JURISDICTION OF THE BOARD OF VETERANS APPEALS IN NEUROPSYCHIATRIC AND OTHER PRESUMPTIVE CASES DENIED SERVICE CONNECTION BY SPECIAL REVIEW BOARDS

R-9802. (A) The board of veterans appeals will review all neuropsychiatric cases denied service connection by special review boards under the provisions of Public No. 2 and Public No. 78, 73d Congress, in which service connection was also denied by rating boards in field stations after all available evidence had been obtained; provided, that such review will not be made when service connection has been granted for a neuropsychiatric disability under Public No. 141, 73d Congress, or when no new and material evidence has been filed since the date of the action by the special review board, except when proper appeal is filed. The board will first review such cases for the purpose of determining whether the decision rendered by the rating board subsequent to the action of the special review board and the development of the evidence in accordance with governing instructions, including the provisions of R. & P 9805 and 9806, is correct and proper under the provisions of Public No. 2, 73d Congress. If it be determined that such rating is correct, the board of veterans appeals will consider the decision of the special review board under the first and third paragraphs of section 20, Public, No. 78, 73d Congress. NER—E-1 Revised. Issued September 3, 1936 Supplement (G).

1936 AGRICULTURAL CONSERVATION PROGRAM—NORTHEAST REGION

BULLETIN NO. 1 REVISED—SUPPLEMENT (G)

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Northeast Region Bulletin No. 1 Revised, as heretofore amended, is amended as follows:

1. Section 2 (d) of Part V of such bulletin is amended to read as follows:

(d) The land to be covered by an application for payment shall, except as provided in section 8 of this Part V, be the land covered by a work sheet (as specified in section 1 of this Part V). The application for payment filed with respect to any land shall cover the interests of all persons entitled to share in the payment with respect thereto. The amount of payment to any person with respect to the land covered by an application for payment shall, subject to the provisions of section 4 of this Part V, be determined by the performance on such land.

2. Section 4 of Part V of such bulletin is amended by inserting the symbol "(a)" before the words "If any person" in such section 4 and by inserting as Section 4 (b) of such section 4 the following:

(b) In cases where a person filing an application for payment with respect to a farm in the county has an interest as owner or operator in one or more other farms in such county, the county committee shall investigate the 1936 cropping practices on all farms in the county owned or operated by such person, and if the county committee determines that on any such farm or farms the acreage of soil-depleting crops has in 1936 been increased over the acreage of soil-depleting crops on such farm in 1935 for the purpose of, or so as to have the effect of, offsetting any diversion from soil-depleting crops to soil-conserving crops on the farm with respect to which such application for payment is filed, the payment to be made to such producer shall be calculated in accordance with the provisions of Sections 5, 6, and 7 of this Part V. Provided, That the payment to be made to such person shall not be calculated in accordance with Sections 5, 6, and 7 of this Part V unless so calculating such payment would decrease the amount which otherwise would be paid to such person in respect to the farms owned and operated by him in the county and in connection with which applications for payment are filed.

3. Section 5 (a) of Part V of such bulletin is amended by inserting the words "to soil-conserving crops" after the word "base" in clause (1) and in clause (2) of such section 5 (a)

4. Section 5 (b) of Part V of such bulletin is amended by deleting the period at the end of section 5 (b) and inserting in lieu thereof a semi-colon and the following:

(4) If the total of the sums obtained under (1) of this subsection (b) is greater than the total of the sums obtained under (1) of subsection (a) above, subtract the difference between such totals from the amount obtained under (3) of this subsection (b).

5. Section 6 of Part V of such bulletin is amended to read as follows:

SECTION 6. Amount of Soil-Building Payment Where Two or More Farms are Owned or Operated in One County.—If a person owns or

operates more than one farm in a county, the amount of soil-building payment to such person shall, subject to the provisions of section 4, above, be computed as follows:

(a) For each such farm in the county, (1) determine the soil-building payment for such farm, irrespective of the soil-building allowance for such farm, and multiply this result by the percentage to which such person is entitled, such percentage to be determined in accordance with Section 3 of this Part V; (2) add the amounts thus obtained for such person for all such farms.

(b) For each such farm (1) credit to such person the difference between the soil-building allowance and the total of the soil-building payments for all other persons thereon computed in accordance with Section 3 of this Part V, except that if payment is being computed for both an owner and share-tenant on the same farm pursuant to this Section 6, there shall be credited for such farm to such share-tenant only that amount which is equal to the soil-building payment computed for him in accordance with Section 3 of this Part V; (2) add the amounts thus obtained for such person for all such farms.

(c) The amount obtained under subsection (a) or under subsection (b) of this Section 6, whichever is smaller, shall, subject to the deduction provided in subsection (d) of Section 5 of this Part V, be the soil-building payment or such person.

6. Section 7 of Part V of such bulletin is amended to read as follows:

*Deduction for Failure to Have Minimum Acreage of Soil-Conserving Crops Where Two or More Farms are Owned or Operated in One County.*—If the total acreage of soil-conserving crops on all farms owned or operated by any person in the county in 1936 does not equal or exceed the minimum acreage of soil-conserving crops as provided in Section 4 of Part II, there shall, subject to the provisions of Section 4, above, be deducted from any soil-conserving payment which otherwise would be made to such person for performance on farms owned or operated by him in such county an amount computed as follows:

(a) Ascertain the additional number of acres necessary to reach an acreage equal to the total minimum acreage of soil-conserving crops for all farms owned or operated in the county, by subtracting from the number of acres representing the total minimum acreage of soil-conserving crops for such farms the total number of acres of soil-conserving crops actually on such farms.

(b) Obtain the total of such person's share in the soil-conserving payment for all such farms, computed pursuant to Section 3 of Part V, and determine the percentage which this amount is of the total of soil-conserving payments for all such farms.

(c) Multiply the number of acres obtained under subsection (a) above by the percentage obtained under subsection (b) above.

(d) Multiply the number of acres obtained under subsection (c) above by an amount equal to one and one-half times the rate per acre applicable to the farm so owned or operated in the county having the highest rate determined pursuant to the provisions of section 2 (a) of Part II.

7. Part V of such bulletin is further amended by adding the following new section as Section 8:

*SECTION 8. Optional Method of Determining Performance and Dividing Payments With Respect to Two or More Farms in the Same Farming Unit.*—A single application for payment may be submitted, covering two or more farms within one farming unit; *Provided:*

(a) Such application is signed by all producers sharing in the respective principal soil-depleting crop on each of such farms, and by all producers who incurred expense in carrying out the soil-building practices on such farms.

(b) The total soil-depleting base, the general soil-depleting base, and the tobacco soil-depleting base for such farms so combined shall be, respectively, the aggregate of the total soil-depleting bases, the general soil-depleting bases, and the tobacco soil-depleting bases for the individual farms included under the application.

(c) The productivity index for such farms so combined shall be the weighted average of the productivity indexes for all such farms (determined pursuant to the provisions of Section 12 of Northeast Region Bulletin No. 3), weighted by the respective general soil-depleting bases of such farms.

(d) The yield per acre of tobacco for such farms so combined shall be the weighted average of the normal tobacco yields for all such farms (determined pursuant to the provisions of subsection (c) of Section 20 of Northeast Region Bulletin No. 3), weighted by the respective tobacco soil-depleting bases of such farms.

(e) The soil-conserving payment for such farms so combined shall be divided as follows:

For each farm apportion to each producer sharing in the principal soil-depleting crop grown on such farm in 1936, a number of acres equal to the total soil-depleting base (tobacco and general) for such farm multiplied by such producer's percentage share in such principal soil-depleting crop. Divide the acreage so apportioned by the sum of all the acres of the total soil-depleting bases for the farms covered by such application. The result shall represent such producer's share of such payment. The sum of all such percentage shares for all producers should equal 100.

(f) The soil-building payment for such farms so combined shall be divided as follows:

For each farm covered by such application, determine the amount of the soil-building payment for the practices carried out on such farm irrespective of the soil-building allowance for such farm. For each farm apportion such amount equally among the producers who incurred any expenses for carrying out any such practices on such farm. The percentages that the amount so apportioned to each such producer is of the total soil-building payment for all such farms shall be the percentage which each such producer is entitled to receive of such total soil-building payment. The sum of such percentages for all such producers should equal 100.

APPLICATION OF DUTIES PROCLAIMED IN CERTAIN TRADE AGREEMENTS

THE WHITE HOUSE, Washington, September 1, 1936.

The Honorable HENRY MORGENTHAU, Jr., Secretary of the Treasury.

MY DEAR MR. SECRETARY: The Act to amend the Tariff Act of 1930; approved June 12, 1934, provides in part that the duties proclaimed under its authority shall be applied to articles the growth, produce, or manufacture of all foreign countries, whether imported directly or indirectly. The Act further provides that the President may suspend the application of the proclaimed duties to articles the growth, produce, or manufacture of any country because of its discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in the Act. Pursuant to these provisions of the Act, I hereby direct that the duties proclaimed on this date in connection with the trade agreement signed on March 11, 1936, with Nicaragua, and all other duties heretofore proclaimed in connection with trade agreements signed under the authority of the Act (with the exception of the duties proclaimed in connection with the trade agreement signed on August 24, 1934, with Cuba) shall be applied from the effective date of such duties or, as the case may be, shall continue to be applied on and from the date of this letter, only to articles the growth, produce, or manufacture of the countries hereinafter designated and to such articles, in the case of each country, respectively, for the period indicated in the numbered section below in which such country is designated.

1. In respect of the products of each country designated in this section, the proclaimed duties shall be applied from the effective date of such duties or, as the case may be, shall continue to be applied on and from the date of this letter until thirty days from the date on which you are notified
