Class of works: I am writing in support of Class #2 (DVD Region Coding):  
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not  
available in Region 1 DVD format and access to which is prevented by  
technological measures.

Summary:

Disc name: West Wing series

I recently bought the first season series of The West Wing on DVD from a  
website based in the U.K. These DVD's are region encoded for use in Europe, so  
I cannot watch them outside of Europe. How crazy is that?! I would like to see  
exemptions made to the DMCA that would result in the removal of region  
encoding from DVD's.
