AIR FORCE PLANT PJKS, SYSTEMS INTEGRATION  
LABORATORY, SIGNAL TRANSFER BUILDING  
(Air Force Plant PJKS, Systems Integration Laboratory,  
Blockhouse Building T-28A)  
Waterton Canyon Road and Colorado Highway 121  
Lakewood Vicinity  
Jefferson County  
Colorado

HAER No. CO-88-C

Documentation: 2 exterior photographs (1999)  
7 interior photographs (1999)  
3 data pages (1999)

Lisa Lynch, Photographer, February 15-19, 1999

- CO-88-C-1 Exterior view of Signal Transfer Building (T-28A), looking southwest. This structure houses controls for propellant transfer, instrumentation for testing, test data transmission receivers, data verification equipment, and centralized utilities for the Systems Integration Laboratory complex. The gantries of the Systems Integration Laboratory Building (T-28) are visible to the rear of this structure.
- CO-88-C-2 Exterior view of instrumentation and gauge panels on southeast wall of Signal Transfer Building (T-28A). The piping and tubing visible in the photograph extends from the structure to the Systems Integration Laboratory Building (T-28) and other structures in the complex.
- CO-88-C-3 Interior view of instrumentation, controls, and monitoring equipment on north wall of the equipment room on the east side of the Signal Transfer Building (T-28A).
- CO-88-C-4 Interior view of instrumentation, controls, and monitoring equipment on east wall of the equipment room on the east side of the Signal Transfer Building (T-28A).
- CO-88-C-5 Interior view of instrumentation, controls, and monitoring equipment on north and east walls of the signal transfer room on the west side of the Signal Transfer Building (T-28A).
- CO-88-C-6 Interior view of control panels on wall of the signal transfer room on the west side of the Signal Transfer Building (T-28A).
- CO-88-C-7 Interior view of control panels' (see CO-88-C-6) detail on wall of the signal transfer room on the west side of the Signal Transfer Building (T-28A).
