Re: Exemptions to Permit Circumvention of Access Controls on Copyrighted Works, U.S. Copyright Office Docket No. 2017-10, Class 1 (Multimedia e-books) Hearing Exhibits

Dear Regan:

We write on behalf of Authors Alliance, the American Association of University Professors, the Organization for Transformative Works, the Interactive Fiction Technology Foundation, and Professor Bobette Buster. During the April 11, 2018 hearing in Washington, D.C. on the above-referenced matter, Copyright Office staff requested specific examples of adverse effects caused by 17 U.S.C. §1201's prohibition on circumvention. In response to your request, we have prepared a list of adverse effects identified in the comments we filed in this proceeding.¹ The list is attached hereto as Appendix A.

We would be happy to provide additional information or answer questions as needed.

Thank you for your work on this important matter.

Very truly yours,

/s/ Jack Lerner
