PART 1010—SUSPENSION ORDERS

[Suspension Order S-532]

DR. ABRAHAM SILVER

On or about November 2, 1943, Dr. Abraham Silver, Columbia, South Carolina, began construction, consisting of alteration and remodeling of a dwelling located at 1421 Hampton Avenue, Columbia, South Carolina, at an estimated cost in excess of \$3,000, without obtaining authorization from the War Production Board. Such construction was limited to an estimated cost not in excess of \$200 by Conservation Order L-41, in the absence of authorization. Dr. Silver was aware of the existence of War Production Board regulations prior to beginning construction, and his conduct was so grossly negligent that it must be deemed a wilful violation of Order L-41. This violation of the order has diverted scarce materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.532 *Suspension Order No. S-532.* (a) Neither Dr. Abraham Silver, his successors or assigns, nor any other person, shall do any construction on the premises at 1421 Hampton Avenue, Columbia, South Carolina, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Dr. Abraham Silver, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on April 29, 1944.

Issued this 22d day of April 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-533]

HEYWARD S. SINGLEY

Heyward S. Singley, Columbia, South Carolina, is an architect who was employed to prepare plans and specifications, and to act as the owner's representative in connection with the alteration or remodeling of a building located at 1421 Hampton Avenue, Columbia, South Carolina. Mr. Singley knew of the War Production Board restrictions on construction but nevertheless, on behalf of the owner, he began construction on or about November 2, 1943, at an estimated cost in excess of \$3,000, without authorization from the War Production Board; \$200 was the maximum amount permitted in the absence of such authorization. This construction was in violation of Conservation Order L-41, and Mr. Singley's conduct was so grossly negligent that it must be deemed willful. This violation of Order L-41 has diverted scarce materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, it is hereby ordered, that:

§ 1010.533 *Suspension Order No. S-533.* (a) Neither Heyward S. Singley, his successors or assigns, nor any other person, shall do any construction on the premises at 1421 Hampton Avenue, Columbia, South Carolina, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Heyward S. Singley, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on April 29, 1944.

PART 1038—GRAPHITE

[Conservation Order M-61, As Amended May 2, 1944]

Section 1038.1 *Conservation Order M-61* is hereby amended to read as follows:

§ 1038.1 *Conservation Order M-61—(a) Definitions.* For the purposes of this order:

(1) "Strategic graphite" means only two types of graphite, namely, (i) Madagascar flake graphite of over 80 per cent graphitic carbon content and having flakes of such size that at least 80 per cent will stand on a Number 50 mesh screen, U. S. Sieve Series; and (ii) Ceylon amorphous graphite, either in lump or ground form, having more than 95 per cent graphitic carbon content.

(2) "Put into process" means the first change made by a person in the form of the material from that form in which it is received by him.

(b) *Restrictions on processing and delivery of strategic graphite.* No person shall put into process, deliver or accept delivery of any strategic graphite except to the extent specifically authorized by the War Production Board. These restrictions apply to all stocks of strategic graphite on hand as well as new supply received after (the effective date of this amendment).

(c) *Exceptions to the processing and delivery restrictions contained in paragraph (b).* No authorization of the War Production Board is required for:

(1) Delivery or acceptance of delivery of strategic graphite by Metals Reserve Company or any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act, as amended, or any duly authorized agent of such corporation.

(2) Any person to deliver, accept delivery of, or put into process strategic Mad-

agascar flake graphite if the graphite is to be physically incorporated into any item produced for delivery under a contract or subcontract for the United States Army, Navy, Maritime Commission or the War Shipping Administration and if the graphite is required by the specifications of the prime contract.

(3) Any person to deliver during any calendar month 200 pounds or less of strategic Madagascar flake graphite per person.

(4) Any person to accept delivery of and put into process during any calendar month, not more than 200 pounds of strategic Madagascar flake graphite from all sources.

(d) *How to obtain authorization for processing or delivery.* Each person who requires specific authorization from the War Production Board to put strategic graphite into process or to accept delivery of strategic graphite from any one (other than Metals Reserve Company, or any corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act, as amended, or any duly authorized agent of such corporation) shall file with War Production Board, Washington, D. C., Form WPB-623, revised, in quadruplicate, by the 20th of the month before the month in which the graphite is to be put into process or received. The War Production Board will return one copy of Form WPB-623, revised, to the applicant on which will be indicated the quantity of strategic graphite authorized for delivery and processing. Specific authorization to put strategic graphite into process shall only be valid for the calendar month for which it is issued. If the application requests permission to accept delivery, War Production Board will send a copy to the applicant's supplier, which will constitute the supplier's authorization to make the delivery.

Each person requiring authorization to accept delivery of strategic graphite from Metals Reserve Company, or any corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act, as amended, or any duly authorized agent of such corporation, shall apply by letter in duplicate to the War Production Board, Washington, D. C., stating the quantity and description of the material requested and the purpose for which it is intended to be put into process. The War Production Board will issue instructions by letter to Metals Reserve Company, setting forth the quantity and description of material to be delivered and the purpose for which it may be processed. A copy of this letter will be forwarded to the applicant which will constitute the applicant's authorization to accept delivery and process.

(e) *Reports.* All persons having in their possession any of the types of graphite listed on Form WPB-624, revised, shall file Form WPB-624 revised with War Production Board on or before the 20th of each month following the month for which the report is made, showing inventory, receipts, consumption, and sales of such graphite.

(f) *Violations.* Any person who willfully violates any provision of this order,

or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(h) *Bureau of the Budget approval.* The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(i) *Communications to the War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Mica-Graphite Division, Washington 25, D. C., Ref: M-61.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 9A, Interpretation 1 to
Direction 2]

EFFECT OF OTHER ORDERS AND REGULATIONS

The following direction is issued pursuant to CMP Regulation 9A:

Direction 2 to CMP Regulation 9A permits the use of material bought under the regulation to install various types of equipment, but only where other orders of the War Production Board do not forbid the use of a particular type of material for the purpose. In addition, this direction does not affect any limitation or prohibition upon the purchase of material or equipment imposed by any order of the War Production Board. For instance, this direction does not permit a repairman or plumber to install copper or copper base alloy pipe, tubing or fittings or building material, except for those exceptional uses allowed by Order M-9-c-4. Furthermore, a jobber who supplies repairmen with material is not relieved from the prohibition in Order M-9-c-4 which prevents his selling, delivering, or otherwise disposing of those copper products if it is to be used for a purpose prohibited by Order M-9-c-4, regardless of the fact that the purchase order may carry a CMP allotment symbol and certification or a preference rating.

PART 3208—SCHEDULED PRODUCTS

[Table 12 to General Scheduling Order M-293, Direction 1, as Amended May 2, 1944]

AUTHORIZATION TO ACCEPT DELIVERY OF ANTI-FRICTION BEARINGS

Direction 1 to Table 12 to Order M-293 is amended to read as follows:

(1) This direction as originally issued February 8, 1944 directed substantial users of bearings to submit their anti-friction bearings requirements for the period April 1-September 30, 1944 on Form WPB-3333. The War Production Board has decided to extend this procedure by further reviewing substantial users' requirements for the period August 1, 1944-January 31, 1945.

(2) Accordingly, during the period August 1, 1944-January 31, 1945, no person shall accept during any one month any anti-friction bearings from a manufacturer or distributor in excess of the following amounts without specific authorization to do so on Form WPB-3333:

(i) 1500 bearings of any one size where they are being purchased for incorporation by such person in his end products or for reshipment with his end products as concurrent spare bearings.

(ii) 500 bearings of any one size where they are being purchased for reshipment to the Army, Navy, Maritime Commission, or War Shipping Administration subsequent to delivery of the end product. For instance, this will include bearings bought by such person for the purpose of filling contracts for "second year replenishment" bearings and for similar supplemental spare bearing requirements ordered from him by the procuring service.

If a person has more than one plant, the amounts specified in (i) and (ii) above shall apply to deliveries to each plant.

(3) Form WPB-3333 must be filed with the War Production Board by June 1, 1944. Authorizations to be made on this filing will supersede previous authorizations made for August and September on previous filings. Any person who subsequent to June 1, 1944 finds that he will require bearing deliveries in any one month during the period August 1, 1944-January 31, 1945 in excess of the amounts specified in paragraph (2) of this direction must immediately file Form WPB-3333 submitting such requirements. In submitting Form WPB-3333 in compliance with this direction persons shall state their delivery requirements (for those sizes required to be reported under paragraph (2) of this direction) for the months of August 1944 through January 1945, inclusive. In submitting end product production schedules in section III of Form WPB-3333, applicant shall give such schedules for the months of August 1944 through April 1945, inclusive.

(4) All persons who during May, June, and July 1944 required bearings in excess of the minimum amount specified in paragraph (2) of this direction were instructed to submit these requirements by March 1, 1944, by the provisions of this direction as originally issued February 8, 1944. However, if any person finds that he will require bearing deliveries in May, June, or July 1944 in excess of the minimum amount specified in paragraph (2) of this direction and he has not previously filed Form WPB-3333 covering such requirements, he must do so as soon as possible.

(5) Authorization by the War Production Board to accept delivery of bearings does not constitute an allocation to the applicant against the bearing manufacturer but simply establishes the maximum amounts which the

applicant may accept of those sizes of bearings required to be reported under paragraph (2) above. Applicants must adjust their shipping releases on bearing manufacturers to conform with the authorized amounts.

Issued this 2d day of May 1944.

SCHEDULE A—WOMEN'S FULL-FASHIONED HOSIERY MADE OF RAYON OR COTTON

(a) This schedule applies to all types, except cut and sewed, of women's full-fash- ioned hosiery made of rayon or of cotton, but does not apply to constructions made of yarns which are combinations of any two or more of cotton, wool or rayon (either continuous filament or spun).

(b) No person shall produce any women's full-fashioned rayon hosiery unless it meets the minimum specifications shown on Table I, or any women's full-fashioned cotton hosiery unless it meets the minimum spec- ifications shown on Table I (a), except that

(1) The minimum total course provisions of Tables I and I (a) do not apply to mesh, lace or non-run constructions, and

(2) Stockings made of acetate rayon may have 75 less total courses than the minimum established in Table I, and

(3) In single-unit or Rack-back construc- tion the total minimum number of courses may be 40 less than established for con- ventional constructions.

(d) (1) In standard or conventional welt constructions, the minimum length of the double welt shall be 3½ inches.

(2) An afterwelt is required in rayon stockings except where the main or leg yarn is 100 denier or coarser.

(3) Double welts of less than 3½ inches, and special welt constructions including single thickness welts, are permissible, pro- viding the welt yarn is heavier than the main end used in knitting the leg and pro- viding the single thickness portion of welt or afterwelt is no finer than—

150 denier filament rayon or its equivalent in other fibers for 48 gauge or coarser, 100 denier filament rayon or its equivalent in other fibers for 51 gauge or finer.

In such special welt constructions, a pro- portionately lower number of courses than specified in Table I are permissible.

(4) When a standard or conventional double welt in rayon or in cotton full- fashioned hosiery is knit of a higher denier than that specified as the minimum in the table, it is permissible to reduce the mini- mum total courses at a rate of one course less per each denier used, over the specified minimum. That is to say, if 125 denier is used in the welt instead of the specified minimum of 100 denier, the minimum num- ber of courses may be reduced by 25 courses in the welt but not in knitting the leg por- tion. In applying this provision to cotton welts, the denier equivalent of the cotton count shall be employed.

(5) In rayon hosiery, the total over-all length of welt plus the after-welt shall not be less than 5 inches, except as provided in paragraph (d) (2) of this schedule.

(e) All rayon stockings of 75 denier or finer made with either a cotton or rayon welt shall be made with an overlap of at least two (2) courses immediately following the after- welt, in which the yarn of the afterwelt is to be knit together with the main end used in knitting the leg for a minimum of two (2) courses.

(f) The minimum number of needles used in knitting hosiery shall be the full 14 inch bar less two needles at each end of the bar on all gauges except in the case of drop needle or needle out constructions of cotton, wool or spun rayon, or combinations thereof.

(g) The minimum number of courses are to be counted in conventional or legger-footer construction, from the first course in the welt to the loose course in the heel; in single unit or rack-back constructions, from the first course in the welt to the course in the heel on which the widest course in the rackback falls.

(h) The heel splicing shall measure 4½ inches from the bottom of the heel with a ½ inch tolerance, plus or minus.

(i) All seams shall be made with a mini- mum of 16 stitches to the inch and be made of a good quality two or three ply seaming yarn.

(j) Based on a 14-inch head, the maximum number of total flare and calf narrowings in the leg of full-fashioned plain knit hosiery shall be:

	Back-Back:	
	Round Heel	Legger-Footer
39 gauge	44	40 narrowings
42 gauge	46	42
45 gauge	48	44
48 gauge	54	46
51 gauge	58	50
54 gauge	optional	optional
and up		

(k) The reinforcing yarn in the toe must start within 10 courses from the first toe narrowing.

(l) Where two-ply cotton yarns are spec- ified the equivalent count in single yarns may be used. Where definite counts of cotton (but not rayon) yarn are specified in the table, no finer counts of cotton yarn may be used, but combination yarns of cotton and rayon, or cotton, rayon and wool mixed yarns,

on stockings	29	1½	
Acetate rayon stockings	30½	1½	
Cotton stockings	30	1

Any person who manufactured proportioned length hosiery outside the tolerances per- mitted by this paragraph (c) in 1942 may apply to the War Production Board for per- mission to continue such manufacture. Such application shall be in writing, and shall set forth all pertinent facts. The War Production Board may take such action on such application as it may deem proper.

and coarser counts of cotton yarns, or spun rayon yarn of total equivalent denier or heavier may be used. No spun rayon yarn may be used as a toe splicing or toe reinforcing yarn.

(m) Piled ends of single rayon yarn may be used if they make the equivalent denier of yarns shown in the table. Sixty-five denier cuprammonium rayon yarn shall be deemed equivalent to 75 denier viscose yarn and may be used as an alternate wherever 75 denier is

specified in the table. The use of acetate rayon yarn is not permissible in deniers finer than 75.

(n) No lace bands, fancy designs or numerals are to be knit in welts, or in after welts of plain knit stockings. No picot stitches are to be placed more closely than 3/4 inch apart except for the top 1/2 inch of the welt.

(o) For any spring-summer or fall-winter line, no manufacturer shall put in dye or

knit ingrain more than 7 basic body colors, and no more than 5 of these 7 shall be in any one style. In addition to the foregoing, white is also permitted.

SCHEDULE B—WOMEN'S SEAMLESS, CIRCULAR KNIT HOSIERY

(a) No manufacturer shall produce any women's seamless or circular knit hosiery unless it meets the minimum specifications shown on Table II.

¹ Heels and toes made entirely of rayon are not permitted. However, rayon and cotton heels and toes, plaited, twisted or random knit are permitted if the total counts used are at least equivalent to the cotton counts now allowed for heels and toes. No finer cotton counts are permitted under this footnote than 80/1 on machines up to and including 300 needle, 100/1 for 320 and 340 needle and 120/1 for 360 needle and up.
² Rayon yarn qualifying as yarn of 50 denier and having an over-all tenacity of 2.3 grams per denier or higher irrespective of elongation.

(b) Where definite counts of cotton (but not rayon) yarn are specified in the table, no finer counts of cotton yarn may be used, but combination yarns of cotton and rayon, or cotton, rayon and wool mixed yarns, and coarser counts of cotton yarns, or spun rayon yarn of total equivalent denier or heavier may be used. No spun rayon yarn may be used as a splicing or reinforcing yarn in heel or toe.

(c) Where two-ply cotton yarns are specified in the table the equivalent counts in single yarns may be used.

(d) The leg length of women's seamless rayon hosiery shall be 30 inches with a 1 1/2 inch minus tolerance and a reasonable plus tolerance. All welts to finish a minimum of 4 inches.

(e) The specified minimum total courses are to be counted from the first course in the welt to the end of the high splicing where the reciprocating motion is started for the heel.

(f) When the welt of a woman's seamless stocking is knit of higher denier than that specified as the minimum in the table, it is permissible to reduce the minimum total courses at a rate of one course less per each denier used over the specified minimum. This total reduction in courses shall be adjusted to the nearest number divisible by 12. That is to say, if 125 denier is used in the welt instead of the specified minimum of 100 denier the minimum number of courses may be reduced by 24 courses in the welt, but not in knitting the leg portion. In applying this provision to cotton welts the denier equivalent of the cotton counts shall be employed.

(g) Mesh or tuck stitch constructions in women's circular knit hosiery are restricted to the following constructions:

(1) On single-end tuck stitch knitting, no finer than one end of 100 denier rayon yarn

or its equivalent in other fibres may be used in the leg, on any machine regardless of number of needles.

(2) On double-end mesh knitting no finer than 75 denier rayon yarn or its equivalent in other fibres may be used in the leg, on any machine regardless of number of needles.

(3) Minimum number of turns per inch in the rayon yarn in mesh or tuck stitch constructions are to be the same as shown in Table II for plain knit constructions for similar deniers.

(h) All sole splicing yarns are prohibited in women's circular knit all-over cotton hosiery and in women's circular knit rayon hosiery when the main end is 100 denier rayon yarn or heavier.

(i) For any spring-summer or fall-winter line, no manufacturer of women's seamless hosiery shall put in dye or knit ingrain more than 7 basic body colors, and no more than 5 of these 7 colors in any one style. In addition to the foregoing colors, white is also permitted.

SCHEDULE C—MEN'S HOSIERY

(a) The following limitations apply to men's hosiery but do not apply to the manufacture of men's work socks or bundle socks made of wool, part wool, or cotton.

(b) No manufacturer may produce men's hosiery with an over-all leg length other than those specified in paragraph (h) of this schedule or in accordance with Schedule E.

(c) No manufacturer may produce in any mill men's hosiery in fancy patterns which were not in actual production in such mill during the sixty-day (60) period immediately prior to April 2, 1943. Any machines that have been idle for this entire period may be set-up on patterns of the mill's choosing, but when so set-up, they are subject to the limitations of this clause.

(d) (1) For any spring-summer or fall-winter line no one mill shall put in dye or knit ingrain more than 7 basic body colors and no more than 5 of such 7 basic colors in any one style, to which may be added white and three War Service colors.

(2) No limitations are placed upon the use of various colors in yarns used purely for decorative purposes in men's fancy hosiery.

(e) No men's cotton hosiery is to be manufactured with any splicing or reinforcing yarn in the sole.

(f) True-ribbed tops, those knitted separately and transferred, or those knitted automatically on H-H or Komet machines, shall not be doubled, turned or hemmed. None of the limitations of this paragraph shall apply to men's hosiery made on R. I. machines.

(g) No men's hosiery is to be manufactured with any mock-seams.

(h) The over-all leg length of men's half hose shall be as follows: 13 1/2-inch minimum; 15 1/2-inch maximum.

The over-all leg length of men's short socks or slacks shall be 10 inches maximum, including a top portion of not more than 2 inches.

SCHEDULE D—INFANTS', CHILDREN'S, BOYS' AND MISSES' HOSIERY AND WOMEN'S ANKLETS

(a) No manufacturer shall put in production any fancy or novelty patterns or designs, not actually in production in the period between October 1st, 1942, and April 2, 1943.

(b) (1) The total finished leg-length of all women's, misses', children's, and infants' anklets either straight-up or cuff-top is not to exceed the measurements shown in Table #10 of U. S. Commercial Standards, C S. 46-40, as follows:

TABLE 10—STANDARD LENGTHS OF ANKLETS

[Folded and single cuffs]

Size	Number of needles	Size of cylinder (diameter)	Standard length	Tolerance
5-5½	120-160	2¼-2½	4	±¼
6-6½	120-180	2½-3	4½	±¼
7-7½	130-200	2½-3¼	5	±¼

(2) No top or cuff may be turned down or folded more than once. Anklet tops or cuffs made of true rib fabric or made on H. H. Komet, or Links & Links machines may be made of only a single thickness of fabric before turning or folding. Anklet tops or cuffs made on any other type of machine may be made of not more than a double thickness of fabric before turning or folding.

(3) No top or cuff either straight-up or folded is to measure when finished more than two (2) inches in length.

(c) [Deleted May 2, 1944]

(d) No women's anklets or misses', children's or infants' hosiery shall be manufactured with any splicing or reinforcing yarn in the sole of the foot.

(e) In each twelve months period following May 15, 1943, no manufacturer of women's anklets or misses', children's, or infants' hosiery shall knit ingrain or put in dye more than 8 basic body colors in staple constructions, and, in novelty constructions no more than 7 of such basic colors in any one style. In addition to the foregoing colors white is also permitted. No restriction is placed upon the use of any colored yarns in the manufacture of decorative stripes, designs and figures in any part of women's anklets, or misses', children's or infants' hosiery.

SCHEDULE E—CREW SOCKS

(a) For the purpose of this schedule crew socks are defined as a distinctive type of hosiery for men, women and children made with an ankle or top section knit on any ribbing machine coarser than 1 x 1 rib and with a plain knit foot.

(b) No manufacturer shall produce any men's, women's, or children's crew socks after July 15, 1943, except in accordance with the following specifications:

(1) The use of any continuous filament rayon is not permitted.

(2) The ribbed top shall end no farther than 3 inches from the bottom of the heel.

(3) To be knit, finished, packed and shipped with straight-up tops; not with cuffed or turned down tops.

(4) No restrictions are placed on the number of needles, diameter of cylinders or counts of yarn that may be used.

(5) The range of foot sizes may include all or any of sizes 4-13.

(6) The finished leg length shall not exceed the following measurements:

NOTE: Table amended May 2, 1944.

Foot sizes	Maximum permissible lengths (inches)	Tolerance (inch)
4-5½	5	±¼
6-7	6	±¼
7½-8½	7	±¼
9-10½	8	±¼
11-13	9	±¼

(7) For any spring-summer or fall-winter line, no manufacturer of crew socks shall

knit ingrain or put in dye more than 7 basic body colors, and in staples, no more than 6 of such basic colors shall be in any one style, and in novelties no more than 4 of such basic colors shall be in any one style. No restrictions are placed upon the use of any colored yarns in the manufacture of decorative stripes in crew socks.

PART 3293—CHEMICALS

[Allocation Order M-340 as Amended May 2, 1944]

MISCELLANEOUS CHEMICALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.491 Allocation Order M-340—

(a) *Definitions.* (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.

(3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorization or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB-2947 (formerly PD-602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.*

(1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed:

(i) The quantity which he has been specifically authorized, upon application pursuant to Appendix D, to deliver on small orders; or

(ii) If he is a distributor, the quantity which he acquired upon certification that it was required to fill small orders or the quantity which he acquired himself on such a small order; or

(iii) If he is a distributor who customarily delivers exclusively on small orders, any quantity.

(d) *Exceptions for deliveries for other reasons.* Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) *Restrictions on use.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War Production Board.

(2) Each person who with an order for a subject chemical furnishes a certificate required by paragraph (f) shall use the subject chemical delivered on such order only as specified on such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not be made of a subject chemical to be delivered to, or then in inventory of the prospective user.

(f) *Supplier to obtain from customer a certificate of use.* No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B, unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate shall be substantially in the form and shall be subject to the instructions stated in Appendix C and shall be in the hands of the supplier not later than the 15th day of the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe, he may rely on the certificate.

(g) *Applications by suppliers for leave to deliver or use.* (1) Each supplier requiring authorization to make delivery of, or to use, a subject chemical during any calendar month shall file application on or before the 20th day of the preceding month. The application should be made on Form WPB-2947 (formerly PD-602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix D. If there is an

inconsistency between the general and special instructions, the special instructions must be followed.

The proposed construction consists of a 22-inch pipe line approximately 17 miles in length, parallel to Applicant's 22-inch line between its Hansford (Texas) and Liberal (Kansas) stations, and the installation of 4,000 feet of 24-inch pipe to provide for an under-water river crossing (Cimarron River) near Applicant's Liberal (Kansas) compressor station; installation of two 800 horsepower compressor units with appurtenant equipment at Applicant's Hansford compressor station, situated in Hansford County, Texas; installation of one additional 1,300 horsepower compressor unit and appurtenant equipment at its Montezuma compressor station, situation in Vermillion County, Indiana.

In the matter of a proposed regulation limiting the quantity of fluorine remaining as insecticidal residue on apples and pears.

Notice is hereby given that the Administrator of the Federal Security Agency, upon the application of a substantial portion of the interested industry stating reasonable grounds therefor and in accordance with the provisions of sections 406 and 701 of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. secs. 346 and 371 (Supp. V. 1939); the Reorganization Act of 1939, 53 Stat. 561, 5 U.S.C. sec. 133 (Supp. V. 1939) and Reorganization Plans No. I (53 Stat. 1423, 4 F.R. 2727) and No. IV (54 Stat. 1234, 5 F.R. 2421), will hold a public hearing, commencing at 10 o'clock in the morning of June 27, 1944, in Room 1409, South Building, United States Department of Agriculture, Independence Avenue, between 12th and 14th Streets, S. W., Washington, D. C., upon a proposed regulation limiting the quantity of fluorine remaining as insecticidal residue on apples and pears.

The proposed regulation is as follows:

§ 120.1 *Limit for the quantity of fluorine remaining as insecticidal residue on apples and pears.* The quantity of fluorine remaining as insecticidal residue on apples and pears is hereby limited to not more than — milligrams of fluorine, calculated as F, per kilogram of each such fruit.

The blank in the foregoing section is to be filled in with a number based

on substantial evidence of record at the hearing. The limit so prescribed may be the same as, or greater than, or less than, the informal tolerance for fluorine on apples and pears which was announced by the Administrator on August 10, 1940.

Mr. Joseph L. Maguire hereby is designated as presiding officer to conduct the hearing, in the place of the Administrator, with full authority to administer oaths and affirmations and to do all other things appropriate to the conduct of the hearing.

The hearing will be conducted in accordance with the rules of practice provided therefor (see 5 F.R. 2379-2381).

In lieu of oral testimony, interested persons may submit affidavits to the presiding officer at Room 4148, South Building, United States Department of Agriculture, Independence Avenue, between 12th and 14th Streets, S. W., Washington, D. C., at any time prior to the hearing. Such affidavits should be submitted in quintuplicate and, if relevant and material, will be received and made a part of the record of the hearing, but the Administrator will consider the lack of opportunity for cross-examination in determining the weight to be given to statements contained therein. Every interested person will be permitted, in accordance with the above-mentioned rules of practice, to examine all affidavits submitted and to file counter-affidavits with the presiding officer.

At the hearing evidence will be restricted to testimony and exhibits that are relevant and material to the issue contained in the proposal.

The proposal is subject to adoption, rejection, amendment, or modification by the Administrator, in whole or in part, as the evidence adduced at the hearing may require.

It appearing that the proposed coordination is necessary in order to conserve and providently utilize vital transportation equipment, materials and supplies; and to provide for the continuous movement of necessary traffic, the attainment of which purposes is essential to the successful prosecution of the war, *It is hereby ordered, That:*

1. The plan for joint action above referred to is hereby approved and the persons named in Appendix 1 hereof are directed to put the plan in operation forthwith, subject to the following provisions, which shall supersede any provisions of such plan that are in conflict therewith.

2. Each of the carriers forthwith shall file a copy of this order with the appropriate regulatory body or bodies having jurisdiction over any operations affected by this order, and likewise shall file, and publish in accordance with law, and continue in effect until further order, tariffs or schedules, or supplements to filed tariffs or schedules, setting forth any changes in rates, charges, operations, rules, regulations, and practices of the carrier which may be necessary to accord with the provisions of this order and of such plan; and forthwith shall apply to such regulatory body or bodies for special permission for such tariffs or schedules, or supplements, to become effective on the shortest notice lawfully permissible, but not prior to the effective date of this order.

3. Whenever transportation service is performed by one carrier in lieu of service by another carrier, by reason of a diversion, exchange, pooling, or similar act made or performed pursuant to the plan for joint action hereby approved, the rates, charges, rules, and regulations governing such service shall be those that would have applied except for such diversion, exchange, pooling, or other act.

4. The provisions of this order shall not be so construed or applied as to require any carrier subject hereto to perform any service beyond its transportation capacity, or to authorize or require any act or omission which is in violation of any law or regulation, or to permit any carrier to alter its legal liability to any shipper. In the event that compliance with any term of this order, or effectuation of any provision of such plan, would conflict with, or would not be authorized under, the existing interstate or intrastate operating authority of any carrier subject hereto, such carrier forthwith shall apply to the appropriate regulatory body or bodies for the grant-

ing of such operating authority as may be requisite to compliance with the terms of this order, and shall prosecute such application with all possible diligence. The coordination of operations directed by this order shall be subject to the carriers' possessing or obtaining the requisite operating authority.

5. All records of the carriers pertaining to any transportation performed pursuant to this order and to the provisions of such plan shall be kept available for examination and inspection at all reasonable times by accredited representatives of the Office of Defense Transportation.

6. The plan for joint action hereby approved and all contractual arrangements made to effectuate the plan shall not continue in operation beyond the effective period of this order.

7. Communications concerning this order should refer to "Supplementary Order ODT 6A-26" and, unless otherwise directed, should be addressed to the Division of Motor Transport, Office of Defense Transportation, Washington, D. C.
