Class of works: I am writing in support of Class #2 (DVD Region Coding):
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not
available in Region 1 DVD format and access to which is prevented by
technological measures.

Summary:

Disc name: David Copperfield

I purchased a DVD while in the United Kingdom, which was not published in the US. It is a David Copperfield production by the BBC. I placed it in my Sony DVD Player in the US, and received a message that it was not a region 1 DVD. I personally own 400+ DVDs which I have purchased over the years. I was frustrated that a DVD that I legally bought could not be watched, and that it was ILLEGAL for me to make any attempt to watch it in the US by circumventing the region coding.
