HISTORIC PHOTOGRAPHS

(Photographs numbered 1 to 44: Originals held at The George Arents Research Library, Syracuse University, New York.)

1. Bridge 60: Stone-arched structure which preceded the plate-girder bridge. (295-A)
2. Bridge 60: Early stages in building the new plate girder bridge. (66-B)
3. Bridge 60: Dismantling old stone bridge while work on the new bridge continues. 8.3.07. (104-B)
4. Bridge 60: Dismantling old stone bridge. 8.10.07. (105-B)
5. Bridge 60: Installing a girder on the new bridge. (319-B)
6. Bridge 60: Dismantling old stone bridge. 8.12.07. (106-B)
7. Bridge 60: Pulling out the keystone on the old stone bridge. 8.12.07. (107-B)
8. Bridge 60: Pulling out the keystone on the old stone bridge. 8.12.07. (108-B)
9. Bridge 60: Central abutment removed. 8.12.07. (109-B)
10. Bridge 60: Work on the new plate-girder bridge. 10.31.07. (149-B)
11. Bridge 60: Installing a plate girder on the new bridge. 10.31.07. (150-B)
12. Bridge 60: Installing the flooring. 7.13.08. (241-B)
13. Bridge 60: Looking north. 12.10.08. (296-B)
14. Bridge 60: The bridge's Signal Tower controlled traffic in and out of the western side of the Scranton Yards. 12.10.08. (298-B)

15. Bridge 60: The new bridge spanned (from left to right) the Delaware and Hudson Railroad, the Lackawanna River, and the Central Railroad of New Jersey. 10.2.09. (488-B)
16. Bridge 60: Looking south. 10.24.11. (B.808)
17. Bridge 60: The deck of the bridge showing numerous dwarf signals, and enclosed disk("banjo") signals mounted on the pole to the right of the picture. 12.10.08. (300-B)
18. Bridge 60: Looking east into the Scranton Yards from the Bridge 60 Signal Tower. 12.10.08. (301-B)
19. Coal Trestle: Looking north; the old coal trestle is in the foreground. (42-B)
20. Coal Trestle: Looking south. (68-B)
21. Coal Trestle; Cinder Pits in center. 4.6.12. (C.1088)
22. Coal Trestle and Cinder Pits. (C.1089)
23. Coal Trestle and Cinder Pits. (C.1090)
24. Cinder Pits. (C.1091)
25. Cinder Pits, newly completed, and Coal Trestle in construction. 9.4.06. (31-B)
26. Coal Trestle. 9.30.10. (C.774)
27. Oil House Pump Room, showing hand pumps along wall and power-driven pumps in foreground. (B.855)
28. Gas House and adjacent cylindrical Gas Holder. 9.28.09. (480-B)
29. Gas House: Retaining Wall. Upon completion the concrete supports behind the Gas House contained the coal pockets that received the coal from bottom-dumping railroad cars. 9.28.09. (481-B)
30. Gas House: Dry Scrubber. 9.29.10. (B.686)
31. Gas House: Second Floor. The coal shutes which delivered coal to the generators are on the left; the waste gas flue is in the middle; the top of the wet scrubber is on the right. 9.29.10. (B.683)

32. Gas House: First Floor. The generator is on the left and the wet scrubber on the right. 9.29.10. (B.864)
33. Gas House: Blowers. 9.29.10. (B.685)
34. Washington Avenue Bridge. The freight tracks are on the near-side of the bridge. 8.11.10. (C.734)
35. Washington Avenue Bridge. The erecting shop and sand blast house are on the right. 8.11.10. (C.736)
36. East side of the yards near Washington Avenue Bridge. 8.11.10. (C.737)
37. Locomotive near Washington Avenue Bridge. 8.11.10. (C.738)
38. Cedar Avenue Bridge. 1.27.09. (329-B)
39. Foundations for the new passenger station. 7.18.07. (96-B)
40. Wrecking Stack, Old Locomotive Shops. 5.9.12. (B-852)
41. & 42. Wrecked Stack, Old Locomotive Shops. 5.9.12. (B-853 & B-854)
43. View of eastern side of yards, showing Erecting Shop under construction. 4.16.09. (F.130)
44. View of eastern side of yards, showing completed Erecting Shop and new Mattes Street Signal Tower located near base of smoke stack. (F.131)

(Photographs numbered 45 to 57: Originals held at Railroad Museum of Pennsylvania, Strasburg, Pennsylvania.)

45. Eastern side of Scranton Yards.
46. "Trestle over Lackawanna River and Arch under Construction View looking West from Lackawanna Avenue and Cliff Street Taken Sept. 4th 1866"
47. Bridge 60: Constructing the stone-arch bridge which preceded the extant plate-girder bridge.
48. Bridge 60.
49. Bridge 60: New plate-girder structure.
50. Hosing down a locomotive in front of the coal trestle.

51. Hosing down a locomotive.
52. Hosing down a locomotive.
53. Hosing down a locomotive.
54. Signal Tower.
55. Interior of Signal Tower.
56. Signal Bridge near Passenger Station.
57. Signal Bridge.
