

Name: Michael Nelson

Class of works: I am writing in support of Class #2 (DVD Region Coding):
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not
available in Region 1 DVD format and access to which is prevented by
technological measures.

Summary:

Movie can only be played in a Region 3 DVD player. This would be #25 in the
Godzilla series and is completely unavailable to US DVD players, unless I
order a VCD version from someone on EBay and I'm not entirely sure how legal
that would be. Same also applies to Godzilla 2002, the next in the series.
Only available in Region 3 formating.

Disc name: Godzilla vs. MegeGuirus
