

I support jailbreaking on on video game consoles and tablets/smartphones, but mainly smartphones/tablets.

I believe that we should have the freedom to tamper with our devices to make them funner to use.

I am just a user but it makes the experience on my device so much better. I love to do the cool things like change my user interface and all that.

If I couldn't jailbreak my device I would be extremely sad. I do not do any illegal stuff on my currently jailbroken iPod Touch so it shouldn't.

Jailbreaking gives me the freedom to do what I want with my devices. I love my devices the way they are but compaines can't make them fit to everybody's needs and jailbreaking let's the user make a perfect experience for themselves.

Thank you for reading :)
