

I am for any legislation that furthers the thoughts of Rep. Zoe Lofgren.

If I purchase a product it should be mine to do with as I choose without violating copyright.

I should be able to unlock it so I am not controlled by the seller and forced to buy his products (printers, cell phones).

Videos should be able to be screen captured, or converted to my other device formats.

Ebooks should be able to be converted from one format to another, the ability to copy and paste text should be enabled.

Enough with companies lobbying congress to restrict my rights after purchase.

I do not violate copyrights !

I buy products that have built in permanent company owned (locked) features that are never mine.

That is what the current far reaching law does.

Ed Grossheim
