TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Administration

[O-30]

PART 930—MILK IN THE TOLEDO, OHIO, MARKETING AREA¹

The Secretary of Agriculture of the United States of America, pursuant to the powers conferred upon the Secretary by Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, issued on September 16, 1941, effective as of September 21, 1941, the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area.

There being reason to believe that amendment of said order, as amended, would tend to effectuate the declared policy of the act, notice was given on the 24th day of March 1942, of a hearing which was held on March 30, 1942, at Toledo, Ohio, at which time and place all interested parties were afforded an opportunity to be heard on proposed amendments to said order, as amended.

The requirements of section 8c (9) of the act have been complied with.

It is found, upon the evidence introduced at said latter hearing on the proposed amendments, said findings being in addition to the findings made upon the evidence introduced at all prior hearings on said order and amendments thereto (which findings are hereby ratified and affirmed, save only as such findings are in conflict with findings hereinafter set forth):

AUTHORITY: §§ 930.0 to 930.10, inclusive, issued under 48 Stat. 21, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U.S.C. 601 et seq.

§ 930.0 *Findings.* (a) That prices calculated to give milk produced for sale in the marketing area a purchasing power

equivalent to the purchasing power of such milk as determined pursuant to §§ 2 and 8e (50 Stat. 246; 7 U.S.C. 1940 ed. 602, 608c), are not reasonable in view of the available supplies of feeds, the prices of feeds, and other economic conditions which affect the supply of and demand for such milk and that the minimum prices set forth in this order, as amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and that the fixing of such prices does not have for its purpose the maintenance of prices to producers above the levels which are declared in the act to be the policy of Congress to establish;

(b) That this order, as amended, regulates the handling of milk in the same manner as and is applicable only to handlers defined in a marketing agreement, as amended, upon which a hearing has been held; and

(c) That the issuance of this order, as amended, and all of the terms and conditions of this order, as so amended, tend to effectuate the declared policy of the act.

It is hereby ordered that such handling of milk in the Toledo, Ohio, marketing area as is in the current of interstate commerce or as directly burdens, obstructs, or affects interstate commerce shall, from the effective date hereof, be in compliance with the following terms and conditions:

If, in the verification of the reports of any handler made pursuant to paragraph (a) of this section, it is necessary for the market administrator to examine records relating to milk and cream handled in a plant of the handler from which no milk is disposed of in the marketing area, such handler shall make such records available to the market administrator. If, in the verification of the reports of any handler made pursuant to

paragraph (a) of this section, the market administrator finds that subsequent to the delivery period for which the verification is being made, any milk of a producer received during such delivery period was used in a class other than that in which it was first reported, such milk shall be reclassified accordingly and the adjustments necessary to reflect the reclassified value of such milk shall be made in the value of milk computed for such handler for the delivery period following such reclassification of milk.

§ 930.4 *Classification of milk*—(a) *Milk to be classified.* All milk, including milk produced by him, if any, received by each handler at a plant from which milk is disposed of in the marketing area and all milk of producers reported pursuant to § 930.3 (a) (6) shall be classified, subject to the provisions of paragraphs (c), (d), and (e) of this section, by the market administrator in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk and skimmed milk disposed of in the form of milk and milk drinks, whether plain or flavored, and all milk not accounted for as Class II milk or Class III milk.

(2) Class II milk shall be all milk used to produce cream which is disposed of in the form of cream, including any cream product disposed of in fluid form which contains less than the minimum butterfat content required for fluid cream, creamed buttermilk, and creamed cottage cheese.

(3) Class III milk shall be all milk used to produce a milk product other than those specified in Class II milk, and all actually accounted for plant shrinkage up to but not exceeding 3 percent of the total receipts of milk from producers.

(c) *Interhandler and non handler sales.* Milk or skimmed milk disposed of by a handler to another handler, or disposed of by a handler to a person who is not a handler but who distributes milk or manufactures milk products shall be classified as Class I milk: *Provided,* That if different classification is similarly reported to the market administrator by the selling handler and the person to whom such milk, or skimmed milk, is disposed of, such milk, or skimmed milk, shall be classified according to such reports, subject to verification by the market administrator: *And provided further,* That in no event shall the amount so reported in any class be greater than the total amount so used in any class by the person receiving such milk or skimmed milk.

(d) *Computation of milk in each class.* For each delivery period, each handler shall compute, in the manner and on forms prescribed by the market administrator, the amount of milk in each class, as defined in paragraph (b) of this section, as follows:

(1) Determine the total pounds of milk (i) received from producers, (ii) produced by him, if any, (iii) received from other handlers, if any (iv) received as emergency milk, if any, and (v) add together the resulting amounts.

(2) Determine the total pounds of butterfat received as follows: (i) multiply the weight of the milk received from producers by its average butterfat test, (ii) multiply the weight of the milk produced by him, if any, by its average butterfat test, (iii) multiply the weight of the milk received from other handlers, if any, by its average butterfat test, (iv) multiply the weight of emergency milk, if any, by its average butterfat test, and (v) add together the resulting amounts.

(3) Determine the total pounds of milk in Class I as follows: (i) convert to quarts the quantity of milk and skimmed milk disposed of in the form of milk and milk drinks, whether plain or flavored, and multiply by 2.15; (ii) multiply the result by the average butterfat test of such milk; and (iii) if the quantity of butterfat so computed when added to the pounds of butterfat in Class II milk and Class III milk, computed pursuant to subparagraphs (4) (ii) and (5) (iv) of this paragraph, is less than the total pounds of butterfat received computed in accordance with subparagraph (2) of this paragraph, an amount equal to the difference shall be divided by 3.5 percent and added to the quantity of milk determined pursuant to (i) of this subparagraph.

(4) Determine the total pounds of milk in Class II as follows: (i) multiply the actual weight of each of the several products of Class II milk by its average butterfat test, (ii) add together the resulting amounts, and (iii) divide the result obtained in (ii) of this subparagraph by 3.5 percent.

(5) Determine the total pounds of milk in Class III as follows: (i) multiply the actual weight of each of the several products of Class III milk by its average butterfat test; (ii) add together the resulting amounts; (iii) subtract the total pounds of butterfat in Class I milk and Class II milk, computed pursuant to subparagraphs (3) (ii) and (4) (ii) of this paragraph, and the total pounds of butterfat computed pursuant to (ii) of this subparagraph, from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purposes of this paragraph (but in no event shall such plant shrinkage allowance exceed 3 percent of the total receipts of butterfat from producers by the handler; (iv) add together the results obtained in (ii) and (iii) of this subparagraph; and (v) divide the result obtained in (iv) of this subparagraph by 3.5 percent.

(6) Determine the classification of milk received from producers as follows:

(i) Subtract from the total pounds of milk in each class the total pounds of milk which were received from other handlers and used in such class.

(ii) Subtract pro rata out of the remaining milk in each class the quantity of milk received from the handler's own farm.

(iii) Subtract pro rata out of the remaining milk in each class the quantity of emergency milk received.

(e) *Reconciliation of utilization of milk by classes with receipts of milk from*

producers. (1) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is less than the receipts of milk from producers, the market administrator shall increase the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

(2) If the total utilization of milk in the various classes for any handler, as computed pursuant to paragraph (d) of this section, is greater than the receipts of milk from producers, the market administrator shall decrease the total pounds of milk in Class III for such handler by an amount equal to the difference between the receipts of milk from producers and the total utilization of milk by classes for such handler.

§ 930.5 *Minimum prices*—(a) *Class prices.* Subject to the provisions of paragraphs (b), (c), and (d) of this section, each handler shall pay, at the time and in the manner set forth in § 930.7, not less than the following prices per hundredweight of milk of 3.5 percent butterfat content received at such handler's plant:

(1) *Class I milk price.* To the price determined pursuant to subparagraph (4) of this paragraph, add 90 cents during the delivery period of June 1942; and thereafter add the following amount per hundredweight:

Delivery period:	Amount dollars per hundredweight
July through March	0.90
April, May, and June	.80

(2) *Class II milk price.* To the price determined pursuant to subparagraph (4) of this paragraph, add 15 cents during the months of April, May, and June, and add 25 cents during the months of July through March.

(3) *Class III milk price.* The Class III price shall be the price determined pursuant to subparagraph (4) of this paragraph, except during the months of April, May, and June, when the Class III price shall be the price determined pursuant to subparagraph (4) of this paragraph, less 10 cents.

(4) *Basic formula price.* The basic formula price per hundredweight to be used in determining the class prices pursuant to this paragraph shall be the price resulting from the following computation by the market administrator: determine the average of the basic, or field, prices per hundredweight ascertained to have been paid for milk of 3.5 percent butterfat content received during the delivery period at the following plants:

Concern:	Location of plant
Van Camp Milk Co.	Wauseon, Ohio.
Pet Milk Co.	Delta, Ohio.
Defiance Milk Products Co.	Defiance, Ohio.
Pet Milk Co.	Hudson, Michigan.

Provided, That if the price so determined is less than the price per hundredweight computed by the market administrator in accordance with the following formula, such formula price shall be used:

multiply by 3.5 the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, and add 30 percent thereof.

(b) *Price of Class I milk disposed of outside the marketing area.* (1) Except as provided in subparagraph (2) of this paragraph, 20 cents per hundredweight shall be deducted from the price determined pursuant to subparagraph (1) of paragraph (a) of this section with respect to all Class I milk disposed of prior to January 1, 1943, by such handler outside of the marketing area.

(2) The price to be paid by such handler for Class I milk disposed of outside the marketing area to Government institutions and establishments shall be the price for Class I milk determined pursuant to paragraph (a) (1) of this section.

(c) *Price of Class I milk for relief distribution.* For Class I milk disposed of by such handler under a program approved by the Secretary for the sale or disposition of milk to low-income consumers, including persons on relief, the price per hundredweight shall be the Class I price determined pursuant to paragraph (a) (1) of this section, less 46 cents.

(d) *Butterfat differential to handlers.* If any handler has received milk from producers containing more or less than 3.5 percent of butterfat, such handler shall add or deduct, per hundredweight of milk in each class, for each one-tenth of 1 percent of butterfat above or below 3.5 percent, an amount computed as follows: to the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the United States Department of Agriculture for the delivery period during which such milk was received, add 20 percent, and divide the result obtained by 10.

§ 930.6 *Determination and announcement of uniform prices to producers*—

(a) *Computation of the value of milk for each handler.* For each delivery period the market administrator shall compute for each handler the value of milk received from producers by such handler, as follows: (1) multiply the hundredweight of Class I milk by the respective Class I prices, (2) multiply the hundredweight of Class II milk by the Class II price, (3) multiply the hundredweight of Class III milk by the Class III price, and (4) add together the resulting amounts.

(b) *Computation and announcement of the uniform price.* (1) For each delivery period the market administrator shall compute for each handler the uniform price per hundredweight of milk received by such handler as follows:

(i) From the sum computed for such handler pursuant to paragraph (a) of this section, deduct, if the average butterfat content of all milk received from producers is in excess of 3.5 percent, or add if the average butterfat content of all milk received from producers is less than 3.5 percent, the total value of the butterfat differential applicable pursuant to § 930.7 (c);

(ii) If, in the verification of the reports of such handler for previous delivery periods, the market administrator has discovered errors in such reports, there shall be added or subtracted, as the case may be, the amount necessary to correct such errors:

(iii) Divide the result by the hundred-weight of milk received from producers;

(iv) Adjust the resulting figure to the nearest cent. This result shall be known as such handler's uniform price for such delivery period for milk of producers which contains 3.5 percent butterfat; and

(v) On or before the 12th day after the end of each delivery period, the market administrator shall notify each handler of the class prices for milk and of the uniform price computed for him pursuant to this subparagraph, and shall publicly announce such prices.

§ 930.7 *Payment for milk*—(a) *Time and method of payment.* On or before the last day of each delivery period, each handler shall pay to each of his producers, with respect to all milk received during the first 15 days of such delivery period, a price per hundredweight which equals such handler's uniform price for milk testing 3.5 percent of butterfat as announced by the market administrator for the preceding delivery period: *Provided*, That in the event any producer discontinues shipping to a handler during the delivery period, or delivers during the last 15 days of the delivery period less than 60 percent of his deliveries for the first 15 days, such handler shall pay such producer \$1.50 per hundredweight in lieu thereof for milk received during the first 15 days of the delivery period.

(b) On or before the 15th day after the end of each delivery period, each handler shall make payment, subject to the butterfat differential set forth in paragraph (c) of this section and less the payment made in accordance with paragraph (a) of this section, for each hundredweight of milk received from producers during such delivery period as follows:

(1) To each producer at not less than such handler's uniform price.

(c) *Butterfat differential.* If a handler has received from a producer during any delivery period, milk having an average butterfat content other than 3.5 percent, such handler, in making payments pursuant to paragraph (b) of this section, shall add to the price to be paid each producer, for each one-tenth of 1 percent of average butterfat content in milk above 3.5 percent not less than, or shall deduct from such price, for each one-tenth of 1 percent of average butterfat content in milk below 3.5 percent, not more than, an amount per hundredweight as follows:

<i>If the average butter price used in § 930.5 (a) is</i>	<i>The butterfat differential shall be (cents)</i>
25 cents or less.....	3.0
Over 25 cents, but not over 30 cents.....	3.5
Over 30 cents, but not over 35 cents.....	4.0
Over 35 cents, but not over 40 cents.....	4.5
Over 40 cents, but not over 45 cents.....	5.0
Over 45 cents.....	5.5

(d) *Additional payments.* Any handler may make payments for milk in addition to the payments to be made pursuant to § 930.7 (b): *Provided*, That such additional payments shall be made on a uniform basis to all producers for milk of like grade and quality received by such handler.

(e) *Errors in payments.* Whenever verification by the market administrator of the payment by a handler to any producer discloses a payment to such producer that is less than that required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

§ 930.8 *Expense of administration*—(a) *Payment of handlers.* As his pro-rata share of the expense of administration hereof, each handler, with respect to all milk received from producers, an association of producers, or produced by him during the delivery period, shall pay to the market administrator on or before the 10th day after the end of the delivery period an amount per hundredweight not to exceed 2 cents, the exact amount to be determined by the market administrator, subject to review by the Secretary.

§ 930.9 *Marketing services*—(a) *Deduction for marketing services.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 4 cents per hundredweight (the exact amount to be determined by the market administrator, subject to review by the Secretary) from the payments made direct to producers pursuant to § 930.7, with respect to all milk received by such handler during the delivery period from producers, and shall pay such deductions to the market administrator on or before the 10th day after the end of such delivery period. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk of said producers and to provide them with market information; such services to be performed in whole or in part by the market administrator, or by an agent engaged by and responsible to him.

(b) *Payment to an association.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be actually performing the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made pursuant to § 930.7 as may be authorized by such producers, and pay over, on or before the 15th day after the end of each delivery period, such deductions to the association rendering such services.

§ 930.10 *Effective time, suspension, or termination of order, as amended*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force

until suspended, or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension or termination of order, as amended.* The Secretary may suspend or terminate this order, as amended, or any provision hereof whenever he finds that this order, as amended, or any provision hereof, obstructs or does not tend to effectuate the declared policy of the act. This order, as amended, shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall (i) continue in such capacity until removed by the Secretary; (ii) from time to time account for all receipts and disbursements, and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct; and (iii) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

TITLE 25—INDIANS

Chapter I—Office of Indian Affairs

PART 71—GENERAL GRAZING REGULATIONS

GRAZING PERMITS; BOND REQUIREMENTS

Title 25, Chapter I, Subchapter I, Grazing, Part 71, General Grazing Regulations, §§ 71.16 and 71.17 are amended to read as follows:

§ 71.16 *Grazing permits for organized and unorganized tribes.* (a) Permits may be issued by the person or persons duly authorized to grant grazing privileges, as defined in § 71.10, with the approval of the Superintendent and the concurrence of the Regional Forester, on range units exceeding 3,200 acres of allotted and tribal lands of organized tribes and in all other cases when the annual grazing fees exceed \$500. Permits may be issued with the approval of the Superintendent only on range units of 3,200 acres or less of allotted and tribal lands when the annual grazing fees do not exceed \$500.

(b) Permits may be issued by the Superintendent or other authorized person or persons with the concurrence of the Regional Forester on range units exceeding 3,200 acres of allotted and tribal Indian lands of unorganized tribes, or Government lands as defined in § 71.27, and in all other cases when the annual grazing fees exceed \$500. Permits may be issued by the Superintendent without the concurrence of the Regional Forester on range units of 3,200 acres or less when the annual grazing fees do not exceed \$500.

(c) All permits not requiring concurrence or approval of the Regional Forester shall be issued pursuant to advertisement concurred in by the Regional Forester. The Superintendent shall mail promptly to the Commissioner of Indian Affairs and the Regional Forester a copy of each permit upon issuance thereof.

The Commissioner of Indian Affairs, subject to the provisions of § 71.18, may modify or cancel any permit after written notice to the permittee, when necessary to protect and conserve the range. (R. S. 161, 465, sec. 3, 26 Stat. 795, sec. 1, 30 Stat. 85, sec. 1, 31 Stat. 229, sec. 4, 36 Stat. 856, sec. 1, 41 Stat. 1232, secs. 6, 16, 17, 18, 48 Stat. 986, 987, 988; 5 U.S.C. 22, 25 U.S.C. 9, 397, 395, 403, 393, 466, 476, 477, 478)

§ 71.17 *Bond requirements.* Permits must provide for the payment of grazing fees annually or semi-annually in advance. The total amount of the fees for annual permits must be paid in advance.

(a) Full performance of all permits for periods exceeding one year shall be guaranteed by corporate surety bond of a company holding a Certificate of Authority from the Secretary of the Treasury or a satisfactory personal surety bond of not less than four solvent sureties in a penal sum of not less than the annual grazing fees. Each personal surety must own unencumbered real estate of a value equal to twice the amount of the bond and must furnish satisfactory evidence of such unencumbered real estate. If married the spouse of the surety must also sign the bond and each signature must be witnessed by at least two individuals and their Post Office addresses must appear in the instrument. It shall be the duty of the Superintendent to determine the qualifications of each personal surety. Attorneys-in-fact for corporate surety bonds must furnish satisfactory evidence of authority to execute bonds for and on behalf of the surety company.

(b) In lieu of furnishing a surety bond, a permittee may in addition to paying the grazing fees annually in advance, deposit at the time of the first payment of the fees a sum equal to one-half of the annual grazing fees. This sum shall be held by the Superintendent as a cash penal bond and may be applied to the grazing fees due for the last six months of the permit provided that no breach of the permit has taken place. In all cases where a cash deposit is made in lieu of a surety bond, the permittee shall in writing at the time of making the deposit, authorize the Superintendent to use the amount so deposited as liquidated damages in the event of any breach of the permit. Except for the first year, grazing fees on permits supported by cash penal bonds are due and payable at least three months prior to the commencement of the annual period described in the permit.

(c) Negotiable United States Treasury bonds or other negotiable Treasury obligations may be pledged in lieu of a cash penal or surety bond under the same conditions and stipulations for cash penal bonds. Such Government securities shall be forwarded to the Commissioner of Indian Affairs for deposit with the United States Treasury and must be accompanied with a proper power of attorney authorizing disposal thereof by the Commissioner of Indian Affairs as liquidated damages in the event of any breach of the permit.

(d) The Superintendent may waive the bond requirements on permits issued to Indians when the livestock to be grazed under the permit is branded with the I. D. or approved reservation brand, and the Indian permittee executes an agreement to sell the livestock grazed under the permit in accordance with regulations governing the sale of livestock so branded and authorizes the Superintendent in writing to deduct from the pro-

ceeds of any sales of such livestock sufficient funds to pay the grazing fees due under the permit. (R.S. 161, 465, sec. 3, 26 Stat. 795, sec. 1, 30 Stat. 85, sec. 1, 31 Stat. 229, sec. 4, 36 Stat. 856, sec. 1, 41 Stat. 9, sec. 1, 41 Stat. 1232; 5 U.S.C. 22, 25 U.S.C. 9, 397, 395, 403, 214, 393)

TITLE 30—MINERAL RESOURCES

Chapter III—Bituminous Coal Division

[Docket No. A-1371]

PART 339—MINIMUM PRICE SCHEDULE, DISTRICT NO. 19

RELIEF GRANTED

Order approving and adopting proposed findings of fact, proposed conclusions of law of the Examiner and granting relief in the matter of the petition of District Board No. 19 for the establishment of a price classification and minimum price for the coals in size group 8 produced at certain mines in District No. 19 for shipment by rail into Market Area 243 (Alaska).

This proceeding was instituted upon an original petition filed on March 20, 1942, with the Bituminous Coal Division by the Bituminous Coal Producers Board for District No. 19, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

Petitioner requests that the Schedule of Effective Minimum Prices for District No. 19 For All Shipments be amended by the establishment of a minimum price of \$2.75 per net ton f. o. b. the mines for coals in Size Group 8 produced at mines classified in Subdistricts 1 and 2 in District No. 19 for rail shipment into Market Area 243 (Alaska).

After due notice to interested persons, a hearing in this matter was held before Scott A. Dahlquist, a duly designated Examiner of the Division, at a hearing room thereof in Salt Lake City, Utah, on April 7, 1942, and upon continuances, on April 8, 1942 and April 9, 1942. All interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by petitioner and by the United States Fuel Company, Salt Lake City, Utah.

Examiner Dahlquist submitted, on May 18, 1942, his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation. The Examiner stated that an increased demand for nut coals on the part of the Government for the prosecution of the war effort in Alaska—constituting Market Area 243—was anticipated; that District No. 23 producers, who ordinarily supplied Alaska from United States coals, will not be able to satisfy the expected increased demand; and that Subdistricts 1 and 2 in District No. 19 wished to be able to com-

pete for the expanding nut coal market in Alaska along with Subdistrict 1 in District No. 20. The Examiner found that the minimum price effective for nut coal for shipment to Market Area 243, produced in Subdistrict 1 of District No. 20 and classified in Size Group 7—the size group comparable to Size Group 8 (3" x 1½") for District No. 19 coals—was \$2.75 per net ton f. o. b. the mines. Examiner Dahlquist pointed out that, since no price had been established for coals in Size Group 8 for rail shipment to Market Area 243 from District No. 19, an applicable price instruction requires that such coal take a price of \$3.00 per net ton f. o. b. the mines for shipment to Alaska. Examiner Dahlquist referred to the uncontroverted testimony elicited at the hearing before him to the effect that a minimum price of \$2.75 per ton f. o. b. the mines for Size Group 8 coals for shipment to Alaska from Subdistricts 1 and 2 in District No. 19 had been omitted from the District No. 19 price schedule simply through inadvertence. Further reference was made by the Examiner to the uncontroverted testimony that the price for coal in Size Group 8 produced in Subdistricts 1 and 2 in District No. 19 when consigned to Seattle, Washington, was the same as the effective price for the same size coal consigned to Seattle from Subdistrict 1 in District No. 20, and that the effective minimum prices now effective for coal in Size Groups 1, 2, 3, 5 and 6 for rail shipment to Alaska produced in Subdistricts 1 and 2 in District No. 19 were on a parity with the prices effective for coal in comparable size groups produced in Subdistrict 1 of District No. 20 for shipment to the same market area.

The Examiner pointed out that no objection had been offered to the granting of the relief asked for. He recommended that the relief asked for be granted, concluding that such relief would satisfy applicable price fixing provisions of the Act by affording District No. 19 an opportunity fairly to compete with District No. 20 for the anticipated increased demand for nut coals from Market Area 243.

An opportunity was afforded to all parties to file exceptions to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation of the Examiner and supporting briefs. No exceptions or supporting briefs have been filed.

The undersigned has determined that the proposed findings of fact and proposed conclusions of law of the Examiner in this matter should be approved and adopted as the findings of fact and conclusions of law of the undersigned.

Now, therefore, it is ordered, That the said proposed findings of fact and proposed conclusions of law be, and they hereby are, approved and adopted as the findings of fact and conclusions of law of the undersigned.

It is further ordered, That, commencing forthwith, § 340.5 (General Prices, minimum prices for shipment via rail transportation) in the Schedule of Effective Minimum Prices for District No. 19 For All Shipments Except Truck be,

and it hereby is, amended by the establishment of a minimum price of \$2.75 per net ton f. o. b. the mines for the coals in Size Group 8 produced in Subdistricts 1 and 2 for shipment by rail into Market Area 243 (Alaska).

Dated: June 20, 1942.

PART 1279—ELASTIC FABRICS, KNITTED,
WOVEN OR BRAIDED

[Conservation Order M-174]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of elastic fabrics for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national welfare.

§ 1279.1 Conservation Order M-174—

(a) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order will govern.

(b) *Additional definitions.* For the purposes of this order:

(1) "Elastic fabric" means any fabrics, knitted, woven or braided, containing rubber core or covered rubber thread.

(2) "To consume" means to commence to sew on any garment or other article, or otherwise attach thereto any elastic fabric, or to begin the processing, cutting, or changing in any manner of the form of any elastic fabric.

(c) *Restrictions on use.* No person shall consume any elastic fabric except in the manufacture of the following items:

Edging for baby pants.

Industrial shoes, belting and flexible metallic hose.

Repair cords and webs manufactured from rubber thread of the sizes permitted by Conservation Order No. M-124¹ or from scrap or tag ends of less than five feet in length.

Sanitary belts subject to the provisions of Order L-137² as from time to time amended.

Surgical elastic bandages.

Surgical stockings.

Supports for abdomen, back and breast subject to the provisions of Order L-90³ as from time to time amended.

Trusses (including umbilical belts).

Webbing for respirators, hose masks, gas masks, inhalators, and goggles.

Provided, however, That the quantity of elastic fabric to be used in the manufacture of any of the above items shall be regulated by the provisions of any General Limitation or other orders now in effect or as may from time to time become effective with respect thereto.

(d) *General exceptions.* The restrictions imposed by paragraph (c) shall not apply to:

(1) Any elastic fabric to be used for the purpose of filling actual orders for, or contracts held by any person with:

(i) The Army or Navy of the United States, the United States Maritime Commission, War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development; or

(ii) The government of any of the following countries: The United Kingdom, Canada, and other Dominions, Crown Colonies and Protectorates of the British Empire, Belgium, China, Greece, the Kingdom of the Netherlands, Norway, Poland, Russia, Yugoslavia, Free France, Iceland, Turkey and Czechoslovakia for military purposes only.

(2) Any elastic fabrics which, on or before the opening of business on June 20, 1942, were already packaged in the customary retail packaging of such fabrics, where such packaging differs in both put-up and amount of fabric from the packaging of the same fabric for distribution to processors, manufacturers, or any persons other than retail distributors or persons selling to retail distributors.

(3) Any elastic fabric which can be shown to the satisfaction of the Director of Industry Operations to be unsuitable or unnecessary as substitutes in the production of any of the articles listed in paragraph (c) or contracted for pursuant to paragraph (d) (1). Applications for such exceptions shall be in writing, stating the complete specifications of each item covered by the application, and shall be accompanied by samples of at least three feet in length of each such item. Such exceptions may be made in

¹ 7 F.R. 2472, 2580, 3234, 3932.

² 7 F.R. 4571.

³ 7 F.R. 3033, 4475.

special cases or by supplemental order as public interest and the national defense may require, and may contain such restrictions on the rate of use thereof as may be necessary and appropriate in the public interest and to promote the national defense.

(4) Any person who has, in good faith, filed application pursuant to paragraph (3) hereof, may, pending action on such application, use an amount of each elastic fabric held by him not in excess of 10 per cent of his inventory thereof on June 20, 1942: *Provided,* That no such person shall use in the manufacture of any article more than 15 per cent by area of the type of elastic fabrics, or any type using less rubber thread, used by such person in the manufacture of such article in May, 1941, unless the said limitation to 15 per cent would require the use of narrow elastic fabrics in lengths of less than 3 inches, in which case lengths of 3 inches of any narrow elastic fabric may be used up to an amount equal to 10 per cent of the inventory thereof.

(e) *Appeals.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of elastic fabrics conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegram, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(f) *Reports.* Each manufacturer, processor, wholesaler, or jobber shall compile and retain an inventory of elastic fabrics as of the opening of business on June 20, 1942, and shall file such reports with the War Production Board as may be required by such Board from time to time; but no such reports shall be filed until forms therefor have been prescribed and made available.

(g) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, consumption and sales.

(h) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed be addressed to: War Production Board, Washington, D. C., Ref.: M-174.

(i) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Effective date.* This order shall take effect on June 24, 1942, at 12:01 a. m. (P.D. Reg 1, as amended, 6 F.R. 6680; W.P.B. Reg. 1, 7 F.R. 561; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub. Laws 89 and 507, 77th Cong.)

Issued this 20th day of June 1942.

Director of Industry Operations.

PART 1084—CANNED FOODS

[Conservation Order M-172]

IMPORTED CANNED BEEF

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of materials used in canning foods for defense, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1084.1 *Conservation Order M-172—*

(a) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944), as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith in which case the provisions of this order shall govern.

(b) *Definitions.* For the purposes of this order:

(1) "Imported canned beef" shall mean any corned, roast, or boiled beef canned outside the Continental United States in hermetically sealed metal or glass containers and sterilized by the use of heat.

(2) "Government Agency" shall mean any officer, board, agency, commission or government owned or government controlled corporation of the United States.

(c) *Restrictions.* (1) Every person, other than a Government Agency, who

on June 22, 1942 has in his possession or under his control in any one place of storage, or in contiguous places of storage, or in transit, in the Continental United States, in excess of 5,000 pounds net weight of imported canned beef, shall set aside such excess for the requirements of government agencies, without regard to previously existing contracts. All such imported canned beef so set aside shall, unless and until released, be held for allocation to any Government Agency by the Director of Industry Operations. Imported canned beef may be delivered without specific allocation to the armed forces of the United States to fill purchase orders placed before June 22, 1942, but otherwise imported canned beef required to be set aside by this order shall not be delivered to any Government Agency when not specifically allocated to such agency by the Director of Industry Operations.

(2) Any imported canned beef arriving in the Continental United States after June 22, 1942 shall be set aside and held pursuant to the provisions of paragraph (1) but without regard to the quantity thereof, unless imported by or for the account of a Government Agency or by a person thereto duly authorized by the Director of Industry Operations pursuant to Order M-63.¹

(3) No person shall purchase or accept delivery of any imported canned beef with knowledge or reason to believe that such imported canned beef is being or has been sold or delivered in violation of the provisions of this order. Purchase or acceptance of deliveries totalling 2,500 pounds net weight of imported canned beef or more from a single seller shall be deemed to be with knowledge of violation of this order, unless pursuant to an allocation order, or unless the seller furnishes to the buyer a certificate in writing, signed by a responsible official, in substance as follows:

This is to certify that ----- pounds net weight of imported canned beef sold or delivered to you on this date is sold or delivered in accordance with the provisions of Conservation Order M-172, with the terms of which I am familiar. Such imported canned beef was:

1. Released by the Director of Industry Operations;
2. Not required to be set aside by Order M-172.

(Include explanation which applies.)

Seller
By: -----
Duly Authorized Official.

A copy of each such certificate shall be forwarded by the seller within one week after the date thereof to the War Production Board, Ref.: M-172, and shall constitute a representation that any imported canned beef referred to in such certificate was sold in compliance with the order, as stated therein.

(4) Each person required by this order to set any imported canned beef aside, shall, within 30 days after June 22, 1942, (or, in the case of canned beef imported after June 22, 1942, within 10 days after

such importation), mail to or file with the War Production Board a report on Form PD-555.

(5) If any imported canned beef set aside for the requirements of Government Agencies has not been purchased within 60 days after the mailing or filing of the report prescribed in paragraph (c) (4), the person who mailed or filed such report may notify the War Production Board in writing that if such imported canned beef is not purchased within 30 days he will no longer hold it set aside. If any of such imported canned beef is not purchased within 30 days after the mailing or filing of such notice, and if no further order is issued with respect to it, it shall be deemed released and shall be available for unrestricted sale and distribution.

(6) If he determines that any imported canned beef set aside pursuant to this order is not required for Government Agencies, the Director of Industry Operations may release such imported canned beef at any time by notice directed to the person who mailed or filed the report prescribed in paragraph (c) (4) concerning such imported canned beef.

(d) *Reports.* In addition to the report prescribed in paragraph (c) (4), each person having any imported canned beef in his possession or control shall file such additional reports as the War Production Board may prescribe for the purpose of effective administration of this order.

(e) *Inspection and grading.* Any imported canned beef required to be set aside under this order shall be subject to inspection and grading at any time by the Director of Industry Operations, or by any person or Government Agency thereto authorized by him.

(f) *Appeals.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship upon him, may appeal to the Director of Industry Operations by letter, setting forth the pertinent facts and reasons such person considers that he is entitled to relief. The Director may thereupon take such action as he deems appropriate.

(g) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales.

(h) *Audit and inspection.* All records required to be kept by this order or by any rule, regulation or order of the Director of Industry Operations shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

PART 1174—LAUNDRY EQUIPMENT, DRY CLEANING EQUIPMENT AND TAILORS' PRESSING MACHINERY

[General Limitation Order L-91, as Amended June 22, 1942]

Effective at once, *General Limitation Order L-91*² (§ 1174.1), as heretofore amended, is further amended to read as follows:

¹⁷ F.R. 1854, 2579.

²⁷ F.R. 3852, 4228.

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain materials, used in the production of commercial laundry and dry cleaning machinery, and tailors' pressing machinery, for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1174.1 *General Limitation Order L-91—(a) Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Manufacturer" means any person producing commercial laundry or dry cleaning machinery or tailors' pressing machinery to the extent that he is engaged in such manufacture, and shall include sales and distribution outlets controlled by a manufacturer.

(3) "Distributor" means any person in the business of distributing commercial laundry or dry cleaning machinery, or tailors' pressing machinery other than sales and distribution outlets controlled by a manufacturer.

(4) "Commercial laundry machinery," "commercial dry cleaning machinery," and "tailors' pressing machinery," unless otherwise specified, include machinery of the kinds listed, from time to time, in List A attached hereto. New machinery of such kinds is machinery which has not been delivered to any person acquiring it for use. "Tailors' pressing machinery" shall include pressing machinery used by custom tailors or by pressing establishments, but shall not include pressing machines used in the mass production of garments or other textiles. "Commercial laundry machinery" and "commercial dry cleaning machinery" shall include machinery used in all types of laundering and cleaning establishments, such as, but not limited to, rug cleaning establishments, and fur cleaning establishments, but shall not include electric hand irons, electrically heated steam irons or water spray irons, which are subject to the limitations of General Limitation Order L-65.

(b) *Restrictions on delivery.* Regardless of the terms of any contract of sale or purchase or other commitment, or of any Preference Rating Certificate, no manufacturer, distributor, or other person shall accept an order for, or sell, deliver, or otherwise transfer, and no person shall purchase, receive delivery of, or otherwise acquire, any new commercial laundry or dry cleaning machinery, or tailors' pressing machinery, of any value, or any of such kinds of rebuilt or reconditioned machinery of a value in excess of \$100.00, except as follows:

(1) To fill orders for the Army or Navy of the United States, the Army or Navy of Belgium, China, Czechoslo-

vakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom including its Dominions, Crown Colonies and Protectorates, or Yugoslavia; for the Maritime Commission or War Shipping Administration; or to fill orders to equip a vessel constructed for the Navy, Maritime Commission, War Shipping Administration or Lend-Lease Administration, or a cantonment or other Army or Navy base constructed for the use and operation of the Army or Navy of the United States; or to fill orders for a bag loading or other ordnance plant where the hazard is such that the above-mentioned machinery has been specified as necessary by the Army or Navy or

(2) Upon express authorization of the Director of Industry Operations upon Form PD-418.

Nothing in this paragraph shall be construed to prohibit the delivery of machinery from one manufacturer to another to fill a part of an order which has been authorized for delivery on Form PD-418, or to fill a part of an order placed pursuant to the provisions of paragraph (b) (1)

(c) *Procedure for authorization.* All persons making application for an authorization under paragraph (b) (2) hereof, shall make such application on Form PD-418. Applicants who secure authorization upon Form PD-418 shall surrender such Form PD-418 to their supplier.

(d) *Prohibition of production of commercial laundry and dry cleaning machinery.* (1) Unless otherwise authorized by the Director of Industry Operations, on and after June 1, 1942, no manufacturer shall produce any commercial laundry machinery, except to fill orders for, and in accordance with, specifications of, the Army or Navy of the United States, the Army or Navy of Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom including its Dominions, Crown Colonies and Protectorates, or Yugoslavia; for the Maritime Commission or War Shipping Administration; or to fill orders to equip a vessel constructed for the Navy, Maritime Commission, War Shipping Administration or Lend-Lease Administration, or a cantonment or other Army or Navy base constructed for the use and operation of the Army or Navy of the United States; or to fill orders for a bag loading or other ordnance plant where the hazard is such that the above-mentioned machinery has been specified as necessary by the Army or Navy. *Provided, however* That a Manufacturer may complete the assembly of any Commercial Laundry Machinery, the delivery of which has been authorized by the Director of Industry Operations on Form PD-418, where the only operation necessary to complete the machinery for delivery is the final assembly of completely fabricated parts.

(2) Unless otherwise authorized by the Director of Industry Operations, on and after July 1, 1942, no manufacturer shall produce any commercial dry cleaning machinery, except to fill orders for, and in accordance with, specifications of, the Army or Navy of the United States, the Army or Navy of Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom including its Dominions, Crown Colonies and Protectorates, or Yugoslavia; for the Maritime Commission or War Shipping Administration; or to fill orders to equip a vessel constructed for the Navy, Maritime Commission, War Shipping Administration or Lend-Lease Administration, or a cantonment or other Army or Navy base constructed for the use and operation of the Army or Navy of the United States; or to fill orders for a bag loading or other ordnance plant where the hazard is such that the above-mentioned machinery has been specified as necessary by the Army or Navy. *Provided, however* That a Manufacturer may complete the assembly of any commercial dry cleaning machinery, the delivery of which has been authorized by the Director of Industry Operations on Form PD-418, where the only operation necessary to complete the machinery for delivery is the final assembly of completely fabricated parts.

(3) Unless otherwise authorized by the Director of Industry Operations, no commercial laundry or dry cleaning machinery, or tailors' pressing machinery, including maintenance or repair parts therefor, shall be manufactured after May 15, 1942, except by a person who has filed an application under Preference Rating Order P-90 (Production Requirements Plan) on Form PD-25A, PD-25X, or other applicable form for all his material requirements for such manufacture for which he requires priority assistance.

(e) *Non-applicability to repair or maintenance of existing equipment.* The prohibitions of paragraphs (b) or (d) hereof shall not be construed to restrict the manufacture, acquisition, sale, or delivery, in any manner, of parts to be used to repair or maintain existing machinery, or machinery delivered under the terms of this order. The above provision for parts for repair or maintenance includes replacement parts to be used for that purpose.

(f) *Restrictions on use of materials.* (1) On and after April 30, 1942, no monel metal, nickel, nickel silver, or nickel chrome steels shall be used in the production of commercial laundry or dry cleaning machinery, except where specified by the Army, the Navy, or the Maritime Commission.

(2) Nothing in this order shall be construed to permit any person to sell, deliver, or otherwise transfer, or any manufacturer to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts, or finished products in contravention of the terms

of any order or other regulation now effective or effective at the date of any such sale, delivery, or other transfer.

(g) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(h) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after the effective date of this order. No person shall be held liable for damages or penalties for default under any contract or order which shall result directly or indirectly from his compliances with the terms of this order.

(i) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Services Branch, Washington, D. C., Ref. L-91.

(j) *Appeals.* Any manufacturer affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that compliance with this order would disrupt or impair his program of conversion from non-defense to defense work, may apply for relief by addressing a letter to the War Production Board, Ref. L-91, setting forth the pertinent facts and the reasons why such person considers that he is entitled to relief. The Director of Industry Operations may thereupon take such action as he deems appropriate.

(k) *Violations.* Any person who willfully violates any provision of this order, or who willfully furnishes false information to the Director of Industry Operations in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the Director of Industry Operations.

(l) *Records and reports.* (1) Each person affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventory, production, and sales of commercial laundry and dry cleaning machinery and tailors' pressing machinery.

(2) Each person affected by this order shall execute and file with the Services Branch, Division of Industry Operations, such reports and questionnaires as said Branch shall from time to time request.

(3) On or before May 7, 1942, for the month of April, and on or before the seventh day of each month thereafter,

for the preceding month, each manufacturer or distributor of commercial laundry or dry cleaning machinery, or tailors' pressing machinery shall file a monthly report of orders, production and shipments on Form PD-419. PART 1364—FRESH, CURED AND CANNED MEAT AND FISH

[Maximum Price Regulation 169]

DEER AND VEAL CARCASSES AND WHOLESALE CUTS

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, to

¹ 7 F.R. 1107, 1371, 1763, 1769, 1836, 2132, 2304, 2352, 2634, 2345, 3116, 3482, 3624, 3552, 3576, 3895, 3963.

establish as the maximum prices for beef and veal carcasses and wholesale cuts the prices prevailing with respect thereto during the period March 16 to March 28, 1942. The Price Administrator has ascertained and given due consideration to the prices of beef and veal carcasses and wholesale cuts prevailing between October 1 and October 15, 1941, and has made adjustments for such relevant factors as he has determined and deemed to be of general applicability. So far as practicable, the Price Administrator has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of said Act. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

The maximum prices established herein are not below prices which will reflect to producers of the agricultural commodities from which beef and veal carcasses and wholesale cuts are produced prices for their commodities equal to the highest of any of the following prices therefor determined and published by the Secretary of Agriculture: (1) 110 percentum of the parity price for each such commodity adjusted by the Secretary of Agriculture for grade, location, and seasonal differentials; (2) the market prices prevailing for each such commodity on October 1, 1941; (3) the market prices prevailing for each such commodity on December 15, 1941; or (4) the average prices for each such commodity during the period July 1, 1919, to June 30, 1929.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1¹, issued by the Office of Price Administration, Maximum Price Regulation No. 169 is hereby issued.

AUTHORITY: §§ 1364.51 to 1364.66, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1364.51 *Prohibition against selling beef or veal carcasses or wholesale cuts at prices above the maximum.* On and after July 13, 1942, regardless of any contract, agreement, or other obligation, no person shall sell or deliver any beef or veal carcass or wholesale cut, and no person in the course of trade or business shall buy or receive any beef or veal carcass or wholesale cut at a price higher than the maximum price permitted by § 1364.52; and no person shall agree, offer, solicit or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of beef or veal carcasses or wholesale cuts to a purchaser if, prior to July 13, 1942, such carcasses or wholesale cuts have been received by a carrier, other than a carrier owned or controlled

by the seller, for shipment to such purchaser.

§ 1364.52 *Maximum prices for beef and veal carcasses and wholesale cuts.* Except as provided by paragraphs (d) and (f) of this section, each seller's maximum prices for beef and veal carcasses and wholesale cuts which are shipped otherwise than via car route or by carload shall be computed as provided by paragraph (a) of this section; his maximum prices for such carcasses or cuts shipped via car route shall be computed as provided by paragraph (b) of this section; and his maximum prices for such carcasses or cuts shipped by carload shall be computed as provided by paragraph (c) of this section. Maximum prices for carcasses or cuts which cannot be determined under paragraphs (a), (b), (c) or (d) shall be computed as provided in paragraph (e). Each seller shall report to the Office of Price Administration his maximum prices as provided in paragraph (g).

(a) *Maximum prices for products not shipped via car route or by carload.* Except as provided in paragraphs (d) and (f) of this section, each seller's maximum price for each beef or veal carcass or wholesale cut not shipped via car route or by carload shall be computed as follows:

(1) The maximum price for each grade of each beef or veal carcass shall be the highest price actually charged by the seller during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of the seller's sales of carcasses of the same grade were made during such period.

EXAMPLE: Assume that the seller's sales of choice carcasses of beef during the base period, March 16 to March 28, were as follows:

Price per lb.:	Weight volume in lbs.	Percentage of total weight volume (percent)
24¢	1,000	4
23½¢	2,000	8
23¢	4,000	16
22¾¢	5,000	20
22½¢	8,000	32
22¢	4,000	16
21½¢	1,000	4
Total weight volume-----		25,000

The seller's maximum price for choice carcasses of beef is 22¾¢ per lb., for that is the highest price actually charged by him at or above which he made at least 30% of the total weight volume of his sales of such carcasses during the base period. 23¢ cannot be his maximum price, because only 28% of the total weight volume of sales was made at or above that price. 22½¢ cannot be his maximum price, for he made no sales during the base period at that price.

(2) The maximum price for each grade of fore-quarter of beef, hind-quarter of beef, fore-quarter of veal, hind-quarter of veal, fore-saddle of veal, and hind-saddle of veal shall be determined as follows:

(i) The seller shall ascertain the highest price actually charged by him during

the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of his sales of such fore-quarter, hind-quarter, fore-saddle, or hind-saddle was made during the period March 16 to March 28, 1942.

(ii) In the event that the sales of fores and hinds of each grade at the prices computed in subparagraph (2) (i) above would yield a greater total sales realization when sold separately, then the total sales realization obtainable from the sales of the same fores and hinds of each grade in carcass form, at the seller's maximum price for a carcass of such grade, the seller shall adjust downward the prices of such fores and hinds to remove such excess. In making such adjustment the seller shall not change the price differential in cents per pound between hinds and fores as established pursuant to subparagraph (2) (i). The price so fixed and adjusted shall be the seller's maximum price for such quarter or saddle, and he may not thereafter charge any higher price.

(3) The maximum price for each grade of each wholesale cut derived from a quarter or saddle shall be determined as follows:

(i) The seller shall fix a price for each such cut upon the basis of the relationship which prevailed, during the base period March 16 to March 28, 1942, between the price of such cut and the prices of other cuts derived from a quarter or saddle of the same grade.

(ii) In the event that the total gross proceeds obtainable through sales at the prices so fixed of all cuts derived from such quarter or saddle exceeds by more than \$1.00 per cwt. the total gross proceeds obtainable through the sale of such quarter or saddle, uncut, at its maximum price, the seller shall adjust downward the prices of such cuts to remove the excess over \$1.00 per cwt. In making such adjustments, the seller shall not change the relationship of such prices as established pursuant to subparagraph (3) (i). The price so fixed and adjusted shall be the seller's maximum price for such wholesale cut.

NOTE: In making computations of total weight volume required by paragraph (a) of this section, the seller shall omit all sales of products which he shipped via car route or by carload.

(b) *Maximum prices for products shipped via car route.* Except as provided in paragraphs (d) and (f) of this section, each seller's maximum price for each grade of each beef or veal carcass or wholesale cut delivered via car route shall be computed as follows:

(1) The seller shall ascertain separately the total weight volume of each grade of each carcass, or fore-quarter or hind-quarter of beef or veal, or fore-saddle or hind-saddle of veal delivered by him, during the period March 16 to March 28, 1942, via all car routes operated by him from each car route shipping point.

(2) The seller shall compute maximum prices for each grade of each such

carcass side, quarter and saddle, and for each grade of each wholesale cut in the manner provided for in subparagraphs (1), (2), and (3) of paragraph (a) of this section, for each car route shipping point.

(3) The prices determined pursuant to subparagraph (2) of this paragraph (b) shall be the maximum prices in the zone of the highest freight and icing costs. Such zone shall include all car routes the freight and icing costs of which are within 25¢ per cwt. of the highest freight and icing costs of any of such car routes operating from the same shipping point.

(4) Other car route zones from the same shipping point shall also be determined by the seller upon the basis of 25¢ per cwt. differences in freight and icing costs. Maximum prices in each such zone shall be computed by deducting from the maximum prices determined pursuant to subparagraph (2) of this paragraph (b) ¼¢ per pound for each 25¢ per cwt. difference in freight and icing costs.

(c) *Maximum prices for products shipped by carload.* Except as provided in paragraphs (d) and (f) of this section, each seller's maximum price, f. o. b. the seller's shipping point, for each grade of each beef or veal carcass or wholesale cut sold for carload delivery shall be the highest price actually charged by the seller during the period March 16 to March 28, 1942, at or above which at least 30% of the total weight volume of the seller's sales of such carcass or wholesale cut sold in carload shipments from such shipping point during such period: *Provided*, That, in determining such maximum price, the seller shall deduct from all delivered prices charged in his carload sales during such period the actual transportation costs from the shipping point to all points of delivery. If the seller is unable to determine the maximum price for any grade of any wholesale cut derived from a quarter or saddle, because he made no carload sale of such cut during such period, he shall compute such maximum price in the manner provided for in subparagraph (3) of paragraph (a) of this section.

(d) *Maximum prices for products purchased by certain governmental agencies.* The maximum price for each grade of each beef or veal carcass or wholesale cut which is purchased for any institution of any State, or political subdivision thereof, or of the United States by an authorized purchasing agency (other than purchases for the armed forces of the United States or the Federal Surplus Commodities Corporation) shall be the highest price which such agency contracted to pay for such grade of carcass or cut in contracts specifying comparable delivery and entered into during the thirty-day period commencing on March 16, 1942. Such authorized purchasing agency shall quote the maximum price for such grade of beef or veal carcass or wholesale cut at such times as it issues invitations for bids. If the maximum price cannot be determined under the foregoing provisions of this para-

graph (d), such maximum price shall be the seller's maximum price determined under the applicable provisions of paragraph (a), (b), or (c) of this section.

(e) *Maximum prices for products which cannot be priced under the foregoing paragraphs.* Except as provided in paragraph (f) of this section, if the maximum price for any grade of any beef or veal carcass or wholesale cut cannot be determined under paragraphs (a), (b), (c) or (d) of this section, the maximum price for such carcass or cut shall be the maximum price of the most nearly competitive seller.

(f) *Maximum prices for products sold for export.* The maximum price at which a person may sell or deliver any commodity for export shall be determined in accordance with the provisions of the Maximum Export Price Regulation⁷ issued by the Office of Price Administration on April 25, 1942.

(g) *Duty to report maximum prices and adhere to reported prices.* Each seller shall report to the Office of Price Administration, pursuant to the provisions of § 1364.58, his maximum prices on all beef and veal carcasses and wholesale cuts which he sells. The seller shall in no event charge any prices higher than those so reported as his maximum prices.

§ 1364.53. *Duty to maintain and identify grades.* No person shall sell or offer for sale, and no person in the course of trade or business shall buy or receive any beef or veal carcass or wholesale cut unless each such carcass or cut has been identified by grade in accordance with the provisions of this section. Each seller shall maintain uniform grades, as specified in paragraph (a) of this section; shall compute his maximum prices upon the basis of such uniform grades rather than upon the basis of his own grades, as provided in paragraph (b) of this section; and shall identify his products by grade letters, as provided by paragraph (c) of this section.

(a) *Uniform grades.* (1) Beef carcasses and wholesale cuts derived from steers and heifers shall be graded into the following uniform grades: choice, good, commercial, utility, and cutter and canner. Beef carcasses and wholesale cuts derived from cows shall be graded in the same manner, except that no such carcass or cut shall be graded choice. In determining the grade of each such carcass or cut, the seller shall use the "Specifications for Official United States Standards for Grades of Carcass Beef"⁸ set forth in Appendix A hereof, and incorporated herein as § 1364.64, except that, the specifications therein for the two grades, cutter and canner, shall be combined and treated as a single grade, and the specifications therein for the two

grades, prime and choice, shall be combined and treated as a single grade, choice.

(2) Veal and calf carcasses and wholesale cuts shall be graded into the following uniform grades: choice, good, commercial, utility and culls. In determining the grade of each such carcass or cut, the seller shall use the "Specifications for Official United States Standards for Grades of Veal and Calf Carcasses"⁴ set forth in Appendix B hereof, and incorporated herein as § 1364.65, except that the specifications therein for the two grades, prime and choice, shall be combined and treated as a single grade, choice.

(b) *Duty to compute maximum prices on the basis of uniform grades.* The word "grade", as used in § 1364.52 and in paragraph (c) of this section, means any uniform grade referred to in paragraph (a) of this section, and shall not be construed to mean the private grade of an individual seller. Irrespective of the grading system used by the seller during the base period March 16 to March 28, 1942, it shall be the duty of the seller to classify into the uniform grades provided for in paragraph (a) of this section the beef and veal carcasses and cuts sold by him during such period, by reference to the grading standards provided for in said paragraph (a), and then to ascertain his maximum prices for each such grade of carcass and cut as required by § 1364.52.

(c) *Duty to identify products by grade letters.* (1) No person shall sell or break any beef or veal carcass unless a stamp has been placed thereon with harmless marking fluid conforming to the formula for violet branding fluid approved by the United States Department of Agriculture, Bureau of Animal Industry, set forth in Appendix C hereof, and incorporated herein as § 1364.66, marking the appropriate grade letter, as hereinafter designated, in such manner as to identify by such letter the uniform grade of each wholesale cut which may be derived from such carcass, except that in the case of a calf or veal carcass sold with the skin on, the grade letter shall be stamped only on the shanks and briskets. He shall similarly stamp upon all bull and stag carcasses their sex identification. The grade identification of each beef or veal carcass and wholesale cut must appear on the seller's invoice.

(2) The appropriate grade letter for each uniform grade shall be as follows:

Grade:	Grade letter
Choice.....	AA
Good.....	A
Commercial.....	B
Utility.....	C

The grade letter shall be at least ½ inch in height and width. Carcasses or cuts graded as canners and cutters, or culls, need not be stamped.

⁴ Service and Regulatory Announcements No. 114, Official United States Standards for Grades of Veal and Calf Carcasses, United States Department of Agriculture, Agricultural Marketing Administration, issued as amended, October, 1940.

(d) *Use of other grading and branding systems.* Any seller may use a private grading and branding system in addition to that required by the foregoing paragraphs of this section: *Provided*, That he shall not compute his maximum prices upon the basis of such private system, and that he shall identify his private grading and branding system in such manner as to distinguish it from the official grade stamp as required by paragraph (c) of this section.

§ 1364.54 *Conditional agreements.* No seller of beef or veal carcasses or wholesale cuts shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided by § 1364.52, in the event that this Maximum Price Regulation No. 169 is amended or is determined by a court to be invalid or upon any other contingency: *Provided*, That if a petition for amendment has been duly filed, and such petition requires extensive consideration, the Administrator may grant an exception upon the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment. Requests for such an exception may be included in the aforesaid petition for amendment.

§ 1364.55 *Exempt sales.* The provisions of this Maximum Price Regulation No. 169 shall not apply to sales at retail; nor to sales to the Federal Surplus Commodities Corporation or to any purchasing agency of the armed forces of the United States.

§ 1364.56 *Less than maximum prices.* Lower prices than those set forth in § 1364.52 may be charged, demanded, paid or offered.

§ 1364.57 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 169 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase, or receipt of, or relating to beef or veal cuts or wholesale cuts, alone or in conjunction with any other commodity, or by way of any commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying-agreement or other trade understanding, or by changing the selection or grading or the style in effect during the base period, March 16 to March 28, 1942, of cutting, trimming, curing, smoking, cooking, drying, or otherwise processing, or the canning, wrapping or packaging of wholesale cuts.

§ 1364.58 *Records and reports.* (a) Not later than July 18, 1942, every person making sales subject to § 1364.52 of this Maximum Price Regulation No. 169, shall file with the Office of Price Administration in Washington, D. C., a sworn statement certifying:

(1) A description of the grading system used by the seller during the base period March 16 to March 28, 1942, setting forth the grade terms, code designations, and marks employed by the seller in any private grading system, and

setting out fully the seller's grade specifications.

(2) The maximum price for each official grade of carcass and wholesale cut as determined pursuant to §§ 1364.53 and 1364.52 above, enumerating separately the maximum selling prices of each grade of carcass and wholesale cut for (i) carload lots, (ii) car routes and (iii) sales other than in carload lots and via car routes.

(3) Whether the maximum selling prices are delivered prices or f. o. b. seller's shipping point.

(4) The area or areas in which the sellers' maximum selling prices are applicable.

(b) Not later than July 13, 1942, every person making sales subject to § 1364.52 of this Maximum Price Regulation shall prepare on the basis of all information and records required in accordance with paragraph (a) of this section, and thereafter keep for examination by any purchaser during ordinary business hours, a statement showing and enumerating separately the maximum selling prices of each grade of beef or veal carcass and wholesale cut for (1) carload lots, (2) car-routes, and (3) sales other than in carload lots and via car routes.

(c) Every person making a sale of any beef or veal carcass or wholesale cut, on or after July 13, 1942, in the course of trade or business or otherwise dealing therein, shall make and preserve complete and accurate records of each such sale, showing the date thereof, the name and address of the buyer and seller, the quantity, grade and weight of all carcasses or wholesale cuts sold, and the price charged or received therefor.

(d) Persons affected by this Maximum Price Regulation No. 169 shall submit such other reports to the Office of Price Administration as it may from time to time require.

§ 1364.59 *Enforcement.* (a) Persons violating any provision of this Maximum Price Regulation No. 169 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 169 or any price schedule, regulation, or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1364.60 *Petition for amendment.* Persons seeking modification of any provision of this Maximum Price Regulation No. 169 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1364.61 *Applicability of General Maximum Price Regulation.* The pro-

visions of this Maximum Price Regulation No. 169 supersede the provisions of the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation.

§ 1364.62 *Definitions.* (a) When used in this Maximum Price Regulation No. 169 the term:

(1) "Person" means individual, corporation, partnership, association, car route, packer's branch house, or other group of persons, or the legal successor or representative of any of the foregoing.

(2) "Seller" means any person who sells, supplies, disposes, barter, exchanges, transfers and delivers, and contracts and offers to do any of the foregoing. Where a person makes sales from more than one place of business, each separate place of business of such person shall be deemed to be a separate seller, except that all places of business owned or controlled by the same person, and selling in the same municipal or county locality shall be regarded as a single seller. Each shipping point from which a car route or car routes originates shall be deemed a separate seller.

(3) "Veal" includes the dressed carcasses and wholesale cuts derived from calves.

(4) "Wholesale cuts" means all cuts and combinations of cuts derived from the dressed beef or veal carcass, including but not limited to: (i) fore-quarters and hind-quarters and fore-saddlers and hand-saddles; (ii) rough and trimmed, bone in and boneless, whole and sliced; (iii) fresh, frozen, cured, pickled, spiced, smoked, cooked, dried or otherwise processed; and including ground hamburger and sausage containing any proportion of beef. Kosher fores and all cuts derived therefrom shall for the purposes of § 1364.52 be regarded as separate wholesale cuts.

Cuts of each grade and brand, and in each stage of processing, shall be considered separate wholesale cuts. Trimmings of each grade and in each stage of processing shall be considered separate wholesale cuts. Each type of canned and packaged meat, made entirely from beef or veal, shall be considered a separate wholesale cut.

(5) "Carcass" means the dressed carcass of beef and veal, and includes: the side or sides of beef and veal; the fore-quarter and hind-quarter of beef or veal when sold together, and the fore-saddle and hind-saddle of veal when sold together.

(6) "Carload" means: (i) a shipment by rail to a single point of destination of at least the minimum weight as set forth in the tariffs of railroad carriers, upon which shipment the railroad carload rate from the point of shipment to the point of destination is based: *Provided*, That where a smaller quantity is shipped which could move at a railroad carload rate rather than at a railroad less-than-carload rate because a lower transportation charge is produced thereby, such smaller quantity shall be considered a carload lot; and (ii) a shipment by motor truck or trucks of 15,000 lbs. or more to a single

point of destination, as a single bulk sale transaction. In determining what constitutes carload sales, the seller shall include all shipments which meet the above description, including those picked up by the buyer at the seller's place of business.

(7) "Purchasing agency" refers to the authorized purchasing agency which contracts for future delivery of any carcasses or wholesale cuts according to fixed specifications.

(8) "Sales at retail" means sales to the ultimate consumer; *Provided*, That no wholesaler, processor, packer, slaughterer, branch house, purchaser for resale, car route or commercial user, shall be deemed to be an ultimate consumer, except that a sale to a purveyor of meals, by a person regularly and generally engaged in selling at retail, made on usual retail terms, shall be regarded as a sale at retail.

(b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942 shall apply to other terms used herein.

§ 1364.63 *Effective date.* Maximum Price Regulation No. 169 (§§ 1364.51 to 1364.66) shall become effective July 13, 1942.

§ 1364.64 *Appendix A: Specifications for grades of carcass beef*—(a) *Choice.* Choice grade beef carcasses and wholesale cuts shall be relatively blocky and compact and thickly fleshed throughout. Loins and ribs shall be thick and full. The rounds shall be plump. The chucks shall be short and thick, and the neck and shanks short. The fat covering shall be fairly smooth and uniform and shall extend over the entire exterior surface of the carcass. The interior fat shall be abundant in the pelvic cavity and over the kidney. The protrusion of fat between the chine bones shall be fairly liberal and the "overflow" of fat over the inside of the ribs shall be distinctly in evidence and fairly evenly distributed. The intermingling of fat with the lean in evidence between the ribs, called feathering, shall be extensive. Both the interior and the exterior fat shall be firm, brittle, and somewhat waxy, but may be slightly wavy or rough. The fat is usually white or creamy white but a slight yellowish tinge will not exclude beef from this grade, provided the character of the fat meets the requirements for the grade in other respects. The cut surface of the lean muscle shall be firm and possess a smooth velvety appearance. It shall be well marbled and the marbling shall be relatively extensive, especially in the heavier carcasses. The color shall be uniform and bright and may range from a pale red to a deep blood red. The bones are usually soft and red, terminating in soft pearly white cartilages but some ossification of the cartilages and hardening in the bone as indicated by a tinge of whiteness will not disqualify beef produced from mature cattle from this grade.

Only beef produced from beef-type steers and heifers that show a relatively high degree of perfection in breeding

and feeding will qualify for the Choice grade. Beef produced from cows is not eligible for this grade.

(b) *Good.* Good grade beef carcasses and wholesale cuts shall be moderately blocky and compact and shall be moderately thick-fleshed throughout. A tendency for the loins and ribs to be slightly flat and for the rounds to be slightly flat and to taper toward the shank is permitted. Chucks and neck may be only moderately short and thick and shanks may be only moderately short. The fat covering shall extend well over the exterior surface but may show a moderate degree of waste or patchiness, particularly in heavy mature beef. The interior fat shall be fairly plentiful in the pelvic cavity and around the kidney. There is usually a slight protrusion of fat between the chine bones. The "overflow" of fat over the inside of the ribs may be apparent to a slight extent. A limited amount of intermingling of fat with the lean between the ribs, called feathering, shall be in evidence. Both the interior and the exterior fat are usually fairly firm and brittle. The quantity of fat required of beef within this grade will vary within relatively wide limits dependent upon the age and class of cattle from which it is produced. That produced from lightweight steers and heifers which were slaughtered when relatively young may have a relatively thin exterior fat covering and only a moderate quantity of interior fat, whereas that produced from heavier, older cattle may possess a relatively thick exterior fat covering and fairly heavy interior fat deposits in the pelvic cavity, over the kidney, and on the inside of the forequarters. The fat is usually creamy white but it may possess a distinctly yellowish tinge. The cut surface of the lean muscle may be only moderately firm and smooth and velvety in appearance. Beef within this grade will show a relatively wide range of marbling. That produced from young cattle may show only a limited degree of marbling which is apparent only in the thicker cuts whereas that produced from the older, more mature cattle shall show rather extensive marbling throughout. The color is usually uniform and bright but may be slightly two-toned or slightly shady. It usually ranges from a light red to a slightly dark red. The bone will range from soft and red in lightweight beef produced from young cattle to a relatively hard bone that is tinged with white in the beef produced from older, more mature cattle. It is, however, necessary that the chine bones show cartilages, termed "buttons", in order to qualify for this grade.

Beef produced from steers, heifers, and relatively young well-finished beef-type cows may qualify for the Good grade.

(c) *Commercial.* Commercial grade beef carcasses and wholesale cuts may be somewhat rangy, angular, and irregular in conformation and the fleshing may be slightly thin throughout. Loins and ribs tend to be flat and somewhat thinly fleshed. The rounds are relatively long, flat, and tapering. Chucks are usually

slightly flat and thinly fleshed. The neck is somewhat long and thin and the shanks somewhat long and tapering. The quantity of fat required of beef within this grade will vary within wide limits dependent upon the age and class of cattle from which it is produced. That produced from relatively young lightweight steers and heifers that were slaughtered when relatively young may have a thin exterior fat covering that does not extend over the round or chucks and a relatively small quantity of interior fat. In such beef there will be practically no protrusion of fat between the chine bones and there will be no "overflow" of fat on the inside of the ribs and no feathering between the ribs. Beef produced from heavier, older cattle, and particularly from mature animals, will possess a moderately thick exterior fat covering that may be uneven and waxy, and fairly heavy interior fat deposits in the pelvic cavity, over the kidney, and on the inside of the forequarters. The fat may be slightly yellow, somewhat soft, and slightly oily. The cut surface of the lean muscle may be somewhat soft and watery in beef produced from younger cattle, but in that produced from older cattle it is usually firm but is also usually coarse. Beef within this grade produced from yearling cattle will have little if any marbling whereas that produced from mature cattle, and particularly cows, will show a moderate degree of marbling through the thicker cuts. The color may be two-toned or shady and usually ranges from a light red to a dark red. The character of the bone will vary from fairly soft and red in the beef produced from the young cattle to white and hard in that produced from mature cattle.

Beef produced from steers, heifers, and cows may qualify for the Commercial grade.

(d) *Utility.* Utility grade beef carcasses and wholesale cuts may be decidedly rangy, angular, and irregular in conformation. The fleshing is usually thin. The loins and ribs are flat and thinly fleshed. The rounds are long, flat, and tapering. The chucks are flat and thinly fleshed. The neck and shanks are long and tapering. The hip and shoulder joints are prominent. The degree of fat covering varies from very thin in beef produced from young steers and heifers to a slightly thick covering that may be somewhat uneven in beef produced from cattle that are more or less advanced in age. The quantity of interior fat varies from very little in beef that is produced from young and immature steers and heifers to a moderate quantity in that produced from mature cattle. The fat is usually soft and varies in color from a grayish white to decidedly yellow. The cut surface of the lean muscle is usually soft and watery in the beef produced from younger cattle but in that produced from more mature cattle it is usually fairly firm but coarse. The beef in this grade will show practically no marbling except in that produced from aged cattle which may show a little marbling in the thicker cuts. The color may be two-toned or shady and usually ranges from a light

red to a very dark red. The bone is usually hard and white.

The utility grade of beef may be produced from steers, heifers, or cows.

(e) *Cutter and canner.* Cutter grade beef carcasses and wholesale cuts may be very rangy, angular, and irregular in conformation and very thinly fleshed throughout. The loins and ribs are very flat, thin, and shallow. The rounds are very long, flat, and tapering. The chucks are very flat, thin, and shallow. The neck and shanks are very long and tapering. The hip and shoulder joints are very prominent. The degree of exterior fat covering may vary from a very thin covering that is confined almost entirely to the ribs and loins in the beef produced from younger cattle to a thin, more extensive covering in the beef produced from mature cattle. The interior fat is confined largely to the pelvic cavity and the kidney and may vary from a very small quantity, if any, in these parts in beef produced from younger cattle to a limited quantity in that produced from mature cattle. The color of both the interior and the exterior fat may vary from grayish white to a, deep yellow. The cut surface of the lean muscle shows no marbling, is coarse, and is usually soft and watery. The color may be two-toned or shady and usually ranges from a slightly dark red to a very dark red. The bone is usually hard and white.

The cutter grade of beef may be produced from steers, heifers, and cows. That produced from cows constitutes a relatively large percentage of the beef eligible for this grade.

Canner grade beef carcasses and wholesale cuts shall be extremely rangy, angular, and irregular in conformation and extremely thinly fleshed throughout. All cuts are extremely thinly fleshed. Loins and ribs are extremely thin, flat, and shallow. The rounds are very long, flat and tapering, and the chucks are extremely thin, flat, and shallow. The neck and shanks are extremely long and the hips and shoulder joints are extremely tapering. Beef of this grade is practically devoid of both interior and exterior fat. The outside surface usually has a very dark appearance. The cut surface of the lean muscle is usually coarse and is soft and watery in appearance. It shows no marbling. The color may be two-toned or shady and usually ranges from a moderately dark red to an extremely dark red or brownish black. The bones are nearly always hard and white.

A very large percentage of the beef of the canner grade is produced from mature cows that are somewhat advanced in age.

§ 1364.65 *Appendix B: Specifications for grades of veal carcasses—(a) Choice.* A choice grade veal carcass is markedly superior in conformation, finish, and quality.

In general shape or outline it is blocky and compact. It is broad and deep in proportion to its length. All parts are thickly fleshed, each part having its proper proportionate thickness. Because of the thickness of fleshing the

carcass presents a plump, full, well-rounded, appearance. The different parts are developed and balanced in such a way as to result in a high proportion of back, loin, and round combined.

The shanks are short and thick. Rounds are thick and bulging. Loin and back are full and plump. Shoulders and breasts are broad thick. The neck is short and thick.

There is a thin covering of fat over the rump, loin, back, and top of the shoulders, and over the inner walls of the chest and abdomen. There are moderately large deposits of fat in the breast, flanks, and crotch, and around the kidneys. All exterior fat is smooth. The color of fat is a creamy white tinged with pink.

The flesh ranges from light gray to pinkish brown in color. It is firm, fine-grained and, in a cut surface, is velvety to sight and touch. All bones are small in proportion to the size and weight of the carcass and are soft and red.

(b) *Good.* A good grade veal carcass possesses a moderately high degree of conformation, finish, and quality.

In general shape or outline it tends to be blocky and compact. It is moderately broad and deep in proportion to its length. All parts are moderately thick-fleshed, each part having its proper proportionate thickness. Because of the thickness of fleshing, the carcass presents a moderately plump, full, well-rounded appearance. The different parts are developed and balanced in such a way as to result in a moderately high proportion of back, loin, and round combined.

The shanks are moderately short and thick. Rounds are moderately thick and bulging. Loin and back are moderately full and plump. Shoulders and breast are moderately broad and thick. The neck is moderately short and thick.

There is a very thin covering of fat over the loin and back and over the inner walls of the chest and abdomen. There are slightly small deposits of fat in the breast, flanks, and crotch, and around the kidneys. All exterior fat is moderately smooth. The color of fat is usually a creamy white. The flesh ranges from a pinkish brown to a light tan in color, is moderately firm, fine-grained and, in a cut surface, is moderately velvety but may be slightly moist to sight and touch. All bones are moderately small in proportion to the size and weight of the carcass and are moderately soft and red.

(c) *Commercial.* A commercial grade veal carcass is slightly deficient in conformation, finish, and quality.

In general shape or outline it is slightly rough and rangy. It is slightly narrow and shallow in proportion to its length. All parts are slightly deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents a slightly empty, sunken, or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in a slightly low proportion of back, loin, and round combined.

The shanks are slightly long and thin. Rounds are slightly thin and tapering. Loins and back are slightly depressed. Shoulders and breast are slightly narrow and thin. The neck is slightly long and thin.

There are extremely thin patches of fat over the back and loin and over a portion of the inner walls of the chest, and abdomen. There are very small deposits of fat in the breast, flanks, and crotch, and around the kidneys, the latter usually being incompletely covered. The color of fat is white but it lacks the pinkish tinge.

The flesh is usually pinkish brown in color, is slightly soft, is coarse-grained and, in a cut surface, is slightly moist to the touch. All bones are slightly large in proportion to the size and weight of the carcass, are moderately soft but are slightly lacking in redness.

(d) *Utility.* A utility grade veal carcass is very deficient in conformation, finish, and quality.

In general shape or outline it is very rough and rangy. It is very narrow and shallow in proportion to its length. All parts are very deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents a very depressed or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in a very low proportion of back, loin, and round combined.

The shanks are very long and thin. Rounds are very thin and tapering. Loin and back are very shallow and depressed. Shoulders and breast are very narrow and thin. The neck is very long and thin.

There is no fat covering over the back, loin, or inner walls of the chest and abdomen. Usually there are extremely small deposits of fat in the breast, flanks, and crotch, and around the kidneys. The color of the fat usually is grayish white tinged with yellow.

The flesh ranges from pinkish brown to dark tan in color, is soft, very coarse-grained and, in a cut surface, is very moist to the touch. All bones are large in proportion to the size and weight of the carcass, are moderately soft but are lacking in redness.

(e) *Cull.* A cull grade veal carcass is extremely deficient in conformation, finish, and quality.

In general shape or outline it is extremely rough and rangy. It is extremely narrow and shallow in proportion to its length. All parts are extremely deficient in fleshing, each part being proportionately lacking in this respect. Because of the relative thinness of fleshing the carcass presents an extremely shallow, depressed, or hollowed-out appearance. The different parts are developed and balanced in such a way as to result in an extremely low proportion of back, loin, and round combined.

The shanks are extremely long and thin. Rounds are extremely thin and tapering. Loin and back are extremely depressed. Shoulders and breast are extremely narrow and thin. The neck is extremely long and thin.

There is no fat covering over any part of the exterior of the carcass and none on the inner walls of the chest and abdomen. There are no discernible fat deposits in the breast, flanks, or crotch, and only extremely small quantities around the kidneys.

The flesh usually is reddish brown in color, is very soft, coarse-grained and watery. All bones are very large in proportion to the size and weight of the carcass and are decidedly lacking in softness and redness.

§ 1364.66 *Appendix C: Formula for meat marking fluid.* The following formula has been approved by the United States Department of Agriculture, Bureau of Animal Industry, Meat Inspection Laboratory, to be used for marking meats under the provisions of meat inspection law:

Water.....	gallons..	45
Pure grain alcohol, 95 percent.....	gallons..	38
Granulated cane sugar.....	pounds..	100
Methyl violet.....	pounds..	10

The methyl violet is dissolved in the alcohol and a portion of the water; the sugar is dissolved in the remaining portion of the water and added to the methyl violet solution. Thorough stirring facilitates solution of the methyl violet.

It is not necessary that the above-mentioned formula be adhered to in every detail, but the proportions indicated should not be subjected to any considerable variation; otherwise the marking qualities of the fluid may be impaired. Instead of the pure grain alcohol specified in the formula there may be employed pure grain alcohol, denatured according to formula 33 of the United States Bureau of Internal Revenue. When such denatured alcohol is used, it should be employed in the proportion indicated above. No additional methyl violet should be added. Instead of granulated cane sugar, pure granulated glucose may be used in the same proportion, or heavy corn sirup, if of suitable purity, may be used, provided due allowance is made for the water introduced in that way. All the ingredients used in preparing the marking fluid must be free from poisonous and harmful substances.

Issued this 19th day of June 1942.

PART 1499—COMMODITIES AND SERVICES
[Supplementary Regulation 12 to General
Maximum Price Regulation]

**SALES AND DELIVERIES OF IMPORTED
COMMODITIES**

A statement of the considerations involved in the issuance of Supplementary Regulation No. 12 has been issued simultaneously herewith, and has been filed with the Division of the Federal Register. For the reasons set forth in that statement, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and pursuant to the General Maximum Price Regulation, Supplementary Regulation No. 12 is hereby issued.

§ 1499.48 *Sales and deliveries of imported commodities.* (a) Any person who imports a commodity after March 31, 1942, may sell or deliver such commodity to an industrial or commercial user, and any industrial or commercial user may buy or receive from such person any such commodity, at a price higher than the maximum price established by the General Maximum Price Regulation: *Provided*, That, (1) such commodity is sold in substantially the same form in which it was originally received by the seller, (2) no industrial or commercial user shall be obligated to buy or receive any imported commodity under a contract or other firm commitment made prior to June 20, 1942, at a price higher than the maximum price which could have been charged except for this Supplementary Regulation No. 12, and (3) if the seller delivered the same commodity during March 1942, such increase in price shall not exceed the difference between his delivered cost of such commodity and his delivered cost for the same imported commodity delivered by him during March 1942. If the seller did not deliver the same commodity during March, the price charged by him shall be subject to revision or adjustment by the Price Administrator if, in the opinion of the Price Administrator, such price exceeded the maximum price which could have been charged except for the provisions of this paragraph plus a fair allowance for increases in the cost of importation over those importation costs which prevailed during March 1942.

(b) No petition or application for amendment, adjustment, exception or other relief will be entertained by the Price Administrator to the extent that such petition or application is based, directly or indirectly, on the purchase or receipt of an imported commodity at the higher price permitted by paragraph (a).

(c) Within 10 days after the first delivery made pursuant to a sale at the higher price permitted by paragraph (a), the seller shall forward to the [Chief, Import Price Control Office], Office of Price Administration, Washington, D. C., a statement showing the following:

(1) The name and address of the buyer.

(2) A description of each imported commodity sold at such higher price, and the price and terms of sale.

(3) The price at which the seller of such commodity purchased it, the terms of his purchase, and the charges for transportation, insurance and duties incurred by the seller in connection with the purchase.

(4) The delivered cost to him of the same imported commodity, if any, delivered by him during March 1942.

(5) The date on which such commodity was imported by the seller.

(6) The price to which the seller would have been limited under General Maximum Price Regulation in selling to the buyer, except for paragraph (a).

(d) Any person who on or after June 20, 1942, agrees to sell an imported commodity at the higher price permitted by paragraph (a), or who shall deliver at such higher price pursuant to an agreement made before June 20, 1942, shall prior to the time of such agreement notify the buyer that such higher price is being charged pursuant to paragraph (a) and shall inform the buyer of the provisions of paragraph (b).

(e) This Supplementary Regulation No. 12 shall not apply to lumber imported from Canada.

(f) Lower prices than those permitted under paragraph (a) may be charged, demanded, paid, or offered.

(g) For the purposes of Supplementary Regulation No. 12:

(1) A commodity shall be deemed to have been imported only if such commodity was brought into the continental United States from outside thereof, whether or not such commodity was imported for entry into a warehouse. The removal of a commodity from a warehouse, whether or not such removal is out of bond, is not the importation of the commodity.

(2) The term "industrial or commercial user" shall not include any person who resells the commodity purchased by him in substantially the same form as he received it.

(3) Unless the context otherwise requires, the definitions set forth in § 1499.20 of the General Maximum Price Regulation shall apply to the terms used herein.

(h) Supplementary Regulation No. 12 (§ 1499.48) to the General Maximum Price Regulation shall become effective June 20, 1942.

(Pub. Law 421, 77th Cong.)

Issued this 19th day of June 1942.

PART 1337—RAYON

[Maximum Price Regulation 163]

CONVERTED RAYON YARN AND CONVERTING CHARGES

In the judgment of the Price Administrator, the prices of converted rayon yarn and charges for the converting of rayon yarn have risen in a manner inconsistent with the purposes of the Emergency Price Control Act of 1942. The Price Administrator has ascertained and given due consideration to the prices of rayon converted yarn and the charges for converting rayon yarn prevailing between October 1 to 15, 1941, and has made adjustments for such relevant factors as he has determined to be of general applicability. So far as practicable the Price Administrator has advised and consulted with representative members of the industry which will be affected by this Regulation.

In the judgment of the Price Administrator, the maximum prices established by this Regulation are and will be generally fair and equitable and will effectuate the purposes of the Act.

A statement of the considerations involved in the issuance of this Maximum Price Regulation No. 168 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942 and in accordance with Procedural Regulation No. 1,¹ issued by the Office of Price Administration, Maximum Price Regulation No. 168 is hereby issued.

APPLICABLE: §§ 1337.51 to 1337.62, inclusive, issued under Pub. Law 421, 77th Cong.

§ 1337.51 *Maximum prices for converted rayon yarn and converters' charges.* On and after June 27, 1942, regardless of any contract, agreement, lease, or other obligation, no person shall sell or deliver converted rayon yarn or make any charges for the conversion of rayon yarn and no person shall buy or receive converted rayon yarn from such seller, or pay or agree to pay for charges for the converting of rayon yarn in the course of trade or business, at prices higher than the maximum prices set forth in Appendix A hereof, incorporated herein as § 1337.62 and no person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1337.52 *Sales for export.* The maximum prices at which a person may sell or deliver converted rayon yarn for export shall be determined in accordance with the provisions of Maximum Export Price Regulations,² issued by the Office of Price Administration on April 25, 1942.

§ 1337.53 *Less than maximum prices.* Lower prices than the maximum prices

¹ 7 F.R. 971, 3663.

² 7 F.R. 3098, 3924, 4234.

established herein may be charged, demanded, paid or offered.

§ 1337.54 Conditional agreements. No seller of converted rayon yarn nor any converter of rayon yarn shall enter into an agreement permitting the adjustment of the prices to prices which may be higher than the maximum prices provided herein, in the event that this Maximum Price Regulation No. 168 is amended or is determined by a court to be invalid, or upon any other contingency: *Provided*, That if a petition for amendment (or for adjustment or for exception) has been duly filed and such petition requires extensive consideration, and the Administrator determines that an exception would be in the public interest pending such consideration, the Administrator may grant an exception from the provisions of this section permitting the making of contracts adjustable upon the granting of the petition for amendment (or for adjustment or exception, as the case may be). Requests for such an exception may be made in the aforesaid petition for amendment (or for adjustment or for exception).

§ 1337.55 Evasion. The price limitations set forth in this Maximum Price Regulation No. 168 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of or relating to converted rayon yarn or charges for the converting of rayon yarn, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying agreement or other trade understanding, or otherwise.

§ 1337.56 Records and reports—(a) Converted yarn. Every person making a sale or purchase of converted rayon yarn in the course of trade or business, or otherwise dealing therein, after June 26, 1942, whether or not of the type of converted yarn enumerated in Appendix A (§ 1337.62), shall keep for inspection by the Office of Price Administration for a period of not less than two years complete and accurate records of each such purchase or sale showing the date thereof, the name and address of the buyer and the seller, the type of yarn, its denier and filament, the type of conversion performed in the detail set forth in Appendix A (§ 1337.62) herein, and the price paid or received.

(b) *Converting charges.* Every person converting rayon yarn and every person for whom such yarn is converted in the course of trade or business after June 26, 1942, shall keep for inspection by the Office of Price Administration for a period of not less than two years complete and accurate records of the form of converting performed in the detail set forth in Appendix A (§ 1337.62) herein, together with the prices charged or received therefor.

(c) *Reports.* Such persons shall submit such reports to the Office of Price Administration as it may from time to time require.

§ 1337.57 Enforcement. (a) Persons violating any provision of this Maximum Price Regulation No. 168 are subject to the criminal penalties, civil enforcement actions and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 168 or any price schedule, regulation or order issued by the Office of Price Administration or of any acts or practices which constitute such a violation are urged to communicate with the nearest field or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1337.58 Petitions for amendment. Persons seeking any modification of this Maximum Price Regulation No. 168 or an adjustment or exception not provided for therein may file petitions for amendment in accordance with the provisions of Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1337.59 Applicability of the General Maximum Price Regulation. This Maximum Price Regulation No. 168 shall apply and the General Maximum Price Regulation shall not apply to sales of rayon converted yarns and charges for the conversion of rayon yarn for which maximum prices are established by this regulation.

(iii) If during March 1942 no sales or deliveries of the same or similar new bags were made by such person, the highest markup in cents per bag taken by the most closely competitive seller of the same class on a sale or delivery to a purchaser of the same general class during March 1942 of new bags of the same type, size and quality; or

§ 301.1i *Uniform bareboat charter terms and conditions for cargo and tank vessels.*

Form No: 103
Warshipdemise
5/29/42

UNIFORM BAREBOAT CHARTER TERMS AND CONDITIONS FOR CARGO AND TANK VESSELS

(PART II)

1. The Vessel shall be delivered to the Charterer in the port of delivery at such safe place as the Charterer may designate. Unless otherwise noted on the delivery receipt or survey report, and subject to the provisions of this Clause 1, the Charterer shall accept the Vessel "as is", in whatever condition she may be at the time of delivery thereof, without any agreement, representation or warranty, expressed or implied, by the Owner as to its physical condition, equipment, seaworthiness, or fitness for any purposes whatsoever, except only that the Owner shall be responsible to make or pay for such repairs and renewals as may be required to remedy latent defects of hull or machinery. The Vessel, unless lost, shall be redelivered by the Charterer to the Owner after she has been restored by the Charterer to the same or equivalent condition as that in which accepted, ordinary wear and tear excepted.

If, at the time of delivery hereunder, the Vessel has outstanding classification requirements or has sustained unrepaired damage of an insurable nature, the cost of repairing such unrepaired damage or of satisfying the outstanding classification requirements shall be for the Owner's account and, if the Charterer is not reimbursed for such cost by the Owner, such cost shall be deducted by the Charterer from the charter hire due hereunder and, in either event, during the time required for such repairs, the Vessel shall be off-hire.

2. The Charterer shall be at liberty to install any equipment and make alterations

and additions to quarters and equipment incident to the service in which the Vessel is to be used, and to install any additional gear or equipment for loading or discharging cargo beyond that on board at the beginning of this Charter. Such work shall be done at the Charterer's expense and on its time, and shall not be such as to affect the seaworthiness of the Vessel. Such equipment, materials, and gear so fitted are to be considered Charterer's property; and, unless otherwise agreed, the Charterer shall remove the same at its expense before redelivery, and shall restore the Vessel to her condition prior to such changes (ordinary wear and tear excepted).

3. Structural changes may be made in the Vessel, her boilers, machinery or appurtenances without the prior written consent of the Owner. However, if any such structural changes are made, or if any changes are made in her boilers, machinery, appurtenances or spare parts, the Vessel upon redelivery may, or, if the Owner so requests, shall be restored to her original condition, ordinary wear and tear excepted.

4. The Charterer shall (except as otherwise expressly provided herein) pay hire for the use of the Vessel at the rate provided in Part I per calendar month and pro rata for any portion thereof, beginning with the time of her delivery, and continuing until the time of her redelivery in like good order and condition as at the time of her acceptance, ordinary wear and tear excepted, to the Owner at the port of redelivery, unless the parties hereto otherwise agree, or if the Vessel be lost, until the time of her loss, if known; otherwise to the time last heard from; or in the case of a constructive total loss, as provided in Clause 17 hereof, to the time of the casualty resulting in such constructive total loss, except that where two or more successive casualties contribute to such loss, the time of the casualty last occurring shall be the time when hire ceases. Such hire shall be due and payable on the first day of each calendar month for the preceding month or portion thereof.

5. If, pursuant to any applicable laws of the United States or any agreements entered into pursuant thereto, the Owner is required because of the operation of the Vessel as required under this Charter to make any payment to the United States by way of reimbursement of construction differential subsidy or payment of additional interest, then the Charterer shall pay to the Owner any amount so paid, in addition to the hire payable under this Charter.

6. The Charterer shall, at its own expense, maintain the Vessel, so far as possible, in at least as good condition, working order and repair as said Vessel was in at the time of her acceptance by the Charterer hereunder, ordinary wear and tear excepted. The Charterer shall drydock the Vessel and clean and paint her underwater parts every eight months, subject to postponement if such postponement is necessary in the prosecution of the war.

7. The Vessel shall be drydocked and surveyed jointly by representatives of the Charterer and the Owner before acceptance at the expense of the Charterer. Should the Charterer elect to waive drydocking before acceptance, any damage to the Vessel's bottom found on redelivery shall be presumed in the absence of proof to the contrary to have occurred subsequent to the date of delivery, and all expenses in repairing such damages shall be for the account of the Charterer.

8. The Vessel shall be surveyed jointly by representatives of the Charterer and the Owner on redelivery, to determine its condition. Such survey shall include drydocking to determine the condition of the underwater

parts which shall be at the expense of the Owner, unless drydocking for cleaning and painting bottom is past due, or unless underwater damage is found or unless there is evidence that since the last drydocking the Vessel has been involved in a grounding and underwater contact, or a collision, in any of which events it shall be at the expense of the Charterer. If on the redelivery survey it shall appear that the Vessel is not in as good condition as on acceptance, ordinary wear and tear excepted, then the Charterer before redelivery shall make at its own expense all repairs, renewals, and replacements necessary to put the Vessel in at least as good condition as on acceptance, ordinary wear and tear excepted. In lieu of making such repairs, the Charterer (at its option) shall pay the Owner an amount to place the Vessel in such condition, which payment shall include: (a) an amount (payable month by month) equal to the hire herein fixed for use of the Vessel for the period of time necessary, the utmost diligence and despatch being used, for such repairing; and (b) any such further amount necessarily expended or to be expended by the Owner for insurance, wages and subsistence of master, officers and crew and other vessel expenses incurred during the period of time necessary, such diligence and despatch being used, for repairing the damage. "Ordinary wear and tear" as used in this Charter shall be deemed to mean only such ordinary wear and tear as the Vessel would be subject to in normal commercial trading.

9. The Charterer shall accept and pay for all unbroached consumable stores, fuel oil and fresh water on board at the time of delivery, in good order and condition and not in excess of the Vessel's normal requirements, and the Owner shall accept and pay for all unbroached consumable stores, fuel oil and fresh water (usable by the Owner) on board on redelivery in good order and condition and not in excess of the Vessel's normal requirements at the current market prices at the ports of delivery and of redelivery, respectively, on the respective dates of the delivery and redelivery thereof. "Consumable stores" within the meaning of this paragraph are all consumable and subsistence stores (but not radio supplies, expendable equipment, scrap and junk) listed in United States Maritime Commission Voyage Stores Reports, Forms 7915A, 7916A, 7918A and 7919A (Revised Forms 1939).

10. A complete inventory of the Vessel's entire outfit, equipment, furniture, furnishings, appliances, spare and replacement parts and of all consumable stores, fuel oil and fresh water on board as of the time of the Vessel's delivery shall be jointly taken by representatives of the Charterer and the Owner, and mutually agreed upon by them as to items and as to price with respect to all consumable stores, fuel and fresh water (but if it is impracticable to make such inventory, then the Charterer will accept the Owner's inventory or reasonable estimates as to items and as to reasonable prices where pricing is required) at the time of delivery, or as soon thereafter as may be possible, and a similar inventory shall be so jointly taken and mutually agreed upon immediately after redelivery.

11. The Charterer shall have the use of all outfit, equipment, furniture, furnishings, appliances, spare and replacement parts on board the Vessel from the time of delivery without extra cost (with the exception of the leased equipment), and the same or their substantial equivalent shall be returned to the Owner on redelivery in the same good order and condition as when received, ordinary wear and tear excepted, any such items lost, destroyed, damaged, or so worn in service as to be unfit for use to be replaced or

made good by the Charterer in kind or value at redelivery. The Charterer shall also have the benefit of all apparatus and appliances and spare repair replacement parts on shore, at prices to be mutually agreed upon, and the Owner shall furnish the Charterer forthwith a list of such parts and equipment.

12. The Owner may, and upon demand of the Charterer shall, prior to the first departure of the Vessel from its port of delivery, and thereafter at any reasonable time, remove such equipment on board as is not required for the intended employment of the Vessel.

13. The Charterer shall assume the obligations of the Owner under any contracts in connection with leased equipment on board and all expenses connected therewith after delivery, either by direct payment to the lessor thereof or by reimbursing the Owner for the rental and any other expenses under the Owner's contracts for such equipment during the period of this Charter, at the Owner's option, except that the Charterer, at the beginning of the charter period may substitute any other form of agreement as to such services mutually satisfactory to the Charterer and these contractors.

14. During the period hereof, the Charterer shall at its own expense, or by its own procurement, man, victual, navigate, operate, supply, fuel, and repair the Vessel and pay all charges and expenses of every kind and nature whatsoever incident thereto. The Charterer and not the Owner shall have exclusive possession, control and command of said vessel during the entire period of this Charter.

15. (a) From the time of delivery of the Vessel under this Charter, the Owner shall not be required to carry any insurance whatsoever, but (unless the Charterer shall otherwise request and the Owner shall accede thereto) the Owner shall, as promptly as may be practicable, effect the cancellation of existing policies of insurance, and the pro rata premium payable with respect to the period between the time of delivery under this Charter and the effective time of such cancellation, shall be payable by the Charterer if the Charterer's interests are covered by such insurance. Except with respect to risks covered by policies of insurance which have not been cancelled as aforesaid, the Charterer shall, effective with the time of delivery of the Vessel under this Charter, assume or insure war, marine and all other risks or liabilities of whatsoever nature or kind, including without limitation, all risks or liabilities for breach of statute or contract or for damage to property including cargo and other vessels, or for personal injuries or death of any persons whatsoever, and shall indemnify and save harmless the Owner and the Vessel against and from any and all loss, liability, damage, and expense (including costs of court and reasonable attorneys' fees) on account of such risks or liabilities arising out of any matter occurring during the currency of this Charter.

(b) Subject to the foregoing provisions of this Clause with respect to the continuance of existing insurance, the Charterer will provide insurance with respect to that portion of the value of the Vessel which relates to the interest of the United States of America as mortgages to the extent that the risks assumed by the Charterer hereunder are of such a nature that they can be insured under customary forms of marine insurance policy. If the Charterer shall incur the Vessel, in its own Insurance Fund, the Charterer shall not, either as Charterer or insurer, have any right of subrogation against the Owner on account of loss or damage to the Vessel or its machinery or appurtenances, or on account of payments made to discharge claims against or liabilities of the Vessel or the

Owner covered by insurance underwritten by the Charterer. Such insurance shall not in any way limit, diminish or prejudice the Charterer's obligation to the Owner under this Charter.

16. In the event of total loss of the Vessel, the Charterer shall pay the Owner the Agreed Total Loss Valuation stated in Part I of this Charter, together with interest thereon to the date of payment at the rate of 3½ per cent per annum beginning one hundred twenty days from the date of the Vessel's loss, if known, otherwise beginning one hundred twenty days from the date she was last heard from. If such Agreed Total Loss Valuation is not applicable to this Charter, then the Charterer shall pay just compensation to be determined in accordance with Section 902 of the Merchant Marine Act, 1936, as amended, for any loss or damage due to the operation of a risk assumed by the Charterer under the terms of this Charter to the extent the person entitled thereto is not reimbursed therefor through policies of insurance against such loss or damage.

17. In case of serious damage or injury to the Vessel during the period of this Charter, to the extent that the Charterer shall consider her to be a constructive total loss, the Charterer shall have the option of declaring her a constructive total loss by so notifying the Owner in writing. In the event of such a declaration by the Charterer, the Charterer shall forthwith pay the Owner as though the Vessel were an actual total loss. Against such payment the Owner will give the Charterer such releases and instruments granting the Vessel or the property of her remaining as the Charterer may require.

18. The Owner shall forever indemnify, hold harmless and defend the Charterer against any liens, claims, demands, or liabilities of whatsoever nature by whomsoever asserted (including costs and reasonable attorneys' fees paid or incurred in defending such lien, claim or demand, whether or not it shall be found to be valid) upon the Vessel at the time of her delivery hereunder, or arising out of the use or operation of the Vessel prior to her delivery hereunder. The Charterer shall forever indemnify, hold harmless and defend the Owner against any liens of whatsoever nature by whomsoever asserted and against any claim of lien (including costs and reasonable attorneys' fees paid or incurred in defending any such claim, whether or not the claim be found to be valid whenever and by whomsoever asserted, upon the Vessel at the time of its redelivery hereunder. The Charterer shall also indemnify, hold harmless and defend the Owner and the Vessel against any claims, demands, or liabilities against them or either of them (including costs and reasonable attorneys' fees in defending such claim or demand, whether or not the claim or demand be found to be valid) arising out of the use or operation of the Vessel by the Charterer or any subcharterer, or out of any act or neglect of the Charterer or any subcharterer in relation to the Vessel, or out of any obligation or liability incurred by the Charterer or any subcharterer. The Charterer in its use and operation of the Vessel, shall abide by, and comply with, all applicable laws and governmental rules and regulations and the terms of any governmental preferred mortgage on said Vessel and shall not use or operate the Vessel, or permit use or operation of the Vessel except in full compliance with all such laws, rules and regulations, and shall indemnify the Vessel and the Owner against any loss, claim liability, damage or expense on account of any such violation of law, rule, or regulation.

19. The Charterer shall at all times have the right to subcharter the Vessel as it may

see fit without prejudice to this Charter, but the Charterer shall always remain responsible for the due fulfillment of this Charter in all its terms and conditions.

20. No member of or delegate to the Congress, nor Resident Commissioner, shall be admitted to any share or part of this Agreement, or to any benefit that may arise therefrom, except as provided in Section 116 of the Act approved March 4, 1909 (35 Stat. 1109).

21. This Charter consists of this Part II and of Part I which incorporates this Part II therein by reference. In the event of conflict between the provisions of this Part II and those of Part I, the provisions of Part I shall govern to the extent of such conflict.

This proceeding having been instituted by the Bituminous Coal Division pursuant to sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937 by District Board 4 alleging that Dundee Coal Company, a code member in District 4, willfully violated the Bituminous Coal Code or rules and regulations thereunder by selling for shipment by truck during the period from November 1, 1940 to March 31, 1941 approximately 12,310 tons of 2" nut and slack coal and approximately 620 tons of ¾" slack coal produced at code member's Dundee Mine (Mine Index No. 1725) located in Tuscarawas County, Ohio, and delivering the same by truck at prices lower than the effective f. o. b. mine prices for such coal plus the actual cost of transporting the coal;

A hearing having been held before W. A. Cuff, a duly designated examiner of the Division at a hearing room thereof in Canton, Ohio, on October 3, 1941, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross examine witnesses

and otherwise be heard, and at which code member appeared;

The Examiner having filed his report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations in this matter on March 21, 1942 in which he found that code member had willfully violated sections 4 II (e) and 4 II (g) of the Act and the Code by selling and delivering during the period from November 1, 1940 to March 31, 1941, 11,411.99 net tons of 2" nut and slack coal and 621.23 net tons of ¾" slack coal to several named purchasers, at prices which were below the minima established therefor in the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipment, plus the actual cost of transporting said coals to the respective points of delivery; the Examiner having concluded that for such violations of the Code and price schedule the code membership of Dundee Coal Company should be revoked and cancelled and that as a condition to reinstatement to membership in the Code, code member be required to pay a tax to the United States as provided in section 5 (c) of the Act of \$8,892.38;

Code member having filed exceptions to the report of the Examiner and having requested oral argument thereon;

The undersigned having considered the matter and having rendered a Memorandum Opinion which is filed herewith;

Now, therefore, it is ordered, That the request for oral argument herein be denied.

It is further ordered, That the exceptions of code member to the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner be severally overruled except, however, that the statement of the Examiner set forth in the margin be eliminated,¹ and as so modified, the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, are approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That the code membership of Dundee Coal Company be, and the same hereby is, revoked and cancelled, effective fifteen (15) days from the date of this order.

[Docket No. 1648-FD]

RIDER COAL COMPANY, DEFENDANT

MEMORANDUM OPINION CONCERNING EXCEPTIONS TO EXAMINER'S REPORT AND CEASE AND DESIST ORDER

This proceeding was instituted upon a complaint filed with the Bituminous Coal Division ("Division") on March 27, 1941, pursuant to the provisions of sections 4 II (j) and 5 (b) of the Bituminous Coal Act of 1937, by District Board 2, the complainant, alleging that Rider Coal Company, a code member in District 2, the defendant, had wilfully violated the provisions of the Bituminous Coal Code or rules and regulations thereunder and prays that the Division either cancel and revoke the defendant's code membership or in its discretion direct the defendant to cease and desist from violations of the Code and the rules and regulations thereunder.

Pursuant to Orders of the Director and after due notice to interested persons, a hearing in this matter was held before Charles O. Fowler, a duly designated Examiner of the Division, at Uniontown, Pennsylvania, on June 17, 1941, at which appearances were entered for the complainant and the defendant. The parties did not waive the preparation and filing of a report by the Examiner, and the matter was thereupon submitted to the Examiner, who, on November 8, 1941, submitted his Report, Proposed Findings of Fact, Conclusions of Law, and Recommendations ("Examiner's Report") in which it was recommended that there be entered an Order revoking and cancelling the defendant's code membership and directing that, prior to any reinstatement of the defendant to membership in the Code, there should be paid to the United States a tax in the amount of \$1,350.12, as provided in section 5 (c) of the Act. No exceptions to this report were filed. The Acting Director, on December 31, 1941, entered an Order Approving and Adopting the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner, and Revoking and Cancelling the defendant's code membership. On January 19, 1942, a motion for reconsideration was denied.

Pursuant to a "Supplemental Petition" filed by the defendant on January 26, 1942, in which it was alleged that defendant had "additional and new evidence" pertaining to the violation, an Order was entered by the Acting Director suspending (without prejudice to the right of reinstatement) the Order of Revocation and reopening the hearing for the purpose of taking additional evidence concerning the violations of the defendant or relative to the penalties attendant thereon, and to show why the Order of the Acting Director of December 31, 1941, revoking the defendant's code membership, should be modified. Accordingly, upon due notice, the reopened hearing was held before Charles O. Fowler, Examiner of the Division, at Uniontown and Pittsburgh, Pennsylvania, on February 9, and 10, 1942, respectively. All persons were given an

opportunity to be present, adduce evidence, cross-examine witnesses and otherwise be heard. Appearances were entered by the complainant, District Board 2, and the defendant.

The Examiner, in his Report dated April 10, 1942, found that Simon W. Rider, a code member in District No. 2, operating the Rider No. 2 Mine (Mine Index No. 1720), in Washington County, Pennsylvania, wilfully violated the Bituminous Coal Code and the rules and regulations thereunder by selling and delivering by truck, during the period December 1940 and January 1941, run of mine coal produced at the Rider No. 2 Mine, to the Federal Foundry Supply Company, at Charleroi, Pennsylvania, at an f. o. b. mine price of \$2.10 per net ton, plus 15 cents per ton for delivery, when the effective minimum price f. o. b. the mine established for such coal was \$2.45 per ton, to which was required to be added the actual cost of transportation from the mine to said point of delivery. The violation was accomplished by trucking mine run coal to the purchaser's Charleroi plant where it was crushed to 2" x 0 slack in the purchaser's crusher without charge to the defendant.

The Examiner was of the opinion that the evidence at the reopened hearing served to confirm his Proposed Findings of Fact and Proposed Conclusions of Law, contained in his Report dated November 8, 1941, that the defendant had wilfully violated the Act and rules and regulations thereunder in connection with the sale of 1,413 tons of mine run coal to the Federal Foundry Supply Company at a price of \$2.10 per ton. Accordingly, the Examiner, in his Report dated April 10, 1942, recommended that the defendant's code membership should be revoked and cancelled and that the Acting Director's Order dated December 31, 1941, revoking the defendant's code membership, should be reinstated, and his Order of January 28, 1942, suspending that Order, should be terminated.

On April 28, 1942, the defendant filed exceptions to the Examiner's Report, Proposed Findings of Fact, Conclusions and Recommendations dated April 10, 1942. On June 12, 1942, defendant filed a brief in support of the exceptions.¹

The exceptions taken pertain only to the conclusions reached by the Examiner that the defendant wilfully violated section 4 II (e) of the Act. No objections have been entered with regard to the factual findings. It is the defendant's contention that the "Findings of Fact" found by the Examiner did not justify nor support a conclusion that the sales to the Federal Foundry Supply Company were consummated in a spirit of wilfulness, but, on the contrary, plainly indicate that the sales were wholly unknown and unintentional departures from the Bituminous Coal Code. In support of his position, the defendant quotes excerpts from the Examiner's Report as follows:

¹Defendant also requested oral argument but I do not believe that oral argument is necessary and the request is therefore denied.

(1) "During this period the defendant contacted one Bowie, a member of District Board 2, and Abe Fortas, then General Counsel for the Division, and asked whether it would be permissible to crush his mine run coal down to 2" x 0 slack and sell it at \$2.10 per ton plus 15 cents per ton transportation charges. He was advised that this would be permissible." (p. 3, par. 2)

The defendant further contends that the facts show that neither Mr. Bowie nor Abe Fortas definitely informed the defendant the importance attached to the location of the crusher and for this reason the alleged violation inadvertently was brought about.

(2) "On February 10, 1941, the defendant voluntarily contacted G. E. Johnston, Jr., Compliance Agent of the Division's Pittsburgh Field Office, concerning delinquent statistical reports. During the course of this discussion, the defendant mentioned his practice of using the Foundry Company's crusher. Johnson, after consultation with the Manager of the Pittsburgh Office, advised the defendant that this practice constituted a violation of the Code and that it should be discontinued. The defendant thereupon informed the Foundry Company that he would be unable to continue furnishing coal under the existing agreement, and again resorted to crushing the coal overcharging shots and the use of sledges. Since about March 16, 1941, the Foundry Company has been paying the defendant the established minimum price for run of mine coal of \$2.45 f. o. b. mine plus 10 cents for hauling to the Foundry Company's plant." (Italics supplied by defendant.) (p. 4, par. 2)

The defendant further contends that the Examiner did not give sufficient weight to the recommendation by the District Board that the circumstances of the case merited the issuance of a cease and desist order. Also, that due and proper consideration was not given to the statement of the District Board that the "defendant's practice did not result in his getting a competitive advantage over other producers."

After a reconsideration of the evidence, the Proposed Findings of Fact, Proposed Conclusions of Law and Recommendations of the Examiner, and the exceptions thereto, I find that substantial evidence supports the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner. However, I feel the circumstances in this case are not of such a nature as to warrant a revocation of Rider's code membership, and for this reason I find that a cease and desist order should be entered.

I find that the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner herein should, as modified above, be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and the Proposed Conclusions of Law of the Examiner, as modified, be and they hereby are approved and adopted as the Find-

ings of Fact and Conclusions of Law of the undersigned.

It is further ordered, That Simon W. Rider (Rider Coal Company), a code member, his agents, employees, attorneys, and successors or assigns, be and they hereby are directed to cease and desist from violating section 4 II (e) of the Act by selling coal at prices below the applicable minimum price therefor or from otherwise violating the Act, the Code, the Marketing Rules and Regulations and the Schedule of Effective Minimum Prices for District No. 2 for Truck Shipments.

It is further ordered, That in the event defendant shall neglect or fail to comply with this Order, the Division may apply to the appropriate federal court for the enforcement thereof or take other appropriate action.

Dated: June 19, 1942.

DEPARTMENT OF AGRICULTURE.

Agricultural Marketing Administration.

TOLEDO, OHIO, MARKETING AREA

DETERMINATION WITH RESPECT TO THE ISSUANCE OF THE ORDER, AS AMENDED,¹ REGULATING THE HANDLING OF MILK

Pursuant to the powers conferred upon the Secretary of Agriculture of the United States by the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 1940 ed. 601 et seq.), there was issued on September 16, 1941, effective September 21, 1941, Order No. 30, as amended,¹ regulating the handling of milk in the Toledo, Ohio, marketing area.

A marketing agreement, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area was tentatively approved on August 6, 1941.

There being reason to believe that the issuance of an amendment to said tentatively approved marketing agreement, as amended, and to said order, as amended, would tend to effectuate the declared policy of the act, notice was given of a hearing which was held in Toledo, Ohio, on March 30, 1942, on proposals to amend the tentatively approved marketing agreement, as amended, and the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area, at which time and place all interested parties were afforded an opportunity to be heard upon such proposals.

After such hearing, and after the tentative approval, on June 6, 1942, of a marketing agreement, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area, handlers of more than 50 percent of the volume of milk covered by said order, as amended, which is marketed within the Toledo, Ohio, marketing area, refused or failed to sign such tentatively approved marketing agreement, as amended, relating to milk.

Pursuant to the powers conferred upon the Secretary of Agriculture by the above-mentioned act, it is hereby determined:

(1) That the refusal or failure of said handlers to sign such tentatively approved marketing agreement, as amended, tends to prevent the effectuation of the declared policy of the act;

(2) That the issuance of said Order No. 30, as amended, is the only practical means, pursuant to such policy, of advancing the interests of the producers of milk which is produced for sale in said area; and

(3) That the issuance of said Order No. 30, as amended, is approved or favored by over two-thirds of the producers who participated in a referendum conducted by the Secretary, and who, during the month of March 1942, said month having been determined to be a repre-

sentative period, were engaged in the production of milk for sale in said area.

Issued at Washington, D. C., on this 17th day of June 1942. Witness my hand and the Seal of the United States Department of Agriculture.

[SEAL] CLAUDE R. WICKARD,
Secretary of Agriculture.

Approved: June 18, 1942.

Applying the regulations issued by the Administrator of the Wage and Hour Division concerning the employment of handicapped workers either by commercial establishments or as handicapped clients in sheltered workshops (Title 29, Chapter V, Code of Federal Regulations, Parts 524 and 525, issued pursuant to section 14 of the Fair Labor Standards Act of 1938), to employees engaged in work on any Government contract awarded subject to a present or future prevailing minimum wage determination issued under section 1 (b) of the Walsh-Healey Public Contracts Act and,

2. Giving effect to any certificate issued by the Administrator of the Wage and Hour Division pursuant to such regulations, as authorization for the employment of handicapped workers under the Walsh-Healey Public Contracts Act in accordance with the terms of such certificate.

And providing that the Administrator of the Wage and Hour Division may issue certificates under the Walsh-Healey Public Contracts Act for handicapped workers not subject to the Fair Labor Standards Act or subject to different minimum rates of pay under both Acts, pursuant to authority vested in him by

order of the Secretary to issue certificates in such cases at appropriate rates of compensation and in accordance with the procedure prescribed by the Wage and Hour Division regulations.

All objections or protests should be addressed to the Administrator, Division of Public Contracts, U. S. Department of Labor, Washington, D. C. An original and four copies must be filed.

MASSACHUSETTS MUTUAL LIFE INSURANCE
COMPANY

SUPPLEMENTAL ORDER EXTENDING EXEMPTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 17th day of June, A. D. 1942.

In the matter of Massachusetts Mutual Life Insurance Company.

The Commission having heretofore on the 26th day of December 1941 granted the Massachusetts Mutual Life Insurance Company an extension of its exemption as a holding company from the provisions of the Public Utility Holding Company Act of 1935 until the 27th day of June 1942 with respect to its ownership of 10 per centum or more of the voting securities of Indiana Gas & Chemical Corporation, an exempt holding company; and

Said Massachusetts Mutual Life Insurance Company having now requested an extension of said exemption for an indefinite period and having represented that it intends to dispose of its holdings of the voting securities of Indiana Gas & Chemical Corporation whenever it can secure therefor a cash price equal to or in excess of the figure at which said holdings are currently valued by the Insurance Commissioner of Massachusetts or will report to this Commission any change in its intentions regarding the disposition of said holdings; and having agreed to file with this Commission periodic reports setting forth all offers received for said holdings and its reasons for the rejection of such offers; and

The Commission having considered such request and the accompanying representations and agreements and finding with respect thereto that the circumstances under which the order of exemption was originally issued still exist and that an extension of the exemption for an indefinite period subject to the conditions hereinafter specified will not be detrimental to the public interest or the interest of investors or consumers;

(3) Said company shall file an annual report with this Commission beginning one year from the date of this order setting forth all offers received for said securities during the period covered by such report and its reasons for rejecting such offers;

**THE LACLEDE GAS LIGHT CO. AND OGDEN
CORP.**

**NOTICE OF FILING OF AMENDMENT AND ORDER
RECONVENING HEARING**

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of June 1942.

Notice is hereby given that an amendment to a declaration or application has been filed with the Commission under the Public Utility Holding Company Act of 1935 by Ogden Corporation ("Ogden"), a registered holding company. All interested parties are referred to said document, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized as follows:

By order dated March 6, 1942, this Commission, after a public hearing, granted an application filed by The Laclede Gas Light Company ("Laclede"), a subsidiary of Ogden, for exemption from the provisions of section 6 (a) of the Act regarding offers proposed to be made by it to the holders of its outstanding and unpledged Refunding and Extension Mortgage 5% Gold Bonds, in the principal amount of \$10,000,000, to extend such bonds to April 1, 1945. The Commission also granted, subject to certain conditions, an application of Ogden regarding the acquisition by it of such portion of those bonds of Laclede not extended by other holders thereof. Jurisdiction was reserved by the Commission in said order with respect to (1) its proposal to borrow not in excess of \$2,250,000 for the purpose of purchasing the said bonds, and (2) its proposal to resell such bonds as might be acquired by it.

The aforementioned amendment filed by Ogden seeks approval of the Commission to sales by Ogden to an insurance company of the said bonds acquired and to be acquired by it, in the principal amount of not more than \$2,500,000, and at the price of 99% of the principal

amount of such bonds plus accrued interest from April 1, 1942, to the respective dates of sale and delivery of such bonds so sold. Ogden states that in the event the said sales are approved by the Commission, it will in all probability not be necessary for Ogden to borrow any of the said \$2,250,000. The amendment also requests an exemption from Rule U-50 of the Rules and Regulations promulgated under the Act, with respect to the said sales of bonds.

It appearing to the Commission that it is appropriate in the public interest and the interest of investors and consumers that the hearing be reconvened in order that all interested parties may be heard with respect to the matters contained in said amendment;

It is ordered, That a hearing on such matters under the applicable provisions of said Act and Rules of the Commission thereunder be held on June 29, 1942, at 10:00 A. M. E. W. T., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held. Notice is hereby given of said hearing to Ogden Corporation, The Laclede Gas Light Company, and to all interested persons, said notice to be given to said declarant or applicant by registered mail, and to all other interested persons by publication in the FEDERAL REGISTER.

It is further ordered, That William W. Swift or any other officer, or officers of the Commission designated by it for that purpose shall preside at the hearings in such matter. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said Act and to a trial examiner under the Commission's Rules of Practice.

By the Commission.

THE UNITED TELEPHONE CO. OF PENNSYLVANIA AND UNITED UTILITIES, INC.

**NOTICE REGARDING FILING AND ORDER
DIRECTING CONSOLIDATION**

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 19th day of June, A. D. 1942.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by United Utilities, Incorporated, a registered holding company, and its subsidiary company, The United Telephone Company of Pennsylvania.

Notice is further given that any interested person may, not later than July 2, 1942 at 5:30 p. m., E. W. T., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature

of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declarations or applications, as filed or as amended, may become effective or may be granted, as provided in Rule U-23 of the Rules and Regulations promulgated pursuant to said Act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, Philadelphia, Pennsylvania.

All interested persons are referred to said declarations or applications, which are on file in the office of said Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

The United Telephone Company of Pennsylvania proposes to issue and sell \$146,000 principal amount of First Mortgage Bonds, Series A, 3½%, due September 1, 1965, at 103 to the John Hancock Mutual Life Insurance Company of Boston, Massachusetts, and 1,500 shares of Common Capital Stock at \$50 per share, the par value thereof, to United Utilities, Incorporated (which now owns 75% of its outstanding common stock). United Utilities, Incorporated proposes in turn to buy the aforesaid Common Capital Stock at \$50 per share.

The United Telephone Company of Pennsylvania further proposes to use the proceeds derived from the sale of said bonds and common stock (a) to retire its total note indebtedness in the principal amount of \$160,000, (b) to reduce by \$50,000 its open account indebtedness owed the parent company, and (c) to increase its working capital with the balance of the proceeds.

The United Telephone Company of Pennsylvania states in its declaration or application that the proposed transaction will result in replacing a short term financing arrangement with a long-term one and in an addition to working capital which the company needs to carry on its business in view of the depletion of the working capital for additions and betterments. It is further stated that the estimated expenses will be \$3,073.10, that there will be no commissions or underwriting spreads with respect to the issue and sale of the aforementioned bonds and stocks, and that the Bell Telephone Company of Pennsylvania, the only other holder of The United Telephone Company of Pennsylvania Common Capital Stock, has waived its right to purchase a pro rata share of the proposed issue of additional common stock.

United Utilities, Incorporated states in its application or declaration that it will receive a fair return on the common stock investment and that the proposed purchase is necessary to finance properly its subsidiary.

It appearing to the Commission that the proceedings with respect to the above-specified applications or declarations involve common questions of fact and law and are closely related;

It is ordered, That the proceedings on the applications or declarations (or

both) of The United Telephone Company of Pennsylvania and United Utilities, Incorporated, hereinabove described, be and hereby are consolidated.

By the Commission.

CONSOLIDATED ELECTRIC AND GAS COMPANY,
ET AL.

NOTICE OF AND ORDER RECONVENING HEARING,
INSTITUTING PROCEEDINGS, SETTING DATE
FOR HEARING, AND CONSOLIDATING PRO-
CEEDINGS FOR PURPOSES OF HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 15th day of June 1942.

In the matters of Consolidated Electric and Gas Company, applicant, File No. 54-40; Central Public Utility Corporation and Consolidated Electric and Gas Company, respondents, File No. 59-40; Christopher H. Coughlin, W. T. Crawford, and Rawleigh Warner, voting trustees under voting trust agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, applicants, File No. 54-53; and Christopher H. Coughlin, W. T. Crawford, and Rawleigh Warner, voting trustees under voting trust agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, respondents, File No. 59-49.

I

1. The Commission having issued on December 27, 1941 a notice of and order for hearing on the plan of Consolidated Electric and Gas Company filed under the provisions of section 11 (e) of the Public Utility Holding Company Act of 1935, which plan provides:

(a) Consolidated Electric and Gas Company will reclassify its outstanding Preferred Stock into such number of shares of new Common Stock as shall be convenient for distribution to the holders of the presently outstanding Preferred Stock.

(b) Consolidated Electric and Gas Company will proceed to cancel and retire all of its presently outstanding Class A Stock and Common Stock without any consideration to the holders of such Class A and Common Stock.

(c) The capitalization of Consolidated Electric and Gas Company will then consist of presently outstanding long-term debt and one class of capital stock, the new Common Stock distributed to the holders of the presently outstanding Preferred Stock.

(d) Consolidated Electric and Gas Company will pursue a program of liquidation and actively endeavor to sell or exchange the securities or assets of its subsidiaries at fair prices and, to the extent required, apply the proceeds received therefrom to the retirement of its debt securities and, upon the extinguish-

ment of such debt securities, to distribute the remaining assets to the holders of the new Common Stock.

2. The Commission having issued on December 27, 1941 a Notice of and Order instituting proceedings with respect to Central Public Utility Corporation and its subsidiary company, Consolidated Electric and Gas Company, under sections 11 (b) (1) and 11 (b) (2) of said Act and setting a date for hearing with regard thereto, in which Notice and Order it was alleged by the Commission that there were reasonable grounds to believe that:

(a) The Preferred Stock of Central Public Utility Corporation has 18% and its Common Stock has 82% of the total voting power of Central Public Utility Corporation.

(b) Central Public Utility Corporation's assets are insufficient to satisfy the claims of its Twenty-Year 5½% Income Bonds.

(c) Voting power is unfairly and inequitably distributed among the security holders of Central Public Utility Corporation.

(d) The corporate structure and continued existence of Central Public Utility Corporation unduly and unnecessarily complicates the structure of the holding-company system, of which it is a part.

(e) The continued existence of the Voting Trustees holding the Common Stock of Central Public Utility Corporation unduly and unnecessarily complicates the structure of the holding-company system, of which they are a part.

(f) The Voting Trustees holding the Common Stock of Central Public Utility Corporation, and Central Public Utility Corporation have subsidiary companies which themselves have subsidiary companies which are holding companies, in contravention of provisions of section 11 (b) (2) of the Act.

(g) The Common Stock of Consolidated Electric and Gas Company has 85% and the Preferred Stock 15% of the total voting power of Consolidated Electric and Gas Company.

(h) After allowing for the claims of the holders of the issued and assumed bonds of Consolidated Electric and Gas Company, the Preferred Stock represents a claim upon all of Consolidated Electric and Gas Company's remaining assets.

(i) Voting power is unfairly and inequitably distributed among the security holders of Consolidated Electric and Gas Company.

(j) The corporate structure of Consolidated Electric and Gas Company is such as not to justify more than a single class of stock.

(k) The corporate structure of Consolidated Electric and Gas Company unduly and unnecessarily complicates the structure of the holding-company system, of which it is a part.

3. The Commission having issued on December 27, 1941, an order consolidating the proceedings mentioned in paragraphs 1 and 2 of section I hereof for the purposes of hearing and so that all evidence adduced in each proceeding

may stand as evidence in the other proceedings for all purposes;

4. The hearing with respect to the plan of Consolidated Electric and Gas Company under the provisions of section 11 (e) of said Act and with respect to the proceedings instituted with regard to Consolidated Electric and Gas Company and Central Public Utility Corporation under sections 11 (b) (1) and 11 (b) (2) of said Act having been duly convened on February 2, 1942 and having been continued on February 26, 1942 subject to the call of the Trial Examiner;

II

An application or declaration (or both) having been filed with this Commission pursuant to said Act, particularly sections 12 (d) and 11 (e) thereof and Rule U-44 promulgated thereunder, by Christopher H. Coughlin, W. T. Crawford, and Rawleigh Warner, Voting Trustees under Voting Trust Agreement, dated August 1, 1932, relating to the Common Stock of Central Public Utility Corporation, seeking authorization of the delivery of the Common Stock of Central Public Utility Corporation to the record holders of voting trust certificates or, if such authorization should be denied, for approval of a plan pursuant to section 11 (e) of said Act which provides that said Voting Trustees shall:

(1) Surrender for cancellation to Central Public Utility Corporation all of its outstanding Common Stock,

7. Said Voting Trust Agreement provides that said Voting Trustees shall not take any action to dissolve Central Public Utility Corporation without the consent of the holders of voting trust certificates representing not less than two-thirds the amount of outstanding Common Stock of Central Public Utility Corporation;

8. Central Public Utility Corporation has outstanding as of December 31, 1941, the following:
