

Name: Max

Class: 5

Summary:

I support the exemption for jailbreaking the iPhone, iPod touch and iPad mobile devices. I am a user of all of the above and a hobbyist. I love tinkering with these devices in my spare time. If I am unable to jailbreak these devices, I am unable to run software that I want to on a device I purchased. I feel like I'm renting the device if I am not able to do with it what i wish to do, which is install custom tweaks (free and paid), change and add functionality, and theme the devices in any way that I want.
