PART 301—CONTROL OF EXPLOSIVES AND THEIR INGREDIENTS IN TIME OF WAR OR NATIONAL EMERGENCY

REVOCATION OF LICENSES

To the regulations heretofore promulgated² under authority of the Federal Explosives Act of December 26, 1941 (55 Stat. 863), there is added the following section:

¹ 7 F. R. 5114.

² 7 F. R. 305, 1103, 1976, 3876, 4758.

§ 301.22 Revocation of licenses—(a) Cause of revocation. The Director may revoke a license for disloyalty or hostility to the United States or for violation of any of the provisions of the act or of these regulations.

(b) Procedure for revocation. (1) When the Director has reason to believe, upon the basis of facts of which he has knowledge or reliable information, that a licensee is disloyal or hostile to the United States, he may summarily revoke all licenses issued to that licensee or he may, in his discretion, give the licensee the notice and opportunity to be heard provided in this section.

(2) Revocation of a license on the ground that its holder has violated any of the provisions of the act or of these regulations may be ordered by the Director only after he has given to the licensee written notice and an opportunity to be heard. The notice may be given to the licensee personally or by mail addressed to the licensee's last known business or residence address or to the address shown on the license to be revoked or the application for it. It shall specify the charges upon which it is proposed to revoke the license, notify the licensee that he may file with the Director, within 15 days of the date of the notice or such other time as the Director may specify, an answer admitting or denying each and every charge or justifying those acts charged which are not denied, and fix a time and place for hearing in the event that the licensee wishes to be heard.

(3) Unless, within the time fixed for filing his answer, the licensee files an answer which denies each and every charge or states justification for the acts charged which are not denied and demands a hearing, the Director may revoke the license forthwith. If, within the time fixed for filing his answer, the licensee files an answer denying each and every charge or stating justification for the acts charged which are not denied and demands a hearing, and if the Director is not satisfied with the answer, the hearing shall be held at the time and place fixed in the notice.

(4) The hearing may be held before the Director or such representative as he may appoint. The licensee may appear by or be represented by counsel. If the hearing is held before the Director, he shall state his findings and conclusions in writing and transmit a copy to the licensee or to his counsel. If it is held before a representative of the Director, he shall report his findings and recommendations to the Director in writing and shall transmit a copy of the report to the licensee or to his counsel. Within 15 days after the date of the report or such other time as the Director may specify, the licensee may file in writing with the Director his exceptions to the report. After the filing of these exceptions or the expiration of the time allowed for filing them, the Director shall take such action as is appropriate upon the record before him and notify the licensee or his counsel accordingly.

(c) Surrender of revoked license. Upon notice of the revocation of any license, the licensee shall immediately

surrender to the Director or to his authorized representative the license revoked and all copies thereof. (55 Stat. 863)

Director.

Subchapter B—Export Control

[Amendment No. XVI]

PART 804—INDIVIDUAL LICENSES

UNIT PROCESS PROCEDURE

Part 804—Individual licenses, is hereby amended by adding the following new section:

§ 804.11 Unit process procedure. (a) Several applications for licenses may be submitted to the Export Control Branch for processing as a unit when (1) all applications specify the same consignee, ultimate consignee and ultimate purchaser, and (2) all commodities covered by the applications are intended for use together, the lack of any one of which will render the others useless.

(b) When several applications are submitted for unit processing, the following requirements must be observed:

(1) All questions on each individual application must be answered in full.

(2) All individual applications must be firmly stapled to a legal binder or backing sheet with the words "Unit Process" typed on the top-edge flap thereof.

(3) A single reference number and a single acknowledgment card must be used for the group of applications.

(c) When several applications are submitted for unit processing, all applications will be approved, or all will be rejected. If all are approved, the same shipping priority rating, as provided for in Part 809 of this subchapter, will be given to each license in the group.

(d) The group of applications may include one or more applications for commodities which are exportable under general license, in order to insure the issuance of a uniform shipping priority rating for all related commodities.

(e) If a group of applications is rejected, the applicant may appeal from such rejection. In such case the applicant must file an appeal for the entire group of applications. The appeal shall be addressed to the Export Control Branch and shall include the following papers, securely fastened together:

(1) The group of rejected applications or photostatic copies thereof.

(2) A complete new set of applications, each application in triplicate, covering the identical items for which licenses were originally rejected.

(3) A single acknowledgment card.

(4) A letter in duplicate setting forth the reasons why the applicant believes

the group of applications should be reconsidered. Additional information which was not presented on the original applications and which the applicant feels would justify a reversal of the decision of the Export Control Branch must be submitted. The application of such a higher rating to a delivery of a machine tool to a service purchaser who has an urgency standing does not change in any way the date of delivery of the tool. The date of delivery will still be determined solely by the urgency standing and the required delivery date.

The application of such a higher rating to a delivery of a machine tool to a service purchaser who does not have an

urgency standing merely advances the delivery over those to other service purchasers who are members of the same group, and who likewise have no urgency standings; and it operates solely within the percentage quota assigned to that group. The higher rating does not affect any deliveries to service purchasers to whom urgency standings have been assigned. It likewise does not affect any deliveries scheduled to be made within the thirty or sixty-day frozen period provided by paragraph (1) of the order. (P.D. Reg. 1, as amended, 6 F.R. 6680; W.P.B. PART 1097—SHEARLINGS AND OTHER WOOL SKINS

[General Conservation Order M-94 As Amended July 30, 1942]

Section 1097.1 *General Conservation Order M-94*¹ is hereby amended to read as follows:

Whereas the uncertainty of future shipments of shearlings and the fulfillment of requirements for the defense of the United States have resulted in a shortage in the supply of shearlings for defense, for private account, and for export, and it is necessary in the public interest and to promote the defense of the United States, to conserve the supply and direct the distribution of shearlings, and to allocate the supply thereof in the manner hereinafter in this order provided.

Now, therefore, it is hereby ordered, That:

§ 1097.1 *General Conservation Order M-94*—(a) *Definitions*. For the purposes of this order:

(1) "Wool skin" shall mean the skin of a sheep or lamb bearing wool, domestic or foreign, a so-called California lamb-skin or other native lamb-skin, whether raw, semi-processed, or finished, of 46's grade or higher.

(2) "Shearlings" shall mean a wool skin having a wool growth of 2" or less, or originally of a wool length in excess of 2" which has been clipped after flaying by any person so as to leave a wool growth of 2" or less thereon.

(3) "Domestic shearling" shall mean any shearling produced in the Continental United States.

(4) "Mouton" shall mean a shearling which has been fur dressed, dyed and made water repellent, and is of the type normally used in the manufacture of women's fur coats.

(5) "Process" shall mean tanning, dressing, dyeing or finishing.

(6) "Person" shall mean any individual, partnership, association, trust, cor-

poration or any organized group of persons whether or not incorporated.

(7) "Tanner" shall mean any person engaged in tanning or otherwise processing shearlings or other wool skins, and shall include a fur dresser.

(8) "Contractor" shall mean any person engaged in causing shearlings or other wool skins to be tanned or otherwise processed by others for his account.

(9) "Producer" shall mean any person who takes off wool skins in the United States.

(10) "Grade No. 4 shearlings" shall mean domestic shearlings (bare to 1/2" and clipper-cut skins less than 1/4") defined as grade No. 4 in the Office of Price Administration Maximum Price Regulation No. 141,² § 1314.111 (a).

(b) *Restrictions on purchases and disposition*—(1) *Restrictions on purchases of shearlings*. Unless specifically authorized by the Director General for Operations, no tanner or contractor not engaged in processing shearlings to fill defense orders placed by the Army Air Forces shall purchase or make any contract or other arrangement for the purchase of any raw shearlings (other than grade No. 4 shearlings), and no tanner or contractor engaged in processing shearlings to fill such orders shall purchase any raw shearlings except to the extent necessary to obtain shearlings to be processed in filling orders then placed by the Army Air Forces.

(2) *Restrictions on disposition of wool skins*. Upon receiving from tanners or contractors a description of the nature and extent of their requirements of domestic wool skins with a wool growth in excess of 1" needed to fill Army Air Forces orders, producers of such skins shall offer to fill such requirements, without discriminating in price or terms of sales in favor of other customers: *Provided, however*, That no producer need offer to such tanners or contractors more than a total of 50% of his estimated production during any given calendar month: *And provided further*, That a producer who clips any such wool skins to a length less than 1" for sale to such tanners or contractors to enable them to fill orders placed by the Army Air Forces may include such skins in computing the above 50% quantity. It shall be prima facie proof of discrimination in price if the price to the aforesaid tanners or contractors is higher than the highest price of similar skins comprised in the remainder of the producer's monthly production when sold, or in the event of sales or deliveries by a producer to his own or a subsidiary or affiliated wool pullery, if the price less the estimated cost of salting is higher than the estimated value of the wool and pickled skin yield less the estimated cost of pulling and pickling.

(c) *Restriction on processing*. No person shall hereafter process or cause to be processed any shearling (other than grade No. 4 shearlings), except in the course of filling orders then placed by the Army Air Forces and to the extent necessary to obtain processed shearlings to fill such orders.

² 7 F.R. 3231, 3660, 4615.

³ 7 F.R. 4833.

¹ 7 F.R. 1024, 2102.

² 7 F.R. 322.

(d) *Restrictions on pulled wool.* No person shall hereafter pull or cause to be pulled any wool from any freshly flayed or salted domestic or any foreign sheep skin or lamb skin when the wool is of such a length and type as to constitute a wool growth of 1" or less and of 46's grade or higher, except skins black or mottled with black or so torn or damaged as to be unsuited to tanning purposes and grade No. 4 shearlings.

(e) *Prohibition against processing of No. 4 domestic shearlings by certain persons.* No person engaged in processing shearlings to fill defense orders placed by the Army Air Forces shall purchase or process any grade No. 4 shearlings, nor shall such shearlings be offered for sale to such person by any other person.

(f) *Restrictions on processed shearlings.* Any person owning or possessing processed or semi-processed shearlings not needed to fill his then existing defense orders shall not finish or cause to be finished such shearlings (other than any shearlings (1) of a natural black or mottled with black color, or (2) having a wool pile which will finish with less than a 1/4" wool pile, or (3) which were processed prior to December 12, 1941, and are held in stock in a color other than beige, cream, white or logwood) in any manner not acceptable under specifications respecting processed shearlings in any military or naval contract which is unfulfilled on the date of this order or in any future military contracts and may use such shearlings only for filling such contracts.

(g) *Release of moutons and imperfect shearlings.* (1) Any person not engaged in processing shearlings to fill orders placed by the Army Air Forces, having, owning or possessing:

(i) Moutons which had been processed on or before December 12, 1941, or

(ii) Processed shearlings which cannot be used to fill defense orders because of imperfections in the wool or leather of the same

may apply to have such moutons or processed shearlings, or both, released from the terms or provisions of this order by making written application to the Director General for Operations, manually signed on behalf of the person requesting such release by a person duly authorized to make such application, containing a statement of the reasons why such moutons or shearlings, or both, should be released and having at the end thereof the following statement:

The undersigned hereby represents to the Director General for Operations that the statements contained herein are true and correct with full knowledge that he may be prosecuted under section 35 (a) of the Criminal Code (18 U.S.C. 80) for any false representations contained herein.

(2) Any person engaged in processing shearlings to fill orders placed by the Army Air Forces shall submit his entire production and inventory of processed shearlings (other than those of the character specified in subparagraphs (1), (2) and (3) of paragraph (f) above) for inspection by an Army Air Forces inspector for the purpose of segregating the same into the following classes:

Class A—Shearlings suitable for flying suits, mechanics' suits, flying boots and flying helmets in accordance with Army Air Forces Specification 8-113-B, as amended, to be designated as No. 1 skins.

Class B—Shearlings possibly suitable for flying suits, mechanics' suits, flying boots and flying helmets in accordance with Army Air Forces Specification 8-113-B, as amended, to be designated as No. 2 and No. 3 skins.

Class C—Shearlings not suitable for flying suits, mechanics' suits, flying boots and flying helmets in accordance with Army Air Forces Specification 8-113-B, as amended, to be designated as No. 4 skins.

Shearlings of Classes A and B shall be reserved for filling Army Air Forces and other defense orders. Army Air Forces orders shall be accorded preference over other defense orders in respect of shearlings of Class A, and defense orders other than Army Air Forces orders shall be accorded preference over Army Air Forces orders in respect of shearlings of Class B.

Copies of each release certificate of said inspector covering any shearlings in Class C shall be furnished by the processor to the War Production Board, Ref.: M-94. Thereafter, shearlings covered by any such certificate may be sold to any person, subject to any priorities regulation then in force.

(h) *Reports.* (1) On or before the tenth day of each month every tanner and contractor shall file with the War Production Board a report of his operations for the preceding month on form PD-421, as revised.

(2) All persons affected by this order shall execute and file with the War Production Board such other reports and questionnaires as may be required by said Board from time to time.

(i) *Repeal of telegraphic order.* This order shall and hereby does repeal and revoke the telegraphic order sent by the Director of Priorities to shearing tanners on December 12, 1941.

(j) *Appeal.* Any person affected by this order, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of shearlings and moutons conserved, or that compliance with this order would disrupt or impair a program of conversion from nondefense to defense work, may appeal to the War Production Board by letter or telegram, or upon such forms as may hereafter be prescribed, Reference M-94, setting forth the pertinent facts and the reason he considers he is entitled to relief. The Director General for Operations may thereupon take such action as he deems appropriate.

(k) *Communications to the War Production Board.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Branch, Washington, D. C.—Ref.: M-94.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order,

wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priorities assistance. § 1134.5 *Supplementary Order M-111-d.* Pursuant to Order M-111, as amended May 1, 1942, which this order supplements:

(a) The Director General for Operations hereby determines that, except as provided for in paragraph (b) below, the quota of tea for any packer or any wholesale receiver under paragraphs (d) (1) or (d) (2), respectively, of Order M-111, as amended May 1, 1942, shall be, for the month of August 1942 and for each subsequent month until otherwise ordered, 50% of the average monthly net deliveries made by him (if he was a packer) or accepted by him (if he was a wholesale receiver) during the corresponding quarter of 1941.

(b) The areas listed in Column 1 of Schedule A attached, as it may be amended from time to time, are designated as increased-population areas. For the month of August 1942 and for each subsequent month until otherwise ordered, the quota assigned under paragraph (a) above to any packer or any wholesale receiver directly or indirectly serving any one or more of such areas is increased by a supplementary quota for each such area served, computed by (1) determining the amount of his quota under paragraph (a) above, (2) determining the portion of that amount allocable to deliveries to or for each such area, and (3) applying to that portion the percentage listed for that area in Column 2 of said Schedule A. Such supplementary quota shall be available only for ultimate distribution within such area. All similar quota increases previously authorized for increased-population areas by the Director General for Operations or by the Director of Industry Operations, through the granting of appeals or otherwise, shall cease to be effective after July 31, 1942, irrespective of whether or not such areas are included in the areas listed in Schedule A. Chapter XI—Office of Price Administration

PART 1388—DEFENSE-RENTAL AREAS

[Designation and Rent Declaration 23]

DESIGNATION OF 26 DEFENSE-RENTAL AREAS AND RENT DECLARATION RELATING TO SUCH AREAS

The Emergency Price Control Act of 1942 provides that whenever in the judgment of the Price Administrator such action is necessary or proper in order to effectuate the purposes of that Act, he shall issue a declaration setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for any defense-area housing accommodations within a particular defense-rental area; and that if within sixty days after the issuance of any such recommendations rents for any such accommodations within such defense-rental area have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of that Act; and

In the judgment of the Price Administrator, defense activities have resulted or threaten to result in increases in the rents for housing accommodations in the areas designated in § 1388.1321 inconsistent with the purposes of the Emergency Price Control Act of 1942; and

¹ The words "Defense-Rental Area" shall follow the name listed in the table in each case to constitute the full name of a defense-rental area. e. g., "Yuma Defense-Rental Area", "Bristol-Kingsport Defense-Rental Area."

§ 1388.1322 *Necessity.* The necessity for the stabilization or reduction of rents for defense-area housing accommodations in the defense-rental areas designated in § 1388.1321 is as follows:

The designated areas now are or will be the location of establishments of the armed forces of the United States or war production industries. An increase in employment has taken place in most of these areas and is about to take place in the other areas. Such increases in employment reflecting the expansion of war activities have resulted or threaten to result in increased demands for rental housing accommodations by persons residing in these areas.

In each of the designated areas defense activities have resulted or threaten to result in an increase in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942. As war activities continue to expand, the demand for housing accommodations will become more extensive, and further rent increases and threatened rent increases will materialize unless prevented. Accordingly, it is necessary that rents for such housing accommodations in each of the designated areas be reduced or stabilized.

§ 1388.1323 *Recommendations.* It is the judgment of the Price Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within any of the defense-rental areas designated in § 1388.1321 inconsistent with the purposes of the Act. Accordingly, the Price Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within each of the designated areas on or about March 1, 1942. The Price Administrator has considered, so far as practicable, relevant factors deemed by him to be of

general applicability, including fluctuations in property taxes and other costs. It is the judgment of the Price Administrator that the recommendations hereinafter set forth are generally fair and equitable and will effectuate the purposes of the Act.

Recommendations with reference to the stabilization or reduction of rents for housing accommodations within each of the designated defense-rental areas are as follows:

(a) The maximum rent for housing accommodations rented on March 1, 1942 should be the rent for such accommodations on that date. Appropriate provision consistent with such maximum rent date should be made for the maximum rent for housing accommodations not rented on March 1, 1942. In appropriate cases, including those relating to new construction or substantial changes of housing accommodations, provision consistent with the Emergency Price Control Act of 1942 should be made for the determination, adjustment, and modification of maximum rents of housing accommodations, but in principle such rents should not be greater than the rents generally prevailing for comparable accommodations in the particular area on March 1, 1942.

(b) Appropriate provision should be made with respect to the restraint of evictions and other actions relating to the recovery of possession.

(c) Appropriate provision should be made to prevent the circumvention or evasion of maximum rents by any method whatever.

§ 1388.1324 *Maximum rent regulation.* If within sixty days after the issuance of this designation and rent declaration, rents for housing accommodations within any defense-rental area designated in § 1388.1321 have not in the

judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the foregoing recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purpose of the Emergency Price Control Act of 1942.

§ 1388.1325 *Effective date.* This designation and rent declaration (§§ 1388.1321 to 1388.1325, inclusive) shall become effective July 29, 1942.

Issued this 29th day of July 1942.

LEON HENDERSON,
Administrator.

PART 1499—COMMODITIES AND SERVICES

[General Maximum Price Regulation—Amendment 3 to Supplementary Regulation 14²]

PANCAKE FLOUR

A statement of the considerations involved in the issuance of this Amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.* A new subparagraph (4) is added to paragraph (a) of § 1499.73 as set forth below:

§ 1499.73 *Modification of maximum prices established by § 1499.2 of General Maximum Price Regulation for certain commodities, services and transactions.*

(a) The maximum prices established by § 1499.2 of the General Maximum Price Regulation for the commodities, services and transactions listed below are modified as hereinafter provided:

(4) *Pancake flour and buckwheat pancake flour.* Maximum prices for wholesale and retail sellers of pancake flour and buckwheat pancake flour may be modified as indicated below. This modification shall apply only to pancake flour and buckwheat pancake flour packed and priced as follows:

	<i>Delivered cost to first direct buyer from manufacturer (per case or less)</i>
<i>Case and package size</i>	
Pancake flour:	
Case of 24-20 oz. packages.....	\$1.60
Case of 24-16 oz. packages.....	1.45
Buckwheat pancake flour:	
Case of 24-20 oz. packages.....	2.00
Case of 12-20 oz. packages.....	1.10

(i) *Sales at wholesale.* Any person selling such pancake flour or such buckwheat pancake flour at wholesale, shall have as his maximum price per case of such pancake flour or such buckwheat

pancake flour, the higher of (a) his maximum price per case determined according to the provisions of § 1499.2 of the General Maximum Price Regulation, or (b) the figure obtained by dividing his maximum price per case as determined in (a) above, by the delivered cost on which that price was based and multiplying the percentage so obtained by the replacement cost per case of the pancake flour or buckwheat pancake flour. Fractions shall be rounded to the next higher cent.

Any person selling at wholesale shall determine his maximum price for sales of less-than-case quantities by taking the proportionate share of his maximum price as determined above, and adding the charge he made during March 1942 for broken-case-lots.

Discounts, allowances and terms, whether based on quantity, class of purchaser or any other cause, shall be no less favorable than those given during March 1942.

(ii) *Sales at retail.* Any person selling such pancake flour or such buckwheat pancake flour at retail, shall have as his maximum price per package, the higher of (a) his maximum price determined according to the provisions of § 1499.2 of the General Maximum Price Regulation or (b) the figure obtained by dividing his maximum price as determined in (a) above, by the cost on which that price was based and multiplying the percentage so obtained by the replacement cost of the pancake flour or the buckwheat pancake flour. If the resulting figure contains a fraction the maximum price for a single package shall be the next higher cent. If the fraction is less than a half cent the maximum price for two packages shall be twice the next higher half cent. ¹ 7 F.R. 3672.

² 7 F.R. 5317.

§ 145.1 *Purpose.* The purpose of §§ 145.2 to 145.5, inclusive, is to outline procedure under which the State, private owners, a field representative of the General Land Office, and a field representative of the Grazing Service, in connection with proposed exchanges of lands in grazing districts may confer, in advance of the filing of formal applications, and if possible, reach a common understanding or agreement as to the feasibility of the exchange, the values of the offered and selected lands and the mineral and other features involved. The procedure while designed to expedite action on applications is not mandatory. It will not prevent the filing of formal applications, without informal proposals, if desired.

§ 145.2 *Procedure.* A proposal for an exchange must be prepared in duplicate. The original must be filed in the land office for the district in which the selected lands are situated and the duplicate with the proper regional grazier.

The register will forward the original proposal to the proper regional field examiner and advise the General Land Office of such action. The regional grazier, upon receipt of the duplicate proposal, will call a meeting of the interested parties for the purpose of discussing the questions presented. The time and place for the meeting should be acceptable to all persons concerned.

§ 145.3 *Memorandum for the record.* After the discussions have been concluded, the representative of the Grazing Service and the representative of the General Land Office will each prepare, in duplicate, a "Memorandum for the Record," stating briefly the facts as to the discussions, and the conclusions reached. The original of each memorandum will be forwarded to the Commissioner of the General Land Office and the duplicate to the Director of Grazing.

§ 145.4 *Results of discussions.* The conclusions reached as a result of the discussions will be advisory only and will not be binding upon the Commissioner of the General Land Office, the Director of Grazing, or the Secretary of the Interior.

§ 145.5 *Formal application.* After a proposal for an exchange has been considered, the State or the owner of the private land, if an exchange is desired, must file in the proper district land office a formal application for exchange, in accordance with the applicable regulations. The failure to reach an agreement on an informal proposal will not bar the applicant from submitting a formal application for appropriate action. The formal application, in all cases, should recite briefly the conclusions reached on the informal proposal. Action on the formal application will be taken in accordance with the applicable laws and regulations.

Acting Commissioner.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order No. 104]

TERRITORY OF HAWAII

WAIVER OF CERTAIN PROVISIONS REGARDING OPERATOR'S LICENSES

At a session of the Federal Communications Commission held in its offices in Washington, D. C., on the 28th day of July 1942,

The Commission having received information that, due to the shortage of licensed radio operators in the Territory of Hawaii, certain Hawaiian police departments are experiencing great difficulty in obtaining licensed operators to operate portable-mobile units of their radio communications systems; and

It appearing that action of this Commission permitting certain American nationals employed by such police departments to engage in limited radio operation in connection with their official duties would alleviate this condition; and
It further appearing that such action by this Commission would be in the public interest, necessity, and convenience;

Now, therefore, it is ordered, That, subject to the conditions hereinafter stated, the provisions contained in section 318 of the Communications Act of 1934, as amended, be, and they are hereby, waived, in so far as such provisions require that American nationals regularly employed by police departments in the Territory of Hawaii hold operator's licenses in order to operate mobile police radio transmitting apparatus in connection with their official duties; and

¹ 7 F.R. 4304.

It is further ordered, That, subject to the following conditions, such American nationals, be, and they are hereby, authorized to engage, without operator's licenses, in the operation of mobile police radio transmitting apparatus to the extent permitted to holders of restricted radiotelephone operator permits, until further order of the Commission:

(1) Such American nationals must be regular employees of a Hawaiian police department;

(2) Such American nationals must meet all requirements for a restricted radiotelephone operator permit, except that of United States citizenship, and must hold a certificate issued by the Federal Communications Commission showing that such requirements have been met. The procedure for obtaining such certificate shall be the same as for obtaining a restricted radiotelephone operator's permit;

(3) When an application is filed by an American national to engage in unlicensed operation in accordance with this order, there must be filed by the police department employing the applicant, a statement showing that:

(a) The applicant is a regular employee of such police department;

(b) Waiver of existing license requirements is requested by such police department so that the applicant may legally operate police radio units as a part of his official duties;

(c) A thorough investigation of applicant and his background has been made, and his loyalty to the United States appears to be unquestionable; and

(d) Such waiver is requested because the police department has been unable to obtain licensed personnel for its mobile radio units, and has been unable to fulfill those provisions of § 2.53 (a) (2)¹ of the Rules and Regulations of the Federal Communications Commission, which would permit the applicant to engage in unlicensed operation of police radio units without the necessity of this waiver.

(4) The applicant shall submit along with his application to engage in unlicensed radio operation in accordance with this order a statement by the Department Commander to the effect that he has no objection to the granting of the application;

(5) Such unlicensed operation by the aforementioned American nationals shall be limited to mobile radio police units forming a part of the equipment of a police department in the Territory of Hawaii, and shall be limited to operation required in the performance of the applicant's official duties.

(6) A certificate issued to an American national authorizing him to operate a mobile radio police unit shall automatically become void in the event his employment with the police department which sponsored his application terminates for any reason.

(7) It shall be the duty of the police department which sponsored the application of such American national to advise the Commission immediately in the event his employment with the police

department should be terminated for any reason and, upon such termination, it shall be the duty of the American national to return his certificate to the Commission.

By the Commission.

(c) *Interhandler sales.* Mills, skim milk, and cream delivered by a handler to another handler shall be Class I milk: *Provided,* That if a different classification is agreed upon in writing between the receiving handler and the selling handler then the milk, skim milk, and cream shall be classified according to such written agreement: *Provided,* That in no event the amount so reported in any class be greater than the amount used in that class by the receiving handler.

(d) *Computation of the volume of milk to be accounted for by the handler in each class.* For each delivery period, the market administrator shall compute for each handler the volume of milk that he is to account for in each class as follows:

(1) *Class I milk—*Multiply the weight of the various units disposed of by such handler which are classified as Class I milk by the number of units irrespective of butterfat test thereof, add thereto the pounds of Class I milk delivered to other handlers, and classified pursuant to paragraph (c) of this section, and add the pounds of milk specifically accounted for as actual plant shrinkage in excess of 2 percent of the total receipts of milk from producers.

(2) *Class II milk—*The total pounds of milk received from producers minus the pounds of milk accounted for in Class I.

SEC. 5. Minimum prices—(a) *Class prices.* Each handler shall pay not less than the following prices, at the time and in the manner set forth in section 8.

(1) *Class I milk—*\$_____ per hundredweight:

(2) *Class II milk—*An amount per hundredweight equal to the combined value of butterfat and skim milk computed as follows:

(i) *Butterfat—*Add all market quotations (using midpoint of any weekly range as one quotation) of prices for a 40-quart can of sweet cream approved for Pennsylvania only, and for Pennsylvania, Newark, and Lower Merion Township, in the Philadelphia, Pennsylvania, market, reported for each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract 28 cents, divide by 33.48, multiply by 4, and subtract 23½ cents.

(ii) *Skim milk—*Any plus amount which is equal to 7.5 times the average of all the hot roller process dry skim milk quotations for "other brands, animal

feed" and for "other brands, human consumption", carlots, bags, or barrels, in both cases (using midpoint of any range as one quotation) as published for such month in the "Producers Price Current", less 4.5 cents.

SEC. 6. Application of provisions. No provision hereof shall apply to a handler who is also a producer and who purchases or receives no milk from producers or an association of producers, except that such handler shall make reports to the market administrator at such time and in such manner as the market administrator may request.

SEC. 7. Determination of prices to producers—(a) *Net pool obligations.* The net pool obligations of each handler for milk received from producers during each month shall be a sum of money equal to the hundredweight of milk in each class, determined pursuant to section 4, for each handler, times the prices applicable thereto pursuant to section 5.

(b) *Computation of the uniform price.* The market administrator shall compute the composite price per hundredweight, f. o. b. handlers' bottling plants, for each delivery period as follows: add the values determined pursuant to paragraph (a) of this section for all handlers and divide by the total hundredweight of milk received from producers by such handlers.

(c) *Announcement of prices to be paid producers and of other market information.* The market administrator shall mail to all handlers and shall publicly announce, on or before the 9th day after the end of each delivery period, the composite price for milk containing 4 percent butterfat to be paid producers for milk received from them during such delivery period, as determined in accordance with paragraph (b) of this section.

SEC. 8. Payments to producers—(a) (1) *Semimonthly payments.* On or before the 20th day of each month each handler shall make a payment to producers for milk delivered during the first 15 days of such month at not less than the uniform price during the preceding month.

(2) *Final payment.* On or before the 12th day after the end of each month each handler shall make full payment, subject to paragraphs (b) and (f) of this section, to each producer for the total value of milk received from such producer during such month at not less than the uniform price per hundredweight computed pursuant to section 7, after taking credit for payment made pursuant to section 8 (a) (1).

(b) *Butterfat differential.* If any handler has purchased or received from any producer or association of producers during the delivery period milk having an average butterfat content other than 4 percent, such handler in making the payments pursuant to paragraph (a) of this section to such producer shall add to the uniform price for such producer or association of producers for each one-tenth of 1 percent of average butterfat content above 4 percent of average butterfat content and shall subtract from the uniform price for such producer or association of producers for each one-tenth of 1 percent of average butterfat content below 4 percent not more than 4 cents per hundredweight. The butter-

fat content of milk received shall be determined by taking the average of not less than 5 separate butterfat tests made from fresh samples during each delivery period. The market administrator may designate an independent laboratory to make these tests. If a laboratory is not designated by the market administrator, these tests may be conducted by an independent laboratory agreed upon by the handlers and the producers, in which case the expense of such butterfat testing shall be borne jointly and equally by each handler and each producer delivering to him, and the producers' share may be deducted from the amount paid them by handlers, provided the handler shall be responsible for any errors in these tests.

(c) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (d) and (g) of this section and out of which he shall make all payments to handlers pursuant to paragraphs (e) and (f) of this section.

(d) *Payments to the producer-settlement fund.* On or before the 12th day after the end of each delivery period, each handler shall pay to the market administrator, for payment to producers through the producer-settlement fund, the amount by which his net pool obligations computed pursuant to section 7 (a) exceed the sum obtained by multiplying the hundredweight of milk received from producers by the uniform price announced pursuant to section 7 (c).

(e) *Payments out of producer-settlement fund.* On or before the 12th day after the end of each delivery period, the market administrator shall pay to each handler, for payment to producers, the amount, if any, by which the sum obtained by multiplying the hundredweight of milk received from producers by the uniform price announced pursuant to section 7 (c) exceeds his net pool obligations pursuant to section 7 (a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who, on the 12th day after the end of each delivery period, has not received the balance of such reduced payment from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund. Nothing in this paragraph shall abrogate the right of a cooperative association to make payment to its member producers in accordance with the payment plan of such cooperative association.

(f) *Adjustment of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to the producer-settlement fund pursuant to paragraph (d) of this sec-

tion, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that the payment is due from the market administrator to any handler pursuant to paragraph (e) of this section, the market administrator shall, within 5 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer discloses payment to such producer of less than is required by this section, the handler shall make up such payment to the producer not later than the time of making payment to producers next following such disclosure.

Sec. 9. *Expense of administration—*(a) *Payments by handlers.* As his prorata share of the expense of the administration hereof, each handler, except those handlers exempted pursuant to section 6 shall pay to the market administrator on or before the 12th day after the end of each delivery period an amount equal to 4 cents per hundredweight with respect to all milk received by him from producers, or produced by him during such delivery period, or such lesser amount, the exact amount to be determined by the market administrator, subject to review by the Secretary. If the market administrator designates an independent agency to determine the butterfat content of milk received by handlers from producers as permitted under section 8 (c) each handler shall pay to the market administrator an amount equal to not more than 7½ cents per test, the exact amount to be determined by the market administrator: *Provided*, That one-half of any amount collected for such tests of any producer's milk may be deducted from the payments handlers are required to make the respective producers under section 8.

(b) *Marketing services.* If the market administrator designates an independent agency to determine the butterfat content of milk received by the handlers from producers as permitted under section 8 (c) each handler shall deduct from his payments to each producer an amount equal to not more than 7½ cents per test the exact amount to be determined by the market administrator and shall pay such deduction to the market administrator on or before the 15th day after the end of each delivery period. Such moneys shall be used by the market administrator to pay the independent laboratory for the verification of weight, sampling, and testing of milk received from producers.

(c) *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's prorata share of expense set forth in this section.

Sec. 10. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative

in connection with any of the provisions hereof.

Sec. 11. *Effective time, suspension, and termination—*(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to paragraph (b) of this section.

(b) *Suspension and termination.* Any or all provisions hereof, or any amendment hereto, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder the final accrual or ascertainment of which requires further acts by any handlers, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

The market administrator, or such other person as the Secretary may designate (1) shall continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant hereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

Sec. 12. *Liability—*(a) *Liability of handlers.* The liability of the handlers hereunder is several and not joint, and no handler shall be liable for the default of any other handler.

The following provisions are applicable to the marketing agreement only:

Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania.

All interested persons are referred to said applications or declarations, which are on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Nobo proposes to refund its presently outstanding \$13,000,000 of 3½% Secured Notes maturing October 1, 1947. This will be done by borrowing \$13,000,000 from certain banks as follows:

The First National Bank of Boston.....	\$6,000,000
The Chase National Bank of the City of New York.....	4,500,000
Chemical Bank & Trust Co.....	1,250,000
Guaranty Trust Co. of New York..	1,250,000

The proceeds thereof together with certain other available funds of Nobo will be used to pay off said 3½% Secured Notes on or before October 1, 1942, at their redemption price of 101½%.

Each of the loans from the above named banks will be evidenced by a single promissory note of Nobo bearing interest at the rate of 2½% per annum payable semi-annually and maturing October 1, 1947. All or any part of the principal of each of said notes may be paid at any time prior to maturity with a premium of 1%, except that no premium shall be payable if the payment is made in connection with, or as part of a general refinancing following a liquidation of Nobo or a simplification of the corporate structure of the holding company

system of which Nobo is a part, effected pursuant to an order of, or to a plan approved by order of the Securities and Exchange Commission under the Public Utility Holding Company Act of 1935.

Payment of principal and interest on said notes will be secured by Nobo's pledging with the custodian (The First National Bank of Boston) all of its holdings of the capital stock of the following subsidiary companies: Beverly Gas and Electric Company, Eastern Massachusetts Electric Company, Gloucester Electric Company, Haverhill Electric Company, Malden Electric Company, Mal-

den and Melrose Gas Light Company, Salem Electric Lighting Company, Salem Gas Light Company and Suburban Gas and Electric Company. In addition, Nobo will pledge with the custodian certain unsecured promissory notes to be issued to it by certain of its subsidiary companies as follows:

Beverly Gas & Electric.....	8700,000
Gloucester Electric Co.....	320,000
Haverhill Electric Co.....	1,083,375
Salem Gas Light Co.....	485,000
Suburban Gas & Electric Co....	785,000

Each of said notes will mature ten months after date of issue and will bear

interest at the rate of 3% per annum. They are to be issued to evidence the presently existing indebtedness of their respective issuers to Nobo, now represented by certain overdue 3% notes and open accounts payable.

It is estimated that the refunding will result in aggregate net savings to Nobo of approximately \$433,400.

By the Commission.

[SEAL] ORVAL L. DuBois,
Secretary.
