Summary:

Disc name: Spirited Away

I purchased a DVD from Japan called "Spirited Away," a very popular animated movie in Japan. The DVDs are sold on Websites throughout the world. This DVD would not play on my DVD player because it was region 3. I resorted to overriding the region protection on my computer simply to view something that I legally purchased and owned. I was not able to view it on my home theatre, however, and feel the current rules regarding region encoding are preventing fair use of my own product.
