## **Short Comment Regarding a Proposed Exemption Under 17 U.S.C. 1201**

### **Item 1. Commenter Information**

**Scott Rogers**  
**scottr66@gmail.com**

### **Item 2. Proposed Class Addressed** **Proposed Class 21: Vehicle software** **–diagnosis, repair, or modification**

### **Item 3. Statement Regarding Proposed Exemption**

**I support this exemption, because modifying a vehicle's software can:**

**1. Repair a vehicle, and therefore prevent the need to buy another one, which in turn is saving money, as well as preventing another vehicle added to the road**

**2. Allow research and development for all vehicles which could help to improve them in the following ways:**

- reduce emissions**
- improve performance**
- increase longevity**
- increase gas mileage**
- increase owner satisfaction**

**3. Give consumer confidence, knowing that we are not being forced into a police state, which prevents us from using our purchased products, as we desire to. What's next, being told how we have to vote, based on the biggest company's wishes?**

**This law needs to be taken into reality, and given the freedom we enjoy living in America.**
