§ 1450.7 *Restrictions on 1944 crop flue-cured tobacco*—(a) *Definitions*. (1) "Flue-cured tobacco" means tobacco of Type 11, 12, 13, or 14, as defined in the Official Standard Grades for Flue-cured Tobacco, promulgated by the Secretary of Agriculture (7 CFR 29.151 et seq.), pursuant to the Tobacco Inspection Act (7 U.S.C. 1940 ed. 511 et seq.).

(2) "Manufacturer" means any person who processes tobacco into a product for consumer use which is subject to taxation under the Internal Revenue Code (26 U.S.C. 1940 ed. 2000-2040).

(3) "Dealer" means any person, other than a manufacturer, who buys tobacco for resale in redried condition and packed in containers.

(4) "Scrap" means any loose, tangled, untied, and unstemmed flue-cured tobacco salvaged as a by-product in harvesting, stripping, classing, and tying on the farm and consisting chiefly of barn and strip-house floor sweepings and very inferior quality leaves not sold at auction by growers of any loose, untied, and unstemmed flue-cured tobacco consisting entirely of floor sweepings, loose, and tangled leaves, or portions of leaves which accumulate from unavoidable dropping or breakage in the handling of flue-cured tobacco and which consist exclusively of such tobacco salvaged as a by-product of marketing.

(5) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(6) "Director" means the Director of Distribution, War Food Administration.

(b) *Restrictions*. (1) No person shall purchase or otherwise acquire any 1944 crop flue-cured tobacco unless such tobacco is purchased or acquired pursuant to the provisions hereof.

(2) No manufacturer shall, directly or indirectly, purchase or otherwise acquire any 1944 crop flue-cured tobacco which will cause the total amount of such tobacco so acquired by him to exceed 74 per cent of the total number of pounds of flue-cured tobacco, inclusive

of scrap, used by such person for manufacturing purposes during the period from July 1, 1943 to June 30, 1944, inclusive.

(3) No manufacturer shall purchase at auction a higher proportion of his total allocation of 1944 crop flue-cured tobacco than his total purchases of flue-cured tobacco from the crops of 1939, 1940, 1941, and 1942 at auction bore to his total purchases of flue-cured tobacco from such crops.

(4) No dealer shall purchase from producers or at auction for his own account a total quantity of 1944 crop flue-cured tobacco which is in excess of 100 percent of the amount which was originally allocated to such dealer pursuant to the provisions of War Food Order No. 4.3 (8 F.R. 11331, 9 F.R. 4321, 4319) issued by the Director on August 13, 1943, or the amount which he was entitled to have allocated to him pursuant to said War Food Order for such purchases from the 1943 crop of flue-cured tobacco.

(8) Any 1944 crop flue-cured tobacco purchased in conformity with an agreement to buy for a principal, either in the principal's name or for his account, shall be charged to the quota of the principal for whom such flue-cured tobacco was purchased.

(9) The poundage figures used in computing allocations pursuant hereto shall be reduced to an undried (green weight) basis. Flue-cured tobacco in the steam-dried condition and in unstemmed form shall be converted to the undried basis by multiplying the number of pounds by the factor 1.12. Flue-cured tobacco in the steam-dried condition and in stemmed form shall be converted to the undried basis by multiplying the number of pounds by the factor 1.44.

(10) The restrictions of this order shall be observed without regard to the rights of creditors, prior contracts, existing contracts, payments made, or deliveries of 1944 crop flue-cured tobacco made prior to the effective time hereof; and purchases or sales of 1944 crop flue-cured tobacco, made prior to the effective time hereof, shall be charged to the respective quotas in accordance with the provisions hereof, as if such sales were made after the effective time of this order.

(c) *Modification and amendment*. Any allocation made pursuant hereto may be

modified, amended, or supplemented from time to time by notice or letter, issued by the Director, to any person to whom such allocation has been made.

(d) *Effective date*. This order shall become effective at 12:01 a. m., e. v. t., July 19, 1944.

TITLE 32—NATIONAL DEFENSE

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

Authority: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 55 Stat. 176; E.O. 8024, 7 F.R. 323; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-590]

ADLER BED SPRING CO.

Samuel Adler and Louis Adler are partners doing business as Adler Bed Spring Company at 75 Grand Avenue, Brooklyn, New York. In the fourth quarter of 1943, the Company produced approximately 1200 bed springs in excess of its quota under Limitation Order L-49; in so doing, the Company used a substantial amount of steel in excess of the amount allotted to it for the purpose of manufacturing its quota of bed springs. It also violated Limitation Order L-49, CMP Regulation #1, Priorities Regulation #1, and CMP Regulation #5 in the third and fourth quarters of 1943, in failing to keep records concerning inventories, production and sales, records of allotments and of procurement pursuant to allotments and records of expenses incurred for maintenance, repair and operating supplies as required by the respective order and regulations. It also violated CMP Regulation #1 in the third and fourth quarters of 1943, by placing authorized controlled materials orders in excess of allotments and in the fourth quarter of 1943 by failing to return unused allotments. These violations were committed through the gross and inexcusable negligence of the Company and as a result of these violations critical materials have been diverted from the war effort to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.590 *Suspension Order No. S-590*. (a) The quota of Samuel Adler and Louis Adler, individually or doing business as Adler Bed Spring Company, or otherwise, their or either of their successors or assigns, as provided by Limitation Order L-49, shall be reduced by

25 per cent for the third quarter of 1944, unless otherwise authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Samuel Adler and Louis Adler, individually or doing business as the Adler Bed Spring Company, or otherwise, their or either of their successors or assigns, from any restriction, prohibition, or provision contained in any order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the date of issuance and shall expire on September 30, 1944.

Issued this 19th day of July 1944.

Chapter XI—Office of Price Administration

PART 1499—COMMODITIES AND SERVICES

[MPR 188; Incl. Amdts. 1-38]

MANUFACTURERS' MAXIMUM PRICES FOR SPECIFIED BUILDING MATERIALS AND CONSUMERS' GOODS OTHER THAN APPAREL

This compilation of Maximum Price Regulation 188 includes Amendment 38, effective July 24, 1944. The text amended by Amendment 38 is underscored.

The General Maximum Price Regulation¹ provides, in general, that commodities sold by a manufacturer shall be priced at the price of a same or similar article sold during March, 1942; and lacking the price of a same or similar article, at a price to be determined by the seller after specific authorization by the Office of Price Administration in advance of the offering of the commodity for sale.

In the case of a considerable list of building materials and consumers' goods at the manufacturers' level, so many new articles which are not "similar" to an already sold article within the meaning of the General Maximum Price Regulation are customarily offered for sale as unnecessarily to retard manufacturers in their pricing.

This Maximum Price Regulation No. 188, accordingly, sets forth for these manufacturers a different procedure than that used in the General Maximum Price Regulation, although the base date thereof is preserved. By eliminating pricing by the price of a similar article, it limits the number of articles which may be priced at the maximum price of another article. But in the pricing of most new articles the manufacturer may follow self-executing pricing methods which obviate advance resort to this office.

In the judgment of the Price Administrator, the maximum prices established by this regulation are necessary to check inflation and to effectuate the purposes

of the Emergency Price Control Act of 1942, and to adjust the provisions of the General Maximum Price Regulation to the particular circumstances of manufacturers of certain building materials and consumers' goods.

The statement of considerations involved in the issuance of this Maximum Price Regulation No. 188 is issued simultaneously herewith and has been filed with the Division of the Federal Register.²

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, and in accordance with Procedural Regulation No. 1,⁴ issued by the Office of Price Administration, Maximum Price Regulation No. 188 is hereby issued:

- Sec.
- 1499.151 Applicability of the General Maximum Price Regulation.
- 1499.152 Prohibition against dealing in certain articles of building materials and consumers' goods above maximum prices.
- 1499.153 Maximum prices for articles of building materials and consumers' goods finally priced before August 1, 1942.
- 1499.154 Maximum prices for articles of building materials and consumers' goods not finally priced before August 1, 1942.
- 1499.155 First pricing method—minor changes.
- 1499.156 Second pricing method: changes necessitated by shortages of materials or parts.
- 1499.157 Third pricing method: pricing by comparable articles.
- 1499.158 Fourth pricing method: specific authorization by the Office of Price Administration.
- 1499.159 Price differentials and economies effected by new or changed articles.
- 1499.159a Classification of purchasers in sales to the United States Government and Allied Governments.

AUTHORITY: §§ 1499.151 to 1499.167, inclusive, issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E.O. 9250, 7 F.R. 7871 and E.O. 9328, 8 F.R. 4681.

§ 1499.151 *Applicability of the General Maximum Price Regulation.* The provisions of §§ 1499.1 to 1499.3, inclusive, and § 1499.18, of the General Maximum Price Regulation shall not apply to sales or deliveries by manufacturers of certain building materials and of certain consumers' goods set forth in § 1499.166; Appendix A, of this Maximum Price Regulation No. 188. All other sections of the General Maximum Price Regulation, together with existing and

[Paragraphs (b) and (c) amended by Am. 1, 7 F.R. 7967, effective 10-6-42; and Am. 4, 8 F.R. 537, effective 1-18-43]

§ 1499.154 *Maximum prices for articles of building materials and consumers' goods not finally priced before August 1, 1942.* This section shall apply to articles first offered for sale before August 1, 1942, for which no maximum price was finally determined, and to all articles first offered for sale on or after August 1, 1942.

The maximum price for any such article shall be the price determined by the first one of the four methods set forth in §§ 1499.155, 1499.156, 1499.157, and 1499.158 which applies to the article.

§ 1499.155 *First pricing method: minor changes.* The maximum price of any article differing from any article for which a maximum price has already been established, only by reason of minor changes in material, design, or construction which do not reduce cost of materials or prevent its offering fairly equivalent serviceability shall be the maximum price of the article already priced.

§ 1499.156 *Second pricing method: changes necessitated by shortages of materials or parts—(a) Maximum prices.* The maximum price of any article which cannot be priced under § 1499.155 and which differs from an article for which a maximum price has already been established, only because of changes necessitated by shortage of materials or parts used in the original article, shall be the maximum price of the original article adjusted by adding or subtracting the increase or decrease in unit direct cost resulting from the changes.

In calculating unit direct cost for the original article, the manufacturer shall compute on the basis of the wage rates, material prices, and operating conditions provided in paragraph (b) of § 1499.157 for comparable articles. In calculating unit direct cost for the changed article the manufacturer shall compute on the basis of the wage rates, material prices, and operating conditions provided in paragraph (b) of § 1499.157 for the article being priced.

(b) *Reports of maximum prices—(1) Articles first offered for sale before August 1, 1942.* In the case of an article first offered for sale before August 1, 1942, for which a maximum price must be determined under this section, the manufacturer shall report the maximum price as computed by him to the Office of Price Administration, Washington, D. C., on or before August 20, 1942. The report shall contain a description of the original and of the changed article, a detailed explanation of the changes made (including any innovation in manufacturing process) and the reasons therefor, details of the computation of unit direct cost and of the maximum price.

At any time prior to September 4, 1942, the manufacturer may offer for sale, sell or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(2) *Articles first offered for sale during August 1942.* In the case of articles first offered for sale during August 1942, the manufacturer shall submit the report required in (1) on or before September 10, 1942.

At any time prior to September 25, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser

that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the maximum price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(3) *Articles first offered for sale on or after September 1, 1942.* Except as provided in the next paragraph of this subparagraph (3), in the case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in (1) prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The manufacturer shall submit the report required in (1) ten days after the formation of the contract. Fifteen days after the mailing of the report, in the absence of a notification to the contrary from the Office of Price Administration, the reported maximum price shall stand approved. Such approved price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

[Subparagraph (3) amended by Am. 1, 7 F.R. 7967, effective 10-6-42]

§ 1499.157 *Third pricing method: pricing by comparable articles.* The maximum price of any article which cannot be priced under § 1499.155 or § 1499.156 and which is comparable to an article currently being sold by the manufacturer for which a maximum price has already been established, shall be the price derived by the pricing formula set forth in this section.

NOTE: The meaning of certain terms used in this section is further explained in subsequent provisions of the section. The terms so explained are in quotation marks the first time that they appear in the text.

(a) *Pricing formula.* To establish a maximum price the manufacturer shall:

(1) Determine the "unit direct cost" for the article being priced.

(2) Select from his line of "comparable articles" currently being sold for which maximum prices have already been established, two comparable articles: the one which has a unit direct cost immedi-

ately higher and the one which has a unit direct cost immediately lower than the unit direct cost of the article being priced. If a comparable article has the same unit direct cost as the article being priced, it shall be selected in addition to the comparable articles immediately above and below. If all comparable articles are either above or below, the one closest in unit direct cost shall be selected.

(Example of the above computation)
Unit direct cost of article being priced=\$9.00

Unit direct costs of comparable articles selected according to (2)	Maximum selling price for each such article	Dollar mark-up for each such article	Average percentage mark-up for such articles
\$10.00 7.00	\$14.00 9.00	\$4.00 2.00	\$23.00 (Sum of maximum prices). -17.00 (Sum of unit direct costs).
17.00	23.00	6.00÷2=\$3.00	6.00÷\$17.00=35.3%

Unit direct cost+average percentage mark-up=\$9.00+\$3.18=\$12.18.
Unit direct cost+average dollar mark-up=\$9.00+\$3.00=\$12.00.
Maximum selling price of article being priced (the lower of above two sums)=\$12.00.

In applying the formula, the manufacturer shall determine the class of purchaser to which he expects to sell the largest volume of the article being priced. In calculating the mark-up over unit direct cost for the comparable articles selected he shall use the maximum prices for such articles applicable to the same class of purchaser as that determined for the article being priced. If a comparable article does not have such a maximum price, he shall make appropriate adjustments of his established maximum price for the comparable article to obtain such a maximum price. The maximum price derived by the formula for the article being priced shall be the maximum price applicable to such largest volume class of purchaser. It shall be adjusted for other classes of purchasers according to § 1499.159.

(b) *Computation of unit direct cost.* To establish the unit direct cost of the comparable articles and of the article being priced, the manufacturer shall compute the cost per unit of direct labor and materials on the basis of the following wage rates, material prices, and operating conditions:

(1) *Wage rates.* The wage rates applicable to any article shall be the highest wage rates, in effect in the manufacturer's plant for any substantial portion of March 1942, for each class of labor involved in the production of the article. If the manufacturer did not employ a given class of labor in March 1942, he shall use the highest wage rate paid for any substantial portion of March 1942, by the nearest employer operating under comparable conditions who employed that class of labor during that month.

(2) *Material prices—(i) Comparable articles.* If a comparable article was priced and offered for sale before August 1, 1942, the price of any material used in it shall be the highest price charged during March 1942 (as defined in § 1499.163) by the "manufacturer's supplier."

If the comparable article was priced and first offered for sale on or after August 1, 1942, the price of any material used in it shall be computed as above,

(3) Determine both the average percentage and the average dollar mark-up over unit direct cost for the comparable articles selected.

(4) Apply to the unit direct cost of the article being priced either the average percentage or the average dollar mark-up, whichever will yield the lower price. The resulting price shall be the maximum price.

(2) *Dollar mark-up.* The average dollar mark-up over unit direct cost shall be calculated by averaging the individual dollar mark-ups between the unit direct costs and the maximum prices of the comparable articles selected.

(d) *Comparable articles.* An article shall be deemed comparable to another article which although differing therefrom by more than minor changes within the meaning of § 1499.155 of this Maximum Price Regulation No. 188, has the same general use as the other article and is recognized by the industry as being the same general type of product, even though different materials and construction are used.

(e) *Reports of maximum prices—(1) Articles first offered for sale before August 1, 1942.* In the case of an article first offered for sale before August 1, 1942, for which a maximum price must be determined under this section, the manufacturer shall report the maximum price as computed by him to the Office of Price Administration, Washington, D. C., on or before August 20, 1942. The report shall contain a description of the article being priced and of any innovation in manufacturing process involved and an explanation of the computation of the cost and the maximum price. It shall also describe each of the comparable articles, giving for each the maximum prices for all classes of purchasers and, if practicable, the volume of production for the three calendar months immediately preceding the filing of the report.

At any time prior to September 4, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively), at any time upon the written order of the Office of Price Administration.

(2) *Articles first offered for sale during August 1942.* In the case of articles first offered for sale during August 1942, the manufacturer shall submit the report required in (1) on or before September 10, 1942.

At any time prior to September 25, 1942, the manufacturer may offer for sale, sell, or deliver the article at a tentative price if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the maximum price so determined. Fifteen days after mailing the report, in the absence of a contrary direction from the Office of Price Administration, he may offer for sale or complete the sale of the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time upon the written order of the Office of Price Administration.

(c) *Computation of mark-up—(1) Percentage.* The average percentage mark-up over unit direct costs shall be calculated by computing the percentage mark-up between the sum of the unit direct costs and the sum of the maximum prices of the comparable articles selected.

(3) *Articles first offered for sale on or after September 1, 1942.* Except as provided in the next paragraph of this subparagraph (3), in the case of an article first offered for sale on or after September 1, 1942, the manufacturer shall submit to the Office of Price Administration, Washington, D. C., the report required in prior to first offering the article for sale. Fifteen days after the mailing of the report, in the absence of a contrary direction from the Office of Price Administration, the manufacturer may offer for sale the article at the price reported. Such price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such a government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case, he must refund any amounts collected in excess of the price so determined. The manufacturer shall submit the report required in ten days after the formation of the contract. Fifteen days after the mailing of the report, in the absence of a notification to the contrary from the Office of Price Administration, the reported maximum price shall stand approved. Such approved price shall be subject to adjustment (not to apply retroactively) at any time by order of the Office of Price Administration.

[Subparagraph (3) amended by Am. 1, 7 F.R. 7967, effective 10-6-42]

§ 1499.153 *Fourth pricing method: specific authorization by the Office of Price Administration*—(a) *Maximum prices.* The maximum price for any article or group of related articles which cannot be priced under §§ 1499.155, 1499.156, or 1499.157, or which cannot be priced under §§ 1499.155, 1499.156, or 1499.157 without undue hardship, shall be the price or prices, in line with the level of maximum prices established by this Maximum Price Regulation No. 188, specially authorized by the Office of Price Administration. Such authorization will be given in the form of an order prescribing a method of determining the maximum price for the applicant or for sellers of the commodity generally, including purchasers for resale, or for a class of such sellers.

(b) *Reports of maximum prices.* Prior to first offering the article for sale the manufacturer shall submit to the Office of Price Administration, Washington, D. C., a report applying for specific authorization of a maximum price. The report shall contain a description in detail of the article (including the manufacturing process), a statement of the facts which make it necessary to price the article under this section, and the proposed maximum price, with a detailed explanation of its computation. If the manufacturer bases his report on undue hardship, he shall include in it all the information required by paragraph (e)

of § 1499.157. If the manufacturer applies for approval of a pricing formula for a line or group of related articles, he shall include in his report a description in detail of the articles, including the manufacturing processes, and the manner in which they differ from one another, a statement of the pricing formula he proposes for such articles or the maximum prices he proposes, with a detailed explanation of their computation, and the reasons why such maximum prices or pricing formula will establish maximum prices in line with the level of maximum prices established by this Maximum Price Regulation No. 188. The manufacturer shall submit such other relevant information to supplement his report as the Office of Price Administration may require. Upon receipt of the authorization, the manufacturer may offer the articles for sale in accordance with the terms of the authorization.

In the case of an article for which a maximum price must be determined under this section for a sale to the United States Government or an Allied Government, the manufacturer shall submit the report required in the above paragraph of this paragraph (b) ten days after the formation of the contract. The manufacturer may at any time offer for sale, sell, or deliver the article at a tentative price to such government or agency if he informs the purchaser that the maximum price must be determined under this section. In such case he must refund any amounts collected in excess of the price so determined. The price shall remain tentative until the maximum price has been determined by the Office of Price Administration.

[§ 1499.158 amended by Am. 1, 7 F.R. 7967, effective 10-6-42; and Am. 5, 8 F.R. 1815, effective 2-15-43]

§ 1499.159 *Price differentials and economies effected by new or changed articles*—(a) *Price differentials.* Every manufacturer shall continue all his allowances, discounts, and other price differentials in effect in March, 1942. In the case of articles priced under §§ 1499.155, 1499.156, 1499.157, or 1499.158 of this Maximum Price Regulation No. 188, every manufacturer shall in the case of sales to different classes of purchasers adjust the maximum prices determined for one general class of purchaser to reflect all allowances, discounts, and other price differentials which he was accustomed to make on that type of article.

(b) *Economies effected by new or changed articles.* Wherever after the introduction of a new or changed article the manufacturer realizes savings in indirect costs and expenses because of its introduction, the Office of Price Administration will by order require that such economies be reflected in the maximum price for such new or changed article. Wherever possible, such savings should be indicated in the reports required by §§ 1499.156, 1499.157 and 1499.158.

§ 1499.159a *Classification of purchasers in sales to the United States Government and Allied Governments.* For a sale to the United States Government or an Allied Government of an article for which a maximum price has not been determined for sales to the class of pur-

chasers to which such government belongs, but for which a maximum price has been determined under §§ 1499.153, 1499.155, 1499.156, 1499.157, or 1499.158 for sales to purchasers of a different class, if the manufacturer had no customary differential between the class of purchasers for which the maximum price has been determined and such government or the class to which it belongs, such government shall be regarded as belonging to the class of purchasers to whom the manufacturer customarily sold the article in quantities most nearly equal to the quantity of the article involved in the sale to such government. If the manufacturer customarily sells to more than one class of purchaser in such quantities, the lowest maximum price applicable to sales of the article to such classes of purchasers shall apply.

[§ 1499.159a added by Am. 1, 7 F.R. 7967, effective 10-6-42]

§ 1499.159b *Modification of provisions of Maximum Price Regulation No. 188.* The provisions of Maximum Price Regulation No. 188 as applied to certain commodities subject thereto may be modified by order under this § 1499.159b.

[§ 1499.159b added by Am. 6, 8 F.R. 1980, effective 2-16-43]

§ 1499.160 *Evasion.* The price limitations set forth in this Maximum Price Regulation No. 188 shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale, delivery, purchase or receipt of, or relating to, an article of building material or consumers' goods, alone or in conjunction with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium or other privilege, or by tying-agreement or other trade understanding, or otherwise.

§ 1499.161 *Applications for adjustment and petitions for amendment*—(a) *Applications for adjustment.* The Office of Price Administration, or any duly authorized officer thereof, may by order adjust any maximum price established under this Maximum Price Regulation No. 188 in the following cases:

(1) In the case of a manufacturer who shows:

(i) That such maximum price causes him substantial hardship and is abnormally low in relation to the maximum prices established for competitive sellers of the same or similar commodities; and

(ii) That establishing for him a maximum price bearing a normal relation to the maximum prices established for competitive sellers of the same or similar commodities will not cause or threaten to cause an increase in the level of retail prices.

Applications for adjustment under this subparagraph (1) shall be filed in accordance with Revised Procedural Regulation No. 1. No application for adjustment filed after November 15, 1942, will be granted under this subparagraph (1).

(2) In the case of any manufacturer, when it appears with respect to an article set forth in Appendix B (§ 1499.167) of this Maximum Price Regulation No. 188:

(i) That there exists or threatens to exist in a particular locality a shortage

in the supply of a commodity which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(ii) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such manufacturer and of like manufacturers for such commodity; and

(iii) That such adjustment will not create or tend to create a shortage, or need for increase in price, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

Each regional administrator is authorized to make adjustments or act upon applications for adjustment under this subparagraph (2).

(3) In the case of any manufacturer who shows:

(i) That he is the sole manufacturer of an essential commodity such as one, the production and sale of which is affirmatively permitted by regulations or orders issued by the War Production Board.

(ii) That the maximum prices established by this regulation do not permit the recovery of total costs; and

(iii) That the operations of the company are currently being conducted at a loss.

Adjustment in price may be made to an extent sufficient to enable the manufacturer to recover total costs on the article, together with a profit. In a proper case, the manufacturer may charge a price equal to the price requested in the application, provided that he has received a letter from the Office of Price Administration stating that his is a proper case. Such price shall be tentative and refunds shall be made to each purchaser in the event that the application is denied in whole or in part. Applications for adjustment under this paragraph shall be filed in accordance with Revised Procedural Regulation No. 1.

[Paragraph (a) amended by Am. 2, 7 F.R. 8943, effective 11-4-42; Am. 7, 8 F.R. 3105, effective 3-11-43; and Am. 9, 8 F.R. 3850, effective 4-2-43]

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this Maximum Price Regulation No. 188 may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

[Paragraph (b) amended by Supplementary Order 26, 7 F.R. 8948, effective 11-4-42; and Am. 9]

[NOTE: Procedural Regulation No. 6 (7 F.R. 5087, 5665; 8 F.R. 6173, 6174) provides for the filing of applications for adjustment of maximum prices for commodities or services under Government contracts or subcontracts. Revised Supplementary Order No. 9 (8 F.R. 6175) makes the provisions of Procedural Regulation No. 6 applicable to all price regulations, excepting those which expressly prohibit such applications, and certain specific regulations listed in Revised Supplementary Order No. 9.]

[NOTE: Supplementary Order No. 28 (7 F.R. 9619) provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring the approval of the National War Labor Board.]

[NOTE: Revised Supplementary Order No. 34 (8 F.R. 12404) permits, under certain conditions, the addition of extra packing expenses on sales to procurement agencies of the United States.]

§ 1499.162 *Enforcement.* (a) Persons violating any provisions of this Maximum Price Regulation No. 188 are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Emergency Price Control Act of 1942.

(b) Persons who have evidence of any violation of this Maximum Price Regulation No. 188 or any price schedule, regulation or order issued by the Office of Price Administration, or of any acts or practices which constitute such a violation are urged to communicate with the nearest district, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

§ 1499.162a *Licensing.* The provisions of Licensing Order No. 1,⁵ licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

§ 1499.163 *Definitions.* (a) When used in this Maximum Price Regulation No. 188, the term:

(1) "Article" means any building material or consumers' good set forth in Appendix A (§ 1499.166) which is manufactured or sold as a distinct item.

(2) "Highest price charged during March 1942" means

(i) The highest price which the seller charged to a purchaser of the same class for delivery of the article or material during March 1942; or

(ii) If the seller made no such delivery during March 1942, such seller's highest offering price to a purchaser of the same class for delivery of the article or material during that month; or

(iii) If the seller made no such delivery and had no such offering price to a purchaser of the same class during March 1942, the highest price charged by the seller during March 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers: *Provided, however, That*

(a) If before April 1, 1942, the seller raised his prices for a commodity to all his classes of purchasers (or to all his classes of purchasers except those to which he was bound to make delivery during March 1942 under a firm commitment made before the price rise), and

Ration Order 17 is amended in the following respects:

1. A new section 2.11 (k) is added to read as follows:

(k) Any establishment may be authorized to transfer as non-rationed men's and women's factory damaged shoes which cannot reasonably be sold for ration currency, in accordance with the following provisions:

(1) For the purposes of this paragraph, a factory damaged shoe is a shoe damaged in the process of manufacturing to such an extent that the imperfection or damage substantially decreases the value of the shoe, the damage being due to defective machinery, poor workmanship or use of imperfect materials, and the imperfection or damage being visible before the shoes are or were first transferred by the manufacturer. (However, if shoes were damaged because of the use of the imperfect materials and the damage due to such imperfect materials substantially decreases the value of the shoes and is or was plainly visible at the time the shoes are or were returned to the manufacturer, or inspected by the District Office, they may be included as factory damaged shoes.)

(2) Application to transfer shoes as non-rationed under this paragraph, shall be made to the District Office for the area where the establishment is located. No application shall be acted upon by the District Office before August 5, 1944. No application may be made after August 31, 1944. Only one application may be made unless the District Office in its discretion otherwise permits. The application need not be made on any prescribed form but shall contain or be accompanied by two copies of a list of the shoes proposed to be transferred as non-rationed, showing the number of pairs of shoes of each type (as set forth on OPA Form R-1701 or OPA Form R-1701A) sought to be transferred ration-free. Only factory damaged shoes which the establishment has in its inventory on the date of the application may be included in the application. Establishments, other than manufacturing establishments, may include in the application only shoes which were invoiced as factory damaged shoes unless the shoes are damaged because of the use of imperfect materials and are inspected by the District Office. Before the District Office approves an application, it may inspect any shoes included therein to determine whether or not they are "factory damaged shoes" within the meaning of subparagraph (1) above.

(3) The District Office, if it approves the application in whole or in part shall indicate its approval in writing and shall attach thereto a copy of the list of shoes submitted by the applicant, on which it shall indicate the number of pairs of shoes authorized to be transferred as non-rationed. The District Office shall issue to the applicant official non-rationed stickers (OPA Form R-1711, or R-123 with the words "Non-Rationed" printed on it) equal to the number of pairs of shoes permitted to be transferred as non-rationed. Before transferring any shoes as non-rationed under

this subparagraph, the establishment must attach one of such stickers to the inside of the left shoe of each pair of shoes and the establishment shall write or print on each sticker the words "Factory Damaged", or the letters "F. D.", and a code number assigned by the District Office.

(4) Any establishment may transfer ration-free to any other establishment factory damaged shoes that are marked in accordance with subparagraph (3) above, if the price charged does not exceed \$1.20 per pair. Any establishment whose sales of shoes are made principally to consumers may transfer such shoes to consumers ration-free, if the price charged does not exceed \$1.30 per pair. Any establishment selling such shoes at a price in excess of these limitations must collect ration currency for them and surrender the currency to the District Office within five days.

(5) When such shoes are offered for sale to consumers in any notice or advertisement, they shall be referred to as "OPA Release—Factory Damaged Shoes."

(6) For the purposes of this paragraph the price charged to an establishment is the invoice price less any separable transportation expense (a charge for freight or postage which is stated separately on the invoice but which is part of the invoice price). In determining the price charged, a cash or trade discount may not be deducted from the invoice price.

(7) Each establishment shall keep a record, in the manner required by section 2.13 (b) (9) showing the number of pairs of shoes in its inventory which were released under this paragraph, and the number of pairs of shoes released or acquired ration-free under this paragraph which later became rationed shoes because the stickers were detached or because the shoes were sold at a price in excess of the price limitations of this paragraph.

This amendment shall become effective July 24, 1944.

NOTE: The reporting requirements and record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1499—COMMODITIES AND SERVICES

[SR 15² to GMPR,¹ Amdt. 29]

MAYONNAISE AND SALAD DRESSING

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

A new § 1499.75 (a) (17) is added to read as follows:

(17) *Mayonnaise and salad dressing.*

(i) The Office of Price Administration or any regional office thereof may, on application for adjustment in accordance with the provisions of Revised Procedural Regulation No. 1,³ adjust the maximum price of a processor or manufacturer of mayonnaise or salad dressing where the processor or manufacturer shows that:

(a) The processor's or manufacturer's maximum price is below the general level of prices prevailing for similar products sold in the same general area as that in which the applicant's product is sold.

By "similar product" is meant a product the total fat content of which is approximately the same as the total fat content of applicant's product.

(b) The processor or manufacturer is or will be unable to maintain his production at his present maximum price; and

(c) The loss of his production would result in consumers having to pay higher prices for the most nearly similar product available; and

(d) An increase in his maximum price will enable him to continue production; and where

(e) The Administrator is of the opinion that an increase in his maximum price would, under all the circumstances, be in furtherance of the purposes of the Emergency Price Control Act of 1942, as amended.

The maximum price increase that may be granted to a processor or manufacturer under this § 1499.75 (a) (17) shall not cause his price to exceed the general level of prices prevailing for similar products sold in the same general area

as that in which applicant's product is sold. Subject to this limitation, an increase may be granted not to exceed the total cost of the product, or if the applicant's earnings from all operations, before income and excess profits taxes, are low in comparison with those of a "representative peace-time period", adjusted for subsequent changes in investment, and if in view of such over-all earnings a small margin of profit is reasonably necessary to permit production, an increase may be allowed estimated to yield such a profit margin. A "representative peace-time period" means the period of the years 1936-1939, inclusive. When 1936 to 1939 does not represent a reasonably normal pre-war period, some other period may be used, but its use must be positively justified in the application.

(ii) Each application shall be filed in triplicate in the District Office for the district in which is located the applicant's principal place of business. It must be accompanied by a sworn chemical analysis of an independent, reputable chemist or chemical firm, of the fat content (as determined by the official tentative methods of analysis of the Association of Official Agriculture Chemists, 5th Ed. 1940) of applicant's mayonnaise or salad dressing and of the mayonnaise or salad dressings with which it is being compared.

(iii) If an adjustment is granted to a manufacturer or processor, an adjustment at the same time shall be granted to distributors, other than wholesalers or retailers covered by Maximum Price Regulations Nos. 421, 422 and 423, to the extent of the increase allowed to the manufacturer or processor, and such distributors shall be required to notify wholesalers and retailers covered by Maximum Price Regulations Nos. 421, 422 and 423 to whom they sell, to refigure their ceiling prices on the item in accordance with the provisions of Maximum Price Regulations Nos. 421, 422 and 423.

(iv) *Definitions.* When used in this § 1499.75 (a) (17) the term

(a) "Mayonnaise" means the semi-solid emulsion of edible vegetable oil, egg yolk or whole egg, a vinegar and/or lemon juice, with one or more of the following: salt and other seasoning commonly used in its preparation, sugar and/or dextrose. The finished product must contain not less than 50 percent edible vegetable oil.

(b) "Salad dressing" is the wholly or partly cooked or boiled semi-solid emulsion of edible vegetable oil, egg yolk or whole egg, vinegar, water and/or lemon juice, with one or more of the following: salt and other seasoning commonly used in its preparation, sugar and/or dextrose, starches or other edible moisture absorbing agents.

This amendment shall become effective July 25, 1944.

Issued this 20th day of July 1944.

Acting Administrator.

[Jacksonville Order G-1 Under MPR 285]

IMPORTED FRESH BANANAS IN FLORIDA

Order No. G-1, under Maximum Price Regulation No. 285, as amended. Imported fresh bananas, sales except at retail. Adjustment of maximum price for the sale of bananas by wholesalers to other wholesalers, retailers and institutional users located in the State of Florida.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Jacksonville District Office of the Office of Price Administration by § 1351-1254a (a) of Maximum Price Regulation No. 285, as amended, and Regional Delegation Order No. 25; *It is hereby ordered, That:*

(a) On and after the effective date of this order, the maximum price which may be charged on the sale of bananas delivered to the premises of other wholesalers, retail stores or institutional users located within the State of Florida (except those located within the customary free delivery zones of the affected wholesalers) by any wholesaler at any receiving point shall be the maximum price

calculated in accordance with Maximum Price Regulation No. 285, as amended, plus 4/10 of a cent per cwt. per mile beyond the customary free delivery zone, but not more than 35¢ cwt. Furthermore, in those instances where the permitted delivery addition would cause a retailer's "net cost" (calculated under Maximum Price Regulation 422 or 423) to be increased to an extent which would result in an increased maximum retail price, a delivery charge may be added only in an amount which would not reflect an increased maximum price at retail.

Example. A wholesale produce dealer in Tampa sells a stem of Cuban bananas to a group 2 retailer in Orlando, 100 miles away. These bananas were imported into the port of Tampa, therefore, the wholesaler's ceiling under Maximum Price Regulation 285 is \$4.00 per cwt. f. o. b. port of entry, plus \$1.50 mark-up, or a total of \$5.50. Under this order he would be able to add 40¢ per cwt. delivery charge, except for the over-all limitation of 35¢. However, the 35¢ addition would cause the retailer's "net cost" to be \$5.85 per pound, which would justify a retail price to the consumer of 9¢ per pound, because his "net cost" is nearer 6¢, whereas the retail price to the consumer would be 8¢ per pound if his "net cost" is nearer 5½¢ per pound. Therefore, in such case, the wholesaler may only add 34¢ per cwt., even though the point of delivery is 100 miles from his place of business.

(b) *Definitions.* "Free delivery zone" as a general rule embraces the municipal limits of a receiving point, and all of that area adjacent to the receiving point to which the wholesalers therein customarily deliver bananas without adding any cartage or delivery charge to their selling prices.

For the City of Tampa the "free delivery zone" is more particularly described as follows:

All of the metropolitan area of the City of Tampa, Florida, including the Interbay Peninsula, Sulphur Springs on the North and Six Mile Creek on the East.

For the City of Jacksonville the "free delivery zone" is more particularly described as follows:

The municipal limits of the City of Jacksonville, Florida.

For the City of Miami the "free delivery zone" is more particularly described as follows:

The cities of Miami and Miami Beach and the Towns of Surfside, Coral Gables, South Miami, Hialeah, Miami Shores, and Miami Springs, Florida.

Except as otherwise provided herein, and unless the context otherwise requires, the definitions set forth in Maximum Price Regulation No. 285 shall apply to the terms used herein.

(c) Except as otherwise provided herein, all transactions subject to this order shall remain subject to all the provisions of Maximum Price Regulation No. 285, together with all amendments, orders, and supplementary regulations that heretofore have been, or hereafter may be issued.

(d) This order may be revoked, amended or corrected at any time.

(e) This order shall become effective on this 20th day of July 1944.

(56 Stat. 23, 765, Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871, and E.O. 9328, 8 F.R. 4681)

Issued this 13th day of July 1944.

The Counties of Sumter, Greene, Hale, Perry, Chilton, Coosa, Tallapoosa, and Chambers, in the State of Alabama, and all of the remaining counties of the State of Alabama lying and being situated south of said counties.

SEC. 4. Applicability of Maximum Price Regulation No. 426, as amended. The maximum delivery charges set out in section 1 of this order shall supersede any delivery allowances that may be provided in the applicable appendices to Maximum Price Regulation No. 426, as amended, for delivery of items named in this order to the premises of a purchaser located outside of the free delivery zone of the service wholesaler or secondary jobber. Except as this order specifically provides for maximum delivery charges in section 1, all sales of the items covered by this order shall remain subject to the provisions of Maximum Price Regulation No. 426, as amended.

SEC. 5. Revocation and amendment. This order may be revoked, amended or corrected at any time by the District Director of the Montgomery District Office.

SEC. 6. Effective date. This order shall become effective at 12:01 a. m. on June 12, 1944.

Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company at 66 E. 78th Street, in the City, County and State of New York, engaged in the business of publishing magazines, is charged by the War Production Board with having in March, 1944, published a cartoon magazine entitled Pin Ups N' Puns using 18.3 tons of paper in violation of Limitation Order L-244. On July 7, 1944, Frederic J. Buse represented in writing to the War Production Board that only one issue of this magazine was printed, published and distributed and that he does not intend to, and will not, print, publish or distribute the magazine Pin Ups N' Puns, and that under the trade name and style of Biltmore Publishing Company he does not intend to, and will not, use any paper whatsoever, or print, publish, or distribute any publications requiring the use of paper whatsoever, unless specifically authorized so to do by the War Production Board or until Limitation Order L-244 or any superseding order restricting the use of paper for printing and publishing is terminated. Frederic J. Buse admits the violation as charged, does not care to contest its wilfulness, and has consented to the issuance of this order.

Wherefore, upon the agreement of Frederic J. Buse, doing business under

the trade name and style of Biltmore Publishing Company, and upon the approval of the Regional Compliance Manager, the Regional Attorney, and the Compliance Commissioner, it is hereby ordered, That:

(a) Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, his successors or assigns, of said trade name and style, shall not use any paper whatsoever for printing and publishing unless specifically authorized in writing by the War Production Board or until Limitation Order L-244 or any superseding order restricting the use of paper for printing and publishing terminates.

(b) No allocation, including allotments or quotas, shall be made to Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, his successors or assigns of said trade name and style, of paper the supply, or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Frederic J. Buse, doing business under the trade name and style of Biltmore Publishing Company, his successors or assigns of said trade name and style, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect as of the date of issuance and shall expire when revoked by the War Production Board or when Limitation Order L-244 or any superseding order restricting the use of paper for printing or publishing terminates.

Issued this 19th day of July 1944.

By J. JOSEPH WHELAN,
