Page 1

This is one of three identical structures built in 1945 (1852, 1860, 1868). Each of these 2,000-square-foot-buildings was built for \$3,200.00 from plan 700-5201. Each is of the type "Theatre of Operations," "Temporary," "OBAT."

This building is identical in plan to buildings 1852 and 1868. The physical description of building 1852 applies to this building as well. The major exception is the removal of the tarpaper siding and battens. The siding is now plywood sheet sheathing. Tarpaper has blown off the roof, exposing the interior to water damage.
