

I'm Brian Perez

I'm supporting smart phones/tablets and video game consoles.

My background: I'm a user.

I'll like to ensure that iPhone and iPad have legal authority to jailbreak.

One will be limited to use the above mentioned devices only to what the manufacturer allows you to use, just so you'll be forced to buy their latest device that has the technology that you could already have by jailbreaking it.

Once I buy something, I should be able to do with it as I please. Not all of us can afford a device that's anywhere from \$199 to \$849 every year.

Thank you for your time.
