HISTORIC AMERICAN ENGINEERING RECORD

NY-110

OLD CROTON AQUEDUCT
SING SING KILL BRIDGE

Date: 1837-39

Location: Spanning Aqueduct St. and Broadway, Ossining, Westchester County, New York.

Engineer: John B. Jervis

Owner: Originally; New York City Water Board
Presently; Tatic State Parkway Authority.

Significance: The Old Croton Aqueduct is an outstanding example of 19th century civil engineering and was New York City's first municipal water project. The Sing Sing Kill Bridge, as designed, consists of a long embankment broken by three arched spans of 20', 6' and 88'. This arrangement was more economical than spanning the entire valley with arches.

Transmitted by: Daniel Clement, 1984. For further information regarding the Old Croton Aqueduct please refer to NY-107 through NY-109 and NY-111 through NY-120 (HAER).
