

Reasons why Jailbreak should stay legal.

1. Users bought the device with their money therefore its their right to do what they want with the device
2. Not many people have the money to pay for the plans that are provided by Apple.
3. Jailbreaking does not endorse distribution of illegal apps all it does is allow unsigned code to be run on their iDevice
4. By Jailbreak users can increase the functionality of their device.
5. It does not harm Apple in any way it actually increases their sales.
