

My name is Kevin Barrier address 3131 S. College Ave. Fort Collins, CO 80525 970-430-5150

- I'm supporting jailbreaking smartphones and tablets.
- I'm a Realtor. An average guy who wants to use his device legally for work with out restrictions on software.
- I want to ensure I have the legal authority to jailbreak my phone and or tablet.
- I want to jailbreak this device so I can load personalized operating systems and software onto the device. I like to work on my cars, my home, my computers and my phone or tablet. The limitations faced if you aren't able to jailbreak it make it so there is software I couldn't run, computing capabilities I wouldn't have. The cool things you couldn't do are many.
- You don't really own a device if you can't modify it to suite your needs do you?
