

My name is Tyler Nevers. I am a proud member of the Jailbreak community. I have recently heard that our lease will expire and we will not be able to legally Jailbreak our devices. I strongly believe that any device paid for by any user has every right to use the device as they please. This including smart phones, tablets, and computers.

I am a recent high school graduate and I use my iPod Touch on a daily bases. I rely on the great utilities that can be accessed by Jailbreaking. An example is that if I want to get to a certain app in a hurry, I can use the tweak Activator to assign a gesture to take me to the app.

This really can't become illegal. Many people that use Jailbreaking or other means to tweak their devices will not be pleased with the Copyright Office. As a supporter of Jailbreaking I ask that you would please extend our lease of being free to modify our devices.
