Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 7—Agriculture

### CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER B—GENERAL REGULATIONS AND POLICIES—FOOD DISTRIBUTION

[Amdt. 28]

#### PART 250—DONATION OF FOODS FOR USE IN UNITED STATES, ITS TERRITORIES AND POSSESSIONS, AND AREAS UNDER ITS JURISDICTION

##### Miscellaneous Provisions

The regulations for the operation of the Food Distribution Program (31 FR 14297), as amended, are further amended to (1) update the quoted provisions of section 6 and add the new section 14 of the National School Lunch Act, as amended by Pub. L. 93-326, and add provisions of the Agriculture and Consumer Protection Act of 1973, as amended; (2) delete obsolete provisions relating to priority to be given to recipient agencies or recipients; and (3) delete the requirements that feeding operations conducted by food service management companies must be contracted for only on a fee-for-service basis and that contracts for such services must be approved by the appropriate Food and Nutrition Service Regional Office.

This amendment will enable the Department to distribute food more effectively in accordance with recent legislation which prescribes minimum levels of commodity assistance to certain eligible recipient agencies. In addition, this amendment will permit employment of food service management companies by institutions, summer camps for children, and nutrition programs for the elderly on the same basis that schools and service institutions may employ them under Parts 210, 220, and 225 of this chapter.

Since this amendment does not adversely affect the rights or obligations of any member of the public, in that it merely updates quoted statutes, deletes obsolete provisions, and removes restrictions on the use of food service management companies, it is hereby determined that compliance with the proposed rulemaking and public participation procedures is impracticable and unnecessary.

1. The authority citation for Part 250 is revised to read as follows:

**AUTHORITY:** (5 U.S.C. 301); sec. 32, 49 Stat. 774, as amended (7 U.S.C. 612c); 50 Stat. 323, as amended (15 U.S.C. 713c); secs. 6 and 9, 60 Stat. 231, 233, as amended (42 U.S.C. 1755, 1758); sec. 416, 63 Stat. 1058, as amended (7 U.S.C. 1431); sec. 402, 68 Stat. 843, as amended (22 U.S.C. 1922); sec. 210,

70 Stat. 202 (7 U.S.C. 1859); sec. 9, 72 Stat. 1792, as amended (7 U.S.C. 1431b); 74 Stat. 899, as amended (7 U.S.C. 1431 note); sec. 709, 79 Stat. 1212, as amended (7 U.S.C. 1446a-1); sec. 3, 82 Stat. 117, as amended (42 U.S.C. 1761); sec. 8, 80 Stat. 838 (42 U.S.C. 1777); sec. 707, 86 Stat. 84, as amended (42 U.S.C. 3045f); sec. 4, 87 Stat. 249, as amended (7 U.S.C. 612c note); sec. 2, 88 Stat. 283 (42 U.S.C. 1763).

2. In § 250.1, paragraph (b) is amended by revising subparagraph (6), by adding a new subsection to subparagraph (15), and by adding two new subparagraphs (16) and (17), as follows:

§ 250.1 General purpose and scope.

#### (b) Legislation. . . .

(6) Section 6 of the National School Lunch Act, as amended (hereinafter referred to as "section 6"), which reads in part as follows:

(a) The funds provided by appropriation or transfer from other accounts for any fiscal year for carrying out the provisions of this Act, and for carrying out the provisions of the Child Nutrition Act of 1966, other than section 3 thereof, less (1) not to exceed 3½ per centum thereof which per centum is hereby made available to the Secretary for his administrative expenses under this Act and under the Child Nutrition Act of 1966; (2) the amount apportioned by him pursuant to sections 4 and 5 of this Act and the amount appropriated pursuant to sections 11 and 13 of this Act and sections 4, 5, and 7 of the Child Nutrition Act of 1966; and (3) not to exceed 1 per centum of the funds provided for carrying out the programs under this Act and the programs under the Child Nutrition Act of 1966, other than section 3 . . . shall be available to the Secretary during such year for direct expenditure by him for agricultural commodities and other foods to be distributed among the States and schools and service institutions participating in the food service programs under this Act and under the Child Nutrition Act of 1966 in accordance with the needs as determined by the local school and service institutions authorities.

(e) For the fiscal year ending June 30, 1975, and subsequent fiscal years, the national average value of donated foods, or cash payments in lieu thereof, shall not be less than 10 cents per lunch, and that amount shall be adjusted on an annual basis each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Among those commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates.

(15) Section 707 of the Older Americans Act of 1965, as amended, which reads as follows:

(d) In donating commodities pursuant to this section, the Secretary of Agriculture shall maintain an annually programmed level of assistance of not less than 10 cents per meal: *Provided*, That this amount shall be adjusted on an annual basis each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Among the commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates. The Secretary of Agriculture, in consultation with the Commissioner, is authorized to prescribe the terms and conditions respecting the donating of commodities pursuant to this section, and, within ninety days after the date of enactment of his subsection (d), the Secretary of Agriculture shall issue regulations governing the donation of such commodities.

(16) Section 4(a) of the Agriculture and Consumer Protection Act of 1973, as amended, which reads in part as follows:

(1) Notwithstanding any other provision of law, the Secretary of Agriculture shall until July 1, 1975, (i) use funds available under provisions of section 32 of Public Law 320, Seventy-Fourth Congress, as amended (7 U.S.C. 612c), and not otherwise expended or necessary for such purposes to purchase, without regard to the provisions of existing law governing the expenditure of public funds, agricultural commodities and their products of the types customarily purchased under section 32 (which may include seafood commodities and their products) to maintain the traditional level of assistance for food assistance programs as are authorized by law, including but not limited to distribution to needy families pending the transition to the food stamp program, institutions, supplemental feeding programs wherever located, disaster relief, summer camps for children, and the family commodity distribution program on Indian reservations not requesting a food stamp program, and (ii) if stocks of the Commodity Credit Corporation are not available, use the funds of the Corporation to purchase agricultural commodities and their products of the types customarily available under section 416 of the Agricultural Act of 1949 to meet such requirements.

(2) Notwithstanding any other provision of law, the Secretary of Agriculture shall, during each of the two fiscal years beginning July 1, 1975, and ending June 30, 1977, purchase agricultural commodities and otherwise carry out the provisions of this subsection with funds appropriated from the general fund of the Treasury. There are hereby authorized to be appropriated such funds as may be necessary to carry out the provisions of this paragraph. Authority provided in this paragraph shall be carried out only with such funds as are appropriated from the

general fund of the Treasury for that specific purpose, and in no event shall it be carried out with funds derived from permanent appropriations.

(17) Section 14 of the National School Lunch Act, as amended, which reads as follows:

Notwithstanding any other provision of law, the Secretary, during the period beginning July 1, 1974, and ending June 30, 1975, shall—

(1) use funds available to carry out the provisions of section 32 of the Act of August 24, 1935 (7 U.S.C. 612c) which are not expended or needed to carry out such provisions, to purchase (without regard to the provisions of existing law governing the expenditure of public funds) agricultural commodities and their products of the types customarily purchased under such section, for donation to maintain the annually programmed level of assistance for programs carried on under this Act, the Child Nutrition Act of 1966, and title VII of the Older Americans Act of 1965; and

(2) if stocks of the Commodity Credit Corporation are not available, use the funds of such Corporation to purchase agricultural commodities and their products of the types customarily available under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431), for such donation.

3. In § 250.4, paragraph (b) is revised to read as follows:

§ 250.4 Availability of commodities.

(b) *Quantities.* The quantity of commodities to be made available for donation under this part shall be determined in accordance with the pertinent legislation and the program obligations of the Department, and shall be such as can be effectively distributed in furtherance of the objectives of the pertinent legislation. Beginning October 10, 1974, the quantity of commodities to be made available for any Federal fiscal year, or portion thereof, for distribution in any State to nutrition programs for the elderly shall be valued at not less than 10 cents for each meal which the State Agency on Aging, in accordance with current regulations and guidelines authorized by the Commissioner on Aging, estimates will be served within the State during the year. For the Federal fiscal year ending June 30, 1975, and subsequent fiscal years, the national average value of donated foods distributed to schools, or cash payments in lieu thereof, shall not be less than 10 cents per lunch served. The value of commodities to be distributed to nutrition programs for the elderly and to schools, or the amount of cash payments to be made to schools in lieu of commodities, shall be adjusted, on an annual basis, the first day of each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Any commodities made available as a grant or as a sale for foreign currencies shall be made available to the maximum extent practicable for donation under this part. The Department may, at its discretion, re-

strict distribution of commodities to one or more classes of recipient agencies or recipients.

4. In § 250.8, subparagraph (b) (3) is revised to read as follows:

§ 250.8 Eligible recipient agencies.

(b) *Institutions.* . . .

(3) Institutions which desire to receive commodities under this part may employ food service management companies to conduct their feeding operations, provided that the institutions enter into written contracts with such companies. Contracts between institutions and food service management companies shall expressly provide that:

(i) Any commodities received by the institution and made available to the food service management company shall inure only to the benefit of the institution's feeding operation and shall be utilized therein; and

(ii) The books and records of the food service management company pertaining to the feeding operation of the institution shall be available for a period of three years from the close of the Federal fiscal year to which they pertain for inspection and audit by representatives of the distributing agency, of the Department, and of the General Accounting Office at any reasonable time and place.

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

(Catalog of Federal Domestic Assistance Programs, No. 10.550, National Archives Reference Services).

This amendment shall become effective on January 24, 1975.

Dated: January 17, 1975.

RICHARD L. FELTNER,  
Assistant Secretary.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 676]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Jan. 26-Feb. 1, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for

lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.976 Lemon Regulation 676.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provision of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons at the beginning of this week was good, but is now showing an easier trend. Average f.o.b. price was \$4.87 per carton the week ended January 18, 1975, compared to \$5.10 per carton the previous week. Track and rolling supplies at 132 cars were up 8 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted

to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 21, 1975.

(b) *Order.* (1) This quantity of lemons grown in California and Arizona which may be handled during the period January 26, 1975, through February 1, 1975, is hereby fixed at 190,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674))

Dated: January 22, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

[FR Dec.75-2379 Filed 1-23-75;8:45 am]

[Grapefruit Reg. 97]

**PART 912—GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA**

**Limitation of Handling**

This regulation fixes the quantity of Florida Indian River grapefruit that may be shipped to fresh market during the weekly regulation period Jan. 27-Feb. 2, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 912. The quantity of grapefruit produced in the Indian River District in Florida so fixed was arrived at after consideration of the total available supply of Indian River grapefruit, the quantity currently available for market, the fresh market demand for Indian River grapefruit, Indian River grapefruit prices, and the relationship of season average returns to the parity price for Florida grapefruit.

**§ 912.397 Grapefruit Regulation 97.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 912, as amended (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation and information submitted by the Indian River Grapefruit Committee, established under the

said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling such grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of Indian River grapefruit that may be marketed during the ensuing week stems from the production and marketing situation confronting the Indian River grapefruit industry.

(i) The Committee has submitted its recommendation with respect to the total quantity of grapefruit which it deems advisable to be handled during the next succeeding week. Such recommendation resulted from consideration of the factors enumerated in the order. The Committee further reports the market demand for Indian River grapefruit is about steady, with market supplies ample. Average f.o.b. prices per 1/5 bushel carton for the week ended January 19, 1975, averaged \$2.71 for white seedless and \$3.50 for pink seedless grapefruit. Shipments for the week ended January 19, 1975, and for the previous week were 375 carlots and 500 carlots, respectively. On January 19, 1975, there were approximately 8,314 carlots of Indian River grapefruit remaining for interstate shipments, while 6,686 carlots have been shipped to date.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of grapefruit which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Indian River grapefruit and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated

among handlers of such Indian River grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on January 21, 1975.

(b) *Order.* (1) The quantity of grapefruit grown in the Indian River District which may be handled during the period January 27, 1975, through February 2, 1975, is hereby fixed at 212,500 standard packed boxes.

(2) As used in this section, "handled," "Indian River District," "grapefruit," and "standard packed box" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: January 22, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and Veg-  
etable Division, Agricultural  
Marketing Service.

[FR Dec.75-2379 Filed 1-23-75;8:45 am]

**Title 14—Aeronautics and Space**  
**CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

[Airworthiness Docket No. 74-WE-54-AD; Amdt. 39-2079]

**PART 39—AIRWORTHINESS DIRECTIVES**  
**AIRResearch Model GTCP660-4 and -4R Auxiliary Power Units (APU)**

Amendment 30-2064 (40 FR 1036), AD 75-01-06, requires installation of a placard restricting use of the AIRResearch Model GTCP660-4 and -4R APU's during taxi or flight, a check of the adjustment of the fuel pump ultimate relief valve, and an initial and recurring inspection of the fuel pump body for presence of fatigue cracks. After issuing Amendment 39-2064, the agency has re-evaluated the need for the restriction prohibiting operation of the APU during aircraft taxi, and concluded that this operation restriction may be removed without compromising the original intent of Amendment 39-2064. Therefore, AD 75-01-06 is being amended to eliminate this taxi operation restriction and to correct an error in the APU serial numbers.

Since this amendment relieves a restriction, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation

Regulations, Amendment 39-2064 (40 FR 1036), AD 75-01-06 is amended as follows:

(1) By amending the first paragraph of the AD to read:

**AIRSEARCH MANUFACTURING COMPANY OF ARIZONA.** Applies to model GTCP660-4 (prior to Serial No. P37808) and GTCP660-4R (prior to Serial No. P133) Auxiliary Power Units installed in, but not limited to, Boeing B-747 airplanes, certificated in all categories

(2) By amending paragraph (a) (1) to read:

Within 15 days time in service after the effective date of this AD, install a placard in view of the flight crew to prohibit all inflight operation of the APU. Thereafter, the APU may not be used during flight but may be used for ground operations

This amendment becomes effective January 31, 1975.

(Sections 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on January 16, 1975.

LYNN L. HINK,  
Acting Director,  
FAA Western Region.

[Airspace Docket No. 74-GL-40]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of VOR Federal Airways**

On November 11, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 39733) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend V-175 from Alexandria, Minn., via Park Rapids, Minn., Bemidji, Minn., to Roseau, Minn., and delete V-254 between Bemidji, Minn., and Roseau, Minn.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 27, 1975, as hereinafter set forth.

Section 71.123 (40 FR 307, 39 FR 39261) is amended as follows:

1. In V-175 "Alexandria, Minn." is deleted and "Alexandria, Minn.; Park Rapids, Minn.; Bemidji, Minn.; Roseau, Minn." is substituted therefor.

2. V-254 is revoked.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on January 17, 1975.

GORDON E. KEWER,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-2192 Filed 1-23-75;8:45 am]

[Airspace Docket No. 74-CE-36]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Revocation of Control Zone**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revoke the Leavenworth, Kansas, control zone.

On December 15, 1974, the weather services performed by the United States Air Force for the Leavenworth, Kansas, control zone were permanently ceased. There is no other available source for the service. Accordingly, it is necessary to revoke the Leavenworth, Kansas, control zone designation effective immediately.

Since this revocation will eliminate designated control zone airspace at Leavenworth, Kansas, it will not impose any additional burden on any person. Therefore, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately as hereinafter set forth:

In § 71.171 (39 FR. 354), the following control zone is revoked: Leavenworth, Kansas.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on December 24, 1974.

A. L. COULTER,  
Director, Central Region.

[FR Doc.75-2189 Filed 1-23-75;8:45 am]

[Airspace Docket No. 75-SO-2]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of Control Zone and Transition Area**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Atlanta, Ga. (Dobbins AFB/NAS Atlanta) control zone and the Atlanta, Ga., transition area.

The Atlanta (Dobbins AFB/NAS Atlanta) control zone is described in § 71.171 (40 FR 354) and the Atlanta transition area is described in § 71.181 (40 FR 441). In both descriptions, reference is made to "NAS Atlanta TACAN." Since the name of the TACAN has been changed to "Dobbins," it is necessary to amend the descriptions to reflect this change. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.171 (40 FR 354), the Atlanta, Ga. (Dobbins AFB/NAS Atlanta) control zone and in § 71.181 (40 FR 441), the Atlanta, Ga., transition area are amended as follows:

" \* \* \* NAS Atlanta TACAN \* \* \* " is deleted and " \* \* \* Dobbins TACAN \* \* \* " is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(o), Department of Transportation Act (49 U.S.C. 1655(o)))

Issued in East Point, Ga., on January 15, 1975.

DUANE W. FREER,  
Acting Director,  
Southern Region.

[FR Doc.75-2190 Filed 1-23-75;8:45 am]

[Airspace Docket No. 75-SW-4]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of Transition Area**

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Clinton, Okla. (Clinton-Sherman Airport), transition area times of designation from part time to full time.

On June 2, 1970, a final rule was published in the FEDERAL REGISTER (35 FR 8475) designating the Clinton, Okla., transition area. Subsequently, on August 22, 1970, a final rule was published in the FEDERAL REGISTER (35 FR 13425) which redesignated the Clinton, Okla., transition area as the Clinton, Okla. (Clinton-Sherman Airport), transition area and designated the Clinton, Okla. (Clinton Municipal Airport), transition area.

The Clinton, Okla. (Clinton-Sherman Airport), transition area was designated part time and effective during the specific times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual. It has been determined that it would be advantageous to redesignate the Clinton, Okla. (Clinton-Sherman Airport), transition area as full time. An appropriate Notice to Airmen has been issued designating the transition area full time effective January 30, 1975. It is found that this situation will be in the best interest of the public and will impose no undue burden on any person. Notice and public procedure hereon are unnecessary and the amendment may be made effective January 30, 1975.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., January 30, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the Clinton, Okla. (Clinton-Sherman Airport), transition area is amended by deleting "This transition area is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual."

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on January 16, 1975.

A. H. THURBURN,  
Acting Director,  
Southwest Region.

[FR Doc.75-2191 Filed 1-23-75;8:45 am]

[Docket No. 14251; Amdt. 952]

**PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES**

**Recent Changes and Additions**

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.35. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective March 6, 1975.

- Burlington, Iowa—Burlington Municipal Arpt., VOR Rwy 30, Amdt. 5.

1823-20 Truth in Lending Act. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements*; 13.1852-75 Truth in Lending Act; § 13.1905 *Terms and conditions*; 13.1905-60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, Century 21 Homes, Inc., et al. Portland, Ore., Docket C-2581, Oct. 22, 1974]

*In the matter of Century 21 Homes, Inc., Centurion Properties, Inc., and Century 21 Properties, Inc., corporations, and David L. Oringdulph, individually and as an officer of said corporations, Ralph E. Fish, individually and as an officer of Centurion Properties, Inc., and Philip G. Mullard, individually and as a former officer of Century 21 Properties, Inc.; and Century 21 Development, a joint venture, and John F. Weiser, individually and as general manager of Century 21 Development*

Consent order requiring a Portland, Ore., firm engaged in the construction, development and sale of residential real property among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

*It is ordered*, That respondents Century 21 Homes, Inc., Centurion Properties, Inc., and Century 21 Properties, Inc., corporations, and their officers, and David L. Oringdulph, Ralph E. Fish and Philip G. Mullard, individually and as officers and former officers of said corporations, and Century 21 Development, a joint venture, and John F. Weiser, individually and as general manager of Century 21 Development, and respondents' successors, assigns, agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with any extension or arrangement for the extension of consumer credit, or any advertisement to aid, promote or assist directly or indirectly any extension of consumer credit, as "advertisement" and "consumer credit" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act, P.L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Stating, in any such advertisement, the rate of any finance charge unless the rate of the finance charge is expressed as an "annual percentage rate," using that term, as required by § 226.10 (d) (1) of Regulation Z.

2. Representing in any such advertisement, directly or by implication, the

amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d) (2) of Regulation Z:

a. The cash price;  
b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate; and

e. Except in the case of the sale of a dwelling or a loan secured by a first lien on a dwelling to purchase that dwelling, the deferred payment price or the sum of the payments, as applicable.

3. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9 and 226.10 of Regulation Z.

*It is further ordered*, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of the preparation, creation or placing of advertising, to all persons engaged in reviewing the legal sufficiency of advertising, and to all present and future agencies engaged in preparation, creation or placing of advertising on behalf of respondents, and that respondents secure from each such person and agency a signed statement acknowledging receipt of said order.

*It is further ordered*, That respondents notify the Commission at least thirty (30) days prior to any proposed change in Century 21 Development or in a corporate respondent, such as dissolution, termination, assignment or sale resulting in the emergence of a successor corporation or corporations, the creation or dissolution of subsidiaries, or any other change in such respondents as may affect compliance obligations arising out of the order.

*It is further ordered*, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged, as well as a description of their duties and responsibilities.

*It is further ordered*, That the respondents herein shall within sixty (60) days after service upon them of this order,

file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Decision and order issued by the Commission Oct. 22, 1974.

CHARLES A. TOBIN,  
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, William D. Campbell, Jr., et al., trading as Rhode Island Carpets, Mt. Rainier, Md., Docket 8946, Oct. 1, 1974]

<sup>1</sup> Copies of the Complaint & Decision and order filed with the original document.

*In the matter of William D. Campbell, Jr., and Jack S. Owens, individually, trading and doing business as Rhode Island Carpets*

Consent order requiring a Mt. Rainier, Md., distributor and installer of carpeting and floor coverings, among other things to cease using bait and switch tactics; disparaging merchandise; misrepresenting sale prices; failing to maintain adequate records; misrepresenting the qualifications of its staff; failing to set forth contracts in the principal language used in sales presentations (e.g., Spanish); and failing to inform customers of their right to a three-day cooling-off period during which they may cancel their contract with full refund rights. Further, respondent is required to place a notice in all future advertising that F.T.C. has found that they have engaged in bait and switch tactics.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

I

*It is ordered.* That respondents William D. Campbell, Jr., and Jack S. Owens, individually, trading and doing business as Rhode Island Carpets or under any other names, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale, distribution or installation of carpeting and floor coverings, or any other article of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using, in any manner, a sales plan, scheme, or device wherein false, misleading, or deceptive statements or representations are made in order to obtain leads or prospects for the sale of carpeting or other merchandise or services.

2. Making representations, directly or indirectly, orally or in writing, purporting to offer merchandise for sale when the purpose of the representation is not to sell the offered merchandise but to obtain leads or prospects for the sale of other merchandise at higher prices.

3. Disparaging in any manner, or discouraging the purchase of any merchandise or services which are advertised or offered for sale.

4. Representing, directly or indirectly, orally or in writing, that any merchandise or services are offered for sale when such offer is not a bona fide offer to sell such merchandise or services.

5. Failing to maintain and produce for inspection and copying for a period of three years following the date of publication of any advertisement, adequate records to document for the entire period during which each advertisement was run and for a period of six weeks after the termination of its publication in press or broadcast media:

a. The cost of publishing each advertisement including the preparation and dissemination thereof;

b. The volume of sales made of the advertised product or service at the advertised price; and

c. A computation of the net profit from the sale of each advertised product or service at the advertised price.

6. Using the words "Sale", "Low, Low Discount Prices", or any other word or words of similar import or meaning not set forth specifically herein, unless the price of such merchandise or service being offered for sale constitutes a reduction, in an amount not so insignificant as to be meaningless, from the actual bona fide price at which such merchandise or service was sold or offered for sale to the public on a regular basis by respondents for a reasonably substantial period of time in the recent, regular course of their business.

7. Representing, directly or indirectly, orally or in writing, that any price amount is respondents' regular price for any article of merchandise or service unless said amount is the price at which such merchandise or service has been sold or offered for sale by respondents for a reasonably substantial period of time in the recent, regular course of their business and not for the purpose of establishing fictitious higher prices upon which a deceptive comparison or a "free" or similar offer might be based.

8. Representing, directly or indirectly, orally or in writing, that a purchaser of respondents' merchandise or services will receive a "free" vacuum cleaner or any other "free" merchandise, service, prize or award unless all conditions, obligations, or other prerequisites to the receipt and retention of such merchandise, services, gifts, prizes or awards are clearly and conspicuously disclosed at the outset in close conjunction with the word "free" wherever it first appears in each advertisement or offer.

9. Representing, directly or indirectly, orally or in writing, that any merchandise or service is furnished "free" or at no cost to the purchaser of advertised merchandise or services, when, in fact, the cost of such merchandise or service is regularly included in the selling price of the advertised merchandise or service.

10. Representing, directly or indirectly, orally or in writing, that a "free" offer is being made in connection with the introduction of new merchandise or services offered for sale at a specified price unless the respondents except, in good faith, to discontinue the offer after a limited time and commence selling such merchandise or service, separately, at the same price at which it was sold with a "free" offer.

11. Representing, directly or indirectly, orally or in writing, that merchandise or service is being offered "free" with the sale of merchandise or service which is usually sold at a price arrived at through bargaining, rather than at a regular price, or where there may be a regular price, but where other material factors such as quantity, quality, or size are arrived at through bargaining.

12. Representing, directly or indirectly, orally or in writing, that a "free" offer is available in a trade area for more than six (6) months in any twelve (12) month period. At least thirty (30) days shall elapse before another such "free" offer is made in the same trade area. No more than three such "free" offers shall be made in the same area in any twelve (12) month period. In such period, respondent's sale in that area of the product or service in the amount, size, or quality promoted with the "free" offer shall not exceed 50 percent of the total volume of its sales of the product or service, in the same amount, size or quality, in the area.

13. Representing, directly or indirectly, orally or in writing, that a product or service is being offered as a "gift", "without charge", "bonus", or by other words or terms which tend to convey the impression to the consuming public that the article of merchandise or service is free, when the use of the term "free" in relation thereto is prohibited by the provisions of this order.

14. Representing, directly or indirectly, orally or in writing, that a stated price for carpeting or floor coverings includes the cost of a separate padding and the installation of such padding and carpeting thereof, unless in every instance where it is so represented the stated price for floor covering does, in fact, include the cost of such separate padding and installation thereof; or misrepresenting in any manner, the prices, terms, or conditions under which respondents supply separate padding and provide installation in connection with the sale of floor covering products.

15. Representing, directly or indirectly, orally or in writing, that respondents employ or have available for prospective customers a trained, qualified interior decorator; or misrepresenting in any manner, the training or qualifications of any of respondents' employees, agents, or representatives.

16. Representing, directly or by implication, orally or in writing, that purchasers of respondents' products are granted easy or assured credit terms by financial institutions with which respondents deal; or misrepresenting, in any manner, the amount, type, extent or any other facet of the credit terms respondents arrange or may arrange for their purchasers.

17. Contracting for any sale whether in the form of trade acceptance, conditional sales contract, promissory note, or otherwise which shall become binding on the buyer prior to midnight of the third day, excluding Sundays and legal holidays, after the date of execution.

18. Failing to furnish the buyer with a fully completed receipt or copy of any contract pertaining to such sale at the time of its execution, which is in the same language, e.g., Spanish, as that principally used in the oral sales presentation and which shows the date of the transaction and contains the name and address of the seller, and in immediate proximity to the space reserved in the contract for the signature of the

<sup>1</sup> Copies of the complaint & decision and order filed with the original document.

buyer or on the front page of the receipt if a contract is not used and in bold face type of a minimum size of 10 points, a statement in substantially the following form:

You, the buyer, may cancel this transaction at any time prior to midnight of the third business day after the date of this transaction. See the attached notice of cancellation form for an explanation of this right.

19. Failing to furnish each buyer, at the time he signs the sales contract or otherwise agrees to buy consumer goods or services from the seller, a completed form in duplicate, captioned "Notice of cancellation", which shall be attached to the contract or receipt and easily detachable, and which shall contain in ten point bold face type the following information and statements in the same language, e.g., Spanish, as that used in the contract:

NOTICE OF CANCELLATION

[enter date of transaction]

(Date)

You may cancel this transaction, without any penalty or obligation, within three business days from the above date.

If you cancel, any property traded in, any payments made by you under the contract or sale, and any negotiable instrument executed by you will be returned within 10 business days following receipt by the seller of your cancellation notice, and any security interest arising out of the transaction will be cancelled.

If you cancel, you must make available to the seller at your residence, in substantially as good condition as when received, any goods delivered to you under this contract or sale; or you may if you wish, comply with the instructions of the seller regarding the return shipment of the goods at the seller's expense and risk.

If you do make the goods available to the seller and the seller does not pick them up within 20 days of the date of your notice of cancellation, you may retain or dispose of the goods without any further obligation. If you fail to make the goods available to the seller, or if you agree to return the goods to the seller and fail to do so, then you remain liable for performance of all obligations under the contract.

To cancel this transaction, mail or deliver a signed and dated copy of this cancellation notice or any other written notice, or send a telegram, to \_\_\_\_\_, at  
(Name of seller)

\_\_\_\_\_  
(address of seller's place of business)  
not later than midnight of \_\_\_\_\_  
(date)

I hereby cancel this transaction.

\_\_\_\_\_  
(Date)

\_\_\_\_\_  
(Buyer's signature)

20. Failing, before furnishing copies of the "Notice of Cancellation" to the buyer, to complete both copies by entering the name of the seller, the address of the seller's place of business, the date of the third business day following the date of the transaction, by which the buyer may give notice of cancellation.

21. Including in any sales contract or receipt any confession of judgment or any waiver of any of the rights to which the buyer is entitled under this order including specifically his right to cancel

the sale in accordance with the provisions of this order.

22. Failing to inform each buyer orally, at the time he signs the contract or purchases the goods or services, of his right to cancel.

23. Misrepresenting, directly or indirectly, orally or in writing, the buyer's right to cancel.

24. Failing or refusing to honor any valid notice of cancellation by a buyer and within 10 business days after the receipt of such notice, to (i) refund all payments made under the contract or sale; (ii) return any goods or property traded in, in substantially as good condition as when received by the seller; (iii) cancel and return any negotiable instrument executed by the buyer in connection with the contract or sale and take any action necessary or appropriate to terminate promptly any security interest created in the transaction.

25. Negotiating, transferring, selling, or assigning any note or other evidence of indebtedness to a finance company or other third party prior to midnight of the fifth business day following the day the contract was signed or the goods or services were purchased.

26. Failing, within 10 business days of receipt of the buyer's notice of cancellation, to notify him whether the seller intends to repossess or to abandon any shipped or delivered goods.

27. Advertising the price of carpet, either separately or with padding and installation included, for specified areas of coverage without disclosing in immediate conjunction and with equal prominence the square yard price for additional quantities of such carpet with padding and installation needed.

28. Advertising any carpeting or floor covering using a unit of measurement not usually and customarily employed in the retail advertising of carpet or which tends to exaggerate the size or quantity of carpeting or floor covering being offered at the advertised price.

*Provided, however,* That nothing contained in this order shall relieve respondents of any additional obligations respecting contracts required by federal law or the law of the state in which the contract is made. When such obligations are inconsistent, respondents can apply to the Commission for relief from this provision with respect to contracts executed in the state in which such different obligations are required. The Commission, upon showing, shall make such modifications as may be warranted in the premises.

*It is further ordered,* That the respondents forthwith cease and desist from dissemination, or causing the dissemination of, any advertisement of merchandise except advertising in connection with respondent Campbell's operation of a retail liquor store, by means of newspapers, or other printed media, television or radio, or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, unless respondents clearly and conspicuously disclose in each advertisement the following notice set off from the text of the advertisement by a black border:

The Federal Trade Commission has found that we engage in bait and switch advertising; that is, the salesman makes it difficult to buy the advertised product and he attempts to switch you to a higher priced item.

One year from the date this order becomes final or any time thereafter, respondents upon showing that they have discontinued the practices prohibited by this order and that the notice provision is no longer necessary to prevent the continuance of such practices may petition the Commission to waive compliance with this order provision.

*It is further ordered,* That respondents shall maintain for at least a one (1) year period, following the effective date of this order, copies of all advertisements, including newspaper, radio and television advertisements, direct mail and in-store solicitation literature, and any other such promotional material utilized for the purpose of obtaining leads for the sale of carpeting or floor coverings, or utilized in the advertising, promotion or sale of carpeting or floor coverings and other merchandise.

*It is further ordered,* That respondents, for a period of one (1) year from the effective date of this order, shall provide each advertising agency utilized by respondents and each newspaper publishing company, television or radio station or other advertising media which is utilized by the respondents to obtain leads for the sale of carpeting or floor coverings and other merchandise, with a copy of the Commission's News Release setting forth the terms of this Order.

*It is further ordered,* That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the offering for sale, sale of any product, consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

*It is further ordered,* That the individual respondents, William D. Campbell, Jr., and Jack S. Owens promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business addresses and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered,* That the respondents herein shall within sixty (60) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order.

The Decision and Order was issued by the Commission, October 1, 1974.

CHARLES A. TOMBY,  
Secretary.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-11,187]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

Financial Statements Furnished to Customers of Broker-Dealers

The Securities and Exchange Commission today announced the adoption of an amendment to paragraph (n) of rule 17a-5 under the Securities Exchange Act of 1934. The adoption of this amendment follows the Commission's consideration of comments received in connection with the proposal to adopt the amendment announced in Securities Exchange Act Release No. 11017. This amendment modifies the present requirements of paragraph (n) and requires all broker-dealers subject to paragraph (k) of rule 17a-5 to furnish customers annually one unaudited report of financial condition and certain information concerning the firm's net capital in lieu of the quarterly reports previously required by paragraph (n). In addition, paragraph (m) of the rule presently requires broker-dealers to furnish an audited statement of financial condition and other specified information annually. Thus, under the revised rule, customers would receive two financial reports from broker-dealers annually approximately 6 months apart, one audited and one unaudited.

The Commission believes that it is important that customers of broker-dealers receive the information set forth in paragraphs (m) and (n) of the rule concerning the financial and operating condition of the broker-dealer to whom they entrust their funds and securities. The Commission is also of the view that customers of the broker-dealer will be provided with sufficient information to enable them to judge the financial condition of the broker-dealer to whom they entrust their funds and securities if the broker-dealer is required to provide an unaudited report pursuant to paragraph (n) in addition to the annual audited report required pursuant to paragraph (m) of the rule. The amendment would provide that such unaudited statement will be as of a date approximately 6 months after the date of the audited statement.

COMMISSION ACTION

Pursuant to sections 15(c) (3), 17(a) and 23(a) of the Securities Exchange Act of 1934, the Securities and Exchange Commission hereby amends § 240.17a-5(n) of Chapter II of Title 17 of the Code of Federal Regulations to read as follows:

§ 240.17a-5 Reports to be made by certain exchange members, brokers and dealers.

(n) Every member, broker or dealer who is subject to paragraphs (k), (l) and (m) of this rule shall furnish customers (as defined in paragraph (o) of this rule)

and shall file with the Regional Office of the Commission for the region in which the member, broker or dealer has his principal place of business and with the national securities exchange and the national securities association of which he is a member (or, if he is not a member, only with the Commission) not later than 285 days from the date of the audited statements required by paragraph (m) of this rule, an unaudited statement containing the information specified in subparagraphs (m) (1) and (m) (2) of this rule which shall be as of the date of the member's, broker's or dealer's fiscal period which ends nearest to 6 months from the date of the audited statements required to be furnished to customers pursuant to paragraph (m) of this rule.

(Secs. 15(c) (3), 17(a), 23(a), 48 Stat. 895, 897, 901, secs. 3, 4, 8, 49 Stat. 1377, 1379, secs. 2, 5, 52 Stat. 1075, 1076, sec. 7(d), 84 Stat. 1653, 15 U.S.C. 78o(c) (3), 78q(a), 78w)

By the Commission.

Dated: January 17, 1975.

Assistant Secretary.

[FR Doc.75-2241 Filed 1-23-75; 8:46 am]

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regs. No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Subpart M—Conditions for Coverage of Services of Independent Laboratories; Correction

A revision of Subpart M of Regulations No. 5, relating to conditions for coverage of services of independent laboratories under Medicare, and a preamble discussing comments received in response to a notice of such proposed revision, were published in the FEDERAL REGISTER of September 19, 1974 (39 FR 33690).

In the preamble published at that time, Paragraph 5 of the list of changes made in the proposed revision as a result of comments, seems to suggest that a laboratory may not refer tests to another laboratory. Therefore, to more precisely reflect the provisions of the regulations, such paragraph 5 of the preamble to the regulations is revised to read as follows:

5. On § 405.1314 (Clinical laboratories; tests performed), we received several comments expressing concern over the proposed regulation which allowed laboratories to be certified in a specialty or subspecialty even though it was not performing tests in that specialty or subspecialty. We agree that a laboratory should be required to perform tests in all specialties and subspecialties for which it is certified. Therefore, we have deleted the portion of proposed § 405.1314 which permitted approval of a laboratory for a specialty or subspecialty even though tests in such specialty or subspecialty were not performed. Effective October 31, 1974, Medicare will approve independent laboratories only for specialties or subspecialties in which they are actually performing tests. However,

a laboratory may continue to refer tests in a particular specialty or subspecialty to a laboratory which is certified under Medicare to perform tests in such specialty or subspecialty regardless of whether the referring laboratory is approved for such specialty or subspecialty. This brings the Medicare regulations into line with the regulations of the Center for Disease Control in this area.

Also, the regulations published at that time contained the following minor errors:

1. As a result of numerous comments regarding the meaning of "significant volume of diagnostic tests," § 405.1310(a) was revised by deleting "performs a significant volume of" and substituting "accepts at least 100 specimens in any category during any calendar year." However, the phrase "diagnostic tests" should also have been deleted. Section 405.1310(a) should read as set forth below.

2. Since several professional groups had contended and we had agreed that predegree experience was just as valid as postdegree experience, we intended to delete the portion of § 405.1310(d) containing the limitation on predegree training. However, the phrase "or prior to qualifying as a technologist under § 405.1315(b) (4)" was inadvertently included. Section 405.1310(d) should read as set forth below.

§ 405.1310 Definitions.

For purposes of this Subpart M, the following definitions apply:

(a) *Independent laboratory.* An independent laboratory performing diagnostic tests means one which is independent both of the attending or consulting physician's office and of a hospital which meets at least the requirements specified in section 1861(e) of the Act to qualify for payment for emergency hospital services under section 1814(d) of the Act. A laboratory which: (1) is located in a hospital which meets at least the requirements specified in section 1861(e) of the Act to qualify for payment for emergency hospital services under section 1814(d) of the Act or, if outside the hospital, is operated under the supervision of the hospital or its organized medical staff, and (2) serves the hospital's patients, is not an independent laboratory. Services furnished by out-of-hospital laboratories under the direction of a physician, such as a pathologist, are considered to be subject to the conditions where the physician holds himself and the facilities of his office out to other physicians as being available for the performance of diagnostic tests. A laboratory maintained by a physician for performing diagnostic tests for his own patients is exempt from the conditions unless such laboratory accepts at least 100 specimens in any category during any calendar year on referral from other physicians. For purposes of this paragraph a category shall be one of the following: (i) Microbiology and serology; (ii) clinical chemistry; (iii) immunohematology; (iv) hematology; (v) pathology; (vi) radiobiassay.

(d) *Subsequent to graduation.* The phrase "subsequent to graduation" means laboratory training and experience acquired after receipt of the degree specified. However, for purposes of § 405.1312 or § 405.1313, experience as a technologist in an approved clinical laboratory, which was gained prior to acquiring such degree, may be substituted on an equivalency basis of 1.5 years of such experience for every 1 year of postdegree training and experience; and experience as a general supervisor in an approved clinical laboratory, which was gained prior to acquiring such degree, may be substituted on a 1-for-1 basis.

3. Since we received numerous comments regarding possible confusion in the numbering scheme used in § 405.1315, we revised the numbering to provide for a separate paragraph for each category of technical personnel, by qualifications and duties. However, the phrase "In the case of a laboratory technologist or cytotechnologist not meeting the training and experience requirements defined in paragraph (b)(1) or (2) of this section" was inadvertently included. It is superfluous, and § 405.1315(c)(3) should read as follows:

§ 405.1315 Condition—clinical laboratory; technical personnel.

(c) \* \* \*

(3) Achieves a satisfactory grade in a proficiency examination approved by the Secretary. However, after December 31, 1977, initial certification as a cytotechnologist must be in accordance with paragraph (c)(1) or (2) of this section.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance)

Approved: January 17, 1975.

THOMAS S. MCFEE,  
Deputy Assistant Secretary for  
Management Planning and  
Technology.

#### Title 21—Food and Drugs

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### SUBCHAPTER C—DRUGS

#### PART 135—NEW ANIMAL DRUGS

#### SUBPART C—SPONSORS OF APPROVED APPLICATIONS

#### PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS.

##### Tylosin

The Commissioner of Food and Drugs has evaluated a new animal drug application (98-595V) filed by Walnut Grove Products, Division of W. R. Grace & Co., Atlantic, IA 50022, proposing safe and effective use of a tylosin premix in making swine feed. The application is approved.

To facilitate referencing, the firm is being assigned a sponsor code number and placed in the list of firms in 21 CFR 135.501(c).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Chapter I of Title 21 of the Code of Federal Regulations is amended in Parts 135 and 135e as follows:

1. In Part 135, § 135.501(c) is amended by inserting numerically a new sponsor 132 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

(c) \* \* \*

Code no.	Firm name and address
132	Walnut Grove Products, Division of W. R. Grace & Co., 201 Linn St., Atlantic, IA 50022.

2. In Part 135e, § 135e.10 is amended by adding paragraph (b)(28) to read as follows:

§ 135e.10 Tylosin.

(b) \* \* \*

(28) To 132: 4 grams per pound; item 4.

*Effective date.* This order shall be effective January 24, 1975.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360(b))

Dated: January 17, 1975.

FRED J. KINGMA,  
Acting Director, Bureau of  
Veterinary Medicine.

#### SUBCHAPTER D—DRUGS FOR HUMAN USE PART 449—ANTIFUNGAL ANTIBIOTICS

##### Certification of Nystatin Lotion

In the FEDERAL REGISTER of November 5, 1970 (35 FR 17069), the Food and Drug Administration published its conclusion regarding Nysta-Dome Lotion containing nystatin marketed by Dome Laboratories, Division of Miles Laboratories, Inc., 125 West End Ave., New York, NY 10023. The notice stated that the Food and Drug Administration had evaluated reports received from the National Academy of Sciences/National Research Council and concluded that this preparation is effective for the treatment of cutaneous and mucocutaneous mycotic infections caused by *Candida* species (*Monilia*). Affected firms were requested to submit amendments to their antibiotic applications to provide for revised labeling.

Since the manufacturer has now provided labeling information in accordance with the reevaluation of the drug published in the FEDERAL REGISTER of November 5, 1970, the Commissioner of Food and Drugs concludes that the antibiotic regulations should be amended as set forth below to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 449 is amended by adding a new section to read as follows:

§ 449.550h Nystatin lotion.

(a) *Requirements for certification—(1) Standards of identity, strength, quality, and purity.* Nystatin lotion is composed of nystatin with one or more suitable and harmless suspending agents, emulsifiers, surfactants, and preservatives in a suitable and harmless vehicle. Each milliliter contains 100,000 units of nystatin. Its potency is satisfactory if it is not less than 90 percent and not more than 140 percent of the number of units of nystatin that it is represented to contain. Its pH is not less than 5.5 and not more than 7.5. The nystatin used conforms to the standards prescribed by § 449.50(a)(1), except safety.

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 432.5 of this chapter.

(3) *Requests for certification; samples.* In addition to the requirements of § 431.1 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(a) The nystatin used in making the batch for potency, loss on drying, pH, and identity.

(b) The batch for potency and pH.

(ii) Samples required:

(a) The nystatin used in making the batch: 10 packages, each containing approximately 300 milligrams.

(b) The batch: A minimum of five immediate containers.

(b) *Tests and methods of assay—(1) Potency.* Proceed as directed in § 436.105 of this chapter, preparing the sample for assay as follows: Place an accurately measured representative portion of the sample into a high-speed glass blender jar containing sufficient dimethylformamide to give a convenient concentration. Blend for 3 to 5 minutes. Remove an aliquot and dilute with sufficient dimethylformamide to yield a stock solution containing 400 units of nystatin per milliliter (estimated). Further dilute with 10 percent potassium phosphate buffer, pH 6.0 (solution 6), to the reference concentration of 20 units of nystatin per milliliter (estimated).

(2) *pH.* Proceed as directed in § 436.202 of this chapter, using the undiluted sample.

Since the conditions prerequisite to providing for certification of subject antibiotic have been complied with, and since the matter is noncontroversial, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

*Effective date.* This order shall become effective on January 24, 1975.

Dated: January 17, 1975.

MARY A. McENRY,  
Assistant to the Director for  
Regulatory Affairs, Bureau of  
Drugs.

**Title 23—Highways**  
**CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

**Subchapter H—Right-of-Way and Environment**

**PART 713—RIGHT-OF-WAY—THE PROPERTY MANAGEMENT FUNCTION**

**Applicability**

This will amend the regulations of the Federal Highway Administration by revising § 713.302(c) of 23 CFR 713, Subpart C, dealing with the disposal of rights-of-way, was published in the FEDERAL REGISTER on September 27, 1974 (39 FR 34654). Section 713.302(c) is amended to clarify the nonapplicability of the regulation to real property acquired for planned highway purposes but not used because of a determination not to construct the planned highway facility.

The proposed regulation will codify a revision of paragraph 2(c) of Volume 7, Chapter 4, section 2 of the Federal Highway Program Manual.

Section 713.302(c) is hereby revised to read as follows:

**§ 713.302 Applicability.**

(c) The provisions of this section do not apply:

(1) Where whole sections of the Interstate System are withdrawn under the provisions of 23 U.S.C. 103(e) (2) and (4), or

(2) Where real property has been acquired for planned highway purposes, but because of environmental concerns, widespread public objections, or other similar considerations, the State highway department (SHD) or other appropriate State authority determines not to construct the planned highway facility.

This revision will take effect immediately.

Issued on January 20, 1975.

**Title 49—Transportation**  
**CHAPTER X—INTERSTATE COMMERCE COMMISSION**

**SUBCHAPTER A—GENERAL RULES AND REGULATIONS**

[S. O. 1203]

**PART 1033—CAR SERVICE**

**Reading Co.**

At a Session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D.C., on the 21st day of January 1975.

It appearing, that the Lehigh and New England Railway Company (LNE) has notified the Commission that, on or before January 24, 1975, it will be unable to transport the traffic offered it because its cash position makes continued operation impossible; and that, accordingly, the LNE has placed its embargo No. 1-75 against all traffic, effective January 7, 1975;

It further appearing, that the imminent cessation of all transportation services by the LNE constitutes an emergency situation such as that contemplated by section 1(16) (b) of the Interstate Commerce Act (49 U.S.C. 1(16)), as amended, by section 601(e) of the Regional Rail Reorganization Act of 1973 (Pub. L. 93-236); and that section authorizes the Commission under certain prescribed conditions, to direct a carrier or carriers by railroad to perform essential transportation services which another carrier is no longer able to perform;

It further appearing, that the legislative history to section 1(16) (b) indicates that its purpose is to assure the continuance of essential rail service for a period of sixty days, or in extraordinary circumstances for an extended period not to exceed 240 days, in the event that a railroad is required to cease operation under conditions described in the Act; and that such authority was intended as an interim emergency measure and not as a permanent solution;

It further appearing, that in determining whether the LNE should be operated pursuant to the authority of section 1(16) (b) and in its planning therefore, the Commission, consistent with Congressional intent and the provisions of the Emergency Rail Services Act of 1970 (45 U.S.C. 661), has coordinated its activities with the Department of Transportation and has been in consultation with representatives of the United States Railway Association, among others;

It further appearing, that the Commission has determined that based upon the statute and the directives contained in the legislative history of section 1(16) (b) of the Act, the operation of the lines of the LNE is necessary and such operation is in the public interest; that the Commission considered many factors, including but not limited to: the transportation requirements of the patrons of the LNE, the economic impact of a discontinuance of service, the amount of originating and terminating traffic on individual lines, transportation require-

ments of connecting carriers, condition of track, alternative carriers and transportation modes, and net operating revenues attributable to individual lines; and that, the Commission should direct a carrier to operate over the lines of the LNE;

It further appearing, that the Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, Trustees (Rdg) should be directed to provide the services herein determined to be essential in the public interest, which were formerly performed by the LNE, because, among other things, the Rdg's proximity to the lines of the LNE, the volume of the traffic LNE interchanges with the Rdg, its familiarity with the operation of the LNE and its willingness and ability to perform the services required for shippers;

It further appearing, that the performance of the operations directed herein will not substantially impair the Rdg's ability adequately to serve its own patrons or to meet its outstanding common carrier obligations; that the performance of the directed operation should not violate the provisions of the Federal Railroad Safety Act of 1970 (45 U.S.C. 421);

It further appearing, that in light of the emergency situation which would result from a cessation of all transportation service by the LNE, public notice and hearings are impractical and not required by the procedures set forth in section 1(15) of the Act; that the public interest requires the continuation of operation over certain lines of the LNE by the Rdg for a period of operation of 60 days as provided by section 1(16) (b) of the Act; and that good cause exists for making this order effective upon the date served;

It further appearing, that the Rdg is presently a railroad in reorganization under section 77 of the Bankruptcy Act (11 U.S.C. 205) subject to the jurisdiction of the United States District Court for the Eastern District of Pennsylvania; and that, accordingly, approval of said court may be necessary for the implementation of this order; and

It further appearing, and the Division so finds, that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969;

It further appearing, and the Division so finds, that cessation of service by the LNE would have serious economic consequences not only to the patrons of the LNE but also to the communities located within the area; and for good cause appearing therefore:

**§ 1033.1203 Service Order No. 1203.**

(a) *Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, Trustees, directed to operate certain portions of Lehigh and New England Railway Company. It is ordered, That the Reading Company, Andrew L. Lewis, Jr., and Joseph L. Castle, trustees (Rdg), be, and it is hereby directed to enter upon, that portion of the Tamaqua branch of the Lehigh and New England Railway (LNE) extending between milepost 2.20*

east of Hauto, Pennsylvania, and a connection with the Reading Company at milepost 6.55 in the vicinity of Tamaqua, Pennsylvania, and to operate such railroad and facilities subject to any necessary approval of the reorganization court of the United States District Court for the Eastern District of Pennsylvania, for the purpose of handling, routing, and moving the traffic of the Lehigh and New England Railway Company in accordance with the lawful instructions of shippers and consignees and in compliance with the rules and regulations of the Commission, and subject to the rates and charges prescribed in tariffs lawfully published and filed in accordance with law and applicable to freight transported over the lines of the Lehigh and New England Railway Company; that such entry and operations shall commence on or before 12:01 a.m., January 24, 1975, and shall continue for a period of 60 days, unless such period is reduced by order of the Commission or unless further extended by order of the Commission, for cause shown, for an additional designated period; and that a certified copy of the order of the court authorizing the Reading Company to perform the directed service pursuant to the order of the Commission shall be filed with this Commission, with appropriate reference to this proceeding;

(b) *It is further ordered*, That the Lehigh and New England Railway Company shall, on the date of service of this order inform all persons who were given notice of its embargo No. 1-75, that said embargo shall no longer be applicable to service over its lines;

(c) *It is further ordered*, That the Reading Company shall (1) collect all revenues attributable to the handling, routing, and movement of freight traffic including all agents' and conductors' accounts and all payments from other carriers collected after the commencement of directed operations; (2) distribute such revenues in accordance with divisional agreements presently applicable, collecting and paying to the Lehigh and New England Railway Company the divisions of joint revenues payable to the Lehigh and New England Railway Company pursuant to such division agreements which are derived from services performed and events occurring prior to January 24, 1975, and collecting and retaining for the Reading Company on a segregated basis all such divisions of joint revenues payable to the Lehigh and New England Railway Company pursuant to such division agreements which are derived from services performed by the Reading Company in the place and stead of the Lehigh and New England Railway Company and from events occurring on or after January 23, 1974;

(d) *It is further ordered*, That all carriers are hereby directed to pay to the Reading Company, such sums as otherwise would be payable to the Lehigh and New England Railway Company including interline freight revenues, per diem, and all other interline accounts of whatsoever kind and nature coming due

under normal accounting rules and procedures for the settlement of interline transactions and accounts between carriers during the period this order is in effect and thereafter coming due for services performed and events occurring during the period of directed service;

(e) *It is further ordered*, That the Reading Company shall pay to all carriers amounts received by it but due to them for services performed by them, for per diem, and for events occurring either prior to the commencement of operations directed herein or during the period this order is in effect, all in accordance with established procedures for the settlement of interline transactions and accounts between carriers;

(f) *It is further ordered*, That in executing the directions of this Commission as provided for in this order, all carriers involved in the movement of traffic to the lines of the Lehigh and New England Railway Company shall proceed even though in some instances, no contracts, agreements or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; that in the event reroutings are necessary pursuant to the directives of this and subsequent orders, the divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers, or upon failure of the carriers to so agree said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act;

(g) *It is further ordered*, That, in carrying out the operations directed herein, the Reading Company shall hire employees of the Lehigh and New England Railway Company to the extent such employees had previously performed the directed service and shall assume all existing employment obligations and practices of the Lehigh and New England Railway Company relating thereto, including, but not limited to, agreements governing rates of pay, rules, working conditions, and all current employee protective conditions, for the duration of the directed service;

(h) *It is further ordered*, That the Reading Company and the Lehigh and New England Railway Company shall, if possible, negotiate an agreement (hereinafter called the agreement) on all aspects of the directed operation subject to their determination, including, but not limited to use of and rental for equipment, use of, and compensation for, existing inventories of fuel, materials, and supplies, and rental for the use of rights-of-way and other rail facilities; that the Commission shall be represented at all such discussions; that the agreement shall be subject to approval by the Commission upon such procedure as the Commission shall later specify; and that in the event the Reading Company and the Lehigh and New England Railway Company fail to agree upon the terms for such use and compensation, the directed service shall continue pending a Commission determination to establish

such terms as it may find to be just and reasonable;

(i) *It is further ordered*, That in the event the parties achieve agreement, any funds to be paid the Lehigh and New England Railway Company thereunder shall be paid into an escrow account until the agreement is given approval by the Commission; and that in the event the parties are unable to reach agreement, any monies the Reading Company holds for the account of the Lehigh and New England Railway Company to compensate it to the use of its equipment and facilities and properties, in lieu of a final agreement, shall be paid into an escrow account until a determination has been made by the Commission as to what terms are just and reasonable;

(j) *It is further ordered*, That the Reading Company shall record the revenues earned and the costs incurred in and for the performance of the operations directed herein over the lines of the Lehigh and New England Railway Company, in a manner to be prescribed by the Commission, that the information so recorded, and supporting data where specifically required, shall be submitted by the Reading Company to the Commission for audit and evaluation immediately upon completion of the directed operation, or at such intervals, during the period of the directed operation, as the Commission may request; and that, if, for the period during which this order shall be effective, the cost to the Reading Company of handling, routing, and moving the traffic over the lines of the Lehigh and New England Railway Company shall exceed the direct revenues therefor, payment shall be made to the Reading in the manner provided by section 1(16)(b) of the Act;

(k) *It is further ordered*, That the Commission shall retain jurisdiction to modify, supplement or reconsider this order at any time and for such purposes as it may consider necessary consistent with the legislative intent and the express provision of section 1(16)(b) of the Interstate Commerce Act, as amended;

(l) *It is further ordered*, That this order shall be served upon the United States Department of Transportation, the United States Railway Association, the Rail Planning Services Office of the Interstate Commerce Commission, the governor of the State of Pennsylvania, Pennsylvania Public Utilities Commission, the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

(m) *It is further ordered*, That this order shall be effective upon the date of service; that the operations which the Reading Company is herein directed to perform shall commence on or before 12:01 a.m., January 24, 1975; and that

such operations shall cease 60 days from the date the directed service shall be instituted by the Reading Company at 11:59 p.m., unless otherwise extended, modified, changed, or suspended by subsequent order of the Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 49 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD,  
Secretary.

SUBCHAPTER E—PRACTICE AND PROCEDURE

[Ex Parte No. 55 (Sub-No. 12)]

PART 1100—GENERAL RULES OF PRACTICE

Paper Conservation

At a general session of the Interstate Commerce Commission held at its office in Washington, D.C., on the 17th day of January, 1975.

It is ordered, That based on the reasons set forth in the attached notice, Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, modified as set forth below.

It is further ordered, That this order shall become effective on January 24, 1975.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

The Interstate Commerce Commission has amended its rules of practice in an attempt to conserve paper. The rule changes will permit persons submitting written pleadings, documents, and papers to use both sides of the paper (rather than one side) and to file 8 (instead of 15) copies of such pleadings, documents, and papers. These measures should permit persons appearing before the Commission to economize on paper and reproduction costs.

The rule is issued under the authority of sec. 12, 17, 24 Stat. 383, as amended, 385, as amended, 49 Stat. 546, as amended, 548, as amended, 551, as amended, sec. 304, 54 Stat. 933, sec. 403, 56 Stat. 285; 49 U.S.C. 12, 13a, 17, 304, 305, 306, 307, 309, 311, 902, 903, 904, 909, 916, 1003, 1010, 1017.

Issued in Washington, D.C., January 17, 1975.

Accordingly, this action modifies 49 CFR 1100.15 and 1100.16 so that they now read as follows:

§ 1100.15 **Typographical specifications generally (Rule 15).**

Except as otherwise provided respecting applications (Rule 38(a)), exhibits (Rule 84(a)), and informal complaints (Rules 24(a)), all pleadings, documents, and papers to be filed under these rules shall be on opaque, unglazed, durable paper not exceeding 8½ by 11 inches. To permit binding in covers of uniform size, margins of at least 1½ and 1 inch, respectively, shall be allowed on the left and right margins. Binding shall be on the left margin. Reproduction may be by printing, printing by offset press, multi-graphing, or mimeographing, or by any other process, provided the copies are clear and permanently legible. White-line blueprints which cannot be reproduced by photography are not acceptable. If directly typewritten, or if in facsimile reproduction of typewriting, the impression may be on both sides of the paper and must be double-spaced, except that long quotations shall be single-spaced and indented. Nothing less in size than Elite type shall be used. If

printed, adequate leading and nothing less than 10-point type shall be used, except that 8-point type may be employed in footnotes and in tabular matter where printing limitations so require. A pleading or brief in excess of 50 pages (except a pleading under modified or shortened procedure), including cover pages, indexes, and appendixes, must be printed. Printing by offset press will be accepted: *Provided*, That the type used is not reduced in size smaller than that required for typewritten documents and that where the pleading or brief exceeds 50 pages, the impression is on both sides of the paper. Failure to observe these specifications will result in rejection.

§ 1100.16 **Copies. (Rule 16).**

(a) *Generally.* The original and 8 copies of every pleading, document, or paper permitted or required to be filed under this part shall be furnished for the use of the Commission except as a different number is required under paragraph (b) of this section, or as otherwise provided respecting: answers (Rule 35(c)), applications (Rule 38(b) and Rule 40 (c)); complaints, formal (Rules 26 and 37) and informal (Rule 24(a) and Rule 25(d)); depositions (Rule 64); exhibits (Rules 84(c) and 86); modified procedure (Rule 52); petitions in intervention (Rule 72(d)); prepared statements (Rule 77); protests in investigation-and-suspension proceedings (Rule 42(c)); replies (Rule 23(b)); and matters respecting oral argument (Rule 98); subpoenas (Rule 56(a)); time modification (Rule 21(b)); transcript correction (Rule 90(b)), and petitions for rehearing, reargument, or reconsideration (Rule 101(a)).

(b) *In bankruptcy proceedings.* Except as otherwise provided in an application form or instruction (Rule 38) and respecting exhibits (Rule 84(c)), the original and 19 copies of every pleading, document, or paper filed in a proceeding arising under the Uniform Bankruptcy Act shall be furnished for the use of the Commission.

[FR Doc.75-2261 Filed 1-23-75;8:45 am]

RULES AND REGULATIONS

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-456]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Arkansas	Desha	McGehee, city of	Jan. 21, 1975. Emergency	Mar. 29, 1974		
Massachusetts	Franklin	Greenfield, town of	do	Sept. 13, 1974		
Missouri	Reynolds	Ellington, city of	do	Mar. 29, 1974		
New York	Westchester	Hastings-on-Hudson, city of	do	Nov. 8, 1974		
Do	Oneida	New Hartford, village of	do	Feb. 22, 1974		
Ohio	Delaware	Galena, village of	do	Feb. 15, 1974		
Do	Warren	South Lebanon, village of	do	May 24, 1974		
Tennessee	Lauderdale	Ripley, town of	do	May 17, 1974		
Virginia	Lee	Unincorporated areas	do			
Washington	Whitman	Colfax, city of	do	Apr. 5, 1974

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository

[Docket No. FI 450]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazards
Alabama	Coffee	New Brockton, town of.	H 010233 01 through H 010233 02	Alabama Development Office, Office of State Planning, State Office Bldg., 301 Dexter Ave., Montgomery, Ala. 36104.	Mayor, City Hall, Town of New Brockton, New Brockton, Ala. 36351.	Jan. 17, 1975.

# proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[ 21 CFR Part 3 ]

### STATEMENTS OF GENERAL POLICY OR INTERPRETATION

#### Proposed Deletion of Exemptions from Certain Drug-labeling Requirements

The Commissioner of Food and Drugs, under provisions of 21 CFR 1.106(b) (3) and upon written request stating reasonable grounds therefor, will offer an opinion on a proposal to omit certain labeling information (i.e., full disclosure information) from the dispensing package of a prescription drug if, but only if, the article is a drug for which directions, hazards, warnings, and use information are commonly known to practitioners licensed by law to administer the drug. In 21 CFR 3.515 the Commissioner has offered such opinions exempting certain drug products from the labeling requirements of § 1.106(b) (3) (i) provided they meet the conditions prescribed in § 3.515. The Commissioner last offered such an opinion in an amendment to § 3.515 on June 8, 1962 (27 FR 5428), prior to enactment of the Drug Amendments of 1962.

Under the Drug Amendments of 1962, proof of effectiveness is now required for each claimed use of a new drug. To implement these Amendments the Food and Drug Administration, with the assistance of the National Academy of Sciences/National Research Council, Drug Efficacy Study Group, undertook a study of the effectiveness of the new drugs "approved" prior to October 10, 1962, on the basis of safety. This study has shown that many drug claims commonly known to practitioners in fact lack substantial evidence of effectiveness as required by the Drug Amendments of 1962. A number of these drugs, which are included in § 3.515, have been the subject of Drug Efficacy Study Implementation (DESI) notices. These FEDERAL REGISTER notices set forth the Administration's conclusions on the effectiveness of such drugs based on reports received from the NAS/NRC as well as other available information. These DESI notices require that a drug determined to be effective be labeled to comply with all requirements of the act and regulations and that its labeling bear adequate information for safe and effective use of the drug. Other drugs or indications concluded to lack substantial evidence of effectiveness have been or will be removed from the market.

The Commissioner has concluded that many DESI notices have superseded specific exemptions from drug labeling

requirements previously granted under § 3.515, and that any such exemption as it applies to a drug that is the subject of a DESI notice should be revoked.

The Food and Drug Administration is presently establishing procedures for developing old drug monographs. An old drug monograph will set forth conditions for which a prescription drug which is not a new drug and shall be deemed safe and effective and not misbranded. Such old drug monographs will supersede the labeling exemptions for those drugs remaining in § 3.515 which have not already been superseded by DESI announcements.

The following drugs currently listed in § 3.515 are the subjects of DESI notices:

1. Aminophylline (DESI 1628; published in the FEDERAL REGISTER of July 26, 1972 (37 FR 14895)).
2. Atropine methylnitrate (DESI 3265; published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11754)).
3. Barbiturates (DESI 793; published in the FEDERAL REGISTER of July 28, 1972 (37 FR 15186)). Specific barbiturate preparations have been subjects of other DESI announcements.
4. Digitalis (DESI 8627; published in the FEDERAL REGISTER of July 27, 1972 (37 FR 15024)).
5. Epinephrine Injection (DESI 366; published in the FEDERAL REGISTER of July 11, 1972 (37 FR 13564)).
6. Mannitol Hexanitrate (DESI 1786; published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001)); evaluation for diagnostic purposes (DESI 2282; published in the FEDERAL REGISTER of August 6, 1971 (36 FR 14507)).
7. Pentaerythritol tetranitrate (DESI 1786; published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001)).
8. Pentaerythritol tetranitrate with phenobarbital (DESI 1786; published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001)).
9. Quinidine Sulfate (DESI 6320; published in the FEDERAL REGISTER of September 8, 1972 (37 FR 18227)).
10. Scopolamine methylbromide (DESI 3265; published in the FEDERAL REGISTER of June 18, 1971 (36 FR 11754)).

The Commissioner has also concluded that the reference to nitroglycerin in § 3.515 shall be amended to specify the sublingual dosage form which was the intent of the exemption. Sustained action nitroglycerin preparations are the subject of a DESI notice (DESI 1786) published in the FEDERAL REGISTER of February 25, 1972 (37 FR 4001).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 701, 52 Stat. 1050-

1053, 1055-1056, as amended; 21 U.S.C. 352, 355, 371) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Part 3 in § 3.515(b) by deleting the entries "Aminophylline," "Atropine methylnitrate," "Barbiturates," "Digitalis," "Epinephrine injection," "Mannitol hexanitrate," "Pentaerythritol tetranitrate," "Pentaerythritol tetranitrate with phenobarbital," "Quinine sulfate," "Scopolamine methylbromide," and by revising the entry "Nitroglycerin" to read "Nitroglycerin sublingual". As revised, § 3.515 (b) reads as follows:

§ 3.515 Exemptions from certain drug labeling requirements.

(b) The Commissioner of Food and Drugs has considered submitted material covering a number of drug products and has offered the opinion that the following drugs, when intended for those human uses for which they are now generally employed by the medical profession, should be exempt from the requirements of § 1.106(b) (3) of this chapter, provided that they meet the conditions prescribed in this paragraph. Preparations that are not in dosage unit form (for example, solutions) will be regarded as meeting the conditions with respect to the maximum quantity of drug per dosage unit if they are prepared in a manner that enables accurate and ready administration of a quantity of drug not in excess of the maximum per dosage unit:

*Atropine sulfate.* For oral use, not in excess of 0.54 milligram per dosage unit; for injection, not in excess of 0.54 milligram (1/120 grain) per dosage unit.

*Chloral hydrate.* For oral use, not in excess of 500 milligrams per dosage unit; for use as suppositories, not in excess of 1.0 gram per suppository.

*Codeine phosphate.* For oral use, not in excess of 65 milligrams per dosage unit; for injection, not in excess of 65 milligrams per dosage unit.

*Codeine sulfate.* For oral use, not in excess of 65 milligrams per dosage unit; for injection, not in excess of 65 milligrams per dosage unit.

*Dihydrocodetone bitartrate.* For oral use, not in excess of 10 milligrams per dosage unit.

*Dihydromorphine hydrochloride.* For oral use, not in excess of 4 milligrams per dosage unit.

*Erythrityl tetranitrate.* For oral use, not in excess of 30 milligrams per dosage unit.

*Homatropine methylbromide.* For oral use, not in excess of 5 milligrams per dosage unit.

*Hyoscyamine hydrobromide.* For oral use, not in excess of 1 milligram per dosage unit.

*Hyoscyamine sulfate.* For oral use, not in excess of 1 milligram per dosage unit.

*Hyoscyamus tincture.* For oral use, not in excess of 2 milliliters per dosage unit.

*Methenamine.* For oral use, not in excess of 1 gram per dosage unit.

*Morphine phosphate.* For oral use, not in excess of 33 milligrams per dosage unit; for injection, not in excess of 33 milligrams per dosage unit.

*Morphine sulfate.* For oral use, not in excess of 33 milligrams per dosage unit; for injection, not in excess of 33 milligrams per dosage unit.

*Nitroglycerin sublingual.* For oral use, not in excess of 0.65 milligram per dosage unit.

*Sodium chloride injection.*

*Sodium nitrite.* For oral use, not in excess of 60 milligrams per dosage unit.

*Theobromine.* For oral use, not in excess of 325 milligrams per dosage unit.

*Thyroid.* For oral use, not in excess of 220 milligrams per dosage unit.

*Water for injection, sterile.*

Interested persons may, on or before March 25, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: January 14, 1975.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

## DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration  
[14 CFR Part 39]

[Airworthiness Docket No. 72-SW-10]

### BELL MODEL 206A AND 206B HELICOPTERS

#### Proposed Airworthiness Directive

Amendment 39-1437 (37 FR 8438) AD 72-9-2, requires an inspection of the cabin roof reinforcing straps and the support fittings for cracks and loose rivets. It also requires replacement of a cracked strap, loose rivets or a cracked support fitting on certain Bell Model 206A and 206B helicopters. After issuing Amendment 39-1437, the agency received reports of additional cases of cracked cabin roof straps, P/N 206-031-200-23 and -24, on helicopters included in Amendment 39-1437 and on helicopters not included. Therefore, the agency is considering superseding Amendment 39-1437 with a new AD that requires replacement of the cabin roof straps P/N 206-031-200-23 and -24 with straps P/N 206-032-200-37 and -38 on Model 206A and 206B helicopters, serial numbers 1 through 1163.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in trip-

licate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before February 24, 1975, will be considered by the Director before taking action upon the proposed rule.

The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Office of Regional Counsel, Southwest Region, Federal Aviation Administration, 4400 Blue Mound Road, Fort Worth, Texas.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

**BELL.** Applies to Bell Models 206A and 206B helicopters, S/N 1 through 1163, certificated in all categories.

Compliance required within the next 1200 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent possible failure of the cabin roof straps, P/N 206-031-200-23 and -24, accomplish the following:

(a) Remove the cabin roof straps, P/N 206-031-200-23 and -24, in accordance with items 1 through 4 of Bell Helicopter Company Service Bulletin 206-01-74-2, dated November 12, 1974, or later approved revision.

(b) Install the cabin roof straps, P/N 206-032-200-37 and -38, in accordance with items 5 through 9 of Bell Helicopter Company Service Bulletin 206-01-74-2, dated November 12, 1974, or later approved revision.

The manufacturers' specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a) (1). All persons affected by this directive, who have not already received these documents from the manufacturer, may obtain copies upon request to the Service Manager, Bell Helicopter Company, P.O. Box 482, Fort Worth, Texas 76101. These documents may also be examined at the office of the Regional Counsel, Southwest Region, FAA, 4400 Blue Mound Road, Fort Worth, Texas, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. A historical file on this AD, which includes the incorporated material in full, is maintained by the FAA at its headquarters in Washington, D.C., and at the Southwest Regional Office in Fort Worth, Texas.

This supersedes Amendment 39-1437 (37 FR 8438), AD 72-9-2.

Issued in Fort Worth, Texas, on January 10, 1975.

NOTE: The incorporation by reference provisions in this document were approved by the Director of the FEDERAL REGISTER on June 19, 1967.

HENRY L. NEWMAN,  
Director, Southwest Region.

[FR Doc.75-2188 Filed 1-23-75; 8:45 am]

## [14 CFR Part 71]

[Airspace Docket No. 74-SO-06]

### CONTROL ZONE AND TRANSITION AREA

#### Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Christiansted, St. Croix, V.I., Control Zone and Transition Area.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga., 30320. All communications received on or before February 10, 1975 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, 800 Independence Avenue, S.W., Washington, D.C., 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are

exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The FAA proposes to amend § 71.171 (40 FR 354) by altering the Christiansted, St. Croix, V.I., control zone to read as follows:

Within a 5-mile radius of Alexander Hamilton Airport (lat. 17°42'13" N., long. 64°47'54" W.); within 3 miles each side of St. Croix VOR 068° and 248° radials, extending from the 5-mile radius zone to 8.5 miles east of the VOR. This control zone is effective during specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the FAA publication, International NOTAMS.

The FAA also proposes to amend § 71.181 (40 FR 441) by altering the Christiansted, St. Croix, V.I., transition area to read as follows:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Alexander Hamilton Airport (lat. 17°42'13" N., long. 64°47'54" W.); within 3 miles each side of St. Croix VOR 068° radial, extending from the 8.5-mile radius area to 8.5 miles east of the VOR; and that airspace extending upward from 1,200 feet above the surface within a 15-mile radius of Alexander Hamilton Airport; within 9.5 miles north and 4.5 miles south of the St. Croix VOR 068° radial, extending from the 15-mile radius area to 18.5 miles east of the VOR; within 9.5 miles south and 4.5 miles north of the ILS localizer west course, extending from the 15-mile radius area to 18.5 miles west of the LOM.

Revision of the procedure turn altitude from 3,000 feet MSL to 2,200 feet MSL for the VOR Runway 27 instrument approach procedure requires an extension to the 700 foot transition area to comply with the United States Standard for Terminal Instrument Procedures (TERPS). Because the Christiansted RBN has been decommissioned, the control zone extensions and the transition area extensions designated for the protection of instrument approaches predicated on this RBN are no longer required.

This amendment is proposed under the authority of section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on January 20, 1975.

GORDON E. KEWER,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.75-2193 Filed 1-23-75; 8:45 am]

[ 14 CFR Part 71 ]

[Airspace Docket No. 75-SW-2]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a transition area at Malvern, Ark.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before February 24, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

MALVERN, ARK.

That airspace extending upward from 700 feet above the surface within a 5-statute-mile radius of Malvern Municipal Airport, Malvern, Ark. (latitude 34°19'57" N., longitude 92°45'45" W.); and within 3.5 statute miles each side of 046° T (040° M) bearing from the Malvern NDB (latitude 34°19'56" N., longitude 92°45'50" W.), extending from the 5-mile-radius area to 11.5 statute miles northeast of the NDB; excluding that portion which overlies the Little Rock, Ark., transition area.

The proposed transition area will provide controlled airspace for aircraft executing a new instrument approach procedure for the Malvern, Ark., Municipal Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Fort Worth, TX., on January 16, 1975.

ALBERT H. THURBURN,  
Acting Director,  
Southwest Region.

[FR Doc.75-2194 Filed 1-23-75; 8:45 am]

[ 14 CFR Part 71 ]

[Airspace Docket No. 74-CE-22]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Waterloo, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before February 24, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new public use instrument approach procedure has been designed for an approach from the southwest to the Waterloo, Iowa, Municipal Airport. Accordingly, it is necessary to alter the 700-foot transition area at Waterloo, Iowa, to provide controlled airspace protection for aircraft executing the new instrument approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is amended to read:

WATERLOO, IOWA

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the Waterloo Municipal Airport (lat. 42°33'28" N., long 92°23'58" W.); and within 3½ miles each side of the Waterloo ILS localizer northwest course extending from the 10-mile radius area to 8 miles northwest of the OM; and 3 miles each side of the Waterloo, Iowa VORTAC 120° radial extending from the 10-mile radius to 15 miles southeast of the VORTAC; and within 3½ miles each side of the Waterloo, Iowa, VORTAC 194° radial extending from the 10-mile radius to 11½ miles south of the VORTAC; and within 3½ miles each side of the Waterloo, Iowa, VORTAC 001° radial extending from the 10-mile radius to 11½ miles north of the VORTAC; and within 3½ miles each side of the Waterloo, Iowa, VORTAC 316° radial extending from the 10-mile radius to 11½ miles northwest of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on December 23, 1974.

A. L. COULTER,  
Director, Central Region.

[FR Doc.75-2195 Filed 1-23-75;8:45 am]

## ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 2]

[FRL 327-2]

### PROVIDING OF INFORMATION UNDER THE FREEDOM OF INFORMATION ACT

#### Proposed Fee Schedule

Notice is hereby given that the Administrator of the Environmental Protection Agency (EPA) proposes to amend Part 2 of Title 40, Code of Federal Regulations by amending § 2.111(a) to establish a uniform schedule of fees for document search duplication applicable to all constituent units of the Environmental Protection Agency.

Recent amendments to 5 U.S.C. 552, commonly known as the Freedom of Information Act, require each Federal agency to publish in the FEDERAL REGISTER a schedule of reasonable standard fees to be charged for searching for and duplicating requested records. The proposed regulation would comply with that requirement and would revise an existing fee schedule maintained by EPA but not previously published in the FEDERAL REGISTER.

The charge of \$2.50 per half hour for "record search time" and \$4.50 per half hour for "in-house computer programming time" are based on the estimated average salary of an individual performing the search and/or programming tasks. The charge of \$.20 per page for reproduction of documents is based on the combination of salary of the individual reproducing the copy, and machine and materials costs for making that copy.

The cost of computer time varies according to the computer system being used and the components of that system needed to complete the task. The fee for computer time will be the actual direct cost of the machine time, as well as any necessary in-house or contract programming costs.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the Environmental Protection Agency Information Center, Environmental Protection Agency, Washington, D.C., 20460. Comments on all aspects of the proposed regulation are solicited. All comments received on or before February 24, 1975, will be considered. A copy of all public comments will be available for inspection and copying at the Environmental Protection Agency Information Center, Room 227, West Tower, Waterside Mall,

401 M Street, S.W., Washington, D.C. 20460. Authority: 5 U.S.C. 552, 553.

Dated: January 21, 1975.

RUSSELL E. TRAIN,  
Administrator.

It is therefore proposed to amend Part 2 of Title 40, Code of Federal Regulations, by revising § 2.111(a) to read as follows:

#### § 2.111. Payment.

(a) *Charges.* Fees will be charged for copies of records which are furnished to a person under this part and for time spent in locating and reproducing them in accordance with the fee schedule below. No fee will be charged for periods of less than one-half hour spent in connection with a search for records or computer programming.

Record search time.....	\$2.50 per half hour.
In-house computer programming time.	\$4.50 per half hour.
Reproduction of documents.	\$0.20 per page.

If the information requested exists as a computer record and a print-out or tape is a means by which that information may be made available, the fee will be the actual direct cost of the computer system time added to any applicable search, in-house programming, reproduction, or contract programming costs.

[FR Doc.75-2306 Filed 1-23-75;8:45 am]

## EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

[29 CFR Part 1601]

706 AGENCIES

Proposed Designation

*Correction*

In FR Doc. 75-1731 appearing on page 3220 of the issue for Monday, January 20, 1975, the reference in the fourth line to "page 3209" should read "page 3210M".

## FOREIGN CLAIMS SETTLEMENT COMMISSION

[45 CFR Part 503]

### SEARCH AND DUPLICATION OF AGENCY RECORDS

#### Fee Schedule

Revisions of the regulations of the Foreign Claims Settlement Commission concerning the availability of public information as currently contained under Part 503 of its regulations are being considered to conform with the 1974 amendments (Pub. L. 93-502) to the Freedom of Information Act (5 U.S.C. 552).

Notice is hereby given of the proposal to amend the fee schedule as currently set forth in § 503.14 of the Commission's regulations governing the disclosure of information under the Freedom of Information Act. In the consideration of the 1974 amendments to the subject Act contained under Public Law 93-502, which becomes effective February 19, 1975, it is proposed to amend § 503.14 as follows:

#### § 503.14 Fees for services.

Unless otherwise waived by paragraphs (d) and (e) of this section, the following fees shall be imposed for the reproduction of any record disclosed pursuant to this part.

(a) Copying of records and documents. Twelve cents per copy for each page.

(b) Search fees. (i) clerical searches. \$1.25 for each quarter hour spent by clerical personnel searching for and producing a requested record or document, including time spent copying any record. (ii) \$3 for each one quarter hour spent by professional or supervisory personnel searching for and producing a requested record, including time spent copying any record.

(c) Certification and validation of records. \$1 per certification or authentication.

(d) The Executive Director may reduce or waive payment of fees in whole or in part when he determines that such reduction or waiver is in the public interest because furnishing the information can be considered as primarily benefiting the general public, or unless the requester is a government agency or indigent.

(e) No fees will be charged (1) for time spent in examining the requested records for the purpose of determining whether an exemption can and should be asserted, (2) for time spent in deleting exempt matters being withheld from records to furnish, (3) for time spent in monitoring a requester's inspection of agency records made available to him in this manner, (4) for records not found or is determined to be totally exempt from disclosure, or (5) where the cost of providing the records is less than \$5.

(f) Payment of fees under this part should be made by check or money order payable to the Treasury of the United States.

(g) Unless the request for services where fees are chargeable under this part, specifically states that whatever cost is involved will be acceptable, or acceptable up to a specified limit that covers anticipated costs, a request that is expected to involve assessed fees in excess of \$50 will not be deemed to have been received until the requester is advised promptly at the time of receipt of the request of the anticipated cost and agrees to bear it. When the anticipated fees exceed \$50, a deposit of \$25 must be made within 5 days of advising the requester of such costs.

Written comments concerning the proposed revisions to the Commission's regulations under the Freedom of Information Act, as amended by Pub. L. 93-502, are invited from interested persons. Comments may be presented in writing to the Executive Director, Foreign Claims Settlement Commission, Washington, DC 20579. All comments received not later than February 18, 1975, will be considered. The revised fee schedule set forth in § 503.14 will become effective on February 19, 1975.

WAYLAND D. McCLELLAN,  
General Counsel.

[FR Doc.75-2234 Filed 1-23-75;8:45 am]

**INTERSTATE COMMERCE  
COMMISSION**

[Ex Parte No. MC-230 (Sub-No. 3)]

[49 CFR Part 1090]

**MOTOR CARRIERS OF PROPERTY**

**Circuitry Limitations**

JANUARY 20, 1975.

Petitioners: Brown Transport Corp. and Harper Motor Lines, Inc. (Atlanta, Ga.). Petitioners' representative: Harry C. Ames, Jr., and Marshall Krage, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, D.C. 20001.

Section 1090.5 (sometimes called the 85-percent circuitry limitation provision) of the Commission's regulations entitled Practices of For-Hire Carriers of Property Participating in Trailer-on-Flatcar Service, 49 CFR Part 1090, provides as follows:

§ 1090.5 *Circuitry Limitations.* (a) Motor and water common carriers shall not participate in joint intermodal TOFC service which is to be provided in lieu of their authorized line-haul transportation, and motor and water common, and contract carriers shall not utilize open tariff TOFC service, where the distance from origin to destination over the route including the TOFC movement is less than 85 percent of the distance between such points over the motor or water carrier's authorized service route: *Provided, however,* That the Interstate Commerce Commission may grant relief from the provisions of this paragraph upon consideration of an appropriate petition.

(b) For the purpose of paragraph (a) of this section the distance from origin to destination over the motor or water carrier's authorized route shall be computed (1) if a motor carrier operating over regular routes, over its authorized regular service route, (2) if a motor carrier operating over irregular or a combination of regular and irregular routes, through any gateway point which it is required to observe, and (3) if a water carrier, over the most direct available all-water route.

By joint petition filed December 31, 1974, Brown Transport Corp., and Harper Motor Lines, Inc., seek the institution of a rulemaking proceeding, proposing that the words "85 percent" in § 1090.5(a) of the above-noted trailer-on-flatcar (TOFC) service regulations be deleted, insofar as such words pertain to motor carriers, and the words "80 percent" be substituted in lieu thereof in this context.

Petitioners note that in Ex Parte No. 55 (Sub-No. 3), *Gateway Elimination*, 119 M.C.C. 530 (decided February 15, 1974), the Commission has recently adopted procedures (codified at 49 CFR 1065) pursuant to which a motor common carrier authorized to provide service from one point to another point by tacking or combining at a common point of service (a "gateway") separate irregular-route authorities (which authorities were issued to the carrier pursuant to an application proceeding, or proceedings, pending before the Commission on or before November 23, 1973), may (subject to certain other specified conditions), file for and obtain direct-service operating authority from the one point to the other point, thereby eliminating

the necessity of operating through the "gateway", provided that the most direct highway distance between the points to be served is not less than 80 percent of the highway distance between such points over the carrier's authorized routing through the gateway. In this context petitioners contend that the asserted disparity in the amount of circuitry reduction permitted in the elimination of such gateways and in the circuitry reduction permitted motor carriers under the TOFC service regulations is not justified, and urge that appropriate corresponding modifications in the circuitry limitation of the TOFC service regulations be made. Petitioners further assert that their proposed amendment would allow carriers to provide improved service, while the minor increase in the circuitry reduction permitted under the TOFC service regulations would not allow carriers to provide totally new services which would obtain from the indiscriminate substitution of direct TOFC service for indirect all-motor service.

Moreover, in the environmental analysis submitted in conjunction with their joint petition, Brown and Harper submit that the Commission's granting of the requested relief will have a beneficial impact upon the environment. In this context petitioners assert that adoption of the recommended change in the TOFC service regulations will encourage the increased use of rail transportation, and that the attendant reduction in the number of highway miles traveled by motor carriers will result in a significant reduction in fuel consumption, an increase in efficiency and economy in the movement of freight, a decrease in the emission of air pollutants, a reduction in traffic congestion, and an improvement in highway safety. The only potentially adverse environmental impact which petitioners foresee is the increase in the number of carriers making use of TOFC service; however, petitioners believe that this potential impact is outweighed in overall effect by the asserted substantial benefits which would follow from adoption of the proposed amendment.

In its environmental analysis petitioners further state that there are three possible alternatives to its proposed action, viz: the Commission could (1) take no action, (2) permit reduction in operational circuitry greater than that contemplated under petitioners' so-called "20 percent" circuitry reduction proposal, (3) establish the proposed amendment for a limited period of time, or (4) continue to allow greater circuitry reduction on a case-by-case procedure in accordance with the provision of § 1090.5(a). Petitioners, however, reject each of these alternatives as inappropriate. Thus, petitioners submit (1) that failure to act would mean foregoing the anticipated beneficial effects upon the environment outlined above, (2) that amendment of the considered provision of the TOFC service regulations to permit significantly greater circuitry reduction than that which petitioners propose would lead to destructive competition and an inefficient utilization of equipment, (3) that temporary establishment

of the proposed rule change would discourage carriers from making the commitments necessary to make full utilization of the new rule, and (4) that following a procedure of processing individual carrier's petitions seeking greater reduction in circuitry on a case-by-case basis, as is already provided for under the present TOFC service rules, would, per se, discourage motor carriers from attempting to utilize TOFC service, and, furthermore, would not be consonant with the need for expedition in this matter. Petitioners further contend that the proposed change in the regulations, by enabling carriers to operate more efficiently, will also serve to improve long-term productivity by the conservation of limited fuel supplies. Including their environmental analysis, petitioners submit that there will be no irreversible and irretrievable commitments of resources as a result of the proposed action; and that, on the contrary, such action should result in a better and more efficient utilization of existing resources.

No oral hearing is contemplated at this time, but any person (including petitioners) interested in making representations in favor of, or against, the relief sought in the petition may do so by the submission of written data, views, or arguments. Likewise, any person desiring to comment upon the environmental issues raised by the petition is hereby invited to do so by the submission of written data, views, or arguments. An original and fifteen (15) copies of such data, views, or arguments shall be filed with the Commission on or before March 24, 1975.

A copy of each representation should be served upon petitioners' representatives. Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours. Notice to the general public of the matters herein under consideration will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[29 CFR Part 1910]

[Docket No. OSH-38]

**EMPLOYMENT RELATED HOUSING  
(TEMPORARY LABOR CAMPS)**

Additional Hearing Location

Pursuant to section 6(b)(3) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594,

29 U.S.C. 655), Secretary of Labor's Order No. 12-71 (36 FR 8754) and 29 CFR Part 1911, the hearing scheduled for Employment Related Housing was published in the FEDERAL REGISTER on Tuesday, December 24, 1974, at 39 FR 44456, with notification of an additional hearing published on January 3, 1975, at 40 FR 797.

It has been determined that an additional hearing will be conducted in Fresno, California, on February 19, 1975. The hearing will begin at 9 a.m. local time in the Ballroom of the Hilton Inn, which is located at 1055 Van Ness Street, Fresno, California.

Interested persons may file a written notice of intention to appear, together

with two copies thereof. This notice must be postmarked no later than February 7, 1975. Such requests should be addressed to Mrs. Jeanne Ferrone, Attn: Docket OSH-38, Occupational Safety and Health Administration, Room 200, 1726 M Street Northwest, Washington, D.C. 20210. Phone: (202) 961-2487/2248. The notice must state the name and address of the person wishing to appear, the capacity in which he will appear, and the approximate amount of time required for his presentation. The notice must also include or be accompanied by, a statement of the position to be taken in regard to the specific issues being raised, and the evidence to be adduced in support of

this position. For persons wishing to appear at the hearings, but unable to attend, written statements postmarked no later than February 18, 1975, may be submitted to the above address. The written statements should be submitted in triplicate.

In all other respects, the notice of hearing published on December 24, 1974 (39 FR 44456) remains in effect.

Signed at Washington, D.C., this 23rd day of January 1975.

JOHN STENDER,  
*Assistant Secretary of Labor.*

# notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF STATE

[Public Notice 439]

### CULTURALLY SIGNIFICANT OBJECT OF ART

#### Importation and Exhibition

Notice is hereby given of the following determination:

Pursuant to the authority vested in me by the Act of October 19, 1965 (79 Stat. 985), Executive Order 11312 of October 14, 1966 (31 FR 13415, October 18, 1966) and delegation of authority number 113 of December 23, 1966 (32 FR 58, January 5, 1967), I hereby determine that (1) the painting described,

Claude Monet 1866

DEJEUNER SUR L'HERBE

216 x 162 x 18 cm.

From—Pushkin Museum of Fine Arts, Moscow

to be imported, pursuant to a loan agreement between Mr. Thomas Hoving for the Metropolitan Museum of Art and the Minister of Culture of the U.S.S.R., for temporary exhibition without profit within the United States is of cultural significance and that (2) the temporary exhibition or display of such painting within the United States at the Metropolitan Museum of Art in New York City on or about January 25, 1975 to on or about February 20, 1975, is in the national interest.

Public notice of this determination is ordered to be published in the FEDERAL REGISTER.

Dated: January 20, 1975.

[SEAL] JOHN RICHARDSON, JR.,  
Assistant Secretary for  
Educational and Cultural Affairs.

## DEPARTMENT OF THE TREASURY

### Bureau of Alcohol, Tobacco and Firearms GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925 (c), the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's rec-

ord and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Brissa, Daniel Patrick, 946 N. St. Louis Avenue, Chicago, Illinois, convicted on July 6, 1968, in the Circuit Court, Cook County, Illinois.

Bryan, Jacob A., 2907 Page Drive, Baltimore, Maryland, convicted on March 23, 1954, in the Baltimore City Court, Baltimore, Maryland; and on February 26, 1957, in the Anno Arundel County Circuit Court, Maryland.

Burrows, Michael Raymond, 6238 South "K", Tacoma, Washington, convicted on December 7, 1965, in the Superior Court of the State of Washington, in and for Pierce County.

Butters, Robert J., McNeil Road, Fryeburg, Maine, convicted on October 4, 1965, in the Oxford County Superior Court, Maine.

Chapman, Roland C., P.O. Box 830, Forks, Washington; convicted on October 19, 1970, in the United States District Court, Tacoma, Washington.

Chesser, Choice L., 10403 Vern Street, Gibsonton, Florida, convicted on June 25, 1957, in the Circuit Court De Kalb County, Alabama.

Crenshaw, George E., 701 Rutherford Avenue, N.W., Roanoke, Virginia, convicted on July 29, 1971, in the Hastings Court of the City of Roanoke, Virginia.

Eaton, James Hoyle, Route #3, Booneville, Mississippi, convicted on June 19, 1959, and on May 2, 1967, in the United States District Court, Northern District of Mississippi.

Fillion, Ralph Rodger, 8805 37th S.W., Seattle, Washington, convicted on July 14, 1970, in the Superior Court of the State of Washington for the County of King.

Fortune, James Wellington, Route 1, Box 40-A, Milford, Virginia, convicted on July 7, 1971, in the Circuit Court of the City of Fredericksburg, Virginia.

Galeotti, Daniel Louis, Box 377, Main Street, Austin, Pennsylvania, convicted on December 10, 1958, in the Potter County Criminal Court, Coudersport, Pennsylvania; and on May 14, 1973, in the Cameron County Criminal Court, Emporium, Pennsylvania.

Gilcott, Wardell A., Route #201, Gardiner, Maine, convicted on September 4, 1948, in the Somerset County Superior Court, Maine; and on November 4, 1959, in the Kennebec County Superior Court, Maine.

Griffin, George L., 4702 18 Avenue, Phenix City, Alabama, convicted on December 2, 1963, in the United States District Court for the Middle District of Alabama.

Jarzemkoski, John Joseph, Sr., 3604 Liermann Avenue, St. Louis, Missouri, convicted on April 14, 1970, in the United States District Court, East St. Louis, Illinois.

Lawrence, James C., 16313 Sandy Ford Road, Chesterfield, Virginia, convicted on March 16, 1970, in the United States District Court for the Eastern District of Virginia.

Lee, Delbert Gene, P.O. Box 507, Amity, Oregon, convicted on April 19, 1967, in the Lane County Circuit Court, Oregon.

May, Karl E., 376 Oak Street, Menasha, Wisconsin, convicted on August 11, 1971, in the Circuit Court, Outagamie County, Wisconsin.

Nystrom, Ellen, 923 Oak Street, Negaunee, Michigan, convicted on June 14, 1971, in the State of Wisconsin Circuit Court, Marinette County, Wisconsin.

Orawiec, Stanley V., Jr., 1714 Pingree Avenue, Ogden, Utah, convicted on July 6, 1971, in the District Court, 2d Judicial District, Weber County, Utah.

Pate, Kenneth Lee, 11 N.E. 81st Street, Kansas City, Missouri, convicted on April 23, 1967, in the County Court, Wyandotte County, Kansas.

Phillip, Chester R., Straight Creek, Kentucky, convicted on June 29, 1973, in the United States District Court, District of Columbia.

Piccogna, Dennis J., 1019 Washington Street, Farrell, Pennsylvania, convicted on June 14, 1973, in the Court of Common Pleas of Mercer County, Pennsylvania.

Scott, Stephen Michael, 3700 28th Street, Lot N. 160, Sioux City, Iowa, convicted on March 7, 1973, in the District Court, Woodbury County, Iowa.

Smith, Jack E., Rural Route #2, Menomonie, Wisconsin, convicted on November 3, 1973, in the State of Wisconsin, County Court, Dunn County.

Soltica, Leonard, 520 N. Mathilda Street, Pittsburgh, Pennsylvania, convicted on November 30, 1951, in the Court of Quarter Sessions of Washington County, Pennsylvania; on or about July 17, 1952, in the Court of Quarter Sessions of Centre County, Pennsylvania; and on November 25, 1959, in the Court of Quarter Sessions of Allegheny County, Pennsylvania.

Sundall, Brant M., 602 St. James Street, Rapid City, South Dakota, convicted on November 14, 1969, in the Circuit Court, Pennington County, South Dakota.

Ticknor, Larry Lowell, 1307 Holly Drive, Sioux Falls, South Dakota, convicted on July 20, 1973, in the United States District Court, District of South Dakota.

Tinklenberg, Harris J., 701 11th Street, Windom, Minnesota, convicted on July 4, 1959, in the Municipal Court, Long Beach, California.

Wakeland, Milo W., 111 Riverside Drive, Truth or Consequences, New Mexico, convicted on January 21, 1949, in the United States District Court for the Southern District of Texas.

Wover, Ewing Gene, 6604 18th Street, Edo Linda, California, convicted on February 14, 1962, in the Superior Court of the State of California in and for the County of Sacramento.

Signed at Washington, D.C. this 9th day of January 1975.

Rex D. Davis,  
Director, Bureau of Alcohol,  
Tobacco and Firearms.

Office of the Secretary  
**RECHARGEABLE SEALED NICKEL-  
 CADMIUM BATTERIES FROM JAPAN**

**Antidumping Proceeding Notice**

On December 24, 1974, information was received in proper form pursuant to §§ 153.26 and 153.27, Customs Regulations (19 CFR 153.26, 153.27), indicating a possibility that rechargeable sealed nickel-cadmium batteries from Japan are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.).

There is evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Having conducted a summary investigation as required by § 153.29 of the Customs Regulations (19 CFR 153.29) and having determined as a result thereof that there are grounds for so doing, the U.S. Customs Service is instituting an inquiry to verify the information submitted and to obtain the facts necessary to enable the Secretary of the Treasury to reach a determination as to the fact or likelihood of sales at less than fair value.

A summary of information received from all sources is as follows: The information received tends to indicate that the prices of the merchandise sold for exportation to the United States are less than the prices for home consumption.

This notice is published pursuant to § 153.30 of the Customs Regulations (19 CFR 153.30).

[SEAL] DAVID R. MACDONALD,  
*Assistant Secretary  
 of the Treasury.*

**DEPARTMENT OF THE INTERIOR**

Bureau of Land Management

[INT FES 75-7]

**EHV TRANSMISSION LINE CORRIDOR  
 (TG&E), ARIZ.**

**Availability of Final Environmental  
 Statement**

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management, Department of the Interior, has prepared a final environmental statement for the construction of two EHV Transmission Lines from Westwing Substation near Phoenix, to the Vail Substation near Tucson, Arizona. Tucson Gas & Electric Company proposes to construct the lines through portions of Maricopa, Pinal, and Pima Counties. The lines proposed are an extension of the power transmission system for power being generated at the coal fired Navajo Plant in northern Arizona.

The final statement considers the impact of powerline construction, operation, and maintenance.

Copies are available for inspection at the following locations during regular office hours:

Phoenix District Office, Bureau of Land Management, 2929 West Clarendon Avenue, Phoenix, Arizona. Telephone (602) 261-4231.

Arizona State Office, Bureau of Land Management, Room 3204 Federal Building, 230 N. 1st Avenue, Phoenix, Arizona. Telephone (602) 261-3706.

Office of Public Affairs, Bureau of Land Management, Room 5625, Interior Building, Washington, D.C. Telephone (202) 343-6717.

A limited number of single copies may be obtained by writing the Arizona State Director, Bureau of Land Management, 3022 Federal Building, Phoenix, Arizona 85025.

Dated: January 20, 1975.

STANLEY D. DOREMUS,

**Fish and Wildlife Service**

**LINCOLN PARK ZOOLOGICAL GARDENS  
 Endangered Species Permit; Receipt of  
 Application**

Notice is hereby given that the following application for a permit is deemed to have been received under section 10 of the Endangered Species Act of 1973 (P.L. 93-205).

*Applicant:*  
 Lincoln Park Zoological Gardens  
 100 W. Webster Avenue  
 Chicago, Illinois 60614  
 Mr. Saul L. Kitchener  
 Assistant Director

LINCOLN PARK ZOOLOGICAL GARDENS

*DIRECTOR,  
 Bureau of Sport Fisheries & Wildlife,  
 United States Department of Interior,  
 Washington, DC 20240*

DECEMBER 6, 1974.

DEAR SIR: The Lincoln Park Zoological Gardens, 100 West Webster, Chicago, Illinois 60614, hereby applies for a permit to place a pair of Snow Leopards (*Panthera uncia*) born Lincoln Park Zoo May 29, 1974 on breeding loan with Howletts Zoo Park, Bekesbourne, England. Mr. John Aspinall, 1 Lyall Street, London SW1X 8DW, England (Phone: 01-235-6108) is the owner of Howletts.

At the present time Lincoln Park Zoo owns eleven (11) Snow Leopards and we frankly do not have the facilities to keep all of them. Besides this lack of adequate space it is a good idea for conservation of this species to disperse surplus animals to institutions that have already proved their ability to breed and maintain either this species or related ones. At this writing the pair of Snow Leopards under discussion are living in a small holding area off display. This area is minimal at present and obviously becomes more of a problem as the animals grow. It is imperative, therefore, that a decision be made on this application immediately.

At Lincoln Park Zoo we have always believed in cooperating with our sister institutions for the benefit of our animal charges. Towards this end we regularly send and receive many animals on breeding loans. We sent a female Snow Leopard to the Seattle Zoo on breeding loan as a potential mate for one of their males in June, 1974 and exchanged a female Snow Leopard for a male with Cincinnati Zoo. In early 1973 we ex-

changed Snow Leopards with Helsinki, Finland; we sent a Zoo-born female there, in return they sent one of their Zoo-born males here under Endangered Species Permit No. ES-324. I am happy to say that this male was the sire of the pair of animals under discussion in this application. It should be mentioned that this pair is therefore a full second generation birth.

Mr. John Aspinall became known to us in early 1973 from a notice in the *International Zoo News* stating his need for a breeding age male Gorilla. At that time he had eleven (11) Gorillas, but his male was not able to impregnate any of his females. An extensive correspondence ensued and one of the Chicago Park District Commissioners even inspected the facilities at Howletts and spent some time with Aspinall himself. He came away thoroughly satisfied that our animal would receive the optimum of care. (Commissioner Franklin Schmieck was extremely concerned about Gorillas and in fact donated five (5) of our present Gorilla group. He had been to Cameroon, West Africa to visit a Gorilla capture camp and personally pick out a Gorilla he wished to donate and, as might be expected, was not an easy man to please.)

We also contacted a number of Zoos in England regarding Mr. Aspinall and they reinforced the Commissioner's thoughts and what we ourselves had begun to feel, that Aspinall would do very well indeed by the animal. Taking all of this into consideration we decided to send the male Gorilla.

The arrangements were handled with great dispatch by Aspinall and his staff. As a direct consequence of this loan Mr. Aspinall visited the United States with a film of his Howletts facility. He showed this film to our Zoological Society, among others, and appeared on national television with it as well. Our consulting veterinarian, Dr. Erich Masohgan, and Head Primate Keeper, James Higgins, accompanied the Gorilla to England, at Mr. Aspinall's expense, and both were impressed with him and his entire operation. Howletts Zoo Park is owned entirely by Mr. Aspinall and the public is allowed to visit only a few days of the year. There seems to be no doubt that Aspinall is entirely devoted to his animals and the conservation movement as a whole. From everything we know about him we believe he spares no expense or trouble to further the comfort and breeding potential of his animals.

By his own admission, Aspinall has always had a special feeling for Snow Leopards. When he visited here earlier this year he was extremely pleased with the possibility we would even consider loaning a pair to him. After the successful Gorilla transaction, we decided he would do everything in his power to breed Snow Leopards.

The Snow Leopards will remain the property of Chicago Park District/Lincoln Park Zoo and the offspring will be equally divided between the two parties to the agreement. Please find appended a copy of the signed breeding loan agreement for the Gorilla loan. The Snow Leopard agreement will be exactly the same.

Mr. Aspinall owns and is developing two other animal facilities at the present time, Chilham Rare Animal Compound and Fort Lympne Estate. The latter will be open to the public. In 1974 he purchased and is now the owner/publisher of the *International Zoo News* the only international Zoo bulletin. Please find enclosed a copy of letters dated 18 November 1974 written by Mr. Aspinall and his secretary. It would seem salient here to point out that the Cats have done very well at Howletts. Bengal Tigers have bred well and they were the first to breed the Siberian sub-species in England. The most impressive breeding, however, is that of Clouded Leopards which has traditionally been a very

difficult species to breed and maintain in captivity. At present they have nine (9) living offspring along with the breeders who were the first to breed in England. *International Zoo Yearbook* Vol. 14 lists only Dublin, Ireland and Oklahoma City along with Howletts as having bred Clouded Leopards in 1972. More significantly, Howletts' were the only ones to survive.

After viewing Mr. Aspinall's film of his facilities and from personal discussions with him we all feel sure the Snow Leopards will be housed more than adequately. They will be maintained in a large outdoor cage similar to his successful Clouded Leopard areas. I have personally seen these areas in his film and although I cannot state exact dimensions they are bigger than any area I have seen in any Zoo keeping Clouded Leopards. There will be indoor dens although they will probably only be needed for cubbing since the weather there is not as severe as Chicago winters or summers and we house ours outside all year with only a wooden box for shelter.

In June, 1968 the IUCN listed the Snow Leopard as endangered stating that a rough working estimate for their numbers in the wild would be 400, give or take 200. In an updating of Snow Leopard information and status in 1972 the Snow Leopard is still red-sheeted in the IUCN data book. In this 1972 update no figures are given as to total numbers, but throughout its entire range the animal is severely threatened and under severe hunting pressure in most areas. Skins are still being offered for sale in various areas and it is interesting to note that Naumann & Nogge (1973) saw skins for sale at the Bazaar in Kabul, Afghanistan. Animals are still being exported from Russia as well. In a letter dated August 13, 1974 to the then Snow Leopard studbook keeper, Mr. Marvin Jones, the German animal dealer, Claus Golembek, reported that he delivered a pair of Snow Leopards to the Hannover Zoo, West Germany in January, 1974 and a single female to the Zurich Zoo, Switzerland in April, 1974.

These three animals were legally obtained by this dealer from the Russian government. In all probability they were wild caught animals. While the situation in the wild continues to be grim, the situation in captivity continues to brighten. At one time only 6% of Snow Leopards living in captivity were born there, but as of 1972 a full 35% were captive born. An increase of 29% in 10 years. Equally important, if not more so, are the second generation births at, at least, the Lincoln Park, Oklahoma City, Bronx, and Helsinki, Finland zoos.

Lincoln Park Zoo has had a total of 32 Snow Leopards born between 1960 and 1974 and because of this great number has had more experience with Snow Leopards than any other Zoo with the possible exception of Helsinki, Finland. All of our expertise will be made available to Mr. Aspinall and his staff. Find appended to this application a copy of a paper accepted for publication in *International Zoo Yearbook* Vol. 15, which summarizes our knowledge and experience of Snow Leopards. Mr. Aspinall also plans another trip to the United States in 1975 and we will consult with him at that time, as well.

The continuation of proper management of captive Snow Leopard stock is imperative and the dispersal, on loan, of this pair of Snow Leopards to Howletts is consistent with our philosophy and management policies at Lincoln Park Zoo. After a great deal of consideration we feel that Mr. Aspinall will make every effort to propagate and maintain these animals. He already has demonstrated his ability with other species of *Felidae* and

cooperates with other institutions as can be seen by items IV-V on page 2 of his appended animal inventory. The Siberian Tigers are registered in the studbook and there is no reason to believe he would not do so with the Snow Leopards. It should also be pointed out that since Lincoln Park Zoo now keeps the Snow Leopard studbook we would be in an excellent position to keep track of these animals.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Sincerely yours,

SAUL L. KITCHENER,  
Assistant Director.

1 LYALL STREET LONDON SW1X 8DW

TELEPHONE: 01-235 5100

Mr. SAUL L. KITCHENER,  
Assistant Director,  
Lincoln Park Zoological Gardens,  
100 West Webster, Chicago, Illinois 60614

NOVEMBER 18, 1974.

DEAR MR. KITCHENER: That you for your letter of 8th November and for all the documentation you kindly enclosed which I certainly hope will satisfy the authorities over here, with regard to the import of 1/1 Snow Leopard.

I hope that the letter Mr. Aspinall has written to you, which is enclosed, will suffice. The only information I can add to what he has already said, is that Howletts was the first zoo in Great Britain to breed Clouded Leopards, the first zoo to breed Siberian Tigers in this country (all of which are studbook registered in Leipzig), and the first zoo to successfully breed the Honey Badger, in the world.

Yours sincerely,

MISS SUSAN HUNT,  
Secretary to Mr. John Aspinall.

1 LYALL STREET, LONDON SW1X 8DW, ENGLAND

Mr. SAUL L. KITCHENER,  
Assistant Director,  
Lincoln Park Zoological Gardens,  
100 West Webster,  
Chicago, Illinois 60614.

NOVEMBER 18, 1974.

DEAR SAUL: Please use the following information in the light of a testimonial with reference to our ability to look after 1/1 Snow Leopard which Lincoln Park has offered on loan to Howletts Zoo Park:

From an input of 8 Indian Tigers we have bred 37: the colony at the moment stands at 27 (12 of these we have bred this year). From 4 different females, our Siberian Tiger colony has had an input of 7 and now stands at 15, (4 having been bred this year). The Clouded Leopard colony has had an input of 2 and now stands at 11 (0/2 being bred this year, 0/1 of which is designated to yourselves and will be sent over at your request), these 2 females are now over 6 months old. We also have a breeding pair of Black Leopards. Our other cats are, as yet, too young to breed and consist of 1/1 Spotted Leopard, 1/1 Serval Cat and 1/1 Northern Lynx. The only adult group we have not yet bred suc-

cessfully are the Cheetahs, but we are now arranging three different enclosures for them so we can separate the females from the males on the pattern of Victor Manton who has bred them successfully in this country, at Whipnade.

Enclosed is an up to date stock list which gives an indication of the animals we breed successfully at Howletts.

Yours sincerely,

JOHN ASPINALL.

LINCOLN PARK ZOOLOGICAL GARDENS

BREEDING LOAN AGREEMENT BETWEEN CHICAGO PARK DISTRICT AND MR. JOHN ASPINALL/HOWLETT'S ZOO PARK

OCTOBER 17, 1973.

The above parties to this agreement agree to the following concerning the loan of an adult male Lowland Gorilla (*Gorilla g. gorilla*) named Kisoro, age 13 years.

The Chicago Park District will loan Kisoro to Mr. Aspinall for the sole purpose of captive animal propagation at Howletts' Zoo Park. Mr. Aspinall agrees to provide all the necessary housing, food and veterinary care to the best of his ability.

While it is not practical to set a proper monetary value on an adult male breeding gorilla, we request that Mr. Aspinall insure Kisoro for \$10,000 U.S. Mr. Aspinall will furnish Chicago Park District proof of insurance coverage of \$10,000 U.S. before Kisoro is shipped to England. The insurance will cover the period of transit, as well as the duration of Kisoro's stay in England. Mr. Aspinall also agrees that he will assume all liability should any person be injured or property damaged by Kisoro while the animal is under his care. The Chicago Park District will, therefore, be free of any liability for Kisoro's actions under this loan agreement.

The cost of crating and shipping Kisoro to England will be borne by Mr. Aspinall. He will also be responsible for the cost of returning Kisoro to Chicago when and if this becomes necessary.

Due to the value of this animal adequate personnel should accompany the shipment of Kisoro to England, as well as his return to the United States, cost to be borne by Mr. Aspinall.

If any young are born between the Chicago Park District male and Aspinall's females, the offspring will be equally divided between the Chicago Park District and Mr. Aspinall, with the Chicago Park District receiving the first offspring. An attempt will be made by both parties to have each party to the agreement receive an equitable division of sexes of the young.

There will be a continued evaluation of this agreement by both parties especially related to the amount of time Kisoro will spend in England.

If for any reason this animal is offered for sale during its stay in England, Mr. Aspinall will have the first option to buy.

The agreement can be terminated by either party upon service to the other, with a minimum notice of ninety (90) days.

LESTER E. FISHER, D.V.M.,  
Chicago Park District, Zoological  
Gardens Director, Lincoln Park  
Zoo.

JOHN ASPINALL,  
(Owner),  
Howlett's Zoo Park.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the

Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FWS/LE), Fish and Wildlife Service, Post Office Box 19183, Washington, D.C. 20036. All relevant comments received on or before February 24, 1975, will be considered.

Dated: January 21, 1975.

NATIONAL CAPITAL PARKS

Authorization of Additional Interpretive Visitor Transportation Services

Pub. L. 93-62 (Act of July 6, 1973, 87 Stat. 146), directed the Secretary of the Interior to provide interpretive visitor transportation services between or in Federal areas within the District of Columbia and its environs upon the determination that such services are desirable to facilitate visitation and to insure proper management and protection of these areas.

Pursuant to this authority, it has been determined that providing interpretive visitor transportation service between the Mall and on the grounds of the Robert F. Kennedy Memorial Stadium is desirable to facilitate visitation and to insure proper management and protection of such areas. Therefore, notice is hereby given that, pursuant to the direction of Public Law 93-62 and the authority of the Act of July 25, 1916, as amended and supplemented (16 U.S.C. 1, et seq.), interpretive visitor transportation services are to be provided between the Mall and the grounds of the Robert F. Kennedy Memorial Stadium.

MANUS J. FISH, Jr.,  
Director, National Capital Parks.

Office of Hearings and Appeals

[Docket No. M 75-81]

OLD BEN COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301 (c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 816(c) (1970), Old Ben Coal Company has filed a petition to modify the application of 30 CFR 75.1405 to its Dixiana Mine, Norton, Virginia.

30 CFR 75.1405 provides:

All haulage equipment acquired by an operator of a coal mine on or after March 30,

1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states:

(1) All cars in use at the subject mine will be coupled together in units by pin-and-link couplers. A 1/4 inch hole will be drilled in each pin which will be fixed in position with a cotter key of appropriate size.

(2) The front end of the first car and the locomotive will be fitted with an Ohio Brass automatic coupler so designed as to permit an employee to couple or uncouple the units without the necessity of positioning himself between the unit and the locomotive.

(3) It is presently planned that most, if not all mine car units will consist of ten cars per unit. However, in the event it becomes more practical to combine cars into units of more or less than ten cars, each unit will conform to the specifications of pin-and-link couplers on all cars and automatic coupler on the front end of the car connected to the locomotive.

(4) Petitioner's alternate method will provide greater safety than the application of the mandatory safety standard because it will prevent the accidental uncoupling of cars which often occurs on undulating track.

The petition is supported by a schematic diagram detailing the specifications for the fixation of the pins in the pin-and-link couplers.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before February 24, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

Dated: January 16, 1975.

JAMES R. RICHARDS,  
Director, Office of Hearings and Appeals.

Office of the Secretary

OIL SHALE ENVIRONMENTAL ADVISORY PANEL

Notice of Meeting

Notice is hereby given in accordance with Pub. L. 92-463 that a meeting of the Oil Shale Environmental Advisory Panel will be held on February 13 and 14, 1975, at the Ramada Inn, 999 South Main Street, Salt Lake City, Utah. The meeting will begin at 10 a.m. on Thursday, February 13, in the Alta Room No. 1 and

conclude at 12 noon on Friday, February 14.

The Panel was established to assist the Department of the Interior in the performance of functions in connection with the supervision of oil shale leases issued under the Prototype Oil Shale Leasing Program. The purpose of the meeting is to review a proposal to stimulate insitu oil shale development; review the first quarterly environmental data reports for the Colorado Lease Tract C-b and for the two Utah lease tracts; review a proposed fish and wildlife management plan for the Utah lease tracts; to receive reports from departmental officials; have a technical briefing on the Uintah Basin tar sands; and to discuss other oil shale related matters.

The meeting is open to the public. It is expected that space will permit approximately 100 persons to attend the meeting in addition to the Panel. Interested persons may make brief presentations to the Panel or file written statements. Requests should be made to Mr. William L. Rogers, Chairman, Office of the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver, Colorado 80225.

Further information concerning this meeting may be obtained from Mr. Henry O. Ash, Office of the Oil Shale Environmental Advisory Panel, Room 820-A, Building 67, Denver Federal Center, Denver, Colorado 80225, telephone (303) 234-3275. Minutes of the meeting will be available for public inspection 30 days after the meeting at the Panel Office.

Dated: January 20, 1975.

JACK HORTON,  
Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Rural Electrification Administration

DAIRYLAND POWER COOPERATIVE, WIS.  
Supplemental Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration intends to prepare a supplemental draft environmental impact statement specifically detailing certain items not adequately discussed or which have been changed from the draft environmental impact statement which was made available to the Council on Environmental Quality and the public on July 2, 1974. The original draft environmental impact statement was prepared in connection with a proposed loan guarantee for Dairyland Power Cooperative, 2615 East Avenue, South, LaCrosse, Wisconsin 54601, to provide for new generation facilities and related transmission facilities to be located near Alma, Wisconsin.

The proposed supplemental draft environmental impact statement will detail

a proposed 46 mile-161 kV transmission line addition from Alma, Wisconsin to Spring Valley, Wisconsin. The supplement will also detail the alternative of barge delivery of coal to the proposed plant site, the alternative of cooling towers discussed in more detail and the acquisition of certain land for a proposed ash pond and railroad loop coal delivery system. The land under question is presently owned by the Federal Government and is within the boundaries of the Upper Mississippi River National Wildlife and Fish Refuge.

Interested persons are invited to submit comments which may be helpful in preparing the supplemental Draft Environmental Impact Statement.

Comments should be forwarded to the Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, with a copy to the borrower whose address was given above.

Additional information may be obtained at the borrower's office during regular business hours.

Dated at Washington, D.C. this 17th day of January 1975.

DAVID H. ASKEGAARD,  
Acting Administrator.

UPPER MEDICINE CREEK WATERSHED, NEBR.

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b) (3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Upper Medicine Creek Watershed, Hayes, Lincoln, and Frontier Counties, Nebraska.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Willson J. Parker, State Conservationist, Soil Conservation Service, USDA, 134 South 12th Street, Lincoln, Nebraska 68508, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The remaining planned works of improvement include conservation land treatment supplemented by four single purpose flood-water retarding structures.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA  
134 South 12th Street, Room 604  
Lincoln, Nebraska 68508

Requests for the negative declaration should be sent to the above address.

No administrative action on imple-

mentation of the proposal will be taken until after February 10, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: January 17, 1975.

WILLIAM B. DAVEY,  
Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

ADVISORY COMMITTEES

Meetings

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776; 5 U.S.C. App. D), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a)(1) and (2) of the act:

Committee name	Date, time, place	Type of meeting and contact person
1. Panel on Review of Miscellaneous External Drug Products.	February 23 and 24, 9 a.m., Conference Room J, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed February 23, open February 24, 9 a.m. to 10 a.m., closed February 24 after 10 a.m., Armond M. Welch, (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

**Purpose.** Reviews and evaluates available data on the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing miscellaneous external drug products.

**Agenda.** Open session: Comments and presentations by interested persons. Closed session: Review of over-the-counter miscellaneous external drug products under investigation.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Miscellaneous Internal Drug Products.	February 23 and 24, 9 a.m., Conference Room O, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Closed February 23, open February 24, 9 a.m. to 10 a.m., closed February 24 after 10 a.m., Thomas D. DeCillis, (HFD-109), 5600 Fishers Lane, Rockville, Md. 20852, 301-443-4960.

**Purpose.** Reviews and evaluates available data on the safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing miscellaneous internal drug products.

public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

**Agenda.** Open session: Comments and presentations by interested persons. Closed session: Review of over-the-counter miscellaneous internal drug products under investigation.

Agenda items are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided for this type of dis-

discussion to remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regu-

latory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b), which contains the exemptions from the public disclosure requirements of the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552(b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: January 17, 1975.

A. M. SCHMIDT,  
*Commissioner of Food and Drugs.*

**E. I. DUPONT DE NEMOURS & CO.**  
Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b) (5), 72 Stat. 1786; 21 U.S.C. 348(b) (5)), notice is given that a petition (FAP 5B3066) has been filed by the E. I. DuPont de Nemours & Co., Wilmington, DE 19898, proposing that § 121.2502 *Nylon resins* be amended to provide for the safe use of nylon 612 resins made by the condensation of hexamethylenediamine and dodecanedioic acid as a component of food contact articles intended for repeated use.

The environmental impact analysis report and other relevant material have been reviewed, and it has been determined that the proposed use of the additive will not have a significant environmental impact. Copies of the environmental impact analysis report may be seen in the office of the Assistant Commissioner for Public Affairs, Rm. 15B-42 or the office of the Hearing Clerk, Food and Drug Administration, Rm. 4-

65, 5600 Fishers Lane, Rockville, MD 20852, during working hours, Monday through Friday.

Dated: January 13, 1975.

**RADIATION EMISSION FROM AND HUMAN EXPOSURE TO ELECTRONIC PRODUCTS**

**Memorandum of Understanding Between the United States of America and Canada**

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) that future agreements or memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs issues the following notice:

A Memorandum of Understanding between the Food and Drug Administration and the Health Protection Branch of the Canada Department of National Health and Welfare was executed on December 16, 1974. The memorandum pertains to exchange of information on compliance program efforts that are of mutual concern to both agencies and is restricted to activities that involve controlling radiation emission and human exposure from electronic products. It reads as follows:

**MEMORANDUM OF UNDERSTANDING BETWEEN THE FOOD AND DRUG ADMINISTRATION DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, U.S.A. AND THE HEALTH PROTECTION BRANCH DEPARTMENT OF NATIONAL HEALTH AND WELFARE, CANADA**

The Health Protection Branch of the Canada Department of National Health and Welfare (hereinafter referred to as HPB) and the Food and Drug Administration of the U.S. Department of Health, Education, and Welfare (hereinafter referred to as FDA) do hereby jointly agree to the following terms and conditions as stated herein.

**I. Purpose:** To establish a formal mechanism by which the Canadian Health Protection Branch and the U.S. Food and Drug Administration may develop a procedure to exchange information on compliance program efforts which are of mutual concern to both agencies. This understanding is restricted to those activities which involve controlling radiation emission and human exposure from electronic products.

**II. Items of Agreement.** A. FDA agrees that:

1. Prior to the issuance of standards by FDA under the Radiation Control for Health and Safety Act to control the emissions of radiation from electronic products, HPB will be consulted during the development stage of the standards, for advice on the latest available scientific and medical data in the field of electronic product radiation, the reasonableness and technical feasibility of such standards, and the standards currently in existence or being developed by HPB dealing with the same subject.

2. Copies of all regulations, standards, policy statements, and other similar documents pertaining to electronic product radiation will be provided to HPB.

3. Upon request from HPB, FDA will promptly furnish copies of decisions arising from inspections of manufacturers of electronic products prepared by FDA personnel.

4. Joint inspections of electronic product manufacturing plants may be conducted in the United States and Canada, provided the manufacturers so consent. This will afford opportunities for comparing inspection and reporting techniques, for exchanging inspection experiences, for developing common administrative practices, and for early mutual recognition of the inspectional findings of our respective inspectors and investigators.

5. FDA shall endeavor to provide prompt notification to HPB with respect to electronic product defects and noncompliance with FDA performance standards. This will include the name of the firm, the model number and other identification, the reason for the compliance action and a description of the manufacturer's corrective action program.

6. At appropriate intervals, and by mutual agreement, FDA will endeavor to arrange for meetings between its inspectors, technical experts, and management, and those of HPB for the purpose of reviewing the progress made through implementation of this information exchange.

7. Information shall be provided to the extent that United States law permits. Information furnished to FDA by HPB will be treated as confidential for interagency use only insofar as United States law permits. The provision of information shall not extend to the disclosures of financial data or trade secrets.

B. HPB agrees that:

1. Prior to the establishment of standards or regulations under the Radiation Emitting Devices Act or the Food and Drugs Act relative to radiation emitting devices, FDA will be consulted during the development stage for advice on the latest available scientific and medical data in the field of radiation emitting devices, and reasonableness and technical feasibility of such standards, and the standards currently in existence or being developed by FDA dealing with the same subject.

2. Copies of all regulations, standards, policy statements, and other similar documents pertaining to radiation emitting devices will be provided to FDA.

3. Upon request from FDA, HPB will promptly furnish copies of decisions arising from inspections of manufacturers of radiation emitting devices prepared by HPB personnel.

4. Joint inspections of radiation emitting devices' manufacturing plants may be conducted in the United States and in Canada, provided the manufacturers so consent. This will afford opportunities for comparing inspection and reporting techniques, for exchanging inspection experiences, for developing common administrative practices, and for early mutual recognition of the inspectional findings of our respective inspectors and investigators.

5. HPB shall endeavor to provide prompt notification to FDA with respect to radiation emitting device defects or noncompliance with Canadian performance standards.

6. At appropriate intervals, and by mutual agreement, HPB will endeavor to arrange for meetings between its inspectors, technical experts, and management, and those of FDA for the purpose of reviewing the progress made through implementation of this information exchange.

7. Information shall be provided to the extent national legislation permits. The provision of information will not extend to the disclosure of financial data or trade secrets.

**III. Name and Address of Participating Agencies.**

Health Protection Branch, Health and Welfare of Canada, Brookfield Rd., Ottawa, Canada K1A 1C1.

Food and Drug Administration, Department of Health, Education, and Welfare, 6600 Fishers Lane, Rockville, MD 20852.

**IV. Liaison Officers.**

A. Mr. G. E. MacDonald (613-995-7059), Chief, Compliance Services, Environmental Health Directorate, Health Protection Branch.

B. Mr. Robert G. Britain (301-443-4016), Director, Division of Compliance, Bureau of Radiological Health, Food and Drug Administration.

**V. Period of Agreement.** This Memorandum of Understanding shall continue in effect unless modified by mutual consent of both parties or terminated by either party upon thirty (30) days advance written notice to the other.

This Memorandum of Understanding does not modify existing agreements nor does it preclude entering into separate agreements setting forth procedures for special programs which can be handled more efficiently and expeditiously by special agreement.

Nothing in this agreement is intended to diminish or otherwise affect the authority of

either agency to carry out its respective statutory functions.

Date: December 16, 1974.

ALEXANDER M. SCHMIDT,  
Commissioner, Food and Drug Administration, Department of Health, Education, and Welfare.

Date: December 16, 1974.

A. B. MORRISON,  
Assistant Deputy Minister, Health Protection Branch, Canada Department of National Health and Welfare.

Effective date. This Memorandum of Understanding became effective on December 16, 1974.

Dated: January 16, 1975.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

**SANITARY QUALITY OF FROZEN FROG LEGS EXPORTED TO THE UNITED STATES OF AMERICA**

Agreement Between the Export Inspection Council, Ministry of Foreign Trade, India and the Food and Drug Administration

Pursuant to the notice published in the FEDERAL REGISTER of October 3, 1974 (39 FR 35697) that future agreements or memoranda of understanding between the Food and Drug Administration and others would be published in the FEDERAL REGISTER, the Commissioner of Food and Drugs gives notice that an agreement was approved and accepted by the Food and Drug Administration and the Export Inspection Council, Ministry of Foreign Trade, India on January 13, 1975. This agreement, which provides for control of the sanitary quality of frozen frog legs exported from India to the United States, reads as follows:

**MEMORANDUM OF UNDERSTANDING BETWEEN FOOD AND DRUG ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, UNITED STATES OF AMERICA AND THE EXPORT INSPECTION COUNCIL, MINISTRY OF FOREIGN TRADE, INDIA**

This Memorandum of Understanding has been developed and agreed to by the respective agencies to control the sanitary quality of frozen frog legs exported to the United States of America.

For purposes of this Memorandum, both parties agree to the following terms:

**Lot.** A lot is a quantity of frozen frog legs produced during a discrete period of time, by one manufacturer, packaged in identical containers identified by a code or mark traceable to the manufacturer and sealed in such a manner as to maintain integrity of the lot.

**Salmonella- and Arizona-negative.** Microbiological examination for the presence of *Salmonella* and *Arizona* will be conducted as follows: Place 15 pairs of frog legs into a flask containing 3,500 milliliters of broth. When single legs are estimated to average 25 grams or more, modify by culturing only one leg of each of the 15 pairs. Shake the flasks on a shaker for 15 minutes following which the lactose broth is decanted into another sterile flask and incubated at 35° C

for more than 24 hours. Following incubation, proceed according to "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th ed. (1970).<sup>1</sup>

#### THE EXPORT INSPECTION COUNCIL

1. The Export Inspection Council agrees to inspect each lot of frozen frog legs produced in this country and offered for export to the United States of America to assure that it is negative for *Salmonella* and *Arizona* based upon examination of sample units consisting of 15 pairs of frog legs and analyzed by methods prescribed in the above paragraph, "*Salmonella* and *Arizona*-negative."

2. The Export Inspection Council agrees to issue an export certificate for only those lots which meet the criteria of paragraph 1. Any lot which fails to meet such criteria will be denied export to the United States of America.

3. The Export Inspection Council agrees to require that all containers of all lots exported to the United States of America be identified by lot number, together with all other information required by the Federal Food, Drug, and Cosmetic Act.

4. The Export Inspection Council agrees to include in the certificate for each lot exported to the United States of America the following information:

- a. Lot identification.
- b. Number and size of containers in the lot.
- c. Analytical results for *Salmonella* and *Arizona*.
- d. Date.
- e. Name and stamp or seal of authorizing official.

5. The Export Inspection Council agrees to furnish to the Food and Drug Administration a copy of the regulations and procedures used to assure that frozen frog legs are sanitary.

6. The Export Inspection Council agrees to furnish to the Food and Drug Administration a full description of the manufacturing processes and quality controls used to assure the production of sanitary frozen frog legs.

#### FOOD AND DRUG ADMINISTRATION

1. The Food and Drug Administration is responsible for the safety and quality of frozen frog legs imported into this country for human consumption.

2. The Food and Drug Administration will sample products certified under this program to assure that the exporting country and the exported products comply with specifications set forth in this Memorandum of Understanding and all other requirements of the Federal Food, Drug, and Cosmetic Act. The intensity of sampling may be reduced on gaining confidence in the compliance of the product to these specifications.

3. The Food and Drug Administration will share information about its audit sampling with the exporting country.

4. The Food and Drug Administration will share expertise and will provide consultative assistance to the exporting country when necessary to assure the safety of the frozen frog legs exported to the United States.

The Export Inspection Council and the Food and Drug Administration agree that this Memorandum of Understanding shall become effective on the date it is signed by the Food and Drug Administration. It shall remain in effect, and govern all frozen frog legs exported to the United States of America

<sup>1</sup> Copies may be obtained from:

#### DEANOL ACETAMIDOBENZOATE

Opportunity for Hearing on Proposal to Withdraw Approval of New Drug Application

#### Correction

In FR Doc. 75-521, appearing at page 1533 of the issue for Wednesday, January 8, 1975, the following corrections are made:

1. On page 1533, column 3; the eighth line from the bottom, the section number reading "314.11" should read "314.111".
2. On page 1534, column 1, the seven-teenth line from the top, the word "parent" should read "parent".

Office of the Assistant Secretary for Health

#### NATIONAL COMMISSION FOR THE PROTECTION OF HUMAN SUBJECTS

#### Meeting and Hearing

Notice is hereby given that the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research will meet on February 14 and 15, 1975 in Conference Room 6, C Wing, Building 31, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014. The meeting will convene at 9 a.m. both days and will be open to the public, subject to the limitation of available space. The meeting on February 14 will be open for presentation by the public of views on research on the fetus. In addition, the Commission will examine issues involved in research on the fetus and, time permitting, other items of its legislative mandate set forth in P.L. 93-348.

The deadline for requests to participate in the hearing on February 14 has been extended by the Commission from January 9 to January 31, 1975. It should be noted that this is the only hearing scheduled by the Commission to hear the views of members of the public regarding research on the fetus. Any person wishing to speak on February 14 must file a written request prior to the deadline and

receive approval from the Commission. A request to participate must include a detailed summary of the proposed presentation; oral presentation shall be limited to 10 minutes for each participant. Requests should be addressed to:

Staff Director, National Commission for the Protection of Human Subjects, Westwood Building, Room 125, 9000 Rockville Pike, Bethesda, Maryland 20014.

Requests for information should be directed to Ms. Anne Ballard at the address given above. Telephone number (301) 496-7526.

Dated: January 15, 1975.

CHARLES U. LOWE,  
Executive Director, National  
Commission for the Protection  
of Human Subjects of Biomedical and Behavioral Research.

#### Office of Education

#### INDIAN ELEMENTARY AND SECONDARY SCHOOL ASSISTANCE

Extension of Closing Date for Receipt of Applications

Notice is hereby given that the U.S. Commissioner of Education has extended the February 15, 1975 closing date for receipt of applications for support of schools located on or near a reservation which are non-local educational agencies as well as local educational agencies which have been local educational agencies for less than three years under section 303(b) of the Indian Elementary and Secondary School Assistance Act, Title III of P.L. 81-874, as added by Title IV, Part A of Public Law 92-318 (20 U.S.C. 241aa-241ff), and Title VI, Part C of Pub. L. 93-380, previously published in the FEDERAL REGISTER at 40 FR 1535 on January 8, 1975, to February 18, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, S.W., Washington, D.C. 20202, Attention: 13.551. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidence by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education,

and Welfare, or the U.S. Office of Education).

**B. Hand delivered applications.** An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional-Office Building Three, 7th and D Streets SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

**C. Program information and forms.** Information and application forms may be obtained from: Program Manager, Part A, U.S. Office of Education, Office of Indian Education, Room 3662, Regional Office Building Three, 400 Maryland Avenue SW., Washington, D.C. 20202.

**D. Applicable regulations.** The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR 100a) and 45 CFR Part 186, published in the FEDERAL REGISTER on June 24, 1974 at 39 FR 22424.

## HEALTH RESOURCES ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority Amendments

Part 7 (Health Resources Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (39 FR 1456, January 9, 1974), is amended to reflect the following changes under section 7-B:

**Organization and Functions.** 1. Delete the title and statement for *Office of Management (7A19)*, and substitute the following:

**Office of Operations and Management (7A19).** (1) Serves as the Administrator's principal staff for providing Administration-wide leadership in all phases of management and for direct conduct or general supervision of Administration-wide operational functions; (2) directs and coordinates the Administration's activities in the areas of management policy, operational planning, systems management, financial management, procurement and materiel management, grants management, and personnel management; (3) advises the Administrator on management implications of Administration plans and programs; (4) provides staff support and facilities for advisory councils, conferences, and meetings; (5) collaborates with the Office of Planning, Evaluation, and Legislation in the development and implementation of

the five-year program and financial plan for the Administrator; (6) provides facility and space management services for Administration field elements and directs the Agency's safety management program; (7) coordinates Agency programs with PHS Regional Office functions by providing liaison to the Office of Regional Operations, PHS; and (8) directs data systems management and the Agency's management information support systems.

2. *Within the National Center for Health Statistics (7B00), the Office of the Center Director (7B01)* is amended by replacing the current statement for that office and adding statements for its newly created staff offices as follows:

**Office of the Center Director (7B01).**

(1) Plans, directs, administers, coordinates and evaluates the total vital, health, and health related statistics programs of the Center; (2) stimulates basic and applied research and developmental activities; (3) provides national and international leadership in vital and health statistics; (4) conducts a variety of professional activities to provide assistance to government agencies, to foster international relationships, and to improve the broad fields of vital and health statistics; (5) coordinates the Center's activities with public and private health statistical agencies; (6) directs and coordinates Center activities in support of the Department's Equal Employment Opportunity program; (7) provides management and administrative support for the Center; (8) provides program planning and development for the Center; and (9) develops and coordinates legislative activities.

**Office of Program Support (7B02).** (1) Plans, directs, administers, coordinates and evaluates the Center's fiscal, management, and administrative support activities; (2) develops, analyzes, improves and implements internal management policies, methods and procedures; (3) in cooperation with the Division of Financial Management, HRA, provides financial guidance and information to NCHS program managers in the operation of the Center's financial management system, including program policy interpretation in budget formulation and execution, and preparation of program planning and budgetary support data; (4) coordinates the Center's contracts activities; (5) directs the Center's employee development and training activities; (6) advises the Center Director on administrative policy matters affecting the Center's programs; and (7) maintains close liaison with the Office of the Associate Administrator for Operations and Management, HRA, and with other governmental agencies, and outside groups.

**Office of International Statistics (7B03).** (1) Plans, directs, coordinates and evaluates the Center's international statistical programs; (2) plans and conducts training programs in vital and health statistics for foreign statisticians and demographers; (3) determines needs for technical assistance in various foreign

countries and arranges for consultants and advisors to provide such assistance; (4) stimulates Center professional staff to conduct research in vital and health statistics in foreign countries; (5) develops and maintains an international statistical data file and conducts international studies of demographic and health statistics; (6) provides advice and guidance on disease classifications and disease classification problems in the Center; coordinates activities within the Center on classification of diseases and procedures; and has responsibility for development of revision proposals and U.S. position on decennial revisions of the International Classification of Diseases; (7) provides an Executive Secretary for the U.S. National Committee on Vital and Health Statistics; and (8) maintains liaison with key officials in HRA, the Department and international agencies on requests for data and consultant services.

**Office of Program Development (7B05).**

(1) Provides a focus for short- and long-range program planning, coordination, and evaluation of the adequacy and completeness of new and existing programs in meeting the Center's mission; (2) serves as liaison with organizations planning or conducting new initiatives in Federal health statistics; (3) provides staff advice on the development of new health statistics programs based on assessment of emerging needs; (4) in collaboration with the Associate Director for Management, translates planning into program and budget proposals for Center operations; (5) assists the Center Director in the assessment of program accomplishments through a program review process; (6) develops and coordinates the Center's legislative activities; (7) administers a program of project review as required by the Federal Reports Act, including official bureau clearance officer responsibilities; (8) serves as the Center coordinator for interdisciplinary and interprogram activities; (9) provides liaison with counterparts at higher levels; and (10) provides support services for the Center's conferences, advisory committees, and other advisory groups.

**Office of Statistical Research (7B07).**

(1) Provides general direction to and coordinates the Center's statistical research program; (2) plans and budgets Center-wide research activities; (3) stimulates research in the Center, and maintains close communication with research statisticians in universities and in private and governmental organizations; (4) conducts a program of basic measurement research and long-range applied research in statistical methodology; (5) promotes the publication and dissemination of statistical research findings; and (6) provides technical assistance to the Center Director in methodological matters.

Dated: January 17, 1975.

THOMAS S. McFEE,  
Acting Assistant Secretary for  
Administration and Management.

Federal Aviation Administration

**UNITED STATES TERMINAL INSTRUMENT  
PROCEDURES (TERPS) ADVISORY  
COMMITTEE**

**Notice of Meeting**

Pursuant to section 10(a) (2) of Pub. L. 92-463, notice is hereby given that the United States Terminal Instrument Procedures (TERPS) Advisory Committee will hold a meeting beginning at 9 a.m., e.s.t., March 3 through 7, in Rooms 6A, B, C, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. The following agenda item is scheduled for this meeting:

*Discussion.* Preparation of final draft for publication in the United States Standards for Terminal Instrument Procedures (TERPS) Handbook 8260.3A.

a. New Chapter 12, Departure Procedures.

b. Major revisions of the nonprecision instrument approach criteria.

c. Minor editorial changes to the entire handbook.

All those interested in attending the meeting should contact James A. Forgas, Chief, Flight Procedures Standards Branch, AFS-460, 800 Independence Avenue SW., Washington, D.C. 20591, telephone 202-426-8144. The meeting will be open to the public.

Issued in Washington, D.C. on January 16, 1975.

**JAMES A. FORGAS,**  
*Chairman, U.S. Terminal  
Instrument Procedures  
(TERPS) Advisory Committee.*

**National Highway Traffic Safety  
Administration**

[Docket No. EX 74-6; Notice 2]

**VINTAGE REPRODUCTIONS, INC.**

**Petition for Temporary Exemption from  
Federal Motor Vehicle Safety Standards**

The National Highway Traffic Safety Administration has decided to grant Vintage Reproductions, Inc. an exemption of its 1900 Series Horseless Carriages from many Federal motor vehicle safety standards on grounds of substantial economic hardship.

Notice of petition for the exemption was published in the FEDERAL REGISTER on October 22, 1974 (39 FR 37526) and an opportunity afforded for comment. Vintage, of Fort-Lauderdale, Florida, produces replicas of the 1901 Ford Run-about and several different 1901 Olds passenger cars and truck body types. The company requested exemption from the following safety standards applicable to passenger cars or trucks: 101, 102, 103, 104, 105, 106, 108, 109, 110, 111, 114, 115, 124, 201, 202, 203, 204, 207, 208, 210, 212, 215, 216, 301, and 302. The vehicles apparently will comply with Standards Nos. 107, 113, 205, and 211. The basic reason behind the request, described more fully in Notice 1, is that most safety standards are not "reasonable, practic-

able, or appropriate" for the configuration of 1901-style vehicles.

In support of its petition the company argued that its vehicles would not present a significant hazard to traffic safety. In two years of production the company manufactured 199 vehicles and intends to manufacture not more than 900 units before terminating production. The overall concept of the vehicle is such, argues the company, that its appeal is primarily for occasional, limited use (e.g. auto shows, resorts) rather than for extensive use on the public roads. The company has 20 full-time employees and had a net loss of \$142.75 in the 12-month period ending April 30, 1974. Compliance with standards for which exemption is sought would involve substantial costs and, in the opinion of the company, destroy the character and hence the sales appeal of the vehicle.

No comments were received on the petition. The NHTSA concurs with the company's assessment that conformance would be costly and risky to the short term future of the company, and accepts its assessment that the effect of a denial would cause a loss of over \$60,000 in the year following it.

In reaching a decision that an exemption would be in the public interest, the Administrator has balanced the intent of Congress in providing temporary hardship exemptions to limited-production manufacturers against the need for traffic safety. While the manufacturer could produce as many as 30,000 units under a 3-year hardship exemption, it states that its intended production will not exceed 900. Many of the standards (e.g. 206, 214) are inappropriate for 1900-style vehicles that are open from the top and sides. Other standards, while appropriate (e.g. 109, 110), contain dimensional specifications outside the limits of 1900-style vehicles, making compliance impossible. Because of their small numbers and distinctive configurations, the Administrator does not believe that these vehicles will present a significant hazard to traffic safety.

The manufacturer has not shown that providing lap belts would create a hardship, and it thus is not exempted from that requirement of Standard No. 208.

For the reasons discussed above, the NHTSA finds that the exemptions requested are in the public interest and consistent with the objectives of the Act. Vintage Reproductions, Inc. is hereby granted NHTSA Temporary Exemption No. 74-6, expiring December 1, 1977, from the following motor vehicle safety standards: 101, 102, 103, 104, 105, 106, 108, 109, 110, 111, 114, 115, 124, 201, 202, 203, 204, 207, 208 (except for that portion of S4.1.2.3.2 that requires a Type 1 seat belt assembly at each designated seating position), 210, 212, 215, 216, 301, and 302.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.51)

Issued on January 21, 1975.

**NOEL C. BUFE,**  
*Acting Administrator.*

[FR Doc.75-2231 Filed 1-23-75;8:45 am]

**ACTION**

**FOSTER GRANDPARENT AND SENIOR  
COMPANION PROGRAMS**

**Eligibility Levels**

This notice revises the schedule of income eligibility levels for individuals and a family of two for the Foster Grandparent Program and the Senior Companion Program published in the FEDERAL REGISTER of November 4, 1974 (39 FR 39077). The figures increase the currently applicable guideline published by the Office of Economic Opportunity (OEO) by the 4.1 percent change in the Consumer Price Index during the four-month period of July 1974 through October 1974. The heading of the second column in the schedule has been changed from Couples to Family of Two to coincide with Census Bureau and OEO usage of terms. A third column, Family of Three, has been added to meet occasional needs therefor.

These ACTION programs are authorized pursuant to section 211 of the Domestic Volunteer Service Act of 1973, Pub. L. 93-113, 87 Stat. 402. Pursuant to section 421(4) of Pub. L. 93-113, 87 Stat. 414, the income eligibility levels are determined by the current applicable guideline published by the Office of Economic Opportunity, pursuant to section 625 of the Economic Opportunity Act of 1974, as amended (42 U.S.C. 2971(a)), and increased by the amounts individual states supplement the Federal Supplemental Security Income (SSI) Program. The states supplemental payments reflect the higher cost of living in the geographic area to be served by the project. Section 625 permits the OEO guideline to be adjusted for cost-of-living changes.

The income eligibility levels will be reviewed at least once a year, and similar schedules will be prepared to reflect any changes required as a result of that review.

Pursuant to section 420 of Pub. L. 93-113, this policy will become effective on January 23, 1975.

### CIVIL SERVICE COMMISSION FEDERAL EMPLOYEES PAY COUNCIL Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, February 19, 1975. This meeting will be held in room 5323 of the U.S. Civil Service Commission building, 1900 E. Street, NW., and will consist of continued discussions on the fiscal year 1976 comparability adjustment for the statutory pay systems of the Federal Government.

The Chairman of the U.S. Civil Service Commission is responsible for the making of determinations under section 10(d) of the Federal Advisory Committee Act as to whether or not meetings of the Federal Employees Pay Council shall be open to the public. He has determined that this meeting will consist of exchanges of opinions and information which, if written, would fall within exemptions (2) or (5) of 5 U.S.C. 552(b). Therefore, this meeting will not be open to the public.

For the President's Agent:

RICHARD H. HALL,  
Advisory Committee Management Officer for the President's Agent.

### COMMISSION OF FINE ARTS NOTICE OF MEETING

JANUARY 17, 1975.

The Commission of Fine Arts will meet on Wednesday, February 19, 1975 at 11:30 a.m. in the Commission offices at 708 Jackson Place, N.W., Washington, D.C. 20006 to discuss various public projects affecting the appearance of Wash-

ington, D.C. Inquiries regarding the agenda and requests to submit written or verbal statements should be addressed to Charles H. Atherton, Secretary, Commission of Fine Arts, at the above address.

CHARLES H. ATHERTON,  
Secretary.

### COUNCIL ON ENVIRONMENTAL QUALITY ENVIRONMENTAL IMPACT STATEMENTS List of Statements Received

Environmental impact statements received by the Council on Environmental Quality from January 13 through January 17, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is March 10, 1975. The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

#### DEPARTMENT OF AGRICULTURE

Contact: David Ward, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, (202) 447-3965.

#### FOREST SERVICE

##### Draft

Tongass N.F. Land Use Plan, Alaska, January 15: The statement concerns the implementation of a Land Use Plan prepared for the Tongass National Forest. The Plan divides the over 20 million acres into 13 planning units. Uses and activities include road building, timber harvesting, recreation development, mining, wildlife projects, off-road vehicle use, and others. A large acreage will remain roadless and undeveloped. (ELR Order No. 50076.)

South Fork Salmon River Planning Unit, Boise, Payette Valley Counties, Idaho, January 13: The statement concerns a planning unit containing 348,328 acres, approximately 246,000 of which are within Payette National Forest, 102,328 of which are within Boise National Forest, and 855 acres are in private ownership. The plan sets forth the allocation of lands to resource uses and activities. Minor adverse effects such as temporary air pollution due to burning of residual material after timber harvests are expected (50 pages). (ELR Order No. 50059.)

Siuslaw, Siskiyou, Umpqua N.F.'s, Supplement, Oregon and California, January 13: The statement supplements a final eis which was filed with CEQ on February 25, 1974, and refers to the use of herbicides on the three forests in forest management activities. The chemical agents to be used include 2,4-D, 2,4,5-T, 2,4,6-TP, Amitrole-T, atrazine, picloram, and dicamba. There will be impacts to non-target species and to wildlife. (ELR Order No. 50060.)

Timber Plan, Bighorn National Forest, Wyoming, January 13: The statement refers to a proposed timber plan for the Bighorn National Forest. Over the next ten year pe-

riod, 68,300 acres (28 percent of the suitable and available forest land) will be subject to various timber management activities. The expected annual yield is 54.2 cunits, including 21.9 million board feet of saw timber. There will be impacts to soil, air, water, and visual qualities from timber cutting and the requisite road construction. (ELR Order No. 50067.)

##### Final

Silverleads Planning Unit, Salmon N.F., Lemhi County, Idaho, January 13: The statement refers to the 25,560 acre Silverleads Planning Unit, Lemhi County in the Salmon N.F. The planning area was divided into two management areas. The management areas are further divided into smaller segments called management units, which are separate parcels of land for which management requirements, protection needs, and resource uses are indicated. Adverse impacts will be to soil, water, vegetation, wildlife, scenic, livestock grazing, and roadless area values. Comments made by: AHP, USDA, DOI, EPA, State and local agencies. (ELR Order No. 50058.)

#### SOIL CONSERVATION SERVICE

##### Draft

West Fork of Bayou Lacassine Watershed, Jefferson Davis and Calcasieu Parishes, Louisiana, January 13: The statement refers to a watershed protection, flood prevention, and agricultural water management project. Project measures include 83 miles of channel works, land treatment measures, weirs, and pipe drops. There will be adverse impact to air and water quality, and to mature hardwood stands. (ELR Order No. 50066.)

North and South Mill Creek Subwatershed, Grant, Pendleton, Hardy Counties, West Virginia, January 17: Proposed is the construction of 5 single-purpose floodwater retarding dams and one multi-purpose floodwater retarding and recreation dam for purposes of flood control and recreation. The project will inundate 102 acres of farm land and 1.9 miles of stream (114 pages). (ELR Order No. 50090.)

#### ATOMIC ENERGY COMMISSION

Contact: For Non-Regulatory Matters: Mr. W. Herbert Pennington, Office of Assistant General Manager, E-201, AEC, Washington, D.C. 20545, (301) 973-4241. For Regulatory Matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, P-722, AEC, Washington, D.C. 20545, (301) 973-7373.

##### Draft

Plutonium Cardiac Pacemakers, January 10: The statement, a generic eis, refers to the proposed authorization of wide-scale use of plutonium powered pacemakers in cardiac patients. The statement outlines design and testing standards for pacemakers. Environmental impacts discussed include the possibility of plutonium release through accidental breach of the pacemaker, and the effects of exposure to the patient, those around him, and those involved in the handling and transport of the instrument. (ELR Order No. 50083.)

##### Proposed Final

The following statement, as the result of an agreement with CEQ and AEC is to be considered a proposed final. The commenting period on this statement is to be 60 (sixty) days, beginning with this FEDERAL REGISTER notice of availability (January 27, 1975).

Liquid Metal Fast Breeder Reactor, January 16: The statement refers to AEC's administrative action to continue the program to develop Liquid Metal Fast Breeder Reactor (LMFBR) technology. Consideration is given to all aspects of the environmental effects

of the LMFBR program, including the postulated nuclear breeder power reactor industry. The LMFBR is expected to have a higher thermal efficiency and lower radiological releases than the current light water plants. The environmental effects of the LMFBR fuel cycle, including fuel fabrication and reprocessing, waste management and transportation, are not expected to differ significantly from light water plants that have a similar uranium-plutonium fuel cycle (seven volumes). Comments made by: USDA, USCG, TVA, HEW, DOT, EPA, DOI, FPC, State and local agencies, and concerned citizens. (ELR Order No. 50089.)

## DEPARTMENT OF DEFENSE

## ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

## Draft

Mermemtau River-Gulf of Mexico Navigation Channel, Louisiana, January 13: Proposed is the maintenance dredging of the Mermemtau River-Gulf of Mexico Navigation Channel to its design cross section, 15 by 100 feet. Also included in the proposal are the maintenance of jetties at the entrance of the channel in the Gulf and the disposal of dredged materials in a manner that would least alter the existing ecological conditions and would create new tidal marsh. Annual dredging would result in destruction of benthic habitat and dredged material dumped on existing disposal banks would destroy vegetation and existing wildlife habitat. (ELR Order No. 50056.)

Yazoo River Basin Flood Control, several counties, Mississippi, January 14: Proposed is the construction of four large levees (already completed), channel modifications, drainage control structures, levees, floodwalls, and pumping plants for the purpose of flood control in the Yazoo River Basin. Previous attempts at channel improvement have resulted in siltation, bank caving, and deterioration of channel efficiency. Approximately 45,000 acres of woodlands, 42,000 acres of cleared lands, and 4,800 acres of channel area would be committed to the project (Vicksburg District). (ELR Order No. 50073.)

## Final

Nome Harbor and Seawall, Alaska, January 13: The statement refers to the maintenance and operation of the Nome Harbor and Seawall. Typical maintenance requires the annual dredging of 16,000 to 20,000 cu. yds. of material. Adverse impact would be that resulting to marine organisms (Alaska) (62 pages). Comments made by: DOI, DOC, USCG, EPA, State agencies. (ELR Order No. 50061.)

North Fork Feather River, Plumas County, California, January 16: The project concerns the construction of a diversion dam and diversion channel from North Fork Feather River into Lake Almanor to provide flood control protection. A total of 570 acres (336 agricultural and 234 residential) will be lost to the project. Adverse impacts will include loss of wildlife habitat, vegetation and esthetic values (42 pages). Comments made by: EPA, DOI, HEW, USDA, State agencies. (ELR Order No. 50080.)

Cahokia Creek Low Dam, Illinois, January 17: The statement refers to a plan which is designed to replace an existing dam which has been damaged beyond engineering economically justifiable repairs. Failure of the existing structure could result in severe scour along the channel, threatening several

bridges and levees. The proposed is a rectangular broadcrested concrete dam with a spillway width of 188 ft. and a spillway basin with the exception of the temporary impacts which result from construction activities (noise, dust, and visual pollution), the only significant adverse impact will be the loss of 20 acres of woodland, which will be revegetated (St. Louis District). Comments made by: EPA, USDA, DOI, HUD, AHP, State agencies. (ELR Order No. 50097.)

Marion Local Flood Protection, Kansas, January 14: The project consists of construction of a levee and floodway on Mud Creek and Cottonwood River for flood protection at Marion. The adverse effects resulting from the project include purchase of 3 home sites, increased flooding on some lands outside of the protected area, and alteration of the ground characteristics and vegetation on 110 acres of land required for the levee and diversion channel. There will also be temporary inconvenience to area inhabitants during construction (Tulsa District). Comments made by: DOI, EPA, HUD, DOT, USDA, DOC, HEW, State and local agencies, and concerned citizens. (ELR Order No. 50070.)

Onaga Lake, Pottawatomie County, Kansas, January 16: The statement refers to the proposed construction of Onaga Lake, a multi-purpose lake project on Vermillion Creek. At the top of the multi-purpose pool the lake will have a surface area of 5,320 acres; at the top of the flood control pool the lake will have a surface area of 10,600 acres. The project will result in the inundation of 17 miles of stream; 12,210 acres of land will be purchased in fee simple for project purposes. Adverse impact will include the inundation of wildlife habitat and stream fishery; the displacement of people; effects to the agricultural economy; and loss of archeological and historical sites (Kansas City District). Comments made by: USDA, HUD, DOI, USCG, DOT, EPA, AHP, State and local agencies. (ELR Order No. 50086.)

Hurricane Protection, New Orleans to Venice, Louisiana, January 16: The statement refers to the proposed enlargement of 36 miles of levee from City Price to Venice, and the construction of 16 miles of new levee from Phoenix to Bohemia, in order to provide protection from hurricane-induced flooding. Approximately 8,500 acres will be used for temporary ponding and 1,200 acres will be required for right-of-way; much of this land is estuarine marsh. Comments made by: DOI, EPA, USDA, DOC, DOT, HEW, AHP, State agencies. (ELR Order No. 50082.)

Modification of Ludington Harbor and Channel, Michigan, January 14: The project involves the widening of Ludington Harbor breakwater entrance, inner channel, and inner harbor turning area, and deepening of the channel and turning area to depth of 27 to 29 feet. Dredged sand will be distributed south of the harbor in shallow, near shore waters parallel to the Buttersville bar and south adjoining bluffs. Adverse impacts include the removal of 5 acres of developable Pere Marquette Lake shore zone, loss of .75 acres of aquatic bottom land, and temporary effects such as construction, noise turbidity, and increased traffic. Comments made by: USDA, DOC, DOI, EPA, HUD, State agencies. (ELR Order No. 50071.)

South Branch, Wild Rice River Flood Protection, Norman and Clay Counties, Minnesota, January 14: The proposed project involves the construction of local flood protection works, including channel modification, levees, and inlet modifications, on certain reaches of the South Branch Wild Rice River and Felton Ditch. Also included is the implementation of a wildlife corridor plan. A total of 314 acres of land will be committed to project measures; 6.6 miles of natural stream would be lost (St. Paul District).

Comments made by: AHP, DOI, USDA, USCG, FPC, EPA. (ELR Order No. 50074.)

Navigation Project, Davis, Carteret County, North Carolina, January 13: The statement refers to the proposed construction and maintenance of a deeper navigation project at Davis. Construction consists of deepening the existing project by 2 feet to provide a channel 7 feet deep, 75 feet wide, and 3,500 material in diked areas (34 pages). Comments made by: AEC, USDA, HEW, USCG, EPA, DOI, State and local agencies, and one citizens group. (ELR Order No. 50062.)

Candy Lake, Candy Creek, Osage County, Oklahoma, January 17: The statement refers to the proposed Candy Lake located in Osage County on Candy Creek. Project purposes are flood control, water supply, recreation, and fish and wildlife. The project consists of an earth dam, a reinforced concrete outlet works, an uncontrolled spillway, and project buildings and access roads. Adverse impacts are the inundation of 2,170 acres of land and 7.5 miles of Candy Creek, displacement of pipelines, powerlines and telephone lines, and relocation of 8 families (Tulsa District). Comments made by: EPA, HUD, DOI, DOT, UEDA, AHP, HEW, State agencies. (ELR Order No. 50096.)

Catherine Creek Dam and Lake, Union County, Oregon, January 16: The statement refers to the construction of an earth-fill dam on Catherine Creek, 2.9 miles of road relocation, and a fish hatchery. The purposes of the project are those of flood control, irrigation, recreation, anadromous fish enhancement, and water supply. Approximately 2300 acres will be acquired for the project. Adverse effects will include the loss of 2.5 miles of natural stream bed and an unspecified amount of land to be inundated. Water quality of the stream will be affected, and the acquisition of 480 acres of land for deer and elk will be necessary to compensate for the loss of big game winter range. Comments made by: EPA, USDA, DOT, FPC, DOC, DOI, State and local agencies, and concerned citizens. (ELR Order No. 50085.)

Cooper River Rediversion Project, South Carolina, January 15: The statement refers to the construction of a channel to divert water from the Cooper River to the Santee River Basin to relieve shoaling problems in Charleston Harbor. The project will also include construction of a hydropower plant, fish hatchery, and fish lift. Adverse impacts include decreased biological productivity in Cooper River, land requirements for the diversion canal and disposal site, potential destruction of archeological sites, and turbidity and sedimentation during construction (235 pages). Comments made by: USDA, DOC, DOI, EPA, State agencies. (ELR Order No. 50078.)

Little Goose Lock and Dam, Whitman, Columbia, Garfield Counties, Washington, January 16: The statement refers to the existing Little Goose Lock and Dam Project, a navigation-hydroelectric project on the Snake River. Project measures include a navigation lock, a 3 unit hydroelectric spillway dam, and a 10,025 acre lake. The proposed action is the addition of 3 power units, and the continued operation and management of the project. Impacts discussed in the statement relate to recreational uses, navigation, wildlife habitat management, the operation of fish passage facilities, and the production of electric power (Walla Walla District) (200 pages). Comments made by: FPC, EPA, USCG, DOC, USDA, DOI, State agencies. (ELR Order No. 50079.)

## ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Moyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, (202) 755-0940.

**Final**

Palmer Lake Sanitation District, Colorado, January 13: Proposed is the construction of an Interceptor sewer and a wastewater treatment plant (0.84 mgd capacity) to serve the Palmer Lake and Monument Sanitation Districts and the Woodmor Water and Sanitation District. A total of 21,000 feet of interceptor has already been constructed. The facility would consist of two aerated lagoons, a polishing pond, and a chlorination system; effluent would be discharged to Monument Creek. The new facility would assure adequate sewage treatment for future area population growth. Comments made by: USDA, HEW, HUD, DOI, State and local agencies, and concerned citizens. (ELR Order No. 50055.)

**GENERAL SERVICES ADMINISTRATION**

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, (202) 343-4161.

**Final**

Social Security Admin. Facilities, Baltimore, Baltimore County, Maryland, January 14: Proposed is the consolidation of Social Security Administration offices and data processing facilities at two sites, one adjacent to SSA Headquarters in Woodlawn, the other, Metro West, in the Orchard-Biddle Neighborhood Development Project in Baltimore. The former facility will comprise 1,265,270 sq. ft., the later 1,156,200, including 402,500 sq. ft. for parking. (two volumes). Comments made by: HUD, OEO, OMB, GSA, DOT, DOI, AEF, (ELR Order No. 50072.)

**DEPARTMENT OF HUD**

Contact: Mr. Richard H. Brown, Acting Director, Office of Environmental Quality, Room 7206, 451-7th Street SW., Washington, D.C. 20410, (202) 755-6295.

**Draft**

Potter Urban Renewal Project, Middlesex County, New Jersey, January 17: The Township of Edison Housing Authority proposes to erect 866 units of low and moderate income housing on a 177 acre vacant, wooded site in North Edison, adjacent to an existing 90 unit Public Housing Project. The project would result in removal of vegetation and reduction of air and water quality. (ELR Order No. 50095.)

**DEPARTMENT OF INTERIOR**

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

**Draft**

Development, Crow Reservation and Ceded Area, Big Horn and Treasure Counties, Montana, January 16: The statement refers to the probable impacts of two assumed levels of coal development on the Crow Indian Reservation and the Ceded Area. The lower level of development would result in the export of 20,000,000 tons of coal annually from three mines. The higher level of development would result in the mining of 90,000,000 tons annually from three mines, plus three mining complexes and the use of some coal in three conversion plants. There will be impacts on or from: air quality; wildlife habitats; historic and archeological resources; water consumption and water quality; the land surface; the socio-political structure; recreational uses. (ELR Order No. 50031.)

**Final**

Proposed Illamna National Resource Range, Alaska, January 16: The statement refers to

the proposed legislative designation of 2.8 million acres of public lands in the Lake Illamna Nushagak River area of Alaska as the Illamna National Resource Range. It is also proposed that a 47-mile segment of the Alagnak River be designated as a component of the National Wild and Scenic River System. The Bureau of Land Management would have primary responsibility for implementation of the land-use plan related to the action, with assistance coming from the Bureau of Sports Fisheries and Wildlife. Mineral development, except for valid existing rights, will be under the discretionary control of the Federal Government (620 pages). Comments made by: USDA, COE, DOC, EPA, FPC, DOT, DOI, State and local agencies. (ELR Order No. 50038.)

**BUREAU OF OUTDOOR RECREATION****Draft**

Huron Clinton Land Acquisition, Washtenaw County, Michigan, January 13: The statement refers to the proposed use of Land and Water Conservation Fund Assistance for the acquisition by the Huron Clinton Metropolitan Authority of 3501 acres of land. The land would be used for intensive, multiple activity, daytime recreational use focused around a 618 acre impoundment on Mill Creek. The action will necessitate the relocation of 44 families and the reconstruction of roads and utilities. (ELR Order No. 50054.)

**BUREAU OF RECLAMATION****Draft**

Columbia Basin Project, several counties, Washington, January 17: The statement concerns the construction of the Third Powerplant at Grand Coulee Dam and the extension of an irrigation system (now 50% complete) to provide irrigation for an additional 577,000 acres. The Grand Coulee Third Powerplant could accommodate additional powerplant capacity for peaking operations of at least 7,500 megawatts. (ELR Order No. 50098.)

**BUREAU OF SPORT FISHERIES AND WILDLIFE****Final**

Cape Romain National Wildlife Refuge, Charleston County, South Carolina, January 15: The statement refers to the proposed designation of 28,000 acres of the Cape Romain Wildlife Refuge as wilderness within the National Wilderness Preservation System. Comments made by: EPA, COE, USDA, DOT, DOC, DOI, State agencies. (ELR Order No. 50077.)

**NATIONAL PARK SERVICE****Final**

Proposed Yukon-Charley National Rivers, Alaska, January 16: The statement refers to the proposed Congressional designation of 2.23 million acres of lands and waters along the upper Yukon River as Yukon-Charley National Rivers, in order to protect the nationally significant natural, historic and archeological values. The Rivers would be administered by the National Park Service, and would be studied for possible inclusion in the National Wilderness Preservation System. The land in the Charley River basin would be closed to mining and mineral entry; mining would be permitted on the Yukon portion on a permit and lease system (included in the statement is a discussion of a conceptual master plan for management.) (669 pages). Comments made by: USDA, DOC, COE, HEW, HUD, DOI, DOT, State and local agencies. (ELR Order No. 50087.)

**DEPARTMENT OF TRANSPORTATION**

Contact: Mr. Martin Convikser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

**FEDERAL HIGHWAY ADMINISTRATION****Draft**

Columbus and Thomaston Roads, Widening, Bibb County, Georgia, January 17: Proposed is the widening of Columbus Road from the intersection of Columbus and Thomaston Roads (S.R. 22 and S.R. 74) easterly to a point east of Dempsey Avenue and the widening of Thomaston Road from I 475 to its intersection with Columbia Road. As many as three residences and two businesses will be displaced by the project (154 pages). (ELR Order No. 50091.)

Vista Avenue-Ridenbaugh Canal-U.S. 30 Connection, Ada County, Idaho, January 13: The proposed project consists of improving the existing Vista Avenue-Federal Way (U.S. 30) connection in Boise City, Idaho, including the improvement of three intersections, realignment of through routes, and widening rights-of-way to provide for the projected increase in through traffic flow. Adverse impacts include the displacement of families and businesses, construction disruption and the gradual conversion of residential land to commercial use. A 4(f) statement is included concerning Flatt Gardens Park. (ELR Order No. 50057.)

Freeway 592, Polk and Warren Counties, Iowa, January 17: Proposed is the construction of Freeway 592 in Polk and Warren Counties, Iowa. The alternatives range from the upgrading of an existing road, requiring 27 additional acres to construction of a new facility, requiring as much as 690 acres. Dislocation of families and farms depends upon the alternatives chosen. (ELR Order No. 50093.)

S.R. 3028, Rapides Parish, Louisiana, January 17: Proposed is the construction of a 5.8 mile segment of State Route LA 3028 between the municipalities of Tioga and Timber Trails just north of Alexandria. The four-lane controlled access facility will displace 15 families and one business and will require the commitment of 215 acres of residential and forest land to roadway use. (ELR Order No. 50092.)

Loop 1, Austin, Travis County, Texas, January 13: The statement refers to the construction of a 4.3 mile section of Loop 1 (Mo Pac Boulevard) from R.M. Highway 2244 southeast to the City of Austin, south to US 290 west in Travis County. The project will displace one business and will take 315 acres of undeveloped land. There will be construction disruption (248 pages). (ELR Order No. 50085.)

SH 6 Bypass, Falls County, Texas, January 16: Proposed is the construction of the SH 6 bypass, from 3.0 miles south of Marlin to 2.0 miles north of the city. Total length of the four-lane facility will be approximately five miles. Construction of the project will result in the taking of right-of-way and the displacement of twelve residences and businesses (61 pages). (ELR Order No. 50034.)

**Final**

I-5, Santa Ana Freeway, Broadway Interchange, Orange County, California, January 13: Proposed is the improvement of the interchange of I-5 at Main Street and the construction of a new overpass at Broadway. Twelve businesses and 19 families will be displaced. A 4(f) statement is included concerning 5000 square feet of required right-of-way. Comments made by: DOT, DOI, HUD, COE, EPA, State and local agencies. (ELR Order No. 50084.)

I-80, Big Timber to Greycliff, Sweetgrass County, Montana, January 13: Proposed is the construction of a 4-lane, 10.5 mile segment of I-80. The project will require approximately 3.5 acres of "Fireman's Island", which although belonging to the City of Big Timber is not a city park. Construction disruption will result (105 pages). Comments

made by: USDA, COE, HEW, HUD, DOI, EPA, State agencies and one local agency. (ELR Order No. 50041.)

New Hampshire Rte. 175, Woodstock, Grafton County, New Hampshire, January 15: The statement refers to the proposed relocation of a 1.2 mile segment of New Hampshire Route 175 in the town of Woodstock. The new two lane facility will necessitate the acquisition of 2.5 acres of land. Other adverse impacts include increased traffic noise levels, temporarily increased siltation levels in the Pemigewasset River during construction, and the loss of wildlife habitat (104 pages). Comments made by: USDA, USCG, COE, HEW, HUD, DOI, EPA, (ELR Order No. 50075.)

Rte. 106, Merrimack County, New Hampshire, January 17: The statement refers to the improvement of 3.8 miles of N.H. Route 106 in the town of Loudon, Merrimack County. The new segment will have two lanes, 2 new bridges over the Soucook River, and six intersections. Adverse impacts include acquisition of 105 acres of land, relocation of 6 families and 1 business, loss of wetlands, and a temporary increase in the level of the Soucook River during construction. There will also be the normal temporary negative impacts associated with highway construction. Comments made by: EPA, HEW, HUD, DOI, FPC, USDA, USCG, State agencies, and concerned citizens. (ELR Order No. 50094.)

US 75 and Spur 503, Grayson County, Texas, January 14: The statement refers to construction of a 14.1 mile section of US 75, beginning at Travis St. in Sherman and ending at the Texas-Oklahoma line at Red River. Also included in the project is a 1.7 mile section of Spur 503 connecting proposed US 75 to existing US 75 and SR 75-A north of Iron Ore Creek. Both US 75 and Spur 503 are to be developed on new location to a multi-lane divided freeway design. Adverse impacts are the taking of additional grass and wooded areas (exact acreage not specified), and the displacement of 89 families, 11 businesses and 3 oil wells. Comments made by: DOT, HEW, HUD, COE, USDA, DOI, State and local agencies. (ELR Order No. 50069.)

State Trunk Highway 50, Waukesha and Milwaukee Counties, Wisconsin, January 13: Proposed construction of 8.1 miles of 2-lane S.H. 59. Thirty-one residences will be displaced by the action and an unspecified number of acres taken. A 4(f) statement will be filed as land would be taken from a local park. Comments made by: HEW, DOI, HUD, EPA, OEO, State and local agencies. (ELR Order No. 50063.)

State Trunk Highway 28, Sheboygan Co., Wisconsin, January 13: Proposed is the construction, on new location, of 4.8 miles of State Trunk Highway 28, from Sheboygan Falls to the city of Sheboygan. Some additional land will be required for right-of-way, and a number of homes will be displaced (115 pages). Comments made by: EPA, HUD, HEW, DOI, State and local agencies, and citizens organizations. (ELR Order No. 50068.)

GARY L. WIDMAN,  
General Counsel.

## ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

OFFICIAL SEAL  
Notice of Adoption  
Correction

In FR Doc. 75-1887 appearing on page 3242 of the issue for Monday, January 20, 1975, the effective date, now reading "January 9, 1975", should read "January 19, 1975".

## FEDERAL HOME LOAN BANK BOARD

[H. C. 184]

BASS FINANCIAL CORP.

Receipt of Application for Permission To Purchase the Assets of Potomac Building and Loan Association

JANUARY 20, 1975.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from Bass Financial Corporation, Norridge, Illinois, a multiple savings and loan holding company, for approval of a bulk purchase of the assets of Potomac Building and Loan Association, Potomac, Illinois, an uninsured institution, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 584.4 of the regulations for Savings and Loan Holding Companies. Comments on the proposed acquisition should be submitted to the Director, Holding Companies Section, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before February 24, 1975.

[SEAL] GRENVILLE L. MILLARD, Jr.,  
Assistant Secretary,  
Federal Home Loan Bank Board.  
[FR Doc.75-2233 Filed 1-23-75;8:45 am]

## GENERAL ACCOUNTING OFFICE

FEDERAL TRADE COMMISSION

Receipt of Regulatory Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on January 17, 1975. See 44 U.S.C. 3512(c) & (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL TRADE COMMISSION

Request for review and clearance of a new single-time FTC survey—Used Car Study. 54 state and territorial transportation officials will be required to provide information on used vehicle inspection programs and vehicle component degradation. The estimated average burden is 2 to 3 man-hours per response.

CARL F. BOGAR,  
Regulatory Reports Review.  
[FR Doc. 75-2254 Filed 1-23-75;8:45 am]

## NATIONAL ADVISORY COUNCIL ON SUPPLEMENTARY CENTERS AND SERVICES

COMMITTEE AND PROJECT REPORTS  
Public Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the National Advisory Council on Supplementary Centers and Services will be held on February 20 and 21, 1975, from 9 a.m. to 5 p.m. at the Sheraton Harbor Island Hotel, 1380 Harbor Island Drive, San Diego, California.

The National Advisory Council on Supplementary Centers and Services is established under section 309 or Pub. L. 91-230. The Council is directed to advise the President and the Congress concerning the operation of Title III of the Elementary and Secondary Education Act.

Agenda items for the meeting will include: (1) an on-site visit to the Multi-age Grouping in Early Childhood Education project, Kenneth Hensell, Project Director, Belle Benchley Elementary School, 7202 Princess View Drive, San Diego, California 92120; (2) member reports on ESEA Title III project visitations since the last Council meeting; (3) recommendations and last chapter of Drop-Out Prevention report; (4) review and revision of Council's operational budget; (5) project report from Sam Kerman, Project Director, Equal Opportunity in the Classroom, Los Angeles County Education Center, 9300 E. Imperial Highway, Downey, California 90242; (6) review of Council's role in co-sponsoring the ESEA Title III annual meeting; (7) progress reports on the annual report and the Quarterlies on the handicapped and educational technology; (8) discussion of report on the non-public schools; and (9) report from the Committee on Special Concerns, Dr. William Harvey, Chairman.

The meeting of the Council shall be open to the public. Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 529, 425 13th Street, N.W., Washington, D.C.

Signed at Washington, D.C. on January 20, 1975.

GERALD J. KLUMPIEK,  
Executive Director.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-3)]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL COMMITTEE ON GUIDANCE, CONTROL AND INFORMATION SYSTEMS

Notice of Meeting

The NASA Research and Technology Advisory Council Committee on Guidance, Control and Information Systems will meet on February 19-20, 1975, at the NASA Ames Research Center, Moffett Field, California 94035. The meeting will

be held in Conference Room 217 of Building 200. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room, which is about 25 persons. All visitors must report to the Ames Research Center Receptionist in Building 200.

The NASA Research and Technology Advisory Council, Committee on Guidance, Control and Information Systems serves in an advisory capacity only. The current Chairman is Dr. Barry W. Boehm. There are 12 members. The following list sets forth the approved agenda and schedule for the February 19-20, 1975, meeting of the Guidance, Control and Information Systems Committee. For further information, please contact Dr. Peter R. Kurzhals, Area Code 202 755-3225

FEBRUARY 19, 1975

Time	Topic
8:30 a.m.	Report of the chairman (Purpose: To summarize issues and actions taken at the November 1974 meeting of the Research and Technology Advisory Council).
9:00 a.m.	Report of the Executive Secretary (Purpose: To brief the Committee on recent changes in the NASA organization and on the status of guidance, control, and information systems programs).
9:30 a.m.	Software Action Plan Review (Purpose: To obtain Committee comments on a plan for improving coordination and management of software research in NASA).
11:00 a.m.	Report on Outlook for Space Technology Forecast (Purpose: To brief the Committee on the organization, status and plans of the Working Group which developed the technology forecast document).
1:00 p.m.	Critique of the Technology Forecast Document (Purpose: To obtain Committee views and detailed comments on the forecasts of technology related to guidance, control and information systems).

FEBRUARY 20, 1975

8:30 a.m.	Review of New Initiatives (Purpose: To brief the Committee on proposed new systems technology program and obtain their comments and recommendations).
-----------	---

Time	Topic
10:30 a.m.	Committee Discussions and Recommendations (Purpose: To summarize Committee findings and recommendations and identify critical issues to be studied at subsequent meetings).
12 Noon	Adjournment.

BOYD C. MYERS, II,  
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

JANUARY 20, 1975.

### NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES MUSEUM ADVISORY PANEL

#### Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that closed meetings of the Museum Advisory Panel to the National Endowment for the Arts, will be held at 9 a.m.-5 p.m. on February 10, 1975; February 13-14, 1975; February 20, 1975 in the 11th floor Museum area, Columbia Plaza, 2104 E Street, NW., Washington, D.C.

These meetings are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these meetings, which involve matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4), (5)), will not be open to the public.

Further information with reference to these meetings can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-7144.

EDWARD M. WOLFE,  
Administrative Officer, National Endowment for the Arts, National Foundation on the Arts and the Humanities.

### NATIONAL SCIENCE FOUNDATION ADVISORY PANEL FOR ASTRONOMY

#### Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is

hereby given of a meeting of the Advisory Panel for Astronomy to be held at 9 a.m. on February 10-11, 1975, in room 338 at the National Science Foundation, 1800 G Street, NW., Washington, D.C.

The purpose of this panel is to provide advice and recommendations concerning research proposals and projects in astronomy and to advise the Foundation of the impact of its research support programs on the scientific community in astronomy.

The agenda for this meeting will include:

FEBRUARY 10—MORNING SESSION (9 A.M.—12 Noon)

Summary Discussion of FY 76 Budget for Astronomy Long-range Plans.

AFTERNOON SESSION (1-5 P.M.)

Solar Astronomy Review.

FEBRUARY 11—MORNING SESSION (9 A.M.—12 Noon)

Reports by NSF Staff on Former Panel Concerns Theoretical Physics and Astrophysics Computational Facilities.

AFTERNOON SESSION (1-5 P.M.)

Future Trends in Astronomy.

This meeting will be open to the public but limited to 10 observers who may make written suggestions following the meeting. Individuals who wish to attend should contact Ms. Mary Saffell, Secretary to the Head of the Astronomy Section, Rm. 305, National Science Foundation, Washington, D.C. 20550, telephone 202/632-4196, no later than February 7.

For further information about this Panel, please contact Dr. Robert Fleischer, Head, Astronomy Section, at the above address. Summary minutes of this meeting may be obtained from the Management Analysis Office, Rm. 720-K, National Science Foundation, Washington, D.C. 20550.

FRED K. MURAKAMI,  
Committee Management Officer.

JANUARY 20, 1975.

### ADVISORY PANEL FOR ENVIRONMENTAL BIOLOGY

#### Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Advisory Panel for Environmental Biology to be held at 9 a.m. on February 10 and 11, 1975, in room 517, 1800 G Street, NW., Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual

research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

For further information about this Panel, please contact Dr. John L. Brooks, Program Director for General Ecology, Rm. 331, National Science Foundation, Washington, D.C. 20550, telephone 202/632-7324.

FRED K. MURAKAMI,  
*Committee Management Officer.*

JANUARY 20, 1975.

### ADVISORY PANEL ON SCIENCE EDUCATION PROJECTS

#### Notice of Subpanel Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Energy-Related Graduate Traineeships Evaluation Subpanel to be held at 9 a.m. on February 10 and 11, 1975 in room 464, 5225 Wisconsin Avenue, NW., Washington, D.C.

The purpose of this Subpanel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Subpanel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries, and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

For further information about this Subpanel, please contact Mr. Joseph Danek, Program Manager, Fellowships and Traineeships Section, Rm. 464, National Science Foundation, Washington, D.C. 20550, telephone 202/282-7595.

FRED K. MURAKAMI,  
*Committee Management Officer.*

### ADVISORY PANEL FOR SYSTEMATIC BIOLOGY

#### Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92-463), notice is hereby given of a meeting of the Advisory

Panel for Systematic Biology to be held at 9 a.m. on February 10 and 11, 1975, at the Fairchild Tropical Garden, 10901 Cutler Road, Miami, Florida.

The purpose of this Panel is to provide advice and recommendations for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. These proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552(b). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92-463.

For further information about this Panel please contact Dr. H. Jack Schultz, Program Director, Systematic Biology, Program, Rm. 331, National Science Foundation, Washington, D.C. 20550, telephone 202/632-5846.

### NUCLEAR REGULATORY COMMISSION

#### LIQUID METAL FAST BREEDER REACTOR PROGRAM

#### Notice of Availability of Proposed Final Environmental Statement

Notice is hereby given by the Atomic Energy Commission that the General Manager has issued a Proposed Final Environmental Statement on the Liquid Metal Fast Breeder Reactor (LMFBR) program and has solicited written comments on it during the sixty (60) days following publication by the Council on Environmental Quality of the Statement's availability in the FEDERAL REGISTER.

Copies of the Proposed Final Environmental Statement will be placed in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, as well as in the Commission's Albuquerque Operations Office, P.O. Box 5400, Albuquerque, New Mexico 87115; Chicago Operations Office, 9500 South Cass Avenue, Argonne, Illinois 60439; Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho 83401; Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee 37830; Richland Operations Office, Federal Building, Richland, Washington 99352; Nevada Operations Office, P.O. Box 14100, Las Vegas, Nevada 89114; San Francisco Operations Office, 1333 Broadway, Oakland, California 94612; and Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina 29801.

Single copies of the Proposed Final Environmental Statement have been sent to all who commented on the draft.

Others, who wish to comment within the comment period ending March 25, 1975, may obtain single copies by addressing their request to W. H. Pennington, Office of the Assistant General Manager for Biomedical and Environmental Research and Safety Programs, U.S. Atomic Energy Commission, Washington, D.C. 20545. Comments should be sent to the same address.

The Draft LMFBR Program Environmental Statement was issued on March 14, 1974 (39 FR 9692). Public comments were also solicited prior to the issuance of this Draft Statement (38 FR 27540). Additionally, being intent on affording the public a meaningful opportunity to express their views, the Commission held a legislative-type public hearing on the Draft Statement on April 25-26, 1974.

The Proposed Final Statement enlarges the examination of the matters dealt with in the Draft Statement and sets forth and considers the submitted views of the Environmental Protection Agency, other Government agencies, environmental groups, industrial organizations, and other commenters. The Proposed Final Statement has undergone internal reviews by an interdisciplinary committee of senior AEC personnel not involved in the Statement's preparation as well as by several outside consultants.

Ordinarily, this document would have been considered by the Commission to determine whether it should be issued in its present, or some modified, form as a Final Environmental Statement. In view, however, of the imminent assumption of AEC's research and development functions by the Energy Research and Development Administration (ERDA), the AEC has determined that it would be appropriate for the Administrator of ERDA to consider this document in proposed form prior to concluding the NEPA review process on the LMFBR research and development program. More specifically, the Commission has recommended to the Administrator that he review the Proposed Final Statement, as well as the views and comments received on it, and determine whether it, along with a supplementary document embodying those views and comments, should be adopted as ERDA's Final Environmental Statement on the LMFBR research and development program.

Adoption of the foregoing course of action is not required by NEPA. Nevertheless, in embarking upon it, the AEC considered it appropriate to determine whether or not during this further period of review—estimated to extend through the balance of FY 1975—planned LMFBR program activities should continue. With respect to the LMFBR Base Program, it is planned during this period to continue analytical, experimental and proof-testing activities at AEC laboratories and contractor sites as well as to continue design, construction and operation of test facilities. Principal facilities presently under design and construction are the Fast Flux Test Facility, the Sodium Pump Test Facility, the Fuel Element Failure Propagation Loop System, the Large

Leak Test Rig, the Sodium Component Test Facility, and the Component Handling and Cleaning Facility. Those principal facilities which will continue to be operated are the Liquid Metal Engineering Center, the Experimental Breeder Reactor—II, the Zero Power Plutonium Reactors, the High Temperature Sodium Facility, the Tower Shielding Facility, the Transient Reactor Test Facility, and the Hot Fuel Examination Facility. Based upon annualized averages, it is presently estimated that expenditures for the activities described in this paragraph during this further period of review will not exceed \$50 million per month.

With respect to the Clinch River Breeder Reactor Project (CRBRP), the Government and industrial participants, during this further period of review, will continue system and component design and will continue to order long-lead material and components. There will be no site clearance or construction activity at the CRBRP site. The components scheduled to be ordered during this period are the reactor vessel, the reactor vessel closure head, the reactor guard vessel, the reactor containment building vessel, three (3) intermediate heat exchangers, the turbine generator, twenty-one (21) primary control rod drive mechanisms, seven (7) heat transport system pumps, three (3) heat transport system valves, six (6) pump and intermediate heat exchanger guard vessels, seven (7) large sodium tanks, ten (10) steam generator modules, the condenser, non-sodium valves, and other related components. This would involve estimated average monthly CRBRP expenditures for the period of further review of about \$8 million.

It will be during this period of further review that the FY 1976 request will be made for authorization of appropriations for further expenditures on the Base Program and the CRBRP at planned levels which are commensurate with the conduct of the above-described work in these areas.

In undertaking its examination with respect to the continuation of LMFBR Base Program and CRBRP activities during the period of further review, AEC considered and balanced the same factors it focused on in connection with the following Program and Project Determinations previously announced during earlier periods of the NEPA review:

Project Determination—July 24, 1973 (38 FR 19853)

Project Supplemental Determination—February 26, 1974 (39 FR 7478)

Program Determination—March 27, 1974 (39 FR 11326)

These factors are:

1. Whether it is likely that the continuation of LMFBR Base Program and CRBRP activities during the further period of NEPA review will give rise to a significant adverse impact on the environment; the nature and extent of this impact, if any; and whether redress of any adverse environmental impact can reasonably be effected should modification, suspension or termination of Base

Program and/or CRBRP activities result from the NEPA review.

2. Whether continuation of the LMFBR Base Program and CRBRP activities during this further period of review would foreclose subsequent adoption of alternatives.

3. The effect of any delay in the LMFBR Base Program and CRBRP upon the public interest.

4. Whether the additional commitment of resources to the LMFBR Base Program and CRBRP during the prospective review period might affect the eventual decision reached on the NEPA review.

The results of AEC's examination are set forth in the following findings:

1. *Continuation of the LMFBR Base Program and CRBRP activities during the further period of review is not expected to give rise to any significant adverse impact on the environment.* Continuation of the LMFBR Base Program during the balance of FY 1975 will not lead to significant releases of radioactive or nonradioactive air and water pollutants. Releases will be small compared to releases due to other activities at various AEC program sites, and will be insignificant compared to normal industrial activities. All applicable Federal and state air and water quality standards will be met by such releases. Any potential construction impact will be minimized by preventive measures employed during construction. Redress of such environmental impact as will result from construction can be readily achieved and the environment can be returned to original surface contours.

With regard to the CRBRP, system and component design and the long-lead procurement activities will involve design, materials-forming and component manufacturing activities that will be conducted within existing offsite facilities. These activities will constitute a negligible increment to the existing work at these facilities. None of these activities will have any direct environmental impact at the CRBRP site.

2. *Subsequent adoption of alternatives—including reorientation, delay or termination—would not be foreclosed by continuation of the LMFBR Base Program and CRBRP during the further period of review.* The LMFBR Base Program is a long term research and development undertaking which will require much additional time and resources to bring the LMFBR concept to a point where it can be considered to be a commercially viable energy option. The contract work to be performed on the LMFBR Base Program and the system and component design work for the CRBRP during this further period of review is a continuation of prior work and all these contracts are terminable by the Government at any time.

Federal Government FY 1975 funds allocated to energy research and development are estimated to be about \$1.6 billion. AEC's portion of this is \$803 million. Of that amount about \$356 million is assigned to energy research and de-

velopment in other than LMFBR development. This is an increase of more than \$105 million by comparison with the FY 1974 budget for AEC research and development on energy systems other than LMFBR. The Federal Government has no intention of restricting work on any other reactor or energy concept as a result of proceeding with LMFBR activities.

The planned CRBRP procurement activities will be directed only to the purchase of such long-lead time items as reactor components and related materials, the designs of which are well established and the manufacturing period for which is relatively long. These components would not be significantly changed by consideration of plant design alternatives relating to such major factors as plant power level, refueling options, and primary pump location. Moreover, if it were decided as a result of the NEPA review that further pursuit of the LMFBR program were to be deferred or discontinued, procurement of those items not yet delivered could be terminated and other use of or sale for scrap arranged for any deliverable materials, with relatively small dollar penalty. It is estimated that if such a decision were reached by July 1, 1975, the dollar penalty which might result from discontinuance of these procurement activities would be about \$15 million of Government and utility funds.

Finally, it should be emphasized that issuance of any construction permit for the CRBRP would be preceded by numerous technical reviews, another environmental statement on the Plant, and a hearing on safety and environmental matters in which interested persons may participate. Provision is also made by regulation and statute for further reviews of any decision to construct, and judicial review at the behest of any party to the construction permit proceeding. The industrial participants in the CRBRP expend their own funds at the financial risk that the outcome of the NEPA review or of the licensing process itself may require some alternative course—including project termination. Cf. *Coalition for Safe Nuclear Power v. AEC, et al.*, 463 F.2d 954.

3. *The public interest would be adversely affected by not continuing the LMFBR Base Program and CRBRP activities during this further period of review since it could result in compromising Base Program and CRBRP viability by the loss of key management, scientific and engineering personnel and would result in delay in realizing the availability of a key energy option for the Nation, with significant adverse consequences in terms of increased Base Program and CRBRP costs and substantial dollar penalties in higher costs of electricity.* In AEC's earlier findings in regard to its interim LMFBR Base Program and Project reviews, it was noted that in assessing the wisdom of delaying the LMFBR program (continuation of which would be contingent on the outcome of the NEPA review), AEC could not blind itself to a

number of compelling national interest considerations. The development of viable energy options for the 1980's and beyond is a matter of vital national concern. The soundness of the domestic economy, the Nation's position in international trade (including, particularly, its balance of payments), the country's nondependence on foreign sources for energy supplies—indeed, the health and welfare of the American people—are directly affected by the availability of adequate means for meeting our overall energy needs during the remainder of this century.<sup>2</sup> The need for this country to have the domestic capability to meet both its near and longer term energy requirements has been strongly emphasized by recent and continuing events regarding the Middle East.

While many of these considerations cannot be quantified in dollar costs alone, it is worth noting that, if the LMFBR program does go forward and succeed, a one-year delay in the commercial availability of the breeder reactor could impose upon the U.S. economy a substantial dollar penalty in higher costs of electricity and increased environmental impact from extended use of less environmentally-compatible power generation facilities.<sup>3</sup>

Additionally, it should be reiterated that while a number of technological, environmental and other problems require treatment in connection with any successful demonstration of the breeder concept, availability of the breeder reactor as an alternative energy option would have special significance in regard to conservation of the Nation's fuel resources. Current-type light water reactors utilize less than 2 percent of the available energy from the uranium fuel which they burn. The LMFBR could utilize more than 50 percent of the total energy from uranium and thus extend the usefulness of domestic uranium reserves from decades to centuries.<sup>3</sup>

Moreover, the basic framework has now been established for all elements of the LMFBR program. A highly dedicated group of managers, scientists and engineers—both in Government and industry—has been brought together to work on the Base Program and CRBRP. A decision to delay or significantly curtail the Base Program and CRBRP during this

further period of review would essentially destroy the framework that has been established and would result in the loss of key management, engineering and scientific personnel in the participating organizations. It is estimated that approximately 17,000 people are engaged in LMFBR activities funded by AEC. About one-fourth of these are management, scientific and technical personnel. It is unlikely that a large fraction of these people could be utilized on other programs during the period that the LMFBR Base Program and CRBRP would be delayed or curtailed. Thus, it appears that many of these individuals would be permanently lost to the LMFBR program under such circumstances.

Delaying the presently planned LMFBR Base Program and CRBRP during this period would increase the overall cost of the LMFBR program. This is due to the increased expenditures associated with reducing the level of effort or cancelling subprograms and then restoring these programs later, including those costs associated with the difficult task of reassembling resources, replacing lost personnel, retraining personnel and refurbishing facilities and equipment.

A decision to delay or significantly reduce the Government sponsored LMFBR activities also could have serious adverse implications in terms of the nuclear power industry's willingness to continue its support of the development of the LMFBR.

4. *The additional commitment of resources to the LMFBR Base Program and CRBRP during the further review period would not affect the eventual decision reached on the NEPA review.* Total cumulative expenditures on the LMFBR Base Program and CRBRP through January 1, 1975, have been about \$1.9 billion. It is estimated that it will require an additional \$8.1 billion of Government funds plus substantial private funds to develop the LMFBR as a commercially-viable energy option. The \$250 million projected to be spent over the balance of FY 1975 on the Base Program and CRBRP is not insubstantial; however, in the context of prior and projected expenditures, it is not believed to be of such magnitude as to constitute an irrevocable commitment to the continuation of the Base Program and CRBRP. Nor, for the same reasons, would it affect the outcome of the NEPA review of the LMFBR program or the actions which may be appropriate in light thereof, including reorientation, delay, or abandonment, in whole or in part.

The risk involved in the expenditure of these resources during this further period of NEPA review of the LMFBR program is not unique. Such risks are continually being taken in research and development efforts. Notwithstanding the substantial prior expenditure of time, effort and funds, programs have been terminated where it had been found that their continuation was no longer justified. For example, the AEC-NASA space nuclear propulsion program, involving 15 years of effort and \$1.4 billion, was dis-

continued when the feasibility of a nuclear flight engine for use in space was very close to being established. Examples of other discontinued concepts and their program expenditures include: the sodium-cooled, graphite-moderated reactor (\$150 million); the heavy water component test reactor (\$23 million); the experimental gas-cooled reactor (\$105 million); the Los Alamos Molten Plutonium Program (\$43 million); and the organic-cooled reactor (\$54 million).

Based on the results of the foregoing examination, AEC has determined that the actions expected to be taken during the balance of FY 1975 in connection with the LMFBR Base Program and CRBRP should not give rise to any significant adverse impact on the environment; would neither constitute an irrevocable commitment of resources nor foreclose the subsequent adoption of alternatives of the type that could result from the ongoing review; and, if curtailed, would adversely affect the public interest. Accordingly, the Commission has recommended to the ERDA Administrator that the LMFBR Base Program and CRBRP continue as planned during this further period of review.

Dated at Washington, D.C. this 16th day of January, 1975.

For the Nuclear Regulatory Commission.

PAUL C. BENDER,  
Secretary of the Commission.

[Docket No. P-351-A]

**PUBLIC SERVICE COMPANY OF  
OKLAHOMA**

Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

Public Service Company of Oklahoma (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 20, 1974, in connection with its plans to construct and operate two boiling water reactors in Rogers County, Oklahoma, near the town of Inola. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report pursuant to § 2.101 of Part 2, is expected to be filed during August 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room,

<sup>1</sup> Message from the President of the United States Concerning Energy Resources, 93rd Congress, 1st Session, H. Doc. No. 93-85, April 18, 1973; Hearings before the Subcommittee on Foreign Affairs, 92d Congress, 2d Session, September 21, 26, 27; October 3, 1972; Updated AEC Cost Benefit Analysis, WASH-1184, January 1972.

<sup>2</sup> AEC's cost-benefit analysis as part of the LMFBR Program—Proposed Final Environmental Statement issued January 1975 shows that the dollar penalty for a one year delay in the commercial availability of the LMFBR may be in the range of \$1.0 to \$3.3 billion on a discounted basis.

<sup>3</sup> Message from the President of the United States on "Clean Energy," 92d Congress, 1st Session, H. Doc. No. 92-118, June 4, 1971; 1970 National Power Survey, Part I, issued by Federal Power Commission, December 1971, pp. 1, 6, and 22.

1717 H Street, NW, Washington, D.C. 20545 and at the Local Public Document Room Tulsa City—County Library, Tulsa, Oklahoma 74102. Docket No. P-351-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 18, 1975.

Dated at Bethesda, Maryland this 9th day of January, 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,  
Chief, Light Water Reactors  
Branch 1-2, Directorate of  
Licensing.

[FR Doc. 75-1355 Filed 1-16-75; 8:45 am]

[Docket Nos. 50-440, 50-441]

**CLEVELAND ELECTRIC ILLUMINATING COMPANY, ET AL (PERRY NUCLEAR POWER PLANT, UNITS 1 AND 2)**

**Order To Show Cause**

I. The Cleveland Electric Illuminating Company, the Duquesne Light Company, the Ohio Edison Company, the Pennsylvania Power Company, and the Toledo Edison Company (the Licensees) are holders of a Limited Work Authorization authorizes the conduct of certain work activities pending the completion of action on the Licensees' application for construction permits for the Perry Nuclear Power Plant, Units 1 and 2 (facility). The proposed construction site is (LWA) dated October 21, 1974,<sup>1</sup> which located on Lake Erie in Lake County, Ohio.

II. On December 9, 1974, the Licensees filed Amendment No. 22 to their Preliminary Safety Analysis Report (PSAR) with the then AEC Regulatory Staff.<sup>2</sup> The Licensees, in this Amendment, proposed a change to a prior commitment<sup>3</sup>

<sup>1</sup> See the letter dated October 21, 1974, from Mr. Roger Boyd of the then Atomic Energy Commission's (AEC) Directorate of Licensing to Mr. Harold L. Williams, Vice President—Engineering, Cleveland Illuminating Company. The LWA scope of work was supplemented by Mr. Boyd's November 8, 1974, letter to Mr. Williams. The complete scope of the LWA work is set forth in Attachment A to this Order.

<sup>2</sup> Effective January 19, 1975, the AEC Regulatory Staff became a part of the Nuclear Regulatory Commission and is hereinafter referred to in this Order as the "NRC Staff".

<sup>3</sup> On March 15, 1974, the Licensees committed in Amendment No. 12 to the PSAR to meet the NRC Staff's requirement to design safety-related buildings and structures to withstand the effects of the hydrostatic pressure resulting from a groundwater level of 618 feet mean sea level (hereinafter referred to as the "Commitment").

to design safety-related buildings and structures to withstand the effects of the hydrostatic pressure resulting from a groundwater level of 618 feet mean sea level. During the course of meeting with the NRC Staff on January 10, 1975, in Bethesda, Maryland, the Licensees stated that the proposed change was prompted because of, inter alia, the impracticality of meeting the Commitment. The proposed change involves unique hydrological and plant design features which might have affected the issuance of the LWA if the change had been known at that time. The effect of these events on the pending construction permit proceeding and the work being conducted under the LWA is discussed below.

Upon the completion of evidentiary hearings concerning environmental and site suitability matters for the facility, the cognizant Atomic Safety and Licensing Board (Board) issued a Partial Initial Decision, Environmental and Site Suitability<sup>4</sup> on September 18, 1974, and a Supplemental Partial Initial Decision, Site Suitability and Environmental Matters on October 20, 1974.<sup>5</sup> The Board in these partial initial decisions made the environmental findings required by 10 CFR 51.52 (b) and (c); and determined, based on the available information and review at that time, that there was reasonable assurance that the proposed site for the facility was a suitable location for two nuclear power reactors of the general size and type proposed by the Licensees. Thereafter, the NRC Staff issued an LWA in accordance with and pursuant to 10 CFR § 50.10(e) (1). The Licensees have commenced work under the LWA and are presently engaged in the performance of such activities.

The application for construction permits, consistent with the Nuclear Regulatory Commission's regulations, is still pending before the Board. Among other considerations, the Board's consideration of radiological health and safety matters remains outstanding.

In the context of the environmental and site suitability phase of the proceeding before the Board, the Licensees' Commitment referred to above served as a predicate for the NRC Staff's position concerning environmental and site suitability matters in connection with the application for the construction of the facility.

The effect of the Licensees' Amendment No. 22 on site suitability is intertwined with radiological health and safety considerations. The Licensees' Commitment enabled the NRC Staff to relegate design questions concerning hydrostatic pressure to their health and safety review phase for resolution. However, the Licensees' recently proposed change represents a significant departure from generally used methods in the nuclear field. In such circumstances, the NRC Staff would have inquired further into various design alternatives to the one proposed in Amendment No. 22 before determining that the proposed site

was suitable. A site could be found suitable within the concept of the finding required by 10 CFR 50.10(e) (2) if it were determined that satisfactory design alternative(s) to the unique proposal existed, and that such alternative(s) were not compromised by the work proposed to be performed under the LWA. Based on a preliminary review to date of Amendment No. 22, the NRC Staff believes the proposed change may not be acceptable.<sup>6</sup> Although the NRC Staff believes satisfactory alternatives exist, one such alternative—raising the elevations of the facility foundation—could be compromised by the continuation of the LWA work in this case. Specifically, to the extent excavation work under the LWA would permit any excavation of the lower fill, the natural geologic foundation of the site could be so weakened as to foreclose this alternative. The lower till is probably more competent as a foundation material than an engineered backfill (such as crushed rock) which might be placed in the excavation in order to raise the elevation of the plant foundations. Concrete is an engineered backfill material which is as competent as the lower till. However, the financial cost of placing lean concrete as a backfill material in the excavation may render this approach impractical.

With respect to environmental concerns, the NRC Staff concluded that dewatering at the construction site would have a negligible environmental impact because site dewatering could occur only during the limited period required to construct the proposed facility.<sup>7</sup> The bases for this conclusion, however, could be violated if the Licensees adopted the permanent dewatering system proposed in Amendment No. 22 because dewatering of the site would occur during the forty-year life of the facility. Moreover, the use of the permanent dewatering system gives rise to a number of environmental considerations which have not been previously reviewed and evaluated by either the NRC Staff or the Licensees. These environmental considerations include (1) the drawdown resulting from the proposed permanent dewatering system

<sup>4</sup> The NRC Staff has questions regarding the structural integrity and the performance characteristics of the proposed permanent dewatering system, including the adequacy of the analytical methods used to determine (a) the basis for the proposed strength of the porous concrete blanket; (b) the basis for the seismic category and the safety classifications proposed for the permanent dewatering system; (c) the basis for the permeability values proposed for the porous concrete blanket; (d) the basis for the analysis of the flow distribution within the porous concrete blanket; (e) the effect of potential random cracking and localized crushing of the porous concrete blanket, as well as potential random differential settlement, on the system performance and functionality; (f) the analytical modeling of the dynamic response of the manholes; (g) the structural integrity of the embedded power supply to the submersible pumps; and (h) the proposed preliminary design of the porous concrete blanket.

<sup>7</sup> Final Environmental Statement, Perry Nuclear Power Plant, Units 1 and 2, § 4.1.1, pp. 4-1, 4-2, dated April 1974.

<sup>4</sup> LBP-74-69, RAI-74-9, p. 538.

<sup>5</sup> LBP-74-76, RAI-74-10, p. 701.

tem which could adversely affect the groundwater level beyond the boundary of the facility site, (ii) the potential adverse effects on the in situ and adjacent biota and vegetation resulting from the drawdown of the groundwater level, (iii) the potential adverse effects of discharging the groundwater from the proposed permanent dewatering system, and (iv) the potential adverse effect on shoreline erosion adjacent to the proposed site resulting from the pattern of groundwater flow which the Licensees propose to alter during the lifetime of the proposed facility. In short, Licensees' Amendment No. 22 requires, in the foregoing respects, further environmental review of the proposed facility.<sup>2</sup>

Copies of the Licensees' PSAR, including Amendments Nos. 12 and 22, Mr. Boyd's letters dated October 21 and November 8, 1974, and all pertinent information have been placed in the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, Northwest, Washington, D.C. 20545 and the Nuclear Regulatory Commission's Local Public Document Room, Perry Public Library, 3753 Main Street, Perry, Ohio 44081.

III. In view of the foregoing and pursuant to the Atomic Energy Act of 1954, as amended, and the regulations in 10 CFR Parts 2 and 50, *It is hereby found and ordered, That:*

The Licensees show cause, in the manner hereinafter provided, why all work activities under the LWA (see Attachment A to this Order) should not be suspended pending completion of the Nuclear Regulatory Commission's review and evaluation of the environmental and site suitability considerations raised by Amendment No. 22 to the PSAR; and

The public health, safety or interest requires, pending further order, that all work activities under the LWA (see Attachment A to this Order) be temporarily suspended, effective immediately with the date of issuance of this Order.

The Licensees may, on or before February 13, 1975, file a written answer to this Order under oath or affirmation. Within the same time, the Licensees or any interested person may request a hearing. If a hearing is requested, the Nuclear Regulatory Commission will issue an order designating the time and place for hearing. Upon failure of the Licensees to file an answer within the time specified, an order will be issued, without further notice, suspending any further activities under the LWA.

In the event that a hearing is requested, the issue to be considered at such hearing shall be: whether or not the work activities under the LWA should be suspended pending completion of the Nuclear Regulatory Commission's review and evaluation of the environmental and

site suitability considerations raised by the Licensees' Amendment No. 22 to the PSAR.

Order dated and issued at Bethesda, Maryland, this 20th day of January 1975.

EDSON G. CASE,  
Acting Director, Office of  
Nuclear Reactor Regulation.

#### ATTACHMENT A

The LWA work activities authorized are:  
I. Preparation of the site for construction of the facility (including such activities as clearing, grading, construction of temporary access roads and burrow areas) such as:

- a. Site survey and Layout—establishing permanent plant monuments and baselines.
- b. Clearing, grubbing, and demolition.
- c. Preliminary grading of the plant site.
- d. Diversion of the minor stream east of the plant.

1. Reconstruction of 850 linear feet of Lockwood Road with a drainage culvert.
- c. Relocation of the major stream.
- f. Grading for Barge unloading facility.

1. Including construction of the crushed stone reactor haul road.
- g. Site Service Roads.
- h. Relocation of the 16-inch gas pipeline.

2. Installation of temporary construction support facilities (including such items as warehouse and shop facilities, utilities, concrete mixing plants, docking and unloading facilities, and construction support buildings) such as:

- a. Construction Office and Warehouse Building.

1. Foundations and slab on grade.
- ii. Complete steel superstructure and concrete floors.

- b. Guard House.
- c. Concrete Batch Plant.
- d. Construction Power Substation.
- e. Construction Power Distribution System.

- f. Construction Parking Lots.
- g. Contoured Berms Along Farmly Road.
3. Excavation for facility structures.

4. Construction of service facilities (including such facilities as roadways, paving, railroad spurs, fencing, exterior utility and lighting systems, transmission lines, and sanitary sewerage treatment facilities) such as:

- a. Industrial Waste Lagoon Facility (2 lagoons—unlined).

1. Foundations.
- ii. Concrete superstructure (retaining walls, etc.).
- iii. Pumphouse structures complete.

- iv. Underdrain filter system.
- v. Earth dikes.
- b. Sanitary Sewerage Facility including the Tertiary Treatment Building.

1. Foundations including sheet piling as required.
- ii. Concrete retaining walls as required.
- iii. Pipe anchor blocks.

- iv. Building superstructures complete with equipment supports and/or foundations.
- c. Railroad Spur Line—approximately 3½ miles long, entering the plant site from the southwest.

- d. Onsite Railroad Sidings.
- e. Onsite Railroad Bridge—over the relocated major stream.

- f. Primary Access Road.
1. Bituminous Concrete.
- ii. Includes large corrugated metal drainage culvert.

- g. Sediment Control Dams.

1. In each of three construction drainage areas on-site.
- ii. Dumped riprap protection and a spillway with a metal skimming baffle.
- h. Yard Piping.

1. Plant storm drainage system—including catch basins and headwalls.
- ii. Fire system.
1. Site and Access Road Lighting System.
- j. Perimeter Grounding System.
- k. Chemical Cleaning Waste Lagoon—lined.

1. Oil Interceptor Structures.
- m. Construction Fencing.
5. Construction of the following structures, systems, and components which are not subject to the provisions of Appendix B to 10 CFR Part 50:

- a. Service Building.
1. Foundations.
- ii. Equipment foundations.
- iii. Superstructure.
- iv. Backfill.
- d. Circulating Water Line Installation.
- e. Circulating Water Pumphouse.
1. Fill concrete as required.
- ii. Installation of waterproofing membrane.
- iii. Placement of foundation mat.
- iv. Concrete exterior and interior walls.
- v. Backfill.
- f. Water Treatment Building and Auxiliary Boiler Building.
1. Foundations.
- ii. Equipment foundations and supports.
- iii. Superstructure.
- iv. Backfill.
- g. On-shore Discharge Facility.
1. Cooling Towers.
1. Foundations.
- ii. Superstructure and basins.
- iii. Backfill.

## OFFICE OF MANAGEMENT AND BUDGET

### CLEARANCE OF REPORTS

#### List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on January 20, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the clearance office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529), or from the reviewer listed.

<sup>2</sup> The NRC Staff, shortly, will file an appropriate pleading with the Board which will set forth the NRC Staff's views concerning what action in that forum, if any, is compelled by these changed circumstances.

## NEW FORMS

## CHICAGO BOARD OPTIONS EXCHANGE, INC.

## Delaying Effectiveness of Proposed Amendment to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed an amendment to proposed changes in its option plan filed pursuant to Rule 9b-1 (17 CFR 240.9b-1) under the Securities Exchange Act of 1934 delaying their effectiveness until the Commission allows them to become effective or disapproves the changes in whole or in part as being inconsistent with the public interest or the protection of investors.

The proposed amendments to Rules 2.8, 18.1, 18.4, 18.5, 18.7 and 18.13, noticed on December 20, 1974 at 39 FR 44100,

seek principally to simplify Exchange arbitration procedures and to reduce the number of arbitrators serving on arbitration panels in controversies arising out of Exchange business. In addition, the proposed amendments would, among other things, change the qualifications of nonmember arbitrators serving on arbitration panels in disputes between Exchange members and nonmembers.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after they have become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to file number 10-54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, N.W., Washington, D.C.

[SEAL] SHIRLEY E. HOLLIS,  
Assistant Secretary.

JANUARY 16, 1975.

[70-5608]

## JERSEY CENTRAL POWER &amp; LIGHT CO.

## Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

JANUARY 17, 1975.

Notice is hereby given that Jersey Central Power & Light Company ("Jersey Central"), Madison Avenue at Punch Bowl Road, Morristown, New Jersey 07960, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Jersey Central proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to \$35,000,000 principal amount of First Mortgage Bonds, due not later than March 1, 2005 ("bonds"). The interest rate (which will be a multiple of 1/8% of 1%) and the price (which will be not less than 100 percent and not more than 102.75 percent of the principal amount of the bonds, plus accrued interest from March 1, 1975, to the date of delivery) will be determined by competitive bidding. The bonds will be issued under the Indenture, dated as of March 1, 1946, of Jersey Central to First National City Bank, successor to First National City Trust Company (formerly City Bank Farmers Trust Company), Trustee, as heretofore supplemented and amended, and as to be further supplemented and

amended by a Twenty-sixth Supplemental Indenture to be dated as of March 1, 1975. None of the bonds may be redeemed at the option of Jersey Central prior to March 1, 1980, if the funds for such redemption are obtained at an interest cost lower than the yield of the bonds, except under certain circumstances.

The entire proceeds (exclusive of premium and accrued interest) from the sale of the bonds, will be applied to the payment of a portion of Jersey Central's short-term bank loans outstanding at the date of sale of the bonds, for construction purposes or to reimburse Jersey Central's treasury for funds previously expended for construction purposes. Premium resulting from the sale of the bonds will be used for financing the business of Jersey Central, including the payment of the expenses of issuing and selling the bonds. The estimated cost of Jersey Central's 1975 construction program is approximately \$135,000,000 (including allowance for funds used during construction).

The fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that the Board of Public Utility Commissioners of New Jersey has jurisdiction over the proposed issue and sale of bonds and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than February 12, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,  
Assistant Secretary.  
[FR Doc.78-2186 Filed 1-23-75;8:45 am]

### ARKANSAS LOUISIANA GAS CO. AND GREYHOUND CORP.

#### Application for Unlisted Trading Privileges and of Opportunity for Hearing

JANUARY 17, 1975.

The Midwest Stock Exchange, Inc. has filed an application with the Securities and Exchange Commission pursuant to section 12(f) (1) (B) of the Securities Exchange Act of 1934 and rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following companies, which securities are presently listed and registered on that Exchange and will continue to be listed and registered on one or more other national securities exchange. Applications have been filed with the Commission to withdraw and strike from listing and registration on the Midwest Stock Exchange the common stock of the following companies, to be effective upon the granting of unlisted trading privileges.

Arkansas Louisiana Gas Company, File Nos. 7-4714, 1-3751.  
Greyhound Corporation, File Nos. 7-4715, 1-2117.

Upon receipt of a request, on or before February 5, 1975 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,  
Assistant Secretary.  
[FR Doc.2237 Filed 1-23-75;8:45 am]

### CHICAGO BOARD OPTIONS EXCHANGE, INC.

#### Delaying Effectiveness of Proposed Amendments to Option Plan

Notice is hereby given that the Chicago Board Options Exchange, Inc. (CBOE) has filed an amendment to proposed changes in its option plan filed pursuant to Rule 9b-1 (17 CFR 240.9b-1) under the Securities Exchange Act of 1934 delaying their effectiveness until the Commission allows them to become effective or disapproves the changes in whole or in part as being inconsistent with the public interest or the protection of investors. The amendments were

originally published at 39 FR 44100 on December 20, 1974.

The proposed amendments would modify rule 2.6 in two ways: First, the definition of a quorum for the Floor Procedure Committee would be changed from "three" to a "majority" to reflect the growth in the size of the Committee. Second, the Floor Procedure Committee would be empowered to appoint additional Floor Officials from among those members who are regularly engaged in business on the Exchange floor. These additional Floor Officials would assist the Floor Procedure Committee in overseeing activity on the floor and in maintaining a fair and orderly market. The additional Floor Officials would not be members of the Floor Procedure Committee and would not have the authority to halt trading under Rule 6.3, to declare a fast market and take related action under proposed Rule 6.6 or to impose fines under Rule 6.20.

Proposed Rule 6.6 is new and would grant the Floor Procedure Committee and its members authority to adopt special procedures to deal with unusual market conditions. Whenever a large influx of orders in a particular class of option contracts impairs the maintenance of a fair and orderly market under normal trading procedures, it is proposed that a Floor Official may declare the market in that class to be "fast." Under a "fast market" declaration, a Floor Official would be authorized to do one or more of the following with respect to the class or classes involved:

- (i) Assign one or more classes or series of options traded at the post to Board Brokers at other posts.
- (ii) Authorize Board Broker clerks to execute transactions.
- (iii) Assign brokerage responsibilities for particular series to specific Floor Brokers in the trading crowd.
- (iv) Authorize one or more Market-Makers to act as Floor Brokers.
- (v) Direct that one or more trading rotations be employed pursuant to Rule 6.2.
- (vi) Restrict the entry of new orders into the book.
- (vii) Take such other actions as are deemed necessary in the interest of maintaining a fair and orderly market.

The fast market would be terminated as soon as conditions would permit. This proposal is intended to provide an alternative to halting trading under existing rule 6.3.

Proposed rule 6.6 would also empower the Floor Procedure Committee to place restrictions on the entry of certain types of orders in one or more classes or series of option contracts if deemed necessary for the maintenance of a fair and orderly market. Any such restriction would require approval by the Exchange's Board of Directors if it were to remain in effect for longer than two consecutive business days.

All interested persons are invited to submit their views and comments on the proposed amendments to CBOE's plan either before or after they become effective. Written statements of views and comments should be addressed to the Secretary, Securities and Exchange Com-

mission, 500 North Capitol Street, Washington, D.C. 20549. Reference should be made to File No. 10-54. The proposed amendments are, and all such comments will be, available for public inspection at the Public Reference Room of the Securities and Exchange Commission at 1100 L Street, NW, Washington, D.C.

Dated: January 20, 1975.

[SEAL] SHIRLEY E. HOLLIS,  
Assistant Secretary.

[FR Doc.75-2238 Filed 1-23-75; 8:45 am]

[File Nos. 24NY-7375, 3-4598]

**ROBERT SHELLEY PRODUCTIONS, LTD.**  
Order Temporarily Suspending Exemption  
JANUARY 16, 1975.

I

Robert Shelley Productions, Ltd. ("Productions" or "issuer") is a New York corporation originally located at 14 East 62nd Street, New York, New York. It was organized on April 9, 1971 to engage in production of theatrical, television and film works. The issuer changed its name in January, 1972 to National Cultural Industries, Inc., and its present location is 510 Sylvan Avenue, Englewood Cliffs, New Jersey.

On July 2, 1971 Productions filed a notification pursuant to Regulation A in connection with a proposed offering of 300,000 shares of its \$0.01 par value common stock at \$1.00 per share. The offering was to be conducted by Norbert Associates, Inc. as underwriter on a "best efforts one-third-or-none" basis. After one amendment to the notification, the offering commenced on October 19, 1971. The offering was completed on February 11, 1972, with the sale of 161,350 shares.

II

The Commission, on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The offering circular filed by Productions contains untrue statements of material facts and omits to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading, in the following respects:

1. The statement that Productions owned certain assets which, in fact, it did not own at the commencement of the offering;

2. The listing of an individual as a director who, in fact, was not a director of the issuer; and

3. The statement that an advance against royalties in the amount of \$10,000 was paid to the author of a certain stage play.

B. The terms and conditions of Regulation A have not been met in the following respects:

1. The offering circular inaccurately sets forth the issuer's assets;

2. The offering circular incorrectly identifies an individual as a director of the issuer; and

3. The offering circular incorrectly states the amount of an advance against royalties that was paid to the author of a certain stage play.

C. The offering was made in violation of Section 17 of the Securities Act of 1933, as amended.

D. Orders of Injunction were issued in New York State Supreme Court against the issuer and Robert Shelley, its president, after the filing of the notification which would have rendered the Regulation A exemption unavailable if it had occurred prior to such filing.

III

It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is ordered, Pursuant to rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of the issuer under Regulation A be, and hereby is, temporarily suspended;

It is further ordered, Pursuant to rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within thirty days of the entry thereof;

Notice is hereby given That any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing within thirty days after the entry of this order; that within twenty days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for a hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for the said hearing will be promptly given by the Commission. If no hearing is requested and none is ordered by the Commission, the order shall become permanent on the thirtieth day after its entry and shall remain in effect unless it is modified or vacated by the Commission.

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,  
Assistant Secretary.

[812-3699]

**WELLINGTON FUND, INC., ET AL.**

Filing of Application for an Order  
Permitting Certain Proposed Transactions

JANUARY 17, 1975.

Notice is hereby given That Wellington Fund, Inc., Windsor Fund, Inc., Ivest Fund, Inc., Exeter Fund, Inc., Explorer Fund, Inc., Trustees' Equity Fund, Inc., Wellesley Income Fund, Inc., W. L. Morgan Growth Fund, Inc., Westminster Bond Fund, Inc., and Fund for Federal Securities, Inc., all open-end diversified

management investment companies, and Gemini Fund, Inc., a closed-end diversified investment company ("Fund"), all of which are registered under the Investment Company Act of 1940 ("Act"); The Vanguard Group, Inc. ("Vanguard"), a Pennsylvania corporation; and Wellington Management Company ("WMC") (collectively "Applicants"), P.O. Box 823, Valley Forge PA. 19482, filed an application on October 4, 1974, pursuant to section 17(b) of the Act and rule 17d-1 thereunder for an order permitting Applicants to engage in certain transactions. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

WMC is presently the "external" investment adviser to each of the Funds and the principal underwriter for all of the Funds except Exeter and Gemini, which do not continuously offer their shares and have no principal underwriter. Pursuant to investment advisory contracts and principal underwriting agreements between WMC and each of the Funds, WMC, in addition to performing advisory and underwriting functions, also provides virtually all of the day-to-day internal corporate administrative services and most of the personnel required for each Fund's operation.

The application states that the boards of directors of the Funds, which, except for Explorer Fund, consist of the same individuals (Explorer Fund has one less member), have conducted a detailed review and analysis of the means by which the Funds could best obtain corporate administration, investment advisory and distribution services. The boards concluded that the Funds should (a) employ a full-time chief executive officer, a full-time supporting executive and a managerial and clerical staff all of whom would be independent of any external investment adviser or distributor; (b) assume for themselves the responsibility of performing, at cost, most corporate administrative functions presently performed by WMC; and (c) continue to contract with WMC for investment advisory and distribution services. The application states that WMC has agreed to enter into revised advisory and underwriting relationships with the Funds based upon their determination to "internalize" corporate administrative functions and to assist in the implementation of these revised relationships. The application also states that Funds and WMC have negotiated a revised investment advisory fee rate schedule which, based upon specified past and present levels of the Funds' assets, will reduce the total advisory fees to be paid by the Funds to WMC by the amount of expenses previously borne by WMC plus an additional amount that will result in reduced total expenses for the Funds.

Funds propose to internalize their corporate administration functions by acquiring, capitalizing, and operating a "service company"—Vanguard—which will be owned by the Funds. Funds will

contract with Vanguard to obtain, at cost, substantially the following services: Fund accounting, including the maintenance of books and records; Fund reporting, including the preparation and filing of federal and state securities and tax reports and shareholder communications; supervision of the maintenance of shareholder accounts; administration of the arrangements between Funds and their custodian and depository banks; performance of budget and control functions, including the preparation of budgets and supervision of payments for services; and monitoring and planning, including the review and evaluation of externally performed services.

Under the proposal, Funds will have their elected executive officers who will be employed by Vanguard and who will be responsible for the Funds' general management. No officers or employees of Vanguard will be permitted to own any securities of or to have interests in any external adviser or distributor for the Funds. The initial board of directors of Vanguard will be composed of the eleven directors of the Funds. The initial staff is estimated to consist of sixty officers and employees, most of whom are presently employed by Funds or WMC.

Applicants propose that Funds capitalize Vanguard by purchasing shares of its common stock (or other securities) in proportion to the Funds' relative net assets on the last business day of the month preceding the date on which shares are purchased. The total initial capitalization cannot exceed \$500,000 and is expected not to exceed \$300,000, which represents the amount necessary for working capital and the purchase of needed office equipment and furnishings from WMC. Based upon Fund assets on August 31, 1974, Applicants estimate that each Fund would contribute approximately .02 percent of its current net assets and in no event more than .05 percent thereof. The amount invested by each Fund will be periodically adjusted by purchases and sales of Vanguard stock among the Funds to reflect changing net assets, assuring that investments do not become disproportionate. Each Fund will be entitled to vote its shares of Vanguard. In the event a Fund terminates its relationship with Vanguard it will be entitled to receive the fair value of its shares of Vanguard.

Applicants contemplate the purchase by Vanguard of various tangible assets such as office furniture, equipment and supplies necessary for the conduct of its business, including furnishings to be purchased from WMC at a negotiated price not to exceed \$60,600.

Section 17(a) of the Act provides, in part, that it shall be unlawful for any affiliated person of or principal underwriter for a registered investment company, acting as principal, knowingly to sell any security or other property to such registered investment company or to any company controlled by such registered company or, knowingly to pur-

chase from such registered investment company any security, with certain exceptions not relevant to the application. Section 17(b) of the Act provides, however, that the Commission, upon application, may exempt a transaction from the provisions of section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act. Vanguard would be an affiliated person of several of the Funds which will own more than 5 percent of its voting securities. Further, since there will be common directors and Funds will own all of Vanguard's voting securities, Vanguard may be deemed to be directly or indirectly controlled by, or under common control with, one or more of the Funds. Vanguard's voting securities, Vanguard affiliated person of Funds; and Funds may be deemed to be affiliated persons of each other. WMC is an affiliated person of each of the Funds. Thus, Applicants state, the proposed purchases and sales of Vanguard shares between Funds and Vanguard and sales of tangibles by WMC to Vanguard may be deemed subject to the provisions of section 17(a).

Section 17(d) of the Act and Rule 17d-1 thereunder, in pertinent parts, prohibit an affiliated person of a registered investment company, acting as principal, to participate in, or effect any transaction in connection with any joint enterprise or arrangement in which any such registered investment company or a company controlled by such registered company is a participant with the affiliated person unless an application regarding such transaction is filed and an order is granted approving such joint enterprise or arrangement prior to its submission to security holders for approval; and provide that, in passing upon such application, the Commission will consider whether the participation of such registered or controlled company in such arrangement is consistent with the provisions, policies and purposes of the Act, and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

Applicants state that by virtue of the affiliations described above one, or more or all of the Funds, Vanguard and/or WMC may be deemed to be engaged in such a joint transaction and prohibited from participating in the proposed transaction unless the Commission issues an order allowing the implementation of the proposal.

Applicants therefore, request an order pursuant to section 17(b) of the Act and rule 17d-1 thereunder permitting (1) Vanguard to issue and the Funds to purchase securities of Vanguard as described above; (2) Funds periodically to purchase and sell their securities of Vanguard among themselves to maintain

ownership of Vanguard proportional to their assets; (3) WMC to sell office furnishings and equipment to Vanguard; and (4) Funds, Vanguard and/or WMC to enter into and implement the proposed joint transaction described herein.

Applicants represent that all the proposed arrangements and transactions described in the application comport with the applicable statutory standards.

Funds state that by internalizing the management of Funds' corporate administrative affairs through Vanguard the Funds can achieve increased independence from, and an increased ability to monitor and evaluate the performance of, any external investment adviser or distributor, thereby increasing their ability to obtain the best investment advisory, distribution, and administrative services at a reasonable cost. The Funds further state that the proposed arrangement will increase the Funds' bargaining in obtaining advisory and underwriting services and reduce the Funds' expenses both immediately and in the long run by having corporate administrative services performed at cost. The Funds estimate that their expenses will be immediately reduced by approximately \$300,000 to \$500,000. The Funds state the proposed capitalization of Vanguard to be reasonable in view of the anticipated working capital needs of Vanguard and the de minimis portion of each Fund's assets to be invested and fair since each Fund will contribute capital in proportion to its current net assets with the capital contributions being adjusted periodically so that no Fund will have a disproportionate investment. Applicants also state the consideration to be paid to WMC for office furnishings and equipment necessary to conduct Vanguard's business is reasonable and fair and involves no overreaching on the part of any person concerned.

Applicants further note that the proposed arrangement will be submitted for approval by each Fund's shareholders who must also approve any necessary changes in Fund policies. The Funds state that the essential purposes of the proposal—to increase their independence and control of their affairs, increase their ability to obtain and monitor external services and reduce costs—are consistent with the provisions, policies and purposes of the Act.

*Notice is further given* That any interested person may, not later than February 11, 1975 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing)

upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of hearing (if ordered) and any postponements thereof.

By the Commission.

## INTERSTATE COMMERCE COMMISSION

[Notice 681]

### ASSIGNMENT OF HEARINGS

JANUARY 21, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 140008 Sub 1, Wellington Transportation Corporation, now being assigned March 17, 1975 (2 days), at Kansas City, Mo., in a hearing room to be designated later.

MC 44735 Sub 13, Kissick Truck Lines, Inc., now being assigned March 19, 1975 (2 days), at Kansas City, Mo., in a hearing room to be later designated.

MC 139979, American Colloid Carrier Corp., now being assigned March 21, 1975 (1 day), at Kansas City, Mo., in a hearing room to be designated later.

MC-F-12218, Crouch Bros., Inc.—Control—Caddo Express, Inc., and MC 134308 Sub 8, Caddo Express, Inc., now being assigned March 24, 1975 (1 week), at Kansas City, Mo., in a hearing room to be designated later.

MC 116763 Sub 284, Carl Subler Trucking, Inc. now being assigned February 21, 1975, at Chicago, Ill., Room 1086A, Everett McKinley Dirksen Building, 219 S. Dearborn St.

MC 117165 Sub 37, C. J. Davis, DBA St. Louis Freight Lines, now being assigned, February 20, 1975, at Chicago, Ill., Room 1086A, Everett McKinley Dirksen Bldg., 219 S. Dearborn St.

MC 139841, Denver Trans-Corp., now assigned February 3, 1975, at Denver, Colo., is cancelled and the application is dismissed.

MC 119774 Sub 77, Eagle Trucking Company, now assigned January 29, 1975, at Denver, Colorado, is cancelled and the application is dismissed.

MC-F-12234, Century Express, LTD.—Purchase—Lansdale Transportation Co., Inc., now assigned January 29, 1975, at Philadelphia, Pa., is postponed indefinitely.

MC 124211 Sub 244, Hilt Truck Line, Inc., now assigned February 5, 1975, at Denver, Colorado, is cancelled and the application is dismissed.

MC 106401 Sub 38, Johnson Motor Lines, Inc., application dismissed.

MC 139724 Sub 2, Novo Package Delivery, Inc., application dismissed.

MC 139794 Sub 1, Somerset Limousine Service, Inc., application dismissed.

No. 36060, Seaway Port Authority of Duluth, et al. v. Burlington Northern, Inc., et al., now being assigned April 22, 1975 (4 days), at St. Paul, Minn., in a hearing room to be designated later.

MC 107498 Sub 850, Ruan Transport Corporation, now assigned February 6, 1975, at Chicago, Ill., is advanced to February 3, 1975, in Room 204A, Everett McKinley Dirksen Building, 219 S. Dearborn St., Chicago, Ill.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[F.R. Doc.75-2255 Filed 1-23-75;8:45 a.m.]

[I.C.C. Order 138 Under Rev. S. O. No. 994]  
BURLINGTON NORTHERN, INC. AND  
CHICAGO, ROCK ISLAND AND PACIFIC  
RAILROAD CO.

#### Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Burlington Northern Inc., and the Chicago, Rock Island and Pacific Railroad Company are unable to transport traffic to or from connections or to or from shippers located at Burlington, Iowa, or Mediapolis, Iowa, because of flooding.

It is ordered, That: (a) The Burlington Northern Inc., and the Chicago, Rock Island and Pacific Railroad Company being unable to transport traffic to or from connections or to or from shippers over their joint line between Burlington, Iowa, and Mediapolis, Iowa, because of track damage from high water and flooding; that carriers and their connections are hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Concurrence of receiving roads to be obtained. The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) Notification to shippers. Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted, or rerouted by said

Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) Effective date. This order shall become effective at 3:30 p.m., January 10, 1975.

(g) Expiration date. This order shall expire at 11:59 p.m., January 31, 1975, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., January 10, 1975.

INTERSTATE COMMERCE  
COMMISSION,  
R. D. PFAHLER,  
Agent.

[F.R. Doc.75-2258 Filed 1-23-75;8:45 a.m.]

#### FOURTH SECTION APPLICATION FOR RELIEF

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42929—Wrought Iron or Steel Oil Country Tubular Goods and Line Pipe to Colley, Louisiana. Filed by Southwestern Freight Bureau, Agent, (No. B-507), for interested rail carriers. Rates on wrought iron or steel oil country tubular goods and line pipe, in carloads, as described in the application, from Minnequa and Pueblo, Colorado, to Colley, Louisiana.

Grounds for relief—Rate relationship. Tariff—Supplements 62 and 63 to Southwestern Freight Bureau, Agent, tariff 259-F, I.C.C. No. 5080. Rates are

published to become effective on February 20, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc.75-2260 Filed 1-23-75;8:45 am]

[AB 43 (Sub-No. 7)]

**ILLINOIS CENTRAL GULF RAILROAD CO.**  
Abandonment of Line

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Massac County, Ill., on or before January 29, 1975, and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 13th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[AB 43 (Sub-No. 7)]

**ILLINOIS CENTRAL GULF RAILROAD COMPANY,**  
ABANDONMENT BETWEEN METROPOLIS AND  
BROOKPORT, MASSAC COUNTY, ILLINOIS

The Interstate Commerce Commission hereby gives notice that by order dated January 13, 1975, it has been determined that the proposed abandonment by the Illinois Central Gulf Railroad Company from Metropolis to Brookport, in Massac County, Ill., a distance of 5.78 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed action are not considered significant because no traffic has been handled on the line since March, 1973, no diversion of traffic from rail to truck will occur, and there are no development plans or land use policies in the tributary territory which are dependent on the availability of rail service. In addition, no major ecological impacts would result should

the abandonment be authorized. Furthermore, the Illinois Department of Conservation and the Massac County Bicentennial Committee have expressed their desire to purchase that portion of the right-of-way that passes through Fort Massac State Park for a linear park.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before February 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-2257 Filed 1-23-75;8:45 am]

[Finance Docket No. 25949]

**LEHIGH VALLEY RAILROAD**  
Abandonment of Line

JANUARY 21, 1975.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

*It appearing*, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in the Borough of Towanda, Pa., on or before January 29, 1975, and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 16th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Finance Docket No. 25949]

**LEHIGH VALLEY RAILROAD, ABANDONMENT**  
BETWEEN DUSHORE AND TOWANDA, PENNSYLVANIA

The Interstate Commerce Commission hereby gives notice that by order dated January 16, 1975, it has been determined that the proposed abandonment of its entire line of the Lehigh Valley Railroad (LV), between Dushore and Towanda, Pennsylvania,

a total distance of 20,889 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts are not considered significant because there have been no operations over the line since June 1973, and prospects for substantial increased demand are speculative, alternate means of transportation are available including rail service over the lines of the Lehigh Valley Railroad Co. at Towanda. The increase in traffic created by diversion to motor carriers will not result in a significant increase in energy consumption nor a significant degradation of the area's air quality or noise levels. The Pennsylvania Department of Transportation is negotiating with Lehigh Valley to purchase this line and restore service at least initially to Monroeton. Reinstitution of service by the State would substantially mitigate any anticipated adverse effects.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before February 17, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-2259 Filed 1-23-75;8:45 am]

[Docket No. AB 33 (Sub. No. 6)]

**UNION PACIFIC RAILROAD CO.**  
Abandonment of Line

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

*It appearing*, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Jackson County, Colo., on or before January 21, 1975, and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Fed-

eral Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 6th day of January, 1975.

By the Commission, Commissioner Tuggle.

[SEAL]

ROBERT L. OSWALD,  
*Secretary.*

[Docket No. AB 33 (Sub-No. 6)]

UNION PACIFIC RAILROAD COMPANY ABANDONMENT PORTION, COALMONT BRANCH BETWEEN WALDEN AND HEBRON, IN JACKSON COUNTY, COLORADO

The Interstate Commerce Commission hereby gives notice that by order dated January 6, 1975, it has been determined that the proposed abandonment by the Union Pacific Railroad Company of its line from Milepost 93.00 at Walden southwesterly to

Milepost 108.00 at Hebron, a distance of about 15.0 miles, all in Jackson County, Colo., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2) (C) of the NEPA.

It was concluded, among other things, that the environmental effects of the proposed abandonment are not considered significant because no traffic has moved over the line since 1970 and there is no immediate prospect of obtaining additional business that would warrant continued operations and maintenance. Although abundant coal resources are located in the general area affected by the abandonment, there are no indications that these resources will be developed in the near future or will be adversely affected by the proposed abandon-

ment. In addition, any anticipated shipments in the area involved can be accommodated by motor carrier services with negligible impacts on the local air and water quality.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before February 5, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

## **FEDERAL COMMUNICATIONS COMMISSION**

■

### **SCHEDULE OF FEES**

## Title 47—Telecommunication

## CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19658; FCC 75-32]

## PART 1—PRACTICE AND PROCEDURE

## PART 13—COMMERCIAL RADIO OPERATORS

## Fee Schedules

In the matter of amendment of Subpart G of Part 1 of the Commission's rules relating to the schedule of fees. Docket No. 19658.

Amendment of Part 13 of the Commission's rules relating to commercial radio operator licenses.

1. On August 7, 1974, the Commission adopted a further notice of proposed rule making in the above-entitled matter looking toward a general revision of the Commission's schedule of fees.<sup>1</sup> It was indicated at the time of adoption of the Commission's first schedule of fees that we would undertake a continuing review of the schedule.<sup>2</sup> The current proceeding is a reflection of that continuing review. A large number of comments, both formal and informal, have been received and fully considered.

2. The statutory basis for the establishment of a schedule of fees by the Commission is Title V of the Independent Offices Appropriation Act of 1952, 31 U.S.C. 483a (hereinafter referred to as Title V). That section provides:

It is the sense of the Congress that any work, service, publication, report, document, benefit, privilege, authority, use, franchise, license, permit, certificate, registration, or similar thing of value or utility performed, furnished, provided, granted, prepared, or issued by any Federal agency (including wholly owned Government corporations as defined in the Government Corporation Control Act of 1945) to or for any person (including groups, associations, organizations, partnerships, corporations or businesses), except those engaged in the transaction of official business of the Government, shall be self-sustaining to the full extent possible, and the head of each Federal agency is authorized by regulation (which, in the case of agencies in the executive branch, shall be as uniform as practicable and subject to such policies as the President may prescribe) to prescribe therefor such fee, charge, or price, if any, as he shall determine, in case none exists, or redetermine in case of any existing one, to be fair and equitable taking into consideration direct and indirect cost to the Government, value to the recipient, public policy or interest served, and other pertinent facts, and any amount so determined or redetermined shall be collected and paid into the Treasury as miscellaneous receipts \* \* \*.

3. The Commission first adopted a schedule of fees in 1963. That schedule was limited in its scope and established nominal fees producing revenue that totalled approximately 25 percent of the Commission's current appropriations.<sup>3</sup> In 1970 the Commission

adopted a new and comprehensive schedule intended to produce a fee revenue that would generally approximate the Commission's costs.<sup>4</sup> *Fees Schedule*, 23 FCC 2d 880 (1970), 28 FCC 2d 139 (1971). However, on March 4, 1974, the Supreme Court handed down its decision in *National Cable Television Association, Inc. v. United States*, 415 U.S. 336 (1974), a case which had arisen out of a number of petitions for judicial review of the schedule of fees adopted by the Commission in 1970.<sup>5</sup> While the case before the Supreme Court involved only the cable television annual fee, the decision raised certain basic questions with respect to the manner in which the Commission had computed the fees adopted in its 1970 schedule. Since Title V must, of course be interpreted by the Commission in the future in light of the Supreme Court's construction of the statute, we issued the further notice of proposed rule making on August 7, 1974 which is the subject of this Report and Order. The notice reflected the remand of the case for further proceedings directed by the Supreme Court with respect to the cable television annual fee and, in addition, proposed other revisions in the schedule of fees in light of the Court's interpretation of the statute.

4. The Supreme Court in the *NCTA* decision remanded the matter for further proceedings consistent with its opinion after holding that since the Commission's activities benefit the public as well as the regulated industries, the Commission could not merely calculate the total cost of supervision and then contrive a formula that reimburses the Commission for that amount; the Congressional aim that franchisees pay some of the cost of necessary regulation, the Court stated, can be achieved within the framework of "value to the recipient" as contrasted with the public policy interest that is also served. Thus, the Court rejected the concept that the Commission's fees should approximate its budget, stating that the cable television annual fee should not include the agency's costs "for the protective services rendered the public by the Commission." Our Further Notice of Proposed Rule Making was designed to revise the schedule of fees in accordance with the Court's directive.

5. We note at the outset that numerous comments in this proceeding argued that the Court declared annual fees to be illegal *per se*. However, the Court's opinion does not support their contention. We also take note of the fact that the dissent expressly declared its dissatisfaction with the majority's failure so to hold. We therefore reject the contention

<sup>4</sup>On February 26, 1974 the Commission adopted a further Report and Order establishing a new schedule of fees that was to have been effective May 1, 1974. See FCC News Report No. 9201, February 27, 1974. On March 7, 1974, this Report and Order was set aside. See FCC News Report No. 9233, March 8, 1974.

<sup>5</sup>Petitions for review of the 1970 schedule were consolidated in the United States Court of Appeals for the Fifth Circuit which, in the case of *Clay Broadcasting v. United States*, 464 F. 2d 1313 (1972), affirmed the Commission's schedule of fees in all respects. Only the National Cable Television Association petitioned the Supreme Court to review the *Clay Broadcasting* decision.

that the statute withholds power to fashion fees payable on an annual basis.<sup>6</sup>

6. The further notice proposed a revised schedule of fees under which only the costs of those Commission activities that are specifically identified as benefiting identifiable recipients are included as costs to be recovered in the fee program. A fundamental ground upon which the Further Notice was based and upon which the schedule adopted herein is based is that the "value to the recipient" factor is reasonably related to a portion of the Commission's costs. When the *NCTA* decision is read together with Title V, a clearly reasonable interpretation that will result in a workable statute is to base the fees as a reflection of value to the recipients upon the cost of Commission activities that confer a benefit on identifiable recipients. The comments have uniformly failed to recognize this. The value to the recipient cannot practically be construed as an abstract concept unrelated to the other considerations set out in Title V. The Court's discussion in *NCTA* of the "protective services" the Commission renders the public as compared to the benefits<sup>7</sup> it confers on individual recipients indicates, as does the statute itself, that the costs of providing those benefits constitute the base, and outer limit, for Commission fee recovery. Otherwise the Commission could base its fees on the "true" value to the recipient in an economic sense, and we suspect that no one would argue that the value to individuals of the hundreds of thousands of authorizations issued each year by the Commission does not exceed the Commission's total costs of operation manifold. Thus, in attempting to revise our schedule of fees in a manner that will be consistent with Title V as construed by *NCTA*, we have identified those areas, primarily processing of applications and other authorizations, which provide a clear value to identifiable recipients. The costs of providing these benefits were set as the upper limit of fee recovery in each area and viewed as equivalent to the total value to all recipients of the specific services. However, rather than dividing the costs equally among all applicants e.g., for broadcast construction permits, which would seem unfair, or attempting to assess fees based on the Commission's actual costs of processing each individual application, which would be unreasonably difficult, if even possible, the value to the recipient concept has been used to establish reasonable fees that reflect the varying value to the myriad of different kinds and sizes of Commission applicants and licensees, whether it be a television station with a spot rate of \$3,000 or a radio station with a spot rate of \$5; a cable television system with 500 subscribers or 5,000 subscribers; an amateur radio station or a station providing service on a commercial basis in the 806-947 MHz band. It is simply unrealistic

<sup>6</sup>See Order of Court of Claims in *Cannon Beach TV Co. Inc., et al. v. United States* (Case No. 82-74), November 15, 1974 at p. 2.

to suggest, as many comments have, that the value received from such Commission authorizations does not justify the fees.

7. Another basic point which has also been generally ignored and/or misunderstood by the comments, is that a Commission activity that benefits a recipient may be made subject to a fee even though the activity is performed to insure that the authorization received is exercised in a manner which serves the public interest. This point was emphasized in the further notice:

The Commission does not consider that either Title V or the NCTA decision establishes mutually exclusive categories of services, i.e., the Commission is not limited to charging fees for services which solely benefit the recipients of those services. Such a view would render Title V a nullity because the very basis for the establishment of the Commission was the protection of the public interest in wire and radio communication, and public interest considerations are thus an inherent part of all Commission activities. It is our view that the Commission is authorized to charge fees for those services that provide a value to identifiable recipients, which we have identified as activities associated with processing of applications that provide authorization for individuals, for example, to operate radio transmitters, or sell radio equipment, or collect common carrier charges. The fact that the general public may also benefit by Commission authorization of such activities, in that the activities may directly or indirectly provide a service to the public, does not limit the Commission's authority to charge a fee to the recipients of the services that will allow those services provided by the Commission to be operated on a self-sustaining basis as mandated in Title V.<sup>7</sup>

8. Numerous parties commented that the costs of all of the Executive Director's Office should be excluded from the fee collection base as not being directly attributable to application processing and related activities. However, there can be no doubt that the included portions of the Executive Director's Office do provide essential administrative support to the offices and bureaus engaged in the processing itself. As such, they are indirect costs of applications processing which should properly be included in the fee base.

9. Numerous parties objected to the inclusion of the cost of hearings in the fee base. It was frequently pointed out that hearings are required in order to determine whether a licensee is operating in the public interest or which of several competing applicants for a license could best serve the public interest, and it was claimed that the Commission's hearing role is as guardian of the public interest rather than as a provider of value to a recipient. Furthermore, it was argued that hearings are already very costly to Commission licensees and applicants, who should not have to bear the additional burden of the costs of protecting the public. As the Commission observed in the further notice, "the public interest factor is more clearly focused when a hearing is in-

volved."<sup>8</sup> However, it has not been the Commission's view that either Title V or the NCTA decision establishes mutually exclusive categories of services, i.e., those that solely provide value to a recipient and those which solely benefit the public. Although the public interest may be more clearly focused, hearings are only one phase of the process the ultimate result of which is the granting of licenses or otherwise providing some value to an identifiable recipient. Whether it be in hearings or in non-hearing review of applications to see if specific standards are met by an applicant, all of the Commission's processing relates to a request for an authorization which is of direct value to the recipient. This cost, we believe, is recoverable through fees.

10. On March 29, 1974, the Commission suspended the collection of the cable television and broadcast annual fees in view of the substantial questions raised by the opinion of the Supreme Court in the NCTA case. However, it is clear that the Supreme Court did not declare annual fees illegal *per se*, and there appears to be no reason for not reassessing annual fees for the period in which the suspension order has been in effect. The fees will be determined using the same method employed to calculate the other fees adopted in this Report and Order, but with the budget for fiscal year 1973 as the cost base. The recalculated cable television annual fees for calendar years 1973 and 1974 are being computed in this manner. The cable annual fee for calendar year 1975 will be as set forth in the appendix. The broadcast annual recalculated fee will cover the period April 1, 1973-December 31, 1974. The fee for any part of the twelve month fee payment period occurring after December 31, 1974 will be the fee appearing in the appendix. These fees and their due date will be announced in a second Report and Order to be issued in the very near future.

#### BROADCAST SERVICES (§ 1.1103)

11. The schedule of fees applicable to Broadcast Bureau applications has been altered significantly as a result of consideration of the comments and a re-examination of the varying processing costs of different applications. It appears that in fact annual fees and assignment and transfer fees produce revenues somewhat higher than the cost of processing renewal applications and transfer applications respectively whereas the revenues from fees for applications for construction permits, major and minor changes and other similar applications are considerably less than the cost of processing these applications. In light of this, we concluded that it would be advisable to determine more precisely the cost of processing the various applications filed with the Bureau and the cost of hearings related to those applications so that fee revenues would more nearly approximate the costs of processing each category of application.

12. As explained in the further notice, the cost figures utilized in developing the fee schedule were those appearing in the Commission's fiscal year 1975 budget estimates submitted to Congress. These estimates are prepared primarily by activity rather than by Commission organizational unit. The word "activity" denotes discrete functions within the Commission such as broadcast and common carrier and includes costs allocated from the administrative law judges, Review Board, Office of Opinions and Review, the Data Automation Division and the Dockets Branch. Each activity is divided into sub-activities which further describe discrete functions within each activity. Of the seven Broadcast sub-activities, the Commission, in developing the further notice, determined that the costs of only two, application processing and related hearings, could be recovered by fees. Thus, in further refining the cost allocation, the primary task was to allocate the cost of the two sub-activities—application processing and hearings—among the three primary categories of applications—renewals, assignments and transfers and facilities applications (applications for construction permits, major and minor changes, etc.).

13. Using estimated costs for the various units of the Broadcast Bureau which process the applications, the percentage of the cost of processing each type of application to the whole bureau cost of application processing was determined. These percentages were applied to the application processing sub-activity costs to determine the cost of processing each type of application. Two per cent was subtracted from each of these figures to account for the cost of processing fee exempt applications. Using estimates of the number of broadcast applications which would be designated for hearing in fiscal 1975, the percentage of the cost of hearings for each type of application to the whole cost of hearings was determined. As with the application processing sub-activity, these percentages were applied to the costs of the hearings sub-activity to determine the cost of hearings for each type of application. Two per cent was subtracted from each figure to account for enforcement hearings.

14. The fee recoverable costs for processing and hearings for each category of application were added. The portion of the cost of the Executive Director's Office assigned to Broadcast activity was divided between the three categories of applications on the basis of the ratio of each to the total Broadcast fee recoverable costs. The cost of the Antenna Survey program attributable to the Broadcast Bureau was then added to the total for facilities applications. The resulting total fee recoverable costs were \$1,509,178 for renewal applications, \$908,272 for transfer applications and \$4,558,184 for facilities applications.

15. By utilizing the method described above we have determined more precisely the costs which are incurred in the processing of each category of application. The total fee recoverable cost for the entire Bureau activity utilizing this

<sup>7</sup> 48 FCC 2d at 404.

<sup>8</sup> *Id.* at 406.

method is approximately the same as the total fee recoverable cost appearing in the Further Notice.

16. The annual fee has been lowered from that proposed in the Further Notice in order to recover the \$1,509,178 cost of processing renewal applications. We find no basis for the contention in several of the comments that the annual fee does not conform to the value concept set forth in the *NCTA* decision. It should be clear that the broadcast annual license fee is imposed in lieu of a renewal application fee. In the 1970 Report and Order in Docket 18802, adopting the present schedule of fees, the Commission pointed out that "upon the effective date of the fee schedule, renewal fees for all broadcast applications will be abolished in favor of annual operating fees."<sup>23</sup> We think there is no question that a fee based on license renewal is soundly rooted in the concept of value to the recipient. We do not agree with the argument in a number of comments that a renewal application fee would be more consistent with the *NCTA* decision. There is nothing in either *NCTA* or in *New England Power Co. v. Federal Power Commission*, 415 U.S. 345 (1974), which prohibits *per se* the use of annual fees. When it has been determined that certain Commission activities are of the type that provide valuable benefits to identifiable recipients, there may be a number of methods of assessing a fee. The selection among alternatives is within the Commission's discretion, and we have found nothing in the comments that raises any serious question as to the reasonableness of the selection of an annual fee as opposed to a renewal application fee for recovery of costs attributable to the renewal of operating authority every three years.

17. The assignment and transfer fee has also been lowered further to recover \$908,272, the cost of processing assignment and transfer applications. A number of comments raised questions as to both the general policy and the modification of assignment and transfer fees proposed in the further notice. There is no real question, as has been pointed out on numerous occasions, that the grant of an assignment or transfer application results in substantial benefits for the applicant. Moreover, the revised method of assessing the grant fee based on the gross revenue of the station involved clearly provides a reasonable and, we think, quite precise allocation of the fee among various types and sizes of applicants. Several parties also state that the collection of fees in assignment and transfer cases where there is an *inter vivos* gift will have an inhibiting effect on gifts to charitable institutions and would also complicate estate planning. However, assuming that any substantial effect could be demonstrated, we do not believe that its consideration is relevant here. As the Supreme Court made amply clear in the *NCTA* case, our function is not to levy a tax based upon considera-

tions of public policy, but rather to assess a fee to compensate for Commission work done which is of value to the recipient.

18. The various fees charged for the processing of applications by the Facilities Division have been raised so that fee revenues will more nearly approximate the costs of processing of those applications. As stated earlier this cost is \$4,558,184. The schedule adopted here is designed to recover approximately \$1,200,000. We believe that the various fees are reasonable and fully conform to Title V's mandate and the Supreme Court's decision in *NCTA*. Higher fees, although arguably warranted by the high cost of processing these types of applications, would not properly reflect the value to the recipient of our authorizations as the Supreme Court required. Therefore, we have concluded that we will not recover a large portion of the costs of processing facilities applications.

19. One party contends that the amount of some of the broadcast fees has an inhibiting effect on the Commission's regulatory actions, in that the Commission would hesitate to modify or fail to renew a license or to revoke a license, where the party affected could be said not to have had the opportunity to get the full benefit of the authorization for which the fee was paid. This concern is without foundation, and we note that no basis for it has been supplied.

#### ASSIGNMENT AND TRANSFER GRANT FEE

20. One of the comments suggests that the gross revenue approach is an improvement in the method of assessing grant fees because it gives a definiteness to the administration of the fee. However, that party also argues that the Commission has not disclosed its method of deriving the formulae used for arriving at different grant fees for different types of applications. We believe that the discussion in the further notice, 48 FCC 2d 409-11, as well as the internal Commission documents used in developing this portion of the schedule, which have been placed in the public docket, have given interested parties adequate and complete information as to the method by which the various formulae components were developed.

21. The rates (multipliers) that are contained in the formula represent the mathematical basis for computing the fee, using the underlying market value of the property in lieu of consideration, which was the base in the 1970 schedule. The use of the gross revenue method of computation of the grant fee in assignment and transfer cases meets the tests specified in *NCTA*, and it gives nearly complete administrative certainty as well as making it easy for the parties negotiating a transaction to compute the fee.

22. One of the parties suggests that the annual gross revenue figure, as reported on line 19 of FCC Form 324, should be reduced by the amount of line 15 of Form 324, *i.e.*, "All Broadcasting Revenues Other Than from Time Sales", because they say those "are not suffi-

ciently related to broadcasting functions to warrant their inclusion in the basis for computation of the Commission's grant fee \* \* \*". The amount of revenues disclosed on line 15, while not a part of time sales, is one of the components of the revenues that determine the entire market value of the broadcast property. Moreover, it would be a rare case in which they were a significant portion of the total annual gross revenues. We believe that certainty obtained in using the total annual gross revenues justifies its use.

23. Several of the parties vigorously challenge the charging of fees for acquisitions of further ownership interests within the two-year period following the transaction that gave rise to the necessity for filing the assignment or transfer application. The challenge is that such a fee is unreasonable and arbitrary because there is no application to process, and all that is involved is record changing in the station's ownership file. As we clearly outlined in the further notice, the Commission based the recovery of such a fee on the ground that interests acquired within the two-year period prior to the "control-acquiring" transaction that gives rise to the necessity of filing an application, and within the two-year period thereafter, are parts of the entire transaction. That is, we utilized the "transactional" approach (48 FCC 2d 412-13). The fact that little or no work is involved in changing the ownership records for additional acquisitions of ownership interests within the specified period is not the determining factor. The Commission is of the opinion that these acquisitions in practically all cases are part of a plan to acquire more than just majority control of the licensee, and we cannot reasonably permit a step-by-step acquisition to be used to frustrate the normal fee collection. Since the acquisitions within the period are part of a process of acquisition a grant fee calculated upon the entire process is fair and reasonable.

24. A number of parties contend that the Commission should create an exemption from grant fees for assignment and transfer applications that are based on involuntary changes in legal ownership to an executor or administrator upon the death of a licensee, a partner, or principal stockholder. They argue that fees in such cases are an undue burden, and are inequitable. Under the present provisions of Note 5 to § 1.1111(a)(5), such Form 316 applications filed pursuant to § 1.541 are exempt from the payment of grant fees. Note 5 makes clear that grant fees are required only on Form 316 applications filed pursuant to § 1.540(b)(3) or (b)(6). Of course, as in all Form 316 applications, filing fees are required.

25. Two of the parties state that the grant fees to be charged in partnership cases where a "less than controlling" interest in the partnership is transferred are discriminatory because "less than controlling" interests in a corporate licensee can be transferred without pay-

<sup>23</sup> 48 F.C.C. 2d 891 (1970).

ment of grant fees. There is an apparent anomaly. However, the choice of business organization is of course voluntary and generally based upon other considerations. This choice has numerous "side effects," of which this is one. Because of the legal characteristics peculiar to a partnership, changes in its makeup result in the termination of the old entity and the creation of a new legal entity. Therefore, an application is required, work is done by the Commission and a benefit is conferred. A change in ownership of a corporation does not require the filing of an application if less than control is involved. The fact that an application is not required does not mean that no benefit may result from the change, but it does mean that there is no need to invoke the Commission's processes and that, accordingly, there is not the same basis for assessment of a fee as is the case with a partnership.

26. One party stresses the need for confidentiality (that was proposed in paragraph 27 of the further notice) of the gross revenue figures that are to be used in the computation of grant fees in assignment and transfer cases. Two specific steps are here outlined to carry out this objective. Section 0.457(d) (1) (i) will be modified by the addition of a Note to grant confidentiality; any correspondence with respect to the computation of the grant fee will be placed in the "confidential" portion of the license file.

INTERNATIONAL BROADCASTING

27. Far East Broadcasting Company, Inc., the licensee of Station KGEL, an international broadcast station, contends that there should be no fees charged. It urges that: (1) Such stations operate as tax-exempt, non-profit, noncommercial international educational organizations; and (2) An exemption "is dictated" by the United States Information and Educational Exchange Act of 1948 (the Smith-Mundt Act), 22 U.S.C. 1431 et seq.; and (3) The fee base has been improperly computed, with an improper imputation of value to the recipient in this case.

28. While the existing international broadcast stations may not now carry commercial material, they may do so, with certain limitations, under our rules, unlike noncommercial educational stations. Nothing in the Communications Act or the Commission's rules or policy prevent KGEL or other international broadcast stations from broadcasting institutional advertising. We believe it reasonable to assess a fee in accord with the authority we grant. Nor do we find that the Smith-Mundt Act dictates an exemption for international broadcasting. Far East urges that that Act contains a Congressional mandate for the expansion of private international broadcasting. However, the Act, as modified by the Reorganization Plan No. 8 of 1953, provides that the Director of the USIA shall reduce government information activities whenever corresponding private information dissemination is found to be adequate. There is nothing there to suggest that such private dissemination is to be

exempted from fee payments which are required of domestic counterparts of such stations that choose not to broadcast advertising matter.

29. KGEL claims that the "value to the recipient" in international broadcasting is at best nominal. We do not agree. An international broadcaster has been given the use of valuable spectrum space. He may choose to operate on a profit or non-profit basis, as he so desires. Within broad limitations, he may broadcast programs as he chooses. We see no basis for the requested exemption under either the Independent Offices Appropriation Act or NCTA.<sup>23</sup>

COMMON CARRIER (SECTION 1.1113)

30. Common Carrier respondents unanimously objected to the imposition of fees for tariff filings essentially on the grounds that tariff processing is strictly for the benefit of the using public. The argument is made that there is an essential fallacy in the Commission's analysis of section 203 of the Communications Act, since the purpose of the section is to protect the public against discrimination and unjust rates and the carriers do not benefit from enforcement of the tariff filing requirements. The Commission remains of the opinion that it is appropriate to charge tariff filing fees. The filing of tariffs is required before a carrier may lawfully obtain revenues for its services. Without such tariffs the carriers could not legally operate and would receive no revenues whatsoever from the public for interstate and foreign communication's services. In short, carriers must file tariffs to do business. A tariff filing involves a change in some aspect of a carrier's business, and it involves Commission consideration and workload. The processing of tariffs by the Commission provides value to the carrier just as does consideration of a broadcast or other application, even though the carrier need not await a "grant" to commence operation. It is not persuasive to argue that tariffs are filed in order that the public interest may be protected and that the Commission's inquiry concerning a tariff is to assure that the public is protected. This is, of course, true in part in this area as in other areas of Commission regulation. But it is not a dispositive contention because here as in other areas there is also the element of benefit conferred—in this case the right to render common carrier service to the public.

31. The consensus of those responding to the alternatives presented in the further notice is that the most practical method of assessing tariff fees would be to apply a fee to each tariff page. We agree that this method would be the easiest to administer by both the carriers and Commission alike, and we will prescribe a charge for each original or revised tariff page filed with the Commission. Transmittal letters accompanying tariff filings will be excluded but all tariff

<sup>23</sup> See *Aeronautical Radio Inc. v. U.S.*, 335 F.2d 304, 311 (7th Cir. 1964), cert. den., 379 U.S. 965 (1965) holding that "value to the recipient" need not be a pecuniary value.

pages will be included regardless of whether requested or ordered by the Commission or voluntarily filed by the carriers. In recognition of the greater value to the larger carriers who generate proportionately greater interstate and foreign revenues from tariffs than do the carriers of lesser size, we are prescribing a sliding scale of fees based on overall operating revenues of each carrier.

32. We reject the argument made by most of the common carrier respondents that the sole purpose of a rate or tariff hearing is to permit the Commission to resolve questions affecting only the public interest, and that no costs associated with the hearing process should be included within fee recoverable costs for any service. While there is a large element of public benefit in the hearing process, the carriers, in our view, also receive substantial benefit from such proceedings. The Communications Act expressly gives the carriers the right to hearings before the Commission may prescribe rates, regulations, etc. against the carriers' will, and hearings provide opportunities for the carriers to be heard in support of rate or tariff proposals which present problems. Such hearings often result in Commission approval of increased rates or higher rate of return levels,<sup>24</sup> but the essential point is that they are a more formalized phase of the process of reviewing tariff, thus of the process of obtaining an authorization to serve the public. In all tariff and rate hearings proceedings, we are called upon to arrive at results that are just and reasonable not only from the standpoint of the public but also just and reasonable from the standpoint of the stockholders and the owners of the carriers. Accordingly, we conclude that reflection of hearing costs in fee recoverable costs for each activity is not inconsistent with the principles enunciated by the Supreme Court.

33. With respect to the objections raised against the imposition of fees for each mobile unit associated with a base station license in the domestic public land mobile service, we would point out that this fee treatment is strictly in accordance with the "value to the recipient" concept. Furthermore, it is consistent with the application of fees to each transmitter in other Commission radio services. We are not persuaded that the fees proposed are prohibitive or unduly burdensome for the five-year license period in the land mobile service.

34. We recognize the "non-profit" characteristics of cooperative telephone companies. However, the service they render is of economic benefit and is limited to members of the associations. In our view, the public benefit of these telephone companies cannot properly be equated with that of the public safety,

<sup>24</sup> To suggest, for example, that the public is the sole beneficiary of hearings such as Phase I of Docket 19129, wherein the Commission allowed AT&T to increase its rates to provide Bell a rate of return of 8½ percent rather than 7½ percent, is to urge a proposition that is obviously untenable.

health and welfare and educational entities traditionally exempt from the Commission's fees.

#### SECTION 214 FEES

35. AT&T suggests certain changes in the proposed fee schedule for domestic satellite channelizing applications, in view of the manner in which such facilities will be used in the domestic network. The presently proposed fee structure is essentially the same structure applied in the past to international satellite channelizing applications and, in AT&T's view, is inappropriate for domestic satellite channelizing applications, particularly the proposed grant fee for channels of communication at an earth station. The carrier recommends that the proposed fee schedule for satellite channelizing applications be confined to international applications and that domestic applications be treated the same as Section 214 landline, wire, cable or radio route applications, with airline mileage, instead of route mileage, used for straight line terrestrial distance between earth stations.

36. We believe AT&T's suggestion has merit. Inasmuch as domestic satellite circuits will be integrated into a terrestrial network and will often be used interchangeably with (or in competition with) terrestrial circuits, it would be appropriate to establish like fee schedules. Therefore, we have decided to apply the grant fee to both domestic satellite and terrestrial circuits on the basis of airline channel miles between terminal cities. We believe such consistency in applying fees will be consistent with most tariff offerings which base distance charges on airline miles.<sup>24</sup> Since we will be applying fees on an airline rather than route mile basis, we have adjusted upward the rate to compensate for the fewer miles that will be involved.<sup>25</sup> Also, we are setting a maximum grant fee based on a 2500 mile channel length so as not to overly burden very long domestic communications facilities (e.g., to Alaska, Hawaii and Puerto Rico). We are also making other minor adjustments to the Section 214 fee schedule for clarification purposes.

37. With respect to the determination of grant fees for Section 214 applications, we proposed to establish equivalency factors for transmission in the digital mode of 9.6 kb/s (for data) and 64 kb/s (for voice) equaling one 4 KHz analog channel (§ 1.1113, footnote 10). AT&T commented that 9.6 kb/s is a reasonable equivalent for data transmitted over a 4 KHz analog (voice) channel but that 64 kb/s of data or one voice channel could be transmitted over digital transmission facilities. Therefore, it recom-

mended that the last sentence of footnote 11 be modified to read: "When a digital mode is used for voice or data services, an equivalency of 64 kb/s to a 4 KHz channel will be used."

38. In considering this matter we recognize the difficulty in equating analog and digital channels since digital data is often connected to an analog format and transmitted over analog facilities while analog or voice signals are digitized and transmitted over digital facilities. In the former case 9.6 kb/s of data can usually be accommodated on a 4 KHz analog or voice channel, and in the latter case the voice signal requires 64 kb/s of capacity on a digital system. We further appreciate the fact that in many systems the use of a single channel may vary between voice and data, and that alternate analog and digital facilities may be interconnected. Therefore, we have decided that for ease of administration we should use only a single equivalency: 64 kb/s equaling a 4 KHz analog channel, and have modified the schedule accordingly.

#### SAFETY AND SPECIAL RADIO SERVICES (§ 1.1115)

39. Since the release of the further notice of proposed rule making in this proceeding in August 1974, the number of applications filed and expected to be filed in this Bureau has significantly increased resulting in a projected fee revenue substantially higher than that shown in the Further Notice. Therefore, we are on our own motion further lowering the fee to \$4.00 for most applications. This will result in fee revenues which more nearly approximate the expected costs of processing applications and granting authorizations.

40. In the land mobile services, all of the comments supported the new fee proposals. Four of the comments, however, took strong exception to the reasons for our decision to withdraw the proposal to charge an additional fee for authorizations with multiple mobile units, or ship or aircraft in plurality or fleet licenses. We said in the Further Notice that the original proposal to charge extra filing fees in these cases was not feasible because the fee recovered for each extra unit would be substantially below \$1 and the cost of paying and collecting the fees would be unduly burdensome for both the applicants and the Commission. Accordingly the unit fee is not being adopted and no useful purpose would be served by generally abandoning the principle of unit fees, as some of the comments suggest.

41. One comment, that of Telecommunications Council, expressed concern that a disproportionate share of the costs of operating certain Commission offices such as the Review Board and the Administrative Law Judges, was allocated to the Safety and Special Radio Services Bureau. We have allocated only those costs of those offices for the portion of their time spent on Safety and Special Radio Services Bureau authorization of services matters. Specifically, of the total number of man-years required to operate the offices of the Law Judges, Dockets

Division, Review Board and Office of Opinions and Review, we have allocated 5, 3, 2, and 3 man-years, respectively, or a total of 13 man-years to the Bureau's 128 man-years for authorization of services.

42. All but one of the comments pertaining to the Citizens Radio Service supported the proposed fee reduction. Most of the comments suggested that no fee be required for organizations providing a service to the public, e.g., REACT teams. However, these organizations receive the same intrinsic value from their radio license as other licensees, regardless of the services they provide to the general public. The one comment in opposition recommended higher fees, asserting that if the lower fee is adopted licenses might be granted to people who should never be licensed. Apart from the merits of that argument, it is clear that the Commission does not have authority under 31 U.S.C. 483a to use its fee schedule as a vehicle to advance such public policy objections. See *NCTA v. U.S.*, 415 U.S. at 340-41.

43. All comments on the fees for the Amateur Radio Service objected to any filing fees in that Service for routine authorizations, on the grounds that the service is by its very nature a public service and the licensee cannot use his station for pecuniary gain or business activity. We again find this argument, which has been repeatedly made by amateur operators, to be inadequate to support the requested relief. Amateur licensees, while they may engage in valuable public service activities, are primarily involved in the use of radio for their own personal interest. Each licensee clearly receives a valuable benefit from his license. Additionally several comments objected to the disparity between a \$6 fee for an amateur operator compared to a \$4 fee for commercial operator licenses. First, we would note that as discussed above, we are lowering the proposed fee to \$4.00. Further, the comments ignore the fact that the amateur fee covers the operator's license as well as the station license. The commercial license fee covers only the operator's license fee; the station fee is additional. We are on our own motion reducing the modification fee from the proposal of \$5 to \$3, a change which will have no significant impact on the overall recovery of Bureau costs.

44. In the Aviation Service none of the comments objected to the revised, lower fees. Several referred to and supported an earlier comment by the Aircraft Operators and Pilots Association in this proceeding that objected to any licensing fees by this Commission for aircraft stations or aircraft station operators, on the grounds that this licensing should be the function of the Federal Aviation Administration, and argued that no operator permit be required for aircraft stations. However, this is not the appropriate place to address those issues, which are in any event governed by the Congressional directive that we license the use of aircraft radio, and the Radio Regulations of the International Telecommunications Union. One comment

<sup>24</sup> Part 63 of the rules is in the process of being amended to require the specification of airline distance in all section 214 applications.

<sup>25</sup> By comparing airline miles and route miles of various section 214 applications, we estimate that airline mileage would generally be 25-30% less than the route mileage. Thus, the rate per channel mile would have to be adjusted upward about 35-40% to yield approximately the same fee revenue.

questioned whether we are properly computing the portion of our expenses which can lawfully be recovered through fees and, particularly, whether we should recover the costs of hearing or regulatory activities. We are attempting herein to recover our costs in granting authorizations, which may include hearings, but not the general costs of regulating the services. For example, we have included the costs of all our employees who are directly involved in the acceptance, processing and granting of applications, but we have excluded the costs of employees involved in rule writing, revocation proceedings, imposing monetary forfeitures for rule violations or carrying out administrative functions not directly involving authorization of services. Other personnel, who are involved in both regulating and authorizing services, have had an appropriate portion of their time allocated to the authorization of service, as shown on time sheets, or by job descriptions. That portion of their time is reflected in the costs we are recovering through the new fees. Concern was also expressed that too much of the costs of operating the Chicago Spectrum Management office may be allocated to the Safety and Special Radio Service, since that office also processes applications for other services. The present spectrum management licensing program at the Chicago office is devoted primarily to Safety and Special radio activities. Over 99 percent of the applications handled there are in the Safety and Special Radio Services. Consequently, we believe the number of applications relating to the work of other bureaus is too minimal to warrant further adjustments.

#### CABLE TELEVISION (§ 1.1116)

45. The further notice proposed a revised fee schedule for the Cable Television ("Cable") and Cable Television Relay ("CAR") Service which specified, (1) in the CAR Service, fees ranging from \$5 to \$20 for applications for construction permits and licenses, and modifications, reinstatements, assignments, and transfers of control and (2) in the Cable Service, an annual authorization fee equal to 13 cents per cable system subscriber. Each of the fees in the proposed revised schedule is slightly more than 40 percent of its counterpart in the previous schedule. The purpose and anticipated effect of that reduction is to yield an estimated return of \$1.16 million per year—approximately 45 percent of the anticipated FY 1975 cost of FCC Cable and CAR regulatory activity.

46. The fee was determined in the light of estimates of the number of applications that would be filed in each category during FY 1975 and the estimated total number of cable subscribers in the United States in calendar year 1974.<sup>14</sup> The Commission has adopted a Cable and CAR Service fee schedule designed to yield

<sup>14</sup> Annual authorization fee payments are based upon the number of cable subscribers in the calendar year immediately preceding the due date of the payment. See § 1.1102 of the Commission's rules.

only enough revenue to offset the costs attendant upon processing applications for CAR Service construction permits, licenses, etc., and Cable television certificates of compliance.

47. Some of the comments contend that, with the possible exception of CAR station licensing, no Commission fees should be levied against cable systems, since the whole purpose and effect of the Commission cable regulatory program is not benefit to cable operators but restriction of cable operators for the benefit of the general public (and, incidentally, broadcast television licensees). It is also suggested that no fees should be charged in connection with the processing or grant of a certificate of compliance, since (a) the certificate does not provide a cable operator with a benefit analogous to the three year loan of a portion of the radio spectrum which accrues to a broadcast station licensee, and (b) the certificate of compliance is not really a license in view of the fact that a prospective cable system operator must first obtain a franchise from a State or local governmental unit.

48. In considering this contention, we note the Supreme Court's statement that, "A fee . . . is incident to a voluntary act, e.g., a request that a public agency permit an applicant to practice law or medicine . . . The public agency performing those services normally may exact a fee for a grant which, presumably, bestows a benefit on the applicant, not shared by other members of society." *NCTA v. U.S.*, 415 U.S. at 340-341. We think the Court's reasoning is equally applicable to the Commission's regulation of cable television, which confers an authority—to carry broadcast signals—not conferred upon the public at large. The fact that the regulation attendant upon the grant of this benefit is designed to protect the public interest in its use should not obscure the presence of the very real benefit involved. Nor does the fact that the prospective cable operator must normally obtain another authorization from a State or local governmental unit affect the result. It is irrelevant to the benefit conferred by the Commission's process. It might also be noted in this connection that the Commission's rules prevent State and local authorities from imposing unduly high franchise fees upon cable television systems.

49. Some of the comments argue that no fees should be charged unless an application is granted since an applicant receives no benefit if the application is not granted. The application fees in both the Cable and CAR Services schedule are quite nominal (they range from \$5 to \$20). In the overwhelming percentage of cases, the application results in a grant of the license or other benefit sought (albeit only after detailed correspondence with the applicant in many cases to elicit from him amendments curing defects in his application). Thus in the overwhelming percentage of cases the fact that the charge is for the filing, rather than the grant, of an application has no practical effect, although it does facilitate the bookkeeping operations of the Commis-

sion. In any event, in those few cases where the application is not granted, the application fee is scant compensation for the work performed by the Commission in considering the application. We do not believe that it is improper to impose a nominal fee for this work even though no authorization may finally be granted.

50. It has also been argued that no annual authorization fee should be charged, since a cable operator is benefited by the authorization to operate a cable system only during the year in which the authorization is issued, and that no authorization fee, annual or otherwise, should be levied against cable systems that have obtained their authorizations to operate via temporary "grandfathering" (until 1977) pursuant to the revision of the cable rules in 1972.<sup>15</sup> It is urged that since no application processing work by the Commission is involved in such authorizations, no fee should be exacted. We do not accede to this argument because the cable operator benefits from the authorization to operate conferred by our rules, whether or not he has filed an application for the particular year. Clearly, an authorization with an effective life of several years may be accompanied by a fee apportioned over that period. And, all systems operate under the authority of the Commission rules, including those "grandfathered" systems which need not file a formal application for a certificate of compliance until 1977. The Commission is providing the same benefit, and is doing work in connection with that benefit, whether or not it has received a formal application. We do not believe that the existence of a formal application is the touchstone of the right to impose a fee under Title V.<sup>16</sup>

51. In the area of cable television fees, as well as in other areas, it has been argued that the Commission's expenses resulting from hearings conducted in

<sup>15</sup> A grandfathered system, operating temporarily pursuant to the general grant of authority to do so, must even within the period expiring March 31, 1977, submit a formal application if its franchise expires before that date or if it desires to add a television broadcast signal to its operations before that date. See § 76.11 (a) and (b) of the Commission's rules.

<sup>16</sup> The Commission could, of course, in lieu of "grandfathering," have required all cable systems to file applications for certificates of compliance within 90 days of adoption of the 1972 rules. The Commission could also have ceremonialized the continuing authority of cable systems to carry broadcast signals by requiring a cable operator to annually apply for a one-year renewal of his authorization, thereby providing the document which some of the comments seem to feel is a prerequisite to imposition of a fee. However, neither Title V nor the Supreme Court's decision in *NCTA* require such formalities. The fact that the Commission has chosen a simpler method of regulation of cable television does not foreclose it from assessing fees for the valuable benefits that are nevertheless provided by the Commission activities. The practical result is the same, and cable operators equitably share the costs of providing the benefits which all of them receive, without regard to the essentially irrelevant consideration of whether any particular system files for a certificate in any particular year.

connection with certificate of compliance applications should not be treated as part of the cost-recoverable fee base, since such hearings are conducted to determine the public interest rather than to benefit cable operators. As discussed elsewhere, it is the Commission's position that since hearings are but one phase of the process by which value is provided to cable operators, their cost is properly included in the fee base. As for the fact, also urged upon us, that only a small percentage of certificate of compliance applications result in hearings, the Commission is well aware that processing and evaluation of some applications involves considerably greater Commission activity and expense than is involved in the treatment of other such applications. However, that fact provides no justification for treating the cost as if it were not related to the certification process, and the added increment to all fees is minimal.

52. In response to objections to the use of the number of subscribers as a measure of the annual authorization fee, the Commission remains of the opinion that the formula for determination of the annual authorization fee as set forth in the proposed revision of § 1.1116 provides the best practical means of assessing a fee reasonably related, in each case, to the benefit received by the cable operator from his receipt of the Commission's authorization to operate his cable system. Although monthly subscription rates do vary somewhat from one system to another, utilization of a system's subscriber count in determining the amount of the fee results in a fee reasonably related to earnings differences among systems.<sup>17</sup> At the same time, it is convenient for use by the Commission in verifying the correctness of the amount paid, and avoids the need for reference to cable system income data (net or gross) which should be respected as confidential in nature. It is apparent that the larger a cable operation is, the more its owners benefit from the cable system operating authority which they have received from the Commission. At the same time, the formula is designed to yield a total income not in excess of the total cost to the Commission of its activity in authorizing cable operations.

#### EQUIPMENT TESTING AND APPROVAL (§ 1.1120)

53. As a result of the fact that the cost allocation to the Equipment Testing and Approval area previously was performed primarily on an application processing basis, the general revision of the cost allocation explained above has had little impact in this area. Thus, there have been relatively few changes in the amounts of

<sup>17</sup> In this respect, the function of the subscriber count in determining the particular cable system's annual authorization fee payment is analogous to the function of the advertising rate card in determining a particular broadcast station's annual fee payment.

fees set out in the Appendix from the fees proposed in the original notice in this proceeding. The categories of fees for certification have been modified somewhat for simplicity and there have been some revisions in fees for type approval to reflect more accurately the relative costs of performing the tests on each type of equipment based on records of man-hours expended and test equipment utilized.

54. Several parties commented on the proposed schedule in this area. Two comments argued that certification of radio frequency devices provides no benefit to the manufacturer as its purpose is to prevent harmful interference which impacts upon the public at large. We note that the argument that the Commission's work is in the public interest has been made by broadcasters, cable television system operators, and common carriers. In response to the argument here, we would point out that manufacturers of radio frequency devices are prohibited from marketing such devices unless they have been certified.<sup>18</sup> Therefore, certification is the prerequisite to any sale by the manufacturer. There can be little question that the Commission's action in certifying equipment provides substantial value to the recipient.

55. One comment indicated that the higher filing fee and a lower grant fee is not as reasonable as a lower filing fee and higher grant fee because equipment may be withdrawn at any time prior to the grant. However, a substantial portion of the costs involved in application processing is incurred whether or not a grant is made; the relatively higher filing fee covers most, but not all of, the costs involved, whether or not the equipment is withdrawn or rejected. Similarly, in regard to the combined fee for certification and acceptance, which was questioned, the costs of processing are incurred whether the equipment passes or fails. It was argued that if equipment is rejected, payment of a fee for resubmittal is not in line with the *NCTA* ruling, for, although the Commission's costs have increased, the benefit to the manufacturer has not. The Commission is not required to provide *gratis* the service of reviewing and/or testing equipment any number of times until the manufacturer perfects it. It is incorrect to say that such a service would not benefit the manufacturer. Furthermore, as we noted in the Further Notice, it has been our experience that the vast majority of such applications are pursued successfully.

56. It has been questioned whether separate fees should be charged for the certification of receivers having the same chassis but different identification numbers. As our certification program does not include testing as a prerequisite to certification, there is relatively little reduction in cost in the processing of the application for certification of a given receiver simply because a receiver with the same chassis was previously certified. Furthermore, new value to the recipient

<sup>18</sup> See § 2.803 of the Commission's rules.

is furnished by each separate certification. Therefore, a lower fee is not warranted.

57. One comment pointed out the omission of the note in the certification subsection which provided: "No fee is required for certificates for use of industrial heating equipment on Form 724 in accordance with § 18.116 of the Commission's rules of this chapter." This provision was inadvertently deleted in the Further Notice, but is now included. Parties filing Forms 724 for equipment which has already received prototype certification are not required to remit any further fee.

58. In response to the comparison made by one comment between the Commission's fees and the lower estimate for equipment testing received from a private laboratory, we can only observe that Title V does not require that in structuring our fee schedule the criterion of the market price of analogous activities engaged in by private businesses be considered. Additionally, the standards used by a private firm may be significantly different from those prevailing in our laboratory.

#### EFFECTIVE DATE OF THE NEW SCHEDULE OF FEES

59. The new schedule of fees adopted herein and the related amendments to other sections of the Commission's rules will be effective as of March 1, 1975. Under the effective date of March 1, 1975, all applications received by the Commission on or after March 1, 1975, will be subject to the revised schedule of fees as set out below. Additionally all grants of authority made on or after March 1 will be subject to the new schedule regardless of when the application for such grant was filed.

60. Authority for the adoption of the amendments herein is contained in section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and Title V of the Independent Offices Appropriation Act of 1952, 31 U.S.C. 483a.

61. Accordingly, it is ordered, That effective March 1, 1975, Parts 1 and 13 of the Commission's rules and regulations are amended as set forth below.

Adopted: January 15, 1975.

Released: January 20, 1975.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

FEDERAL COMMUNICATIONS  
COMMISSION,<sup>19</sup>

[SEAL] VINCENT J. MULLINS,  
Secretary.

Parts 1 and 13 of Chapter I, Title 47 of the Code of Federal Regulations are amended to read as follows:

1. The Schedule of Fees Filed With the Commission, Subpart G of Part 1 is amended in the following respects:

In § 1.1102, the Note following paragraph (b) is deleted, paragraphs (d), (e),

<sup>19</sup> A statement of Chairman Wiley in which the other members of the Commission join is filed as part of the original document.

and (f) are revised, paragraph (j) is deleted.

In § 1.1103, paragraph (b) is revised and paragraph (c) is deleted.

Sections 1.1111 and 1.1113 are revised.

In § 1.1115, paragraph (a) is revised and a subparagraph (c) (10) is added.

In § 1.1116, paragraphs (a) and (b) are revised and paragraph (c) is deleted.

Sections 1.1117 and 1.1120 are revised.

The revised Subpart G of Part 1 reads as follows:

Subpart G—Schedule of Fees Filed With the Commission

GENERAL INFORMATION

- Sec.
- 1.1101 Authority.
- 1.1102 Payment of fees.
- 1.1103 Return or refund of fees.
- 1.1104 General exceptions.
- 1.1105 General rule (STA and waiver).
- 1.1111 Schedule of fees for Radio Broadcast Services.
- 1.1113 Schedule of fees for Common Carrier Services.
- 1.1115 Schedule of fees for the Safety and Special Radio Services.
- 1.1116 Schedule of fees for Cable Television and Cable Television Relay Services.
- 1.1117 Schedule of fees for commercial radio operator examinations and licensing.
- 1.1120 Schedule of fees for equipment type approval, type acceptance and certification.

Authority: Sec. 501, 65 Stat. 290; 31 U.S.C. 483a.

Subpart G—Schedule of Fees Filed With the Commission

GENERAL INFORMATION

§ 1.1101 Authority.

Authority for this subpart is contained in Title V of the Independent Offices Appropriation Act of 1952 (31 U.S.C. 483a) which provides that any service rendered by a Federal agency to or for any person shall be performed on a self-sustaining basis to the fullest extent possible. Title V further provides that the head of each Federal agency is authorized by regulation to prescribe such fees as he shall determine to be fair and equitable.

§ 1.1102 Payment of fees.

(a) *Filing fees.* Each application or other filing filed on or after August 1, 1970, for which a fee is prescribed in this subpart, must be accompanied by a remittance in the full amount of the filing fee. In no case will an application or other filing be accepted for filing or processed prior to payment of the full amount specified. Filings for which no remittance is received, or for which an insufficient amount is received, shall be returned to the applicant without processing. In the case of multiple applications for which a single check is drawn to cover all fees for the applications, there should be attached to the remittance an accounting sheet or notice stating what fees are covered by the check or money order.

(b) *Grant fees.* The applicant shall observe the instruction contained in the notice of grant concerning payment of grant fees. Grant fees shall be accom-

panied by a transmittal advice identifying the purpose of the check. The duplicate copy of the Commission's notice of grant, which will specify the amount of the fee, will suffice.

(c) All remittances should be accompanied by a letter, application, rate card, grant fee notice or other document to properly identify the purpose of the fee.

(d) Where a separate grant fee payment is prescribed in the various services, the fee will be payable within 45 days after grant by the Commission. In the broadcast services the grant fee in assignment and transfer cases must be transmitted by the new licensee immediately following consummation of the transfer or assignment. All grants, approvals, and authorizations issued by the Commission are made subject to payment and receipt of the applicable fee within the required period. Failure to make payment of the applicable fee to the Commission by the required date shall result in the grant, authorization or approval becoming null, void and ineffective after that date.

(e) *Broadcast Annual License fee.* The annual license fee prescribed for broadcast stations must be submitted each year on or before the anniversary date of the expiration date of the station's license. The licensee shall submit the amount of the annual fee together with the station's rate card for the preceding June 1, on which the annual fee is based. (See § 1.1111(a)(6).) Such fee shall be for the twelve-month period immediately preceding the anniversary date on which the fee is payable.

(1) A new station first becomes liable for the annual license fee at the time program test authority is granted. In the first year, the fee will cover the period from the date of grant of program test authority until the next payment (anniversary) date. (Example: If a station is in operation for seven full months prior to the next payment date, the annual license fee is seven-twelfths of the annual rate.)

(f) *Cable Television Annual Authorization fee.* The annual fee prescribed in § 1.1116(b) of this chapter for cable television systems must be submitted by April 1 of each year for the preceding calendar year. The fee will be based on the average number of subscribers as set out in § 1.1116(b).

(1) A new cable television system becomes liable for the annual authorization fee as of the date it begins to charge for service to 50 subscribers or more. In the first year of operation of the system, the fee will be computed based on the average of the number of subscribers being served on the last day of each calendar quarter of operation up to the end of the calendar year. (Example: If a cable system is in operation on the last day of three quarters prior to the end of the calendar year, the average of those three last-day figures is to be used in computing the fee required.) The fee will cover the number of full months of operation until the end of the calendar year. (Example: If a cable system is in

operation for seven full months prior to the end of the calendar year, the fee is seven-twelfths of the annual rate.)

(g) Applications and attached fees should be addressed to Federal Communications Commission, Washington, D.C. 20554, or to the appropriate FCC field office and should not be marked for the attention of any individual bureau or office. Fee payments should be in the form of a check or money order payable to the Federal Communications Commission. The Commission will not be responsible for cash sent through the mails. All fees collected will be paid into the U.S. Treasury as miscellaneous receipts in accordance with the provisions of Title V of the Independent Offices Appropriations Act of 1952 (31 U.S.C. 483a).

(h) Receipts will be furnished upon request in the case of payments made in person, but no receipts will be issued for payments sent through the mails.

(i) Except as provided in §§ 1.1103 and 1.1104, all application filing fees will be charged irrespective of the Commission's disposition of the application. Applications returned to applicants for additional information or corrections will not require an additional fee when resubmitted, unless the additional information results in a major change in the application; the resubmission will then be treated as a new application requiring a new filing fee.

§ 1.1103 Return or refund of fees.

(a) The full amount of any fee submitted will be returned or refunded, as appropriate, in the following instances:

- (1) Where no fee is required for the application filed.
- (2) Where the application is filed by an applicant who cannot fulfill a prescribed age requirement.

(3) Upon return of an application for renewal of an operator license which is received after expiration of the grace period.

(4) Where the applicant is precluded from obtaining a license by the provisions of section 303(1) or 310(a) of the Communications Act.

(5) Where circumstances beyond the control of the applicant, arising after the application is filed, would render a grant useless.

(6) When applications (accompanied by fees) are filed where not actually required by Safety and Special Radio Services rules (e.g. change of address, pro forma change of corporate name, etc.).

(7) When construction permit holders and licensees make nonsubstantive correction in license grants within a period of 60 days from the grant.

(b) Payment in excess of an applicable fee will be refunded only if the overpayment exceeds \$3.

§ 1.1104 General exceptions.

(a) No fee is required for an application filed for the sole purpose of amending an authorization or pending application (if a fee is otherwise required) so as to comply with new or additional requirements of the Commission's rules or the rules of another Federal Government

**RULES AND REGULATIONS**

agency affecting the authorization or pending application; however, if the applicant also requests an additional modification or the renewal of his authorization, the appropriate modification or renewal fee must accompany the application. Fee exemptions arising out of this general exception will be announced to the public in the orders amending the rules or in other appropriate Commission notices.

(b) No fee is required for an application filed by an alien pursuant to a reciprocal radio licensing agreement.

(c) A receiver model certificated prior to August 1, 1970, and which will continue to be distributed after August 1, 1970, need not be recertificated and no filing or grant fee shall be required for continued distribution provided it will continue to be distributed under the same trade name and model number and with identical circuitry.

**§ 1.1105 General rule (STA and waiver).**

Except as otherwise provided no filing fee is required for any application or request for special temporary authority (STA) or waiver of brief duration or minor character in any service or for the grant of either an STA or a waiver of brief duration or minor character. Upon the grant of an application or request for either an STA or a waiver of an important character, the applicant will be notified to remit a fee in the following amount for the respective services:

Broadcast services.....	\$25
Common carrier services.....	25
Safety and special radio.....	5
Cable television services.....	25

**§ 1.1111 Schedule of fees for Radio Broadcast Services.**

(a) Except as provided in paragraph (b) of this section, the fees prescribed below are applicable to applications and operations in the Radio Broadcast Services:

(1) *Construction permits.* Application for construction permit for new station or for major changes in existing station:

	Filing fee	Grant fee
VHF—Top 50 markets <sup>1</sup> .....	\$10,000	\$67,500
VHF—Top 50 markets.....	2,500	22,500
VHF—Next 50 markets.....	4,000	27,000
VHF—Next 50 markets.....	1,000	9,000
VHF—Balance.....	2,000	13,500
FM—Class A.....	500	4,500
FM—Class B and C.....	200	1,350
AM—Day—50 kW.....	1,000	2,700
AM—Day—25 kW.....	800	5,400
AM—Day—10 kW.....	600	4,050
AM—Day—5 kW.....	400	2,700
AM—Day—1 kW.....	200	1,350
AM—Day—500 W.....	100	675
AM—Day—250 W.....	50	340
AM—Unlimited 50 kW.....	2,000	13,500
AM—Unlimited 25 kW.....	1,600	10,800
AM—Unlimited 10 kW.....	1,200	8,100
AM—Unlimited 5 kW.....	800	5,400
AM—Unlimited 1 kW.....	400	2,700
AM—Unlimited 500 W.....	200	1,350
AM—Unlimited 250 W.....	100	675
AM—Class IV.....	200	1,350

<sup>1</sup> The market size shall be determined by the ranking of the American Research Bureau, on the basis of prime time households (average quarter-hour audience during prime time, all home stations).

(2) *Other applications:* The following fees shall accompany each application:

	AM	FM	TV	Auxiliary <sup>1</sup>
Application for construction permit to replace expired permit, FCC Form 321 <sup>2</sup> .....	\$250	\$250	\$250	\$50
Application for modification other than major change, FCC Form 301.....	(7)	(7)	(7)	(7)
(A) Application to change antenna/transmitter site; or to increase antenna height; or to change antenna pattern.....	100	100	100	50
(B) All other FCC Form 301 applications.....	200	200	200	100
Application for change of call sign for broadcast station.....				
Application for authorization in Auxiliary Broadcast Services, FCC Form 313:				
(A) Application for modification of construction permit or license in Auxiliary Broadcast Services.....				50
(B) Application for construction permit for remote pickup mobile station.....				100
(C) Application for construction permit for inter-city relay; or for studio transmitter link; or for remote pickup base station.....				250
(D) All other Form 313 applications.....				100
Application for construction permit or license of auxiliary or alternate main transmitter.....	50	50	50	50
All other applications in the broadcast services.....	100	100	100	100

<sup>1</sup> With respect to applications for remote pickup broadcast stations authorized under Subpart D of Part 74 of this chapter, one fee will cover the base station (if any) and all the remote pickup mobile stations of a main station, provided the applications therefore are filed at the same time.

<sup>2</sup> The \$250 fee applies to construction permits for new stations or major change in existing stations. An application to replace a construction permit for a modification other than a major change must be accompanied by a fee of \$50 in all services.

<sup>3</sup> One-half the filing fee for an application for construction permit for new station or major change in existing station, but not less than \$100.

(3) *Subscription Television.* Application for Subscription Television Authorizations:

Application filing fee.....	\$700
(4) <i>International Broadcasting.</i> Construction Permits:	
Filing fee.....	70
Grant fee.....	630

Filing Fee for Application for Seasonal Schedule:

Per transmitter-hour requested (for one day)..... 17  
 (5) *Assignments and transfers.* Application for assignment of license or transfer of control—Form 314, Form 315 and Form 316 applications. (Where more than one broadcast station license is involved, the total amount of fees prescribed for each license so involved will be paid in the manner set forth below.):

Sales or exchanges:	
Application filing fee (forms 314 and 315).....	\$200.
Application filing fee (form 316).....	50.
Grant fee (to be paid immediately following consummation of the assignment or transfer):	
For AM stations, and joint assignment or transfer of AM-FM stations, with gross revenue of \$400,000 or less.....	0.9% of gross revenue.
For AM stations, and joint assignment or transfer of AM-FM stations, with gross revenue greater than \$400,000.....	\$3,600 plus 1.4% of gross revenue in excess of \$400,000.
For all FM stations.....	0.9% of gross revenue.
For television stations with gross revenue of \$800,000 or less.....	1% of gross revenue.
For television stations with gross revenue greater than \$800,000.....	\$8,000 plus 1.6% of gross revenue in excess of \$800,000.
In all other cases and/or when gross revenue is indeterminable (See Note 2).....	0.4% of consideration for assignment or transfer.

**Gifts:**

Application filing fees and grant fees for assignments or transfers resulting from gifts are the same as those for sales or exchanges above, with the exception that no grant fee will be assessed for an assignment or transfer by gift from a person to a spouse and/or lineal descendant.

**NOTE 1:** Gross revenue will be determined by taking the average of the annual gross revenue figures reported on line 19 of FCC Form 324 for the respective station(s) for the three years immediately preceding the date of the consummation of the transfer or assignment.

**NOTE 2:** In certain situations gross revenue figures are not available for assessment of a fee on that basis—for example, assignment or transfer of an AM or FM station individually from what had been a joint AM-FM operation; assignment or transfer of a broadcast station license in which gross revenue has been either nonexistent or so indeterminate as to be an improper basis upon which to establish a grant fee; assignment or transfer of religious or other stations that do not report gross revenue. In those types of cases,

the grant fee will be assessed on the basis of consideration as indicated above.

**NOTE 3:** In the case of transfer of control, the transfer grant fee will be based on the percentage of interest acquired which resulted in the transfer of control (except for those situations described in Note 4 below in which additional acquisitions of interest may be subject to the grant fee). (Example: "A" acquires a 60% interest in an AM station with gross revenue of \$100,000. Assuming "A" holds no other interest in this station that was acquired in the preceding two years, the grant fee is \$540—\$100,000×0.9%×60%.)

**NOTE 4:** In the case of transfer of control in which the transferee holds previously acquired interest in the subject broadcast station license, the grant fee will be based on the acquisition which resulted in transfer of control and on interests acquired during

the two-year period immediately preceding the date of the contract for the transfer of control. In addition, a grant fee will also be assessed against any additional interest in the station acquired within two years following the date of the contract for transfer of control. Such grant fee for additional acquisitions within two years subsequent to transfer of control will be computed on the basis of the same gross revenue figures used in connection with the transfer of control application and such additional fee shall be submitted at the time the supplemental Ownership Report (FCC Form 323) is filed with the Commission pursuant to § 1.615(c) of this chapter. (Example: "A" acquires the following interests in an AM station with \$100,000 gross revenue: 1/1/71—10%, 1/1/72—10%; 1/1/73—20% 2/1/74 (contract date)—30%. The transfer grant fee is \$450—\$100,000 x 0.9% x 50%, with the 50% figure representing the interest that resulted in transfer of control plus interest acquired in the two years immediately preceding the date of contract for the transaction which resulted in transfer of control. If "A" were to acquire any additional interest in this station prior to 2/1/76, an additional grant fee would be incurred equivalent to the additional interest acquired times \$100,000 times 0.9%.

NOTE 5: Grant fees are required in the case of FCC Form 316 applications only in cases in which the application is filed pursuant to § 1.540 (b)(3) or (b)(6) of this chapter. In such cases, grant fees will be computed in the same manner as for FCC Form 315 applications.

(6) Annual License fee. Each broadcast station shall pay an annual license fee to the Commission based on the station's rate card as of June 1 of each year.<sup>1</sup>

For AM & FM radio stations: The annual license fee will be a payment equal to 8.5 times the station's highest single "one-minute" spot announcement rate, but in no event shall the annual license fee for each AM and each FM station be less than \$25.

For television broadcast stations: The annual license fee will be a payment equal to 4.25 times the station's highest "30-second" spot announcement rate, but in no event shall the annual license fee be less than \$100.

(b) Fees are not required in the following instances:

(1) Applications filed by tax exempt organizations for operation of stations providing noncommercial educational broadcast services, whether or not such stations operate on frequencies allocated for noncommercial, educational use.

(2) Applications in the standard broadcast service requesting authority to determine power of non-directional standard broadcast stations by direct measurement.

(3) Applications for all FM or television translators and all FM or television translator relay stations.

(4) Applications by local government entities in connection with the licensing or operation of a noncommercial broadcast station.

(5) Applications for licenses to cover construction permits in the auxiliary broadcast services.

§ 1.1113 Schedule of fees for Common Carrier Services.

Applications filed for common carrier services shall be accompanied by the fees prescribed below:

<sup>1</sup>See § 1.1102(e) for explanation of manner of payment and computation of the broadcast annual license fee.

(A) DOMESTIC PUBLIC LAND MOBILE RADIO SERVICES<sup>1</sup>

	Application Fee
Application for initial construction permit or for relocation of a base station including authority for mobile units, blanket dispatch station authority, <sup>2</sup> and standby transmitters without independent radiating systems <sup>3,4</sup> -----	\$150
If above includes authority for mobile units, blanket dispatch station authority or standby transmitters without independent radiating system add per mobile unit, dispatch station or standby transmitter-----	
Application for initial construction permit or for relocation of a dispatch station, <sup>5</sup> auxiliary test station, control station or repeater station <sup>4</sup> -----	75
Application for other than initial construction permit, modification of construction permit or license for base station, dispatch station, auxiliary test station, control station or repeater station at an existing station location-----	30
Application for modification of authorization to increase number of mobile units, blanket dispatch stations or standby transmitters without independent radiating systems—per unit or transmitter-----	6
Application for renewal of base station license-----	90
If above includes renewal authority for mobile units, blanket dispatch stations or standby transmitters without independent radiating systems, add per mobile unit, dispatch station or standby transmitter-----	
Application for renewal of license for dispatch station, auxiliary test station, control station or repeater station-----	3
Application for license, modification of license or renewal of license for individual mobile stations: <sup>6</sup>	
One mobile unit per application-----	15
Each additional mobile unit per application-----	9
(See footnotes at end of tables.)	

(B) RURAL RADIO SERVICE

	Application Fee
Application for an initial construction permit or for relocation of central office, interoffice or relay facilities <sup>1</sup> -----	\$120
Application for other than initial construction permit, modification of construction permit or license for central office, interoffice or relay facilities <sup>1</sup> -----	45
Application for an initial construction permit or for relocation of rural subscriber facilities <sup>1</sup> -----	75
Application for other than initial construction permit modification of construction permit or license for rural subscriber facilities-----	45
Application for license for operation of stations at temporary-fixed locations-----	20
Application for renewal of license of central office, interoffice or relay station-----	75
Application for renewal of license of rural subscriber station-----	15

(C) POINT-TO-POINT MICROWAVE RADIO SERVICES

	Application Fee
Applications for construction permit or for modification of construction per-	

	Application Fee
mit to add or change point(s) of communication or to increase service to existing points of communication or for relocation of facilities <sup>1,2</sup> -----	\$120
Application for license for operation of a station at temporary-fixed locations-----	90
Application for other modifications of construction permit or modification of license <sup>1</sup> -----	30
Application for renewal of license-----	75
(See footnotes at end of tables.)	

(d) LOCAL TELEVISION TRANSMISSION SERVICE

	Application Fee
Application for construction permit or for modification of construction permit to add or change point(s) of communication or to increase service to an existing station location or for relocation of facilities <sup>1</sup> -----	\$120
Application for license for operation of an STL station at temporary-fixed locations-----	90
Application for license for operation of a mobile television pickup station-----	90
Application for other modification of construction permit or modification of license <sup>1</sup> -----	30
Application for renewal of license-----	75
(See footnotes at end of tables.)	

(e) MULTIPPOINT DISTRIBUTION SERVICE

	Application Fee
Application for initial construction permit or for modification involving relocation of station or addition or change of frequencies or increase in power----- <sup>1,2</sup>	\$150
Application for other modification of construction permit or license-----	30
Application for renewal of license-----	75

(f) INTERNATIONAL FIXED PUBLIC RADIO-COMMUNICATION SERVICES

	Application Fee
International Fixed Public Station:	
Application for an initial construction permit for a new station or an additional transmitter(s) at an authorized station <sup>1</sup> -----	\$500
Application for construction permit for a replacement transmitter(s) at an authorized station (no fee will be charged for application for modification of license to delete transmitter(s) being replaced if the applications are filed simultaneously) <sup>4</sup> -----	105
Application for change of location of an authorized station-----	330
Application for modification of license-----	75
Application for renewal of license-----	180
International Control Station:	
Application for an initial construction permit for a new station or an additional transmitter(s) at an authorized station <sup>1</sup> -----	300
Application for construction permit for a replacement transmitter(s) at an authorized station (no fee will be charged for application for modification of license to delete transmitter being replaced if the applications are filed simultaneously) <sup>4</sup> -----	180
Application for change of location of an authorized station-----	300

## RULES AND REGULATIONS

Application Fee	Application Fee
Application for modification of li- cense ----- \$75	Application for assignment of an au- thorization or transfer of control (a separate fee is required for each call sign covered by the application) ----- \$35
Application for renewal of license... 90	All other common carrier radio appli- cations ----- 15
(See footnotes at end of tables.)	
(g) OTHER RADIO APPLICATIONS	

## (h) SATELLITE COMMUNICATIONS SERVICES \*

	Filing fee	Grant fee
Application for initial construction permit for commercial transmit/receive earth station. <sup>4</sup>	\$120	$\frac{1}{4}$ of 1 percent of construction cost as set forth in the application, not to exceed \$15,000.
Application for initial construction permit for a commercial receive-only or transportable earth station. <sup>4</sup>	60	Do.
Application for modification of construction permit or license or for construction permit for additional equipment at an existing commercial earth station. <sup>4</sup>	60	$\frac{1}{4}$ of 1 percent of construction cost as set forth in the application.
Application for authority to operate a transportable earth station at a fixed site.	180	None.
Application for renewal of license for a commercial transmit/receive earth station.	60	\$3,000.
Application for renewal of license for a commercial receive-only earth station.	330	None.
Application for initial construction permit or modification of construction permit or license for an auxiliary station (boresight) to an earth station or for a telemetry, tracking and control station. <sup>4</sup>	30	$\frac{1}{4}$ of 1 percent of construction cost as set forth in the application.
Application for initial construction permit per satellite <sup>4</sup> -----	150	\$3,000.
Application for authority to launch and operate satellites, per satellite-----	150	$\frac{1}{2}$ of 1 percent of satellite construction cost as set forth in the application (due 45 days after successful launch and operation);
Application for renewal of an auxiliary station to an earth station or for a telemetry, tracking and control station.	180	None.
Application for assignment of a commercial transmit/receive earth station or satellite construction permit or license or transfer of control of a licensee or permittee, per earth station or satellite.	45	None.
Application for assignment of a commercial receive-only or transportable earth station construction permit or license or transfer of control of a licensee or permittee, per earth station.	45	None.
Application for communications common carrier for authorization to own stock in the Communications Satellite Corp.	45	None.
Any other application filed under the Communications Satellite Act or the Communications Act of 1934 in the Satellite Communications Services.	45	None.

## (i) COMMON CARRIER NONRADIO APPLICATIONS

Section 214 application for construction or acquisition of landline domestic cable or waveguide. <sup>10</sup>	60	\$3 per route mile.
Section 214 application to establish or supplement domestic facilities by installation or acquisition of carrier equipment on wire, cable, waveguide, or radio routes. <sup>10</sup>	15	\$4.50 per 100 equivalent 4 kHz channel miles authorized. <sup>11,12</sup>
Section 214 application to lease channels from other carriers for domestic use <sup>10</sup> ..	15	\$3.50 per 100 equivalent 4 kHz channel miles authorized. <sup>11,12</sup>
Section 214 application to lease satellite transponder for domestic use (per transponder).	25	None.
Section 214 application for overseas cable construction-----	600	\$30 per route mile (nautical).
Section 214 application to establish or supplement international facilities by installation or acquisition of carrier equipment on overseas cable or radio routes (except satellite) or to acquire such facilities on a capital basis other than ownership. <sup>10</sup>	30	\$6 per 100 3 kHz channel miles authorized. <sup>11</sup>
Section 214 application to lease channels on overseas cable or radio routes (except satellites). <sup>10</sup>	30	\$3.50 per 100 equivalent 3 kHz channel miles authorized. <sup>11</sup>
Section 214 application to lease circuits to interconnect international circuits: Circuits outside of the U.S.-----	15	None.
Circuits within the U.S. or territories-----	15	\$3.50 per 100 equivalent 3 kHz channel miles authorized. <sup>9,11</sup>
Section 214 application to install carrier equipment to establish international channels of communication at an earth station.	60	$\frac{1}{4}$ of 1 percent of equipment and installation cost as set forth in application.
Section 214 application to establish and provide international channels of communication via satellite.	150	None.
Section 214 application to acquire satellite channels for international use-----	30	\$12 per equivalent 4 kHz channel. <sup>11</sup>
Cable Landing License-----	120	None.
Section 214 application to discontinue, reduce or impair service to the public: <sup>10</sup> Telegraph offices and Public Coast stations-----	15	Do.
All other-----	60	Do.
Interlocking Directorate applications-----	30	Do.
Section 221 applications-----	30	Do.
Applications for certification for priority of leased intercity private line service in emergency situations.	45	Do.
All other common carrier nonradio applications-----	15	Do.

Tariff Filings:	Annual Gross Revenue <sup>11</sup> of Issuing Carrier:	Filing fee	Grant fee
Each tariff page, original or revised, filed pursuant to Part 61 of the Commission's Rules.	Under \$1 million.....		\$50
	\$1 million to \$10 million.....		100
	\$10 million to \$1 billion.....		300
	\$1 billion to \$10 billion.....		500
	Over \$10 billion.....		700

- <sup>1</sup> In this service each transmitter at a fixed location is a separate station notwithstanding the inclusion of more than one such station on a single authorization or under a single call sign.
- <sup>2</sup> When included as part of base station applications, a request for blanket dispatch station authority made pursuant to the provisions of §21.519(a) of this chapter does not require an individual application. A request for such dispatch station authority filed separately from a base station construction permit application requires an application for modification of license and an appropriate fee.
- <sup>3</sup> An application for a standby transmitter having its own independent radiating system requires the same fee as a base station application.
- <sup>4</sup> No additional fee will be charged for a single application for a license to cover a construction permit unless there is a modification or variation of outstanding authority involved. In that event the appropriate fee for modification is applicable.
- <sup>5</sup> This fee applies to any request for dispatch station authority not made pursuant to §21.519(a) of this chapter.
- <sup>6</sup> The fee is not required for applications filed by governmental entities.
- <sup>7</sup> For applicants who propose to multiplex their radio systems and who make the supplementary showing required by sections 21.608 and 21.706 of this chapter in the lead application in lieu of filing a separate application under section 214 of the Act, an additional grant fee will be payable at the rate prescribed in the schedule for section 214 applications to extend or supplement facilities.
- <sup>8</sup> The filing fees specified in the schedule for satellite communications services do not apply to initial applications for domestic systems considered in conjunction with that of Western Union; Public Notice FCC 70-853. However, the grant fee will be applicable to any grant. All subsequent applications will be subject to the filing as well as the grant fees.
- <sup>9</sup> In the case of connecting circuits for international satellite circuits the mileage is computed as the distance from the U.S. terminal to the nearest earth station.
- <sup>10</sup> Projects undertaken pursuant to grant of continuing authority as prescribed in §§ 63.03(c) and 63.01(c) of this chapter are subject to the grant fee.
- <sup>11</sup> Fees for other than 4 kHz or 3 kHz channels will be the appropriate multiple or fractions of the 4 kHz or 3 kHz channel fee. (No grant fee is required for a video and associated audio channels.) Where the transmission of voice or digital data will be accomplished in the digital mode, a 64 kb/s transmission channel is to be considered the equivalent of one 4 kHz analog channel for purposes of calculating the grant fee.
- <sup>12</sup> Unless otherwise specified, the grant fees based on channel miles for Section 214 applications are calculated on the basis of airline mileage between terminal cities (up to a maximum of 2000 miles between cities). Where domestic satellite channels are to be established between several cities on a demand use basis (as opposed to a point to point basis), the grant fee is calculated on the basis of the arithmetic average of the distances between each of the cities being so interconnected. Where the channels being established are one-way (rather than two-way), one half the normal grant fee will apply.
- <sup>13</sup> For blanket applications filed pursuant to §§ 63.07 or 63.08 of this chapter, the grant fee shall apply to each individual main or branch office for which reduction of hours is authorized.
- <sup>14</sup> Total operating revenues as reported for the previous calendar year on Form M, Account 300, Line 42.
- <sup>15</sup> An additional grant fee of \$50 is applied for any application proposing transmitter power in excess of 10 watts.

§ 1.1115 Schedule of fees for the Safety and Special Radio Services.

(a) Except as provided in paragraph (c) of this section, the fees set forth in the schedule below shall accompany all formal applications for authorizations filed in the Safety and Special Radio Services:

Applications for all authorizations except as noted below.....	\$4
Ship license that includes interim authorization.....	10
Operational fixed station using frequencies above 952 MHz:	
Initial license, 5-year renewal and assignment of license.....	20
Yearly renewal for stations used in CATV systems.....	5
Stations using frequencies in the band 806-947 MHz and providing service on a commercial basis—per channel.....	200
Common carrier public coast stations:	
Initial license, renewal and assignment of license.....	75
Amateur service:	
Modification of license without renewal.....	3
Special call sign (in addition to other applicable fee).....	25

(b) Except as provided in paragraph (c) of this section, the fee set forth below shall accompany the following application or requests in the Safety and Special Radio Services:

Duplicate license.....	2
------------------------	---

(c) Fees are not required in the following instances:

- (1) Applications filed in the Police, Fire, Forestry Conservation, Highway Maintenance, Local Government and State Guard Radio Services.
- (2) Applications filed by governmental entities in any of the Safety and Special Radio Services.
- (3) Applications filed by the following in the Special Emergency Radio Service: hospitals, disaster relief organizations, beach patrols, school buses, and non-profit ambulance operators and rescue organizations.
- (4) Applications filed in the Disaster Communications Services.
- (5) Applications for ship inspections pursuant to the Great Lakes Agreement, the Safety of Life at Sea Convention, and Parts II and III, Title III, of the Communications Act of 1934, as amended.
- (6) Application for Novice Class license in the Amateur Radio Service, applications for amateur stations under military auspices, and applications filed in the Radio Amateur Civil Emergency Services (RACES).
- (7) Operational Fixed Microwave applications filed for Closed Circuit Educational Television Service.
- (8) Applications for Aeronautical Radionavigation Stations, Aeronautical Search and Rescue Stations, and any ap-

plications filed by the Civil Air Patrol or its component units in the Safety and Special Radio Services.

(9) Applications for license for an aircraft station to operate with only an emergency locator transmitter.

(10) Amendments to applications for authorizations in the Safety and Special Radio Services if the amended application on an original filing would not have required a higher fee than that already paid for the application being amended. If a higher fee would have been required than that already paid, the applicant will be required to pay the difference upon filing the amendment. If the fee would have been lower, no refund will be made.

§ 1.1116 Schedule of fees for Cable Television and Cable Television Relay Services.

(a) Applications and petitions filed in the Cable Television and Cable Television Relay Services shall be accompanied by the fees prescribed below:

Application in the Cable Television Relay (CAR) Service:	
For a construction permit.....	\$20
For a license or renewal.....	5
For a modification of construction permit or of a license.....	5
For reinstatement of expired construction permit or license.....	5
For assignment of license or of construction permit, or for transfer of control.....	10
Application for certificate of compliance pursuant to § 76.11.....	15

NOTE 1: If multiple applications for certificates of compliance are simultaneously filed by cable television systems having a common headend and identical ownership but serving or proposing to serve more than one community, the full \$15 fee will be required for only one of the communities; a \$5 fee will be required for each of the other communities.

(b) An annual authorization fee shall be paid by each CATV system on or before April 1 of each year for the preceding calendar year. The fee for each system shall be equal to the number of its subscribers times 13 cents. The number of subscribers shall be determined by averaging the number of subscribers on the last day of each calendar quarter. (See § 1.1102(f).)

NOTE 2: Where a system offers bulk-rates to multiple-outlet subscribers, such as apartment house or motel operators, each bulk-rate contract is viewed as a number of subscriptions to be calculated by dividing the total annual charge for the bulk-rate contract by the system's basic annual subscription rate for an individual household. (Thus, for example, if a cable television system charges an apartment house operator \$1,000 a year for a bulk-rate contract and charges individual households a basic rate of \$50 per year, the bulk-rate contract is counted as 20 subscriptions (i.e. 1,000÷50=20). Where a variety of "annual subscription rates" for individual households exists (e.g., \$50 per year, if paid in one sum, or \$60 per year, if paid on a per-month basis), the rate used in the subscriber formula shall be the lowest annual

RULES AND REGULATIONS

rate which is offered to individual subscribers (\$50 here). Likewise, if the bulk-rate contract is on a monthly basis, it shall be divided by the lowest monthly rate which is offered. In the preceding example, a \$50 per year charge should be viewed as a charge of \$4.17 per month. It is not contemplated, however, that such calculations should be made with respect to extra payments for additional cable television outlets within the same individual household.

§ 1.1117 Schedule of fees for commercial radio operator examinations and licensing.

(a) Except as provided in paragraphs (b) and (c) of this section, applications for commercial radio operator examinations and licensing shall be accompanied by the fees prescribed below:

- (1) Applications for new operator license or permit:
  - First-class, second-class, or third-class, either radiotelephone or radiotelegraph ..... \$4
  - Provisional radiotelephone third-class operator certificate with broadcast endorsement, one-year term ..... 2
  - Restricted radiotelephone permit..... 4
  - Restricted radiotelephone permit (alien), five-year term..... 4
- (2) Application for endorsement of license or permit: 4
- (3) Application for renewal of operator license or permit:
  - First-class, second-class, or third-class, either radiotelephone or radiotelegraph ..... 2
  - Restricted radiotelephone operator permit (alien)..... 4
- (4) Application for replacement or duplicate license or permit..... 2
- (5) Application for verification card (Form 758-F)..... 2

(b) Whenever an applicant requests both an operator license or permit and an endorsement the required fee will be the fee prescribed for the license document involved only.

(c) No fee is required for applications for a replacement license or permit for a marriage-related change of name.

(d) When an application is filed for a new license or permit and the applicant fails to appear for the required examination within 18 months, the application will be null and void for failure to prosecute and no refund will be made.

(e) Operator authorizations are issued by the Commission subject to payment and receipt of the applicable fee pursuant to the requirements of § 1.1102 of this chapter. In the case of operator authorizations, when the Commission is unable to collect the prescribed fee by a specified date upon notification mailed to the applicant at his last known address, the authorization will become null, void and ineffective after that date.

§ 1.1120 Schedule of fees for equipment type approval, type acceptance and certification.

Type approval, type acceptance, certification or approval of subscription television systems shall require payment of fees as prescribed below:

(a) CERTIFICATION

Item	Application fee	Item	Application fee
(1) Application for certification of each receiver model: <sup>1</sup>		(3) Application for certification of equipment (other than receivers) operating under Part 15: <sup>2</sup>	150
a. Television broadcast receiver.....	\$250		
b. FM broadcast receiver (with or without other reception capability) .....	150	(See footnotes at end of tables.)	
c. Combination TV/FM broadcast receiver (with or without other reception capability) .....	300	(b) TYPE ACCEPTANCE	
d. All other receivers.....	150	(1) Application for type acceptance for each equipment type <sup>1,2,3,4</sup> .....	\$200
(2) Application for certification of equipment operating under Part 18: <sup>5</sup> (N fee required for certification for use of industrial heating equipment on Form 724 in accordance with § 18.116 of the Commission's Rules).....	150	(2) Application for the addition of one or more rule parts to existing type acceptance for each equipment type as identified by manufacturer or trade name and type number .....	150
		(3) Approval of subscription television system.....	1500
		(See footnotes at end of tables.)	

(c) TYPE APPROVAL<sup>6</sup>

Item <sup>7</sup>	Filing fee <sup>7</sup>	Grant fee <sup>7</sup>
(1) Applications for type approval of equipment requiring tests: <sup>8</sup>		
a. Part 73:		
1. Broadcast modulation monitors—SCA or stereo.....	\$2,400	\$800
2. Broadcast modulation monitors—other.....	1,200	400
3. Broadcast antenna phase monitors.....	2,400	800
4. Other broadcasting equipment.....	1,200	400
b. Parts 81 and 83:		
1. Ship transmitters, including lifeboat transmitters.....	1,200	400
2. Radar.....	900	300
3. Ship automatic alarms.....	3,000	1,000
4. Ship automatic alarm keys.....	750	250
5. Other maritime devices.....	750	250
c. Part 15:		
1. Wireless microphones.....	450	150
2. Auditory training transmitters (72-76 MHz).....	1,200	400
3. Class I TV devices:		
If rated to operate on 1 or 2 channels.....	1,500	500
If rated to operate on more than 2 channels, for each channel over 2.....	750	250
4. Other Part 15 devices.....	450	150
d. Part 18:		
1. Medical diathermy and Subpart H equipment (13.56, 27.12, 40.68 MHz).....	750	250
2. Medical diathermy, microwave ovens and other Subpart H equipment (915 MHz and above).....	900	300
3. Ultrasonic.....	450	150
4. Other Part 18 devices.....	750	250
(2) Applications for type approval of equipment not requiring tests <sup>9</sup> .....	75	25
(3) Applications for approval of modifications in existing type approved equipment:		
a. Modifications which require retesting.....	(10)	(10)
b. All other modifications.....	75	25
(4) Correction of equipment deficiencies: Application for type approval where unit has been previously rejected for deficiency and is resubmitted for testing.....	(10)	(10)

<sup>1</sup> The receiver part of a transceiver or a unit which includes a transmitter and receiver shall be separately certified. The application for receiver certification shall be filed simultaneously with, but under separate cover from, the application for type acceptance.

<sup>2</sup> In the case of an equipment in which one or more receivers and transmitters are packaged as an individual equipment and identified by a single type number, each receiver shall be separately certified and each transmitter shall be separately type accepted. The application(s) for certification for each receiver shall be filed simultaneously with, but under separate cover from, the application(s) for type acceptance.

<sup>3</sup> Application for certification or type acceptance of equipments which bear different identification will be considered separate applications, regardless of whether such equipment may be otherwise identical.

<sup>4</sup> Fees for type acceptance are not required in the following cases:

(a) when a request for type acceptance is included in an application for station license and covers only the item of equipment to be authorized in that particular station;

(b) when a request is made by the licensee of a station for approval of modifications to a specific item of existing type accepted equipment authorized in that particular station.

<sup>5</sup> Whenever an item subject to type approval is required to comply with more than one set of technical specifications, separate fees will be required for each set of technical specifications for which compliance is examined. For example, a combined frequency and modulation monitor will require the payment of fees applicable to each; a frequency monitor for standard broadcast and FM broadcast will require payment of fees applicable to each. Likewise, combination units of items of the same type, for example, a combination of two radars, will require payment of two fees.

<sup>6</sup> A separate application, with payment of appropriate fees, is required for each equipment bearing different identification, whether in trade name or model number, even though such equipment may otherwise be identical to another. However, see note 9 below.

<sup>7</sup> The filing fee must be remitted with the application. The applicant may include the grant fee if he desires; otherwise the grant fee shall be remitted within the prescribed 45 days after grant of type approval. See § 1.1102 of this chapter.

<sup>8</sup> A single application is required for a combination under a single identification of two or more equipments which are subject to type approval, such as a combination of two radars. However, payment of separate fees will be required for each equipment which is tested. For an equipment which is subject to two or more sets of technical specifications in the rules, separate fees will be required for each set of tests.

<sup>9</sup> For a family or series of equipment models having the same radiofrequency generator or transmitter and so nearly identical in design and construction that tests on only one model will be required, the model tested will be subject to the fees specified in paragraph (c)(1), and the other models in that series will be subject to the fees specified in paragraph (c)(2). For example, this would apply to two or more models of microwave ovens identical except for identification, styling, and minor electrical or mechanical changes. Likewise, it would apply to two or more models of marine radars which employ the same transmitter but with different combinations of accessories. Likewise, initial applications for type approval which request use of alternate magnets or other critical components will require payment of the fee indicated in paragraph (c)(1) plus the fee required in paragraph (c)(3).

<sup>10</sup> 75 percent of the filing and grant fees specified in (1) above for the particular class of equipment;

2. In § 13.71, paragraph (b) is revised to read as follows:

§ 13.71 Issue of duplicate or replacement licenses.

\* \* \* \* \*

(b) The holder of any license or permit whose name is legally changed shall, within thirty days of the legal change of name, make application for a replacement document to indicate the new legal name by submitting a properly executed application accompanied by the license or

permit affected. If the authorization is in the diploma form, the application should be submitted to the office where it was issued. If the authorization is of the card form (Restricted Radiotelephone Operator Permit), it should be submitted to the Federal Communications Commission, Gettysburg, Pa. 17325.

NOTE: Pursuant to § 1.1117(c) of this chapter, no fee is required for application for replacement of license for a marriage-related change of name.

## **DEPARTMENT OF LABOR**

**Employment Standards  
Administration**

### **MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION**

**General Wage Determination Decisions**

## DEPARTMENT OF LABOR

## Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND  
FEDERALLY ASSISTED CONSTRUCTION

## General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

## MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

## MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Georgia:	
AQ-4052	Jan. 18, 1974
Illinois:	
AR-3059; AR-3060; AR-3062	Aug. 2, 1974
Michigan:	
AR-3054	July 12, 1974

## LABORERS (Pipeline)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yamers, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamellers of pipe, inside and out

GROUP 5: (Relining Pipe)  
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

CO75-5009 P. 7

## LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete bugies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretcherman on post tension or prestressed concrete on or-off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Pumpmen; Transverse concrete conveyor operator, mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Gunniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzle men; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellies and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (TUNNELS):

- Group 1: Outside laborers
  - Group 2: Minimum tunnel labor, dry house men
  - Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumpman, whirley pumps operators
  - Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender
  - Group 5: Cement finisher helper, applying of concrete processing materials
  - Group 6: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powderman and blasters, reinforcing steel setters, timber-men (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunitite nozzleman; Sandblaster; Pump concrete placement men
- (SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)
- Group 1: Laborers, Topmen, Bottommen, and Cagers
  - Group 2: Chucktenders, Concrete laborers, Whirley pumps operators
  - Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material
  - Group 4: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powderman and blasters, reinforcing steel setters, timber-men (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external
  - Group 5: Diamond and core drill; Cement finisher (underground); Gunitite nozzleman; Shotcrete operators; Sandblasters and pump concrete placement men
  - Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

## POWER EQUIPMENT OPERATORS \*\*

(Other than for work in Tunnels, Shafts and Raises)

Group 1: Asphalt screed; Brakeman; Drill operator, smaller than William MF and similar; Helper to heavy duty mechanic and/or Welder; Tractor operator (under 70 HP), with or without attachments; Oiler

Group 2: Air compressor; Ditch witch trenching machine and similar; Equipment lubricating and service engineer; Fork lift; Haulage motorman; Operators of five or more light plants, welding machines, compressors 360 C.F.M. or less, pumps, generators; Pugmill operator; Pugmill; Pumps; Portable screening plant with or without a spray bar; Screening plants - with classifier; Self-propelled rollers - 5 tons & under; Vacuum well point system

Group 3: Asphalt plant; Backfiller; Bituminous spreader or laydown machine; Cableway signalman; Caissons drill; (William MF, similar and larger; C.M.I. and similar; Concrete finish machine; Concrete gang saws on concrete paving; Concrete mixer (less than 1 yd.); Concrete placement pumps (under 8 in.); Conveyor (handling building materials); Distributors, bituminous surfaces; Drill, (diamond or core); Drills rigs (rotary, churn or cable tool); Elevating graders; Engineer fireman; Fireman or tank heater, Road; GROUT machine; Gunnite machine; Hoists (1 drum); Loader (Barber Greene, etc.); Loader (up to and including 6 cu. yds.); Machine doctor mechanic; Motor grader (blade); Road stabilization machine; Roller-self-propelled-all types over 5 tons; Sandblasting machine; Single unit portable crusher-with or without washer; Tile tamper, wheel mounted; tractor (70 h.p. & over) (with or without attachments); Trenching machine; Welder; Winch op., on truck; Concrete batching plants

Group 4: Concrete mixer (over 1 cu. yd.); Concrete paver 34 E or similar; Concrete placement pumps (8 in. and over); Crane (50 tons and under); Hoists (2 drums); Loader - over 6 cu. yds.; Mechanic-Welder (heavy duty); Mixer-mobile; Multiple unit portable crusher - with or without washer; Pile driver; Fireman; Cable-operated crane, truck mounted, 25 tons and over; Cable operated power shovels, dragline; Clamshell, and backhoes (5 cu. yds. and under); Hydraulic backhoes, 1 1/2 cu. yds. and over; Special utility operator; Self-propelled hydrocrane; Tractor with side boom; Truck mounted hydrocrane; Scraper-single bowl under 40 cu. yds.

Group 5: Crane operator - over 50 tons; Derrick; Electric rail type tower crane; Hoist (3 drum or more); Cable-operated power shovels, draglines, clamshells and backhoes (over 5 cu. yds.); Quad nine and similar push unit; Scraper-all tandem bowls; Scraper-single bowl including pups 40 cu. yd. and over

Group 6: Cableway; Crawler or truck mounted tower crane; Wheel excavator; Climbing tower crane

MECHANICS

LABORERS (Heavy Construction)

GROUP 1: Minimum laborer, including caissons to 8', carrying reinforcing rods; Work on cross culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence erectors; Metal Mesh; Dowel bars; Tie bars and chairs in concrete paving; Nursery man incl. seeding; mulching and planting of trees, shrubs and flowers; Stake chaser; Gabion baskets and Teno mattresses

GROUP 2: Chuck tenders; Nippers, core and diamond drill helpers; Powderman helpers

GROUP 3: Hot asphalt laborer; Rakers; Box-tenders; Asphalt curb machines; Potmen (not mechanical)

GROUP 4: Multi-plate culvert pipe; Air, gas and electric tools operators; Barco hammers; Spaders; Electric hammers; Air tampers; Cutting torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated concrete buggies; Operators of concrete saws on pavement (other than gang saws); Timber and chain saws; Stresser or stretchman on post tension or prestressed concrete on or off jobsite; Tool room man and checkers; Cement finisher helper; Sandblaster helper; Concrete processing material monitor; Spotters; Signalmen; Dumpmen; Transverse concrete conveyor operator; mechanical grouters; Boring machines (air hydraulic); Automatic concrete power curbing machine; Jackhammer; Vibrators; Paving breakers; Frostproofing

GROUP 5: Any laborers performing bridge work over 40' above the ground or above a floor and working from a bos'n chair, swinging stage, life belt or block and tackle

GROUP 6: Guniting and shotcrete helpers; Caissons over 12'; Cofferdams; Timbermen; Underpinning and shoring; Form setters and/or stringman on roads, highways, streets and airport runways; Distributor; Placing and hooking of landing mats; Bull float (hand operated) and center expansion machines; Sandblasters; Grade checkers if required by employer

GROUP 7: Powdermen and blasters; Gunnite nozzlemen; Shotcrete operator

GROUP 8: Pipelayer on truck pipe lines in connection with highway work

GROUP 9: Wagon drills and air tracks; Jackhammer operators in caissons over 12'; Bellers and stemmen; Licensed powdermen; Diamond and core drills powered by air

GROUP 10: Any work, other than on bridges, performed by laborers working from a bos'n chair, swinging stage, life belt or block and tackle as a safety requirement

LABORERS (pipelines)

All mainline sewers; Water mains; Gas, oil or any product pipelines; Penstocks; Siphons or drainage lines; Pipe plants and yards not in connection with highway construction.

GROUP 1: Pipe plants and yards; Stringing of pipe or skids; Handling and signaling on line work

GROUP 2: Potman (not mechanical); Pipewrapper, Dopers, Jeep Holiday Detector Men, Bandage makers, Powdermen helpers

GROUP 3: Laborers working in trenches on all pipelines; Sewer, water, gas, oil, telephone conduit, pen stock, siphons, drainage lines, caulkers, yarners, fine graders, air, gas, electric and hydraulic tools, boring machines, hydraulic jacks, drills, tampers, etc.

GROUP 4: Sandblaster, powdermen and blasters, wiping of joint concrete pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamellers of pipe, inside and out

GROUP 5: (Relining Pipe)  
Relining Pipe

GROUP 5-A: Mixer man

GROUP 6: Pipelayer

NOTICES

LABORERS (TUNNELS):

Group 1: Outside laborers

Group 2: Minimum tunnel labor, dry house man

Group 3: Cable or hose tenders, chuck tenders, concrete laborers, dumperman, whirley pumps operators

Group 4: Helpers on shotcrete, gunniting and sandblasting; Helpers, core and diamond drills; Pot tender

Group 5: Cement finisher helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required) and all cutting and welding that is incidental to the miner's work; Tunnel liner plate setters; Vibrator men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and core drills; Cement finisher (underground); Shotcrete operator; Gunnite nozzleman; Sandblaster; Pump concrete placement men

(SHAFTS, RAISES, MISSILE SILOS AND ALL UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen, and Cagers

Group 2: Chucktenders, Concrete laborers, Whirley pump operators

Group 3: Helpers on shotcrete, gunniting and sandblasting; Helpers on core and diamond drills; Pot tenders; Cement finisher helpers; Applying of concrete processing material

Group 4: Collapsible form covers and setters, miners, machinemen and bit grinders, nippers, powdermen and blasters, reinforcing steel setters, timbermen (steel or wood tunnel support, incl. the placement of sheeting when required); All cutting and welding that is incidental to the miner's work; Liner plate setters; Vibrator men, internal and external

Group 5: Diamond and core drill; Cement finisher (underground); Gunnite nozzleman; Shotcrete operators; Sandblasters and pump concrete placement men

Group 6: Any employee performing work under ground from a bos'n chair, swinging stage, life belt or block and tackle

POWER EQUIPMENT OPERATORS \*\*  
(Other than for work in Tunnels, Shafts and Raises)

Group 1: Asphalt screed; Brakeman; Drill operator, smaller than William MF and similar; Helper to heavy duty mechanic and/or Welder; Tractor operator (under 70 HP), with or without attachments; Oiler

Group 2: Air compressor; Ditch witch trenching machine and similar; Equipment lubricating and service engineer; Fork lift; Haulage motorman; Operators of five or more light plants, welding machines, compressors 360 C.F.M. or less, pumps, generators; Pugmill operator; Pugmill; Pumps; Portable screening plant with or without a spray bar; Screening plants - with classifier; Self-propelled rollers - 5 tons & under; Vacuum well point system

Group 3: Asphalt plant; Backfiller; Bituminous spreader or laydown machine; Cableway signalman; Caissons drill; (William MF, similar and larger; C.M.I. and similar; Concrete finish machine; Concrete gang saws on concrete paving; Concrete mixer (less than 1 yd.); Concrete placement pumps (under 8 in.); Conveyor (handling building materials); Distributors, bituminous surfaces; Drill, (diamond or core); Drills rigs (rotary, churn or cable tool); Elevating graders; Engineer fireman; Fireman or tank heater; Road; Grout machine; Gunnite machine; Hoists (1 drum); Loader (Barber Greene, etc.); Loader (up to and including 6 cu. yds.); Machine doctor mechanic; Motor grader (blade); Road stabilization machine; Roller-self-propelled-all types over 5 tons; Sandblasting machine; Single unit portable crusher-with or without washer; Tile tamper, wheel mounted; Tractor (70 h.p. & over) (with or without attachments); Trenching machine; Welder; Winch op., on truck; Concrete batching plants

Group 4: Concrete mixer (over 1 cu. yd.); Concrete paver 34 E or similar; Concrete placement pumps (8 in. and over); Crane (50 tons and under); Hoists (2 drums); Loader - over 6 cu. yds.; Mechanic-Welder (heavy duty); Mixer-mobile; Multiple unit portable crusher - with or without washer; Pile driver; Fireman; Cable-operated crane, truck mounted, 25 tons and over; Cable operated power shovels, dragline; Clamshell, and backhoes (5 cu. yds. and under); Hydraulic backhoes, 1 1/2 cu. yds. and over; Special utility operator; Self-propelled hydrocrane, tractor with side boom; Truck mounted hydrocrane; Scraper-single bowl under 40 cu. yds.

Group 5: Crane operator - over 50 tons; Derrick; Electric rail type tower crane; Hoist (3 drum or more); Cable-operated power shovels, draglines, clamshells and backhoes (over 5 cu. yds.); Quad nine and similar push unit; Scraper-all tandem bowls; Scraper-single bowl including pups 40 cu. yd. and over

Group 6: Cableway; Crawler or truck mounted tower crane; Wheel excavator; Climbing tower crane

- GROUP 1-a:
- GROUP 1-b:
- GROUP 1-c:
- GROUP 1-d:
- GROUP 2:
- GROUP 3:

HI75-5002 P.5

LABORERS

Group 1: All clean-up work of debris, grounds and buildings; Bridge Laborers; Construction Laborers; Dumpman; Gardeners; Horticultural and Landscape Laborers; General Laborers; Limbers, Brush Loaders and Filers; Maintenance, repair (track and roadbeds)

Group 1-a: Mason Tenders

Group 1-b: High Sealer

Group 1-c: Gunnite Operator

Group 1-d: Powderman

Group 2: Asphalt Shovelers; Cement Dumpers; Choke Setter and Rigger (clearing work); Concrete Chipping; Concrete Laborers (wet or dry) including Bucket Tender for concrete; Driller's Helper, Chuck Tender, Outside Ripper; Guinea Chaser (Stakeman); High Pressure Nozzlemann-hydraulic monitor (over 100# pressure) excluding levee work; Loading and unloading, carrying and handling of all rods and materials for use in reinforcing-concrete construction; Mucker (under ground); Sloper; All pneumatic, gas and electric tools not listed in Group 1

Group 3: Asphalt Ironers and Rakers; Barke and similar type Tamperers; Buggymobile; Chainsaw, Faller, Logloader and Bucker; Concrete and Magnesite Mixer under 1/2 yard; Concrete Grinder; Concrete Pan Work; Concrete Saw (walking or hand type); Cribbers; Cut Granite Curb Setter; Form Raisers; Header Board; Mortar Mixers (block-brick-masonry); Jack-hammer Operator; Jackson and similar type Compactors; Lagging, Sheetting, Whaling, Bracing, Trench-jacking, Hand-guided Lagging Hammer; Magnesite and Mastic Workers (wet or dry); Mechanical Drillers not covered elsewhere; Pavement Breakers; Pipelayers, Caulkers, Banders; Pipewrappers, Kettlemen, Potmen and men applying asphalt, Lay-Kold, Creosote and similar type materials; Post Hole Diggers (hand held-gas, air and electric); Riprap, Stonepaver and Rockslinger, including placing of sacked concrete (wet or dry); Rotary Scrifter; Roto-tiller; Sandblasters; Tank Cleaners; Tree Climbers; Vibra-screed (bull float in connection with laborers' work); Vibrator, Burning, Welding, Signaling, and Rigging in connection with laborers' work; Concrete Pump Machine; Joy Drill Model TM-2A, Gardner, Denver DH-143 and similar type drills; Track Drillers, Diamond Core, Wagon Drillers and Davis Trencher T-66 or similar types

POWER EQUIPMENT OPERATORS

(Except Piledriving and Steel Erection)

Group 1: Partsman (heavy duty shop parts room when needed); Repairman Helper

HI75-5002 P.6

POWER EQUIPMENT OPERATORS (Cont'd)  
(Except Piledriving and Steel Erection)

Group 2: Compressor, electrically, diesel or gas powered etc.; Hydraulic Monitor; Material Loader and/or Conveyor Operator (handling building material); Mixer Box Operator (concrete plant); Pump Operator; Sprodder Boxman (with screeds); Tar Pot Fireman (power agitated)

Group 3: Oiler; Fireman; Switchman; Brakeman; Deckhand; Tar Pot Fireman; Box Operator (bunker); Locomotive (up to and including 30 tons); Roller (5 tons and under); Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Tugger Hoist, single drum

Group 4: Boom Truck or Dual Purpose "A" Frame Truck; Fork Lift or Lumber Stacker (construction job site); Material Hoist (1 drum); Straddle Truck; Ross Carrier and similar (jobsite); Dinky Operator

Group 5: Concrete Mixer (up to 2 yards); Concrete Pumps or Pumcrete Guns; Generators, gasoline or diesel driven (100 K.W.); Lubrication and Service Engineer (mobile and grease rack); Towermobile; Welding Machine (gasoline or diesel); Agri-cat (Mini Cat)

Group 6: Combination Loader and Backhoe including Hopto (up to and incl. 1/2 yard); Concrete Batch Plants (wet or dry); Concrete Saws and/or Grinder (self-propelled unit on streets, highways, airports and canals); Drilling Machinery (not to apply to waterliners, wagon drills or jack-hammers); Highline Cable-way Signalman; Loader (up to and including 2 1/2 cu. yds.); Lull High Lift; Pavement Braker; Maginnis Internal Full Slab Vibrator (on airports, highways, canals, and warehouses); Mechanical Finishers (concrete); Large Clary, Johnson Bidwell Bridge Deck or similar types); Mobile Crane Driver; Portable Crushers; Power Jumbo Operator (setting slip forms, etc., in tunnels); Rollers (over 5 tons); Self-propelled Compactor (single engine); Small Rubber-tired Tractors; Trencher (up to and including 6'); Slip Form Pumps (power driven by hydraulic, electric, gas, etc., lifting device for concrete forms)

Group 7: Crusher Plant; Dual Drum Mixer; Gradesetter; Hoist (2 drums); Loader (over 2 1/2 cu. yds. up to and including 5 cu. yds.); Mechanical Finishers or Spreader Machine, Asphalt (Barber Greene and similar) (Screedman required); Mine or Shaft Hoist; Pavement Breaker, Truck mounted, with Compressor Combination; Pavement Breaker with Compressor Combination (operates 1 or 2); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Pipe Bending Machine (pipe lines only); Self-propelled Elevating Grader; Slusher Operator; Trencher (over 6'); Water Tanker (pulled by Euclids, T-Pulls, DM-10, 20, 21, or similar); Mixermobile (over 5 tons) Small Tractor (with boom D-6 or similar)

POWER EQUIPMENT OPERATORS (Cont'd)  
(Except Piledriving and Steel Erection)

- Group 8: Boring Machine; Cast-in-place Pipe Laying Machine; Concrete Batch Plant (multiple units); Combination Loader and Hydraulic Backhoe (over 1/2 yd. to and incl. 3/4 yd.); Conveyor (tunnel); Engineer, Locomotive (over 30 tons up to and incl. 100 tons); Finishing Machine Operator (airports and highways); Hydraulic Backhoe (over 1/2 yard to and including 3/4 yd.); Kohman Loader; Mechanic Trench Shield; Mucking Machine; No-joint Pipe Laying Machine; Portable Crushing and Screening Plants; Saurman type Dragline (under 5 yards); Self-propelled Boom type Lifting Device; Stationary Pipe-Wrapping, Cleaning and Bending Machine; Surface Heater and Planer; Tunnel Bagger; Trk-batch Paver
- Group 9: Boom type Backfilling Machine; Combination Mixer and Compressor (gunite); Do-more Loader and Adams Elevator; Lull Hi-Lift (40' or over); Rubber-tired Earthmoving Equipment (up to 12 cu. yds.); Wheel Trencher (over 6')
- Group 9-A: Dozers; Heavy Duty Repairman or Welder; Push Cats; Scrapers; Self-propelled Compactor with dazer; Sheep Foot; Tractors; Tractors (with boom, larger than D-6, and similar)
- Group 10: Chicago Boom; Hoist (3 drums); Kochring Skooper; Loader (over 5 yards up to and including 12 yards); Locomotive (over 100 tons) (single or multiple units); Power Blade Operator; Rubber-tired Earthmoving Equipment (up to and including 35 cu. yds.; Euclids, T-Pulls, DH-10, 20, 21 and similar); Saurman type Dragline (5 yards or over); Soil Stabilizer (P & H equal); Sub-grader (Gurries or other automatic type); Track-laying type Earthmoving Machine (single engine with tandem scraper); Tractor, Compressor, Drill Combination; Tractor (tandem scraper); Tractors (D-9 or equivalent)
- Group 10-A: Cranes (not over 25 tons); Power Shovels, Clamshells, Draglines, Backhoes, Gradaalls (up to and including 1 cu. yd.)
- Group 11: Automatic Skip Form Paver (concrete or asphalt) (Gradesetter, Screedman required); Cranes (over 25 tons); DH-10, 20, etc. (tandem); Earth-moving Machine (multiple propulsion power units and two or more scrapers) (up to and including 35 cu. yds. struck "MRC"); Highline Cable-way; Lift Slab Machine; Loader (over 12 yds.); Power Shovels, Clamshells, Draglines, Backhoes, Gradaalls (over 1 yd., and up to 7 yds.); Power Blade Operator (16 or over); Pre-stress Wire Wrapping Machine; Self-propelled Compactor (with multiple propulsion power units); Single Engine Rubber Tired Earth Moving Machine (with tandem scraper); Tandem Cats; Tower Cranes, Mobile; Trencher (pulling attached shield); Universal, Liebherr, Linden and similar types of tower cranes; Wheel Excavator (up to and including 750 cu. yds. per hour)
- Group 12: Band Wagon (in conjunction with wheel excavator); Barricks; Drill, Rig; Multi-propulsion Earth Moving Machines (2 or more scrapers) (over 35 cu. yds. struck "arc"); Power Shovels and Draglines (7 cu. yds. and over); Rubber-tired Earthmoving Equipment (over 35 cu. yd. Euclids, T-Pulls, DH-10, 20, 21 and similar); Wheel Excavator (over 750 cu. yds.)

SUPERSEDES DECISION

STATE: Indiana  
 DECISION NUMBER: IN75-2014  
 DATE: Date of Publication  
 SUPERSEDES DECISIONS No. AR-3126, dated August 23, 1974 in 39 FR 30752, No. AR-3127 dated, August 23, 1974 in 39 FR 30753 and No. AR-3128 dated, August 23, 1974 in 39 FR 30759.  
 DESCRIPTION OF WORK: Heavy and Highway Construction.

DECISION NO. LA75-4033

LABORERS - ZONE 2

- GROUP 1 - Building laborer; rotary drill laborer; foundation drill crewman
- GROUP 2 - Mason mixer; plaster mixer; mechanical tool operator; sandblaster; laying concrete pipe, clay pipe, plastic pipe, asbestos cement pipe, casing pipe and corrugated metal pipe, gas sewer pipe, drain pipe, and underground tile (caulkers, joint wrappers, hot pot and pipe layers); gas and oil pipeline laborers, wrappers and dopers

LABORERS - ZONE 3

- GROUP 1 - Building and general laborer; tender (carpenter, plaster, cement finisher, mason); tank and vessel cleaners
- GROUP 2 - Air tool operators (except jackhammer); interior of closed tanks and vessels power equipment
- GROUP 3 - Mortar mixers and jackhammer operators
- GROUP 4 - Blaster
- GROUP 5 - Blaster helpers; concrete cutters behind paving machine and puddlers; form setters and lines asphalt worker
- GROUP 6 - Piping joints, laying pipe and tile from pumperets
- GROUP 7 - Interior of closed tanks and vessels manually

LABORERS - ZONES 4 & 5

- GROUP 1 - Building and general laborer, carpenter tenders
- GROUP 2 - Power tool operators (harmer man, tamper, vibrators, power buggies, concrete chippers or cutters, chain saw operators, etc.); pipelayers (non-metallic)
- GROUP 3 - Mason tenders, plaster tenders, cement mix (wet or dry) tenders, hod carrier tenders; mortar mixers & cement mixers (wet or dry)

LABORERS - ZONE 6

- GROUP 1 - Building laborers
- GROUP 2 - Laborer handling steel pans, stone masons helpers, mechanical tool operators, sewerman (bottom man, caulkers, tenders, joint pipers, hot pot, grade carriers, layers and ditchers 4 feet and over), sand blaster (nozzles and pot tender), laying non-metallic pipe over 4 feet deep, soppie diggers and installers over 4 feet deep, gas and oil pipeline laborers and wrappers
- GROUP 3 - Gunite tool operators
- GROUP 4 - Bricklayers tenders and mason tenders
- GROUP 5 - Hod carriers using price mover to serve a bricklayer; mortar mixers

LABORERS - ZONE 7

- GROUP 1 - Common laborers
- GROUP 2 - Jackhammer, sewerman, mason tenders, plasterer tenders, stone masons helpers, vibrator man
- GROUP 3 - Mortar mixers

LABORERS - ZONE 8

- GROUP 1 - Common laborer; carpenter helpers; mason tenders (other than cement); plasterers; tenders; stone mason helpers; concrete workers; scaffold builders
- GROUP 2 - Air tool operators (jackhammer, vibrator, and tamper); sewer pipe joiners and setters; concrete cutters; hod carriers; concrete material handler; acid workers; mason tenders (cement); mortar mixer (wet or dry); motorized buggy operator; water-proofer (castic); form setters (steel paving forms)
- GROUP 3 - Chain saw operator
- GROUP 4 - Asphalt raker, tamper, smoother and shovelers; sewer pipe layers; blaster helpers
- GROUP 5 - Pooderman

DECISION NO. LA75-4033

LABORERS - ZONE 9

- GROUP 1 - Building laborers
- GROUP 2 - Mason tenders, plasterer tenders; asphalt rakers, asphalt smoothers
- GROUP 3 - Mortar mixers
- GROUP 4 - Air jack operators, vibrator operators; sewer pipe layers, sewer pipe vapors

LABORERS - ZONE 10

- GROUP 1 - Laborers, tenders (brickmasons, stonemasons, cement masons, carpenter, plasterers); stripping & dismantling; concrete form work; loading, unloading, carrying & handling steel & steel mesh; assisting to the setting of cut stone, granite or artificial stone; building scaffolds; shoring
- GROUP 2 - Mechanical tool operator (air, electric, motor, engine, etc.); sewer pipe layers; mortar mixers (hand or machine); gunite operator
- GROUP 3 - Pipe dopers & burners

AREA COVERED BY LABORERS (BUILDING CONSTRUCTION) ZONES

- ZONE 1 - St. Tammany (as far south as Bayou Laconche and east to the Mississippi State Line at Ferrington), Tangipahoa (except that portion south of a line running due east from the western boundary of Tangipahoa Parish which follows the northern city limits of Independence, Louisiana to 2 1/2 miles east of U.S. Highway 851, then running south paralleling Highway 851 at a 20 mile distance to Lake Pontchartrain) & Washington Parishes
- ZONE 2 - Acadia, Iberville, Terrebonne, St. Landry, St. Martin, St. Mary & Vermilion Parishes
- ZONE 3 - Allen, Beauregard, Calcasieu, Cameron, Jefferson Davis & Vermilion Parishes
- ZONE 4 - All of Ascension, East Baton Rouge, East Feliciana, Iberville, Pointe Coupee, West Baton Rouge & West Feliciana Parishes; Parts of Assumption, St. James, St. John the Baptist Parishes (north of a line drawn from the southern limits of the town of St. James in St. James Parish to the northern limits of the town of Napoleonville, in Assumption Parish & then directly west to the parish line, all of St. James Parish except that part which is east of a line drawn from Lusher, Louisiana to U.S. Highway 61 (Airline Highway) then west on U.S. 61 to Blind River and on a direct line to Lusher, Louisiana)
- ZONE 5 - Livingston, St. Helena & Tangipahoa (south & west of a line running from the western parish line to a point directly east which touches the northern limits of the town of Independence, then directly south to Lake Pontchartrain) Parishes
- ZONE 6 - Iberville (except Grand Isle), Orleans, Plaquemine, St. Bernard, St. Charles, St. John the Baptist (on the west bank of the Mississippi River and the portion of St. John the Baptist on the east bank of the Mississippi River as far as the Sycamore Inn Lusher and north to Blind River and Manchac) & St. Tammany (north as far as Bayou Lusher, east to the Mississippi State Line at Ferrington) Parishes
- ZONE 7 - Assumption (north of Napoleonville), Jefferson (Grand Isle), Lafourche, St. James (on the west bank and including the town of Vacherie) & Terrebonne Parishes
- ZONE 8 - Avovelle, Evangeline, Grant, LaSalle, Natchitoches, Natchitoches, Natchitoches & Natchitoches
- ZONE 9 - Bienville, Bossier, Cadeo, Claiborne, DeCadeo, East Baton Rouge, East Feliciana, Iberville, Lincoln, Madison, Morehouse, Ouachita, Richland, Tensas, Union & West Carroll Parishes

DECISION NO. LA75-4033 CLASSIFICATION DEFINITIONS

GROUP 1 - Laborers, including but not limited to signalman, foundation driller, and demolishing and dismantling man  
 GROUP 2 - Baker, concrete spreader, carpenters helpers, distributor man, finishers helpers, formsetters helpers, jackhammer operator, jettling laborer, painters helpers, pit man, pipe-layer or tile layer, power monkey helper, tamper, tree pruner, stone masons helper, stoker, asphalt raker, concrete shovelers, power tool operator and motorized buggy operator  
 GROUP 3 - Formsetter, head or master-high type pavement  
 GROUP 4 - Poodatman

AREA COVERED BY LABORERS (HIGHWAY CONSTRUCTION) ZONES

**POWER EQUIPMENT OPERATORS - ZONE 5 (CONT'D)**

**GROUP 6** - Push Hog; Compressors; Concrete Pumps, under 6' discharge; Concrete Saw; Kolum Buff Machines; Mixers (1 sack and under); Motorized street sweepers self-propelled; Pumps (3 inch and over); Deck Winch (1 drum); Distributors; Dowel Bar Machine; Farm-Type tractors (when used to pull discs, grass cutters, etc.); Test Pump, Internal, combustion engine powered; Ditching or trenching machines (non-riding type); Water Elast Pumps; Hoist, 1 drum under 4 stories on buildings; Hoist, 1 drum (40 feet or under on structures other than buildings)

**GROUP 7** - Asphalt Plant Operator; Boom Trucks; Rullloads; Concrete Spreader; Farm Type Front End Loaders; Rollers (other than plant mix asphalt); Straddle Buggies; Winch Truck with A-Frame (under 5 tons); Work Boat, not requiring licensed operator; Finishing Machines

**CLASSIFICATION DEFINITIONS**

**POWER EQUIPMENT OPERATORS - ZONES 1, 2, 3 & 4**

**GROUP 1** - Oiler  
**GROUP 2** - Mechanic helper  
**GROUP 3** - Oiler-Driver  
**GROUP 4** - Scalaman  
**GROUP 5** - Air compressor; Asphalt Plant Operator; Bulldozers, D-4, and equivalent & under; Bulfloads; Concrete Spreader; Finishing Machines; Concrete Mixer (16-s or less); Concrete Saw; Distributors (Bitum Surface); Dowel Bar Machine; Farm-Type Tractor (with all attachments except backhoe); Fireman; Fork Lifts (other than setting steel, machinery or pipe); Hoist, 1 drum or less than 4 stories; Kolum Buff Machine; Pull Cate; Pump (3" and over); Pump, concrete (under 6"); Rollers, except on asphalt or brick; Straddle Buggies; Sweepers on streets & roads (motorized); Winch Truck, A-Frame (other than handling steel or pipe)

**GROUP 6** - Asphalt Spreader; Backhoe; Bulldozer, over P-4 and equivalent; Cablesaws; Concrete Mixer, over 16-s; Cranes; Derricks; Ditching or Trenching Machines; Draglines; York Lifts (setting steel, ratchet or pipe); Front-End Loaders (except farm-type tractors); Grease Serviceman; Hoist, 1 drum, 4 stories or more or 40 feet (on structures other than buildings); Hoist, 2 drums and over; Hydraulic; Heavy Duty Mechanic; Motor Patrols; Piledrivers; Pump, concrete (6" & over); Road Pavers; Rollers on asphalt or brick; Scoopmobiles; Scrapers; Sideboom Cate; Shovels; Tractorators; Welder, journeyman; Well Point System; Winch Cate (hoisting); Winch Truck, A-Frame (handling steel or pipe)

**POWER EQUIPMENT OPERATORS - ZONE 5**

**GROUP 1** - Scale operator; Oiler-Driver on Motor Crane; Batch Plant Operator  
**GROUP 2** - Pumps under 3 inch suction; Mechanic Helper  
**GROUP 3** - Oiler  
**GROUP 4** - Fireman  
**GROUP 5** - Combination Oiler-Compressor; Combination Oiler-Fireman; Asphalt Spreader; Backhoe (all types); Bulldozers; Cablesaws; Cherry Pickers (all types); Concrete Mixers (over 1 sack); Cranes; Deck Winch (2 drums or over); Front End Loaders (except farm type); Grease Serviceman; Hoist (1 drum, 4 stories, or 40 feet) on construction other than buildings; Hoist (2 drums or over); Locomotives (all types); Mechanics; Mixer Plant Operator, Central Mix; Motor Patrols; Piledrivers; Pull Cate; Pump Cate, 6" and over discharge; Push Cate; Road Pavers; Derricks; Ditching or Trenching Machines (riding type); Draglines; Dredges; Fork Lifts (other than farm type) outside warehouses; Foundation Drill; Rollers (plant mix asphalt); Scrapers; Shovels; Sidebooms; Unit Operator; Welder, Journeyman; Well Point System; Wintrleys; Winch Cate (at D-4 and over); Winch Trucks with A-Frame (5 tons and over); Work Boats, requiring licensed operator

**POWER EQUIPMENT OPERATORS - ZONE 6**

**GROUP 1** - Snatch Cate; Pumps, 3 inch suction or more  
**GROUP 2** - Pumps, under 3 inch suction; Mechanic Helper  
**GROUP 3** - Oiler  
**GROUP 4** - Batch Plant Operator  
**GROUP 5** - Air Compressor; Asphalt Plant Engineer; Blade Grader; Distributor (Bitum Surface); Finishing Machine (Concrete, Paving); Hoist, 1 drum, less than 4 stories; Concrete Mixer under 16s; Oiler Driver; Pump Cate; Street and Road Sweeper; Roller (except on asphalt or brick); Roller, asphalt or brick (under 5 tons); Post-Hole Digger; Tractor operated Bush Hog and similar grass or brush cutting equipment  
**GROUP 6** - A-Frame Truck; Bulldozer, under 6; Crew Boat Operator; Fireman; Fork Lift; Straddle Buggy; Tractorator, Scoopmobile and similar front-end loading equipment with Scoopmobile or Bucket under one (1) cubic yard capacity; Locomotive; Well Point System; Unit Operator; Hoist, 1 drum, 4 stories or over  
**GROUP 7** - Backhoe; Cableway; Concrete Mixer, 16S & up; Crane; Derrick; Dragline; Dredge; Equipment Maintenance Mechanic; Hoist, 2 drum; Locomotive Crane; Paving Mixer; Piledriver; Road Paver; Roller on Asphalt or Brick (5 tons & over); Shovel; Sideboom Cate; Bulldozer, 6 and over; Motor Patrol; Scaper; Hydraulic Crane, Hydraulic Truck, Yard Crane; Cherry Picker, etc.; Foundation Boring and Rearing Machine; Cement Stabilizer; Trenching Machine; Asphalt Spreader; Tractorator and similar front-end loading equipment with scoop or bucket of one (1) cubic yard or more capacity; Tug Boat Operator; Turnapull; Euclid, DM-10 and other similar self-loading earth moving equipment; Concrete Pump (not Pump Cate)  
**GROUP 8** - Crane Operator, 60 tons & over; Crane Operator, Room 100 feet & over; Piledriver operator, Leads 100 feet & over  
**GROUP 9** - Crane Operator, 100 tons & over; Crane Operator, Room 150 feet & over; Piledriver Operator, Leads 150 feet & over  
**GROUP 10** - Crane Operator, Room 250 feet & over; Piledriver Operator, Leads over 250 feet

DECISION NO. LA75-4033

CLASSIFICATION DEFINITIONS

- GROUP 1 - 60 ton crane & over; Crane with 125' boom
- GROUP 2 - Crane with 175' boom
- GROUP 3 - Heavy Duty Operators-Crane all types; deck winches (2); Hi-Ho and similar type equipment; three drum (or more) stabilizers; pulls all types; concrete mixer one yard and over; all pavers; ditching or trenching machines (truck type); mechanics and equipment welders; well-point systems; hoist, two drums or more; hoist, one drum, forty vertical feet or more; scrapers; bulldozers, rubber-tired or track other than farm-type; scoops; motor patrol; gradall; rollers on hot mix; asphalt paving machines; front end loaders, other than farm-type, one cubic yard or over; shovels and backhoes, all types, and equivalent equipment; pilerdriver operator; aidboom cut; A-frame trucks when handling steel or pipe; work boats requiring licensed operators; tugboats; fork lifts over ton ton capacity; and foundation drilling machines
- GROUP 4 - Medium Duty Operators-Two drum stabilizers; front end loaders under 1' cubic yard; A-frame truck except when handling steel or pipe; finishing machines (concrete); power subgraders; tow tractor (crawler type); one drum hoist under 40 vertical feet; fireman; concrete sprayer; pumpfill operator; bituminous distributor on surface treatment and equivalent; bull floats and equivalent; job grease run on "Highway Construction"; unit operator (all Highway Zones); work boats not requiring licensed operators; inboard motored crew boats
- GROUP 5 - Light Duty Operators-Single drum stabilizer; concrete mixer under one yard; spray curine machines; rollers on subgrade; one air compressor over 125 cubic feet; form graders; asphalt finisher screed run; pump over 4 inches; scale operators; crusher operators; concrete jointing machines; concrete saw; tack machines and equivalent equipment; pumpcrete; electric elevator (inside); oiler driver; farm-type, rubber-tired tractor, with attachments, except backhoes; kolum buff and similar equipment; fork lifts, ten ton capacity and under; outboard motored crew boats
- GROUP 6 - Mechanic Helper; Batch Plant Operator
- GROUP 7 - Oiler
- GROUP 8 - Fireman
- GROUP 9 - Wireman Operating Steam Valve
- GROUP 10 - Oiler on Crane Using Air to Drive Piles

LABORERS

Group 1: Laborers - General or Construction; Demolition (cleaning of brick, lumber, etc.); Dry packing of concrete and filling of form-bolt holes; Gas and Oil Pipeline; laborer - temporary water lines (portable type); Window Cleaner

Group 2: Cutting Torch Operator (demolition); Taxman and Mortar Man, Kettleman, Potman and man applying asphalt, Lay-hold Crewmate, Lame, and similar type materials

Group 3: Guinea Chaser

Group 4: Fine Grader, Highway and street paving, airport, runways and similar type heavy construction; Landscape Gardener and Nursery-man

Group 5: Laborers - packing rod steel and pans

Group 6: Underground Laborer including Caisson Bellows

Group 7: Chucktender (except tunnels); Scaler; Tank Sealer and Cleaner

Group 8: Cesspool Digger and Installer

Group 9: Concrete Curar-impervious Membrane and Oil of all materials; Riprap Stonepaver; Sandblaster (pot tender); Making and Caulking of all non-metallic Pipe Joints

Group 10: Operators and Tenders of Pneumatic and Electric Tools, Vibrating Machines, hand-propelled Trenching Machines, Impact Wrench Multi-plate and similar mechanical tools not separately classified herein; Asphalt Raker, Ironer, Spreader, Lutecan; Buggy-Mobile Man; Concrete Dumper (on one yard or larger mixers and handling bulk cement); Concrete Saw Man excluding Tractor type, cutting, scoring old or new concrete; Concrete Core Cutter; Gas and Oil Pipeline Wrapper-pot Tender and Form Man; Operator of Cement Grinding Machine; Reto-scraper; Tree Climber, Faller, Chain Saw Operator, Pittsburgh Chipper and similar type brush shredders

Group 11: Rock Slinger; Scaler (using Bos'n Chair or Safety Belt or Power Tools)

Group 12: Driller and/or Pavement Breaker

Group 13: Oversize Concrete Vibrator Operator, 70 lbs. and over; Laying of all non-metallic pipe, including sewer pipe, drain pipe and underground tile

Group 14: Gas and Oil Pipeline Wrapper - 6 inch pipe and over

Group 15: Cribber or Shorer, Lugging, Sheeting, Trench Bracing, hand Guided Logging Hammer; Powderman-blaster - all work of loading holes, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing

NOTICESLABORERS (Cont'd)

Group 16: Steel Headboardman

Group 17: Sandblaster (Nozzleman); Driller (Core, Diamond, or Wagon), Joy Driller Model TW-N-2A, Gardner-Denver Model DH 163 and similar type drills

Group 18: Head Rock Slinger

POWER EQUIPMENT OPERATORS

(Except Piledriving and Steel Erection)

Group 1: Air Compressor, Pump or Generator; Engineer Oiler and Signal Man; Heavy Duty Repairman; Helper; Switchman or Brakeman

Group 2: Concrete Mixer, Skip type; Conveyor and Boltman; Fireman; Generator, Pump or Compressor (2-5 units inclusive, over 5 units, \$0.10 per hour for each additional unit up to 10 units, portable units); Generator, Pump or Compressor Plant; Rotary Drill Helper (oilfield type); Skiploader, Wheeltype, Ford, Ferguson, Jeep or similar type, 3/4 yd. or less (w/o dragtype attachments); Temporary Heating Plant; Truck Crane Oiler; Hydrostatic Pump

Group 3: A-Frama or Winch Truck; Dinky Locomotive or Tunnel Motor; Elevator Hoist; Equipment Greaser; Ford, Ferguson or similar type (with drag-type attachments); Hydra-hammer or similar type equipment; Power Concrete Curing Machine; Power Concrete Saw; Power Driven Jumbo Form Setter; Rodman and Chainman; Ross Carrier; Self-propelled Tar Pipelining Machine; Stationary Pipe Wrapping and Cleaning Machine; Towblade Operator

Group 4: Asphalt Plant Fireman; Boring Machine; Boxman or Mixer Box (concrete or asphalt plant); Derrickman (oilfield type); Drilling Machine (including water walls); Highline Cableway Signalman; Instrumentman; Locomotive Engineer; Power Sweeper; Roller; Compacting; Screed; Trenching Machine (up to 6 feet depth)

Group 5: Asphalt or Concrete Spreading, Mechanical Tamping or Finishing Machine - Roller (all types and sizes), Soil, Cement, Asphalt - Finish Asphalt Plant Engine; Back Engine; Grade Checker; Heavy Duty Welder; Machine Tool; Pavement Breaker; Pneumatic Heading Shield - Tunnel; Road Oil Mixing Machine; Forklift, under five tons; Rubber Tired, Heavy Duty Equipment; Jostkosh, BW, Lucid, Letourneau, Lapointe-Cheate, or similar type equipment with any type attachments; Skiploader, Wheeltype, over 3/4 yards, up to and including 1 1/2 yds.; Slip Form Pump (power driven hydraulic lifting device for concrete forms); Tractor-drag type Shovel, Bulldozer, Tamper, Scraper and Push Tractor

POWER EQUIPMENT OPERATORS (Cont'd)  
(Except Piledriving and Steel Erection)

Group 6: Combination Heavy Duty Repairman and Welder; Concrete Mixer - Paving; Concrete Mobile Mixer; Concrete Pump or Fumperete Gun; Crushing Plant Engineer; Elevating Grader; Heavy Duty Repairman; Highline Cableway; Hoist (Chicago Boom and Mine); Kolman Belt Loader and similar type; Lift Slab Machine; Loader-Athey, Euclid, Hancock, Sierra or similar type; Motor Patrol (any type or size); Multiple Engine-cath moving machinery; Party Chief; Pneumatic Concrete Placing Machine - Hackley-Presswell or similar type; Rotary Drill, excluding Caisson type; Skiploader, Wheeltype, over 1 1/2 yds.; Surface Heater and Planer; Tractor Loader - crawler type - all types and sizes; Tractor, with boom attachments; Traveling Pina Wrapping, Cleaning and Bending Machine; Tranching Machine (over 6 feet depth); Universal equipment (Shovel, Backhoe, Dragline, Clamshell, Derrick, Barge, Crane, Piledriver and Mucking Machine) Forklift, over 5 tons

Group 7: Driller Operator; Fishing Tool Engineer

Group 7-A: Derrickman

Group 7-B: Motorman

Group 7-C: Drillers Helpers

TRUCK DRIVERS

Group 1: Light Duty Driver; Warehouseman

Group 2: Bootman; Truck Greaser; Light Vehicle Dispatcher

Group 3: Tircman; Warehouse Clerk

Group 4: Heavy Duty Driver; Forklift Driver; Equipment Parts; Stockroom Clerk

Group 5: Extra Heavy Duty Driver

CLASSIFICATION DEFINITIONS

**POWER EQUIPMENT OPERATORS**  
 GROUP 1 - Fireman, Oiler; Mechanic, Grease Truck and Welder's Helpers; Secondman, Pneumatic roller towed by farm-type tractor or truck; Scale Operator and such as bin-a-batch; Rubber-tired farm type tractors and tractors under 35 hp without attachments  
 GROUP 2 - Air Compressor, Power Plants, pumps and welding machines (an operating engineer will not be required for an air compressor under 315 c.f.m., a pump under three inches or a light plant generating fifteen kilowatts or less, or one welding machine, if and when there is another operating engineer employed on the job who serves the units); Concrete mixers, under 1 yard, and concrete batch plants, under 1 yard, gunite and purcrete machines, mechanical bull floats, spreading and finishing machines. Screening Plants. Driller, rachines, Discard, rotary, core and cable drilling; well under 6 inches. Hoists, scoops, A frame Air tapper; building hoist, 1 drum hydrolift, Hydrocrane, winch truck. Loaders; Elevating, belt type loader, front end loader (under 2 yards) and over head loaders; forklift and lumber staker on construction job site. Grease truck operator, (Lead Oiler), Motor man and Industrial Locomotive. Tractors under 35 hp with attachments; and farm type tractor with back, or shovel type attachments

DECISION NO. TX75-4024

**POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITIONS (CONT'D)**

- GROUP 3** - Concrete mixers 1 yard and over and batch plants 1 yard and over, single drum paving machines. Crushing plants. Drilling machines, 6 inches and over; front end loaders, 2 yards and over; Paving: Asphalt plants, boiler or retort heater, distributor, lay down machine, pug mill, breakdown and tandem rollers. Steam Engineer. Trenching Machines. Patrol, rough, not required to blue top or finish.
- GROUP 4** - Tractor Equipment: Achey and Barber Green Loader, Bulldozer, DM10, DM20, DM 21, Dumor, Elevating Grader; Euclid, Highlander, Scaper, Traxcavator, Turnapuli, Turn-arocker and Tractors 35 HP and up
- GROUP 5** - Concrete Paving machines, double drum. Caterans, Hysters, Cherry Picker, Attachment cranes, side and swing boom tractors, Building Hoist, 2 drums and up.
- GROUP 6** - Shovel, Backhoe, clam and dragline 3/4 yards and under; Cranes 25 tons and under
- GROUP 7** - Guy and stiff leg derrick, Piledrivers; Crawler or skid rig. Shovel, Backhoe, clam and dragline over 3/4 yards; Cranes over 25 tons
- GROUP 8** - Refrigeration, slusher, Jumbo form operators
- GROUP 9** - Pucking machines
- GROUP 10** - Mine hoists

## **FEDERAL ENERGY ADMINISTRATION**

■

### **NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION**

February, 1975 Supplier Percentages

**FEDERAL ENERGY  
ADMINISTRATION**

**NATIONAL UTILITY RESIDUAL FUEL  
OIL ALLOCATION**

**Supplier Percentage Notice for  
February, 1975**

Pursuant to the provisions of 10 CFR 211.163(b)(3), 211.165 and 211.166(d)(2), the Federal Energy Administration (FEA) hereby provides notice of the volumes of residual fuel oil allocated to each utility and the percentage of such volumes required to be supplied by each supplier for delivery in February, 1975. This information is set forth in the Appendix to this notice. Adjustments of certain supplier base period percentages have been made at the request of affected utilities, pursuant to the criteria of 10 CFR 205.25 and are reflected in the Appendix.

The utility allocations were determined after review of the impact of available fuel supplies between utility and non-utility uses of residual fuel oil. In calculating the allocation level for each utility the FEA considered all of the factors enumerated in 10 CFR 211.163(b)(3) and also the following other factors:

1. The data contained in the Federal Power Commission (FPC Forms 23 and 23A submitted by utilities;
2. Natural gas curtailments;
3. FEA's prediction that this supply level of residual fuel oil is expected to generally equate to the total demand.

The amounts shown in the Appendix are the quantities of residual fuel oil to be delivered to the utilities listed during the month of February, 1975. Some utilities will not receive any allocation for this month for various reasons including the fact that these utilities burn other fuels primarily and use residual fuel oil only for standby purposes.

The Appendix provides the names of the suppliers obligated to supply each utility and each supplier's percentage and volume of each month's allocation to a utility. The first column of the Appendix lists each utility with its suppliers. The second column sets forth the recommended FEA burn level for February. The third and fourth columns provide each supplier's respective percentage and volume share of a utility's allocated volume of residual fuel oil. The fifth column provides the total volume of residual fuel oil for each utility from all suppliers. Following the name of certain suppliers, an additional supplier is shown in parentheses. The supplier in parentheses is presumed, on the basis of the best information available, to be the supplier of the utility's supplier. This information is provided for the convenience of such suppliers and the FEA requests that any additions or corrections in this regard be forwarded to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

FEA will consider special circumstances such as unexpected outages which may cause fuel consumption to exceed FEA burn levels in any month. Adjustments may have been made in the allocation to certain utilities to reflect necessary corrections in the delivery levels authorized in previous months. It is contemplated that corrections or adjustments to delivery levels for certain utilities may be required during the month of February to avoid undue hardship. Such corrections or adjustments may be made pursuant to Subpart B and C of Part 10 CFR 205.

FEA expects the utilities to consume supplies at or below FEA burn levels, which are based on the utilities' proposed burn levels less adjustments for projected growth exceeding historic averages.

The utility residual fuel oil allocation program is based in part on the data derived from utilities' filings of FPC Forms 23 and 23A. Thus, the timely submission of these forms will be a necessary prerequisite to receiving future allocations.

Reports should be addressed to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

Issued in Washington, D.C., January 16, 1975.

**ROBERT E. MONTGOMERY, Jr.,**  
*General Counsel.*
