

Name: Alex Deucher

Class of works: I am writing in support of Class #1 (Copy-Protected CDs):
Sound recordings released on compact disc ("CDs") that are protected by
technological protection measures that malfunction so as to prevent access on
certain playback devices.

Summary:

Disc name: joe dirt, the patriot, several others

Several years ago I bought a Fisher DVD player at Sears, for the express
purpose of watching U. S. movies. For the first few years the DVD's I rented
all worked fine. But when I rented "Joe Dirt", the DVD told me that my player
has no region set and that it will only play in a DVD player set for region 1.
This happened again when I rented The Patriot. I am not going to buy a new DVD
player just to play RCE (Regional Coding Enhancement) movies, but it is very
annoying, to say the least, that I can't make full use of my DVD player.
