#### PART 301—DOMESTIC QUARANTINE NOTICES

##### PINK BOLLWORM QUARANTINE

*Introductory note.* This revision of the quarantine and regulations is made primarily for the purpose of extending the regulated area to include recently found infestations of the pink bollworm in southwestern Louisiana, the Coastal Bend of Texas, and one county in western Texas; also to release from quarantine an area in the Panhandle of Texas and an adjacent county in New Mexico in which no specimens of the pink bollworm have been taken in recent years. The newly added area is comprised of the Louisiana parishes of Cameron, Calcasieu, and part of Jefferson Davis Parish, and the counties of Brazoria, Calhoun, Matagorda, Schleicher, and part of Jackson County, Tex. The area released from regulation is comprised of Roosevelt County, N. Mex., Cochran and Hockley Counties, Tex., and those parts of Bailey and Lamb Counties, Tex., that were formerly within the regulated area.

The lifting of all restrictions on the interstate movement, from any regulated area, of cotton linters produced from

sterilized seed, as previously authorized in circular B. E. P. Q. 493, revised effective October 1, 1942, has been incorporated in the revised regulations as the second proviso of paragraph (a) of § 301.52-4.

#### Determination of the Secretary of Agriculture

The Secretary of Agriculture, having determined that it was necessary to quarantine the States of Arizona, New Mexico, and Texas to prevent the spread of infestations of the pink bollworm (*Pectinophora gossypiella* Saunders), a dangerous insect new to and not theretofore widely prevalent or distributed within and throughout the United States, and having given the public hearing required by law, promulgated a revision of Notice of Quarantine 301.52, part 301, chapter III, title 7, Code of Federal Regulations, and regulations supplemental thereto, governing the movement of carriers of the pink bollworm from any of the above-named States into or through any other State or Territory or District of the United States, §§ 301.52-1 to 301.52-12, inclusive, part 301, chapter III, title 7, Code of Federal Regulations [B. E. P. Q.—Q. 52, effective March 15, 1939, as amended effective February 10, 1943].

Because of the discovery of substantial infestations of the pink bollworm in Louisiana, the Secretary of Agriculture, having given a further public hearing in the matter, has determined that it is necessary to quarantine the State of Louisiana and to make other changes in the regulated areas and other minor modifications.

#### Order of the Secretary of Agriculture

Pursuant to the authority conferred upon the Secretary of Agriculture by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 1940 ed. 161), the subpart entitled "Pink Bollworm" of part 301, chapter III, title 7, Code of Federal Regulations [B. E. P. Q.—Q. 52, as revised] is hereby further revised, effective May 1, 1944, to read as follows:

##### Sec.

301.52-12 Shipments for experimental and scientific purposes.

AUTHORITY: §§ 301.52 to 301.52-12 issued under sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 1940 ed. 161.

§ 301.52 Notice of quarantine. Under the authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 1940 ed. 161), the Secretary of Agriculture quarantines the States of Arizona, Louisiana, New Mexico, and Texas to prevent the spread of the pink bollworm. Hereafter (1) fresh okra pods; (2) cotton, wild cotton, including all parts of either cotton or wild cotton plants, seed cotton, cotton lint, linters, and all other forms of unmanufactured cotton fiber, gin waste, cottonseed, cottonseed hulls, cottonseed cake, and meal; (3) bagging and other containers and wrappers of cotton and cotton products; (4) railway cars, boats, and other vehicles which have been used in conveying regulated cotton products or which are fouled with such products; (5) when contaminated with regulated cotton products, any other commodities, including farm products, farm household goods, and farm equipment; shall not be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved or allowed to be moved from the States of Arizona, Louisiana, New Mexico, or Texas into or through any other State or Territory or District of the United States in manner or method or under conditions other than those prescribed in the regulations hereinafter made and amendments thereto: *Provided*, That the restrictions of this quarantine and of the regulations supplemental hereto may be limited to such areas, now or which may be hereafter designated by the Secretary of Agriculture as regulated areas, in the quarantined States, as in his judgment, shall be adequate to prevent the spread of the said pest. Any such limitation shall be conditioned, however, upon the affected State or States providing for and enforcing the control of the intrastate movement of the restricted articles under the conditions which apply to their interstate movement under existing provisions of the Federal quarantine regulations, and upon their enforcing such control and sanitation measures with respect to such areas or portions thereof as, in the judgment of the Secretary of Agriculture, shall be deemed adequate to prevent the intrastate spread therefrom of the said insect infestation: *Provided further*, That whenever, in any year, the Chief of the Bureau of Entomology and Plant Quarantine shall find that facts exist as to the pest risk involved in the movement of one or more of the articles to which the regulations supplemental hereto apply, making it safe to modify, by making less stringent, the restrictions contained in any such regulations, he shall set forth and publish such finding in administrative instructions, specifying the manner in which the applicable regulation shall be made less stringent, whereupon such modification shall be-

come effective, for such period and for such regulated area or portion thereof as shall be specified in said administrative instructions, and every reasonable effort shall be made to give publicity to such administrative instructions throughout the affected areas.

(f) *Movement to contiguous infested area.* No certificates are required for the interstate movement of restricted articles from a lightly infested area to a contiguous, lightly or heavily infested area, or from a heavily infested area to a contiguous heavily infested area.

§ 301.52-5 *Limited permits.* Limited permits will be issued for the movement of uncertified, restricted articles to such

gins, oil mills, or processing or manufacturing plants as may be authorized and designated by authority of the Chief of the Bureau of Entomology and Plant Quarantine for manufacturing, processing, or treatment incidental to preparing such products for certification. § 301.52-8 *Dealer-carrier permits.* As a condition of issuance of certificates or limited permits for the interstate movement of restricted articles handled by persons or firms engaged in purchasing, assembling, ginning, processing, or carrying such restricted articles originating or stored in regulated areas, such persons or firms shall make application for a dealer-carrier permit to the Bureau of Entomology and Plant Quarantine, San Antonio, Tex., and agree to maintain an accurate record of receipts and sales, shipments or services, when so required (which record shall be available at all times for examination by an inspector), and agree to carry out any and all conditions, treatments, precautions, and sanitary measures which may be required.

<sup>1</sup>Part of the lightly infested area in Arizona is regulated on account of the *Thurberia weevil* under quarantine No. 61, and shipments therefrom must comply with the requirements of that quarantine.

§ 301.52-9 *Cancellation of certificates.* Any certificates, limited permits, or dealer-carrier permits issued under these regulations may be withdrawn or canceled and further certificates or permits refused, whenever, in the judgment of the Bureau of Entomology and Plant Quarantine, the further use of such certificates or permits might result in the dissemination of the pink bollworm.

§ 301.52-10 *Alternate treatments to be prescribed by the Chief of the Bureau.* When more effective methods of treatment, processing, or sterilization shall have been developed or when methods of treatment, processing, or sterilization are stipulated in the regulations hereof are found unsatisfactory by the Chief of the Bureau of Entomology and Plant Quarantine, he is authorized to alter them or substitute other requirements.

§ 301.52-11 *General certification provisions and marking and labeling requirements.* To obtain certificates or limited permits under these regulations application shall be made either to the local inspector or to the Bureau of Entomology and Plant Quarantine, Federal Building, San Antonio, Tex.<sup>2</sup>

Certificates or permits required under these regulations shall be securely attached to the outside of each container of restricted articles, or, in the case of carlot or bulk shipments by freight, to the waybills or other shipping papers which accompany the shipment. In the case of movement by road vehicle, such certificate or permit shall accompany the vehicle. Each container of restricted articles so moved shall bear such marking and labeling as may be necessary, in the judgment of the inspector, to identify the material.

The United States Department of Agriculture shall not be responsible for any costs incident to inspection or treatment, other than the services of inspectors.

§ 301.52-12 *Shipments for experimental and scientific purposes.* Products and articles subject to restriction in these regulations may be moved interstate for experimental or scientific purposes, on such conditions and under such safeguards as may be prescribed by the Chief of the Bureau of Entomology and Plant Quarantine. The container of articles so moved shall bear securely attached to the outside thereof, an identifying tag from the Bureau of Entomology and Plant Quarantine showing compliance with such conditions.

This revision of the quarantine and regulations shall be effective on and after May 1, 1944, and shall supersede the quarantine and regulations promulgated March 7, 1939, and amendments thereto.

Done at Washington, D. C., this 27th day of April, 1944.

## TITLE 32—NATIONAL DEFENSE

### Chapter IX—War Production Board

#### Subchapter B—Executive Vice-Chairman

**AUTHORITY:** Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

#### PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 1, Direction 1]

#### CHANGES MADE BY CUSTOMERS IN ORDERS PLACED WITH MANUFACTURERS

The following direction is issued pursuant to Priorities Reg. 1:

(a) This direction tells what happens when a customer, having placed a rated order with a manufacturer, wishes to make a change in that order.

(b) The general rule is that any change in a customer's order constitutes a cancellation of the earlier order and must be considered as a new order received on the date of the change if (but only if) the change will require the manufacturer to interfere with his production. For example:

(1) A change in shipping destination does not constitute the placing of a new order.

(2) An increase in the total amount ordered is a new order to the extent of the increase unless it can be filled with only a negligible interference with sequence of later orders.

(3) A change in the date of the delivery, whether advanced or deferred, when made by the customer is a new order if it interferes with production, or delays delivery on an equal or higher rated order.

(4) Mere substitution of one allotment number for another, where there is no change in the accompanying rating, is not considered to be the placing of a new order.

(5) A change in preference rating will not constitute a new order. Treatment of the new rating is governed by the provisions of Priorities Regulation No. 12.

(6) A reduction in the total amount ordered will presumably not require a change in the manufacturer's schedule and will not constitute a new order. If the quantity is reduced below a minimum production quantity, the manufacturer may insist on the delivery of not less than the minimum production quantity as explained in Interpretation No. 7. If the customer is not willing to order that amount, the manufacturer may reject the order. The manufacturer may not discriminate between customers in requiring delivery of minimum production amounts or in rejecting orders.

(7) When the customer directs the manufacturer to hold or suspend production without specifying a new delivery date, the order must be considered cancelled. If requested to do so within ten days after receiving such

an instruction, the manufacturer must reinstate the order as nearly as possible to its former place in his proposed schedule of deliveries as long as the reinstatement does not cause loss of production or delay in the scheduled deliveries on equal or higher rated orders. Any request for reinstatement made after ten days shall be treated as the placing of an entirely new order. The rule with respect to the effect of a request for reinstatement of an order which was part of a frozen schedule is stated in paragraph (d) of Priorities Regulation 18.

(8) Where minor variations in size, design, capacity, etc., are requested by the customer and can be arranged by the manufacturer without interfering with his production, such changes do not constitute a new order.

(c) Where a change in an order constitutes a new order the conditions existing at the time the changes are received govern the acceptance of the order and its sequence in delivery under the rules of Priorities Regulation No. 1. If a customer changes his order in such a way as to constitute a new order, but finds that as a new order it will not be scheduled for delivery at the time required by the customer, he may, if he likes, request reinstatement of his original order within the time and manner provided in paragraph (b) (7) above.

Issued this 28th day of April 1944.

## PART 1029—FARM MACHINERY

[Limitation Order L-257, Direction 2]

### SALES OF WHEEL-TYPE TRACTORS FOR INDUSTRIAL USE WITH CONSTRUCTION MACHINERY ATTACHMENTS

The following direction is issued pursuant to Limitation Order L-257:

(a) *Purpose and scope.* Paragraph (f) (2) of Limitation Order L-257 (§ 1029.15) prohibits the sale for non-farm use of most machinery and equipment covered by that order unless the buyer has a rating of AA-4 or higher. If the buyer has no rating, he usually must apply for one on Form WPB-541 (PD-1A). This direction requires that any one who wants to buy a wheel-type tractor for use with construction machinery attachments must apply on Form WPB-1319 for approval to buy it and any necessary rating; he should use the same Form WPB-1319 that he uses in applying for the attachments under Order L-192. "War agencies" are treated the same as they are under L-192.

This direction covers only sales and deliveries to the ultimate user who wants to buy wheel-type tractors plus construction machinery attachments for non-farm use. All other sales of wheel-type tractors for non-farm use are governed by paragraph (f) (2) of L-257.

(b) *Restrictions on sale.* Except where the buyer is a "war agency", on and after May 12, 1944, no person may sell or deliver, and no person may buy or accept delivery of, any new wheel-type tractor for use with new construction machinery attachments covered by Schedule A of Limitation Order L-192, without specific approval of the War Production Board. Application for this approval, including both the tractor and the construction machinery attachments, should be made

by the prospective buyer on a single Form WPB-1319 in accordance with the current instructions for the form. He must file the application in quintuplicate with the WPB regional office in the region in which he desires to use the tractor and attachments. #### PART 1255—INVENTORY RESTRICTION EXCEPTIONS

[General Inventory Order M-161, as Amended  
Apr. 28, 1944]

§ 1255.1 *General Inventory Order M-161*—(a) *What this order does*. This order excepts certain materials from inventory restrictions and from limits on the purchase of maintenance, repair, and operating supplies. The exception is made in some cases because there is no serious shortage of the material and in other cases because the material is available in quantity only in certain seasons, so that it is desirable to permit persons to buy and store it without limit.

(b) *Exception to inventory restrictions*. Section 944.14 of Priorities Regulation 1, which restricts inventory to a practicable working minimum, does not apply to the materials listed on Schedule A. Each of these materials is also exempted from all inventory restrictions in any other regulation or order of the War Production Board unless they expressly mention the material.

(c) *Exemption from restrictions on maintenance, repair, and operating supplies*. The materials listed on Schedule A are not subject to any restrictions in any regulation or order of the War Production Board which limit the quantity of material received or ordered for maintenance, repair, or operating supplies during any period on the basis of the amount of such supplies purchased during a base period. A person may receive or order for delivery any quantity of listed materials without regard to these restrictions. He does not have to charge his orders for any such material against his base-period quota except to the extent that purchases of the same material were taken into account in arriving at his quota. For example, a manufacturer operating under CMP Regulation 5 is limited in his purchases of maintenance, repair, and operating supplies to the amount which he spent in the base period. A manufacturer who spent \$50,000 during the base period, including \$500

for lead, may buy any amount of lead during the current period, and may use his MRO rating for that purpose, and he need include only \$500 of the amount thus spent for lead in figuring the amount to be charged to his quota of MRO.

Issued this 28th day of April 1944.

Recording Secretary.

#### PART 3284—BUILDING MATERIALS

[General Limitation Order L-78, as Amended  
Apr. 28, 1944]

##### FLUORESCENT LIGHTING FIXTURES

§ 3284.36 *General Limitation Order L-78*—(a) *Purpose of this order*. This order places certain limitations on the manufacture and assembly of fluorescent lighting fixtures. It also restricts the sale and delivery of new fixtures and parts.

##### *Restrictions on Manufacture and Assembly*

(b) *Rectified fluorescent lighting fixtures*. No person may manufacture or assemble a rectified fluorescent lighting fixture.

(c) *Parts for rectified fluorescent lighting fixtures*. No person may manufacture or assemble any part for a rectified fluorescent lighting fixture except for purposes of maintenance or repair.

(d) *Use of non-ferrous metal*. No person may incorporate any non-ferrous metal in any fluorescent lighting fixture or part except as permitted by Orders M-1-1 (aluminum), M-6-b (nickel), M-9-c (copper), M-11-b (zinc), M-18-b (chrome), M-43 (tin), M-65 (cadmium) and any other applicable orders of the War Production Board.

(e) *Prohibited uses of metal in hot cathode fixtures*. Unless specific written authorization is granted by the War Production Board, after application as required in paragraph (j), no person may incorporate any metal in a fluorescent lighting fixture designed for:

(1) One tube of any wattage, unless the fixture is an industrial portable or an industrial attachable model;

(2) A continuous row of single tubes of any wattage;

(3) Two tubes rated 30 watts per tube or less, unless the fixture is an industrial portable or an industrial attachable model;

(4) Three or more tubes rated 30 watts per tube or less;

(5) Five or more rows of tubes of any wattage in either an individual fixture or in a continuous row section.

##### *Restrictions on Sale and Delivery*

(f) *Preference ratings*. No person may sell or deliver any new fluorescent lighting fixture or part except on an order or contract bearing a preference rating. (An order or contract bearing a rating lower than AA-2 must be regarded as an unrated order or contract, if the supplier knows or has reason to believe that the rating is a blanket MRO rating. The term "blanket MRO rating" is defined in Priorities Regulation 3.)

(g) *Exceptions to paragraph (f)*. There are five exceptions to the rule stated in the preceding paragraph. No preference rating is necessary for:

(1) The delivery of a fixture or part to an established laboratory for testing purposes only;

(2) The delivery of a fixture or part to a potential customer for demonstration but not for stock;

(3) The sale or delivery of a part to be used solely for maintenance or repair of an existing fixture;

(4) The sale and delivery of a fixture or part to a manufacturer or wholesaler on a special sale under Priorities Regulation 13; or

(5) The delivery (for inventory purposes only) of a fixture or part from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(h) *Release of fixtures held in inventory*. Upon specific authorization of the War Production Board, after application as required in paragraph (j), a manufacturer, assembler, wholesaler or retailer may sell or deliver from his inventory on unrated orders any completely assembled fluorescent lighting fixture which was manufactured before June 2, 1942, and which was reported to the War Production Board on Forms PD-499 or WPB-1066. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(c) **Applicability of other orders and regulations.** (1) This order and all transactions affected by this order are subject to the applicable regulations of the War Production Board. If any other order of the War Production Board limits the use of any material in the production of jewelry (as defined in this order) to a greater extent than does this order, the other order shall govern unless it states otherwise.

(2) Notwithstanding the restrictions contained in Order M-9-c, as amended from time to time, karat gold containing not more than 45% copper (by weight) may be used in the production of jewelry within the quota established by this order.

(d) *Violations.* Any person who willfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

**POULTRY, EXCEPT DUCKS, IN NEW YORK REGION**

Amendment No. 1 to Order No. G-1 under § 1429.14 of Revised Maximum Price Regulation No. 269. Maximum base prices of poultry except ducks in Region II.

For the reasons stated in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration for Region II by § 1429.14 of Revised Maximum Price Regulation No. 269, Order No. G-1 under § 1429.14 of Revised Maximum Price Regulation No. 269 is amended in the following respects:

1. Section 1 is amended to read as follows:

**SECTION 1. What this order does.** Revised Maximum Price Regulation No. 269 requires the determination of maximum selling prices of poultry items by reference to maximum base prices. This order divides Region II into four zones, and in each zone one specific dollar and cent maximum base price is established for each poultry item covered by Revised Maximum Price Regulation No. 269, except duck items. This order supersedes that regulation insofar as it establishes such maximum base prices in Region II. The base prices established by this order are to be used in determining maximum selling prices instead of the base prices established by Revised Maximum Price Regulation No. 269. All other provisions of that regulation continue in effect.

2. Section 2 is amended to read as follows:

**SEC. 2. Where this order applies.** This order applies to the entire states of Delaware, Maryland, New Jersey, and New York, the Commonwealth of Pennsylvania, and the District of Columbia.

3. The footnote applicable to kosher-killed poultry items in section 3 (a) (2) is amended to read as follows:

<sup>1</sup>Maximum base prices for kosher-killed poultry items, except turkeys, for determining maximum selling prices for sales to "wholesalers" and individual retail stores only, shall be 1¢ per pound higher than those listed above.

<sup>1</sup>Maximum base prices for kosher-killed poultry items, except turkeys, for determining maximum selling prices for sales to "wholesalers" and individual retail stores only, shall be 1¢ per pound higher than those listed above.

[Region II Rev. Order G-7 Under RMPR 122]

**PENNSYLVANIA ANTHRACITE IN DESIGNATED AREAS IN PENNSYLVANIA**

Revised Order No. G-7 under § 1340.260 of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in Philadelphia County, Delaware County and designated townships and boroughs in Bucks and Montgomery Counties, Commonwealth of Pennsylvania, Coal Area I.

Under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does—(1) Dealers' maximum prices, area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" delivered to or at any point in Coal Area I. Coal Area I includes the following portions of the Commonwealth of Pennsylvania: Philadelphia County; Delaware County; the Townships of Upper Southampton, Lower Southampton, Northampton, Warminster, Warwick, and the Borough of Ivyland, in Bucks County; and the Townships of Lower Moreland, Upper Moreland, Abington, Cheltenham, Horsham, Upper Dublin, Lower Gwynedd, Whitpain, Whitmarsh, Springfield, Lower Merion, and the Boroughs of Bryn Athyn, Hatboro, Rockledge, Jenkintown, Ambler and Narberth, in Montgomery County.

Hereinafter in this order "Pennsylvania anthracite" shall be called simply "anthracite".

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered

within Coal Area I, are set forth in Schedules I, II, and III hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area I, whether or not you are located in Coal Area I.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or  
(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service set forth in Schedule I higher than the schedule price for such service, or

(v) Increasing any interest rate on debts over the rate charged in December 1941, or

(vi) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, or

(vii) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Use the schedule which covers your sale. (Schedule I applies to "direct-delivery" sales of anthracite. You will find Schedule I in paragraph (d). Schedule II applies to "yard sales" by dealers who sell exclusively to equipped dealers, and by other dealers. You will find Schedule II in paragraph (e). Schedule III applies to sales of bagged coal in 25 lb. and 18 lb. paper bags. You will find Schedule III in paragraph (f)).

(2) Take the dollars-and-cents figure given in the applicable schedule for the size and quantity you are selling.

(3) Deduct from this figure the amount of the discount which you are required to give as specified in the schedule. If the schedule makes no reference to any discount, you need give no discount. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above, no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for sales under Schedule I.

(5) If you deliver a fraction of a net ton, even if less than one-half ton, and the applicable schedule provides a discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct 50¢ per ton for cash payment, you shall deduct 38¢ for three-quarters of a ton and 13¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I: Sales on a "direct-delivery" basis.* Schedule I establishes maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area I.

(1) *For sales of anthracite of the sizes and in the quantities specified.*

Nothing in this subparagraph requires you to sell on other than a cash basis.

In addition, you shall deduct a discount of 50¢ per net ton, on sales and deliveries of all sizes except Buckwheat #4 and screenings, to consumers purchasing from one dealer, for delivery at one point, a quantity of 100 tons or more, within a period of twelve months.

You shall not break up a single order in an attempt to avoid this discount.

You must grant this discount whether the purchaser has received 100 tons or more pursuant to a single purchase order, or several purchase orders, and whether there was delivery at one time or at intervals of time, the sole basis of the discount being the annual purchase of 100 tons or more for delivery at one point.

You must deduct this discount at or before the delivery of the one-hundredth ton and continue to grant the discount on every subsequent delivery during the same twelve-month period.

(3) *Maximum authorized service charges.*

(g) *Commingling.* If you sell one size of anthracite, commingled with another

size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "direct-delivery" sale, "yard sale", or "sales of bagged coal", except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, in that event, if those sizes are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes in the truck or other vehicle, or in the bags in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price, or, in the case of bagged coal, on the basis of the applicable bagged price, for each size in the combination, and the invoice shall separately state the price, so determined for the quantity of each size in the combination.

(h) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(i) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal Tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(j) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed, but the price may be adjustable to the maximum price in effect at the time of delivery.

(k) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of revised procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(l) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(m) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(n) *Records.* If you are a dealer subject to this order, you shall preserve, keep and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known; the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(b) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser, or if during December 1941 you customarily gave purchasers such sales slips or receipts.

(p) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Philadelphia District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

PENNSYLVANIA ANTHRACITE IN DESIGNATED AREAS IN PENNSYLVANIA

Amendment No. 1 to Revised Order No. G-7 under § 1340.260 of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in Philadelphia County, Delaware County and designated townships and boroughs in Bucks and Montgomery Counties, Commonwealth of Pennsylvania, Coal Area I.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and for the period com-

mencing with the effective date of this amendment and expiring on midnight April 30, 1944, Revised Order No. G-7 is amended in the following respects:

1. Any dealer making sales of anthracite subject to Revised Order No. G-7 may increase the maximum prices specified therein as follows:

(a) For direct-delivery sales, in quantities of  $\frac{1}{2}$  ton or more, subject to Schedule I in paragraph (d), there may be added 35¢ per net ton. For sales of fractions of a net ton, but not less than  $\frac{1}{2}$  ton, dealers may take a proportionate increase based upon the per net ton increase.

(b) For yard sales in quantities of  $\frac{1}{2}$  ton or more, subject to Schedule II in paragraph (e), there may be added 10¢ per net ton. For sales of fractions of a net ton, but not less than  $\frac{1}{2}$  ton, dealers may take a proportionate increase based upon the per net ton increase.

2. The maximum prices established by Revised Order No. G-7 for sales in units under  $\frac{1}{2}$  ton shall remain unchanged, whether the sale be in bulk or in bags.

3. At the termination of this amendment on midnight April 30, 1944, all dealers subject to Revised Order No. G-7 shall revert to the schedules of prices in effect immediately prior to the issuance of this amendment.

This Amendment No. 1 to Revised Order No. G-7 shall become effective on March 6, 1944 and, unless earlier revoked or modified, shall expire on midnight April 30, 1944.

[Region II Rev. Order G-26 Under RMPR 122, Amdt. 3]

Amendment No. 3 to Revised Order No. G-26 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Permitted increases in maximum prices for "Colonial", "Salem Hill", and other specified anthracite sold subject to designated area dollars-and-cents orders.

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by §§ 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, Revised Order No. G-26 is amended in the following respects:

1. The opening words of subparagraph (3) of paragraph (a), now reading, "Conditions and limitations, commingling: To be eligible for the increases authorized by this order, \* \* \*" are amended to read as follows:

(3) *Conditions and limitations, commingling:* To be eligible for the increases authorized by paragraph (a) of this order, \* \* \*

2. Paragraph (b) is redesignated paragraph (c), paragraph (c) is redesignated paragraph (d), paragraph (d) is redesignated paragraph (e), paragraph (e) is redesignated paragraph (f), paragraph (f) is redesignated paragraph (g).

3. A new paragraph (b) is inserted to read as follows:

(b) *Alternative pricing provision, application for a price.* Dealers making sales of the anthracite specified in paragraph (a) (1), in communities subject to the area dollars-and-cents orders listed in paragraph (d), who prefer to commingle such anthracite with other anthracite and not to keep it separate in storage and delivery, and who would thereby not be eligible to take the automatic increases permitted under paragraph (a) hereof, may apply to the New York Regional Office of the Office of Price Administration for adjustment of their maximum prices for all anthracite sales to compensate for the increased cost of such specified anthracite. An application may be filed between the first and tenth day of each month based upon the proportions of anthracite having different mine costs received during the previous calendar month and should request an adjusted price for a one-month period. Such application shall be in writing and set forth the following:

(i) Total tonnage of all anthracite received by the dealer during the previous calendar month.

(ii) Tonnage of anthracite specified in paragraph (a) (1) received during the previous calendar month, by size and kind.

(iii) State separately the tonnage of any higher cost anthracite received during the previous calendar month and subject to Regional Order No. G-34 under Revised Maximum Price Regulation No. 122, identifying such in the manner described therein.

(iv) Proposed increase above area ceiling price.

(v) Any other pertinent information the Regional Administrator may request.

The Regional Administrator will either grant or deny the application, in whole or in part, in the light of the estimated average increase in supplier's maximum prices for anthracite, based on dealer's total anthracite receipts during the previous calendar month, as compared with supplier's maximum prices established by § 1340.200 (a) (1) of Maximum Price Regulation No. 112. The order may incorporate appropriate provisions for recalculation of the permitted increase based upon changing mine costs.

This Amendment No. 3 to Revised Order No. G-26 shall become effective April 28, 1944.

#### SURPLUS WAR PROPERTY ADMINISTRATION.

##### SALE OF CONTRACT TERMINATION INVENTORIES

##### STATEMENT OF POLICIES TO BE FOLLOWED BY GOVERNMENT AGENCIES

The selling and pricing policies set forth below shall be followed by all agencies of the Federal Government having jurisdiction over the termination of Government contracts. Their purpose is to support and encourage the contracting officers of such procuring agencies (1) to liquidate promptly, before and during contract termination proceedings, the Government's interest in connection with property obtained to fulfill a Government contract but not now needed for the performance of the contract, and (2) to move as much of this property as possible into consumption channels during the current period of urgent demand, while still protecting the public interest.

The public interest embraces not only financial considerations but also the responsibility for insuring continuous production during the war and a healthy economy after the war. Speedy clearance of termination property is consistent with this interest.

The policy set forth herein may require modification from time to time as the situation changes.

I. *Types of property covered.* The policies enumerated herein shall, with the exceptions noted below, cover the following types of property becoming available for disposition under the termination or partial termination of a Government contract:

(a) Property owned by a contractor or subcontractor with respect to which the contractor or subcontractor has a claim against the Government (either directly or through another contractor or subcontractor) as part of his termination settlement claim.

(b) Property owned by the Government but in the custody of a contractor or subcontractor.

The policies enumerated herein shall not, however, apply to either of the following excepted classes of property:

(1) Completed articles deliverable to the Government under a prime contract.

(2) Machinery, equipment and similar property commonly treated as capital equipment.

With respect to such excepted classes of property, particularly capital equipment becoming available on contract

terminations, it is not intended to discourage sales to or by the contractors. They are excepted because the policies herein enumerated are not as directly applicable to their disposal as to that of such property as raw and semi-processed materials, component end products and parts, jigs, dies, fixtures and small tools, and the like. Procuring agencies shall continue to fix their own price policies on the disposal of the excepted classes of property until otherwise directed.

The policies enumerated herein do not relate to the disposal of surplus Government-owned property other than that becoming available for disposition as the result of contract terminations. Regulations are in preparation for the reporting of such property as surplus to the disposal agencies named in Executive Order No. 9425. Meanwhile existing practices shall be followed except to the extent that specific arrangements have been or will be made with particular agencies.

**II. Types of disposal covered.** The policies herein enumerated shall apply to the disposition of the property covered, as outlined above, whether the procuring agency:

(a) Allows the contractor or subcontractor to keep the property at some agreed upon value, which will be reflected in the contract settlement;

(b) Allows the contractor or subcontractor to sell the property at some agreed upon value, which will be reflected in the contract settlement; or

(c) Takes over the property and sells it itself.

**III. General principles.** The specific policies enumerated herein should be read in the light of the following basic principles:

(1) Termination proceedings and the clearance of plants should be handled as speedily as possible.

(2) Retention of property by the holding contractor or subcontractor, or sales to other buyers who will themselves consume the property is desirable.

(3) Prices for property sold for resale should be sufficiently high to discourage long-term holding or quick turnover at excessive profits.

(4) Within these limits contracting officers, and their representatives, are urged to act boldly and to exercise wide discretion in the prompt disposal of property, and will have the full support of SWPA in so doing.

**IV. Property having no use except as scrap.** The many groups who have analyzed the problem of contract termination have uniformly agreed that much of the property involved is of such special nature, or has been processed in such a way, as to admit of no possibility of use in its existing form. There is an additional amount which might be used if time permitted an extended search for an appropriate use, or if use restrictions could be relaxed. The necessity for prompt clearance of plants severely limits the amount of effort and time that can be expended on such a search. It is essential to make an early determination that property either offers reason-

able possibility of sale, or should be scrapped.

**A. Procedures for determining what property should be sold as scrap.** Primary responsibility for making this determination rests with the procuring agencies. Each agency shall determine and operate under internal procedures adapted to its peculiar problems and organization. It is suggested, however, that the procedures of the procuring agencies should provide for referral to a reviewing authority before scrapping if the cost of any item, or group of substantially similar items, which it is proposed to scrap, is estimated to be \$50,000 or more. This reviewing authority may be either local, regional, or departmental boards of review or another officer designated by the procuring agency.

The Surplus War Property Administrator proposes to have the disposal agencies under Executive Order No. 9425 work closely with the procuring agencies in this operation and, at the earliest possible moment, provide a system of regional or local consultants, upon whom the contracting officers, review boards or other representatives of the procuring agencies can call for responsible advice and assistance in connection with questions concerning the scrapping of property.

**B. Procedure for selling and pricing property that has been determined to be scrap.** When property has been determined to be scrap in accordance with the above procedure, it shall be sold as follows, providing that all sales shall be made subject to applicable War Production Board and Office of Price Administration regulations:

(1) Sales of scrap are authorized at the best price obtainable in the judgment of the contracting officer (or the person to whom the procuring agency has delegated the power to approve the termination settlement) in any case where the entire termination claim of the contractor or subcontractor in question, before disposal credits, is less than \$10,000.

(2) Whenever the entire termination claim of the contractor or subcontractor in question, before disposal credits, is \$10,000 or more, sales of scrap shall be made in accordance with the following policies:

(a) The contracting officer, or his representative, shall determine, as nearly as may be possible by reasonable effort within a reasonable time, the going price of the type of scrap in question by reference to published trade indicators or inquiry among Government agencies, dealers or other informed sources, taking into account transportation cost and sundry other charges.

(b) If it is possible to realize this price without competitive bidding the contracting officer will approve the sale.

(c) If it is not possible to obtain this price the contracting officer will arrange for sale of the property after competitive bids, reserving the right to reject all bids if in his judgment an inadequate price is offered.

(d) All sales of such scrap, whatever method of sale is adopted, shall be subject to the buyer's warranty that the property will in fact be used as scrap. A warranty substantially as follows is recommended:

The purchaser represents and warrants to the United States that the property covered by this agreement was offered as scrap, purchased by him as scrap, and that he will sell and ship or use it as scrap either in its existing condition or after further preparation and only in conformity with all applicable regulations and orders of the Office of Price Administration and the War Production Board.

(e) By subsequent regulations, the Surplus War Property Administration will provide for reports of scrap sales to the disposal agencies, and for a mechanism for stopping of sales in any area where prices drop to unsatisfactory levels.

**V. Usable property.** During the present phase of the war a principal objective should be to insure the earliest possible use of usable property. The surest way to accomplish this objective would be to sell the property directly to manufacturing establishments or others having current permitted uses for it. It must be recognized, however, that in many cases, suppliers, dealers, or others engaged in distribution will be willing to buy surplus goods at reasonable prices.

The procuring agencies shall therefore exercise the following authority with respect to the sale of usable property, providing that all sales shall be made subject to applicable War Production Board and Office of Price Administration regulations:

(1) Sales of any quantity of any item, or group of items, are authorized at the best price obtainable in the judgment of the contracting officer (or the person to whom the procuring agency has delegated the power to approve the termination settlement) in any case where the entire termination claim of the contractor or subcontractor in question, before disposal credits, is less than \$10,000.

(2) Whenever the entire termination claim of the contractor or subcontractor in question, before disposal credits, is \$10,000 or more sales shall be made in accordance with the following policies:

(a) If the property is a crude or simple raw material, such as raw cotton, pig iron, electrolytic copper or sulphur, which is freely traded in and for which there is a recognizable market price:

(1) Sales should be authorized whenever the going market price, as nearly as it can be determined by reasonable effort within a reasonable time, can be obtained, taking into account transportation cost and sundry other charges.

(2) Whenever such going market price cannot be obtained the property should be reported to the appropriate disposal agency for disposition, except that if the quantity of the item involved is less than a minimum commercial quantity, it should be sold at the best price obtainable.

The disposal agencies under Executive Order No. 9425 will be requested to prepare and make available to the procuring agencies at the earliest possible date, lists of items considered to belong in the category described in paragraph 2 (a), together with the quantities thereof to be regarded as minimum commercial quantities.

(b) If the property is not in the category described in paragraph 2 (a) contracting officers and their representatives are urged to make an active effort to accomplish sales in accordance with the policies stated below, after due consideration has been given to any reasonably obtainable information as to market values:

(1) Sales of nominal quantities (single items, or groups of items where the cost of all substantially similar items at any one location does not exceed \$1,000) should be made at the best price obtainable, without review.

(2) Sales should be made to any buyer at the best price obtainable in excess of 75% of (a) cost or (b) the price which that buyer would have to pay if he bought an equivalent quantity from a normal source of supply, whichever is lower.

(3) Sales of property which cannot be sold within a reasonable period of time on the terms stated in paragraph (b) (2) above should be made to a buyer who will consume the property in the United States for manufacturing or maintenance or repair purposes, and who will agree that if he does not so consume it, he will not resell it at a profit, at the best price obtainable. This policy shall prevail until the Surplus War Property Administration by specific direction establishes such other sales procedures or policies (which may include a determination not to sell) with respect to specific items, such as standard consumer articles, as in its judgment are required to maintain orderly markets.

Wherever referred to in this statement, sale "at the best price obtain-

able" implies a reasonable effort to test the market, having due regard for the circumstances, the nature, condition, quantity and location of the particular property and the general principles herein stated.

#### WAR PRODUCTION BOARD.

HUTTON-JONES ELECTRIC COMPANY, INC.

#### CONSENT ORDER

Hutton-Jones Electric Company, Inc., located at 170 Pine Avenue, S. E., Warren, Ohio, an Ohio corporation, is engaged in the business of electrical construction, wiring, fixtures and supplies. From January 1, 1943, to September 1, 1943, the company in many instances applied a preference rating for the purchase of copper wire when the preference rating so used had not been extended or as-

signed to it, and in other instances extended preference ratings for the purchase of copper wire in quantities exceeding those contained in the preference ratings extended to it, thereby securing copper wire which had been sold and delivered on unrated orders. The aforementioned transactions were violations of Priorities Regulation No. 1 and Priorities Regulation No. 3. Hutton-Jones Electric Company, Inc., admits the violations and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Hutton-Jones Electric Company, Inc., the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered, That:*

(a) Hutton-Jones Electric Company, Inc., its successors or assigns, are hereby prohibited from purchasing and receiving or selling and delivering new copper wire of any size, except to complete deliveries under uncompleted orders or contracts on the books of the company as of the date of issuance of this order, or except on orders rated AA-2 or higher, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Hutton-Jones Electric Company, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance and shall expire sixty days from the date thereof.

Issued this 27th day of April 1944.
