly it is hereby found that compliance with the public notice, procedure and 30-day effective date provisions of section 4 of the Administrative Procedure Act is impracticable and contrary to the public interest. Therefore, the amendment shall become effective upon its publication in the FEDERAL REGISTER.

Section 728.862(a)(3) is amended as follows:

1. Insert at the beginning of the list of States and normal harvest completion dates therefor the following:

*Alabama*

July 1: Autauga, Baldwin, Barbour, Bullock, Butler, Clarke, Coffee, Conecuh, Covington, Crenshaw, Dale, Dallas, Elmore, Escambia, Geneva, Henry, Houston, Lowndes, Macon, Mobile, Monroe, Montgomery, Pike, Russell, Washington, Wilcox.

July 15: Bibb, Blount, Calhoun, Chambers, Cherokee, Chilton, Choctaw, Clay Cleburne, Colbert, Coosa, Cullman, DeKalb, Etowah, Fayette, Franklin, Greene, Hale, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Lee, Limestone, Madison, Marengo, Marion, Marshall, Morgan, Perry, Pickens, Randolph, St. Clair, Shelby, Sumter, Talladega, Tallapoosa, Tuscaloosa, Walker, Winston.

2. Insert between the list of dates for the States of Minnesota and Missouri the following:

*Mississippi*

June 25: All counties.

**PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA**

**Limitation of Handling**

*Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons as hereinafter provided will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the pub-

lic interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (60 Stat. 237; 5 U.S.C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

*Order, as amended.* The provisions in paragraph (b) (1) (ii) of § 953.898 (Lemon Regulation 791; 24 F.R. 3751, 3955) are hereby further amended to read as follows:

(ii) District 2: 441,750 cartons.

## Title 9—ANIMALS AND ANIMAL PRODUCTS

### Chapter I—Agricultural Research Service, Department of Agriculture

#### SUBCHAPTER A—MEAT INSPECTION REGULATIONS

#### PART 24—EXPORT STAMPS AND CERTIFICATES<sup>1</sup>

Pursuant to the authority conferred by the Meat Inspection Act, as amended (21 U.S.C. 71 et seq.), Part 24 of the Meat Inspection Regulations (9 CFR, Chapter I, Subchapter A, as amended) is hereby revised to read as follows:

Sec.

- 24.1 Manner of affixing stamps and marking product for export.
- 24.2 Export stamps and certificates; instructions concerning issuance.
- 24.3 Export transportation without certificate prohibited.
- 24.4 Uninspected tallow, stearin, oleo oil, etc.; not to be exported unless exporter certifies as inedible.
- 24.5 Product packed with preservative for export; required stamps and certificates; affixing and removal of stamps.

**AUTHORITY:** §§ 24.1 to 24.5 issued under sec. 306, 46 Stat. 689, as amended; 19 U.S.C. 1306, as amended; and 34 Stat. 1264; 21 U.S.C. 89, which interprets or applies 34 Stat. 1261,

<sup>1</sup> Attention is directed to the requirements of Part 25, of this subchapter, governing transportation, and to the requirements of § 18.8 of this subchapter that products prepared under that section for export be destroyed for food purposes before being sold or offered for sale for domestic use.

1263; 21 U.S.C. 74, 83-86; 19 F.R. 74, as amended.

#### § 24.1 Manner of affixing stamps and marking product for export.

(a) A numbered meat-inspection stamp shall be affixed to each outside container (except cloth wrappings) of any inspected and passed product for export except ship stores and small quantities exclusively for the personal use of the consignee and not for sale or distribution. So far as possible stamps shall be issued serially.

(b) Such stamps shall be securely affixed, and if the container be of wood the stamps shall be placed either (1) in a grooved space made by removing a portion of the wood of sufficient size to admit the stamp, (2) on either end of the package, provided that the sides thereof are made to project at least one-eighth of an inch to afford the necessary protection from abrasion, or (3) in some other equally satisfactory manner acceptable to the inspector in charge.

(c) The cloth wrapping used as an outside container of any inspected and passed product for export shall bear the inspection legend and the establishment number applied by the 2½-inch rubber brand or a numbered export meat inspection stamp as may be required by the foreign country to which the product is being exported.

#### § 24.2 Export stamps and certificates; instructions concerning issuance.

(a) Upon application of the exporter, the inspector in charge is authorized to issue certificates for shipments of inspected and passed product to any foreign country. Certificates should be issued at the time the articles leave the official establishment; if not issued at that time, they may be issued later only after identification and reinspection of the products.

(b) Export certificates shall be issued in serial numbers and in triplicate form. Quadruplicate certificates may be issued for any exportation on request of the exporter. Each certificate shall show the names of the exporter and the consignee, the destination, the numbers of the stamps, if any, attached to the articles to be exported, the number and type of packages, the shipping marks, the kind of product, and the weight.

(c) Only one certificate shall be issued for each consignment, except that for sufficient reasons new certificates may be issued by inspectors in charge. A certificate issued in lieu of another shall show in the left hand margin the notation "Issued in lieu of . . .", and the number of the certificate which is superseded. The certificate that is superseded when another is issued in lieu thereof, shall show in the left hand margin the number of the certificate which supersedes it, as follows: "Superseded by No.-----"

(d) The original certificate shall be delivered to the shipper and shall be used only for the purpose of effecting the transportation and delivery of the consignment.

(e) The duplicate of the certificate shall be delivered to the shipper and by him delivered to the agent of the railroad or other carrier which transports the consignment from the United States otherwise than by water, or to the chief officer of the vessel on which the export shipment is made and without which no clearance shall be given to any vessel having aboard any product destined to countries listed in § 24.3, and shall be used only by these agencies and for the purpose of effecting the transportation of the consignment certified. The chief officer of the vessel shall file such duplicate with the customs officer at the time of filing the master's manifest or the supplemental manifest.

(f) The triplicate of the certificate shall be retained in the station file.

(g) Under no circumstances shall the original or the triplicate of such certificate be used for the purpose that is prescribed by paragraph (e) of this section for the duplicate.

(h) Upon request, certificates and stamps may be issued by inspectors in charge for export consignments of product of official establishments not under their supervision, provided the consignments are first identified as having been "U.S. inspected and passed" and are found to be sound, healthful, wholesome, and fit for human food.

(i) No erasures or alterations shall be made on a certificate. All certificates rendered useless through clerical error or otherwise and all certificates cancelled for whatever cause shall be destroyed.

(j) All export certificates shall be so executed that the data entered thereon will appear in the proper spaces on each copy of the certificate.

#### § 24.3 Export transportation without certificate prohibited.

No person operating any steam or sailing vessel, and no railroad or other carrier, shall receive for transportation or transport from the United States to Great Britain or Ireland, or any of the countries of continental Europe, or to Canada, Venezuela, Argentina, Peru, Colombia, the French Antilles, Cuba, Algeria, Bermuda, Trinidad, or Panama, any product, except ship stores and small quantities exclusively for the personal use of the consignee and not for sale or distribution, unless and until a certificate of inspection covering the same has been issued and delivered as provided in this part. The requirement of export certificates is waived for product exported to countries other than those named in this section. The waiving of the requirement of export certificates for product exported to certain countries does not waive the requirements of § 24.1.

#### § 24.4 Uninspected tallow, stearin, oleo oil, etc.; not to be exported unless exporter certifies as inedible.

No tallow, stearin, oleo oil, or the rendered fat derived from cattle, sheep, swine, or goats, that has not been inspected, passed, and marked in compliance with the regulations in Parts 1

through 29 of this subchapter shall be exported, unless the shipper files with the collector of customs at the port from which the export shipment is made a certificate by the exporter that such article is inedible.

§ 24.5 Product packed with preservative for export; required stamps and certificates; affixing and removal of stamps.

(a) Numbered stamps and certificates of a distinctive color, known as preservative stamps and certificates, shall be issued to identify all products prepared or packed with preservatives for export. The stamps shall be securely affixed to containers of the product before they leave the official establishment, in the manner prescribed by § 24.1(b). Unless the Director of Division shall otherwise direct, upon special application to him, the certificates shall be issued before the products leave the official establishment, and shall be issued and used in the same way and shall serve the same purposes as the certificates issued pursuant to § 24.2.

(b) Prior to export, no preservative stamp required by this section shall be detached from the container except under the personal supervision of a Division employee. If the preservative stamp is detached, then the product in the container shall be handled in accordance with the provisions of § 18.8 of this subchapter.

This revision is being issued to remove the special requirements of foreign countries for exporting meat products to such countries from the mandatory status of regulations. Said special requirements of foreign countries will be made available to the industry and to interested persons by including this type of information in an appendix of the printed regulations that will be available for general distribution. This type of publication lends itself more readily to flexibility and the changes necessary to keep the public informed of current requirements.

This revision therefore relieves restrictions previously imposed and makes other changes which are non-substantive in nature. In order to be of maximum benefit to persons subject to the restrictions which are being relieved, it is found upon good cause, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), that notice and other public rule making procedure with respect to said revision would be impracticable and unnecessary, and it may be made effective less than 30 days after publication in the FEDERAL REGISTER.

This revision shall become effective May 19, 1959.

Done at Washington, D.C., this 14th day of May 1959.

M. R. CLARKSON,  
Acting Administrator,  
Agricultural Research Service.

### SUBCHAPTER C—AIRCRAFT REGULATIONS

[Amdt. 19]

#### PART 507—AIRWORTHINESS DIRECTIVES

##### Miscellaneous Amendments

As a result of two incidents of Boeing Model 707 aircraft rudder pedals jamming in flight, I find that an unsafe condition may exist with respect to this type aircraft. Operators have been advised to make pretakeoff checks pending accomplishment of modifications.

In the interest of safety, compliance with the notice, procedures and effective date provisions of section 4 of the Administrative Procedure Act, is impracticable and contrary to the public interest and therefore is not required.

Accordingly § 507.10(a) is amended as follows:

59-10-1 BOEING. Applies to Boeing Model 707-100 series airplanes registration number N707PA through N712PA, N70773, N7501A through 7510A, N732TW through N736TW.

Compliance required by May 30, 1959.

Remove lining trim strip 65-1910-10 and lining panels 65-1910-3 and -4 from LH and RH cabin sidewall panel installations. Install suitable plate of 0.032 gage aluminum alloy or 0.062 thick Royalite material on the LH and RH cabin sidewalls in vicinity of fuselage station 196.5 such that left outboard

and right outboard rudder pedals will have positive clearance throughout the full range of rudder pedal travel. (Boeing Service Bulletin No. 298 Revision R-1 covers this subject.)

This amendment shall be effective immediately.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Russeks Fifth Avenue, Inc., New York, N.Y., Docket 7262, Apr. 16, 1959]

This proceeding was heard by a hearing examiner on the complaint of the Commission charging a New York City department store with violating the Fur Products Labeling Act by advertising in newspapers which failed to disclose the names of animals producing certain furs or the country of origin or the fact that some fur products contained artificially colored fur, and which represented prices as reduced from "original retail" prices that were in fact fictitious and by failing to designate the time at which said "original retail" prices were in effect and to keep adequate records as a basis for said pricing claims.

After acceptance of an agreement containing a consent order, the hearing examiner made his initial decision and order to cease and desist which became on April 16 the decision of the Commission.

The order to cease and desist is as follows:

*It is ordered,* That Russeks Fifth Avenue, Inc., a corporation, and its officers, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the introduction into commerce, or the sale, advertising, or offering for sale, in commerce, or the transportation or distribution in commerce of fur products, or in connection with the sale, advertising, offering for sale, transportation, or distribution of fur products which have been made in whole or in part of fur which has been shipped and received in commerce as "commerce", "fur" and "fur product" as defined in the Fur Products Labeling Act, do forthwith cease and desist from:

1. Falsely or deceptively advertising fur products through the use of any advertisement, representation, public announcement, or notice which is intended to aid, promote, or assist, directly or indirectly, in the sale, or offering for sale of fur products, and which:

A. Fails to disclose:

(1) The name or names of the animal or animals producing the fur or furs contained in the fur product, as set forth in the Fur Products Name Guide, and as prescribed under the rules and regulations;

(2) That the fur product contains or is composed of bleached, dyed or otherwise artificially colored fur, when such is the fact;

(3) The name of the country of origin of any imported furs contained in a fur product.

B. Represents, directly or by implication, that the regular or usual price of any fur product is any amount which is in excess of the price at which respondent has usually and customarily sold such

product in the recent regular course of business.

C. Bases comparative prices on former or original prices that are not the prevailing prices at the time of the advertisement, without stating the dates or times of the compared prices.

2. Making price claims and representations of the types referred to in paragraphs B and C above unless respondent maintains full and adequate records disclosing the facts upon which such claims or representations are based.

By "Decision of the Commission", etc., report of compliance was required as follows:

*It is ordered,* That the respondent herein shall within sixty (60) days after service upon it of this order file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: April 16, 1959.

By the Commission.

afforded a reasonable period of time within which to suggest any stipulations deemed by it to be necessary for the protection of existing surface improvements or uses to be included in the permit or lease, setting forth the facts supporting the necessity thereof, and also to file any objections it may have to the issuance thereof. Where such party opposes the issuance of the permit or lease, the facts submitted in support must be carefully considered and each case separately decided on its merits. However, such opposition affords no legal basis or authority to refuse to issue the permit or lease for the reserved minerals in the lands; in such case, the final determination whether to issue the permit or lease depends upon whether the interests of the United States would best be served thereby.

[ 7 CFR Part 68 ]

BEANS

U.S. Standards

Notice is hereby given that the United States Department of Agriculture is considering amendments to the United States Standards for Beans (7 CFR 68.101 et seq.) pursuant to the authority contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 et seq.). The proposed amendments as hereinafter set forth would change the definitions for percentages and moisture and provide for grading Pinto beans on the basis of the numerical grade factor requirements of § 68.103(a), and also provide that beans, except lima beans, of grade U.S. No. 1 shall have good natural color. The change in the definition for moisture would require that the basic method for determining moisture in beans shall be an air-oven method instead of the present water-oven method. The proposed change in the grading of the class "Pinto beans" would result in the lowering of percentages of total defects, consisting of splits, damaged beans, contrasting classes, and foreign material, permitted in the several numerical grades for this class.

It is proposed to amend the United States Standards for Beans as follows:

1. Redesignate paragraphs (s), (t), and (u) of § 68.101 as paragraphs (t), (u), and (v) respectively, and add a new paragraph (s) to read as follows:

(s) *Good natural color.* Good natural color as applied to the general appearance of beans shall mean that the beans in mass are practically free from discoloration and have the natural color and appearance of the class of beans that predominates in the sample.

2. Change paragraphs (b) and (c) of § 68.102 to read, respectively:

(b) *Percentages.* All percentages shall be determined upon the basis of weight.

Bureau of Land Management

**MINERAL DEPOSITS IN ACQUIRED LANDS AND UNDER RIGHTS-OF-WAY**

**Notice of Proposed Rule Making**

*Basis and purpose.* Notice is hereby given that, pursuant to the authority vested in the Secretary of the Interior by the Act of August 7, 1947 (61 Stat. 915; 30 U.S.C., sec. 351, et seq.), and sec. 2478 of the Revised Statutes (43 U.S.C. 1201) it is proposed to amend 43 CFR 200.3 as hereinafter set forth. The purpose is to afford certain surface owners of acquired lands of the United States, in which the minerals are reserved to the Government, an opportunity to suggest imposition of stipulations, in mineral leases to be issued, for the protection of the surface use of the lands.

This proposed amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedure Act (5 U.S.C. 1003); however, it is the policy of the Department of the Interior that, wherever practicable, the rule making requirements be observed voluntarily. Accordingly, interested persons may submit in triplicate written comments, suggestions, or objections with respect to the proposed amendments to the Bureau of Land Management, Washington 25, D.C., within thirty days of the date of publication of this notice in the FEDERAL REGISTER.

ROGER ERNST,

Assistant Secretary of the Interior.

MAY 13, 1959.

Section 200.3 is amended to read as follows:

§ 200.3 Stipulations and consent of agency having jurisdiction of land; notification to other parties controlling surface.

(b) All applications and offers for permits or leases should name, if practicable, the Government agency from which consent to the issuance of a permit or lease must be obtained, or the agency that may have title records covering the ownership of the mineral interest involved, and identify the project, if any, of which the land is a part. Permits or leases to which such consent is necessary will not be issued until the lessee or permittee executes such stipulations as may be required by the consenting agency.

(c) Where the United States has conveyed the title to, or otherwise transferred the control of the surface of the lands containing the deposits to any State or any political subdivision, agency or instrumentality thereof, or a college or any other educational corporation, or association, or a charitable or religious corporation or association, such party should be given written notification by certified mail of the application for the permit or lease, and should be

The percentage of moisture shall be stated in terms of whole and half percents. A fraction of a percent of moisture when equal to or greater than one-half shall be stated as one-half percent and when less than one-half shall be disregarded.

(c) *Moisture.* Moisture content shall be ascertained by the air-oven method for beans prescribed by the United States Department of Agriculture as described in Service and Regulatory Announcements No. 147 (1959 Revision) of the Agricultural Marketing Service, or ascertained by any method which gives equivalent results.

3. Change the heading of paragraph (a) of § 68.103 to read:

(a) *Grades and grade requirements for the classes Pea, Medium White, Marrow, Great Northern, Small White, Flat Small White, Large White, White, Kidney, Light Red Kidney, Dark Red Kidney, Western Red Kidney, Yelloweye, Old Fashioned Yelloweye, Small Red, Pink, Bayo, Pinto, and Mung beans, and the classes of Miscellaneous beans (see also paragraph (f) of this section).*

5. Change footnote 1 under (a) of § 68.103 to read:

<sup>1</sup>The beans in grade U.S. No. 1 shall be of good natural color and well screened, and the beans in grades U.S. No. 2 and U.S. No. 3 shall be well screened.

6. Change footnote 3 under paragraph (a) of § 68.103 to read:

<sup>3</sup>The beans of the grades U.S. No. 1 and U.S. No. 2 of the classes Yelloweye and Old Fashioned Yelloweye may contain an additional 5.0 percent of classes that blend, when such additional percentage consists of white beans which are similar in size and shape to the Yelloweye or Old Fashioned Yelloweye beans.

7. Change the heading of paragraph (b) of § 68.103 to read:

(b) *Grades and grade requirements for the classes Blackeye and Cranberry beans (see also paragraph (f) of this section).*

8. Change footnote 1 under paragraph (b) of § 68.103 to read:

<sup>1</sup>The beans in grade U.S. No. 1 shall be of good natural color and well screened and the beans in grades U.S. No. 2 and U.S. No. 3 shall be well screened.

9. Delete paragraph (c) of § 68.103.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Bureau Order 569]

MEMBERS OF AGUA CALIENTE (PALM SPRINGS) BAND OF MISSION INDIANS

Instructions for Allotting Additional Lands

On January 23, 1959, there was published in the FEDERAL REGISTER a notice of intention to adopt Instructions for Allotting Additional Lands to Members of the Agua Caliente (Palm Springs) Band of Mission Indians. Interested persons were given an opportunity to submit their comments, suggestions, or objections within 30 days of the date of publication.

During the 30-day period certain objections were received from the tribe and its members. To the extent that it is possible to meet those objections under existing statutory authority, it has been determined that the following changes in the instructions should be made.

The arranging of the allottees into equalization groups and the drawings to determine the order of preference for making allotment selections within the respective equalization groups have been eliminated. The length of time allowed each allottee in which to make a selection has been redefined as running from 12 o'clock noon to 12 o'clock noon of the following day to avoid uncertainty

as to the time limit of one day proposed in the original instructions.

In Item 6 under Procedures, the following has been added: "To provide the maximum latitude for adjustment of equities and for fitting available allottable parcels of land to the entitlements of the individuals participating in the equalization program, the making of an application for an allotment and the filing thereof with the Bureau of Indian Affairs and this Department shall not vest in the individual any right, title, or interest in and to the land applied for prior to approval of the completed schedule of equalization allotments by the Secretary of the Interior, and the application form will so provide."

This change has been made due to the fact that we have determined that, because of the correlative nature of the equalization of allotments, it is necessary in this instance to avoid the invocation of the well established legal doctrine that an Indian's right to lands selected as an allotment, under approved departmental procedures, vests upon the selection of the lands by such Indian.

The instructions, as changed, are hereby approved and adopted as set forth below. The instructions are effective upon publication in the FEDERAL REGISTER.

It is the purpose of this instruction to furnish a general guide to procedure in allotting additional tribal land to members of the Agua Caliente (Palm Springs) Band of Mission Indians to

achieve the fullest possible measure of equalization of values of allotments, in accordance with previously stated Departmental objectives. Statutory authority and direction for allotments is found in the Act of January 12, 1891 (26 Stat. 712), as amended by the Act of March 2, 1917 (39 Stat. 969, 976). This instruction supersedes prior instructions regarding equalization of allotments.

Equalization will be accomplished to the highest value level possible, utilizing all available allottable tribal lands to the extent permitted by acreage limitations, on the basis of present day values of allotments, excluding the value of any improvements thereon, where the allottee is still living and he still owns his allotment in trust or in fee. Where lands have been sold under supervision of this Bureau by an allottee who is still living, the value used as a basis for equalization will be the amount received in such sale, excluding the value assigned to any improvements thereon. Where lands have been fee patented and sold by an allottee who is still living, the value used as the basis for equalization will be the appraised value of the land, excluding improvements, at the time it was sold, regardless of the amount received in the sale.

As in the case of the allotted lands, the value of the tribal lands will be determined on the basis of appraisals recently made for equalization purposes by independent contract appraisers. Tribal lands are not available in suf-

ficient quantity and value to equalize to the highest valued allotment. A number of the higher valued allotments will, of necessity, be excluded from participation in equalization. The Area Director will calculate the highest possible level of equalization, giving due consideration to the acreage limitations imposed by law, and determine the number of allottees who may participate. Deceased allottees will be excluded under the well established legal principle that the right to allotment does not survive the death of the individual.

The term "available allottable tribal land" includes all tribal land except minimum areas required for cemetery and church purposes.

The Area Director will identify the specific tracts of land to be reserved for church and cemetery purposes and inform the Commissioner as to the descriptions of such tracts for preparation of an order revoking the previous reserve orders and reserving the church and cemetery sites.

In order to afford tribal members the opportunity of maintaining the reserved lands in their present status, a member may tentatively select areas now in reserve status, representing all or any part of his equalization share, with the view of relinquishing this selection to the tribe for tribal reserve purposes (not available for selection by others) when all selections have been made, and forfeiting his right to that amount of his equalization share.

Applications received after June 20, 1958, the date of approval of the original instructions, for new allotments from or on behalf of any members of the Band who have not heretofore received allotments will be rejected. After equalization is completed applicants for new allotments may select any unallotted land except the area reserved for cemetery and church purposes. Further, in view of maintaining a necessary stability of tribal land values pending completion of equalization, applications for exchanges of land between individuals and the Band will be rejected.

The prior allotting instructions included a purported classification of lands on the basis of homesite and agricultural potential. However, in the light of the Department's recognition that this equalization program is based on value rather than on acreage, it is permissible to allot lands to any individual up to the maximum of 160 acres allowed by law.

#### PROCEDURES

1. Prepare maps of the available allottable tribal lands, showing thereon a division of such lands into parcels or units of the maximum size consistent with the prospective requirements of the allottees participating in equalization, giving all possible regard to maintaining such plottage factors as will preserve to the highest degree the values inherent in the lands thus being subdivided, and giving due consideration to acreage limitations imposed by law. All parcels shall conform as nearly as possible to aliquot parts of regular legal subdivisions of the

public land surveys. The map will show unit values of each designated parcel, one unit for each \$5,000 of value and a half unit being the smallest denomination of value. It will be impracticable to make parcels of land available for selection which will exactly equal in value the amount to which the allottees may be entitled. Rounding values off to the nearest \$2,500 will be an acceptable practice. In order to aid allottees in deciding upon selections, the Area Director will mark on the ground to the extent he deems practical the parcels shown on the maps. Should it be necessary, the Area Director shall arrange with the Bureau of Land Management for the approval of plats to cover selections which do not conform to aliquot parts of legal subdivisions.

2. The Area Director shall prepare a list of allottees entitled to participate in equalization. Number 1 on this list shall be the allottee having the lowest valued allotment. Number 2 shall be the allottee having next to the lowest valued allotment, and so forth, in ascending order of values. Participating allottees (or the appropriate representatives of minor allottees) shall be informed in writing by registered mail of the number of units of value to which they are entitled. Such units of value shall be determined by the Area Director, taking into consideration the relative amounts of additional values to which the allottees are entitled and the values of the parcels of land available for allotment. Individuals shall make their selections in the order in which they appear on the list of participating allottees. Each allottee shall be notified by registered mail at least 10 days in advance of the time set for his required appearance at the Bureau of Indian Affairs office in Palm Springs. In addition to the requirement that notice be given by registered mail, the Area Director shall take every reasonable precaution to ascertain that the allottee has, in fact, received such notice. Each allottee shall be allowed a period of time to run from 12 o'clock noon to 12 o'clock noon the following day within which to make his equalization selection.

3. The person entitled to make the first selection shall make a selection of a tract with the highest possible unit value which will not exceed the number of units to which he is entitled. If, after making his selection, he is entitled to additional value, he shall select another parcel, again being limited to a tract of the highest unit value which will not exceed the number of units to which he is entitled and which will not result in his exceeding the acreage limitations imposed by law; continuing in this manner until his equalization selections have been completed. Other persons entitled to make selections shall in their turn and at the time designated for them proceed to select in like manner until their equalization selections have been completed. If, for any valid reason, an individual is unable to appear at the time set, a selection may be made for him by a representative legally author-

ized by appropriate power of attorney to act for him. Legal guardians will be required to exhibit letters of guardianship and to establish their identity to the satisfaction of the officer conducting the proceedings.

4. If an individual does not appear, either in person or by authorized representative, at the time set for his selection, or having appeared at such time, either in person or by authorized representative, is unable or unwilling to decide upon his selection within the time allowed, the Area Director or his authorized representative shall make a selection for him.

5. The periods of time allowed for the making of selections are maximum periods. The Area Director, or his representative, and the allottees concerned may by mutual consent proceed in the established order with the selection of lands without awaiting the time set for the selection.

6. When an individual has decided upon a selection, he shall make application for an allotment thereof on forms to be supplied by the Area Director. To provide the maximum latitude for adjustment of equities and for fitting available allottable parcels of land to the entitlements of the individuals participating in the equalization program, the making of an application for an allotment and the filing thereof with the Bureau of Indian Affairs and this Department shall not vest in the individual any right, title, or interest in and to the land applied for prior to approval of the completed schedule of equalization allotments by the Secretary of the Interior, and the application form will so provide.

7. When selections and applications therefor have been made by or on behalf of all persons entitled thereto, the Area Director shall prepare a schedule of allotments which shall be submitted, through the Commissioner, to the Secretary for approval.

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 2 S., R. 85 W.,

Sec. 14, lots 18 and 20.

Containing 2.50 acres in one small tract.

3. The tract is located at Burns, Colorado, along the Colorado River. The elevation is about 6,500 feet. The topography is gently to steeply sloping. Vegetation consists of a few native evergreen trees, aspen, native shrubs, grasses and weeds. There is a building site on the tract. Electricity is available. Culinary water is already developed.

4. The tract has been restored from Power Site Reserves 116 and 244, and patent will be issued subject to section 24 of the Federal Power Act, and subject to all rights of way of record. A right of way 25 feet in width, along the right and left banks of the Colorado River as it crosses the tract will be reserved under 43 CFR 257.17(b) for road purposes and for public utilities, and for use by the general public for access to the Colorado River for fishing and other recreational activities. All rights of way reserved may be utilized by the Federal Government, the State of Colorado, Eagle County, or by any agency thereof. All minerals in the land will be reserved to the United States. The appraised fair market value of the tract is \$500.00.

5. Persons who have previously acquired a tract under the Small Tract Act are not qualified to purchase this tract unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.

6. The above described tract will be sold at public auction at a public sale to be held in Room 367, New Custom House, Denver, Colorado, at 10:00 a.m. and 2:00 p.m. on August 20, 1959. The sale at 10:00 a.m. will be open only to those persons who qualify for veterans' preference under the provisions outlined in paragraph 9 below. The 2:00 p.m. sale will be open to the public generally, but will be held only if the tract described in paragraph 2 above remains unsold after the 10:00 a.m. sale. Bids may be made personally by an individual or his agent at either sale, or by mail. Bids

sent by mail will be considered only if received at the Colorado Land Office prior to 10:00 a.m., August 20, 1959. No bid will be accepted if it is less than the appraised fair market value of the tract. See paragraph 4 above for appraised value.

7. To facilitate the completion of the sale, all oral bidders at the 10:00 a.m. sale should bring with them a photostatic copy of their discharge papers or other acceptable certification of proof of right to veterans' preference, as outlined in paragraph 9 below.

8. Each bid sent by mail must clearly show (a) The full name and mailing address of the bidder; (b) Classification Order No. 24; (c) The legal description of the tract for which the bid is made, described in accordance with paragraph 2 of this Order. Each bid must be accompanied by the full amount of the bids in the form of a certified or cashier's check, post office money order, or bank draft, made payable to the Bureau of Land Management. All unsuccessful bids will be promptly returned after the sale. A photostatic copy of bidder's discharge papers or other certification showing proof of veteran's preference, as outlined in paragraph 9 below, must accompany the bid. Such papers will be returned promptly after the sale. Each envelope containing a bid must be addressed to the Manager, Land Office, Bureau of Land Management, Room 371, New Custom House, P.O. Box 1018, Denver 1, Colorado, and carry in the lower left-hand corner of its face the following information and nothing else: (a) "Bid for Small Tract," (b) "Classification Order No. 24," (c) "Veteran's Preference," if the bidder is entitled to such preference; and (d) the description of the tract for which the bid is made, described in accordance with paragraph 2 above. Sender's name and return address should be shown on reverse side of envelope.

9. In accordance with 43 CFR 257.14(e), the tract, when offered at the 10:00 a.m. sale, will be awarded to the highest bidder among persons entitled to veteran's preference. Persons entitled to veteran's preference, in brief, are (a) Honorably discharged veterans who served at least 90 days after September 15, 1940; (b) Surviving spouse or minor orphan children of such veterans; and (c) With the consent of the veteran, the spouse of living veterans. Veterans who were discharged on account of wounds or disability incurred in the line of duty, or the surviving spouse or minor children of veterans killed in line of duty are eligible for veterans' preference regardless of whether such servicemen served less than 90 days after September 15, 1940. The tract will be offered at the 2:00 p.m. sale if it is not sold at the 10:00 a.m. sale, and will be awarded to the highest bidder among the general public irrespective of qualifications upon which veteran's preference is based.

10. Mr. Raymond C. Bearden, Burns, Colorado, claims an equity in a store, cabin, and other improvements on this tract, now occupied by him. In the event Mr. Bearden is not the successful bidder for this tract, he will be allowed a reasonable period of time from notice to

him of the results of the August 20, 1959 sale, within which to negotiate with the successful bidder for the tract as to the disposition of the improvements thereon. Mr. Bearden has the right either to remove any improvements that can be removed without substantial damage to the land or to sell them to the successful bidder.

The successful bidder will be required to pay Mr. Bearden a price mutually agreed upon with him for any improvements which he decides to leave on the land and which are of value to the successful bidder. Proof of such agreement and payment must be filed within a reasonable time with the Land Office Manager, Bureau of Land Management, Room 371, New Custom House, Post Office Box 1018, Denver 1, Colo.

Upon a showing of inability to agree, the Bureau of Land Management will determine the fair and reasonable value of the improvements to be left upon the land for which compensation must be paid. Failure of the successful bidder within a reasonable time to file proof of full compensation to Mr. Bearden, as herein provided, will lead to vacation of the sale and the return of the high bid.

11. Sealed bids will be opened in the presence of the public in Room 367, New Custom House, Denver 1, Colo., beginning at 10:00 a.m. on August 20, 1959. The highest sealed bid received for the tract will be posted for public inspection at the sale.

12. All inquiries concerning this tract should be addressed to the Land Office Manager, 371 New Custom House, P.O. Box 1018, Denver 1, Colo.

## ATOMIC ENERGY COMMISSION

### URANIUM ORE RESERVES

#### Submission of Data

The United States Atomic Energy Commission: Notice is hereby given that data on uranium ore reserves developed as of November 24, 1958 must be submitted to the U.S. Atomic Energy Commission, Grand Junction Operations Office, Grand Junction, Colorado or to one of the AEC Branch Offices before August 1, 1959 in order that properties containing such reserves be considered in negotiations for uranium concentrate procurement during the 1962-66 period. The branch offices are:

*Denver branch office*—U.S. Atomic Energy Commission, Building 40, Denver Federal Center, Denver 2, Colo.

*Salt Lake City branch office*—U.S. Atomic Energy Commission, 222 SW. Temple Street, Salt Lake City, Utah.

*Casper branch office*—U.S. Atomic Energy Commission, 148 North Beech Street, P.O. Building, Casper, Wyo.

*Grants branch office*—U.S. Atomic Energy Commission, Torres Building, Grants, N. Mex.

In December 1958 mine operators were advised that the Commission was starting a survey of ore reserves developed prior to November 24, 1958—the date of a Commission notice in the FEDERAL REGISTER which modified the 1962-66 domestic uranium concentrate procurement program. Operators were asked at that time to submit ore reserve data to the

AEC. Many have done so, and the Commission now fixes July 31, 1959, as the last day such data may be submitted.

Dated at Washington, D.C. this 11th day of May 1959.

## FEDERAL POWER COMMISSION

[Docket No. G-18475]

### PENNSYLVANIA GAS CO.

#### Order Providing for Hearing and Suspending Proposed Revised Tariff Sheet

MAY 13, 1959.

Pennsylvania Gas Company (Pennsylvania), on April 3, 1959, tendered for filing Third Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1, proposed to become effective on May 15, 1959, and providing an increased rate and charge for sales by Pennsylvania in interstate commerce of natural gas for resale for ultimate public consumption, subject to the jurisdiction of the Commission.

In support of its proposed increased rate and charge, Pennsylvania cites anticipation of increased costs of purchased gas in consequence of certain proceedings relating to its following suppliers: (1) Tennessee Gas Transmission Company in Docket No. G-17166; (2) United Natural Gas Company in Docket No. G-17763; and (3) New York Natural Gas Corporation in Docket No. G-17296. Said suppliers' proposed increases are under suspension until May 15, 1959, in the first two instances and until June 1, 1959, in the third instance. The proposed increased rates and charges of any or all suppliers may become effective under refunding agreements on the dates indicated next above as they apply to each.

The amount of the annual increase in revenue represented by the rate and charge contained in the above-identified Third Revised Tariff Sheet No. 4 is estimated to be \$3,500 annually. The support for said increase being the proposed increased rates of suppliers, but currently under suspension, the support for Pennsylvania's proposed increase has a corresponding infirmity.

The increased rate and charge provided in said tariff sheet, as tendered on April 3, 1959, has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, that the Commission enter upon a hearing concerning the lawfulness of the rates, charges, classifications, and services contained in Pennsylvania Gas' FPC Gas Tariff, Original Volume No. 1, as proposed to be amended by Third Revised Sheet No. 4, tendered for filing on April 3, 1959; and

that said revised tariff sheet be suspended and the use thereof deferred as herein after ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of the rates, charges, classifications, and services contained in Pennsylvania Gas' FPC Gas Tariff, Original Volume No. 1 as proposed to be amended by Third Revised Sheet No. 4 tendered for filing on April 3, 1949.

(B) Pending such hearing and decision thereon, Pennsylvania's Third Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1 is hereby suspended and the use thereof deferred until June 1, 1959, and until such further time as it may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37(f)).

By the Commission.

[Docket No. G-16805]

### PURE OIL CO.

#### Order Amending Order for Hearing and Suspending Proposed Change in Rate

MAY 12, 1959.

On October 7, 1958, The Pure Oil Company (Pure) tendered for filing Supplemental No. 32 to Pure's FPC Gas Rate Schedule No. 11 for jurisdictional sales of natural gas to Magnolia Petroleum Company. In its tender, Pure requested that said Supplement No. 32 be allowed to take effect as of August 2, 1958. The Commission, by its order issued November 6, 1958, suspended and deferred the use of said Supplement No. 32 until October 8, 1958, and thereafter until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

On November 14, 1958, Pure filed a motion requesting that said Supplement No. 32 be made effective as of October 8, 1958. The Commission, however, on March 17, 1959, issued its order allowing such supplement to take effect as of November 14, 1958, subject to Pure's filing an undertaking to assure refund of excess charges. On March 25, 1959, Pure submitted such undertaking; however, in its letter of transmittal, Pure requested that the Commission allow said Supplement No. 32 to take effect as of October 8, 1958.

In response to Pure's request and the rationale of Commission Order No. 206, it is considered that the Commission's

aforementioned order of November 6, 1958, should be amended to allow said Supplement No. 32 to take effect as of October 8, 1958, subject to Pure's filing an undertaking, as hereinafter provided; and that the Commission's order issued March 17, 1959, should be vacated as it is no longer applicable hereto.

The Commission finds: It is appropriate in carrying out the provisions of the Natural Gas Act that the order issued herein on November 6, 1958, suspending and deferring use of Supplement No. 32 to Pure's FPC Gas Rate Schedule No. 11 be amended as hereinafter provided; and that the Commission's order issued herein on March 17, 1959, be vacated.

The Commission orders:

(A) Paragraph (B) of the aforementioned order issued November 6, 1958 is hereby amended to read as follows:

(B) Pending such hearing and decision thereon, said supplement is hereby suspended and the use thereof deferred until October 8, 1958, and until such further time as it is made effective in the manner hereinafter prescribed.

(B) The aforesaid order is further amended to include the following additional provisions:

(E) The rate, charge, and classification set forth in Supplement No. 32 to Pure's FPC Gas Rate Schedule No. 11 shall be effective as of October 8, 1958: *Provided, however,* That within 20 days from the date of issuance of this order Pure shall execute and file with the Secretary of the Commission the agreement and undertaking described in paragraph (G) below.

(F) Pure shall refund at such times and in such amounts to the persons entitled thereto, and in such manner as may be required by final order of the Commission, the difference between the presently effective rate and charge and the proposed increased rate and charge hereby allowed to become effective in the event the additional gas gathering tax of one cent per Mcf levied by the State of Louisiana is for any reason held to be invalid. Should such additional tax eventually be held invalid and the State of Louisiana makes refund, with interest, of the tax monies collected pursuant to Act No. 8 of 1958 (House Bill No. 303), as approved on June 16, 1958, amending Title 47 of the Louisiana Revised Statutes of 1950, then, and in that event, a proportionate part of the interest so received by Pure herein shall be passed on and paid to the persons entitled thereto at such times and in such amounts and in such manner as may be required by final order of the Commission. Pure shall bear all costs of any such refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rate or charge allowed by this order to become effective, for each billing period, specifying by whom and in whose behalf such amounts were paid; and shall report (original

and one copy), in writing and under oath, to the Commission quarterly, or monthly if Pure so elects, for each billing period, and for each purchaser, the billing determinants of natural gas to such purchasers and the revenues resulting therefrom, as computed under the rate in effect immediately prior to the date upon which the increased rate allowed by this order to become effective, together with the differences in the revenues so computed.

(G) As a condition of this order, within 20 days from the date of issuance thereof, Pure shall execute and file in triplicate with the Secretary of this Commission a written agreement and undertaking to comply with the terms of paragraph (F) hereof, and accompanied by certificate showing service of copies thereof upon all purchasers under the rate schedule involved, as follows:

*Agreement and Undertaking of The Pure Oil Company To Comply With the Terms and Conditions of Paragraph (F) of Federal Power Commission's Order, As Amended, Making Effective Proposed Rate Change*

In conformity with the requirements of the order issued \_\_\_\_\_, as amended by order issued \_\_\_\_\_, in Docket No. G-16805, The Pure Oil Company, hereby agrees and undertakes to comply with the terms and conditions of paragraph (F) of said order, and for said purpose has executed this agreement and undertaking this \_\_\_\_\_ day of \_\_\_\_\_

Witness:

Unless Pure is advised to the contrary within 15 days after the date of filing such agreement and undertaking, the agreement and undertaking should be deemed to have been accepted.

(H) If Pure shall, in conformity with the terms and conditions of paragraph (F) of this order make such refunds as may be required by order of the Commission, the undertaking shall be discharged; otherwise, it shall remain in full force and effect.

(C) In all other respects, said order issued November 6, 1958, in this proceeding shall remain in full force and effect.

(D) The Commission's order, issued March 17, 1959, Making Effective Proposed Rate Change Upon Filing of Undertaking to Assure Refund of Excess Charge is hereby vacated.

By the Commission.

Secretary.

**HUMBLE OIL & REFINING CO.**

**Notice of Application and Date of Hearing**

MAY 12, 1959.

Take notice that Humble Oil & Refining Company (Applicant), an independent producer of natural gas, filed an

application on March 18, 1957, for a certificate of public convenience and necessity, pursuant to section 7(c) of the Natural Gas Act, authorizing the sale of natural gas in interstate commerce, as hereinafter described and subject to the jurisdiction of the Commission, as more fully represented in the application, as amended, which is on file with the Commission and open to public inspection.

In its application filed on March 18, 1957, Applicant proposed to sell natural gas to Texas Eastern Transmission Corporation (Texas Eastern) from its Edrington A-1 and B-1 Wells located in the Rhode Ranch Field, McMullen County, Texas, pursuant to an amendatory agreement dated February 14, 1957, to a basic contract dated October 1, 1953.

Applicant was granted temporary authorization on March 27, 1957, to render the service proposed herein, pursuant to § 157.28 of the Commission's rules.

On October 10, 1958, Applicant filed an amendment to the application filed on March 18, 1957, in which it was stated that the aforementioned Edrington A-1 and B-1 Wells have ceased to produce and are shut-in due to excessive salt water production. The amendment to the application seeks permission and approval, pursuant to section 7(b) of the Natural Gas Act, to abandon the sale heretofore commenced pursuant to temporary authorization.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on June 23, 1959 at 9:30 a.m., e.d.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the Procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before June 5, 1959. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefore is made.

Secretary.
