Section 1220.2 is hereby revised and amended in its entirety to read as follows:

§ 1220.2 *Limitations on sale, shipment, and inventories of protein meal and on use of soybean products—(a) Set-aside requirement.* Any processor shall, when so ordered by the Director of Food Production, War Food Administration (hereinafter referred to as the "Director"), set aside, for sale and delivery to such agency or other person or into such area as the Director may designate, such quantity of protein meal as the Director may specify.

(b) *Restrictions on shipments into designated areas.* The Director may, from time to time, prohibit or limit the shipment or delivery of any kind of protein meal into any area that he may designate. No person shall make or accept any shipment or delivery of protein meal in violation of any order issued by the Director pursuant to the authority granted by this paragraph.

(c) *Limitation on delivery of protein meal by handlers.* Whenever he deems it necessary to obtain an equitable distribution of protein meal in any area, the Director may limit the quantity of protein meal which any class of handlers within such area may deliver to feeders during any part of the feeding year.

(d) *Limitations on mixed feed manufacturers.* During the 1944 calendar year, no mixed feed manufacturer shall use any quantity of protein meal in the manufacture of mixed feeds, which is in excess of the average quantity of protein meal used by him in the manufacture of mixed feeds during the calendar years 1942 and 1943, and in determining the average quantity of protein meal used by a mixed feed manufacturer in 1942 and 1943, the quantity to be considered as used in December 1943 shall be the average of the quantities used by him in October and November 1943. Whenever he deems it necessary to obtain such distribution of protein meal as will be equitable among mixed feed manufacturers, handlers and feeders, the Director may limit the quantity of protein meal which any mixed feed

manufacturer may use in the manufacture of mixed feeds during any part of the feeding year.

(e) *Limitations on protein processors.* Whenever he deems it necessary to obtain such distribution of protein meal as will be equitable among persons who purchase protein meal from processors, the Director may limit the quantity of protein meal which any processor may deliver to any class of buyers during any part of the feeding year.

(f) *Prohibition on sale, purchase and use of soybean products, other than soybean meal, cake or pellets for feed.* No person shall sell or deliver and no person shall purchase or accept delivery of soya flour, grits or similar edible products of soybeans, other than soybean meal, cake or pellets, for use as or manufacture into feed for livestock and poultry, and no such products shall be used as or manufactured into feed for livestock and poultry.

(b) Any feeder may accept delivery at any one time of not to exceed 2,000 pounds of any protein meal if individual deliveries are not made more frequently than similar deliveries to such person in the past; and

(c) Any ranchman may accept delivery of protein meal in such amounts as are necessary to provide a readily available supply of protein meal for ranch feeding purposes and to make the most economical use of transportation facilities under regulations issued by the Office of Defense Transportation.

(2) The Director may prohibit any processor from building up an inventory of protein meal in excess of either the quantity produced by him during the last fifteen days in which he produced protein meal or his inventory of protein meal on the corresponding day of the feeding year 1941-1942, whichever is greater.

(j) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, or the premises or stocks of protein meal, of any person, and make such investigations, as may be necessary or appropriate, to the enforcement or administration of the provisions of this order.

The Director, upon the basis of such application and other information, may take such action as he deems appropriate. The decision of the Director shall be in writing and shall be final and conclusive.

(m) *Penalties for violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, or who conspires with another person to perform any of such acts, is guilty of a crime and upon conviction may be punished by fine and imprisonment. In addition, any such person, by administrative suspension order, may be prohibited from receiving any deliveries of, or selling or otherwise disposing of, or using, protein meal or any other material now or hereafter authorized to be rationed or allocated by, or subject to the priority control of, the War Food Administrator, and may be deprived of any priority assistance. § 203.0 *Introductory.* Banks and trust companies designated and qualified pursuant to the terms of this part are given the title "Special Depositaries of Public Moneys" and are hereinafter referred to as "special depositaries." Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of United States Government obligations purchased by such banks or trust companies for their own account or for the account of their customers, who enter their subscriptions through these banks or trust companies, when this method of payment is permitted under the terms of the circulars inviting subscriptions to such issues. The deposit credits set up under this designation are called "War Loan Deposit Accounts." Under this arrangement the large sums of money raised by the Treasury through financing operations are left on deposit in local bank-

ing institutions until the Treasury needs to withdraw them to meet Government expenditures thus avoiding the dislocations in the banking system which might result from immediate withdrawal of such funds. Pursuant to recent amendments to the Federal Reserve Act, these deposit accounts will, for the duration of the War and for six months after the cessation of hostilities, be exempt from insurance assessments of the Federal Deposit Insurance Corporation and from the reserve requirements of the Federal Reserve System.

## GENERAL PROVISIONS

§ 203.1 *Designation of banks and trust companies as special depositaries of public moneys.* All incorporated banks and trust companies in the United States (including the District of Columbia), the Territories of Alaska and Hawaii, Puerto Rico, the Virgin Islands and the Panama Canal Zone, are hereby designated, subject to qualification in accordance with the provisions of this part, as Special Depositaries for receiving deposits of public moneys as authorized by the Act of Congress approved September 24, 1917, as amended (Second Liberty Bond Act, as Amended), hereinafter referred to as the act: *Provided*, That no bank or trust company shall perform any of the acts covered by this designation until it has qualified so as to act in the manner herein prescribed.

§ 203.2 *Application; resolution; forms.* Any incorporated bank or trust company desiring to participate in the deposit of public moneys as authorized by the act should apply for qualification through the Federal Reserve Bank of its district. Such application must be in Form H-5, hereto attached, and must be accompanied by a certified copy of a resolution, duly adopted by the Board of Directors of the applicant, in Form J-5, hereto attached. For the purpose of this part, banks and trust companies located in the Territories of Alaska and Hawaii will be considered as being located in the San Francisco Federal Reserve district, and banks and trust companies located in Puerto Rico, the Virgin Islands, and the Panama Canal Zone will be considered as being located in the New York Federal Reserve district. No incorporated bank or trust company which has made application for qualification shall act as a Special Depositary under the terms of this part until it receives from the Federal Reserve Bank notice of approval of the application.

§ 203.3 *Depositaries already qualified.* Special depositaries already qualified to a sufficient amount pursuant to Department Circular No. 92 (Revised) dated April 14, 1943, as amended, will not be required to file new formal applications or resolutions, but they will, by the acceptance or retention of deposits after December 31, 1943, be conclusively presumed to have assented to all the terms and provisions hereof, and to the retention of collateral security theretofore pledged as collateral security hereunder.

§ 203.4 *Discontinuance of depositaries; redesignation.* A special depositary, heretofore or hereafter qualified, which having subscribed to an offering

of United States bonds, notes, certificates of indebtedness, or Treasury Bills and having in due course received an allotment on its subscription refuses to receive the said allotment and to make payment therefor, may be discontinued. A special depository discontinued for any reason may be requalified by the Federal Reserve Bank of its district upon full compliance with the terms of this part.

§ 203.5 *Amount of deposits for which application will be made.* In fixing the maximum amount of deposits for which it will apply, the applicant bank or trust company should be guided by the amount of the payments which it expects to make, on subscriptions made by or through it for bonds, notes, certificates of indebtedness, and Treasury Bills of the United States issued under authority of the act, and, as well by any statutory limitations upon the amount of deposits which the applicant bank or trust company may receive from any one depositor.

§ 203.6 *Determination of maximum amount of deposits for which special depository may qualify.* Determination as to the maximum amount of deposits for which a special depository may qualify is committed to the Federal Reserve Banks acting under the direction of the Secretary of the Treasury.

#### COLLATERAL SECURITY

§ 203.7 *Special depositories must pledge collateral security before receiving deposits; acceptable securities.* Special depositories will be required, before receiving deposits, to pledge as collateral security for such deposits securities of any of the following classes, to an amount, taken at the rates and conforming to the conditions provided below, at least equal to such deposits: *Provided,* That no collateral security shall be required for such part of the deposits as are insured under section 12B of the Federal Reserve Act, as amended:

(a) *United States Government securities.* Transferable bonds, notes, certificates of indebtedness, and Treasury Bills of the United States Government of any issue, including interim certificates or receipts for payment therefor, except such securities as by the terms of their issue are not acceptable as security for deposits of public moneys; all at face value.

(f) *State notes, certificates of indebtedness, and warrants.* Approved notes, certificates of indebtedness, and warrants issued by any State of the United States; at 90 percent of market value, not to exceed face value.

(g) *County and municipal securities.* Approved bonds of any county, city, or other political subdivision in the United States; and approved notes, certificates of indebtedness, and warrants with a fixed maturity issued by any county or city in the United States, which are direct obligations of the county or city as a whole, or which are payable from general taxes levied on all taxable property in such county or city; provided the obligations meet the requirements of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System and the Federal Deposit Insurance Corporation for classification by bank examiners under Group I, as follows:

Group I securities are marketable obligations in which the investment characteristics are not distinctly or predominantly speculative. This group includes general market obligations in the four highest grades and unrated securities of equivalent value.

Obligations of counties, cities, and other political subdivisions, rated in one of the three highest grades by a recognized investment service organization regularly engaged in the business of rating or grading bonds, may be accepted at 90 percent of market value, not to exceed face value, and other qualified obligations of counties, cities, and other political subdivisions may be accepted at 80 percent of market value, not to exceed face value.

(h) *Corporate securities.* Approved bonds, notes, and other obligations of domestic corporations, provided, they meet the requirements for classification under Group I as defined in § 203.7 (g) of this part; at 80 percent of market value, not to exceed face value.

§ 203.8 *United States Government securities or obligations guaranteed by the United States may be required to be pledged as security.* The Secretary of the Treasury reserves the right to require all or any stated percentage of deposits received by any bank pursuant to the provisions of this part and not insured under section 12B of the Federal Reserve Act, as amended, to be secured by pledge of United States Government securities or obligations guaranteed by

the United States as defined in §§ 203.7 (a) and 203.7 (b) of this part.

§ 203.9 *Additional collateral.* The stipulations as to the rates at which collateral may be accepted hereunder are intended to indicate maximum values only and the right is expressly reserved to call for or require additional collateral security at any time.

§ 203.10 *Additional collateral; approval and valuation; withdrawals; substitution.* The approval and valuation of securities is committed to the several Federal Reserve Banks, acting under the direction of the Secretary of the Treasury. #### CUSTODY OF SECURITIES

§ 203.11 *Deposit of securities with Federal Reserve Bank or branch or designated custodian.* All securities accepted as collateral security for deposits hereunder must be deposited with the Federal Reserve Bank or branch of the district in which the depository is located, as fiscal agent of the United States, or by the direction of and subject to the order of such Federal Reserve Bank or branch, as fiscal agent of the United States, with a custodian or custodians within the United States designated by such Federal Reserve Bank, and under such terms and conditions as it may prescribe.

#### HOW DEPOSITS ARE TO BE MADE

§ 203.12 *War Loan Deposit Account.* Each qualified special depository will be required to open and maintain or continue for the account of the Federal Reserve Bank of its district, as fiscal agent of the United States, a separate account for deposits to be made hereunder, to be known as the "War Loan Deposit Account."

§ 203.13 *Payment by credit of amounts payable on subscriptions; form of notice.* Qualified special depositories, if and to the extent from time to time hereafter authorized by the Secretary of the Treasury, may be permitted to make payment by credit, when due, to a War Loan Deposit Account, of amounts payable on subscriptions made by or through them for bonds, notes, certificates of indebtedness, and Treasury Bills of the United States issued under authority of the Act of September 24, 1917, as amended. In order to make payment by credit to a War Loan Deposit Account, the special depository must, on or before the date when such payment is due, notify the Federal Reserve Bank of the district of such intention and issue a certificate of advice to such Federal Reserve Bank, stating that a sum specified has been deposited with such depository for the account of such Federal Reserve Bank, as fiscal agent of the United States, in the War Loan Deposit Account. Such certificate of advice will be furnished in the form and manner prescribed by the Federal Reserve Bank.

§ 203.14 *Deposits not to exceed authorized amount.* The amount deposited with any Special Depository shall not in the aggregate exceed at any one time (a) the maximum amount for which it shall have been qualified as a depository, nor (b) the aggregate amount of the collateral security pledged by it taken at the rates hereinbefore provided, excepting that part of the deposits insured under section 12B of the Federal Reserve Act, as amended.

### Chapter IX—War Production Board

#### ISSUANCE OF NECESSITY CERTIFICATES

Amended regulations<sup>1</sup> (December 17, 1943) governing the issuance of Necessity Certificates under section 124 (f) of the Internal Revenue Code, prescribed by the Chairman of the War Production

<sup>1</sup>For prior regulations see 7 F.R. 4233; 8 F.R. 13824.

Board, with the approval of the President.

The following regulations are hereby prescribed by the Chairman of the War Production Board, with the approval of the President, pursuant to the authority contained in Executive Order 9408, dated December 17, 1943.<sup>2</sup>

(1) *Applications for Necessity Certificates to which these regulations apply.* These regulations shall apply to (a) applications for Necessity Certificates filed on and after October 5, 1943 and pending December 17, 1943, with the Secretary of War and the Secretary of the Navy which describe facilities the construction, reconstruction, erection or installation of which has not begun or which have not been acquired, and (b) applications for Necessity Certificates filed after December 17, 1943 which describe facilities the construction, reconstruction, erection, or installation of which has not begun or which have not been acquired.

(2) *Definitions.* As used throughout these regulations:

(a) "Emergency facility" means any facility, land, building, machinery, or equipment or part thereof, the construction, reconstruction, erection or installation of which was completed after December 31, 1939, or which was acquired after such date, and with respect to which a Necessity Certificate has been made.

(b) "Emergency period" means the period beginning January 1, 1940, and ending on the date on which the President proclaims that the utilization of a substantial portion of the emergency facilities, with respect to which Necessity Certificates have been made, is no longer required in the interest of national defense.

(c) "Taxpayer" means a person as that term is defined in section 3797 (a) (1) of the Internal Revenue Code.

(d) "Certifying authority" means the Chairman of the War Production Board, or his duly authorized representative.

(e) "Commissioner" means the Commissioner of Internal Revenue.

(f) "Necessity Certificate" means a certificate made pursuant to section 124 (f) of the Internal Revenue Code, certifying that the construction, reconstruction, erection, installation or acquisition of the facilities, referred to in the certificate, is necessary in the interest of national defense during the emergency period.

(g) "Supply" means any article, product, material or service.

(3) *Determination of necessity.* In determining whether the construction, reconstruction, erection, installation or acquisition of a facility is necessary in the interest of national defense during the emergency period, and that a Necessity Certificate may therefore be issued, the certifying authority will be guided by the following considerations:

(a) *Supplies required for national defense.* The certifying authority will

<sup>2</sup>Supra.

consider whether the supply to be produced with the facility sought to be certified is required in the interest of national defense during the emergency period. A supply may be found to be so required if it:

(i) Is essential for military or naval uses by the Armed Forces of the United States or auxiliary personnel, including civilian defense, or by any nation which may be furnished supplies under any Act of Congress or any authorization of the President; or

(ii) Is for essential civilian use, domestic or foreign, or for any nation which may be furnished supplies under any Act of Congress or any authorization of the President, and is clearly necessary in the interest of national defense.

(b) *Shortage of supplies required for national defense*—(i) *General rule.* The certifying authority will consider whether, at the time of the expansion or conversion there is an existing or prospective shortage of facilities for the production of the supply which is to be produced by the facility sought to be certified. Every attempt must be made to utilize existing productive capacity in the United States for the production of supplies, through the medium of prime contracts, subcontracts, conversion, greater utilization of existing plant and equipment or otherwise, before expansion of facilities for emergency purposes is undertaken. As a general rule, facilities will be certified only if an over-all shortage of facilities exists or is threatened for producing such supply.

(ii) *Exceptions*—(1) *Impracticability of using existing facilities elsewhere.* Existing capacity will be regarded as insufficient if, notwithstanding an over-all adequate capacity, facilities are lacking in a particular region, there is a necessity of insuring a regional supply, and the lack of the supply cannot be met by surplus capacity in other regions because of the shortage of manpower or transportation facilities.

(c) *Other considerations.* The certifying authority will be guided by the following additional considerations:

(i) *Depreciable assets.* With the exception of land, facilities will not be certified unless they are subject to the deduction provided for by section 23 (l) of the Internal Revenue Code.

(ii) *Land.* Land will not be certified as necessary unless directly related to the production, storage, transportation or protection of supplies necessary in the interest of national defense.

(iii) *Acquisition of going concern.* Acquired facilities previously constituting the principal productive assets of a going concern will not ordinarily be certified unless there is a clear prospect of a substantial increase in the usefulness of such facilities resulting from such acquisition and such increase cannot be obtained by other practical means or unless a probable substantial loss of usefulness would result except for such acquisition.

(iv) *Replacements.* If it is established that replacements would have been made, at or about the time made, regardless of the emergency, they will not be eligible for certification.

(v) *Applications for certification of certain facilities must be filed with request for priority assistance or specific authorization.* The issuance of a Necessity Certificate will not be considered for tax amortization of facilities acquired after the issuance of these regulations and for which an application for a Necessity Certificate is filed after the issuance of these regulations, the acquisition of which can be made only with priority assistance or specific authorization of the War Production Board, unless the application for a certificate is filed together with the application for priority assistance or specific authorization; and the specific authorization or priority assistance will not be granted until a determination upon issuance of the Necessity Certificate has been made.

(vi) *Government and privately financed facilities.* Necessity Certificates will be issued only where it is to the advantage of the government that the facilities in question be privately financed.

(d) *Procedure.* The certifying authority may transmit a copy of any application to such other Government department or agency as it may designate, for recommendation. In any such case, no action will be taken by the certifying authority until such other Government department or agency has made its recommendation as to the disposition of such application or has notified the certifying authority that it will make no recommendation.

(4) *Application must be filed before construction is begun or date of acquisition.* The construction, reconstruction, erection, installation or acquisition of a facility will not be deemed necessary within the terms of these regulations unless a determination of necessity is made by the certifying authority prior to the beginning of the construction, reconstruction, erection, installation or date of acquisition.

(5) *Effect of Necessity Certificates*—(a) *General rule.* A Necessity Certificate is conclusive evidence of certification by the certifying authority that the facilities therein described are necessary in the interest of national defense, up to the percentage therein designated of the cost attributable to the construction, reconstruction, erection, installation or acquisition thereof after December 31, 1939.

(b) *As to descriptions, costs and dates.* The certifying authority will not certify the accuracy of the cost of any facility or of any date relative to the construction, reconstruction, erection, installation or acquisition thereof. It will be incumbent upon taxpayers electing to take the amortization deduction to establish to the satisfaction of the Commissioner the identities of the facilities, the costs thereof and the dates relative thereto, except that in the case of Emergency Plant Facilities contracts the War Department or Navy Department will furnish the Commissioner with a copy of the Final Cost Certificate.

(c) *Further description after certification.* Where after the completion of an expansion the taxpayer finds that the description or cost of any facility appearing in the Necessity Certificate

materially varies from the actual description or cost of the facility, a statement should be filed by the taxpayer with the certifying authority setting forth the correct description or cost of the emergency facility actually constructed, reconstructed, erected, installed or acquired. A copy of the statement will be forwarded by the certifying authority to the Commissioner, provided the description or cost in the opinion of the certifying authority is within the scope of the original certification, and when so forwarded, the statement will have the effect of an amendment of the original certificate.

(6) *Form of application.* The formal application filed after the effective date of these regulations shall conform to the standard form prescribed by the Chairman of the War Production Board, shall clearly and concisely set forth the information called for in the form, and shall be executed in the manner and by the person prescribed by the form. The standard form of application for a Necessity Certificate with accompanying instructions may be obtained from the certifying authority.

(7) *Place and time of filing of application.* (a) After the effective date of this regulation, an application for a Necessity Certificate for facilities for which, within the meaning of prior regulations, the date of beginning of construction or acquisition was prior to October 5, 1943, shall be filed with the War Production Board in Washington, D. C., and shall be deemed to be filed when received at that office.

(b) All other applications for Necessity Certificates filed under the terms of these regulations shall be filed with the War Production Board in Washington, D. C.; except that if an application is required by paragraph (3) (c) (v) above to be filed together with an application for priority assistance or specific authorization, it shall be filed at such office of the War Production Board or of another government agency as may be specified at the time of filing for such accompanying form.

(c) The proper places for filing applications for a Necessity Certificate may be changed by the certifying authority from time to time.

(8) *Exercise of powers of Chairman of War Production Board.* Any actions taken in exercise of the powers and authority vested in the Chairman of the War Production Board by the Executive Order referred to above may be taken in the name of the War Production Board, countersigned or attested by the Executive Secretary or the Recording Secretary of the War Production Board.

(9) *Amendment of regulations.* These regulations may be amended by the Chairman of the War Production Board with the approval of the President.

DONALD M. NELSON,  
Chairman.

(3) [Deleted Oct. 5, 1943]

(e) Restrictions on consumption of pulp, paper and paperboard in the manufacture of converted products not specifically listed. (1) No converter shall dur-

ing the final calendar quarter of 1943 or during any calendar quarter thereafter consume in the manufacture or assembly of any converted product not named on List A, List B, List C or List D of this order, any quantity, in tons, of pulp, paper and paperboard greater than 65 percent of the tonnage consumed in the manufacture or assembly of such converted product during the corresponding calendar quarter of 1942.

(2) In the instance of any converted products not named on any of the lists of this order, the following processes and operations shall not be considered as processing:

(i) Cutting, trimming or rewinding to a different size when such is performed as part of any established finishing room procedure and provided the paper or paperboard so processed is not intended for a use which serves to defeat the purpose of the order. (Example: the cutting of plain paper to a given size for use as a tray cover, the manufacture of which is curtailed by this order).

(ii) Punching or corner cutting.

(iii) Super-calendering.

(iv) Laminating.

(v) Coating, friction calendering, flint glazing, plating and embossing.

(vi) Collating and binding.

(vii) Printing, when such contributes to the functional value of the product to such a degree that the product would be incapable of performing the use intended if not printed, (Examples: advertising streamers, posters, menus, programs, timetables, sheet music, patterns, decalcomania transfers, checks), or when such printing is an intermediate process in the manufacture of an article or type of converted paper.

(viii) Printed wrappers when printing is the only conversion operation other than cutting or trimming.

(ix) Embossing, corrugating, creping and crinkling for industrial and non-decorative uses.

(f) Alternate method of calculating quotas. As an alternate method of calculating quarterly quotas for any converted product, any person may, after the filing of a notice in writing with the War Production Board, elect to apply the percentages established by paragraphs (d) and (e) (1) of this order to one fourth of his total yearly consumption of pulp, paper and paperboard in such product during 1942. When such election has been made and the required notice in writing has been given to the War Production Board, the method of determining quotas may not thereafter be changed.

(g) Converter's responsibility in determining coverage of this order. It shall be the duty of each converter to determine in the first instance which of his products are included among the converted products referred to in this order. In case of doubt he may apply to the War Production Board in writing describing the product in question, for a specific ruling determining whether or

not the same is so included. The War Production Board may of its own motion in any case, by telegram or letter, issue a specific ruling determining whether or not a particular product of a particular converter is so included.

(h) Inventory restrictions. (1) No person shall knowingly deliver to any converter and no converter shall accept delivery of, any quantity of any grade of pulp, paper or paperboard if the inventory of such grade in the hands of the converter accepting delivery is, or will by virtue of such acceptance become, either

(a) In excess of two carloads, or

(b) If in excess of two carloads, greater than 45 days' supply, on the basis of either his average rate of consuming such grade of pulp, paper or paperboard for the preceding quarter or his average rate of consuming such grade of pulp, paper or paperboard as projected for the then current quarter.

(2) After January 1, 1944, no person shall knowingly deliver to any converter and no converter shall accept delivery of, any quantity of any grade of pulp, paper or paperboard if the inventory of such grade in the hands of the converter accepting delivery is, or will by virtue of such acceptance become, either

(a) In excess of two carloads, or

(b) If in excess of two carloads, greater than 30 days' supply, on the basis of either his average rate of consuming such grade of pulp, paper or paperboard for the preceding quarter or his average rate of consuming such grade of pulp, paper or paperboard as projected for the then current quarter.

(i) Allocations. The War Production Board may from time to time direct the production and delivery of specific quantities of any converted product included in this order. Such directions will be made to insure the satisfaction of war requirements both direct and indirect and essential civilian requirements and shall take precedence over any preference rating to the extent indicated by the War Production Board.

(j) Applicability of regulations. This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(k) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(l) Violations. Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(m) Communications. All communications concerning this order shall, unless otherwise directed, be addressed to:

PART 3286—MISCELLANEOUS MINERALS<sup>1</sup>

[Conservation Order M-49 as Amended Dec. 18, 1943]

IRIDIUM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of iridium for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3286.1<sup>1</sup> Conservation Order M-49—  
(a) *Definitions.* For the purpose of this order:

(1) "Iridium" means and includes the element iridium, whether it be in commercially pure form or contained in alloys, chemical compounds, or physical mixtures, or in scrap.

(i) Any alloy containing 0.05 per cent or more by weight of the element iridium is an iridium alloy.

(ii) Any chemical compound containing iridium as a recognizable component, using established chemical methods, is an iridium compound.

(iii) Any mixture, as of metal powders, containing iridium as a recognizable component is an iridium mixture.

(iv) Scrap or secondary materials containing commercially recoverable iridium are iridium scrap.

The term "iridium" does not include iridium which has been fabricated or physically incorporated into finished end products or finished parts for such end products; provided that fuse wire and electrical contacts shall not be deemed to be such end products or parts unless they have become physically attached to some other material or part other than one made entirely of platinum group metals.

(2) "Supplier" means any person who smelts, refines, melts, rolls, or otherwise produces commercially pure iridium in the form of sponge, bar, or ingot metal, who imports iridium in any form, or who offers iridium for sale.

(3) "Consumer" means any person who uses iridium in the manufacture or alloying of iridium alloys, mixtures, or chemical compounds, or who uses iridium by incorporating it physically in the products or parts thereof which he manufactures.

(4) "Use" means to change in any way the form, shape, size, or physical or

<sup>1</sup> Formerly Part 1011, § 1011.1.

chemical characteristics of the material from those in which such material is received by the consumer. The term includes alloying, compounding, or mixing. However, it shall not be deemed to include refining or remelting of iridium scrap.

(5) The terms "deliver" and "delivery" shall not be deemed to include delivery under toll agreement.

(b) *Allocations and directions.* (1) No person shall deliver, accept delivery of, or use iridium except as specifically authorized by the War Production Board. The War Production Board will from time to time allocate the supply of iridium and specifically direct the manner and quantities in which deliveries thereof shall be made and accepted; and the War Production Board may also issue special directions as to the manner and quantities in which iridium may be used with reference to particular purposes or end uses.

(2) The War Production Board may require any person seeking to place a purchase order for iridium to place such order with one or more particular suppliers, and may require a supplier to refrain from accepting a purchase order unless the acceptance thereof has been specifically authorized by the War Production Board.

(3) The War Production Board may from time to time issue specific directions or prohibitions with respect to the permissible kind or quantity of iridium in the manufacture or composition of any material or product, and it may also in its discretion direct the use in whole or in part of any practical substitute in lieu of iridium in the manufacture of any materials or products.

(4) Allocations and directions will be made to ensure satisfaction of all defense requirements of the United States, both direct and indirect, and they may be made without regard to any preference ratings assigned to particular contracts or purchase orders.

(c) *Applications and reports—(1) Consumer; acceptance of delivery and use.* Any consumer seeking authorization to accept delivery of and to use iridium in any calendar month shall file an application on Form WPB-2680 (formerly PD-869) with the War Production Board and with any supplier with whom he may place an order. Six copies of such application shall be prepared, of which one shall be forwarded not later than the 15th day of the month preceding the month for which authorization for delivery is requested to the supplier with whom the order or orders described in such application are placed, and four copies shall be sent not later than the 15th day of the month preceding the month for which authorization for delivery is requested to the War Production Board. A separate set of forms shall be prepared for each supplier with whom an order is placed.

(2) *Consumer; use.* A consumer (including a supplier who is also a consumer) who seeks authorization to use iridium which he has in his possession, the use of which has not previously been

authorized in writing by the War Production Board (specifically, or as provided in subparagraph (c) (3)), may apply for authorization by filing Form WPB-2680 (formerly PD-869) with the War Production Board. Three copies of such application shall be prepared and sent to the War Production Board not later than the 15th day of the month preceding the month for which authorization for use is requested.

(3) *Supplier; delivery.* A supplier's authorization to deliver iridium to any consumer will be received by such supplier from the War Production Board in the form of an executed copy of the consumer's authorization to accept delivery. Unless expressly provided otherwise, if such authorization covers acceptance of delivery of an iridium alloy, compound, or mixture, it shall constitute authorization to such supplier to use iridium in the manufacture or alloying of the iridium alloy, compound, or mixture, as well as authorization for its delivery to such consumer.

(4) *Supplementary applications.* If an emergency arises making such course necessary, supplementary applications may be filed by a consumer at any time, using Form WPB 2680 (formerly PD 869) and following the appropriate procedure specified for the monthly applications. Such applications shall be marked "Supplementary Application" and shall be accompanied by a brief written explanation of the emergency.

(5) *Monthly report.* Each supplier and each consumer shall file Form WPB-2679 (formerly PD-868) with the War Production Board on or before the 15th day of each month; Provided, That this report need not be filed in any month by a person (i) who at all times during the month to be covered by the report has had an inventory of 10 ounces or less of iridium, and during such month has not accepted delivery of more than 5 ounces of iridium in the aggregate, or (ii) who, regardless of inventory, has not delivered, accepted delivery of, or used any iridium at all during the month to be covered by the report.

(6) *Cancellation of deliveries; notice by supplier.* Each supplier shall notify the War Production Board of the cancellation by a consumer of any authorized delivery or of his own inability to make authorized delivery within five days after he has notice of such fact.

(7) *Termination of delivery authorizations.* Any authorization for delivery shall terminate automatically if the consumer requires the supplier to postpone such delivery beyond 10 days after the close of the month for which it is allocated, or if the consumer fails to place an order for the material, the delivery of which is authorized, before the end of such month.

(8) *Federal Reports Act of 1942.* The reporting requirements of this order have received the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(d) *Delivery exception.* Iridium, including iridium scrap, may be delivered without the specific authorization of the War Production Board to any supplier, to the Metals Reserve Company, or to any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended (15 U. S. C., section 606 (b)) or to any duly authorized agent of any such corporation.

(e) *Restrictions on use.* No person shall use iridium except for the manufacture of (1) fuse wires for detonators, (2) laboratory ware, (3) electrical contact points, (4) electrical primers, and (5) parts of instruments and devices which make use of the electrical resistivity or thermoelectric effect of platinum-iridium alloys; and except for experimental or instructional work in scientific, research, or instructional laboratories.

(f) *Small order exemption.* Notwithstanding the restrictions of paragraphs (b) and (c), a supplier may deliver not to exceed 5 ounces of iridium to any one consumer in any one calendar month, and a consumer may accept delivery of and use not to exceed 5 ounces of iridium from all sources in any one calendar month without having to receive any specific authorization from the War Production Board or having to file any application for such authorization. This exemption shall not apply, however, to any deliveries of iridium to, or acceptance of delivery or use of iridium by, a consumer who has already received an authorization from the War Production Board on Form WPB-2680 for the month in question.

Note: Paragraph (g) formerly (f) redesignated Dec. 18, 1943.

(g) *Miscellaneous provisions—(1) Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(2) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Miscellaneous Minerals Division, Washington 25, D. C.; Ref.: M-49.

(4) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority con-

trol and may be deprived of priorities assistance.

**PART 3292—AUTOMOTIVE VEHICLES, PARTS  
AND EQUIPMENT**

[Limitation Order L-128, as Amended Dec.  
18, 1943]

**USE OF CHROMIUM AND NICKEL IN AUTOMO-  
TIVE VALVES**

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of nickel, chromium, and other materials for defense for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3292.76 *Limitation Order L-128—*

(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(b) *Definitions.* For the purposes of this order:

(1) "Passenger automobile" means any passenger vehicle, including station wagons and taxicabs, propelled by an internal combustion engine and having a seating capacity of less than eleven (11) persons.

(2) "Light truck" means a complete motor truck or truck-tractor with a maximum gross vehicle weight rating of 9,000 pounds, as authorized by the manufacturer thereof, or the chassis therefor.

(3) "Medium and/or heavy motor truck" means a complete motor truck or truck-tractor with a maximum gross vehicle weight rating of 9,000 pounds or more, as authorized by the manufacturer thereof, or the chassis therefor.

(4) "Passenger carrier" means a complete motor coach for passenger transportation, having a seating capacity of not less than eleven (11) persons.

(5) "Off-the-highway motor vehicle" means a motor truck, truck-tractor and/or trailer, operating off the public highway, normally on rubber tires and specially designed to transport materials, property or equipment on mining, construction, logging or petroleum development projects.

(6) "Intake valve" means an automotive part whose function is to control the intake gases entering into the combustion chamber of an internal combustion engine.

(7) "Exhaust valve" means an automotive part whose function is to control the exit of exhaust gases from the combustion chamber of an internal combustion engine.

(8) "Automotive part" means replacement part for, passenger automobiles, light trucks, medium and heavy motor trucks, off-the-highway motor

vehicles and passenger carriers, including tractors and industrial engines for agricultural purposes.

(9) "Producer" means any individual, partnership, association, corporation or other organization engaged in the production of automotive parts.

(c) *Restrictions on use of chromium and nickel.* On and after September 25, 1943, except upon specific authorization of the War Production Board:

(1) No producer shall manufacture an intake valve for use as an automotive part from any material other than carbon steel or National Emergency 9400 or 8600 Series alloy steels.

(2) No producer shall manufacture an exhaust valve for use as an automotive part containing chromium or nickel in a greater percentage than the following:

(i) For passenger automobiles and light trucks: chromium, nine per cent (9%); nickel, none.

(ii) For medium and heavy motor trucks, off-the-highway motor vehicles and passenger carriers, including tractors and industrial engines for agricultural purposes: chromium, twenty-one per cent (21%); nickel, one point five per cent (1.5%).

(iii) For medium and heavy motor trucks, off-the-highway motor vehicles and passenger carriers equipped with engines having a piston displacement of three hundred (300) cubic inches or more: chromium, twenty per cent (20%); nickel, nine per cent (9%).

(iv) For all exhaust valves: As an optional percentage: chromium, fifteen per cent (15%) maximum; nickel, fifteen per cent (15%) maximum; tungsten, three per cent (3%) maximum; providing that where the foregoing percentages of chromium, nickel and tungsten are used, the steel must be produced from a melting charge of which not less than 90% is aircraft valve steel scrap.

(d) *Exemption of war agencies.* The prohibitions and restrictions contained in this order shall not apply to the manufacture of intake and exhaust valves under contracts or orders placed for delivery to or for the account of the United States Army, Navy, the United States Maritime Commission or War Shipping Board.

(e) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Appeals.* An appeal from the provisions of this order shall be made by filing a letter in triplicate with the Field Office of the War Production Board nearest the appellant's place of business, referring to the particular provisions ap-

pealed from and stating fully the grounds for appeal.

(g) *Communications.* All communications concerning this order shall be addressed to: War Production Board, Automotive Division, Washington 25, D. C. Ref.: Order L-128.

**PART 944—REGULATIONS APPLICABLE TO THE  
OPERATION OF THE PRIORITIES SYSTEM**

[Priorities Reg. 3, as Amended Dec. 18, 1943]

§ 944.23 *Priorities Regulation 3—(a) Purpose of this regulation.* This regulation states the rules for the use of preference ratings, what kind of purchase orders or services may be rated and how a rating may be put on an order. It also places restrictions on the use of ratings and includes lists of products for which ratings may not be used at all or for which certain kinds of ratings may not be used. In general this regulation should be consulted before using a rating whether it was gotten directly from the War Production Board or from a customer.

(b) *Definitions.* For the purposes of this regulation:

(1) "Person" and "material" mean the same thing they do in Priorities Regulation 1.

(2) "Assignment" of a preference rating. A preference rating is assigned to a person when the War Production Board or someone that it has authorized issues an order or preference rating certificate giving him the right to use the rating.

(3) "Application" of a preference rating. A preference rating is applied when the person to whom it is assigned uses the rating. A rating is applied also when any governmental agency which is authorized by the War Production Board rates an order for delivery of material directly to it or for performance of services directly for it.

(4) "Extension" of a preference rating. A preference rating is extended when it is used by the person to whom it is applied or extended by another person.

(c) *Use of ratings in general.* (1) When a regulation, preference rating order or preference rating certificate assigns a rating to any person, either by naming him or by describing the class of persons to which he belongs (as is done in the schedules to CMP Regulation 5), that person may apply the rating to get delivery of material or the performance of certain services. Also, a person may under certain conditions extend a rating which has been applied or extended to his deliveries of material, but not one applied to services. More detailed rules as to how and when ratings may be applied or extended are set out below in this regulation.

(2) When a War Production Board order or certificate states the quantities and kinds of material or the particular

services which are rated, the person to whom it is assigned may use the rating to get only that quantity and kind of material or that particular service named in the order or certificate. If the quantities of material are not stated in the order or certificate assigning the rating it may be applied only to get the minimum amount needed.

(3) No person may place rated orders for more material than he is authorized to rate even though he intends to cancel some of the orders or reduce the quantity of material ordered to the authorized amount before it is all delivered.

(d) *When ratings may be extended for material.* The following provisions of this paragraph (d) apply to all extensions of preference ratings to get deliveries of material, unless they are modified by or are inconsistent with the provisions of any particular order.

(1) A manufacturer of Class B products under the Controlled Materials plan and a holder of Form WPB-2613 (formerly PD-870) may not extend his customers' ratings (except AAA) as explained in more detail in CMP Regulation 3 and in Priorities Regulation 11B.

(2) When a person has received a rated order for the delivery of material, he may extend the rating to get the material which he will deliver on that order, or which will be physically incorporated in material which he will deliver. If the material is to be processed, this includes the portion of it which would normally be consumed or converted into scrap or by-products in the course of processing.

(3) If a person has made delivery of material, or has incorporated it into other material which he has delivered on a rated order, he may extend the rating to replace it in his inventory. However, if after delivering the material he still has a practicable working minimum inventory he may not extend the rating to replace the material delivered; and if by making the delivery his inventory is reduced below this minimum, the rating may be extended to get only the amount necessary to restore the inventory to a practicable working minimum. Any material ordered to replace in inventory must be substantially the same as the material which the person delivered or incorporated in the material which he delivered, except for minor variations in size, shape or design. Substitution of less scarce materials which do not substantially alter the purpose for which the material is to be used is, however, permitted. The Conservation Division of the War Production Board from time to time publishes a list showing the relative scarcity of materials, entitled "Materials Substitution and Supply List." The latest copy may be obtained from any War Production Board office.

(4) A person to whom a rating has been applied or extended to get material may not extend that rating to get containers or closures to pack the material; nor may he extend it to get any material for his own plant improvement, expansion or construction, or to get machine tools or other items which he will carry as capital equipment, or to get business

machines for his own use whether purchased or leased, or to get maintenance, repair or operating supplies for his own use. Other orders or regulations, such as CMP Regulation 5 and some orders in the "F" series, assign ratings which may be used by the proper persons to get maintenance, repair or operating supplies and minor capital additions.

(e) *Additional restrictions upon use of ratings for certain materials.* Because of special circumstances which exist with respect to certain materials and products, the use of preference ratings to get items on Lists A or B attached to this regulation is restricted as follows:

(1) *Items as to which preference ratings have no effect; List A.* Any item on List A may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to get any of these items and no person selling any such item shall require a rating as a condition of sale. Any rating purporting to be applied or extended to any such item shall be void and no person shall give any effect to it in filling an order.

(2) *Items to which blanket MRO ratings do not apply; List B.* Blanket MRO ratings may not be applied to get any item on List B, except as permitted by the list. A blanket MRO rating means a rating assigned by CMP Regulation 5 or 5A, or by any other War Production Board regulation, order (including an order in the "F" series), form or certificate which assigns a rating for maintenance, repair or operating supplies without specifying the kind and quantity of the material to which the rating may be applied. Where the quantity of material is specified in terms of dollar value only, the rating is a blanket MRO rating. No person shall give any effect to any rating applied to his deliveries of any item on List B if he knows or has reason to believe that it is a blanket MRO rating. Any blanket MRO rating applied to an order for any item on List B which was not delivered before the date the item was added to the list shall be deemed void. The restrictions of this paragraph are not applicable when the blanket MRO rating is applied to get an item on the list for use on board ship, but in such a case the rating may not be extended by the person to whom it is applied.

(3) *Illustration.* A manufacturer of a product listed in Schedule II of CMP Regulation 5 is assigned a rating of AA-2 for operating supplies. He may not use the rating to buy wooden shelving for his own use since it is on List B. A contractor has received an order bearing a rating of AA-3 to install wooden shelving in an Army camp. He may extend that rating to get the wooden shelving from the manufacturer since in this case the shelving is production material as to him and not operating supplies. If, however, wooden shelving were on List A instead of List B, neither rating could be used.

(f) *Use of ratings for services—(1) Ratings may not be used for personal services.* Preference ratings may never be used to get labor or personal services

as distinct from services performed in the course of a regular business involving the use of plant, machinery or equipment owned by the person furnishing the services. For example, ratings may be used to get a repair job done in a repair shop as explained below but may not be used to compel an individual employee to work on a repair job or to obtain the services of a consulting engineer.

(2) *Three cases where ratings may be used for services.* There are only three situations in which a preference rating may be used to get services, as distinct from the production or delivery of material:

(i) *A rating assigned for the purpose.* If the War Production Board assigns a rating to a named person to get specified services, he may use the rating for that purpose.

(ii) *For processing.* When a person has a rating which he may use to get processed material, he may (unless prohibited by another regulation or order) furnish the unprocessed material to a processor and use the same rating to get it processed.

(iii) *For repairs.* A blanket MRO rating may be applied by the person to whom it is assigned to get his plant, machinery or equipment repaired even if the repair job does not involve the delivery of repair parts or materials. See paragraph (e) (2) for definition of a blanket MRO rating. A rating assigned on Form WPB-541 (formerly PD-1A) or WPB-542 (formerly PD-3A), or any other rating which may be applied to the delivery of specific repair parts or materials, may also be applied to the installation of the repair parts or materials or to the repair job alone if it is found that installing the parts or materials is not necessary. However, in the case of ordinary plumbing, heating, electrical, automotive or refrigeration repairs, a rating may not be applied to repair work even if the rating is expressly applicable to repair parts or materials. As used in this subparagraph, "repair" means to fix a plant, machinery or equipment after it has broken down or when it is about to break down. "Repair" does not mean upkeep or maintenance service such as periodic inspection, cleaning, painting, lubricating, etc.

(3) *Ratings for services only may not be extended.* A person to whom a rating for services, as distinct from the production or delivery of material, has been applied or extended may not extend the rating for any purpose.

(g) *How to apply or extend a rating.* (1) When a person applies or extends a preference rating he must put the rating (and symbol, if appropriate) on the order together with a certification signed as prescribed in Priorities Regulation 7. He may use the certification set out in CMP Regulation 7, or if he prefers, the following:

CERTIFICATION

The undersigned purchaser hereby represents to the seller and to the War Production Board that he is entitled to apply or extend the preference ratings indicated opposite the items shown on this order, and that such application or extension is in accordance with Priorities Regulation 3 as

amended, with the terms of which the undersigned is familiar.

-----  
(Name of Purchaser)  
-----  
(Address)  
-----  
By -----  
(Signature and Title of  
Duly Authorized Officer)  
-----  
(Date)

(2) If the order is placed by telegraph the person placing the order may include in the telegram the words "ratings certified" or words to that effect and the requirements for signature under Priorities Regulation 7 will be complied with if the copy of the telegram kept by the person placing the order is signed or authorized in the manner provided in that regulation.

(3) A rating may be applied or extended by telephone only if the telephone order requires shipment within 7 days. The person placing the order must state the rating which is being applied or extended and must place the certification on the confirmation of the order or, if it is not confirmed in writing, must put it on his written record of the order. The seller must make a note in his records that the rating was received over the telephone.

(4) When a person applies or extends a rating he shall also include on his purchase order or contract any information which may be required by any applicable War Production Board order. However, he is not required to include the serial number of the preference rating certificate assigning the rating.

(5) Each person who applies or extends a rating must keep at his regular place of business all documents including purchase orders and preference rating orders and certificates which authorize him to apply or extend the rating. These documents, orders and certificates must be kept in such a way that they can be readily segregated and furnished to representatives of the War Production Board for inspection.

(6) When either certification authorized in this paragraph (g) is used it will not be necessary to use any other certification in order to apply or extend a preference rating, nor will it be necessary to furnish a copy of any preference rating order no matter what any regulation, preference rating order or preference rating certificate says unless it expressly states that this regulation does not apply. This does not affect the requirements of Priorities Regulation No. 9 (§ 944.30) when ratings are applied to certain types of exports, in which case its terms control.

(7) No person shall knowingly purport to apply or extend a preference rating to any order unless he is entitled to do so.

(h) Provisions applicable to extensions; deferment and grouping. No matter what any applicable preference rating order or certificate may say,

(1) No person may extend any rating to replace inventory after three months have passed from the time he could have first extended it;

(2) When a person has two or more ratings of the same grade which were assigned by different preference rating certificates or orders he may combine them and extend them to one delivery; and

(3) When a person has two or more ratings of different grades, or where they were assigned by the same or different certificates or orders, he may extend them to deliveries under one purchase order. However, the purchase order must show the amount of each material to which a particular grade of rating is extended. If the type and quantity of the material is such that the supplier can readily determine the exact effect of the extension of the rating on his production and delivery schedule from percentage figures alone, then the purchase order may show the amount of the material to which the particular grade of rating is extended on a percentage basis; otherwise, it must be shown as a separate item. In order to avoid production or delivery of material in quantities smaller than the minimum commercially practicable a person may combine ratings of different grades and extend the rating of the lowest grade to the total production or delivery.

(i) Restrictions in other orders. When any person applies or extends a rating he shall be subject to any applicable rule or restriction which may be set forth in the order of the War Production Board which assigns the rating or any other order which regulates transactions in the material or the facilities for which he is using the rating. This includes restrictions as to the kind and amount of material to which ratings may be applied or extended, requirements for written approval of any particular transaction, restrictions on certain uses of material or facilities and any other rules which may be applicable to the particular transaction. However, the rules of paragraphs (g) (4) and (g) (6) apply unless some other order or certificate expressly says that they do not.

Issued this 18th day of December 1943.

#### INTERPRETATION 1, REVOCATION

Interpretation 1 of Priorities Regulation 3 is hereby revoked. (Issued Nov. 17, 1943.)

#### INTERPRETATION 2

The restrictions on the use of ratings for the items on Lists A and B apply to orders for such items which had been placed before the date the item was put on the list but were not yet filled. (Issued Nov. 17, 1943.)

#### INTERPRETATION 4

A great many orders of the War Production Board permit the delivery of materials pursuant to preference ratings assigned by a P-19-h Order, or by an order in the P-19 series. Forms CMPL-224 and CMPL-127 are generally used in place of orders in the P-19 series. It is expressly stated on Form CMPL-224:

"This authorization is issued in lieu of preference rating order of the P-19 series. Any reference in any order of the War Production Board to said preference rating orders shall constitute a reference to this authorization."

It is set forth in CMPL-127:

"This authorization is issued in lieu of Preference Rating Order P-19-h or P-55. Any reference in any order of the War Production Board to said Preference Rating Order P-19-h or P-55 shall constitute a reference to this authorization."

Consequently, it is proper for any person to deliver material or equipment pursuant to a rating assigned by Forms CMPL-224 or CMPL-127, if he is permitted under existing orders of the War Production Board to deliver said material pursuant to a rating assigned by a P-19-h order or an order in the P-19 series. (Issued Aug. 13, 1943.)

#### INTERPRETATION 6

EFFECT OF PREFERENCE RATING CERTIFICATE REFERRING TO PRODUCT OF A PARTICULAR MANUFACTURER

(a) When a preference rating certificate in assigning a rating to a product describes the product by its trade name or by the manufacturer's name and catalogue number, the rating may ordinarily be used to get the product from any manufacturer if the model actually obtained is substantially identical in size, operation and function with that named in the certificate.

(b) The rule stated in the preceding paragraph is consistent with the statement in paragraph (c) (2) of Priorities Regulation 3 (§ 944.23), that a preference rating may be applied only to the specific quantities and kinds of material authorized. Ordinarily a reference in a preference rating certificate to a particular product of a particular manufacturer is no more than a shorthand way

of describing the product. It is safe to assume, unless the certificate clearly states otherwise, that what is being rated is a certain kind and size of product which may be obtained from any manufacturer who makes that kind and size. If it is intended to confine the rating to a particular product of a particular manufacturer, the certificate should say so explicitly. (Issued Sept. 8, 1943.)

#### INTERPRETATION 7

#### LIMITATIONS ON THE RIGHT TO USE RATINGS TO GET MATERIALS PROCESSED

(a) *What this interpretation covers.* This interpretation explains the limitations on the use of a preference rating assigned to the delivery of a material to get material processed under paragraph (f) (2) (ii) of the regulation.

(b) *Controlled materials.* Preference ratings cannot be used to buy controlled materials (steel, copper, and aluminum in controlled material form) from a producer or warehouse and consequently no rating may be used to get material processed into a controlled material by a producer or warehouse. There is one exception to this general rule which is covered by paragraph (d-1) of CMP Regulation No. 8, which assigns a preference rating to steel producer for use in getting steel processed into a controlled material form.

(c) *Class B products.* Paragraph (g) (3) of CMP Regulation No 1 prohibits allotments of controlled materials to B product manufacturers except by the War Production Board and, as explained in Interpretation No. 16 to CMP Regulation No 1, also prohibits a customer from furnishing controlled materials to a B product manufacturer. A special exception to this general rule is provided in Direction 36 to CMP Regulation No. 1. In all cases not covered by the exception, it is improper for a person to furnish controlled materials to a B product manufacturer for processing and consequently no preference rating can be used to get such processing done. In this connection, attention is called to the fact that all products, whether Class A products or Class B products, which are bought for use as maintenance, repair, or operating supplies are treated as though they were Class B products. This is covered by paragraph (k-1) (2) of CMP Regulation No. 1. As pointed out in Interpretation No. 13 to CMP Regulation No. 1, a Class A repair part is handled on a Class B basis and therefore paragraph (g) (3) of the regulation is applicable.

(d) *Ratings not to interfere with authorized controlled material orders.* While a person who has been assigned a rating to get material may use the rating to get the use of the facilities of a controlled materials producer to have the material processed (if the material, when processed, is not a controlled material) rated orders for the use of a controlled materials producer's facilities must not interfere with the acceptance, production, or delivery of orders which he is permitted to fill under paragraph (t) (3) of CMP Regulation No. 1. Attention is called to Interpretation No. 4 to Priorities Regulation No. 1 on this subject. (Issued Nov. 18, 1943.)

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, Interpretation 3, as Amended Dec. 18, 1943]

##### FIRE PROTECTIVE EQUIPMENT

The following interpretation has been issued with respect to Priorities Regulation 3:

Preference ratings assigned to the delivery of maintenance, repair and operating supplies (MRO ratings) may be used to obtain repair parts and materials for existing fire protective equipment, but may not be used to obtain end items of fire protective equipment. The term "Fire protective equipment", on List B attached to Priorities Regulation 3, includes only end items and does not include materials or parts required for the repair or maintenance of existing fire protective equipment.

For example, a fire extinguisher or a fire hose coupling is an end item of fire protective equipment and therefore may not be obtained on MRO ratings, whereas a part required to repair an extinguisher or coupling is not an end item and therefore may be obtained on MRO ratings. Similarly, MRO ratings may not be used to obtain a fire sprinkler system nor to extend an existing sprinkler system, but such ratings may be used to repair or replace sprinkler heads which have been opened up by fire or damaged in any other way. However, MRO ratings may not be used to repair or replace new equipment which is still usable.

Issued this 18th day of December 1943.

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 3, Interpretation 5, as Amended Dec. 18, 1943]

The following interpretation has been issued with respect to Priorities Regulation 3:

(a) *Restrictions of other orders on use of ratings or delivery.* The provisions of paragraph (e) relate only to the items which appear on the lists. When any other order of the War Production Board restricts the use of preference ratings to obtain any product, or restricts delivery of a product in any way, those restrictions are applicable even though that product is not listed in Priorities Regulation 3 (§ 944.23). This rule specifically applies to the items which were on List C before the amendment of August 10, 1943.

(b) *"Masking" tape.* Blanket MRO ratings may be used to get industrial pressure sensitive adhesive tape (paper and cloth), also called "masking" tape. This type of tape is not included in "Gummed stay and sealing tape, paper and cloth."

This interpretation is not applicable to adhesive tape backed with cellophane or similar transparent materials derived from cellulose which may not be obtained with blanket MRO ratings.

Issued this 18th day of December 1943.

#### PART 921—ALUMINUM AND MAGNESIUM [Supplementary Order M-1-d as Amended Dec. 20, 1943]

##### ALUMINUM SCRAP

The fulfillment of requirements for the defense of the United States has

created a shortage in the supply of aluminum scrap for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 921.6 *Supplementary Order M-1-d—(a) Definitions.* For the purposes of this order:

(1) "Aluminum scrap" means all materials or objects which are the waste or by-product of industrial fabrication, or which have been discarded on account of obsolescence, failure or other reason, the principal ingredient of which by either weight or volume is metallic aluminum; and shall include all types and grades of aluminum, residues, such as drosses, skimmings, fines, grindings, sawings and buffings: *Provided*, That the recoverable metallic aluminum content, as determined by the fire assay, hydrogen evolution or other method of comparable efficiency, constitutes 50% or more by weight of such residues.

(2) "Plant scrap" means aluminum scrap which is generated in the course of manufacture, and defective or rejected material, the principal metallic ingredient of which by either weight or volume is aluminum.

(3) "Segregated scrap" means aluminum scrap which has been segregated and otherwise handled in such manner as to be acceptable for reprocessing into aluminum of substantially the original specifications in accordance with section I of Schedule B hereof.

(4) "School scrap" means aluminum scrap which has been used in public or private vocational schools.

(5) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(6) "Producer" means the Aluminum Company of America, the Reynolds Metals Company, the Olin Corporation, and any other person who may be so designated in writing by the War Production Board.

(7) "Approved smelter" means any person whose name appears on Schedule A attached to this order, as the same may be amended from time to time.

(8) "Dealer" means any person regularly engaged in the business of buying and selling aluminum scrap.

(b) *Restrictions on use of aluminum scrap.* (1) No person, other than a producer or approved smelter, shall melt, reprocess, smelt or otherwise use aluminum scrap unless specifically authorized in writing so to do by the War Production Board on application made by letter to the Aluminum and Magnesium Division, Reference: M-1-d. *Provided, however*, That a foundry may remelt its gates, sprues and risers if in so doing it does not debase or contaminate the material, and if, in applying for permission to acquire aluminum, it reduces the requirements on its suppliers by an amount equal to the anticipated recoverable metal. A foundry may also accept a new casting of its own production, which is found to be defective or was spoiled in machining, and recast and re-ship it to replace the original casting.

(2) The War Production Board may issue directives to smelters, producers and others who may be permitted to melt aluminum scrap, which directives may direct the exact alloy or alloys which must be produced therewith and the amount of such alloy or alloys, and may prohibit the production of certain alloys. The War Production Board may also issue directives prescribing the amount of secondary ingot all fabricators (either independent or integrated) may be required to blend with primary ingot in the production of fabricated shapes, and it may, by directives, designate certain smelters who shall be the only smelters permitted to receive and melt scrap of certain alloys or the smelters who shall produce certain alloys. Directives with respect to all matters prescribed in this paragraph (b) (2) may contain directions as to the production schedule of the person to whom they are issued.

(c) *Segregation of aluminum scrap.* (1) Any person who generates 1000 pounds or more of plant scrap in a plant in any month shall carry out thereafter in any such plant the Aluminum Scrap Segregation Program set forth in Schedule B attached to this order and made a part hereof, unless otherwise directed in writing by the War Production Board.

(2) Any person receiving aluminum scrap shall keep such scrap segregated, prior to its use in the manner permitted by paragraph (b) hereof, to the same extent as when received by him; and if he redelivers such scrap, he shall do so segregated to the same extent as when it was received by him.

(d) *Contamination.* No person shall contaminate aluminum scrap with any other metal or material, except that a producer or approved smelter may mix aluminum scrap with other metals in the production of aluminum alloys.

(e) *Sale and delivery of aluminum scrap.* Except as otherwise specifically authorized in writing by the War Production Board, all persons generating or holding aluminum scrap shall deliver all such scrap at reasonable intervals in accordance with the following provisions:

(1) *17S, 24S and 52S plant scrap solids.* Unless the War Production Board has issued a directive in writing to the contrary pursuant to paragraph (e) (8) hereof, segregated plant scrap consisting of 17S, 24S or 52S aluminum alloy (including Alclad and Pufeclad) in solid form shall be shipped directly to any producer: *Provided, however,* That where the amount of such scrap generated from any one of such alloy specifications does not amount to 20,000 pounds in any month, the scrap of such alloy may also be shipped directly to any approved smelter or dealer.

(2) *Other plant scrap.* Except as provided in paragraph (b) (1) hereof, all other plant scrap shall be sold to any producer, approved smelter or dealer unless the War Production Board has issued a directive in writing to the contrary pursuant to paragraph (e) (8) hereof.

(3) *School scrap.* School scrap shall be sold to any dealer or approved smelter

and shall be designated as "school scrap" when sold.

(4) *Wrecked aircraft scrap.* Aluminum scrap (not including engines or engine parts) recovered from aircraft wreckage, shall be delivered only to a dealer unless it has been prepared by removing non-aluminum parts to the extent practicable and cutting or shearing the scrap into pieces not exceeding 24" x 24" x 60". Aluminum scrap recovered from aircraft wreckage (not including engines or engine parts) which has been prepared by removing non-aluminum parts to the extent practicable and cutting or shearing the scrap into pieces not exceeding 24" x 24" x 60", and aluminum scrap from wrecked aircraft engines and engine parts, shall be delivered to any dealer or approved smelter.

(5) *Ship repair scrap.* Aluminum scrap recovered from repairs to structural parts of ships, shall be delivered only to a dealer unless it has been prepared by removing non-aluminum parts to the extent practicable and cutting or shearing the scrap into pieces not exceeding 24" x 24" x 60". Aluminum scrap recovered from repairs to structural parts of ships which has been prepared by removing non-aluminum parts to the extent practicable and cutting or shearing the scrap into pieces not exceeding 24" x 24" x 60", shall be delivered to any dealer or approved smelter.

(6) *All other scrap.* Any person (other than a dealer, approved smelter or producer) who owns or originates any aluminum scrap (excluding plant scrap, school scrap, wrecked aircraft scrap or ship repair scrap) shall deliver such scrap to any dealer or approved smelter and shall not dispose of such scrap in any other way. See paragraph (b) (1) hereof for provisions prohibiting the use of aluminum scrap.

(7) *Dealer's operations.* Unless the War Production Board has issued a directive in writing to the contrary pursuant to paragraph (e) (8) hereof, all dealers must deliver any aluminum scrap (whether or not deemed to be usable in its "as is" form) to any producer or approved smelter: *Provided, however,* That any dealer may sell any scrap to another dealer if, in the regular course of business, he does not currently collect sufficient aluminum scrap to make it practicable for him to sell directly to a producer or approved smelter.

(8) *Directives.* The War Production Board may issue directives in writing to a particular person or to a class of persons directing him or them to deliver aluminum scrap of certain alloys to another specific person or to a class of persons.

(f) *Certification upon sale of segregated scrap.* The generator of segregated scrap shall furnish the person to whom he makes delivery thereof with a signed document, in the form of Form WPB-1787 or in substantially similar form, showing (i) the alloy number or specification, (ii) form of scrap, (iii) weight (on a clean and dry basis, moisture content estimated, if necessary) and (iv) the name and address of the plant where

generated. This document shall bear a notation as to the date of delivery and names and addresses of the parties to the transaction, and, in case of redelivery of such scrap, shall be endorsed and delivered to the person receiving such scrap. Any person delivering segregated scrap shall clearly mark it showing the alloy number or specification, form and source. No aluminum scrap other than segregated scrap shall be designated as segregated scrap by any person.

(g) *Tolling prohibited.* No aluminum scrap may be delivered or received pursuant to a toll, repurchase or similar arrangement, unless such transaction is specifically authorized in writing by the War Production Board.

(h) *No acquisition or delivery in violation of order.* No person shall hereafter acquire or deliver aluminum scrap or products made therefrom if he has reason to believe such material has been or is to be used in violation of the terms of this or of any other order of the War Production Board: *Provided, however,* That any producer or approved smelter may acquire aluminum scrap for any use permitted by this order at any time, irrespective of the right under this order of the person disposing of the same to have acquired or to deliver such scrap.

(i) *Records.* Each person who participates in any transaction involving aluminum scrap shall keep and preserve for at least two years complete and accurate records as to all such transactions which records shall be subject to inspection by the War Production Board.

(j) *Reports.* (1) Any person generating 10,000 pounds or more of plant scrap in a plant in any month shall thereafter file reports monthly on Form WPB-317 with the Aluminum and Magnesium Division covering any such plant. Any person generating in any other plant more than 1,000 pounds of plant scrap in any month in a calendar quarter, shall file with the Aluminum and Magnesium Division a report on Form WPB-2499, covering such plant during such quarter, which report shall be filed not later than 20 days after the end of such calendar quarter. Producers or smelters are not required to file the above reports.

(2) Any person, including smelters and producers, melting or smelting aluminum scrap in any month shall file a report on Form WPB-554 with the Aluminum and Magnesium Division covering each such month. Such report shall be filed on or before the 15th day of the month following the month covered by the report.

(3) All dealers handling aluminum scrap shall file Form WPB-202 with the Bureau of Mines, College Park, Maryland, by the 10th of each month, or such other reports as the War Production Board may require.

(4) For the purpose of this paragraph (j), foundries shall not consider as aluminum scrap any gates, sprues or risers which will be reused in their own plant or any defective castings or spoiled castings returned to the foundry for recast-

ing and reshipment to replace the original casting in accordance with paragraph (b) (1).

(k) *Addressing of communications.* All applications, statements, reports or other communications filed pursuant to this order or concerning the subject matter hereof, should be addressed to: War Production Board, Aluminum and Magnesium Division, Washington, D. C., Ref: M-1-d.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or fur-

nishes false information to any department or agency of the United States, is guilty of a crime, and, upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 20th day of December 1943.

WAR PRODUCTION BOARD,  
By J. JOSEPH WHELAN,  
Recording Secretary.

D. O. No dealer or other person not a regular employe of the plant shall perform any such functions except as the War Production Board may specifically authorize.

(2) *Collection and identification.* Segregation shall be effected by collection at the machine where the aluminum scrap is generated. Separate containers for collection and bins for storage shall be provided for each type of aluminum scrap required to be segregated by this program. All containers and bins shall be clearly marked to identify the alloy and the form of scrap for which they are intended, and they shall be kept clean, dry and in good condition, so that their contents shall be protected from contamination and the weather. Each container and bin shall be used only as a receptacle for the alloy and form of scrap for which it is designated and marked.

(3) *Identification of segregated scrap for shipment.* Each unit of segregated scrap shall, upon shipment, be clearly marked or labelled as to alloy number or specification, form and source, i. e., the plant where generated.

(4) *Obligation as regards subcontractors.* Each person operating a plant, as part of his arrangement with any subcontractor to whom he furnishes aluminum shall impose an obligation upon, and otherwise make every effort to see to it that, such subcontractor institutes and carries out an adequate scrap collection and segregation program in conformance with this schedule and Order M-1-d.

SCHEDULE B—ALUMINUM SCRAP SEGREGATION PROGRAM

I. *Segregation of aluminum scrap other than mixed aluminum scrap*—(1) *By alloy content.* Aluminum scrap (other than mixed aluminum scrap as hereinafter defined) of each individual alloy (for example 17S, 24S, 52S, 64S, etc., also 2S pure aluminum) shall be segregated from aluminum scrap of every other alloy.

NOTE: Scrap from coated material (Alclad or Pureclad sheet) may be included with uncoated material of the same alloy specification; but Scrap from painted material shall not be included with unpainted material of the same alloy specification except in very minor amounts.

(2) *By form.* In addition to the above segregation on the basis of alloy content, the scrap of each alloy (other than mixed aluminum scrap as hereinafter defined) shall be segregated into two form types:

(i) "Solids"—generated by shearing, clipping, cutting, blanking or similar process, also defective or rejected wrought aluminum parts, defective or rejected castings and gates, sprues, risers or similar foundry scrap;

(ii) "Machinings"—generated by machining, drilling, boring, turning, milling or like operations.

In no event shall solids and machinings be combined.

II. *Classification of mixed aluminum scrap by form*—(1) *Definition.* "Mixed aluminum

scrap" shall consist of aluminum scrap in the form of solids or machinings, the alloy content of which cannot be identified, or of grindings, sawings, buffings and other fines and of drosses, skimmings and sweepings. It shall also consist of aluminum scrap generated from No. 12 type and piston alloys unless the generator certifies to the person to whom he makes delivery that the aluminum scrap was generated from a specific alloy of the No. 12 type or from a specific piston alloy.

(2) *Classification.* All mixed aluminum scrap shall be separated into four classes as follows:

- (i) Solids;
- (ii) Machinings;
- (iii) Sawings;
- (iv) Drosses, skimmings, grindings, buffings and sweepings and other fines.

Each of the four classes of mixed aluminum scrap shall be handled separately from each other class of mixed aluminum scrap and from all other aluminum scrap but shall not be treated as segregated scrap under Order M-1-d.

III. *General provisions*—(1) *Official responsible for handling scrap.* Each person operating a plant generating aluminum scrap shall appoint a responsible employee to supervise the collection, segregation and handling of all aluminum scrap generated in the plant. The name of such employee shall be forwarded to the Aluminum and Magnesium Division, War Production Board, Washington,

**PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM**

[Priorities Reg. 3, Direction 2, as Amended Dec. 20, 1943]

**PAPER CUPS AND PAPER FOOD CONTAINERS**

The following direction is issued pursuant to Priorities Regulation 3:

(a) *Purpose.* This direction provides an exception to the provisions of List B of Priorities Regulation No. 3, which prohibits the use of MRO ratings to obtain paper cups and paper food containers. By the terms of this direction, MRO ratings may be used to obtain paper cups and paper food containers but only to the extent specified herein.

(b) *Definitions.* For the purpose of this direction:

(1) "Paper cups and paper food containers" means all empty open nested paper cups and round nested paper food containers with or without lids. The term does not include flat envelope types of cup, wedge-shaped food pails or nested paper plates.

(2) "In-plant feeding" means the serving of food, drink or refreshments on the premises of a plant or business activity to its employees when the food or drink is prepared on the premises of the plant or business activity, or when the food, or drink prepared in bulk (such as coffee or soup), is brought to the plant or business activity and served in paper cups or paper food containers on the premises.

(3) "A caterer or concessionaire" means a person who has an agreement with an operator of a plant or business activity to regularly provide in-plant feeding for its employees, and who prepares his food or drink on the premises of the plant, or brings his food, or drink prepared in bulk (such as coffee or soup), to the plant and serves it on the premises. It does not include persons supplying food or drink in paper cups or paper food containers from outside the plant.

(c) Any person may use the blanket MRO rating assigned to him by any regulation of the War Production Board (including CMP Regulation No. 5, CMP Regulation No. 5A and orders in the P, T, or U series) to buy paper cups paper food containers for in-plant feeding.

(d) A person, such as a caterer or concessionaire, may use his customer's blanket MRO rating to buy paper cups and paper food containers for use in providing in-plant feeding to employees of the customer. In such a case, the customer must include the cost of the paper cups and paper food containers (but need not include the cost of the food contained in them or any other charge in connection with the in-plant feeding) in his own MRO expenditures for the purpose of figuring whether he is within any quota limitation (such as paragraph (f) of CMP Regulation No. 5) imposed by the regulation or order assigning the MRO rating.

(e) Attention is called to the fact that persons buying paper cups and paper food containers for use in packaging food or other products for shipment or delivery are not permitted to use blanket MRO ratings for this purpose.

(f) No person shall accept delivery of any paper cups and paper food containers which will increase his inventory of any size and type to more than his reasonably anticipated requirements therefor for the ensuing thirty days, except that whenever the minimum standard commercial packing case quantity exceeds a thirty-day supply, the minimum standard commercial packing case quantity may be purchased without violating this provision.

(g) Preference ratings for users not included above and preference ratings differing from those assigned may be assigned on application by any person on Form WPB-541 (formerly PD-1A) and the use of the rating may be conditioned upon the placement of orders with specified suppliers. Where any person making such application justifies his need for a rating upon the ground that he provides eating facilities patronized principally by workers engaged in a nearby plant, he shall accompany his application with a statement from a responsible official of the plant certifying to his workers' dependence upon the applicant's eating facilities.

(h) For the purpose of this direction, Military Exchanges and Service Departments, as defined in Priorities Regulation No. 17, are considered to be military establishments engaged in in-plant feeding and hospitals in feeding patients suffering from contagious diseases are also to be considered as engaged in in-plant feeding.

(i) Any person affected by this direction shall file such reports and questionnaires as the War Production Board may request from time to time, subject to the approval of the Bureau of the Budget.

(j) The ratings assigned pursuant to or permitted to be used by this order may be applied or extended only by use of a certificate in substantially the form prescribed by Priorities Regulation No. 7.

(k) Ratings applied or extended to get paper cups or paper food containers may not be extended to obtain materials for use in their manufacture.

(l) No person (except in the case of Military Exchanges or Service Departments) shall apply blanket MRO ratings for the purchase of paper cups and paper food containers for in-plant feeding if he did not use such cups or containers before October 29, 1943. Where a plant desires to open a new in-plant feeding operation, it may apply for a preference rating to obtain its requirements of paper cups and paper food containers on Form WPB 541 (formerly PD-1A).

Note: Paragraphs (m) and (n), formerly (j) and (k), redesignated Dec. 20, 1943.

(m) The provisions of this direction shall terminate and be void after January 31, 1944 unless previously extended. Any rating applied to an order for paper cups and paper food containers not shipped by that date shall be deemed void.

(n) All inquiries relating to this direction shall be addressed to: War Production Board, Containers Division, Washington 25, D. C., reference Direction 2 to Priorities Regulation No. 3.

Issued this 20th day of December 1943.

§ 1042.2 *Supplemental General Imports Order M-63-a.* Until further order of the War Production Board, the provisions of General Imports Order M-63, as amended June 2, 1942, and thereafter, shall not apply to materials on List III of said order which are located in, and are the growth, production, or manufacture of, and are transported into the continental United States overland, by air, or by inland waterway from, Canada, Mexico, Guatemala, or El Salvador, except with respect to materials listed on Schedule A attached hereto.

PART 1226—GENERAL INDUSTRIAL  
EQUIPMENT

[General Limitation Order L-314, Amdt. 1]

## LUBRICATION EQUIPMENT

Section 1226.127 *General Limitation Order L-314* is hereby amended in the following respects:

1. There is added to paragraph (b) (3) the following:

(This paragraph (b) (3) does not prevent the use of other forms, such as WPB-646 for marine suppliers, by any person entitled to use them in applying for ratings.)

2. In paragraph (c) there is inserted after the heading "Production restrictions" the following:

Schedules A to E, inclusive, of this order list certain models, styles and sizes of the kinds of lubrication equipment defined in the headings for the respective schedules. The dates upon which the schedules become effective upon production, as previously fixed by this order, are postponed until such future dates, if any, as may hereafter be fixed by the War Production Board by amendment of this order (after further consideration has been given to the necessity and appropriateness of such schedules and their effective dates).

3. In paragraph (c) (1), the words "October 31, 1943" are changed to "such date as may hereafter be fixed by the War Production Board by amendment of this order".

4. In paragraph (c) (2), the words "December 20, 1943" are changed to "such date as may hereafter be fixed by the War Production Board by amendment of this order".

5. In paragraph (c) (3) (i) the words "October 31, 1943" are changed to "such date as may hereafter be fixed by the War Production Board by amendment of this order".

6. In paragraph (d) (1) the word "copper" is deleted.

7. Subparagraph (d) (1) (ii) commencing "Copper or \* \* \*" is deleted.

8. In paragraph (e) the words "January 20, 1944" are changed to "such date as may hereafter be fixed by the War Production Board by amendment of this order".

## PART 3102—NATIONAL EMERGENCY SPECIFICATIONS FOR STEEL PRODUCTS

[Limitation Order L-211, Interpretation 1 to  
Schedule 15]

## HOT-ROLLED CARBON STEEL BARS

The following interpretation of Schedule 15 of Limitation Order L-211 is hereby issued:

(a) The term "hot-rolled carbon steel bars" as used in the schedule does not include:

(1) Carbon file steel bars, which are considered to be tool steel bars.

(2) Wrought iron bars.

(b) The restrictions of the schedule apply generally to production and delivery, not to use. For example, although carbon steel bars in the dimensions listed under the heading "Nut-Steel Flats" are chiefly used for the manufacture of nuts, the schedule does not prohibit the production or use for other purposes of sizes permitted under this category.

(c) On the other hand, where a special quality or grade of steel is set forth in Table I, that type of steel may be furnished only in the dimensions listed. For example, the dimensions listed under the headings "Round Edge Flat Spring Steel" and "Automotive Round Edge Leaf Spring Flats" are applicable only to spring steel. Round edge flats in grades other than spring steel may not be produced in these dimensions, but must be produced only in the dimensions listed under the heading "Round Edge Flats." However, the rule stated in paragraph (b) of this interpretation is still applicable; spring steel purchased in accordance with the schedule may be used by the buyer for purposes other than the manufacture of springs.

(d) "Mill Edge" or "Strip Edge Flats" are not listed as such in this schedule but the dimensions listed under the heading "Square Edge Flats" also apply to "Mill Edge" or "Strip Edge Flats."

## PART 3270—CONTAINERS

[Conservation Order M-261 as Amended  
Dec. 20, 1943]

## STRAPPING FOR SHIPPING CONTAINERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of strapping for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

## Definitions

§ 3270.9 *Conservation Order M-261—*  
(a) *Definition.* "Strapping" means any

iron, steel or other metal wire or band reinforcements or closures, twelve (12) inches or more in length, for shipping containers excepting: metal for barrel hoops, reinforcement edging on returnable delivery cases, stitching, baling of compressed material, fastening of material or filled containers into bundles, or for fastening or blocking of material to skids or in vehicles or vessels.

#### Restriction

(b) *Restriction on use of strapping.* No person shall use commercially any strapping on shipping containers unless:

(1) The weight of the container and contents exceeds ninety pounds, or

(2) The net weight of the contents of the container exceeds .058 pounds per cubic inch, or

(3) Use of the strapping is required by regulation or order of the Interstate Commerce Commission, or

(4) The container for which the strapping is used, and its contents, are to be delivered to or for the account of the Army, Navy, Maritime Commission, or War Shipping Administration, and the strapping is required by such agency, or

(5) The shipment is for delivery outside of both the United States and Canada, or

(6) The strapping is for any of the following containers, provided the strapping is essential to the safe delivery of the contents and has been customarily used for the same type of shipment and container:

(i) Wooden or fibre containers containing fruits, vegetables, meats, fish, or poultry.

(ii) Wooden containers containing plumbing supplies or fixtures, made of vitreous china.

(7) The strapping is for wooden lard or butter tubs, and wooden buckets or pails, or

(8) Use of strapping by railroad companies or truckers is required by them to reinforce containers damaged in transit, or

(9) The strapping is for closing fibre drums or hexagonal or octagonal fibre containers.

(10) The strapping is for use on telescope boxes by a clothing manufacturer for the shipment of clothing, and then only if he has customarily used it for the same type of container and shipment.

#### Miscellaneous Provisions

(c) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

(d) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for appeal.

#### PART 3293—CHEMICALS

[Conservation Order M-54, as Amended Dec. 20, 1943]

#### MOLASSES

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of molasses for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.91 *Conservation Order M-54—*

(a) *Definitions.* For the purposes of this order:

(1) "Molasses" means any molasses, sirup, sugar solution, or any form of fermentative sugar (derived from sugar cane or sugar beets) and hydrol (corn sugar molasses). The term does not, however, include sugar as defined in Rationing Order No. 3 or sugar intended for and used for manufacture into sugar as so defined, or edible molasses as defined in Food Distribution Order No. 51. Blackstrap molasses is any final molasses produced in the manufacture of sugar from sugar cane or from the refining of raw sugar and includes all beet molasses produced in the manufacture of sugar from sugar beets. Invert molasses is any molasses made from sugar cane without extraction of sugars. For the purpose of this order one gallon of invert molasses is to be construed as one and a half gallons of blackstrap molasses and one gallon of hydrol is to be construed as one gallon of blackstrap molasses.

(2) "Producer" means any person engaged in the production of molasses and includes any person who has molasses produced for him pursuant to toll agreement.

(3) "Importer" means any person who transports molasses in any manner into

the continental United States. Release from the bonded custody of the United States Bureau of Customs shall be deemed a transportation.

(4) "Primary distributor" means any person, other than an importer or a producer, who sells molasses which he has acquired (other than as broker) from an importer or a producer.

(5) "Secondary distributor" means any person, other than an importer, producer or primary distributor, who sells molasses which he has acquired (other than as broker) from some person other than an importer or producer.

(6) A person may, at the same time, be an importer, a producer, a primary distributor and a secondary distributor. His classification, in a particular case, will be determined by the source of the molasses involved; i. e., with respect to molasses imported, he will be an importer, with respect to molasses acquired from a producer, he will be a primary distributor, etc.

(7) "Broker" means any person who buys and sells molasses on a fee basis as agent either for the buyer or the seller or both.

(8) "Class 1 purchaser" means any person who requires molasses in the manufacture of any one or more of the following products:

(i) Insecticides (except as provision is made therefor in paragraphs (a) (14) and (d) (3) hereof).

(ii) Lactic acid.

(iii) Graphite paste.

(iv) Printing rollers.

(v) Dye stuffs.

(vi) Ink.

(vii) Ephedrine.

(viii) Sugar for human consumption (produced from beet molasses).

(ix) Denatured rum for flavoring.

(x) Biological and pharmaceutical products for human and veterinary uses.

and any person who requires molasses for any one or more of the following purposes:

(xi) Dust extraction.

(xii) Leather tanning.

(9) "Class 2 purchaser" means any person who requires molasses in the manufacture (including custom grinding) of mixed feeds (including molasses treated beet pulp).

(10) "Class 3 purchaser" means any person who requires molasses in the manufacture of any one or more of the following products:

(i) Yeast.

(ii) Citric acid.

(11) "Class 4 purchaser" means any person who requires molasses in the manufacture of vinegar and any person who requires molasses for foundry purposes.

(12) "Class 5 purchaser" means any person who requires molasses in the manufacture (including blending and/or packaging) of any one or more of the following products:

(i) Molasses (edible).

(ii) Sirup (edible).

(13) "Class 6 purchaser" means any person who requires molasses in the man-

ufacture of other products for human consumption (not specified above).

(14) "Class 7 purchaser" means any person who requires molasses for sale directly (without the intervention of any other handler) to persons who require the same for ensilage direct feed or insect control.

(15) "Calendar quarter" means the several three month periods of the year commencing January 1, April 1, July 1, and October 1.

(16) "Calendar quarterly supply" means a quantity of molasses not in excess of the quantity used by a purchaser listed above during a corresponding calendar quarter in the twelve month period ended June 30, 1941. Purchasers shall determine a calendar quarterly supply with respect to each use specified in the applicable subparagraph above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(17) "30 day supply" means a quantity of molasses not in excess of one-twelfth of the quantity used by a purchaser listed above during the twelve month period ended June 30, 1941. Purchasers shall determine a 30 day supply with respect to each use specified in the applicable subparagraphs above. Quantity shall in all cases be computed on a blackstrap molasses basis.

(18) "Fiscal year" means the twelve month period commencing October 1 and ending September 30.

(19) "Yearly supply" means a quantity of molasses not in excess of the quantity used by a purchaser listed above during the twelve month period ended June 30, 1941. Subchapter D—Office of the Rubber Director  
PART 4600—RUBBER, SYNTHETIC RUBBER,  
BALATA AND PRODUCTS THEREOF

[Rubber Order R-1, Appendix III, Dec. 18, 1943]

*Introductory.* Appendix III to Rubber Order R-1 as amended is a compilation of supplementary orders and directives of general applicability which affect rubber and rubber products. In the past, these orders and directives have involved

principally the conversion of products from crude rubber to synthetics and have been issued individually to the manufacturers of the particular products. The purpose of Appendix III is to issue these directives and miscellaneous supplementary orders in printed form.

The material in Appendix III is arranged in accordance with the following product classifications:

Mechanical goods: Wire and cable; Tires and tubes; Footwear; Heels and soles; Proofing and combining of fabrics; Medical, surgical, dental, drug sundries; and Miscellaneous.

Each of these product classifications has been assigned a section number commencing with § 4600.51. Supplementary orders and directives in each group are designated by letter.

§ 4600.50 *Applicability of Rubber Order R-1.* Supplementary orders and directives which appear in Appendix III shall govern in case of inconsistency with other provisions of Rubber Order R-1. These orders and directives may be incorporated in the Rubber Order from time to time, at the discretion of the War Production Board.

§ 4600.51 *Mechanical goods.* The following supplementary orders and directives are applicable to mechanical goods:

(a) *Vibration dampers.* Rubber Order R-1 incorporates by reference the provisions of conversion directive SA-135 (see Schedule A, Appendix I). The provisions of this directive follow:

No crude rubber or natural latex may be consumed in the manufacture of compression type of mountings or insulations of a Shore Durometer hardness of 40 and above. Crude rubber may, however, be used for bonding cements and for use in tie-gum compounds, which shall not exceed 1/32" thickness.

No crude rubber or natural latex may be consumed in the manufacture of plate or sandwich shear type mountings or insulations. This restriction covers mountings or insulations of a Shore Durometer hardness of 40 and above, and where the temperatures of application are minus 40 and above. Crude rubber may be used for bonding cements and tie-gum compounds, which shall not exceed 1/32" in thickness.

No crude rubber or natural latex may be consumed after January 1, 1944, in the manufacture of tubular shear type mounting or torsional vibration dampers.

(b) *Industrial abrasive implements.* Rubber Order R-1 incorporates by reference conversion directive SA-117 (see Schedule A, Appendix I) specifying mandatory dates for the conversion of industrial abrasive implements. The provisions of this directive follow:

(1) No crude rubber may be consumed in the manufacture of the following items:

Centerless feed wheels.  
Snagging wheels, all types.  
Centerless grinding wheels.  
Wheels for grinding and fluting, drills, taps and dies, both roughing and finishing.  
Plate mounted wheels.  
Resilient wheels.  
Pot balls.  
Cam wheels.

(2) Crude rubber may be consumed in the manufacture of the following items, but only until January 1, 1944:

Cut-off wheels.  
Raco wheels.  
Mounted points other than pot balls.  
Any abrasive items not listed in (1) above.

(c) *Pipe rings.* After February 1, 1944, no crude rubber or natural latex may be consumed in the manufacture of pipe rings.

(d) *Milking machine inflations.* After February 1, 1944, no crude rubber or natural latex may be consumed in the manufacture of milking machine inflations.

§ 4600.52 *Wire and cable.* The following supplementary orders and directives are applicable to wire and cable:

(a) *Insulation.* After December 31, 1943, no crude rubber or natural latex may be consumed in the manufacture of insulation for the following:

Wire:	Specification	Type
	71-478.....	W-110-B
	71-728.....	W-124, W-125 and W-123
	CW-1102.....	W-146

(b) *Shipboard cables.* After December 15, 1943, no crude rubber or natural latex may be consumed in the manufacture of, or applied to any type of shipboard cable for merchant or cargo vessels.

(c) *Splicing tape.* After December 15, 1943, no crude rubber may be consumed in the manufacture of splicing tape except as follows: Not exceeding 3½ pounds of crude rubber per 27,000 square inches of splicing tape.

Any manufacturer who is prepared to make the foregoing reduction in the crude rubber content of his splicing tape prior to December 15, 1943, is urged to do so in the interest of rubber conservation.

§ 4600.53 *Tires and tubes.* The following supplementary orders and directives are applicable to tires and tubes:

(a) *Airplane tires, 10 plies and up.* Rubber Order R-1 permits the manufacture of airplane tires using ten or more plies in either AA or BB crude rubber construction (whichever is designated opposite each respective size). After December 31, 1943, all airplane tires using ten or more plies (except beaching gear tires) shall be manufactured in accordance with the regulations for S-5 synthetic construction (or S-7 synthetic construction, subject to the approval of the procuring agency) as set forth in Appendix II, List 22, with the following exceptions:

(1) No maximum content crude rubber will be designated.

(2) The tire body for each size in the S-5 synthetic construction shall be of that grade of friction compound designated opposite that size in Appendix II, List 29.

(3) Each size in S-7 synthetic construction shall consume no more crude rubber than would be consumed in an S-5 synthetic construction tire of the same size, ply and tread type.

(b) *Industrial solid tires.* Rubber Order R-1 permits the manufacture of pressed-on industrial solid and industrial

tractor solid tires, using crude rubber tread stock of Grade C or better. After December 31, 1943, the consumption of crude rubber in the manufacture of pressed-on industrial solid and industrial tractor solid tires shall be limited to that amount permitted by Appendix II, List 24, subdivision .b) (2) (i).

(c) *Fighter type and ice grip airplane tires.* Rubber Order R-1 requires that all four, six and eight ply airplane tires (except beaching gear tires) be manufactured in the S-5 or S-7 synthetic construction. Furthermore, after December 31, 1943, all airplane tires using ten or more plies (except beaching gear tires) must be manufactured in the S-5 or S-7 synthetic construction, as outlined in Appendix III, § 4600.53 (a). However, these provisions shall not apply to fighter type and ice grip airplane tires. All fighter type and ice grip airplane tires shall be manufactured using natural rubber compounds throughout the tire until further notice; the compound grades to be used shall be B friction and B tread on all sizes except the following which shall be A friction and A tread.

Size	Ply	Type
47.....	12	Smooth contour landing.
51.....	14	Do.
56.....	16	Do.

46 x 13.....	16	Do.
17.00 x 20.....	12	Low pressure landing.
19.00 x 23.....	16	Do.

§ 4600.54 *Footwear.* All outstanding supplementary orders and directives relating to footwear have been superseded by Rubber Order R-1 as amended December 4, 1943.

§ 4600.55 *Heels and soles.* All outstanding supplementary orders and directives relating to heels and soles have been superseded by Rubber Order R-1 as amended December 4, 1943.

§ 4600.58 *Miscellaneous.* The following supplementary orders and directives are applicable to miscellaneous rubber, products or materials:

(a) *Pressure sensitive tape.* Rubber Order R-1 permits the consumption of general purpose synthetics, reclaimed or scrap rubber in the manufacture of pressure sensitive tape for industrial purposes to fill Government and civilian orders. Schedule A of the order requires certification by the purchaser as to his end use.

(1) Uses which are classified as "industrial" are set forth in the certification.

(2) *Certification.* No person shall deliver or accept delivery of pressure sensitive tape (except high heat resistant and non-corrosive electric tape) unless the person acquiring the same shall certify to the seller and to the War Production Board in substantially the following form signed by an authorized official either manually or as provided in Priorities Regulation No. 7.

NOTE 1: *Meaning of terms.* (a) "Plant scrap" means scrap which is generated in the course of fabrication or manufacture and new material or parts rejected or discarded because defective, damaged in processing, part of surplus or idle inventory, or otherwise unfit for use.

(b) "Solids" and "Solid plant scrap" mean plant scrap generated by shearing, clipping, cutting, blanking, or similar process, also defective, rejected or otherwise discarded wrought aluminum parts, defective, rejected or otherwise discarded castings, and gates, sprues, risers or similar foundry scrap.

(c) Scrap shall not be deemed "segregated" whether in the form of solids or in the form of borings, turnings or other machinings, un-

less it consists of one alloy only and is so identified and handled as to be accepted for reprocessing into aluminum of the original alloy specifications without the necessity for other than routine examination by the processor. Compliance with this condition requires that the seller deliver to the buyer the War Production Board's Segregation Certificate PD-708 showing the alloy number and specification of the original material (for example, Alloy No. 142-46 A 15 Class 3) and that the scrap meets the specifications for that alloy.

(d) "Segregated low-grade alloy solids" include all alloys containing over 1% iron by weight (including free iron) except for alloy PM 754. "Segregated low-grade alloy borings and turnings" include all alloys containing over 1% iron by weight except for alloy PM 754.

(e) "Segregated S-type alloy solids" consist of scrap generated from the wrought or S-type alloys such as 17S or 24S.

(f) All segregated alloy solids which are not low-grade or S-type are "high-grade."

NOTE 2: *Iron, oil, moisture, etc.* If borings, turnings, and similar machinings or other grades of aluminum scrap contain oil, water or other forms of contamination, maximum prices may be paid only on the basis of the actual weight of aluminum or aluminum alloy contained. Moreover, if the aluminum or aluminum alloy content by weight is less than 85% of the weight of the material, the buyer may only pay delivery charges under paragraph (b) on that portion of the weight of the material represented by the weight of the aluminum or aluminum alloy content.

NOTE 3: *Quantity differentials.* The requisite quantities for which premiums are provided in Columns II and III, above, may consist of various grades of aluminum scrap, but other metals may not be included for the purpose of making up such quantities. In computing the weight necessary to obtain a quantity differential the actual weight of the material at the point of shipment, as determined by the public carrier, or as certified to and accepted by the public carrier, or as certified by a public weigher, is to be used. If the weight of the material at the point of shipment is not determined by any of the methods herein specified the actual weight of the material at the buyer's receiving point shall be used.

NOTE 4: *Aluminum foil.* Aluminum foil and light gauge aluminum sheet which does not exceed 0.008 of an inch in thickness is not considered within this regulation, but the provisions of the General Maximum Price Regulation shall apply to such scrap.

NOTE 5: *Wrecked aircraft.* The maximum prices established for wrecked aircraft (prepared) are for the actual aluminum alloy content of the ingot, or similar shape, recovered by the buyer's first melt of the entire shipment. By mutual agreement of the buyer and seller, 20% of the shipment by weight may be used as a representative sample in determining the amount of aluminum alloy recovered. Where less than 10,000 pounds of wrecked aircraft (prepared) are received in a shipment at one time the buyer may estimate the amount of aluminum alloy which will be recovered and make settlement on the basis of that estimate.

NOTE 6: *Premiums for special preparation.* Upon the sale of segregated solid aluminum plant scrap of any of the wrought aluminum or S-type alloys, except 2S and 3S, to the Aluminum Company of America, the Olin Corporation, or the Reynolds Metals Company, the following premiums may be charged, demanded, paid or offered:

Premium (Cents per pound)	
½	If such scrap is baled or packaged, suitable for briquetting.....
½	If such scrap is briquetted, or in large pieces too heavy to briquette.....

<sup>2</sup> 8 F.R. 3096, 3849, 4347, 4486, 4724, 4978, 4848, 6047, 6962, 8511, 9025, 9991, 11855, 15724.

The above premiums may also be charged, demanded, paid or offered upon the sale of segregated solid 17S, 24S, or 52S plant scrap to any other person, if, but only if, the sale is made pursuant to a specific authorization or directive from the War Production Board removing the sale from the restrictive provisions of Supplementary Order No. M-1-d.

Upon the sale of wrecked aircraft, prepared, a premium of one-half cent per pound of material may be charged, demanded, paid or offered if such scrap is baled by compression or briquetted.

Except as provided herein, the maximum prices established for aluminum scrap by this regulation shall not be increased by any charge or payment for special preparation.

6. Section 15, paragraph (a) (1) is amended to read as follows:

(1) *Maximum base price.* The maximum base price for secondary aluminum ingot shall be 12½ cents per pound. This maximum price applies to all alloys or grades of secondary aluminum ingot except as otherwise provided in paragraphs (b), (c), (d), (e) and (f) of this section.

<sup>1</sup>Plus 2 cents extra for shapes other than notchbar, granulated or shot.

9. Section 15, paragraph (e) (4), is amended to read as follows:

(4) The foregoing provisions of this paragraph (e) shall not apply to sales of any hardener at a price previously reported to and approved by the Administrator in accordance with the provisions of this paragraph. Whenever the price proposed by any person for a particular hardener has been so reported, the price approved by the Administrator shall be the maximum price at which such person may thereafter sell such ingot. Nothing herein contained, however, shall be construed to prevent the Administrator from adjusting any price so approved when in his judgment adjustment is warranted. In order to bring the prices established under section 15 (e) of Maximum Price

6. Section 15, subparagraph (b) (1) is amended to read as follows:

(1) If the chemical specifications for an alloy of secondary aluminum ingot require a substantial content of chromium, magnesium, manganese, nickel, silicon, tin, titanium or vanadium, and if the scrap from which such ingot is produced does not contain these elements in sufficient quantity to meet the specifications upon remelting, so that it is necessary to introduce them by other means, the seller may apply to the Office of Price Administration, Washington, D. C., for permission to charge more than the maximum base price.

7. Section 15, paragraph (c), is amended to read as follows:

(c) *Maximum prices for primary grade ingot.*

	<i>Maximum price (cents per pound)</i>
142.....	15
355.....	15

To be sold at this price, these alloys must meet the following specifications:

Regulation No. 2 into line with the level of prices established by this amendment, without requiring that they be resubmitted for approval, the prices so established are hereby each reduced by one and one-half cents per pound of aluminum content and as so reduced are hereby reaproved. If the seller of any such hardener believes that the price as so reduced is not in line with the level of prices established by this regulation, he may submit the hardener for approval as though it had never been submitted before.

10. Section 15, paragraph (f) (1) is amended to read as follows:

(1) The maximum price for any grade of secondary aluminum ingot (excluding primary-grade ingot for which provision is made in paragraph (c), the low-grade types for which provision is made in paragraph (d) and hardeners, for which provision is made in paragraph (e) of this section) which is produced in melts or heats of 250 pounds or less shall be:

- (i) The highest price which the seller charged for the same grade of ingot delivered by him during March, 1942 reduced by 2½ cents per pound; or
- (ii) If the seller did not deliver the same grade of ingot during March, 1942, the highest price quoted in the seller's price list reduced by 2½ cents per pound or, if he had no price list, the highest price which the seller regularly quoted in any other manner reduced by 2½ cents per pound for delivery of the same grade of ingot during March, 1942; or
- (iii) If the maximum price for such ingot cannot be determined under the foregoing provisions of this paragraph (f), a price in line with the maximum

prices established by this regulation and approved by the Administrator. The seller of any such ingot shall report such sale to the Office of Price Administration and obtain approval of a maximum price in the same manner as prescribed in paragraph (e) of this section for hardeners. For the purposes of this paragraph (f), the provisions of paragraph (e) shall apply in all respects, and shall be construed as though they referred to alloys produced in small quantities.

This amendment shall become effective December 23, 1943.

SEC. 4. *Items not specifically priced.* Any person desiring to sell any item covered by this regulation but not specifically priced herein must apply to the Lumber Branch, Office of Price Administration, Washington, D. C. for a price. The application must contain a complete description of the item to be priced, the requested selling price and any facts which the applicant may have in support thereof. The Office of Price Administration will by letter approve a specific price

for the item. No deliveries may be made at the requested price until it has been approved by the Office of Price Administration.

SEC. 5. *Delivered prices.* If delivery is by common carrier the actual transportation costs paid or incurred by the seller may be added to the basic maximum prices. If shipment is by truck, owned or controlled by the seller, actual transportation costs may be added to the basic maximum prices. Such transportation

cost may not exceed 80% of the common carrier charge for the same shipment.

ARTICLE III—MISCELLANEOUS

SEC. 6. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 7. *Petitions for amendment or applications for adjustment—(a) Government contracts.* (1) The term "Government contract" is here used to include any contract with the United States or any of its agencies or with the government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the Defense of the United States". The term also includes any subcontract under this kind of contract.

(2) Any person who has entered into or proposes to enter into a "Government contract," who believes that the maximum prices contained in this regulation impede or threaten to impede production of lumber of the species covered by this regulation essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6,<sup>7</sup> issued by the Office of Price Administration. As soon as the application is filed, contracts, deliveries, and payments may be made

at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must notify the buyer that the delivery is made subject to this refund.

(b) *Petition for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,<sup>8</sup> issued by the Office of Price Administration.

SEC. 8. *Prohibited practices.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars and cents price is as much of a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings, changes in discount practices and the like.

SEC. 9. *Records.* All persons making sales of products covered by this regulation must keep records for any month in which their total sales of these products amount to \$250.00 or more. The records must show a complete description of the products sold, the name and address of the buyer, the date of sale, and the price. Buyers must keep similar records including the name and address of the seller. Such records must be kept for a period of two years for inspection by the Office of Price Administration.

SEC. 10. *Enforcement.* (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to war procurement agencies and buyers to whom products covered by this regulation have been allocated by any such agencies are, however, subject to all the liabilities imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime

Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies. Such agencies are nevertheless subject to this regulation.

SEC. 11. *Licensing.* The provisions of Licensing Order No. 1,<sup>4</sup> licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 12. *Relation to General Maximum Price Regulation.*<sup>5</sup> Sales and purchases covered by this Revised Maximum Price Regulation No. 342 are not subject to the General Maximum Price Regulation.

This revised regulation shall become effective December 23, 1943.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 17th day of December 1943.

[RMPR 206, Amdt. 1]

## VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.\*

Revised Maximum Price Regulation No. 206 is amended by adding Article XII incorporating sections 12.1 to 12.3 inclusive, all to read as set forth below:

## ARTICLE XII—MAXIMUM PRICES FOR VITRIFIED CLAY SEWER PIPE AND ALLIED PRODUCTS, WHEN SOLD FOR DELIVERY OUTSIDE A FACTORY'S NORMAL MARKET AREA

Sec. 12.1 *Application.* The provisions of this article provide a method whereby sewer pipe products may be shipped outside a manufacturer's normal market area to a Government Agency, or to a contractor or subcontractor of such Agency, at prices in excess of the maximum prices established in Articles V to XI, inclusive, of this regulation. For all other shipments outside the manufacturer's normal market area, for use on a project other than one controlled by a Government Agency, the maximum price established in Articles V to XI, inclusive, for the geographical areas designated therein, shall apply.

Sec. 12.2 *Maximum prices for sewer pipe products sold by a manufacturer to a Government Agency, and shipped outside its normal market area up to July 1, 1944.* (a) Requirements which must be met by a manufacturer in order to use out-of-area maximum prices. A manufacturer may use the pricing method set forth in the next paragraph only when:

(1) He is selling to a Government Agency, or to a contractor or subcontractor with a Government Agency, for use on a project controlled by any such agency: *Provided*, That a manufacturer may sell to any person who re-sells to any of the foregoing at prices not in excess of the maximum prices established by this section.

(2) The seller must compute transportation charges on the basis of rail carload quantities.

The undersigned has received an order from....., which is covered by the certificate on the reverse side, or attached hereto. The undersigned is unable and will be unable to supply the requirements of the purchaser from our own stock of vitrified clay sewer pipe, or allied products, in the time allotted for delivery. Prices charged the purchaser by the undersigned do not exceed the maximum prices established in section 12.2 of Revised Maximum Price Regulation No. 206.

By.....  
(Title)

(b) Maximum prices for sewer pipe products sold by any person and shipped from a factory prior to July 1, 1944, to a destination which is outside the normal market area of such factory may be determined in the following manner:

(1) A price f. o. b. factory not in excess of 95 percent of the f. o. b. plant price for straight or mixed carload shipments.

(i) The following methods shall be used in determining the f. o. b. plant price

which shall apply to manufacturers who wish to use this section.

(a) For those manufacturers who sell on an f. o. b. plant basis, the price so established in this Revised Maximum Price Regulation No. 206.

(b) For those manufacturers who sell at a delivered price based on geographical zones, the price as established in this Revised Maximum Price Regulation No. 206 for the zone within which the factory is located, less the weighted average freight paid by the manufacturer, during the calendar year 1941, for delivery in the zone in which the factory is located.

For those manufacturers who determine their price in accordance with this subdivision (b) the weighted average freight shall be determined in the following manner: From the total amount of freight paid during the year 1941 for rail delivery of sewer pipe products to the zone within which the factory is located, deduct that amount of freight applicable to dunnage only, that is, to crating, bracing, or other material carried for the protection of the product. Divide the balance by the total amount of tons of sewer pipe products delivered by rail, during the calendar year 1941, in the zone in which the factory is located. The result will be the weighted average freight per ton paid during the year 1941 for delivery by rail of sewer pipe products in the zone in which the factory is located.

(c) For manufacturers located in the Eastern Area, who sell at a delivered price based on freight rate zones, the price as established in this Revised Maximum Price Regulation No. 206 in the first or 10¢ zone, less the highest amount of freight from Akron, for delivery to the first, or 10¢ zone.

(2) A delivered price may be charged under this provision not higher than the maximum price established in this section, f. o. b. factory plus the actual freight charges incurred by the manufacturer in making delivery to the point of destination.

(3) Material purchased in accordance with the provisions of this section which is in excess of requirements, or which is rejected by the purchaser for cause, may be re-sold to any person at the prices established by the General Maximum Price Regulation, for the same grade or quality for the area in which the product is ultimately used.

Sec. 12.3 Reports. Every manufacturer who makes a sale pursuant to this article in any month shall make a report to the Office of Price Administration, Washington, D. C., on or before the fifteenth day of the following month, setting forth a list of all sales which resulted in sewer pipe products being shipped to points outside his normal market area during the preceding calendar month, showing the name and address of the purchaser, the point of shipment and the point of delivery, the quantity and classification of products sold, the price charged, and the method of computing such price.

When used in this Revised Maximum Price Regulation No. 206, the term:

"Normal market area" for any factory means that area in which sewer pipe

products were regularly offered for sale during the period January 1, 1940 to January 1, 1942; for the purposes of this definition, sewer pipe products will be deemed to have been "regularly offered for sale" only in that area in which the factory had salesmen traveling at regular intervals and/or customarily quoted for shipment during the above mentioned period.

This amendment shall become effective December 24, 1943.

NOTE: The reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SUGAR RATIONING REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.\*

Ration Order No. 3 is amended in the following respect:

Section 1407.71 (d) is amended by deleting the last two sentences and inserting in place thereof the following:

NOTICE OF REOPENING OF HEARING

PART 131—HANDLERS OF ANTI-HOG-CHOLERA SERUM AND HOG-CHOLERA VIRUS

PURPOSES

The parties to this agreement are the contracting handlers of anti-hog cholera serum and hog-cholera virus in the United States and the Secretary of Agriculture of the United States.

Whereas, it is the declared policy of Congress as set forth in section 56 of the act to amend the Agricultural Adjustment Act, and for other purposes, Public No. 320, approved by the President August 24, 1935 (49 Stat. 781; 7 U.S.C., 1940 ed. 851),

to insure the maintenance of an adequate supply of anti-hog-cholera serum and hog-cholera virus by regulating the marketing of such serum and virus in interstate and foreign commerce and to prevent undue and ex-

cessive fluctuations and unfair methods of competition and unfair trade practices in such marketing.

Whereas, pursuant to the said act, the parties hereto, for the purpose of correcting conditions now obtaining in the handling of anti-hog-cholera serum and hog-chlorea virus in interstate and foreign commerce and to effectuate the declared policy of Congress with respect to such serum and virus, desire to enter into this amended marketing agreement under the provisions of section 57 of the said act:

Any individual selected as a member of the control agency or an alternate shall qualify by filing a written acceptance of his appointment with the Secretary or his designated representative.

(e) To fill any vacancy occasioned by the removal, resignation or disqualification of any member of the control agency or an alternate, a successor for his unexpired term shall be selected by the Secretary from nominees selected by the respective group of contracting handlers in whose representation the vacancy has occurred, such nominee to be determined by the selection by the proper group as specified in paragraph (b) of this section of two (2) nominees for each vacancy to be filled and selected in the manner specified in paragraph (c) of this section. Such selection of nominees shall be made within thirty (30) days after such vacancy occurs. If a nomination is not made within such thirty (30) days, the Secretary may select an individual to fill such vacancy.

(f) The members of the control agency shall select a chairman from their membership, and all communications from the Secretary may be addressed to the chairman at such address as may from time to time be filed with the Secretary. The agency shall select such other officers and adopt such rules not inconsistent with the provisions of his agreement

for the conduct of its business as it may deem advisable. The agency shall give to the Secretary or his designated agent the same notice of meetings of the control agency as is given to members of the agency and their alternates.

(g) A reasonable compensation to be determined by the control agency, to be paid to the secretary of the control agency, and the expenses of the members of the control agency while engaged in the business of the control agency, shall be necessary expenses to be incurred by the control agency for its maintenance and functioning under the provisions of § 131.7 and § 131.8 hereof.

§ 131.3 *Powers of control agency.* The control agency shall have power:

(a) To administer, as hereinafter specifically provided, the terms and provisions hereof;

(c) To receive, investigate, and report to the Secretary of Agriculture complaints of violations of this agreement; and

(d) To recommend to the Secretary of Agriculture amendments to this agreement.

§ 131.4 *Duties of control agency.* It shall be the duty of the control agency:

(a) To act as intermediary between the Secretary and any contracting handler;

(b) To keep minute books and records which will clearly reflect all of its acts and transactions, and such minute books and records shall, at any time, be subject to the examination of the Secretary;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees as it may deem necessary and to determine the salaries and define the duties of any such employees;

(e) To establish and foster any agency for the purpose of securing new or improved markets for the serum and virus industry through marketing research; to establish committees composed of members of the control agency or producers for the purpose of co-operating with any Governmental body, agency, bureau or department on subjects relating to the manufacture and marketing of serum and virus; to establish and foster any agency to collect and disseminate credit information. The expenses of any of said agencies or committees shall be a necessary expense incurred by the control agency for its maintenance and functioning and shall be defrayed by it from funds collected pursuant to §§ 131.7 and 131.8 of this agreement; and

(f) To make such disbursements as may be necessary to meet expenses necessarily incurred by the control agency for its maintenance and functioning under the provisions of this agreement.

§ 131.5 *Procedure of control agency.*

(a) All decisions of the control agency except where otherwise specifically provided, shall be by a three-fourth ( $\frac{3}{4}$ ) vote of the members who have qualified by filing their written acceptance and who are eligible to vote.

(b) The control agency may provide for voting by its members by mail or telegraph upon due notice to all members, and when any proposition is submitted for voting by such method, one dissenting vote shall prevent its adoption until submitted to a meeting of the control agency.

(c) The members of the control agency (including alternates, successors, or other persons selected by the Secretary), and any agent or employee appointed or employed by the control agency, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the control agency, shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and upon such disapproval, shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith.

(d) If a member of the control agency shall be a party in interest to any dispute or complaint, or a representative of such party in interest, he shall, for the purpose of the consideration of such dispute or complaint, be disqualified as a member of the control agency. Such disqualification, however, shall not be deemed to create a vacancy in the control agency.

(e) The alternate for each member of the control agency shall have the power to act in the place and stead of such member in his absence or in the event of his removal, resignation or disqualification until a successor for such member's unexpired term has been selected.

(f) The control agency, subject to the disapproval of the Secretary, may select an executive committee of not more than four (4) members who shall be empowered to act for the control agency in the routine administration of this agreement, at such times as the control agency is not meeting and cannot be conveniently convened for the purpose. Any and all acts of the executive committee shall be subject to the approval of the control agency, which shall take action with respect to any act of the executive committee at the next meeting of the control agency held immediately following any action by the executive committee.

§ 131.6 *Funds of control agency.* All funds received by the control agency, pursuant to any provision of this agreement, shall be used solely for the purpose therein specified and shall be accounted for in the following manner:

(a) The Secretary shall require the control agency and its members, or alternates acting as members, to account for all receipts and disbursements.

(b) Upon the removal or expiration of the term of office of any member of the control agency, or of an alternate acting as a member, such member or alternate shall account for all receipts and disbursements, and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds and claims vested in such

member or alternate pursuant to this agreement.

(c) Upon the termination or suspension of this agreement or of any provision thereof, the funds of the control agency shall be disposed of in the manner provided in § 131.25 (d).

#### ASSESSMENTS

§ 131.7 *Each handler to be assessed.* Each contracting handler shall pay to the control agency, upon demand, such contracting handler's pro rata share, as is approved by the Secretary, of the expenses in the amount of not to exceed \$25,000 (which amount the Secretary has found will necessarily be incurred by the control agency during the year ending -----), or expenses in such other amount, as the Secretary may later find will necessarily be incurred by the control agency during the said year for the maintenance and functioning of the control agency during said year, as set forth in this agreement.

Subsequent to the year ending -----, every contracting handler shall pay the control agency, upon demand, such contracting handler's pro rata share, as may be approved by the Secretary, of such expenses as the Secretary may find will necessarily be incurred by the control agency during any period specified by the Secretary for the maintenance and functioning of the control agency, as set forth in this agreement.

§ 131.8 *Shares of handlers.* The share of such expenses for each contracting handler who is a manufacturer shall be that amount which is paid to the control agency pursuant to paragraph (d), and such pro rata share is hereby approved by the Secretary. These assessments may be adjusted, from time to time, by the control agency, with the approval of the Secretary, in order to provide funds sufficient in amount to cover any later findings by the Secretary of estimated expenses or the actual expenses of the control agency during the said year.

(b) The share of such expenses for each contracting handler, other than manufacturers, who markets his products principally through veterinarians, shall be such handler's pro rata share (to be computed by the disinterested agency selected under the provisions of paragraph (d) and shall be based upon such handler's percentage of the total of serum marketed by such handlers during the preceding calendar year) of the total amount expended in defraying the expenses of the two (2) members of the control agency who have been selected by the Secretary to represent such contracting handlers, pursuant to the provisions of § 131.2. Such pro rata share of expenses shall be subject to the approval of the Secretary. These assessments may be adjusted, from time to time, by the control agency, with the approval of the Secretary, in order to provide funds sufficient in amount to cover any later findings by the Secretary of estimated expenses or the actual expenses of the control agency during the said year.

(c) The share of such expenses for each contracting handler, other than manufacturers, who markets his products principally through other channels, shall be such handler's pro rata share (to be computed by the disinterested agency selected under the provisions of paragraph (d) and shall be based upon such handler's percentage of the total of serum marketed by such handlers during the preceding calendar year) of the total amount expended in defraying the expenses of the two (2) members of the control agency who have been selected by the Secretary to represent such contracting handlers, pursuant to the provisions of § 131.2. Such pro rata share of expenses shall be subject to the approval of the Secretary. These assessments may be adjusted, from time to time, by the control agency, with the approval of the Secretary, in order to provide funds sufficient in amount to cover any later findings by the Secretary of estimated expenses or the actual expenses of the control agency during the said year.

(d) Within five (5) days after this agreement becomes effective, and on January 15 of each year thereafter, while this agreement is effective, each manufacturer who is a contracting handler shall furnish the Secretary, through a disinterested agency, to be selected by the control agency and approved by the Secretary, a report which shall be sworn to and which shall set forth the amount of hyperimmune blood which has been collected by such contracting handler during the preceding calendar year, and each contracting handler other than manufacturers, shall furnish the Secretary, through such disinterested agency, a report which shall be sworn to and which shall set forth the amount of serum marketed by such contracting handler during the preceding calendar year. The control agency shall inform the disinterested agency concerning the total amount of expenses to be paid by contracting handlers who are manufacturers and by contracting handlers who are other than manufacturers. The pro rata share of expenses to be paid by each manufacturer who is a contracting handler shall be based upon such handler's percentage of the total amount of hyperimmune blood which has been collected by such contracting handlers during the preceding calendar year. During the calendar year, -----, each manufacturer who is a contracting handler shall pay the control agency not to exceed twenty (20) dollars with respect to each million cubic centimeters (determined by the nearest whole number) of hyperimmune blood collected by such contracting handler during the preceding calendar year, as determined by the reports submitted pursuant to this paragraph. Such payments shall become due in quarterly installments beginning January 1 of each year, and shall be made to the disinterested agency, which shall transmit the total amount received from all contracting handlers to the control agency without disclosing the amount of each payment made by individual contracting handlers. A quarterly report

shall be made to the Secretary by such disinterested agency, setting forth the amount of the quarterly payment made by each contracting handler. Any funds derived from assessments or any other source which have not been expended by the control agency at the end of the calendar year shall be carried over by the control agency to be expended during the succeeding calendar year.

#### CLASSES OF BUYERS—FILING OF PRICES AND TERMS OF SALE FOR SERUM AND VIRUS—HANDLERS OTHER THAN BUYERS

§ 131.9 *Classes of buyers.* Upon such evidence and basis as warrants a conclusion that such definitions and determination are neither unreasonable nor discriminatory, the control agency shall, subject to the disapproval of the Secretary, define all classes of buyers and handlers not defined in this agreement. The control agency, subject to the disapproval of the Secretary, shall determine in all cases on its own motion or upon request of any interested party, and upon evidence reasonably sufficient to determine all essential facts relating thereto, whether any person, his employee or agent, who is a handler or about to become such comes within any class of buyers or handlers defined in this agreement or pursuant to this section, excepting consumers and dealers. Any such determination shall be reviewable from time to time as may be deemed necessary by the control agency. And, the control agency shall compile, subject to the disapproval of the Secretary, lists of persons comprising each class of buyers and handlers as defined herein or pursuant hereto; excepting consumers and dealers. Such lists with additions thereto or deletions therefrom shall be immediately filed with the Secretary and distributed to handlers. The control agency on its own motion or on request of any interested party shall determine, subject to the disapproval of the Secretary, whether in specific cases any person is a consumer or dealer as defined herein and shall immediately report such determination to the Secretary and to handlers.

§ 131.10 *Open prices.* (a) Each contracting handler shall file with the Secretary and the control agency, within 10 days after the effective date of this agreement, a list of his selling prices in the United States together with discounts and terms of sale, which list shall separately set forth his selling price, applicable to serum and virus produced under each different U. S. Veterinary License as handled by him, together with discounts and terms of sale (if only one such licensed product is handled or identical prices apply to different licensed products, one selling price shall be deemed applicable to all sales) to each class of buyers, except Volume Contract Purchasers, defined in this agreement or under the provisions hereof; *Provided, however,* In lieu of a price list for Volume Contract Purchasers each selling handler shall file with the control agency and with the Secretary executed copies of all contracts entered into with handlers classi-

fled as Volume Contract Purchasers by the control agency within ten (10) days after the execution thereof. No selling price lists shall be filed for any other class or classes of buyers than those defined in this agreement or under the provisions hereof. All such filed prices shall be on a delivered basis to purchasers and shall be based on unit of 100 cc of serum and virus; each contracting handler's selling prices, discounts and terms of sale so filed, applicable to each licensed product as set forth herein, shall be uniform for all buyers in each of the various classes of buyers defined in this agreement or under the provisions thereof, except Volume Contract Purchasers.

(b) The price list for each class of buyers filed by a contracting handler may, subject to the limitations set forth in paragraph (c) of this section, be modified at any time by such handler by filing for any class of buyers a new or amended list of prices, including discounts and terms of sale, which shall only become effective when said new or amended list shall have been on file for three (3) days in any office designated by the control agency: *Provided, however,* That in the event such list is mailed by registered letter or telegraphed to such office, it shall be deemed to have been filed either (1) at the time during usual business hours it is actually delivered in such office, or (2) at the time during usual business hours such communication would have been received, considering the usual time required for the means of communication used, in the absence of delays in transit, whichever time is the earlier.

(c) (1) Each contracting handler agrees that he will make no sales or offers or contracts to sell, other than with a Volume Contract Purchaser, unless he has on file with the Secretary and the control agency, in conformity with paragraph (a) an effective price list including discounts and terms of sale, and that after any such price list or amended price list becomes effective, he will make no sales or offers or contracts to sell at prices, discounts or terms of sale different from those set forth in his latest effective list, and will file no new or amended price list until his most recently filed price list for any class of buyers becomes effective. No contracting handler shall withdraw any filed price list prior to the effective date of such list. *Provided,* No sale shall be made to Volume Contract Purchasers unless an executed copy of the contract under which said sale is being made is filed as is provided in paragraph (a) with the control agency and the Secretary and no sales shall be made to Volume Contract Purchasers at prices, discounts or terms of sale different from those stated in the so filed executed copy of the contract under which said sale is being made.

(2) Each contracting handler agrees that he will make no sales or shipments to any buyer or handler excepting consumers and dealers unless and until the status of the vendee as a member of a class of buyers has been determined by

the control agency pursuant to § 131.9 of the agreement.

(3) Each contracting handler agrees to make no contract for sale or contract to sell serum and virus which provides for payment at prices, discounts and terms of sale different from those set forth in his effective price list on file with the Secretary and control agency at the time of delivery or deliveries under any such contract: *Provided,* That contracts to sell to Volume Contract Purchasers may provide for deliveries over a period of not to exceed six (6) months from date of contract, at prices fixed in executed copy of contract on file with the control agency and the Secretary.

(4) Each contracting handler agrees to issue an invoice and deliver same to purchaser covering each sale of serum and virus to each buyer within any class of buyers as defined herein or pursuant hereto, which invoice shall completely set forth the name and address of the purchaser, the separate quantities of serum and virus sold, the unit and total price of each such quantity, any discount allowed from invoiced prices, and the terms at which such sale was made.

(d) The control agency shall immediately upon receipt of any such new or amended list, conforming to the requirements of paragraph (c) (1), issue a copy thereof to each contracting handler, and to the Secretary. All such lists shall be immediately available to the daily and trade press and to the consuming public by means of communication at least as rapid as that used to notify handlers and the Secretary. Any such new or amended price lists which do not conform to the requirements of § 131.10 (a) shall not be an effective price list as required by said section and shall be returned by the secretary of the control agency to the handler filing the same, together with a statement of the reasons for non-conformity to the requirements of said section. A copy of any such price list so returned together with the statement of reasons for non-conformity shall be forwarded to the Secretary.

§ 131.11 *Exceptions to filed prices.* (a) The provisions of this agreement shall not apply to any sales made by any contracting handler for delivery outside the United States.

(b) If the Secretary has reason to believe, from economic data directly available to him or secured by him under the provisions of the act, that any price list, terms of sale or discount, in whole or in part, is inequitable to consumers or handlers by reason of the fact that it may cause immediate injury by impeding the carrying out of this agreement or the effectuation of the declared policy of the act or by creating an abuse of the privilege of exemptions from the antitrust laws, he may suspend the effectiveness of such price list, term of sale or discount, in whole or in part, pending an investigation which shall be completed as soon as practicable, and he shall report such suspension to the control agency, who shall in turn immediately notify the handler whose price filing has been suspended. The Secretary may declare a filed price,

discount or term of sale, in whole or in part, to be ineffective if, after an investigation and an opportunity to be heard has been afforded the handler whose price filing is questioned, the Secretary finds from the facts presented during such investigation that such price list, term of sale or discount, in whole or in part, is inequitable as measured by the standards set up in this paragraph.

§ 131.12 *Handlers other than buyers.*

(a) Each contracting handler agrees that he will market serum and virus only to classes of buyers and through branch houses, as defined in this agreement or under the provisions thereof.

(b) Each contracting handler agrees that serum and virus marketed through his branch houses shall be sold only at prices posted by him.

(c) Each contracting handler agrees to file with the control agency within 10 days of the establishment thereof the name and location of each branch house established by him and the name of employee or agent in charge.

§ 131.13 *Uniform sales invoices.* The control agency, subject to the disapproval of the Secretary, may formulate and adopt uniform sales invoices for contracting handlers. After the adoption of such uniform sales invoices, all sales of serum or virus by contracting handlers to all classes of buyers shall be made in accordance with the terms of such invoices, and prices and terms of sale therein shall conform to the seller's filed prices and terms of sale, effective at the time of making sales covered by such invoices.

#### UNFAIR METHODS OF COMPETITION AND UNFAIR TRADE PRACTICES

§ 131.14 *Secret rebates.* (a) The secret payment or allowance of rebates, refunds, commissions, or unearned discounts, or receiving such rebates, refunds, commissions or unearned discounts, whether in the form of money or otherwise, or secretly extending to certain purchasers special services or privileges, not extended to all purchasers under like terms and conditions, with the intent and with the effect of injuring a competitor, and where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice, and is prohibited.

(b) To sell other products at less than reasonable market value thereof, to loan or give any article of value to dealers or wholesalers, for the purpose or with the effect of influencing sales of serum or virus, is prohibited.

§ 131.16 *Defamation of competitors.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false

representation, or the false disparagement of the grade or quality of their serum or virus, with the tendency and capacity to mislead or deceive purchasers or prospective purchasers, is an unfair trade practice, and is prohibited.

§ 131.17 *Sale by false means.* The sale or offering for sale of any serum or virus by any false means or device which has the tendency and capacity to mislead or deceive customers or prospective customers as to the quantity, quality, or substance of such serum or virus is an unfair trade practice, and is prohibited.

§ 131.18 *Consignment shipping.* Shipping serum or virus on consignment, with the intent and with the effect of injuring a competitor, and where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice, and is prohibited.

§ 131.19 *False invoicing.* Withholding from or inserting in the invoice statements which make the invoice a false record, wholly or in part, of the transaction represented on the face thereof, is prohibited.

§ 131.20 *Misleading advertising.* (a) The making, causing, or permitting to be made, or publishing of any false, untrue, misleading, or deceptive statement, by way of advertisement or otherwise, concerning the grade, quality, quantity, character, nature, origin, preparation, or use of serum and virus is an unfair trade practice and is prohibited.

(b) The use by contracting handlers other than manufacturers of the words "Serum Company," "Serum Laboratories" or other equivalent words on letterheads, signs, advertising matter and otherwise where such practice tends to mislead and deceive purchasers and consumers into belief that such handler is a manufacturer, when in fact he is not, is prohibited.

§ 131.21 *Emergency reserve.* Each manufacturer who is a contracting handler shall have available on May 1 of each year a supply of completed serum equivalent to not less than forty (40) per centum of his previous year's sales.

#### AMENDMENTS

§ 131.22 *Who may propose.* Amendments to this agreement may, from time to time, be proposed by any party to this agreement or by the control agency.

§ 131.23 *Hearing and approval.* After due notice and opportunity for hearing and upon determination by the Secretary that the proposed amendment has been executed by all the handlers of not less than seventy-five (75) per cent of the volume of serum and virus handled during the preceding marketing year (January 1-December 31), the Secretary may approve such amendment, and it shall become effective at such time as the Secretary may designate.

#### EFFECTIVE TIME AND TERMINATION

§ 131.24 *Effective time.* This agreement shall become effective at such time as the Secretary may determine it has been executed by all the handlers of

seventy-five (75) per cent of the volume of serum and virus handled during the preceding marketing year and may declare above his signature attached hereto, and shall continue in force until terminated in one of the ways hereinafter specified.

§ 131.25 *Termination.* (a) The Secretary may at any time terminate this agreement as to all parties hereto by giving at least seven (7) days' notice by means of a press release or in any other manner which the Secretary may determine.

(b) The Secretary shall terminate this agreement at the end of the then current marketing period (December 31) whenever he finds that such termination is favored by all the handlers of not less than 75 per cent of the volume of serum and virus handled during the preceding marketing period.

(c) This agreement shall in any event terminate whenever the provisions of the act authorizing it cease to be in effect.

(d) Upon the termination or suspension of this agreement or of any provision thereof, the members of the control agency then functioning, or such other persons as the Secretary may from time to time designate, shall, if so ordered by the Secretary, liquidate the business of the control agency under this agreement, and dispose of all funds and property then in the possession or under the control of the control agency, together with claims for any funds which are unpaid or property not delivered at the time of such termination. The control agency or such other persons as the Secretary may designate (1) shall continue in such capacity until discharged by the Secretary, (2) shall, from time to time, account for all receipts and disbursements and deliver all funds and property on hand, together with the books and records of the control agency, to such person or persons as the Secretary shall direct, and (3) shall, upon the request of the Secretary, execute such assignments, or other instruments necessary or appropriate to vest in such person or persons full title to all the funds, property and claims vested in the control agency pursuant to this agreement. Any funds collected for expenses pursuant to the provisions of this agreement, and held by the control agency or such person or persons, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the control agency or such person or persons, shall be returned to the contributing handlers in proportion to the contributions of each handler, or shall be expended by the control agency for a purpose not inconsistent with the provisions of this agreement and in a manner which the contracting handlers shall determine by a three-fourths (¾) vote of such handlers. The control agency or such person or persons shall observe the procedure governing the actions of the control agency as established under the provisions of § 131.5 of this agreement. Any person to whom funds, property or claims have been delivered by the control agency or its members upon direction of the Secretary, as provided in this paragraph, shall be subject to the same obligations and

#### COUNTERPARTS

§ 131.27 *Counterparts.* This agreement may be executed in multiple counterparts, and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all such signatures were contained in one original.

§ 131.28 *Additional parties.* After this agreement first takes effect, any handler may become a party to this agreement if a counterpart thereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such contracting party.

#### LIABILITY OF CONTROL AGENCY

§ 131.32 *Liability of members and employees of control agency.* No member of the control agency nor any employee thereof shall be held responsible individually in any way whatsoever to any handler signatory hereto or any other person for errors in judgment, mistakes, or other acts either of commission or omission as such member or employee, except for acts of dishonesty. [Order 1052 Under MPR 188]

## CERTAIN ARTICLES OF WOOD HOUSEHOLD FURNITURE

## ADJUSTMENT OF MAXIMUM PRICES

Order No. 1052 under § 1499.159b of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order Nos. 9250 and 9328, it is ordered:

(a) *Purpose of this order.* This order permits a manufacturer to add an adjustment charge to his existing maximum prices for certain articles of household furniture which are described in paragraph (b) below. Wholesalers are permitted to add certain adjustment charges to their existing maximum prices. Retailers are required to absorb the adjustment charges and are not permitted to add anything to their existing maximum prices.

(b) *What this order covers.* This order covers sales of articles of movable wood household furniture, including upholstered furniture, with the exception of certain articles mentioned in paragraph (c). As used in this order, household furniture means furniture which is primarily designed for and generally used in homes, such as living room, dining room, bed room (including wood and fabric folding cots and cedar chests), kitchen, porch, outdoor and juvenile furniture (including cribs, high chairs and wooden bassinets). Articles of this type are covered by the order even though they are sold for use in places other than households, such as hotels, clubs, institutions and ships.

(c) *What this order does not cover.* This order does not cover sales of:

(1) Articles of bedding (such as springs and mattresses).

(2) Double purpose sleeping equipment such as studio couches, sofa beds, davenport beds and chair beds.

(3) Articles which are made in part of wood but are made predominantly out of metal, paper, plastics, paper fibres, rattan, peel, reed or other fibres.

(4) Articles for infants' use such as play-yards, sand boxes, gates and bathinets.

(5) Housewares such as step ladders, stool-ladders, ironing boards, towel stands or bars, clothes dryers, hat and shoe racks, medicine and toilet cabinets.

(6) Miscellaneous furnishings such as costumers, hassocks, screens, and venetian blinds.

(7) Furniture and equipment for office, stores, restaurants, commercial and industrial users.

(8) Public seating furniture such as opera, theatre, or auditorium seats, bus seats, passenger car seats and pedestal chairs.

(9) Furniture known in the trade as unpainted furniture, which is ultimately sold to the consumer in that form.

(10) Furniture frames and partially assembled wood furniture parts, wherever made.

(d) *How this order affects manufacturers—(1) The amount of the adjustment.* If you are a manufacturer, you may add the adjustment charge stated below to your existing maximum price for any article (covered by this order) for which you have properly determined and reported, where required, a maximum price under Maximum Price Regulation No. 188. If you have not properly determined or properly reported your existing maximum price for the article, you must do so before adding this adjustment charge. The adjustment charge which you may add shall be 5% of your maximum price to the person to whom you are selling the article. Maximum price means the maximum price after all trade, quantity and other discounts (exclusive of cash discounts) have been deducted. In figuring the adjustment charge, fractions may be rounded to the nearest cent. There is no restriction on the use of convenient figures lower than the exact amount allowed by this order. As used in this order the term "existing maximum price" means the maximum price, properly determined under Maximum Price Regulation No. 188 without reference to this order.

(2) *When manufacturer may add adjustment charge.* You may not add the adjustment charge on any sale, offer to sell, or delivery of an article covered by this order until you have mailed to the Office of Price Administration, Washington, D. C., the statement described in paragraph (d) (5) of this order. You need not wait for a reply from the Office of Price Administration to begin selling the article at a price which includes the adjustment charge, but the permission to sell here granted or permission granted in any other way under this order shall not constitute approval by the Office of Price Administration of a maximum price which has not been properly determined and reported, where required, under Maximum Price Regulation No. 188.

(3) *Adjustment charge must be stated separately by manufacturer.* If you are a manufacturer, the adjustment charge mentioned in paragraph (d) (1) of this order may be made by you only if you state it separately from the existing maximum price determined under the proper section of Maximum Price Regulation No. 188. The following statement or an abbreviation thereof must appear separately on all your price lists, quotations, invoices, billings and all other statements of price: "O. P. A. Adjustment Charge." Unless the percentage

adjustment charge is the same for all items on the invoice, you must state the amount of the adjustment charge below or alongside the price of each item on the invoice. If the percentage adjustment charge is uniform for all items on the invoice, the total amount of the adjustment charge may be computed and noted in a single entry at the bottom of the invoice. Examples of how it may be stated below or alongside each item follow:

## EXAMPLE 1 (BELOW)

Total	20.74

(4) *Adjustment charge not to be used by manufacturer in computing maximum prices of new or changed articles.* If you are a manufacturer, in computing your maximum prices for new or changed articles, you use the existing maximum prices of the old or comparable articles exclusive of adjustment charges. After you have computed the maximum prices of a changed or new article in accordance with the proper sections of Maximum Price Regulation No. 188 (using the existing maximum prices of the old or comparable articles without adjustment charges), you may add the adjustment charge permitted by paragraph (d) (1) of this order to the price so computed for the changed or new articles.

(5) *Statement which a manufacturer must file before selling at a price to which he has added an adjustment charge.* The statement required by paragraph (d) (2) of this order shall contain:

(i) An identification of the article by type, style number, trade name, if any.

(ii) The existing maximum price of the article to the class of purchaser which includes the largest number of purchasers (exclusive of purchasers who do not carry stock). Identify class which includes the largest number of purchaser, as "jobber", "department store", "mail order house", etc.

(iii) The approximate date or month when you first introduced the article if you first introduced it after March 1, 1942.

(6) *Notice which manufacturer must send purchasers for resale.* If you are a manufacturer, and you want to add the adjustment charge permitted under paragraph (d) (1) of this order, you must send to each purchaser for resale a copy of the notice included in Appendix X of this order. The notice must be sent the first time you invoice or bill him at a

price to which the adjustment charge has been added. You are not required to send this notice to a purchaser more than once.

(7) *Manufacturers' invoices.* In addition to the notice required by paragraph (d) (6), if you are a manufacturer, you must furnish on all sales covered by this order an invoice to the purchaser showing your name and address; the name and address of the purchaser; the quantity, style number and type of article; your price; and the adjustment charge. From the effective date of the order the following notice shall hereafter appear on all invoices listing an article for which the adjustment charge is made:

**NOTICE OF OPA ACTION**

Because of increased costs which furniture manufacturers can't absorb OPA has let them add a 5% "adjustment charge" to their maximum prices. Under most circumstances wholesalers can add a 4% "adjustment charge" to their maximum prices. "Adjustment charges" which we are permitted to add are shown on this invoice. Retailers are not permitted to add anything to their existing maximum prices.

You shall keep a copy of each of these invoices for the inspection of the Office of Price Administration.

(e) *How this order affects wholesalers and other purchasers who resell to other than ultimate consumers—*(1) *Amount of the adjustment.* Any wholesaler or other purchaser for resale may add to his existing maximum prices for sales to purchasers other than ultimate consumers the adjustment charge determined below: *Provided,* That he fulfills the requirements of subparagraphs (2), (3), (4) and (5) below.

*Articles for which wholesaler's maximum price is the same as manufacturer's.* If your existing maximum price is the same as the manufacturer's for sales of an identical article to a particular class of purchaser, you may add to your existing maximum price to that class of purchaser the dollars and cents amount of the adjustment charge which this order permits the manufacturer to add to his maximum price for sales of the article to that class of purchaser.

*All other articles.* If your existing maximum price is not the same as the manufacturer's for the identical article, you may add to your existing maximum price for the article, an adjustment charge up to 4% of your existing maximum price to the class of purchaser to whom you are selling the article.

*Furniture on which the wholesaler may not add the adjustment charge.* You may not add the adjustment charge to your maximum price for any piece of furniture which was invoiced to you at a price to which the adjustment charge was not added, or which is not covered in paragraph (b) of this order.

(2) *Reports by wholesalers.* You may not add the adjustment charge on any sale, offer to sell, or delivery of an

article covered by this order until you have mailed to the Office of Price Administration, Washington, D. C., a statement containing the following information:

(i) An identification of the article by type, style number, trade name, if any, and your supplier's name and address. (If you use price lists on which the supplier's name is coded, you may furnish instead these price lists together with the code, if that is more convenient).

(ii) The existing maximum price to the class of purchaser to whom you sell the largest volume. Identify this class. You need not wait for a reply from the Office of Price Administration to begin selling the article at a price which includes the adjustment charge, but the permission here granted or permission granted in any other way under this order shall not constitute approval by the Office of Price Administration of a maximum price which has not been properly determined and reported, where required, under the General Maximum Price Regulation, or, for that matter, under Maximum Price Regulation No. 133.

(3) *New articles.* The adjustment charge may be added to the maximum price for a new article: *Provided,* That it is not added more than once. Thus if you determine the maximum price under section 2 of the General Maximum Price Regulation you must, before you add the adjustment charge, make sure that the adjustment charge was not included in the price of the "same or similar" article. If you determine the maximum price under section 3 (a) of the General Maximum Price Regulation, you must not include the adjustment charge, if any, paid your supplier as part of your "replacement cost" of the comparable article or as part of the cost of the new article. To the price for the new article so determined under section 3 (a) of the General Maximum Price Regulation, you may add the amount of the adjustment charge.

(4) *Notice which wholesalers must send purchasers for resale.* If you are a wholesaler or any other person selling to a purchaser other than the ultimate consumer and you want to add the adjustment charge permitted under this order, you must send a copy of the notice included in Appendix X of this order, to each purchaser for resale. The notice must be sent at or before the first time you invoice or bill him at a price which includes the adjustment charge. You are not required to send this notice to a purchaser more than once.

(5) *Wholesalers' invoices.* In addition to the notice required by paragraph (4) above, if you are a wholesaler or a person who sells to a person other than the ultimate consumer, you must furnish on all sales covered by this order an invoice to the purchaser showing your name and address; the name and address of the purchaser; the quantity, style number

and type of article; your price; and the adjustment charge. From the effective date of the order the following notice shall hereafter appear on all invoices listing an article for which the adjustment charge is made:

**NOTICE OF OPA ACTION**

Because of increased costs which furniture manufacturers can't absorb OPA has let them add a 5% "adjustment charge" to their maximum prices. Under most circumstances wholesalers can add a 4% "adjustment charge" to their maximum prices. "Adjustment charges" which we are permitted to add are shown on this invoice. Retailers are not permitted to add anything to their existing maximum prices.

A copy of all such invoices shall be kept by every person selling to a person other than the ultimate consumer for the inspection of the Office of Price Administration. If you sell to a person other than the ultimate consumer, you may make the adjustment charge mentioned in subparagraph (1) above only if you state it separately from your existing maximum price properly determined under the General Maximum Price Regulation.

(1) *How this order affects retailers—*  
(1) *Retailers may not add adjustment charge.* Paragraph (d) of this order permits furniture manufacturers and paragraph (e) permits wholesalers to add to their existing maximum prices for articles mentioned in paragraph (b) an adjustment charge which must be stated separately by them. If you are a retailer you may not add anything to your existing maximum (ceiling) price for the sale of one of these articles because of the adjustment charge which you have paid the manufacturer. You must absorb the increased costs caused by this adjustment charge and your existing maximum (ceiling) price remains the same as before the issuance of this order.

(2) *How you price new articles.* If you are a retailer, you should take special care in pricing new articles of the kind mentioned in paragraph (b) of this order, not to consider the adjustment charge as part of your costs. If the ceiling price for a new article is determined under section 2 of the General Maximum Price Regulation, you may not consider the adjustment charge as part of the costs of the article for the purpose of determining whether it is the same or similar to another article. If the price for the new article is to be determined under section 3 (a) of the General Maximum Price Regulation, the adjustment charge added by the manufacturer is not to be included in the "replacement cost" of the comparable article or as part of the cost of the new article.

(3) *Retailers' records.* Retailers shall keep all purchase invoices for inspection by the Office of Price Administration.

(g) This Order No. 1052 may be revoked or amended by the Price Administrator at any time.

This Order No. 1052 shall become effective on the 17th day of December, 1943.

Note: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 17th day of December 1943.

CHESTER BOWLES,  
Administrator.

#### APPENDIX X

The notice which follows must be sent by all manufacturers and wholesalers to each purchaser for resale the first time the manufacturer or wholesaler bills or invoices such purchaser at a price to which the adjustment charge has been added.

#### NOTICE

Order No. 1052 under Maximum Price Regulation No. 188 permits manufacturers to add an adjustment charge of 5% to their maximum prices for household furniture items. The order requires manufacturers and wholesalers to send a copy of this notice with the first invoice which includes the adjustment charge to all their purchasers buying from them for resale. Manufacturers, wholesalers, and retailers, however, are charged with knowledge of the exact terms of the order and should obtain a copy from the nearest OPA field office.

#### Highlights of the Order

1. *Manufacturer's adjustment.* Manufacturers are permitted to add 5% to their present ceiling prices for each article for sales to each class of purchaser. They are required to state the adjustment charge separately on the invoice.

2. *Wholesaler's adjustment.* There are two types of adjustment charges which wholesalers may make, depending on their method of pricing. If a wholesaler's ceiling price is the same as the manufacturer's for sales of the identical article to the same class of purchaser, the order permits the wholesaler to add to his existing ceiling price the same dollars and cents adjustment charge which the manufacturer is permitted to add on sales to the same class of purchaser. If the wholesaler does not have the same ceiling price as the manufacturer, the order permits the wholesaler to add an adjustment charge which amounts to 4% of his ceiling price to the particular class of purchaser to whom he is selling. Before adding the adjustment charge on any sale, wholesalers must mail to OPA, Washington, D. C., a statement of their existing prices, identifying the articles and their supplier's name and address; but they need not wait for a reply before selling. No wholesaler may add the adjustment charge to his existing maximum price for any furniture which was invoiced to him at a price to which the adjustment charge was not added. All wholesalers are required to state the adjustment charges separately on their invoices.

*New articles.* Wholesalers are permitted to add the adjustment charge to their former maximum prices for pieces of furniture which are new articles for the particular seller. Provided, That the charge is not added more than once. Thus, if the price for a new article is determined under section 2 of the General Maximum Price Regulation, the adjustment charge may not be added unless it is clear that the price for the "same or similar" article does not include the adjustment

price. If the price for the new article is to be determined under section 3 (a) of the General Maximum Price Regulation, the adjustment charge added by the manufacturer is not to be included in the "replacement cost" of the comparable article or as part of the cost of the new article, but may be added to the maximum price determined under that section.

3. *Retailers must absorb the adjustment charges.* Manufacturers have been authorized to add the 5% adjustment charge provided for in this order because their costs have risen so greatly that they cannot continue to sell at their existing maximum (ceiling) prices. Wholesalers are permitted to add a 4% adjustment charge to their maximum prices. Retailers are required to absorb these adjustment charges and are not permitted by OPA to add anything to their present ceiling prices, which must remain the same.

*New articles.* If you are a retailer, who sells one of the articles covered by the order you should take special care in pricing new articles not to consider the adjustment charge as part of your costs. If the ceiling price for a new article is determined under section 2 of the General Maximum Price Regulation, the adjustment charge may not be considered as part of the costs of the article for the purpose of determining whether it is the same or similar to another article. If the price for the new article is to be determined under section 3 (a) of the General Maximum Price Regulation, the adjustment charge added by the manufacturer is not to be included in the "replacement cost" of the comparable article or as part of the cost of the new article.

#### LAUNDRY SERVICES IN NEW HARTFORD, N. Y.

Order No. G-13 under § 1499.114 (d) of Maximum Price Regulation No. 165, as amended. Services. Adjustment of laundry service prices in New Hartford, New York.

An application for permission to increase its present maximum prices for all its laundry and related services, as established under Maximum Price Regulation No. 165, as amended—Services, has been filed with the New York Regional Office of the Office of Price Administration by McPherson's Laundry, Inc., which supplies substantially all of such services in New Hartford, New York. After due consideration of the application and other available information, it has been decided that the requested price adjustment should be granted in part and denied in part, for the reasons set forth in the opinion issued simultaneously herewith.

Accordingly, pursuant to the Emergency Price Control Act of 1942, as amended, and § 1499.114 (d) of Maximum Price Regulation No. 165, as amended—Services, *It is hereby ordered:*

(a) The application of McPherson's Laundry, Inc., New Hartford, New York, is granted to the extent that it is permitted to increase by 11% its present legal maximum prices for all its laundry and related services, including commercial services, in the manner hereinafter, in paragraph (c) of this order provided.

(b) The applicant is permitted to add to its present legal maximum prices to its agent-drivers the percentage price increase herein granted to it. Agent-drivers whose laundry services are supplied by the applicant are permitted to add to their retail prices for such services the percentage increase herein granted to their supplier, in the manner provided by paragraph (c) of this order.

(c) The percentage increase permitted to the applicant and to its agent-drivers by this order shall be applied only to the total amount of the bill rendered to each customer for any service afforded (as it would be computed under existing lawful maximum prices). Such increase may not be applied to individual items of service. Existing price lists shall not be altered. If the increased price so arrived at includes a fraction of a cent less than one-half, the price that may be charged shall be reduced to the next lower cent. If, however, the increased price includes a fraction equal to or more than one-half cent, the seller shall be permitted to charge the next higher cent.

(d) The applicant shall give notification of such price increase as follows: (1) Furnish each customer within 15 days after the effective date of this order with a statement describing its services, and specifying its lawful ceiling prices, and the percentage increase permitted it by the order; (2) file a copy of the same statement with the appropriate District Office of the Office of Price Administration within 15 days after the effective date of this order, together with a statement signed by a responsible official of the laundry establishment certifying that the applicant has complied with section (1) above; (3) inscribe on each bill rendered the statement: "OPA permitted increase to maintain supply: \$-----" and (4) give all new customers as acquired the same notification as hereinabove for existing customers.

(e) In addition, the applicant shall immediately advise its agent-drivers of the amount of permitted price increase which the latter may add to their total bills under the provisions of paragraph (c) of the order, and of the manner in which such permitted increase shall be computed.

(f) Customary allowances, discounts, or other price differentials may not be changed by either the applicant or its agent-drivers unless such change results in prices lower than the prices permitted by this order, after applying the supplier's customary allowances, discounts, or other price differentials; and they shall maintain all of their legal current pricing and other business practices.

(g) The applicant shall keep this order and attached opinion in its establishment, together with the statement required by § 1499.103, and make them available for inspection by any person during business hours.

(h) Except as expressly provided by this order, the applicant and its agent-drivers shall remain in all respects subject to all the provisions of Maximum Price Regulation No. 165, as amended—Services.

(i) This order may be revoked or amended by the Regional Administrator or the Price Administrator through the issuance at any time hereafter of any order or price regulation, or amendment or supplement thereto.

(j) Any relief requested by the applicant not expressly granted herein is denied. To the extent that the application has been denied, the applicant may, within fifteen (15) days after the date on which this order was issued, request the Price Administrator to review such order of denial in the manner provided by Revised Procedural Regulation No. 1.

This order shall become effective December 9, 1943.

[Region II Order G-20 Under RMPR 122]

PENNSYLVANIA ANTHRACITE IN DESIGNATED  
PARTS OF NEW JERSEY

Order No. G-20 under § 1340.260 of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers.

Pennsylvania anthracite delivered by dealers in Sussex County, the major part of Morris County and designated portions of Union County, State of New Jersey—Coal Area V.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does*—(1) *Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in the zones comprising State of New Jersey—Coal Area V. That area consists of three zones, as follows:

**Zone 1:** Zone 1 includes the following portions of Morris County: The towns of Morristown and Boonton, the boroughs of Chatham, Madison, Florham Park, Morris Plains, Mendham, Mountain Lakes and Kinnelon, and the Townships of Parsip, Chatham, Harding, Morris, East Hanover, Hanover, Mendham, Parsippany-Troy Hills, Boonton and Montville, and the following portions of Union County:

The City of Summit, the borough of New Providence and the Township of New Providence.

**Zone 2:** Zone 2 includes the following portions of Morris County: The town of Dover, the boroughs of Wharton, Rockaway, Mount Arlington, Netcong and Chester, and the Townships of Rockaway, Danville, Jefferson, Mine Hill, Mount Olive, Chester, Roxbury, Washington and Randolph, and in Sussex County: the boroughs of Stanhope and Hopatcong.

**Zone 3:** Zone 3 includes all of Sussex County except the boroughs of Stanhope and Hopatcong.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Zone 1, 2 and 3 are set forth in Schedules I, II and III, respectively.

(3) *To what sales this order applies.* If you are a dealer in anthracite you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Zones 1, 2 and 3.

You shall determine the maximum price for "direct-delivery" sales, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone to which delivery is made, whether or not you are located in one of the three zones.

You shall determine your maximum price for a "yard" sale, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone in which the purchaser takes physical possession or custody of the anthracite.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the Schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) *Use the schedule which covers your sale.* (Schedule I applies to sales on a "direct-delivery" basis, "yard sales", and "sales of bagged coal" within Zone 1. You will find Schedule I in paragraph (d). In like manner, Schedules II and III apply to similar sales in Zones 2 and 3, respectively. You will find Schedule II in paragraph (e) and Schedule III in paragraph (f).

(2) Take the dollars-and-cents figure set forth in the applicable Schedule, for the sizes and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified in each schedule. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedules.

(5) If you deliver a fraction of a net ton, even if less than one-half ton, and the applicable schedule provides a discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate

service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Zone 1. There is a separate table of prices for "direct-delivery" sales, "yard sales", and "sales of bagged coal".

Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, in that event, if those sizes are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes in the truck or other vehicle, or in the bags, in

which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price, or, in the case of bagged coal, on the basis of the applicable bagged price, for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(h) **Ex parte 148; freight rate increase.** Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(i) **Addition of increase in suppliers' maximum prices prohibited.** You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(j) **Taxes.** If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(k) **Adjustable pricing.** You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(l) **Petitions for amendment.** Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(m) **Right of amendment or revocation.** The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(n) **Applicability of other regulations.** If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established.

A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(c) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(p) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(q) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Newark District Office of the Office of Price Administration.

[Region II Order G-24 Under RMPR 122]

PENNSYLVANIA ANTHRACITE IN DESIGNATED AREAS OF PENNSYLVANIA

Order No. G-24 under §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in Lycoming, Union, Snyder and Montour Counties, and in designated parts of Northumberland, Centre and Clinton Counties, Commonwealth of Pennsylvania—Coal Area VI.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does—(1) Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in Coal Area VI which comprises the following portions of the Commonwealth of Pennsylvania:

1. Lycoming County;
2. Union County;
3. Snyder County;
4. Montour County;
5. That portion of Northumberland County lying North of the Susquehanna River;
6. The Borough of Millheim and the Townships of Miles, Haines and Penn in Centre County;
7. The City of Lock Haven and the Boroughs of Flemington, Loganton, Mill Hall, and Avis, and the Townships of Allison, Greeno, Crawford, Logan, Lamar, Bald Eagle, Porter, Pine Creek, Dunnstable, Woodward, Gallaher, Castanea, and Wayne in Clinton County;

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area VI are set forth in Schedule I hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area VI whether or not you are located in Coal Area VI.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedule herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum prices as follows:

(1) Refer to Schedule I which contains a separate table of prices for "direct-delivery" sales and "yard sales" of anthracite. (You will find Schedule I in paragraph (d)).

(2) Take the dollars-and-cents figure set forth in the applicable table of the schedule, for the sizes and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in Schedule I.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area VI. There is a separate table of prices for "direct-delivery" sales and "yard sales".

(i) SALES ON A "DIRECT-DELIVERY" BASIS

For sales of anthracite of the sizes and in the quantities specified:

Size	Per net ton	Per net ½ ton	Per net ¼ ton	Per 100 lbs. for sales of 100 lbs. or more but less than ¼ ton

Pea	10.69	5.55	2.90	.70

Rice	8.00	4.25	2.25	.55
Barley	6.60	3.55		
Screenings	3.50	1.75		

*Required discounts.* You shall deduct from the prices set forth in table (1) of this schedule, on sales and deliveries of all sizes except screenings, in quantities of one ton or more, a discount of 25¢ per net ton, where payment is made within ten days after delivery. Nothing herein requires you to sell on other than a cash basis, and you are required to give no discounts for sales and deliveries in quantities under one ton.

MAXIMUM AUTHORIZED SERVICE CHARGES

Special service rendered at the request of the purchaser: (Cents per net ton)

"Carry" or "wheel" (except for sales amounting to less than one ton)..... 50

Carrying upstairs for each floor above the ground floor (except for sales amounting to less than one ton).

This charge shall be in addition to any charge for "carry" or "wheel"..... 50

No such service charge may be imposed for sales and deliveries in quantities under one ton.

(2) "YARD SALES"

For sales of anthracite of the sizes and in the quantities specified:

Size	Per net ton	Per net ½ ton	Per net ¼ ton	Per 100 lbs. for sales of 100 lbs. or more but less than ¼ ton
Broken, egg, stove, nut.	\$11.59	\$5.69	\$3.10	\$0.70
Pea	9.69	5.05	2.65	.69
Buckwheat	8.10	4.29	2.49	.69
Rice	7.00	3.75	2.19	.55
Barley	5.60	3.05		
Screenings	2.50	1.25		

*Required discounts.* You shall deduct from the prices set forth in table (2) of this schedule, on sales and deliveries of all sizes except screenings, in quantities of one ton or more, a discount of 25¢ per net ton, where payment is made within ten days after delivery. Nothing herein requires you to sell on other than a cash basis, and you are required to give no discounts for sales and deliveries in quantities under one ton.

(e) *Commingleing.* If you sell one size of anthracite, commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "direct-delivery" sale or "yard sale", except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, in that event, if those sizes are separately weighed at the point of loading, the dealer may commingle those sizes in the truck or other vehicle in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(f) *Ex Parte 148; freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not

increase any Schedule price on account of freight rates.

(g) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(h) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(i) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(j) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(k) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(l) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(m) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charge, and the solid

fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(n) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable table and schedule of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which must be added to the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(o) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Williamsport District Office of the Office of Price Administration.

(p) *Definitions and explanations.* When used in this Order No. G-24, the terms:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency or any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

vania—Coal Area VI, with such designation during December 1941.

(6) "Direct-delivery", except with respect to sales in 100 lb. lots, means delivery to the buyer's bin or storage space by dumping or chuting directly from the seller's truck or vehicle, or, where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space and at which the coal can be discharged directly from the seller's truck. "Direct delivery" in 100 lb. lots shall mean depositing in buyer's bin or other storage space designated by buyer.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from the seller's truck in the course of "direct delivery".

(8) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

[Region IV Order G-1 Under 75 (a)]

FLUID MILK IN BRADLEY COUNTY, TENN.

General Order No. G-1 under § 1499.75 (a) (9) of the General Maximum Price Regulation. Adjustment of approved fluid milk prices in Bradley County, Tennessee.

The Regional Administrator of the Office of Price Administration for Region IV has determined that a serious shortage of approved fluid milk both at wholesale and retail is threatened in Bradley County, Tennessee. The Regional Administrator has determined that this serious deficiency in the essential fluid milk supply of Bradley County, Tennessee, including the City of Cleveland, is caused by a marked disparity between the established maximum producer prices for fluid milk in Bradley County

and the established maximum producer prices for fluid milk in the Chattanooga, Tennessee, market, that this serious deficiency in its essential fluid milk supply will be substantially reduced by this adjustment, that there is no feasible alternative to this price adjustment, and that said adjustment will not create or tend to create a deficiency or a need for increase in the established maximum prices in any other community and will effectuate the purposes of the Emergency Price Control Act of 1942 as amended.

Therefore, under the authority vested in the Regional Administrator by § 1499.75 (a) (9) (ii) of the General Maximum Price Regulation as amended, it is hereby ordered:

(a) *Adjusted maximum prices for approved fluid milk.* On and after November 15, 1943, the maximum prices for approved fluid milk sold and delivered to any person within Bradley County, Tennessee, at wholesale or retail in glass and paper containers of one quart or less shall be:

	Quarts		Pints		Half-pints	
	Glass	Paper	Glass	Paper	Glass	Paper
Wholesale.....	Cts. 12	Cts. 13	Cts. 7	Cts. 8	Cts. 4	Cts. 4½
Retail out-of-store....	14	15	8	9	5	5½
Retail home delivered	14	15	8	9	5	5½

½ Quart container sizes. Any person subject to this Order shall adjust his maximum wholesale prices for ½ quart container sizes as determined under § 1499.2 General provisions of the General Maximum Price Regulation by an amount proportionate to the increase or decrease in his ceiling price for quart container sizes as a result of the foregoing listed maximum prices.

*Retail sales of approved fluid milk by hotels, restaurants, soda fountains, cafes, bars and other eating establishments for consumption on the premises.* Any person included within the enumeration immediately preceding and subject to this order may use his established maximum price under the General Maximum Price Regulation or he can determine his adjusted maximum price by adding to the wholesale price paid by him 3¢ per pint, 2½¢ per ½ quarts, and 2¢ per half pint.

*Retail sales other than (A) out-of-store sales, (B) home deliveries, and (C) retail sales by hotels, restaurants, soda fountains, cafes, bars and other eating establishments for consumption on the premises.* The maximum price for retail sales other than out-of-store sales, home deliveries, and retail sales by hotels, restaurants, soda fountains, cafes, bars, and other eating establishments for consumption on the premises shall equal the listed wholesale price, subject to any applicable discounts or allowances.

(b) *Definitions.* (1) "Bradley County" means the territory lying within the established boundaries of Bradley County, Tennessee.

(c) *Applicability of the General Maximum Price Regulation and other supplementary orders of the Office of Price Administration.* Except as otherwise

provided herein, all transactions subject to this order remain subject to all the provisions of the General Maximum Price Regulation, together with all amendments, supplementary regulations and orders which have heretofore or may be hereafter issued.

Specifically, but not by way of limitation, unless the context of this Order otherwise requires, the provisions of § 1499.73a (a) (I) (vii) (b), (c), (d), (e), (f), and (g) and § 1499.73a (a) (I) (x) (Supplementary Regulation 14a to the General Maximum Price Regulation) shall be applicable and shall be considered a part of this order. Unless the context otherwise requires, all terms used herein shall be construed in accordance with the provisions of § 1499.20 of the General Maximum Price Regulation, as amended.

(d) Atlanta Regional Price Order No. 18 (c)-4, presently designated as Order G-4 under § 1499.18 (c) of the General Maximum Price Regulation, effective December 7, 1942, adjusting maximum prices for Grade A raw milk within the boundaries of Bradley County, Tennessee, is hereby revoked.

(e) This order may be revoked, amended or corrected at any time.

This order shall become effective on November 15, 1943.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871)
