§ 238.1 *Definitions.* For the purpose of these instructions and the notes and notes and loan agreements or chattel mortgages relating thereto, the following terms shall be construed, respectively, to mean:

(a) *Grain.* Rye, barley, and grain sorghums.

(b) *Producer eligibility.* Any person, partnership, association, or corporation producing rye, barley, or grain sorghums, in 1943, upon whose farm no deductions from payments have been or will be made under the 1943 Agricultural Conservation Program for failure to meet 90 percent of the 1943 war crop goal.

(c) *Eligible grain*—(1) *Eligible rye* shall be rye produced in 1943 grading U. S. No. 2 or better, or grading U. S. No. 3 solely on the factor of test weight, or otherwise grading No. 2 or better, the beneficial interest to which is and always has been in the eligible producer. Rye grading tough, light smutty, smutty, light garlicky, garlicky, weevily, or rye containing in excess of 1 percent of ergot, shall not be eligible for loan. Rye containing in excess of 0.3 percent, but not in excess of 1 percent of ergot, shall be eligible for loan at the discounts set out in § 238.3 (a) hereof.

(2) *Eligible barley* shall be barley of any class grading No. 5 or better, the beneficial interest to which is and always has been in the eligible producer. Barley grading tough, stained, blighted, smutty, garlicky, weevily, ergotty, or bleached, shall not be eligible for a loan.

(1) Public grain warehouses which have met the requirements of Commodity Credit Corporation and have executed the Uniform Grain Storage Agreement.

(2) Farm storage shall consist of farm bins and granaries which are of such firm structure, as determined by the county agricultural conservation committee, as to afford safe storage for the grain for a period of 2 years, permit effective fumigation for the destruction of insects, and to afford protection against rodents, other animals, thieves, and weather.

(e) *Lending agency.* Any bank, cooperative marketing association, or other corporation, partnership, or person, making loans in accordance with these instructions, which has executed the Contract to Purchase on 1940 C. C. C. Form E.

(f) *Eligible paper.* Eligible paper shall consist of notes of the producer, secured by chattel mortgages or warehouse receipts representing grain in existence and undamaged, executed in accordance with these instructions and approved by a member of the county agricultural conservation committee, with State documentary revenue stamps affixed thereto where required by law. Notes executed by an administrator, executor, or trustee, will be acceptable only where acceptable in law.

§ 238.6 *Farm storage.* Grain stored on the farm must have been stored in the granary at least 30 days prior to its inspection for measurement, sampling and sealing. In accordance with regulations issued by the Secretary of Agriculture, the State and county agricultural conservation committees will inspect and approve storage facilities and will arrange for measuring, sampling, grading, and sealing of the collateral grain. Chattel mortgages covering the grain must be executed and filed in accordance with the applicable State law. Where the borrower is a tenant farmer and the collateral grain is stored on the farm, the expiration date of the lease must be shown in the chattel mortgage. If the expiration date of the lease is prior to June 30, 1944, in the case of rye and barley, or August 30, 1944, in the case of grain sorghums, the Consent for Storage section of the chattel mortgage must be executed by the owner of the premises and any other party that might be entitled to possession of the premises. Each producer must designate in the chattel mortgage a shipping point reasonably convenient for the delivery of the collateral grain as determined by the county committee. A separate note and chattel mortgage must be submitted for grain stored on each quarter section of land.

§ 238.7 *Public warehouses.* Commodity Credit Corporation will accept only insured negotiable warehouse receipts, covering eligible grain pledged as collateral to notes on C. C. C. Grain Form B, issued by any public grain warehouse which has executed the Uniform Grain Storage Agreement, as amended, and has been approved by the Commodity Credit Corporation. Warehousemen desiring approval are advised to communicate with the Regional Director of Commodity Credit Corporation serving the area in which the warehouse is located, at which office a list of approved warehouses and their locations is available. A list of approved warehouses for the area may also be obtained at any State or county agricultural conservation office. All grain pledged as security for a loan must be stored in the same warehouse. Grain moved by rail freight to a warehouse will not command a higher loan value than grain stored on farms or in warehouses located at country points.

§ 238.8 *Warehouse receipts.* Warehouse receipts must be issued in the name of the producer, must be dated on or prior to the date of the related note, must be properly assigned by an endorsement in blank so as to vest title in the holder, and must be issued by an approved warehouseman. Unless the warehouse receipts are stamped or printed "insured" there must be attached and included in the certificate of the

warehouseman a statement that the grain is insured for not less than the market value against the hazards of fire, lightning, inherent explosion, windstorm, cyclone, and tornado. Commodity Credit Corporation will not accept warehouse receipts indicating any lien for charges prior to unloading in or delivery to the warehouse issuing such receipts. Lien for handling and storage charges, unless prepaid through maturity, will be recognized only from June 1, 1943, or the date of the warehouse receipt, whichever is later. Such receipts must set out in their written or printed terms the gross weight or bushels, the grade, test weight, and all other factors and statements required to be stated in the written or printed terms of the negotiable warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act, or be accompanied by a certificate of the warehouseman, identified to such warehouse receipt, setting out such information, and shall be based on the inbound movement or delivery of the grain to an approved warehouse. To be eligible, warehouse receipts for No. 3 rye must contain a statement that the rye grades No. 2 or better except for test weight.

§ 238.9 *Liens.* The grain collateral must be free and clear of all liens, or if liens exist on the collateral, proper waivers must be secured from each lienholder. The names of the holders of all existing liens on the pledged or mortgaged grain such as landlord, laborers, threshers, or mortgages, must be listed in the space provided in the chattel mortgage or note and loan agreement. The waiver and consent to pledge or mortgage the grain and the payment of the proceeds of the loan and the proceeds of the sale of the grain solely to the producer, as contained in the mortgage or note and loan agreement, must be signed personally by all lienholders listed or by their duly authorized agents; or, if a corporation, by an officer authorized to execute such instruments. Lienholders may sign C. C. C. Form AB, completely identifying the related note, in lieu of signing the appropriate section of the chattel mortgage or note and loan agreement. The proceeds of the loan shall be made payable to the producer and/or such other person or concern as the producer may direct in the space provided on the note. Producers should be sure that grain offered as collateral for a loan is not covered by previous real estate or other mortgages. The producer shall be held personally liable for the amount of the loan and subject to the provisions of the United States Criminal Code for any fraudulent representation made in the execution of the note and related forms.

§ 238.10 *Insurance*—(a) *Grain stored on farms.* Commodity Credit Corporation will not require producers to insure their 1943 farm-stored grain placed under loan. In case of a total loss of collateral resulting from an external cause, with the exception of a loss caused by conversion, negligence, or vermin, the Commodity Credit Corporation will mark the note "paid" and return it to the borrower. In case of partial loss of collateral

resulting from an external cause, with the exception of a loss caused by conversion, negligence, or vermin, the note will be credited at the loan value, plus interest, for the number of bushels on which the loss occurred. No loss will be assumed by the Corporation if it is determined that there is fraudulent representation on the part of the borrower in connection with the loan.

(b) *Grain stored in approved warehouses.* Warehousemen shall provide insurance against the perils of fire, lightning, inherent explosion, windstorm, cyclone, and tornado, for the full market value of grain stored in their warehouses, as long as receipts are outstanding.

§ 238.11 *County agricultural conservation committees.* Forms will be furnished county agricultural conservation committees in the areas designated in § 238.2 hereof, and copies for the purpose of information may be obtained from such committees or from the offices of the regional directors serving the areas listed in § 238.14 hereof. The producers' notes contain approvals which should not bear a date prior to the date of the note and loan agreement and which must be signed in each instance by a member of the county agricultural conservation committee of the county in which the grain was produced for warehoused grain, and the county in which the farm is located on which the grain is stored for farm-stored grain. Pursuant to regulations issued by the Secretary of Agriculture, the State and county committees will determine, or cause to be determined, the quantity and grade of the grain collateral and the amount of the loan. All loan documents will be completed and approved by the county committee who will retain copies of all documents. In order to meet the cost of local expenses county agricultural conservation committees will collect a service fee for all loans.

§ 238.12 *Source of loans.* Loans may be obtained from banks and local lending agencies which, in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Producers may also obtain loans direct from Commodity Credit Corporation on notes made payable to the Corporation, which shall be delivered (or postmarked) prior to January 1, 1944, for rye and barley, and March 1, 1944, for grain sorghums, to the office serving the area in which the grain is stored. Upon approval of the loan by Commodity Credit Corporation, payment will be made pursuant to the directions of the producer as set forth in the note.

§ 238.13 *Purchase of loans.* Commodity Credit Corporation will purchase, without recourse, eligible paper, as defined above, only from lending agencies which have executed, and delivered to the office of Commodity Credit Corporation to which notes are submitted, Contract to Purchase, 1940 C. C. C. Form E, obtainable only from such offices. Notes held by lending agencies must be tendered to Commodity Credit Corporation for immediate or deferred purchase within 10 days of written request or at least 10 days prior to maturity in the

absence of written demand. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the face amount of such notes, plus accrued interest from the respective dates to the date of payment of the purchase price at the rate of 1½ percent per annum. Under the terms of the Contract to Purchase, lending agencies are required to report weekly, on 1940 C. C. C. Form F, all payments or collections on producers' notes held by them, and to remit, with such report, to Commodity Credit Corporation, an amount equivalent to 1½ percent interest per annum on the principal amount collected from the date of the note to the date of payment.

§ 238.14 *Offices of Commodity Credit Corporation.* The offices of the Regional Directors previously referred to herein and the areas served by them are:

Address	Area
208 South LaSalle Street, Chicago, Ill.	Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, and West Virginia.
Dwight Building, 1004 Baltimore Avenue, Kansas City, Mo.	Alabama, Arkansas, Colorado, Florida, Georgia, Kansas, Louisiana, Mississippi, Missouri, Nebraska, New Mexico, Oklahoma, South Carolina, Texas, and Wyoming.
326 McKnight Building, Minneapolis, Minn.	Minnesota, Montana, North Dakota, South Dakota, and Wisconsin.
Artisans Building, 225 Southwest Broadway, Portland, Oreg.	Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington.

§ 238.15 *Release of collateral held by Commodity Credit Corporation.* A producer may obtain release of the collateral by paying to the lending agency or the Commodity Credit Corporation, whichever holds the note, the principal amount of the note, plus interest. If the note is held by an out-of-town lending agency or the Commodity Credit Corporation, the producer may request the note be forwarded to a local bank for collection. In such case, the local bank should be instructed to return the note to the sender if payment is not effected within 15 days. All charges in connection with the collection of the note shall be paid by the producer. Upon payment of the farm storage loan, the county agricultural conservation committee should be requested to release the mortgage by filing an instrument of release with the county recorder, or by a margin release on the county recorder's records.

*Partial releases of collateral will be made as follows:*

(a) In the case of farm-stored grain, producers may obtain release of all or

part of the collateral in a bin by paying to the holder of the note the loan value and accrued interest, for the grain released. Farm Commodity Loan 29 must be executed in accordance with instructions issued by the Agricultural Adjustment Agency for each partial redemption, and one copy must be submitted to the office of the regional director serving the area.

(b) In case of warehouse-stored grain, each partial release must cover all the grain under one warehouse receipt number. Producers may obtain release of one or more warehouse receipts by paying to the holder of the note the amount of the loan, plus interest, for the grain represented by the warehouse receipt. If the notes are held by an out-of-town lending agency or Commodity Credit Corporation, or if the grain is stored in a terminal warehouse, the warehouse receipt(s) may be forwarded to an approved lending agency, as directed by the producer, for collection.

(c) Commodity Credit Corporation will purchase notes on which partial releases have been made by lending agencies provided the note is credited by the lending agency for the full amount of the loan on the grain released, plus interest at the rate of 3 percent per annum, and 1½ percent interest per annum on such principal amount collected has been submitted to the regional director serving the area.

Pursuant to § 1202.212 of Food Production Order 3, as amended (8 F.R. 5963, 7625, 8045, 9100, 9101), *It is hereby ordered, That:*

§ 1202.255 *Supplementary Order 5—*  
(a) *Purpose.* This Supplementary Order 5 is issued to permit the distribution and sale, until a permanent rationing program to replace Food Production Order 3 is promulgated, of a percentage of the farm machinery and equipment produced under the authority of War Production Board Order L-257 (8 F.R. 8163).

(b) *Scope.* This order deals with new farm machinery and equipment produced under War Production Board Order L-257 and listed in Food Production Order 3. Such equipment shall be deemed to be Schedule I equipment as defined in Food Production Order 3 and is hereinafter referred to as L-257 equipment. It includes the subdivisions as listed in Order L-257 of items which are listed in Food Production Order 3. For example, L-257 equipment includes items 108-108n, inclusive, listed in Order L-257, even though item 108 appears without subdivisions in Food Production Order 3.

(c) *Authority granted.* (1) Any manufacturer may transfer not more than 40 percent of the L-257 equipment which he is authorized to produce: *Provided, That:*

(i) Until a manufacturer has filled distribution orders and directives issued to him for any type of equipment under Food Production Order 3, he shall not transfer L-257 equipment of the same type except to fill such orders and directives.

(ii) Any person may make or accept a transfer of equipment which is distributed by a manufacturer in accordance with this Supplementary Order 5, but nothing in this order shall be construed to alter the requirement of Food Production Order 3 for a purchase certificate when a transfer is made for use.

(d) *Records.* Each manufacturer shall maintain records which will enable him, upon request from time to time by the Deputy Administrator, to report the number of items of any type of L-257 equipment which such manufacturer has transferred and the States in which such equipment has been or is intended by such manufacturer to be transferred for the purpose of retransfer for use. If a manufacturer has transferred for use any item of such equipment, he shall report the State to which such transfer was made, rather than the information required by the preceding sentence. This record keeping requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(e) This Supplementary Order 5 shall be added to and become a part of Food Production Order 3, as amended, and any violation of this Supplementary Order 5 shall constitute a violation of Food Production Order 3.

Deputy Administrator.

## PART 1010—SUSPENSION ORDERS

[Suspension Order S-363]

## BROOK ELECTRICAL SUPPLY CO. AND L. J. SEGIL CO.

Leon J. Segil, Miriam Segil, Harold T. Segil, Louis J. Segil, Jane Segil and Gladys Segil are engaged as partners in the business of selling electric lighting fixtures under the names of Brook Electrical Supply Company and L. J. Segil Company, at 2510 West North Avenue and on Clark Street, Chicago, Illinois. When investigated by the War Production Board in December of 1942, and at other times, respondents were found to have kept no production records, nor to have maintained adequate records showing a correlation between preference ratings assigned to them and those extended by them, and not to have differentiated between sale at retail and at wholesale. These failures to maintain proper records made it difficult to ascertain whether their handling of materials conformed to rules and regulations of the War Production Board, and constituted violations of Priorities Regulation No. 1, as amended.

Between May 1, 1942, and December 31, 1942, respondents extended to their suppliers preference ratings AA-1 to A-1-j which were not supported by equivalent preference ratings assigned them on related customers' orders, and during said period of time, respondents placed orders for approximately 103,000 feet of copper wire in excess of the quantity required to fill the rated orders received by them, and they also placed orders for 28,725 feet of copper wire to fill unrated orders, both actions being in violation of Priorities Regulation No. 3, as amended. Between September 30, 1942, and December 10, 1942, respondents sold and delivered approximately 99 new complete fluorescent lighting fixtures on orders bearing preference ratings lower than A-2 in violation of General Limitation Order L-78, as amended. Between June 25, 1942, and September 12, 1942, respondents accepted delivery of approximately 100,000 feet of copper wire on unrated orders in violation of General Preference Order M-9-a. Between May 4, 1942, and December 10, 1942, respondents improperly applied ratings given them under Preference Rating Order P-100. Respondents were aware of the said orders, and their acts must be deemed wilful violations.

These wilful violations of Priorities Regulation No. 1, Priorities Regulation No. 3, General Limitation Order L-78, General Preference Order M-9-a, and Preference Rating Order P-100 have diverted scarce materials to uses unau-

thorized by the War Production Board and have hampered and impeded the war effort of the United States. In view of the foregoing facts: *It is hereby ordered, That:*

§ 1010.363 *Suspension Order No. S-363.* (a) Leon J. Segil, Miriam Segil, Harold T. Segil, Louis J. Segil, Jane Segil and Gladys Segil, doing business as Brook Electrical Supply Company and L. J. Segil Company, or otherwise, their and its successors and assigns shall not purchase, order, or accept delivery of any materials in order to manufacture or assemble electrical fixtures, fluorescent or otherwise, or component parts; nor shall they manufacture, assemble, sell or otherwise dispose of electric fixtures, fluorescent or otherwise, unless hereafter specifically authorized in writing by the War Production Board.

(b) The provisions of this order shall not apply to orders bearing a preference rating of AA-2X or higher.

(c) Nothing in this order shall be deemed to relieve Leon J. Segil, Miriam Segil, Harold T. Segil, Louis J. Segil, Jane Segil and Gladys Segil, doing business as Brook Electrical Supply Company and L. J. Segil Company, or otherwise, their and its successors or assigns from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 23, 1943, and shall expire on November 23, 1943.

Issued this 16th day of July 1943.

(b) *Bandage cloth.* No producer or converter of cotton textiles shall process or convert any 38½" 44/36 8.60 yard or 38½" 44/40 8.20 yard print cloth, or pro rata widths thereof, gray or finished, except to render the same suitable for manufacture into surgical dressings or cheese bandages. No producer, converter, or jobber (one who sells to a manufacturer, or for resale) shall sell or deliver such cloth, knowing or having reason to believe that such cloth will be used other than for manufacture into such dressings or bandages. These restrictions shall not apply to specific

<sup>1</sup>The inside depth of this box may be increased up to 11½", either by the addition of cleats of any thickness or by the use of a solid end.  
<sup>2</sup>The inside depth of this box may be increased up to 7¼" by the addition of cleats of any thickness or by the use of a solid end.  
 \*Wherever an asterisk appears, cleats may be used for such items, as provided for in paragraph (c) of the text of Table II.

(a) The designation in column (1) of Table II is merely for identification and shall not be construed as restricting usage. 'Inside width' and 'Inside depth' of the container are the width and length, respectively, of the end pieces or end frames, exclusive of any cleats. 'Inside length' of the container shall be its outside length minus the combined thickness of both ends and of the center piece (if any).

 (c) No cleats may be so used as to increase inside dimensions except where an asterisk appears in Column (1) of Table II or where, and as, specified in any footnote after that

table. Where an asterisk appears in Column (1) of Table II, one or more cleats of ¼", ⅜", ½", ⅝", ¾", 1⅛", or ¾" thickness may be attached to the top of each end piece, or end frame, provided such cleat or cleats do not increase the inside dimensions of the container by more than the specified thickness of the cleat or cleats.  
 (d) *Exceptions.* (1) The restrictions of paragraphs (b) (3) and (4) of this order and of this Table II shall not apply to:  
 (i) The manufacture or assembly of wooden shipping containers by any person from wooden parts cut to size by him before March 4, 1943; provided, such manufacture or assembly is completed by August 31, 1943;  
 (ii) The assembly of wooden shipping containers by any person from cut-to-size wooden parts bought and received by him before April

1, 1943; provided, such assembly is completed by August 31, 1943;

(2) The restrictions of this Table II shall not apply to the manufacture or assembly of wooden shipping containers, or the manufacture of wooden parts for wooden shipping containers, to be delivered:

(i) To or for the account of the Army, the Navy, the Coast Guard, the Maritime Commission, the War Shipping Administration, or the Department of Agriculture (for Lend-Lease purposes), provided, the government agency's specifications require wooden shipping containers which do not comply with Table II.

(ii) To any person for use in packing fresh fruits or vegetables for delivery to or for the account of such government agencies; provided, the government agency's specifications require wooden shipping containers which do not comply with Table II; and provided further, such person furnishes the container or container-parts supplier with a written certification in substantially the following form, signed by an authorized official, either manually or as provided in Priorities Regulation No. 7:

"This is to certify that specifications of orders received by the undersigned from (designate government agency) require wooden containers not conforming with Order L-232. The material ordered herewith is for that purpose only.

Company.....  
 By.....  
 Title..... Date....."

Such certification shall constitute a representation to the supplier and to the War Production Board as to the truth of the facts stated therein. The supplier may rely upon such representation unless he has knowledge or reason to believe that it is not true.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L-301]

POWERCYCLES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iron and steel and other critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3291.291 *Limitation Order L-301*—

(a) *Definitions.* For the purposes of this order:

(1) "Powercycle" means any two or three wheeled vehicle (with or without side car or similar attachment) commonly known as a motor bike, motor scooter or motor glide, propelled by an internal combustion engine having a displacement of less than 25 cubic inches. It shall not include motorcycles.

(2) "Powercycle manufacturer" means any person engaged in the business of producing or assembling powercycles or parts specifically designed for incorporation into powercycles.

(3) "Repair part" means any part that is produced to replace a used or worn part, in a used powercycle.

(b) *Restrictions upon production.* (1) No powercycle manufacturer shall produce or assemble any powercycle, except

(i) From fabricated parts contained in his inventory before July 1st, 1943;

(ii) Pursuant to the specific authorization of the War Production Board granted in response to a letter of application.

(2) During the six months period beginning July 1st, 1943, and during each six months period thereafter, no powercycle manufacturer shall produce repair parts containing more weight of metal in the aggregate than 62½% of the aggregate weight of metal contained in the repair parts produced by him during 1942.

(c) *Restrictions on transfer.* No powercycle manufacturer shall transfer the physical possession of or legal title to any powercycle which has never been sold to an ultimate consumer, except:

(1) In fulfillment of an order, contract or subcontract placed by or for the account of the Army or Navy of the United States, the War Shipping Administration, the United States Maritime Commission, the government of any country pursuant to the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act) and government agencies or other persons acquiring powercycles for export to any foreign country.

(2) Pursuant to specific authorization of the War Production Board on Form WPB-1319 (formerly PD-556).

(3) The War Production Board will not, in the absence of special circumstances, grant any authorizations for transfers to any persons unless they are directly engaged in the production of war material or require powercycles for intraplant or emergency use.

(d) *Avoidance of excessive inventories.* No manufacturer shall accumulate for use in the manufacture of powercycles inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production of powercycles at the rates permitted by this order.

(e) *Applicability of other orders and regulations.* This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of powercycles to a greater extent than this order does, the other order shall govern unless it states otherwise.

(f) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

**SECTION 1. Purpose of the regulation.** The purpose of this regulation is to establish maximum prices for cider vinegar in sales by processors, secondary packers, primary distributors, wagon wholesalers and other distributors, but not including wholesalers and retailers. (As used in this regulation, the word "wholesaler" does not include a wagon wholesaler.) Maximum prices for the wholesalers and retailers of cider vinegar are governed respectively by Maximum Price Regulation No. 421<sup>1</sup> and Maximum Price Regulations Nos. 422<sup>2</sup> and 423.<sup>3</sup>

**SEC. 2. Maximum prices for cider vinegar sold by processors and secondary packers—(a) Maximum prices for persons who are primarily producers.** The pricing method of this paragraph applies to any person who produced 50 percent or more of the cider vinegar which, during the one-year period ending April 30, 1943, he sold either in bulk or in containers actually filled by him. (For convenience, he will be called a "processor".) Maximum prices which he figures under this paragraph are applicable to all of his sales of cider vinegar except those

in which he is selling branded cider vinegar no part of which he produces or repackages himself.

(1) *General rule.* In sales to persons other than independent retail stores and institutional users and other than ultimate consumers (except that this pricing method applies to sales to commercial and industrial users), the processor's maximum prices per gallon, barrel or other unit for cider vinegar shall be either:

(i) The processor's maximum prices under the General Maximum Price Regulation<sup>4</sup> or, at his election

(ii) The respective prices listed for each grade and quantity in the following table:

The prices listed in this table are f. o. b. factory	23 grain barrels	20-60 grain	40-70 grain
Tank car or tank truck lots, per gallon	\$9.16		
Barrels, per gallon, average included		\$9.10 <sup>5</sup>	\$9.17
Half-barrels, per gallon, average included		0.22 <sup>6</sup>	0.20
Gallons, per dozen		3.69	3.69
Half-gallons, per dozen		2.20	2.19
Quarts, per dozen		1.19	1.65
Pints, per dozen		0.70	0.675

A processor who chooses the maximum prices listed in subdivision (ii) may establish a uniform maximum delivered price for any item by zone or area, in each case by adding to the f. o. b. factory price named his weighted average transportation charge from factory to purchasers' receiving points. For any zone or area this "weighted average transportation charge" shall be figured by him as follows: he shall (1) determine the total transportation charges, at rates in effect on July 22, 1943, for all shipments of the item during the six-month period ending April 30, 1943, to purchasers in that zone or area; (2) divide that figure by the total number of gallons or dozens of the item included in those shipments. (Where more than one means of transportation is used, averages may be taken separately for each.) The processor shall refigure his weighted average transportation charge at the end of each subsequent six-month period on the basis of shipments made since the last calculation, but at rates in effect on July 22, 1943.

The processor shall either figure all of his maximum prices under the General Maximum Price Regulation or take as his maximum prices those listed in subdivision (ii). However, his maximum price per unit for a container size which was not one of those he sold prior to July 22, 1943, shall be the price listed therefor in subdivision (ii), and his maximum prices for a container size not listed in subdivision (ii) shall be figured under the General Maximum Price Regulation.

(2) *Processors who also perform a wholesale service.* A processor who chooses the maximum prices listed in the table, and who sells cider vinegar under any of the circumstances outlined below, shall figure his maximum price in each case by adding together the following three factors:

(i) The maximum price named for the item, f. o. b. factory.

(ii) The following markup over the f. o. b. factory price:

(a) 12 per cent, if he is a "retailer-owned cooperative" that is either a non-profit organization or a corporation, 50 per cent of the stock of which is owned by its retailer customers, and which distributes the brand, if any, and grade of cider vinegar being priced to its retailer members. This markup may be added only in sales to its retailer members. In sales to institutional users or independent retail stores which are not members of the cooperative, he may add the markup provided in subdivision (b) or (c) according to whether or not delivery is made to these classes of purchasers.

(b) 16 per cent, if he is not a "retailer-owned cooperative", but he distributes the brand, if any, and grade of cider vinegar being priced for resale by independent retail stores or to institutional users and he does not deliver to these purchasers. This markup may be added only when the processor is selling to these classes of purchasers.

(c) 23 per cent, if he is not a "retailer-owned cooperative" but he distributes the brand, if any, and grade of cider vinegar being priced for resale by independent retail stores or to institutional users and he does deliver to these purchasers. This markup may be added only for the particular quantities of the item which are actually delivered to these classes of purchasers.

(iii) The freight, if any, incurred from factory to local distribution point. (Processors who have more than one factory or distribution point may average freight from factory to distribution point in the same manner as processors are allowed under paragraph (a) (1) to average outgoing freight.)

(3) *Processors who also perform the retail service.* A processor who chooses the maximum prices listed in the table and sells cider vinegar directly to ultimate consumers other than commercial, industrial or institutional users, shall figure separate maximum prices for sales to these purchasers, by adding in each case the following three factors: (i) the maximum price named for the item, f. o. b. factory; (ii) a markup over the f. o. b. factory price of 26 per cent; and (iii) the freight, if any, incurred from factory to local distribution point. (Processors who have more than one factory or distribution point may average freight from factory to distribution point in the same manner as processors are allowed under paragraph (a) (1) to average outgoing freight.) Maximum prices figures in this way are applicable only to sales to ultimate consumers other than commercial, industrial or institutional users.

(b) *Maximum prices for secondary packers and other persons who produce, cut or package some cider vinegar but who are not primarily producers.* The pricing method of this paragraph applies to any person who produces, cuts or packages some cider vinegar but who produced less than 50 per cent of the cider vinegar which, during the one-year period ending April 30, 1943, he sold either in bulk or in containers actually filled by him. (For convenience, he will be called a "secondary packer".) Maxi-

maximum prices which he figures under this paragraph are applicable to all his sales of cider vinegar except those in which he is selling branded cider vinegar no part of which he produces or repackages himself.

(1) *General rule.* In sales to persons other than independent retail stores and institutional users and other than ultimate consumers (except that this pricing method applied to sales to commercial and industrial users), the secondary packer's maximum prices per gallon, barrel or other unit for cider vinegar shall be either:—

(i) The secondary packer's maximum prices under the General Maximum Price Regulation or, at his election,

(ii) The respective f. o. b. factory prices listed for each grade and quantity in the table in paragraph (a), plus an amount figured by him as follows:

(a) He shall first determine what the freight charges would be, at rates in effect on July 22, 1943, for transportation of a customary quantity of cider vinegar in bulk, of a customary grainage strength, from the factory of his customary supplier to his customary receiving point, by the customary means of transportation. "Customary quantity" means the unit of cider vinegar in bulk (as in tank car or 50-gallon barrel lots, etc.) of which he received the largest number of shipments during the one-year period ending April 30, 1943. "Customary grainage strength", "customary supplier" and "customary means of transportation" mean respectively the grainage strength in which, the supplier from whom, and the means of transportation (like railroad, tank truck, etc.) by which, he received the greatest volume of cider vinegar in bulk during that period.

(b) He shall next divide these freight charges by the number of gallons in the customary quantity. The resulting figure will be his "base freight cost," and once determined it shall not be changed.

(c) He shall next multiply his base freight cost by the number of gallons in the unit being priced. The resulting figure will be his "adjusted base freight cost."

(d) Finally, he shall divide the grainage strength of the cider vinegar being priced by his customary grainage strength, and multiply his adjusted base freight cost by the percentage so obtained. The resulting figure will be the amount to be added to the listed price, in arriving at the secondary packer's maximum price f. o. b. plant.

*Example.* During the one-year period ending April 30, 1943, the secondary packer received the largest volume from supplier A; shipments of 1,250 gallons in 50-gallon barrels more often than any other quantity; 50 grain cider vinegar in larger volume than any other grade; and the greatest volume by railroad.

The cost of freight for transportation by railroad of 1,250 gallons of 50 grain cider vinegar in 50-gallon barrels, from supplier A's factory, is now \$25. The secondary packer divides \$25 by 1,250 and obtains a base freight cost of \$.02 per gallon. For a unit of one dozen gallons, he multiplies \$.02 by 12 and obtains an adjusted base freight cost of \$.24. If the unit being priced is 40 grain cider vinegar, he divides 40 by 50 (the customary grainage strength) and obtains a percentage of .80, which multiplied by \$.24

results in \$.192, the amount to be added to the listed price for a unit of one dozen gallons of 40 grain strength. If any maximum price figured under this subdivision (ii) includes a fraction of a cent, the seller shall adjust the price to the nearest fractional unit (like 1¢, ½¢, ¼¢, etc.) in which he has customarily quoted prices for the product.

A secondary packer who figures maximum prices under subdivision (ii) may establish a uniform maximum delivered price for any item by zone or area, in each case by adding to the f. o. b. plant price his weighted average transportation charge from plant to purchasers' receiving points. For any zone or area this "weighted average transportation charge" shall be figured by him as follows: he shall (1) determine the total transportation charges, at rates in effect on July 22, 1943, for all shipments of the item during the six-month period ending April 30, 1943, to purchasers in that zone or area; (2) divide that figure by the total number of gallons or dozens of the item included in those shipments. (When more than one means of transportation is used, averages may be taken separately for each.) The secondary packer shall refigure his weighted average transportation charge at the end of each subsequent six-month period on the basis of shipments made since the last calculation, but at rates in effect on July 22, 1943.

The secondary packer shall either figure all of his maximum prices under the General Maximum Price Regulation or figure all of his maximum prices in accordance with subdivision (ii). However, his maximum price per unit for a container size which was not one of those he sold prior to July 22, 1943, shall be figured in accordance with subdivision (ii), and his maximum prices for cider vinegar in a container size not listed in paragraph (a) (1) (ii) of this section shall be figured under the General Maximum Price Regulation.

(2) *Secondary packers who also perform a wholesale service.* A secondary packer who figures his maximum prices under subdivision (ii) of subparagraph (1), and who sells cider vinegar under any of the circumstances outlined below, shall figure his maximum price in each case by adding together the following three factors:

(i) The maximum price figured for the item, f. o. b. plant.

(ii) The following markup over the f. o. b. plant price:

(a) 12 per cent, if he is a "retailer-owned cooperative," that is, either a non-profit organization or a corporation, 51 per cent of the stock of which is owned by its retailer customers, and which distributes the brand, if any, and grade of cider vinegar being priced to its retailer members. This markup may be added only in sales to its retailer members. In sales to institutional users or independent retail stores which are not members of the cooperative, he may add the markup provided in subdivision (b) or (c) according to whether or not delivery is made to these classes of purchasers.

(b) 16 per cent, if he is not a "retailer-owned cooperative," but he distributes the brand, if any, and grade of cider vinegar being priced for resale by independent retail stores or to institutional

users and he does not deliver to these purchasers. This markup may be added only when the secondary packer is selling to these classes of purchasers.

(c) 23 per cent, if he is not a "retailer-owned cooperative," but he distributes the brand, if any, and grade of cider vinegar being priced for resale by independent retail stores or to institutional users and he does deliver to these purchasers. This markup may be added for the particular quantities of the item which are actually delivered to these classes of purchasers.

(iii) The freight, if any, incurred from plant to local distribution point. (Secondary packers who have more than one plant or distribution point may average freight from plant to distribution point in the same manner as secondary packers are allowed under paragraph (b) (1) to average outgoing freight.)

(3) *Secondary packers who also perform the retail service.* A secondary packer who figures his maximum prices in accordance with subdivision (ii) of subparagraph (1) and who sells cider vinegar directly to ultimate consumers other than commercial, industrial or institutional users, shall figure separate maximum prices for sales to these purchasers, by adding in each case the following three factors: (i) the maximum price figures for the item, f. o. b. plant; (ii) a markup over the f. o. b. plant price of 26 per cent; and (iii) the freight, if any, incurred from plant to local distribution point. (Secondary packers who have more than one plant or distribution point may average freight from plant to distribution point in the same manner as secondary packers are allowed under paragraph (b) (1) to average outgoing freight.)

Sec. 3 *Maximum prices for distributors other than wholesalers and retailers—(a) Primary distributors.* The primary distributor's maximum price per gallon, barrel or other unit of an item of cider vinegar, shall be determined as follows:

(1) If his supplier's maximum price under this regulation is greater than the supplier's maximum price under the General Maximum Price Regulation, he shall add the difference to the maximum price which he had under the General Maximum Price Regulation.

(2) If his supplier's maximum price under this regulation is less than the supplier's maximum price under the General Maximum Price Regulation, he shall subtract the difference from the maximum price which he had under the General Maximum Price Regulation.

The resulting figure in each case is the primary distributor's maximum price for the item.

If the primary distributor's maximum price for an item cannot be determined in this manner, his maximum price, f. o. b. shipping point, shall be the maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by him.

A "primary distributor" is one who purchases the brand, if any, and grade of cider vinegar being priced in carload lots and who customarily receives shipment of at least 50% of the item in car-

load lots into a warehouse or other receiving station not owned or controlled by any of his customers, for resale in less than carloads.

(b) *Distributors who are not primary distributors, wagon wholesalers, wholesalers, or retailers.* The maximum price, f. o. b. shipping point, of a distributor who is not a primary distributor, wagon wholesaler, wholesaler, or retailer shall be the maximum price of his supplier, f. o. b. shipping point, plus incoming freight paid by him.

A "distributor" is one who purchases the brand, if any, and grade of cider vinegar being priced and resells it without processing, packaging or cutting it.

(c) *Wagon wholesalers.* The maximum price per gallon, barrel, or other unit which a wagon wholesaler may charge for an item of cider vinegar shall be his net delivered cost plus a markup of 25 per cent. He shall figure his maximum price on the basis of the most recent purchase of that item, and shall refigure it after each new purchase. The maximum price so figured is the seller's maximum price for his entire inventory of that item, and it is effective until his first sale after he receives the next lot.

A "wagon wholesaler" is one who purchases the item being priced and distributes it to retailers or to commercial, industrial or institutional users from an inventory stocked in trucks or other conveyances which are under the supervision of driver salesmen who make delivery at the time and place of sale. His "net cost" means the amount he pays for the item delivered at his customary point, less all discounts allowed him, except the discount for prompt payment. However, no expense of local trucking or unloading shall be included.

*Sec. 4. Relationship between this regulation and the General Maximum Price Regulation.* (a) Except as provided in paragraph (b) of this section, this regulation supersedes the General Maximum Price Regulation with respect to sales and deliveries for which maximum prices are established by this regulation.

(b) The following sections of the General Maximum Price Regulation, as well as amendments to them, apply to sales covered by this regulation:

- (1) Special deals (§ 1499.4b).
- (2) Transfers of business or stock in trade (§ 1499.5).
- (3) Federal and state taxes (§ 1499.7).
- (4) Sales slips and receipts (§ 1499.14).
- (5) Definitions (§ 1499.20).

*Sec. 5. Geographical applicability.* This regulation applies to the forty-eight states of the United States and the District of Columbia.

*Sec. 6. Export and import sales.* The maximum prices at which a processor, secondary packer, or distributor other than a wholesaler or retailer, may export any product covered by this regulation shall be determined in accordance with the provisions of the Second Revised

Maximum Export Price Regulation,<sup>2</sup> and amendments issued by the Office of Price Administration. Sales of cider vinegar produced, packaged or cut outside the geographical area to which this regulation applies are not covered by this regulation except in cases where the goods being priced are located within this area.

*Sec. 7. Records which sellers covered by this regulation must keep.* (a) Every seller covered by this regulation who makes sales of any cider vinegar after July 21, 1943, for which specific maximum prices have been established herein, shall make and preserve for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, all records of the same kind as he customarily kept, relating to the prices which he charges for such product after the effective date of this regulation.

(b) Every seller covered by this regulation who makes sales of any cider vinegar after July 21, 1943, for which maximum prices are to be figured by him in the manner directed by this regulation, shall preserve for examination by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, all his existing records which were the basis of figuring such maximum prices and shall show the method used in such computations in addition to the records required to be made and preserved by paragraph (a).

*Sec. 8. Information which processors and secondary packers must disclose to primary distributors.* Every processor or secondary packer who makes sales of a brand, if any, and grade of cider vinegar any part of which was produced, cut, or packaged by him shall, in the case of any such item which is being sold by him to a primary distributor for the first time after the seller's maximum price for it has been established under this regulation, send the primary distributor (before or at the time of delivery) a written notice stating, for each item included in the sale (a) his maximum price established under this regulation, and (b) his maximum price established under the General Maximum Price Regulation.

*Sec. 9. Customary discounts and allowances.* No person shall change any customary allowance, discount or other price differential to a purchaser or class of purchasers if the change results in a higher net price to that purchaser or class.

*Sec. 10. Position of brokers.* In accordance with the existing custom, every broker taking part in a sale governed by this regulation, in which the seller is a processor, secondary packer or distributor other than a wholesaler or retailer shall be considered as the agent of the seller and not of the buyer. In each case, the amount paid by the buyer to the broker plus the amount paid by the buyer

to the seller shall not exceed the seller's maximum price plus allowable transportation actually paid by the seller or by the broker.

*Sec. 11. When a maximum price chosen or figured under section 2 or section 3 is established.* On and after July 22, 1943, a price chosen or figured for any item under section 2 or section 3, as the case may be, becomes "established" (that is, fixed) as the seller's maximum price as soon as he has disclosed it to any prospective customer, whether by sale, delivery, offer or notice of any kind, provided that the chosen or figured price is not higher than the applicable pricing method allows. Except for the refiguring by processors and secondary packers which is authorized by section 2 in connection with maximum delivered prices, and the refiguring by wagon wholesalers which is authorized by Section 3, a maximum price for an item may be established only once, and having been established it may not be changed by the seller except (1) with the written permission of the nearest district or state office of the Office of Price Administration having jurisdiction over the seller in cases where the seller has chosen or figured his maximum price lower than the applicable pricing method provides, or (2) in cases where a change in the regulation changes the seller's applicable pricing method.

If the seller is disclosing a price lower than the one he chose or figured under section 2 or section 3, as the case may be, he may establish the higher chosen or figured price as his maximum price at the time of disclosure only by recording it and naming it as such, in ink on his books, before he discloses the lower price. A seller who has not chosen or figured a price for an item, or has figured a price higher than the applicable pricing method allows, may not sell the item until he has established a maximum price for the item in accordance with the rules of this section.

*Sec. 12. Compliance with the regulation.—(a) No selling and buying above maximum prices.* On and after July 22, 1943, regardless of any contract or other obligation, no processor, secondary packer or distributor other than a wholesaler or retailer shall sell or deliver any cider vinegar, for which maximum prices are established by this regulation, at a price higher than the maximum prices established herein; no person in the course of trade or business shall buy or receive any cider vinegar, for which maximum prices are established by this regulation, from a processor, secondary packer or distributor other than a wholesaler or retailer, at a price higher than the maximum prices established herein; and no person shall agree, offer, solicit or attempt to do any of the foregoing.

(b) *Evason.* The price limitations set forth in this Maximum Price Regulation No. 428 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agree-

ment, sale delivery, purchase or receipt of, or relating to cider vinegar, along or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise. However, prices lower than the maximum prices established by this regulation may be charged, demanded, paid or offered.

(c) *Enforcement.* Any person violating a provision of this Maximum Price Regulation No. 428 is subject to the criminal penalties, civil enforcement actions and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

SEC. 13. *General amendments.* Any person seeking a general modification of this regulation may file a petition for amendment in accordance with Revised Procedural Regulation No. 1<sup>o</sup> and amendments, issued by the Office of Price Administration.

SEC. 14. *Adjustable pricing.* Any person may agree to sell, at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order.

SEC. 15. *Definitions.* When used in this regulation, the term:

"Cider vinegar" means the commodity sold and designated as cider vinegar or apple cider vinegar. The term does not include white (distilled) vinegar, wine vinegar, tarragon vinegar, malt vinegar or any other variety of vinegar.

"Container" means a receptacle no larger in capacity than one gallon.

"In bulk" means in a receptacle larger in capacity than one gallon.

"Cuts" refers to the operation of reducing the grainage strength of cider vinegar by the addition of water.

"Grade" refers to the grainage strength of cider vinegar.

"60 grain basis", "grainage strength", or words of similar import refer to the acetic acid content of cider vinegar.

*Example:* "40 grain basis" refers to a content of 4 grams of acetic acid (40 grains) per 100 cubic centimeters at 20° C.

"Maximum price established by this regulation", or words of similar import, include maximum prices figured under the General Maximum Price Regulation at the election of a processor or secondary packer pursuant to paragraph (a)

or paragraph (b), as the case may be, of section 2 of this regulation.

(4) If he has brought a passenger automobile outside the gasoline shortage area after July 21, 1943, with the intention of keeping such automobile outside the gasoline shortage area for four or more months. In such event the applicant, at the time of application, shall surrender to the Board the basic ration originally issued to him for use with such automobile.

Application for reissuance shall be made on part A of Form OPA R-534. In case the application is made for either of the reasons specified in Items (1) or (2) of this paragraph, the applicant shall attach thereto a statement in which he shall set forth the date and place of issuance of the ration surrendered, together with the date and place of surrender thereof and the reason therefor. In the event that the Board is satisfied that the applicant surrendered such a ration in good faith the Board shall issue a basic ration book to the applicant pursuant to the provisions of § 1394.7653: *Provided*, That no coupon book reissued for the reasons specified in this paragraph shall contain coupons in excess of the number prescribed in paragraph (d) of this section.

2. Section 1394.7654 is added to read as follows:

§ 1394.7654 *Class B coupons issued as a basic ration in exchange for Class A coupons.* (a) Any holder of a basic A ration who desires to drive the vehicle for which such ration was issued for a period of less than four months outside the area in which the vehicle is normally garaged or stationed and who does not have Class A coupons valid for use outside such area may apply to any Board to exchange one or more legally issued Class A coupons issued for use with such vehicle and currently valid for transfers of gasoline in the area in which such vehicle is normally garaged or stationed for a ration book containing Class B coupons upon a basis of one Class A coupon for one Class B coupon.

(b) If the applicant satisfies the requirements of this section the Board shall issue as a basic ration one Class B book containing the same number of coupons as the number of Class A coupons surrendered and shall remove from such book and cancel all coupons in excess of such number. The Board shall note on the outside cover of such book the date of issuance, the date on which the ration expires (which shall be the expiration date of the surrendered coupons) and that the book will expire on that date. The Board shall also mark such book "basic". The ration so issued shall be a basic ration for all purposes under Ration Order No. 5C.

3. In § 1394.8161 (f) (3) the first sentence is amended by deleting the final period and by adding the provisions "or

4. In § 1394.8165 the parenthetical phrase in the first sentence is amended by adding after the words "special ration" the words "or Class B coupons issued as a basic ration".

#### PART 1388—DEFENSE-RENTAL AREAS

[Designation and Rent Declaration 32]

##### OAHU DEFENSE-RENTAL AREA

The Emergency Price Control Act of 1942 provides that whenever in the judgment of the Price Administrator such action is necessary or proper in order to effectuate the purposes of that Act, he shall issue a declaration setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for any defense-area housing accommodations within a particular defense-rental area; and that if within sixty days after the issuance of any such recommendations rents for any such accommodations within such defense-rental area have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of that Act; and

In the judgment of the Price Administrator, defense activities have resulted in an increase in the rents for housing accommodations in the area designated in § 1388.1351 inconsistent with the purposes of the Emergency Price Control Act of 1942; and

In the judgment of the Price Administrator, it is necessary and proper in order to effectuate the purposes of the said Act to issue this declaration, setting forth the necessity for, and recommendations with reference to, the reduction and stabilization of rents for defense-area housing accommodations within the defense-rental area designated in § 1388.1351;

Therefore, under the authority vested in the Price Administrator by the said Act, this designation and rent declaration is issued.

§ 1388.1351 *Designation.* The following area is hereby designated by the Price Administrator as an area where defense activities have resulted in an increase in the rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942 and shall constitute a defense-rental area to be known as the "Oahu Defense-Rental Area": In the Territory of Hawaii, the Island of Oahu.

§ 1388.1352 *Necessity.* The necessity for the reduction and stabilization of rents for defense-area housing accommodations in the Oahu Defense-Rental Area is as follows:

The Oahu Defense-Rental Area is the location of establishments of the armed forces of the United States and war production industries. The increase in employment reflecting the expansion of defense activities, the influx of production workers and their families, and of the families of military and naval personnel have resulted in an acute shortage of rental housing accommodations in the area.

Defense activities have resulted in substantial and widespread increases in rents for housing accommodations inconsistent with the purposes of the Emergency Price Control Act of 1942. By reason of these increases, the rents prevailing in the Oahu area are not generally fair and equitable.

§ 1388.1353 *Recommendations.* It is the judgment of the Price Administrator that by April 1, 1941, defense activities had not yet resulted in increases in rents for housing accommodations within the Oahu Defense-Rental Area inconsistent with the purposes of the Act. Accordingly, the Price Administrator has ascertained and given due consideration to the rents prevailing for housing accommodations within the designated area on or about June 1, 1941. The Price Administrator has considered, so far as practicable, relevant factors deemed by him to be of general applicability, including fluctuations in property taxes and other costs. It is the judgment of the Price Administrator that the recommendations hereinafter set forth are generally fair and equitable and will effectuate the purposes of the Act.

Recommendations with reference to the reduction and stabilization of rents for housing accommodations within the Oahu Defense-Rental Area are as follows:

(a) The maximum rent for housing accommodations rented on June 1, 1941 should be the rent for such accommodations on that date. Appropriate provision consistent with such maximum rent date should be made for the maximum rent for housing accommodations not rented on June 1, 1941. In appropriate cases, including those relating to new construction or substantial changes of housing accommodations, provision consistent with the Emergency Price Control Act of 1942 should be made for the determination, adjustment, and modification of maximum rents for housing ac-

commodations, but in principle such rents should not be greater than the rents generally prevailing for comparable accommodations in the Oahu Defense-Rental Area on June 1, 1941.

(b) Appropriate provision should be made with respect to the restraint of evictions and other actions relating to the recovery of possession.

(c) Appropriate provision should be made to prevent the circumvention or evasion of maximum rents by any method whatever.

§ 1388.1354 *Rent regulation.* If within sixty days after issuance of this designation and rent declaration, rents for housing accommodations within the Oahu Defense-Rental Area have not in the judgment of the Price Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the foregoing recommendations, the Price Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942.

§ 1388.1355 *Effective date.* This designation and rent declaration shall become effective July 22, 1943.

(Pub. Laws 421 and 729, 77th Cong.)

Issued this 22d day of July, 1943.

**CONTINUED USE OF PROPERTY IN USE ON JUNE 30, 1943, BY NON-FEDERAL VOCATIONAL EDUCATION AUTHORITIES**

§ 38.100 *Applications.* (a) Any authority within any State may apply to the Procurement Division to establish its eligibility to continue the use of any property in use by such authority for vocational education purposes on June 30, 1943. To permit application for any property under this section, such property must have been in use by the authority on that date for the training of

students or trainees of the authority in a course or courses forming part of a vocational education program, whether or not such use was on a part-time basis only, or jointly with the National Youth Administration on a project of that Administration, or jointly with another authority. Property which on June 30, 1943, was in use exclusively by youth workers of the National Youth Administration on a work project of that Administration may be applied for under this section only if youth workers using such property on that date were enrolled with the applicant authority for vocational instruction and used such property during some portion of their time for vocational education purposes under instructors furnished by the applicant, in which event the applicant may be considered to have jointly used the property.

(b) Application forms shall be obtained from the regional office of the Procurement Division for the region in which the property is located, as shown by Schedule A hereto attached, and each application shall be filed with such regional office on the prescribed form. Applications must be executed in accordance with the instructions and must be complete, except that they are not required to contain the information called for on the reverse of the prescribed form. In view of the provisions of § 38.103, however, it will be desirable in all cases to furnish such information.

(c) If available, there shall be attached to each application copies of such documents as evidence any agreement under which the National Youth Administration permitted use by the applicant of the property applied for.

§ 38.101 *Time for filing application.* Applications under § 38.100 should be filed as promptly as possible and in any event must be filed on or before October 11, 1943, unless the time for filing is extended by the Director of Procurement.

§ 38.102 *Action on applications.* (a) Upon receipt of an application prepared in accordance with these regulations, the regional officer will secure such verification as he may deem necessary from the appropriate field office of the National Youth Administration and, except as provided in paragraph (b) of this section, will approve the application if it is certified to be from an authority and if he finds that it otherwise meets the requirements of § 38.100 (a). He will then transmit a copy of the approved application to the authority as evidence of the permission granted it by the Act to continue the use of the property, without compensation, during the period specified by the Act and these regulations.

(b) If two or more authorities apply for the same property, and if the regional officer cannot secure agreement among them as to the action to be taken, the regional officer will forward their applications to the Director of Procurement with his recommendation, and the Director of Procurement will take such action as he may deem appropriate under the circumstances of the particular case.

(c) If an application is not certified to be from an authority, or the regional

officer is not satisfied that it otherwise meets the requirements of § 38.100 (a), he will advise the authority of his reasons therefor. The authority may then submit such supplemental information as it deems appropriate, and the regional officer will approve the application if such information satisfies him that such requirements have been met. If such requirements have not been met, he will proceed under § 38.106 or, if that section is inapplicable, will notify the authority that its application is disapproved. If such requirements have been met as to only a portion of a number of items applied for, he will approve the application as to such portion and, if the original application was filed prior to October 12, 1943, will allow the authority to file a supplemental application under § 38.200 for the balance of the items originally applied for, such supplemental application to be filed on or before October 11, 1943, or within thirty days after the authority receives notification of its right to file such application, whichever is later.

§ 38.103 *Deliveries of property not in possession of applicant.* Upon approval of any application under § 38.102, property to be used thereunder which is not in the possession of the applicant will be delivered to the applicant at the project site or other place where it is located at the time of such approval. It will be the responsibility of the applicant to arrange promptly for any necessary packing and transportation, at the expense of the applicant, if use of the property by the applicant is to be at another location.

§ 38.104 *Receipts for property.* In any case in which the application of an authority shows that the property applied for is in the possession of the applicant, the approved application will itself constitute a receipt for the property. Otherwise, the authority shall, upon delivery of the property, furnish a receipt to the representative of the Procurement Division having charge of such delivery, on the receipt form furnished by him for that purpose.

§ 38.105 *Period of and conditions upon continued use.* Any property which applicants are permitted to use under §§ 38.100 to 38.104 of these regulations will be subject to the provisions of §§ 38.300 to 38.303.

§ 38.106 *Treatment of application as one for loan under § 38.200.* Any application not approved under § 38.102 will be treated as an application filed under § 38.200 unless such application was filed after October 11, 1943, or unless it is otherwise clear that the authority is not eligible to apply under that section. If the applicant has not theretofore furnished the information called for on the reverse of the application form, the regional officer will transmit to the applicant a new form for that purpose. Such form shall be completed as to the information called for on the reverse of the application form, signed on behalf of the applicant, and returned for attachment to the original application.

§ 38.107 *Failure to file or to secure approval of application.* If any authority

<sup>1</sup> Act of February 23, 1917, 39 Stat. 929, as amended (U.S.C. title 20, secs. 11-15, 16-28).

<sup>2</sup> Act of June 8, 1936, 49 Stat. 1483 (U.S.C. title 20, secs. 15b-15p).

or other person having possession of property does not file application within the time prescribed by § 38.101, or if the application of any such authority or other person is not approved under § 38.102 or § 38.202, it will be considered that such authority or other person does not desire to continue the use of such property for vocational education purposes, or that such authority or other person has not established its eligibility under the Act to continue such use. Property in the possession of any such authority or other person shall thereupon be returned promptly to the United States, by delivery to a representative of the Procurement Division at the place where it was located on June 30, 1943, or, if required by the Procurement Division, at any other place to which such authority or other person may have agreed to return the property.

**LOANS TO NON-FEDERAL VOCATIONAL EDUCATION AUTHORITIES OF PROPERTY NOT IN USE BY THEM ON JUNE 30, 1943**

§ 38.200 *Applications.* (a) Any authority in existence on July 12, 1943, may apply to the Procurement Division for the loan to such authority, without compensation, of any property not transferred to a Federal agency under Executive Order No. 9235 and not otherwise loaned under the authority of the Act. Application may be made either for specified property at a particular location or for any property meeting a given description, and applications will be considered of the latter type if the present location of the property is not stated or the property is so described that either or any of two or more items would fit the description. If application is made for specified property or property at a particular location, the application should indicate whether or not other property of the same type would be acceptable to the applicant in case the specified property or property at the specified location should not be available for loan to the applicant.

(b) Application forms shall be obtained from the regional office of the Procurement Division for the region in which the property is located, or, if the application is not for specified property, the region in which the authority is located, as shown by Schedule A hereto attached, and each application shall be filed with such regional office on the prescribed form. Applications must be complete, must be executed in accordance with the instructions, and must contain the information required on the reverse of the prescribed form.

§ 38.201 *Time for filing application.* Applications under § 38.200 should be filed as promptly as possible and in any event must be filed on or before October 11, 1943. The Act does not permit consideration of applications filed after that date.

§ 38.202 *Action on applications.* (a) Applications will be held in the regional office until it is determined under the regulations pursuant to Executive Order No. 9235 that the property applied for is not to be transferred to a Federal agency or agencies (excepting the Lend-Lease

Administration). If the property has been transferred or will be required for such transfer in whole or in part, or if in whole or in part it will be used by an authority under §§ 38.100-38.105 or is not available in any event, the regional officer will advise the authority to that effect and will ascertain from the authority whether or not it wishes the application to be considered as to any remainder of the property applied for. Otherwise, further action will not be taken.

(b) Except as provided in paragraph (a) of this section, the regional officer will then transmit the application, noting thereon such items as are not available for the purposes of §§ 38.200-38.205 of these regulations, to the appropriate State board for vocational education for transmittal with its recommendation to the United States Commissioner of Education, or, if the applicant so requests, will so transmit it directly to the United States Commissioner of Education.

(c) Upon receipt from the United States Commissioner of Education of an application bearing his certificate that the property applied for is to be used for vocational education and training, the Director of Procurement will approve such application if and to such extent as he determines that it is appropriate to do so in fulfillment of the purposes of the Act, taking into consideration the application of any other authority for the same property, the character of the property, and the interests of the war effort. If the Director approves an application in whole or in part, a copy of the approved application will be transmitted to the authority as evidence of the loan agreement.

(d) If the United States Commissioner of Education declines to certify any application as required by the Act, such application must be disapproved.

§ 38.203 *Deliveries to applicants.* Property loaned under §§ 38.200-38.205 will be delivered to the applicant at the project site or other place where it is located on the date of approval of the application. It will be the responsibility of the applicant to arrange promptly for any necessary packing and transportation, at the expense of the applicant if use of the property by the applicant is to be at another location.

§ 38.204 *Receipts for property loaned.* Upon delivery, the applicant shall furnish a receipt to the representative of the Procurement Division in charge of such delivery, on the receipt form furnished by him for that purpose.

§ 38.205 *Period of and conditions upon loans.* Property loaned under §§ 38.200-38.204 of these regulations will be subject to the provisions of §§ 38.300-38.308.

**PERIOD OF USE OR LOAN AND CONDITIONS APPLICABLE THERE TO**

§ 38.300 *Maximum period.* The maximum period of continued use of any property by any authority and the maximum period of any loan of property to any authority are limited by the Act to the period of the present war and not exceeding six months after the termina-

tion thereof. In no event may either such period extend beyond the date when such property ceases to be used for vocational education purposes. These basic limitations apply both to property as to which continued use is permitted under §§ 38.100-38.105 and to property loaned under §§ 38.200-38.205 of these regulations.

§ 38.301 *Use limited to vocational education purposes.* Property which any authority is permitted to continue to use or which is loaned to any authority under these regulations shall be used for vocational education purposes only.

§ 38.302 *Locations of use.* Property in the possession of an authority under §§ 38.200-38.205 may be used in a community other than that indicated by the application of the authority only if the written approval of the Director of Procurement is first obtained. The regional officer with whom the application of an authority was filed shall be promptly notified in writing of any change in the location of property in its possession under §§ 38.100-38.105 or §§ 38.200-38.205.

§ 38.303 *Continuance of use for vocational education purposes.* It is the responsibility of regional officers to ascertain from time to time that property in the possession of authorities is being used by them for vocational education purposes. To facilitate the discharge of such responsibility by regional officers, each authority having property in its possession under these regulations shall furnish to the regional officer in whose region the property is located, as shown by Schedule A hereto attached, statements from time to time certifying that such property is being used by the authority for vocational education purposes. Unless otherwise agreed by the regional officer, such statements shall be furnished to him on or promptly after the first day of October, the first day of March, and the first day of June of each year in which the property remains in the possession of the authority. The regional officer may rely upon such statements or may secure such verification or make such independent investigation as he deems necessary.

§ 38.304 *Maintenance, inspection, and inventories.* (a) Property in the possession of authorities under these regulations shall be maintained in good repair at their expense and shall be returned to the United States in accordance with § 38.303 in its condition as of the date when possession was obtained by the authority, ordinary wear and tear excepted, or, if possession was obtained by the authority on or prior to June 30, 1943, in its condition as of that date, ordinary wear and tear excepted, unless prior to that date the authority made a commitment imposing upon it a greater responsibility with respect to the maintenance and return of the property, in which event the terms of such prior commitment shall govern.

(b) Property in the possession of authorities shall at all times be subject to inspection and inventory by the Director of Procurement, or his representative.

§ 38.305 *Termination of use or loan.*  
 (a) Any authority which ceases to use for vocational education purposes property in its possession for continued use or on loan under the authority of these regulations shall promptly report such cessation of use to the regional officer specified in § 38.303. Permission to continue the use of such property, or the loan of such property, as the case may be, shall thereupon terminate.

(b) In the absence of a report from the authority under paragraph (a) of this section, the regional officer in whose region the property is located may at any time report to the Director of Procurement that he has found property in the possession of any authority to be no longer in use by such authority for vocational education purposes. If the Director of Procurement, on the basis of such report and any further investigation that he deems necessary, is satisfied that the property is no longer being used for vocational education purposes, he may by notification to the authority having possession of the property terminate its right of continued use or the loan of the property, as the case may be.

(c) In his discretion, the Director of Procurement may at any time terminate continued use by or the loan of any property to any authority which fails to comply with the requirements of these regulations, and may at any time terminate for any other reason any loan under §§ 38.200 to 38.205 of these regulations.

§ 38.306 *Return of property on expiration or termination of permitted use or loan.* Upon expiration of the period of maximum use or loan of any property under § 38.300 of these regulations, or upon termination of the permitted use or loan of any property under § 38.305, and unless such expiration or termination affects only the use of the property by another authority, the authority having possession of such property shall promptly return such property to the United States in accordance with such instructions as may be issued by the Procurement Division, providing at its own expense any necessary transportation and preparation for domestic shipment. The authority shall not, however, be obliged to incur a greater expense than would be incurred in preparing for shipment and shipping the property to the Procurement Division warehouse nearest the point from which the property is returned.

§ 38.307 *Exception as to expendable property.* The obligation of authorities to return property in their possession in accordance with these regulations shall not extend to property which by nature is consumed through use, except to the extent that such property has not been so consumed prior to expiration or termination of the period of permitted use or loan, as the case may be.

§ 38.308 *Approved application to constitute commitment.* Any application submitted under these regulations, upon approval in accordance with these regulations, and upon the mailing of a copy of the approved application to the applicant, shall become a commitment bind-

ing the applicant to compliance with the applicable provisions of these regulations. Any application approved without certification by the United States Commissioner of Education shall be considered to have been approved under § 38.102 and shall bind the applicant to compliance with §§ 38.103, 38.104, and §§ 38.300 to 38.303. Any application approved after such certification shall be considered to have been approved under § 38.202 and shall bind the applicant to compliance with §§ 38.203, 38.204, and §§ 38.300 to 38.308.

Wage and Hour Division.

LEARNER EMPLOYMENT CERTIFICATES  
ISSUANCE TO VARIOUS INDUSTRIES

Notice of issuance of special certificates for the employment of learners under the Fair Labor Standards Act of 1938.

Notice is hereby given that special certificates authorizing the employment of

learners at hourly wages lower than the minimum rate applicable under section 6 of the Act are issued under section 14 thereof and § 522.5 (b) of the regulations issued thereunder (August 16, 1940, 5 F.R. 2862) to the employers listed below effective July 23 and July 27, 1943.

The employment of learners under these certificates is limited to the terms and conditions as designated opposite the employer's name. These certificates are issued upon the employers' representations that experienced workers for the learner occupations are not available for employment and that they are actually in need of learners at subminimum rates in order to prevent curtailment of opportunities for employment. The certificates may be cancelled in the manner provided for in the regulations and as indicated on the certificate. Any person aggrieved by the issuance of the certificates may seek a review or reconsideration thereof.

FEDERAL POWER COMMISSION.

[Docket No. G-487]

CITIES SERVICE GAS CO., ET AL.

ORDER TO SHOW CAUSE AND FIXING DATE OF HEARING THEREON

JULY 20, 1943.

In the matter of Cities Service Gas Company, Cities Service Transportation and Chemical Company and Cities Service Company.

It appearing to the Commission that:

(a) On July 17, 1943, the Commission received from the State Corporation Commission of the State of Kansas a letter reciting in substance, among other matters, that Cities Service Gas Company proposes to construct a pipeline from the Oklahoma end of the Hugoton gas field across Oklahoma, to connect with and become a part of its pipeline system; that, to its knowledge, no application for authority to construct and operate such line has been filed with any regulatory commission; that Cities Service Gas Company, or its affiliated distributing companies, have advertised in the Kansas City, Missouri, and Topeka, Kansas, newspapers that the supply of gas this coming winter will not be increased by reason of the construction of the proposed pipeline; that, in its opinion, there is available in the Hugoton field more than sufficient natural gas to meet the requirements of the areas now served by Cities Service Gas Company and by other companies that purchase gas from it; that it would be appropriate to determine whether a different location for the proposed pipeline

might not better serve the public need; and stating:

We are vitally concerned in the matter of having a sufficient supply of gas for the areas involved. The delay on the part of the Cities Service Gas Company to make application to your Commission for authority to construct and operate the proposed line may seriously affect the supply of gas for the coming winter. In the light of these circumstances, we are wondering if your Commission might not initiate an investigation into the matter of this proposed line and determine what the real situation is so that all interested parties may be fully informed, and some solution worked out that will assure an adequate supply of gas this coming winter in the affected areas. We suggest such an investigation.

(b) On June 19, 1943, Cities Service Gas Company filed a notice of intention to cancel, effective August 22, 1943, its Rate Schedule FPC No. 51, providing for the sale of natural gas to Union Gas System, Inc., for resale to certain industrial consumers; and by letter to the Commission, dated June 30, 1943, Union Gas System, Inc., protested such cancellation of service, requested a hearing, and stated among other things:

We would further like to present evidence to show that the material being granted Cities Service Gas Company by the War Production Board, is being so located in connection with the supply of gas and with their system as to prevent its complete use, and thus continue in force an inadequate supply of gas which will cause an unnecessary shortage in the area, thus permitting them to cancel their lower price contracts and to secure for themselves a complete monopoly of gas distribution in this area.

(c) Cities Service Gas Company, a Delaware corporation having its principal office in Bartlesville, Oklahoma, and authorized to do business in the States of Texas, Oklahoma, Missouri, Kansas, and Nebraska, produces natural gas in the States of Texas, Kansas, and Oklahoma, and purchases natural gas in the States of Kansas, Oklahoma, and Missouri, transports said natural gas from the States in which it is produced or purchased, through, or into other States, and sells such natural gas either directly to consumers or to other gas companies for resale for ultimate public consumption for domestic, commercial, industrial, or other uses, in the States of Texas, Oklahoma, Missouri, Kansas and Nebraska, and is, therefore, a natural-gas company within the meaning of the Natural Gas Act;

(d) Cities Service Gas Company is a wholly-owned subsidiary of Empire Gas and Fuel Company (Delaware), whose outstanding voting stock is in turn controlled by Cities Service Company, the top holding company in the Cities Service system;

(e) On April 6, 1943, Cities Service Gas Company filed a formal application with the War Production Board seeking priority assistance and a preference rating certificate for materials for the purpose of constructing the following facilities:<sup>1</sup>

<sup>1</sup> Hereinafter referred to as the "proposed project."

(1) 240 miles of 26-inch diameter main transmission pipeline extending from a proposed field station in the Hugoton gas field (situated in northwestern Oklahoma, southwestern Kansas, and northeastern Texas) to its Blackwell, Oklahoma, compressor station, having an initial capacity of 140,000 M. c. f. daily;

(2) A compressor station of 8,000 rated horsepower at the Hugoton field terminus of the main outlet transmission line capable of compressing 140,000 M. c. f. daily at a discharge pressure of 720 pounds gauge;

(3) Looping of its existing pipeline system from Burbank, Oklahoma, to Tallant, Oklahoma, with 35.25 miles of single 12-inch line to deliver increased quantities of gas to the "East Side" of the present pipeline system;

(4) Looping of the existing 18-inch tie-over immediately south and southeast of Wichita, Kansas, with 11.25 miles of 20-inch pipeline to permit the service of increased demands in the Wichita area and to augment gas deliveries to the "East Side" of the existing system;

(5) Reconditioning of 16 miles of 16-inch line south of Wichita to permit carrying higher pressures for increased throughputs to markets in the Wichita and Hutchinson, Kansas, areas;

(6) 3 miles of 6-inch pipeline to serve the increased fuel requirements of the Socony Oil Refinery at Augusta, Kansas;

(7) Addition of 340 horsepower to Saginaw compressor station in Newton County, Missouri, to "fortify" deliveries of gas to Camp Crowder, Missouri, and to Springfield Gas and Electric Company for resale to consumers in Springfield, Missouri;

(8) Telephone communication facilities to the Hugoton field;

(f) By letter of May 1, 1943, the War Production Board advised Cities Service Gas Company and Cities Service Company that favorable action could not be taken on the application for priority assistance and a preference rating certificate unless assurance could first be given that the following conditions, among others, would be met:

That you will proceed with the entire project immediately upon receipt of our preference rating certificate, acquiring rights of way, placing all necessary orders for pipe and equipment, prosecuting required applications for approval of regulatory bodies, including the Federal Power Commission, contracting for construction and taking all other reasonable steps to assure completion

of the project in time for service during the coming winter.

(g) Cities Service Company, by letter of May 11, 1943, indicated its willingness to make the commitments called for by the War Production Board's letter of May 1, 1943, referred to in paragraph (f) above;

(h) Pursuant to the request of Cities Service Gas Company, made May 19 and May 20, 1943, the application for priority assistance and a preference rating certificate was treated by the War Production Board as amended so that Cities Service Transportation and Chemical Company, a newly formed organization in the Cities Service system, should receive the priority assistance and preference rating certificate originally requested by Cities Service Gas Company;

(i) The War Production Board, in a letter dated May 24, 1943, addressed to Cities Service Company, Cities Service Transportation and Chemical Company, and Cities Service Gas Company, transmitted a preference rating certificate for the proposed project, and stated:

While as requested by you we have issued the preference rating certificate to the Cities Service Transportation and Chemical Company, it is understood that the Cities Service Company, and, to the extent that it is concerned, the Cities Service Gas Company also assume responsibility for compliance with the stated conditions.

(j) The War Production Board, in its letter of May 24, 1943, stated that the preference rating certificate was being issued subject to the "understanding" embodied in its letter of May 1, 1943, to Cities Service Company and in that Company's response of May 11, 1943, and to the following "essential conditions":

(1) That you will proceed with the entire project immediately upon receipt of our preference rating certificate, acquiring rights of way, placing all necessary orders for pipe and equipment, taking all steps necessary with the Federal Power Commission to comply with any applicable requirements of the Natural Gas Act and with all other regulatory commissions having jurisdiction over any phase of this matter, contracting for construction and taking all other reasonable steps to assure completion of the project in time for service during the coming winter.

(2) That you will be prepared to enter into contracts with such neighboring utility systems as may apply to you for assistance in meeting threatened deficiencies during the war, such contracts to extend for the duration of the war and for one year thereafter, or such shorter time as will enable the other

systems to augment their supply by alternative measures.

(3) That you will make deliveries of gas pursuant to allocations or directives of the War Production Board irrespective of whether or not contracts have been concluded covering such deliveries.

(k) By letter dated June 3, 1943, addressed to the president of Cities Service Gas Company, the Commission stated among other things that:

In view of the obvious intention of the WPB, and your representations of the urgent necessity for the early construction of the additional pipeline facilities in your area, a proper application for a certificate of convenience and necessity covering the proposed pipe line, in accordance with section 7 (c) of the Natural Gas Act, as amended, should be immediately filed with the Commission.

Mr. W. Alton Jones, President of the Cities Service Company, has stated to us that when priorities were granted, "we hope we can confidently count on your helpful cooperation in the furtherance of this project." This cooperation can be obtained, and delay avoided, by prompt filing of an application for a certificate to the end that we may take the action required here as expeditiously as possible. Your prompt cooperation in this matter would be greatly appreciated.

(l) By letter dated June 12, 1943, the Commission again advised Cities Service Gas Company, Cities Service Transportation and Chemical Company, and Cities Service Company of the provisions of the Natural Gas Act, stating among other things that:

Although several months have elapsed since you expressed a desire to construct a pipeline to the Hugoton field to relieve the emergency in your area, you have refrained from filing an application for a certificate of convenience and necessity pursuant to section 7 (c) of the Natural Gas Act. The Congress in requiring the issuance of such a certificate, as a prerequisite to undertaking the construction or operation of a natural gas pipe line, subject to the jurisdiction of this Commission, thereby provided an opportunity for State regulatory agencies and other interested parties to be heard in the matter. Responsibility for any delay in such proceedings, resulting from your failure to file a timely application, will rest squarely with your company,

and requested that said companies promptly file with the Commission the following information and data:

A copy of all contracts, arrangements and understandings between Cities Service Transportation and Chemical Company, Cities Service Company, Cities Service Gas Company and others, pursuant to which it is proposed to construct, finance and operate the proposed Hugoton line project, including agreements to purchase, transport, process

and sell natural gas, and a copy of the articles of incorporation, together with the names and addresses of the officers, directors and stockholders of the Cities Service Transportation and Chemical Company;

(m) Neither an application for a certificate of public convenience and necessity under section 7 (c) of the Natural Gas Act, as amended, nor such information and data have been filed with this Commission; and said companies have failed and refused to file an application for a certificate of public convenience and necessity or furnish the data and information heretofore requested;

(n) Cities Service Gas Company, Cities Service Transportation and Chemical Company, and Cities Service Company are proceeding with the construction of the proposed project in that:

An order for the pipe required for the proposed project was placed on or about June 8, 1943, to be delivered according to the following schedule: 15,000 tons in September, 22,000 to 25,000 tons in October, and the balance of 46,000 tons in November 1943; a field construction office has been established in Ponca City, Oklahoma; engineering and other construction organization has been assembled; reconnaissance of the pipeline route has been completed and the river crossing sites have been selected; negotiations with contracting firms for the laying of the pipeline are proceeding; and right-of-way work at three river crossings and on the eastern end of the line is in progress;

(o) Cities Service Transportation and Chemical Company and Cities Service Company may become natural-gas companies upon completion of the proposed project, and such companies and Cities Service Gas Company may have undertaken the construction or extension of facilities for the transportation or sale of natural gas subject to the jurisdiction of the Commission in violation of section 7 (c) of the Natural Gas Act, as amended; and such companies may undertake to construct or operate facilities, or engage in the transportation or sale of natural gas, subject to the jurisdiction of this Commission, without having first obtained a certificate of public convenience and necessity as required by said section 7 (c);

The Commission finds that:

(1) It is necessary and appropriate, in the public interest, to carry out and aid in the enforcement of the provisions of the Natural Gas Act, that an investigation be instituted by the Commission, as hereinafter provided, into the facts, conditions, practices and matters herein referred to, and to determine whether:

(i) Cities Service Gas Company, Cities Service Transportation and Chemical Company, Cities Service Company, or any other individual, association, or corporation has violated or is about to violate the provisions of the Natural Gas Act;

(ii) Such companies or any of them should be required to obtain a certificate of public convenience and necessity under section 7 (c) of the Natural Gas Act, as amended;

(iii) A certificate of public convenience and necessity should be issued to such companies;

(2) The documents, data and information hereinafter required to be filed with the Commission are relevant and material to such investigation;

Wherefore, the Commission orders that:

(A) Cities Service Gas Company, Cities Service Transportation and Chemical Company, and Cities Service Company, at a public hearing to be held commencing August 11, 1943, at 9:45 a. m., in Room No. 527 in the U. S. Court House, Kansas City, Missouri, show cause, if any there be, why:

(i) Cities Service Gas Company, Cities Service Transportation and Chemical Company, and Cities Service Company should not be ordered to file immediately an appropriate application for a certificate of public convenience and necessity for the proposed construction, operation, transportation and sale of natural gas, pursuant to section 7 (c) of the Natural Gas Act, as amended, and the rules and regulations thereunder;

(ii) The Commission should not forthwith proceed to determine whether said companies are qualified to receive a certificate of public convenience and necessity for the proposed service, sale, operation, construction, and extension, and are able and willing properly to do the acts and to perform the service pro-

posed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder; whether the proposed service, sale, operation, construction, and extension is or will be required by the present or future public convenience and necessity; and whether the public convenience and necessity will require that terms and conditions be attached to any grant of certificate and exercise of rights thereunder;

(iii) Cities Service Gas Company, Cities Service Transportation and Chemical Company, and Cities Service Company should not be determined to have violated or are about to violate section 7 (c) of the Natural Gas Act, as amended.

(B) The hearing shall also be held for the purpose of affording to said companies an opportunity to be heard with respect to all matters hereinabove referred to, and for the purpose of investigating and determining the facts and circumstances surrounding such matters;

(C) Cities Service Gas Company, Cities Service Transportation and Chemical Company, and Cities Service Company shall file, under oath, with the Commission, on or before August 4, 1943, the following:

A true copy of all contracts, arrangements and understandings, between Cities Service Transportation and Chemical Company, Cities Service Gas Company, Cities Service Company, and between said companies and others, pursuant to which it is proposed to construct, finance, and operate the proposed project, including agreements to purchase, transport, process and sell natural gas; and a true copy of the articles of incorporation of Cities Service Transportation and Chemical Company, together with the names and addresses of its officers, directors and stockholders;

(D) Interested State commissions may participate in this proceeding, as provided in Section 67.4 of the Provisional Rules of Practice and Regulations under the Natural Gas Act.

By the Commission.

Due consideration has been given to the application, and an opinion in support of this order has been issued simultaneously herewith. For the reasons set forth in the opinion under the authority vested in the Regional Administrator of the Office of Price Administration for Region IV by Administrative Order 25 (redesignated as General Order No. 32) issued and effective September 1, 1942, and in accordance with § 1499.3 (c) of General Maximum Price Regulation, *It is hereby ordered, That:*

Roddenbery Company, buy or receive for resale a reconditioned used syrup barrel at a price no higher than \$2.80 per barrel.

(2) On and after November 7, 1942, regardless of any contract or other obligation, the W. B. Roddenbery Company, any retail dealer or other person, may sell or deliver to an ultimate consumer a reconditioned used syrup barrel at a price no higher than \$2.85 per barrel.

(3) The stated maximum prices shall include the furnishing of all services customarily performed by the seller during the 1941 selling season incidental to the

sale of reconditioned used syrup barrels, including, but not limited to, terms of delivery and replacement and adjustment of defective units.

(4) All credit terms, discounts, allowances and price differentials offered by the seller during the 1941 selling season shall be maintained.

II. *Requirements of marking.* All reconditioned used syrup barrels sold pursuant to this order shall be marked by the W. B. Roddenbery Company prior to sale and delivery by branding, stencil or other customary permanent means in such a manner that such unit shall be capable of immediate identification as a Roddenbery barrel.

III. *Requirements of notification and posting.* (1) The W. B. Roddenbery Company shall on or before the effective date of this order, deliver a copy of such order to each retail dealer to whom deliveries of any reconditioned used syrup barrels have been made during the 1941 selling season, or during that portion of the 1942 selling season prior to the effective date hereof; and shall deliver a copy of such order to any other retail dealer on or before the first delivery of any such barrel to such other retail dealer after the effective date hereof.

(2) Every person making sales subject to this order shall post a copy of this order in a conspicuous place in his place of business, and shall make such order available during business hours for examination by any person requesting to see same.

IV. *Definitions.* For purposes of this order:

(1) "Retail dealer" shall mean any person who buys and receives reconditioned used syrup barrels for resale to the ultimate consumer.

(2) "Ultimate consumer" shall include any person who buys or receives reconditioned used syrup barrels for purposes of packaging raw sugar cane syrup at the place of production thereof, and such person for purposes of this regulation shall not be considered to be an industrial or commercial user.

(3) "Selling season" shall mean the months of October, November and December.

(4) "Reconditioned used syrup barrel" shall mean a standard half barrel of approximately 35 gallons capacity, mainly of cypress construction, to which all operations of cleaning by steam, reconditioning and of other reconditioning customary to the trade have been fully performed prior to the time of sale and delivery and which bears the marking required by paragraph II of this order.

(5) All other terms used, unless the context otherwise requires, shall be construed in accordance with § 1499.20 of the General Maximum Price Regulation.

V. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments that have been heretofore or which may be hereafter issued.

VI. *Effective date.* This order shall become effective November 7, 1942.

[Region IV Order G-15 Under 18 (c)]

FIREWOOD FOR LAWRENCEBURG, TENN.

Order No. G-15 under § 1499.18 (c), as amended, of the General Maximum Price Regulation. Adjustment of firewood prices for Lawrenceburg, Tenn. (Formerly Price Order No. 18 (c)-19).

The Regional Administrator of the Office of Price Administration for Region IV has determined that a serious shortage of firewood exists in Lawrenceburg, Tennessee. The Regional Administrator has determined upon his own motion that, in his judgment, the maximum prices established in § 1499.2 of the General Maximum Price Regulation for the sale or delivery of firewood are inadequate to insure a sufficient supply of firewood to meet heating requirements in Lawrenceburg, Tennessee. The Regional Administrator has ascertained and given due consideration to the increased costs of production and transportation which sellers of firewood in this area must incur in order to produce such firewood compared with such costs in March 1942 and in any earlier months in which firewood was generally produced in said area. It has likewise been determined that former producers of firewood have been diverted from this production into other industries because of more lucrative returns due to the fact that present maximum prices for firewood are so low. So far as practicable the Regional Administrator has advised and consulted with sellers of firewood who will be affected by this order.

In the judgment of the Regional Administrator maximum prices established by this order are and will be generally fair and equitable and will adjust maximum prices established in § 1499.2 of the General Maximum Price Regulation to the minimum extent necessary to insure a sufficient supply of firewood in Lawrenceburg, Tennessee, and within a radius of three miles from the corporate limits of said town.

Therefore, under the authority vested in the Regional Administrator by § 1499.18 (c), as amended, of the General Maximum Price Regulation, Order No. G-15 is hereby issued.

1. *Maximum prices for firewood.* On and after the 11th of February, 1943, regardless of any contract or other obligations, no person shall sell or deliver in Lawrenceburg, Tennessee, or in the area within a radius of three miles of the corporate limits of Lawrenceburg, Tennessee, any firewood, and no person shall buy or receive in the course of trade or business in said area, any firewood at prices higher than the maximum prices set forth below:

(a) The maximum prices for sales or deliveries at retail of firewood shall be:

1. Firewood cut in lengths of from 14" to 16", \$9.00 per cord, and \$3.00 per rick.
2. Firewood sold as split stove wood \$10.50 per cord and \$3.50 per rick.

(b) The maximum prices for sales or deliveries of firewood other than at retail shall be:

1. Firewood cut in 4' lengths \$5.00 per cord.
2. Firewood cut in rick lengths of from 14" to 16", \$6.00 per cord.

The prices established in this Order G-15 include delivery at the purchaser's premises and other services incident to the sale of firewood customarily performed by the seller in March 1942.

All credit terms, discounts, allowances and price differentials offered by the seller during March 1942, shall be maintained.

2. *Definitions.* When used in this Order No. G-15, the term: (a) "Firewood" means oak, hickory, beech, gum, or other kind of wood, exclusive of slabs, prepared and intended for consumption as fuel and cut to the dimensions for which maximum prices are hereinabove established.

(b) "A cord." A cord shall contain 128 cubic feet of firewood.

(c) "A rick" shall mean one-third of a cord.

(d) All other terms used, unless the context otherwise requires, shall be construed in accordance with § 1499.20 of the General Maximum Price Regulation.

3. *Records and reports* (a) Every seller at retail whose maximum prices are established by this order must keep posted at a conspicuous place in his place of business a copy of this order.

(b) Every seller whose maximum prices are established by this order shall keep for inspection by the Office of Price Administration a record of each sale of firewood made by him on and after the effective date of this order. Such record must show the date of delivery, the kind and quantity of wood sold, the name of the purchaser and the amount charged for the sale.

(c) Every seller at retail whose maximum prices are established by this order shall deliver to the purchaser with respect to each sale thereof a written bill or invoice which shall contain (1) the date on which the sale or contract of sale was made; (2) a description of the size, kind, quantity of firewood involved in the transaction; (3) the price charged; and (4) the following statement: By Order No. G-15 issued by the Atlanta Regional Office on February 10, 1943 and effective February 11, 1943, the Office of Price Administration established maximum prices for oak, hickory, beech, gum, or other kind of firewood, exclusive of slabs, sold or delivered in Lawrenceburg, Tennessee, at \$9.00 per cord, and \$3.00 per rick, on fire wood cut in lengths of from 14" to 16"; and \$10.50 per cord and \$3.50 per rick on firewood sold as split stove wood. Copy of said order may be inspected at the place of business of the above named seller.

4. *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, all transactions

subject to this order remain subject to all of the provisions of the General Maximum Price Regulation, together with all amendments and supplementary regulations or orders that have been heretofore or may be hereafter issued.

5. *Effective date.* This Order No. G-15 shall become effective the 11th of February, 1943.

This order may be revoked or amended at any time.
