

I have spent more than 500 U.S dollars to buy my iPhone. I have already paid the money to the company. Now it's my wish how to treat my device. Whether I jailbreak it or brick it. It's none of their business. They are making devices but they are making it lame with so much stuff missing from it. And the device has the ability to have those tweaks and stuff, so why are they stopping then. Just like they don't repair my iPhone after 1 year warranty period, they don't exchange my phone if I break it accidentally, then they don't have any right to make it illegal whether I jailbreak it or whatever I do with my phone.
