

I support jailbreaking/rooting for smartphones and tablets.

I am a hobbyist turned small business owner who enjoys developing applications for smartphones and tablets, without root access I would be unable to develop the applications that are currently being developed. This limitation would severely effect my ability to provide for my family.

I want to make sure that I have access to jailbreak iPhones, root my Samsung android phones and root my Amazon Kindle Fire.

Please renew the legislation that allows jailbreaking and rooting to be legal for smartphones and tablets.

Thank you,

Martin Ballard
